

God tier Farm 1811

Chapter 1811: Uncle Xu is here (2)

Xia ruofei wanted to take out his newly brewed Semillon for everyone to try, but it was Xie Bing who drove the company's Mercedes – Benz here today. He didn't bring his bag or anything. If he took out the wine out of thin air, he wouldn't be able to explain it, so he simply gave up the idea.

Everyone had a great lunch. Although Ling Qingxue was not particularly close to Feng Rao and Dong Yun, it seemed like girls were naturally friendly with each other. Soon, the three beauties started to whisper to each other and even looked at Xia ruofei with a smile.

Xia ruofei was speechless. He didn't believe that Ling Qingxue, Feng Jing, and Dong Yun could have any private conversation. To men, this was simply incomprehensible.

After lunch, Xia ruofei and the other two returned to Taoyuan farm while Ling Qingxue returned to the headquarters of the Ling Ji group. Everyone split up and left the Ling Ji private kitchen.

.....

The next day, Feng Jing and Liu Qian took the high – speed rail to Egret Island early in the morning, while Xia ruofei stayed in the company to deal with some piled – up work.

He first called ye Lingyun and Lei Hu to his office and told them about his plans to expand the security Department and recruit drivers. He asked them to look for reliable retired comrades. If they could not recruit enough, they could also recruit from the public. The general principle was that those with military experience would be prioritized.

Ye Lingyun and Lei Hu were very excited when they heard that Xia ruofei was going to expand the security team to 150 to 200 people. This meant that there would be more job opportunities for their comrades. The current security positions at paradise Corporation were among the best in terms of salary. Furthermore, the boss was also a veteran and was very generous to everyone. What job could be more ideal than this?

Ye Lingyun and Lei Hu also expressed that they would cooperate with the Human Resources Department to complete the security department's recruitment.

Xia ruofei was very confident in ye Lingyun and Lei Hu's ability and loyalty. With the two of them watching over him, Xia ruofei did not have to worry so much about the recruitment.

Dong Yun and the others were also very efficient. In just one day, the plan to buy a car, the employee's rental subsidy plan, the plan to expand the farm, the plan to build the pharmaceutical factory branch, and so on were all sent to him.

Xia ruofei looked at the thick plan and felt a headache.

Feng Jing had only been away for half a day, but he already missed Yingying. If she were here, he would have thrown all his work to her.

Xia ruofei had no choice but to look at the plan on his own.

Xia ruofei only took a brief look at the plan to purchase the buses and the senior management's cars before he signed and approved it. Dong Yun proposed to purchase three Golden Dragon buses and six Mercedes – Benz S350s, which would cost about 11 million Yuan in total.

Xia ruofei had also looked through the employee's Rental Allowance. Dong Yun's plan was very thorough. The allowance was based on the base allowance and an additional factor. The base allowance was the same, but there would be different additional factors based on the number of years of service in the company and the rank. The sum of the two would be the amount of the rental Allowance.

In addition, the rental subsidy was issued to the employees who actually rented the house, so they had to file the rental contract. If they were found to have used a fake rental to obtain the subsidy, they would be severely punished and the subsidy that had been obtained in violation of the rules would be recovered.

In other words, if the employee continued to live in the company's dormitory or in his own home, he would not be able to receive the rental Allowance.

Xia ruofei took a look and felt that the plan was quite strict and the subsidy amount was reasonable. Hence, he did not hesitate and quickly signed and approved it.

As for the expansion of the farm and the construction of the pharmaceutical factory, Xia ruofei did not make a decision immediately as it involved coordination with the local government. He wanted to wait for Feng Jing to return and discuss it with everyone.

The day passed quickly as she busied herself with her daily work.

Feng Jing also called. They had successfully picked up Xu lang and his assistant and were now on the high – speed train.

It only took more than an hour by high – speed rail from Heron Island to Sanshan.

After Xia ruofei received the news, he waited for a while and then drove the Knight XV off – Road vehicle and let Xie Bing drive the Mercedes – Benz. The two cars left Taoyuan farm one after the other and went straight to the South train station. It also took 40 to 50 minutes to get from the farm to the South train station.

These two cars were already the most presentable cars in Paradise Farm. In fact, Knight XV was not very suitable for receiving guests.

Once again, Xia ruofei realized the necessity of the company buying a few good cars.

On the way to the South train station, Xia ruofei called the Ling's private kitchen to confirm the menu for the evening and inform them of his approximate time of arrival. This way, the private kitchen could calculate the time and prepare the 'Buddha Jumps Over the Wall' in advance.

After waiting at the South train station for more than 20 minutes, the high – speed train arrived.

In the past, it would take at least three to four hours to drive from San Shan to Heron Island. Now, the high – speed train only took more than an hour. The time was shortened by more than half. This was indeed the amazing speed of China.

Xia ruofei stood at the exit of the station with Xie Bing. After a while, they saw Feng Jing, Liu Qian, and Xu lang walking out of the passage.

After they passed through the gate, Xu lang waved in Xia ruofei's direction. The old man looked energetic.

"Uncle Xu, welcome to the three mountains!" Xia ruofei smiled and went up to him. "You've had a long journey!"

Xu lang laughed and said, "Mr. Xia, the high – speed rail in our country has really opened my eyes!" It's fast and steady. If I close the curtains, I can't even feel the car moving!"

Xia ruofei laughed and said, "yes!" Didn't a foreign friend do the experiment? A coin was placed on the high – speed rail and it didn't collapse at the end. This shows how stable our country's high – speed rail is!"

"Amazing!" Xu lang gave him a thumbs up. "Our country's strength is reflected in all aspects. This makes us Chinese in Hong Kong proud!"

Xu lang was a very old – fashioned Hong Kong person. He had a sense of belonging to the mainland. He was even more disgusted by the actions of the young people in Hong Kong. He had once used the metaphysics of Feng Shui to say that those small groups of people were destroying their own good fortune and would have a great disaster in the future.

Xia ruofei smiled and said, "uncle Xu, the car is just ahead. Let's go have dinner first!" I've already booked the place ..."

"Good, good, good!" Xu lang chuckled and said, "I heard from miss Feng on the way here that Mr. Xia is treating us to the most authentic 'Buddha Jumps Over the Wall'. I'm already full of anticipation!"

Xia ruofei suddenly remembered that Xu lang had said that he was a true glutton and was obsessed with food.

Xia ruofei also felt that his thoughts yesterday were correct. If Xu lang did not want the reward, he could express his gratitude in other ways!

The group of people took two cars and soon arrived at Ling Ji private kitchen.

The son – in – Law was going to hold a banquet here, and he had ordered the menu in advance. In the evening, he had specially called to ask about it, which showed how much he valued his guests. Therefore, the Ling's private kitchen did not dare to neglect it. All the preparations were done quite well.

Xia ruofei and the rest were quickly welcomed into the flying Snow Pavilion.

Everyone had just sat down for a short while when the Buddha Jumps Over the Wall soup was served. Many of the ingredients needed to be prepared for a few days. Even if it was a semi – finished product, it would take half a day to cook it into a finished product that could be served on the table.

The fact that the Buddha Jumps Over the Wall soup could come up so quickly meant that the kitchen had put in a lot of effort to calculate the time.

Amidst the rich fragrance, the jars of Buddha Jumps Over the Wall soup were opened.

After taking a small sip, Xu lang was full of praise for the deliciousness of the Buddha Jumps Over the Wall soup. He kept giving a thumbs up.

Xia ruofei smiled and said, "uncle Xu, please eat slowly." I've also prepared a few bottles of good wine, let's drink and chat!"

Xia ruofei then gestured to the waiter, who immediately took out two bottles of wine from the bag that Xia ruofei had brought.

The Golden – Yellow liquid immediately caught Xu Lang's attention.

Chapter 1812: The Feng Shui Bureau in the building (1)

Xu lang called himself a glutton, so he naturally had a good eye for good food and wine. His eyes lit up slightly as he asked, "Mr. Xia, I don't think I've seen this wine before!"

Xia ruofei smiled. "It's from my winery in Australia. I hope uncle Xu Can give me a taste."

"I'm looking forward to it!" Xu lang laughed and said, "the delectable Buddha Jumps Over the Wall soup, coupled with the best wine, is truly the most enjoyable thing in life!"

