

## God tier Farm 1861

### Chapter 1861: Reaching an agreement (1)

At around eight o'clock in the evening, Xia ruofei and Wu Liqian, who were having a good conversation, walked out of the private room in the backyard. The driver, Xie Bing, had already driven the car to the back door of Ling's private kitchen through a special passage in advance. No vehicles were allowed to pass through the front door.

Xia ruofei smiled and asked, "sister Qian, I'll send you off first!" Where are you going?"

"Back to Changping!" Wu Liqian said without hesitation.

Xia ruofei was stunned for a moment and said, "you're going back to the county so late?" I thought you were staying in the city tonight. "

Xia ruofei knew that Wu Liqian had a house in the city. He had heard Wu Liqian say that she had asked the driver to go back first, so he naturally thought that Wu Liqian would not be going back to Changping County tonight.

Wu Liqian ran her fingers through her hair and said with a smile, "I was going to stay in the city for a night, but with such a big satellite, how can I sleep at home? Let's just go back to the county!"

Xia ruofei didn't know whether to laugh or cry, "sister Qian, you don't have to work so hard!" Although my project is to be as fast as possible, it's not to the point where I can't even wait for a night. You still have to pay attention to your rest!"

"Don't worry!" Wu Liqian said with a smile. I know what I'm doing!"

Hearing Wu Liqian's words, Xia ruofei did not try to persuade her anymore. Anyway, this matter could not be settled overnight. Moreover, Wu Liqian was going back at this time most probably because she wanted to coordinate the project as soon as possible the next day. She did not want to waste her daytime on the road.

Hence, Xia ruofei nodded and opened the door for Wu Liqian.

After the two of them got into the car, the car headed straight for Changping County. Xia ruofei only returned to the farm after sending Wu Liqian back to the county government compound.

It was almost nine o'clock in the evening. Wu Liqian went straight to the office. She wanted to sort out her thoughts and plan how to proceed with this matter in the most efficient way.

In the past, Wu Liqian didn't need to be so cautious. As the executive Deputy County Head, although she couldn't make many decisions with one word, she still had a lot of say. However, things were different now. She had suffered defeat after defeat, and her prestige in the county had fallen. In addition, she was held back by Liu haojun, the sh \* t – Stirrer. If she wanted to do Xia ruofei's job well, she needed a strategy.

The best way was naturally to get the support of the first and second in command. Before Liu haojun could react, the matter would be passed in the Standing Committee and then the board would be set.

When she reached the office building, Wu Liqian looked up and was surprised that the county head's office on the sixth floor was still lit up.

Wu Liqian's heart skipped a beat, and she walked up the stairs.

After entering the elevator on the first floor of the office building, Wu Liqian pondered for a while and then pressed the button for the fifth floor.

Wu Liqian went back to her office. After she sat down and organized her words, she picked up the phone on her desk and made a call.

After the call was connected, Wu Liqian said, "Hello, County Head Zhu, I'm Wu Liqian."

On the other end of the phone, the county Head, Zhu zhihang, was stunned for a moment. He laughed and said, "It's County Head Wu! It's so late and you're still up?"

Wu Liqian smiled. "County Head, I just came back from the city and saw that your office was still lit. I have something to report to you. I wonder if you are free now?"

Zhu zhihang was slightly stunned. He knew about Wu Liqian's recent situation, but their personal relationship was not that good. He naturally had no obligation to help Wu Liqian.

Of course, the most important thing was that helping Wu Liqian would not bring him any benefits. On the contrary, he would offend Liu haojun, who had a powerful background. When dealing with people, they were more concerned about their own interests. They would never do something that was strenuous and unrewarding.

Therefore, when Zhu zhihang received this call, he instinctively thought that Wu Liqian wanted to ask him for help. To be honest, he definitely did not want to get involved in this.

Zhu zhihang pondered for a while and said with a smile, "Mayor Wu, isn't there a regular meeting tomorrow? And it's too late today, why don't we talk about work tomorrow at the office?"

Wu Liqian didn't want this matter to be directly reported to the leaders of the county who were qualified to attend the county Head office. At least three or four of them were on Liu haojun's side. If it was revealed at the office, Liu haojun would find out about it. She didn't know what he would do to her!

"County Head, this is an urgent matter," Wu Liqian said hurriedly. "I hope I can report to you in private first. It's about attracting investment ..."

"Isn't there no turning back for the Huanglong group?" Zhu zhihang's tone was a little unhappy. "I heard that they have all withdrawn their people. Is there any point in reporting this?"

The Huanglong group investment project that Wu Liqian was in charge of had been aborted halfway, which was a blow to Zhu zhihang's prestige. Although he vaguely knew that it was Liu haojun's doing, Wu Liqian, who was responsible for it, also made Zhu zhihang feel a little uncomfortable.

Zhu zhihang knew that there was no hope in this matter, so he thought that Wu Liqian wanted to use this report to draw out Liu haojun's tricks and then seek his political support.

Wu Liqian frowned and said, "County Head, it's not a Huanglong group project. It's a new project. Not only is the investment much larger than the Huanglong group's project, but the prospects are also incomparable ... I can't explain it clearly over the phone. If it's convenient for you, I can come to your office to report it in person!"

## **Chapter 1862: Reaching an agreement (2)**

Zhu zhihang then realized that Wu Liqian was really going to report on her work, and it seemed to be a pretty good project.

He pondered for a moment and said, "alright then!" I'll have to trouble you to come over, County Head Wu!"

"County Head, please wait a moment. I'll be right up!" Wu Liqian was secretly relieved and quickly said.

Wu Liqian tidied up her appearance a little, then hurried out of the office and went straight to Zhu zhihang's office.

Although he didn't intend to intervene in the conflict between Wu Liqian and Liu haojun, Zhu zhihang still did a good job on the surface. When he saw the Secretary open the door for Wu Liqian, he not only stood up to welcome her personally, but also poured a cup of hot tea for Wu Liqian.

After both parties sat down on the guest sofa, Zhu zhihang smiled and said, "County Head Wu, tell me about the project in detail!"

"Alright, County Head!" Wu Liqian cleared her throat and said, "I met with the leader of Tao Yuan company tonight. The main purpose was to discuss this project ..."

"Paradise Corporation?" Zhu zhihang couldn't help but blurt out. At the same time, his interest was greatly increased.

The Paradise Corporation was a star company. Previously, the company's headquarters were in the Changping County area. A few days ago, after the headquarters moved, the county was still full of regrets! Of course, they were also very clear that a company like the Paradise Corporation couldn't stay in Changping County, and it was inevitable that they would move to the Urban area.

Now, listening to Wu Liqian's words, it seemed that Tao Yuan company was interested in investing in a new project in Changping. Zhu zhihang was naturally very interested.

He couldn't help but ask, "what project does the Paradise Corporation plan to move to Changping?"

Wu Liqian took a deep breath and said, "The Taoyuan pharmaceutical factory is preparing to expand to a branch factory. The Taoyuan company feels that the investment environment in Changping County is very good and intends to move this branch factory to Changping!"

"Is this true?" Zhu zhihang was overjoyed. He could not believe his ears.

This was simply a good thing that fell from the sky! The Paradise pharmaceutical factory could be said to be the best asset of Paradise Corporation, and its revenue capacity was even more frightening.

Wu Liqian nodded. "The other party does have this intention. So I had a preliminary communication with them today."

