

God tier Farm 1801

Chapter 1801: Money can't last forever (1)

Xia ruofei saw that everyone was looking at each other and no one spoke first. He couldn't help but laugh and said, "Why are you being so modest at this time? Then I'm going to call names! Director Dong, you go first!"

When Dong Yun heard this, she didn't decline. She pondered for a moment and said, "Chairman, after our headquarters moved to the city, the employees are facing the problem of accommodation. Now, some employees are renting houses in the city by themselves. Do you think the company can provide some rental subsidies?"

Xia ruofei replied without hesitation, "no problem!" Isn't the company now fully implementing a hierarchical system? "As long as you're actually renting a house outside, you'll be given rent subsidies according to different levels. Director Dong and director pang should discuss it together and come up with a plan as soon as possible! Let's announce it before the relocation and make everyone happy!"

"Alright!" Dong Yun replied.

Xia ruofei thought for a while and said, "in addition to the rental Allowance, if you're willing to live on the farm, the company can get an employee bus!" It didn't cost much to buy two buses. Wasn't there a gold dragon Company in Heron Island that specialized in bus production? Get in touch and purchase two cars as soon as possible. Also, hire two drivers. Director Dong will be in charge of this matter!"

"No problem!" Dong Yun said as she jotted down notes in her notebook.

After Dong Yun finished speaking, Xiao Qiang looked at everyone and said, "Chairman, I also have something to ask. Our company's products are doing very well in all major channels and e – commerce. I'm considering ... Should we start setting up our own physical channels?"

Xia ruofei was stunned. "Our products have been in short supply. Is it necessary to set up our own channels?" he asked.

"I personally think it's quite necessary," said Xiao Qiang. Firstly, if they always relied on super – Commercial channels, they would always be controlled by others, including e – commerce. After all, it was someone else's business. This was equivalent to having their life in the hands of others. Also...Developing self – operating channels can also maximize profits, and we don't have to be exploited by the distributors."

Xiao Qiang's second point was easy to understand. After all, whether it was the supermarket or the e – commerce channel, they also had to make money, which would thin out paradise corporation's profits.

For the first reason, although Xia ruofei felt that the possibility of all the channels having problems at the same time was very small, there was nothing to refute. After all, nothing was absolute.

At this time, Feng Jing added, "Chairman, I agree with director Xiao's opinion. I think that opening up our own channels isn't just about the profit. There's something more important, which is to increase the invisible value of the brand."

Feng Jing paused for a moment before she continued, ""The self – operating channel I'm talking about should be similar to an offline experience Store, where we can display our company's various series of products. At the same time, we can also adopt a membership system and even introduce a point system. We can hold member activities from time to time to increase everyone's loyalty to the brand ..."

Hearing this, Xia ruofei was really tempted. He smiled and said, ""I get it, you want to make it like the house of little rice!"

Xiaomi's brand had been criticized by many people, who believed that it was more about marketing than substance. As more and more companies became Xiaomi's so – called ecosystem company, Xiaomi's Mall was becoming more and more like a grocery store. However, everyone had to admit that the results were indeed excellent after the marketing was done to the extreme.

Moreover, the cohesiveness of the millet fans was still very high. Some people would buy it as soon as a new product was released. The whole house was filled with the products of millet and its ecological chain enterprises, which was very similar to those die – hard fruit fans.

"Yes, I am!" Feng Rao said, "we can also build a paradise!"

Xia ruofei thought for a while and said, ""Since you've made this proposal, you must have a specific plan. Director Xiao, please tell us!"

Seeing that Xia ruofei was moved, Xiao Qiang couldn't help but feel happy and quickly said, ""Chairman, we initially hope to open two self – operated stores in Sanshan city in the first half of the year and strive to cover all the prefecture – Level cities in the southeast province by the year."

"Hmm, this plan isn't too radical." Xia ruofei asked, "what's the long – term plan?"

"Considering the coverage of the company's products, we hope to be able to expand our self – Service stores to the entire East China region within two years. We will also set up stores in the prefecture – Level cities and above, and we will open one or two more in the provincial and sub – provincial cities. Xiao Qiang said, "in the future, we naturally hope to open the Paradise home all over the country. If we can really do this, I think we will no longer rely on these existing channels!"

Xia ruofei nodded and asked, "this must have cost a lot, right?"

"The one – time investment is mainly for the renovation of the store. Xiao Qiang said, "the continuous expenses are the store rent and the employee's salary. We have made a preliminary calculation. The budget for the construction of each store is about three million Yuan. Of course, the expenses are different in different cities."

Xia ruofei thought for a while and said, "how about this?" We'll make a budget of 10 million to open two paradises in the three mountains to test the waters. If the results are good, we'll continue to expand!"

"Okay, Chairman," Xiao Qiang said, overjoyed. "I'll come up with a specific plan and budget as soon as possible!"

Chapter 1802: Money can't last forever (2)

Xia ruofei nodded and said, "don't forget the purpose of our paradise company. We must go for the high – Quality route. It's the same for our self – employed stores. Since we're going to do it, we must do the best. Don't save money in this aspect!" Otherwise, he might as well not do it! Of course, this doesn't mean that we have to be a spendthrift. Store leasing, renovation, there are many tricks behind this! It's best to find someone who knows the industry to help check!"

"I understand, Chairman!" Xiao Qiang replied respectfully.

Xia ruofei nodded and said, "don't be afraid of spending money. You can earn more money after you've spent it!" Besides, our company's ability to make money is very strong. In the future, I will develop more money – making projects, even projects that are not worse than jaded skin ointment. As long as everyone works together and put in effort in one place, the company will definitely not treat everyone badly in the future!"

Xia ruofei's words made all the high – ranking officials in the meeting room excited.

The director of the pharmaceutical factory, Xue Jinshan, saw that everyone was speaking freely and he couldn't sit still anymore. Taking advantage of the fact that Xia ruofei had just finished speaking, he quickly said, "Chairman, the pharmaceutical factory also has something to report to you!"

Xia ruofei laughed and said, "Oh? Tell me about it!"

"Chairman, the two projects of the Jushi cream and the heart – nourishing soup are undoubtedly golden projects," said Xue Jinshan. "It's just that the production capacity of our pharmaceutical factory is limited, and the potential of these two projects is far from being fully explored! Chairman, I think expanding production is an urgent matter! Every day, looking at those distributors waving their checks for quotas, it's like seeing silver in front of me, but I can't pick it up. It's so uncomfortable!"

Xue Jinshan's words made everyone laugh.

In fact, it wasn't just the pharmaceutical factory. The farm was also the same, including products such as iron maple and Cordyceps, the market was far from saturated. In the end, it was still limited production, so money couldn't be earned.

It was just that the jaded skin cream and heart – nourishing soup from the manufacturing factory, one of which was extremely profitable, and the other had excellent social benefits, so the production problem was more prominent.

Xia ruofei smiled and asked, "the pharmaceutical factory just increased the production line. Now they want to increase production again?" Could the talent reserve keep up? Would there be chaos in the management? If the quality of the product is flawed because of these problems, then the loss outweighs the gain. You must know that the brand of our tuan Tao Yuan company is the real priceless treasure!"

"I don't think there's a big problem with the manpower," Xue Jinshan said. "Ordinary workers don't have much technical content. After recruiting them and training them for a period of time, and then teaching the new with the old, they're completely capable of doing the job!"

