Chapter 1551: Big profit, big profit (1)

Everyone's breathing became heavy. They all stared at the huge top – grade Violet Jade in the basin, their hearts burning.

These Jade merchants had been very active for a long time. As long as they had the slightest bit of strength, they hoped to buy this top – grade Jade.

The violet Jade was half the size of a washbasin, and the patterns of the flowers were very exquisite. If a master with good craftsmanship could carve it into a decoration, it could definitely be the treasure of a shop. The rest of the materials could be made into rings, pendants, and so on.

Everyone looked at Xia ruofei with a burning gaze.

"Little brother ..." Fatty Luo said, his face thick.

Without waiting for him to finish, Yu mingdong said first, "Mr. Xia, can you part with this piece of Jade? I'm willing to buy it at a high price!"

Fatty Luo wasn't willing when he heard this. He said unhappily, "Old Yu, there's always a first come, first served basis! I was the one who said it first!"

Yu mingdong pursed his lips and said, "President Luo, aren't you certain that this is a piece of junk?" Now that you've cut out a top – grade Jade, why are you buying it?"

"Hehe! That was then and this was now!" Fatty Luo was a businessman, and his skin was thick enough. "This little brother looks like a person with great luck. You can't say that he can only sell this Jade to you just because you know him, right?"

Fatty Luo's words were acknowledged by quite a few people.

"That's right, President Yu. Everyone wants good things!"

"Why don't we all bid!"

Yu mingdong also knew that this kind of top – grade Jade was hard to come by. These people would not give up easily. It was impossible to buy it from Xia ruofei easily.

"Then let's start the bidding!" He snorted coldly.

He Ping, who was at the side, had long been ignored by everyone. His face had become completely pale. Today was not as simple as losing face. This matter had happened in full view of everyone, so it was impossible to keep it a secret.

Their line of work had always been based on word of mouth. After this news spread, it could be said to be a devastating blow to He Ping's reputation. After today's misjudgment, who would still ask him to be a stone gambling consultant in the future?

He Ping was a little regretful at this time, feeling that he was really looking for trouble for nothing. Why was he competing with a young man? Now, he had shot himself in the foot.

These jade stone merchants did not have the time to care about He Ping's feelings. They already could not wait to start bidding.

Fatty Luo was the first to be unable to hold back, saying, "Little brother, I'll pay 35 million for this piece of Jade!"

As soon as fatty Luo finished speaking, someone snorted. "Old Luo, you're bullying this little brother for not knowing the market! You're only offering 35 million Yuan for such a large glass – Type jade, and it's even the rare violet flower? Little brother, I'll take the 40 million!"

" 42 million!"

" 45 million!"

Xia ruofei was dumbfounded as he didn't expect the Jade to be so valuable.

He had spent 8.6 million Yuan to buy it. The valuable half of the Jade had already earned back 5 million Yuan. If this Violet Jade was sold at the current price, it would be worth more than 40 million Yuan.

It was equivalent to five times the profit!

"One blade to heaven, one blade to hell." Xia ruofei had a more direct understanding of the excitement of stone gambling.

In the blink of an eye, the price had already reached 48 million.

Yu mingdong, who was at the side, didn't make a bid. He was very clear about the actual value of this Jade.

In fact, not only him, but all the people present were experts in the Jade industry for many years. Everyone knew the value of this piece of Jade.

Between 50 million and 55 million, this was everyone's common judgment. If it exceeded 55 million, the profit margin would be relatively small.

Of course, there was the possibility that some buyers would buy at a premium to expand their high – end product line, but these were the minority.

As a result, the number of people bidding gradually decreased after reaching this price, and the increase in the price was no longer as large.

When the price reached 50 million, Yu mingdong finally made up his mind.

He looked at Xia ruofei and said, "Mr. Xia, I bid 50 million for this piece of Jade ..."

When Yu mingdong said this, fatty Luo immediately interrupted him and said sarcastically, "President Yu, old Li has already offered 50 million. Why did you offer the same price? There should be a first come, first served basis for this, right?"

Fatty Luo was here to take revenge. Just now, Yu mingdong had also used the “first come, first served” theory to attack him.

Yu mingdong glanced at fatty Luo and said indifferently, “Am I done? Why was boss Luo so excited? People who don’t know better would think that the 50 million bid wasn’t from boss li, but you!”

“You ...” Fatty Luo huffed. “You clearly said you’d offer 50 million!”

Yu mingdong couldn’t be bothered with fatty Luo. He looked at Xia ruofei and continued, “Mr. Xia, don’t you need some ordinary Jade? I’m willing to pay 50 million for this piece of Jade, plus the Jade material that’s worth 8 million. I hope you can part with it ...”

Fatty Luo’s mouth suddenly opened wide, and his chubby face revealed a shocked expression. He stared at Yu mingdong as if he didn’t know him, and he couldn’t say anything for a long time.

The other Jade merchants who were watching the bidding also gasped in shock.

?

Chapter 1552: A big profit (2)

Fatty Luo came back to his senses and shouted in shock and anger, “Old Yu, you’re crazy! 58 million! Is there anyone who raises the price like you?”

The crowd was also in a heated discussion.

“Yup! This piece of Jade is only 55 million Yuan at most. I can’t make much profit from it. Maybe I’ll have to pay for the labor!”

“Fifty – five million Yuan is not a bad price. After all, this kind of high – end Jade can add to the brand’s value and can be considered as invisible. However, 58 million is ...”

“President Yu, just because you’re angry with old Luo, you can’t ...”

Yu mingdong looked around at the crowd and said lightly, “For Donghua jewelry, this piece of Jade is more valuable than its actual value, and ... Aren’t we bidding today? Don’t tell me I’m not allowed to pay a high price?”

Fatty Luo said resentfully, “President Yu, the price of Jade is being raised like this. If it’s all like this, how can we continue our business in the future?” Besides ... Does your company have that much liquid capital? You must have spent a lot of money on this public bid, right?”

“That’s not for old director Luo to worry about. I, Yu mingdong, am quite famous in the industry, so I won’t go back on my word. Besides, so many of my peers are watching today! If I don’t have the money ... How am I supposed to survive in this line of work?” Yu mingdong said lightly.

Then, he ignored fatty Luo and looked at Xia ruofei. He smiled and asked, “Mr. Xia, what’s your decision?”

Xia ruofei smiled and said, " you're very sincere. We'll do as you say. 50 million in cash plus ... Five million worth of Jade! "

Yu mingdong was stunned for a moment and opened his mouth.

However, before he could speak, Xia ruofei waved his hand and said, " "I'm also indebted to President Yu for taking care of me this time. I can't let you suffer a loss! If boss Yu agrees, then we'll trade according to the plan I proposed. Otherwise, I'll keep it for myself!"

In fact, Xia ruofei had successfully upgraded the spirit map space and had no urgent need for jadeite.

Besides, he also thought that Yu mingdong was a good person. Just now, everyone thought that the raw stone had lost and many people were gloating. Only Yu mingdong was very righteous and bought the Jade with five million Yuan, hoping that it could reduce Xia ruofei's loss.

