

## God tier Farm 1851

### Chapter 1851: First voyage (1)

Li Yifu immediately asked, "great uncle – Master, may I ask if you have any other requirements for the configuration and interior of this plane?" Gulfstream's Account Manager has also come to San Shan at random this time. We can let them make changes according to your needs at any time. "

Xia ruofei shrugged. "I don't have high expectations in this aspect. I feel that it's pretty good now!"

Then, he turned to Ling Qingxue and asked, ""Qingxue, what about you? If there's anything you need, just tell me!"

Ling Qingxue chuckled. "What request could I have? this plane is all top notch. The interior feels pretty good too. It's going to be troublesome to make changes here and there ..."

"That's it then!" Xia ruofei nodded.

"Alright, martial granduncle!" Li Yifu quickly replied. "I'll go and handle the procedures immediately. It might take about a week! But during this period, if you need to use an airplane, there's no problem!"

This plane was still under the Kyushu group's name, and the ownership would be changed to Xia ruofei's. It involved cross – border transactions, and there were many procedures, including customs declaration, tax payment, and so on. It was already quite fast to complete it in a week.

Li Yifu thought for a moment and said, "by the way, Grand – martial uncle, I suggest that the ownership of this plane is still under the name of your paradise Corporation. It can be considered as a purchase under the company's name. This way, you can also get a tax discount." Of course, if your company's equity structure ..."

"Then put it under the company's name!" Xia ruofei said, waving his hand.

Li Yifu only had to remind Xia ruofei a little and he understood. If this plane was bought by the Paradise Corporation, the money used to buy the plane would be considered an expense of the company. This would allow a portion of the tax to be refunded. Of course, there would be a certain amount of money needed to be used for the purchase of the plane, and Li Yifu would naturally take care of it.

This was a reasonable way to avoid taxes. Xia ruofei naturally would not reject it.

As for the equity structure, Xia ruofei owned almost all of paradise Corporation, except for Feng Jing who had a small share. Naturally, Xia ruofei would not be stingy with Feng Jing's money.

"Alright!" Li Yifu immediately replied. "Martial granduncle, then leave the rest to this disciple!"

Xia ruofei nodded and said, "you're very thoughtful."

"Oh right, how did you arrange the flight crew?" he asked.

Li Yifu replied, "Grand – martial uncle, they're considered employees of our Kyushu group's Southeast Branch. The company has provided them with long – term accommodation in the three mountains. This team is at your service. They can be on call at any time."

Xia ruofei frowned. "I only fly a few times a year. Isn't this a bit of a waste?" he said.

The annual salary of two experienced pilots and three air stewardesses working in a private business plane was not a small amount. In addition, they had to provide accommodation for them. Most importantly, the wastage of resources was too serious, which meant that the team was idle most of the time and had nothing to do.

Xia ruofei thought for a while and said, "Isn't there a private jet company now?" "They can provide a plane management service, and when there's a need for use, the company will send pilots and air Service personnel, and charge by the time ..."

"Martial granduncle, I'm not at ease to use the pilots from these companies," said Li Yifu quickly. Your safety is the most important. It won't cost much to raise such a team, so you don't have to worry about it!"

In fact, buying an aircraft was just the beginning of the expenses. After the aircraft was delivered, the aircraft owner would have a lot of expenses every day. Even if the aircraft was parked at the airport without moving, the salary of the flight crew, space rent, maintenance fees, and so on were not what ordinary people could afford.

There was a very heart – wrenching saying, "even if a rich person gave you a plane, you would definitely not be able to afford it."

Of course, Xia ruofei did not have such a problem. One reason was that he could definitely afford it. Another reason was that he did not actually need to do so. Li Yifu would pay for all the expenses.

Xia ruofei thought that since he had already accepted the plane, he didn't care about the millions of team fees every year. So, he didn't dwell on this issue and nodded. "Alright! I'll follow your arrangements!"

"Yes, martial granduncle!" Li Yifu was overjoyed. He then asked, "Grand uncle – Master, do you want to ask them to apply for a temporary flight route so that you and Grand aunt can try out this plane?"

Xia ruofei looked at Ling Qingxue and asked, "Qingxue, what do you think?"

Ling Qingxue was a little moved when she heard that. She asked, "Wouldn't it be too much trouble? I heard it's quite complicated to apply for a flight route ..."

"No, no!" Li Yifu quickly replied. Actually, I've already reported it in advance. As long as you apply, it will definitely be approved within half an hour!"

Li Yifu was very meticulous. Before he came, he had already considered letting Xia ruofei try out the plane himself. Hence, he had asked the crew to apply for a temporary route. In fact, it was just a take – off and landing. Of course, after the take – off, it would circle the sky above Donghai.

The flight route had already been reported, and he could apply for it directly when needed. In addition, he had also made use of his connections in advance, so he could naturally approve it very quickly.

Xia ruofei thought for a while and nodded."In that case, let's take a flight!"

Li Yifu was overjoyed and immediately took out his mobile phone to call the flight crew waiting on the tarmac.

## **Chapter 1852: The first voyage (2)**

Soon, the flight crew boarded the plane, and yang Wanxin, the Vice President of the airport Group, tactfully took his leave.

Li Yifu introduced them with a smile,"Mr. Xia, this is Captain Liu An, and the one beside him is Captain Zheng Daming. Both of you used to work at the Kester public jet company in the United States. You are the Ace pilots of their company. I specially poached you with a high salary."

The two pilots quickly said a few words of humility.

Their technology was indeed impressive, but in front of a billionaire like Li Yifu, they naturally didn't dare to show off.

Xia ruofei nodded at the two of them gently.

Li Yifu then said to the two of them,"Captain Liu, Captain Zheng, you will have to serve Mr. Xia from now on. If Mr. Xia has any requests in terms of flight, you must do your best to meet them. Ensure the safety and efficiency of the flight!"

The two pilots quickly nodded and expressed their stance. In fact, they already knew before they came that they would be working in China for a long time. They were not against it because Li Yifu offered them twice the salary in the United States and very good supporting benefits. Who would not be able to get by with money in this day and age?

Besides, although the two were American nationals, they were not "Banana Men" born in the United States. They only went to the United States later. They also had many relatives and friends in China, so they were not uncomfortable with Chinese society at all.

"Mr. Xia," Li Yifu continued,"although the two pilots work in the United States and are also American nationals, their Chinese is very fluent. There won't be any problems communicating with them."

Xia ruofei smiled and nodded.""You've considered it very carefully. "

Then, he said to Liu An and Zheng Daming half – jokingly,""Pilots, I'll leave the safety of the flight to you two in the future. My fate is in your hands!"

Liu An's experience was relatively older than Zheng Daming's, and the flight duration of the Bay stream was also longer than Zheng Daming's. Therefore, in this dual – Pilot configuration, he was the captain, and Zheng Daming was the co – Pilot.

Hence, after hearing Xia ruofei's words, Liu An immediately said,""Mr. Xia, don't worry! The Gulfstream aircraft's safety performance is even better than that of a commercial plane. Moreover, the total flight

time of the two of us on the Gulfstream series aircraft is over 10000 hours. We will definitely do our best to ensure flight safety. ”

On the side, Zheng Da Ming also smiled and said, ”To be honest, we’ve both heard of Mr. Xia’s name like thunder! The epic descent not long ago has already spread to everyone in the flying circle. Including us old Fei, we all admire Mr. Xia a lot!”

Xia ruofei chuckled, ”I’m just trying to push the duck onto the rack. I can’t be compared to you two in terms of professionalism!” However, if I have time, I can consider getting a private jet driver’s license. ”

”Mr. Xia’s flying talent is beyond doubt. If you learn to fly, I believe you will be able to pass very quickly.” Zheng Da Ming flattered at the right time.

Li Yifu saw that Xia ruofei and the two pilots were chatting very harmoniously and was very happy.

”Have you applied for the flight route?” he asked.

”I’ve already reported it!” Liu An quickly replied, ”it should be approved soon! Mr. Li, Mr. Xia, we’ll go get ready for flight!”

Xia ruofei smiled and nodded. ””Thank you for your hard work!”

”You’re welcome, this is our job!” Liu An quickly said.

Then, he and Zheng Da Ming nodded at Li Yifu and Xia ruofei and strode towards the cockpit.

Li Yifu was right. When the flight attendant closed the door and the preparations in the cockpit were almost done, the flight route application was approved, and they soon received the order to slide out.

After the plane was pushed back a little, it steadily drove on the runway.

After waiting for a while at the runway, a Boeing 747 landed and left the runway. The Gulfstream G650 was allowed to enter the runway and take off.

Xia ruofei, Ling Qingxue, and the rest put on their seatbelts. The three air stewardesses stopped their service and returned to the front cabin to sit down and put on their seatbelts.

