

God tier Farm 1591

?

Chapter 1591: Over a hundred million Yuan (2)

Ma Zhiming thought that Xia ruofei did not know about the situation of the Jade sculptors in Hengfeng jewelry, so he could not help but try to promote it himself.

Xia ruofei chuckled. "There's no need for that now. I'll contact you again if I need to!"

"Alright then!" Ma Zhiming said, "if it's possible, I hope that Mr. Xia can leave me a jade carving of a Bell ..."

"No problem!" Xia ruofei said readily.

After the call with Ma Zhiming, Xia ruofei entered the spirit map space.

He stood at the Archean realm and looked at the head – sized black jade. He couldn't help but feel rueful.

He only spent three million Yuan on the raw stone, but he got a rare Jade that was worth more than 100 million Yuan. In just two days, the value of the Jade had increased by more than 30 times! It was even more profitable than drug trafficking!

And this was the value of the Jade. If Xia ruofei processed this piece of Jade into a finished product, the value would probably increase a lot.

In particular, when he carved some array patterns on it, he only needed to show the function of the array inside the Jade products in the future. He was afraid that those rich people with assets in the hundreds of millions would go after it like a flock of ducks. It was absolutely possible that the value would be multiplied several times.

However, even though Xia ruofei was very confident in his carving skills, he also knew that he could not rush this matter.

First of all, he had to collect information to determine the shape and size of the person to be sculpted. Then, he had to make a reasonable plan for the Jade according to these.

This step was of utmost importance.

This top – grade black jade was extremely precious. The best plan was to use every bit of Jade as much as possible. In theory, it was best not to leave any leftovers. Of course, this was impossible.

However, if the plan was as perfect as possible, he might be able to make one more bracelet or one or two more pendants. These were all priceless treasures!

Hence, Xia ruofei kept the black jadeite in the spirit map space and returned to the outside world. It was almost evening. He planned to have dinner and then come back to plan.

Xia ruofei went downstairs and took out some ingredients from the spirit map space, mainly live fish, vegetables, and so on. Then, he took out a bottle of exquisite Drunken Eight Immortals Kasaya, the kind that had a small amount of spirit Heart Flower petals added.

Xia ruofei put on an apron and started to cook in the kitchen.

It had been a while since he cooked by himself, and it was quite interesting to cook occasionally.

After a while, ye Lingyun came to the villa after work. Pang Hao and Qian Qian came to freeloader a meal after hearing that Xia ruofei was cooking at home.

The two of them saw that Xia ruofei was already busy and quickly went to the kitchen to help.

Very quickly, four dishes and a soup were prepared. The main dish was a boiled fish. The fish head was specially extracted to make tofu soup. There was also some marinade in the refrigerator. Xia ruofei took it out and heated it up. Dinner was ready.

It took too long to cook, so Xia ruofei decided to cook some dumplings.

He had not planned for pang Hao to come along, so while the two of them were eagerly serving the dishes, he went upstairs and retrieved another bottle of Drunken Eight Immortals from the medium.

As soon as he opened the bottle, the rich aroma of the wine filled the villa's dining room.

Pang Hao couldn't help but gulp. He immediately decided to stay in the company's dormitory tonight and not drive home because he could drink to his heart's content that way.

Ye Lingyun quickly picked up the bottle and poured the wine into the three people's glasses.

Xia ruofei lifted his cup and looked at pang Hao with a faint smile. "Little fatty, you're not kind! You didn't even ask Hiroko to come along?"

"Guanping and his manager went to the city to run some business," pang Hao said, grinning. "Otherwise, I would have called him along!"

"Business?" Xia ruofei was confused. "Isn't he in the e-commerce Department? Why are you running a business in the city?"

"It's like this. Recently, a new online supermarket has appeared in Sanshan." Pang Hao said, "they mainly operate local businesses. They only have warehouses and no physical stores, so it's very convenient to place orders online. Moreover, they promise to deliver it within half an hour. On top of that, there are some discounts from time to time, so the number of users has increased very quickly. Some uncles and aunts have even learned to use their APP ..."

At this point, pang Hao paused for a moment and couldn't help but take a sip of wine. Then, he continued, "This online supermarket is very interested in our Taoyuan vegetables and hopes to cooperate with us. Although it was a local supermarket, it was still an e-commerce store in essence! "That's why the e-commerce Department followed up. Hirako volunteered to follow their manager and learn ..."

"Oh, so it's like that!" Xia ruofei said.

He wasn't too concerned about the specific business. Now that the company had reached a certain scale, if he had to personally take care of everything, he wouldn't be able to handle it even if he had a clone.

The various departments under him were being expanded, and there were more and more people. These specific matters were naturally handled by people with their own duties.

Xia ruofei asked again, "how's pingzi doing in the company?" Will you be wronged?"

"You're thinking too much!" Pang Hao said. Although Hiroko repeatedly said that he wanted to keep a low profile, and not many people in the company know about his relationship with us, Hiroko was originally in the sales industry, and his emotional intelligence is very high. He's only been here for two or three days, but he's already very familiar with his colleagues. I think ... He's born to be in this industry!"

Xia ruofei was very pleased to hear this and said, "That's good, that's good ... I was afraid that he wouldn't be able to adapt!"

"I still need time to get used to it." Pang Hao said, "but ping Zi will definitely be able to do it! I'm more worried that he'll feel a sense of disappointment. After all ..."

"I won't!" Xia ruofei said, "pingzi isn't that kind of person! The fact that he took the initiative to ask to go to the front line to do the basic work shows that he has confidence in himself, and at the same time, he wants to achieve success with his own ability!"

Xia ruofei understood pang Hao's concern. Back then, the three of them were as close as brothers. Now, Xia ruofei was the big boss of the company and pang Hao was a senior executive in the company. Only Guan Ping was still an ordinary employee.

However, pang Hao had been working with Xia ruofei since the farm was founded. He was one of the first founding members of the company. Now that the company's personnel system was being reformed and the employee hierarchy system had been implemented, Xia ruofei could not break the rules just for Guan Ping.

"I hope so!" Pang Hao said, "I just feel that it's not worth it for pingzi. Back then, I persuaded him to come over, but he insisted on staying in that bullsh * t company ..."

"Everyone has their own aspirations!" Xia ruofei chuckled and said, "things are hard to predict. No one can predict the future. Only time can tell if a decision is right ..."

"Alright, alright, let's not talk about this anymore!" Xia ruofei said, "come on! Let's drink!"

Pang Hao and ye Lingyun raised their glasses as well. The three brothers clinked their glasses and downed their drinks in one go.

The ingredients produced in the spirit map space were all of high quality. In addition, Xia ruofei's cooking skills were not bad. The glutton pang Hao could not resist the temptation of delicious food. Very quickly, he waved his chopsticks and began to gobble down the food.

The frequency at which ye Lingyun reached out with his chopsticks was obviously much faster as well. He was eating with great relish.

The three of them had a happy dinner together. Two catties of Drunken Eight Immortals white wine were divided among the three of them, and they drank every drop.

After the three of them cleaned up the dishes, they sat in the living room to make tea and chat. It was not until nine o'clock in the evening that Pang Hao and Ye Lingyun got up and said their goodbyes.

Xia Ruofei was a little tipsy. He returned to his bedroom on the second floor and prepared to make a few size for the figures that he wanted to carve.

He vaguely remembered that among the massive amount of inherited information of the human jade talisman, there seemed to be a volume of visualization pictures. As for whether it had the shape he needed, he did not know.

Hence, Xia Ruofei first found the visualization picture in his mind and quickly went through it. As expected, he was not disappointed. Not only did Qianqian's visualization picture have images of Buddha and Guanyin, but Zhong Kui and Guan Gong were also in it.

However, he couldn't find the image of Mr. Bao.

Bao Li was from the Northern Song Dynasty. Perhaps this spirit map space already had an age. Perhaps the previous owner of the space lived even earlier than the Northern Song Dynasty! It wasn't strange that he didn't have an official image.

These were all inherited information and were stored in Xia Ruofei's brain. Once he took them out, the images of Zhong Yuan and Guan Yu were imprinted in his mind and were extremely clear.

