Chapter 1821: Successful hoodwinking (2)

Ling Qingxue couldn't help but cry out in shock. She quickly said, "I ... I still have to go back! Don't touch me ... Ah ..."

Xia ruofei laughed evilly, "you just said that uncle Ling went to Egret Island. He wouldn't know that you didn't return home, would he?" Besides, it's so late now. I'll be worried if you go back alone!"

Ling Qingxue's eyes were like water. She glanced at Xia ruofei and said, "I'm the most unsafe person to be with you ..."

"How can that be? I can't even wait to love you!" Xia ruofei chuckled. "Besides ... Proper exercise is good for the absorption of the medicine!"

After he finished speaking, he flipped over and pressed himself on Ling Qingxue, who screamed in shock. What followed was naturally another round of intense lovemaking ...

The next morning, Ling Qingxue, who had almost fallen apart from the torture the night before, rubbed her sleepy eyes and sat up on the bed. She realized that Xia ruofei was no longer in the room.

She furrowed her brows slightly, gathered the clothes that were scattered on the floor, and began to put them on one by one.

At this moment, Xia ruofei, who had heard the commotion outside, came upstairs and opened the door.

"Why didn't you sleep a little longer?" Xia ruofei smiled and asked, "it's rare for you to come here. Don't be in a hurry to go back to work!"

Ling Qingxue saw that Xia ruofei was still wearing an apron and knew that he must have gone to prepare breakfast for her. She could not help but feel a little warm in her heart.

"No!" Ling Qingxue said, "if I'm going to take a break soon, I'll have to finish up my work as soon as possible!"

Xia ruofei said, "Qingxue, it wasn't easy for me to help you get better. Don't tire yourself out for a few more days. My work will be in vain!"

"It can't be?" Ling Qingxue was a little uncertain. "It can't be that serious, right?"

Xia ruofei laughed to himself but kept a straight face. "I'm not trying to scare you! If you've been overworked these few days and you're nervous, the medicine you drank yesterday might have been in vain! Qingxue, that medicine used a lot of precious herbs. You can't waste it. Most importantly, you'll be wasting time!"

Naturally, Ling Qingxue did not know that Xia ruofei was just scaring her. Hearing this, she could not help but feel lost. "Then ... Then what should we do?"

Xia ruofei said seriously, "I suggest that you take a break from today onwards. Why don't you just stay at the farm? look at the beautiful mountains and clear waters here. You can even look out at the sea from upstairs. It'll be very helpful for you to relax!"

Ling Qingxue had completely believed him. She hesitated for a while before saying, "Then ... Then I'll let my dad know ... But I have to go back to the company today. Even if I'm on leave, there's still a lot of work that I have to hand over!"

Xia ruofei was overjoyed. He nodded seriously and said, "Mm, sure! Qingxue, after you hand over your work, go home and tidy up your clothes. Stay at the farm for a few days. We've been together for so long, but I haven't had the chance to spend time with you!"

Since the decision had been made, Ling Qingxue did not dwell on the work. She was full of anticipation for the next few days alone with Xia ruofei. The environment on the farm was beautiful, and she could be considered to have placed her heart in the mountains and rivers.

"En!" Ling Qingxue nodded her head.

Xia ruofei wrapped his arm around Ling Qingxue's waist and smiled. "Wash up first, then go downstairs for breakfast! There are brand new toiletries in the cabinet under the sink. Take them yourself!"

"I know!" Ling Qingxue smiled sweetly at Xia ruofei and strode towards the washroom. As she walked, she naturally twisted her waist. Xia ruofei was so angry that he almost couldn't help but do it with this stunner on the spot.

After the two of them had their breakfast in the restaurant on the first floor, Ling Qingxue got into her car and left.

After seeing Ling Qingxue's car off, Xia ruofei walked towards the general office building. He was going to use this free time to settle some work matters. When Ling Qingxue came over, he would not go to work if there was nothing to do.

These few days, the company was preparing to move and everyone was very busy. However, Xia ruofei did not have much to do. Some of his personal belongings had already been cleaned up in his office. As the chairman, he did not need to do the rest.

Xia ruofei was in the office signing the documents. He had already signed and agreed to the subsidy for buying cars and renting houses, as well as the expansion of the security Department. Dong Yun, pang Hao, and the others had already started to follow up with their respective tasks.

As for the manufacturing factory and the expansion of the farm, he would need to find some experts to verify them. Moreover, these two matters would involve dealing with the government and the bank, so Xia ruofei planned to do it after the relocation of the headquarters.

All that was left was some daily work.

Because of the need for the relocation of the headquarters, there were more areas where money was needed these days, including renting trucks, buses, and inviting the conference company to prepare for the opening ceremony.

Hence, in just one morning, Xia ruofei had already signed hundreds of thousands of contracts.

However, these should be spent, so Xia ruofei naturally did not feel the pinch.

In the morning, Ling Qingxue called to tell Xia ruofei that Ling Xiaotian had agreed to let her take half a month off.

The old man probably knew that his daughter had been tired during this period of time, so he found his conscience!

However, Ling Qingxue said that she had a lot of work to do, and she also had to go home to tidy up her clothes, so she might only be able to come in the evening.

Chapter 1822: Successful hoodwinking (3)

Naturally, Xia ruofei did not mind that it was only half a day. He reminded Ling Qingxue over the phone to be careful not to overwork herself. The two of them chatted sweetly for a while before hanging up.

At noon, Xia ruofei had a meal in the canteen.

After returning to the villa, Xia ruofei took out a lot of Taoyuan vegetables and other ingredients from the space and put them in the refrigerator.

He would have to live with Ling Qingxue for the next few days, so he definitely couldn't bring Ling Qingxue to eat in the cafeteria! Since he was going to cook, Xia ruofei might as well prepare the ingredients in advance. Otherwise, it would be inconvenient for him to take things out of the interspace when Ling Qingxue arrived.

In the afternoon, he stayed in the office for a while more. When it was almost time to get off work, Xia ruofei received a call from Ling Qingxue. She had already set off from the city to Taoyuan farm.

Hence, Xia ruofei also packed his things and got up. He first went to Feng Jing's office and greeted her. He told her that Ling Qingxue would be coming over to stay at the farm for a few days and that he would not be coming to the company for the next few days if he had nothing to do. He would only appear on the day of the relocation.

When she heard that Ling Qingxue was coming to spend the night with Xia ruofei, Feng Rao could not help but feel a little disappointed. However, she concealed her emotions very well and even half-jokingly blamed Xia ruofei for not working for two days and starting to be a shirking boss again.

Xia ruofei chatted with Feng Jing for a while. It was time to get off work, so the two of them went downstairs.

Feng Rao went to the company's cafeteria to eat while Xia ruofei went back to the villa to prepare dinner.

Ling Qingxue drove to Taoyuan farm. The old soldier on duty at the gate recognized the car, so he let her in. She drove into the villa's yard without any obstructions.

When Ling Qingxue entered the villa, Xia ruofei, who was wearing an apron, was carrying a dish out of the kitchen.

After seeing Ling Qingxue, Xia ruofei smiled and said, ""You're quite fast! I'll put the things aside for a while before tidying up. I'll wash my hands first! There's also soup, and dinner is ready!"

Ling Qingxue looked at Xia ruofei and the steaming hot food on the dining table. A sense of family warmth arose spontaneously. She placed her luggage in the corner of the living room and rolled up her sleeves as she said with a smile, ""RUO Fei, I'll help you!"