The plane turned nimbly onto the runway and did not stop. After adjusting the nose of the plane, it began to accelerate.

With a strong push, the plane jumped lightly and took off steadily.

Then, the plane began to rise rapidly.

The Gulfstream plane’s cruising altitude was higher than that of the general civil aircraft, and it would fly more stably at that altitude.

However, today was the day of the take – off and landing, so the plane did not climb to the cruising altitude. It was flat before it entered the clouds, then it made a turn in the air and flew in the direction of the sea.

This was also designed in advance. If they flew into the clouds, there would be nothing but a sea of clouds below, and they would not be able to enjoy any scenery at all.

It was not Ling Qingxue's first time flying, but it was her first time in such a luxurious private business jet. She looked at the scenery outside the porthole with excitement.

Sanshan airport was by the sea, so the plane quickly arrived above the sea.

Today's weather was good. From this height, the ships on the sea were only the size of matchboxes. They could clearly see the ship dragging a white track. There were some small sailboats in the distance, which were even smaller, almost as small as white spots.

The entire dark blue background was dotted with ships of all sizes, which looked very spectacular.

After the plane was level, the flight attendants began to perform their duties and served exquisite pastries and fragrant red wine.

Xia ruofei sat on the soft leather seat and raised his glass to Li Yifu. He smiled and said, "Foster husband, this plane is really good! He had thought that such a small plane would be a little bumpy when flying, but he didn't expect it to be even more stable than a large commercial plane. And the noise control is very good, much less than a commercial plane!"

Li Yifu quickly raised his glass and said, "It's good that Mr. Xia likes it!"

This was not the first flight of the plane, but it was the first flight in the true sense since Xia ruofei took over.

After flying in the sky for about 20 minutes, the plane started to descend slowly. It drew a beautiful arc over the sea and flew towards the airport.

Ten minutes later, the Gulfstream G650 landed lightly on the runway of Sanshan airport. The landing process was very smooth, and the red wine on the table did not shake at all. It seemed that the performance of this plane was indeed quite good. Otherwise, it would not have been the first choice of so many rich people.

Of course, this was also inseparable from the superb skills of the two pilots.

The plane left the runway and returned to the parking spot along the runway. The test flight was successfully over.

Xia ruofei and Ling Qingxue both felt that it was not enough, but today was just a test flight. In the future, they could use this plane whenever they needed it, so Xia ruofei was quite satisfied with this first flight.

He personally went to the control cabin to express his gratitude to the two pilots, then stepped off the plane with Ling Qingxue and Li Yifu.

As for the flight crew, they still had to stay behind to do some post-flight work. Their food and living arrangements were naturally arranged by the staff of the Kyushu group's Southeast Branch, so Xia ruofei did not need to worry about it.

The group left the tarmac on the shuttle bus.

Xia ruofei said to Li Yifu, "Yifu, please send us back to the farm first!" Also, if you have any questions about cultivation, feel free to ask. I'll try my best to answer them. "

"Thank you, senior granduncle!" Li Yifu said excitedly.

Now, as long as there were no outsiders around, Li Yifu had to respectfully address Xia ruofei as "senior granduncle".

Li Yifu had come all the way to Huaxia. Naturally, Xia ruofei would not let him make a wasted trip. It was easy for him to give him a few pointers on cultivation.

Of course, Xia ruofei would definitely not let Li Yifu stay in Tao Yuan farm's Xuanji. Even if Ling Qingxue was going back today, she would still come back to the farm soon. He still had to cultivate with Ling Qingxue! What's the deal with an old man joining their two – person world?

Therefore, he only needed to give a few pointers and then let Li Yifu go back to the city to stay in a hotel.

### **Chapter 1853: Imparting knowledge and answering questions (1)**

After returning to Taoyuan farm, Xia ruofei said to Li Yifu, "Foster husband, during this period of time, you can tell me if there are any problems with your cultivation. I will try my best to answer them for you."

"Many thanks, grand uncle – Master!" Li Yifu said gratefully.

Since it was related to cultivation, Li Yifu didn't try to be polite. He immediately voiced out some of the questions that had been bothering him.

The Guiyuan Scripture that Li Yifu cultivated was born out of the Guiyuan true Scripture, or to be more precise, it was the defective version of the Guiyuan true Scripture.

Xia ruofei had already imprinted the original "Guiyuan Scripture" into his mind through the inheritance of the Jade talisman. Although he had never tried to cultivate it, he had a deep understanding of this technique after spending some time. After all, this inheritance not only contained the content of the technique but also some cultivation experience of predecessors.

Some of Li Yifu's questions were due to his incomplete martial arts techniques, which led to a deviation in his understanding. Some were because his own comprehension had not reached that level yet. Xia ruofei could basically answer these questions easily.

From Li Yifu's point of view, Xia ruofei's seemingly simple words could make him feel enlightened. After a long talk, Li Yifu felt that he had benefited a lot, which was better than if he had immersed himself in cultivation for a month.

His heart was naturally filled with gratitude.

While Xia ruofei was giving Li Yifu pointers, Ling Qingxue was also listening with interest. The ultimate truth of heaven and earth was the same, and she had some vague feelings about it. However, the time she had been exposed to cultivation was too short. In addition, she had only cultivated the "absolute

beginning Heart Sutra” and had not dabbled in other cultivation techniques. Thus, she had not been able to comprehend anything by analogy, so she did not gain much.

Even so, Ling Qingxue still felt that when Xia ruofei was teaching Li Yifu, she was mesmerized by the spirit that he exuded. At the same time, she also felt that the path of cultivation was vast and profound.

Li Yifu stood up and bowed deeply to Xia ruofei. He said from the bottom of his heart, “Martial granduncle’s words are better than this disciple’s ten years of hard practice! This disciple thanks martial granduncle for your kindness in teaching!”

Xia ruofei accepted the bow and smiled. “Foster husband, now that you have a spiritual crystal in your hand, you shouldn’t have any bottlenecks in your cultivation in the short term. I suggest you return to the United States as soon as possible and cultivate in seclusion for a while. You’ll definitely make a breakthrough!”

“I’ll take care of the things in China and return to the United States immediately!” Li Yifu said respectfully.

In fact, Li Yifu did not care much about business matters. This trip was mainly for Xia ruofei. However, he had sent an aircraft to Xia ruofei this time. He still had to stay behind to deal with the ownership transfer of the aircraft and the rental of the airport space. As the aircraft was Xia ruofei’s, he would not feel at ease if it was left to someone else.

Then, Li Yifu said, “martial granduncle, this disciple will take his leave!” I’ll come back to say goodbye to you before I return to the United States!”

Xia ruofei nodded. “Alright, I won’t keep you here. Go back and cultivate!”

“Disciple will take his leave!” Li Yifu bowed to Xia ruofei, then turned around and left the villa.

When they heard the sound of the car driving away, Ling Qingxue finally said to Xia ruofei, “Ruofei, someone gave you a plane and you didn’t even ask him to stay for a meal?”

It was almost lunchtime. Ling Qingxue thought that Xia ruofei would at least ask Li Yifu to stay for a meal or at least be polite. She did not expect Xia ruofei to let Li Yifu leave without even putting on a show.

Xia ruofei shrugged and said, “why should we keep him for dinner?” Everyone felt uncomfortable, right? And ... If they wanted to eat, someone had to cook, right? If I were to cook, would my foster husband dare to stay idle by the side? If he were to cook, hehe ... I can’t guarantee what he’ll do.”

Li Yifu looked like he had been pampered since he was a child, and after he started cultivating, he would not come into contact with cooking. He might be very capable, but he might not know how to cook.

Ling Qingxue was stunned for a moment. She smiled bitterly and said, “Now that you’ve put it that way, it does make a little bit of sense!”

Xia ruofei chuckled and said, “it’s very reasonable, okay?” Besides, as my Grand disciple, what’s wrong with him giving me a plane? Even if we didn’t have this relationship, I would still have given him a gift! And it’s worth far more than an Airplane!”

When Xia ruofei said this, Ling Qingxue also remembered this. She clicked her tongue and said, ""Ruofei, if Li Yifu didn't tell me today, I wouldn't have known that the spiritual crystal was so precious ... Isn't it a waste for you to give it to me for cultivation?"

Xia ruofei laughed and said, "spiritual crystals are meant for cultivation!" How could it be wasted? Besides, you're my wife. No matter how good it is, it's not a waste to use it on you!"

Ling Qingxue felt a surge of warmth in her heart when she heard that. She looked at Xia ruofei with tenderness and love.

Xia ruofei chuckled and continued, ""Don't worry! I still have a few of these spirit crystals. Just focus on your cultivation and don't worry about resources!"

"En!" Ling Qingxue nodded and said, "RUO Fei, you're so good to me!"

"Hehe, I'm so good to you, shouldn't you reward me?" Xia ruofei asked with an evil smile.