Xia Ruofei chose Zhong Kui's image and concentrated on it with his spiritual will. Suddenly, a magical scene happened ...

Chapter 1592: Vivid and lifelike (1)

The image of the clock was originally like a portrait, but it was a little abstract. However, when Xia Ruofei used his spiritual sense to sense it, the portrait began to become three-dimensional and vivid, as if a 2D picture had suddenly become a 3D picture.

More importantly, Xia Ruofei could even feel the righteous energy from the statue. He could clearly understand what the image was trying to express.

Without a doubt, a sculpture sculpted under such circumstances would definitely have the most divine charm!

Xia Ruofei already had an idea. This visualization was so magical that it would be the best prototype for the Jade carving. Since he could not find the image of master Bao, he would not use it. He would use Zhong Yuan and master Guan's. Then, depending on the quality of the Jade, he would make a few Guanyin jade carvings.

After making up his mind, Xia Ruofei visualized the images of Guan Yu and Guan Yin Bodhisattva. After he understood them, he took out the spirit map and entered the spirit map space.

When he picked up the rare black jade again, he was no longer at a loss. He had some confidence.

This kind of natural jade was definitely irregular, so planning was also a skill. One had to find the best arrangement to maximize the utilization rate.

Although Xia ruofei did not have any experience in this area, his brain was much faster than ordinary people. His calculation ability was also much better than ordinary people. In addition, he had a deep understanding of the content of the sculpture, so he was able to construct a prototype very quickly.

Some of the irregular protruding parts on the black jadeite could be used as part of the Jade carving if used well. It could be done with a little carving. Only by taking these details into account could the jadeite be used to the extreme.

Hence, Xia ruofei was not in a hurry to start. Instead, he repeatedly pondered over the structure of the entire piece of Jade until he understood every detail in his heart. Then, he began to deduce quickly.

Finally, Xia ruofei took out a red marker and started to draw lines on the surface of the Jade.

After checking it a few times, Xia ruofei took out a carving knife and poured his genuine Qi into it. Then, he cut the Jade without hesitation.

As he had already simulated it in his mind many times, Xia ruofei was very decisive when he cut. In a short while, the Jade was cut into dozens of pieces of different sizes.

According to Xia ruofei's calculations, this piece of Jade could be used to carve eight Zhong Jue statues, six Guan Gong statues, and five Guanyin statues. The remaining scraps could be used to make at least three sets of pearl chains, rings, earrings, and other small trinkets.

After the cutting was completed, Xia ruofei picked up a piece of black jade. With just a glance, he knew that he was going to use it to carve the Guan Gong statue.

He silently reviewed the image of Lord Guan a few times, and then concentrated on the first strike ...

The Jade spun back and forth in his hand, and he cut it accurately. The image of a Guan Yu quickly appeared.

Xia ruofei had a whole set of jade carving tools, including all kinds of knife – edge razors and razors. However, because of his essential Qi, a medium – sized ordinary carving knife was enough to satisfy all the carving needs. Throughout the whole process, he only changed the tool once or twice to take care of the small details that the ordinary carving knife could not complete.

Xia ruofei's every move was just right. Not only did he recreate the image of Lord Guan in the visualization picture, but his accuracy was almost 100%. There was no excess. Even the scraps he cut off were the same as the result of his deduction.

It should be known that these scraps of different sizes were also useful. If there was a deviation in the cutting, one or two more cuts were needed, and the scraps would inevitably become very small and broken, and could not be used again.

However, with Xia ruofei's precise control, it was impossible for this to happen.

After Guan Yu's image took shape, Xia ruofei started to work on the details.

During this process, everything that was cut off by the carving knife was considered waste because they were all very small pieces of jade.

However, Xia ruofei did not waste it. He used his mind to control the spirit map space and absorbed all the Jade. Although this little bit of Jade was not even a drop in the ocean for leveling up, Xia ruofei did not have the habit of wasting it.

After a while, a lifelike statue of Guan Gong appeared in Xia ruofei's hand. It had a cool beard, a domineering Green Dragon Crescent Blade, and the iconic Phoenix eyes and silk eyebrows ...

The rarest thing was that the moment the Jade carving was completed, it seemed to suddenly have a spirit. It was clearly a lifeless jade carving, but it seemed to have a kind of righteous and fearless temperament, making people unable to help but feel respect.

Xia ruofei took the statue and admired it for a while. He was very satisfied.

He had sculpted a few things before, including A Doraemon pendant for Song Wei. Although they were all very realistic, they were not as good as the Guan Yu statue.

This was the effect of the visualization picture. Xia ruofei visualized the image of Guan Yu and then restored the charm on the Jade carving. Naturally, the effect was better.

He rested for a while and picked up another piece of Jade embryo.

As it was easier to sculpt this Guan Gong statue, and he already had the feeling, Xia ruofei continued to sculpt the Guan Gong statue.

After about ten hours, six lifelike jade statues of Duke Guan appeared beside Xia ruofei. At the same time, there was a pile of scraps of different sizes that Xia ruofei had carefully collected.

As time flowed 30 times faster at the Archean realm, Xia ruofei didn't even leave the spirit map space and continued to sculpt the remaining Jade embryos.

When he was tired, he would take a nap on the recliner. When he was tired, he would drink some water from the spirit pond. When he was hungry, he would just eat some biscuits.

It was also thanks to him being a cultivator that he was able to support such a high – intensity work.

The physical fatigue was secondary. This kind of work of carving Jade was more of a mental strain. If one was mentally tired, a slight shake of the hand might destroy a priceless jade carving.

To Xia ruofei, whose spiritual power cultivation had reached the stage of the spiritual palpitations, these problems were naturally not a problem.

Of course, to be safe, he would drink some of the spirit Heart Flower petal solution to recover after his mental power had been depleted. At the same time, he paid attention to the balance between work and rest. He would take a break after each jade carving.

Just like that, Xia ruofei stayed in the spirit map space for four to five days before he finished carving all the Jade.

There were eight Zhong Kui statues, six Guan Gong statues, five Guanyin statues, and four pearl chains. Each Pearl on the chain was hand – polished by Xia ruofei. They were of the same size and round, as if they were made by a machine.

Other than that, Xia ruofei also used some slightly bigger leftovers to make three pairs of earrings, five small pendants, and nine rings.

The designs of these small accessories were also scientifically designed according to the size and shape of the leftovers. There were water drop shapes, tree leaves, hearts, and so on. Although not many jades were used, each set was a treasure.

Xia ruofei felt a sense of accomplishment when he saw the black jade in his hands become a piece of art.

Of course, he had only completed half of his work. The next step was to engrave formation patterns on the inside of each Jade according to their characteristics.

However, Xia ruofei did not plan to finish it all in one go today.

Firstly, his spirit was also rather tired after continuously fighting. Inscribing array patterns was also a task that required a high level of concentration. It was even more tiring than carving Jade.

Secondly, he needed to think carefully about what kind of array pattern he was going to inscribe. He also had to deduce and practice in advance. He could only start inscribing when he was confident. This was not something that could be completed in a short time.

Xia ruofei didn't have any urgent need for these jade articles, so he left the spirit map space after he was done with the carving work.

Even with time flowing at thirty times the normal speed, Xia ruofei had stayed in the spirit map space for so long that three hours had passed in the outside world. It was already one in the morning in the outside world.

Hence, after Xia ruofei took a shower, he went straight to bed to rest.

.....

The next morning, Xia ruofei didn't make breakfast. Instead, he got up early and cultivated for a while. Now that he had a lot of crystals, he didn't have to cultivate on time.

At around Seven o' clock, Xia ruofei had already washed up. He dressed neatly and went downstairs to the company cafeteria for breakfast.

Xia ruofei had "disappeared" for more than ten days, but the employees did not feel anything. They were already used to the chairman being the boss.

However, Feng Jing, who did not know that Xia ruofei had returned, was shocked when she saw Xia ruofei sitting in the corner of the cafeteria, eating porridge.

She rubbed her eyes and looked a few more times before she was sure that she wasn't seeing things.

Feng Rao took her plate and sat opposite Xia ruofei. Then, she asked with a faint smile, "Comrade Chairman, you're finally willing to come back?"