At this point, Xue Jinshan hesitated for a moment before he continued, "As for the management, it might be a little tense in the short term, but we can totally poach people! There were quite a few capable people in those big pharmaceutical factories! Now, because of the Jade skin cream and heart –

nourishing soup, our pharmaceutical factory is very famous in the industry. As long as we reveal the news that we are recruiting, I believe that there will be a lot of people interested! Our company has a lot of room for improvement, and the pay is definitely top notch in the industry. The success rate of poaching is very high!”

“As for the management ...” Xue Jinshan pondered for a moment before saying, “actually, after director Dong joined us, he gave a lot of good suggestions for the standardized management of our pharmaceutical factory. If we follow director Dong’s standardized management concept, I think that even if the early stages will be a little messy, there will definitely not be any serious mistakes!”

Xia ruofei nodded and said, “I agree ... In principle!”

The most profitable project now was the jade skin cream, so Xia ruofei naturally wouldn’t be stingy with money.

Then, Xia ruofei changed the topic and said, “”Factory manager Xue, do you have any specific ideas?”

Xue Jinshan had clearly considered this question seriously. He immediately replied, “As the factory area is limited, it’s not feasible to continue increasing production lines. Besides, the factory area is surrounded by Laocheng District, and the land price is not cheap, so ... I suggest building a sub – Factory!”

“A branch factory?” Xia ruofei had not thought of this.

Xue Jinshan nodded and said, “the current pharmaceutical factory has already been purchased. All the facilities are a little old. The cost of renovation is not small. My opinion is to find a place to get the government to approve a piece of land. We can plan from the beginning and build a pharmaceutical factory that meets international standards!”

Xia ruofei smiled bitterly. “You’re really big – hearted!”

Buying land was not a big problem. The government was still quite supportive of this kind of industrial investment.

And now, the assets of the Paradise company had reached more than one billion Yuan. Although it couldn’t be said to be ranked among the top in San Shan, it at least had a certain amount of weight.

In addition, Xia ruofei was quite influential. He did not even need to look for song Qiming. It would not be too difficult for him to make a request to the government through formal channels.

The problem was that investing in a new pharmaceutical factory would cost a lot of money. Peach blossom company only had 90 million Yuan in liquid capital at the moment, which was undoubtedly a drop in the bucket for the pharmaceutical factory, which had a construction cost of hundreds of millions.

Xue Jinshan clearly understood Xia ruofei’s concerns and immediately said, “Chairman, if we can get the suburbs industrial land, it won’t cost too much. For example, the base price of the primary industrial land around the farm is about 350000 Yuan per mu. 1000 mu of new plant will be enough, which is only 350 million Yuan!”

Xia ruofei couldn't help but laugh, "only 350 million?" I say, old Xue, you're really rich now! Could it be that the sales of the jade skin cream gave you an illusion? 300 million! Where am I supposed to make it appear for you?"

When he heard that the company had 90 million Yuan in liquid funds, Xia ruofei thought it was a lot. Now, it seemed that 90 million Yuan was not even money. Xue Jinshan was already thinking of starting a billion – dollar project, how could this amount of money be enough!

This money really can't be spent!

Xue Jinshan's face reddened as he explained, "Chairman, the government won't ask us to pay in one go for the land we're transferring. I think we just need to do some work and get a 20% bonus! That's only 70 million! With the money – making abilities of the jade skin cream and heart – nourishing soup, it's definitely not a problem to pay more than 200 million!"

Zhao Yongjun and the others had already taught Xia ruofei a lesson about real estate development in the capital, so he was not completely clueless.

He said, "even if there's no problem with the money for the land, what about the construction?" You just said that it would be built according to international standards. Also, the cost of the production line alone would be an astronomical figure for a 1000 mu pharmaceutical factory Park! Have you calculated it?"

Xue Jinshan had really calculated it before. He had been thinking about opening a branch factory for a long time. He was really tempted when he saw so much money in front of him but couldn't earn it.

So, he immediately said, "Chairman, I've roughly estimated that the construction of the entire pharmaceutical factory might cost about 1.5 billion. Of course, we only need 500 million in the early stage to start the construction!"

When Xue Jinshan said this, he didn't wait for Xia ruofei to rebut. He sped up his speech, "Chairman, 1.5 billion is really not much! Overseas production lines were very expensive, and standardized factories were also very expensive! However, as long as the new factory was completed, the increased production of the jade skin ointment alone would bring immeasurable benefits! My conservative estimate is that in one to one and a half years, all the investment will be worth it! He had earned more than one or two billion in a year! Where else can you find such a good thing?"

Xia ruofei laughed and said, "Okay, okay!" Old Xue, don't give me that. I'll just ask you this: Where did the money come from? Don't expect me to continue injecting capital! I can think of a way to get tens of millions or even one or two hundred million. Your factory is standardized, and you have a 1000 – mu Park area. I don't run a money – printing factory, so Where Can I Get that much money?"

At this moment, Dong Yun and Feng Jing looked at each other and said, "Chairman, you seem to have forgotten something ..."

Xia ruofei was stunned and asked, "did you forget something?" What do you mean, director Dong?"

Dong Yun's expression was a bit strange as she said, "Have you forgotten that there are still banks in this world? We're in zero debt now. For such a large company to have a debt ratio of zero, this is really

unbelievable! If we really want to start the pharmaceutical factory construction project, we can definitely get a loan from the bank!”

Chapter 1803: High morale (1)

“Loan?” Xia ruofei couldn’t help but be stunned.

To be honest, it was a coincidence that Xia ruofei owned a big company with more than a billion Yuan in assets. When he first got the spirit map space, he just wanted to earn more money to improve his life. He didn’t expect the company to grow bigger and bigger.

In fact, Xia ruofei was not a qualified company manager. His philosophy was different from that of ordinary businessmen. He even had the simple idea of not having any debts.

In addition, the core competitiveness of the Paradise company actually came from the spirit map space, so the operating costs were very low. In the early stages, they had never needed to use loans to develop.

Hence, Xia ruofei did not take the initiative to look for loan funds.

Feng Jing found it funny, but she had to protect Xia ruofei’s authority during the meeting. Hence, she thought for a while and said, “Chairman, the most important thing for a company’s development is capital. If you have the money, you can expand in minutes and turn the money in the bank into the company’s total assets. Although the debt rate has increased, the company’s scale has expanded.”

In fact, most companies operated this way. Otherwise, if they were like Xia ruofei, who only relied on his own money to expand production and scale, how long would it take for a company to develop?

“Chairman,” said Dong Yun. “Many companies have a debt ratio of more than 50%, 70%, and 80%. As long as the capital chain is healthy, the bank is more than happy to lend us money.”

Xia ruofei nodded and asked, “Is there any difficulty in applying for a loan?”

“With our zero debt and so many high – Quality assets, there shouldn’t be any problems with the loan review.” Feng Jing said, “in fact, ICBC President Zhou even half – jokingly told me that if every business was like us, the bank would have to close down!”

“President Zhou even took the initiative to ask me if we need a loan!” Pang Hao said with a smile.

The salary of paradise corporation’s employees was paid through ICBC, and the company’s accounts were also opened by ICBC, so the relationship between ICBC and the company had always been quite good.

Xia ruofei scratched his head and said with a smile, “Are there still banks rushing to give money these days?”

