

## God tier Farm 1731

### Chapter 1731: Handling it with ease (3)

Xia ruofei, Zhao Yongjun, song Rui, Liu Jian, and Xu Zixuan came to the grape trellis in the middle of the main courtyard. Everyone was making tea and chatting.

Xia ruofei placed his things in his bedroom and asked, "Brother Zhao, how's our plot of land?"

During his time in Australia, this was undoubtedly the land that he missed the most.

Initially, Xia ruofei was just doing business with his brothers and was not particularly interested. However, after he confirmed that there was a natural nine turns universe formation on that piece of land, his attitude changed.

This was a great place that cultivators could only dream of! With a little bit of arrangement on top of the formation, it could definitely become a treasured land for cultivation.

"Ruofei, what are you asking about?" Zhao Yongjun asked. If it's just the procedures, then there's no problem. We've already settled everything, and that land now belongs to our Hengrui company!"

Xia ruofei heaved a sigh of relief. Although this matter was almost set in stone before he left the country, Zhao Yongjun and the others were still going through the procedures when he left. As long as the procedures were not completed, this treasured land would not really belong to them, and there might be changes.

"That's good!" Xia ruofei said, "brother Zhao, you've all worked hard these few days!"

Zhao Yongjun smiled. "Other than the procedures, everything else ... Is the same as before you left the country. There's no progress at all!"

"Other aspects?" Xia ruofei asked, stunned.

"Yeah!" Zhao Yongjun shrugged. The design company was supposed to go to the site for an on – site survey and make some preliminary preparations for the construction, but they haven't done anything yet. "

"What's wrong?" Xia ruofei asked, "could there be any flaws in the procedure?"

When song Rui heard this, he was furious and said, "Bullsh \* t flaw! RUO Fei, did you forget something?"

Xia ruofei patted his forehead and said with a smile, "Oh ... You're talking about the formation?"

Zhao Yongjun smiled bitterly, "ruofei, if you didn't come back soon, I'd really have to go to Australia and kidnap you back ... That land is getting more and more strange!" No one dares to come near during the day, and it's even gloomier at night. There's also a lot of strange noises coming from there. I heard that the residents nearby drive away from that area at night!"

Xia ruofei said nonchalantly, "it's normal. Formations will gather Yin Qi. People like song Rui, who have been drained by alcohol and women, are especially susceptible to it ..."

"You're the one who's been hollowed out by wine and women!" Song Rui was so angry that his face was red and his neck was rough.

Zhao Yongjun looked worried and said, ""RUO Fei, after being delayed for so many days, will it be difficult for you to deal with it? This matter can't be delayed any longer. There are more and more rumors about that land in the outside world now, and they can't be suppressed!"

"What's even more infuriating is that Liu er laughed at us every day, saying that there's a big problem with that land. We became the scapegoats ..." Song Rui added.

Xia ruofei couldn't help but laugh. "This Liu haofan lost such a huge sum of money and transferred the land to us at a discount. He still has the face to publicize it?"

"Isn't there a big problem with that piece of land?" Zhao Yongjun said, "everyone in the industry is saying that we've been cheated!"

Xia ruofei laughed and said, "who's the fool here?" Don't we know? Don't worry, big brother Zhao! I'm going to deal with that formation tomorrow! By then, we can start the follow – up work!"

?

#### Chapter 1732: Winemaking (1)

Even though Zhao Yongjun and the others had been anxiously waiting for Xia ruofei to return, they felt a little embarrassed when they saw Xia ruofei agree so readily.

Song Rui smiled embarrassedly and touched his nose. ""Ruofei, this matter isn't that urgent. After all, you've been flying for more than ten hours. It's no big deal to rest for a day or two."

"Then ... I'll rest for a few days. Since there's no rush, we'll wait for ten days to half a month ..." Xia ruofei said with a smile.

"Don 't!" Song Rui quickly said, "you should go tomorrow! Anyway, you're as strong as a bull. How can you be tired from a few hours of flight?"

Xia ruofei laughed and said, ""I know you're not sincere, young master Song! And you're still being so pretentious ..."

Zhao Yongjun cleared his throat and said, ""Ruofei, stop teasing Xiao Rui. Well ... Do we need to prepare anything in advance to deal with this tomorrow?"

"No need. I'll go by myself tomorrow morning," Xia ruofei said easily.

"You're alone?" Zhao Yongjun said in surprise, "you don't need us to help you?"

Xia ruofei waved his hand. "It's not that troublesome. I'll be fine by myself. You guys will suffer if you follow me."

Song Rui still remembered the experience of setting up the formation that day. Although he was not as afraid as before after Xia ruofei 's' hypnosis therapy ', the memory was still there.

After he heard Xia ruofei's words, he could not help but feel his heart skip a beat. Then, he asked curiously, "You're going tomorrow morning? Shouldn't it be in the second half of the night?"

Xia ruofei rolled his eyes and said, "If I don't sleep for the second half of the night, why would I go and suffer by myself? Besides, didn't you guys already say it? Now that everyone else is avoiding that piece of land, isn't it the same if I go there at some other time?"

Actually, what Xia ruofei did not mention was that in order to change the formation into a Yin formation, it was naturally easier to complete it when the yin Qi was at its strongest. If he wanted to change the nine rotations heaven and earth formation into the returning sun formation, he would have to be out of his mind to do it at midnight.

One had to know that the yin Qi was dense at midnight, and the power of the formation was also the strongest. Wouldn't he be asking for trouble if he went at that time? Even though Xia ruofei could turn the formation around at midnight, why would he make it more difficult?

Xia ruofei didn't want to explain to Song Rui and the others about the formation in detail. They didn't care too much either. As long as Xia ruofei could settle the formation tomorrow, everyone would be satisfied.

After that, everyone chatted about the anecdotes of the Beijing rich kids 'circle. Then, Wu Qiang and the other two returned, so they began to make arrangements for the evening's gathering.

In reality, Xia ruofei and Wu Qiang were the main ones doing the work, including Zhao Yongjun. This group of hedonistic young masters were not good at cooking and were more of a troublemaker.

In the end, Xia ruofei simply chased them out of the backyard. Feng Rao, who had taken a short break in the afternoon, came to the backyard to help when she heard the noise. Feng Rao might be a standard career woman, but her many years of overseas experience had trained her ability to live independently. After she joined, Xia ruofei and Wu Qiang had a much easier time.

Soon, the three of them prepared a table full of delicious dishes. What Xia ruofei felt a little regretful was that the ingredients were very ordinary. Although they were also high – Quality ingredients bought from the sold well, they were still inferior to the ones produced by Taoyuan.

However, this was the only way. He had a lot of stock in his space, but he couldn't take them out at this time!

The sky was getting dark. Xia ruofei asked Wu Qiang to call Zhao Yongjun and the others who were playing pool in the entertainment room over. Everyone sat together and started eating.