Ling Qingxue saw the look in Xia ruofei's eyes and knew what he was thinking. She couldn't help but blush and said in a low voice, "Quickly go and cook! I'm so hungry!"

## **Chapter 1854: Imparting knowledge and answering questions (2)**

"Yes, sir!" Xia ruofei immediately replied.

Then, he walked quickly to the kitchen. Ling Qingxue was about to sit on the sofa in the living room to rest when Xia ruofei immediately popped his head out of the kitchen and asked with a smile, ""Wife, after dinner, do you think it's okay to do some exercise to digest your food?"

Ling Qingxue blushed and said, ""Let's see if your cooking skills can move me ..."

"Wife, just wait and see!" Xia ruofei's heart skipped a beat.

.....

He did not know if Ling Qingxue was satisfied with Xia ruofei's cooking, but he was sure that Ling Qingxue was quite satisfied with that "after – meal exercise". It could be seen from the fragrant sweat on her forehead and the flush on her cheeks.

She curled up in Xia ruofei's arms and said reluctantly, ""Ruofei, I have to go back today ..."

Xia ruofei caressed Ling Qingxue's smooth shoulders and said, ""I'll just go back for a day or two and come back! Remember to tell uncle Ling to find a professional team of managers to manage the company as soon as possible. That way, you can get away from the complicated work. Didn't my adopted husband give me a Gulfstream? When the time comes, you can take a long vacation and we'll travel around the world on a private jet!"

Ling Qingxue's heart was filled with anticipation as she said, ""Mm! I'll try my best to convince my dad ..."

The two of them slept in each other's arms for a while and only got up at four in the afternoon. Ling Qingxue washed up and dressed up, then walked to Xia ruofei and said softly, "Ruofei, I'll be leaving then ..."

Xia ruofei cupped Ling Qingxue's face in his hands and kissed her tender red lips. He said, "Mm! Be careful when you drive ..."

The two of them held hands and went downstairs. Xia ruofei handed Ling Qingxue a paper bag that he had already prepared and said, "This is for your future father – in – Law."

Ling Qingxue opened the paper bag and took a look. Inside were two bottles of expensive rotten wine and a box of Dahongpao tea leaves.

She nodded. "Sure. Everything you've brought out is good stuff. He'll definitely like it!"

"I have to curry favor with my father – in – Law!" Xia ruofei laughed and said, "generally speaking, in the eyes of the Father – in – Law, the son – in – Law is a robber who stole his treasure ..."

"It's not that exaggerated ..." Ling Qingxue pouted.

Xia ruofei suddenly thought of a joke and laughed. "You don't say. I saw a passage a few days ago, and it was quite appropriate ..."

"What did he say?" Ling Qingxue asked curiously.

Xia ruofei thought for a while and said, "they say that raising a daughter is like planting a pot of rare flowers. You have to be careful and take care of her. You're afraid of the sun on sunny days and the rain on rainy days. You're afraid of the summer heat and the winter cold. You've worried your heart and looked forward to it so much. Finally, the flowers bloomed and stunned everyone, but they were taken away by a man called son – in – Law!"

After Ling Qingxue heard this, she held her stomach and laughed out loud. "Where did you learn all this nonsense from? By the way, what about raising a son?"

"There's also a son!" Xia ruofei said, "it's said that raising a son is similar to playing a game. You create an account, come up with a name, and start to level up. You keep throwing money ... Throwing money ... Throwing money ... You level up every year. When you level up and have amazing equipment, your account was hacked by someone called daughter – in – Law!"

"Hahaha!" Ling Qingxue laughed so hard that she couldn't even straighten her back.

Xia ruofei said with a serious face, "you can try to use my account!" My parents "spirits in heaven will be so happy to see me find such a beautiful wife ..."

Ling Qingxue then remembered that Xia ruofei's closest family members were no longer around. In reality, he was all alone. She could not help but hug Xia ruofei and said softly, "Ruofei, no matter what happens, I will always be by your side!"

Xia ruofei saw that Ling Qingxue's eyes were a little red. He smiled and pinched her cheek. "Weren't you telling a joke? Why did you start crying?"

Ling Qingxue's face heated up slightly as she said, "Isn't it all your fault?"

Then, she left Xia ruofei's arms and said, "I'm leaving!"

Xia ruofei sent Ling Qingxue to the door with a smile and watched her drive away. Then, he returned to the villa.

Xia ruofei remembered that he had not entered the origin space for a long time. As he had been with Ling Qingxue these few days, it had not been convenient for him to do things. Now that he finally had some time alone, he went to the bedroom upstairs, locked the door and windows, summoned the spirit map space, and entered it with a thought.

It was still the familiar refreshing air and the dense spiritual Qi that had already turned into mist. Xia ruofei could not help but feel refreshed in this environment.

He could sense that Xia Qing was in the mountain and sea realm, and so with a flash, he appeared beside her.

What came into view was a paddy field. Green rice seedlings had already been planted in the paddy field. The rows of seedlings were straight, and each seedling looked very lively.

Beside the paddy field, there was a simple water channel that drew in the irrigation water from the big River at the foot of the mountain.

"Master!" When Xia Qing saw Xia ruofei, she quickly bowed and greeted him.

Xia ruofei nodded. "You're done so quickly. You're very efficient!"

"Growing seedlings is done at the Archean realm," Xia Qing said. "It saves time. Opening up a paddy field is actually very easy ..."

Xia ruofei praised, "well done!" I couldn't tell that you had such a talent for farming! You have to take good care of these two mu of land. Whether I can eat high – Quality rice or not, it's all up to you!"

"Yes, master!" Xia Qing immediately said, "this subordinate will definitely do her best!"

In fact, rice didn't need to be taken care of, and there were no pests in this space. Moreover, the spirit Qi in the environment was so strong that the water used to irrigate the rice was the same as the water in the spirit pool. Basically, after planting the rice, they just had to wait for the harvest.

Xia Qing continued, "in order to let master eat the rice produced in the spirit map world as soon as possible, I have also opened up a small paddy field in the Archean realm. The first batch of rice should be produced in a few days. However, due to the limited space, the production rate might not be too high."

The rice that Xia ruofei had bought would take about five months to ripen. At the Archean realm, time passed 30 times faster, so it would only take five to six days to ripen.

However, the space at the Archean realm was too small, so it was impossible to plant them on a large scale. It was only enough for Xia ruofei to try out the new ones.

Hearing this, Xia ruofei was very happy.””Not bad, not bad! Inform me immediately when the time comes!”

“Yes, master!” Xia Qing said.

Xia ruofei looked around and asked,”did that realm Fox cause any trouble recently?”

Xia Qing laughed and said,”it hasn’t moved for a long time. It seems that it has a new understanding of the spatial rules. Perhaps it is about to make a breakthrough!”

Xia ruofei said,”we can’t keep it for nothing. We have to let it do some work!” Let me know when it’s done with its cultivation!”

The biggest help that the realm Fox could provide Xia ruofei was naturally to find the realm stone. It was extremely sensitive to the realm stone. With it, it was like having a super radar that was specifically used to find the realm stone.

The upgrade of the space could not be done without the world stones. Xia ruofei was prepared to bring the White world Fox Around the World when he had some free time. He hoped to collect as many world stones as possible to provide the spirit map space for the breakthrough.

“Understood!” Xia Qing replied calmly.

Next, Xia ruofei patrolled around his personal territory, including the spirit map Island in the realm heart. He took the motorboat and patrolled around. All sorts of precious crops were growing well, and the entire realm was thriving.

After he was done, Xia ruofei bade Xia Qing farewell and left the medium, keeping the spirit map scroll.

After returning to the outside world, Xia ruofei picked up the phone on the table and realized that there was a missed call from Song Wei.

He couldn’t help but feel a sense of guilt. He had been busy helping Ling Qingxue with her cultivation for the past few days and had barely contacted Song Wei. After all, it wasn’t convenient for him to contact her with Ling Qingxue by his side.

With a slight sense of guilt, Xia ruofei immediately called back.

### **Chapter 1855: Expansion plan (1)**

The call went through very quickly. Song Wei’s voice was filled with joy, but at the same time, she seemed to be a little nervous. She asked softly,”I hope I’m not disturbing you?”

Xia ruofei said,”how can that be?” I muted my phone just now, so I didn’t hear your call ... Weiwei, how have you been these past few days?”

Song Wei was a little shy as she said, “I’m fine, but ... I miss you a little!”

Xia ruofei’s heart skipped a beat and he said,””I missed you too!”

“How’s sister Qingxue’s cultivation going?” Song Wei asked.

This was what she was most concerned about, and it was also the main reason why she couldn't help but call him today.

Speaking of Ling Qingxue's cultivation, Xia ruofei could not help but smile. "It's very smooth! Qingxue's talent is pretty good. We've already had a joint training session, and her cultivation level is probably in the middle of Qi disciple Level 1. If nothing goes wrong, she should be able to break through to Qi disciple Level 2 very soon."

