

Chapter 181: Lu You's transformation (1)

Xia ruofei laughed and said, "it's a subconscious reaction. Why do you have so many whys?" Besides ... Isn't it natural for a boy to take care of a girl?" Lu You nodded silently. After a while, she said softly, "Thank you!" Xia ruofei grinned. He felt that this half – lying position was a little uncomfortable. He held the armrest and wanted to adjust it a little. However, with just a slight movement, he immediately felt a pain in the back of his waist. He couldn't help but gasp. 'Looks like he's really hurt,' Xia ruofei thought. It had been two or three minutes since he had drunk the petal solution. If it was an ordinary injury, he would have been much better. Now, he had only recovered slightly, but the pain was still very intense. This meant that the collision just now was very serious, and it was very likely that his bone was broken or even fractured. Seeing this, Lu You quickly asked, "how are you?" Will it work? Should I get the air stewardess to come over and take a look?" "Don't, don't, don't ..." Xia ruofei said hurriedly. "They're so busy now. Don't bother them. Besides, they can't do anything even if they come." "You're pretty good at protecting women ..." Lu You looked at Xia ruofei and said. "This is one of my few good points ..." Xia ruofei chuckled. "Tsk!" Lu You looked at Xia ruofei with disdain and couldn't help but burst out laughing. "I'm fine, don't worry!" Xia ruofei said, "I think it's just a hard injury. I feel better now. I don't think my bones are hurt ..." "Really?" Lu You didn't quite believe it. Xia ruofei did not look like he was suffering from a serious injury. It was as if his lumbar spine had been fractured and he could not move at all. "I know medicine, why Would I Lie to You?" Xia ruofei smiled and said, "I saw that you were quite tired just now. You should take a nap now! Right, remember to put on your seat belt first ..." "No, I'm not sleeping anymore. I was scared just now, so I'm not sleepy anymore." Lu You said, "I can take care of you if I'm awake. What if you need to go to the toilet or something ..." "Can you help me in?" Xia ruofei chuckled as he looked at Lu You. Lu You's face blushed. She immediately stood up and said, "Sure! Who asked you to get injured while trying to save me? Do you want to go to the bathroom now? I can help you there now!" Xia ruofei quickly waved his hand. "No, no, no... I need to rest a little longer. It's not easy for me to recover a little. Don't break my back again ..." When Xia ruofei said this, he suddenly felt that it was inappropriate. This sentence was ambiguous! He hurriedly stole a glance at Lu You, but Lu You didn't seem to hear anything. She just replied with an "Oh" and sat back down. 'Man, it's a good thing this girl is innocent ...' Xia ruofei thought. "Then why don't you sleep for a while!" Lu You said, "it doesn't hurt so much when I'm asleep ..." "Alright, I'll close my eyes for a while!" Xia ruofei smiled and said, "you should rest too! Even if you can't sleep, you can just close your eyes and rest!" "En!" Xia ruofei closed his eyes. After a while, he felt uncomfortable all over and could not help but open his eyes. As expected, he realized that Lu You was staring at him. Seeing Xia ruofei suddenly open his eyes, Lu You blushed and quickly looked away. Xia ruofei smiled and asked, "why are you looking at me?" Didn't I ask you to rest for a while?" "I'm just afraid that something might happen to you." Lu You's face was slightly red as she said this. "I'll call you if I need anything. I can't sleep with you staring at me like this ..." Xia ruofei said, not knowing whether to laugh or cry. "I know, you should go to sleep!" Lu You said. After she finished speaking, she leaned back in her chair and closed her eyes. Xia ruofei shook his head with a bitter smile and continued to rest. As time passed, Xia ruofei could not fall asleep. He could feel the petal solution entering his body and healing his injuries. The back of his head and the other parts of his body that had been injured were basically no longer in pain. As for the back of his waist, which was the most seriously injured, the pain had also been greatly alleviated. There should not be any major problems. The plane finally descended slowly and finally landed smoothly at Changping

International Airport. Probably taking into account the number of injured people on board, the captain was particularly careful with today's landing. The landing process was very smooth, and there was almost no bump at the moment of contact. After the plane landed, a burst of applause sounded in the cabin. When they encountered the turbulence in the clear sky at an altitude of 10000 meters, many people thought that they would die Here. After experiencing those thrilling seconds, everyone felt like they had survived a disaster. The plane went through the runway and returned to the parking spot that was arranged in advance. Through the porthole, he could see that several ambulances had already stopped on the tarmac, and the gangway car was also the first to approach. After the cabin door opened, a group of medical staff in white coats quickly boarded the plane with first aid kits and stretchers. The air stewardess who had come over to dress Xia ruofei's wound quickly brought a doctor over and said, ""Doctor, this gentleman has injured his waist. Please give him a check." Lu You also quickly stood up to make room for the doctor. In fact, Xia ruofei had already recovered by 70 – 80%. There was only a dull pain in the back of his waist. It was no longer as unbearable as the previous injury. His injured lower back spine must have recovered. Hence, Xia ruofei said, "doctor, I don't think it's a big deal. It was really painful when I hit my head. I'm much better now. I don't think I hurt my bones." "How can it be no big deal?" Lu You, who was at the side, immediately shouted, "you couldn't even move just now!" The doctor immediately took it seriously and said, ""Sir, let me check it first! This waist injury can be light or heavy. If it's not treated in time, it may aggravate the injury and cause half of the body to be paralyzed ..." Xia ruofei smiled and said, "I'm really fine. It's probably just a minor injury." You see, there's no problem for me to act now ..." Xia ruofei slowly stood up with the help of the armrest. The doctor came over and asked Xia ruofei where he was injured. He pressed down on his wound and asked Xia ruofei to do a few movements. Xia ruofei completed them easily and did not feel any pain. The doctor was also slightly relieved and said, ""I don't think your bones are injured, but to be safe, you should come back with us to the hospital for a checkup! Even if it's just a normal muscle strain, it still needs to be treated!" "Forget it! "It's not a big deal ..." Xia ruofei said. "How can we do that? You must go to the hospital!" Lu You said. The air stewardess also advised, "Sir, you should go to the hospital for a check – up!" Our airline will bear all the related expenses. " "There's really no need for that. I've studied Chinese medicine before. I'll probably be fine after applying some ointment for injuries caused by falls and bruises." Xia ruofei smiled and said, "it's too troublesome to go to the hospital. I still have things to do when I get home!" "Xia ruofei ..." Lu You still wanted to persuade her, but Xia ruofei interrupted her and said, ""Lu You, you still don't believe in my medical skills? I said I'm fine, so don't worry!" Lu You also thought of Xia ruofei's miraculous treatment of Huanhuan's autism and how he saved MA Xiong from a deep coma from a severe cerebral hemorrhage. She felt more at ease. After hesitating for a while, she nodded slightly to show that she respected Xia ruofei's opinion. The doctor had examined Xia ruofei's waist and had a general idea of the situation. He knew that the problem should not be too serious, so when he saw that Xia ruofei insisted on not going to the hospital, he did not try to persuade him anymore. There were still many injured people waiting to be treated! The air stewardess took the doctor directly to Economy Class. Before she left, the air stewardess even registered Xia ruofei and Lu You's contact details. She said that when the investigation results were out, the airline would compensate the injured passengers. Although the air accident insurance would not necessarily compensate for the injuries caused by force majeure, as an airline company, it would definitely give an explanation to the injured passengers. Otherwise, it would really be the target of thousands of people. After the air stewardess and the doctor left, Lu You stared blankly at the mahogany armrests of the first – Class seats. She was in disbelief. She had fallen from such a high place and hit the edge of the armrests.

Furthermore, both of their weights were on Xia ruofei. How could he be fine? The pained expression from before was not an act. Could it really be the “hard wound” that Xia ruofei had mentioned? A hard injury was a very painful injury, but it did not hurt the root. The pain would be greatly relieved after a while. Xia ruofei laughed and said, “Why are you in a daze? We can get off now!” “Oh ...” Lu You finally came back to her senses. “My back still feels a little uncomfortable. Please help me take my luggage down!” Xia ruofei said. “Alright, wait a moment ...” Lu You said. She stepped over Xia ruofei’s legs and opened the luggage compartment. She took Xia ruofei’s small suitcase down and then her own suitcase. She helped Xia ruofei to the seat at the cabin door and sat down. Then, she walked back to her seat and pushed their small luggage toward the cabin door. An air stewardess saw this and quickly came over to help with the luggage. Lu You supported Xia ruofei and carefully walked down the accommodation ladder. Lu You grabbed Xia ruofei’s wrist with one hand and supported the other under his armpit. This way, Xia ruofei’s large arm and half of his back were tightly pressed against Lu You’s chest. However, Lu You was completely unaware. She was afraid that Xia ruofei would fall again, so her body was very close to him. On one hand, Xia ruofei was reminiscing about the soft and bouncy touch. On the other hand, he felt a little guilty. His injuries had recovered faster than Lu You had imagined. Actually, if he was a little slower now, it should not be a problem for him to walk down the accommodation ladder alone. However, his current state was already unbelievable to Lu You. She felt that Xia ruofei’s injuries couldn’t be so light. If he appeared to be more relaxed, he would really scare her. Hence, Xia ruofei had to pretend to the end. Just like that, they got down the accommodation ladder and got on the shuttle bus. Then, they walked to the exit passageway. Along the way, Xia ruofei walked over with Lu You’s help. Their luggage was pushed over by the ground service personnel. As first – Class passengers, they were already entitled to VIP treatment. When they walked out of the departure hall, a Toyota nanny car sent by Hengfeng group’s Sanshan office was already waiting at the door. The driver was standing next to the car and looking around. When he saw Xia ruofei’s state, he quickly came over to help. The two of them helped Xia ruofei into the car. Xia ruofei’s farm and the airport were both in Changping County, so the car naturally dropped him off first and then sent Lu You back to the city. The Toyota was driving steadily on the way to Taoyuan farm. Lu You looked at Xia ruofei and suddenly said, “By the way, after school reopens, Yueyue would like to visit your farm.” “No problem! You’re always welcome to come!” Xia ruofei smiled and asked, “Oh right, why did you mention Jiang Yue at the auction yesterday?”