Although Yu mingdong would not lose money even if he took five million, his way of doing things made Xia ruofei's impression of him much better.

Hence, Xia ruofei would not let Yu mingdong purchase this Violet Jade at a loss.

Yu mingdong looked at Xia ruofei and said after a long while, " "Mr. Xia, you're really open! I, Yu mingdong, have made you my friend!"

The Jade merchants who were watching were very envious of Yu mingdong. He received this kind of top-grade Jade that was hard to come by, and the seller even took the initiative to lower the price.

It could be said that many people present were willing to buy it at the price of 55 million, not to mention that the 5 million was deducted with ordinary Jade.

These Jade merchants had a lot of resources. In fact, they wouldn't really spend five million Yuan to buy a Jade worth five million Yuan. There was a lot of difference in price.

Fatty Luo rolled his eyes and couldn't help but say,"Mr. Xia, I can also pay 50 million in cash, and ... And give you six million in Jade ..."

Everyone looked at fatty Luo with some disdain. Didn't Xia ruofei reject the eight million Yuan Jade and lowered it to five million on his own? It was obvious that Yu mingdong was his friend. Why would he care about fatty Luo's one million more Jade?

As expected, Xia ruofei only glanced at fatty Luo indifferently and said,""Thank you, boss Luo, but I've decided to sell this piece of Imperial Jade to Mr. Yu ..."

"Old Yu hasn't agreed to it yet, right?" Fatty Luo muttered.

When Yu mingdong heard this, he quickly said,"who said I didn't agree!" Mr. Xia, we'll do the deal according to your plan! I want this piece of Jade!"

"Happy cooperation!" Xia ruofei smiled and extended his hand to Yu mingdong.

Yu mingdong shook hands with Xia ruofei and said,""Thank you! Thank you!"

His Donghua jewelry had never produced any high – end jade products. Xia ruofei's top – grade Jade was like a timely rain. It could be said that it had helped him a lot.

"Mr. Xia, I'll transfer the money to you now!" Yu mingdong said, "I'll take you to the supplier tomorrow morning to pick out the five million Yuan Jade!"

"There's no hurry ..." Xia ruofei said with a smile.

"I want it, I want it!" Yu mingdong was also afraid that a long delay would cause more trouble, so he directly asked for Xia ruofei's account number and then quickly filled out the check.

Originally, the check could not be cashed at night, but the government was very supportive of this public auction. The bank had staff stationed here so that money transfers and transactions could be carried out at any time.

Shi Lei took the check and went next door to transfer the money to Xia ruofei, while Yu mingdong personally looked at his pile of Jade. The most important one was naturally the violet Jade that he had just bought from Xia ruofei.

The bank was very efficient. In a short while, Xia ruofei received a notification on his phone that 55 million Chinese dollars had been deposited into his account.

This time, Xia ruofei had spent about 12 million on the raw stones. In the blink of an eye, he had earned more than 40 million and upgraded the spirit map space by one level.

This stone gambling was really profitable! Xia ruofei couldn't help but sigh.

However, he also knew that it was fine to occasionally do such things. If he gambled correctly every time and the prices rose sharply, even a fool would suspect him.

There were certain rules to follow in stone gambling, but after all, the nature of gambling was very big. Didn't he Ping, a well – known expert, make a wrong judgment? Xia ruofei was a newbie who knew nothing about stone gambling. It would be strange if people didn't suspect him!

When everyone saw that this piece of Jade had already been taken by Yu mingdong and Xia ruofei had even received the transaction fee, they were all dejected and ready to leave the Qin Zhuan studio to watch the show. They didn't get any benefits, so why not leave?

"Old Yu, don't you still have a raw stone that hasn't been opened?" fatty Luo called out at this time. Why don't we open them together? I think you're very lucky today!"

Yu mingdong was also prepared to open the raw stone that he had spent more than 20 million Yuan on tonight. When he heard fatty Luo say this, he immediately nodded and said, "I was really prepared to cut this piece of material directly!"

The Jade merchants, who were about to leave, stopped in their tracks.

Although Yu mingdong's stone was not today's highest bid, it could still be ranked in the top five. Xia ruofei's raw stone just now had opened their eyes. Everyone wanted to see what kind of stone would be opened from a raw stone that was worth more than 20 million.

Yu mingdong rubbed his hands, looked at his own piece of material, and then turned his gaze to He Ping.

“Old he, this material ...” He said.

He Ping said coldly, “President Yu, I won’t express my opinion!” I’ve already misjudged you just now! Isn’t that little brother of yours on a roll? Let him give you some guidance!”

After he finished speaking, He Ping actually left Yu mingdong behind and left.

Yu mingdong couldn’t help but be stunned. What kind of person is this! He had received a consultation fee of two million from him. He should have been the one to cut the stone, but he actually left after saying a sentence in a strange tone!

Yu mingdong thought about it. After today’s incident, He Ping’s reputation in this line of work was basically ruined. He probably had nothing left to lose.

Yu mingdong didn’t know that although he Ping had left, his reputation was far from the lowest point. No matter if he was there or not, his reputation would soon be hit hard again ...

He Ping left, but the stone-cutting still had to continue.

Without butcher Zhang, would they still be eating hairy pigs? Yu mingdong himself had been in this line of work for more than 20 years. Even without He Ping’s guidance, he could still cut stones himself. At most, he would just be a little more careful.

However, Yu mingdong still looked at Xia ruofei first. His eyes were a little eager as he said, “Mr. Xia, why don’t you ... Give me some advice?”

?

Chapter 1553: Helping boss Yu cheat people (1)

Xia ruofei didn’t know whether to laugh or cry as he said, “chief Yu, don’t tell me you really believed that old man’s words?” I don’t know anything about stone gambling! How can I give you any advice?”

Yu mingdong didn’t think so. His action seemed absurd, but in fact, the Jade merchants who were watching didn’t find it strange.

In their line of work, they actually believed in luck. Tao Wu’s stone gambling itself depended on a bit of luck. How could there be someone who would win every bet? In their eyes, Xia ruofei was obviously very lucky today. Even if Xia ruofei did not know anything about stone gambling, perhaps his random advice would be right?

It was just like how some lottery fans would ask someone who didn’t buy a lottery ticket to pick a random one.

“Mr. Xia,” Yu mingdong said with a smile, “you’re in luck today. Just give me some pointers!”

Xia ruofei smiled bitterly, "I don't know how to give advice." If I cut it, the precious Jade inside will be cut in half ..."

"That's all on me! I won't blame you!" Yu mingdong patted his chest and said.

"Little brother, please help old Yu!"

"Yup! You're in luck today, you can bet however you want!"

"We're still waiting to witness the rise of this material! Stop hesitating!"

The surrounding Jade merchants also tried to persuade him.

Xia ruofei looked at Yu mingdong and felt that he wasn't joking. Helplessly, he could only say, "Then I'll really mess around. Don't blame me if something goes wrong ..."

"No wonder, no wonder!" Absolutely not ..." Yu mingdong said quickly.

