

God tier Farm 1681

Chapter 1681: Unexpected fan – in – arms (1)

Xia ruofei kept his phone and went to open the door.

Alex was standing at the door with a smile on his face, and there was a middle – aged white man in a suit next to him. This middle – aged white man was a little balding, and the last bit of hair he had was neatly combed. There was not a single wrinkle on his suit, and his leather shoes were even more shiny. He was a very serious person.

“Mr. Xia, this is our qiuhan’s senior vice president, Mr. Tony!” Alex introduced with a smile.

“Oh! Hello there!” Xia ruofei nodded and said, “please come in!”

Xia ruofei let the two of them into the house and said, “Please take a seat, I’ll go change my clothes!”

Xia ruofei was wearing the bathrobe provided by the hotel after his shower. It was obviously not suitable for him to receive guests in this outfit.

Tony smiled, “Mr. Xia, it’s fine!” It’s just a visit between friends. ”

Xia ruofei thought for a while and nodded with a smile, “Alright then! Let’s sit here!”

The Australian Airlines had booked a suite for Xia ruofei with a special living room.

There was even a Chinese tea set on the coffee table in the living room. It could be seen that even though the incident happened rather suddenly, Alex’s arrangements were very detailed. At the same time, it naturally showed how much Australian Airlines valued Xia ruofei.

Xia ruofei invited the two of them to take a seat. Then, he took out a box of tea leaves from his backpack on the sofa. As he skillfully boiled water and prepared the tea set, he smiled and said, “Please have a taste of our Chinese tea!”

Tony’s eyes widened exaggeratedly and he said with a smile, “That’s great! There are a lot of Chinese tea leaves sold in Australia, but I think Mr. Xia’s tea is the most authentic! Because it comes from the hometown of tea leaves!”

Xia ruofei scooped out some Da Hong Pao from the box and put it into the tea set. He smiled and said, “In China, this tea is called Da Hong Pao. There’s a beautiful story behind it!”

“Oh? I wonder if we have the honor of hearing this story?” Tony asked.

“Of course!” Xia ruofei said.

The quick – Heating kettle didn’t have a large capacity, so the water boiled quickly. Xia ruofei made the tea skillfully while telling Tony and Alex about the legend of Da Hong Pao in fluent English.

He was naturally talking about the most widely spread story of the student who was rushing to take the exam.

As Xia ruofei explained, the tea was ready. The unique fragrance of Da Hong Pao’s tea filled the room. Even Tony and Alex, who didn’t usually drink tea, couldn’t help but sniff.

Soon, the tea from the mysterious East gained two more loyal fans. Both Tony and Alex were full of praise for the peach garden's Da Hong Pao. They also expressed that they had fallen in love with this magical drink and were determined to buy some for long-term consumption when they returned.

As for the taste of the tea leaves they bought from the Chinese shops or supermarkets, Xia ruofei could not care less.

After all, they couldn't keep exchanging small talk, and Tony quickly cut to the point.

"Mr. Xia, Mr. Tony came here immediately with his team by the company's public jet after he learned that the plane had decided to land in Saipan. He came to visit you as soon as he got off the plane!" Alex said from the side, "Mr. Tony said that he must express the sincere gratitude of the Australian Airlines to you in person as soon as possible!"

Xia ruofei smiled and said, "you're too kind, Mr. Tony!" "Your company's flight crew has contributed greatly to this incident. Without the cooperation of the flight crew and the full technical guidance of Captain Brook, I would not have been able to complete this forced surrender."

Tony gave Xia ruofei a thumbs up and said, "Mr. Xia, the flight crew will naturally receive the rewards they deserve, including Captain Johansson who died in the line of duty. However, as an experienced airline pilot, I deeply admire Mr. Xia's heroic feat!"

Xia ruofei laughed and poured Tony a cup of tea. He didn't know how to respond to the compliment. It wasn't good to be too humble. After all, the truth was there!

From an economic point of view, the Airbus A350 had cost more than 400 million US dollars to build. There were also hundreds of passengers on board. If the plane were to fall into the sea, the economic losses would be immense.

Of course, the more important thing was still the issue of reputation. A fatal air crash was a huge blow to an airline's reputation, not to mention that it was their own pilot who had committed suicide.

If Wilkinson really succeeded in carrying out this crazy plan, it was conceivable that qplease would be drowned in spittle, and the stock price would definitely plummet.

"Mr. Xia," Tony continued, "I'm here to express my sincere gratitude and respect to you on behalf of qstay and myself. I also want to discuss the next arrangements with you."

Xia ruofei sat up straight and nodded. "I'd like to hear the details."

Tony said, "this afternoon, the investigation team for this special case has been officially set up. We, as well as the Civil Aviation Safety investigation departments of Australia, the United States, and China, have sent representatives to participate. All the personnel will be in place by tomorrow morning at the latest. We may need to find Mr. Xia to understand more about the situation."

Although Xia ruofei had already described the incident to the police in Saipan in detail, the investigation team would still need to find him to understand the situation. After all, they would look at it from a more professional point of view and focus on different things than the police.

?

Chapter 1682: Unexpected fan – in – arms (2)

Xia ruofei nodded and said, ""No problem!"

Tony continued, "also ... After the preliminary investigation is completed, we will hold a press conference to release some information to the public. Mr. Xia, do you need to keep your identity a secret?"

"I would like to keep it a secret, but there's no point ..." Xia ruofei said with a bitter smile.

Tony raised his eyebrows in confusion. Xia ruofei turned on his phone and showed Tony and Alex a Weibo post.

"This matter has already spread like wildfire in the country," he said. "Even my photos have been exposed ... So, there's no need to keep my personal information a secret."

Tony laughed and said, "understood!" Mr. Xia, you've made a great contribution to Quto, and we'll work on a reward plan as soon as possible! Whether it's you, Mr. Xia, or the rest of the crew, you will all be handsomely rewarded!"

Xia ruofei nodded and said, "thank you in advance!"

There was no need to be pretentious with this kind of money. It was an international practice. The domestic reward for the successful disposal of specially hired crew was in the millions. Furthermore, it was foreign money. Xia ruofei had no psychological pressure with it.

"We should be the ones saying thank you!" Tony said with a smile, then picked up the tea cup and drank it in one gulp. He stood up and said, "Mr. Xia, we won't disturb your rest anymore! If you need anything, please contact Alex. Please try to stay in the hotel tomorrow morning, because the investigation team might come to you to understand the situation!"

"OK!" Xia ruofei also stood up and sent the two of them out.

.....

Not long after Xia ruofei returned to his room, Feng Rao came to look for him after a nap.

As soon as they entered, Feng Rao said with a smile, ""Ruofei, you're an internet celebrity now!"

"Don't tell me you didn't sleep and spent the whole afternoon on Weibo!" Xia ruofei said gloomily.

"How is that possible?" Feng Jing replied, "I just took a look after I woke up. Weibo, WeChat public account, WeChat moments, your handsome photos are everywhere!"

In reality, Feng Rao didn't really sleep well. Although she was physically and mentally exhausted, she kept dreaming about the terrifying scene in the sky. She kept experiencing the feeling of weightlessness in her dreams, and when she woke up, she was covered in sweat.

"Is this considered bad news spreading far and wide?" Xia ruofei smiled bitterly.

