Chapter 1631: The nine revolutions universe formation (2)

The Jade statue was still the same, but its aura was completely different, especially the Tiger's eyes, which were like deep lakes. If one looked at the eyes, one would have the illusion that all of one's mind was being sucked into the Jade statue.

Xia ruofei used his spiritual power to check the array runes inside the Jade carving and finally smiled in satisfaction.

He carefully placed the Jade carving into the spirit map space, then raised his head slightly to look at the sky and muttered to himself, "Young master Liu, and Tang real estate ... I hope the gift I prepared for you will satisfy you ..."

The things that Xia ruofei asked Zhao Yongjun to prepare, as well as the Jade carving of the downhill Tiger that he had personally carved, were all preparations for the formation. He wanted to give Liu haofan and the Tang real estate company a huge "surprise".

In fact, Xia ruofei was so confident when he was bidding that he was not even worried that the 400 million bid would fall into his hands. All his confidence came from that one look he took when he went to inspect the land the other day.

Everyone was talking about Liu haofan in the car, and Xia ruofei inadvertently glanced at Liu haofan in the distance.

It was because of this glance that Xia ruofei made a shocking discovery.

Many things in the world were like this. Xia ruofei had walked around the plot of land for a few rounds but did not find anything. However, after looking at it from a different angle, he immediately noticed the extraordinariness of the land.

At that time, Xia ruofei was surprised to find that this piece of land had actually formed a very rare natural array.

The reason why natural formations were rare was that the opportunity to form them was very rare. Not only was it related to the trend of the entire terrain, the direction of the mountains, the flow of the water, and many other factors, but it also needed to echo with the trend of the earth veins. All kinds of elements were indispensable.

It was no wonder that Xia ruofei did not even think of a natural formation. After all, the conditions for a natural formation were too harsh.

At that time, the angle from which he looked at Liu haofan happened to be higher, and the other angle was just right. Not only did he have a panoramic view of the entire plot of land, but he also happened to see the small lake at the edge of the plot of land under the sun.

At that moment, a natural formation, the nine spinning universe formation, appeared in Xia ruofei's mind.

In the beginning, Xia ruofei could not believe it because the nine revolutions heaven and earth formation was considered rare even among natural formations. The conditions for its formation were extremely harsh.

After he got out of the car, he made another careful comparison and finally confirmed that the scope of this plot of land really formed the prototype of a natural nine turns universe formation.

At that time, Xia ruofei really felt like he had found a treasure.

Because this array was too rare, if they could get this land, the benefits would be obvious.

Of course, from that moment on, Xia ruofei had quickly formulated a whole set of strategies, including what to do if Liu haofan did not care about fighting to the death during the auction, or what to do if Liu haofan suddenly stopped in the middle of the bidding process.

If it was the second situation, Xia ruofei would welcome it with open arms. With the existence of the nine turns universe formation, the value of this piece of land would definitely be more than 320 million. That was why he had bid 400 million. If he could get this piece of land with this price, Xia ruofei would definitely be able to accept it.

In fact, this was the bottom line that Xia ruofei had set for himself. If Liu haofan continued to compete after reaching this price, he would give up decisively and execute the second plan.

All of this was within Xia ruofei's calculations. All of his calculations were based on the rare characteristics of the nine revolutions heaven and earth formation.

To be more precise, the nine revolutions heaven and earth formation was still in its early stages. It had not been fully formed yet. If it was a perfect formation, Xia ruofei would not have any room to operate it.

In order for the nine revolutions heaven and earth formation to operate, some external force was needed to activate it, just like a catalyst in a chemical reaction.

The special characteristic of the nine revolutions heaven and earth formation was that different "catalysts" could produce different effects. One positive and one negative, one Yin and one yang, they were completely two extremes.

If Xia ruofei and the others got this piece of land, he would definitely change the formation in a good direction, which was to activate the 'yang formation'.

The Yang formation of the nine turns universe formation had obvious benefits. Simply put, one might not be aware of it, but one's body and mind would be very happy. Unconsciously, one would be infected by positive emotions, which would also have considerable benefits to one's health.

Staying in the array would make people feel happy from the inside out. Under the long – term subtle influence, the physical condition would slowly be adjusted. Combined with the hot spring resources there, it could be said that it was the most suitable place to build a club.

It was no exaggeration to say that if one lived in this formation for a long time, their body would get better and better, their resistance would become stronger, and they might even become immune to all diseases.

Of course, the benefits of an array to cultivators were not limited to this. The effect of cultivating inside the array was much better than outside the array.

This was also the reason why Xia ruofei was determined to get this land.

On the other hand, if the “catalyst” was changed and the formation was activated under the “Yin formation,” it would produce a completely different effect. All kinds of negative emotions would come one after another, and the body’s health would deteriorate. It might even cause hallucinations, nightmares, and so on ...

Xia ruofei had asked Zhao Yongjun and the others to prepare these things, including the Jade carving of the mountain tiger that he had personally carved, to activate the formation in the form of a ‘Yin formation’.

As long as this step was successful, the next step would naturally be very simple ...

For the next two days, Zhao Yongjun and the others went out of town to collect materials. During this time, Xia ruofei called Song Wei over again. The two of them hid in the bedroom in the second courtyard and cultivated again.

Song Wei’s cultivation progress was very fast. After nearly 20 days of cultivation (within the time formation), she could already feel the bottleneck of Qi disciple Level 2.

Of course, it would still take some time for her to reach this bottleneck and break through it.

But this speed was already enough to shock Xia ruofei.

In order to prevent her Foundation from being unstable, Xia ruofei repeatedly told Song Wei not to be anxious. At the same time, he decided to reduce the frequency of his training. Hence, he did not let Song Wei come over the next day.

That evening, Xia ruofei received a call from Zhao Yongjun and the others when he was about to go for a walk in Houhai after dinner.

Hence, Xia ruofei gave up on going out and returned to the courtyard of the third entrance.

Soon, a Mercedes – Benz and a Grand Cherokee drove in from the side door of the backyard. Zhao Yongjun and his team got out of the car, looking travel – worn.

Zhao Yongjun laughed the moment he got out of the car, “”RUO Fei, I’m glad I didn’t fail you! You’ve already collected everything you wanted, come and see if you meet your requirements!”

Xia ruofei smiled and said, “everyone has worked hard!” I’m very confident in brother Zhao’s work!”

“You’d better check it!” Zhao Yongjun laughed and said, “if the product doesn’t meet the standard and affects your big plan, then we’ll have committed a huge sin ...”

After Zhao Yongjun finished speaking, he went to the back of the car and opened the back door.

Xia ruofei saw that the third row of seats in the business car had been flattened. The back half of the car was used to store things. Chinese scholar trees, mirrors, five Emperor coins, yellow joss papers, and other things filled up the wide space.

Xia ruofei finally understood why Wei Jun and Hou Liang had driven another SUV here today, but the car was too full.

"I'm worried that we don't have enough," Zhao Yongjun said with a smile, "so I prepared double the amount you asked for!"

"Brother Zhao, you're so attentive ..." Xia ruofei said as he started to check the supplies.

Very quickly, Xia ruofei smiled and said, "okay!" There's no problem at all!"