Even though she said that she would not leave until she was drunk, everyone knew that Xia ruofei had been on the plane for a long time. Furthermore, she had business to attend to tomorrow, so she was more restrained.

Xia ruofei offered the bottle of red wine that the captain of the A.I. Had given him. Then, he asked Wu Qiang to get a few bottles of Semillon from the small wine cellar in the basement. Everyone had a taste of it and did not compete with each other.

There was a large wine cellar in the basement of the courtyard house. However, Xia ruofei had the spirit map space and had no use for it. Hence, when they were renovating it, it was reduced to a smaller size. The extra space was used to add some fitness equipment.

The small wine cellar was naturally to store some wine in the courtyard all year round. This way, even if there were guests, they could use the Kasaya at any time. He couldn't always hide from people and then take the wine from the space!

After dinner, Zhao Yongjun and the rest chatted with Xia ruofei for a while, then they got up and left.

Wu Qiang served Xia ruofei and Feng Rao tea and then went back to the backyard to clean up the leftovers, leaving Feng Rao and Xia ruofei in the middle courtyard.

When the two of them were alone, Feng Jing couldn't help but feel a little nervous and awkward. She didn't know what to say, and the atmosphere was a little awkward.

It was Xia ruofei who asked first, "Sister che, have you booked the plane tickets back to Mt. Three?"

"I've asked Liu Qian to book a flight for me. It's at 9 a.m. Tomorrow," Feng Jing said with a nod.

Xia ruofei nodded. "Sure. Rest early tonight. I'll send you off tomorrow!"

"It's fine. You can get Wu Qiang to drive me to the airport." Feng ke said.

?

## Chapter 1733: Winemaking (2)

Although Zhao Yongjun and the others did not discuss the formation in front of Feng Jing, Feng Jing knew that Xia ruofei had something to do the next day.

Xia ruofei smiled and said, "it's fine!" I'd better go and send him off! I'll be in the capital for a few days, so I'll leave the company to you when I get back. "

"Mm, don't worry!" Feng Jing smiled and said, "the position of CEO of paradise Corporation is probably the easiest. We don't have to worry about sales at all. Moreover, we're going for the high – Quality route, so there's not much pressure in terms of production ..."

Xia ruofei laughed and said, "it's not as easy as you say." The scale of the company is getting bigger and bigger, and there are more and more people. There are countless things in all aspects, and a slight mistake may cause serious consequences. It's my good fortune in my previous life to have you help me take charge of the company!"

Paradise Corporation seemed to be developing smoothly, but in fact, it was all thanks to Feng Jing's meticulous work. Otherwise, a company that focused on high – Quality products like this could very well collapse once a negative problem that would affect its reputation appeared.

Xia ruofei was no longer a newbie who had just started his own business. He knew that Feng Jing had always been very stressed and had always been walking on thin ice.

Feng Rao blushed and said, "Why are you getting more and more nauseating!"

Xia ruofei also realized that what he said just now was a little inappropriate. He smiled and changed the topic. "By the way, remember to be fully armed when you go back tomorrow! You'd better put on all your masks, sunglasses, and caps. I can't guarantee that the reporters won't go to the airport to surround you if they can't find me!"

Speaking of which, Feng Jing was also directly involved in the emergency landing. Now that everyone knew that Feng Jing had been sitting in the cockpit after the incident, it could be said that she had personally experienced the entire emergency landing. If they could not find Xia ruofei, Feng Jing would definitely be the most suitable target for the interview.

"Am I just a fish in the pond?" Feng Rao asked.

Xia ruofei laughed and said, "you should be content!" I don't even dare to go out now ..."

"Then you'll still send me off tomorrow?"

"That's not the same, you're my sister ran!" Xia ruofei laughed and said, "even if it's a knife outside, I wouldn't dare not to send you! It's just a few reporters, what's there to be afraid of?"

"What a glib tongue!" Feng Rao's face turned red.

Considering that Feng Jing had to take a plane tomorrow, Xia ruofei chatted with her for a while before they went back to their rooms to rest.

Xia ruofei returned to his bedroom. He was not in a hurry to take a shower. Instead, he locked the doors and windows and drew the curtains. Then, he carefully checked the room with his spiritual power before summoning the spirit map from his palm.

After all, he had left for a while. It was not that he was worried about Wu Qiang, but the secret of the spirit map space was too important. Xia ruofei did not dare to take it lightly.

Xia ruofei entered the spirit map space.

He directly arrived at the mountain and sea realm. The small mountain in the mountain and sea realm could no longer be called a small mountain. After the spatial realm had been upgraded a few times, the mountain was now rather lofty and precipitous. On the mountainside of the mountain, two oak barrels were placed at the entrance of the cave.

Inside were the two barrels of clear grape juice that Xia ruofei had brought back from Australia.

Xia ruofei was looking forward to the quality of the wine.

He had personally cultivated the grapes, and even the oak barrels had been built by the space's high – Quality projects. In the end, the grape juice had been sent into the spirit map space. With so many unique conditions stacked together, these two barrels of wine were indeed something to look forward to.

Old West had already completed the part that required the most skills and experience. Xia ruofei had also inquired about the subsequent steps of brewing wine. He had entered the realm today to complete the final steps of brewing wine.

In fact, the fermentation process of white wine took at least a few weeks, while the fermentation of noble rot wine was even slower, often taking months or even a year. The process of ripening was even longer.

However, Xia ruofei now had array flags that could accelerate time by more than 90 times. Time was not a problem for him.

Xia ruofei waved his hand, and the array flags that he had kept in the mountain sea realm cave flew out. Immediately after, he used an invisible force to wrap around the oak barrel and the array flags and teleported to the time flow of the Archean realm, which was 30 times faster.

Then, Xia ruofei skillfully placed the array flags around the two oak barrels.

As Xia ruofei had a strong control over space, he could immediately feel the difference in the flow of time between the inside and outside of the formation.

Next, Xia ruofei returned to the mountain sea realm in a flash. He sat cross – legged at the entrance of the cave and waited.

Xia ruofei did this to maximize the effect of time acceleration.

The array could accelerate time by 90 times, and the original time of the Archean realm was 30 times. Xia ruofei had already tested it out. Although the combination of the two could not reach the theoretical limit, the effect of accelerating time was about 2000 times. This was a rather terrifying time flow.

A day in the outside world was equivalent to five to six years in the formation!

According to Old West, the best fermentation time for ordinary Semillon wine was about eight weeks.

Hence, Xia ruofei had calculated the time when he was in the mountain and sea realm. After about 40 minutes, he had returned to the Archean realm.

According to the flow of time, about 55 days had passed in the array, and the ordinary Semillon wine should have finished fermenting.