“Then who’s going to get the points!” Pang Hao said, “as long as one’s brain isn’t damaged, they can see the development prospects of the Paradise Corporation. The bank will definitely not make a loss by lending us a loan. Furthermore, we still have many high – Quality assets as collateral.”

Xia ruofei was no longer biased against loans. He thought for a while and asked, "If we apply for a loan from ICBC, how much do you guys think we can get?"

"500 million is definitely not a problem," said pang Hao. If we work hard to coordinate, six to seven hundred million or even seven to eight hundred million won't be a problem!"

"So many!" Xia ruofei was also shocked.

Xue Jinshan said proudly, "Chairman, it's definitely not a problem to mortgage 500 million Yuan from Taoyuan pharmaceutical factory. The Jade skin cream project is simply a hen that lays golden eggs!"

Xia ruofei glanced at Xue Jinshan and teased, "I was wondering why old Xue was so arrogant! He's talking about projects worth more than a billion Yuan, like a nouveau riche!"

Everyone laughed when they heard this. They were in a good mood because they could see that Xia ruofei had been persuaded.

As expected, Xia ruofei pondered for a while and said, "Regarding the expansion of the sub – Plant, we can do some preliminary research. I need to see the detailed plan and budget, including the one – time investment needed in the early stage, the follow – up fund requirements, the time of payment, and so on! After all, it's a project that involves so much money!"

Xia ruofei did not want to cause problems in the company's capital chain because of his radical strategy. Even if the company went bankrupt, he could still live a carefree life. However, the company was built by him after all, and the hundreds of people under him now depended on the company for their livelihood!

Xia ruofei's request was very reasonable. Xue Jinshan said excitedly, "No problem! Chairman, I'll get it done as soon as possible!"

Xia ruofei nodded and said, "yes!" If the plan is feasible, I'll talk to the government personally and try to get as much land as possible!"

"Thank you, Chairman!" When Xue Jinshan heard this, it was as if he had eaten a calming pill.

Xia ruofei looked around at the crowd and said, "You guys won't ask for more money, right? Good fellow! After a meeting, I'm going to owe the bank a few hundred million ..."

"Hahaha ..." Everyone laughed in unison.

In fact, Xia ruofei was just joking. If the pharmaceutical factory's expansion plan was implemented, the company's total assets would more than double. Furthermore, the annual revenue would increase greatly. By then, would they care about the debt of hundreds of millions?

Using the bank's money to develop the company, using the bank's money to make money for himself, just having to pay a little interest, how good was this!

Other enterprises would be eager to take out as many loans as possible!

After Feng Rao laughed, she said in embarrassment, "Chairman, supervisor Cao has mentioned the farm to me a few times. He also hopes to expand the scale of planting ..."

Cao tieshu could not be considered as one of the company's top executives. He was only the supervisor of Taoyuan vegetables, so he did not participate in the meeting. However, he had looked for Feng Jing several times, and he always talked about the problem of the farm's production capacity.

Xia ruofei said helplessly, "it's not impossible to expand the scale of the farm, but to connect it with the existing land, it may involve coordination with different towns and villages. You guys get a plan first. If it's feasible, contact them first!"

Chapter 1804: High morale (2)

Then, Xia ruofei reminded him again. "There are so many projects at once. We'll be using too much money. We must pay attention to the health of the capital chain. Pang Hao's side has to plan every expense well. Don't be too anxious to collapse!"

"Understood!" Pang Hao said, "Chairman, as long as the loan from the bank goes smoothly, there won't be any problems with our capital chain!"

Xia ruofei nodded and asked, "is there anything else you need to spend money on?"

Everyone laughed and shook their heads.

Xia ruofei had been away for more than a month. Many of their plans and ideas had to wait for him to come back, so they all asked for money at the meeting.

Xia ruofei closed the book and said, "If you don't, then the meeting is over! I'm going to take a look at the headquarters! President Feng and director Dong, if you're free, please come with me!"

"Alright!" Feng Rao and Dong Yun replied in unison.

The company's top management walked out of the big meeting room in a single file. Everyone was rubbing their fists and wiping their palms, their morale very high.

If all the topics discussed in today's meeting could be implemented, there was no doubt that paradise Corporation would welcome a great opportunity to take off.

As the company's top management, their status naturally rose as well.

Xia ruofei and the other two went back to the office to put down their things and then went downstairs together.

The security had sent a veteran named Xie Bing to wait downstairs in a Mercedes – Benz. Xia ruofei and Feng Jing naturally sat in the back seat while Dong Yun sat in the front seat.

After getting in the car, Xia ruofei thought for a while and said, "President Dong, go and buy a few small cars for the company's directors and above. Aren't you going to buy a bus soon? We'll make the plan together!"

Before Dong Yun could say anything, Feng Jing said, "Chairman, the company's current demand for cars is not particularly urgent, we also ..."

Xia ruofei waved his hand. "A car also represents the face of a company. This Mercedes – Benz is the only decent car in the company now. In the future, you will have to deal with the government and the banks. You can't always have a car, right?"

Since Xia ruofei said so, Feng Jing could not refute him. In fact, Feng Jing knew that it was necessary to get a car. It was not only for the sake of the company, but also for the enthusiasm of the higher – ups. However, they had just confirmed that they would need a lot of money during the meeting, so Feng Jing felt that the problem of the car could be put aside for a while.

Seeing that Feng Jing didn't object anymore, Dong Yun nodded and said, "Alright!"

"Chairman, what kind of car should I get?" she asked.

Xia ruofei thought for a while and said, "let's go with the Mercedes – Benz S – Class!" This car is good for business use!"

"That's a huge expenditure of several million Yuan!" Dong Yun raised her eyebrows and said.

There were five or six people above the director level in the company, including Xue Jinshan from the pharmaceutical factory. An imported S – Class Mercedes – Benz car, even an S350, would cost more than a million. If it was a Mercedes – Benz S600, it would cost two or three million.

Xia ruofei chuckled and said, "we're going to spend a few hundred million soon, why would we care about a few million?" Don't worry! If the company's funds are tight, I'll continue to inject capital. I can't say much, but one or two hundred million is not a problem!"

Xia ruofei's overseas account had tens of millions of us dollars. In addition, his domestic account had tens of millions of cash, but he did not have any investment channels.

After the meeting in the morning, Xia ruofei's thinking had changed. It was too bad to put the money in the bank to suffer interest. It was better to invest it in the development of the company.

Of course, he had to keep enough money to ensure his financial freedom. In other words, he only needed to consider his personal preferences when spending money, not the thickness of his wallet.

Hearing Xia ruofei's words, Dong Yun had no more concerns. She nodded and said, "Understood, I'll come up with a car purchase plan as soon as possible for you to have a look!"

"Yes, you've worked hard!" Xia ruofei said, "there might be some chaos in the short term after the company's relocation. You'll have to be exhausted as the Executive Director during this period of time with the coordination between the departments and the passing of messages. Quickly straighten out the daily management of the company!"

"No problem, this is part of my job!" Dong Yun said.

Soon, the car arrived at the new headquarters of paradise Corporation.

From afar, Xia ruofei could see that the original words "balance power building" had been removed from the outer wall of the building. In its place was the new words "paradise building" and the LOGO of paradise Corporation. It was very eye – catching from afar.

It was still daytime. Xia ruofei believed that at night, with the lighting effects, he could see the sign of the Paradise building from far away.