Song Rui was very excited. He rubbed his hands and said, "Then our mission is complete! It's time for you to perform! RUO Fei, when are we taking action? I think it's better to hurry! If not, we'll go tomorrow?"

Xia ruofei smiled and said, "why tomorrow?" I think tonight is a good time. The moon is dark and the wind is strong, it's a good time to do things ..."

?

Chapter 1632: Midnight operation (1)

"Tonight?" Song Rui was stunned. "Aren't you a little too anxious?" Actually, we can still make it in time if we go tomorrow!"

Xia ruofei was both angry and amused. He said, "Do you think this is a prayer for rain? Picking a time? Besides, my young master Song, you better know what we are going to do! Could he just run over in broad daylight? Of course, I'll go secretly at night!"

Song Rui came to his senses and smiled embarrassedly. Then, he said excitedly, "Good evening! It's so exciting just thinking about it ... Hahahaha ..."

Xia ruofei and Zhao Yongjun looked at each other helplessly, and both of them smiled bitterly.

This was a land worth hundreds of millions, and it was a matter of whether their club could be successfully settled in little Tang town in the future. This young master actually thought that he was looking for excitement ...

Xia ruofei cleared his throat and said, "I've seen the weather forecast. The clouds are thicker today, so the moon shouldn't be out. Let's make it tonight! After dinner, we'll rest for a while and wait until the second half of the night to act!"

"Alright!" Zhao Yongjun said, "we'll follow your orders. Ruofei, is there anything else you need to prepare?"

Xia ruofei thought for a while and said, "I've prepared everything. I just need to bring a few more shovels. I'll ask Wu Qiang to prepare them!" You guys don't have to worry about it ..."

Xia ruofei added, "by the way, don't go there at night. First, it's easy to be exposed if the target is too big. Second, there's no need for so many people."

Most of the work tonight would be physical work and these young masters would not be of much help. Hence, according to Xia ruofei's plan, it would be best if he brought Wu Qiang along.

However, if that was the case, they would definitely not do it.

Sure enough, song Rui said, "I don't care about other people!" I'm definitely going!"

Xia ruofei thought for a while and said, "how about this?" Big brother Zhao and song Rui will accompany me, and Wu Qiang will drive. The four of us will drive the Mercedes – Benz, so we can bring our things along!"

Since song Rui wanted to go, Xia ruofei couldn't let Zhao Yongjun stay, so he suggested this.

Zhao Yongjun thought about it and said, "I think it's fine, let's do it this way!" Liu Jian, you guys can go back to your homes after dinner! Remember, this matter must be kept a secret. You can't reveal a single bit! Otherwise, if Liu er goes crazy, everyone will be in trouble ..."

Since the big boss had already decided, Liu Jian, Xu Zixuan, Hou Liang, and Wei Jun naturally didn't dare to have any objections and quickly nodded in agreement.

Hence, Xia ruofei called Wu Qiang over and asked him to buy some food and wine for everyone's dinner. At the same time, he asked him to prepare a few shovels.

After dinner, Liu Jian and the others said goodbye to Xia ruofei and left the courtyard in the big Cleaver. Xia ruofei asked Zhao Yongjun, song Rui, and Wu Qiang to go back to their rooms to rest. They wanted to recharge their energy in the first half of the night and get ready to kill their way to Xiaotang town in the second half of the night.

However, looking at song Rui's excited face, it was probably hard for him to fall asleep.

Xia ruofei didn't care if song Rui had enough rest. Anyway, this kid used to party every night. It was normal for him to stay up all night. It was fine if he didn't sleep for one night.

He pushed song Rui out of the room and told him to find a room to take care of him. Then, he locked the door and took a shower. He laid on the bed feeling refreshed and fell asleep in a short while.

This was also a skill that he had trained in the special Combat Commando unit. No matter how bad the environment was, when he wanted to sleep, he would touch the pillow.

It was a taboo for special combat soldiers to be so excited that they couldn't sleep because of such a small matter. This was because they couldn't guarantee that they would always be energetic. Being able to sleep was also a great ability.

Xia ruofei opened his eyes at around 11:30 pm.

He rubbed his eyes, went to the bathroom to wash his face, put on his coat, and walked out of the room.

As soon as Xia ruofei stepped out, he saw song Rui pacing back and forth in the courtyard in a thick coat.

As soon as song Rui saw Xia ruofei, he said, ""Kid, you really can sleep! I thought you were going to sleep until tomorrow morning!"

Xia ruofei said, "don't worry. I won't delay anything. I don't even need an alarm. I can wake up whenever I want!"

"If you're bragging, then ..." Song Rui muttered.

"Where's brother Zhao and Wu Qiang?" Xia ruofei asked with a smile.

"They went to the backyard to prepare the car and supplies. They told me to wait for you here!" Song Rui said. You're the one who's the most patient ..."

Xia ruofei laughed and asked, "don't tell me you haven't slept at all?"

Song Rui blushed and said, "you're meddling too much!" Alright, alright, don't dawdle, let's go! If we don't leave now, it'll be daybreak soon ..."

Xia ruofei couldn't help but laugh. He casually slung his backpack over his shoulder and brought Song Rui to the backyard.

Wu Qiang had already loaded everything into the car. He had especially woken up earlier and turned on the heater after starting the car. Hence, when Xia ruofei got into the car, he felt that the car was warm.

Xia ruofei sat in the front passenger seat and said to Wu Qiang as he fastened his seat belt, "Let's go!"

"Okay, boss!" "Yes," Wu Qiang replied calmly. He started the car and drove out from the side door of the backyard. After turning into the road behind, the electric door behind him slowly closed automatically.

?

Chapter 1633: Midnight operation (2)

Song Rui and Zhao Yongjun sat in two seats in the middle row, and Zhao Yongjun's seat was behind the driver's seat.

Xia ruofei turned to Zhao Yongjun and asked with a smile, "Brother Zhao, how was your rest?"

"I'm fine," Zhao Yongjun said with a smile, "but Xiao Rui keeps causing some trouble next door, so I can't really sleep ..."

Xia ruofei's eyes widened. He turned around and asked Song Rui, "Did you have an intimate encounter with fifth young lady in my room?"

"Go to hell!" Song Rui flew into a rage out of humiliation. Do I need fifth young lady? I can hook my finger and countless beautiful women will throw themselves into my arms, okay?"

Xia ruofei chuckled, "yes, yes!" But I just can't get Zhuo Yiyi ..."

"Then I've also seen countless women in the past, okay?" Song Rui's face froze and he said unhappily.

"You can't handle Zhuo Yiyi!" Xia ruofei was calm.

"Can you not mention Zhuo Yiyi?" Song Rui was angry and anxious.

"Sure!" Xia ruofei quickly said, "you said it yourself! Don't ever mention Zhuo Yiyi in front of me again!"

Song Rui had been repeatedly defeated in his pursuit of Zhuo Yiyi. He often called Xia ruofei to complain, ask for advice, or ask Xia ruofei to ask Song Wei for help. In short, Xia ruofei's ears were getting calluses.

Song Rui smiled awkwardly and said, ""Let's not talk about this anymore ..."

"Tsk ..." Xia ruofei raised his hand in disdain and turned around.

Along the way, Wu Qiang drove the car quietly and smoothly according to the navigation route that he had set before departure.