"Do they have any requests?" Zhu Zhihang quickly asked, "we can provide as many preferential policies as possible within the scope of our authority. If we can't decide, Secretary Zeng and I can report to the city and fight for it! In short, as long as they are willing to build their factory in Changping, everything else can be discussed!"

Zhu Zhihang's reaction was within Wu Liqian's expectations. She carefully chose her words and said, "County Head, the Paradise Corporation hasn't mentioned any specific preferential policy requirements yet. I think we should take the initiative to give them this to show our sincerity ..."

"Yes, yes, yes!" Zhu Zhihang said, "what about the other aspects?"

"Today's just the initial communication. They've roughly stated their needs." Wu Liqian said, "first, it's the land. The pharmaceutical factory needs about 1000 mu of land. The land that the peach blossom company has initially chosen is not far west from the farm, so they hope to expropriate the land that the farm is currently occupying. At the same time, they also want to expand the scale of the farm. This way, their industries can be connected and their assets can be managed in a unified way. In total, they need to acquire about 1800 mu of land."

"Does it involve a relocation?" Zhu Zhihang asked.

"I don't know the details yet, but it's almost all barren land, so there's definitely no one farming it." Wu Liqian said, "of course, some of the land may be the collective land of the villages below, but the peach blossom company said that they can compensate you according to the market price."

"Then there shouldn't be a big problem!" Zhu Zhihang asked, "did you make any other requests?"

Wu Liqian said, "the peach blossom company hopes to give a certain discount on the land transfer price. In addition, we hope that the county government can help us solve the relevant supporting facilities, including two power supply lines, one for the main and one for backup, as well as water and other facilities."

"There's no big problem with that." Zhu Zhihang said, "the construction of the pharmaceutical factory was originally an industrial land! It's not a problem to give them a discount on land prices!"

"County Head, the peach blossom company will come up with a proposal as soon as possible," Wu Liqian said. "This project is of great significance to our County's economy. I hope that after you talk to Secretary Zeng, we can hold a Standing Committee meeting as soon as possible ..."

Zhu Zhihang immediately understood Wu Liqian's intention. She wanted to bypass the county Head office and directly send this issue to the Standing Committee. Once the county Head and the Secretary reached a consensus before the meeting, the probability of this issue being passed was extremely high. It would be difficult for Liu Haojun, who was unprepared, to make trouble.

It was inevitable that he would offend Liu haojun, but in the face of his shiny political achievements, Zhu zhihang didn't want this project to be ruined. So after thinking for a while, he nodded and said, "No problem! County Head Wu, I'll report to Secretary Zeng at work tomorrow. Don't worry, this matter concerns the development of the entire County. Secretary Zeng will definitely support you!"

Wu Liqian felt relieved and said, "Thank you, County Head! I'll go back first then ..."

Zhu zhihang smiled and nodded, "County Head Wu, I'll have to trouble you to keep in touch with the peach blossom company. If there's any news, please let me know immediately!"

### **Chapter 1863: Reaching an agreement (3)**

"Alright!" Wu Liqian stood up and smiled. "County Head, I'll take my leave then!"

Zhu zhihang personally sent Wu Liqian to the door of the office, then turned around and went back excitedly.

Zhu zhihang couldn't even wait for the next day. He paced back and forth in the office a few times, then quickly walked over to pick up the phone on the desk and dialed Secretary Zeng jianzhang's cell phone.

"Secretary Zeng, I'm sorry to bother you so late." Zhu zhihang's voice had a hint of excitement. "Just now, County Head Wu reported something to me. I think it's necessary to report to you immediately ..."

"Oh? Comrade zhihang, what's the matter that you can't even wait for a night?" Zeng jianzhang asked, half – jokingly.

"This is great news! Secretary Zeng!" Zhu zhihang said, "County Head Wu said that paradise Corporation plans to open a manufacturing factory branch. Their initial intention is to land this project in our Changping ..."

At this time, Zhu zhihang's Secretary walked in quietly with a kettle in her hand. It seemed that she was going to fill his glass with water.

Zhu zhihang waved his hand at her, indicating that he didn't need it. The Secretary quickly left and closed the door.

Zhu zhihang then continued to report the information he had just obtained to Zeng jianzhang.

Zeng jianzhang was also very excited after hearing this. He said, "Comrade zhihang, this is a huge surprise! He had to seize the opportunity of the peach blossom company and not let this project run away! Come to my office tomorrow at work, let's meet up and try to form a Standing Committee as soon as possible to discuss attracting investment!"

"Okay, Secretary Zeng!" Zhu zhihang replied.

The next day, Zhu zhihang came to Zeng jianzhang's office early in the morning. The two of them talked for more than an hour, completely revolving around the Taoyuan pharmaceutical factory project. Regarding some preferential policies, the two of them quickly reached an agreement.

In order to bring in this project, Changping County had invested a lot of money. First, the land acquisition side had completely agreed to the peach blossom company's request and agreed to 70% of the transfer price of the industrial land, which was equivalent to a 30% discount. In terms of tax, the first three years of tax and value added tax on County – Level assets would be completely exempted, and the next two years would also be 60% exempted.

In addition, Zeng jianzhang had also made the decision to let the local government undertake the construction of some supporting facilities. Of course, in view of the county's financial situation, this part of the construction needed to be funded by the peach blossom company, which would then be deducted from the land transfer fee.

Zeng jianzhang also said that if peach blossom company was still not satisfied with these preferential policies, Changping County could still make some concessions in land transfer fees, but this would require approval from the city.

Zhu zhihang was also full of confidence. He felt that paradise Corporation would definitely be satisfied with such conditions. The probability of this project being successful was very high.

The two of them discussed for a while and decided to hold a meeting with the Standing Committee in the afternoon to study this matter. They would also pass the preferential policies they had just agreed on. After it became a collective decision, these promises would take effect immediately.

Wu Liqian naturally received the notice from the county party Committee as soon as possible. When she learned that the Standing Committee would be discussing matters related to attracting investment in the afternoon, she knew that this matter was basically a success. When the other Standing Committee members saw this topic, they would definitely not associate it with the Paradise company. After the meeting, it would be almost impossible for Liu haojun to stop it.

Wu Liqian was very excited. She even wanted to tell Xia ruofei the good news immediately. However, on second thought, she realized that the matter had not been completely settled. Moreover, she was not sure about the preferential policies in the county yet, so she held back and did not call Xia ruofei.

The Standing Committee was to be convened at 3:30 in the afternoon.

Just after three o'clock, Zhu zhihang received a call from Zeng jianzhang.

"Comrade zhihang, are you free now?" Zeng jianzhang asked.

"I'm free! Secretary, do you have any instructions?" Zhu zhihang asked.

"I'll have to trouble you to come to my office!" Zeng jianzhang said, "let's meet and talk!"

"Alright!" Zhu zhihang's heart was beating like a drum. He couldn't help but ask again, "Secretary, could it be that the incident at Taoyuan pharmaceutical factory has something to do with ..."

"Comrade zhihang, don't think too much!" Zeng jianzhang said with a smile, "this project is of great significance to Changping County. I will definitely support it fully! If it's something else, let's talk when we meet! We'll head straight to the meeting room after we're done. "

Zhu zhihang heaved a sigh of relief when he heard that the Standing Committee was holding a meeting as usual and that Zeng jianzhang had expressed his full support. He was afraid that there would be more

changes at this critical moment. From the bottom of his heart, he was hoping that the Tao Yuan pharmaceutical factory project could be successfully introduced, even more so than Zeng jianzhang.