Xia ruofei gulped down the porridge and took a paper towel to wipe his mouth. Then, he picked up a deep – fried dough stick, dipped it in the soy milk, and took a big bite.

Then, as he chewed, he said indistinctly, ""President Feng, you've worked hard ..."

Feng Jing didn't know whether to laugh or cry at Xia ruofei's thick – skinned behavior.

Xia ruofei saw her strange expression and asked, ""President Feng, did anything happen to the company while I was away?"

"I didn 't!" Feng Rao was a little confused.

"Then isn't it settled?" Xia ruofei took another big bite of the youtiao and continued, "this means that you've done your job well even without me! It also means that you didn't betray my trust!"

Feng Rao gloomily took a bite of her bun and said, ""Anyway, you're right, right? You're the boss!"

Xia ruofei smiled and said, "sister che, I know you've worked hard!" Please forgive me for being such an incompetent boss ..."

Xia ruofei's "sister che" made Feng Jing's heart soften. She knew that with Xia ruofei's personality, he would not be able to hold the position of Chairman.

Hence, Feng Rao sighed and said, ""It's okay ... I don't blame you. It's just that you've been out for a little long this time ... Don't go out again this morning! I need to report to you about the work I've been doing recently. "

"Don't worry! I'm not going anywhere this morning!" Xia ruofei said.

"This is more like it!" Feng Rao said as she looked at Xia ruofei.

At this time, another figure walked into the cafeteria and went straight to the window to get food.

Xia ruofei looked up and was stunned.

?

Chapter 1593: New ambiance.1

The person who walked into the canteen was Dong Yun, who was wearing a professional suit.

Xia ruofei saw Dong Yun picking up her plate and ordering food with ease. He was a little surprised. He pouted in her direction and asked, ""Sister che, is this lady still in our company?"

"You don't want her to stay in our company?" Feng Jing asked with a smile.

Xia ruofei shrugged his shoulders and said, "since she's someone you like, of course I hope that she can officially join the company!" But I thought they looked down on our company?"

"Don't say that when she's here!" Feng Jing said.

"What's the situation?" Xia ruofei quickly asked.

"Based on my observation these days, Dong Yun's impression of our company must have changed a lot." Feng Jing looked at Dong Yun and said in a low voice, "maybe it's because you stood up for her mother last time and even treated her mother's burn, so she has a good impression of our company. Her temporary consultant job was already over, but she didn't ask to leave ..."

Xia ruofei's eyes lit up and he asked, "Oh?" So there was a chance? Can we make her stay?"

Feng Rao smiled and said, "then I'll have to ask you, the chairman, to show respect to the wise!" You can find an opportunity to take the initiative to mention it to her! In fact, whether it's the position or the salary, our company is definitely not worse than those big companies in the world's top 500. As for the career development prospects, it depends on the individual's opinion. At least, I think that paradise Corporation has great potential, and if she stays, she will be a strong candidate for the Vice President. I believe she can see this. "

Xia ruofei nodded and then frowned. "It's not good ... For me to bring it up, right? Wouldn't there be a suspicion that he's forcing me to repay him?"

"Aren't your thoughts too complicated?" Feng Jing replied, "you already made it clear last time that you wouldn't force her to stay like last time. Now, she's the one who's willing to stay. You're the boss of the company, so if you don't have to break through this layer of paper, who else can do it?"

"You sound like you're wooing a girl ..." Xia ruofei said with a bitter smile.

"Dong Yun's not bad either! You don't like cold and beautiful women?" Feng Rao looked at Xia ruofei and asked with a faint smile.

Xia ruofei smiled bitterly. From the corner of his eye, he saw that Dong Yun had already prepared breakfast and was walking towards them. He quickly put on a straight face and said, "Let's not talk about this, she's coming!"

Feng Jing couldn't help but chuckle. She then waved at Dong Yun from afar.

Dong Yun glanced over and walked over.

"Director Xia, long time no see ..." Dong Yun said after glancing at Xia ruofei. At the same time, she nodded at Feng Jing and sat down beside her.

Xia ruofei was a little embarrassed. He scratched his head and said, "Good Morning!"

After Dong Yun sat down, she buried her head in her breakfast and did not say much. On the other hand, after a few looks from Feng Jing, Xia ruofei felt that it was inappropriate to speak. Thus, the breakfast ended in an awkward atmosphere.

Dong Yun was the latest to arrive, but she was the first to finish eating.

She picked up her plate and said to Feng Jing, "Boss Feng, I still want to go to the pharmaceutical factory to do some research today. Can you please arrange a car for me?"

"Oh, no problem! What time are you leaving?" Feng Rao asked with a smile.

Dong Yun raised her hand to look at her watch and then said, "If the pilot can make it in time, then ... In twenty minutes?"

"Alright!" Feng Rao readily agreed.

Dong Yun carried her plate to the staff in the canteen who were collecting the cutlery. Feng Jing beckoned for Lei Hu, who was also having his breakfast in the canteen, and immediately arranged for Dong Yun to use the car.

Lei Hu went to arrange the car while Feng Jing looked at Xia ruofei helplessly and said, "Ruofei, why aren't you saying anything? I'm not ..."

"Sister che, I don't know how to start!" Xia ruofei smiled bitterly. "We still need an opportunity for this. Besides, isn't it a little insincere to invite him in the cafeteria?"

"Maybe the opportunity you want hasn't even arrived, and she'll be poached by another company!" Feng Jing said unhappily, "do you think she's just a consultant in our company these days? She's already sent out God knows how many resumes, and there are many companies that are interested in her!"

"I know, I know ..." Xia ruofei smiled and said, "I'll be quick about this!"

"It's true that the Emperor isn't in a hurry ..." Feng Rao mumbled. She suddenly realized that the metaphor was inappropriate and had put herself in an awkward situation, so she shut her mouth in time.

"Sister ran, I'm done. What about you?" Xia ruofei tried to hold back his laughter.

"I've also finished eating!" Feng Rao hurriedly said, "don't run! Let's go straight to the office! I'll give you a report on my recent work!"

"Where can I run to!" Xia ruofei laughed bitterly and shrugged. "This is my own company!"

Feng Rao couldn't help but burst into laughter. The two of them carried their plates to the tableware recycling area and nodded to the employees who greeted them from time to time.

.....

In Xia ruofei's office, he and Feng Jing sat in the guest area.

Xia ruofei skillfully took out a tea set and started boiling water to make tea, while Feng Jing started to report on the company's recent work.

The first few days of Xia ruofei's absence were holidays, but the company's operations were still as usual, especially the pharmaceutical factory, which was still producing non-stop. Feng Jing was the first to report on the pharmaceutical factory's situation.

Now, whether it was the heart-nourishing soup or the jade skin cream, they had all become the first products of the peach blossom company.

Needless to say, the jade skin ointment was always sold out in the shortest time possible, and the supply was always in short supply.

Now, a new group of scalpers had been born. They specialized in buying the jade skin cream and then reselling it to earn the difference.

It was said that on some trading websites, the price of the authentic jade skin cream was a lot higher than the price that the peach blossom company officially sold, and there were even situations where the price was doubled.

Although the profit of heart – nourishing soup was relatively small, it could not withstand the support of the country! This was a great thing that benefited the country and the people. It was a blessing for those with autism. All the hospitals in the country hoped to get enough heart – nourishing soup, but with the current production capacity of Taoyuan pharmaceutical factory, it definitely couldn't meet the requirements.

Feng Rao gave a simple report of the situation and said, "We've already made arrangements for the expansion of production before the new year. The new production line will start installing and debugging soon, but the pharmaceutical factory has some concerns. The supply of raw materials is still unknown ..."

Xia ruofei said directly, "there's no problem with the raw materials!" I have my own channels! Tell them to be at ease!"

Both the Jade skin cream and the heart – nourishing soup were pure Traditional Chinese Medicine products, so they were very dependent on the raw materials.

However, the peach blossom company was well prepared. In addition to signing a large purchase contract in the early stage to guarantee the supply, they also signed a supply and marketing agreement with the farmers in the suburbs of Sanshan. The farmers were responsible for planting, while the peach blossom pharmaceutical factory provided technical guidance and was responsible for purchasing all the goods at the agreed price.