"That's great!" Song Wei said happily.

She was happy for Ling Qingxue from the bottom of her heart, but she couldn't help but feel a little sour in her heart. Of course, she quickly adjusted her state of mind.

After all, she was a latecomer to this relationship. Moreover, Ling Qingxue was still kept in the dark about this matter. She was also filled with guilt towards Ling Qingxue, so she had adjusted her mentality quite well.

"Then, you should spend the time accompanying sister Qingxue in her cultivation!" Song Wei continued.

Xia ruofei nodded and said, "yes!" You have to take care of yourself in Beijing. If you have any problems, you can go to song Rui or brother Zhao!"

In fact, Song Wei herself was quite famous in the circle of the second generation in Beijing. Basically, there was no problem that she couldn't solve. However, Xia ruofei's concern for her still made her happy.

"Okay, I know!" Song Wei said softly.

"That's right!" Xia ruofei thought of the Gulfstream G650 that Li Yifu had given him. He smiled and said, "when do you have a holiday? I'll go on a trip with you! Someone gave me a private jet today."

On the other end of the phone, Song Wei couldn't help but burst out laughing. She pouted and said, "Even if you want to brag, you should at least make a draft! Could it be a toy plane?"

Xia ruofei said innocently, "I'm not bragging!" It's really a private jet. You know the Gulfstream G650, right? Ali's old Ma, jingbei's old Liu, and the richest man, old Wang, all use Gulfstream series buggers!"

Of course, Song Wei did not believe him. She smiled and asked, "Are you trying to say that someone gave you a Gulfstream G650 today?"

"Yeah! You believe me now?" Xia ruofei said.

"Believe my a \* s!" "He just gave someone a private jet worth hundreds of millions. Even the richest man in the world wouldn't be so generous!" Song Wei said.

"Weiwei, I'm telling the truth!" Xia ruofei didn't know whether to laugh or cry. "It's fine if you don't believe me. I'll definitely go to the clubhouse after the proposal is confirmed. You'll see it with your own eyes and believe me, right?"

Seeing that Xia ruofei was speaking as if he was telling the truth, Song Wei could not help but mumble, "You're really not joking?"

"I've always been serious, okay?" Xia ruofei said, "you're the one who keeps interrupting ..."

"Okay, okay, okay, it's my fault!" Song Wei laughed. Then tell me in detail, which rich man was brainwashed by you?"

Xia ruofei couldn't help but roll his eyes. In the morning, Ling Qingxue had also said that Li Yifu had been brainwashed by him. Now, Song Wei actually said the same thing. These two people really had some tacit understanding! It seemed that they could become good sisters in the future ...

Xia ruofei's thoughts wandered, and as a result, he didn't speak for a long time.

"Hey!" Song Wei could not help but ask. Why aren't you saying anything? Don't tell me you made it up on the spot?"

Xia ruofei quickly said, "I've told you that I'm serious. Actually ... The person who gave me the plane is really rich. However, this has nothing to do with how rich he is. The main reason is that he is also a cultivator."

Song Wei's interest was piqued and she quickly asked.

Xia ruofei explained his relationship with Li Yifu, including the fact that he gave Li Yifu guidance and gave him a spiritual crystal.

In the end, Xia ruofei said, "it's just this. He insisted on giving it to me. I had no choice but to accept it." But to be honest, money isn't really that important to cultivators, especially when wealth reaches a certain level. It's just a number, and many precious cultivation resources can't be bought with money. "

"If you put it that way, I can understand ..." Song Wei said, feeling the same.

Then, she said with interest, "I didn't expect you to be so senior!"

Xia ruofei laughed and said, "of course!" You didn't see the expression on Qingxue's face when my adopted husband called her martial grandmother today ..."

At this point, Xia ruofei suddenly stopped. He realized that it was not appropriate to say these things in front of Song Wei.

However, Song Wei didn't seem to be unhappy at all. Instead, she smiled and said, "Sister Qingxue must be very embarrassed ..."

Xia ruofei rolled his eyes and said with a smile, "Don't be too smug! The next time I see you, I'll definitely call you that!"

On the other end of the phone, Song Wei shrieked and said, "I don't want to be called that old!"

## **Chapter 1856: Expansion plan (2)**

Xia ruofei couldn't help but laugh.

The two of them chatted for a while more and even said some sweet words. Although the two of them had not been together for a long time and had not been physically intimate, the joint training of their

souls made them feel like a couple who had been together for a long time. They did not feel uncomfortable at all.

For the next two days, Xia ruofei went to work at the company's headquarters.

It was mainly because Ling Qingxue wasn't by his side, and he was bored staying on the farm alone. There were also a lot of things to do at the company recently. Xue Jinshan from the pharmaceutical factory had already ambitiously come up with a plan to build a new factory in the shortest time possible. In addition, Feng Rao had also suggested expanding the farm. After her last visit to Australia, Feng Rao felt that the farm was too small no matter how she looked at it.

Although the vegetable business no longer occupied a large proportion of the Paradise corporation's business, it was a product that was directly targeted at the public. It was very important for Paradise Corporation to maintain a good reputation. Moreover, the profits of Paradise vegetables were also very high.

From this point of view, the importance of Paradise vegetables was second only to the Jade skin cream, which was also targeted at the general public.

Therefore, Feng Jing was very active in the expansion of her farm. She had personally taken the lead and come up with a preliminary plan.

These two matters were related to the company's strategy, so they naturally needed Xia ruofei to make the decision personally.

Now, Xia ruofei was sitting in his spacious and huge office, looking at the two proposals for the pharmaceutical factory and the farm.

It might have been a coincidence, but the two locations were almost connected.

Xue Jinshan inspected many places, and the first place he recommended was about three kilometers West of Taoyuan farm, which was also a wasteland.

Feng Jing's proposal was to continue expanding the farm to the West.

If these two plans were adopted, the pharmaceutical factory's sub – factories would basically be connected to the farm.

Feng Jing had seen the pharmaceutical factory's proposal before. Since she had presented it as it was, it meant that she had no objections.

Xia ruofei closed his eyes and thought about the two plans.

There was no problem with the location being the farm next to the pharmaceutical factory. After all, the Taoyuan pharmaceutical factory produced pure Chinese medicine, and the raw materials were all natural, so it wouldn't affect the surrounding environment.

Moreover, if they were really built together, it would be beneficial for the company's centralized management and linkage.

In terms of budget, it was similar to Xia ruofei's estimation. The total investment for the pharmaceutical factory was about 1.5 billion. Including the money from the land, the start – up capital needed was at least 500 million.

Of course, the land cost was only 70 to 80 million Yuan in the early stage. The majority of it was the purchase of production lines. After all, the production lines were all imported from Germany. The branch factory occupied about 1000 mu, which was much larger than the current pharmaceutical factory. It could accommodate at least 20 production lines, and even the deposit would cost hundreds of millions.

Of course, the profit of the pharmaceutical factory was astonishing. The current supply and demand were still in a state of imbalance, and this was under the situation where they had yet to expand into the overseas market.

Xue Jinshan had estimated that even if all 20 production lines were put into production, the production capacity would only be able to meet the domestic demand. If they were to explore the overseas market, the supply would still be insufficient even if the sub – factories were to go all out.

With the amazing profit of the jade skin cream, it might be possible to recover the investment in a few months.

There was nothing much to say about the farm. As long as the land could be circled out and the vegetable greenhouses and related supporting facilities continued to be built, it would be enough. The investment was relatively small, and ten million Yuan was enough.

If both plans were to be implemented, then they would be faced with two problems: land and money.

With the current cash flow of the Paradise Corporation, it was definitely not enough to start the construction of the sub – Factory, so it was bound to need a loan from the bank.

In terms of land, he naturally had to coordinate with the local government.

Xia ruofei looked at the plan carefully and felt that it was feasible. Moreover, these two plans had been certified by experts, and the experts generally had a supportive attitude, especially for the branch factory of paradise pharmaceutical factory, which was almost a one – sided conclusion.

After all, the Jade skin cream's ability to make money was too strong. In addition, the social effect of the heart – nourishing soup had made the pharmaceutical factory in the limelight for a while. Opening a branch factory at this time was almost a sure – win.

After thinking for a long time, Xia ruofei finally made a decision.

He signed his agreement on the proposal, then immediately gathered Feng Jing, Dong Yun, Xue Jinshan, and the other company executives in his luxurious Chairman – only conference room for a meeting and delegated the tasks.

Xia ruofei asked Feng Jing to contact the bank.

Right now, paradise corporation's current load capacity was zero, and the pharmaceutical factory and other assets were all very good. There was no need to go through any connections, and everything

would be fine as long as they followed the normal procedures. The banks were very happy to provide loans.