"How can it be a bad thing?" Feng Rao giggled. "Even if it was bad, it's all good now, isn't it?"

Feng Rao was scrolling through Weibo on her phone as she spoke, and she couldn't help but burst out laughing.

“What’s wrong again?” Xia ruofei could not help but ask.

He had been leeches on by countless people in the afternoon, and now he had a little phobia, afraid that something would happen again.

Feng Rao laughed as she said, “you didn’t stay idle in the afternoon either!” He even recorded a video of Dong Yun and the others? Look at the comments on this Weibo, it’s so funny ...”

Xia ruofei then remembered the video. He had wanted to call Guanping to ask, but he had forgotten about it when Tony and Alex came to visit.

Xia ruofei quickly took out his phone and opened Weibo. He wanted to see if Guan Ping and the others had deleted the video and posted it.

However, when he opened it, the video was still the same video, but there were already thousands of comments.

“What’s going on ...” Xia ruofei mumbled to himself.

He pulled down the page and saw the comments from the netizens. He almost spat out a mouthful of blood.

When everyone saw Xia ruofei’s embarrassment in the video, they happily left comments on Weibo.

“Hahaha! President Xia is too cute! Does this count as a forced advertisement failure?”

“The Lun family just wants to focus on recording a video, why is it so difficult? Can’t you guys wait for me to finish reading the advertisement?”

“Pffft ... How big is President Xia’s psychological trauma?”

“I’m finished, I’m finished. I’ve become a fan of President Xia!”

“Circle of fans +1”

“Is it really good for you to do this for the operation of paradise Corporation? Boss’s image has been ruined by you guys! Can’t you edit this video? In response to your lazy behavior, I only have four words to say: Well done!”

“Wahaha! Paradise corporation’s operations girl wants to add chicken legs!”

.....

Xia ruofei was a little dumbfounded. The effect of this broken video was surprisingly good. He casually flipped through it and saw a few comments from “passerby” who had turned into fans.

Moreover, the netizens were quite happy. Some people even cut out moving pictures from the last part of the video and added the words “baby’s heart is bitter” to make an emoji package.

Feng Rao had also finished watching the video. She was rolling around on the sofa while clutching her stomach and laughing. “RUO Fei, your image is completely ruined!”

Xia ruofei snorted and said, "it must be Guanping's idea!" He even promised me that he would edit it well! I actually believed it ..."

Xia ruofei became more and more depressed as he thought about it. He couldn't help but say, "No, I have to call him back and give him a good scolding!"

"No, no, no!" Feng Rao quickly stopped him. I think the effect is quite good! This was Guan Ping's idea? I'll reward him when we get back!"

Xia ruofei couldn't help but roll his eyes and said, "Sister che, do you like to go against me that much?"

Feng Rao said with a serious face, "I'm just stating the facts!" This was the operation rule of new media. Everyone was tired of the aesthetic appreciation of serious things, and sometimes they needed to win by surprise! Also, didn't you realize that your image immediately became very down – to – Earth? Even though everyone is laughing at you, they definitely won't feel distant anymore!"

"You guys can do whatever you want ..." Xia ruofei said gloomily. Then, he couldn't help but Mutter, "you guys don't take me seriously ..."

"That's enough!" Feng Rao laughed. Don't take advantage of me! Everyone is trying to create a brand new image for you! Let's not talk about this anymore. Since we're already out, we should trust our colleagues in China. Let them do what they need to do and don't always point fingers at them! You said it yourself!"

Xia ruofei didn't know whether to laugh or cry. He shook his head while fiddling with his phone.

"What are you doing?" Feng Rao asked. Are we really going to call Guanping and give him a good scolding?"

Xia ruofei said unhappily, "I'm hungry!" Can I call the front desk to deliver the food?"

"Use the landline to make an internal call!" "So stupid!" Feng Rao said.

Xia ruofei was a little embarrassed and said, "I've been so angry that I'm muddled!"

.....

The next morning, Alex came to Xia ruofei's room and asked him to go to the investigation team to cooperate with them.

The investigation team was also staying at Kaiyue hotel and had rented a conference room.

When Xia ruofei followed Alex to the meeting room, there were already more than 20 people sitting there. The moment he entered, all eyes fell on him.

Many people were curious, but even more were in disbelief.

Xia ruofei also saw a few yellow – skinned and black – haired faces.

When they saw Xia ruofei, they immediately went up to him and introduced themselves in Chinese. "Hello, President Xia! We are staff from the safety investigation Department of the China civil

administration. We are also participating in the investigation of this incident! My surname is li, and I'm the leader of the team this time!"

"Hello, director li!" Xia ruofei said with a smile.

He didn't know this person's official position, but he thought that it shouldn't be wrong to call him a director. The most common title in the country was director, from the small to the Ministry and even the Deputy state level.

"Hello, director Xia!" Director li greeted with a smile. You've brought glory to Huaxia this time! Before we left, chief Xue of the headquarters specifically asked us to convey his greetings to you!"

Xia ruofei didn't know chief Xue, but he still said politely, ""Thank you, thank you!"

After the small talk, director Li said, "The basic course of the incident is very clear, and you're not a professional pilot. They won't make things difficult for you in terms of technical details, so you just have to relax and describe what happened to them. If you feel uncertain, you can refuse to answer. There's no harm in being careful!"

?

Chapter 1683: A strange experiment (1)

Xia ruofei didn't agree with director Li's bureaucratic logic, but he didn't deny that director li had good intentions, so he smiled and nodded in agreement.

Alex introduced Xia ruofei to the members of the investigation team and then left the meeting room.

As one of the parties involved, Australian Airlines had to avoid the matter.

Therefore, although they also participated in the investigation of the incident, they were more involved in the cooperation work. The real leaders were the three countries' aviation security departments.

The members of the investigation team were all of high status. The most famous one was naturally the National Transportation Safety Committee of the United States this Committee was established in the 1960s and participated in the investigation of many famous Air Accidents. They were very experienced and would sometimes be invited to help with the investigation of air special incidents in third parties countries.

Australia and China had also sent experts in the field of Aviation Safety, and the leaders of the teams were not low level.

Of course, the trouble that chief physician li was worried about did not happen.

The investigation team only asked Xia ruofei about the whole incident in detail as usual. They were all professionals and they asked more specific questions than the police. They did not miss out on any details.

In fact, everyone knew the conclusion of the matter. The investigation team had started working as soon as they arrived in Saipan last night. They had been busy all night.

The first task of the investigation team was to extract the cabin sound and flight data records of the flight involved, which were also commonly known as the data recorded in the black box.

Then, they spent the entire night going through all the data according to the timeline.

Although there were still many details that had not been analyzed yet, there were basically no more questions about the nature of the incident.

During the time when Wilkinson locked the cockpit from the inside, the recorded data showed that the autopilot knob was man – made to change the course and altitude of the aircraft. They also heard Captain Johannson’s last words ...

Since Wilkinson had used a highly toxic drug, Captain Johannson only had time to say half a sentence.””Wilkinson, I’m feeling a little uncomfortable. You’ll be in charge of the next ...”

After that, the cabin voice recorder did not record Captain Johannson’s voice anymore.

This experienced captain, who was about to retire in three months, was still thinking about his duties as a Captain in the last moments of his life.