In addition, Xia ruofei's spirit map space had expanded several times, and there was a lot of idle land. He had already asked Xia Qing to continue expanding the herb garden.

Even if the outside world could not supply them, as long as the herbs Xia ruofei planted in the spirit map space could mature in batches, he was confident that he could ensure the supply of raw materials.

Hence, Xia ruofei was very confident.

"That's good!" Feng Jing heaved a sigh of relief and said, "there's one more thing. Our overseas business division has received many emails from foreign pharmaceutical companies. All of them, without exception, hope to be the retail agent for the heart nourishing soup overseas."

"There's no need to rush the foreigners!" Xia ruofei said, "we can't even meet the domestic demand! Good medicine must be given to our country's children first! Just let those foreign patients wait!"

In fact, if the heart – nourishing soup was sold abroad, it was normal for the price to increase by several times. After all, the main purpose of selling it in China was not to make a profit. However, there was no psychological pressure at all to make money from the foreigners.

However, Xia ruofei would rather not earn money and ensure the supply to the domestic market first. Although this was a little foolish in business, Feng Jing was still impressed.

Hence, Feng Jing did not try to persuade Xia ruofei. Instead, she continued with her report.

She had sorted out all the work she had done during this period of time, and a lot of the data was quite accurate and full. It was obvious that she had been well prepared.

Xia ruofei was also listening attentively with a focused expression.

The Paradise Corporation had a lot of business to do now. In addition to the pharmaceutical factory, they also sold paradise vegetables, wild Chinese perch, paradise Dahongpao, as well as the sales of *Dendrobium candida* and *Cordyceps sinensis*.

In addition, there were many different sales channels. In addition to the traditional offline channels, the development of e – commerce was also quite fast.

In addition, the company's structure was being adjusted, and many new departments were still in the process of getting used to each other. All kinds of work coordination also needed time to be straightened out.

Hence, Feng Jing reported quite a lot of things. From 8 am to 10 am, Feng Jing spoke for more than two hours.

Xia ruofei was not impatient at all. He listened attentively. At the same time, he was filled with admiration and gratitude towards Feng Jing. With such a responsible and capable general manager, how could paradise Corporation not prosper?

"Sister che, it's been hard on you!" Xia ruofei said sincerely.

Under Xia ruofei's gaze, Feng Rao's face heated up and she said softly, "Why are you suddenly so polite?"

"It's just an emotional speech!" Xia ruofei smiled and said, "sometimes, I feel that I'm really lucky to have you as my general!"

"Then why don't you treat me better?" Feng Rao chuckled. Be careful, I might jump ship and run away!"

"It's a must!" Xia ruofei said, "I'll inform the Human Resources Department and give you a raise!"

"Don't mess around!" Feng Rao quickly said. The personnel grading system has just been implemented, and everything has to be backed up by evidence. You, as the boss, can't be the first to break the rules and create a local policy!"

Xia ruofei chuckled and said, "then I'll just give you another share ..."

"You can stop!" Feng Rao was so shocked that she stopped Xia ruofei before he could finish his sentence. She said, "I'm not done reporting! Don't interrupt!"

"Is there anything else?" Xia ruofei felt a little strange. "I feel like you've almost finished explaining the company's business!"

"I really don't know what kind of boss you are!" Feng Jing rolled her eyes at Xia ruofei and said, "have you forgotten about the most important task?"

Chapter 1594: The yacht exhibition (1)

Seeing Xia ruofei's confused face, Feng Rao could not help but say in a bad mood, "The headquarters is moving! How could you forget such a big thing?"

Xia ruofei patted his forehead and smiled awkwardly. "You're talking about this! How could I forget! Isn't that a bit of a short – circuit in his brain?"

Then, Xia ruofei asked again, "is the progress so fast?" We can move already?"

"Jianda is placing a lot of importance on this project," Feng Jing said. "If it weren't for the Spring Festival holiday, the construction period would have been even shorter!" Even during the spring Festival, the construction of the building hasn't been completely stopped. It's just that the manpower has been reduced by about half ..."

Feng Rao took the teacup from Xia ruofei and blew on it gently. She took a sip and continued, "After the holiday, jianda sent more people over, and the progress is very fast. Now, the internal decoration work is basically completed, and we're in the final stage of cleaning up."

Xia ruofei nodded and said, "I'll give uncle Liang a call to express my gratitude."

Then, he asked again, "sister ran, isn't it a little inappropriate to move in after the renovation has just been completed?" Would it affect the health of the employees? In fact, we're not in a hurry. If it doesn't work, we can just let it dry and ventilate the room. "

Feng Jing laughed and said, "jianda used the best environmentally friendly materials for our renovation. The office furniture we purchased is also very environmentally friendly. In theory, the release of formaldehyde shouldn't exceed the standard. However, after the construction is completed, we will hire a professional company to conduct a Comprehensive Environmental test. If the standard doesn't meet the standard, we won't move in. We can't treat our employees' health as a joke."

"This is the right thing to do!" Xia ruofei said seriously, "no matter how urgent it is, the employee's health is the most important."

Then, Xia ruofei continued, "sister ran, even if it passes the test, it's best that we air it for a few days. I heard that formaldehyde is a long – term process." Also, set up more devil's ivy in the office and buy some tea stems to absorb the taste. "

"I know!" Feng Rao grinned. Don't worry!"

The two of them continued to chat about the daily work at the company. Feng Jing only left Xia ruofei's office at around 11 am.

Seeing that it was almost time to get off work, Xia ruofei decided not to sneak out today. He stayed in the office for a while to have some tea while thinking about the company's future development.

Now, it could be said that all kinds of business were thriving. Basically, every product line was bursting with popularity, and all of them were in a state of supply shortage.

This was something that would never happen in other companies.

It could be said that Xia ruofei's biggest worry now was not the sales volume, but how to increase production in all aspects.

This not only included the most basic business of the Tao Yuan company, which was the Tao Yuan vegetables and fruits, but also included wild Chinese perch, Dendrobium candida, Cordyceps, tea leaves, and so on.

Of course, it was even more so for the pharmaceutical factory. Now, the trucks to pick up the soup were lining up outside the factory all night. In order to get one or two boxes of heart – nourishing soup, the people in charge of purchasing from major hospitals were basically stationed in San Shan. They spent all day in the factory office, pestering and pestering.

What Xia ruofei felt the most annoyed about were undoubtedly the profiteering products, such as the iron – Skin Dendrobium and Cordyceps sinensis.

Now that the area of the spatial zone had expanded by several times, the mountain and sea realm could be said to be vast and boundless. Logically speaking, it was completely possible to expand production.

However, this involved the most realistic problem, which was the serious lack of manpower.

The most obvious problem was the aweto. Xia ruofei personally worked with Xia Qing on the harvest of this batch of aweto, day and night.

But the aweto had to be carefully dug out from the ground one by one, and the soil had to be cleaned in the later stage, which was time – consuming and laborious. Even if Xia Qing could work without sleep or rest, the amount of work she could complete was limited.

The current size of the aweto plantation had basically reached its limit.

It was like there was a mountain of gold in front of him, but he could not dig it out. Xia ruofei felt as uncomfortable as a cat scratching at his heart.

From the looks of it, unless Xia ruofei lost his mind and captured a large number of people into the spirit map space, then imprisoned them forever in the spirit map space to work for him, it was basically impossible to expand the production of a time – consuming and laborious product like the Cordyceps.

Of course, Xia ruofei would not do that.

He let out a long sigh and muttered to himself, "If only I could have a dozen Xia Qing ..."

He let his thoughts run wild for a while and then shook his head. He no longer thought about these temporarily unsolvable problems. Instead, he used this little time to think about what formation patterns to carve on the black jade carvings.

After the last intensive study, Xia ruofei's array Dao level had improved. In addition, whenever he was free these days, he would take the Dao bone of illusionary beast to feel the array Dao. It could be said that his realm improvement was relatively fast.

Now, Xia ruofei had mastered 20 to 30 types of array patterns. As for what array patterns to use and how to match them, Xia ruofei had to think carefully.