In the second half of the night, the roads in the capital were naturally smooth. Even Zhao Yongjun sighed, saying that it had been a long time since he had seen an empty road.

It was for this reason that the one – hour drive during the day was cut in half, and they arrived at the place in about 40 minutes.

It was still a piece of barren land, and Liu haofan and Tang real estate had just bought it two days ago. Naturally, there was no one to guard the place because there was nothing to guard. There was nothing here, and no one could steal an entire piece of land, right?

Although this place was far from the main road and there would be almost no people or cars passing by in the middle of the night, Xia ruofei was still very cautious. He instructed Wu Qiang to drive the car to a place with higher grass to hide. This way, even if someone passed by here, it would be almost impossible to notice the car in such poor visibility.

The four of them alighted from the car and Xia ruofei directed everyone to unload the supplies from the car.

Song Rui asked, "ruofei, what are we going to do next?" When do we start?"

Xia ruofei said unhappily, "what method?" I'm not a Daoist priest!"

Then, Xia ruofei quickly assigned the tasks. ""Brother Zhao, you and song Rui will stay here to guard the supplies. Wu Qiang will go with me to work! You guys stay hidden ..."

"Other than the few of us, who else would come to this godforsaken place in the middle of the night?" song Rui muttered.

"There's no harm in being careful!" Zhao Yongjun said. RUO Fei, don't worry about us!"

Xia ruofei nodded and said, "yes!" I'll leave you a walkie – talkie, so we can contact each other if anything happens!"

"Alright!"

Xia ruofei nodded at Zhao Yongjun and said, ""Wu Qiang, grab the shovel and follow me!"

"Okay, boss!" "Yes," Wu Qiang replied. He found two shovels from the pile of supplies and quickly followed Xia ruofei.

It was a dark and windy night, and there was basically no moonlight. Although it wasn't so dark that one couldn't see their own fingers, the visibility was very low.

However, Xia ruofei had already explored the place and had the advantage of his mental strength. The darkness did not affect him at all.

He led the way with ease, and Wu Qiang followed closely behind him.

Xia ruofei stopped after walking for about 50 meters.

He looked around and used his mental power to check again. After confirming that there was no mistake, he took a shovel from Wu Qiang and drew a circle on the ground.

“Wu Qiang, dig a pit here. It’s a cylindrical shape with a diameter of 20 cm and a depth of 60 cm!” Xia ruofei said to Wu Qiang in a concise manner.

“Yes, boss!” Wu Qiang replied.

He rubbed his hands, picked up the shovel, and began to work.

They had all received training in the Army to dig fodders ‘pits, so this was naturally a piece of cake for him.

Xia ruofei picked up another shovel and said, “I’ll go to the next location. Contact me through the walkie – talkie after you’re done!”

“Understood!” Wu Qiang replied without even lifting his head as he dug.

He did not know why Xia ruofei had come here, but since it was his boss’s order, he would do his best. Furthermore, he had to keep his mouth shut after he left. Otherwise, how could he live up to the high salary his boss had given him?

Xia ruofei didn’t waste any time. He carried his shovel and walked in another direction.

A few minutes later, he arrived at the next location. After confirming the exact location, he began to work.

This was a simple task for Xia ruofei. He didn’t even need to use his true energy. His digging speed was even faster than Wu Qiang’s.

After a short while, a perfect round hole appeared in front of Xia ruofei.

At this time, Wu Qiang’s voice came from the walkie – talkie, “Boss, I’m done here!”

Xia ruofei picked up the walkie – talkie and said, “Head towards the Northwest, I’ll come over to meet you!”

“Understood!”

Xia ruofei picked up the shovel and walked over to help Wu Qiang.

Just like that, after about an hour, Xia ruofei and Wu Qiang had dug out nine holes in nine different directions.

Among them, Xia ruofei had five and Wu Qiang had four.

And this was under the circumstance that he had to lead the way for Wu Qiang and point out the excavation site. It was clear that his efficiency was much faster than Wu Qiang’s.

After that, Xia ruofei brought Wu Qiang back to where they parked their car.

When he got to the back of the car, Xia ruofei was elated. Song Rui and Zhao Yongjun must have been bored waiting, so they had arranged the supplies neatly. Even the spikes were erected like soldiers being inspected. The five Emperor coins were also arranged in a straight line.

"You're finally back ..." Song Rui said as soon as he saw Xia ruofei. "If you had delayed any longer, I would have gone back to the car and taken a nap ..."

Xia ruofei chuckled, "who asked you to stay up all night?" "You're sleepy now? You deserve it!"

"I'm not sleepy!" Song Rui said, "isn't this too boring? I say, ruofei, can't we be more efficient?"

Xia ruofei said, "alright!" If it were you, you wouldn't be able to finish it even by dawn, not to mention an hour. I'm letting you rest, but you're still complaining. Then you should work more later!"

"No problem!" Song Rui said, "the thought of making Liu er feel uncomfortable makes me full of energy!"

"You said it yourself!" Xia ruofei said, "don't say you're tired later!"

With that, Xia ruofei walked over and picked out nine Chinese scholar trees. He measured them carefully, took out a military dagger, and trimmed them before putting them aside.

Then, he went over and picked out another 63 children's nails. He carried them in a bag and came to the locust tree.

Xia ruofei used his finger to measure the locust tree. After finding a spot, he picked up a nail and pressed it on the spot, gently exerting force.

Xia ruofei had used some of his true energy. He did not want to look for a hammer in the car in the middle of the night. Besides, if he really wanted to hit a nail, the sound would travel far in the silent night.

It was much more convenient to use genuine Qi. The locust tree wood was like tofu. Xia ruofei pressed it lightly and the nail easily pierced into the wood.

Xia ruofei's movements were very fast. He quickly measured with his finger and found the next position. He grabbed a nail and pressed it in.

In a short while, he had already nailed seven descendent nails onto the locust tree.

Zhao Yongjun and the other two saw this scene under the faint flashlight. They were all stunned. Song Rui couldn't help but pick up a nail and point it at a locust tree. Then, he followed suit and pressed it down ...

?

Chapter 1634: Formation (1)

"Ah!"

In the quiet night, song Rui's screams spread far and wide.

Xia ruofei and Zhao Yongjun glared at him at the same time. Song Rui laughed and waved his hand.

He had used almost all his strength in this boring attempt just now, and he had pressed it with the position of his palm. Fortunately, the contact area of the head of the nail was larger than that of an ordinary nail, otherwise, his palm would definitely have been pierced.

Even so, song Rui felt pain in his palm, so he couldn't help but scream.

"Can't you be more careful!" Xia ruofei couldn't help but reprimand him in a low voice. "Is this the time to play?"

Song Rui said awkwardly, "I'm sorry, my mistake ... I thought this wood was soft because you looked so relaxed!" I just wanted to try ..."

Xia ruofei shook his head helplessly.

Zhao Yongjun didn't know whether to laugh or cry, but he was also very curious, ""Ruofei, you're quite strong! Are all the Special Forces this powerful?"

Xia ruofei smiled and said nothing. Wu Qiang said, ""Old platoon leader, I can't do it either. The boss is very powerful!"

"Let's not talk about this, hurry up and work!" Xia ruofei said. Then, he glared at song Rui and said, "don't try anything funny again!"

"I understand!" Song Rui quickly said.