Xia ruofei nodded and walked in front of the raw stone. Yu mingdong and the surrounding Jade merchants all held their breaths and stared at Xia ruofei.

In fact, Xia ruofei knew that Yu mingdong had lost this raw stone because of Huanhuan. When Xia ruofei had checked this raw stone, the reaction of the spirit painting scroll was far less than that of his piece of No. 1860. Yu mingdong's bid price was three times that of Xia ruofei's material.

The reason why Xia ruofei came over tonight was that he wanted to help Yu mingdong reduce his losses as much as possible.

Therefore, he came to the raw stone and began to grope around on it.

This raw stone was even bigger than the one that Xia ruofei had cut out earlier. There was a window in one of the spots. It was precisely because of this window that the Jade flesh could be seen under the thin layer of Stone Skin. The quality of the Jade was at least of the ice grade, which was why the price of this raw stone was so high.

Usually, when people who often gambled on stones appraised this kind of material, their focus would definitely fall on the window that was opened. This was because the window that saw green allowed them to observe the situation inside the raw stone as much as possible through the strong light of the flashlight.

However, Xia ruofei was different. He kept feeling around the surface of the material and touched almost every part of it.

In fact, Xia ruofei was not pretending that this raw stone was very big. The intensity of the reaction was different in different positions. The difference was very small, but it was enough for Xia ruofei to roughly guess the location of the Jade essence inside.

This judgment was enough for Xia ruofei.

After a long while, he straightened his body and drew a line on a protruding part of the raw stone. He said, "President Yu, why don't you cut off this horn and wipe it inside?"

Xia ruofei's words stunned the Jade merchants. Under normal circumstances, such semi-bright materials would be bought from the window that was opened. This was basically common sense.

The position that Xia ruofei was pointing at happened to be the back of the window. It could be said that it was in the opposite direction.

Yu mingdong was also stunned, but he quickly came back to his senses and said, "Good! We'll open it according to Mr. Xia's opinion!"

The Jade merchants immediately started discussing.

"Hey! Old Yu is going all out!"

"Who asked that little brother to have such good luck today!"

"I'll bet on it too ..."

.....

The stonecutter received Yu mingdong's instructions and didn't say much. He directed the forklift to place the raw stone in place, slightly adjusted the position, and fixed it. Then, he turned on the power of the cutting machine.

There was a sharp sound of friction, and stone chips flew.

Very quickly, the protruding corner was cut off. The cut was white and there was no green at all.

Everyone couldn't help but discuss in low voices.

However, Yu mingdong didn't hesitate and said, "We'll start polishing the stone from here!"

Since he had chosen to believe in that illusory luck, Yu mingdong had no way of turning back.

The stonecutter picked up the hand grinder, changed the grinding wheel sheets, turned on the power, and started to grind from the new cut.

Everyone was also watching intently, each with different thoughts.

After a while, Xia ruofei suddenly raised his eyebrows. However, he did not say anything because the experienced stonecutter had also raised his hand and turned off the power of the grinding machine.

"Why did you stop!"

"Could it be that there's green again? "

While everyone was discussing, the stonecutter wiped the polished part with a wet cloth. After looking at it carefully, he turned back and said with a smile, "Congratulations, boss! It's already green ..."

Like a stone that caused a thousand ripples, the Jade merchants who were watching the show became excited.

Yu mingdong revealed a happy expression. He quickly walked forward to take a closer look. He was so happy that his body was trembling.

?

Chapter 1554: Helping boss Yu cheat people (2)

He said, "Mr. Xia is indeed a Lucky Star!" The quality of the Jade meat in this position is better. If there are no accidents, it should reach the glass type!"

The Jade merchants couldn't help but surround him.

The window was right there, and most of them were in this line of work, so it could be seen at a glance.

This time, everyone was even more envious of Yu mingdong.

Not only did he buy the rare top – grade Violet Jade, but the price of his own raw stone, which he had spent a lot of money on, also seemed to have increased greatly.

Two windows were opened one after the other, and they both saw green.

In this case, it was very likely that the Jade contained inside was connected into pieces, and the quantity was very large. In addition, the quality of the Jade so far was very good. In this case, more than 20 million Yuan was too cheap!

Although they knew that Yu mingdong was in the same industry, the Jade merchants couldn't help but offer a price to buy this piece of material.

"Old Yu, you've gained enough today, so give this piece of material to me! I won't let you suffer any losses. How about 30 million?"

"President Yu, I'll bid 32 million!"

" 34 million!"

Yu mingdong waved his hand proudly and said, "Everyone, I'm still waiting for the rice to be cooked in my own factory! I'm not selling this material!"

Xia ruofei opened his mouth, but he saw that Yu mingdong had already asked the stonecutter to continue polishing the stone, so he closed his mouth again.

The stone – cutting master was still wiping the cut of the Jade that had just been cut a little. After all, there might be a lot of Jade under this thin stone Skin, so the experienced stone – cutting master didn't need Yu mingdong's instructions and chose this cautious method.

Everyone even held their breath and stared at the piece of material without blinking.

With the operation of the stone cutter, the stone Skin at the cut was ground off bit by bit, and more and more Jade meat was revealed.

If it was just a small opening to see the green, then the green jadeite had gradually formed a whole.

This made the Jade merchants even more anxious, because looking at the situation, they were really aiming for a large piece of complete Jade.

The stone – cracking master turned off the power of the grinding machine. With this kind of continuous grinding, the grinding wheels would wear out very quickly. He needed to change the grinding wheels.

At this time, the Jade merchants also took the opportunity to take a closer look, and their mouths kept making envious and jealous tsk tsk.

Xia ruofei had already walked to Yu mingdong's side, intentionally or otherwise. Now that he saw that the Jade merchants' attention was on that piece of material, he immediately nudged Yu mingdong gently.

Yu mingdong turned around with a face full of joy. Before he could speak, Xia ruofei lowered his voice and said, "President Yu, if the price is right ... Why don't you just sell this piece of material?"

Yu mingdong was stunned for a moment, then he hurriedly asked in a low voice, "Mr. Xia, is there something wrong with this material?"

Xia ruofei smiled and said, "how do you expect me to answer your question?" I don't even know anything about stone gambling!"

Only then did Yu mingdong come back to his senses. He had almost forgotten that Xia ruofei was a newbie when he saw a high – Quality Jade on the back of the window. He had blurted out his request for help just now.

Yu mingdong was about to tell Xia ruofei that he didn't want to sell any raw materials when Xia ruofei added, "Mr. Yu, although I'm an outsider, I don't have a good feeling about this material. It's purely my intuition! Without any evidence ..."

Xia ruofei's words made Yu Ming Dong shiver because he felt that Xia ruofei's luck today was amazing. With his experience, his intuition would often be very accurate in such situations.

This was the first time that Yu mingdong had wavered. He originally wanted to cut it into bright materials and then transport it back to his own factory to use.

Xia ruofei's words made Yu mingdong lose his resolve.

Of course, there was another more important reason, and that was that Yu mingdong's company's working capital was not much.