## **Chapter 182: Transplanting the vegetables**

Lu You glanced at Xia ruofei and asked, “Did I say that?” “Why are you acting dumb?” Xia ruofei said, “I heard it from you last night, okay?” Lu You looked at Xia ruofei with a half – Smile and suddenly asked, “What if I say that Yueyue has a crush on you? What would you do?” Xia ruofei was stunned for a moment and said, “are you kidding me?” I’ve only met her twice, and the other time was in the pharmacy, where you were there! What secret love?” “But you’ve only met that Caucasian girl once! Didn’t they also get along well?” Lu You pouted. “What does this have to do with anything?” Xia ruofei didn’t know whether to laugh or cry. “Monica and I are just ordinary friends ...” As Xia ruofei spoke, he couldn’t help but think of the amorous scene at the top – Floor restaurant in the afternoon and his voice became unconfident. “Feeling guilty?” Lu You laughed. “Who’s guilty? Who’s guilty?” Xia ruofei was stubborn. Then, he said seriously, “I’ve been educated by the party for many years. I’m famous for being upright. In the Army, I even had to study ideology and politics to be an advanced individual! Say, how could a person with such upright values fool around with a foreign girl?” Lu You rolled her eyes and said, “continue.” “Alright...Actually, I’m a normal person too ...” Xia ruofei sighed. “But Monica and I are

really innocent! Heaven and earth can bear witness!" "Alright, alright. You're going to swear to the heavens later, right?" Lu You said, "in any case, I already knew that not many of a man's words are true. It's already good enough if you can believe one in ten!" "You see," Lu You said, "the moment I mentioned Yueyue, you deliberately changed the topic. How cunning!" Xia ruofei didn't know whether to laugh or cry, 'you're the one who's blaming Monica, okay? How did I change the topic?' "Did I?" "Too much! Try to recall carefully, who was it that changed the topic?" Xia ruofei said. "Even if it's me, it's because of you!" Lu You argued irrationally, "if you didn't flirt with that Caucasian girl, would I have thought of this?" Fine. Xia ruofei finally understood that he could never win by reasoning with a woman. He wisely shut his mouth. However, Lu You continued to ask, "you haven't said anything yet." What would you do if Yueyue really had a crush on you?" "This is impossible ..." "I'm saying if!" "What else can I do? He pretended not to know! I don't even know her well. To be honest, I don't even remember what she looks like." Xia ruofei said seriously. "You're so heartless!" Lu You glanced at Xia ruofei and said. Xia ruofei was completely speechless. It just didn't seem right! Either you're heartless, or you're a Playboy. There must be one that suits you ... The road from the airport to Taoyuan farm was not far. The Toyota nanny car arrived at the villa's entrance very quickly. The driver got out of the car and jogged around the front of the car, ready to help Xia ruofei out. Lu You had also stood up in advance to help Xia ruofei. "I'm fine, I'm fine. I'm much better now. You don't have to help me ..." Xia ruofei said hurriedly. "Are you sure you can do it?" Lu You asked doubtfully. "How can a man say no?" Xia ruofei blurted. "Tsk! "Hooligan ..." Lu You lowered his head and said. Hence, she did not bother about Xia ruofei. She handed Xia ruofei's luggage to the driver and sat down. Xia ruofei got out of the car slowly. At this time, ye Lingyun and pang Hao, who were both in the villa, heard the sound of the car and came out. When they saw Xia ruofei's head wrapped in bandages and staggering, they could not help but be shocked and quickly went up to him. "Brother Xia, what's wrong?" Ye linyun asked immediately. Seeing Xia ruofei's sorry state, pang Hao could not help but laugh. "RUO Fei, how did you become like this after you went to Shen Cheng city?" "Your sister!" Xia ruofei said, "little fatty, you're too heartless!" I'm so injured, and you're still laughing?" "I'm sorry, I'm sorry," pang Hao said with a smile. "I wanted to make a pained expression, but I couldn't help but laugh when I saw your heroic appearance ..." "I'll deduct your salary if you keep laughing!" Xia ruofei said, "aren't you going to help me with my luggage?" Pang Hao took the luggage from the chauffeur with a smile while ye Lingyun came forward to help Xia ruofei. "It's fine, Ling Yun, you don't need to help me ..." Xia ruofei waved his hand. He thought for a while and turned back to Lu You, who was in the car, and said, "Lu You, wait for me. I have something to give you ..." "Oh!" Xia ruofei walked back to the mansion with pang Hao and ye Lingyun. He asked pang Hao to help carry the luggage upstairs to the bedroom and told them to go about their own business. He locked the doors and windows and summoned the spirit map scroll from his palm. Xia ruofei connected to the space with his mind and quickly took out a porcelain bottle and a bottle of herbal tea. Xia ruofei had prepared these in advance in the medium for emergency "preparation". The herbal tea was the kind of common red – jar herbal tea sold in the market. The porcelain bottle contained a concentrated petal solution. The volume of this bottle was about 300 to 400 ml, and it directly integrated an entire strange flower petal. However, Xia ruofei had divided the concentrated petal solution into three porcelain bottles, so it contained about one – third of the flower petal. Xia ruofei opened the can and poured the herbal tea into the porcelain bottle until it was almost full. Then, he closed the lid and shook it gently. Xia ruofei kept the painting in his body, then slowly walked downstairs with the porcelain bottle in hand. He came to the Toyota nanny car outside the villa. Lu You didn't stay in the car the entire time. She had already gotten out of the car and was looking at the scenery of the farm in boredom. Xia ruofei passed the

porcelain bottle to Lu You and said, "Take it." "What's this?" Lu You took the porcelain bottle and asked in confusion. "Once a day," Xia ruofei said. "Drink it three times. Then, your ... Stomach ache will be solved." With that, Xia ruofei turned around and walked back. Lu You's face was a little hot. She held the porcelain bottle tightly in her hand, and a strange light flashed in her beautiful eyes. She looked at Xia ruofei's back, which was still staggering, and muttered to herself, "Is it really that godly? You can even cure this kind of illness?" Lu You returned to the car, and the Toyota started again and drove toward the city. Lu You looked at the porcelain bottle in her hand again, and a warm current flowed through her heart. She couldn't help but think of the dangerous scene that happened 10000 meters in the air. She thought of the thick arms that hugged her tightly after she woke up from her sleep and the body of flesh and blood that did all she could to protect her. A layer of mist covered her eyes ... .. Just as Xia ruofei was about to enter the courtyard, he heard someone call out from behind him, "Boss, you're back!" He turned around and saw Cao tieshu striding toward him. Seeing Xia ruofei's current state, Cao tieshu couldn't help but be stunned. He quickly asked, "Yo! Boss, what's wrong? How did you get injured like this?" "Oh, I'm fine! I was jolted on the plane and accidentally hit my head." Xia ruofei said with a smile. Then, he frowned and asked, "old Cao, why are you at the farm? Didn't I ask you to take care of sister – in – Law in the hospital? What are you doing here?" Cao tieshu scratched his head and laughed, "Boss, today's the vegetable transplanting day, how can I not come? My wife is fine. My son hasn't started school yet. He's taking care of him in the hospital!" "That won't do! You have to be more concerned about sister – in – Law at this time!" Xia ruofei said, "the farm will be fine without you! Let's go back ..." "Boss, I'm really fine ..." Cao tieshu quickly said, "the ointment you gave me two days ago was very effective! My wife's recovery speed is so fast that even the doctor said it was incredible! My wife asked me to come back and help today! She even told me to thank you properly!" The ointment that Xia ruofei had given Cao tieshu was mixed with flower petal solution. Although it was not a lot, it would definitely increase the recovery speed of broken bones. Xia ruofei did not dare to put too much in it. Otherwise, it would be like what happened today. If his fractured lumbar spine could recover more or less in just over an hour, that would be too shocking. "It's good that it's effective!" Xia ruofei smiled and said, "by the way, have you finished the ointment? If it's not enough, I'll make you some more ..." "No need, boss! There's enough!" Cao tieshu said. "Alright, tell me when you're done." Xia ruofei said and continued to ask, "Oh right, how's the transplanting going today?" "Everything is going smoothly! We have 10 people here, and we are almost done with our work!" Cao tieshu said, "boss, those vegetable seedlings are really growing too well and too quickly. It's a good thing that we transplanted them today. Otherwise, they would definitely be too big on the seventh or eighth day of the new year ..." "So fast? You're done transplanting them all?" Xia ruofei was also surprised. "You guys are too efficient!" "Hehe, the boss has a high salary and good benefits. Everyone has endless energy!" Cao tieshu chuckled and said, "we came here at six in the morning. We didn't go home in the afternoon. We ate something and continued to work, so ..." "Sigh ... You guys are too hard on yourselves ..." Xia ruofei shook his head. With that, Xia ruofei turned around and shouted, "Little fatty! Come out for a moment!" "They're coming!" Pang Hao's chubby figure appeared at the villa's entrance and quickly walked out of the courtyard. "Little fatty, old Cao and the others are working overtime on New Year's Day. It's been very hard on them." Xia ruofei said, "go and prepare ten red packets, 500 yuan each. Go to the greenhouse and distribute them to everyone. Also, when you're making the wage list, don't forget to include today's overtime pay!" "Alright!" Pang Hao replied. "Boss, you can't do that ..." Cao tieshu quickly said, "you already gave me a red packet during the new year ..." Xia ruofei waved his hand and said, "old Cao, this is just a small token of my appreciation. You don't have to reject it ... Everyone has plenty of food and drink at home during