These black jade carvings were mainly in the shape of a Bell or a statue of the Lord of Guan. Their function was naturally to ward off evil spirits and disasters. Hence, Xia ruofei had also focused on the formation patterns in this area.

?

Chapter 1595: The yacht exhibition (2)

As he thought, he drew on the paper and confirmed a few formation patterns.

As for which one or several he would choose, Xia ruofei would need to further deduce and experiment.

Naturally, these things could not be done in the office.

Xia ruofei looked at the time on the wall clock. It was 12 o'clock. He packed his things, stood up, and walked out of the office.

Since he was alone, Xia ruofei did not bother to open the fire and ate his lunch in the canteen on the first floor.

Dong Yun, who had asked for a car in the morning, did not return to the farm in the afternoon.

Xia ruofei was still thinking about how to ask Dong Yun to stay and work. Now that Dong Yun was not back, Xia ruofei's plans to bring up the topic were all in vain.

After lunch, Xia ruofei did not go back to the villa to rest. Instead, he drove the overbearing Knight XV off-road vehicle out of the farm and headed straight to the city.

After dinner, he was scrolling through the news on his phone out of boredom when he happened to see a yacht exhibition being held at the Sanshan Convention and Exhibition Center. He immediately had the idea of going to take a look.

He mainly wanted to see if there were any suitable yachts or motorboats. He wanted to buy one and put it in the spirit map space.

The ocean in the mountain and sea realm was increasingly vast. Furthermore, the spirit Herb Island was protected by a barrier, making it impossible to directly teleport over. If one did not want to swim to the island every time, it was extremely necessary to purchase a suitable means of transportation on the sea.

Xia ruofei was the kind of person who would do what he said. Besides, he was not short of money now, so he drove directly to the seaside Strait Exhibition Center in the southern suburbs of Sanshan city.

After alighting from the airport Highway, the car went straight to the winding highway. They crossed Min River through Gushan bridge. Xia ruofei drove down the ramp skillfully and followed the jiangbin highway to the exhibition center on the side of Min River.

After all, yachts were relatively niche consumer goods. Therefore, the yacht exhibition was not as popular as the auto show. Xia ruofei did not encounter any traffic jams along the way and easily found a parking space in the exhibition center.

After he bought a ticket at the entrance, he entered the exhibition center.

The yacht exhibition was not in the traditional exhibition hall. Instead, it was in the water exhibition hall of the exhibition center. Xia ruofei followed the direction signs and arrived at the yacht exhibition site in a short while.

On the shore, colorful flags fluttered, and various brand posters and advertisements could be seen everywhere.

Not far away, dozens of yachts of various sizes were anchored. Some temporary passages were set up to allow visitors to admire these yachts at a closer distance.

Of course, if they encountered a yacht that they were interested in, they could also apply to board the yacht for a tour.

There were not many people at the yacht exhibition. Once Xia ruofei arrived, a staff member came to receive him.

"Sir, are you here to see the yacht?" A well – dressed young man came up and said, "our yacht in azmu Italy, is very popular with high – end users. Many world – Class rich people are our customers. Are you interested in learning more about it?"

Although Xia ruofei looked very young and was dressed very ordinarily, the staff did not judge a book by its cover and was very friendly.

Xia ruofei looked at the yacht not far away with interest and asked casually, "There's quite a number of yachts here for the exhibition!"

The young man smiled and said, "there are about 40 brands participating in this yacht exhibition. There are more than a dozen world – Class brands like azmu. In addition, there are some well – known domestic brands, including those from taishen Bay."

"If I order a yacht from the exhibition, can I get it in stock?" Xia ruofei asked again.

The young man was stunned. Although there were more and more rich people in the yacht exhibition, it was rare to see someone like Xia ruofei who did not understand the situation and only cared about whether there were any yachts in stock.

A yacht was not like a car. The cheaper ones were tens of thousands or hundreds of thousands. The more expensive ones were hundreds of thousands. One or two million was considered a luxury car.

These yachts cost tens of millions or even hundreds of millions.

Even the rich and powerful would have to understand the parameters in detail and compare them repeatedly before buying.

The young man gave Xia ruofei a strange look, but he still answered with all his heart, "Sir, the yacht is usually ordered. It's very rare to have it in stock, but after the order is placed, the factory will speed up. You'll only have to wait one or two months at most before you can see the yacht you like. Moreover, azmu also provides a custom service. We can arrange the configuration according to your personal preference."

"Is that so ..." Xia ruofei thought for a moment, then pointed at the motorboats not far away and asked, "what about the motorboats?" You should have some in stock, right?"

The young man was even more dumbfounded. He thought to himself, why is this person kicking me in the sky and in the ground? Could a motorboat be compared to a yacht? The price was less than a fraction of the yacht, right? It seemed like this person didn't really want to buy it ...

The young man was a little depressed, but he still said professionally, "There should be some motorboats in stock, but I don't know much about them. Sir, you can ask their staff."

"Okay, thank you!" Xia ruofei nodded.

He turned around after taking two steps and said, "Do you have a brochure on your yacht? If there is, give me a copy. I want to understand the situation!"

"There are! Please wait a moment!" The young man quickly handed a beautifully printed picture book to Xia ruofei. "My number is on this. If you need anything, you can contact me directly!"

He was just making a bet and did not expect Xia ruofei to really buy a yacht.

Xia ruofei smiled as he took the album and walked towards the motorboat.

There were about six or seven motorboat brands on display.

Compared to the luxury yachts, the motorboats were obviously more popular. After all, this was something that even civilians could afford. Although not many people would spend 100000 or 200000 Yuan on a motorboat to play with, unless they were rich.

When Xia ruofei arrived, many staff members came to receive him.

After briefly understanding the situation and confirming that there was stock in stock, he ordered pang Bo's happiness GTR engine 230 without much comparison.

Pombardi was a brand under pombardi, the famous aircraft manufacturing company.

The motorboat had an Ergolock system and a new powerful pressurized 230 – horsepower Rotax engine. It was very well maneuvered.

It only took 5.29 seconds to accelerate from 0 to 60 mph (equivalent to 96.6 km/h).

After reading the introduction, Xia ruofei fell in love with this ferocious water beast. He did a quick search on the internet and found out that it was the top brand among the motorboats. Hence, he placed the order without hesitation.

Because the total price of this motorboat was only about 150000 Yuan, this amount of money was really small for Xia ruofei. He directly paid the full amount with his card on the spot.

The goods were already prepared at the exhibition hall, but they were not in the water exhibition hall.

After Xia ruofei had paid the money, pang Bo company would be responsible for transporting the motorboat to the designated location.

Naturally, Xia ruofei chose the warehouse in the city. However, he could not send it back to the farm. If it disappeared, he would not be able to explain it.

Pang Bo needed to transfer the goods to the land exhibition hall where they stored the physical stock. He also needed to transfer the transport vehicles, so it would take some time.

Xia ruofei was not in a hurry. While he was waiting, he flipped through the brochure that the saleswoman from azmu had given him.

In fact, Xia ruofei had heard of the azmu yacht. When he was in Hong Kong, the MA family had already ordered a super luxurious azmu yacht.

When Xia ruofei was experiencing the yacht, he had praised it and Ma Zhiming had almost given it to him without a word.

In Australia, Xia ruofei had also been on Tang Yitian's yacht, which was also azmu 's.

This meant that the top rich people loved this brand.

Xia ruofei looked at the yachts in the beautiful picture book and suddenly had the idea of ordering one ...

?

Chapter 1596: Dude, an azmu!_1

If Xia ruofei wanted to buy a yacht, he would first consider using it in the spirit map space. Although the sea there was not as vast as the outside world and he was alone, he could still enjoy the pleasure of sailing on a yacht.

As for using it in the outside world, there were still too many problems. First of all, it needed a yacht berth, which was difficult to find even within the three mountains.

It was said that San Shan was building a yacht dock near the exhibition center, but it would not be completed until the end of the year or even next year.

The mainland was not like Hong Kong, where the rich basically had private yacht docks. Yachts were still new in the mainland, and the relevant supporting security was not as complete as in Hong Kong.

If it was used in the space, it would not be so troublesome. No one would care if it was parked or not, and there was no need to worry about safety. Xia ruofei could specially build a small space to place the yacht, which was definitely more stable than anchoring.