He had spent 50 million on the materials from Xia ruofei and another 30 to 40 million on his own. That was almost all of the working capital of his company.

In this case, once the price of Jade fell or sales went bad, the company was likely to have cash flow problems.

And if he exchanged this half – Bright material for money, then the funding problem would be greatly alleviated.

In addition, he had cut out good quality Jade from his previous raw materials and bought two pieces of jade from Xia ruofei. It could be said that his factory was not short of raw materials for the time being. This raw material could be sold.

Once he had this thought, Yu mingdong felt that he should trust Xia ruofei's intuition more and more.

Finally, when the stonecutter changed the grinding wheel and was ready to continue grinding, Yu mingdong waved his hand to stop him.

Then, Yu mingdong muttered to himself for a moment and said in a clear voice, "Everyone, I've thought about it just now. I still have sufficient raw materials in my factory for the time being, so it's not like I can't sell this piece of material ..."

As soon as Yu mingdong said this, the Jade stone merchants' thoughts became alive again.

"Old Yu, you should have done this long ago!"

"Yup! If you're eating meat, shouldn't you at least let us get some soup to drink?"

"That's right! It's useless for you to hoard so many jades, and you've also bet a large sum of money!"

Yu mingdong smiled and continued, "But ... Since it's already at this level, then the price ..."

?

Chapter 1555: Helping boss Yu cheat people (3)

"The price will naturally be higher than before!"

"We all know the rules!"

"President Yu, don't say anything else. Forty – two million! I'm taking this piece of material!"

"43 million!"

"45 million!"

Yu mingdong didn't need to say anything more. These experienced Jade merchants took the initiative to start bidding.

Yu mingdong still looked at the piece of material with some reluctance, but his peers had already started bidding. If he changed his mind, he would undoubtedly become the target of public criticism.

If this piece of material was cut out according to everyone's prediction, it would be worth at least 60 to 70 million Yuan. However, Yu mingdong was a little superstitious about Xia ruofei's luck today. Since Xia ruofei felt that it was not good, he would not be entangled with it anymore.

Fatty Luo couldn't help but join the competition. For a businessman, what was face? Everything was based on profit.

"48 million!" Fatty Luo raised the bid by three million in one go, looking as if he was determined to win.

"Old Luo, you're such a Big Boss, so don't fight with us!" Someone said unhappily.

Fatty Luo said with a smile, "fair competition!" Everyone here is much richer than me, so don't flatter me to death!"

"Hmph, then 49 million it is!" The person who had just spoken couldn't help but add a million.

Fatty Luo's luck wasn't very good today, and he hadn't managed to get a few good pieces of jade. His demand for raw jade was also very high, so he was very envious of this piece of Jade.

"Forty – nine million five hundred thousand!" Fatty Luo shouted through gritted teeth.

"I'll round it up to 50 million!" Someone else shouted, "director Yu, and everyone else in the industry, don't forget that this is still a half – baked material. This price should be about right ... Everyone, please be magnanimous. Our factory is also waiting for the rice to be cooked!"

"Chief Xue, everyone's lacking good raw materials these days!" Fatty Luo said. 51 million! I'll just take it as making friends with President Yu!"

This price was already very high. After all, there was still a risk in semi – Bright materials. Once the bet failed, the value might shrink rapidly.

The Jade merchants began to hesitate because they could see fatty Luo's determination. If they continued to raise the price, they might not be able to buy this piece of Jade. Instead, it would benefit Yu mingdong for no reason, and at the same time, it would make fatty Luo hostile.

Therefore, the bidding momentum suddenly stopped.

However, there were still people who didn't give up and continued to add tens of thousands, but fatty Luo had his eyes on this piece of material, and in the end, he successfully won it for a price of 53 million.

"Old Yu!" Fatty Luo rubbed his hands gleefully and said, "I'll transfer the money to you now! Thank you for giving away your love!"

Yu mingdong nodded slightly and said, "we're just helping each other!" I still have to thank you for taking care of my business!"

The small unhappiness from before seemed to have disappeared as they closed the business.

Fatty Luo eagerly looked for the organizer's staff and signed the transfer agreement under their witness. After all, he did not have any personal relationship with Yu mingdong. They could not trust each other like Xia ruofei and Yu mingdong, so he was more cautious.

Fatty Luo then readily transferred 53 million Chinese dollars to Yu mingdong's account and successfully completed the transaction.

Xia ruofei watched coldly from the side. He had personally seen fatty Luo "defeat all the heroes" and finally win this raw stone that he had thought was a hot potato.

Xia ruofei couldn't help but sigh. This really confirmed the saying that "enemies don't meet"!

?

Chapter 1556: The poor man who took over the situation (1)

Xia ruofei looked at fatty Luo, who was rubbing his hands in excitement, and said to Yu mingdong, ""President Yu, since we're done here, let's go back?"

Yu mingdong looked at the raw stone he had already sold to fatty Luo with some reluctance and asked, ""President Luo, you ... Are you going to open this material on the spot?"

Fatty Luo waved his hand and said, "of course!" Today, this master's rate of stone cutting has increased greatly, and that little brother is a gem in front of me. Of course, I have to borrow his luck!"

Yu mingdong heard this and said to Xia ruofei, ""Mr. Xia, why don't we ... Go back after we're done watching President Luo cut the stone?"

Although this raw stone had been sold, Yu mingdong had always been a little conflicted in his heart. If he didn't see the stone unraveled with his own eyes, he probably wouldn't be able to sleep well tonight.

Xia ruofei was in a hurry to go back. On one hand, he knew that Xia Qing had prepared the medicine in the medium and he wanted Song Wei to take it as soon as possible. On the other hand, he knew very well that once this piece of material was completely opened, he would definitely lose the bet, and there was nothing to see at all.

Not to mention that fatty Luo had spent a sky – High price of 53 million to buy it, even if Yu mingdong had spent more than 20 million to buy it before, it would definitely have been a loss.

However, the guest should suit the host. Xia ruofei was considered Yu mingdong's guest. Since Yu mingdong had said so, and it would not take long to cut a raw stone, Xia ruofei nodded in agreement.

Fatty Luo said excitedly, "then I'll have to trouble you, master!" Just rub from the position just now!"

The master of cutting stones was only responsible for doing the work, and did not care who the owner of the raw stone was.

He nodded when he heard that. Just as he was about to turn on the power of the grinding turbine, Yu mingdong suddenly shouted, ""Master, please wait a moment ..."

At this time, Shi Lei had already walked in from outside. Yu mingdong took two red packets from his hands, which were obviously prepared just now. He walked to the stone cutter and stuffed them into his hands.

Yu mingdong said, "master, you've worked hard today. This is a little gift from Mr. Xia and me. Take it and buy some cigarettes!"

This was also an unwritten rule in this line of work. If the price of the raw stone Rose, the owner would definitely give a red envelope to the master of cutting the stone, and it was also a good fortune.

Xia ruofei was not clear about this rule, so Yu mingdong simply did it on his behalf.