Xia ruofei quickly placed the plate of steamed beluga on the table and said, ""You'd better not interfere, or you'll be scalded! Go wash your hands and watch TV for a while! There was only the fish head tofu soup left in the pot, which would be ready to eat very soon! I don't need your help with anything!"

Ling Qingxue wrinkled her nose and said, ""I want to cook with you! Don't tell me you don't trust my cooking skills? We're a family of chefs, okay?"

Xia ruofei laughed and said, "of course not!" Dinner is almost done! You're still afraid that you won't have a chance to cook with me? You can even personally cook for the next few days! I'll be your assistant!"

Ling Qingxue then revealed a cute smile and said, ""You're the head chef! I ... I didn't get my father's true teachings ..."

Xia ruofei almost laughed out loud. He knew about Ling Qingxue's culinary skills. Even though Ling Xiaotian's culinary skills were exceptional, Ling Qingxue clearly did not inherit this talent. Furthermore, the Ling family was also a wealthy family. They had no worries about food and clothing since they were young. The daughter had only inherited her father's business when it came to company management. As for culinary skills, Ling Xiaotian had not really given Ling Qingxue much guidance.

However, Xia ruofei knew that he could not laugh. Otherwise, Ling Qingxue would fly into a rage.

He nodded and said in all seriousness, "alright, I'll listen to you!" You should wash your hands first!"

"En!" Ling Qingxue nodded her head and obediently went to wash her hands.

Xia ruofei finally heaved a sigh of relief and turned to walk into the kitchen.

Chapter 1823: Setting off again (1)

In order to welcome Ling Qingxue, Xia ruofei prepared a sumptuous dinner. The ingredients were mostly vegetables and fish from the peach Garden space, as well as abalone cultivated in the space sea.

In addition, Xia ruofei had specially opened a bottle of expensive rotten wine.

Noble rot wine was much sweeter than ordinary white wine, and it was very smooth in the mouth. The two of them had unknowingly finished the entire bottle of wine.

Although Xia ruofei drank more than Ling Qingxue, with his alcohol tolerance, half a bottle of sweet wine with a low alcohol content would not affect him at all. On the other hand, Ling Qingxue's face flushed cutely after the alcohol hit her. Her eyes also became a little misty.

In front of such a beauty, how could Xia ruofei resist? He didn't even care about the dishes on the table and directly picked Ling Qingxue up by the waist.

As Ling Qingxue cried out in shock, Xia ruofei waved his hand in the air and the curtains on the first floor of the villa were all drawn. Then, he threw Ling Qingxue on the sofa in the living room and leaned down impatiently ...

For the next few days, Ling Qingxue stayed at the small farm villa.

It was also the first time Xia ruofei and Ling Qingxue had enjoyed a life of being together.

Every night, the two of them would fool around and do shameless things without restraint. The living room, bedroom, gym, bathroom, and even the kitchen of the villa were left with the mark of their love.

Of course, other than doing what they both loved to do, Xia ruofei also brought Ling Qingxue to the nearby beach to play. One day, the two of them drove to the beach not far from the farm and lay on the picnic mat, bathing in the warm spring sun while counting the number of planes flying in the sky.

They were not far from San Shan airport. The beach was just below the plane's flight path. During the landing phase, the plane was at a very low altitude. Xia ruofei could even see the airline logo painted on the tail of the plane.

As long as a man and a woman in love were by each other's side, their hearts would be filled with happiness. They didn't care about what they did together or where they went.

Therefore, the two of them enjoyed even something as boring as counting the planes. They stayed on the beach for half a day before driving back to the farm to make lunch.

In terms of food, Xia ruofei also personally cooked every day, preparing different kinds of delicious food for Ling Qingxue.

In just two to three days, Ling Qingxue's complexion had improved quite a bit.

In fact, it was mainly because he was in a good mood. In addition, he was temporarily free from the heavy pressure of heavy work, so he was a lot more relaxed, so his complexion naturally became better.

Xia ruofei wanted to make it up to Ling Qingxue. After all, he still felt that he owed Ling Qingxue for what happened to Song Wei.

Three days passed in the blink of an eye.

For the past three days, Xia ruofei had not been to the office at all. After Ling Qingxue joined them, he had the intention of "not going to court early in the morning". Feng Rao and the others also tried not to disturb him. If there was anything that needed Xia ruofei's decision, he would just call to ask for instructions.

However, today was the official day of the relocation of the peach blossom company headquarters. No matter how lazy Xia ruofei was, he could not continue to stay at home.

Early in the morning, Xia ruofei and Ling Qingxue finished their breakfast. Ling Qingxue started to clean up the tableware with ease. Now, the two had a clear division of labor. Xia ruofei was in charge of

cooking, and Ling Qingxue was in charge of cleaning up the leftovers. This time, Xia ruofei could make a cup of tea and comfortably watch TV for a while.

Xia ruofei said, "Qingxue, our headquarters is moving today. I have to go to the office. Do you want to come with me to watch the show or stay at home?"

Ling Qingxue was already addicted to the life of completely emptying her mind these few days. She said without hesitation, "I'm not going to join in the fun. There's a drama that's just five levels away from the final level. I'll try to finish it by today!"

Xia ruofei laughed and said, "okay!" We can take the second dose of Chinese medicine today, so we don't have to rush back and forth!"

"En!" Ling Qingxue nodded and asked, "ruofei, I should be able to start cultivating after taking the medicine today, right?"

It would have been better if Xia ruofei had not told her about cultivation. Now that she knew about it and had witnessed the magical methods of cultivators, more importantly, she knew that one would never age once they reached a certain level of cultivation. This was a great temptation for a beautiful woman! It could be said that the function of retaining one's youthful looks was almost the driving force behind Ling Qingxue's cultivation! Therefore, Ling Qingxue was quite anxious about her cultivation.

Xia ruofei nodded and said, "if there are no accidents, it should be possible!"

"That's great!" Ling Qingxue said happily, "you should get back to work! I'll be waiting for you to come home ..."

Seeing Ling Qingxue acting like a little wife, Xia ruofei's heart couldn't help but beat faster. He forcefully suppressed the evil fire in his heart and said, "I might have to eat out at noon. I've already prepared the dishes for you. You can heat them up and eat them at noon!"

"I know!" Ling Qingxue couldn't help but roll her eyes at Xia ruofei and said, "you're speaking as if I can't take care of myself!"

Xia ruofei laughed dryly, "I'm just afraid that you don't know." This place is too remote, so take – out won't even be delivered to your door. You have to be self – reliant!"

Chapter 1824: Setting off again (2)

"Don't worry!" Ling Qingxue said, "I promise I won't burn down your kitchen!"

Xia ruofei was speechless. 'How can I be at ease when you say that ...'

The two of them continued to cuddle for a while before Xia ruofei finally stepped out of the door.

When he arrived at the general office building, it was already very lively.

Two buses and two trucks were parked in front of the building, and the employees were loading plastic suitcases into the bus's luggage compartment.

The sorting boxes were distributed by the company. Each of them was embedded with the name of the employee. They were mainly used to store everyone's personal items. This way, it was convenient to load and transport the items without mixing them up.

As for the office equipment that needed to be moved to the new headquarters building, such as computers, printers, printers, fax machines, etc., As well as the accounts and reports from the finance department, they were sealed separately. Lei Hu and the Veterans from the security Department loaded them into the large trucks in an orderly manner.