The planning of the pharmaceutical factory and the purchase of equipment were naturally handed over to Xue Jinshan.

The planning could be carried out after the land was secured, but the production lines had to be contacted in advance. Since they had ordered so many production lines at once, they should be able to negotiate some discounts. As to how much they could do, it would depend on Xue Jinshan's ability.

As for the land, Xia ruofei decided to handle it himself.

The location chosen by both proposals was within the borders of Changping County. After the meeting, Xia ruofei took out his phone and dialed Wu Liqian's number, which he had not contacted for a long time.

.....

Wu Liqian had not been very happy recently.

As Tian Huilan's Secretary, she had been demoted to the position of the county's Deputy County Head. All aspects of her work had been carried out relatively smoothly. Even if Tian Huilan had been transferred away, her work hadn't been affected much. After all, Tian Huilan hadn't retired from the second line, nor had she fallen from her position. Instead, she had been promoted. Therefore, she wouldn't have been the one to die.

However, after the spring Festival, a new Deputy Secretary came out of nowhere, and her days were not so smooth.

The Deputy Secretary, Liu haojun, was transferred from a certain Ministry in Beijing. He was said to be under 30 years old and was a typical elite. He was obviously here to make a name for himself.

Originally, Wu Liqian and Liu haojun, one on the government's side and the other on the party committee's side, didn't have much interaction in their work. At most, they had some interaction when they were in the Standing Committee.

However, after meeting Wu Liqian a few times, Deputy Secretary Liu started to pursue her openly.

This news quickly spread throughout the system.

It was already rare for two Deputy Division level members to be single. It might still exist in the Ministry in Beijing, but in the most basic level of the county, the impression of the county Leader must be that of a fat middle-aged man. It was almost impossible to have a young and unmarried man like Liu haojun and Wu Liqian.

Therefore, even some of the leaders in the team often joked about the two of them. Liu haojun was naturally happy to do so, but Wu Liqian couldn't bear the disturbance.

Finally, after a meeting with the Standing Committee, Wu Liqian no longer tried to be tactful with Liu haojun, who was not discouraged by his "repeated failures" and still came to ask her out for dinner. She directly rejected Liu haojun in front of the Secretary, the county Head, and other Standing Committee

members. She also told Liu haojun that his behavior had seriously affected his work and hoped that he would conduct himself with dignity.

Liu haojun's face turned dark after being humiliated by Wu Liqian in public. He left with a cold face.

What happened at the Standing Committee quickly spread in the compound. Everyone naturally spread all kinds of gossip. There were even two staff members who were so engrossed in their conversation that they didn't even notice Liu haojun had entered the room. As a result, they were severely reprimanded.

If it were any other Deputy county level leader, perhaps such a thing would not happen. Even if it happened, there might not be any intense reaction. After all, those who could do this were very pure political animals. The first standard for them to weigh the gains and losses must be their own political life.

However, Wu Liqian did not expect Liu haojun to be an exception ...

### **Chapter 1857: A dilemma (1)**

Liu haojun could not be judged with common sense. To be precise, he was not a standard politician.

He came from the Liu family, a prominent family in Beijing. His early development path had been planned by his family, including the National People's Congress, which was known as the cradle of politicians, when he was in University. He quickly took up an important position in the Student Union and won a series of honors.

Of course, this had nothing to do with his personal efforts. On the contrary, the thing he focused on the most during his university days was perhaps picking up girls. With his good looks and prominent family background, he changed more than ten or twenty girlfriends in four years. Some even had abortions done for him several times.

If it wasn't for his family cleaning up the mess for him, he would probably have been expelled from University because of all kinds of love affairs.

After graduating from university, Liu haojun followed the planned route and used a series of "honors" to successfully "enter" a certain Ministry and stay in Beijing to work.

Clerk, clerk, Deputy Section Head, main section Head ... There was an advance for almost every level, and soon he was promoted to Section Chief in a very powerful Department.

If this was in the local area, he would definitely be a bright political star if he was transferred to a major in his twenties after graduating a few years ago. However, in the Department – Level and Department – Level ministries, it was not as obvious.

Of course, this was also what the Liu family wanted to see.

According to his family's plan, Liu haojun should at least be promoted to the chief or Deputy Department in the Ministry before he sought to be demoted. That way, he could directly be a member of the Standing Committee at the level of a Prefecture – Level city. If he was demoted to the Deputy

Department, it was even possible for him to become the second – in – command of a Prefecture – Level city if he operated well.

He might be able to gain more experience in a few more positions in the Ministry, or simply change to another Ministry to enrich his resume, but he would definitely not leave the capital so early.

However, Liu haojun made full use of his “specialty” from his college days. He was not content with his work. Others were like rabbits who did not eat the grass near their nest, but he did not care about meat or vegetables. As a result, he got a young girl who had just graduated more than a year ago pregnant. This young girl was also his subordinate in his department.

Originally, Liu haojun was very familiar with dealing with this kind of thing. He could settle it with some money. He didn’t expect that the little girl was serious. After she got pregnant, she chased after him all day and wanted to get married.

He had also misjudged her. He felt that this little girl did not have any background, but she was still at his mercy. He did not expect Liu haojun to be so unyielding. He was completely unmoved by his threats and promises. When she realized that Liu haojun was just toying with her feelings, this hot girl from Sichuan Province decided to fight to the death and directly caused a scene in her unit.

Liu haojun was caught off guard, and this matter was known to everyone. Even if the Liu family was powerful, it was difficult to suppress this kind of lifestyle problem. After all, it was all out in the open.

As a result, Liu haojun couldn’t stay in the Ministry anymore. Even the other units in Beijing couldn’t operate well. After all, there was a very obvious stain on his reputation.

The Liu family was left with the only option to persuade Liu haojun to be demoted to the grassroots level in advance and keep him away from the capital. After a few years of working at the bottom to gain experience, when the storm slowly subsided, he would be promoted one or two levels in the local area and find an opportunity to be transferred back.

Therefore, Liu haojun was demoted to the southeast province, which was far away from the capital. Because he had been in the Ministry for a few years, he was promoted to the important position of Deputy Secretary of Changping County.

If it were an ordinary person, they might have kept a low profile at the bottom level, worked hard for a few years, got promoted, and then quietly transferred back to the capital.

However, Liu haojun was obviously not an ordinary person. At first, because of the strict instructions of his family elders, he was relatively low – Key. However, not long after he took office, he found out that there was a beautiful woman like Wu Liqian in the team. What was more, she was single. He immediately returned to his old ways.

With the superior attitude of a Beijing cadre, Liu haojun didn’t take this small government office in Changping County seriously at all. Soon, he openly pursued Wu Liqian, and the entire county party Committee and the government office were talking about it.

Liu haojun didn’t expect that Wu Liqian, a female cadre of a “small place”, would be an iceberg. She was completely unmoved by his sweet attacks. When he pressed her harder and harder, she even rejected him in front of the members of the Standing Committee.

Liu haojun had the mentality of hunting for beauties. He wanted to relieve his boring grassroots life. He did not have real feelings for Wu Liqian, so after losing face, he was naturally angry.

After angering Liu haojun, Wu Liqian's life would not be good.

Liu haojun was sent to work in Changping County because his family had some resources in the southeast province. These resources were originally used to help Liu haojun gain some achievements and capital, but he used them to suppress Wu Liqian.

Ever since she had a showdown with Liu haojun at the Standing Committee, Wu Liqian felt that the resistance in her work had suddenly increased a lot.

She was already very used to working in the government, but unknowingly, many things seemed to have gotten out of her control. Even a low – ranking Deputy County Head dared to openly oppose her opinion in the county Head office. Furthermore, he opposed her for the sake of opposing and not out of work considerations.

In addition, a project that Wu Liqian had been following up on to attract investment had inexplicably failed. Both parties had already discussed the specific preferential policies and some details, but the other party's negotiation team suddenly publicly announced that they would temporarily give up the project for the company's strategic considerations. There was no warning at all, and no one even told Wu Liqian.

Originally, once this investment project that involved hundreds of millions was settled in Changping County, it would be another eye – catching achievement during her term. But now, it had become a laughing stock.

At that moment, Wu Liqian's prestige in the Changping County system had dropped to the freezing point.

Wu Liqian sat in her office, her face full of worry. She didn't know why the good situation had suddenly taken a turn for the worse. She had been full of hope for her political career, and Changping County was just a relay station for her to take off. But now, it seemed that this small Changping County was likely to become her wheat city.

In the past two days, Wu Liqian had thought more than once about calling her former leader, Tian Huilan, who was far away in Beijing for help, but she had suppressed this idea time and time again.

Tian Huilan had been kind to her and appreciated her a lot, so before she was transferred, she had arranged for her to be the deputy head of the Changping County, a position that would be easy to achieve.