"Uncle Xu, I'm under a lot of pressure now!" Xia ruofei said half – jokingly, "what if my wine doesn't meet your expectations?"

"Hahaha! I believe in Mr. Xia!" Xu lang laughed. "Your company's products have never disappointed us. I was fortunate enough to taste the top – grade abalones of your paradise Corporation with Mr. MA. It's simply an endless aftertaste!"

Xia ruofei laughed. He opened a bottle of wine and took out the freshly brewed noble rot wine. He had never tasted it before. This was the first time that the noble rot wine was being presented to the public, and he was looking forward to it.

To cultivate the heart concentrating grass, Xia ruofei removed the time array flags around the precious rot wine and used it on the heart concentrating grass instead.

However, after calculating the time, the precious rotten wine had been ripened in the oak barrel for about 50 years, which was definitely the best tasting period.

Xia ruofei personally poured half a glass of expensive rotten wine for everyone.

Xu lang picked up the glass. The wine was golden in color and had a thick texture. Xu lang was secretly surprised by its appearance.

He brought the wine cup to his nose and sniffed it. A faint fragrance assailed his nose, making him have an impulse to drink it immediately.

At this moment, Xia ruofei raised his glass and said with a smile, "Uncle Xu, CEO Feng, let's raise our glasses! Thank you for coming all the way here, uncle Xu!"

Everyone raised their glasses. After Xu lang clinked glasses with everyone, he took a small sip with a sense of urgency.

The unique rich aroma of the noble rot wine immediately filled his mouth. The sweetness that far exceeded that of ordinary wine made every taste bud in Xu Lang's body jump for joy. The wine stayed on the tip of his tongue for a while before he closed his eyes and swallowed it.

"Uncle Xu, how's the wine?" Xia ruofei asked with a smile.

Xu lang opened his eyes and exclaimed in admiration, "Mr. Xia, if I'm not wrong, this should be a top – grade noble rot wine!"

A bottle of wine that was golden in color did not necessarily mean that it was expensive rotten wine, but after tasting it, Xu lang, who was well – versed in this, was a hundred percent sure.

In fact, he had tasted the noble rot wine from the IMU winery in Germany before. This was one of the top three noble rot wines in the world. However, putting the fame aside, he felt that the noble rot wine that Xia ruofei had brought out tonight seemed to be better.

It should be known that the noble rot wine produced by the Yimu winery was known as the withered and selected noble rot wine, or the <anno data – annotation – ID ="333d08f -108f -4d3f – B3d1 – A1d3d00393d"> CBA </anno> for short. Wine grapes had to be picked by hand, and on average, at least 10 trees were needed to make a bottle of wine.

The average price of this type of expensive rotten wine is over 50000 Chinese dollars per bottle. The top quality ones can only be bought through auctions, so the price is even more ridiculous.

Xu lang only took a sip and he could almost tell that Xia ruofei's bottle of expensive rotten wine was not inferior to the expensive rotten wine from the IMU winery that he had tasted before. It was even slightly better.

If Xia ruofei knew about Xu Lang's comment, he would be overjoyed.

"Uncle Xu, what's this expensive rotten wine?" Feng Rao asked curiously.

Xu lang did not put on any airs. He chuckled as he explained the origin of the expensive rot wine and introduced a few famous types of expensive rot wine in the world.

In the end, Xu lang said, "Mr. Xia's noble rot wine is better than all the top noble rot wine I've ever had. Whether it's the sweetness, taste, or aroma, it's all close to perfection!" Just this bottle of wine is enough to make this trip worth it!"

Feng Rao and Liu Qian could not help but click their tongues. When Xu lang was introducing the expensive rotten wine, he said that a bottle of top – grade expensive rotten wine cost tens of thousands of Yuan. Not to mention that this bottle of wine was better than those top – grade expensive rotten wine, even if the quality was the same, it would still be impressive!

Liu Qian looked at the wine glass in front of her, then stuck out her tongue and said, ""So this glass of wine costs one or two thousand? I just drank a few hundred Yuan in one gulp?"

"Almost ..." Xu lang laughed.

"Chairman, isn't this too extravagant?" Liu Qian said with a bitter face. Can I return the wine to you and Exchange it for cash?"

Liu Qian's antics made everyone overjoyed. Naturally, Xia ruofei was in a good mood. He smiled and asked, ""You've already taken a sip, and you're giving it back to me? Is this the rhythm of that indirect thing?"

Liu Qian's face turned red. Feng Rao could not help but glance at Xia ruofei and said, "Chairman, don't tease the little girl! Qianqian is embarrassed!"

Xia ruofei laughed and said, "she said it herself!" Liu Qian, do you still want to convert it to cash?"

Liu Qian quickly waved her hand and said, "no, no!" I'll drink it myself!"

Everyone burst into laughter again.

Naturally, the meal was enjoyable for both the host and the guests. Whether it was the secret Buddha Jumps Over the Wall or the stunning top – grade noble rotten wine, they were all praised by the picky Xu lang, who repeatedly said that the trip was not in vain.

After the meal, Xia ruofei personally drove Xu lang and his assistant, ah Yuan, to the Shangri – La hotel that they had booked in advance.

Chapter 1813: The Feng Shui Bureau in the building (2)

As they had to invite Xu lang to visit Tao Yuan farm the next morning, Xia ruofei had asked the company to book a few more rooms. He, Feng Jing, and Liu Qian were staying at the Shangri – La so that they could leave the next day.

Xia ruofei made this arrangement for the convenience of work, but Liu Qian was very happy. Not only did she experience the high – speed rail business class that was more expensive than plane tickets, but she also tasted the expensive rotten wine that cost tens of thousands of Yuan a bottle. She could even stay in a five – Star hotel at night. It was simply too great!

The next day, Xia ruofei and the rest had breakfast at Shangri – La before checking out and driving to Taoyuan farm.

Xu lang requested to get off the car at the entrance of Tao Yuan farm. Then, he walked in while looking around casually.

Dong Yun, who was at work, also heard the news and came out to greet him. She wasn't very interested in Feng Shui metaphysics, but she was more interested in the Feng Shui Master employed by mogul Li.

In fact, Xia ruofei was also very curious.

However, Xu lang was not a Fengshui master like they had imagined, who was measuring everywhere with a compass or a mahogany sword. He just watched casually and did not say a word during the whole process. He even had an unfathomable smile on his face.

In the end, Xu lang asked Xia ruofei to bring him to the orchard at the back of the mountain. The vantage point here allowed him to have a panoramic view of the entire Taoyuan farm.

Xu lang stopped at the highest point of the orchard for about three minutes. He smiled at Xia ruofei and said, "Mr. Xia, let's go to your company's new headquarters now!"

Xia ruofei and Feng Jing looked at each other, slightly surprised.

However, they did not question Xu Lang's professionalism. Xia ruofei immediately called to arrange for a car to be driven over. Then, the group took two separate cars and headed to the Taoyuan building in the city.

When he arrived at the Paradise building, Xu lang was also not in a hurry to enter. Instead, he looked up in front of the building, then scanned the surrounding environment before he stepped in.

Xu lang took the elevator directly to the top floor where Xia ruofei's office was located. He looked down from Xia ruofei's big office. When he saw the intersection of the two rivers in the distance, his expression changed slightly.

After they finished reading, Xia ruofei and Xu lang returned to the reception area in the office and sat down.

Xia ruofei asked, "uncle Xu, how is it?" How's the Fengshui of our headquarters?"

Xu lang smiled. "Mr. Xia, forgive me for being blunt. From a Feng Shui perspective, your company's current headquarters is slightly better than the new building, especially in terms of aura. The farm is obviously more conducive to your company's development ..."

Xia ruofei was stunned for a moment. Then, he guessed what Xu lang was talking about.

The farm had planted a large number of paradise vegetables and was also breeding Yangtze River Chinese perch. Hence, Xia ruofei would regularly add the spirit Heart Flower petal solution to the water tower at the top of the mountain and the water tower of the Chinese perch farm.

These vegetables and pomfrets had absorbed the components of the spirit Heart Flower and grew up, so they were richer in spirit Qi than ordinary vegetables. After large – scale planting, the spirit Qi in the entire farm was also richer than in ordinary places.