Dong Yun was giving instructions on the scene. When she saw Xia ruofei, she immediately went up to him.

"Good Morning, Chairman!"

Xia ruofei laughed and said, "it's late!" Everyone has been busy for quite a while!"

"Have you arranged your work?" Xia ruofei asked.

"En!" Dong Yun nodded. President Feng will personally go to the peach blossom mansion to follow up on the opening ceremony, and I will be responsible for the clean – up work here!"

Xia ruofei laughed and said, "you two female generals have a clear division of labor!" With you two capable assistants, it's much easier for me!"

Dong Yun said humbly and then said, "Chairman, the relocation work here has basically been completed. The network and internal telephone in the building are all connected, and everyone's work positions have been determined. After each department has their own duties, we can get back to work very soon! By the way, this is the new communication manual that corresponds to every employee's work desk!"

Dong Yun said as she handed a small notebook to Xia ruofei. Then, she continued, "I've already sent the electronic version to your email. "

Although everyone was used to adding WeChat groups when they worked, an internal phone was also necessary, and sometimes it was more efficient. Especially since Xia ruofei was the chairman. If he wanted an employee to meet him, he could not just shout "someone come to my office" in the WeChat group.

Xia ruofei took the communication manual and put it in his pocket. Then he asked, ""How's the arrangement at the building?"

"President Feng is personally overseeing things over there, so everything is fine!" Dong Yun replied. According to the plan, the vehicle would be parked on the open space on the east side of the building when it arrived. Then, the employees would get off the vehicle and gather in the small square in front of the building to attend the unveiling ceremony. After the ceremony ended, they would officially begin to enter with their personal items! We've made ample preparations in the early stages, so we only need half a day to get everything in place and officially start working!"

Xia ruofei nodded and said, "everyone has been very tired these few days. There's no need to be so tight on time. The first two days are mainly to sort out the items and familiarize yourself with the new

environment. Other than the e – commerce customer service and other positions that must be available at all times, the other work can be delayed!”

“Thank you for your understanding, Chairman!” Dong Yun said, “I’ve also made arrangements in advance for some of the positions that can’t be left. Some of the people will stay at the farm. When everything at the building is sorted out, these people will move over. This way, the work can be seamlessly connected!”

Xia ruofei nodded and praised, “not bad, not bad!” You’ve considered it very carefully!”

At this time, the employees had already loaded their belongings onto the bus. The office equipment that had been moved in advance had also been loaded onto the truck.

However, they didn’t get on the bus immediately. Instead, they lined up in front of the square and waited.

From the formation, it could be seen that everyone in the security Department was in high spirits. Every veteran held their heads high and the formation was very neat.

Although the other employees were also very excited, their lines were a little crooked, and there were people whispering to each other from time to time.

However, this was a company and not the military. Xia ruofei would not use the military’s rules on all his employees. Of course, he was very satisfied with the discipline of the security Department and could not help but look at Lei Hu and ye Lingyun with admiration.

“Chairman, we’re leaving soon. Can you say a few words to everyone?” Dong Yun said.

Xia ruofei laughed and said, “sure!” It’s a good thing to move, I’ll give everyone some encouragement!”

Dong Yun nodded and quickly walked to the front of the queue. At this moment, the ordinary employees who were whispering to each other also quieted down and looked at Dong Yun.

“Everyone, let’s welcome the chairman with a round of applause!” Dong Yun cleared her throat and said.

Thunderous applause suddenly came from the queue. In the office building behind, the staff who stayed behind, including a few staff in the cafeteria, could not help but stick their heads out to look.

Xia ruofei was all smiles as he walked to the front of the line. He looked around and said, “My fellow colleagues!”

The security team immediately stood at attention. Xia ruofei was stunned at first, but then he smiled and said, “Please take it easy! Everyone, relax. We’re not in the Army anymore!”

The ordinary employees suddenly chuckled, but the security veterans still looked as calm as ever. They made a gesture of relief in unison. Even though they were at ease, everyone’s backs were still straight. Compared to the relaxed appearance of the ordinary employees, this side was more pleasing to the eye.

Xia ruofei said, “as everyone knows, we’ll be setting off in a while to work at the peach blossom building in the city center!” The Tao Yuan building was bought by the company not long ago, so the whole

building is ours! Currently, only the 10th to 15th floor had been arranged, and the remaining nine floors were all empty! However, I don't intend to rent it out, because I hope that in the near future, our paradise corporation's employees will fill up the entire building! I hope that I'll soon have to worry about the insufficient capacity of the headquarters!"

The employees immediately applauded enthusiastically. Each and every one of them was full of energy. The more lively employees even cheered loudly in the queue. The atmosphere was very warm.

Xia ruofei gestured with his hands and said, "the relocation of the headquarters this time is a new starting point for the company!" To everyone present, it was also a new set off! Our company grew from a small farm to today's value of nearly two billion in just over a year! Let's set a small goal here, okay? I hope that after a year, our company's value can be tripled! Do you guys have the confidence?"

"There are!" All the employees were shouting loudly, their faces full of excitement.

Dong Yun couldn't help but take a few more glances at Xia ruofei. She had heard that Xia ruofei was a retired soldier. However, after interacting with him for a while, she really couldn't see any soldier's temperament in this young Chairman. Instead, he was quite lazy and didn't have the hard – working and resolute style of a soldier.

However, today, she seemed to have seen another side of Xia ruofei. Although the goal of tripling the value in a year seemed a little unrealistic to her, she had to admit that she was infected by Xia ruofei's heroic spirit the moment he said it.

It was a simple pre – Mission speech, but Xia ruofei made it sound like a pre – war mobilization of the Army.

Xia ruofei nodded in satisfaction and said, "It's not enough for the company to grow. I hope that all of you will have a bigger stage to display your talents because of the company's development. Of course, the company will not disappoint you. In short, follow me, Xia ruofei! There was meat to eat! Let's not talk anymore, let's go!"

As soon as Xia ruofei finished speaking, the crackling of firecrackers and the loud sound of gongs and drums filled the air. It was a festive and lively atmosphere.

The employees got on the bus in an orderly manner. Xia ruofei also got on the first bus.

Soon, four cars with their double flashing lights drove out of the gate of Tao Yuan farm in a single file, driving towards the new starting point of the Tao Yuan company.

Chapter 1825: Causing trouble (1)

Today, the Tao Yuan building was refurbished. The outer walls and glass walls were thoroughly cleaned by a professional company. Every piece of glass was brand new and glistened in the sun.

The small square in front of the building was also beautifully decorated. The inflated arch, balloons, and banners set the atmosphere in a jubilant manner.

A red carpet extended from the entrance of the small square to the entrance of the building, and the two stone lions were also hung with red ribbons. There was a small stage built at the main entrance of the building. It was at the same level as the steps in front of the door. When Xia ruofei and the rest arrived, the slightly were playing some warm music.

Xia ruofei had already seen Feng Jing in the car. She was holding a walkie – talkie and hurriedly giving out the final instructions.

The employees on the bus also craned their necks and looked at the building that they would be working in in the future with a hint of excitement.

The east side of the building was the parking area for the ceremony, and several security veterans were responsible for maintaining order.

It was still early, and most of the guests had not arrived yet. There were only a few cars in the parking area.

The security department's veteran skillfully directed several cars to be neatly arranged in the innermost position of the parking area.