Then, Xia ruofei and the crew broke into the door, and Wilkinson broke the windshield on purpose. All these sounds were faithfully recorded by the black box.

After the cabin lost pressure, the recorded sound could not be heard clearly due to the loud noise. However, the flight data could still be simulated by the computer to simulate the flight state of the plane at that time.

Therefore, there was basically no doubt in the big picture. The investigation team only asked the parties involved to get more first – hand information and form evidence with the black box record.

The only suspicious thing was not the fact that Xia ruofei, a layman, could successfully pilot the plane and force it to land. The fact was that there was a senior pilot in the cockpit who was guiding them. With a little bit of luck, there was still a possibility that they could succeed. The suspicious thing was that Xia ruofei and the cabin crew could break the cockpit door.

According to the Airbus company’s design standards, if such a situation occurred, it was basically a dead end. In a limited time, coupled with the fact that it was impossible to find suitable tools in the air, it was impossible to break open the cockpit door.

In fact, this was designed for Aviation Safety. If there was a way to open the cockpit door outside the cockpit, there was a risk of being used by the hijackers.

Xia ruofei did not have a better explanation for everyone’s doubts. He could only shrug his shoulders and say,””I’m not too sure, maybe I’m stronger!”

Xia ruofei’s explanation was not approved by the experts from the United States Transportation Safety Committee, who spoke by standards. It was simply unscientific.

However, the truth was right there, and they had no room for doubt.

Thus, this group of people walked into a dead end ...

The internal debate within the investigation team was not small. A considerable number of people even believed that the Airbus company had cut corners in the manufacturing of the plane, resulting in the quality of the cockpit door not up to standard.

This scared the representatives of the Airbus representatives present. As an aircraft manufacturer, they also sent representatives from the Airbus. However, their status was similar to that of Qinba and they could only cooperate with the investigation.

Of course, there were many people who disagreed. According to the audio and investigation records, before Xia ruofei broke the door, the air traffic police had smashed it with an explosion – proof axe for a long time, but the door did not budge at all.

Everyone's argument was getting louder and louder, and the meeting room was turning into a wet market ...

In the end, it was the Chinese officials 'philosophy of officialdom that came into play.

Director Li expressed his opinion through the interpreter. "Everyone, please calm down. Regarding the quality of the cockpit door, the plane has been sealed for investigation. After the follow – up professional investigation, the results will naturally come to light.

Also, after yesterday's incident, Mr. Xia must be physically and mentally exhausted. If you don't have any other questions, can you let him go back to rest?"

Yes, chief physician Li used a profound delaying tactic, and at the same time, he also helped his fellow townsman.

?

Chapter 1684: A strange experiment (2)

Everyone knew that even if they were to argue, there would be no result in the end, so they all agreed with director Li's opinion. After some discussion, they expressed their gratitude to Xia ruofei and let him leave the meeting room.

Xia ruofei fled back to his room. He did not want to stay with these extremely strict experts for another minute.

Initially, Xia ruofei thought that this matter would be over. However, he had underestimated the seriousness of the expert investigators ...

In the morning, Xia ruofei brought Feng Jing to the beach in Saipan to enjoy the ocean. He even snorkeled with the excited Feng Jing.

In fact, to Xia ruofei, the activities of floating on the surface of the sea and sticking one's head into the water to enjoy the beautiful underwater scenery were child's play. When Yingluo was in the Army, they had deep diving activities every time they went for sea training. Although they were not as extreme as professional divers, it was much more exciting than playing house on the sea in a life jacket and breathing tube.

However, since Feng Jing was so interested, Xia ruofei did not want to dampen her spirits.

During the snorkeling process, Xia ruofei had no interest in the corals and fish in the shallow sea. His shifty eyes could not help but look elsewhere.

Saipan was a tourist spot, so snorkeling was naturally very popular. He could look at beautiful women instead of corals! And looking at beautiful women in the water was also a different flavor.

The person closest to him was naturally Feng Jing.

Feng Rao was wearing a bikini today. She was usually dressed like a successful career woman, but she looked quite different in a bikini.

Her slender waist and long, firm legs were usually wrapped up tightly. Xia ruofei's eyes had a feast today.

As he peeked, he muttered in his heart, "I didn't expect sister ran to be so voluptuous ...

As she was distracted, she happened to meet Feng Jing's eyes.

Although they were wearing protective goggles, Feng Jing could clearly see Xia ruofei's admiring gaze. Her heart was beating wildly. Even in the cool sea, she could still feel her face burning.

However, Feng Rao did not avoid Xia ruofei's gaze. Instead, she was secretly happy.

Xia ruofei, who had been caught red – handed, was a little embarrassed. He quickly turned his head away.

Feng Rao couldn't help but want to laugh, but she had to shut her mouth tightly because of the respiratory tube in her mouth.

After snorkeling, the two returned to the hotel to take a shower and change their clothes. Then, they went to a local restaurant on the beach and ordered a bunch of chamolo – style dishes, such as red rice, barbecue, coconut crab ... They chose the special ones.

The two of them had just returned to the hotel after a hearty meal when they were stopped in the lobby by director li.

"President Xia! Have you eaten?" Chief physician li asked with a smile.

"I've already eaten outside. Director li, what's wrong ..." Xia ruofei asked.

"I need to talk to you about something. Shall we go over there and have a chat?" Department Director li looked at Feng Jing, and he wanted to say something but stopped himself.

Xia ruofei thought for a while and said, "sure, sister ran, you can go back and rest!"

Feng Jing looked at Department Director li and nodded. She then asked, "Ruofei, how long are we going to stay in Saipan? There were a lot of things to do in Australia! Didn't you say that we can't wait for the winery? Also, a domestic company can't always be left without someone to take charge!"

Director li knew that Feng Jing was actually asking him, so he quickly said, "Madam, the part that requires Mr. Xia's cooperation will be completed soon. You can leave tomorrow at the earliest!"

"That's good!" Feng Jing smiled and said, "director Li, I'll leave you two to your own devices ..."

After she finished speaking, she nodded at director li and walked toward the elevator.

Xia ruofei explained. "President Feng is the president of our company. We went to Australia for a business trip. We didn't expect to encounter this incident. It delayed a lot of work ... You know, a strong woman who has returned from abroad has her mind full of work ..."

"I understand!" Chief physician li smiled apologetically. I understand!"

The two of them went to the teahouse on the first floor and ordered two drinks. Xia ruofei asked, "Director li, is there anything else that the investigation team needs my cooperation with?"

Director li smiled bitterly. "There's something that I might have to trouble you with, director Xia. We, from China, are against it, but the United States and Australia insist. So, there's nothing we can do. I might have to trouble you for a while, director Xia ..."

Then, director li explained the situation to Xia ruofei.

Xia ruofei didn't know whether to laugh or cry after hearing the story.

It turned out that the people from the United States Transportation Safety Committee were still struggling with the matter of the cockpit door. They had sent people to check the plane's door in the morning, but they didn't find any obvious quality problems.

However, the hatch had been destroyed, and after the explosion, a lot of data could not be analyzed.

Although it was a good thing that they had successfully broken through the hatch in the air and avoided a serious crash, it might not have been a good thing in the investigation of the accident.

At the very least, the Airbus company was very nervous.