the new year. I won't treat everyone to a meal. Also, I'm still injured, so I won't be going to the greenhouse. Help me keep an eye on it!" "Don't worry boss! I'll be at the greenhouse!" Cao tieshu said,"but this red packet, we really ..." "This matter is settled! Old Cao, I have to go back to rest. You go back to the greenhouse! Let's finish this quickly and go home!" Xia ruofei said. After saying that, he turned around and walked back. "This ..." Cao tieshu said helplessly,"then thank you, boss!" Xia ruofei turned around and waved at Cao tieshu, then walked back to the villa. Pang Hao took care of the red packets, and Xia ruofei went straight upstairs to his bedroom. Yingying's injuries had not healed yet, and he had to drink some more petal solution. He had not taken care of his space for the past two to three days, so he had to go in and patrol.

### **Chapter 183: growing well (1)**

Back in the bedroom, Xia ruofei carefully locked the door and windows. Then, he took out the spiritual map and entered the original space. He first took the flat wine bottle, opened the bottle cap, and gulped down a few mouthfuls of the petal solution. His back was still aching. Xia ruofei felt that the few mouthfuls of petal solution he had on the plane might not be enough. As for the wound on the back of his head and the other bruises on his body, they had already healed. When he entered the house earlier, Xia ruofei had casually removed the bandage on his head and thrown it into the trash can. From this, it could be seen that the injury on Xia ruofei's lower back was actually very serious. If he did not have the petals of the strange flower, he would have been lying in bed for a long time and might even have some residual effects. Xia ruofei always kept some petal solution in his interspace. The concentration was not too high. A strange flower petal was mixed with a few liters of water in the interspace pool. When he came in, he would occasionally pour some petal solution on precious plants such as the Phoebe zhennan and ginseng. This included the two fish ponds of the red Arowana. Xia ruofei would drip a few drops every time he came in. He shook the small jug and felt that there was not much left, so he walked to the tidying box that contained the low – Concentration petal solution and filled the jug with it. After covering the lid, he carefully put it aside in case of an emergency. Xia ruofei started to patrol the space. He was the first to arrive at the nameless plant. It had been three days since he last came here. The five petals of the strange flower had regrown, but there were no fruits. Xia ruofei was slightly disappointed. There were two possibilities. First, the fruit's growth cycle was longer than the petals, so it would take some time. Second, the fruit could not be regrown. The only fruit that could be grown was the one from last time. No matter which possibility it was, Xia ruofei could only wait and observe. Perhaps there would be a surprise the next time the space evolved. Xia ruofei used a pair of tweezers to pick the five newly grown petals and carefully stored them in a Tupperware. The nameless plant was constantly growing new petals, but they were also constantly being consumed to plant, cure, and absorb by Xia ruofei. There were still 17 petals left in the container. With them, Xia ruofei had more confidence. It had been two to three days since he last absorbed a petal of the exotic flower in Shen Cheng city. Xia ruofei thought for a while and decided to absorb one today. He used a pair of tweezers to pick up a green petal and directly stuck it on the back of his hand. The petals were instantly absorbed into his body. That familiar heat flow was produced in the dantian in his lower abdomen, and then quickly spread to his limbs and bones. Xia ruofei's waist injury was slowly recovering and was also healing at an extremely fast speed. In at most a minute, Xia ruofei felt that all his injuries had healed. After getting rid of the waist injury that had troubled him for two to three hours, Xia ruofei felt relaxed all over. Even his steps were much lighter. Not only that, every time he finished absorbing the petals of the strange flower, Xia ruofei's spiritual connection with the spirit map space would become closer. Although it was not very

obvious, it was still a considerable amount. As for the strengthening of his physical fitness, there was no need to even mention it. Even Xia ruofei did not know how strong his physical fitness was now. It was evident from the last run in the gym. Xia ruofei conservatively estimated that if he participated in the Army's 10 – kilometer cross – country loaded armed cross – country run, he could definitely win first place easily. Even the wolf King Guo Zhan would not be his match. After recovering from his waist injury, Xia ruofei went to take care of the vegetable field. Now that the scale of the vegetable field had been reduced a lot, they only needed to ensure the daily needs of the two catering companies. Hence, Xia ruofei quickly tidied up. He had already gotten the harvest and sowed the seeds. He was already very familiar with these things. Then, Xia ruofei went to the fish pond where the red Arowana were raised. The color of the two big red Arowana became more and more intense. There was no doubt that they were top – tier blood – Red Dragons. The small red Arowana had obviously grown a lot. Xia ruofei had left about 20 small red Arowana in the small fish pond last time, but it looked a little crowded now. Hence, Xia ruofei used his mind to control the red Arowana and carefully transferred them to the big fish pond that he had dug previously. There was enough space here. However, the more Xia ruofei looked at the two big red Arowana, the more he liked them. He decided to order a big fish tank when he was free in two days and bring them to the outside world to raise them. Firstly, it was so that he could admire it more often. Secondly, the flow of time in the original space was getting faster and faster. Although Red Arowana could only live for 40 to 50 years, they would only be able to live for one or two years in the original space. By then, they would die of old age. Xia ruofei poured some of the diluted petal solution into the large fish pond. The red Arowana were instantly overjoyed and swam back and forth in the fish pond, greedily absorbing the petal solution. Then, Xia ruofei went to the gold Phoebe zhennan tree. The Phoebe zhennan tree that had been transplanted into this place was now lush and green. It was obviously much thicker. Xia ruofei roughly estimated that its diameter had grown to at least 80 to 90 centimeters. The growth of the smaller Phoebe zhennan trees that had survived through cutting were even more obvious. When they first survived, most of them had thin branches. Now, the biggest one was as thick as a bowl. Xia ruofei looked at the forest of Phoebe zhennan trees in his boundless space as if he was looking at a bunch of Red Chinese yuan. Naturally, Xia ruofei wanted to keep the trees that needed hundreds or thousands of years to grow in the original space where time was 30 times faster. The ginsengs growing under the Golden nanmu were also growing very well. Many of them had red seeds on the top, which looked bright red at first glance, giving people a sense of joy. Xia ruofei didn't dig out the ginseng since he didn't need them for the time being. Naturally, he let them grow. The longer they were planted, the more valuable they were! Looking at the seeds, Xia ruofei could foresee that the scale of his ginseng garden would expand further. After watering the Phoebe zhennan wood and the ginseng with a small amount of petal solution, Xia ruofei fetched some water from the spatial spirit pond and watered the plants. Finally, Xia ruofei arrived at the small oak Forest. This Oak Forest was specially planted by Xia ruofei to cultivate truffles. There were more than twenty of them, and now, each of them was more than twenty centimeters in diameter. In the spirit map space, which was rich in spiritual Qi, the plants grew rapidly as if they had taken stimulants. Xia ruofei stood in front of the oak Forest and pondered for a long time. Finally, he made up his mind and decided to move them to a new space where time was in sync with the outside world!