This was because Zeng jianzhang would definitely retire from the B – list after this term. Whether he could successfully take over the role would depend on his political achievements in the remaining year. If he could bring in the Tao Yuan pharmaceutical factory project, it would definitely be a huge bonus for him.

Therefore, Zhu zhihang even had some insomnia last night. He tossed and turned until two in the morning before he fell asleep.

He stood up, took his notebook and teacup, and left the office.

Just like that, Zhu zhihang entered Zeng jianzhang's office about half an hour in advance, while the other members of the Standing Committee entered the party Committee meeting room at about 3:20. Everyone waited until about 3:40 before Zeng jianzhang and Zhu zhihang entered the meeting room one after another.

Zeng jianzhang sat down and said with a smile, ""Comrades, I'm sorry. I was discussing work with County Head Zhu just now and was delayed for a while ... All the Standing Committee members should be here now, right? Then let's start the meeting!"

#### **Chapter 1864: Unsightly table manners (1)**

Wu Liqian's face didn't show any expression. She just opened her laptop silently, but there was a faint trace of excitement in her heart.

She also glanced at Liu haojun, who was sitting diagonally opposite her. She realized that Liu haojun didn't seem to have noticed anything. He had his usual frivolous smile and even glanced at her.

Zeng jianzhang, who was sitting in the middle, laughed and said, ""Today, I've organized this meeting for only one topic, and that is to discuss the investment problem of Changping County. County Head Zhu, please explain the situation to our comrades!"

Zhu zhihang glanced at Wu Liqian, then nodded. He opened his notebook and said, ""Comrades, first of all, I would like to share a piece of good news with everyone. That is, the Paradise Corporation intends to expand the production scale and build a pharmaceutical factory branch. This project is very likely to be located in our Changping County!"

As soon as Zhu zhihang said this, the Standing Committee members were surprised. He looked around and then said, ""As a celebrity company, I don't think I need to introduce too much to paradise Corporation, especially paradise pharmaceutical factory. In the past few months, whether it's the Jade skin cream or the heart – nourishing soup, they've both created a sales legend. Every time the Jade skin cream is sold in a centralized manner, the sales easily break 100 million. As for the heart – nourishing soup, there's no need to talk about its social effect. Even the central media specifically wrote articles to praise it. Now, paradise pharmaceutical factory is going to build a branch factory, and it's very likely to be located in Changping. I don't think I need to go into the meaning behind this. Fellow Standing Committee members should be very clear about this!"

The Standing Committee members all nodded, and a Colonel in military uniform said directly, "This is great news! County Head Zhu, we have to think of every possible way. We can't let this project go!"

The Colonel was the head of the armed forces and the only member of the military uniform Standing Committee. He had no conflicts of interest with the members of the Standing Committee. He was usually only responsible for the matters of the armed forces and only appeared when he was in the Standing Committee. Therefore, he didn't need to weigh too much when he spoke, so he was the first to express his position.

Zhu zhihang nodded and said, "director Shen is right. If a branch of the Taoyuan pharmaceutical factory can be located in Changping, the economic and social benefits will be obvious. In order to ensure the introduction of this project, I have drawn up a preliminary plan for preferential policies. I will discuss it with the Standing Committee members here."

After that, Zhu zhihang took out the draft that he had prepared and introduced some of the preferential policies that he and Zeng jianzhang had decided on together.

He then said, "I need to make two points clear here. First, compared to other investment – attracting projects, the preferential margin we give this time is the largest within the scope of the county's authority. This is mainly based on the project itself. It's pure green, pollution – Free, high revenue, and good social effects. Such high – Quality projects can be said to be serendipitous. Giving a larger preferential margin is also due to this consideration." Second, the preferential policies that I mentioned just now are only the largest concessions that our County can give. As for the actual operation, it will still depend on the situation of the negotiation. We don't need to reveal all our assets to paradise Corporation at once ..."

Zeng jianzhang nodded with a smile and said, "Everyone is clear about the situation, so let's express our opinions! If you have any questions, you can ask them at the same time. In short, just say whatever you want!"

Minister Shen from the armed forces Department, who was the first to express his opinion, immediately said, "I agree. This project is too significant. Giving such a discount is reasonable!"

Wu Liqian glanced at the expressionless Liu haojun and immediately said, "I agree with this plan!"

Now, Wu Liqian just hoped that this plan would be passed as soon as possible without any changes.

Soon, the Standing Committee expressed their opinions. Those who had nothing to do with it simply expressed their opinions, while the leaders who were related to the project said a few more words. However, they basically emphasized the importance of this project. In the end, they all agreed.

Wu Liqian's mental state gradually relaxed from the initial tension.

In fact, from a purely work perspective, the possibility of this proposal not passing was extremely low. Not to mention, the county Head and Secretary had already reached a consensus before this. Although Zeng jianzhang didn't state his stance in advance, everyone actually knew it in their hearts.

Liu haojun remained silent until all the members of the Standing Committee had finished speaking. Zeng jianzhang looked at Liu haojun and asked with a smile, "Secretary Liu, what's your opinion?"

Liu haojun seemed to have just come back to his senses. He threw the pen in his hand away and raised his eyebrows. "I don't have any objections! To introduce a project with an investment of more than a billion Yuan and a future annual revenue of billions, and it's pure green and pollution – Free, how can I not agree to such a good thing? We must support him!"

Wu Liqian was completely relieved. She didn't know if Liu haojun expressed his support because he knew it was the general trend and that there was no point in opposing it, or if it was because Liu haojun didn't know that she was the one promoting the project. But in any case, from the moment Liu haojun expressed his position, the Standing Committee had already formed a decision. The preferential conditions that Zhu zhihang mentioned before would be implemented one by one.

## **Chapter 1865: Unsightly eating (2)**

This was what Wu Liqian was most concerned about. It was rare for Xia ruofei to ask her for help. In the current situation, it was not easy for her to get things done so smoothly.

Zeng jianzhang smiled and said, "since there's no disagreement, this issue has been passed!" After we come down, we'll form a special team to work with the Paradise Corporation and strive to settle the details as soon as possible!"

Then, Zeng jianzhang cleared his throat and looked around at the Standing Committee members present. He said, "This project is very important to our Changping County. In order to show our sincerity, I think ... Comrade haojun should be in charge of the cooperation with the peach blossom company! I hope that comrade haojun will be able to face the difficulties and successfully lead this golden egg – laying Phoenix from Taoyuan pharmaceutical factory to our Changping County ..."

Hearing that, Wu Liqian couldn't help but let out a gasp. Her mind went blank, and she couldn't hear a single word that Zeng jianzhang said to encourage her.

Wu Liqian looked at Liu haojun, who was sitting diagonally opposite her. She saw that Liu haojun's mouth was slightly curved, and he was also looking at her with a playful look. He even raised his eyebrows at her.

At some point, Zeng jianzhang had finished his speech. Under everyone's envious gazes, Liu haojun said without hesitation, "Thank you for your trust, Secretary Zeng. I will do my best to complete this investment attraction mission. If the Paradise company has other demands, including demands that are beyond our scope of responsibility, I will do my best to go to the city and even the province to coordinate. In short, I will firmly complete this mission!"

The members of the committee all looked at Liu haojun with envy in their hearts. This project could be said to be a shining political achievement! The county had already offered so many preferential conditions. It could be said that whoever took on this task would be able to get a large amount of achievements. For the "airborne soldier" Liu haojun, it was even more meaningful. He could use this project to gain a firm foothold in Changping County and lay a solid foundation for his future promotion or transfer.