Eager to draw a clear line, they came up with a bad idea, which was to remove a door and locking mechanism from the same – Model plane of Qinba, check the quality first, and then ...

Then, he asked Xia ruofei to use the explosion – proof axe to break open the intact cabin door.

If they could prove that there was no problem with the quality, even if other people could not break it under the same conditions, but Xia ruofei could do it, then they could definitely rule out the quality problem of the Airbus.

In order to avoid suspicion, they even directly used the cabin door of another aircraft of the same model purchased in the same batch by Australian Airlines. This was difficult to fake, so there was no need for Australian Airlines to cooperate with the Airbus to fake it.

Of course, all the expenses were covered by the airline.

For the sake of the company's reputation, they were really going all out.

This plan seemed a little unreliable, but it received full support from experts in Australia and the United States

After Xia ruofei heard this, he was a little dumbfounded. "You ... You want me to destroy another intact cabin door? Are you sure they're not stupid?"

Director Li said with a smile, "I thought I heard wrong at that time. We also mentioned that in an emergency, human potential may be unleashed. If you do it again, you may not be able to break open the hatch. However, they insisted on giving it a try. Besides, the airline is not short of money ..."

"How long will it take?" Xia ruofei frowned and asked, "I really have an emergency in Australia. I can't afford to be delayed!"

"Oh, it's like this. The plane they're going to use for the test is at Quodaine's base." Director Li quickly said, "they have already dismantled the hatch and the locking mechanism. They are preparing to arrange for you to fly to Australia tomorrow morning and cooperate with them to complete this experiment. You can leave after that!"

Xia ruofei let out a sigh of relief and said, "That's more like it! Alright! I'll go crazy with them this time ..."

Chief physician Li let out a long breath and said, "Thank you, director Xia! Thank you, President Xia ..."

Since Xia ruofei was a Chinese, the investigation team naturally sent representatives from China to do the work. However, director Li had inquired about Xia ruofei's situation before leaving the country. Chief Xue had also hinted to him. Director Li knew that if Xia ruofei insisted on not cooperating, he would not be able to force him.

Fortunately, Xia ruofei was easy to talk to. He only complained a little and agreed to the ridiculous experiment.

When Xia ruofei returned to his room, he passed by Feng Jing's room in the corridor. Seeing that the door was not closed, he knocked on it and walked in.

"What did that director Li want with you?" Feng Rao asked with a smile.

Xia ruofei didn't know whether to laugh or cry as he told Feng Jing about the investigation team's strange experiment plan. Feng Jing was also dumbfounded after hearing it.

"Are you really going to do this experiment with them?" Feng Rao smiled and asked, "if you can't break it this time, won't it ruin your image?" Maybe the situation was urgent and your potential exploded ..."

What Feng Jing said was very similar to what department Director Li said.

Xia ruofei smiled and said, "there's no' what if '. As long as they don't mind the money, I can break open as many doors as they want!" We'll fly to Australia tomorrow. Once we get off the plane, we'll hack open their cabin doors and then we'll leave!"

?

Chapter 1685: Chinese Kungfu (1)

The next morning, Australian Airlines arranged for a bomber business jet to send Xia ruofei, Feng Jing, and some of the investigation team members to Australia.

Director Li was a little worried and personally accompanied Xia ruofei.

Sitting on the comfortable leather seat of the business jet, Feng Rao looked at the blue sky outside the cabin and smiled at Xia ruofei. ""I thought we could have some fun since the heavens arranged for us to land in Saipan! I didn't expect you to leave so soon ..."

Xia ruofei teased, "weren't you in a hurry yesterday?" Why don't we turn the plane back?"

"You think you're taking a taxi?" Feng Rao chuckled. Do you think the plane can turn around just like that? Besides, I'm just casually complaining. I'm here for work, not for sightseeing!"

Xia ruofei laughed and said, "then we'll come to Saipan when we're done with our work in Australia." You can play for as long as you want, and the company will reimburse you!"

"You said it yourself!" Feng Rao said with a smile.

After the plane entered the cruising stage, Alex walked over with two glasses of wine. He handed one to Xia ruofei and smiled. ""Mr. Xia, try the most famous Semillon wine in the Hunter Valley area of Australia!"

Tony, the Senior Vice President of Australian Airlines, was in charge of the investigation in Saipan. Since Xia ruofei had landed, Alex had been receiving him. Therefore, Tony had sent Alex to accompany Xia ruofei throughout the trip.

Feng Rao couldn't help but chuckle and said, "Mr. Alex, Mr. Xia has a farm and two wineries in the Hunter Valley area. His wineries are rich in Semillon!"

Alex was stunned for a moment before he laughed awkwardly. ""Mr. Xia, you have a business in Australia! I have to say ... There are a lot of rich people in China these days. You can see Chinese people waving checkbooks everywhere in Australia to buy farms and wineries!"

Xia ruofei smiled and said, "in recent years, China's economy can be said to be the only one in the world. When the people are rich, they will naturally go out of the country to look for investment opportunities. This is very normal!" However, I'm in the agricultural industry in China, and I have my own farm in China. Investing in the Hunter Valley area can be considered an industrial expansion!"

Xia ruofei knew that many Chinese people who came to Australia to buy farms were either nouveau riche or had been tricked by the agency. Many people were deceived by the low price and ended up buying a lot of low – Quality farms.

In Australia, all the crops grown on a farm had to be strictly approved. If it was a Ranch, there was even more to it. The number of livestock per acre on a Ranch was regulated by the relevant government departments. If the livestock exceeded the land's capacity, the owner could even be charged with animal abuse.

Therefore, a farm's climate, soil, geographical environment, precipitation, and so on had a very important impact on its nutrient capacity. This also led to a huge difference in the price of farms, ranging from thousands of Australian dollars per acre to a dozen or even a few Australian dollars per acre.

There were even farms that sold the entire farm at a symbolic price of one Australian dollar, which was basically barren land and far away from the populated areas.

There were some Chinese tycoons who did not understand the market. After buying the ranches for a cheap price, they found out that according to the rules, only one cow could be raised for every 200 acres of the ranches. There were too many examples of them crying without tears when they suffered a loss.

However, in front of a foreigner, Xia ruofei naturally could not expose the shortcomings of his own people. Thus, he only glossed over Alex's obviously teasing words.

"Mr. Xia, you're so young, but you're already so successful in your career. I'm impressed!" Alex raised his glass to Xia ruofei.

Xia ruofei clinked his glass with his and started to talk about other topics.

However, the fact that Xia ruofei had a farm and two wineries in Australia did make Alex's heart skip a beat. He didn't show it, though, and only kept his thoughts to himself. After all, there were some things that he couldn't make the decision on.

After about seven hours of flight, Xia ruofei's official jet landed smoothly at Kingsford Smith Airport in Sydney, Australia.

The group did not leave the restricted area of the airport. Instead, they boarded a shuttle bus prepared by Qantas on the tarmac and headed to a hangar.

Qantas's Kingsford Smith Airport was the main base of Qantas. It had their own exclusive hangar and the best support facilities. Today's strange experiment was held in one of Qantas' hangars.

In a short while, the shuttle bus arrived at the entrance of the garage.

Xia ruofei did not see the familiar Airbus A350. The Australian Airlines were not crazy enough to carry out the experiment on the plane.