Now that she was in this state, she felt too ashamed to contact Tian Huilan.

Moreover, Tian Huilan had already been transferred to the capital, so it was hard to say if she could help with this matter. It would be embarrassing if the leader helped her to coordinate things but the matter was not settled.

Just as Wu Liqian was frowning and thinking of a way to break out of this situation, the phone on her desk rang.

Wu Liqian took a deep breath and cleared her mind of all the messy thoughts. She picked up the phone and said in her usual calm voice, "Hello? Who is it?"

"County Head Wu ..." Liu haojun's annoying voice came from the phone. "I heard that there is a seafood restaurant in Zhanggang that serves delicious sea mussels. I have made a reservation for you tonight ..."

"Deputy Secretary Liu!" Wu Liqian interrupted Liu haojun impatiently and said, "I've already made it very clear to you! We're just ordinary colleagues at work. I won't accept any personal invitation from you now, and I will never accept it in the future! I hope you won't disturb me anymore!"

"You're always so cold to people, but I like your personality!" Liu haojun laughed.

Wu Liqian said with a cold face, "boring!" Deputy Secretary Liu, we're not kids anymore. Is there any point in this childish pestering? I hope that you won't call my office in the future. I still have work to do. Goodbye!"

"Wait! County Head Wu, you'd better let me finish!" Liu haojun shouted, "I'm looking for you to eat. It's to talk about work!"

Wu Liqian said coldly, "let's talk about work in the office!" What kind of work are you talking about after work?"

"Hahaha! Is that so?" Liu haojun asked smugly, "regarding the withdrawal of Huanglong group's funds, are we also going to discuss it in your office?"

Wu Liqian's heart skipped a beat. She frowned and asked, "What do you mean by that?"

The Huanglong group was one of the companies that Wu Liqian was planning to bring in to Changping. The initial investment of 700 million was already close to reaching an agreement, but it was withdrawn without any warning, catching Wu Liqian off guard.

"County Head Wu," Liu haojun said with a smile, "whether or not Huanglong group's project can be settled in Changping will all be up to me. CEO Huang even promised me on the phone yesterday that everything will be under my command! Hahaha ..."

Wu Liqian's head buzzed. The doubts she had these days were suddenly solved. The obstacles she had encountered one after another at work were all Liu haojun's doing!

It was not that she had not thought of the possibility of Liu haojun causing trouble, but first of all, Liu haojun had only been in office for a short time, and he was just a demoted official from the capital, so he should not have any Foundation in the local area. Secondly, attracting investment of hundreds of millions of Yuan was a very good thing for the development of Changping County. She felt that Liu haojun wouldn't abandon the development of Changping County just because of his personal grievances.

Now, it seemed that she had underestimated Liu haojun's influence and his shamelessness.

Liu haojun was still gloating, "County Head Wu, you haven't been having a good time these past few days, right? Why? I just want to be friends with you. If you give me face, I will naturally give you face!"

"What do you want?" Wu Liqian asked coldly.

"It's very simple! Accompany me for dinner tonight. " Liu haojun said with a smile,"as long as you become friends with me, you will be surprised to find that the Huanglong group's project will continue as usual. Deputy County Head Zhou, who you don't get along with the most, will even become your staunchest ally. There are many other benefits, you can take your time ..."

"Don't even think about it!" Wu Liqian squeezed out these two words through gritted teeth and then hung up the phone in anger.

In the next hospital, Liu haojun from the Changping County party Committee had a smug smile on his face. He slowly hung up the phone and muttered to himself,""What a fierce horse! But I like those with a strong personality, it's more fun to play like this!"

After Wu Liqian hung up the phone, her towering chest heaved up and down slightly. There was a look of anger on her face, and she wanted to smash something several times, but she resisted the urge.

Just then, the phone on the desk rang again.

Wu Liqian almost lost control of her emotions. She grabbed the phone and scolded,""Are you done yet?"

A familiar voice came from the other end of the phone, with a hint of innocence,""Sister Qian, who provoked you? Why are you so angry?"

### **Chapter 1858: Reuniting (1)**

Hearing Xia ruofei's voice, Wu Liqian's anger instantly turned into joy. She smiled and said,""It's RUO Fei! How long have you not called me?"

"I'm just afraid that you'll be too busy to talk to me. " Xia ruofei teased her and then asked with concern,""Sister Qian, what happened? Why are you so angry?"

"I'm fine!"Wu Liqian said lightly. He was just a little impatient with work! Let's not talk about this. Is there something you need from me?"

"There's something I need to ask you. " Xia ruofei smiled and said,"it's hard to explain over the phone. I'll treat you to a meal!" Are you free?"

Wu Liqian smiled bitterly and said,""I'm always free. Just tell me the time and place."

With how marginalized she was now, no one would notice her even if she didn't come to work for two days.

For a member of the Standing Committee and the second – in – command of the government, this was a rather abnormal phenomenon.

Of course, Xia ruofei could not detect anything from Wu Liqian's words. Moreover, they were on the phone and could not see each other's expressions.

Hence, Xia ruofei didn't think too much and said,""Then let's do it at Sixo' clock tonight. How about Ling Ji's private kitchen?"

"No problem!" Wu Liqian said, "I've long heard that this restaurant 's' Buddha Jumps Over the Wall 'is very authentic. Unfortunately, the working class can't afford it! And it's too difficult to make a reservation ..."

Xia ruofei laughed. "Then I'll talk to them today. In the future, if sister Qian wants to eat 'Buddha Jumps Over the Wall', you don't have to make a reservation!"

"You're pretty influential!" Wu Liqian chuckled.

"Hehe, that shop is my girlfriend's family's business ..." Xia ruofei said.

Wu Liqian was stunned for a moment. She then remembered that Xia ruofei's girlfriend, Ling Qingxue, was the little princess of Ling Ji F & B. Wasn't Ling Ji's private kitchen a business Under Ling Ji F & B?

She was slightly disappointed, but she quickly smiled and said, "So it's like this! Then I won't stand on ceremony with you!"

"Of course, you're welcome!" Xia ruofei said, "6 p.m. Tonight. See you there!"

"I won't leave until we meet!"

After Wu Liqian hung up the phone, the image of Xia ruofei's bright and clean face appeared in her mind. Her lips unconsciously curved into a beautiful arc, and the gloominess of the past few days seemed to have been dispelled ...

The three mountains, which had just entered the night, were brightly lit.

The business of Ling's private kitchen was as good as usual, but the quiet backyard was still very quiet.

Xia ruofei sat in front of the tea table and made a pot of Dahongpao tea. In the midst of the rising sandalwood fragrance, the unique tea fragrance of the peach Garden Da Hong Pao tea lingered in the private room, giving off a refreshing feeling.

The door of the private room was knocked gently, and then the waiter pushed the door open.

Xia ruofei looked up and saw Wu Liqian, who he had not seen for a long time, walking in.

Wu Liqian seemed to have lost some weight. Even though she had put on light makeup before going out, it still couldn't hide her haggardness.

"Sister Qian is here!" Xia ruofei stood up and went up to him. "Come and have a cup of tea!"

Then, Xia ruofei said to the waiter, "Inform the kitchen to serve the cold dishes first. The Buddha Jumps Over the Wall soup will be served in ten minutes!"

"Alright, director Xia!" The waiter bowed and left the room, closing the door behind him.

Wu Liqian looked at Xia ruofei and smiled. "You look good! It seems like you're Living a Good Life!"

Xia ruofei pulled out a chair for Wu Liqian like a gentleman. When she sat down, he gently pushed it in. Then, he walked around the tea table and came to the opposite side of Wu Liqian. He poured a cup of tea skillfully and placed it in front of Wu Liqian.

Xia ruofei said, "sister Qian, you don't look well. Are you too tired from work?" You're a leader, so don't give yourself so much pressure! My body won't be able to take it ..."

Wu Liqian's heart was filled with warmth. The confusion, helplessness, anger, and a series of negative emotions she had these days were all thrown to the back of her mind. Although she had not seen Xia ruofei for a long time, she did not feel any distance from him. On the contrary, her mood had become much calmer.

"I'm fine. I just haven't been sleeping well recently ..." Wu Liqian said casually.

"Please don't let it be neurasthenia!" Xia ruofei said, "how about this? I'll take your pulse later and give you a prescription to recuperate. Sister Qian, you have to know how to take care of your own body! The body is the capital of revolution. I don't need to teach you this, right?"

"I got it!" Wu Liqian said softly and then smiled. "I'm very honored that miracle doctor Xia gave me a prescription personally! Speak! Do you need my help with something?"

Xia ruofei laughed. "Look at what you're saying. Sister Qian, do I look like the kind of person who uses people to advance and not people to retreat?" Whether I need your help or not, you're still my most respected sister Qian!"