Only Wu Liqian was a little muddleheaded. Her eyes were filled with confusion and grief.

It was clearly a project that she had single – handedly facilitated, and she had even tried her best to bypass the link where there was a possibility of leaks and directly sent the issue to the Standing Committee. She didn't expect that in the end, Liu haojun would still get the fruits of her labor.

It was only then that Wu Liqian realized that neither Zhu zhihang nor Zeng jianzhang had mentioned anything about the project, not even her name. Therefore, those Standing Committee members who didn't know the situation would probably think that Liu haojun was the one who brought the project back.

After all, according to the usual practice, the person in charge of the final coordination must be the one who contacted the project in the first place. Otherwise, it would be a violation of the rules.

Wu Liqian's mind was in a mess at the moment, and Zeng jianzhang announced the end of the meeting after Liu haojun expressed his opinion.

The Standing Committee members all stood up and walked towards the door of the conference room.

Zhu zhihang, who was sitting next to Wu Liqian, looked at her with a complicated expression. Then, he patted her shoulder gently and sighed. Without saying a word, he picked up his notebook and teacup and walked to the door of the conference room.

Zeng jianzhang was also packing up his things unhurriedly. He glanced at Wu Liqian and said, "County Head Wu, thank you for coming to my office. I have something to discuss with you ..."

Wu Liqian's eyes were listless as she nodded, "Alright ..."

Zeng jianzhang also got up and left. At this time, Liu haojun, who was sitting diagonally opposite Wu Liqian, came over with a smile and said, "County Head Wu, Secretary Zeng is giving me too much pressure! My heart is still pounding! I heard that you're quite familiar with the peach blossom company, so I might need your help when the time comes. You must not refuse!"

Wu Liqian looked at Liu haojun coldly and squeezed out two words from between her teeth, "Shameless!"

Liu haojun laughed. He was in a good mood and didn't care about Wu Liqian's attitude at all. He looked at Wu Liqian frivolously, a cold smile hanging on his face. He lowered his voice and said, "Mayor Wu, your plan seems to have failed ... I've said this before, as long as I, Liu haojun, am in Changping County, you can forget about ever making it big! I'll repeat it again today. I hope you'll remember it in your heart. This is the price you have to pay for rejecting me!"

Wu Liqian glared at Liu haojun with anger.

Liu haojun chuckled and said, "you don't have to look at me like that. Those who know me know that I love to see my enemies angry but helpless. You're only making me feel more excited about victory!"

Wu Liqian gritted her teeth and stood up abruptly. She ignored Liu haojun, who had lost himself in pride, and quickly left the conference room. She walked toward Zeng jianzhang's office on the same floor.

.....

At the same time, the county Head, Zhu zhihang, who was walking towards the government office building next door, no longer had a friendly smile on his face. He walked forward with a cold face, his eyes slightly narrowed, and there was a sharp look in his eyes.

He recalled the scene in Zeng jianzhang's office thirty minutes ago, and the coldness in his eyes intensified.

When he entered Zeng jianzhang's office, Zeng jianzhang went straight to the point and said, "Old Zhu, I'm planning to let Liu haojun follow up on the Tao Yuan pharmaceutical factory project ..."

"Secretary, this is against the rules!" Zhu zhihang was anxious when he heard this. "From the start of this project ..."

Zeng jianzhang waved his hand and interrupted him. He said with a bitter smile, "How could I not know that this project was pulled in by County Head Wu? But I can't help it!"

After that, Zeng jianzhang went close to Zhu zhihang's ear and whispered two words.

Zhu zhihang's face suddenly changed slightly, and then he said dejectedly, "Since that person has spoken, it's indeed not appropriate for us to go against him ..."

Zeng jianzhang sighed and said, "old Zhu!" Thank you for your understanding!"

"I understand, but County Head Wu ..." Zhu zhihang frowned slightly.

After all, Wu Liqian was the executive Deputy of the government. As the county Head, Zhu zhihang naturally felt closer to Wu Liqian. What's more, Liu haojun had been very high – Profile since he took office. Especially as the Deputy Secretary, there was a faint feeling that he was on the same level as him, the county Head. Although Zhu zhihang was determined to not help either side in the matter between Wu Liqian and Liu haojun, it didn't mean that he was willing to watch Liu haojun jump out and pick the peaches.

"I'll take care of County Head Wu's work," Zeng jianzhang said directly. I'm running out of time, so I won't talk to her for now. I'll talk to her later! She's a very mature leader in politics. I believe she'll look at the big picture and understand our decision!"

Zhu zhihang shook his head helplessly and said, "I hope so ... Secretary, I'll be honest ... This ... This is a bit too much ... They're completely not following the rules!"

The politics at the grassroots level were sometimes rough and barbaric. It was completely different from the struggle in the Ministry in the capital. However, it was rare to see Liu haojun's unsightly behavior, even in the county – Level.

"Who says I'm not?" Zeng jianzhang said with a bitter smile. However, that person also said that Liu haojun will stay in Changping County for at most half a year. After he has accumulated enough experience and achievements, he will take the initiative to leave ... We should send this God of plague away as soon as possible!"

Zhu zhihang nodded in agreement.

After a slight hesitation, Zeng jianzhang said, ""Comrade zhihang, I've never mentioned this project to anyone, including when you called me yesterday. I've even told my Secretary to get off work and go home. There's no way a third person would know ..."

Zhu zhihang couldn't help but be stunned. He was wondering why Liu haojun's nose was so sharp. His first reaction was that Zeng jianzhang must have leaked it to Liu haojun intentionally or unintentionally, but after hearing Zeng jianzhang's words, he couldn't help but be a little confused.

Zhu zhihang believed that Zeng jianzhang wasn't lying, because Zeng jianzhang didn't have to lie at all. Even if he had disclosed the news to Liu haojun, Zhu zhihang couldn't do anything about it. He didn't need to explain it to him.

The reason why Wu Liqian had been so careful to report to him alone was to prevent any leaks, so it was even more impossible for Wu Liqian to have leaked the information.

In that case, there was only one possibility left ...

### **Chapter 1866: Game of interests (1)**

On the way back to his office, Zhu zhihang went through the whole thing again. Zeng jianzhang and Wu Liqian didn't disclose this matter. Also, Wu Liqian reported last night that the Standing Committee would be holding a meeting today. The possibility of information being leaked from other channels was very low.

Not only did Liu haojun get the information, but he also managed to get it through his superior's connections. It would take time, which meant that the news was likely to have been leaked last night.

And it was very likely that it would appear at his segment!

The problem was simple.

Zhu zhihang had never mentioned this to anyone. He didn't even tell his wife and children when he came home last night. There was only one possibility if someone could hear this.

Thinking of this, the coldness in Zhu zhihang's eyes became even stronger.

After he returned to his office, his Secretary, Jin Yuan, came in with a folder. He bowed slightly and said, ""County Head, these are the documents for circulation ..."

Zhu zhihang stared at Jin Yuan for two seconds and said, ""Put it here!"

"Alright!" Jin Yuan put the documents on the desk and took Zhu zhihang's Cup naturally, ready to fill it up.

"Little gold!" Zhu zhihang stopped him and stared into his eyes. "How long have you been working for me?"

A hint of panic appeared in Jin Yuan's eyes, but he pretended to be calm and said, ""County Head, I was transferred over after last year's spring Festival. It's been more than a year ..."