#### **Chapter 184: moving the oak tree**

These oak trees grew too fast in the original space, and because of the difference in time flow, every half a month in the outside world was a year in the space, which was equivalent to a batch of high – Quality

truffles every half a month. However, truffles had a fixed season and could not be stored at all. After one or two months of truffles production, no matter how good the truffles were, they could not be sold. Otherwise, it would definitely attract the attention of people. Besides, truffles were precious when they were rare. If Xia ruofei stored a large amount of truffles in his storage space and released them all, it would cause the annual production of truffles around the world to increase by a large amount, which would definitely cause the price to fall. And there was no point in existing in space. By then, he would be exhausted and not earn much money. Hence, Xia ruofei decided to move the oak tree to the new space. The time there was in sync with the outside world. When the truffle season came, the truffles in his new space could be harvested. It would produce a steady stream of income every year. It was convenient to manage and would not occupy the precious land in the original space. After making up his mind, Xia ruofei did not immediately take action. After all, the flow of time in the new space was the same as the outside world. It would take a lot of time to dig holes and plant trees there. It was almost dinner time, so he decided to go out for dinner first. Xia ruofei left the medium and went downstairs. When they reached the first floor, Xia ruofei saw ye Lingyun preparing dinner in the open kitchen. Only then did he remember that he had been back for quite a while, but he didn't seem to see Hu Zi's mother and Lin Qiao. So he asked, "Oh right, Ling Yun, where are Auntie and Qiao'er?" "Brother Xia, they went out early in the morning. They said that one of the neighbors in the village was having a wedding and they would only come back after eating." Ye linyun said. "Oh ... Then you can contact Qiao'er later. When it's about time, drive my car to pick her up." Xia ruofei said, "otherwise, I'll be a little worried if it's dark." "Alright! I'll call Lin Qiao later." Ye linyun said. Xia ruofei thought for a while and said, "Oh right. Don't tell Auntie and Qiao'er about my injury. Just tell them that I'm tired. I've gone back to my room to rest." "Alright, but tomorrow ..." Xia ruofei waved his hand. "I'm fine. It's just a small injury. You won't be able to see it tomorrow." "Alright!" Soon, ye Lingyun finished preparing dinner. He urged pang Hao to go back on his motorcycle in the evening. It was just the two of them for dinner, so they just had to make two dishes. Soon, the two finished their dinner. After ye Lingyun contacted Lin Qiao, he drove Xia ruofei's Knight XV to Xiaoyu village. Xia ruofei, on the other hand, went to the farm to digest and pick up some farm tools from the shed. By then, the workers had finished their overtime shift and left. Ye Lingyun had already driven to Xiaoyu village. The entire farm was quiet. Xia ruofei immediately took out the spirit map scroll and kept the shovel, pickaxe, hoe, and other tools into the medium. Back in the villa, Xia ruofei went straight upstairs, carefully locked the door, closed the windows, and drew the curtains. Then, he took out the spirit painting scroll and entered the medium. Xia ruofei first brought his tools to the new space. As soon as they entered the medium, Blacky, fluffy one, and fluffy two pounced on them happily. Xia ruofei played with them for a while and then brought his tools to a gentle slope at the foot of the mountain. This place was close to the stream and not far from the stone tablet. Xia ruofei decided to plant the oak tree here. Xia ruofei started to dig. The oak trees had grown a lot, and their roots were bigger. Hence, the hole that Xia ruofei dug was not small. It took Xia ruofei half an hour to dig out a two-meter wide and one-meter deep hole. Now that his physical fitness was abnormal, this speed was much faster than when he was in the Army, digging a pit for scattered soldiers. Xia ruofei knew that the flow of time here was the same as the outside world. Hence, he did not waste any time and chose another place to continue digging. He quickly waved the pickaxe like a tireless robot. Pieces of fertile soil in the space were turned up, and then he used the shovel to shovel out the floating soil. Xia ruofei was busy all the time. When he felt a little tired, he would take out a small flat wine bottle from his pocket, take two sips of the diluted flower petal solution, and then continue working. After a full ten hours, twenty large pits appeared on the gentle slope at the foot of the hill. Each of them was two

meters in diameter and one meter deep. Xia ruofei did not even take a break. He had been digging for ten hours. If it was an ordinary person, they would have been exhausted. Xia ruofei calculated the time. It should be past four in the morning in the outside world. He knew that he had to make the best use of his time, so he only rested for a while before leaving the new space and returning to the original space. Before he left, Xia ruofei specifically warned Blackie and the rest not to get close to the big pits he had just dug. He arrived at the original space. Xia ruofei walked straight to the oak Forest. The flow of time here was 30 times slower than the outside world, so there was plenty of time for work here. However, Xia ruofei did not dawdle. He found an oak tree and started working. Before he started digging, he found a few pieces of wood to support himself. After fixing the supporting wood, Xia ruofei started digging. He tried his best to avoid hurting the roots of the oak tree, so he was much slower than when he was digging in the new space. After nearly an hour, Xia ruofei finally dug up an oak tree. The roots of the oak tree had not been completely dug out. There were still some small roots that were connected to the ground. Xia ruofei looked at the oak tree. It was much smaller than the Golden nanmu. It seemed that it was easier to go from the original space to the new space than from the outside world. Besides, Xia ruofei had been absorbing the petals of the strange flowers these days and had a closer connection with the space. He felt that it should not be a big problem. Xia ruofei took a sip of the diluted petal solution to replenish his energy. Then, he reached out and grabbed the oak tree. His mind connected to the new space and locked onto one of the tree pits. With a thought ... With a strong pulling force, all the tiny roots were pulled apart. Xia ruofei and the oak tree disappeared from the original space and appeared in a new space. The oak tree was stuck in the newly dug hole. It was almost exactly the same! Xia ruofei was very satisfied. The supporting wood was tied to the oak tree, so they were brought into the new space. Xia ruofei fixed them in place again to ensure that the oak tree would not fall. Then, he was not in a hurry to fill them with soil. In a flash, he returned to the original space. Xia ruofei did the same thing and started to plant the second oak tree. Every time he dug out a tree, Xia ruofei would bring the oak tree to the new space to support and fix it in place. After more than ten hours in the original space, Xia ruofei had moved twenty oak trees into the new space. There were only two trees left in the original space. Xia ruofei had deliberately kept these red truffles. Although they could not be sold outside during the non – Production season, it was not a problem for him to eat them himself. If he kept one or two trees, he could have fresh truffles to enjoy whenever he wanted. After moving the oak tree away and filling up the hole, Xia ruofei brought a large box of petal solution, some black truffle, and white truffle to the new space.

### **Chapter 185: The mystery of the water tower (3)**

In order to ensure that truffles could be produced normally during the truffle season at the end of the year, Xia ruofei decided to use truffles to artificially infect the oak tree roots before filling the soil back. Xia ruofei was familiar with the process since he had already done it once. He took out a piece of white truffle and a piece of black truffle, which were relatively light, from the packing box and cut them into thin slices with a military dagger. Xia ruofei made a few cuts on the roots of each oak tree and carefully stuck the truffle mushrooms on them. Finally, he filled the space with soil. The supporting wood would be put aside for the time being, and they could be removed after the oak trees had taken root. Xia ruofei opened up the spiritual pond water from the stream and watered each tree. Then, he watered the roots of each tree with some diluted flower petal solution. Another one to two hours had passed. Xia ruofei estimated that it was almost dawn outside. Fortunately, he had the petal solution and the spatial spirit pool water to replenish his energy. It was not a problem to stay up all night. Xia ruofei was also covered