The stonecutter didn't refuse. He took the red packets and pinched them slightly. He knew that each red packet was at least 10000 Yuan. He immediately smiled and said, "Thank you, boss! Thank you, boss!"

Xia ruofei looked at the stonecutter as he kept the red packet. He said to Yu mingdong in a low voice, "How can we let President Yu pay for this? How much did the red packet carry? I'll transfer it to you later!"

Yu mingdong pretended to be angry. "Mr. Xia, you reduced my price by three million Yuan for that Violet Jade just now. You're such a good friend. What's wrong with me giving you a small red packet?" Do you need to be so formal? If you say such things again, then you're not treating me as a friend!"

Xia ruofei smiled and said, "good, good, good!" Then I won't regard you as an outsider ... President Yu, let's watch the stone cut!"

Yu mingdong then revealed a smile and said, "Yes, yes, yes, let's see how the stone is cut!"

Fatty Luo watched eagerly as the stonecutter turned on the power and cut the raw material again, fantasizing that this material would be worth sixty to seventy million Yuan, or even seventy to eighty million Yuan of Jade.

With this big piece of material, the shortage of raw materials in the factory would be greatly alleviated ... Fatty Luo thought happily.

Just as he was daydreaming, he suddenly heard exclamations from the surrounding Jade merchants.

Fatty Luo came back to his senses and realized that the stonecutter had already stopped.

"What's wrong?" Fatty Luo chuckled and asked, "it can't be the king's Green, right? Why are you all so surprised?"

Everyone looked at fatty Luo with strange expressions, and the scene was very quiet.

Yu mingdong's mouth was so wide open that he forgot to close it.

Fatty Luo saw that the situation was a little off and suddenly looked at the raw stone.

At first glance, fatty Luo's eyes suddenly widened as if he had seen a ghost, and his face turned pale.

The green jadeite on the material was getting lighter and lighter, and the place where it was rubbed had mixed jadeite and stone.

The stone – cutting master polished the newly – made cut in the direction of the window opened by the organizer. The best result was that the Jade exposed on both sides was connected, and the quality of the Jade was very high. This way, it would be worth at least 70 to 80 million Yuan. After all, this piece of material was too big.

In the worst case, there would be a small fault in the middle of the two cuts, or the quality of the Jade would drop slightly. Even in this case, it was still a profit to buy it for 53 million Yuan. It was just a matter of how much it would cost.

However, the situation was far from optimistic. In fact, it was so bad that it was beyond everyone's expectations, except for Xia ruofei.

It had only been six or seven minutes since the master started cutting the stone again. He had only polished less than ten centimeters from the position where he had stopped to the old cut, and the situation had taken a sharp turn for the worse. The mixed – colored jade was basically a waste. Even if it took a lot of effort to take it out, it would still be very small pieces of jade, which could probably only be made into small rings or pendants.

Moreover, the quality of the Jade was so bad that it would only be a low – end product worth a few hundred Yuan.

?

Chapter 1557: The poor man who took over the situation (2)

Although there was a small amount of Jade of the glass type near the cut that Xia ruofei had made, it was estimated to be worth two to three million Yuan at most if all of it was taken out. This was an even higher estimate.

The most terrifying thing was that only a small part of it had been opened, and the color of the Jade had already dropped to the freezing point. If he opened further in, there would probably only be stones left.

As for the direction of the other incision, who knew how much Jade could be cut out?

Fatty Luo felt the blood in his body turn cold.

In his daze, he shuddered and then shouted, ""Master! Continue driving! I don't believe that there's only this little Jade left in such a big piece of material!"

The master of cutting the stones was already used to the performance of these stone gamblers. They were ecstatic when they gambled, and their bodies went limp when they gambled. Life was full of all kinds of things ...

"Boss, what's the next solution?" he asked.

"Yes!" Fatty Luo said, enlightened. Let's change direction! Start from the other incision. I don't believe it ..."

At this moment, the veins on fatty Luo's forehead were bulging, and he was gritting his teeth like a gambler who had lost so much that his eyes were red.

The stonecutter nodded his head calmly. After adjusting the angle of the raw stone, he continued to Polish it from the old cut.

Fatty Luo stared fixedly at the raw stone, as if he could produce Jade from it this way.

The window opened by the organizer gradually expanded, and the Jade inside was slowly revealed.

Just as everyone had predicted, the Jade on this side had reached the ice grade. The master polished it for a few minutes and pushed about ten centimeters in the direction of the new cut, but the quality of the Jade revealed was basically not reduced.

Moreover, the jadeite was hidden relatively shallow. Basically, after the stone Skin was worn off, the Jade flesh would be directly inside.

Some color had also returned to fatty Luo's face, and he panted as he said, "I knew it ... It's impossible for such a huge raw stone to have only a few pieces of rubbish Jade!"

However, before fatty Luo could finish his sentence, the surrounding jade stone merchants started to stir.

"It's not working again ... I've ground so much, it's all stone!"

"There's an 80% chance that he's going to lose ..."

"President Luo has suffered a huge loss this time ..."

Fatty Luo's whole body trembled slightly. He couldn't believe what he was seeing. The ice – Type jade that had originally brought him some hope suddenly stopped without any warning after extending more than ten centimeters. No matter how the stone – cutting master polished it, it was still a Cold Stone.

"I won't! It can't be ..." Fatty Luo muttered to himself. "How could this be?" I won't ..."

The stonecutter continued to cut the stone with great diligence, and soon the outer layer of the whole raw stone was polished off.

The distribution of the jadeite inside the whole raw stone had a rough outline.

Coincidentally, only two of the incisions had a small amount of Jade in the direction of the other party's extension line.

The area near the cut that Xia ruofei had pointed out was mostly glass – Type jade, while the other side was ice – Type jade.

Since there was no Jade in the middle, the master of cutting the stone ground it more. Now, the raw stone was roughly in the shape of a mute Bell. The big ones on both ends had a small amount of Jade, and the relatively fine one in the middle was pure stone.

Everyone present was an expert. They quickly estimated that the Jade from both heads would be worth at most six or seven million Yuan, and that was because there were more ice – Type jade.

Everyone looked at fatty Luo with pity in their eyes, some gloated, and the way they looked at Yu mingdong was more complicated.

Today, Yu mingdong was like God's favorite. Good things kept happening.

Not only did he buy the top – grade Violet Jade, but he also bet more than 20 million on the raw stone that he had misjudged and was about to go bankrupt. Fatty Luo actually spent more than 50 million to buy it. In this way, Yu mingdong not only didn't lose money, but he also made double the profit.

Even something that should have been bad luck could turn into a good thing by chance. This luck was simply heaven – defying.

Of course, there were also a lot of people who were scared. These were the people who had bid against fatty Luo just now. The guy who had bid 52.5 million was even sweating. Fortunately, fatty Luo had added 500000 in the end and he had reluctantly given up. Otherwise, he would have been the unlucky one today.

While Yu mingdong felt a wave of fear, he was also extremely grateful to Xia ruofei.

If Xia ruofei had not reminded him, he would have lost more than 10 million Yuan.

Although 10 million was not enough to hurt him, who would feel good about losing so much money?