After the car stopped, Dong Yun was the first to jump out of the car. She held a megaphone and said loudly, "Everyone, please put your belongings in the car first. Now, get out of the car and line up. Then, go to the designated seats in the square! The directors and supervisors of each department are in charge of gathering their own people. When they arrive at the square, listen to the staff on site!"

Everyone quickly got out of the car and lined up. Dong Yun gave everyone a few more requests, mainly to emphasize order in the venue, including keeping their phones on silent, not walking around casually, not whispering to each other, and so on.

After that, Dong Yun led everyone to the small square in front of the building.

Xia ruofei followed behind the group and walked towards the small square.

When Feng Rao saw that the main force had arrived, she also walked over with a walkie – talkie.

Xia ruofei left the group and walked over to ask, "President Feng, is everything ready?"

"It's basically all arranged," Feng Jing said. "We just need to pay attention to the final timing, but it's not a big problem. " We'll start with the guests "speech, and the last will be your speech, Chairman. The time can be long or short, but it's mainly based on the opening time we've decided on."

Xia ruofei nodded and said, "yes!" That's good! Everyone has worked hard ..."

"Chairman, there's still an hour or two before the ceremony begins!" Feng Jing said with a smile. You should go upstairs to the office and rest for a while! When it's almost time, I'll get Liu Qian to call you!"

"I'll stay at the scene and take a look!" Xia ruofei said.

Feng Jing nodded and walked side by side with Xia ruofei towards the small stage in front of the building.

As she walked, she introduced the main procedure of the ceremony to Xia ruofei. "Chairman, at the beginning of the ceremony, there will be a lion dance performance. Next, there will be a five – minute short video, mainly to introduce the construction achievements of paradise Corporation. Then, it will be the speech by the guests 'representatives, followed by your speech, and finally, the unveiling ceremony. The whole process will be controlled to be between forty minutes to an hour ..."

Xia ruofei said half – jokingly, "have you decided on the guest?" You have to give me a heads up! When those leaders go on stage, we can't control the time anymore. Many people say that we don't even need to look at the script for an hour!"

Xia ruofei wasn't exaggerating. Which leader in this era wasn't "experienced"? They had attended countless meetings and ceremonies since they entered politics. If they were not given a time limit, they could speak for half a day.

Feng Rao smiled and said, "We've mainly invited the leaders of the Bell Tower District, the city's commercial Bureau, as well as some leaders of the industry, commerce, taxation, and Bank departments. Now, the Zhonglou District has clearly replied that Deputy District Chief Hong, who is in charge of commerce, will be attending. He should be the leader with the most weight this time. We've decided on him as the guest speaker. We've already discussed this with the district government office in advance. We've also discussed the time of his speech in advance, so there shouldn't be any accidents!"

Xia ruofei nodded and said, "when Deputy Mayor Hong arrives later, you can mention it to him tactfully. Don't make any mistakes in this part. If we miss the auspicious time, we'll be at a great loss."

Xia ruofei had specially invited the famous uncle Xu to set the auspicious date and time. For this, he had even given a valuable gift. Although this was a gift of reciprocity, he had paid a huge price after all. Even if he didn't particularly care about the auspicious date, it didn't mean that he didn't care about it. It was naturally best to ensure that the ceremony would be unveiled at 11:23 am.

"Don't worry! I will. " Feng ke said.

Then, Xia ruofei looked around the venue and saw that Feng Jing had indeed arranged everything in an orderly manner. Besides, he could not help much by being there. On the contrary, because of his presence, Feng Jing had to be by her side, which would easily delay things.

So, Xia ruofei said after walking around, "Sister che, I'll go to the office first. You have to keep in touch with the guests at all times. When the important guests are about to arrive, let me know and I'll come downstairs to welcome them. Don't be impolite."

"Alright," he said. Feng Rao said, "don't worry! I've arranged for a special person to meet up with each guest, so their schedules are all under control. "

Chapter 1826: Adding to the mess (2)

Xia ruofei nodded and thanked Feng Jing for her hard work. He then walked into the building and took the elevator to his office on the top floor.

The space here was much bigger than the office at Taoyuan farm. Xia ruofei was not used to it.

He first stood in front of the floor – to – Ceiling window and looked at the situation in the small square for a while. Then, he returned to the spacious reception area, where a full set of tea sets had been prepared. He took out a small bag of Da Hong Pao from the space and began to make tea leisurely.

The fragrance of the tea filled the air. Xia ruofei tasted the first cup of tea, and the fragrance lingered in his mouth. Then, he leaned back on the soft sofa and prepared to close his eyes to rest.

At this moment, Xia Qing, who was in the space, suddenly took the initiative to contact him with her divine sense.””Master, the heart concentrating grass has matured again!”

Xia ruofei suddenly became alert. He sat up straight and asked with his spiritual will,””Oh? How many spiritual crystals did you spend this time?”

“We’ve almost used up all five of them ...” Xia Qing said. She then continued to explain,”master, we’ve used up slightly more spirit crystals this time compared to the last time. It’s mainly because after the heart condensing grass was harvested the last time, it had grown naturally on the spirit map Island in the realm heart for a period of time. In reality, it had already recovered a little. This time, we’ll immediately start the next round of cultivation after the harvest, so ...”

“I’m fine!”Xia ruofei said. We’ve already used up so many spirit crystals, so we don’t care if we have half a spirit crystal each!”

“Xia Qing,” Xia ruofei said,”harvest the heart – concentrating grass now and start brewing the medicine!”

Xia ruofei was very anxious about Ling Qingxue’s cultivation. He planned to give Ling Qingxue a second dose of the medicine once he was done with his business here and returned to the villa.

In any case, the medicine wouldn’t go bad after it was brewed in the spirit map space. He asked Xia Qing to prepare it in advance so that he could directly use it when the time came.

“Yes, master!” Xia Qing said.

Then, Xia Qing asked again,”master, then this heart concentrating grass ... Should we transplant it to spirit map Island?” At the Archean realm, it consumes spirit Qi very quickly. Even if you remove the time array flags, you might still need to continuously use spirit crystals to replenish it ... But spirit tu Island ... Only you can go up ...”

Xia ruofei thought for a moment and said,””You should move it into the mountain and sea realm first! Without a time acceleration of thirty times, it will be able to absorb spiritual energy much slower, and we won’t need to provide it with additional spiritual energy. ”

In fact, if it wasn’t to speed up the ripening of the heart condensing grass, the best choice would naturally be to plant it in the medicine garden on spirit map Island.

Although they were both in the mountain and sea realm, the spirit map island’s herb garden was the most suitable environment for the growth of spiritual herbs. However, Xia ruofei could not leave right now, and he did not want to take the risk of entering the spirit map space in this relatively unfamiliar environment to do something like this. Hence, he could only compromise.

When he found an opportunity to enter the spirit map space, he would transplant the heart concentrating grass into the medicine garden. Although it might cause some damage to the heart concentrating grass after multiple transplants, this type of spirit grass and medicine still had a strong vitality. As long as it was not damaged to the core, it would recover in a little time.

"I know, master!" Xia Qing said. Then I'll first move it to the mountain and sea realm, and then I'll start to brew the medicine!"

"Mm! You've worked hard!" Xia ruofei said.

Then, Xia ruofei reminded Xia Qing to be careful during the transplant and to try her best to protect the roots of the heart concentrating grass.

Just as he finished talking to Xia Qing, Feng Jing's call came in.

At this time, Feng Jing called. Xia ruofei's heart skipped a beat. Did something happen?

"Sister ran, what happened?" he quickly answered the phone.