in mud. He packed his things and prepared to leave the medium. At this time, Blackie and the other puppies were looking at Xia ruofei with eager eyes. They would turn their heads to look at the tidying box that contained the diluted petal solution from time to time. Xia ruofei was amused and asked, "You want to drink?" Blacky immediately barked twice, and the seven little dogs all wagged their tails. They naturally didn't know what the petal solution was. The reason why they desired it so much was entirely out of instinct. "Alright! I'll improve your lives today!" Xia ruofei said with a smile. This whole box of solution only had one petal in it. He had only used half of it to water the oak Forest, so Xia ruofei did not feel much heartache. He found a shallow basin for feeding the puppies, carried a tidying box, and poured some flower petal solution into the basin. Then, he smiled and said, "Come and drink!" The little dogs immediately pounced over impatiently. At that moment, Blackie let out a low Wuwu sound. The furry animals immediately fell silent and stopped in their tracks. Blackie wagged its tail in satisfaction. It slowly walked to the shallow basin and enjoyed the petal solution alone. Fluffy one, fluffy two, and the other six puppies were very envious, but they did not dare to take a step further. They could only watch from the side. Blackie only stopped after drinking half of the petal solution. Then, it ran to Xia ruofei's feet and licked his shoes gently. It even wagged its tail, looking very intimate. It was only after Blackie barked twice that fluffy one and fluffy two dared to take action. They all rushed to the shallow basin in fear and fought for the remaining petal solution in the shallow basin. Xia ruofei saw this and laughed. "Little black, your prestige is very high!" Little black whimpered proudly. Xia ruofei gently patted Blackie's head and said, "You guys stay in the space, I have to go out...Don't bully them too much!" Woof woof! Blackie barked twice. It barked twice to show that it understood Xia ruofei's order. With a thought, Xia ruofei left the new space in a flash and returned to the outside world. The light of dawn shone through the curtains into the room. The sky outside was indeed starting to brighten. Xia ruofei went to the bathroom to change out of her dirty clothes. She took a hot shower, changed into a clean set of clothes, and strolled downstairs. Ye Lingyun was already practicing military boxing in the yard, while Hu Zi's mother was busy preparing breakfast in the kitchen. Seeing Xia ruofei come down, Hu Zi's mother greeted him with a smile, "RUO can fly? Why didn't you sleep a little longer?" "I've slept enough!" Xia ruofei laughed and said, "Auntie, I heard that you went back to the village to attend the wedding banquet yesterday? Did everything go smoothly?" "It's pretty good. I haven't been back in a long time. It feels pretty good to chat with my old neighbors!" Hu Zi's mother said. "That's good. It's not bad to go back and take a look. " "Ruofei, wait a moment. Breakfast will be ready soon." Hu Zi's mother said. "It's fine, I'll go to the farm first!" Xia ruofei said, "thank you for your hard work, Auntie!" "Hey, what's so hard about cooking?" Hu Zi's mother said with a smile. Xia ruofei walked out of the mansion, greeted ye Lingyun, and walked towards the shed. The morning air on the farm was very fresh, and the chirping of birds could be heard from afar from time to time, giving people a relaxed and happy feeling. Xia ruofei went to the large shed and saw that no one was around. He summoned the spirit painting scroll from his palm and took out the farming tools he had taken yesterday and put them back in place. Then, Xia ruofei patrolled around the greenhouse. After Cao tieshu and the others had worked overtime for a day yesterday, the greenhouse was now filled with vegetables. Although they were just some seedlings, they were still lush green and full of vitality. In less than a month, the first batch of vegetables would be harvested. By then, it would be enough to supply the two cooperative catering companies, and the cooperation with Hengfeng group would also be fully launched. After Xia ruofei walked around, he thought for a while and strolled towards the back of the mountain. He followed the newly built cement road up to the water tower at the top of the mountain. The water here was specially used for irrigation. When they were designing the farm, Xia ruofei had specifically suggested to separate the

domestic water and the irrigation water. Such requirements were normal. Irrigation water was generally drawn directly from the river, which could save costs. If all water was used, the monthly water bill would be a big expense. Therefore, manager Li was not surprised by Xia ruofei's request. He designed the current irrigation system, the Huanhuan water tower, according to his request. It was set up on the top of the mountain. Through the relay of several water pumps, the water from Shangqing stream, which meandered through the foot of the mountain, was pumped into the water tower for the irrigation of the entire farm. In fact, Xia ruofei's request was more for his own convenience. He only needed to add some petal solution into the water tower regularly to ensure the high quality of all the crops on the farm. Moreover, the water tower was located at the top of the mountain and was in a remote location. As long as Xia ruofei paid more attention, the secret of the spirit map scroll would not be exposed. The vegetables from yesterday had already been planted, so this was Xia ruofei's first time here. He was going to add the petal solution into the water tower. He carefully observed his surroundings. After making sure that there was no danger, he summoned the spirit map scroll from his palm and then took out the large tidying box that contained the diluted petal solution. Previously, he had watered half of the oak tree and fed a little to Blackie and the rest. Now, there was about a third of it left. Xia ruofei opened the lid above the water tower and poured all the petal solution in. In this way, he would not have to worry about the crops in the farm for at least one or two months. Besides, there was only about one – third of the petals here. Xia ruofei could still afford to consume such a small amount. After putting the box into the medium and keeping the painting, Xia ruofei dusted his hands and prepared to go home for breakfast. When they were halfway up the mountain, Xia ruofei's phone rang.

#### **Chapter 186: overbearing wealth (1)**

Xia ruofei took out his phone and saw that it was a call from Wu Liqian. He immediately answered, "Sis Wu, Happy New Year!" It was only the fifth day of the first lunar month. According to the Chinese custom, it was the new year before the fifteenth day of the lunar month, so Wu Liqian also laughed and said, "Happy New Year, little Xia!" "If the county Head has any instructions, please give them!" Xia ruofei laughed and teased. "I had good news to tell you, but since you're making fun of me, I've decided not to tell you ..." Wu Liqian said. "Don't mind me, sis Wu!" Xia ruofei quickly said, "tell me the good news. Don't worry that my heart won't be able to take it!" Wu Liqian burst out laughing and said, "That mouth of yours ... Okay, I'll stop joking with you. Last time you said you wanted to buy the villa, I helped you ask my relative. There's no problem on his side. He was planning to sell it before the immigration!" "That's great!" Xia ruofei said happily, "sis Wu, thank you!" "Aren't you going to ask about the price?" Wu Liqian asked with a faint smile. "Since sis Wu is personally making an appearance, what problem could there be?" Xia ruofei chuckled and said, "I don't need to ask to know that the price is absolutely reasonable!" "Hey! What a sweet mouth!" Wu Liqian laughed and said, "my relative said that if you really want it, he will sell it to you for 2.2 million Yuan. Although this villa is in the countryside, we thought of some ways to get the property rights, so the two certificates are complete. What do you think of the price?" "What else do you have to say?" Xia ruofei replied without hesitation, "it's a super discount! I'm taking it!" The price of 2.2 million Yuan was about 5000 Yuan per square meter. The price of a house in Changping County was about 10000 Yuan. Although this was a remote rural area, it was actually very close to the county. A villa area had just been developed by the sea four kilometers away. The opening price was close to 7000 Yuan, so this was a really good price. Besides, Xia ruofei had just earned 14 million from the truffle auction in Shen Cheng city. Now that he had plenty of money, he naturally decided to buy it without hesitation. "Alright! Then I'll give my relative a reply." Wu Liqian

said, "by the way, my relative's house doesn't have a mortgage loan from the bank, so if you don't have enough money, you can apply for a mortgage." "No need, sis Wu, let's just pay in full!" Xia ruofei smiled and said, "it's more convenient to go through the procedures this way!" "Yo! You're really rich and overbearing now!" Wu Liqian teased, "you paid 2.2 million in full without even blinking?" "Hehe ... I made some money, but I'm still far from being rich." Xia ruofei smiled and said, "I will continue to work hard in that direction." "You can continue ..." "Oh right, sis Wu, your relatives have gone abroad, right?" Xia ruofei asked, "will it be troublesome to handle the transfer of ownership?" "It's fine. I've already asked around. Before he went abroad, he had already entrusted a friend to help him deal with the property." Wu Liqian said, "the power of attorney has been notarized. The real estate and land certificates are also in his friend's hands. There's no problem with the transfer." "That's good." Xia ruofei said, "then it's decided! After the holiday, the real estate Center will do the transfer of ownership!" "Mm! I'll ask his friend to contact you in the next two days!" Wu Liqian said, "you guys can discuss the details. With the power of attorney, it won't be a big problem to transfer the ownership. If there are any problems, just give me a call." The villa was located in Changping County, which was now under Wu Liqian's jurisdiction. Once she gave her order, even if it was slightly against the rules, as long as there was no problem with their principles, the Housing Authority would definitely give them the green light. "Alright! Thank you, sis Wu!" Xia ruofei said, "if you have time, come to the farm and give me some guidance! Also, give me a chance to do my part as the host." "Alright! I'll come visit when I'm not busy with work." Wu Liqian said with a smile. The two of them chatted for a while more before ending the call. Xia ruofei called his classmate, Guan Ping, as he walked towards the villa. Guan Ping worked in a real estate agency, so he was familiar with the transfer of ownership. "RUO Fei!" Guan Ping answered the phone. "What are you doing? Is it convenient for you to talk?" Xia ruofei asked with a smile. "He's playing games at home!" Guan Ping replied. "If you have anything to say, say it!" "I want to buy a house. We've already discussed the price and everything else." Xia ruofei went straight to the point. "You're more familiar with the transaction contract and the transfer process. Help me run this!" "No problem!" Guan Ping said readily and then asked, "why do you have to settle the contract yourself when you buy a house? You didn't buy it through an agency?" The process of buying a house was more complicated, especially for second-hand house transactions. Most people completed it through an intermediary company, and the situation of the buyer and the seller directly trading was very rare. "The seller is an acquaintance. We can just discuss the price. Why do we need to find an agency?" Xia ruofei smiled and said, "besides, aren't you here? There's no need to let the agency earn the money!" "That's true!" Guan Ping laughed and said, "this is simple! Later, I'll just change the company's transaction contract template and it'll be able to be used directly. The transfer of ownership will be even easier. I go to the real estate transaction Center every two or three days, so I know the process inside!" "That's what I wanted you to say!" Xia ruofei smiled and said, "I'll pay you the intermediary fee according to the market price!" "RUO Fei, are you scolding me?" Guan Ping pretended to be angry. "Why would I charge you for such a small thing? Are we still brothers?" "It's because we're brothers that I can't let you do any voluntary work! I know that it's actually quite troublesome and tiring to transfer the ownership." Xia ruofei said with a smile. "No matter how troublesome it is, I can't take your money! Anyway, I'll go to the real estate Center every day and help you with your business." Guan Ping insisted. "Alright, alright, I'll treat you to a drink another day!" Xia ruofei said. He only had two good friends in middle school, Guan Ping and Pang Hao. Until now, they were very close. Since Guan Ping had said so, Xia ruofei did not insist. "That's the way! I'm still very happy to have a drink with you ..." Guan Ping said with a smile, and then asked, "by the way, where did you buy the house? How much is the total price?" "It's a small villa on my farm. I

used to rent it, but I've made some money recently, so I want to buy it." Xia ruofei smiled and said, "the houses in the suburbs are not expensive. An entire villa is only 2.2 million." "Only 2.2 million! "Your sister ..." Guan Ping shouted. "Damn ... Ruofei, you've become a nouveau riche without saying anything!" Following that, Guan Ping said with a cheeky smile, "Um ... Can I take back what I just said? It's actually not a big deal to occasionally charge a good brother a middleman's fee!" "Get lost!"