This was because once the cockpit door was violently damaged, not only would the door have to be repaired, but the aircraft would also have to undergo a comprehensive inspection to prevent metal fatigue or circuit problems. The amount of work required would be huge.

Therefore, the engineers of Qantas and Airbus took turns working overtime last night to dismantle the door from the plane and then installed it in a one – to – one simulation cabin in the morning.

All the installation standards were the same as real airplanes.

Xia ruofei and the others walked into the hangar. The first thing they saw was a simulation cabin fixed on a shelf.

This cabin only had the front part of the cockpit, and the aircraft's skin had not been installed, directly exposing the skeleton. Standing outside, one could also see the test process.

?

Chapter 1686: Chinese Kungfu (2)

Xia ruofei also saw a familiar face.

The air traffic police who was on the plane at that time was standing at the door of the simulation cabin, looking a little reserved.

Professor Aris, an expert from the United States Transportation Safety Committee, whispered to the staff member of qaustro and said, ""Let's start!"

The staff of quodan nodded and made a gesture to the air traffic police.

The air Marshal bent over nervously and picked up an explosion – proof axe, which was exactly the same as the one on the plane, and walked into the simulation cabin.

Xia ruofei was confused and quickly called out, ""Wait! That ... Wasn't I the one to break down the door today? What is this for?"

Director li quickly explained, "director Xia, didn't this air traffic police cut the cockpit door with an explosion – proof axe before you went over?" This is also to simulate the real situation to the greatest extent ..."

Then, director li lowered his voice and said, "And wouldn't it be helpful for you if he gave you a few slashes first?"

"Director li, there's no need for that ..." Xia ruofei laughed.

Xia ruofei strode forward and said in English, ""Everyone, I don't think we should waste any more time. Let me do it!"

The air traffic police also stopped and looked back at the experts.

He really didn't want to do such a silly thing. An explosion – proof axe couldn't open the cockpit door at all, even if he used all his strength. His hand had been injured by the shock on the plane, and now he had to do it again, and he couldn't hold back. He simply didn't have the energy to complain.

Professor Aris hesitated for a second and asked, ""Mr. Xia, Are you sure?"

"I'm very sure!" Xia ruofei said, "didn't you just want to verify if a qualified cockpit door can be broken down by force? As long as I can open the hatch, there's no need to add this meaningless segment. "

Professor Aris thought for a moment and said, ""That's good, thank you for your trouble, Mr. Xia!"

Xia ruofei smiled and nodded. He walked up the stairs and reached the door of the simulator.

The air Policeman gratefully handed the axe to Xia ruofei and then left the simulation cockpit as if he had been pardoned.

Xia ruofei weighed the axe in his hand and walked to the cabin door that had just been installed.

The door was locked. Everyone held their breath and stared at Xia ruofei.

Xia ruofei took a deep breath and raised the axe in his hand. Then, he shouted and hacked at the cockpit door.

Xia ruofei's movements were full of strength and beauty. His shout was even more imposing. The members of the investigation team who were watching from the side could not help but nod in approval.

In fact, Xia ruofei was just putting on a show for them. He was able to break the door mainly because he had poured his essential Qi into it, which doubled the power of his slashes. As for the accumulation of power and the release of force, it was not that important.

However, if he deformed the cabin door with a light swing of his axe, wouldn't that be even more shocking?

Everyone focused their eyes and saw that a clear dent appeared on the cockpit door.

The engineers from the Airbus and the members of the investigation team who had come to supervise the experiment preparations could not help but widen their eyes and mouths. They were shocked beyond words.

How was this possible? It had completely exceeded the limits of human strength, right?

Xia ruofei didn't give them any time to react. He quickly raised his axe and hacked down again.

Buzzzzzz! Buzzzzzz! Buzzzzzz!

The loud noise echoed in the hangar. The cockpit door quickly became broken. The whole process was filled with violence and aesthetics. The onlookers were silent.

Xia ruofei grinned and threw the axe aside. He took a few steps back and rushed toward the cockpit with a loud shout.

Just like on the plane, Xia ruofei gathered all the Qi in his body and slammed into the cockpit door with a mountain lean.

With a loud bang, the cockpit door opened, and the locking mechanism that was designed to be extremely strong was directly turned into scrap metal.

The hangar was dead silent.

This was especially true for the engineers from the Airbus company. Their mouths were so wide open that a light bulb could fit in.

Professor Aris, who was in charge of this experiment, also opened his eyes wide and muttered, "This is unbelievable ..."

He had expected Xia ruofei to be able to break through the cockpit door. After all, it had happened on the flight. However, he did not expect it to be so easy. It was as easy as crushing dry weeds and smashing rotten wood.

The prior test report also showed that the cockpit door used for the test was better than the standard value in all aspects and was completely qualified.

Xia ruofei glanced at the cockpit door that had suffered an unexpected disaster and walked out of the simulator with a relaxed smile on his face.

He jumped down the stairs and walked in front of professor Aris. He asked, ""Professor, is the experiment complete?"

Professor Aris nodded and couldn't help but ask, ""Xia, how did you do it?"

Xia ruofei shrugged and said, "I don't know!" Maybe I'm born with more strength than others!"

Another investigator beside him asked curiously, ""Mr. Xia, have you practiced this before?"

Xia ruofei was stunned for a moment before he nodded and said, ""It can be considered so! I did receive strength training when I was in the Army. "

The investigator suddenly came to a realization and said, ""It must be Chinese Kungfu! The magical Chinese Kung Fu!"

?

Chapter 1687: Chinese Kungfu (3)

After he finished speaking, he even made a bow step, stretched out his right hand and hooked his finger, and made a "ah da" sound.

Xia ruofei didn't know whether to laugh or cry. So this person was a fan of Bruce Lee.

The other members of the investigation team also felt that the investigator's words made sense. After all, Eastern Huaxia was too mysterious in the eyes of foreigners like them, especially Chinese Kungfu, which had been exaggerated by a lot after being rendered by some classic film and television works.

Of course, only director Li was skeptical. After all, he knew very well about the state of the martial arts in China. Two years ago, wasn't there a mixed martial arts athlete who went everywhere to challenge the Masters of the famous sects? Moreover, he won easily, which meant that the effectiveness of Chinese martial arts had weakened a lot.

But no matter what the investigators thought, Xia ruofei had already told them the answer with facts. At the same time, he had also cleared the name of the Airbus company. It was not that their planes were of poor quality.

The entire experiment was recorded and would be filed as investigation data.

The debate over the cockpit door naturally came to an end.

"Professor Aris, can I leave now?" Xia ruofei asked.

"Of course!" Ayres quickly replied. Mr. Xia is free to begin with. Thank you very much for helping us complete this experiment. "

Xia ruofei smiled and nodded. ""I have my contact information at Quto. If there's anything else you need my cooperation with, you can call me. Of course, that's if I'm still in Australia ..."

"Alright! Alright!" "Thank you, Mr. Xia!" Aris said.

The investigation team still had to do a Professional Identification of the cockpit door. Alex quickly got a shuttle bus over and sent someone to accompany Xia ruofei and Feng Jing to go through the immigration procedures.

After successfully passing through the customs, Xia ruofei flew to the staff of Quto to express her gratitude. They shook hands and bade farewell.