Yu mingdong looked at Xia ruofei gratefully. He didn't say anything. Yingluo had secretly reminded Xia ruofei just now. Everyone's attention was on the material, and no one had noticed it. Naturally, he couldn't say anything now. Otherwise, wouldn't he be drawing hatred to Xia ruofei?

As for Xia ruofei's great help, Yu mingdong naturally would not be ungrateful. This kind of thing had to be carried out in action and not just spoken.

In fact, Yu mingdong had already made up his mind.

Fatty Luo's heart felt like it was bleeding, and his entire being was in a daze. He had lost more than forty million just like that! Yu mingdong's loss of 18 million Yuan wouldn't be a big deal, but fatty Luo's loss of more than 40 million Yuan would really affect the capital chain.

The key was that if word got out that he had misjudged to such an extent, his reputation would be in tatters.

He looked at Yu mingdong with a pale face, but he couldn't blame Yu mingdong for this. It was obvious that they were the ones who were rushing to buy it. Yu mingdong hadn't even said anything, and they had already taken the initiative to bid.

Moreover, this transaction had been notarized and an official transfer agreement had been signed, so fatty Luo could only silently admit defeat.

Fatty Luo panted heavily and said as if he had gone crazy, "I don't believe it! I don't believe this is the result!"

He walked to the raw stone and said loudly, "That young man just now was able to cut out a top – grade violet from a piece of scrap. There are still so many pieces of this piece of material that haven't been cut open! Who dares to say that there's no Jade inside!"

After saying that, fatty Luo said to the stonecutter, "I'll open it myself!"

The stone – cracking master also knew that it was best not to add fuel to the fire at this time. He only nodded slightly and then silently retreated.

Fatty Luo switched on the cutting sheet, turned on the power, and cut directly into the middle of the mute – Bell shaped material.

Everyone looked at fatty Luo with a hint of pity in their eyes, as if they were looking at a drowning man trying his best to grab onto a life – saving straw.

In fact, everyone knew very well that the material was no different from being fully cut to this extent. This was even different from Xia ruofei's situation. Xia ruofei's piece of material had not been touched after it was cut, but fatty Luo's piece had been completely polished. It was obvious whether there was Jade in it.

In fact, fatty Luo was just unwilling to accept this reality in his heart.

He cut the material like crazy, but when he didn't see any green, he changed positions.

Very quickly, except for the two pieces of jade that had basically been completely dug out, the rest had been cut off by fatty Luo bit by bit.

There was nothing. Even if fatty Luo crushed these stones into powder, there was no extra Jade.

Looking at the ground full of small pieces of stone and two extremely dazzling jadeite, fatty Luo finally couldn't hold on any longer, and his legs went soft as he sat on the ground.

"It's over ... It's all over ..." Fatty Luo muttered.

Xia ruofei watched coldly from the side. This fatty Luo was actually a little utilitarian, but his mouth was a little mean. Seeing him like this, although he knew that he had asked for it, Xia ruofei couldn't help but feel a little sympathetic.

Yu mingdong, who was beside Xia ruofei, also showed a look of pity. He hesitated for a moment and walked towards fatty Luo, who had a dazed look in his eyes.

?

Chapter 1558: Awakening (1)

Yu mingdong said, "President Luo, these two pieces of jade are not bad. My factory just happens to be short of Jade of this grade. How about you transfer them to me?" I'll take the 8 million. "

The Jade merchants all started discussing in low voices. Those with discerning eyes could naturally see that Yu mingdong was a little reluctant and wanted to help fatty Luo reduce his losses.

These two pieces of material were estimated to be worth about seven million Yuan at most. Yu mingdong was already very kind to buy them back at this price.

Most people thought that Yu mingdong was a good person. Although fatty Luo had lost a lot of money because he had bought the raw stone from him, this was a mutually – willing business, so it couldn't be blamed on Yu mingdong. On the contrary, many people were gloating over Yu mingdong's misfortune. Yu mingdong's actions made everyone think more highly of him.

Fatty Luo was a little muddleheaded, but after hearing Yu mingdong's words, he came back to his senses and said with a bitter smile, "Old Yu, you're just pitying me ..."

"Don't say that! This is business!" Yu mingdong said, "our factory is very short of ice – Type materials. As for you ... I think it's good to withdraw some funds. There will be a new batch of raw stones on display tomorrow. Who knows, maybe things will turn out well! Thus, this is a win – win situation. "

A hint of shame appeared on fatty Luo's face. He had been blinded by profit, so he had rushed to be the scapegoat. In the end, the situation was like this. At that moment, he must have had complaints about Yu mingdong in his heart.

He didn't expect Yu mingdong to be the first person to stand up and help him.

"Old Luo, we're all in this line of work, and victory and defeat are common in the military!" Yu mingdong said, "who here hasn't lost a raw stone before?"

"Old Yu," fatty Luo said with a wave of his hand, "I won't say anything else. I'll remember this favor of yours!"

Fatty Luo wanted to refuse, but he really did need money right now.

If it was in the past, a million Yuan or less would not have mattered to him. However, he had put all his eggs in one basket and used almost all of his cash flow. If the stone went bankrupt, it might even affect his entire company's operations.

The two pieces of material could be sold for more than a million Yuan. The key was that he could get eight million Yuan in funds at once. Then, he had hope that Dongshan would rise again in the next public bid.

Yu mingdong smiled and nodded, signaling Shi Lei to call the public bid staff over.

Soon, both parties signed a transfer agreement, and Yu mingdong transferred another eight million Yuan to fatty Luo on the spot. At the same time, he put away the two pieces of jade.

Tonight, all of Yu mingdong and Xia ruofei's raw stones had finally been cut open. The Jade merchants who were watching the show dispersed reluctantly.

To them, it was a thrilling, intense, and dramatic show.

Xia ruofei and Yu mingdong were undoubtedly the biggest winners. Needless to say, Xia ruofei was a newbie who had just come into contact with cutting stones for the first time. He had actually bought a raw stone that had a huge increase in price by accident and made tens of millions.

On the other hand, Yu mingdong had the lucky Halo. He bought the raw stone for more than 20 million Yuan for more than 50 million Yuan. In the end, he bought the Jade in the raw stone for another 8 million Yuan. It was equivalent to him getting two good pieces of material for free and earning more than 30 million Yuan at the same time. He was a big winner!

They had opened a lot of raw stones today, especially the violet Jade, which was priceless, so Yu mingdong naturally hired a car from the escort company to transport these raw stones back to the hotel.

He had already made a call back home. Tomorrow, his family would send more people to transport the Jade back to his Jade processing plant.

The Jades were expensive. Yu mingdong naturally couldn't trust the people of the escort company completely, so the three of them took the escort car back to the hotel together.

On the way, Yu mingdong said to Xia ruofei gratefully, "Mr. Xia, you've really saved me this time! If you didn't remind me, that piece of material would have fallen into my hands! Now that I think about it, I'm still scared!"