## **Chapter 187: Super large fish tank\_1**

When Xia ruofei returned to the villa, Lin Qiao, who always liked to sleep in, had already woken up and was watching ye Lingyun do push – ups in the courtyard. As soon as she saw Xia ruofei, Lin Qiao's face bloomed with a smile. "Brother ruofei, where did you go so early in the morning? I'm waiting for you to have breakfast!" "Yo! Did the sun rise from the West today?" Xia ruofei smiled and said, "our little lazy bug is up so early?" Lin Qiao blushed and said, "You're the lazy worm! Quickly go in and eat!" Lin Qiao rolled her eyes at Xia ruofei in disgust and turned to return to the villa. Xia ruofei greeted ye Lingyun with a smile and walked in as well. Hu Zi's mother had already prepared breakfast. When she saw Xia ruofei enter, she smiled and invited him to have breakfast. During the meal, Lin Qiao pestered Xia ruofei to ask him about Shen Cheng. Xia ruofei would pick some interesting things to tell her, such as the private jet, the Presidential Suite of a super five – Star hotel, and the auction. Of course, Xia ruofei didn't tell them in detail about the auction that he had made 14 million Yuan in one auction. He was afraid that he would scare the two of them. However, Lin Qiao was also interested in the luxurious planes and presidential suites that Xia ruofei mentioned. She couldn't help but mumble, "Rich people really know how to enjoy life ..." Xia ruofei laughed. "When we have money, we'll buy a private jet too. One that's even bigger than old Mr. MA 's!" "Mm! Brother ruofei! "Then you have to work hard ..." Lin Qiao said with a smile. "Haha, you have to study hard too. When you graduate from college, come and help me!" Xia ruofei laughed. "Alright!" "It's a deal!" Lin Qiao said seriously. "It's a deal!" After breakfast, Hu Zi's mother chased Lin Qiao back to her room to do her winter vacation homework. Soon, the last semester of high school began. Lin Qiao's homework was very heavy. Before the winter vacation, the teachers of various subjects gave out a lot of mock papers for everyone to do during the holiday. Meanwhile, Xia ruofei drove the Super SUV, Knight XV, straight to the San Shan city. Along the way, the armored monster naturally earned a lot of heads. Xia ruofei drove along the winding highway into the city. Then, he followed the GPS and headed straight for the nearest Industrial and Commercial Bank of China. Under normal circumstances, banks would only rest for three days. From the fourth day of the first lunar month onwards, all the bank branches would be open for business. It was the fifth day of the first lunar month today, so Xia ruofei was prepared to cash the 14 million Yuan check first. As the bank was closed during the new year, there were many people in the bank for business these two days. Xia ruofei parked the car and went to look at the ICBC bank. There were at least 20 people on the bench waiting for their numbers to be called. Just as Xia ruofei was about to go and get the number, he suddenly thought of something. He might as well look for the bank's lobby manager and show her the 14 million cash check. Then, he told her that he was here to cash in the money and that the money would be directly deposited into his ICBC account. In addition to maintaining order in the lobby, answering customers' questions, and promoting wealth management products, the lobby manager's responsibility was to find high – end customers. A business deal worth 14 million Yuan was definitely a big customer. Hence, the lobby manager enthusiastically led Xia ruofei to a counter with the words 'service suspended' and quickly found a counter staff to help Xia ruofei with the business. There was no problem with the check provided by MA Xiong. It was quickly cashed in and the 14 million was all deposited into Xia ruofei's

account. The counter staff who was serving Xia ruofei even took the initiative to upgrade Xia ruofei's card to a Platinum Card. After settling his business at the bank, Xia ruofei drove to the ornamental fish market. He parked his car and walked into the ornamental fish market. He strolled all the way to a store that sold fish tanks. As soon as Xia ruofei entered the shop, the owner welcomed him warmly and asked, "Sir, do you need a fish tank?" "Yes, I want to buy a bigger fish tank." Xia ruofei nodded. "Then may I ask what kind of fish you are raising? How big is it?" The boss asked. Xia ruofei said, "Red Dragon, that's a big one. How big is your fish tank?" "Yo! It's a Red Arowana!" The boss smiled and said, "the boss looks like a rich man!" "Boss, the requirements for a Dragon VAT are higher, so it's usually custom-made," he introduced. We provide professional fish tank customization services. Under normal circumstances, the length of the Dragon tank is three times the length of the Arowana and the width is 1.2 times the width of the Arowana. There are not many restrictions on the height of the Dragon tank, about 60 centimeters is enough. How big do you need?" Xia ruofei calculated silently and said, "Then it should be at least 2.8 to 3 meters long ... And a little wider, 80 centimeters wide!" The owner was taken aback. Very few people would order such a large fish tank. People who raised Arowana would make 1.5 meters, 1.8 meters, and a bigger one would be 2 meters. This was already considered a big size, but Xia ruofei wanted 2.8 to 3 meters. How big was his fish? Thinking of this, the boss said, "yo, Sir, your Red Dragon is almost one meter long?" That's really the best! The red Arowana are at most 80 to 90 cm long. "Xia ruofei smiled and said, "it's not that long yet, but it'll grow up sooner or later!" The fish tank was completed in one step. By the way, can you make such a big fish tank here?" "Of course, no problem!" The owner quickly said, "the quality of the custom-made fish tank in our store is absolutely first – Class. This one is one of the best in the entire ornamental fish market. Don't worry!" Xia ruofei smiled and nodded. "Sir, please choose the style first!" The boss said. "Alright!" Xia ruofei followed the shop owner to the counter. The shop owner took out an album and showed it to Xia ruofei. "Sir," the owner said, "here are all the fish tank styles that can be customized in our store. Take a look and see which one you like." Xia ruofei casually flipped through it and asked, "Can you introduce me to a few high-end models?" "No problem, no problem!" The boss said happily. Merchants loved customers who didn't lack money. Usually, such customers wouldn't be too calculative about the price as long as the quality of the items was good. The owner enthusiastically recommended three fish tanks to Xia ruofei. The three fish tanks had different selling points, and of course, their prices were different as well. Xia ruofei thought for a while and chose a fish tank that cost around 8000. Among the three fish tanks recommended by the owner, this was the lowest price, while the other two cost around 10000 to 20000 each. The owner was a little surprised. He had thought that Xia ruofei would choose the other two more expensive models. Although this model was made of exquisite materials, with complete filters and lighting, its selling point was the quality of the materials and the exquisite workmanship. The other two were different. One was equipped with a professional multi-layer filter system, which could significantly improve the water quality. The other introduced the concept of intelligence. Through the supporting APP, one could check the water quality indicators at any time, and even remotely carry out the operation of filtering and changing water. Of course, the boss did not know that the water quality was the least of Xia ruofei's concerns when he was raising Red Arowana. If he were to use the spiritual pond water to raise the fish, would he have to worry about the water quality? The materials and equipment were all ready. It would take about three days to order a fish tank. After Xia ruofei paid the deposit, he left the address of the villa to the boss and agreed to pay the rest after the fish tank was delivered to his house in three days. After settling the fish tank, Xia ruofei was ready to return to the farm. As he drove,

he thought about the 14 million in his account and couldn't help but feel an unbearable itch in his heart. He wanted to get some more Jade for the spirit map scroll to absorb.