As for the barrel of expensive rotten wine, Old West said it would take 11 months to ferment, which was still early. It would take about ten hours in the outside world. It was about 9:30 in the evening now, and the fermentation would be almost done by the time he got up the next morning.

Xia ruofei entered the formation in a flash. He opened the wooden barrel and used the wooden stick that he had prepared earlier to stir the barrel.

This was done to allow the dead yeast in the oak barrel to settle at the bottom of the barrel after fermentation. The winemaking workers would mix the dead yeast with the wine at a fixed time to make the wine more mellow.

This process was called barrel cultivation.

Every 10 minutes or so, Xia ruofei would enter the formation of the Archean realm from the mountain sea realm. He would then stir the dead yeast and mix it with the wine.

After stirring it for about five times, the cultivation process was basically completed.

Then, Xia ruofei returned to the mountain and sea realm. After waiting for about ten minutes, he allowed the wine in the barrel to settle down and clear up. The entire wine – making process was basically completed.

Xia ruofei retrieved the oak barrel from the formation, opened the lid, and started to bottle it.

Xia ruofei had asked Old West for the bottle when he was in Australia. Since he had already given Xia ruofei two buckets of grape juice, Old West naturally did not mind a few bottles and gave them to Xia ruofei as well.

Xia ruofei first looked at the oak barrel. The wine inside was golden in color and had a special wine fragrance that made people feel intoxicated.

He couldn't help but use the invisible power of space to take a sip of the wine and closed his eyes to feel it.

The taste surprised Xia ruofei. The aroma of honey, oak, and preserved fruit was mixed together, and the layers were very distinct.

Although Xia ruofei was not good at wine tasting, he had drunk countless Semillon wines and could make a simple comparison.

At the very least, he could tell that the barrel of wine he had brewed was of a higher quality than the Semillon wine that he had left in the medium for a while.

Furthermore, this was a newly brewed wine. It had not even gone through the process of being ripened in the bottle, yet it had already reached such a level. Xia ruofei could be said to be quite satisfied.

He picked up a bottle, and with a thought, a stream of wine flew out of the barrel, drew a perfect arc, and accurately fell into the bottle. The whole process was quite effortless.

Very quickly, Xia ruofei had filled the entire barrel with wine. Looking at the bottles of wine that were neatly arranged, Xia ruofei felt a strong sense of accomplishment. At the same time, he was looking forward to the expensive rotten wine that he would be able to harvest the next day.

?

Chapter 1734: Yin – yang transformation (1)

Xia ruofei placed the newly brewed Semillon wine on the table at the Archean realm and then left the spirit map space.

The grape wine had to go through the process of being ripened in the bottle before the taste would become more layered. Hence, Xia ruofei placed them in the Archean realm where time flowed 30 times faster.

As for why he didn't put them in the time array, the reason was simple. The wine took up more space after being bottled. In order to speed up time as much as possible, he set up a small array of flags, just enough to cover two oak barrels. If he wanted to put the bottles of wine in the array, he would have to set them up again.

Not only was this more troublesome, but the flow of time would also be different. Xia ruofei would not be able to calculate the fermentation time of the noble rotten wine.

When Xia ruofei returned to the outside world, she immediately kept the spirit painting scroll into her body. Then, she took a shower and went to bed.

The next morning, Xia ruofei got up and cultivated for a while. At about 7:30 am, he entered the medium and removed the time formation.

Then, he also used a new oak stick to stir the barrel of wine. Following that, he left the barrel at the Archean realm and left the realm.

After washing up, Xia ruofei felt refreshed. He pushed open the door and walked out to the courtyard. He took a deep breath and stretched as he paced in the courtyard.

“Good Morning!” Feng Jing walked out of her room and said with a smile.

“Good Morning, sister Che!” Xia ruofei said, “it seems like you slept well! You look good!”

“How can I not sleep well in such a luxurious mansion?” Feng Rao smiled. RUO Fei, it’s about time, right? We should set off ...”

Xia ruofei looked at his watch and said, “let’s go after breakfast!” Don’t worry, it’s the weekend, so there won’t be any traffic!”

“En!” Feng Jing nodded.

The two of them came to the backyard. Wu Qiang had already prepared breakfast, which was steamed buns and soy milk bought from the breakfast stall in the alley. The three of them finished eating quickly and then got into the car to head to the airport.

As expected, the journey was smooth. When they reached the airport, Xia ruofei helped Feng Jing to get her luggage out of the car and said to Wu Qiang, “Wu Qiang, leave the car to me. I still have something to do later, so please take a taxi back!”

As Xia ruofei spoke, he took out two hundred Yuan from his wallet and handed it to Wu Qiang.

“Director Xia, I have money ...” Wu Qiang quickly said.

Xia ruofei stuffed the money into Wu Qiang’s hands and said, “That’s a separate matter. You’re working for me, so how can I let you pay for your own expenses? This money had been paid for! Refund more and pay less!”

Wu Qiang could only accept the money and said, “Thank you, boss!”

Then, he carefully locked the car and passed the car keys to Xia ruofei. Then, Wu Qiang said to Feng Jing, “President Feng, I won’t be sending you in then. I wish you a safe journey!”

“Thank you!” Feng Rao said with a smile.

Wu Qiang stopped a taxi by the side of the road and returned to siheyuan. Xia ruofei sent Feng Jing to the departure hall, changed her boarding pass with her, and sent her to the security check.

Feng Jing took the luggage from Xia ruofei and said, "Alright, ruofei, you can drop me off here!"

Xia ruofei reached out to adjust Feng Jing's scarf and said, "Sister ran, be careful on the road. Remember to send me a WeChat message when you reach Mt. Three! By the way, before you turn off your phone, don't forget to ask Liu Qian to arrange for you to pick us up ..."

Feng Rao's heart warmed. Xia ruofei's seemingly nagging words were actually filled with concern for her.

"Don't worry!" Feng Rao laughed. The plane tickets were booked by Liu Qian, so she'll definitely make arrangements for the pick – up!"

If the leader had to specifically explain such a small matter, then Liu Qian would not be able to continue being the president's assistant. She was really too blind!

Xia ruofei smiled and said, "that's fine!" You go! If there's anything you can't bring onto the plane, I can bring it back for you ..."

"Aren't you afraid of being recognized by the fans and reporters?" Feng Jing asked with a smile.

Xia ruofei subconsciously shrunk his neck, then tidied his mask and said, "What are you afraid of? No one will be able to recognize me in my current state! And you really think I'm a big star? Everyone's attention was only on it for three minutes. After this matter cooled down, no one paid any attention to it!"

Xia ruofei was really "fully armed" now. Not only was he wearing a thick down jacket and a mask, but he also used the Special Forces 'disguising skills to change his appearance. He put on a pair of flat glasses and even his aura was completely different from before.