“Ruofei, this golden – haired beauty from qplease airlines is very enthusiastic about you!” Feng Rao said with a smile. And his eyes are full of admiration!”

“That’s her job, okay?” Xia ruofei didn’t know whether to laugh or cry.”Sister ran, let’s go out!” We’ve been delayed for two days, but we’ve finally reached Australia!”

“Don’t worry, I’ll take a picture for you!” Feng Rao smiled.”After so many twists and turns, we finally landed in Australia. Shouldn’t we leave a memento?”

Xia ruofei thought about it and agreed. He said,”Then let’s take a photo together!”

“I’ll take a solo shot for you first!” Feng Rao smiled and said,”come! Handsome, make a more handsome pose!”

Xia ruofei had no choice but to cooperate with Feng Jing and smile at the camera.

With a click, Xia ruofei’s image was fixed on the camera. The background was the busy Kingsford Smith Airport.

Then, the two of them took a few more photos before they dragged their luggage to the exit.

Xia ruofei didn’t notice that Feng Jing was fiddling with her phone as she walked and then sent the photo ...

As they had taken a public jet here, and they didn’t know how long the weird experiment would take, it was hard to estimate Xia ruofei’s time, so he didn’t let Liang qishao come to pick them up.

The two of them took a taxi at the airport and went straight to the Hunter Valley.

Although Feng Jing had traveled to many places, this was her first time in Australia. Hence, she was in high spirits as she enjoyed the beautiful scenery along the way.

Xia ruofei, on the other hand, was bored as he swiped his phone to pass the time. After all, he had been here a few times. Although he was not tired of aesthetics, at least he did not feel too novel.

Last night, the Paradise corporation’s promotion was very successful. Because the quantity was relatively sufficient, many netizens who usually couldn’t get the jaded skin cream successfully bought it yesterday. Some people were even lucky enough to get a 20% discount voucher, which was even more affordable.

Xia ruofei also wanted to see the netizens ‘reactions, so he opened the official Weibo of the Paradise Corporation out of habit.

He glanced at the Weibo post that had just been posted a few minutes ago, and the expression on his face suddenly became very interesting. He couldn’t help but exclaim,””Sister Che! You’re too unkind!”

?

Chapter 1688: Character collapse (1)

It turned out that the latest post on the official Weibo of Tao Yuan company was a photo taken by Xia ruofei at the airport. The caption was: "After several twists and turns, our President Xia has finally arrived in Suttani. Follow and forward this Weibo post, and at the same two friends, and you'll have the chance to get a sample of Jadeshi cream! The winning fans would be randomly drawn by the Weibo lucky draw platform. There were a total of 10 prizes, so there were many chances! Put an end to the dirty dealings! "Also, those who wish for President Xia to open a personal Weibo account, please like it!"

In the photo, Xia ruofei had a bright smile on his face. The background was the busy Kingsford Smith Airport. The photo had been edited, and there was a caption: I'm finally here. I feel so cute!

Xia ruofei looked at the time of the post. It had only been ten minutes, but there were already thousands of shares. What made him not know whether to laugh or cry was that the number of likes had already exceeded ten thousand!

And cute ... Xia ruofei felt so tired. How did I end up with this group of scammers ... No! Where's the employee who tricked his boss?

Needless to say, Feng Jing was the one who sent the photo back to the company. In fact, it was possible that Feng Jing was the one who had sent the photo to the company. No one else had the guts to do that.

Feng Jing had long noticed that Xia ruofei was looking at her phone, but she pretended to be admiring the scenery. It was only when Xia ruofei spoke that she could not help but burst into laughter.

Feng Jing looked at Xia ruofei's phone screen and said, "I think it's pretty good! The composition, lighting, and expressions were all on point! By the way, I've also helped you to beautify your face!"

"These ... These words were also written by you, right?" Xia ruofei said gloomily, "I was wondering why you were fiddling with your phone just now."

"I'm just trying to keep you hot!" Feng Rao giggled. You're so cute now!"

"Cute my a * s ..." Xia ruofei couldn't help but say, "whoever likes cute is cute!" I'm clearly a bossy President, okay?"

"I think I'm the president of the company!" Feng Rao said casually. Could it be that boss Xia is planning to fire me?"

"I ... I'm the overbearing Chairman!" Xia ruofei straightened his neck and said, "I don't want any cute character!"

"That's not up to you to decide!" Feng Rao giggled and said, "who asked you to film such a cute video? The netizens were still falling for this! Can't you see how fast our company's Weibo fans are increasing?"

Xia ruofei felt that he couldn't argue with Feng Jing anymore, so he put away his phone and closed his eyes to rest.

As for the various voices on the internet, they simply ignored them.

Feng Jing didn't want to let Xia ruofei off so easily. She reached out and touched Xia ruofei's arm."Al! Ruofei, to be honest, I think you should open a personal Weibo account! The timing is pretty good!"

Xia ruofei opened his eyes and said,""I say, can you not ..."

"Let me finish first!" Feng Jing pouted and looked at Xia ruofei from the corner of her eyes."Actually, Dong Yun and the rest did a good job this time. It's the era of popularity and popularity. There's a fan economy everywhere. At least for now, you're the guarantee of popularity! In the past, it was your own business whether you opened Weibo or not, but it's different now. This has obviously risen to the height of the company's development!"

Seeing that Xia ruofei was about to speak, Feng Rao said,""Don't interrupt ... Ruofei, you don't have to manage your own Weibo account. The company will naturally arrange for someone to take care of it. Also, the character design problem you mentioned can be slowly reversed in the future! If you don't open Weibo, how are you going to change your image?"

Feng Rao felt her mouth was a little dry, so she opened a bottle of mineral water and took a few sips. She then continued,""Look at the bosses of some internet companies, which one of them isn't very popular on the internet? Chairman MA of the heavenly cat was also known as 'father MA' and had countless fans. President Liu of kyokuboku also showed off his love for his wife from time to time. Whenever there was an opportunity, he would promote their company's employee welfare, corporate social responsibility, and other things. There was also President Chen, who' spoke for himself ', who was an internet celebrity. Including the previous generation of internet people, which one of them didn't have countless fans? In this aspect, you have to keep up with the times!"

"According to what you're saying, if I don't open this Weibo account, I'll be unforgivable?" Xia ruofei said helplessly.

"Not really, but it's a pity to miss this opportunity!" Feng Rao grinned. RUO Fei, you should consider it carefully!"

Xia ruofei wasn't a stubborn person. He listened to Feng Jing's reasoning, but he couldn't let it go. However, he quickly adjusted his attitude. What was the point of putting on airs in front of his own people?

Xia ruofei only thought for a moment before saying,""If that's the case, then open it! Get the public relations department to contact Weibo and set up a real – Name verified account!"

"That's right!"Feng Rao said happily. I'll send a WeChat message to Dong Yun and ask her to follow up personally!"

After speaking, Feng Jing really did pull out her phone and sent Dong Yun a WeChat message.

When they arrived at the entrance of Paradise Farm, it was already evening. Xia ruofei called Liang Qichao when they were about to reach the farm, so he waited at the entrance of the farm in advance. Liang Qichao walked up to them as soon as they got out of the car.

"President Xia, President Feng, welcome!" Liang Qichao said with a warm smile on his face.

