

God tier Farm 1941

Chapter 1941 Steadily sitting on the fishing platform (2)

Xia ruofei looked at Shi Qingyuan, then turned to Zhu zhihang and asked, "County Head Zhu, who is this?"

Shi Qingyuan could not help but feel that he was being looked down on. He was the head of the government office. Although he was not a regular person, he was still the head of the government. In his opinion, Xia ruofei should know him.

Zhu zhihang came back to his senses and said, "Oh! I forgot to introduce him. Director Xia, he is director Shi Qingyuan from the government office."

"Oh, it's director Shi." Xia ruofei glanced at Shi Qingyuan and said lightly, "as for the location of the project, it's still a business secret before my company officially disclosed it to the public. I'm afraid it's not convenient to tell you. I hope director Shi can understand."

Shi Qingyuan felt embarrassed. He had been rebuffed ...

Zhu zhihang couldn't care less about being reserved at this time. He quickly said, "President Xia, we noticed that your company's inspection team has already gone to several neighboring districts and counties, even to the neighboring cities. But why haven't they come to our Changping County? We also welcome and support this project!"

"County Head Zhu, I didn't ask about the specific arrangements." Xia ruofei lied without blushing. "Our company has a very professional team. I also believe in the team's ability and judgment, so I've been letting them do it. I didn't interfere with the site selection work of the pharmaceutical factory, so ..."

Xia ruofei shrugged and continued, "I don't know why the inspection team didn't consider Changping County, but I think there must be a good reason! I believe in my team on this."

These words were as good as not saying anything! Zhu zhihang could not help but criticize in his heart.

He would never believe it. Without Xia ruofei's permission, the inspection team of the Paradise Corporation would dare to completely bypass Changping County. According to Wu Liqian's feedback, the Paradise corporation's first intention was to build a factory in Changping County, and it was Xia ruofei who talked to Wu Liqian personally. It was very likely that it was Xia ruofei's own idea.

But now, Xia ruofei had completely pushed it aside, as if he did not know about this at all.

Zhu zhihang was a little anxious. He thought for a while and said, "President Xia, I won't hide it from you. Our Changping County has also attached great importance to the pharmaceutical factory project of your company. "for this, we even held a special standing committee and customized a series of preferential measures for this project. secretary zeng also attached great importance to this and has given instructions many times on this matter, asking us to form a capable team to specifically take over this project ..."

it would have been fine if zhu zhihang did not mention this "competent team". once he mentioned the connection of the team, xia ruofei was even angrier. so your so – called competent team is in charge of

picking peaches! Directly kicking sister Qian away, and then openly snatching political achievements, is that what you do?

“County Head Zhu,” Xia ruofei said lightly, “first of all, on behalf of the company, I would like to thank Changping County for your concern and concern. However, I also said just now that I didn’t interfere with the specific arrangements of this project. After all, I have a lot of things to deal with every day. The company doesn’t only have one paradise pharmaceutical factory! How about this, you can directly contact the person in charge of this project, which is also the factory manager of Taoyuan pharmaceutical factory, Xue Jinshan. I will also let him know, so it will be more convenient for you to directly communicate with him for the specific problems!”

There was nothing wrong with this sentence, but how could Zhu zhihang, who had been in the officialdom all year round, not see that Xia ruofei was just playing ball? Without Xia ruofei’s approval, it would be strange if there was any progress with Xue Jinshan!

Xia ruofei’s hard and soft approach did not work, and Zhu zhihang was at his wit’s end. The rest of the people could not even get a word in, especially after Shi Qingyuan hit a soft nail. Zhu zhihang’s entourage did not dare to come and touch this bad luck.

Zhu zhihang’s brain was spinning rapidly. This seemed to be a dead end. The only good thing for Changping County was that Xia ruofei had his eyes on it at the beginning. His intention to invest in Changping County was the strongest.

However, as far as he knew, the preferential conditions given by the other counties were not worse than those given by Changping County. Moreover, for a technology – intensive enterprise like the Taoyuan pharmaceutical factory, although transportation conditions were important, they did not occupy a dominant position. As long as the conditions were right, the increase in transportation costs was nothing compared to the amazing profits of the Yushi ointment.