Feng Rao laughed and said, "look at how scared you are!" Alright, alright, I won't talk to you anymore. It's almost time to board!"

He left the house a little late today, so Feng Jing didn't need to wait for long before boarding.

Xia ruofei watched as Feng Jing passed through the security check. When Feng Jing turned around to look at him, he stood on his tiptoes and waved at her. Feng Jing smiled and waved back at Xia ruofei. Then, she turned around and walked towards the departure lounge.

Xia ruofei only left the airport Hall after Feng Jing disappeared from his sight.

After he got his car from the parking lot, he went straight to little Tang town.

At around 10 O' clock, Xia ruofei had already arrived at the plot of land that now belonged to them.

?

Chapter 1735: Yin – yang transformation (2)

Zhao Yongjun and the others weren't exaggerating. There wasn't a single person in the vicinity during the day. When he drove past the hot spring resort near the plot of land, he found that the business there seemed to have been affected. It was very quiet.

It was obvious that under the effects of the yin formation of the nine revolutions universe formation, there had been a lot of spooky things happening here.

Besides, the yin formation was constantly absorbing Yin Qi. Within the area covered by the formation, the Qi field would conflict with the Qi field of strangers. An ordinary person would feel uncomfortable even in broad daylight. Xia ruofei had been delayed for more than ten days, so it was reasonable that this place was deserted.

Xia ruofei parked the car in an inconspicuous place and walked over.

He stood on the side of the road and looked in the direction of the land. As expected, he sensed that the yin Qi here had already accumulated quite thick. Fortunately, it was broad daylight now, and it was close to noon. If he had come at midnight like the last time, he was afraid that even if he did it personally, he would have to go through a lot of trouble.

It was almost noon, and the Yang Qi was close to the peak of the day. It was much easier for Xia ruofei to make a move now.

He muttered to himself for a moment before his figure shot out like lightning, speeding towards the lakeside.

If song Rui was here, he would immediately know that Xia ruofei's destination was the place where he had been deeply frightened that night.

This position was also where the formation eye was.

When the yin formation was activated, Xia ruofei had to wait for Zhao Yongjun and Wu Qiang to set up the other auxiliary positions. Then, he could set up the eye of the formation and let song Rui activate the formation.

Now that it was a yang formation, Xia ruofei had to do the opposite and destroy the formation eye first.

There was no one here, so Xia ruofei did not hide his cultivation. In a few breaths, he had arrived at the eye of the array.

This was the place with the densest Yin Qi in the entire formation. Although it was close to noon, Xia ruofei could still feel a sinister aura eroding him.

However, this level of Yin Qi was nothing to Xia ruofei. He circulated the "great Dao technique" and the slight discomfort immediately disappeared. It was as if the temperature around him had risen a little. If someone was beside Xia ruofei at this time, they would definitely realize that he could feel the warmth of the sun.

Xia ruofei took out a shovel from the spirit map space and dug to the spot where the Jade carving of the downhill Tiger was buried.

Xia ruofei dug out all the soil around the Jade statue, then threw the shovel away. He squatted down and grabbed the Jade statue.

He exerted a little force, trying to turn the Jade statue counterclockwise.

However, the Jade statue immediately produced resistance in a clockwise direction. Xia ruofei had used so much strength but the Jade statue did not move at all.

Xia ruofei snorted and mumbled to himself, "The power of a natural formation can't be underestimated ..."

This Yin formation had been activated for more than ten to twenty days. It was like a giant object. Although it was very slow when it was activated, as it gradually accelerated, the inertia was very terrifying. It was very difficult to slow it down easily, let alone push it in the opposite direction.

What Xia ruofei had to do now was to push this giant thing in the opposite direction.

His eyes flickered as he silently activated the "great Dao art" and poured true Qi into his hands. Then, he shouted.

The Jade statue finally started to move under Xia ruofei's control. The entire formation seemed to be shaking as well.

One round, two rounds.

Xia ruofei turned the mountain tiger jade carving counterclockwise for two rounds and immediately turned it clockwise for three rounds. Then, he shouted and lifted the Jade carving up.

As the Jade statue left the pit, there seemed to be an invisible force gushing out of the pit. There was no wind at all, but Xia ruofei's hair was blowing and there was a cold air blowing at him.

Xia ruofei didn't dare to be slow. He used the "great Dao technique" with all his might to resist.

Fortunately, the cultivation of his spiritual power had also reached the spirit throb stage, so the negative effects of Yin Qi were greatly weakened in front of him. Otherwise, even a cultivator, such as a master like Li Yifu, would have lost his mind and developed hallucinations under the impact of the yin Qi just now.

The massive force just now was the yin Qi that the yin formation had gathered over the past ten days. Although this Yin Qi would gradually spread throughout the entire formation, the formation eye naturally had the most of it.

After about five minutes, the yin Qi was completely released.

When the yin energy left the ground, it could only wreak havoc in a limited area. Without the protection of the array, it was exposed to the sun without any defense. When the yin energy came into contact with the sun, it melted like snow under the hot sun.

Xia ruofei only heaved a sigh of relief when the yin Qi was completely released. By then, his back was already drenched in sweat.

Although he had made it sound easy to Zhao Yongjun and the others yesterday, there was still a certain risk. This was a natural array!

However, now that the most difficult step had been completed, Xia ruofei was completely at ease.

Next, his figure flickered and he arrived at one of the nine positions that Zhao Yongjun and Wu Qiang were responsible for setting up. He quickly dug down, and soon, the locust tree, grandson nail, and round mirror were also exposed.

Xia ruofei took out the items one by one. First, he smashed the locust tree with the nail into pieces. Then, he took out a snakeskin bag from the medium and put the broken pieces and the coffin nail into it.

Next, Xia ruofei kept the other things and used the shovel to continue digging.

The Yang formation he was going to set up this time would be used permanently, so he had to bury all the items deep underground to prevent them from being accidentally destroyed during construction.

Xia ruofei dug a three – meter deep hole and took out three Jade talismans that he had prepared earlier. He calculated the location and arranged them in a triangular formation at the bottom of the hole. Finally, he took out the round mirror and placed it in the middle of the three Jade talismans, reflecting upwards.

Then, Xia ruofei tiptoed and landed on the ground lightly.

He waved his shovel and quickly filled the pit, stepped on it, and finally camouflaged it so that there were no obvious traces of digging.

After that, Xia ruofei immediately rushed to the next location.

Just like that, he finished setting up all nine points.

This was also because Xia ruofei was full of energy and could dig very quickly. If it were someone else, even if they didn't eat or drink all day and just worked, they definitely wouldn't be able to finish so many things.

Even with Xia ruofei's high efficiency, it was already 12:15 in the afternoon when he had set up all nine points.

Xia ruofei looked at his watch and increased his speed. He flew towards the array eye.