This was probably the reason why Xu lang could sense his 'aura' better!

Just as Xia ruofei was thinking about how to explain, Xu lang suddenly changed the topic and said with a smile, "If it wasn't for the intersection of the two rivers, I would definitely advise Mr. Xia not to move

the headquarters. However, the existence of the intersection of the two rivers makes the Feng Shui of this building more possible, so it's not impossible to move ..."

Xia ruofei raised his head and looked at the intersection of the two rivers through the glass wall. He smiled and asked, "Uncle Xu, is there anything special about this?"

"The intersection of two waters is a place where wind and Qi are hidden." Uncle Xu smiled and said, "your company building is facing the intersection of two rivers. If used properly, the Fengshui of the entire building can be improved to a higher level. At least it won't be inferior to the farm!"

Xia ruofei actually knew that the core competitive strength of Taoyuan farm was not Feng Shui. If he wanted to, he could also fill the building with rich spiritual Qi. However, he did not reject Feng Shui metaphysics. No matter what, a person like Xu lang was not an undeserved reputation. His advice was very useful.

Hence, Xia ruofei asked humbly, "Uncle Xu, do we need to set up anything in the building?"

Uncle Xu smiled and said, "Mr. Xia's office is the highest point of this building. I've seen the layout and furnishings of the office. I believe that the decoration and layout were done with the help of people in the industry. Overall, it's standard and there are no mistakes. But with all due respect, there aren't many outstanding areas either."

Feng Jing was the one who designed the building. Xia ruofei did not know if Feng Jing had hired a Fengshui master, but he believed that she had done so. When it came to doing business, one had to be at ease.

"Uncle Xu, please give me some pointers!" Xia ruofei said.

Xu lang smiled, stood up, and walked to a Bogu shelf. "Adjust this shelf so it's East – West. In addition, the Kasaya on it is not suitable. This office hasn't been used yet, and these two sisters – in – Law haven't been here for long, so they haven't been tainted by Mr. Xia's aura yet. You can just get them to remove them."

From a traditional point of view, kasayas could gather wealth. It was very common to have kasayas in a businessman's office. However, since Xu lang said that he wanted to remove them, he must have his reasons. Hence, Xia ruofei did not ask for the reason. He asked Feng Jing to write it down and take the Kasaya away.

Xu lang explained, "when two rivers meet, not only will it bring wealth, but it will also bring evil. So, it's not appropriate to place the Kasaya. The Kasaya is famous for being indiscriminate and swallowing everything. If it's used for too long, more evil will gather, which may be detrimental to your company."

Xu lang continued, "we have to gather wealth and resolve evil spirits at the same time. My suggestion is to invite the second master of the Guan family to come back and make sure that the Green Dragon Crescent Blade is pointed in the direction of the intersection of the two rivers. This way, the Feng Shui Bureau of the entire building will have no problems!"

Xia ruofei's heart skipped a beat. "Uncle Xu, I have a Guan Yu here. Please wait a moment. I'll go invite him up!"

Xia ruofei recalled the Jade sculptures that he had previously sculpted. Other than giving one each to Ling Xiaotian and elder song, the rest were kept in the spirit map space. The statue of Guan Yu was also readily available.

The entire office was not in use, so Xia ruofei naturally could not go to the lounge to “get” the Kasaya. That would be too unreasonable.

He took the elevator to the underground parking lot. After he got into the Knight XV’s car, he reached into the Knight XV’s glove box and took out the Jade Kasaya from the spirit map. He was so cautious because there were surveillance cameras everywhere in the underground parking lot. Xia ruofei did not want the surveillance cameras to capture a Jade Kasaya appearing in his hand out of thin air.

There was no formation on these jade carvings. However, Xia ruofei’s spiritual power had made another breakthrough. It was easy for him to set up a spirit gathering formation. Almost instantly, he used his spiritual power to brand the entire spirit gathering formation on the Jade carvings.

Even if there were surveillance cameras, they could only see Xia ruofei’s hand gently touching the Jade statue a few times.

Xia ruofei took the Jade statue of Guan Yu, which had been set up with a spirit gathering formation, and took the elevator back to the office on the 15th floor.

While Xu lang and Feng Rao were drinking tea and chatting, Xia ruofei placed the Jade statue of Lord Guan on the shelf where the Kasaya was originally placed. He smiled and said, “Uncle Xu, could you please check if Lord Guan’s position is correct?”

Xu lang stood up and walked toward the bogujia.

When his eyes fell on the statue of Duke Guan, his eyes brightened and he quickened his pace.

Xu lang walked quickly to the Jade statue. He looked at it in amazement for a long time before he said with a wry smile, “Mr. Xia, if you had told me earlier that you had a magic tool, I wouldn’t have to spend so much effort thinking about how to break the evil Qi.”

Chapter 1814: Xia ruofei’s gift (1)

Xia ruofei was not surprised that Xu lang had discovered the extraordinariness of the Jade sculpture. Previously, at the headquarters of the lingji F & B, Ling Xiaotian’s good friend, du Qinghong, who was also a well – known Fengshui master, had recognized that it was a ‘magical weapon’ at a glance and was even willing to pay 100 million in cash to buy it.

However, Xia ruofei did not know much about Feng Shui, nor did he know how powerful a ‘magical weapon’ of this level could be. Seeing Xu Lang’s reaction, Xia ruofei knew that his jade carving was extraordinary.

This was just a Guan Yu statue with an ordinary spirit gathering formation carved on it. On the other hand, the bell ring Jade statue that Xia ruofei had given to Ling Xiaotian had a formation that he had deduced many times before he dared to use. In terms of the level of the formation, this Guan Yu statue was obviously not as good as the bell ring Jade statue.

Of course, Xia ruofei had his own reasons for drawing the spirit gathering formation. On one hand, he was running out of time, and the spirit gathering formation was his best formation, so it could be said that he could do it with ease. On the other hand, he also realized that spirit Qi and the world of Feng Shui seemed to be inextricably linked. Xu Lang's previous judgment that the aura at the Peach Blossom Farm was better than that of the building was mostly because of the spirit Qi, so he simply drew a spirit gathering array.

Xia ruofei thought for a while and smiled. "Uncle Xu, I don't know much about the magical weapon you're talking about, but it seems like this Guan Gong jade carving can be used?"

"It's more than just usable?" Xu lang said excitedly, "with this second master Guan guarding your building, your aura will soon surpass that of the farm! This magic tool can continuously improve the building's aura, and at the same time dissolve the fiendish Qi. It's killing two birds with one stone!"

Xia ruofei had a feeling that he was right. Xu lang had said that he was constantly changing his aura. Was this not the characteristic of the spirit gathering array? The longer the spirit gathering array was set up, the more spirit Qi it would gather. Of course, due to the level of the array, when the limit of the array was exceeded, the spirit Qi would still overflow and reach a dynamic balance.

Xia ruofei said happily, "that's great!" Uncle Xu, can you help me see how to place second master Guan? The position you just mentioned, see if I'm right?"

Xu lang carefully compared the location of the intersection of the two rivers in the distance, then made some minor adjustments to the Guan Gong jade carving.

He did not know if it was a psychological factor, but when Xu lang finally got into position, Xia ruofei really felt that the whole environment was more comfortable and his emotions became calmer.

He had once personally operated the nine rotations heaven and earth formation. At that time, ordinary people would not be able to see any difference when the yin Qi filled the air. However, it would inexplicably produce some negative emotions. Perhaps the evil Qi that Xu lang mentioned had a similar effect?

Xia ruofei had never dared to underestimate the metaphysics of Feng Shui, nor did he dare to come to a conclusion so easily. He had even personally witnessed such a ridiculous thing as cultivation. How could a theory that had been passed down for so many years be denied by simple feudal superstition?

No matter what, this was Xia ruofei's first time experiencing the effects of Feng Shui metaphysics. It was just a slight adjustment of position but it could change the atmosphere of the entire office. It was quite magical.

Of course, only Xia ruofei, who had a high level of spiritual power, could detect this subtle change. Feng Rao and Dong Yun did not feel it.