"It's been more than a year!" Zhu zhihang muttered to himself, "time really flies! Alright, you may leave! I don't drink water ..."

"Alright, County Head!" Jin Yuan said. Then, he gently put down the cup and left the office.

Zhu zhihang leaned back in his chair, closed his eyes tiredly, and muttered to himself, "It's been more than a year, you're probably familiar with raising a dog! I didn't expect you to be an ungrateful Wolf ..."

He was very clear about Jin Yuan's resume. This young man had no background and got in with his own strength. In the past few years, he had been writing materials in the district headquarters office. It could be said that he had done a lot of work, but he had not been able to show his face at all.

This was also the portrayal of many grassroots civil servants.

Zhu zhihang had a good eye for talent. After the previous Secretary was demoted, he personally asked him to be the Secretary. For an ordinary clerk, this was almost like reaching the sky in one step.

Zhu zhihang felt that even if he did not have the gratitude of knowing Jin Yuan, he was at least a talented Bo Le.

Because of this, when Zhu zhihang found out that Jin Yuan had betrayed him, he felt extremely heartbroken.

He didn't even need to question Jin Yuan, as he already had an answer in his heart. The panic in Jin Yuan's eyes didn't escape his eyes, which further confirmed his judgment.

Zhu zhihang leaned back in his chair and closed his eyes to rest. After more than ten minutes, he picked up the phone on his desk and dialed an internal number.

"Director Shi, have you decided on the group of cadres that will be sent to the village for the exchange?" Zhu zhihang asked indifferently.

On the other end of the phone, the director of the government office, Shi Qingyuan, said, "County Head, the preliminary list has been finalized. We were just about to let you have a look!"

"Put Jin Yuan on this list as well," Zhu zhihang said. "As for who to replace, you can do it yourself ... After the list is done, report to me as soon as possible!"

Shi Qingyuan was stunned. Jin Yuan was Zhu zhihang's Secretary! Being a village cadre was not a lucrative position, so it was impossible to communicate with him! Besides, how long had it been since Jin Yuan took office? Generally speaking, for the stability and continuity of work, the staff members around the leaders would not change so frequently.

However, Shi Qingyuan was no longer a rookie in the system. He knew when to ask and when to be confused. There must be a reason why Zhu zhihang suddenly proposed to communicate with Jin Yuan. When he did not understand the situation, his best choice was naturally to not say anything and firmly carry out the plan.

So, Shi Qingyuan quickly came back to his senses and said, "Alright, County Head! I'll make the arrangements immediately ..."

Following that, Shi Qingyuan still had to ask, "County Head, what about your Secretary ..."

It was easy to talk to Jin Yuan, but it was not so easy to assign a new Secretary to Zhu zhihang.

Zhu zhihang said a little indifferently, "transfer someone from the government office to temporarily hold the fort!" We'll talk about the Secretary later ... By the way, you can talk to Jin Yuan. I won't be showing up. Tell him to hand over the work before work tomorrow!"

"Alright, County Head!" Shi Qingyuan quickly replied.

.....

While Zhu zhihang was cleaning up the mole, Wu Liqian went to Secretary Zeng jianzhang's office.

"Secretary Zeng!" Wu Liqian greeted him weakly.

Zeng jianzhang stood up very enthusiastically and said with a smile, "Comrade Liqian is here! Sit here, sit here ..."

He personally led Wu Liqian to the reception area of the office, then shouted, "Little yang, get a glass of water for County Head Wu!"

Secretary yang quickly brought a cup of tea over. After Yang left the office, Zeng jianzhang said with a smile, "Comrade Liqian, today's main purpose is to talk to you about the peach blossom company's project. County Head Zhu and I both know that this project was facilitated by you and you were the one who was in charge of the early stages of the project. I know you might not be able to understand why I handed this project over to Secretary Liu today ..."

## **Chapter 1867: Game of interests (2)**

"Secretary Zeng, there's nothing that I can't figure out. I'll follow the organization's decision!" Wu Liqian said indifferently.

Although she didn't say anything out of anger, Wu Liqian's attitude clearly showed her dissatisfaction.

Zeng jianzhang smiled and said, "it's normal that you can't figure it out!" It would be abnormal if she could figure it out! If something similar happened to me, I would be even more confused!"

Wu Liqian looked at Zeng jianzhang quietly, waiting for him to continue.

Zeng jianzhang continued, "comrade Liqian, I can't figure it out, but as a party member and leader, I still hope that you can look at the big picture." In the current situation, what was the overall situation? I think for our Changping County, the Tao Yuan pharmaceutical factory is the current big picture. No matter how aggrieved we are, we can't affect the big picture ..."

Wu Liqian immediately understood Zeng jianzhang's intention. She furrowed her brows and said, "Secretary Zeng, you should know what kind of person I am. Public and private matters are separate matters. I definitely wouldn't do something like backstabbing. However, since Secretary Zeng has said so much, I'll also make a stand. I will definitely not drag down the Tao Yuan pharmaceutical factory project. I can guarantee it with my party spirit!"

Zeng jianzhang heaved a sigh of relief. In fact, he was most worried about this point. Wu Liqian being able to facilitate such a project meant that she at least had good communication with peach blossom company. He was afraid that the soon – to – ripen peach would be picked by Liu haojun, and Wu Liqian would be so angry that she would fight to the death and exaggerate the situation to peach blossom company. She would rather let this project fall into the hands of others than let Liu haojun gain his achievements for nothing.

Although Zeng jianzhang was neutral most of the time in the dispute between Wu Liqian and Liu haojun, he didn't want to see the project go to waste because of their personal grudges, which would damage the interests of Changping County.

That was why he had immediately called Wu Liqian over to appease her after the meeting with the Standing Committee.

Zeng jianzhang waved his hand and said, "you're too serious!" That was too serious! Comrade Liqian, I know you better than anyone else. You've always been a leader with a strong sense of the big picture, and you're full of righteousness and self – respect. You wouldn't do such petty things!"

"Thank you for the compliment, Secretary Zeng ..." Wu Liqian said, neither obsequious nor overbearing.

It would be a lie to say that she didn't have any resentment in her heart. Wu Liqian didn't have a good impression of Zeng jianzhang, who had directly appointed Liu haojun to be in charge of this project, so her attitude was a little cold.

Zeng jianzhang also noticed it. He sighed and said with a bitter smile, "Comrade Liqian, I handed this project directly to Secretary Liu at the Standing Committee meeting today because I had my own difficulties ... I hope you can understand that there are many things that I can't decide as a Secretary. "What I can tell you is that when County Head Zhu came to report to me last night, the two of us came to an agreement. We hope that you can follow this project to the end. County Head Zhu can also prove this ..."

In the officialdom, people usually only spoke a little, because that was the only way to turn things around. However, Zeng jianzhang's words were almost clear, and his attitude could be said to be very sincere.

Wu Liqian said, "Secretary Zeng, you don't have to explain so much to me. Please don't worry. I won't let my emotions get into my work. Besides, I'm happy to see the peach blossom company's project go smoothly. As for whether I'm in charge or not, it's not important."

Wu Liqian's words came from the bottom of her heart.

In fact, when she heard that Liu haojun had taken the project away, for a moment, Wu Liqian really had the urge to call Xia ruofei and put pressure on Changping County through him. However, she calmed down very quickly.