Moreover, the volume and weight of the Jade skin cream and heart – nourishing soup were very small, so the logistics cost was even divided between each product, and the cost was next to nothing.

Not to mention that the other counties would take the initiative to compensate for these increased costs in terms of tax. For the Paradise pharmaceutical factory, there would be no loss at all.

The conversation had reached a stalemate. How could he break it?

Zhu zhihang was deep in thought, and Xia ruofei was not in a hurry. He just drank his tea with a smile.

At this moment, the clock on the wall showed that there were still ten minutes before work ended.

Xia ruofei had already made up his mind. If Zhu zhihang was still saying these useless things when it was time to get off work, he would not hesitate to ask him to leave and not waste time with them.

At this time, Zhu zhihang’s mind flashed and he thought of the words “the person who tied the bell must untie the bell.”

Although Wu Liqian guaranteed with her party – like personality that she did not take personal revenge on this project or make things difficult for him, Zhu zhihang had always suspected that the reason why Paradise corporation’s attitude had changed 180 degrees was because of Wu Liqian’s elimination.

Perhaps Wu Liqian would not take the initiative to ruin the introduction of this project because she was aware of the big picture, but there was no guarantee that Xia ruofei would not stand up for Wu Liqian!

There had always been a rumor that Wu Liqian and Xia ruofei had a good personal relationship!

If that was the case, even if the project was settled in Changping, Wu Liqian would have nothing to do with the political achievements. Why would Xia ruofei let Liu haojun have it? Let's just go our separate ways!

In Zhu zhihang's opinion, this was in line with Xia ruofei's identity as a young man. He was also young once. When he was Xia ruofei's age, he was also impulsive and always wanted to settle grudges. He would not think too much about the long term.

Thinking of this, Zhu zhihang seemed to see a glimmer of hope.

He quickly considered his words and said, "Director Xia, I heard from County Head Wu that you mentioned to her that you wanted to expand the farm, and you seemed to have the intention of connecting the factory with the farm. It was because of County Head Wu's report that we quickly convened the Standing Committee to discuss preferential measures. I'm just wondering why your company suddenly changed your mind?"

Finally, I can't hold it in anymore ... Xia ruofei laughed coldly in his heart.

Since Zhu zhihang had brought up Wu Liqian, Xia ruofei did not beat around the bush anymore. He said lightly, "County Head Zhu, a company's development strategy must be constantly adjusted and revised. Sister Qian didn't lie about this matter back then. We did have such considerations at the time, but when we went to other districts and counties to investigate, it was also necessary for the company's development strategy."

Of course, Zhu zhihang did not take Xia ruofei's words seriously. He only caught the most important word "sister Qian". This was the only message that Xia ruofei wanted to pass on to him.

His relationship with County Head Wu was indeed not ordinary! Zhu zhihang thought to himself.

At this point, Zhu zhihang was very sure that the only reason for the change in attitude of paradise Corporation was to express their dissatisfaction with them kicking Wu Liqian out without permission!

It was indeed not right, but even Zeng jianzhang could not do anything about it, let alone Zhu zhihang.

Of course, after making this judgment, Zhu zhihang had a strong hope, because Liu haojun had left, so this matter naturally had a chance to turn around.

Thinking of this, Zhu zhihang immediately said with an apologetic face, "President Xia, speaking of this, we haven't done enough in our Changping County! Secretary Zeng has told me more than once that we couldn't withstand the pressure and let Wu Liqian suffer. "Of course, this is just an individual who doesn't abide by the political rules. It doesn't represent the attitude of our entire team. In fact, we highly approve of County Head Wu's work!"

Chapter 1942 Dark clouds all over the sky scattered (1)

"Is that so?" Xia ruofei smiled and said, "I heard that sister Qian's work in Changping didn't seem to be going well ..."

"Mr. Xia, at the end of the day, it's all because I didn't stick to my principles as the Vice class monitor," Zhu zhihang said sincerely. "That's why Wu Liqian's enthusiasm for work has been dampened. Of course, Secretary Zeng has his own difficulties. Sometimes, we don't have a choice!"