When he arrived at the array core by the lake, he placed the Jade sculpture of the downhill Tiger to the side. Then, he waved his shovel and quickly dug a hole. He also dug a hole that was about three meters deep.

Xia ruofei raised his head and looked at the sun. It was already past 12:30.

He quickly took out the last eight Jade talismans from the space and arranged them according to the eight trigrams after calculating their positions. Then, he jumped to the ground and took the downhill Tiger Jade statue in his hand.

Xia ruofei extended his finger and drew a few lines on the surface of the Jade with his spiritual power.

The formation inside the Jade carving had been completely changed by these simple drawings, as if all the circuits had turned into opposite attributes. This was the wonder of this formation, as long as a few simple changes were made, it could be completely reversed.

Of course, the Jade carving of the downhill Tiger was also the key to activating the Yang formation.

Xia ruofei took the Jade statue and jumped into the hole. He placed it in the center of the eight Jade talismans and activated the formation on the eight talismans in a specific order.

Eight invisible lines were all connected to the mountain tiger jade carving.

Xia ruofei looked at his watch again. It was 12:45. It was 15:00 in the afternoon, the time of the day when Yang Qi was the strongest.

Xia ruofei did not hesitate any longer. He reached out and slapped the mountain tiger Jade statue ...  
?

Chapter 1736: One drink, one Peck\_1

A huge resistance came from the Jade statue. Xia ruofei had used at least 50 – 60% of his strength. Under normal circumstances, the Jade statue would have shattered. However, it was not damaged at all and did not even move.

Xia ruofei knew that it was not easy to reverse yin and yang in such a natural formation. He gritted his teeth and circulated the “great Dao Sutra” crazily. The true Qi in his body rushed to his palm. Then, he shouted and pressed down hard again.

At this moment, not only did the Jade Mountain tiger statue not sink, it even defied the laws of physics and slowly floated up.

Xia ruofei was not shocked. Instead, he was happy and continued to suppress the Jade statue.

This time, the mountain tiger Jade statue, under the immense pressure, slowly started to spin in Xia ruofei’s palm. The speed of the spin was very slow. Xia ruofei stared at the Jade statue, not daring to relax at all.

The true Qi in his body was also being consumed rapidly. Fortunately, he was already close to Qi disciple Level 6. His true Qi storage could support him for at least half an hour. Hence, Xia ruofei was not in a hurry.

After about five minutes, the Jade statue finally rotated to a certain angle. At this time, the downhill Tiger’s mouth was facing the direction of the scorching sun in the sky.

Xia ruofei could clearly feel the violent shaking of the Jade statue. A strong wave of Yang Qi came from the sky and was directly sucked into the mouth of the mountain tiger Jade statue.

It was as if a giant war chariot had finally been pushed onto the track. Xia ruofei felt the pressure on his body relax. The mountain tiger jade carving also landed steadily at this moment, accurately landing in the center of the eight Jade talismans.

The Yang Qi was transferred from the mountain tiger jade carving to the eight Jade talismans, forming a mysterious cycle.

Xia ruofei heaved a long sigh of relief and sat down in the pit. At this time, he felt that his hands and feet were a little weak. This was a sign that he had used up too much energy in a short period of time.

However, even though he was physically exhausted, Xia ruofei was extremely excited. With the mountain Tiger's return to its position, he had successfully activated the Yang formation of the nine revolutions heaven and earth formation.

At this moment, the temperature of the entire area enveloped by the formation began to slowly rise. The inexplicable negative effects brought about by the yin formation from before had also disappeared. Even the remaining Yin Qi in the corners had also rapidly melted away with the activation of the Yang formation.

Most importantly, Xia ruofei could already feel spiritual Qi gathering around him.

Although the Yang formation of the nine revolutions heaven and earth formation was not a true spirit gathering formation, as a natural formation, it was much more advanced than the spirit gathering formation. In addition to gathering a certain amount of spirit Qi, it also had many other benefits. Whether it was for cultivators or ordinary people, this place was regarded as a treasure land.

Xia ruofei panted as he released his spiritual power to sense the entire formation.

No problem! He had set up ten points, one main, nine auxiliary, which were equivalent to a medicinal primer. The real effect was the natural formation formed by the terrain, Qi field, and many other factors. Now, this formation had been completely transformed into a yang formation.

Xia ruofei was finally at ease. He lay sprawled out in the pit and felt the warmth of the sun. The chilliness from the eye of the yin formation had disappeared. He was so comfortable that he felt drowsy.

After resting for a while, Xia ruofei stood up and leaped out of the pit. He then quickly filled the pit with soil, stepped on it, and put on the necessary disguise.

Then, Xia ruofei walked around the barren land again, feeling the changes brought by the array. Finally, he returned to the array eye by the lake.

He had already decided to build a small villa on top of the array eye. This place was adjacent to the lake and was surrounded by two mountains. The scenery was already very good. When the time came, this small villa would definitely not be open to the public. He wanted to set up a few array techniques at the array eye. It would be easy to create a treasured land for cultivation.

Satisfied, Xia ruofei stomped on the array eye before turning around and walking towards the parking lot. Then, he took his car and returned to the courtyard house in the capital.

.....

At the Imperial hot spring resort in Xiaotang town.

This resort was located not far from Xia ruofei's land. The land auction was also held here.

The lobby manager, du Jingjing, stood beside the bar and looked at the empty lobby with a hint of worry on her face.

Ever since the news of the haunting spread, the resort's business had taken a nosedive, especially at night. No guest had stayed over for more than a week, and even the resort's staff were unwilling to stay for the night shift.

Without customers, the most direct impact on du Jingjing was her income. Without a performance bonus, it was not enough to rely on her fixed salary.

What's more, they were in such a situation right now ... Thinking of this, du Jingjing couldn't help but reach out and touch her slightly protruding lower abdomen. When she thought about how the baby would be born in a few months, the expenses would be so high, and her face was full of worry.

A few employees had already resigned because they couldn't see any hope of the resort's business doing well again. However, du Jingjing was a little reluctant to give up her job. She had worked hard from an ordinary waitress to a Foreman. If she changed to a new place and started all over again, all her previous efforts would be in vain.

Furthermore, she was pregnant now. Who would be willing to hire her? after Wanwan hired her, she had to give her half a year of paid maternity leave after working for a few months. Otherwise, it would be a violation of labor laws!

#### Chapter 1737: One drink, one Peck (2)

At this moment, the sound of a car came from outside the door. Du Jingjing's spirit was roused, and she quickly looked up.

However, her face soon turned gloomy. It was just a passing car, and it was driving very fast. She didn't know if it was because of the rumors, but it didn't dare to stay here for long.

Du Jingjing sighed faintly. It seemed that there would be zero sales again today. If that was the case, there had not been a single customer for three consecutive days, right?