### **Chapter 188: one buy one sell**

Xia ruofei thought for a while and decided not to go to Lingyu house. In the past few months, he had bought too many jades from spirit Jade house. It was fine if he didn't buy a lot in the early stages, but now, the Jades he needed to upgrade the spirit map space were easily in the tens of millions, or even tens of millions. Spirit Jade house might not be able to provide them. In addition, he had been buying a lot of Jade, which was quite abnormal in itself. It was easy to arouse suspicion after a long time. Xia ruofei was thinking as he drove. He suddenly remembered that MA Xiong had started his business by selling jewelry and jades. He was still known as the king of jewelry. Jewelry and jades were still an important business of Hengfeng group. The difference between spirit Jade house and Hengfeng group was like the difference between a small beetle and a giant mammoth. The two were not on the same level at all. The Jade that Xia ruofei needed might be a big deal to spirit Jade house. They might need to transfer goods everywhere to meet Xia ruofei's needs, but to Hengfeng group, it was insignificant. Thinking of this, Xia ruofei took out his Bluetooth headset and put it on. He dialed Ma Zhiming's phone while driving. "Nice to meet you, Xia Sheng!" Ma Zhiming was very enthusiastic. "Mr. MA, you were in a hurry to return to Hong Kong two days ago. How did things go?" Xia ruofei asked. "Oh, everything is going well. It's already been settled." Ma Zhiming smiled gently and said, "thank you for your concern, Xia Sheng." "That's good, that's good," Xia ruofei smiled and said, "Mr. MA, I'm looking for you today because I need your help with something." "Xia Sheng, please speak. No matter what happens, we will do our best!" Ma Zhiming said without any hesitation. "It's like this. A friend of mine has recently started a Jade and jewelry business, but he doesn't have any channels for raw materials, so he would like to ask you for help." Xia ruofei said, "the main thing is that the quality of the Jade has to be of the ice glutinous type." This was the excuse that Xia ruofei had thought of in advance. Of course, it was also out of careful consideration. "That's not a problem," Ma Zhiming agreed without even thinking. "Our Hengfeng jewelry has been in the jewelry and jade industry for decades. We have a rich supply of raw materials." Hengfeng group couldn't guarantee that they would have the king's Green, which was a rare top – grade Jade. But if it was the icy glutinous type, it was no problem. "Then I'll thank you on behalf of my friend!" Xia ruofei said, "Mr. MA, the price will be according to the market price, including the transportation and storage costs. In addition, you will also have to include the profits that you deserve." Ma Zhiming smiled and said, "xiasheng, since it's your friend's business, how are we going to earn his money?" "We'll just give him the cost price." Xia ruofei said, "Mr. MA, I'm already very grateful for your help. Let's set the price according to the market price!" "My friend hopes that we will mainly purchase Jade from your company in the future. This is a long – term cooperation, how can we not make a profit?" "This ..." "Mr. MA, it's decided!" Xia ruofei said, "otherwise, I wouldn't dare to ask for your help!" "Alright then!" Ma Zhiming said helplessly, "xiasheng, we'll do as you say!" "MMH! Mr. MA, if it's convenient, we hope that we can get the supply as soon as possible." Xia ruofei said, "I need Jade that is worth about 10 million Chinese dollars. Do you have any problems with that?" "Yes, I can." Ma Zhiming said casually, "the branch in the southeast province should have enough Jade. If they don't have enough, I can transfer the goods directly from Hong Kong. The latest by tomorrow will be ready." If Xia ruofei were to look for boss Chen of the spirit Jade house, he would be shocked. Even if he tried his best to coordinate, it would take more than two to three days to gather ten million worth of Jade. After Ma Zhiming heard it, he didn't have any emotional fluctuations at all, as if it was no different from a thousand Yuan business. This was

the foundation of a super Financial Group. "Thank you so much! Mr. MA, just get someone to contact me directly after the goods are ready." Xia ruofei said happily, "if I need your help in the future, I'll still have to trouble you!" "It's just a small matter! Xia Sheng, you don't have to be so polite! If you need anything, just look for me." Ma Zhiming chuckled and said, "by the way, xiasheng, my daddy is also here. He has something to tell you." Soon, MA Xiong's hearty laughter was heard from the phone. "Happy New Year, Xia Sheng!" "Happy New Year, Happy New Year!" Xia ruofei asked, "what is old Mr. Ma's order?" "I'm not worthy of your orders!" MA Xiong laughed. Xia Sheng, I just want to ask if you still have any of the truffle that was auctioned in Shen Cheng a few days ago?" Xia ruofei thought for a while and said, "there should be the last batch of goods for this year in the near future. However, I'm afraid that it won't be easy to find the highest quality items that weigh more than 500 grams like the ones at the auction." "It doesn't matter if it's light. I'm more interested in the quality of the truffle." MA Xiong said, "the quality of your truffles is extremely high. The Western restaurants under Hengfeng are in great need of them. Xia Sheng, how about selling all of this truffles to our Hengfeng?" Xia ruofei smiled and said, "no problem!" It doesn't matter who I sell it to. I'm more than happy that old Mr. MA takes care of our business!" "Thank you, Xia Sheng!" MA Xiong said happily, "xiasheng, when can we make the deal?" "In two days!" Xia ruofei thought for a moment and said, "old Mr. MA, there shouldn't be too many truffles left. After all, it's the end of the season!" "We'll take as many as you have!" MA Xiong said, "as for the price ... 5000 dollars per kilogram of white truffle and 900 dollars per kilogram of black truffle. If it's over 400 grams, we'll refer to the prices from the auctions this year. We'll settle the bill separately. What do you think, xiasheng?" "No problem, we'll do as you say!" Xia ruofei said without hesitation. This year was a high – yield year for truffles, and the International market price had dropped slightly compared to last year. MA Xiong's purchase price was much higher than last year's price, and he was definitely sincere. "Then it's a deal!" MA Xiong said happily, "I'll send someone to your farm to pick up the goods the day after tomorrow!" "It's a deal!" Xia ruofei said with a smile. "By the way, Xia Sheng, I've just dealt with some small problems regarding Blake the other day, and I'm about to contact a few friends who were there that day to put pressure on Blake's catering group and make Blake apologize publicly." MA Xiong said, "xiasheng, I'll let you know if there's any news. Anyway, you don't have to worry about this." "Alright! I've troubled you!" Xia ruofei said with a smile. As Xia ruofei was still driving, he did not talk much after they were done. He hung up the phone after informing MA Xiong. It seemed that he had to go back and tidy up the remaining truffles today. Xia ruofei said in his heart. Although the remaining truffles were generally smaller than the truffles in the last auction, there was a lot of them. If he sold all of them to the Hengfeng group, he should be able to make a good profit.

## **Chapter 189: Ten million jadeite (1)**

The next morning, Xia ruofei received a call from someone who claimed to be the manager of Hengfeng jewelry's Southeast Branch. The female manager, surnamed Feng, was very polite on the phone. She said that she had already prepared the Jade according to the instructions of President Ma of the head office. Xia ruofei immediately decided to trade the Jade. He followed the address provided by manager Feng and drove to an office building at Huayun road CBD in San Shan city. After Xia ruofei parked the car, he saw a beautiful young lady in a black business suit waiting in the lobby of the office building. "Hello, Mr. Xia, I'm Feng Yun!" The young woman greeted Xia ruofei with great enthusiasm. "Hello, manager Feng!" Xia ruofei smiled warmly and shook Feng Yun's hand. He then asked curiously, "manager Feng, have we met before?" "No, but Boss Ma was afraid that we would neglect you, so he sent me a photo of you," Feng Yun replied with a smile. Xia ruofei was suddenly enlightened. He couldn't help but