Xia ruofei had a faint smile on his face and did not say anything.

Zhu zhihang continued. "President Xia, actually, County Head Wu also places a lot of importance on the pharmaceutical factory project. She didn't care about personal gains and losses. After she found out that she was no longer in charge of the specific work of this project, she still wanted to make this project come to our Changping ..."

"Yup! "She's a fool ..." Xia ruofei sighed.

To Zhu zhihang and the others, Xia ruofei's words did not sound like he was mocking Wu Liqian. Instead, they felt that Xia ruofei and Wu Liqian were close.

Zhu zhihang also said with some emotion, "County Head Wu's awareness is really high! Ever since she took office, she had put all her heart and soul into the work of Changping County. She's been having some problems at work recently, and I'm worried about her, but her ability is limited ... This time, she's able to get a chance to go to the capital for training through her own efforts. We're really happy for her!"

Xia ruofei saw that Zhu zhihang was not pretending to be scared. In fact, in front of a cultivator with strong spiritual power like Xia ruofei, if an ordinary person lied, his subtle expressions would not escape his eyes.

He had already done what he needed to do. Changping County had already lowered their stance. Besides, Xia ruofei had no intention of choosing another place to build the factory. The most suitable place was still Changping County.

However, he naturally couldn't let it go so easily. It should be Wu Liqian's political achievement. Even if the Emperor came, it wouldn't work. In the end, it had to be given to Wu Liqian.

Xia ruofei deliberately pondered for a while before saying, "County Head Zhu, I can see that Changping is very sincere. The development of an enterprise can not be separated from the support of the local government. I believe that if the Taoyuan pharmaceutical factory's project is really set up in Changping, you will also receive full support from the county Head!"

Zhu zhihang looked happy and quickly said, "That's for sure! A high – Quality enterprise like the peach blossom company must be on our county government's priority list of support!"

Xia ruofei smiled and said, "County Head Zhu, how about this?" The location of the Paradise pharmaceutical factory hasn't been completely decided yet. Since your Changping County also has this intention, you can send a team to connect with our pharmaceutical factory and discuss some specific problems with the project. When necessary, we will also go to the site to inspect it!"

"Alright! Alright!" Zhu zhihang was overjoyed and said, "Mr. Xia, we'll set up a Working Group today to be in charge of contacting your company about the pharmaceutical factory project!"

Xia ruofei nodded and said casually, "County Head Zhu, County Head Wu has always been in charge of the Tao Yuan pharmaceutical factory project, so she's more familiar with the situation. Do you think ... We should let County Head Wu take charge of this Task Force this time?"

Zhu zhihang was stunned for a moment and said in his heart, "I knew there was no such thing as a free lunch. I was just wondering why President Xia was so easy to talk to all of a sudden! It turned out that he was still trying to give Wu Liqian an achievement! Now, she had changed from sister Qian to County Head Wu ...

Although he thought so in his heart, Zhu zhihang naturally did not show any dissatisfaction on his face.

Besides, he had no intention of stealing Wu Liqian's political achievements. People in the officialdom were more or less superstitious, or rather, it was a psychological suggestion! The last person who wanted to steal Wu Liqian's political achievements had now packed up and left. Furthermore, he had directly resigned and was put out of the system.

Although Zhu zhihang also knew that Wu Liqian, who was far away in Beijing for training, certainly did not have the ability to make Liu haojun so miserable. Liu haojun's incident this time was also his own doing. It probably had nothing to do with him pestering Wu Liqian and seizing Wu Liqian's political achievements. However, this still made Zhu zhihang feel that this project was a bit strange. He had never wanted to touch it.

However, it was not a matter of whether Zhu zhihang wanted to snatch this political achievement or not, but the problem of Wu Liqian not being able to come back at all!

"President Xia, by right, County Head Wu is the most suitable candidate. I think Secretary Zeng will definitely support him!" Zhu zhihang said with a troubled expression. But ... As you know, County Head Wu is currently in the capital for training, and it will take two months! Besides, the standards of the training course in the Ministry of State affairs in Beijing are very high. I'm afraid he won't be able to come back to take charge of the task force during this period of time!"