The building had been cleared, and the car slowed down at the entrance of the underground parking lot. Before the car stopped, the pole was raised.

Xia ruofei noticed that the guard in the parking lot was also a veteran from the security Department of Peach Blossom Farm. Xia ruofei could still vaguely remember his name.

"Xie Bing, that was Shen Yuanwu, right?" Xia ruofei asked.

"Yes, President Xia!" Xie Bing drove the car into the underground parking lot and answered, "we're taking turns to be on duty. The building hasn't been put into use yet, so we don't need too many people for security."

After two recruitments, the security Department now had more than 30 people.

However, Xia ruofei felt that the manpower was getting tighter and tighter because the security Department was in charge of the pharmaceutical factory. Now that there was an additional building, the security pressure was obvious.

Xia ruofei thought for a while and said to Feng Rao, "Director Feng, I'm planning to expand the security Department. According to the current allocation of manpower, our brothers are working too hard, and it's easy to make mistakes!"

"I think so!" Feng Jing nodded in agreement.

Xia ruofei said, "the security Department will have around 150 to 200 people!" I'll give ye Lingyun and Lei Hu a heads up later. We'll still prioritize recruiting from the Veterans!"

Many veterans had been drivers in the Army before. Whether it was in charge of security or driving, they had no problem. Maybe it was a little difficult to recruit veteran drivers because buses needed an A certificate, but small car drivers were definitely not a problem.

Although Feng Jing felt that there were too many people, she didn't raise any objections.

Since the building was not yet in use, the underground parking lot was quite empty, so Xie Bing parked the car directly near the elevator.

Xia ruofei and the other two took the elevator up, while Xie Bing waited in the car.

"Chairman, where should we start?" Feng Rao asked.

"Let's start from the bottom!" Xia ruofei said.

The peach blossom company was using the 10th to 15th floors that they had acquired from the Power Construction Company, and the 1st to 9th floors that they had bought from bojun real estate, which were all temporarily idle.

"Alright!" Feng ke said.

The three of them went to the tenth floor first.

This was actually a spare floor, but compared to the nine floors below, the tenth floor was decorated in the same style as the upper floors, including office slots and all kinds of cables. In the future, when the company expanded, they could directly use it as long as they purchased office equipment.

Xia ruofei looked at it seriously. He asked about everything, from the model of the cable, the brand of the cement paint, and the wallpaper. He also asked about the specific results of the environmental impact.

The three of them watched and chatted as they walked up the stairs.

The 11th and 12th floors were the marketing department's territory, including the e – commerce Department.

The 13th floor was for the finance and security departments.

The vice president's office was on the 14th floor. Of course, it was still empty. The administrative department was also on this floor.

The 15th floor was split into two. The largest part was Xia ruofei's chairman's office, while the other part was the CEO's office. There was even a space beside Feng Jing's office for the use of the CEO's office staff.

The directors of each department worked on the floor of their respective departments. As there was plenty of space, the directors had their own spacious offices. Of course, it could not be compared to Xia ruofei and Feng Jing's super – Large offices.

When they reached the vice president's office on the 14th floor, Xia ruofei even said meaningfully, ""I hope this office won't be empty for too long! Everyone has to work hard!"

Of the three people present, one was the chairman and the other was the president. Naturally, they did not need to "work hard" to fight for the position of Vice President. Xia ruofei's meaning was clear.

Dong Yun's eyes were filled with fighting spirit, and she couldn't help but feel her blood boiling.

Soon, the three of them arrived at the 15th floor. This was the first time Xia ruofei had visited his future office after the office was renovated.

Chapter 1805: A coincidental encounter at the restaurant (1)

Xia ruofei first visited Feng Jing's CEO office. It was already an eye – opener for him. His first impression was that it was quite spacious. Compared to the office on the farm, the conditions were simply too good.

However, when Xia ruofei saw his own office, he finally understood what luxury was.

He pushed open a pair of dark red double doors. The first thing he saw was a corridor and a Chairman's secretary's office. Just this office alone was much bigger than Xia ruofei's office at Paradise Farm.

Next to the secretary's office, there was a door that led to Xia ruofei's office. In the secretary's office, there was another door that led directly to Xia ruofei's large office.

Xia ruofei walked into his office and an idiom appeared in his mind.

In reality, it wasn't that exaggerated. It was just an illusion that appeared in his mind when he suddenly entered a very empty space.

What did it feel like to have a big office of 300 square meters?

The decoration didn't look particularly resplendent, but it had a low – Key luxury. This could be seen from the details of the decoration materials, which were very exquisite.

Standing in this empty office, even his words would echo.

On the side near the glass wall, there was a huge office desk. All the office supplies were already in place. Xia ruofei sat on the leather chair and felt it. It really felt different from the big office on the farm.

Turning the chair around, one could look down at the three mountain City through the glass wall. Although the 15 – story building was not considered high, it was considered a high point in the Main City where old buildings were piled up. The view was quite good.

However, this large office was only one part of the chairman's office.

In reality, Feng Jing's office only took up less than one – third of the floor. The rest of the space was occupied by Xia ruofei's office.

In addition to this large office of more than 300 square meters, there was also a special lounge, which was more spacious than the luxury suites in the hotel.

In addition, it was also equipped with a meeting room, a reception room, a gym, a tea room ...

It could be said that if Xia ruofei wanted to, he could even live in this big office for the rest of his life. It had all the functions that he needed.

Moreover, for the sake of aesthetics and overall planning, many passages and doors had been designed to be hidden. The walls looked regular, but one of them was a hidden door. When it was pushed open, it was a different world.

After looking around, Xia ruofei felt that the design of the huge office was complicated.

"Boss Feng, I think I'll get lost in my own office in the future ... This is too big!" He said with a bitter smile.

"You're exaggerating," Feng Rao grinned. "You're just not familiar with the environment. You won't be able to use it after a few days ..."

"Didn't I tell you not to be so dramatic?" Xia ruofei said helplessly, "you're ... A little too wasteful ..."

"I'm just following your orders!" Feng Rao replied innocently. My original intention was to use the entire floor as your office! That's the only way to show the strength of our company!"

Xia ruofei glanced at Feng Rao and said, ""What's the difference between this and the entire floor? How much space does your office take up?"

“Chairman, I actually agree with CEO Feng’s opinion. As the company’s leader, your office represents the face of the company. You can even say that it’s a window to the outside world ... In the future, when you’re receiving friends and doing interviews, your office really can’t be too shabby ...”

Xia ruofei smiled bitterly, “Anyway, I’ve already put it in place. I just think it’s a waste ...”

“You’re the one who said you’d spend a few million just to get a car for the higher – ups!” Feng Rao chuckled. “Why are you so frugal now?”

“Are they the same thing?” Xia ruofei said, “Alright, alright. That’s it!”

Feng Jing chuckled. “Chairman, I’ve already looked around. The headquarters now meets the company’s requirements for moving in. Do you think ... We should pick a date to move in?”

Xia ruofei thought for a while and asked, “Moving is not a small matter. It involves so many people and resources. We have to plan it in advance! The company’s operations can’t be messed up!”

“Don’t worry!” Feng Rao laughed. President Dong has already prepared a complete relocation plan and he’s taking full responsibility for it. When the time comes, we’ll definitely be busy but not in a mess. The company’s operations will also be on the right track very soon!”