After Xu lang adjusted Guan Yu's position, he smiled and said, "Mr. Xia, this second master Guan is very precious. I suggest you add some anti – Theft measures, such as adding a bulletproof glass cover on the outside, setting up alarms and so on. Don't worry, as long as the bulletproof glass is transparent enough, it won't affect its ability to change the aura and dispel evil Qi."

In fact, Xu lang had a measure of the value of the Jade statue in his heart, and his judgment was similar to du Qinghong 'S. He believed that the Jade statue was worth at least hundreds of millions of Chinese dollars.

However, he didn't say it out loud because other than Xia ruofei, Feng Jing and Dong Yun were also there. Although the two beautiful executives were from Xia ruofei's company, it was inevitable that they would be tempted by money. If they had any evil intentions, he would be doing something bad with good intentions.

Xia ruofei accepted her advice and smiled. ""Thank you for your reminder, uncle Xu!"

"CEO Feng," he said to Feng Rao, "tell Lei Hu to take charge of this matter. Contact the best security equipment Company and have them custom – make a set of protective equipment for this Guan Gong Jade!"

"Alright!" Feng ke said.

In fact, no matter how good the anti – Theft equipment was, it was not foolproof. According to Xia ruofei's idea, he did not need any alarms or bulletproof glass covers. He only needed to set up a few small protective arrays around it. Even if it could not stop real cultivators for long, it was more than enough to deal with thieves. Even the thieves in the movies would not be able to steal the Jade statue under the protection of the protective arrays as long as they were not cultivators.

In the eyes of true cultivators, even if this Jade statue was very precious, it was not enough for them to take such a risk. As long as they saw the protective array, they would know that the owner of this Jade statue was also a cultivator and would most likely retreat. After all, there was no need to risk their lives for an ordinary spirit gathering array.

Chapter 1815: Xia ruofei's gift (2)

However, Xia ruofei still decided to customize an anti – Theft device. The biggest purpose was to hide it from people. Otherwise, it would be strange for such a precious jade carving to be placed there without any defense.

On the other hand, Xia ruofei was trying to avoid trouble. Even for those who didn't understand Feng Shui, this jade carving was an extremely valuable collection just from the quality of the Jade. If they didn't put some protective measures in place, it might really attract people to take a risk.

After talking about the Feng Shui issue, Xia ruofei asked again, ""Uncle Xu, when do you think we should move?"

In fact, after looking at both venues, Xu lang had already made a judgment in his heart. Hence, after Xia ruofei asked, he smiled and said, ""The most suitable date is in three days. Of course, if you don't have time to prepare, seven days is also quite good ..."

Hearing this, Xia ruofei turned to Dong Yun and asked, ""Director Dong, is three days enough?"

"No problem!" Dong Yun said without hesitation.

“OK! Then we’ll move in three days!” Xia ruofei said.

Xu lang smiled and reminded him,””Mr. Xia, the best time to move is three days later at 11:23 PM.”

Xia ruofei jotted down the time and asked,””Uncle Xu, how do you define the time?”

Xu lang thought for a while and asked,”there should be a ceremony to settle in, right?”

Xia ruofei was not sure about the specific arrangements, so he looked at Dong Yun.

“Yes!” Dong Yun immediately replied. Uncle Xu, we’ll hold a small ceremony on the day of the relocation. Also, the building has been renamed to the peach blossom building. We’ll hang a plaque at the main entrance of the first floor and cut the ribbon for the opening ceremony. ”

Xu lang immediately said,”then let’s set the time for the reveal to be 11:23!” Remember, don’t move anything into the building before the opening ceremony. You can only move after the opening ceremony!”

Xia ruofei nodded and said,”okay!” Many thanks for uncle Xu’s guidance!”

“You’re welcome, Mr. Xia!”Xu lang smiled and waved his hand. I’ve said on many occasions that Feng Shui is only an auxiliary, especially man – made arrangements like the layout of houses. It can only make limited improvements. Even natural Feng Shui is also an auxiliary function. The real function is still the person himself. As long as he takes the right path and grows his fortune, success is only a matter of time!”

Xia ruofei could not help but be in awe. This was not the first time he had heard of Xu Lang’s point of view. Last time in the capital, Zhao Yongjun had told him about this idea that Xu lang often talked about.

Xu lang was a Feng Shui Master! Other Feng Shui masters could not wait to exaggerate the effect of Feng Shui by a hundred or a thousand times, because only in this way could they highlight their importance and gain more benefits. However, Xu lang had always emphasized the importance of being a human and called on everyone to walk the right path and cultivate good fortune, which was quite valuable.

Xu lang continued,”so, Mr. Xia, you don’t have to care too much about the auspicious date and time I mentioned, or the layout of the office. These are just minor details.” Not long ago, Mr. Xia had saved hundreds of lives on a plane, and the heart – nourishing soup that had been launched earlier was a blessing for people with autism. It could be said that his merit was boundless. As long as you operate it normally, you will definitely succeed!”

Xia ruofei chuckled and said,”uncle Xu, you’re too kind. I’m just following my heart.” Besides, it’s a rare opportunity for someone of your authority to personally guide you! We will definitely follow your instructions to the letter! After all, no one would complain about the Fengshui of their office building being too good, right?”

Xu lang couldn’t help but laugh when he heard this.”That makes sense!”

Xu Lang’s mission was considered complete after he helped Xia ruofei improve the Feng Shui situation of the building and confirmed the auspicious date and time.

In the afternoon, Xia ruofei hosted Xu lang at Ling Ji private kitchen again.

Initially, he had invited Xu lang to stay at Sanshan for a few days, but Xu Lang's schedule was too tight. In fact, Xu lang had pushed aside his schedule to come to the Inland Egret Island and Sanshan. He just didn't tell Xia ruofei. Therefore, Xu lang and his assistant, a 'Yuan, were ready to take the evening flight back to Hong Kong.

In this way, the lunch at noon was not only a thank – you meal, but also a farewell party.

Xia ruofei had prepared many of Sanshan's specialties. Of course, the signature dish Buddha Jumps Over the Wall was also a must.

In terms of wine, Xia ruofei brought out the newly brewed half – Lon. Although sai Meirong was not as precious as the noble rot wine, the taste was also quite unique. Moreover, the white wine brewed in the spirit map space had an obvious taste advantage over the ordinary half – Lon. Xu lang was also amazed after drinking it.

After lunch, Xia ruofei accompanied Xu lang on a simple tour of the nearby San Fang Qi Street. They went to places of interest that were further away, such as Gu Ling. Xu lang did not have time to visit them.

At threeo' clock, Xia ruofei personally drove Xu lang and his assistant, ah Yuan, to the airport.

The plane tickets were naturally booked by the Tao Yuan company a day in advance, and they bought two first – Class tickets.

When the car arrived at the airport, the assistant, ah Yuan, moved their luggage out of the car before Xia ruofei could.

Xia ruofei smiled at Xu lang and said,""Uncle Xu, thank you so much for this! We'll have to trouble you to look after our clubhouse in the capital. "

"Mr. Xia, we're friends. You don't have to be so polite!" Xu lang said with a smile.

Xia ruofei smiled and said,"yes, yes, yes!" We're friends!"

Xia ruofei continued,"uncle Xu, I know that you won't be willing to accept it if I were to pay you. So ... I've prepared a small gift. Just treat it as a gift for your visit to the three mountains." Please don't refuse!"

Xu lang smiled and said,"Oh?" A gift prepared by Mr. Xia himself? Then I'll treasure it well!"

Xia ruofei smiled, walked to the back of the car, and opened the trunk.

He first took out a paper bag and handed it to his assistant, a 'Yuan. Then, he said to Xu lang,""Uncle Xu, here are two bottles of expensive rotten wine, the kind we had yesterday ..."

Xu Lang's eyes lit up and he said,"This gift is good! Mr. Xia really knows me! Hahaha! Then I won't be polite ..."

Xia ruofei laughed and said,"don't rush!" There are other gifts!"

“There’s more?” Xu lang was stunned.

Xia ruofei then opened the refrigerator in the car and took out a long vacuum – packed bag. “Here are two wild Chinese perch. They’re also our company’s products. These are live fish frozen and cooked after thawing. The taste is not much different from fresh wild Chinese perch. The taste is not bad. Uncle Xu, take them back and try them!”