Of course, in the long run, Xia ruofei would still need a yacht dock. After all, there would be some maintenance work to do.

After setting his initial goal, Xia ruofei had his own choices.

First of all, the size of the yacht could not be too big.

It was obvious that the size the yacht, the more troublesome it would be to deliver it. Besides, the target was so big that Xia ruofei could not store it in the medium without anyone knowing. After all, there were satellites in the sky!

Even if he had the chance, it would be difficult for Xia ruofei to store a luxury yacht that was dozens of meters long into his medium with his current spiritual power.

Therefore, he eliminated the larger models first.

In the end, Xia ruofei chose the “azimutatlantis 34” model.

This model of yacht was only about 10 meters in length, and its various performance parameters looked very good.

Most importantly, Xia ruofei knew that a yacht of this size would definitely not be driven over to hand it over to Yingluo. How could such a small yacht cross the ocean?

Therefore, he didn’t need to think to know that it was possible that it was carried by sea or by a cargo ship.

By then, Xia ruofei could ask for the yacht to be sent to his warehouse. The yacht was only about the length of a large truck, and the warehouse could accommodate it.

By then, Xia ruofei would be able to keep it in the medium without anyone knowing.

There was nothing more suitable than this.

After Xia ruofei made up his mind, he flipped to the cover of the album. There was a business card here. It was the business card of the salesperson just now.

He took a look and saw that the salesperson’s name was Liao Bo.

It was a very cool business card. Other than the azmu , there were only a few lines of handwritten names, contact information, and other information. On the back was a sketch of a yacht. It looked very simple and elegant.

Xia ruofei dialed the number on the list and the call went through quickly. It seemed like the business volume of this high – end Yacht Sales was not that big.

“Hello!” Liao Bo said with great enthusiasm.

“Hello, I’m the guest you just received.” Xia ruofei asked, “are you still at the yacht exhibition area? I’d like to know more about buying a yacht. ”

Liao Bo was both surprised and happy. He quickly said, “It’s here! It was there! Sir, where are you? I’ll be right there!”

Xia ruofei looked around and said, “The Pombo motorboat exhibition is right next to me ...”

“I know that place! Please wait a moment, Sir, I’ll be there immediately!” Liao Bo said excitedly.

After a while, Liao Bo strode over. He recognized Xia ruofei from afar, mainly because when Xia ruofei mentioned the motorboat exhibition area, he immediately thought of the strange guest.

“Hello, Sir!” Liao Bo extended his hand enthusiastically.

Xia ruofei shook his hand and smiled. “Hello, manager Liao!”

“I don’t dare! You can call me little Liao, Sir!” Liao Bo said, then asked, “may I know your name, Sir?”

“My surname is Xia!” Xia ruofei smiled and said, “Xiao Liao, I mainly want to know more about the Atlantis 34 model.”

Xia ruofei said as he pointed at the picture in the brochure.

Liao Bo was obviously very familiar with the yachts he was in charge of sales. He said without thinking, “Mr. Xia, this is a small yacht under azmu. It has excellent performance and is suitable for offshore use!”

Liao Bo introduced, “we call this yacht a sports elf that has integrated high – tech dance music.” Elegant restaurant design, a completely open soft roof, an independent water platform, an ergonomic steering room ...”

“It has a gorgeous exterior and a comfortable interior. Space, lighting, and storage space were the main considerations of the design. The dining area could also be converted into a bed, and the multi – functional kitchen could allow you to enjoy cooking to your heart’s content. When you’re done with the sun and rain, you can relax and rest on the bottom deck without any worries; The master bedroom was isolated from the other spaces and had complete privacy! “And it also comes with a comfortable shower room that can be entered individually ...” Liao Bo continued to speak with fervor and assurance.

“It looks like a Sparrow has all its organs despite its small size!” Xia ruofei smiled.

“Every yacht under azmu is dedicated to the ultimate experience of our customers, and this size sports yacht is no exception!” With a hint of pride in his expression, Liao Bo said, “Mr. Xia, if you order now, we will also provide a special discount for this yacht exhibition!”

?

Chapter 1597: Dude, an azmu please!_2

“Oh? “Tell me ...” Xia ruofei smiled.

“First and foremost, the most affordable thing is the discount on the price. This yacht, including import tariffs and luxury goods taxes, will cost about 3.6 million Yuan in total.” Liao Bo said, “when we attend the yacht exhibition this time, we will give our interest to our customers directly in terms of price. The total discount is as high as 100000 Yuan!”

Xia ruofei maintained a faint smile and looked at Liao Bo, who had an exaggerated expression, without saying a word.

Liao Bo looked at Xia ruofei and continued, “Also, if you buy this yacht, you’ll become a member of the azmu Huaxia region Yacht Club, and you’ll be exempted from the annual fee for the first two years. The annual fee is 50000 Yuan per year.”

Liao Bo saw that Xia ruofei still did not speak and hurriedly explained, “Mr. Xia, if you become a member of our Yacht Club, you can enjoy a lot of valuable services. We also organize some exchange activities regularly, and members can participate in them for free.”

Rich people generally valued this kind of exchange. The exchange activities organized by high – end yacht clubs were naturally a good opportunity to expand their network.

However, Liao Bo did not know that Xia ruofei did not care about such exchanges. It was because his connections were beyond Liao Bo’s imagination. He did not need to participate in such exchanges.

Besides, Xia ruofei had no intention of using the yacht in the outside world. How would they communicate then? They were going on a yacht. Was Xia ruofei going to rent a motorboat to join the fun?

Liao Bo saw that Xia ruofei did not show any sign of interest and could not help but feel anxious. He gritted his teeth and said, “Mr. Xia, if you really want it, I can apply for a lower price for you. I really can’t give you any more discounts with my authority ... In addition, I’ll apply for some other gifts from the company, such as ... A seven – day stay at the Four Seasons Hotel, worldwide! This is only available when you order a large yacht ...”

Xia ruofei couldn’t help but laugh. “Okay, okay, little Liao, I didn’t say I didn’t want to buy it ...”

Only then did Liao Bo realize that he seemed to be a little anxious.

In fact, many customers who were willing to spend millions on a yacht did not care about a discount of tens of thousands of Yuan, not to mention a small favor like a five – Star hotel ticket. He knew that he should focus on service.

Thinking of this, Liao Bo said sincerely, “Mr. Xia, our company values every customer very much. You’ve chosen azmu’s yacht, which means you’ll be able to enjoy the best service. In fact, buying a yacht isn’t just a deal. More accurately, it should be a reward for yourself. It can bring you a completely different life experience ...”

Xia ruofei heard Liao Bo’s bewitching words and asked with a smile, “Xiao Liao, I only have two questions I’m concerned about. One is if I place an order on the spot today, when will the earliest be able to deliver it?”

Liao Bo couldn't help but feel invigorated. When he talked about this question, it usually meant that the deal was very close. Otherwise, the customer would not ask such specific questions.

"Even if we start manufacturing this model now, it won't take too long," he quickly said. "The specific delivery time depends on the personalized configuration you choose, but under normal circumstances, it won't exceed two months."

Xia ruofei was quite satisfied with this answer. He nodded and asked, "There's one more question. How are we going to deliver the yacht?"

"The yacht will be produced in our company's Italy headquarters. After completion and inspection, it will be declared into the country through the sea shipping channel as per normal customs declaration. We will send it to the yacht dock you designated ..." Liao Bo said without thinking.

"What if I don't want to receive it at the dock?" Xia ruofei said, "let's put it this way! I hope you can send this yacht to the warehouse I've specified. Can you do that?"

"No problem!" Liao Bo said without hesitation, "we've always put our customers first!"

If Xia ruofei wanted to buy a large yacht that was tens of meters long, Liao Bo might have hesitated. After all, it would be very troublesome to transport such a size yacht on land. However, this small yacht that was ten meters long would not have such a problem at all. An ordinary flatbed could handle the transportation task.

Xia ruofei nodded in satisfaction. "OK! There shouldn't be any problems then! I'll order this one! How do I pay?"