Not only was this project important to Changping County, but it was also important to Xia ruofei and the Paradise Corporation. If they could use the preferential policy that the Standing Committee had decided on to bring in the pharmaceutical factory project, it would definitely be a great benefit to the Paradise Corporation. She felt that she could not ruin this matter for her personal reasons.

In addition, if the peach blossom company's project was to be located in Changping County, there would be many opportunities for the company to interact with the county in the future. Wu Liqian did not want Xia ruofei to ruin the relationship with the county because of her, which might be disadvantageous to the peach blossom company in the future.

After much consideration, Wu Liqian decided not to tell Xia ruofei and wanted the project to be finalized as soon as possible.

To Zeng jianzhang, these words were not so credible. Even a man made of mud would have some temper. Liu haojun's table manners were so ugly, and Wu Liqian was not an otherworldly fairy. How could she be so high and mighty?

However, no matter what, Wu Liqian's stance was still quite politically correct, and he couldn't find any fault with it.

Zeng jianzhang pondered for a while and said, "Comrade Liqian, thank you for your understanding! I hope that you won't be affected by this matter and continue to work hard for the construction of Changping County! Also, the next step of the county government might be to fine – tune the division of labor for the Deputy County Head. County Head Zhu also recognizes your work ability, so you have to be mentally prepared to take on more responsibilities!"

There were a lot of things that could not be solved with words, and Zeng jianzhang had always believed in this.

This time, Wu Liqian had obviously suffered a big loss. In order to appease Wu Liqian, those high – sounding words were naturally of no use. Zeng jianzhang thought that in the end, it would still fall on the distribution of benefits. Since you've suffered a loss here, then I'll make it up to you in other ways!

Although Wu Liqian was in charge of more important areas, some key departments were still under the charge of several other Deputy County heads. This time, Zeng jianzhang and Zhu zhihang reached a consensus to make some minor adjustments to the division of labor for the Deputy County Head and assign a few more important departments to Wu Liqian.

To put it bluntly, it was to find a balance.

Wu Liqian didn't look particularly happy after hearing this. She just said indifferently, "I'll follow the organization's arrangements. I'd like to thank Secretary Zeng and County Head Zhu for their trust in me ..."

Such a statement could only be said to be reasonable, but Zeng jianzhang was already very satisfied. He said with a smile, "For a young and promising cadre like you, we should take on more responsibilities. Only then can you mature quickly!"

"Thank you for your encouragement, Secretary Zeng!" Wu Liqian said in a neither humble nor arrogant manner, then asked, "Secretary Zeng, do you have any other instructions?"

"There's nothing else ... Comrade Liqian, you can go back to work!" Zeng jianzhang quickly said.

"Then I'll head back to the government first." Wu Liqian stood up and said, "goodbye, Secretary Zeng!"

Zeng jianzhang personally sent Wu Liqian to the door of the office, then secretly heaved a sigh of relief. From the looks of it, Youyou had done a good job of appeasing Wu Liqian.

There was no such thing as an impervious wall in this world. Soon, the incident at the Standing Committee had spread throughout the county party Committee and the county government. Everyone looked at Wu Liqian in a different light. Some secretly felt sorry for her, some gloated at her misfortune, and some even ignored the matter that had nothing to do with them ...

Wu Liqian ignored everyone's gazes. After returning to the government office building, she went straight to her office.

After she sat down, she took out her phone and called Xia ruofei.

"Sister Qian! Do you have good news for me?" Xia ruofei answered and asked with a smile.

"The meeting with the Standing Committee just ended," Wu Liqian said with a smile, "the county has already come to a decision on the pharmaceutical factory project. They've agreed to acquire the land according to your proposal, and they'll also give you a certain discount on the land transfer fee. In addition, the county has also taken the initiative to propose a series of preferential policies, including tax exemption and so on. The county still values your company very much!"

"I knew it was good news!" Xia ruofei said happily, "thank you, sister Qian!"

"Don't thank me, I didn't help much!" Wu Liqian smiled and said, "it's mainly because your project is too attractive. "Ruofei, I still have something to do here, so I won't talk to you anymore. Someone will contact you soon to discuss some specific details ..."

"Alright, I got it!" Xia ruofei said. Then, he frowned and asked, "wait! Sister Qian, aren't you the one who's going to connect with our company?"

## **Chapter 1868: Irregular\_1**

Wu Liqian's face was slightly startled, but she quickly pretended to be relaxed and said, "If I have to do everything by myself, won't I be busy to death? Why do you care so much? In any case, there's someone to liaise with your company, and you'll be given all the preferential policies that should be given. Isn't that enough?"

To Xia ruofei, Wu Liqian's words had a different meaning. He thought that Wu Liqian was referring to sending people to communicate the specific work details with paradise Corporation. To put it bluntly, she was referring to people who worked.

Hence, Xia ruofei did not think too much about it. He smiled and said, "Sister Qian, aren't you being too arrogant? Our company's project is an investment of more than a billion Yuan! As the executive Deputy County Head, aren't you going to follow up on this personally?"

Wu Liqian didn't want to dwell on this topic. She was afraid that Xia ruofei would see through her if she couldn't hide her emotions.

She smiled and said, "when it's my turn to follow up, I'll naturally follow up." Ruofei, this matter has already been approved by the Standing Committee. You just need to follow the normal procedure and negotiate with the county officials. The most important thing is to start the project as soon as possible. "

"Alright! I'll listen to you!" Xia ruofei said, "sister Qian, thank you! I'll treat you to a meal when you're free!"

Wu Liqian giggled and asked, "do you still want to eat that expensive 'Buddha Jumps Over the Wall'?" Aren't you afraid of being eaten poor by me? Oh, that's right, that's your family's business, you really can't get poor from it ..."

"Don't tease me!" Xia ruofei smiled bitterly. "I'll still have to pay for the Ling Ji private kitchen, okay? However, if sister Qian likes the taste of the 'Buddha Jumps Over the Wall', I can call them to pack a portion and send it over to you!"

"Don't!" Wu Liqian quickly said, "I'm not that extravagant ... Besides, this dish is indeed delicious, but it's still a little greasy. I'm afraid I'll get fat if I eat too much!"

Xia ruofei laughed and said, "you have such a good figure. What's there to worry about?" If those chubby girls heard this, they wouldn't even have the courage to live!"

The two of them didn't talk about the same topic again. After a few more words of teasing, they hung up the phone.

Xia ruofei was in a good mood since the pharmaceutical factory project was going so smoothly.

Just as he was about to give Feng Jing a call to share the good news, someone knocked on his office door. He then saw Feng Jing push the door open and walk in.

Xia ruofei immediately laughed and said, ""Sister ran, I was just about to call you! You're really telepathic, aren't you?"

Even though it was just a joke, Feng Rao's face still turned red. "That's an inappropriate choice of words!"

"What's up?" Xia ruofei laughed.

"Good news!" Feng Rao said with a smile. It's about the bank loan!"

Xia ruofei raised his eyebrows and said, "so fast!" That's very efficient!"

Then, he leaned back in his chair and said, ""Tell me! What's the situation?"

Feng Jing sat down across Xia ruofei's desk and smiled. ""These two days, I've been in contact with the leaders of the southeast Branch of the four major banks. They're all very enthusiastic about the peach blossom company's loan. Although they haven't done a precise evaluation of our assets, they've all given us quite a lot of money. Among them, chief Yu of ICBC was the most straightforward. He said that it wouldn't be a problem even if it was within 1 billion. The other banks have also given us at least 700 to 800 million ..."