Yu mingdong wasn't exaggerating. If it wasn't for fatty Luo's dramatic acquisition, he would be the one with financial problems now. After all, he had spent more than 50 million to buy Xia ruofei's Jade.

Now, not only did he not lose anything, but he also had more than 30 million in cash. Starting tomorrow, there would be new raw jade stones on the public auction. With this money, Yu mingdong could make a big gamble.

Xia ruofei laughed and said, "you're too kind, chief Yu!" I'm just following my feelings, I don't know anything about stone gambling ..."

Yu mingdong quickly said, "it's based on my feeling!" It was based on good feeling! Stone gambling was all about relying on a little intuition. The rules that everyone had concluded were often not the case when it came to actual combat operations. Those experts had a clear and logical explanation, but not many people had made a fortune from stone gambling! Just like that He Ping today! I'm so angry! He took my two million Yuan consultation fee, and in the end, this is his standard ..."

Xia ruofei smiled and said, "forget it!" After tonight, he won't be able to continue in this line of work ..."

If he had misjudged Xia ruofei's raw stone before, he could still explain it as a rare accident. However, He Ping had no way of explaining Yu mingdong's raw stone that was later taken over by fatty Luo. He had strongly suggested Yu mingdong to bid for it at a high price.

There were so many Jade merchants present tonight. He Ping would probably receive the news of the raw stone being cut into pieces soon. He just didn't know if he would vomit three liters of blood ...

?

Chapter 1559: Awakening (2)

"That's true!" Yu mingdong said, "I made a small fortune with Mr. Xia today. I'm in a good mood! I won't look for him! Otherwise, he would have to return a portion of the money! You actually quit halfway!"

Then, Yu mingdong said, "Mr. Xia, thank you so much for today!" Let's go have some supper later! I didn't have time to entertain you in the afternoon, so I'll give you a toast later!"

Xia ruofei was still worried about Song Wei. How could he be in the mood to have supper? He quickly waved his hand and said, "it's too late. I'm so sleepy right now. I think I can fall asleep as soon as I touch

the pillow. Let's forget about having supper!" Besides, this piece of Jade is worth a lot of money! It's impossible to just leave it in the hotel!"

Yu mingdong thought for a moment and said,"alright!" Then I'll treat you to a meal after I'm done processing these jades tomorrow!"

Xia ruofei smiled and nodded.

Yu mingdong asked again,"by the way, Mr. Xia, there's still the last batch of raw stones for this public Jade bid. The exhibition will start tomorrow, and the bidding will start the day after tomorrow. Do you want to buy a few more for fun?" I think you're very lucky!"

Xia ruofei pondered for a moment and said,"let's see how it goes!" I can't decide for now ..."

It would depend on Song Wei's condition. If Song Wei could wake up, Xia ruofei might participate. Otherwise, he would not be in the mood.

"Alright, have a good rest today!" Yu mingdong said,"by the way, Mr. Xia, I've made an appointment with a Jade distributor I'm more familiar with tomorrow morning. I'll accompany you to pick some Jade!"

This was Xia ruofei's main purpose for this trip. Besides, he had used Jade as a mortgage for the violet Jade he had traded with Yu mingdong. So, even though the problem of upgrading the space had been solved, Xia ruofei still nodded in agreement.

Yu mingdong smiled and said,"Mr. Xia must be someone who does great things!" If an ordinary person earned tens of millions from stone gambling, it would be a wonder if they could sleep at night!"

Xia ruofei laughed,"I'm a big – hearted person!"

The hotel was not far from jadeite Street. After chatting for a while, the escort vehicle arrived.

As usual, it was still the escort who brought the Imperial Jade upstairs.

Yu mingdong's room was on the same floor as Xia ruofei 's. For safety reasons, a Big Boss like him had actually booked a standard room. He and Shi Lei were staying in the same room.

Everyone said Goodnight to each other in the corridor, and then Xia ruofei returned to his room impatiently.

As soon as he entered the room, Xia ruofei locked the door as usual and began to check the situation in the room. At the same time, he had already communicated with Xia Qing using his divine sense.

"Xia Qing, how are the preparations?"

"Everything is ready, master!" Xia Qing said calmly.

"Alright!" Xia ruofei's heart skipped a beat. At this moment, he could not help but worry about the gains and losses. If the heart – concentrating grass still could not wake Song Wei up, he did not dare to think further ...

Xia ruofei checked the bedroom as fast as he could. Then, he locked the doors and windows, pulled the curtains, summoned the spirit map scroll from his palm, and entered the medium.

Mountain and sea realm.

Outside the cave where the stone room was located, Xia Qing was waiting with a bowl. Xia ruofei's figure flashed and appeared beside Xia Qing.

He took a look at the bowl of medicine in Xia Qing's hand and saw that it was half – filled with a black medicinal soup.

"Master, I've already made a medicinal soup with the heart concentrating grass and a few other supplementary herbs." Xia Qing handed the bowl to Xia ruofei. "This is an Internal Medicine. You can just feed it to miss song ..."

Only Xia ruofei could enter the stone room, so Xia Qing handed the bowl to Xia ruofei outside the cave.

"This medicine ... How confident are you in saving Song Wei?" Xia ruofei asked.

"I don't know ..." Xia Qing said.

"You don't know?" Xia ruofei's eyes widened. "You spent so much effort to upgrade the space and now you have the heart – concentrating grass. You ..."

"Master, the damage to the soul is very troublesome," Xia Qing said with a bitter smile. "I'm afraid even the previous master of the spirit map world wasn't confident that he could save miss song. " However ... If even a high – grade spirit herb like the heart – concentrating grass that specializes in nourishing the soul is not effective, then I'm afraid ..."

Xia ruofei felt a burst of frustration. He waved his hand to stop Xia Qing from continuing.

However, Xia Qing's meaning was very clear. If the heart concentrating grass couldn't wake Song Wei up, then even he couldn't think of a better way.

Xia ruofei sighed and entered the cave with the bowl of medicine.

In the stone room, Xia ruofei stared at Song Wei, who was lying quietly on the stone bed with her head on a Jade futon. He prayed to the gods in his heart and hoped that they would bless Song Wei to wake up as soon as possible.

Xia ruofei walked over and gently helped Song Wei up. He let her lean on Him and lay down.

Then, he gently pinched Song Wei's mouth to make her open her mouth. Then, he slowly fed her the half bowl of medicine.

Song Wei was in a deep coma and could not swallow instinctively. Hence, Xia ruofei wrapped the liquid with his essential Qi and sent it into Song Wei's stomach.

After feeding Song Wei all the medicine, Xia ruofei laid her down slowly and looked at her nervously.

One minute, two minutes, three minutes ...

Five minutes passed, and there was still no reaction from Song Wei.

Xia ruofei's heart started to sink.

At this moment, Xia ruofei, who had been observing Song Wei's situation with his spiritual power, suddenly noticed that Song Wei's eyelashes seemed to tremble slightly.

Xia ruofei was overjoyed, but he managed to remain calm. His first reaction was to use his mind and an invisible spatial force wrapped around him and Song Wei. They disappeared from the stone room at the same time and came to the outside world. If Song Wei woke up and found herself in a cave, Xia ruofei would not be able to explain.