Why don't ... I just resign and go home to take care of my baby! Du Jingjing suddenly had this thought.

For the past ten days, she didn't know if it was because of psychological reasons, but she always felt that her mental state was not right after staying in the resort. She even had a faint bad feeling, as if a voice was telling her, "She had to leave this place quickly, or the baby would be affected."

The wall clock behind the bar showed that it was almost 12:50. Because there were no customers, the employees had finished their work meals early and were lazily wasting time at their respective posts.

Suddenly, du Jingjing felt a hint of warmth in her body.

She couldn't help but look left and right and asked, "Did any of you turn up the heater?"

"Supervisor, I didn't!" A round – faced waitress said.

"You don't say, I suddenly feel much warmer!" The cashier who was playing card games at the bar also looked up and said.

The round – faced waitress ran over and looked at the control panel of the central air conditioner. "No, I didn't! The temperature setting hasn't changed!"

These days, the resort's staff often felt a little cold. Even if the heater was turned on, it had no effect, so many people still wore thick coats indoors.

But now, everyone felt the temperature rise, and a few people couldn't help but take off their coats.

"The air feels fresher!" The round – faced waitress replied, "it's not stuffy at all!"

Only then did du Jingjing realize that she was not hallucinating. The suffocating feeling that had accompanied her for the past few days had disappeared.

At this time, another car came from afar. When it reached the entrance of the resort, it gradually slowed down and finally drove in.

Du Jingjing was the first to react. She quickly greeted, "Everyone, be more alert. We have guests!"

Then, she quickly walked out to greet him.

It was a BMW X5 off – Road vehicle. The car stopped in the empty parking lot in front of the resort's main building, and a man and a woman in down jackets got out of the car.

The man took off his sunglasses, looked around, and said, "The environment here is not bad, let's eat here!"

"I heard that there are some unclean things around here!" His female companion said hesitantly. Why don't we go to another shop?"

The man laughed and said, "look at your suspicious look. It's a bright and clear day. How can there be any unclean things?" Besides, it's almost one o' clock now. I'm starving. Let's do it here! Let's continue our journey after eating!"

The girl looked around and didn't seem to find anything wrong. Instead, there was an inexplicable sense of relaxation and comfort.

Hence, she nodded and said, "alright!" We'll eat here!"

At this moment, du Jingjing also came out to welcome them. She smiled and said, "Welcome to the Imperial hot spring, please come in!"

As du Jingjing led the two of them inside, she asked, "May I ask if the two of you are here for accommodation or a meal?"

"Let's eat!" The man said, "we've missed dinner time on the way here. Please ask the kitchen to hurry up. We're both famished, and we still have to continue on our way later!"

In fact, the two of them were from Beijing and had just returned from a self – driving tour. They were going to have lunch at home, but they were delayed on the road. By the time they arrived at little Tang town, they were already hungry, so they decided to find a place to eat nearby.

"Alright, please follow me!" Du Jingjing said.

As she led the two of them to the restaurant, she said, "The two of you must have had a hard time driving, right? We have natural hot springs, fish therapy, and other programs here that are very effective in relieving fatigue. We've also been doing a promotion recently, and the prices are very favorable. Do you want to know more about it?"

The man and his female companion looked at each other, pondered for a moment, and then nodded.””Alright! After we’re done ordering, you can introduce us!”

“Alright!” Du Jingjing was overjoyed and quickly said. Alright! Please take a seat, this is our menu!”

Du Jingjing had successfully promoted the resort’s hot spring project. This was undoubtedly a good sign for the hot spring resort, which had not been opened for three days.

The truth seemed to be proving du Jingjing’s psychological suggestion. For the first time, four groups of guests came that afternoon. In addition to the hot spring and other activities, there was also a couple with a child who chose to stay at the hot spring resort.

Of course, these people were not here to spend money. They were all passing by and walked in on a whim.

Du Jingjing and the others, of course, did not know that the land not far from the resort had undergone amazing changes, and even their resort had benefited a little.

In fact, the resort’s business was not good before. On the one hand, it was because of the scary rumors on the internet. On the other hand, it was also because they were too close to the land. Although it was not within the scope of the array, the yin Qi that was emitted was also uncomfortable.

Especially for pregnant women like du Jingjing, their bodies were even more sensitive. In fact, her sixth sense had been very accurate these few days. If Xia ruofei had not turned the yin formation into the Yang formation and du Jingjing had been working at the resort for a long time, the baby’s condition would not have been good. The probability of miscarriage and deformity would have been greatly increased.

Of course, she hadn’t been exposed to Yin Qi for a long time. In addition, the formation had already been reversed, so she naturally wouldn’t be affected.

On the contrary, after the formation was reversed, Yang Qi and spiritual Qi would also be released. Although it was only a small amount compared to the inside of the formation, du Jingjing’s fetus would also benefit. Including the guests today, although some of them who heard the rumors were hesitant, after really staying here for a while, without exception, they all gave up the idea of retreating and stayed to spend. This was also because the negative impact of the yin formation had become the positive impact of the Yang formation.

After all, it was a natural formation, and it was impossible to completely lock the yin Qi or Yang Qi within the range of the formation.

If Xia ruofei had known that the small amount of Yang Qi that was released would bring such benefits to the neighbors, he would not have minded.

After all, the yin formation had greatly affected his business. He would just treat it as compensation.

There was a limit to what one could do.

.....

Naturally, Xia ruofei did not know about the changes that had happened at the neighboring hot spring resort. On his way back to the capital, he had already called Zhao Yongjun and told him that the problem with the formation had been solved. Now, the follow – up work could proceed as planned.

Zhao Yongjun was naturally overjoyed when he heard this. He repeatedly said that he wanted to make it bigger and refute all the negative news from before with facts.

Zhao Yongjun would arrange these things, so Xia ruofei didn't have to worry.

After he drove back to the courtyard house and got off the car, Wu Qiang walked over and said to Xia ruofei, ""President Xia, miss song just came to visit you."

Xia ruofei was stunned and said, "Song Wei?" Where is she now?"

"In your courtyard!" Wu Qiang replied, "I told her that you went out to handle some matters and I didn't know when you would be back. She said that she would wait for you in the courtyard and I didn't dare to stop her."

Xia ruofei smiled. "It's okay. You did the right thing."

With that, Xia ruofei walked back to his own courtyard.

After a few steps, he turned back and said, ""Wu Qiang, make me some noodles! I haven't had lunch yet! I'm a little hungry!"

"Alright!" Wu Qiang hurriedly replied.

Xia ruofei thought for a while and said, "wait!" I'll ask Song Wei if she's eaten. If not, I'll have to get two servings! Go and boil the water first! Wait for my notice. "

"Alright, director Xia!" "Yes, master!" Wu Qiang replied in a straightforward manner and then quickly walked to the kitchen.