Xu lang laughed and said, “Mr. Xia, I know this!” I’ve tasted it once at Mr. Ma’s place, and the ancients didn’t lie to me! The delicious pomfrets should only exist in the heavens!”

Xia ruofei couldn’t help but smile. “So uncle Xu has already tried it. Then I won’t use too much. It’s just that ...” He said.

Due to the limited production, MA Xiong’s Hengfeng group was the only store in Hong Kong that sold a small amount of frozen Wild Pacific pomfrets other than a few channels in the mainland. Moreover, it had not been long since it was put on sale. Xia ruofei did not expect Xu lang to have already tried it. It seemed like he was on good terms with MA Xiong.

“This is good stuff! “It’s just not easy to transport ...” Xu lang said with some difficulty.

Xia ruofei laughed and said, “uncle Xu, don’t worry. I’ve already prepared a thermal lunch box. There’s even ice in it. It won’t be a problem for us to make it to Hong Kong!” The airport only needs to handle the shipping of fresh food, it’s very convenient!”

“That’s great!” Xu lang said happily. That’s good!”

Xia ruofei placed the Chinese perch into the insulated box that he had prepared in advance.

“A ‘Yuan, come over and take this thermal lunch box!” Xu lang called out. Let’s get ready to go in!”

Xia ruofei quickly said, “uncle Xu, please wait!” I’m not done with my gifts yet!”

Xu lang was stunned. He did not know whether to laugh or cry as he asked, “Mr. Xia, how many gifts have you prepared? In fact, these are already precious enough. If it wasn’t for the fact that I can’t resist the temptation of delicious food, I would be too embarrassed to accept these two gifts ...”

Xia ruofei smiled and said, “there’s one last item ...”

With that, Xia ruofei opened the car’s refrigerator again and took out another vacuum – packed item. It was the size of two adult palms.

When Xu lang saw the item in Xia ruofei’s hand, he could not help but widen his eyes and could not look away ...

Chapter 1816: The heart – condensing grass ripened (1)

Xia ruofei’s last gift was an abalone.

It was obviously not an ordinary abalone, because there was only one heavy dry abalone in such a large vacuum package. It weighed more than 600 grams and was a one – Head abalone.

Xu lang took in a breath of cold air and said, "Mr. Xia, I'll take the wine and pomfrets, but this one – headed abalone is too expensive. You'd better take it!"

The last time it was auctioned in Hong Kong, the cheapest one, Bao Cheng, was sold for nearly three million Hong Kong dollars. It was indeed quite precious.

Speaking of which, Xu Lang's pay for reading Feng Shui for the rich in Hong Kong was also very high. Although it was not as high as three million Hong Kong dollars every time and it was not as simple as the three mountains trip, it was still very common for him to be paid one or two million Hong Kong dollars.

Of course, it was one thing to do things for money, but it was another thing to do it out of friendship.

This time, Xu lang did not intend to accept Xia ruofei's reward. Now that the money was confiscated, he felt that it was inappropriate for Xia ruofei to give him a gift that was worth more than the normal reward.

Xia ruofei smiled and said, "uncle Xu, this is a token of my appreciation. If you don't accept it ... Then I really don't dare to ask for your help next time!" Also, our capital's peach blossom Association doesn't dare to trouble you to take action ..."

Xu lang smiled bitterly and said, "Mr. Xia, even if I'm just looking at Feng Shui normally, I don't charge that much!" Your company's one – headed abalone is very famous in Hong Kong. I know that at the Hengfeng auction last time, such a one – headed abalone could not be bought without three million Hong Kong dollars. "

Xia ruofei shrugged. "As you said, this is only the auction price. This abalone is a product sold by my company. The cost is far from that high. It's just that the rarer something is, the more expensive it is!"

Then, Xia ruofei continued, "besides ... Didn't you just say that we were friends?" Since we're friends, there's no need to be so calculative! It's only natural for friends to be rich. Just take it as a visit between friends. The fruit trees in my house just happened to be ripe, so when you went back, I picked some fruits for you ... In fact, that's the nature of it!"

Although Xia ruofei's analogy was very vivid, how could ordinary fruits be compared to the precious one – headed abalone?

Even though Xia ruofei had repeatedly emphasized that 3000000 Hong Kong dollars was only the auction price, the problem was that this was a seller's market. There was no market for one – headed abalone. If Xia ruofei wanted to, he could exchange the one – headed abalone for at least 3000000 Hong Kong dollars in a minute.

Xu lang thought for a moment and said, "Mr. Xia, this is really too expensive ... If you treat me with this abalone, I'll accept it shamelessly. But if you give it to me directly ..."

Xia ruofei said meaningfully, "uncle Xu, you're treating me like an outsider!" If we were to calculate it that clearly, then uncle Xu's words at our paradise society's foundation laying ceremony would be worth more than 3 million Hong Kong dollars. This is this Junior's little token of appreciation, you can accept it with a peace of mind!"

At the groundbreaking ceremony, Xu lang took the initiative to stand up for the peach blossom society and praised that piece of land to the heavens, instantly dispelling the negative effects brought about by the previous rumors.

Although what Xu lang said was the truth, his status in the field of metaphysics was transcendent. His words were equivalent to an advertisement for the Paradise society. If one were to really count, even if Xia ruofei and the others took out three million HxB to promote it, it would definitely not be as effective as Xu Lang's words.

"I'm just telling the truth, Xia ..." Xu lang said.

Xia ruofei interrupted Xu lang and said, "Uncle Xu, let's stop pushing it around! At most, you can treat me to a big meal the next time I go to Hong Kong! Courtesy demands reciprocity! If you delay any longer, you'll miss your flight! In any case, if you don't accept it today, don't even think about leaving the three mountains!"

Then, Xia ruofei put the one – headed abalone into the thermal container and handed it to ah Yuan. "Let's go! We still have to handle the shipping of fresh food! We're a little tight on time!"

Seeing Xia ruofei's firm attitude, Xu lang could only say, "Alright! Thank you, Mr. Xia ... I'll accept it!"

"That's the way!" Xia ruofei was all smiles.

The reason why Xia ruofei gave such a precious gift was that he did not want to owe anyone a favor. On the other hand, he wanted to be on good terms with Xu lang.

Furthermore, this one – Head abalone might seem precious, but to Xia ruofei, he could get it whenever he wanted. Especially now that he had the time array flag, which was combined with the power of the Archean realm, allowing time to flow 2000 times faster, he could "ripen" the abalone in a short time.

The abalones in the space ocean would continue to reproduce, and the "raw materials" would be inexhaustible. Hence, to Xia ruofei, one – Head abalones were really nothing.

The three of them left the parking lot and walked into the airport lobby.

A 'Yuan quickly got the boarding pass. At the same time, she packed the fresh seafood in the thermal container and the two bottles of expensive rot wine into the thermal container.

Xia ruofei waited for Xu lang and a 'Yuan to pass through the security check before waving goodbye to them. Then, he turned around and left the airport.

Back in the Knight XV SUV, Xia ruofei started the engine and communicated with Xia Qing using his divine sense, "Xia Qing, how's the nurturing of the heart concentrating grass?"

Chapter 1817: The heart – coagulating grass ripened (2)

Xia Qing had been taking care of the heart – concentrating grass for the past three days and had put aside everything else at hand. After Xia ruofei asked, he immediately replied, "Master, it should be almost done in a while!"

“How many spiritual crystals did you consume?” Xia ruofei asked with concern.

Spiritual crystals were too precious. Even a little bit of it would make Xia ruofei’s heart ache.

Xia Qing replied, “don’t worry, master. It’s almost as we expected!” The fourth spiritual crystal has just been consumed. I guess there will be about half a spiritual crystal left when this heart concentrating grass matures!”

Xia ruofei heaved a sigh of relief. Although he was pained to spend four and a half crystals, it was still within his “budget”.

“You continue to take care of the heart concentrating grass. Don’t make any mistakes at the last moment.” Xia ruofei said, “when the heart concentrating grass is ripe, inform me immediately!”

“Yes, master!” Xia Qing replied.

Xia ruofei started the car and left the airport, heading in the direction of Taoyuan farm.

It was already dark when they returned to the farm. However, Xia ruofei could see from afar that many offices in the complex were still lit up. The canteen on the first floor was still open.