It was obvious that Feng Jing was quite satisfied with Dong Yun’s position as the Executive Director. In fact, Feng Jing had high hopes for Dong Yun back then and thought that she was the best candidate for the company’s vice president.

Xia ruofei nodded and said, “sure!” Then prepare to move! As for the date ... Give me some time to think about it. I’ll let you know as soon as I’ve decided. ”

“It’s already lunch time. We won’t have anything to eat even if we go back to the farm. Let me treat you guys to a meal!” Xia ruofei said.

“Sure!” Feng Rao laughed. Since the chairman is treating us, we won’t stand on ceremony with you!”

After all, Dong Yun was not very familiar with Xia ruofei, so she expressed her gratitude to Xia ruofei very seriously.

So the three of them took the elevator to the parking lot, then got into Xie Bing’s Mercedes – Benz and left the Tao Yuan building.

Chapter 1806: A coincidental encounter at the restaurant (2)

“Let’s go to Ling Ji’s private kitchen!” Xia ruofei said to Xie Bing.

“Yes, President Xia!” Xie Bing replied as he drove.

“I knew it ... You didn’t even forget to take care of your girlfriend’s business!” Feng Jing said.

“Be content!” Xia ruofei said, “who was the one who couldn’t forget this dish after eating the ‘Buddha Jumps Over the Wall’ from Ling Ji’s private kitchen?”

Feng Rao blushed and said, ""That dish is indeed delicious! Chairman, since we're going to your girlfriend's shop today, the Buddha Jumps Over the Wall soup is a must! Why don't you call and inform them first, in case they're all sold out? you'll be the one losing face!"

Xia ruofei replied easily, "don't worry!" If you follow me, you will definitely be able to eat the most authentic Buddha Jumps Over the Wall whenever you go!"

Xia ruofei was the one who had provided the recipe for the 'Buddha Jumps Over the Wall' to Ling Xiaotian. Now, it had become the Golden signboard of Ling Ji's private kitchen and could only be obtained in advance.

Of course, the private restaurant would reserve a few servings every day in preparation for customers like Xia ruofei.

Very quickly, the car arrived at Ling Ji private kitchen.

The waiters at the entrance all knew who Xia ruofei was. Originally, the matter between Xia ruofei and the little princess of the Ling Ji food and beverage group had already been circulating within the Ling Ji group. A few days ago, Xia ruofei had even generously announced his relationship with Ling Qingxue on Weibo, and that made it even more well – known.

When the waiter saw Xia ruofei, he quickly greeted him. ""Good afternoon, Mr. Xia!"

Xia ruofei smiled and nodded. ""The flying Snow Pavilion is empty, right?"

"Yes! Please follow me!" The waiter said immediately.

Although the flying Snow Pavilion was called a private room, it was actually a small independent courtyard. It was usually not open to me. It was only used when Ling Xiaotian and Ling Qingxue invited their friends. Of course, if Xia ruofei was here, he could use it too.

"You'll see how rich our boss is soon enough. The entire courtyard is his private room ..."Feng Rao whispered to Dong Yun.

How sharp were Xia ruofei's ears? He immediately turned around and said, ""Boss Feng, you're not allowed to frame me behind my back!"

"Yes, yes, yes, this is your own business!" Feng Rao immediately smiled. No matter how extravagant your spending is, you can't be considered a local tyrant ..."

Xia ruofei didn't know whether to laugh or cry. Luckily, the manager of Ling's private kitchen came over and helped him out of the situation.

"Hello, Mr. Xia!" The store manager greeted Xia ruofei respectfully.

Xia ruofei nodded and said, "I'm bringing a few colleagues over for dinner. Tell the kitchen to prepare four small portions of 'Buddha Jumps Over the Wall'. Once they're done, send them to flying Snow Pavilion immediately!" As for the other dishes, you can choose what you're good at!"

"Alright!" The store manager quickly replied.

Xia ruofei saw that the store manager was still standing at the side after he had finished speaking. He asked curiously, "You still have something to do?"

"Mr. Xia, um ... The lady will be here soon. I'm waiting for her here ..." The store manager said quickly.

Xia ruofei couldn't help but feel a little embarrassed. So he was thinking too much ... Wait! Young miss? Then wouldn't that be Ling Qingxue?

Even though the manager of Ling Ji's private kitchen wasn't Ling Xiaotian's personal disciple, he was still a veteran employee who had served Ling Ji for many years. Only these people would address Ling Qingxue as "young miss."

"Qingxue is coming?" Xia ruofei asked.

"Yes, the general manager's office just informed us that the young miss has already set off from the company's headquarters!" The store manager asked honestly.

He said in his heart, didn't you guys make an appointment?

With that thought, the manager looked at Feng Rao and Dong Yun. Could it be that there was something going on between him and these two beauties, and the young miss came to catch them in the act?

However, he quickly dismissed this thought. He was afraid that Xia ruofei would not bring a woman who had an ambiguous relationship with him to Ling Ji dining hall. This was the Ling family's business!

Xia ruofei must have a clear conscience if he dared to bring her here.

Xia ruofei smiled and said, "what a coincidence!" President Feng, President Dong, please go to the private room and sit down first! My girlfriend will be here soon, I'll wait for her here!"

"Then let's just wait together!" Feng Rao said. He didn't have anything to do anyway. President Dong doesn't know the Chairman's girlfriend yet, right? I'm telling you, she's really pretty ..."

"Chairman, let's wait here together!" Dong Yun said with a smile. You're our leader, and your girlfriend is your leader! We can't be impolite!"

"What nonsense is this?" Xia ruofei didn't know whether to laugh or cry. "You're talking in a tongue twister!"

"You dare to say that Qingxue isn't your superior?" Feng Rao giggled and asked, "why don't you try saying that in front of her later?"

Xia ruofei sneered, "I'll say that no matter where I go ..."

He was halfway through his sentence when he suddenly felt that the atmosphere was a little off. He became alert and quickly used his spiritual power.

Sure enough, Ling Qingxue had already walked in through the door. Ling Qingxue must have heard their conversation just now. As for the store manager, who was standing there with an unnatural expression, he was naturally stopped by Ling Qingxue's gaze.

How fast was Xia ruofei's brain working? "Qingxue is my superior!" He immediately changed his tone and said. In my family, I make the big decisions, and Qingxue makes the small decisions. As for the big or small matters, it's Qingxue who decides them!"

Feng Rao burst out laughing and said,""How boring! I knew your ears were sharp, you must have heard the footsteps!"

Chapter 1807: A coincidental encounter at the restaurant (3)

She had really wronged Xia ruofei. It was not that Xia ruofei's hearing was bad, but that he would not always pay attention to the situation behind him. Of course, if there was any danger, Xia ruofei would still be able to sense it at the first moment.

However, this time, Xia ruofei only made the judgment based on the expressions of Feng Jing and the others.

At this time, Ling Qingxue also walked over with a smile, and the store manager quickly greeted her.

Ling Qingxue nodded slightly. He still had the authority of a leader.

However, when she turned to Feng Rao, her smile bloomed.""President Feng! What a rare guest!"

Feng Rao also smiled and said,"Qingxue, your Ling Ji private kitchen is too high – end. I can't afford to eat it normally. If it wasn't for the Chairman's treat today, we wouldn't have dared to come!"

"Oh right, let me introduce you. This is our new executive director, Dong Yun!" Feng Jing added.