Wu Liqian couldn't help but giggle and said, "I haven't seen you for a few months, and you've become a lot sweeter! It seems like your little girlfriend has taught you well!"

After Wu Liqian finished speaking, she picked up the teacup and drank it in one gulp. She praised, "Good tea!"

Almost everyone in the southeast province drank tea. As a leader, Wu Liqian naturally didn't lack good tea. However, she was still pleasantly surprised when she drank it today.

He didn't know if it was because of his attitude or the tea itself, but maybe it was both!

Xia ruofei smiled. "If sister Qian likes it, you can bring some with you when you leave later. These are tea leaves that we produced on our farm. They sell well on the internet."

You grow tea on your farm?" Wu Liqian was a little surprised. "There shouldn't be enough space!" Besides, didn't you open up a fruit garden in that back mountain of yours?"

Xia ruofei laughed as he filled Wu Liqian's cup of tea. He said, "I can tell that sister Qian doesn't care about me enough! My farm is under your rule! As our parents, bureaucracy is no good!"

"Shut up!" Wu Liqian said coyly. Why don't you tell me what this tea is about?"

Xia ruofei leaned back in his chair lazily and said, "It's very simple! We're working with others. They provide tea leaves, we process them, and we're in charge of sales. We have very high requirements for the quality of tea leaves, and we also use traditional tea – making techniques. Every process completely abandons modern equipment, so the output is not too high. "

"But the price isn't low either!" Wu Liqian smiled and said, "it seems that I really have to go back and find out more ..."

Xia ruofei laughed, "the rarer something is, the more precious it is!" Besides, our paradise corporation's philosophy has always been to win with quality, not sales. "

After chatting for a while, the waiter began to serve the dishes.

Xia ruofei saw the cold dishes on the table and said with a smile, ""Sister Qian, let's talk while we eat! The Buddha Jumps Over the Wall soup will be here soon. "

"It's all thanks to you," Wu Liqian said with a smile. "Otherwise, I wouldn't be able to afford it with my own salary!"

"Sister Qian, if you want to eat 'Buddha Jumps Over the Wall', I don't know how many people are waiting in line to treat you! Isn't it just a matter of a few words?" Xia ruofei laughed and said, "it's my honor to have you!"

Xia ruofei did not notice the gloominess in Wu Liqian's eyes. He invited Wu Liqian over to the dining table.

As it was only the two of them eating today, Xia ruofei had instructed the lingji private kitchen to remove the Round Table and replace it with a Chinese square table.

The two of them sat facing each other. Today, all the dishes were served separately, one for each person, so there was no need for a turntable. This square table was just right. Otherwise, there would be a distance between two people sitting at a big round table.

"Do you want some wine?" Xia ruofei asked.

"Sure! By the way, I've already asked the driver to go back. " Wu Liqian said, "after dinner, you can send me home!"

When Wu Liqian was Tian Huilan's Secretary, she had already bought a small apartment in San Shan city. At that time, her family had to fork out some money to pay the down payment.

After she went to work in Changping County, as long as she wasn't too busy, she would return to the city to rest on the weekends.

Although it wasn't the weekend tomorrow, Wu Liqian had been feeling very stuffy in Changping County for the past few days. Therefore, she didn't plan to return to Changping at night when she came out today. After she arrived at Ling Ji private kitchen, she asked the driver to go back directly.

"No problem!" Xia ruofei smiled and said, "I brought my chauffeur. I'll drink with you!"

Xia ruofei had prepared fresh noble rot wine.

This kind of wine had a higher sweetness and was very easy to drink, so it was most suitable for women to drink.

He personally poured Wu Liqian some wine. Wu Liqian's eyes were also attracted by the thick golden wine, and she couldn't help but say, ""This wine looks really good! I've never seen him before!"

"This is made by my winery in Australia, and it hasn't been sold yet!" Xia ruofei smiled and said, "give me your evaluation after you try it! If you like it, I can get you two bottles. This wine is more suitable for women."

"Ruofei, your business is getting bigger and bigger. I still remember the time you rented land to build a farm!" Wu Liqian exclaimed. How long had it been? You already have such a big business in Australia ..."

"Everyone's improving!" Xia ruofei chuckled and said, "has sister Qian also become a leader from a Secretary?"

Wu Liqian could not help but sigh.

In fact, perhaps in terms of position, she had been promoted by one rank, but in terms of influence, the executive deputy head of Changping County was not as valuable as the Secretary of the top leader of San Shan.

Of course, it was impossible for people in politics to always work by the leader's side. When appropriate, they would be released to gain experience and enrich their work resume. This was the necessary path for every leader to grow.

Wu Liqian didn't regret seeking a demotion, nor did she regret choosing Changping County. If it weren't for the recent bad things, her work in Changping County would still be promising. Coupled with her gender advantage, her political future was still very bright.

Xia ruofei could clearly feel the change in Wu Liqian's mood.

In fact, Xia ruofei had already felt that something was wrong with Wu Liqian when he called her in the morning. After meeting her just now, Wu Liqian's haggardness that could not be concealed further confirmed this point.

Initially, Xia ruofei did not want to continue asking about things that Wu Liqian did not want to say. However, he saw that Wu Liqian seemed to be in a difficult situation, so after a moment of silence, he asked, "Sister Qian, did you run into some tricky problem at work? Why don't you tell me? Maybe I can help?"

## **Chapter 1859: Spare no effort\_1**

Wu Liqian bit her lower lip and decided not to tell Xia ruofei about these things.

Although she knew that Xia ruofei had a very good relationship with Tian Huilan's family, and that Xia ruofei's connections in Sanshan city and even the southeast province were not something she could compare to, and that if Xia ruofei was willing to help, her problems would most likely be solved, she did not want to do so.

Firstly, Wu Liqian didn't want her relationship with Xia ruofei to be affected by other materialistic factors.

The second reason, which was also the most important reason, was that Wu Liqian had more or less understood Liu haojun's situation. She knew that Liu haojun came from the capital and his family was very powerful. She was worried that Xia ruofei would make such a dangerous enemy.

In Wu Liqian's opinion, Xia ruofei was rather influential in Sanshan city or the southeast province. However, the waters in the capital were too deep. She could not let Xia ruofei get involved in this.

After thinking for a while, she said, "it's not a difficult thing. It's just that work hasn't been going well. We've been talking about an investment project for a long time. In the end, it failed. This project can't be settled in Changping."

Of course, Wu Liqian's words were not entirely true. She knew that if she did not tell him the details, Xia ruofei would definitely question her further. Therefore, she simply told him about the Huanglong group withdrawing their investments. It was the truth anyway. She was not lying. She just did not tell him the main reason.

Xia ruofei nodded and said, "I see!" Then I really can't help much. I can't use a gun to force people to invest ... Wait! Investment? Sister Qian, how much is the investment for this project that you were talking about?"

Wu Liqian was stunned for a moment. "It's not very big," she said. "It's about 700 million!"

Xia ruofei chuckled. "Sister Qian, I don't care if other people invest or not. However, I might be able to help with attracting investment. Actually, I'm looking for you today because of this ..."

Wu Liqian's eyes lit up as she asked, "Ruofei, you're saying ... Your company is preparing to invest in Changping County?"

"Yes!" Xia ruofei smiled and nodded.

"How much is the investment?" Wu Liqian asked.

When it came to work, Wu Liqian forgot all the unhappy things for the time being. It was as if she had returned to the days when she first came to work in Changping County.

"The total investment amount is about 1.5 billion Yuan!" Xia ruofei said, "the initial investment is about 500 million! It's not worse than the project you talked about before, right?"

Wu Liqian couldn't help but take a deep breath and said, "Ruofei, your business is so big now?"

Xia ruofei waved his hand and said, "Hi!" Our company doesn't have that much cash flow, but can't we take a loan? Our company still has a lot of high – Quality assets, and we still have zero debt, so it's not a big problem to get a loan. "

"What project are you planning to invest in this time?" Wu Liqian asked impatiently.

For the local government, the amount of investment was one aspect of their achievements, and the other aspect was the quality of the project.

Different projects were very different. For example, some heavy pollution projects, the local government would not blindly introduce them without screening like in the past. After all, it was related to social impact and local sustainable development problems.

In addition, after a project was put into production, the amount of revenue was also directly linked to tax.

Therefore, there was a huge difference between a high – Quality project and an ordinary project.

Often, the better the quality of the project, the more preferential policies the local government could offer.

Xia ruofei smiled and said, "Taoyuan pharmaceutical factory's branch factory!" How was it? This project should be able to catch the eyes of County Head Wu, right?"

Hearing this, Wu Liqian couldn't care less about Xia ruofei's teasing. She was completely overwhelmed by the huge surprise.

The miracle created by Taoyuan pharmaceutical factory was known to all the people of San Shan.