"Ruofei, the government office just informed us that Deputy – Mayor ni, who's in charge of urban construction and commerce, is coming to attend our unveiling ceremony. He's already set off from the city government. Do you think ... We should come down earlier? you'd better welcome him personally ..." Feng Jing said.

Xia ruofei was stunned for a moment. He knew that the peach blossom company did not openly invite guests for the relocation of its headquarters. They mainly invited some leaders of the Bureau, bank, and District who were related to the company's business. They did not send out invitations to the municipal and municipal level.

Deputy – Mayor NI's uninvited arrival surprised him.

Of course, the development of paradise Corporation was obvious to all, and its value was almost two billion. It was also a well – known private enterprise in Sanshan. It was not unusual for the city leaders to attend the ceremony.

Xia ruofei's brain worked quickly and he basically understood the reason.

During the last change of government, he had glanced at Deputy – Mayor NI's resume, and with his memory, he naturally remembered all the information.

Deputy – Mayor ni was not a newly promoted city leader. In the previous municipal government, he was the Deputy Mayor, but his ranking was relatively low. He was mainly in charge of science, education, Culture, and health, so his authority was not particularly large.

Not long after song Qiming took office in Sanshan, the municipal government adjusted the division of labor for the Deputy Mayor. Deputy Mayor NI's area of jurisdiction also became the popular urban construction, commercial, and other parts. Not long after, he also entered the Standing Committee of the municipal Party Committee and was the only Standing Committee member in the government besides the mayor and the Executive Deputy Mayor.

Although the adjustment of the field of jurisdiction was a government – Level matter, Xia ruofei was not naive enough to think that it had nothing to do with song Qiming, the head of the municipal Party Committee. Moreover, ni had quickly become used to it.

Therefore, Xia ruofei was not surprised when Deputy – Mayor ni showed up uninvited.

“I understand, sister che. I’ll be right down!” He said.

“Oh, yes.” Xia ruofei thought for a while and added, “sister ran, you’d better inform the district government that Deputy – Mayor ni is coming. You have to tell them in advance ...”

“Alright!” Feng Rao said. I’ll make the call immediately!”

After hanging up, Xia ruofei took the elevator to the first floor.

After Feng Rao came up to him, she smiled and said, “Ruofei, you’ve got good foresight ...”

“What’s the matter?” Xia ruofei was stunned.

“I heard that Deputy – Mayor ni was going to attend the ceremony in person, and the district government was in a mess. The district Party Committee contacted me very quickly and said that Secretary Chen had decided to attend our ceremony at the last minute, and he left immediately!” I heard that he was originally planning to go down for research, but he changed his schedule at the last minute!”

Xia ruofei laughed and said, “isn’t that normal?” A member of the municipal Standing Committee came here personally, but the district only had a Deputy District head. Wasn’t this too arrogant? That’s why I said we should inform them as soon as possible! Otherwise, they’ll definitely blame us!”

“Also, the district has made it clear that Deputy District head Hong’s speech will be canceled ...” Feng Jing nodded with a smile.

“With ni here, how would Deputy Mayor Hong still dare to give a speech?” Xia ruofei said, “contact Deputy – Mayor NI’s Secretary immediately and ask the Leader if he can go on stage and say a few words. If he refuses, we’ll contact the District!”

“Alright!” Feng ke said.

Xia ruofei mumbled to himself, “what the hell is this?!” Why didn’t you tell us in advance that you’re coming? isn’t this a sudden attack just adding to our troubles? How many arrangements would have to be changed? There’s also the seating arrangement, and our staff has to print the seat cards at the last minute ... Who knows how much trouble they’ve caused us!”

Feng Rao didn’t know whether to laugh or cry, “Chairman, you can just say that!” If you say it in front of those big bosses, it’ll be easy to attract hatred!”

A leader of the municipal government came to support him in person, and he still looked so proud and unwilling. If this wasn’t showing off, what was it? Although Xia ruofei did not think of it as a great honor, the key was that other people did not think so!

In fact, Deputy – Mayor NI’s sudden arrival had triggered a series of chain reactions.

In the past few minutes, Feng Jing's phone didn't stop ringing ...

Chapter 1827: The opening ceremony (1)

The phone calls were mainly from the relevant departments and the Bureau invited by the Paradise Corporation. Originally, many units had sent their deputy leaders to attend, but these people in the system were very well – informed. When the news that Deputy Mayor ni had changed his schedule to attend the opening ceremony of the peach blossom mansion came out, those units that had originally accepted the invitation couldn't sit still.

The call was naturally to tell the peach blossom company that they had changed people to participate in the event. This time, the ones who returned were naturally the top leaders.

Feng Jing couldn't help but grumble. There wasn't much time left until the ceremony began. With so many new people coming, it meant that most of the seats would have to be changed and the order would also change.

It must be known that the people in the system paid the most attention to these things. If the seating arrangement was wrong, it would be very offensive.

Feng Jing was busy arranging for the staff to print a new name tag and adjust the seating. Xia ruofei casually looked around the ceremony venue to help Feng Jing check for any missing items.

However, the facts proved that Feng Jing was indeed very capable. She was personally in charge of the company's operations and had considered all aspects. There were basically no obvious flaws.

It didn't take long for the invited guests to arrive one after another, and they appeared almost in a group, including Secretary Chen from the Bell Tower District. It was obvious that these people had heard that Deputy Mayor ni was coming, so they rushed over as fast as they could.

In addition to the main leaders of the Bell Tower District, there were also several offices in the city's Administrative Bureau and Department. They were originally close to the city, but they immediately set off after receiving the news, so that they could arrive before Deputy Mayor ni.

Otherwise, if a Deputy Mayor was here, and the leaders from the Bureau and District were late, it would be too disrespectful to the higher – ups.

Xia ruofei had already gone downstairs, and Deputy – Mayor ni was about to arrive, so he did not go up. Instead, he stood near the entrance of the small square and became a “guest”.

These district leaders and Bureau leaders were very polite to Xia ruofei. After all, Xia ruofei was now a well – known private entrepreneur in Sanshan. He had a certain level of social influence. In addition, he had the support of the municipal Party Committee and government leaders. These district leaders and Bureau leaders naturally would not put on airs in front of Xia ruofei.

Xia ruofei was a rather easy – going person. He was all smiles as he greeted everyone, and then asked the staff to lead them to their seats.

After a while, a black sedan with a red flag slowly drove to the entrance of the small square and stopped.

A young man in his early thirties quickly got out of the car and jogged around the front of the car to the driver's side of the back door. He reached out and opened the door. A thin middle-aged man in his fifties stepped out of the car. He was Deputy – Mayor ni.

Xia ruofei had seen Deputy – Mayor NI's resume, so he recognized him at first glance.

He walked up to them with a smile and said, "Mayor ni, welcome, welcome! I'm the chairman of paradise Corporation, Xia ruofei."

"Hello, President Xia!" Deputy Mayor ni smiled gently, "President Xia, I've long heard of your name! Seeing you today, the rumors are indeed true. You're a young and promising lad!"

Xia ruofei smiled. "You're too kind, leader. I'm young, but I'm not that promising."

"In his early twenties, he built a company with endless potential and a valuation of two billion in just over a year from scratch. Isn't that great?" Deputy – Mayor NI had obviously done his homework and knew Xia ruofei very well.

"I'll take Mayor NI's praise as a spur to our paradise Corporation!" Xia ruofei chuckled.