It turned out that they had decided to move in three days in the morning, so Dong Yun immediately started moving when she returned to the farm. All the departments were mobilized. Everyone was willing to work overtime today, sorting out their personal belongings and documents on their computers.

Dong Yun had even specially informed the canteen to postpone the closing time for today.

Seeing that the cafeteria was still “open”, Xia ruofei was too lazy to go back and prepare food. He drove the car directly to the general office building, then quickly walked up the steps and into the cafeteria on the first floor.

Seeing Xia ruofei enter, Mrs. Cao quickly came up to greet him.

Xia ruofei said, “sister – in – Law, just make me some porridge and side dishes. My lunch was too greasy.”

“Alright!” Mrs. Cao said, then turned around and asked the kitchen staff to prepare dinner for Xia ruofei.

“Are there many people eating today?” Xia ruofei asked.

“Less than usual,” Mrs. Cao said. “But many departments called to say that their people are working overtime. They asked us to keep the food warm and wait for them ...”

“When these guys heard that they were moving to the city to work, they were all very excited ... But no matter how busy they are, they can’t skip meals!” Mrs. Cao mumbled. “Can’t you work overtime after dinner?”

Xia ruofei laughed and said, “the moving time is a little tight this time. Everyone is working overtime!” Moreover, sometimes, when the data migration was halfway done, they couldn’t just leave it alone. They had to finish it before they could leave! Sister – in – Law, you’ll have to work hard these two days!”

"We didn't work hard!" Mrs. Cao smiled and said, "I'm just going home a little later! He had nothing to do at night. I'm just feeling sorry for this group of young men and women. They're all made of iron!"

"That's right," Xia ruofei laughed and said, "I'll go up and take a look after we're done eating. I'll chase those who haven't eaten down!"

Xia ruofei did not put on any airs. Even if Mrs. Cao was just a cafeteria worker, he could still chat with her for a long time.

Soon, the porridge and side dishes that Xia ruofei ordered were served. After he finished eating, he strode upstairs and patrolled the office area.

As expected, many people were working overtime to sort out their things. Dong Yun did not go home after work. Instead, she patrolled the offices of various departments and constantly arranged work.

"President Dong!" Xia ruofei waved at Dong Yun.

"Chairman, why did you come here in person?" Dong Yun came over and asked. Don't worry! There won't be any problems moving in three days!"

Xia ruofei smiled and said, "I'm a little worried that time is too tight and everyone is tired." Now it seems that my worry was right. I heard that many people didn't go down for dinner and are still working overtime in the office. How can that be? Tell all the employees who haven't eaten to go to the cafeteria. If there's any work that needs people, find the employees who have eaten to cover for a while!"

Dong Yun was also someone who would forget herself when she was working. She didn't even eat dinner. In fact, she didn't even notice that it was already dark outside.

After hearing Xia ruofei's words, Dong Yun looked at her watch and said embarrassedly, "Chairman, I understand! I'll make the arrangements!"

Xia ruofei nodded and said, "pay attention to the balance between work and rest. If the workload is too heavy, some things can be pushed back. We'll move in three days. Actually, the most important thing is the opening ceremony. After that, we'll move most of the things in. It's enough as long as the company can maintain normal operations. The rest can be moved slowly later!"

Xia ruofei was worried that Dong Yun was too perfectionist and would tire out the entire company.

"Yes, Chairman." Dong Yun said seriously. However, Xia ruofei was not sure if she was listening to him.

"Let's call everyone to eat first!" Xia ruofei said, "by the way, I'll go and tidy up my personal belongings in my office. You guys can handle the rest."

"Understood!" Dong Yun said.

After Xia ruofei finished speaking, he turned around and left the large office area. He walked back to his own office. Dong Yun called for the employees who had not had time to eat to put aside their work and head to the cafeteria for dinner.

In fact, Xia ruofei did not have many personal items in his office. He was used to storing his commonly used items in the spirit map space so that he could use them whenever he wanted.

Xia ruofei tidied up his office. He could have just kept his things in the spirit map space, but after some thought, he felt that he couldn't just leave empty – handed after all the packing. The employees would inevitably be suspicious when they saw this.

Hence, Xia ruofei found a cardboard box in the corridor. Since they had already planned to move the headquarters, Dong Yun had already ordered a batch of cardboard boxes with Tao Yuan company's LOGO printed on them. Today, when everyone started to pack their things, these cardboard boxes had also been moved out from the warehouse and placed in the corridor of the office. Anyone who needed them could use them at any time.

Xia ruofei put everything into the cardboard box and carried it downstairs.

As he walked, Xia ruofei's mind was filled with scenes he often saw in television dramas. A person who was fired by the company packed his personal belongings with a depressed face and left with heavy steps. The other colleagues looked at him with sympathy, indifference, and gloating ...

Xia ruofei couldn't help but laugh. His current appearance was really similar to the unlucky ones he often saw on TV.

When Xia ruofei arrived at the canteen, there were already many employees there. Dong Yun was also having dinner.

When they saw Xia ruofei enter, the employees greeted him. Xia ruofei also smiled at them as he walked towards Dong Yun.

After asking if anyone was still working overtime with an empty stomach, Xia ruofei found out that all the employees who had not eaten were here. He gave his office key to Dong Yun and gave them a few words of encouragement before returning to the villa with the cardboard box.

Just as Xia ruofei was packing his things, Xia Qing had already informed him of the news that the heart concentrating grass had matured.

Hence, when he returned to the villa, Xia ruofei placed the box on the coffee table in the living room. Then, he quickly went upstairs, locked the doors and windows, and summoned the spirit map space. He entered the space with a thought.

The Archean realm.

At this time, the time array flags around the heart concentrating grass had been removed. The heart concentrating grass in the center of the array was almost the same as when he first came to the upper realm Spirit Island.

As time flowed 30 times faster in the Archean realm, the heart – concentrating grass absorbed spirit Qi very quickly too. Therefore, the spirit gathering formation was not removed, and the spirit crystals around the formation were also not taken away.

One of the spiritual crystals was undamaged, while the other was much dimmer. It was obvious that more than half of the spiritual Qi inside had been absorbed.

There were also spiritual crystals in the other places, but now only a small pile of ashes without any spiritual Qi was left.

Xia ruofei felt as if his heart had been pulled out. He shook his head and said, ""Xia Qing, immediately follow the prescription you gave Song Wei last time and brew the medicine as soon as possible. I want to give it to Qingxue!"

Chapter 1818: At all costs (1)

"Yes, master!" Xia Qing replied respectfully.

Xia ruofei muttered to himself and asked, ""Xia Qing, how much do you think Qingxue's cultivation talent will grow after she takes the medicine made from the heart – condensing grass? How does she compare to Song Wei?"

Xia Qing revealed a difficult expression and said, ""Master, the effect of the heart concentrating grass is related to everyone's physique. It's hard to judge the specific effect. But ... Miss Song Wei's talent for cultivation is higher than miss Ling's. If they both take a dose of heart – concentrating grass ... I'm afraid miss Ling's talent for cultivation ..."

Xia ruofei nodded and said, "I understand!" Then ... If I continue to take the same medicine, will the effect be reduced?"

"Of course," Xia Qing answered seriously, "the medicinal effect is definitely not as good as the first time you take it, but if you can take a spiritual herb like the heart concentrating grass continuously, it will still be of great help to the improvement of your cultivation physique!"

Xia ruofei nodded and said, "I understand!" Xia Qing, after you harvest this batch of heart – concentrating grass, you can continue to cultivate it with the time array and the spirit gathering array. I want to harvest new heart – concentrating grass in the shortest time possible!"

Xia Qing couldn't help but be stunned. She quickly said, ""Master, it will cost at least four to five spiritual crystals to cultivate a heart concentrating grass! Why don't ... We take a look at the effects of miss Ling's medicine before we decide?"

Spiritual crystals were extremely precious. An ordinary cultivator would not be able to collect one or two in their entire life. To cultivate a heart concentrating grass, it would require at least four to five spiritual crystals. Even Xia Qing could not help but feel a little heartache, let alone Xia ruofei.

Furthermore, Ling Qingxue was not even sure what the effects of the heart concentrating grass would be after consuming it. It was too risky to spend four to five spiritual crystals to cultivate another one!