Xia ruofei then picked up another locust tree and used the same method to find the position and nail in.

In a short while, he had dealt with nine pieces of Locust wood and nailed seven nail seeds into each piece of wood in the corresponding position.

Next, Xia ruofei checked the batch of mirrors again. He picked out the nine that he was most satisfied with and placed them aside.

Finally, he picked up a piece of yellow paper and quickly drew his fingers on the surface of the paper. He finished dealing with a piece of paper in a dozen seconds.

Xia ruofei did the same thing and processed the 81 yellow joss papers. He folded them neatly and placed them together with the mirror he had picked out.

"Ready!" Xia ruofei clapped his hands and said, "time to work!"

"Wu Qiang, do you still remember the positions of the nine holes?" he asked Wu Qiang.

"I can remember!" Wu Qiang replied without hesitation.

Although the environment was very dark, recognizing directions and remembering locations were the basic skills of a qualified soldier. Wu Qiang had not fallen behind in this area.

"Very good. Take these locust trees, mirrors, and yellow joss papers. After you find the round hole, first place nine yellow joss papers at the bottom, and then place the locust trees vertically inside. The side I marked is facing up." Xia ruofei said, "then, turn the mirror face up and place it on top of The Pagoda Tree. Finally, fill it up with soil. Do you understand?"

Wu Qiang quickly memorized it and nodded, "No problem!"

"Remember to clean up the traces after filling in the soil." Xia ruofei reminded him, "this shouldn't be too difficult for you, right?"

"No big deal!" Wu Qiang grinned and said, "I guarantee that even you won't be able to leave a mark!"

"Alright!" Xia ruofei thought for a while and said to Zhao Yongjun, "brother Zhao, can you go with Wuqiang and help him move his things and act as a helper?"

There were a lot of locust trees, mirrors, and yellow joss papers. Wu Qiang could barely carry them all in one trip.

"I'll follow the organization's arrangements!" Zhao Yongjun laughed, "Wuqiang, the old platoon leader will listen to your command!"

Wu Qiang was a little embarrassed and quickly said, "Old platoon leader, don't make me laugh. I don't dare to command you!"

Song Rui asked impatiently, "Ruofei, what should I do then?"

Xia ruofei looked at Song Rui and said, "Don't worry, I'll leave the most important task to you! You just need to follow me in a while!"

"Understood!" Song Rui said excitedly.

Wu Qiang and Zhao Yongjun moved their things and set off. Xia ruofei also went to the car and picked up his backpack. He picked up a shovel and said to Song Rui, "Let's go!"

Song Rui followed behind Xia ruofei in high spirits and soon disappeared into the darkness.

Xia ruofei did not have a flashlight but the darkness did not seem to affect him. He skillfully avoided the potholes and obstacles and moved forward quickly.

Song Rui, who was following behind, was in a difficult situation. He wanted to slow down, but he was worried that he couldn't keep up. Fortunately, he still had a small flashlight in his hand. With the weak light, he could at least see his feet.

Xia ruofei walked with Song Rui for about 800 to 900 meters. Song Rui was so tired that he was gasping for breath.

The two of them went straight to the lakeside at the edge of the land. Xia ruofei stopped.

Song Rui panted as he complained, "RUO Fei, can't you walk a little slower? I'm so tired ..."

Xia ruofei chuckled. "Weren't you worried that there wouldn't be enough time? didn't I delay you earlier?"

"You ... You're too narrow-minded!" Song Rui was so angry that he cried out, "you're purely taking revenge!"

Xia ruofei couldn't be bothered with him. He placed his backpack on the ground and said, "Hurry up and catch your breath, then start working!"

Song Rui immediately perked up and said, "I can do it now! Speak! What kind of task are you giving me?"

Xia ruofei handed the shovel to Song Rui and said, "Dig a hole!"

"Ah?" Song Rui couldn't help but be dumbfounded. "Just this?"

"I'm afraid you can't do it!" Xia ruofei said with a look of disdain.

?

Chapter 1635: Formation (2)

"Don't underestimate me!" Song Rui snatched the shovel and said, "speak! How to dig? Even if you haven't eaten pork, you've seen a pig run! Wasn't it just digging a hole? What's so difficult about that?"

Xia ruofei held back his laughter and drew a circle on the ground with his feet. "Dig down from this position. It doesn't need to be very deep, 40 to 50 centimeters will be enough!"

"Just wait and see!" Song Rui said.

With that, he picked up the shovel and dug hard at the spot that Xia ruofei had marked. The ground beside the lake was wet and soft. After Song Rui used all his strength, the end of the shovel was almost completely buried in the soil.

He looked at Xia ruofei proudly and tried to lift the shovel with all his might. However, he was soon dumbfounded. He had used too much force just now and could not lift the soil up no matter what.

Xia ruofei tried to hold back his laughter. It was obvious that Song Rui had never done farm work before. He only knew how to use brute force. The angle of the shovel was too straight and it did not go too deep. On top of that, he did not use much strength. That was why he was in such a sorry state.

"Come, come, come, I'll show you!" Xia ruofei said.

He pulled Song Rui aside and gently dug up a shovel of soil and threw it aside. Then, he said while digging, "Look carefully. The angle isn't so straight. It's slightly slanted, and don't use brute force. You can step down with your feet to assist, and then gently lift it up. Won't you get up?"

Song Rui saw that Xia ruofei had dug up the soil so easily and snatched the shovel back.

After a few attempts, Song Rui finally found the trick. Although his efficiency was much lower than Xia ruofei's, he was still very proud. "Did you see? This brother still has some talent for working!"

Xia ruofei didn't want to dampen his enthusiasm, so he smiled and said, "Good luck then! Let's complete the mission as soon as possible!"

"Alright!" Song Rui replied.

Although Song Rui's standard of work was average, the task was indeed not very large. In addition, he was very motivated, so after more than half an hour of hard work, a hole with a diameter of more than 20 centimeters and a depth of 40 to 50 centimeters was dug.

"How is it, ruofei?" Song Rui asked, panting.

Xia ruofei smiled and nodded, "it's alright!" Let's rest for a while!"

Song Rui sat on the ground next to him. He had been holding back his energy just now. Now that he was done, he felt that his arms were sore and weak, and at the same time, he felt waves of fatigue.

Song Rui rubbed his arm and asked, ""RUO Fei, what do we do next?"

Xia ruofei took out the mountain tiger jade carving from his backpack and placed it in the hole that song Rui had dug earlier. He carefully corrected its position.

When he heard song Rui's words, he replied without looking up, ""Wait!"

Song Rui was stunned. He moved closer to Xia ruofei and looked at the downhill Tiger jade carving curiously. He could not help but ask, ""The important mission you're talking about, don't tell me it's digging a hole?"

Xia ruofei shrugged and said, "otherwise?"

"What the ..." Song Rui said, "what kind of important mission is this?"

"But I think it's already very difficult for you ..." Xia ruofei said with a smile.

"Don't look down on me!" Song Rui said, "I don't do much work, but I'm good at learning! What kind of important mission is digging a pit? RUO Fei, if there's any more difficult work, you can let me do it!"

Xia ruofei's brain quickly calculated all the coordinates and finally decided on the position of the downhill Tiger Jade statue.

"Are you sure?" he looked up at song Rui and asked.