“Swish!” Xia ruofei exclaimed, “I’ve really become a hot commodity! Even the bank is rushing to give us money?”

“Isn’t that so?” Feng Jing laughed. “It’s also because our company’s asset structure was too weird. The total assets were already so high, but it actually had zero debts ...”

Feng Jing continued, “combining the conditions that the other banks have offered, I think China Construction Bank should be the most sincere. President Lin said that if it’s less than 800 million, he can directly approve it for us. The money will be transferred to us within two days. Moreover, the interest will be the lowest for commercial loans. He will even give us a 20% discount!”

“The bank’s loan interest can be discounted?” Xia ruofei asked in surprise.

“It all depends on how they do it. The bank has the relevant policies internally!” Feng Jing smiled and said, “for some high – Quality companies or companies with high potential, the bank is willing to give them a considerable amount of preferential treatment. “Our company’s public account is set up by the China Construction Bank, and our employees’ salaries are also paid through the China Construction Bank. When the Jade skin cream was sold, it often made 100 to 200 million in cash, which was all from the China Construction Bank. So, it’s normal for them to have more confidence in our company.”

Xia ruofei nodded and said, “if that’s the case, we’ll take a loan from the construction Bank!” But we can’t use up 800 million, right? 500 million should be enough ...”

Feng Rao didn’t know whether to laugh or cry, “who says they have too much money?” There was a way to spend 800 million Yuan. The more start – up funds there were, the faster the project would progress. In addition, aren’t we planning to commandeer the existing land of Taoyuan farm? The initial investment will definitely increase by a lot, so my opinion is that we should borrow as much as we can. In comparison, a little interest is insignificant!”

Xia ruofei waved his hand and said, “sure!” Then let’s talk more! I’ll leave this to you, I only care about the results. In short, just get the money into your account as soon as possible!”

## **Chapter 1869: Unconventional (2)**

When Feng Rao heard this, she couldn’t help but glance at Xia ruofei. She smiled and asked, “So, there’s already news from the government of Changping?”

Xia ruofei laughed and said, “yeah!” And it was also good news! How was it? I’m pretty efficient, aren’t I?”

“It seems like your beautiful sister has helped you a lot!” Feng Rao giggled and said, “tell me! What are the conditions that the people from Chang Ping County have given us?”

Xia ruofei grinned. “Actually, I only said that we’re preparing to start a pharmaceutical factory branch project. The total investment will not be less than 1.5 billion. We haven’t even discussed the details, but Changping County has already attached great importance to it. We’ve had a meeting with the Standing Committee this afternoon and set some preferential conditions!”

Then, Xia ruofei told Feng Jing everything he had heard from Wu Liqian, including the land acquisition and tax concessions, as well as the construction of infrastructure.

After hearing this, Feng Rao was also happy and said, ""Not bad! This time, Changping County was really full of sincerity! Such a preferential treatment is really great!"

In recent years, the local government had gradually become more rational in terms of investment and no longer regarded the scale of investment as an extremely important achievement. It was rare to see a five – year tax exemption and other preferential conditions like in the past.

Xia ruofei laughed."I didn't expect it either. Especially since Changping County has taken the initiative to bear the basic construction costs. This is equivalent to saving us a lot of money!"

"In that case, let's strike while the iron is hot and put these preferential policies on paper as soon as possible!" Said Feng Rao. I'll contact the construction Bank tomorrow as soon as I start work. The money will be in my account latest by next Monday. This way, the project can already be launched!"

"It's all up to Xue Jinshan. " Xia ruofei said,"he has done a lot of preparation work in the early stages. I don't know if he can keep up with the pace this time."

After the factory site was selected, the overall planning and design had to be carried out. Then, the bidding process had to be carried out. After the winning construction party received the project Advance payment, the construction team would enter the site to build. In addition, the pharmaceutical factory also needed to contact the Germany manufacturers to order the automatic production line at the same time. It could be said that the early work was still very cumbersome.

"I'll give factory manager Xue a call later," Feng Jing said with a smile."I'm sure he'll catch up with the work even if he doesn't sleep at night after hearing this news!"

Xia ruofei couldn't help but laugh."This kid talks about opening a branch factory all day long. As long as he meets me, he will mention this matter. My ears are getting calluses! After this project is completed, I can finally have some peace and quiet ..."

Feng Rao couldn't help but chuckle.

The first generation of entrepreneurs of paradise Corporation, including Feng Jing, pang Hao, Xue Jinshan, and the others, were all very enthusiastic about their work. They basically didn't need to be mobilized, and their minds were filled with their own business affairs every day. It could be said that they had witnessed the rapid growth of the Paradise Corporation from a small farm. As the witnesses of this miracle, they were full of a sense of belonging to the company and completely treated their work as their own career.

Xia ruofei continued,"Oh right, get Dong Yun to contact the people from Changping County and try to reach a written agreement as soon as possible!" The people in the system are used to being a burden. I'm really afraid that when we're ready in all aspects, this side will be a burden instead!"

"Even the Standing Committee was called on time, I'm sure no one would dare to delay the follow – up work ..." Feng Rao said with a smile.

“That’s true. It’s not accurate to say that they’re inefficient. Once the leaders pay attention to them, their efficiency will be shockingly high!” Xia ruofei laughed.

At this moment, someone knocked on the office door again. This time, it was the Executive Director, Dong Yun, who walked in.

Xia ruofei couldn’t help but laugh. “What’s going on today? Whoever you think of will immediately appear ... Does it have to be so effective!”

“What’s the situation?” asked Dong Yun, confused.

“I was just talking to President Feng about you!” Xia ruofei said with a smile.

“Is there something you need, Chairman?” Dong Yun asked.

“Yes, I do have some work for you.” Xia ruofei smiled. “Let’s talk about you first!”

“Alright!” Dong Yun nodded and said, “chief Xia, chief Feng, a few minutes ago, the Changping County party Committee Office took the initiative to contact our company. They expressed that they hoped to arrange a meeting between the two parties to discuss the Taoyuan pharmaceutical factory project.”

Xia ruofei and Feng Jing looked at each other and smiled. “As expected, the higher – ups pay attention to it, so the lower – ups are more efficient! You’ve taken the initiative to contact us so quickly!”

“It seems like the negotiation this time is going to be very easy!” Feng Rao said with a smile.

Xia ruofei nodded. “Director Dong, please reply to them. Tell them that we can do it anytime. See when it’s more convenient for them.”

“Alright!” Dong Yun nodded and said.

Xia ruofei thought for a while and said, “I won’t be joining this meeting.” President Feng, since you already know the situation, why don’t you ... Work a little harder?”

If Wu Liqian were to lead the team, Xia ruofei would not dare to act arrogantly and would definitely come out personally. However, now that he was sure that Wu Liqian would not follow up on this matter personally, Xia ruofei lost interest.

Feng Rao thought for a moment and said, “sure!” As long as the timing doesn’t clash with the bank’s side!”

“Then we’ll decide on the time!” Xia ruofei said with a smile.

“This is fine!” Feng Jing said, “director Dong, why don’t we ... Do it tomorrow afternoon?” I have to go to Jianxing in the morning!”

“No problem. I’ll reply to them like that.” Dong Yun said.

Xia ruofei nodded and said, “yes!” Just reply like this. Also, let’s meet at our company! This is the first time the new headquarters is welcoming outsiders, they should be very honored!”

Dong Yun couldn’t help pursing her lips and smiling. She nodded and said, “Alright!”