Although he wasn't an employee of Paradise Corporation, strictly speaking, Liang Qichao was an employee of Tang He's grandfather. He only helped to take care of the farm since Tang He also owned half of the farm shares. However, it was all thanks to Xia Ruofei that Liang Qichao could have his current career and keep gaining points in Grandpa Tang He's heart, so he was very enthusiastic.

"Brother Liang! You've worked hard!" Xia Ruofei hugged Liang Qichao and smiled. "I don't think I need to introduce you, President Feng!"

"No need, no need! Director Feng's name is already as famous as Thunder!" Liang Qichao said with a laugh.

"Manager Liang," Feng Jing said with a smile, "I've long heard that Paradise Farm is doing well under your management. I've always wanted to come and take a look. Now I finally have the chance!" I have to read more Scriptures! I want to learn from the advanced management experience here!"

"Where? Feng Jing has led Paradise Corporation to record new records. I often see news about the company in Australia! I'm the one who's learning from you!" Liang Qichao said.

Xia Ruofei laughed and said, "Okay, okay, let's stop flattering each other, okay?" Can I go in first? I'm so hungry! I only had a little on the plane today ..."

"Let's go! The feast has been prepared!" "Please get in the car, bosses!" Liang Qichao said.

Paradise Farm had a relatively large area, and the living area was deep inside the farm, so Liang Qichao drove a Mercedes – Benz to the entrance to pick them up.

The Mercedes – Benz quietly drove on the clean asphalt road inside the farm. The two sides of the road were full of rich green. In the distance, there were rows of neat vegetable greenhouses, reflecting the light of the setting sun.

"The environment here is so beautiful!" Feng Jing couldn't help but exclaim, "and it's much bigger than the farms in our country ..."

Although Feng Jing also knew about Paradise Farm's situation, it was only a number on paper. After she was in the real world, she intuitively felt the vastness of the farm.

Xia Ruofei smiled and said, "the living area in front is the best!" I guarantee that you won't want to return to China after you've settled down ..."

Feng Rao rolled her eyes at Xia Ruofei and said, "No matter how good the environment is, we can't not go back! There are so many things to do at the company ..."

"No energy!" Xia Ruofei pouted.

"Ah!" Feng Rao couldn't help but scream again.

As it turned out, after the car drove past a small hill, they could already see the residential area in the distance. Feng Jing was indeed stunned by the beautiful scenery.

The artificial lake was sparkling under the setting sun, as if the water had been painted with a layer of gold. A few swans were swimming leisurely on the lake. By the lakeside, several houses were scattered

around, and all kinds of flowers were planted around the houses, embellishing it like a paradise on earth.

"So beautiful ..." Feng Rao muttered.

"Sister ran, would you consider taking a vacation here?" Xia ruofei laughed and said, "by the way ... You haven't had a day off in two years!"

Feng Rao was indeed tempted. She said, "We'll talk about it later ... There's still a lot of work to be done in the company!"

"How can things be finished?" Xia ruofei smiled and said, "now that the work has been settled, new things will appear. You're too demanding on yourself. Just like this time when we went abroad, didn't the company operate well?"

Liang Qichao, who was driving the car, also said, "Boss Feng, if you want to have an exclusive interview here, I'll welcome you with open arms! Everything was good here except for the lack of popularity! If a beauty like you can live here, you'll definitely add to the farm's beauty!"

Xia ruofei teased, "doesn't Paradise Farm already have a beauty like Daphne?" Do you still need my sister ran to keep up the act?"

Liang Qichao felt depressed and said, "Brother! I'll call you brother, alright? Don't you mention it!"

Xia ruofei couldn't help but laugh.

He had long noticed that Liang Qichao and the deputy manager of Paradise Farm, Daphne, were making eyes at each other. Xia ruofei would never believe that there was nothing going on between the two.

The last time Liang Qichao and Xia ruofei talked about this over the phone, his father, Liang Weimin, happened to be having dinner with Xia ruofei. Before Xia ruofei could give him a hint, Liang Qichao, the big mouth, said a lot of things. In the end, the old – fashioned Liang Weimin flew into a rage and questioned him for a long time after the incident. He even warned him repeatedly.

If it weren't for the fact that Australia was so far away, Liang Qichao and Daphne would have been separated.

So when this matter was brought up, Liang Qichao was naturally extremely depressed.

Everyone laughed and talked, and the car soon arrived at the small lakeside villa.

The moment Xia ruofei got out of the car, he heard a happy voice. "Xia! You've finally come! I've been looking forward to this for a few days!"

?

Chapter 1689: Hello, lady boss (1)

Xia ruofei looked up and saw that it was Old West's wife, Kelly. He couldn't help but say in surprise, "Auntie cabalie! What are you doing here? I was going to visit you at the winery after I settled down here!"

Liang Qichao got out of the car and said with a smile, ""Uncle Wester is here too! He's cooking his best dishes inside! The two of you wanted to give you a surprise, so you deliberately didn't go to the door to pick you up!"

"Xia! When you weren't around, we all missed you!" Auntie Kelly came up and gave Xia ruofei a warm hug.

At this time, Old West, wearing an apron, walked to the door with a plate of apple pie. He laughed and said, ""Boss! Welcome back to Australia!"

Xia ruofei was also in a good mood. He smiled and said, ""Uncle Wester, you've all worked hard these past few months!"

"By the way, sister che, let me introduce you!" Xia ruofei said, "this is uncle Wester and this is his wife, Auntie cabalie! They're the ones who help me manage my two wineries in Australia!"

Due to the language barrier, Xia ruofei had introduced the couple in English out of respect for Old West and Kelly, as well as Feng Jing's excellent English.

"Uncle Wester, Auntie caitley, this is ..." He continued.

Kelly laughed heartily and said, ""Xia, this beautiful lady must be your girlfriend!"

Xia ruofei and Feng Jing blushed. Xia ruofei quickly explained, ""No, no, no! You've misunderstood. She's the president of a company in my country and my business partner! Of course, we're also very good friends!"

Feng Jing couldn't help but feel a little disappointed.

However, Old West immediately said, ""I know, I know! I heard from Liang that the two of you were coming together, so I even learned some Chinese from him!"

"Oh?" Xia ruofei was a little surprised. "You've also learned Chinese!"

"Of course, don't look at my age, my learning ability is still very strong!" Old West said proudly.

Then, he walked up to Feng Jing and spoke in strange Chinese, ""Lady boss, reverse your name!"

Xia ruofei and Feng Rao were both dumbfounded. Liang Qichao could not help but laugh.

Xia ruofei couldn't help but glare at Liang Qichao and said in Chinese, ""Brother Liang, aren't you being too mean?"

Old West felt a little strange when he saw everyone's reaction. He quickly asked, ""Xia, is there a problem with what I said?"

Xia ruofei glanced at Liang Qichao and asked, ""Uh ... Uncle Wester, do you know what this means?"

"Of course!" Old West said, "boss, it's nice to see you! (Hello, boss!)"

Old West wasn't very clear about Xia ruofei's asset structure. He didn't know that Paradise Farm and the two wineries were actually Xia ruofei's private investments. Strictly speaking, they weren't peach blossom company's assets.