"Of course!" Song Rui puffed up his chest and said, "don't underestimate me! I'm an amateur at physical work, but I'm smart!"

"Alright!" Xia ruofei laughed evilly to himself. "Then I'll arrange for you to complete the most important part of tonight's event. This is related to whether we can complete the entire array or not. You must not drop the ball!"

Song Rui's spirit was lifted when he heard this. He stood up from the ground and puffed out his chest.

"Don't worry! This bro never drops the ball at critical moments! Go ahead! What do you want me to do?"

"Don't worry. We can only start after Wu Qiang and brother Zhao have finished their work!" Xia ruofei said. You'll know in a while!"

"You're keeping me in suspense ..." Song Rui muttered.

Xia ruofei ignored him. He picked up the walkie – talkie and asked, ""Wu Qiang, how's the situation on your side?"

Soon, Wu Qiang's calm voice came from the walkie – talkie, ""Boss, everything's going well. We're still short of four seats!"

"Received!" Xia ruofei said, "report to me after you're done!"

“Understood!”

Xia ruofei put the walkie – talkie in his pocket and sat on the ground.””Let’s rest for a while! Come and have a cigarette! Wu Qiang and the rest still need some time ...”

Xia ruofei and song Rui sat by the lake, smoking and chatting. They waited for about 40 to 50 minutes before Wu Qiang’s voice finally came from the walkie – talkie,””Boss, it’s all done! What’s our next step?”

Xia ruofei picked up the walkie – talkie and said,”now, go back to the car with brother Zhao. Report to me immediately when you arrive!”

“Alright!”

Xia ruofei kept the walkie – talkie and patted song Rui.””Get up! Get ready to work!”

Song Rui’s spirit was lifted. He quickly stood up from the ground and asked,””Speak! What should he do? I can’t wait!”

Xia ruofei laughed and said,”I’ll teach you what to do after brother Zhao and Wu Qiang leave.” It’s not too late for you to regret now. Are you sure you don’t need me to do it personally?”

Song Rui waved his hand and said,””Stop dawdling! Just tell me what to do!”

“Alright!” Xia ruofei chuckled.

The two of them stood by the pothole and waited for a few minutes. Wu Qiang then reported that they had already retreated to the car.

Hence, Xia ruofei immediately said to song Rui, who was already impatient,””Alright, it’s your turn! Do you see that Jade statue?”

“I saw it!” Song Rui nodded.

“Go over now and turn the Jade statue two circles clockwise, then three circles counterclockwise. Finally, press it down hard!” Xia ruofei said,”remember, don’t mess up the order. During the whole process, the Jade statue can not leave the ground. Do you understand?”

Seeing Xia ruofei’s serious expression, song Rui put away his nonchalant thoughts and said seriously,””Remember, two circles clockwise, three circles counterclockwise, press down hard. You can’t leave the ground during the whole process. Did I repeat it wrong?”

“Very accurate!” Xia ruofei patted song Rui’s shoulder and said,”go ahead! This is the most crucial part of tonight’s event, and it will directly determine the success or failure of our operation! It’s all up to you now!”

“Alright!” Song Rui rubbed his hands and walked to the pothole and squatted down. He did not notice that Xia ruofei, who was behind him, had a mischievous smile on his face.

As Xia ruofei had emphasized the importance of the Jade, song Rui did not dare to be negligent. He held the Jade carving very carefully and started to turn it slowly.

One, two ... Song Rui counted silently in his heart. After turning two rounds in a clockwise direction, he turned three rounds in a counterclockwise direction. Although it was a very simple action, perhaps it was due to psychological factors, song Rui actually felt very heavy. After he finished turning, he could not help but look up at Xia ruofei.

Xia ruofei gave an encouraging smile and said, ""Continue!"

Song Rui nodded heavily and looked down at the mountain tiger Jade statue. Then, he placed his hand on the top of the Jade statue, gritted his teeth, and pressed down hard!

The moment song Rui pressed down on the Jade carving, he suddenly felt a chill coming from the Jade carving and couldn't help but shiver.

.....

Next to the Mercedes – Benz, Zhao Yongjun and Wu Qiang had already packed up the remaining supplies and put them in the car. The two of them were smoking and chatting beside the car.

When they talked about their past in the Army, the two of them also sighed with emotion.

When song Rui pressed down on the mountain tiger jade carving by the lake, Zhao Yongjun and Wu Qiang both felt something at the same time and couldn't help but look in the direction of the lake.

Zhao Yongjun subconsciously gathered his clothes and said, ""Why do I suddenly feel so cold?"

?

Chapter 1636: The powerful Yin formation (1)

Wu Qiang's body had always been strong, but at this moment, he also shuddered.

The cold didn't seem to be just a physical feeling, but a chill from the heart.

Moreover, the two of them could clearly feel that this piece of land seemed to have become somewhat different. Although they couldn't tell what was different, it made them feel very uncomfortable.

Originally, although this piece of land was barren, it did not give off such a gloomy feeling.

Zhao Yongjun hesitantly listened and asked, ""Wu Qiang, do you feel anything different? Isn't it too quiet?"

It was already very quiet in the middle of the night, but after that moment, Zhao Yongjun clearly felt that the silence made him panic.

Wu Qiang listened carefully and said, "Old platoon leader, it seems like the chirping of the insects has disappeared ..."

"Were there any insects chirping just now?" Zhao Yongjun was a little uncertain. "There shouldn't be any insects in this season, right?"

"There are!" "Yes." Wu Qiang said with certainty, "I must have heard the chirping of insects earlier, but now, it's dead silent ..."

On the battlefield, the sudden disappearance of the chirping of insects or the sudden flight of the night birds was something to be careful of. It could mean that some danger was approaching.

Therefore, Wu Qiang was also very sensitive in this aspect. In comparison, Zhao Yongjun, who had been in the Army with the mentality of muddling through his days and had transferred to another job after a few years, was much slower.

After Zhao Yongjun heard Wu Qiang's words, he couldn't help but feel nervous. He said, "Qiangzi, how about ... We wait in the car? It's pretty cold here ..."

"Old platoon leader, why don't you get in the car and warm yourself up for a while?" Wu Qiang said. "I'll be on guard here!"

The boss had not returned yet, so Wu Qiang naturally would not sit in the car and wait. That would be too insensible.

Zhao Yongjun hesitated and said, "I'll go with you! Damn it, if I wasn't afraid of being exposed, I really want to start a fire to roast it! By the way, can you use the walkie – talkie to ask RUO Fei how he's doing?"

"This ... Old platoon leader, why don't we just wait!" Wu Qiang hesitated. "What if boss is busy? I'm afraid I'll disturb him ..."

Since Xia ruofei did not contact Wu Qiang, he could not ask. Otherwise, he would be suspected of urging him. After all, he was not Zhao Yongjun. His relationship with Xia ruofei was that of a boss and subordinate.

Zhao Yongjun wanted to ask through the walkie – talkie, but after hearing Wu Qiang's words, he could only helplessly say, "Alright, then let's wait!"

.....

In fact, the nine points that Wu Qiang and Zhao Yongjun had set up were equivalent to the foundation of the formation, and the position where the downhill Tiger Jade statue was located was where the formation eye of the nine rotation formation was.