Xia ruofei smiled and said, "County Head Zhu, as long as sister Qian wants to come back, it's not a problem to take a few days off." And there's no need for the county to show up ..."

Xia ruofei added in his heart, "Even if the county came forward, it would be useless. How could the training classes of the Ministry let people go just because of the words of the county Leader?"

Zhu zhihang heard this and pondered for a while. He looked up and said, "Alright! Since President Xia has said so, I personally agree! Of course, we have to report to Secretary Zeng when we get back. I don't think Secretary Zeng will object!"

Chapter 1943 Dark clouds all over the sky scattered (2)

"Then I'll wait for the good news!" Xia ruofei smiled and took a sip of the tea.

Zhu zhihang saw this and knew that Xia ruofei was going to send them off.

Today's purpose had been achieved, and the result was very satisfactory, so Zhu zhihang immediately stood up and said,"President Xia, then we won't hold you up from your work! I wish your company and our County can reach a happy cooperation! Goodbye!"

Xia ruofei did not ask them to stay for dinner. He stood up and smiled."Good! County Head Zhu, take care!"

Xia ruofei personally sent Zhu zhihang and the others to the door of the office.

Zhu zhihang thought for a while and said to Shi Qingyuan,"Director Shi, please wait for me at the door!"

Then, he looked at Xia ruofei and said,"President Xia, can I have a word with you?"

Xia ruofei was slightly stunned, but he immediately nodded and said,"Let's go to my office!"

The two of them walked back to Xia ruofei's desk. Zhou Yu had already closed the office door.

Xia ruofei smiled and said,"please have a seat, County Head Zhu." If you have anything else to say, feel free to say it. The soundproofing here is very good. "

Zhu zhihang said,"President Xia, there were too many people just now. I think it's necessary to explain to you more about the matter of County Head Wu being removed from the project negotiation team. I hope it can eliminate your misunderstanding of our Changping County team."

Xia ruofei raised his eyebrows and gestured for her to come in."Please speak, County Head Zhu, I'm all ears!"

Zhu zhihang carefully chose his words and said,"As I said just now, this is a personal matter ... There's no need to hide this. It's the personal behavior of the former deputy Secretary, Liu haojun. This comrade's family background is better, but his personality ... How do I put it? He's showing off a little. "

Xia ruofei smiled and said,"I've heard of him. He's the one who's been appearing on the internet for the past two days, Deputy Secretary Liu." The third generation of the capital is indeed a little arrogant and despotic ..."

"It seems like you know Liu haojun quite well, Mr. Xia." Zhu zhihang said,"that's good. I don't have to waste too much time. "Actually, Liu haojun wanted to get involved in this project himself. He contacted Secretary Zeng directly through a leader in the province ..."

Zhu zhihang also showed a helpless expression and said,"President Xia! "We really had no choice. Whether it was Secretary Zeng or me, it was very difficult to stick to our principles under such pressure ... Of course, as the direct leader of County Head Wu, I expressed my opposition at the time. Secretary Zeng also tried to mediate, but it was to no avail ..."

In fact, Xia ruofei had already deduced the general course of events, so he was not particularly surprised when he heard Zhu zhihang's words.

Zhu zhihang said sincerely,"President Xia, I'm not trying to absolve the team from Changping County. I just hope you don't misunderstand us too deeply." Because if this project is settled in Changping, we'll have a long – term cooperation in the future. I don't want everyone to have any ill feelings. "

Xia ruofei smiled and said, "thank you for your honesty, County Head Zhu!" Liu haojun had already been kicked out of Changping. Let this matter end! I hope we can have a long – term cooperation in the future!"

Zhu zhihang said happily, "definitely!" Definitely! President Xia, I'll take my leave now!"

"Alright, County Head Zhu, I'll send you off!" Xia ruofei said.

Xia ruofei sent Zhu zhihang and the others to the door of the office. After watching them go into the elevator, he turned back to the office and took out his mobile phone to make a call to the capital.