However, Xia ruofei's attitude was firm. He said, ""No need to wait, just cultivate the second one. I'll set up the time array, and you can start adjusting the spirit gathering array. After that, you can mix the herbs!"

Xia ruofei had always felt that he owed Ling Qingxue. If Ling Qingxue's cultivation talent was not as good as Song Wei's after consuming the herbs made from the heart – concentrating grass, it would take a long time for Ling Qingxue to reach Song Wei's cultivation level. On the other hand, in the long run, Ling Qingxue's cultivation path would be more difficult.

Since that was the case, Xia ruofei felt that he should try his best to improve Ling Qingxue's talent in cultivation. Even if the heart – concentrating herb could not achieve the effect he wanted, at least he would not have any regrets.

Seeing Xia ruofei's firm attitude, Xia Qing immediately said, "Yes, master!"

Xia ruofei nodded and said, "when the second heart condensing grass is cultivated, transport some abalones from the mountain sea realm. Use the time array flag and raise them as fast as possible until they meet the standard of a one – headed abalone. Then, turn them into dried abalones. The number ... Should be at least 15 to 20!"

The one – headed abalone that Xia ruofei had given Xu lang was from his previous stock. It had been a long time. Xia ruofei wanted to contact MA Xiong after he was done with his work. He wanted to hold an abalone auction in Hong Kong. MA Xiong would be very happy to have it.

"Yes, master!" Xia Qing said, "after the second heart concentrating grass is cultivated to maturity, I will start to work on the abalone!"

Xia ruofei nodded and said, "you've worked hard. My company in the outside world is collecting materials. As long as I have all the materials, I'll try to make the puppet. This way, I can help you with a lot of pressure!"

"Master, I'm not tired!" Xia Qing said, "I can still handle it now!"

Xia ruofei waved his hand and said, "I can't let you be busy alone. Anyway, I'll get the puppet done as soon as possible. You should put more effort into the heart – concentrating grass and the abalone. It will be much easier in the future!"

Xia ruofei also considered that they still had to harvest the Cordyceps in the second half of the year, which was the most labor – consuming task. Even if Xia Qing did not sleep or rest, it would be difficult to harvest all the Cordyceps in a short time. Therefore, even if he were to create more puppets, it was already an arrow on the bow and could not be delayed any longer.

After giving Xia Qing instructions, Xia ruofei left the medium.

He kept the painting in his body, then took out his phone and gave Ling Qingxue a call.

"What's wrong? Are you done with the guests?" Ling Qingxue picked up the phone and asked with a smile.

Ling Qingxue was well aware that Xia ruofei had always served Xu lang at Ling Ji's private kitchen.

Xia ruofei smiled and said, "yeah!" He just got on the plane! Wife, did you miss me?"

Ling Qingxue chuckled and said, "so what if I miss you?" So what if I don 't?"

Xia ruofei laughed and said, "I missed you!" If you miss me too, come to the farm now ... We haven't done that in a long time, have we?"

Ling Qingxue spat and said, "What are you thinking about?"

"Then, are you coming?" Xia ruofei chuckled.

"I'm not coming!" Ling Qingxue replied without hesitation.

"You said it yourself!" Xia ruofei smiled and said, "if you miss out on something good, don't regret it ..."

"I won't regret it ... Wait!" Ling Qingxue suddenly came to a realization and asked, "RUO Fei, what do you mean?"

Xia ruofei laughed and said, "nothing much!" I just miss you and I want to see you!"

Chapter 1819: At all costs (2)

"No... Tell me the truth, is there any progress in your cultivation?" Ling Qingxue quickly asked, "have you gathered all the medicinal herbs you mentioned last time?"

Xia ruofei deliberately kept her in suspense. "Don't ask so many questions. I'll just ask you one thing. Are you coming or not?"

Ling Qingxue was silent for a moment, then said, "Alright, I'll come over then ..."

Xia ruofei said happily, "good girl!" Qingxue, if you're not busy with work these few days, you can ask uncle Ling for a leave of absence! Just take it as a few days off and rest at my farm!"

Xia ruofei had already explained it so clearly, so how could Ling Qingxue not understand? she was very excited and immediately said, "I know! You wait for me!"

After hanging up the phone, Xia ruofei communicated with Xia Qing using his spiritual will and asked him to brew the medicine as soon as possible because Ling Qingxue was about to arrive.

The flow of time in the spirit map's space was 30 times slower than that of the outside world. Hence, Xia Qing had more than enough time. When Xia ruofei contacted him, he had just harvested the heart – concentrating grass and was setting up a spirit – gathering array.

Xia Qing said, "I understand, master." I'll have to invite you in to set up the time formation flags later, but I'm almost done ..."

"No problem!" Xia ruofei agreed readily.

He entered the spirit map space once again. Xia Qing had already harvested the heart concentrating grass. Now, only a small section of the heart concentrating grass was left on the ground. As time flowed 30 times faster at the Archean realm, especially during the recovery period, the rate of spirit Qi consumption was also relatively fast. Thus, Xia Qing did not remove the spirit gathering array and even placed a few more spirit crystals on it.

Xia Qing was currently grabbing medicinal herbs from the Archean realm medicinal rack, preparing to brew a medicinal soup.

When he saw Xia ruofei enter, he quickly put down his work and came over to greet him.

Xia ruofei waved his hand. "Don't worry about me. Hurry up and brew the medicine. I need it urgently."

"Yes, master!" Xia Qing respectfully replied.

“Have you finished setting up the heart – concentrating grass?” Xia ruofei asked again.

“Master, everything is ready,” Xia Qing replied. “The spirit gathering array has also been replaced with new spirit crystals. You just need to set up the time array!”

Xia ruofei nodded and said, “sure!” Go and do your work!”

Then, he walked to the heart – concentrating grass and waved his hand. All the time array flags floated up and slowly floated in front of Xia ruofei.

He grabbed the array flag and waved it casually. The time array flag immediately flew in different directions and landed in the right positions.

Xia ruofei’s improvement in spiritual power was very obvious. He had finished setting up the time formation almost in an instant.

Xia ruofei used his spiritual power to feel the array and immediately noticed the time difference between the inside and outside of the array. This feeling was too easy for a cultivator who had cultivated his spiritual power.

This meant that the time formation had been set up and was in effect.

After setting up the formation, Xia ruofei felt around and realized that the consumption of spiritual crystals had increased. Furthermore, the state of the heart concentrating grass was also recovering at a speed that could be seen with the naked eye.

He observed for a while and saw that Xia Qing was busy brewing the medicine. He said goodbye and left the spirit map space. As for the specific matters, Xia Qing was naturally in charge of them.

After returning to the outside world, Xia ruofei strolled down the stairs and took a walk in the farm before waiting at the gate.

Not long after, Xia ruofei could see the car lights in the distance.

As the car neared, it was indeed Ling Qingxue’s Porsche 911. Xia ruofei immediately asked the veteran on duty at the door to raise the bar.

Ling Qingxue drove the car through the gate of the farm and stopped, then rolled down the window.

Xia ruofei walked over with a smile and said, “Wife, you’re pretty fast!”

Ling Qingxue rolled her eyes at Xia ruofei and said, “My dad just went to Heron Island with his friends, so I drove here! If you’re lying to me ...”

Xia ruofei put on an innocent expression and said, “Why Would I Lie to You? I really missed you so much that I couldn’t fall asleep, so I called you!”

“You ...” Ling Qingxue glared at Xia ruofei and said, “get in the car!”

Xia ruofei chuckled as he opened the door to the passenger’s seat and sat down. “Wife, don’t be angry ... I definitely won’t let you down tonight!”

“Really?” Ling Qingxue asked as she looked at Xia ruofei.

“Of course!” Xia ruofei vowed, “I will perform well tonight. I won’t stop until you’re satisfied!”

Ling Qingxue was embarrassed and said, “I hate you!” Who said that? I’m talking about the cultivation ...”

Xia ruofei was also confused. “”I’m also talking about cultivation! It wasn’t easy for me to find all the herbs, and I’ve made you some Chinese medicine to recuperate your body. I think you’ll be able to recuperate your body to its best state after drinking it ...”

Xia ruofei pretended to be confused and asked, “”What did you think I was talking about?”