He placed Song Wei flat on the bed in the bedroom and at the same time, he waved his hand to retrieve the painting.

Then, Xia ruofei went over to draw the curtains and opened the door and windows to let in some fresh air.

After that, Xia ruofei turned around and saw Song Wei's fingers trembling slightly. Then, she slowly opened her eyes ...

Xia ruofei almost burst into tears.

He rushed to the bed and looked at Song Wei. He said excitedly, "Song Wei, you ... You're finally awake ..."

Song Wei's eyes were filled with confusion as she asked weakly, "Ruofei...Where am I?"

"We've already left the underground palace!" Xia ruofei said excitedly, "you're very safe now! It's alright ... It's alright ..."

Song Wei nodded her head slowly. Xia ruofei stared into her eyes. He was excited but also a little complicated. This was because he had accidentally read the contents of Song Wei's diary at the airport.

Initially, he was very calm in front of Song Wei. However, ever since he found out about Song Wei's Secret, he could not help but feel uncomfortable.

When Song Wei was unconscious, Xia ruofei was not in the mood to think about this. Now that Song Wei was awake, Xia ruofei suddenly felt troubled.

However, when Xia ruofei looked into Song Wei's eyes, he suddenly felt that something was wrong. He was very familiar with Song Wei but at this moment, he suddenly felt that her gaze was strange.

This was not Song Wei!

Xia ruofei's heart skipped a beat. Without hesitation, he released a powerful divine thought and charged towards Song Wei.

As expected, the spirit body's unbridled laughter rang out in his mind.

Xia ruofei's heart trembled. He didn't expect this spirit to be so persistent. Wasn't she clearly expelled by the senior in the coffin? How could it still be in Song Wei's body? could it be that she was able to separate her soul?

Xia ruofei had no time to think. His spiritual will had already entered Song Wei's mind.

To Xia ruofei's surprise, the spirit body seemed to be much weaker than the one in the underground palace. Under the impact of Xia ruofei's spiritual will, it almost collapsed in one blow and dissipated into pieces ...

?

Chapter 1560: A different gift (1)

Xia ruofei was also stunned.

He had thought that he was in big trouble. After all, he had fought with the spirit body in the underground palace and knew that there was a huge gap between his strength and the other party's.

Xia ruofei did not expect this to happen. The spirit body was much weaker than he had imagined.

Was it really just a remnant soul?

As soon as this thought appeared in Xia ruofei's mind, he suddenly became alert.

At this moment, the remnant soul had completely dispersed, revealing the pink mist it had been wrapped in.

The pink smoke quickly spread in Song Wei's body. A portion of it even split off and followed Xia ruofei's spiritual will to invade his body.

The spirit body's wild laughter rang in Xia ruofei's head. "This is a gift I left for you. Enjoy it ..."

Then, the voice of the Spirit body completely disappeared, and the wisp of remnant soul quickly turned into nothingness.

Xia ruofei's expression changed drastically. Years of being in the Special Forces had trained his calm mind and quick reaction. He subconsciously used his true energy to stop the strange pink smoke from entering his body.

However, Xia ruofei's expression quickly turned even uglier. That was because the true energy had little effect on the pink smoke. It seemed to be pervasive. Even if it was wrapped in true energy, it would still quickly seep out.

Xia ruofei immediately switched to using his spiritual power to surround and intercept them.

His mental power cultivation had already reached the spirit throb stage, which was several levels higher than the cultivation of true Qi. In addition, it seemed that his mental power had a stronger restraining effect on the pink smoke, so the spreading momentum of the smoke was gradually controlled.

As Xia ruofei tried his best to deal with the strange pink smoke, he quickly recalled the cultivation books he had learned from the human – shaped jade talisman. Only by knowing yourself and your enemy

could you win a hundred battles. Xia ruofei hoped to find the answer in those books. Once he knew what the pink smoke was, it would be much easier to deal with it.

At this moment, Xia ruofei suddenly felt Song Wei approaching him.

He quickly opened his eyes and saw that Song Wei's face was as beautiful as a peach blossom, and her eyes were filled with endless madness ...

At this moment, Xia ruofei's head felt like it was about to explode. The pink smoke that had been suppressed seemed to come alive again. He even felt his heart becoming restless ...

Xia ruofei bit his tongue and pushed Song Wei away while he was still conscious.

Song Wei's movements were completely dominated by the pink smoke. After being pushed down by Xia ruofei, she quickly got up and pounced on Xia ruofei.

Xia ruofei was already struggling with the pink smoke and the evil thoughts. If Song Wei were to tease him, the consequences would be unimaginable.

While he was still conscious, he quickly thought of something. Then, without hesitation, he chopped at the back of Song Wei's neck.

Song Wei fell limply on the bed.

Even though she had fainted, the blush on Song Wei's face did not fade, and her long eyelashes fluttered slightly ...

Xia ruofei took a look and quickly closed his eyes.

Right now, he could not take this kind of stimulation. If he did not get rid of the pink smoke quickly, he was afraid that he would become like Song Wei and completely lose control of his own actions.

At that time, it was self-evident what would happen when a man and a woman were alone in the same room.

Xia ruofei quickly gathered his energy and directed it towards the pink smoke.

At this moment, Xia ruofei already knew what the pink smoke was.

There was an ancient book that recorded the anecdotes of the cultivation world. It mentioned something called the "peach blossom miasma". Xia ruofei guessed that the pink smoke was most likely the peach blossom miasma.

Although the name was very tacky, the peach blossom miasma was indeed very vicious.

Once it entered the human body, the peach blossom miasma would even taint the soul. Unless one's spiritual power was cultivated to a very strong degree, it was possible to expel it. Otherwise, one would be dominated by desire.

Of course, the spirit did not have good intentions. It did not just want Xia ruofei and Song Wei to have a good time. It was not plotting against Xia ruofei and Song Wei. It was doing something good.

In fact, the peach blossom miasma was not that simple.

The records in the ancient books showed that people who were poisoned by the peach blossom miasma would be affected by the poison unless they could expel the poison on their own. Even if they were chaste and strong women, they would gradually become a person with a very rotten private life.

What was more terrifying was that he could not control his own actions at all.

This was the most vicious intention of the spirit body.

She had invaded Song Wei's soul and could naturally sense Song Wei's feelings for Xia ruofei. So, at the last moment when she was forced to retreat, she split a wisp of her remnant soul at the cost of her damaged cultivation. She wrapped the peach blossom miasma and hid in Song Wei's sea of consciousness.

Once Song Wei's soul recovered and she regained her consciousness, the remnant soul would be activated and she would release the peach blossom miasma.

Xia ruofei had ruined the spirit body's plan. She could not take revenge on Xia ruofei directly for the time being, so she thought of using this method to make Xia ruofei's woman promiscuous. Her intentions were indeed vicious.

Xia ruofei's expression turned even uglier after he learned this information.

He didn't have any other way for the time being, so he could only concentrate on getting rid of the peach blossom miasma in his body.