"Nice to meet you, President Dong!" Ling Qingxue smiled and extended her hand towards Dong Yun.

Dong Yun shook Ling Qingxue's hand and said,""Hello, President Ling!"

After the small talk, Ling Qingxue looked at Xia ruofei. He did not know if it was because of Song Wei's incident that made Xia ruofei feel guilty, but he felt that Ling Qingxue's eyes were filled with resentment, as if she was saying that he had bad intentions by recruiting beautiful subordinates ...

I swear to God, CEO Feng has his eyes on Dong Yun, I can't take the blame for this! Xia ruofei said in his heart.

Of course, Ling Qingxue only glanced at Xia ruofei and smiled.""Chief Feng, chief Dong, you two can go to the flying Snow Pavilion with RUO Fei first! I still have something to do at the private restaurant, so I'll go and propose a few toasts to you guys later!"

"Alright! But we can go over by ourselves, let President Xia accompany you!" Feng Rao said with a smile.

Then, the two of them really left Xia ruofei behind and followed the waiter to the backyard. Ling Qingxue did not stop them.

Xia ruofei watched as Feng Rao and Xia RUO walked away and asked in a low voice,""Qingxue, why did you come over today?"

"This question ... Can't I just come and inspect the company's property?" Ling Qingxue asked.

“Don’t tell me he wants to eat ‘Buddha Jumps Over the Wall’, so he’s using the excuse of inspection ...” Xia ruofei said with an evil smile.

“You’re thinking too much!” Ling Qingxue replied, “we’re in the middle of a meal business! I want to see how the private restaurant is doing, so it’s better for me to come here before mealtime!”

“You, on the other hand, have another beautiful subordinate,” Ling Qingxue said. “You can have women on your left and right now ...”

Xia ruofei quickly said, “President Dong was hired by President Feng, it has nothing to do with me!” We went to see the headquarters building today and it was almost noon when we left. We’re just here for a free meal. ”

The priceless ‘Buddha Jumps Over the Wall’ secret recipe had been provided by Xia ruofei. Furthermore, he was the son – in – Law of Ling Ji restaurant. Naturally, it was free for him to come over for a meal. It was not wrong to say that he was freeloading.

“You’re preparing to move your headquarters?” Ling Qingxue asked with interest.

“Yup! Everything is ready, we just need to pick a day to move in!” Xia ruofei said.

“Then you’ll be working in the city from now on. We’re close by ...” Ling Qingxue said happily. “Oh right, there’s a villa for sale in our neighborhood. Why don’t you just buy it? otherwise, you’ll have to go back to the farm after work. How troublesome!”

“Do you think I’m the kind of person who spends all day in the office from nine to five?” Xia ruofei asked with a strange expression.

Ling Qingxue was at a loss for words. After a while, she said, “”This is the first time I’ve seen someone talk about slacking off so righteously, fresh, and refined ...”

Xia ruofei couldn’t help but laugh.

Then, he looked at the manager of the private restaurant, who was standing far away with an uneasy expression, and said, “”Go and do your things first! Let’s talk about it later ... President Feng and the others are our guests, it’s not good to ignore them. I’ll go to the flying Snow Pavilion to greet them ...”

Ling Qingxue quickly pulled Xia ruofei and said, “”Wait! I still have something to ask you!”

Then, she looked around and asked in a low voice, “”Ruofei, how are the preparations for cultivation coming along?”

Chapter 1808: An unexpected surprise (1)

Xia ruofei had already expected that Ling Qingxue would definitely ask this question. He deliberately said in a relaxed manner, “”Don’t worry, I still have to prepare a few medicinal herbs for you to recuperate. It’s very important to be in contact with cultivation for the first time. You have to recuperate your body to its best condition before you can succeed in one try!”

Ling Qingxue asked, “are the herbs expensive?” Do you have enough money? I still have ...”

"Silly girl! Your boyfriend's company is now valued at 2 billion!" Xia ruofei smiled and said, "would you be short of money to buy medicine?"

In fact, Xia ruofei's heart ached for the five crystals! He would not be willing to change it no matter how much money it was.

In terms of economic benefits, the spiritual Qi contained in five spiritual crystals could produce countless precious medicinal herbs. If it was converted into money, it would definitely be an astronomical figure.

Ling Qingxue giggled and said, "two billion and you're already cocky!" Why don't you compare it with our Ling Ji F & B?"

Xia ruofei rolled his eyes and said, "How long has paradise Corporation been established? Ling Ji restaurant is my future father-in-law's life's work. How can you compare it? If we really want to compete, let's wait until I'm at uncle Ling's age, then we'll compete again?"

"If you can't win, then you can't win. Why do you have to find so many excuses ..." Ling Qingxue said with a smile. "Go to flying Snow Pavilion! I'll look at the accounts here, then I'll go look around!"

"En!" Xia ruofei patted Ling Qingxue's head and said, "you don't have to work too hard. Take care of your health ... Also, when I've prepared the medicinal herbs, you'd better ask uncle Ling for a few days 'leave and stay at the farm. We'll help you get through the entrance gate wholeheartedly. It'll be much easier in the future ..."

Ling Qingxue nodded. "Okay, I'll let my father know in advance. I'll just ... Just tell him that I've been too tired recently. I want to rest for a few days and relax my body and mind!"

"Mm! "I'll go first ..." Xia ruofei said.

Xia ruofei strode towards the backyard, and the store manager finally let out a sigh of relief. He walked up to Ling Qingxue and said, "Miss, let me report to you the recent business situation of the private kitchen ..."

On the way to flying Snow Pavilion, Xia ruofei thought of picking a date to relocate the headquarters. Suddenly, he had an idea. He took out his phone from his pocket and found a number in his contact list. After a moment of silence, he dialed it.

The call was quickly connected, and a hearty voice came from the phone, "Mr. Xia! Why are you so free to think of this old man today?"

Xia ruofei smiled. "Hello, uncle Xu. I have something to ask you ... It's like this. Our company is planning to move our headquarters to a new building and we want to pick a good day. So ... We came to ask you, an expert!"

Xia ruofei was calling Hong Kong's Feng Shui Master, Xu lang. At the groundbreaking ceremony in the capital, Xia ruofei and Xu lang had a good conversation. Xu lang even offered to be the cultural and environment consultant of The Peach Blossom Spring Gathering, which gave Xia ruofei a big surprise.

The two of them naturally exchanged contact information.

Xu lang laughed and said, "Mr. Xia, you've given me a difficult problem!" It's related to the location of your company's new headquarters, as well as the current headquarters. Without going to your company to investigate, even if I have the ability of the heavens, I can't calculate the most suitable date!"

Hearing this, Xia ruofei realized that he had taken it for granted. Indeed, he did not have any concept of Feng Shui metaphysics. He thought that it was like flipping through the Almanac and seeing the words "today is suitable for moving", he could choose an auspicious day.

Just as Xia ruofei was about to give up on asking Xu lang to pick a date, Xu lang changed the topic and said with a smile, "Mr. Xia, I'm going to Heron Island to attend a metaphysical exchange tomorrow. If you have time, I'll go to the three mountains the day after tomorrow to check it out and give you my advice. How about it?"

Xia ruofei was surprised and happy. He quickly said, "That's the best, of course! But ... Wouldn't this be too much for you?"