Liao Bo was overjoyed and quickly said, "Mr. Xia, it's like this ... After you choose the specific personalized configuration, we will calculate a specific price, which includes the cost of the yacht purchase and all kinds of taxes incurred during the import. You only need to pay a 50% deposit, and after the yacht has been delivered and accepted, you can pay the remaining 50%!"

"Understood!" Xia ruofei said, "then let's go through the procedures!"

"This way, please!" Liao Bo said hurriedly and then led the way enthusiastically.

He brought Xia ruofei out of the yacht exhibition area and into Hall 9, which was adjacent to the outdoor exhibition area. There, service counters were set up for all the yachts of major brands. The two of them soon arrived at the service counter of azmu.

Liao Bo was busy calling for the service staff to serve Xia ruofei tea. He brought Xia ruofei to the sofa in the guest area and sat down. He skillfully found a small booklet and handed it to Xia ruofei. "Mr. Xia, this is the configuration list of the Atlantis 34 yacht. You can take a look first and we'll decide on them one by one later!"

?

Chapter 1598: Dude, an azmu (3)

Xia ruofei flipped through the list. It was very detailed. There were many parts that could be chosen freely, including the overall color scheme of the yacht, the interior materials, and many other electronic devices. There was a lot of stuff.

Liao Bo took out a list and confirmed it with Xia ruofei.

Xia ruofei chose the more technological silver as the main color tone and the best interior design. At the same time, he added facilities like a Jacuzzi that the standard version did not have. Naturally, he also had the best electronic equipment.

It was the first time Liao Bo had met such a straightforward customer. In a short while, the entire configuration form was filled in.

Liao Bo took the list to the service desk and began to calculate the price according to the configuration table.

After double – checking, Liao Bo walked over to Xia ruofei and said, “Mr. Xia, because you’ve added a lot of optional functions, the final price is 3.86 million Yuan. According to the preferential policy of our yacht exhibition this time, I specifically applied for the biggest discount within the manager’s authority, and the final price can be 3.7 million Yuan! In addition, we’ll give you a two – year membership fee – Free for the Yacht Club, as well as a seven – day stay ticket for the Four Seasons Hotel!”

Liao Bo then looked at Xia ruofei with a fervent gaze.

Xia ruofei smiled and said, “sure. 50% down payment, right?” Where can i swipe my card?”

Liao Bo quickly said, “Mr. Xia, this is the order contract. The configuration list that we have just confirmed is also attached. Please take a look and sign it if there are no problems!” Let’s go to the service desk to pay after you sign. ”

Xia ruofei nodded. He took the order contract and quickly flipped through it. With his current brain’s computing speed and memory, even if he only took a cursory glance, it would be impossible for Liao Bo to escape his eyes if he really wanted to tamper with the configuration or the contract.

“No problem!” Xia ruofei said as he picked up the pen on the table and signed his name.

Liao Bo brought him to the front desk to pay 1.85 million Yuan with his card and made a receipt. At the same time, he also applied for a gold – stamped Yacht Club membership card for Xia ruofei.

Then, Liao Bo asked for Xia ruofei’s identity card and made a few copies. At the same time, he took out a letter of authorization for Xia ruofei to sign. This was to entrust their company to handle the import of this yacht.

After everything was done, Liao Bo shook hands with Xia ruofei enthusiastically and said, “Mr. Xia, thank you for choosing our azmu brand! If you have any problems with the delivery of the yacht, you can contact me by phone!”

Xia ruofei smiled and nodded.

At that moment, his phone vibrated. He put the purchase contract under his arm and waved goodbye to Liao Bo. He picked up the phone as he walked out of the exhibition hall.

"Hello, is this Mr. Xia?" A young voice asked.

"I'm Xia ruofei, Who are you?"

"Hello, Mr. Xia. We are the staff of pang Bo company!" The young voice said enthusiastically, "we've installed the motorboat you just ordered. May I know where you are now?" Can we set off now?"

"Oh, no problem!" Xia ruofei said, "I'm in Hall 9 now. Where are you guys?"

"Our car is at the West exit of the exhibition center."

Xia ruofei thought for a while and said, "how about this?" I'm going to the parking lot to get my car now. You guys wait for a while, and we'll meet at the West exit!"

?

Chapter 1599: Returning to Spirit map Island (1)

After Xia ruofei got his car, he met up with the staff from pang Bo company at the West exit of the exhibition center.

The motorboat wasn't big, and it was loaded into an ordinary cargo truck with the Pambo company sprayed on it.

Xia ruofei drove the Knight XV off – Road vehicle and led the way. The two cars left the exhibition center one after the other and went straight to Xia ruofei's warehouse in the city.

The location of the warehouse and the exhibition center happened to be one in the South and one in the North. It took about 40 minutes to go around the three warehouses.

When they arrived at the warehouse, Xia ruofei parked the Knight XV a distance away and went over to open the door.

The door of the warehouse was very high, so the van was directly poured into the warehouse. More than half of the van was inside the warehouse.

Then, the staff of pang Bo company opened the carriage door and pressed a button. Two sliding rails slowly extended out of the carriage and finally touched the ground.

Then, the motorboat that was fixed on the frame slowly slid down along the special slide and was finally completely unloaded on the ground of the warehouse.

With a sizzling sound, the two sliding rails slowly retracted. The entire process of unloading the truck was very easy and fast.

A staff member came to Xia ruofei with the receipt and said, ""Mr. Xia, please take a look at the goods. If there are no problems, please sign here."

The model and color of the motorboat were all correct. Xia ruofei believed that such a big company would not play any tricks on this issue. So, after a simple check, he signed his name.

"Thank you!" The staff member said politely, "the instruction manual, maintenance card, and so on are all in the storage box of the motorboat. This fixed frame comes with it, so it can be easily transported when you need to go out to sea."

"Alright, thank you for your hard work!" Xia ruofei politely shook hands with the staff and personally sent them out of the warehouse.

Xia ruofei turned around and closed the warehouse door. Then, he walked to the front of the motorboat.

The GTR engine 230 had a beautiful streamlined body, and the red and black colors were quite cool. Xia ruofei could not help but look forward to driving it on the sea.

After admiring it for a while, Xia ruofei had an idea. He kept the entire motorboat and its frame into the spirit map space, then went out and drove back to the farm.

The trip took almost the entire afternoon. Xia ruofei went to the staff cafeteria for dinner and then returned to his small villa.

He quickly returned to his room, locked the door and windows, summoned the spirit map scroll, and entered the medium.

Mountain and sea realm.

Xia Qing was curiously looking at the motorboat. Even the realm Fox was sticking its head out and looking at it. It timidly stretched out its claws, but before it could touch the motorboat, it quickly retracted them.

Xia Qing had seen all – terrain vehicles and small excavators before, but the white fox had never seen such things before! In its eyes, it was undoubtedly a terrifying monster.

"Master!" When Xia Qing saw Xia ruofei, she quickly and respectfully greeted him.

Xia ruofei nodded and walked over to pick up the kit hanging on the rack.

He took out a wrench, screwdriver, and other tools from inside and began to skillfully untie the motorboat's fixation device.

"Master, What is this?" Xia Qing couldn't help asking.

Xia ruofei quickly turned the wrench and said without looking up, ""Motorboat, for the sea!"

"Use it in the sea?" Xia Qing turned pale with fright, "won't this metal guy sink in the sea?"

Xia ruofei laughed and said, "Xia Qing, who said that iron will definitely sink into the water?" Not only will this thing not sink in the sea, but it can also be driven very fast!"

"This ... This is impossible!" Xia Qing said with a shocked expression.

"Nothing is impossible! Have you ever seen an iron thing that can fly in the sky?" Xia ruofei said, "you've never seen it before, have you? But this is true."

Planes were usually made of aviation aluminum, not steel. However, Xia ruofei was too lazy to explain in detail.

Including the principles of buoyancy and density in water, it was hard to explain in a short time. So after he said this, he didn't care about Xia Qing who was in a mess in the wind and continued to work.

In a short while, Xia ruofei had removed the motorboat from the scaffold.

It was too easy to move the motorboat in space. Xia ruofei only had to think about it and he gathered the invisible force of space to wrap the entire motorboat.

Then, the motorboat slowly drifted to the beach, and Xia ruofei followed behind.