Of course, this was the formation eye of the yin formation. In the future, if Xia ruofei wanted to change the situation and change it to a yang formation, the position of the formation eye would change again.

After Zhao Yongjun and Wu Qiang set up the array base, they left far away. When they reached the place where they parked the car, they could still feel the cold.

One could only imagine what kind of terrifying scene song Rui, who was at the core of the formation and had personally pressed the Jade statue to activate the formation, would face the moment the formation was activated.

The eye of the array was the core of the entire array, and it was the second half of the night, the time when the yin Qi was the strongest.

In fact, the moment song Rui pressed down on the Jade carving, it was as if he had been frozen. Even his eyes were fixed and his body was completely stiff.

At first, he felt a bone – chilling Cold Rush into his body, and then a terrifying scene appeared in front of him.

In his eyes, the world had turned blood red. There were mountains of corpses and seas of blood. One by one, ferocious Devils pounced on him.

Song Rui screamed subconsciously, but he found that he couldn't make a sound at all, and his body seemed to be out of his control. He wanted to escape, but he couldn't move at all. He could only watch as the terrifying demons approached him with a sinister smile.

Some of these demons had blood in their eyes and pale faces. Some of them had their eyes gouged out, leaving only two black holes. Some of them were gnawing on their limbs as they walked; Some had hemp ropes around their necks, and their tongues were stretched out ...

In fact, song Rui didn't know that these were the scariest images in his subconscious. Some of them were made up in horror novels, and some were directly from horror movies he had seen.

Because at this moment, his mind was completely out of control. All of this seemed extremely real to him, and he would never have thought that it was all an illusion.

Just as song Rui was about to give up all hope, a hand suddenly pulled him. Then, a warm current flowed into his body, and he suddenly felt that he had regained his ability to move.

Song Rui hurriedly rolled and crawled away, trying to escape, but Xia ruofei held him back.

In the midst of the panic, song Rui shouted, "ruofei, run!" Quickly run! There are so many ghosts ..."

Xia ruofei covered song Rui's mouth and said, "Stop screaming! Look carefully, where is the ghost?"

The core area of the formation was filled with the most Yin Qi. However, it had no effect on Xia ruofei and he could not lose his mind.

Moreover, after Xia ruofei transferred some vital energy to song Rui, the cold feeling disappeared.

?

Chapter 1637: The powerful Yin formation (2)

He did not dare to look back, but Xia ruofei turned him around forcefully. Song Rui screamed and covered his eyes.

Xia ruofei laughed and pulled his hand away. "Open your eyes! Aren't you not afraid of anything? A mere illusion can scare you like this?"

Perhaps Xia ruofei's genuine Qi had expelled the coldness in his body, or perhaps Xia ruofei's presence had given him some psychological comfort. Song Rui finally gathered his courage and opened his eyes.

There was nothing in front of him, only the quiet lake and the majestic mountain tiger Jade statue in the pit.

The hanging ghosts, starving ghosts, and violent ghosts had all disappeared.

Song Rui rubbed his eyes and said with a lingering fear, "RUO Fei, where are the ghosts?"

Xia ruofei laughed and said, "what ghost?" It's all because of psychological factors ... Look carefully, there's nothing at all, right?"

Song Rui couldn't help but gather his clothes and said, "What the hell is this thing? It was too strange! RUO Fei, it's pretty cold here ... Let's ... Let's hurry back!"

"Return to what?" Xia ruofei said, "I'm not done yet! If we don't fill up this hole, won't we be discovered by people tomorrow morning?"

"Oh ..." Song Rui said.

"Go! Since there's a beginning, there's an end to it. Hurry up and fill up the hole!" Xia ruofei said with a smile.

Song Rui immediately waved his hands and said, "I'm not going! I won't go! I won't go even if you beat me to death ... If you want to fill it in, you can fill it in ..."

"Look at your guts!" Xia ruofei said with a smile.

Song Rui was really scared out of his wits. Even if Xia ruofei laughed at him, he was determined not to take a step closer to the Jade statue.

Xia ruofei shook his head helplessly. He picked up the shovel and walked towards the hole.

Seeing Xia ruofei leave, song Rui couldn't help but shiver and said, "Hey! RUO Fei ... Don't leave me behind! I ... I'm here ... I'm scared!"

"Then come with me!" Xia ruofei said helplessly.

Hearing this, song Rui immediately shook his head like a rattle – Drum.

"Then you might as well walk back on your own and look for brother Zhao and Wu Qiang!" Xia ruofei said.

"That's even more unacceptable!" Song Rui was on the verge of tears. "It was so dark the entire way, I ..."

"You can't do this, you can't do that ..." Xia ruofei said. "What should we do?" You can just stay there! I'll get it done soon! Besides, it's not far away!"

Song Rui thought about it and felt that this was the only way. He could only say in a trembling voice, "Then hurry up!"

"I know!" Xia ruofei waved his hand without looking back and continued to move forward with the shovel.

In fact, they were only five or six meters away from the hole. However, as soon as Xia ruofei left, song Rui still felt a sense of fear as if a ferocious ghost would jump out of the darkness at any time.

People showed all kinds of emotions when they were afraid. Song Rui kept talking to Xia ruofei as if he could boost his courage.

Xia ruofei responded to song Rui as he filled the soil.

He also thought that he had really scared Song Rui tonight. It seemed that he would have to comfort him with spiritual power later, otherwise, it might really leave a psychological shadow.

In a short while, Xia Ruofei had filled up the hole. Then, he carefully found some weeds and the surface of the soil to disguise himself. He had cleaned up all the traces of digging.

"Let's go, let's go!" Seeing that Xia Ruofei had finished the last bit of work, Song Rui felt as if he had been pardoned and quickly called out.

The two of them returned to the place where they had parked their car. Wu Qiang and Zhao Yongjun were jogging around the car, rubbing their hands as they ran.

Seeing Xia Ruofei return, Zhao Yongjun quickly asked, "RUO Fei, how is it? Was it successful? Why did I hear something just now?"

Song Rui's scream was so shrill that even Zhao Yongjun and the others could hear it from far away.

Fortunately, it was the middle of the night and they were in the wilderness. Otherwise, they would have been exposed.

Song Rui blushed and interrupted, "let's talk in the car!" It's pretty cold here!"

"Yes, yes, yes!" Zhao Yongjun immediately echoed, "get in the car! Get in the car! What the hell, I'm wearing thick clothes today! Why did the weather suddenly become so cold ..."

Song Rui couldn't bear to hear the word "ghost" now. He couldn't help but tremble after hearing Zhao Yongjun's words. He looked back in the direction of the lake with lingering fear. There seemed to be a Devil's evil smile in the thick darkness. He quickly turned his head and opened the door with trembling hands. He was the first to get in.

Xia Ruofei sat in the front passenger seat and immediately ordered Wu Qiang to start the engine. When the water temperature rose a little, he would immediately turn on the heater.

As he fastened his seat belt, he turned around and asked with a smile, "Brother Zhao, why didn't you wait in the car? It's so cold outside ..."

"One must be loyal to others!" Zhao Yongjun laughed and said, "you guys are freezing outside. How can I hide in the car to keep warm? Brothers should face difficulties together!"

"Hey! "There's no need for that ..." Xia Ruofei said.