Xu lang laughed and said, "the three mountains are very close to Heron Island!" I'll just treat this as a vacation. You'll treat me to a taste of the three mountains "specialty food, no problem, right?"

"Of course, no problem! Uncle Xu, I'll definitely make you feel like you're at home!" Xia ruofei said happily, "uncle Xu, I'll arrange a car to wait at Heron Island tomorrow. We'll bring you to Sanshan after the exchange meeting!"

Xu lang smiled. "There's no need to go through so much trouble ... I heard that the high – speed rail in the mainland is very convenient now. It only takes more than an hour to get from Egret Island to Sanshan. It's much faster than driving. Besides, I want to experience the speed of Huaxia in our motherland!"

Xia ruofei felt a little embarrassed. Xu lang was a Feng Shui Master in Hong Kong. Even tycoon Li listened to him. It was a little rude of him to invite someone to come and pick a date. It was not proper to ask him to come by high – speed rail.

Xia ruofei's mind whirled and he said, "Since uncle Xu wants to experience the high – speed rail in the mainland, I'll make the arrangements in advance. I'll get someone to contact you tomorrow!"

Xu lang didn't reject her this time. He smiled and said, "Then, thank you, Mr. Xia!"

"Uncle Xu, please don't say that. I should be the one thanking you!" Xia ruofei said hurriedly.

Chapter 1809: An unexpected surprise (2)

"Hahaha! Let's not be so polite!" Xu lang smiled and said, "I heard that the mainland is using a real – Name System to buy high – speed rail tickets. I'll get someone to send you a copy of our identity information later."

"Alright! Alright!" Xia ruofei said, "uncle Xu, I'll see you tomorrow!"

"Alright, see you tomorrow!" Xu lang said with a smile.

After hanging up the phone, Xia ruofei secretly felt lucky. He did not expect Xu lang to be going to Heron Island to attend the exchange meeting. This was too much of a coincidence.

In fact, an auspicious day was also a bit illusory. However, Xia ruofei still attached great importance to the relocation of the company headquarters. With a well – known Feng Shui Master in Hong Kong to help pick a day, at least he would feel more at ease.

.....

In a luxurious suite of a five – Star hotel in Beijing.

Xu lang, who was dressed in a Tang suit, called his assistant in and asked, ""A 'Yuan, did the heron Island mystics society invite us to an exchange event tomorrow?"

"Yes, but I've already turned you down the day before yesterday," said the assistant, a 'Yuan, nodding.

"Go and reply to them that I'll be there as scheduled tomorrow!" Xu lang said.

"Uncle Xu, we've already booked our return tickets to Hong Kong tomorrow ..." Ah Yuan was stunned for a moment.

"Then, return it!" Xu lang said firmly, "push back any arrangements in Hong Kong in two days!"

"Alright!" A 'Yuan's heart trembled as she quickly replied.

Although he didn't know why Xu lang suddenly changed his mind to attend the exchange meeting on Heron Island, as an assistant, he just had to follow his orders.

As ah Yuan walked out, she said in her heart, The heron – Island mystics society was going to be overjoyed ...

Indeed, as a city – Level metaphysics organization, they had only invited Xu lang to give it a try since they had heard that he was in Beijing. They did not have high hopes at all. In fact, Xu lang had turned them down.

Now that he had suddenly changed his mind and wanted to participate, it was definitely a huge surprise for the heron Island mystics society!

At this moment, Xu lang said from behind, ""Oh right, a 'Yuan, send our identity information to Mr. Xia. He's going to help us book the tickets!"

"Book tickets? The egret Island mystics society will be responsible for buying the tickets to Egret Island. " A 'Yuan asked, puzzled.

"It's a high – speed rail ticket from Heron Island to Sanshan. " Xu lang said, "don't worry about it. You have Mr. Xia's business card, right? Get in touch with him as soon as possible!"

"Alright, uncle Xu!" Ah Yuan quickly replied.

.....

Three mountains, Ling's private restaurant.

Naturally, Xia ruofei did not know that Xu lang had specially changed his schedule to help him pick a date.

He was currently making tea with Feng Jing and Dong Yun as they chatted about company matters.

"President Dong, I'll invite a Feng Shui Master to pick a good day for us tomorrow." Xia ruofei said, "you guys should be prepared to move soon!"

"Alright, everything is in place now. All that's left is the crucial wind!" Dong Yun said confidently, "as long as you give the order, the company headquarters can be moved at any time!"

People in the business world were more or less superstitious, and there were even more people who believed in metaphysics. Hence, Feng Jing didn't feel that it was inappropriate for Xia ruofei to hire a Feng Shui Master. Instead, she asked curiously, "President Xia, which Fengshui master did you hire?"

"Hong Kong's Xu lang. Have you heard of him?" Xia ruofei smiled.

Feng Rao was stunned for a moment and asked in disbelief, "It's ... The famous uncle Xu?"

Xia ruofei was a little surprised. He smiled and said, "You really know uncle Xu! That's good! Director Feng's knowledge is really broad!"

Feng Rao glared at Xia ruofei and said, "Chairman, stop joking! You ... How did you manage to invite uncle Xu? Besides, it's just an auspicious day. Why would a master like him come all the way from Hong Kong?"

"President Feng, is this uncle Xu very famous?" Dong Yun asked curiously.

"Just remove the 'mo'!" Feng Rao smiled and said, "he's a legend in Hong Kong's field of mysticism. You should know the head of the Changjiang group, right? Uncle Xu is his personal Fengshui master!"

The head of the Changjiang group was, of course, mogul li.

As a top student of the business school who had just returned from abroad, Dong Yun might not know much about Feng Shui and metaphysics, but she definitely knew the famous tycoon li. He was the totem in the hearts of the business school students!

Dong Yun couldn't help but take in a breath of cold air, her beautiful mouth forming an "O" shape.

Feng Rao was amused and said, "President Dong, you don't really think that uncle Xu will come, do you? The chairman must be joking with us!"

Xia ruofei was speechless and said, "do I look that scary?" I really did invite uncle Xu over, and he's not in Hong Kong, but in Beijing. He'll be attending an event in Heron Island tomorrow, and then he'll pick a date for us!"

Seeing that Xia ruofei was serious and did not seem to be joking, Feng Jing was a little uncertain. She looked at Xia ruofei and asked, "Chairman, did you really invite uncle Xu?"

"Of course! Do I need to joke with you about this?" Xia ruofei was speechless.

"That's hard to say ..." Feng Jing mumbled.

Then, she added, "if it's really uncle Xu, we have to do our best to welcome him!" We can't neglect him ..."

Xia ruofei nodded and said, "I was just about to talk to you about this!" Uncle Xu will be attending an event in Heron Island tomorrow. He has already expressed that he wants to experience the high – speed rail in the mainland and has politely refused my offer to pick him up, so ... It's best for our company to send someone to pick him up in advance, and then we can take the high – speed rail back together. "

"Yeah!" Feng Rao nodded. Chairman, you've just come back, so don't rush around anymore. In order to show our importance, I think it's better for me to go!"

"You'll go personally?" Xia ruofei thought for a while and nodded. "That's fine. You'll take Liu Qian with you tomorrow. Thank you for making the trip!"

Just then, Xia ruofei's phone rang. It was an unknown number.

After he answered the call, he found out that it was Xu Lang's assistant, a 'Yuan.

Ah Yuan had sent his and Xu Lang's identity information to Xia ruofei's email and then called Xia ruofei to inform him.