exclaim at how Ma Zhiming handled things flawlessly. From such a small detail, he could see that Ma Zhiming valued him very much. After the two of them exchanged pleasantries, Feng Yun led Xia ruofei to the elevator and to the floor where their company was located. The office building was the headquarters of Hengfeng jewelry's Southeast Branch. They had counters and stores in all major shopping malls in the province. When she entered the company, the employees greeted Feng Yun respectfully from time to time. Everyone also looked at Xia ruofei curiously. Feng Yun led Xia ruofei to her office. "Mr. Xia, please sit!" Feng Yun said, "what would you like to drink? I only have green tea and coffee here." "Manager Feng, I'm not thirsty. You don't have to work. Let's just look at the Jade directly!" Xia ruofei said with a smile. "Alright, please wait a moment." Feng Yun said. She pushed open the door to the Office suite and walked in. Soon, she came out with a large metal box. The metal box looked very sturdy, and it was also designed with wheels and rods, just that it was much larger than the average pulling – Rod box. Feng Yun unlocked the box, opened the lid, and said, "Mr. Xia, all the Jade materials are here. Please check them." "Alright, thank you for your trouble." Xia ruofei stood up and walked over. The box was filled with jades of all sizes. The Jades were giving off a green glow, and it felt like their faces were glowing green. With so many precious jades placed together, it was still very visually impactful. Even Feng Yun, who dealt with jewelry and Jade every day, couldn't help but feel a little lost. Feng Yun stood aside respectfully. Xia ruofei reached out and picked up a piece of Jade. As soon as his hand touched the Jade, he could clearly feel a slight tremble in his palm. It was the reaction of the spirit map scroll after it sensed the Jade. Hence, when Xia ruofei was identifying Jade, he could do it with 100% accuracy. Of course, if the quality of the Jade was too low to cause the spirit map to shake, even Xia ruofei would not be able to tell if it was real or not. Xia ruofei looked through the Jade pieces one by one, but he only touched them briefly. He would put them down after a few glances and pick up another piece, so he was actually quite fast. Very quickly, Xia ruofei had 'checked' all the Jade. After buying Jade so many times, he was very familiar with the price of Jade. After looking at it, Xia ruofei had a rough estimate in his heart. 10 million Chinese dollars. These jades were definitely more than that. Xia ruofei nodded and closed the box again. "There's no problem with the Jade. Manager Feng, please give me your account number!" "Our company's bank account is at the southeast province branch of Industrial and Commercial Bank, Sanshan city sub – Branch, Huayun Road branch. The account number is 6222 ..." Xia ruofei quickly jotted down the account information that Feng Yun had given him. Then, he raised his head and said, "Manager Feng, transfers of more than five million can only be done at the counter, so you'll have to wait for me for a while. I'll go to the bank to transfer the money now." Feng Yun quickly said, "Mr. Xia, Boss Ma has told me that you can take the Imperial Jade first. The transfer is not urgent. You can do it when you have time." Xia ruofei was stunned for a moment, then he smiled and said, "That's fine. Then leave me the mailing address here. I'll send you the receipt after the transfer. Your finance department also needs to make a deposit!" Feng Yun quickly took out a business card and handed it to Xia ruofei with both hands. "Mr. Xia, my contact number and address are here." "Alright," he said. Xia ruofei took the name card and said, "I'll take that thing with me. Please thank Mr. MA for me!" "Definitely, definitely!" Feng Yun said, "by the way, Mr. Xia, do you need me to arrange for a few people to escort you back?" The metal box contained Jade that was worth tens of millions. If she were robbed on the way, it would be a big deal. When the head office's leaders were angry, she, as a small branch Manager, would probably have to pack up and leave immediately. Xia ruofei smiled and said, "Thank you for your kindness, manager Feng, but there's no need. I can do it alone!" "This ... Alright!" Feng Yun personally sent Xia ruofei out of the company all the way to the elevator. She only returned after the elevator door closed. Xia ruofei, on the other hand, dragged the metal box to the

underground parking lot on the basement first floor and found his Knight XV. After putting the box in the back seat, he drove to a blind spot in the underground parking lot and opened the box. After summoning the scroll, Xia ruofei took the Jade from the box and let the scroll absorb it. The speed at which the painting absorbed the Jade was very fast. In a short while, a box full of Jade worth ten million Yuan was completely absorbed. Xia ruofei did not check on the condition of the painting. He kept it in his palm and returned to the driver's seat. He drove away from the office building. Although Ma Zhiming had absolute trust in him, and Feng Yun had also said that he could transfer the money to her when he was free, Xia ruofei did not want to delay. The money would have to be paid sooner or later. Anyway, he had nothing to do at the moment that required a large sum of money, so it was naturally better to pay the money as soon as possible. Hence, Xia ruofei found an ICBC branch on the way and transferred 10 million HxB into the public account of Hengfeng jewelry's Southeast Branch. Then, Xia ruofei realized that there was a post office not far from the bank. Hence, he decided to mail the documents as well. After leaving the post office, Xia ruofei drove back to the farm eagerly. He couldn't wait to see what changes would happen to the spirit painting scroll after absorbing the Jade worth ten million Yuan and whether it could evolve completely again ...

### **Chapter 190: Seeing another spiritual fruit (1)**

Xia ruofei went straight to his room after he returned to the villa. After locking the door and windows, Xia ruofei eagerly took out the spirit map scroll and entered the medium. He first arrived at the original space. Once he entered, Xia ruofei was stunned for a moment because he realized that the size of the entire original space had not changed at all. This made him a little confused. The Jade that was worth ten million Chinese dollars had been absorbed by the spirit map scroll. Even if it couldn't completely evolve, it would definitely complete a part of the evolution. Why was there no movement at all? Soon, Xia ruofei realized that the original space had changed. At least, the spiritual Qi in the space was richer than before. Xia ruofei could also feel that his spiritual connection with the spirit map space had become closer. His control over the entire original space had strengthened. But why didn't the space expand at all? Xia ruofei walked toward the nameless plant with a hint of doubt and anticipation. The petals didn't regrow. He had just harvested the petals two days ago, and it wasn't time to harvest them again today. This also proved from another angle that the spirit map space didn't complete a complete evolution after the ten million Chinese dollars was put in. According to the previous rules, after the evolution was complete, the petals of the wondrous flower would regrow whether or not three days had passed. Xia ruofei's gaze was quickly attracted by a branch of the nameless plant. There was a small green fruit hanging on it. It was smaller than an ordinary date, but it gave off an alluring fragrance. Xia ruofei was excited. After the last evolution, Xia ruofei had harvested a ripe fruit. Although he had not used it until now, he knew that this fruit must be much more precious than the petals of the wondrous flower. After that harvest, Xia ruofei had been paying close attention to this nameless plant. To his disappointment, it did not bear any fruit. After absorbing so much Jade, Xia ruofei finally saw a new spiritual fruit. He was sure that after the evolution, this spiritual fruit would be fully ripe. Suddenly, Xia ruofei's eyes narrowed. He couldn't help but get closer to the nameless plant to take a closer look. Gradually, his face revealed an excited expression. This time, he confirmed it! On the other branch, to be exact, the branch that bore the fruit last time, there was a small bulge! If one didn't look closely, one wouldn't even notice it. However, it did grow out. The small bump was only the size of a soybean and was green in color. Xia ruofei was excited. He was even more excited than when he saw the newly grown fruit! This was because it meant that the evolution of space was not a necessary condition for the fruits of the

nameless plant. The soybean – sized bump was obviously the embryonic form of a new fruit. The fruit on this branch was the one that Xia ruofei had picked last time. In other words, the reason why new fruits had not grown was that it had not been long enough. The date – sized fruit had grown because the realm had started to evolve again, while the soybean – sized fruit had grown again after being picked last time. This was undoubtedly great news for Xia ruofei. If new fruits could only grow every time the space evolved, the number of fruits he could harvest would be very limited. Furthermore, the difficulty of the dimensional space's evolution was always increasing by leaps and bounds. This time, it had absorbed ten million Chinese dollars worth of Jade, and it still hadn't evolved completely. Who knew when it would be able to evolve again? However, if the fruit could grow back after being picked, it would be much easier. Even if it bore one fruit every few months or even a year, it would be much more than simply relying on spatial evolution to bear fruit. Xia ruofei looked at the two fruits, one big and one small, with joy and excitement. He also decided to pay close attention to this nameless plant for the time being, especially when the soybean – sized fruit would ripen. Xia ruofei walked around the original space again and finally confirmed that the size of the space had not changed at all. He then tested the flow of time again. He found that the flow of time inside and outside was still 30 times different, and there was no change. Xia ruofei's heart was filled with questions. With these unanswered questions, he decided to go to the new space and take a look. With a thought, Xia ruofei disappeared from the original space. The next moment, he appeared next to the wordless stone tablet in the new space. Blackie, Da Mao, and ER Mao immediately ran up to him happily, wagging their tails and acting very affectionately to Xia ruofei. Xia ruofei was concerned about the changes in the space, so he let Blackie take them to play. Xia ruofei's first concern was the size of the new space. He stood on the top of the hill and looked around. He immediately realized that the new space had expanded. And the expansion was not small. When this new space came out, it was already larger than the original space, nearly twenty acres. Now, it had obviously expanded a lot, and it was almost twice as large. Furthermore, Xia ruofei was keenly aware that the height of the hill had changed. He was from the Special Forces, so he was very sensitive to the terrain. Looking down from the top of the mountain, he felt completely different from before. It was obvious that the small mountain had grown taller. Soon, Xia ruofei noticed some changes in the new space. "For example, the meandering stream had become wider, and the spiritual Qi in the space had become denser. On top of that, the space had obviously become larger. Xia ruofei felt that these were the changes that should have occurred after absorbing so much Jade. He came down the mountain and walked to the front of the stone tablet. After absorbing the Jade this time, Xia ruofei felt that his spiritual connection with the space had improved again. He wanted to try to explore the secret of the stone tablet again. It was the only thing in the space that had traces of human beings. Besides, Xia ruofei's intuition told him that this stone tablet must be hiding a huge secret. Xia ruofei reached out to touch the stone tablet and focused his mind to sense it. That vague connection appeared again. Xia ruofei's mind seemed to have fallen into a fog. He tried to clear the fog to find out what was going on, but the fog seemed to be endless. No matter where he looked, he could only feel the endless chaos. Such an investigation was also very taxing on his mental strength. Xia ruofei started to feel tired. Just when he thought he was going to return empty – handed again, he felt a change in the ever – constant fog ...