"Hahaha!" Deputy – Mayor ni laughed heartily and said, "President Xia, I came uninvited to your company's housewarming celebration today!"

"No, no, no!" Xia ruofei said, "we're very flattered that Mayor ni took time out of his busy schedule to come personally!"

Deputy – Mayor ni smiled and gestured to the Secretary, who quickly took out a flower basket from the trunk.

"It's just a small gift, I hope you won't mind!" Said Deputy – Mayor ni.

Xia ruofei immediately saw the words "congratulations on moving in" on the silk ribbon of the flower basket. It was signed by the Sanshan Municipal Party Committee and the city government.

This wasn't a small token of appreciation! This meant that Deputy – Mayor ni was here today to represent the City Council and the city government to support the peach blossom company.

Xia ruofei quickly thanked him and gestured for the staff member to take the flower basket.

They had received quite a number of flower baskets today, including those from jianda group and other partner companies, as well as some from other departments and bureaus. These flower baskets were placed on both sides of the red carpet at the entrance of the small square, so Deputy – Mayor NI's flower basket was naturally placed in the most conspicuous position.

"Mayor ni, the ceremony is about to begin. Please take a seat at the venue!" Xia ruofei said.

"Good, good, good, the guest will do as the host wishes! I'll listen to your command!" Deputy – Mayor ni joked.

Xia ruofei led Deputy – Mayor ni across the red carpet and asked him to sign on a spray – painted wall with the LOGO of paradise Corporation as a memento. Then, the two of them walked to the guest area.

The district leaders and Bureau leaders who arrived a few minutes earlier quickly stood up and greeted Deputy – Mayor ni. These people were also secretly relieved, and they finally arrived before the leaders.

There were still a few other invited departments whose offices were not in Bell Tower District, so their leaders had not arrived yet.

Chapter 1828: The opening ceremony (2)

Compared to these people, the district leaders and Bureau leaders who had arrived early were naturally secretly glad.

Feng Jing had already adjusted her seat card as quickly as she could. When she saw Xia ruofei walking over, she gave him a look.

Xia ruofei and Feng Jing had some tacit understanding. He immediately asked Deputy Mayor ni if it was convenient for him to go on stage to give a speech.

Sometimes, when the leader did not prepare a speech for such a last – minute event, most of the time he would decline.

However, Deputy – Mayor ni agreed without hesitation, which was really giving Xia ruofei face.

Of course, it was also possible that Deputy Mayor ni had asked his Secretary to prepare a script in advance.

No matter what, the other junior leaders had also started to pay more attention to Xia ruofei and the Paradise Corporation.

After leading Deputy – Mayor ni to the guest area, Xia ruofei chatted with him for a while before he excused himself.

Beside the small stage, Feng Jing saw Xia ruofei walking over and immediately went up to him. She asked, “Ruofei, what about Mayor ni ...”

“He agreed to give a speech, but I was too embarrassed to give him a time limit.” Xia ruofei said, “we’ll play it by ear! You must remember to communicate with the emcee about these adjustments to the procedures. Don’t make any mistakes later on and it’ll be a disgrace ...”

“Alright!” Feng ke said.

Following that, more guests arrived one after another. In addition to the leaders whose offices were not in Bell Tower District, people like Liang Weimin and the bosses of private enterprises also arrived one after another.

At around 10:20 am, the warm – up music gradually weakened and everyone’s attention was naturally focused on the stage.

A girl in a tube – Top dress walked onto the stage with a microphone and said with a smile, “Hello, everyone! Welcome to the opening ceremony of paradise Corporation. I’m an employee of paradise Corporation, Chen Li ...”

Xia ruofei had some impression of this Chen Li. If he remembered correctly, she was a team leader in the public relations department.

Xia ruofei couldn’t help but feel cold for her when he saw her wearing a strapless dress in such cold weather.

“Before the ceremony begins, please allow me to introduce our guests today!” Chenli smiled.

At this point, Chen Li looked at the inscription card in her hand and said, “Mr. Ni Yongjie, a member of the Standing Committee of the Sanshan Municipal Committee and the Deputy mayor of the city government! Welcome, Mayor ni!”

In the midst of the applause, Deputy Mayor ni stood up and slightly bowed to the crowd behind him.

“Mr. Chen Jinxian, the party secretary of the Bell Tower District!” Chen Li continued. Welcome ... Mr. Guo Ming, the director of the Industry and Commerce Bureau of Sanshan city ...”

Three minutes passed by after the guests were introduced.

The reporters in the media seats were also taking photos non – stop. It could be said that the guests today were all heavyweight guests, especially Deputy – Mayor ni. His schedule was accompanied by the reporters of the city TV station, and it was very likely that he would be on tonight’s Sanshan news.

After the introduction of the guests, the first performance was a lion dance.

Feng Jing had contacted a rather famous Lion Dance Team from Guangdong. The team began to perform on stage amidst the lively gongs and drums, winning a burst of applause.

Xia ruofei was sitting beside Deputy Mayor ni. He was chatting with him in a low voice while clapping.

After the lion dance performance ended, the large screen in the stadium began to play a short promotional video of paradise Corporation.

A few days ago, Feng Jing had contacted a company she was familiar with to produce this film after they decided on the opening ceremony. As they were in a rush, the production crew had to stay up for almost two full nights.

Fortunately, the materials provided by paradise Corporation were quite rich, so there weren’t many scenes that needed to be reshooted. The main work was still editing the film, and it was finally completed before the opening ceremony.

This short video mainly introduced the process of Tao Yuan company from its founding to the present. Of course, there was also a comparison between the past and present, and the theme was still closely related to today’s relocation.

After the video finished playing, Deputy Mayor ni clapped and said to Xia ruofei, “President Xia, what an amazing achievement!”

“Mayor ni, you’re too kind!” Xia ruofei said humbly.

At this moment, Chen Li, who had returned to the stage, said, “Next, let’s invite Mayor ni to give a speech on stage with a warm round of applause!”

Deputy – Mayor ni stood up with a gentle smile on his face. As he walked to the stage, he took out a script from his shirt pocket.

‘As expected, it was prepared in advance,’ Xia ruofei thought.

He also had the leisure to pay attention to the thickness of Deputy – Mayor NI’s speech, which was about three to four pages. Even if the leader’s speech speed was not particularly fast, it should be done in 20 minutes.

Xia ruofei also heaved a sigh of relief. In this case, he would have at least 15 minutes. For paradise Corporation, the time was controllable and they would not miss the auspicious time.

Deputy – Mayor ni walked to the podium and said with a smile, “I’m very happy to be able to witness the Paradise corporation’s new glorious starting point today! First of all, please allow me to represent the three mountains Municipal Party Committee and the city government to express our warm congratulations to the Paradise Corporation!”

Deputy – Mayor ni paused for a moment, and everyone naturally cooperated and gave him a warm applause.

Next, Deputy – Mayor NI’s speech could be said to be quite standard. He listed some of the achievements of the Paradise company from its founding to now and was full of praise for the company, including the Paradise Foundation, saying that the Paradise company was a private enterprise with a sense of social responsibility.

In the end, Deputy Mayor ni also raised a few points of hope, nothing more than hoping that the peach blossom company would develop better and better, and work hard to contribute to the economic construction of Sanshan. Although it was all official words, the people in the audience were very serious.

After all, Deputy – Mayor ni was the representative of the municipal government to attend the ceremony, so his every word would be dispelled by everyone.