Xia ruofei quickly sniffed Xu Lang's schedule for tomorrow on Egret Island. After expressing his gratitude, he hung up the phone.

Xia ruofei waved his phone at Feng Jing and Dong Yun and said with a smile, "It's uncle Xu's assistant. Do You Believe Me Now?"

Feng Rao smiled in embarrassment and immediately asked, "What's uncle Xu's plan for tomorrow?"

Xia ruofei said, "tomorrow's exchange event is half a day in the afternoon. After that, there'll be a cold dinner. But a 'Yuan said that uncle Xu will leave after the exchange event and will not be joining the cold dinner of the heron Island mystics society. The exchange event will end at about 5:30 in the afternoon."

Xia ruofei paused and said, "Considering the traffic during rush hour, you can book the tickets for the train after Seven o' clock! Remember to get a Business Class seat. "

"Alright!" Feng Rao immediately replied. Chairman, can you forward a copy of uncle Xu and his assistant's identity information to me? I'll contact Liu Qian to book the tickets!"

Xia ruofei nodded and opened his email on his phone. He forwarded ah Yuan's email to Feng Jing.

On the other hand, Feng Jing gave Liu Qian a call and asked her to prepare for the business trip. At the same time, she asked her to book the tickets as per Xia ruofei's request.

After hanging up the phone, Feng Jing transferred the email that Xia ruofei had forwarded to Liu Qian. She then heaved a sigh of relief.

She looked at Xia ruofei and said, "Chairman, uncle Xu has personally come to help our company choose an auspicious day. This is a big honor!" By the way, I heard that uncle Xu's pay for helping people look at Feng Shui is very high. How much should we pay tomorrow? We'll have to ask the finance department

to prepare the check in advance. If they accept Hong Kong dollars, we'll have to exchange it in advance ..."

Chapter 1810: Uncle Xu is here (1)

Xia ruofei thought for a while and said, "forget about the payment. I don't think he'll accept it ..."

"You're not paying?" Feng Jing's eyes widened in shock. "Chairman, this ... Isn't very appropriate, right?"

Naturally, Xia ruofei could tell that Xu lang was trying to befriend him. If it was just a greeting from MA Xiong and the other Hong Kong tycoons, Xu lang would not have treated him so differently. However, Xia ruofei could not figure out the reason behind it.

However, at least Xia ruofei did not feel Xu Lang's malice, so he did not waste his brain cells thinking about it.

No matter what, Xia ruofei had a feeling that if he paid Xu lang, he would most likely not accept it. Of course, Xu lang came all the way here and he could not let him come for nothing.

Xia ruofei thought for a while and came up with a plan. He smiled and said, "Don't worry, I have my own arrangements! I won't lose my manners!"

"Alright then!" Feng Rao shrugged.

As the three of them chatted, the dishes were already being served in the kitchen. The 'Buddha Jumps Over the Wall' that Feng Rao had been thinking about was also served.

Xia ruofei ordered four servings for Xie Bing, his chauffeur today. However, Ling Qingxue would be coming over soon. He thought for a while and said to the waiter, "Ask the kitchen to prepare another 'Buddha Jumps Over the Wall'. My driver is eating in the front yard. Send it to him."

Xia ruofei originally wanted Xie Bing to come to the flying Snow Pavilion in the backyard for a meal, but Xie Bing kept rejecting him, so he could only ask for a small room in the front yard.

The waiter's face twitched. He thought to himself, "this young master is really extravagant!" He even prepared the Buddha Jumps Over the Wall soup for the driver ...

One must know that this signature dish would usually be ordered at least half a month in advance. If it was during the peak period of the meal, such as a long holiday, it would be ordered even earlier.

Of course, the price was also very touching. The average working class would definitely not be able to afford it.

Not only did Xia ruofei have a Buddha Jumps Over the Wall soup for everyone, but even the chauffeur who was accompanying him also had one. He was really rich.

However, the waiter only sighed in his heart and quickly replied, "Alright!"

After the waiter left, Xia ruofei smiled and said, "Come on! Try this Buddha Jumps Over the Wall soup!"

"Let's just wait for Qingxue!" Feng ke said.

Xia ruofei smiled. "You're welcome. She's here to work. We don't know when it'll end." Besides, we're not outsiders ... Let's eat first!"

"Alright!" Feng Rao nodded after some thought. Since the chairman has spoken, President Dong, let's not be polite!"

"Thank you for your hospitality, Chairman!" Dong Yun said with a smile.

Xia ruofei smiled and waved his hand. "It's just a meal. You've all worked hard during this period of time. Take it as my reward!" By the way, do you want to drink some wine?"

"I need to focus on enjoying the food," Feng Rao shook her head. "I'll drink later!"

"Alright! As you wish!" Xia ruofei said.

The waiter came over to help them open the small jars. A rich fragrance immediately wafted out. Dong Yun, who was tasting the lingji's Buddha Jumps Over the Wall soup for the first time, couldn't help but sniffle. Feng Jing couldn't wait to taste it.

The waiter helped them scoop out the various ingredients from the jar, and the unique fragrance of the Buddha Jumps Over the Wall soup started to fill the room.

It had to be said that Xia ruofei's Secret recipe was very effective in improving the taste of the 'Buddha Jumps Over the Wall'. Girls were usually afraid of getting fat from eating greasy food, but Feng Rao and Dong Yun could not resist the temptation of the delicious 'Buddha Jumps Over the Wall' and ate it with relish.

In just a short while, they had already finished almost half of the 'Buddha Jumps Over the Wall' in the small jar. The other dishes were almost untouched.

At that moment, the waiter knocked on the door, and everyone saw Ling Qingxue walk in.

"Qingxue, come over and sit!" Feng Rao immediately called out.

"Does the food here suit everyone's taste?" Ling Qingxue asked with a smile.

"Just look at these two beauties' performance and you'll know if they're to your taste ..." Xia ruofei smiled.

Feng Rao was a little embarrassed and said, "Chairman, you seem to have eaten a lot too!"

Xia ruofei shrugged and said, "well, actually, I'm eating the same thing as CEO Feng ..."

Dong Yun couldn't help but smile as well. It wasn't a glorious thing to eat as much as a man like Xia ruofei!

Feng Rao's face turned red, but Ling Qingxue came to her rescue. She rolled her eyes at Xia ruofei and said, ""President Feng, don't pay attention to this guy. He just has a bad mouth ... He'll come here often if he likes to eat it!"

Feng Rao nodded and said, "Ling Ji 's' Buddha Jumps Over the Wall 'is indeed a worldly delicacy. If the price is a little more affordable ... Forget it. I'll just keep the price!" Otherwise, I'm worried that it won't be long before I gain weight. It's just right that I can't afford to eat now ..."

Ling Qingxue couldn't help but reveal a happy smile. This was equivalent to praising the deliciousness of Ling Ji's private kitchen.

She then looked at Xia ruofei. Everything was clear without words. The 'Buddha Jumps Over the Wall' recipe was provided by Xia ruofei for free.

Opening a private restaurant was Ling Ji's first attempt to develop into a high – end restaurant. The success of this attempt had a very important relationship with the 'Buddha Jumps Over the Wall' formula that Xia ruofei had provided.

After Ling Qingxue sat down, she asked the waiter to bring a bottle of red wine over. Everyone drank one or two glasses.