"Wait a minute ..." Xia ruofei felt that he had missed out on some information, but he could not recall what it was.

He frowned and thought for a while. Feng Jing and Dong Yun did not know what was wrong with Xia ruofei, so they did not dare to disturb him and just waited quietly at the side.

Xia ruofei's mind suddenly lit up and he caught the key information that he had overlooked.

He turned to Dong Yun and asked, "director Dong, you just said ... Who is in contact with our company?"

Dong Yun was somewhat baffled and said blankly, "Changping County!"

"What unit is it in Changping County?" Xia ruofei continued to ask.

"The county party Committee Office!" Dong Yun said.

"The county party Committee Office!" Xia ruofei slapped his thigh and muttered to himself, "how could it be the county party Committee? Director Dong, are you sure you didn't mishear?"

"I didn't answer the call, but I've checked the content of the call and the caller's name repeatedly. There shouldn't be a problem." Dong Yun said.

"That's not right ..." Xia ruofei said. "How could it be the county party Committee that contacted us?"

This project was introduced by Wu Liqian. According to common sense, she was the one leading and following up on this matter, so there was no doubt that she would be the one to take the credit for the achievements. She was the county government's Deputy County Head. Even if she didn't come personally this time and sent her subordinates to do it, the peach blossom company should have contacted the government office instead of the county party Committee!

"What's wrong?" Feng Jing asked in confusion, "Chairman, are you worried that this phone call is a scam? I don't think so ... This information isn't something a scammer can get hold of. Besides, this kind of obvious lie will be exposed as soon as both sides communicate. Even a scammer wouldn't make such a low – Level mistake!"

Xia ruofei waved his hand. "I'm not saying that there's a problem with the phone. It's just that the person who made the call is a little unreasonable."

Then, Xia ruofei said to Dong Yun, "Director Dong, how about this? Let's not rush to give them accurate information first. We should have registered the number when the other party called, right? Call back and confirm the other party's unit ..."

"Okay ..." Although Dong Yun did not know what Xia ruofei was up to, she still nodded and accepted the simple task.

Xia ruofei continued, "if it's confirmed that it's the county party Committee, you can also ask them who are the people who came to attend the meeting and what their positions are." It's easy to find a reason. Just say that we have to prepare for the reception in advance, and that we also have to determine the equivalent reception candidates in advance!"

"Understood, I'll do it now!" Dong Yun nodded and said.

## Chapter 1870: A decisive decision (1)

Xia ruofei's task was not complicated. After a few minutes, Dong Yun came to Xia ruofei's office with a list of names.

"You've found it?" Xia ruofei asked.

"En!" Dong Yun nodded and said. The leader of the team from Changping County was the newly appointed Deputy Secretary, Liu haojun. He was accompanied by the Deputy Director of the county party Committee, Guo Zhiguang, and the leaders of the county's merchant Bureau. There were a total of eight people, which was quite a high standard! This is the list of names. "

Xia ruofei didn't care about the rules. In fact, when he heard that the leader was the Deputy Secretary of the county, he had confirmed his guess that Wu Liqian had lost the leadership of this project.

If Wu Liqian was still in charge of attracting investment for the Taoyuan pharmaceutical factory in Changping County, the people who would come would definitely not be more than a Department, and it would be impossible for the Deputy Secretary, who was one rank higher than her, to personally lead the team.

Xia ruofei's doubts were immediately cleared. It was obvious that Wu Liqian was helping someone else. Liu haojun had stolen the fruits of her labor just as the project was about to be completed.

Xia ruofei frowned. Dong Yun couldn't help but ask, "Chairman, is there a problem with this list? I think it's normal! "Although the Deputy Secretary is in charge of party affairs, he's still ranked third in the team. This shows that Changping County still places great importance on attracting investment this time. I think that when the contract is signed, the top and second – in – command may also personally appear."

Xia ruofei waved his hand. "There's no problem with the name list. However, don't reply to them for now. I have other considerations on my side."

Dong Yun was stunned for a moment before she immediately replied, "Alright. As for the bank loan and the preparation for the pharmaceutical factory ..."

"Just let them carry on as usual!" Xia ruofei said, "don't stop the preparation work at the pharmaceutical factory, especially the contact with the Germany manufacturers. We should still negotiate with them according to the scale of 20 production lines. This time, we are buying in bulk, and the transaction volume has reached hundreds of millions. We must try to get a favorable price as much as possible. Tell Xue Jinshan that his KPI is the final purchase price. The lower the price, the higher the KPI!"

"Understood!" Dong Yun said, "Chairman, I'll leave you to your work. I'll inform manager Xue."

"En!" Xia ruofei smiled and nodded. "You've worked hard!"

After Dong Yun left, Xia ruofei did not immediately hang up the call with Wu Liqian. Instead, he frowned and sat in his seat, deep in thought.

He felt like he had heard the name Liu haojun before.

This was a very common name. It could be someone else with the same name. However, Xia ruofei's memory was superb. If he had come into contact with another "Liu haojun", there was no reason for him to not remember.

Xia ruofei turned on his computer and found the government website of Changping County. However, he quickly patted his head and felt that he was a little confused. The government website only showed the leaders of the county government. The leaders of the county party Committee would not appear.

However, as the leader of the county party, it was easy to find his photo. Xia ruofei used the three keywords "Changping County", "Deputy Secretary" and "Liu haojun" to find a bunch of event reports.

Xia ruofei opened a random picture in the news. He squinted his eyes and frowned.

The familiar face reminded him of someone with a similar name, Liu haofan.

Xia ruofei took out his phone and gave Zhao Yongjun a call.

Zhao Yongjun had the most connections in the circle of the second generation in the capital, and he was also the most well – informed. It was definitely the right thing to ask him about this.

"Big brother Zhao!" After the call went through, Xia ruofei smiled and asked, "have you been busy recently?"

"What do you think?" Zhao Yongjun said, "I'm the one handling everything with the Paradise society. Xiao Rui and the others can't help much. You're even more ruthless. You just left such a huge stall and ran back to the three mountains!"

Xia ruofei quickly said, "the more capable you are, the more work you have to do!" I'll treat you to a drink when I come back to the capital!"

"Come over as soon as possible! We've all missed you!" Zhao Yongjun said, "I think it's better for you to gradually shift your focus to Beijing! Although the Southeast's economic development is good, Beijing is the country's political, economic, and Cultural Center after all. It's been in a corner for a long time, so its vision is limited!"

"Our company's business is not that easy to transfer. Besides, I've already built a good foundation here ..." Xia ruofei said, "but I'm only busy in stages here. I don't need to ask too much about the company's specific Affairs. I'll definitely come to the capital more often in the future!"

"That's good! By the way, what's the matter?" Zhao Yongjun asked.

They were all very good friends, so Xia ruofei didn't beat around the bush. He asked directly, "Are you familiar with Liu haojun? What's his relationship with Liu haofan?"

Zhao Yongjun's mouth twitched, "I can't say I'm familiar with it, but I do know it!" His reputation in the circle was so bad that he was a hopeless case! Speaking of which, there's really no one in old Liu's generation who's good enough!"

"So, this grandson is really from the Liu family?" Xia ruofei asked.

“Mm! He’s Liu haofan’s cousin. ” Zhao Yongjun said, “why are you suddenly asking about this guy ... By the way, he seemed to have been out some time ago. If I remember correctly, he went to the southeast province! RUO Fei, did this grandson provoke you? Tell brother! I’ll help you to beat him up!”