Of course, Deputy – Mayor NI’s purpose for this trip was to support the peach blossom company, so he didn’t mind being over – interpreted. Even Xia ruofei felt a little embarrassed when the company was praised.

While Deputy – Mayor ni was talking, Feng Jing sneaked up to Xia ruofei and whispered, “Ruofei, there are a lot more guests than we expected this time. Two of the key leaders of several departments have come. Our arrangements for the afternoon ...”

Feng Jing had wanted to report to Xia ruofei, but he had been sitting with Deputy – Mayor ni, so he took the opportunity to rush over.

Xia ruofei thought for a while and said, “it’s not a big problem. Tell the hotel to open a few more tables!”

As the opening of the signboard was at 11:23 am, everyone would still have to visit the peach blossom mansion after the event. After the event was over, it would definitely be time for dinner, so Feng Jing had also made a reservation in the banquet hall of the nearby Shangri – La hotel.

“I’ve already asked Liu Qian to contact the hotel. It shouldn’t be a big problem.” Feng ke said.

In the end, Deputy Mayor ni ended his speech with warm applause, put away his speech, and walked down the stage.

Chen Li returned to the stage and said, “let’s give a round of warm applause to thank Mayor ni again!” Next, let’s welcome Mr. Xia ruofei, the chairman of the peach blossom company, to give a speech!”

Xia ruofei stood up and waved to the crowd with a smile. Then, he buttoned his suit and walked up to the stage.

“Dear Mayor ni, Secretary Chen, leaders, friends from the media, and colleagues from paradise Corporation, Hello!” He said.

This simple greeting was met with a warm round of applause. This applause mainly came from the area where the employees of paradise Corporation were sitting.

“Today, we’ve moved our headquarters to the Tao Yuan building. Just like Mayor ni said, this is a starting point for our company to reach new glory.” Xia ruofei said, “paradise Corporation has not been established for a long time, but with the support of all the leaders and friends, and the joint efforts of all the employees, the company has developed very quickly. To be slightly humble, it can be said that it has become famous.”

Xia ruofei paused for a moment and looked around at the crowd. Then, he continued, “Just as Mayor ni said, with great power comes great responsibility. Our paradise Corporation has always been very concerned about charity, and we’ve even set up a paradise Charity Foundation. Today, I’m going to make use of this joyous occasion to announce a decision.”

Chapter 1829: Taking the medicine again (1)

At first, everyone thought that it was just a formality. After all, the inauguration ceremony of a building was not big news. If it were not for Deputy – Mayor ni, more than half of the media would not have attended.

However, after hearing Xia ruofei’s words, everyone perked up their ears.

Because Xia ruofei had just quoted Deputy – Mayor NI’s words, which also mentioned social responsibility and the Paradise charity fund. Could it be that Xia ruofei’s decision was related to charity? Everyone couldn’t help but guess in their hearts.

Xia ruofei didn’t beat around the bush and said directly, “I’ve decided to hand over 5% of the company’s shares to the Paradise Charity Foundation. Every year, the dividends generated from this 5% of the shares will be fully invested into the charity Foundation!”

Xia ruofei's words caused an uproar. Even Feng Jing, Dong Yun, and the others, who did not know about this beforehand, were shocked.

According to the statistics of some organizations, the annual profit of paradise Corporation was about 200 million Yuan, and 5% of the shares were also over ten million Yuan. To invest ten million Yuan every year for charity was not an ordinary courage.

What's more, the 200 million profit was the current estimate. According to the development momentum of the Paradise Corporation, the future profit would be higher and higher. At that time, the 5% dividend would be even more.

Deputy – Mayor ni also looked at Xia ruofei with approval.

Although he was ordered to come, he had a good impression of Xia ruofei after a short interaction. He admired Xia ruofei even more after he announced his decision.

When one was poor, he would be good to himself, and when one was good, he would help the world. Xia ruofei's company could only be said to be in its early stages and could not be compared to the giant companies at all. However, he was already thinking about taking care of the world and was taking big steps.

This was what a true entrepreneur was! Deputy Mayor ni sighed in his heart.

Xia ruofei's speech was still in progress. He had been paying attention to Feng Jing's hints.

Feng Rao made a few simple hand gestures and Xia ruofei knew that there were only a few minutes left.

Xia ruofei looked into the future and pointed out the key development areas of paradise Corporation. At about 11:20, he quickly returned to the topic and ended it.

Xia ruofei had been improvising the whole time and had not prepared any script.

Of course, with Xia ruofei's level and mental strength, it was not a problem for him to speak off – script for half an hour.

Xia ruofei ended his speech amidst the applause. Chen Li walked up to the stage and said, "Next, let's invite Mayor ni, Secretary Chen, director Guo ... And President Xia to come on stage to unveil the peach blossom mansion!"

The guests and Xia ruofei walked onto the stage one after another.

When the small stage was built, the unveiling part was taken into consideration. Its height was exactly the same as the steps of the peach blossom mansion.

On the right side of the main entrance, a plaque was already covered by red silk, making it impossible to see the true appearance of the mountain inside.

Xia ruofei and Chen Li both knew that there were only about three minutes left. He controlled the rhythm on stage and shook hands with the leaders and guests. Chen Li had also prepared some 'nonsense' to fill in the time.

It was about three minutes, neither long nor short. Xia ruofei and the others took about a minute to walk on the stage and make small talk. In front of the plaque, everyone pushed each other to the side. In the end, it was naturally Deputy Mayor ni who stood in the center, while Xia ruofei and Secretary Chen stood on either side of him. It took about half a minute.

Below the stage, Feng Jing was the most nervous of them all. Chen Li had used up the last bit of time she had, and a large Arabic number 10 appeared on the big screen.

This was also done in advance, even with the network matching time, the purpose was to be accurate to the second.

Chen Li quickly raised her voice and said, "Let's start the countdown! 9! 8! 7....."

The numbers on the big screen also changed every second.

After the number '1', the image of fireworks bloomed on the screen. At the same time, Chen Li also said loudly, "Please reveal the opening!"

Deputy – Mayor ni, the other guests, and Xia ruofei had already pulled on a corner of the silk cloth. After hearing Chen Li's words, everyone exerted a little force, and the red silk cloth immediately slid off gently, revealing the plaque inside.

The plaque naturally had the words 'paradise building' on it.

The applause at the venue was thunderous. The sound of firecrackers and gongs also rang out at the same time.

Xia ruofei invited the guests to enter the building for a tour. This was the purpose of the question.

After the tour, all the guests, reporters, and employees of the Paradise Corporation took a bus to the Shangri – La hotel, which was not far from the building.

Feng Rao had booked a medium – sized banquet hall in advance, which could accommodate up to 20 tables. Of course, she didn't book so many tables, but because of Deputy – Mayor NI's arrival, many leaders came uninvited, so she had to call the hotel at the last minute and ask for three more tables.

Fortunately, the banquet hall was large enough. With a slight adjustment to the layout of the tables, it was easy to add three more tables. It was just that time was a little tight.

However, Shangri-La's service was still very professional. Before Xia ruofei and the rest arrived at the hotel, everything had been adjusted and the additional ingredients had been prepared.

For such a large – scale banquet, they naturally wouldn't use the expensive paradise vegetables, but they used Drunken Eight Immortals as the wine.

Of course, the management of public servants was stricter these days, especially since it was noon on a working day. Therefore, Deputy Mayor ni declined the drink and ordered the fruit juice directly. Since the leader took the lead, others naturally followed suit. The prepared Drunken Eight Immortals was suddenly out of the market.