Xia ruofei walked towards the courtyard in the middle.

?

Chapter 1738: Leap – Type upgrade\_1

When Xia ruofei arrived at the middle courtyard of his residence, Song Wei was sitting at the stone table under the grape trellis. Her hands were on the stone table, supporting her face. She was staring straight ahead, but her eyes were not focused. It was obvious that she was not looking at anything. She was just in a daze.

Xia ruofei did not deliberately lower his footsteps, but Song Wei did not hear him. This was very abnormal for a master – to – be who was about to reach Qi disciple Level 3.

Xia ruofei laughed and said, "what are you thinking about?" He's so engrossed!"

Song Wei suddenly woke up from her thoughts and turned to look at Xia ruofei. She blushed and said, "You're back?"

Xia ruofei nodded."I heard from Wuqiang that you've been here for a while. Why didn't you come in and sit?"

"The air outside is even better!" Song Wei chuckled and looked Xia ruofei up and down. She could not help but look at Xia ruofei strangely and asked,"what have you been doing? How did it end up like this? Did you ... Go dig up some ancient tomb again?"

In the morning, Xia ruofei had dug ten big holes in Xiaotang town. His clothes and shoes were inevitably stained with mud. It looked like he had crawled out of the holes. This reminded Song Wei of the scene when they explored the underground palace not long ago.

"So, in your eyes, I'm someone who digs up graves every day?" Xia ruofei laughed.

"Isn't that so?" Song Wei chuckled. I've seen it with my own eyes!"

"No, I didn 't!" Xia ruofei waved his hand and said,"I just dug a few holes in the suburbs this morning!"

"What's the matter that needs you, the big boss, to do it personally?" Song Wei was surprised."Don't tell me you can't even afford to hire workers?"

"There's a special situation, so I can only do it myself. " Xia ruofei said,"let's not talk about this. I'm starving! Have you had lunch? If you haven 't, I'll ask Wu Qiang to make more noodles. "

"I came over after I finished eating." Song Wei asked,"why haven't you eaten yet? Why don't you stop eating noodles and I'll take you out to eat!"

Xia ruofei waved his hand."I don't want to trouble you. I've already asked Wu Qiang to boil some water. Since you've already eaten, I won't prepare your share!"

"MMH! Then quickly get Wu Qiang to prepare!" Song Wei said,"Don't Starve yourself!"

"Sure!" Xia ruofei nodded.

Then, he added,"Song Wei, it doesn't matter what you're looking for me for. You have to wait for me. I'm so dirty. I need to take a shower first."

Song Wei laughed and said,"go!" Do you want me to go to the backyard and tell Wu Qiang, then you can eat the noodles after you're done washing. "

"No need, no need!" Xia ruofei waved the phone in his hand and said,"I'll just call him!"

Then, Xia ruofei searched for Wu Qiang's number and dialed it as he walked into his super large master bedroom.

He told Wu Qiang to prepare the noodles for him to eat alone. Then, he found a clean set of home clothes and went to the bathroom to take a quick shower.

When Xia ruofei came out after changing his clothes, Wu Qiang had just served the noodles. There were hand – scooped noodles, his own fried sauce, two fried eggs, and two pieces of ham. Just looking at it made one's appetite go up, and the smell was very fragrant.

"You've worked hard, Wu Qiang!" Xia ruofei said,"go and rest! I'll clean this bowl myself later. "

Wu Qiang looked at Song Wei and said, "director Xia, you can just leave the bowl in the courtyard after you're done. I'll come over in the evening to clean it up."

Song Wei had come a few times, and each time, she would stay for at least half a day. Wu Qiang had started to pay attention to her. There was even one time when he accidentally came to the middle courtyard and found that the door to Xia ruofei's master bedroom was closed. He quickly left.

Therefore, Wu Qiang inevitably made some connections. Although he already knew that Xia ruofei had a girlfriend in the three mountains, it was normal for a Big Shot like Xia ruofei to have a few women around him. As for Song Wei, in Wu Qiang's heart, she had already become Xia ruofei's woman.

Therefore, Wu Qiang was worried that he would disturb their 'two – person world' if he came in rashly to clean up the dishes. That was why he said that he would come to clean up in the evening.

Xia ruofei had already guessed that Song Wei's intention was to cultivate. Hence, after hearing Wu Qiang's words, he didn't think much about it and nodded, "Alright! Go back and rest, you don't have to worry about this!"

As a girl, Song Wei's mind was naturally more meticulous. After hearing Wu Qiang's words, she could not help but blush and her expression became a little embarrassed.

Fortunately, Wu Qiang quickly left the courtyard tactfully while Xia ruofei began to eat her noodles in big mouthfuls. No one noticed her embarrassed expression.

Very quickly, Xia ruofei had finished the bowl of noodles. Song Wei could not help but laugh, "Looks like you're really hungry. You don't have to wash this bowl after you finish it ..."

Xia ruofei chuckled and wiped his mouth with a tissue. He said, "Speak! Why are you looking for me?"

Song Wei's eyes became a little resentful and said, "You brat, you returned to the capital yesterday and didn't even tell me! I only found out after watching the news! By the way ... You're really an internet celebrity now! He caused such a big problem just by taking a plane!"

Song Wei's tone sounded relaxed, but in reality, when the news that the quanté plane was off course was released, she was extremely worried. It was as if the end of the world had come.

?

Chapter 1739: A leap in improvement\_2

Fortunately, there was soon news that the flight had landed in Saipan and there were no casualties. Song Wei was slightly relieved.

As more and more news came out, Song Wei naturally found out about Xia ruofei's amazing performance that day.

Unlike Zhao Yongjun and the others who were amazed, Song Wei wasn't too surprised. After all, she had already entered the threshold of cultivation and knew the huge difference between a cultivator and an ordinary person.

Of course, this was only in terms of combat power. Song Wei still felt that it was unbelievable that Xia ruofei was able to land the plane successfully. Of course, she was still scared.

Xia ruofei chuckled and scratched his head. "Didn't I make it in time? Well ... You can't blame me for not informing you in advance! I was surrounded by reporters as soon as I came out of seclusion. When I finally broke out, Song Rui and the others took me back to the courtyard house. Then, I went out early in the morning to handle some matters ..."

"In the end, he still doesn't value me!" Song Wei said coyly, "I've been looking forward to the stars and the moon ..."

She was halfway through her sentence when her face suddenly reddened and she stopped. This was because her words were too ambiguous.

Before Xia ruofei could say anything, Song Wei quickly explained, "Don't misunderstand! I'm saying that I'm looking forward to you coming back to cultivate with me. You don't know, but when I cultivate alone, my progress is so slow that it's driving me crazy ..."