When she saw with her own eyes that the motorboat did not sink when it landed on the sea, but drifted with the waves, Xia Qing's mouth opened so wide that an egg could be stuffed in it.

Xia ruofei laughed. With a flash of his body, he appeared on the motorboat.

"Little guy, do you want to come up and try?" he called out.

The white fox was also by the sea, looking curiously at the motorboat and Xia ruofei who was on it.

Hearing Xia ruofei's words, the White realmfox looked conflicted. However, its curiosity triumphed over its fear and it nodded its head firmly.

Xia ruofei gave the white fox a thumbs up. Then, with a thought, he used his spatial energy to bring the white fox to his side.

?

Chapter 1600: Returning to Spirit map Island (2)

Xia ruofei placed the realm Fox in front of him and said, ""Hold on tight to my clothes, I don't care if you fall!"

The white fox was curiously observing the motorboat. It wanted to figure out why something made of metal would not sink in the water, so it did not pay much attention to Xia ruofei's warning.

Xia ruofei chuckled and ignored it. He started the engine of the motorboat.

This sudden burst of Tutu sound startled the realm Fox, and its body subconsciously curled up.

"Let's go!" Xia ruofei patted the white fox and laughed.

Then, he clenched the handle and twisted the accelerator with his right hand. The sound of the motorboat's engine increased again, and the whole boat shot forward like an arrow leaving the bow. It plowed a ditch on the sea, and white water splashed on both sides. The scene was spectacular.

Under the huge inertia, the white fox's body was pushed back. Fortunately, Xia ruofei was there to block it. Otherwise, it would have been sent flying.

The little fellow was so scared that its face turned pale. This time, it didn't need Xia ruofei's reminder. Its claws clung onto Xia ruofei's belt, not daring to let go for even a moment.

Xia ruofei's childlike innocence was also activated. He controlled the motorboat to drift on the sea, and a large amount of water was rolled up. Xia Qing, who was on the shore, was also amazed.

Although Xia ruofei could easily achieve such a speed in this space without the motorboat, as a man, he was almost inborn with the excitement of such high – speed control. He felt that his adrenaline was soaring.

Xia ruofei was having a great time on the sea and did not even notice that he was drenched.

However, the white fox was in a bad state. When had this little fellow ever experienced such an exciting thing? It only knew to subconsciously grab Xia ruofei's clothes and belt tightly. It curled up into a ball and was so scared that it did not even dare to open its eyes.

It was only when Xia ruofei had slowed down to his heart's content that the White realmfox opened its eyes and looked outside. Then, it quickly shrank back into Xia ruofei's arms.

Xia ruofei laughed, "little guy!" Exciting! Do you want another wave?"

The white fox quickly shook its head like a rattle – Drum and mumbled to itself that it would never want to experience such an experience again.

"Ignorant!" Xia ruofei said, "alright, I'll send you back!"

Xia ruofei drove the motorboat straight to the beach and let it rest on the beach. He then carried the white leopard and landed on the beach steadily.

"How is it? This metal can float on the surface of the sea and move forward at high speed. I didn't lie to you, right?" Xia ruofei asked with a smile.

Xia Qing was still in shock. He nodded his head numbly and muttered, "This is unbelievable ..."

Xia ruofei laughed and put the white leopard down.

The little guy ran away like a wisp of smoke, as if the motorboat was a poisonous snake or a ferocious beast.

"I'm going to change my clothes. Wait for me here!" Xia ruofei said.

"Yes, master!" Xia Qing replied respectfully.

With a thought, Xia ruofei immediately teleported to the Archean realm. He changed out of his drenched clothes and changed into dry and comfortable casual clothes before returning to the mountain sea realm.

“Master, this mo ... Tuo ...”

“A motorboat!” Xia ruofei reminded.

“Yes, this motorboat is a godly item! This subordinate’s horizons have been greatly broadened!” Xia Qing said.

Xia ruofei smiled and said, “this is a very common thing in the outside world. There are no powerful cultivators in the outside world, but technology is very advanced. The machine that can fly like I just said was made by ordinary people.”

In fact, Xia ruofei was already used to the technological products of the outside world. In comparison, he was more amazed by the creativity of cultivators. Whether it was the magical array or the various cultivation techniques, they were all different from the evolutionary path of technology.

Take Xia Qing as an example. She often gave Xia ruofei the illusion that she was a living person. It could be said that this level of artificial intelligence had far exceeded the artificial intelligence technology of the outside world.

Thinking of this, Xia ruofei couldn’t help but think of the problem he was facing. The space was getting wider and wider. He could clearly use this large piece of land and the unique environment to do more things, but he was facing a shortage of manpower, which made it difficult for him.

Xia ruofei couldn’t help but sigh and said, “Xia Qing, it would be great if there were more spiritual spirals in the space ... There are many things that you can’t handle by yourself, especially when it comes to harvesting Cordyceps ...”

Xia Qing said, “master, in fact, your control over the spirit map world is getting stronger and stronger. As long as you continue to let the spirit map world evolve, there will come a day when you will be able to have absolute control over every blade of grass, every tree, and even a speck of dust. At that time, things like harvesting Cordyceps, you can do it with a single thought!”

Xia ruofei also knew that Xia Qing wasn’t exaggerating. He could also feel that his compatibility with the space was constantly increasing. In theory, when this kind of control reached the extreme, he would become the absolute master of this space, just like the creator.

At that time, he could harvest all the Cordyceps in the soil with a single thought. Not only would he not hurt them at all, but he could even clean the soil on the surface of the Cordyceps.

However, this was only in theory! Only God knew how many more upgrades he would need to make to reach this level.

At least for now, Xia ruofei knew that he was still far from that level.

“Distant water can’t quench present thirst!” He could not help but smile bitterly.

“Master,” Xia Qing said after some thought, “why don’t you take a look around spirit map Island? maybe you can find a solution!”

Xia ruofei couldn’t help but turn to look at the small island in the distance. His voice was a little excited. “Are you saying that there’s a way to create spiritual spirals on that Island?” 1

Although Xia Qing had a lot of restrictions, spirit map Island had already been unsealed, so there was nothing she couldn’t say.

He smiled and said, “there is a thatched cottage in the depths of the spiritual herbal gardens. There are refining notes left behind by the previous master. Among them is the method of making puppets. However, this method is very complicated. Master, you still have to be mentally prepared for failure.”

Xia Qing was talking about puppets and not soul puppets, and she also said that the manufacturing method was very complicated. However, Xia ruofei, who was in a good mood, did not care about these details. He said happily, “Then what are we waiting for? I’ll go get it now! What did failure matter? If it doesn’t work the first time, I’ll try the second time. If the second time doesn’t work, I’ll try the third time. I don’t believe that I can’t make it with the blueprint!”

With that, Xia ruofei’s figure flashed and he immediately went to the seaside.

He pushed the motorboat into the sea and got on it. Without a word, he started the motorboat and flew straight in the direction of spirit tu Island.

Xia Qing stood on the shore with a bitter smile on her face.

Although master’s talent was not bad, and in a short two years, the spirit map world had evolved to this extent, after all, his cultivation was still shallow, and it was not easy to create a puppet.

Xia ruofei steered the motorboat and sped across the sea. Soon, they were close to spirit map Island.

He found a flat beach and rushed directly to the shore. The motorboat plowed a deep mark on the beach and only stopped after a few meters due to friction.

Xia ruofei got down from the car and headed straight for the spiritual herbal gardens.

The precious spiritual herbs in the herb garden were greedily absorbing the spiritual Qi. Xia ruofei knew that these spiritual herbs were not ripe yet so he did not pay too much attention to them. He just avoided them carefully and walked into the depths of the herb garden.

After a while, Xia ruofei saw a small thatched cottage.

To be more precise, it was a bamboo house. The roof was covered with thatch and there was a low fence outside. All the materials used were bamboo.

It was unknown how long this small house had existed, but whether it was the fence or the walls of the house, the bamboo was still green in color, as if it had just been cut down, looking quite wild.

While Xia ruofei was amazed, he did not slow down. He pushed open the wooden door and walked into the small courtyard. He stopped in front of the bamboo house, pushed open the bamboo door, and walked in ...