Chapter 1830: Taking the medicine again (2)

After the luncheon, Deputy Mayor ni and the others also took their leave. These leaders' daily schedules were very tight. They could attend the ceremony and the thank – you luncheon, but they might have postponed several meetings.

The employees returned to the Paradise building and began their real relocation.

Of course, in reality, many things were already in place in the early stages. This time, the main thing was to put some personal items in place, then clean up the work desk. The most important thing was to straighten out the working relationship.

After Xia ruofei sent Deputy – Mayor ni and the others away, he said to Feng Jing, ""Sister che, I'll head back to the farm first. You guys have to keep an eye on this place. It might be a little chaotic for the next few days, but I believe that everyone will adapt to the new environment very quickly."

"Aren't you going to take a look at the new headquarters?" Feng Jing asked.

"I've watched it a few times, but there's nothing to see." Xia ruofei laughed and said, "I have something to do. I'll come back tomorrow!"

Feng Rao immediately understood and said with a smile, "I know, I still have a pretty girlfriend waiting at home! No wonder he's so eager to go home ..."

There was a tinge of jealousy in her words, but Feng Rao didn't notice it.

Xia ruofei touched his nose awkwardly and said, ""I really do have something else to do when I get back ... By the way, how do you plan to settle your residence? It's a little inconvenient to live on the farm. "

Feng Rao rolled her eyes at Xia ruofei and said, ""Can you not change the topic so abruptly?"

However, since Xia ruofei had asked, she answered seriously, ""I should still be living on the farm in the short term! After all, I've already gotten used to living there, and the company has arranged a bus, plus the executives will be getting a car soon. If I really work late, I can sleep in the office. There's no need to find a place to stay. "

Although Feng Jing's office was not as big as Xia ruofei's, it still took up half a floor. Other than the spacious office space, there was also a large suite as a lounge. It would not be a problem for her to live here.

However, an office was still an office. Xia ruofei felt that it was not appropriate to stay here for a long time.

"If you live on the farm, you have to commute for one to two hours every day!" Xia ruofei suggested, "why don't we buy a house in the city? I'll pay for it, and I'll deduct it from your bonus at the end of the year!"

"We'll see!" Feng Jing wasn't in high spirits. "Don't you live on the farm too?"

Xia ruofei chuckled. "I don't plan to come to the peach blossom mansion every day. But I might buy a property in the city."

At this point, Xia ruofei had an idea and said, ""Why don't we buy a residential area?"

When Xia ruofei said this, Feng Jing was slightly happy. However, what Xia ruofei said next made her roll her eyes ...

Xia ruofei said, "Qingxue said that there's a villa for sale in her neighborhood. I'll go and find out if there are any other villas for sale. Why don't we each take one? you're the CEO of a company, after all. You can't live in a place that's too shabby!" Otherwise, people will say that I'm mistreating you!"

"We'll talk about it in the future!" Feng Rao said unhappily. I don't want to move for the time being ..."

After saying that, she turned around and walked towards the bus that was waiting outside the hotel.

Xia ruofei was a little confused. He muttered to himself, ""Why are you suddenly angry?"

Dong Yun had been at the side the whole time. She held back her laughter and looked at Xia ruofei, who had just realized something. She said, "Chairman, President Feng is not angry ..."

"If you're not angry, then what are you?" Xia ruofei was even more confused.

Dong Yun sighed and didn't continue on this topic. Instead, she said, "Chairman, since you're not going to the headquarters later, I'll report to you some of the recent arrangements!"

Xia ruofei thought for a while and said, "let's talk while we walk!" My car's over there, and the headquarters isn't far from here. I'll send you there first ..."

The driver for Xia ruofei today was still Xie Bing from the security Department. Recently, he had been protecting Xia ruofei regularly, and Xia ruofei had been driving less and less.

After Xia ruofei got into the car, Xie Bing asked, ""President Xia, are you going back to the farm?"

"Let's go to the company's headquarters first," Xia ruofei said, "go back to the farm after sending CEO Dong back."

"Yes!" Xie Bing replied and started the car steadily.

"President, the car purchase and the expansion of the security Department, including the recruitment of drivers, are all being carried out at the same time," said Dong Yun. "But it may take some time for them to be in place." At present, we have calculated that there are about 20 employees still living on the farm, so we need to send a bus every morning and night. We have already talked about a bus that will be responsible for sending and sending them every day."

Xia ruofei nodded and said, "yes, you can arrange these things." Also, the rental Allowance for the employees had to be paid as soon as possible, and it had to be reflected in next month's salary. Young people don't have high salaries, and our headquarters is in the city center. The rent nearby is not cheap, so it's not a small expense for them. We have to quickly implement the benefits that they should have. "

"I understand! The finance department is already doing the calculations and auditing. The employees who meet the requirements for next month's salary will be able to receive the rental Allowance. " Dong Yun said.

Then, Dong Yun reported to Xia ruofei about other work arrangements, all of which were related to the daily management of the company. Although it did not seem like a big deal, the company had just moved to the new headquarters and there were some details that had to be paid attention to. Hence, Xia ruofei listened attentively.

It was obvious that Dong Yun was a capable person. No wonder Feng Jing strongly recommended her as the Vice President. Of course, she was only showing her ability in management. The Vice President had a wider range of work to be responsible for, and it was still to be seen if she could do it.

The Shangri – La hotel wasn't far from the company's headquarters, and the car soon arrived at the Tao Yuan building.

"Chairman, that's basically what I have to report." Dong Yun said, "I-I'll go up first!"

Xia ruofei smiled and nodded. "Mm! Everyone has worked hard these past few days, especially you, President Dong. You've really worked hard. After the company's headquarters has stabilized, you can take a few days off!"

"I won't feel tired doing the work I like!" Dong Yun said with a smile. Chairman, I don't need to rest ..."

She got out of the car, waved at Xia ruofei, and walked into the building.

Xia ruofei couldn't help but shake his head. The female generals in the company were all capable and capable, and they were all strong women. He was really worried that they would not be able to get married ...

"Xie Bing, let's go back to the farm!" Xia ruofei said.

"Alright, director Xia!" Xie Bing said.

When the Knight XV entered the gate of the farm, Xia ruofei started to get excited.

Xia Qing had already finished brewing the Chinese medicine, and Ling Qingxue could take the second dose today. Xia ruofei had paid a huge price for this Chinese medicine, which used heart – concentrating grass as the main ingredient. How effective it would be would depend on this.

If Xia ruofei was not satisfied with the improvement in his cultivation talent, then that was the only way. Although the heart – concentrating grass did not have any resistance, the effects would only get worse if he continued to consume it.

Otherwise, one's talent could be improved infinitely as long as one kept taking the heart – concentrating herb. This was not in line with the laws of heaven. Of course, the heart – concentrating herb was very rare, and a 'prodigal' like Xia ruofei was even more rare.

After returning to the villa, Xie Bing drove the Knight XV to the security station on the farm to wash the car while Xia ruofei walked in.

He used his mental power to scan the area and found that Ling Qingxue was taking a nap in her bedroom upstairs. This was even better. He didn't have to explain how he went out to attend the moving ceremony, and then come back with the finished medicine.

Xia ruofei took out the bowl of medicine that Xia Qing had brewed from the medium. He also took out the dregs of the medicine and threw them into the rubbish bin in the kitchen. Then, he took the bowl of medicine and walked upstairs.