Hence, when he heard Liang Qichao say that Xia ruofei, the chairman, and Feng Jing, the company's CEO, were coming to Australia together, he learned this Chinese sentence from him.

On the other hand, Liang Qichao deliberately translated "boss" as "lady boss" to make Xia ruofei and Feng Jing feel awkward.

Xia ruofei glared at Liang Qichao, then said to Old West, "Uncle, your pronunciation is still a little off. Boss, how are you?"

"I understand! There's no ending note, right?" Old West had never learned Chinese before, so he thought that the word "mother" was like a suffix in English.

The more he explained, the messier it would be. Hence, Xia ruofei simply nodded and said, "Almost!"

Old West said very humbly, "It seems that Chinese is really difficult! Then I'll try again!"

"Uncle West, there's no need ... I'm not your boss!" Feng Rao quickly replied in English. RUO Fei! You can just call me by my name!"

"Alright then!" Old Wester nodded and said, "then I'll call you ... Feng?"

"Mm! Your pronunciation is very accurate!" Feng Rao nodded.

"Feng, it's nice to meet you! Come, let's go! Dinner is ready!" Old West said enthusiastically, "tonight's dinner was prepared by me and Kelly. This apple pie is my best dish. You must try it!"

"Good, good, good! I'm starving, let's go in!" Xia ruofei quickly said.

As they walked in, Xia ruofei was the last one to leave. He pinched Liang Qichao hard and said in a low voice, "Brother Liang, if you do this again, I'll ask Mr. Tang to transfer you back to United States! Let him change Liang Xiaojun to manage the farm!"

Liang Xiaojun was the one who was competing with Liang Qichao for the right of inheritance. When he was selling the Phoebe zhennan wood for Tang He, the two families had been fighting openly and secretly. Now, Liang Xiaojun's performance in Tang He's company was average, but Liang Qichao had shown a bright result in the farm. The balance of victory was tilted in his favor.

Liang Qichao quickly smiled and said, "I'm just trying to lighten the mood!" I won't do it next time! Besides ... You wouldn't be at ease if Liang Xiaojun came over, would you? Such a big business needs to be managed by one of our own who knows the roots!"

?

Chapter 1690: Hello, lady boss (2)

Xia ruofei snorted and said, "then I'll ask Mr. Tang to send a professional manager!" When that time comes, you'll be separated from Daphne ..."

"Don't! Don't! President Xia! Brother Xia! Master Xia! "I won't do it again ..." Liang Qichao quickly smiled and begged for mercy.

"I'll give a toast to CEO Feng later!" Xia ruofei said, "girls are thin – skinned, you can't make such jokes!"

“I’m just helping you with your matchmaking,” Liang Qichao mumbled.

“What did you just say?” Xia ruofei raised his eyebrows and glared at Liang Qichao.

Liang Qichao quickly waved his hand and said, “it’s nothing!” It was nothing! I’m saying that I’ll definitely give you a toast!”

Xia ruofei reached out his finger and pointed at Liang Qichao, then walked in front of him.

In fact, Xia ruofei had heard it, but this kind of thing was meant to be a joke, so it was enough to stop there.

They walked into the villa, and Liang Qichao said, “President Xia, President Feng, please leave your luggage in the living room! I’ll arrange your rooms after dinner! Let’s eat first, you guys must be starving!”

After that, Liang Qichao eagerly led everyone to the dining room on the first floor of the villa.

The dinner that Old West and his wife prepared was very sumptuous. There was a very distinctive queenshire pie, vanilla grilled fish steak, deep – Fried Crab Sticks, and of course, the couple’s carefully prepared desserts, including Old West’s personally made apple pie.

Other than that, there was also a roasted suckling pig that was tender on the inside and crispy on the outside. It was paired with a flavorful sweet sauce that was personally prepared by Capella. Just looking at it would make one’s appetite rise.

Xia ruofei and Feng Rao were already famished, so they immediately gobbled up the food after sitting down. They ate two big pieces of roasted suckling pig. Xia ruofei was full of praise for this delicacy, especially the crispy skin that was cooked just right. Xia ruofei ate it with great relish.

“It’s delicious!” Xia ruofei gave him a thumbs up.

Auntie Caitley was very happy and said, “If you like it, eat more!”

The food that she had cooked was being appreciated, and Aunt Kabeli was genuinely happy. She kept persuading the two of them to eat more. Xia ruofei couldn’t help but think of the time when they ate at Hu Zi’s mother’s house. On this point, the elders’ feelings had no boundaries.

After they were half – Full, Xia ruofei and Feng Jing finally had the time to taste the wine that Old West had brought.

This was a Semillon from the West Winery. It had been around for a long time and had a rich fragrance. Although it could not be compared to the Semillon that Xia ruofei had kept in his storage space, it was definitely of the best quality.

In fact, this was Old West’s precious half – Ilon, and he usually didn’t even dare to drink it.

“Xia, we all saw the news,” Old West said with a smile. “The Australian TV station reported that the flight you were on had deviated at the first moment. At that time, Capella and I were very worried! Fortunately, he was safe in the end!”

She gave Xia ruofei a thumbs up and said, ""Child, you're amazing! Now, many people in Australia know you. Everyone says you're a Big Hero!"

Xia ruofei laughed and said, "I was forced to do that. If I didn't stand up, I would've lost my life!" I'm lucky!"

He had been surrounded by the news of the urgent landing for the past few days, so he didn't want to talk about it anymore. He directly changed the topic and said, ""By the way, I stayed in Saipan for two days. Will the winery be delayed?"

"We've been picking grapes for the past two days," Old West said. "There's plenty of rainfall in Australia this season. If the grapes aren't picked in time when they're ripe, they'll rot easily."

Xia ruofei nodded. "It's good that the progress is normal. I was worried that things would be delayed because I didn't arrive in time."

Old West laughed heartily and said, ""Don't worry! I'll control the entire process and won't wait for you to arrive in Australia before starting the harvesting work!"

"Right, we're going to start making wine tomorrow!" Old West continued, "boss, you just happened to make it! It would be such a pity if we miss out on this meaningful customer!"

"Then I'll go to the winery tomorrow!" Xia ruofei said, "didn't you travel thousands of miles just for this?"

After dinner, Old West and his wife happily accepted Xia ruofei's small gifts from China, the peach Garden Da Hong Pao and the Jade skin cream. Then, they said goodbye and left.

They knew that Xia ruofei was tired from the journey and should be allowed to rest early.

Liang Qichao had been keeping the master bedroom for Feng Jing this time. Xia ruofei had chosen another guest room on the second floor.

After chatting for a while, everyone went back to their rooms to take a shower and rest. Xia ruofei did not even let Liang Qichao report the situation at Paradise Farm in detail. Everything could be discussed tomorrow.

The next morning, Xia ruofei started his cultivation on time. After he finished, he took a shower and put on his linen home clothes and slippers before going downstairs.

As soon as he went downstairs, Xia ruofei saw Feng Jing standing by the lake with her arms wide open and taking a deep breath through the window.

He smiled and walked out of the villa as well, saying, ""Sister che, you're up so early!"

Feng Rao turned around and smiled sweetly, "I set an alarm! The farm is too quiet. If I don't have a phone alarm, I'll oversleep!"

"So what if I overslept! We're here to relax this time, do whatever's comfortable!" Xia ruofei said.