"By the way, is everything going well on your side?" Zhao Yongjun asked.

Xia Ruofei looked at Song Rui with a faint smile and said, "Of course it's going well. Otherwise, why would you guys feel the temperature suddenly drop?"

Zhao Yongjun was surprised and couldn't help but ask, "You're saying ... The sudden drop in temperature was caused by people from your side?"

Song Rui couldn't help but secretly complain, so what if I'm a little colder? What this bro has experienced is what's called unforgettable!

Although he was secretly scolding Xia ruofei for not being loyal and deliberately not telling him these things in advance, he could not help but admire Xia ruofei.

Only by personally experiencing that terrifying scene could one truly feel the power and wonder of this formation.

Song Rui couldn't believe that a few pieces of Locust wood, a few coffin nails, a mirror, and yellow joss papers, which were common items in daily life, could achieve such a powerful effect.

Xia ruofei laughed and said, "the purpose of this formation is not just to lower the temperature!" It will bring a lot of negative effects. Let's just wait and see! Something interesting will happen on Liu haofan's land soon ..."

Zhao Yongjun couldn't help but shiver and asked in a low voice, "RUO Fei, you're saying ... That ... Dirty thing will appear?"

Xia ruofei smiled. "Strictly speaking, no. But the effect is similar!"

Song Rui had the deepest experience. He immediately realized that Liu haofan's men and even Liu haofan himself were about to experience the same terrifying scene. Without the help of Xia ruofei, they would probably be scared out of their wits! It was even possible for people with a weaker mental state to be scared to death.

Thinking of this, song Rui's mood finally improved.

Zhao Yongjun was also very excited, "If that's the case! Then Liu haofan and the others would be in trouble! Who would dare to buy a haunted piece of land after it's developed into a real estate?"

"What if they block the news?" Song Rui couldn't help but ask worriedly.

"The news can't be sealed!" Xia ruofei said, "as long as this formation exists, all kinds of haunted things will happen. It's impossible to carry out the construction normally!"

Zhao Yongjun also smiled and said, "Xiao Rui, why did you suddenly become so stupid?" If Liu haofan can block the news, can't we help him publicize it? You don't need me to teach you such a simple thing, do you?"

Song Rui realized that he had asked an idiotic question. He smiled awkwardly and said, "Yup! Didn't that person from Hou Liang's family control his throat? Wasn't it easy to find some online media and self – Media to build up momentum for Liu er? Hahaha!"

Zhao Yongjun was still relatively calm. He thought for a while and asked, "Ruofei, what I'm worried about now is ... After this negative news spreads, even if we get the land from Liu haofan at a low price as we wish, these haunted rumors will also have a negative impact on our club's operations! And ... After what you've done to this piece of land, even I feel that it's a little scary. If we use it to build a club, will it ..."

?

Chapter 1638: The power of the array (1)

Xia ruofei laughed, "brother Zhao, don't you worry!" Since I can activate the formation, I can naturally dispel it. As for the negative effects you mentioned, facts speak louder than words. They're nothing to be worried about!"

What Xia ruofei didn't say was that not only could he dissolve the formation, but he could also turn the yin formation into a yang formation. The entire plot of land would be covered in a natural formation. By then, not only would there be no negative effects, but it would also make those who were trapped in the formation feel inexplicably happy, as if they were bathing in a spring breeze.

At that time, people would subconsciously want to visit the club again, and it would be difficult for the club's business to not be good.

Of course, if they stayed in the club for a long time, it would be good for their health.

For cultivators like Xia ruofei, it was even easier to cultivate in the array.

Of course, Xia ruofei didn't need to explain it. He could just use the facts to explain.

Zhao Yongjun trusted Xia ruofei a lot and was no longer worried.

Everyone talked about the strange situation when the formation was activated. Zhao Yongjun couldn't help but be amazed. He couldn't help but ask song Rui what it felt like to be inside the formation.

Song Rui couldn't help but shiver. He didn't want to continue this topic.

Zhao Yongjun thought it was strange, but song Rui refused to say. Xia ruofei just laughed and changed the topic, so he didn't ask further.

It was already four or five o'clock in the morning when he returned to the courtyard house in Liu Hai Lane.

Zhao Yongjun got out of the car and yawned, "I'm going to catch up on sleep! Ruofei, don't make me eat breakfast! I'm going to sleep until noon!"

"Alright!" Xia ruofei laughed and said, "brother Zhao, Wu Qiang, you guys should go and rest! Song Rui, come with me, I need to talk to you about something!"

Song Rui was already in a dilemma. He was really scared out of his wits. Even if they were in Xia ruofei's courtyard house, he did not dare to stay in a room alone.

But he couldn't say who he was going to stay in the same room with.

There were so many rooms here, how comfortable would it be for one person to live in one room? If song Rui were to make such a request, people might even suspect that he had a sexual orientation problem.

Therefore, after hearing Xia ruofei's words, song Rui was more than happy to do so and quickly nodded in agreement.

After sending Zhao Yongjun and Wu Qiang back to their rooms, Xia ruofei brought song Rui to the second courtyard.

He didn't enter the house directly, but looked at Song Rui with a smile and said, "I didn't think this through ... I didn't expect that the moment the array was activated, there would be such a powerful mental attack. If I knew this would happen, I would've done it myself!"

Xia Ruofei did not lie. He had only wanted to tease Song Rui. He did not expect to play with Dafa, which left a huge psychological shadow in Song Rui's heart.

Of course, this also had to do with Song Rui's poor physique. If it was Wu Qiang or even Zhao Yongjun, they might not be so unbearable.

Song Rui said dejectedly, "you're so bad!" Every time I close my eyes, I'll see those terrifying scenes. I don't even dare to sleep alone ..."

Xia Ruofei laughed and said, "it's not that serious. It'll be fine after a while!" Wasn't it the same when they watched horror movies when they were young? At most, I'll be afraid for a few days, and I'll be fine slowly ..."

"I hope so!" Song Rui said dejectedly.

"Song Rui!" Xia Ruofei suddenly called out.

Song Rui raised his head subconsciously and said, "Ah?"

When his eyes met Xia Ruofei's, he suddenly lost his focus.

It was as if Xia Ruofei's eyes had turned into a deep lake. His mind was trapped in it and he could not break free.

Then, Song Rui seemed to have lost his self – consciousness and just stood there blankly.

Xia Ruofei continued to use his spiritual power, and his voice seemed to have a trace of magic. "Everything you saw tonight was an illusion. It was just your inner demon. Now, your inner demon has been eliminated, all eliminated ..."

Song Rui nodded unconsciously and said mechanically, "The inner demon has been destroyed ..."

This was a relatively simple application of mental power. It could implant such an obsession in the depths of Song Rui's consciousness and eliminate the mental trauma to the maximum extent.

In fact, this was very similar to hypnosis, but after using mental power, the effect was many times better than most hypnosis.

Xia Ruofei kept instilling positive and positive emotions into Song Rui. Finally, he snapped his fingers in front of Song Rui and shouted, "Wake up!"

Xia Ruofei's voice had a strong penetrating power. Song Rui's body trembled slightly, and his eyes quickly regained their clarity.

He couldn't remember what had happened in the past one or two minutes. He didn't even realize that he had been deeply hypnotized.