Ling Qingxue’s face turned red and she said, “”I’m too lazy to talk to you! You only know how to bully me!”

Xia ruofei couldn’t help but burst out laughing.

Ling Qingxue drove back to the small villa in the farm. The two of them entered the villa and Xia ruofei said, “”Qingxue, go upstairs and wait for me in the room. I’ll bring the medicinal soup up!”

Ever since Ling Qingxue heard about Xia ruofei’s cultivation, she could not calm down. Although it had only been two or three days, she was still very excited. However, when it was time for her to be exposed to cultivation, she started to feel very nervous.

Xia ruofei saw Ling Qingxue’s expression and couldn’t help but laugh. “”Silly girl, don’t be afraid! Go up and wait for me! Cultivation isn’t as complicated as you think. I believe you’ll be able to get started very soon!”

Ling Qingxue nodded and walked up the stairs.

Xia ruofei, on the other hand, went to the kitchen and took out the medicinal soup that Xia Qing had brewed from the spirit map space. He heated it in the microwave and walked upstairs with the medicine bowl.

When he returned to his room, Ling Qingxue was sitting on the bed, a nervous expression on her face.

Xia ruofei smiled and said, “Qingxue, come here and drink this bowl of medicine. Then, I’ll teach you what to do next ...”

The bowl of medicine looked ordinary, but it had actually used up an entire stalk of heart – concentrating grass, which was worth a city. The second stalk of heart – concentrating grass had already been cultivated in the spirit map space, so it was worth at least nine to ten spiritual crystals! Xia ruofei’s heart ached again!

Ling Qingxue did not know how precious the medicinal soup was. After hearing Xia ruofei’s words, she immediately walked over, picked up the bowl, and sniffed it. Then, she frowned and said, “”Ruofei, what a bitter medicine!”

Xia ruofei laughed, “good medicine is bitter!” You just have to close your eyes and drink it in one go! I’ll get you a banana. Eat it immediately after you’re done so that there won’t be any bitterness in your mouth!”

"Alright!" Ling Qingxue said. But I don't want to eat bananas, I want plum candy ..."

Xia ruofei smiled and said, "no problem!" I'll go get it for you now!"

Xia ruofei took out a few plum candies from the box in the living room and went back upstairs.

Ling Qingxue was still holding the bowl of medicine. When she saw that Xia ruofei had really brought the plum candy, she put the bowl to her mouth, closed her eyes, and drank it in one go.

After finishing the medicine, Ling Qingxue immediately called out, "RUO Fei, Tang! Quickly give me a candy! The medicine is too bitter ..."

Xia ruofei laughed and handed over the peeled plum candy. "Hurry up and eat!"

Ling Qingxue swallowed the sweet plum in a few bites, then opened another one and put it in her mouth. She asked, "Ruofei, now that you've drunk the medicine, can you start cultivating?"

Xia ruofei had already asked Xia Qing. The medicinal soup made from the heart concentrating grass would take at least one to two hours to fully take effect.

Therefore, he laughed and said, "No hurry, no hurry! Wife, it's been a while since we've been together ..."

Chapter 1820: Successful deception (1)

Ling Qingxue was no longer an ignorant little girl. How could she not know what Xia ruofei was thinking?

She blushed and glared at Xia ruofei. "RUO Fei, you didn't trick me into coming to the farm on purpose, did you? And ... Is this really a Traditional Chinese Medicine that recuperates the body, and not some kind of medicine that urges ... That?"

Xia ruofei was stunned for a moment before he reacted and almost burst out laughing.

As he laughed, he pointed at Ling Qingxue and said, "Wife ... You ... Your imagination is too ... Too big!"

Ling Qingxue was embarrassed and annoyed. She reached out and pinched the soft flesh on Xia ruofei's waist and said fiercely, "Don't laugh!"

Xia ruofei kept begging for mercy, but he couldn't help but laugh out loud. Ling Qingxue was even more stubborn. Her fists rained down on Xia ruofei's body. Of course, she couldn't bear to hit him too hard. The strength she used was more or less enough to tickle Xia ruofei.

Xia ruofei grabbed Ling Qingxue's soft hands and the two of them stopped. Ling Qingxue's face was still blushing from embarrassment. Her perky chest rose and fell slightly, which made Xia ruofei's heart beat faster.

The two of them did not speak, but they kissed each other in tacit understanding ...

After a round of sex, Ling Qingxue's entire body was limp as she lay in Xia ruofei's arms. She was not even willing to move her fingers. Xia ruofei also put his arm around Ling Qingxue's smooth shoulder, his face full of satisfaction, and his palm gently rubbed her.

After a long time, Ling Qingxue felt that she had regained some of her strength. She struggled a little and raised her head to look at Xia ruofei. "RUO Fei, when are you going to teach me how to cultivate?"

Xia ruofei smiled and said, "I'll check your body first. If it's suitable, we can start today. If you're not in your best condition, take another dose of medicine in two days. Anyway, we're not in a hurry. It's better to take things one step at a time!"

Ling Qingxue nodded and said, "Okay, I'll listen to you ..."

Xia ruofei grabbed Ling Qingxue's wrist, which was as white as snow, and placed his fingers on her pulse. His spiritual body quickly entered her body.

In fact, although Xia ruofei looked relaxed, he was actually very nervous.

Xia ruofei had no idea if the heart – concentrating grass would help Ling Qingxue improve her cultivation talent and how effective it would be.

He was slightly nervous as he closed his eyes and carefully examined Ling Qingxue's cultivation talent.

After a while, Xia ruofei heaved a sigh of relief. At the same time, he was a little disappointed that the heart – concentrating grass had improved Ling Qingxue's cultivation talent. It was just that Ling Qingxue's Foundation was too weak, so the improvement did not meet Xia ruofei's expectations.

At the very least, Ling Qingxue was not as good as Song Wei after she had consumed the heart concentrating grass.

This also meant that in terms of talent, Ling Qingxue was not as good as Song Wei. The two of them had taken the same medicine made from heart – condensing grass, but the effects were completely different.

Of course, cultivation itself was going against the natural order of things. There were not many people who had the talent to cultivate. Even if most people were lucky enough to obtain a cultivation technique, they would not be able to get started in their entire lives.

If a cultivator were to see that Xia ruofei was able to transform a person who had no talent in cultivation into someone who could barely cultivate with just a dose of medicine, they would definitely be shocked.

In the long years, there were many cultivators who were talented and had a higher cultivation than Xia ruofei. However, they did not pass on their genes to the next generation. In this case, they could only let their children live a longer life than ordinary people, but they could not change their children's bodies into cultivators.

However, Xia ruofei was not satisfied.

He already felt that he owed Ling Qingxue a lot. If Ling Qingxue could barely cultivate, but her talent was not as good as Song Wei's, the feeling of guilt in his heart would be even stronger.

Now it seemed that Xia ruofei's decision to ask Xia Qing to cultivate the second heart concentrating grass was the right one.

He used his divine sense to inform Xia Qing. "Operate the spirit gathering formation at full speed. Let the heart concentrating grass mature as soon as possible. The sooner, the better!"

"Yes, master!" Xia Qing replied in the space.

Seeing that Xia ruofei had not spoken for a long time, Ling Qingxue felt a little uneasy. She asked, "Ruofei, is my body not in good condition?"

Xia ruofei came back to his senses and quickly smiled. "No, no! The effect of the medicine just now was pretty good. Actually, there's nothing wrong with your body. It's mainly because you're usually tired from work, so you might be a little weak. I've checked just now, and he's already recovered quite well. However, in order to ensure that the first cultivation will go smoothly, we'd better wait a few more days!"

"We still have to wait?" Ling Qingxue couldn't help but feel disappointed.

Xia ruofei smiled. "You haven't fully absorbed this dose of medicine. I'm going to give you another one in three days. By then, I'm sure your body will be fine!"

"Alright! I'll listen to you ..." Ling Qingxue said.

Although she was looking forward to cultivation, Xia ruofei must have his reasons for saying that he needed more time to recuperate. She had absolute trust in Xia ruofei.

Xia ruofei laughed and put his arm around Ling Qingxue's shoulder. "Wife, since we're not going to cultivate today, let's do something interesting ..."