The "Scripture of the primogenitor" was originally designed for two people to practice together. Although it was not impossible to practice it alone, the effect would be very slow. Song Wei's practice these few days could at most maintain her cultivation level. After all, cultivation was like sailing against the current. If she did not improve, she would fall behind. Perhaps she could improve a little more if she was more diligent. However, compared to practicing it together, it was a world of difference.

It was no exaggeration to say that the effect of her one – hour joint training with Xia ruofei was much better than her daily training over the past few days.

Xia ruofei laughed, "why are you in such a hurry to explain?" I didn't misunderstand! So, you're here today mainly to cultivate?"

"Aren't you asking the obvious?" Song Wei replied. As long as I think of that sinister thing in my sea of consciousness, I will be restless and can't wait to get rid of it immediately ..."

There was another point that Song Wei found hard to mention. She felt that the peach blossom miasma had been influencing her these days, making her body more and more sensitive. Even when she was taking a bath, she would subconsciously have some embarrassing reactions, especially in her sleep.

Every time she had such a dream, the male lead would definitely be Xia ruofei. The scene in the dream would make Song Wei's body go soft and her ears turn red.

Even though she knew that it was the effect of the miasma, Song Wei still had a sense of anticipation towards the dream. It made her feel a little scared, so she could not help but come to see Xia ruofei without saying hello.

However, she did not expect to find Xia ruofei. Fortunately, Xia ruofei did not make her wait too long and they returned to the courtyard.

Xia ruofei said seriously, "you can't be too impatient!" As long as one's cultivation continued to improve, it was only a matter of time before they could completely eliminate it! In order to ensure that nothing

goes wrong, it's naturally better to be as prepared as possible. Once you're impatient, it's likely to backfire!"

"I understand ..." Song Wei nodded and said, "I understand the logic, but sometimes I can't wait ..."

Xia ruofei smiled and said, "that's normal. I'd be anxious too." But don't worry, with your current cultivation, it's not easy for the peach blossom miasma to affect your mind. Even if it can't be completely removed, it's not a problem to suppress it."

Song Wei smiled bitterly and thought, "I don't think I can suppress it!"

However, it was a little difficult for a Virgin to say this.

In fact, the miasma itself was not that powerful, but the most sinister thing about it was that it would take advantage of the situation. Just like how Song Wei already had deep feelings for Xia ruofei, plus the two of them were cultivating the "absolute beginning Heart Sutra" together, and Song Wei had repeatedly experienced the intimacy from the soul level. This made it even more difficult for her to extricate herself. The miasma was hidden in Song Wei's sea of consciousness. As long as it was slightly guided, Song Wei would be affected.

Xia ruofei continued, "then let's not waste any more time. Let's go and cultivate!" I hope this time it can help you break through to Qi disciple Level 3!"

Song Wei nodded her head and said, "Alright!"

The two of them entered the house. As usual, Xia ruofei locked the door and closed the curtains tightly.

This was supposed to be a normal action, but it still made song Weifang's heart beat fast. She couldn't help but think of the scene in her dream. In fact, this was the work of the peach blossom miasma.

Song Wei quickly took a deep breath and forcefully suppressed the distracting thoughts in her heart.

"Have a seat. I'll go and prepare," said Xia ruofei.

Other than avoiding Song Wei's sight and taking out the array flag from the space, he also had to prepare some food and water for the entire afternoon. If the time flow was 90 times faster, it would take several days in the array. The two of them could not go without food and water.

Xia ruofei walked into the cloakroom in his bedroom and quickly took out the array flags from the medium. Then, he took out some instant noodles and bottles of spirit pool water from the medium. After packing these things in a bag, he carried them out.

?

Chapter 1740: A leap in improvement\_3

Xia ruofei put the food aside and set up the formation. Then, he picked up the bag of food and walked into the formation with Song Wei.

This time, the two of them had cultivated in the array for about ten days, which was about three hours in the outside world.

The two of them ate and slept in the formation. Only when they needed to solve their “three urgent” problems would they leave the formation for a short while. Even if they were to cultivate, they would often spend more than six days.

On the fifth day of cultivation, Song Wei had successfully broken through to Qi disciple Level 3. In the next few days, the intensity of their cultivation decreased a little, mainly to help Song Wei consolidate her cultivation. Even so, when the two of them finished their cultivation, Song Wei’s cultivation had already reached the middle of Qi disciple Level 3.

Xia ruofei also felt that he had improved a lot. He was getting closer to Qi disciple Level 6.

As Song Wei’s cultivation level increased, Xia ruofei began to gain more and more benefits from their cultivation. He even felt that if he cultivated a few more times, he might be able to break through to Qi disciple Level 6.

It could be seen how heaven – defying the effect of the “absolute beginning Scripture” was when the two of them practiced it together. This was the effect of one plus one far greater than two.

After coming out of the formation, Xia ruofei smiled and said, “Song Wei, are you satisfied with your training?”

“Not bad!” Song Wei pursed her lips and smiled. Can we try to get rid of the peach blossom miasma?”

“In order to be safe, it’s best to wait until you’ve reached Qi disciple Level 4,” Xia ruofei said seriously.

He also added in his heart, “by then, I should be able to break through to Qi disciple Level 6. At that time, won’t a mere peach blossom miasma be easy to get?”

“Alright then!” Song Wei nodded. It seems that I have to be more diligent!”

Xia ruofei smiled. “You’ve been cultivating for such a long time. You need to take a break.”

Song Wei’s cultivation was a little progressive. Usually, her cultivation growth was very slow and almost stagnant. She could only improve by a large margin by joint training with Xia ruofei once in a while.

Song Wei was a little disappointed. “I’m just afraid that you won’t be in the capital anymore. If I want to find you for training, I’ll have to take a leave of absence and go back to the three mountains. But my parents are there. They’ll definitely be suspicious if I keep going back ...”

Xia ruofei said, “don’t worry about that. I’ll be staying for a few more days before I go back. Also, we’re working on a project here, so I should be coming here often. Anyway, before the end of this semester, I’ll definitely help you get rid of the peach blossom miasma!”

Song Wei finally smiled and said cheekily, “Alright then! I’m not going to talk to you anymore, I have to take a shower! My body is almost rotten ...”

Song Wei picked up her bag, opened the door, and walked out. She found a room and took a shower.

It seemed that she was well – prepared, even bringing a change of clothes.

Xia ruofei smiled and packed up as well. Then, he took his clothes and went to the bathroom to take a shower.

After taking a shower, Xia ruofei walked to the courtyard feeling refreshed. The sky was gradually turning dark. Although Wu Qiang did not come to disturb their 'two – person world', dinner must have been prepared.

However, girls took a longer time to shower. Song Wei had not come out yet. Xia ruofei sat down by the stone table, lit a cigarette, and smoked leisurely.

Just then, his phone that he had casually placed on the stone table vibrated.