Therefore, song Rui's consciousness was still stuck before he entered the deep hypnosis state. He asked, "RUO Fei, why did you call me?"

"Oh, it's nothing," Xia ruofei said, "I just wanted to remind you that you must keep today's matter a secret. Don't accidentally leak it out!"

"Don't worry! I can still distinguish the severity of this!" Song Rui said.

Xia ruofei smiled and nodded. "That's good! You've been tired for the middle of the night, so you should quickly find a room to rest! Let's all sleep in tomorrow!"

"Alright!" Song Rui said casually.

?

Chapter 1639: The power of the array (2)

Then, he started to regret his decision. He would rather chat with Xia ruofei until dawn than stay in a room alone.

However, he soon realized that he wasn't as afraid as before.

Although what had happened in the array was still vivid in his mind, he didn't feel the chill he had just felt.

It was as if this matter had happened a long time ago.

People who had watched horror movies should have experience. If they were timid, they would feel scared at night after watching it for a day or two. They would always feel that there was a ghost quietly watching them from the bed or outside the window. Even the slightest movement or shadow would make them suspicious, and they couldn't help but think of the plot in the movie.

However, as time passed, this feeling of fear would gradually fade. Perhaps the plot of the horror film was still fresh in his memory, but he would no longer feel that kind of fear.

Song Rui's current state was like this. He shook his head in puzzlement and tried to walk towards the first courtyard.

This was the old courtyard house. In addition, it was the darkest time before dawn. Walking in the courtyard would definitely make one feel uncomfortable. However, song Rui found that he was not so afraid anymore.

He was still in disbelief when he walked to his room under the light of the street lamp, pushed the door open, and sat down by the bed.

Song Rui wasn't stupid. He knew that this change must have something to do with Xia ruofei calling him out. However, he couldn't figure out why he suddenly became so bold after a few minutes of meaningless conversation with Xia ruofei.

Fortunately, song Rui was a big-hearted person. Since he couldn't understand, he might as well not think about it. He quickly washed up and fell asleep.

He slept all the way until late in the afternoon. After he woke up, Song Rui felt refreshed. The nightmare he was worried about before going to bed did not happen at all.

Only then did he believe that he seemed to have gotten rid of that huge psychological shadow.

.....

For the next few days, Xia Ruofei had nothing to do.

Zhao Yongjun and the others were keeping an eye on Liu Haofan's situation, so he didn't have to worry at all.

In fact, he had already done everything he could. All he could do now was wait.

Hence, Xia Ruofei contacted Song Wei again and cultivated with her in the courtyard house twice.

Because she ate the heart concentrating grass, Song Wei's cultivation talent seemed to have improved greatly. Especially when she was cultivating the absolute beginning Heart Sutra, this talent was even more obvious.

This was because the "absolute beginning Heart Sutra" itself required the assistance of mental power. The ultimate state was that the soul frequencies of the two cultivators were completely synchronized.

After two rounds of cultivation, Song Wei's cultivation had completely stabilized at the peak of Qi disciple Level 2.

She could clearly feel the bottleneck to the third level of the Qi refining stage.

Just like the last time, Xia Ruofei did not rush to help Song Wei break through. He continued to cultivate step by step to make her Foundation as solid as possible.

However, Xia Ruofei estimated that even if she did not deliberately break through, the next time they trained together, or at most the next time, Song Wei should be able to enter the third level of the Qi refining stage.

In this way, they were one step closer to completely eliminating the peach blossom miasma. Xia Ruofei and Xia Qing both judged that when Song Wei's cultivation reached the peak of Qi disciple Level 3, or even better, when she broke through to Qi disciple Level 4, she would be able to safely solve the hidden danger of the peach blossom miasma.

Song Wei's homework this semester was heavy. Besides, Xia Ruofei did not want to rush things and cause her Foundation to be unstable. Hence, the two of them were not in a hurry to start their next cultivation.

After the second round of training, Xia Ruofei had just asked Wu Qiang to send Song Wei back to school when he received a call from Zhao Yongjun.

"Ruofei, Tang real estate is ready to enter the market." Zhao Yongjun said.

"Is that so?" Xia Ruofei was surprised. "They're pretty fast!"

“From what I know, Liu haofan and the Tang real estate company are really planning to hoard land.” Zhao Yongjun laughed and said, “this time, they don’t even want to level the site. They’re just going to build some simple buildings.”

“That’s great!” Xia ruofei smiled and said, “brother Zhao, I’ll have to trouble you to keep an eye on that land. If anything happens, we have to promote it for young master Liu at once!”

“No problem!” Zhao Yongjun laughed. “We’re good at this!”

.....

Chen Dazhuang was sitting in a minibus, holding a quilt tightly in his hand. There was a big melting bag at his feet, which contained his luggage. There was bean paste made by his mother, a few pairs of handmade cloth shoes, and a large bag of clothes ...

It was his first time in Beijing, and he was very curious about everything in this super big city, even though he had never really been to the downtown area of Beijing.

Chen Dazhuang was a young farmer from the Sichuan Province. This time, he came to Beijing to seek shelter with his distant uncle.

His uncle had gone out to work more than ten years ago and was now a small contractor. He heard that he had made a lot of money. The last time he came home, he drove a Buick SUV that was said to cost more than 300000 Yuan.

After graduating from high school, Chen Dazhuang had been doing nothing at home. He used his connections to find his uncle, Zheng Hua, and said a lot of good things to him. Only then did Zheng Hua agree to take him to work in Beijing with him, working in Zheng Hua’s construction team.

?

Chapter 1640: The power of the array (3)

As soon as Chen Dazhuang arrived in Beijing, Zheng Hua gathered everyone together and said that he would be transferred to a new construction site to work. Naturally, he also brought Chen Dazhuang.

The old minibus, which had obviously exceeded the standard of the emission limit, drove for more than 40 minutes and finally arrived next to the Imperial hot spring resort in Xiaotang town.

This was the land that Liu haofan and the Tang real estate had bought for a sky – High price of 410 million.

As soon as Zheng Hua got out of the car, he asked the workers to unload their luggage, and then prepared to pick up the truck. Soon, a truck would arrive, which would contain some of their daily necessities and materials for the temporary housing.

The first thing the workers did was naturally to build mobile houses to solve their living problems.

Chen Dazhuang got out of the car with the big guy, holding the quilt and looking around.

“Dazhuang, stop daydreaming!” Zheng Hua shouted. “Hurry up and put the things here. Then, follow me to take a look at the venue!”

“Woof! It’s coming!” Chen Dazhuang quickly responded.

He handed his luggage to another fellow townsman, then jogged to catch up with Zheng Hua.

Zheng Hua was looking for a place to build a mobile house, so he went straight inside with Chen Dazhuang.

As soon as the two of them walked into the range of the array, Chen Dazhuang felt uncomfortable all over. It was bright and sunny, but he felt a burst of cold.

Could it be that he was not acclimatized to the environment? Chen Dazhuang saw that Zheng Hua did not have any abnormalities and could not help but Mutter in his heart.

In the end, Zheng Hua found a place near the lake. He planned to direct the truck to unload the things here in a while, and then build a mobile house to make it close to the water source, so that it would be more convenient for everyone to live.

Of course, he didn’t know that they were close to the water source, but also very close to the array eye that Xia ruofei had set up.