Wu Liqian had already used the famous jade skin cream before it was mass – produced. She had a deep impression of the magical effects of the jade skin cream. Later on, the jade skin cream sold well all over the country. Every time it was snapped up online, it would be sold out in a short time. The sales of hundreds of millions of Yuan at a time made Wu Liqian look at it in a new light.

Now that she heard that Taoyuan pharmaceutical factory's branch was going to be set up in Changping County, Wu Liqian felt like a big gift bag had fallen from the sky and hit her head.

As long as she thought about the terrifying money – making ability of the Taoyuan pharmaceutical factory, Wu Liqian felt as if she was stepping on the clouds.

She knew very well that the reason why Taoyuan pharmaceutical factory had set up a branch factory was to expand its production capacity. The old factory area had already reached its limit. If they started a new factory in Changping County, it was very likely that they would be able to do it in one go. When the time came, the scale of the branch factory would definitely be several times larger than the main factory.

Such a pharmaceutical factory, how much revenue would it make in a year, and how much tax would it pay? How much of a contribution would it make to the finances of the entire Changping County? Wu Liqian didn't dare to imagine it ...

"Sister Qian! Sister Qian!"

After Xia ruofei called her twice, Wu Liqian finally came back to her senses.

Xia ruofei laughed and asked, "sister Qian, I was just talking about the key point!" Why are you still daydreaming? Have you been too tired recently? Didn't rest well?"

Wu Liqian glared at Xia ruofei and said, ""Isn't it all your fault? Who asked you to suddenly put up such a big satellite, it scared me silly ..."

## Chapter 1860: Spare no effort (2)

Xia ruofei laughed and said, "sister Qian, isn't this little money like a drizzle to the government?" You're the magistrate of a County! You can't be that timid, right?"

"I'm a coward, why do you care?" Wu Liqian showed a rare girlish side and said somewhat unreasonably.

Wu Liqian was usually serious at work, and the staff around her were very careful in front of her. But in fact, she was only in her early 30s and had not even been in a serious relationship. After tearing off her usual disguise, her mentality was sometimes similar to that of a girl in her 20s.

"Alright, alright, alright! It's all my fault, okay?" Xia ruofei raised his hands and begged for mercy.

At this moment, the main dish of the night, the Buddha Jumps Over the Wall soup, was served.

Xia ruofei changed the topic and said, "sister Qian, come, come, come!" Let's eat first, and we can talk about the investment ..."

"En!" Wu Liqian, who was in a good mood, said with a smile.

Very few people in the three mountains had never tried the Buddha Jumps Over the Wall soup. The famous Buddha Jumps Over the Wall soup in the spring Gathering garden had become the representative of the high – end food in the three mountains. Of course, that was all in the past. Right now, the 'Buddha Jumps Over the Wall' dish had the best reputation, and it was undoubtedly the Ling Ji private kitchen.

Wu Liqian had been working in the municipal Party Committee for many years and was even the leader's Secretary. She had tried the 'Buddha Jumps Over the Wall' in juchun garden many times, but this was the first time she had tried the signature 'Buddha Jumps Over the Wall' of Ling Ji private kitchen.

After opening the jar, the extremely rich fragrance was already enough to make Wu Liqian's fingers move.

The waiter helped to scoop out the various genuine ingredients that had been boiled over slow fire for more than ten hours. Then, Wu Liqian couldn't wait to blow on them while tasting them.

"Be careful, it's hot ..." Xia ruofei said, amused.

"It tastes really good!" Wu Liqian said as she chewed, "no wonder it's so expensive. You have to line up and make a reservation!" You really get what you pay for!"

Usually, Wu Liqian paid a lot of attention to her image, which was a compulsory course for leaders. However, in front of Xia ruofei, she could throw away all her pretense and be her true self.

After tasting the 'Buddha Jumps Over the Wall', Wu Liqian tried the noble rotted sweet wine that Xia ruofei had prepared. She was full of praise for the unique taste and sweetness.

After a while, Wu Liqian said, ""Ruofei, I'm very supportive of your company's investment plan! We will also do our best to get more preferential policies for you, including taxes, land, supporting facilities, and so on!"

Xia ruofei smiled."Sister Qian, you've said what I wanted to say ... That's why I'm looking for you. We've done some research and have decided on a piece of land. It's about three kilometers West of our farm, about 1000 mu! I hope that the Chang Ping District can grant us this land. Of course, it's best if the price is favorable. At the very least, it'll be sold at the standard of industrial land!"

Wu Liqian nodded and said,"it's not a big problem to get the land. You took this land to build a pharmaceutical factory, so you can definitely transfer it as industrial land. As for the price discount on this basis, I will do my best to fight for you!"

Xia ruofei snapped his fingers and said,"Big sister Qian is bright!"

"Your company's investment in a pharmaceutical factory will be a boost to the economy of the entire Changping County," Wu Liqian said with a smile. "It can also provide hundreds of jobs. As the local government, it's naturally our duty to protect the development of the company! Don't you worry about that!"

Wu Liqian paused and continued, ""In terms of tax, I will also strive for the greatest discount for you. The discount period is usually five years, and the first three years will be the biggest discount. For a big tax collector like the Taoyuan pharmaceutical factory, it is even possible that the company's income tax and value added tax of the first three years" County – Level savings will be returned in full! In addition, there are also benefits such as corporate executives being exempted from personal income tax for three years ..."

Xia ruofei nodded and said,"sister Qian, we only want the benefits that are allowed by the policy. To be honest, I can accept it as long as the benefits are not worse than other companies." Of course, it's best if you can get more benefits, provided that you don't violate any principles or discipline. I still want to use this to contribute some political achievements to you! It would be bad if it backfired. "

Wu Liqian's heart warmed. She smiled and said, ""Don't worry! I can clearly distinguish between public and private matters, and I won't joke around with my political future!"

Xia ruofei nodded and said,"that's the best. I'm just giving you a reminder. Whether you give a discount or not, it's a matter of adding flowers to a brocade. It's best if you have it, but it's not unacceptable if you don 't. The earlier our factory goes into production, the earlier we can generate profits. This is the main point!"

Wu Liqian smiled and said,"yeah!" For a money – sucking monster like the Paradise pharmaceutical factory, the faster the better. "

Wu Liqian continued,"in addition to land and tax, the local government will also undertake the construction of some infrastructure, mainly the roads from the factory to the main road, as well as power transmission lines, water transmission network, and so on. Of course, this also requires enterprise funding. After all, these are all for your family!"

“No problem!” Xia ruofei nodded. Even if we don’t have these, we will still build what needs to be built.”

The meeting between the two was a bit different. Under normal circumstances, it would definitely be companies trying to get as many preferential policies as possible, while the government needed to grasp a balance. They could not drive away the investors, but they could not damage the government’s interests too much.

However, Xia ruofei and Wu Liqian were different. Wu Liqian would not hide anything from Xia ruofei and would try her best to get the best preferential policies for Xia ruofei. Xia ruofei was not like other companies who were eager for profits. Instead, he would consider things from Wu Liqian’s perspective from time to time. He was too easy to talk to.

Of course, this was only a private meeting between the two of them. Wu Liqian couldn’t make the decision on her own.

After they finished discussing the factory, Xia ruofei also mentioned the expansion of the farm.

After Wu Liqian heard this, she pondered for a while and said, “Ruofei, I actually have a suggestion.”

“Go ahead, sister Qian.” Xia ruofei quickly said.

“Since the land you have your eyes on is connected and adjacent to the farm, I think you might as well use the name of paradise Corporation to buy the entire piece of land, including the current area of the farm.” Wu Liqian said, “although the initial investment will be more, the future development of the farm will not be limited by the lease agreement. Moreover, if we buy it in one go, we won’t have to pay rent in the future.”

“Can it be operated like this?” Xia ruofei asked cautiously.

“It’s not a big problem,” Wu Liqian explained with a smile, “it may involve more compensation and transfer funds. After all, some of the land on the farm now belongs to the village! However, there should be no problem if I meddle in the operations of the entire plate.”

Taoyuan pharmaceutical factory was a highly sought – after project. As long as the party Committee and government leaders of Changping County weren’t stupid, they wouldn’t turn down such a good project.

To put it bluntly, the pharmaceutical factory’s branch factory could be invested anywhere. If Changping County wanted these projects, they naturally had to show their sincerity, including the preferential policies that Wu Liqian had mentioned earlier, as well as the land to meet the needs of the peach blossom company as much as possible.

Xia ruofei thought for a while and nodded. “Then let’s follow this plan!”

Wu Liqian nodded and said, “later, you can ask your people to make a more detailed investment plan and difficult requirements. Report it to me directly. Leave the rest to me.”

“Alright!” Xia ruofei said happily, “sister Qian, you’re so awesome! We’re already negotiating for a bank loan, so there shouldn’t be any problems. As long as it’s settled in Changping County, the first phase of 500 million Yuan will be in place immediately!”