.....

Beijing, party school.

Wu Liqian, who had just finished class, was walking to the cafeteria with a file bag in her hand when she received a text message notification on her phone.

She took out her phone and swiped it open. It was a notification message that said: Heron Island Airlines has successfully purchased a ticket. Friendly reminder: Please go to the airport one hour before departure to check in to avoid missing the flight. The flight number ...

Wu Liqian was a little confused. She didn't buy a plane ticket! Why did the airline suddenly send such a message? Could it be that someone else had left the wrong phone number when buying the plane ticket?

Just then, she received a WeChat message from Xia ruofei.

"Sister Qian, I've bought you a plane ticket and applied for leave. Don't miss your flight!"

Wu Liqian was confused, but she quickly replied, "RUO Fei, what's going on?"

Xia ruofei sent a smiling emoji and replied, "You'll know in a while!"

Wu Liqian mumbled to herself, "this kid, what is he up to this time?" You're still keeping me in suspense ..."

Just as she was about to call Xia ruofei to clarify, her phone rang.

This time, it wasn't Xia ruofei who called. It was the Secretary of Changping, Zeng jianzhang.

Seeing this, Wu Liqian didn't have the time to question Xia ruofei anymore. Instead, she picked up the phone.

"Hello, Secretary Zeng!" Wu Liqian said very politely.

Although the leader of Changping didn't do the right thing last time, Wu Liqian knew that an arm couldn't win against a thigh, so she didn't blame Zeng jianzhang and Zhu zhihang.

In fact, Wu Liqian's work ability was outstanding. When she was working in Changping County, Zeng jianzhang and Zhu zhihang were relatively supportive of her, and there were not many obstacles in her work.

Of course, this also had to do with the fact that Wu Liqian didn't like to fight and just wanted to do her job well.

"Comrade Liqian, I hope I didn't disturb your class," Zeng jianzhang said with a smile.

"Secretary Zeng, class just ended!" Wu Liqian smiled. I'm preparing to go to the dining hall. The Secretary called. Do you have any instructions?"

"I can't call it an instruction!" Zeng jianzhang laughed and said, "I have good news for you. With the hard work of County Head Zhu and my comrades, there's finally some progress on the Tao Yuan pharmaceutical factory project! The peach blossom company has agreed to contact and discuss with us. When necessary, they will also send people to our Changping County to investigate!"

"Oh, really? That's great!" Wu Liqian was happy from the bottom of her heart. "Secretary Zeng, this project is very important for the development of our Changping County. We must seize this opportunity!"

"Yup! That's why ... I'm calling you for help!" Zeng jianzhang said with a smile.

"Ask for my help?" Wu Liqian was confused. "Secretary Zeng, what do you mean?"

"It's like this. Our County has set up a Task Force specifically in charge of contacting the peach blossom company!" Zeng jianzhang said, "the organization has initially considered handing over the responsibility of the working group to you. It might conflict with the training time, but I believe you can overcome it!"

"Of course, you don't have to be involved in the entire process. You might need to personally follow up on the early stages. As for the follow-up work, you can lead the team through phone calls, emails, and fax when you're in Beijing training! We only have one goal, and that is to successfully bring the Paradise corporation's project to Changping County! Comrade Liqian, do you have the confidence to complete the task the organization has given you?"

Wu Liqian thought of the WeChat message that Xia ruofei had sent her and the text message that the ticket was successfully booked. She suddenly understood that Xia ruofei had arranged everything! Her heart was filled with warmth.

Wu Liqian composed herself and said firmly, "Secretary Zeng, I promise to complete the task!"

"Good! This is the attitude I want!" Zeng jianzhang said happily, "comrade Liqian, you should take the time to take a leave and come back. Arrange the early work, and sit down with the peach blossom company as soon as possible to discuss the specific issues!"

"Okay, Secretary Zeng!" Wu Liqian said.

"Let the comrades in the county party Committee know after the schedule is set." Zeng jianzhang said, "we'll give you a welcome party!"

"Okay. Goodbye, Secretary Zeng!"

"I'll see you in Changping!"

After hanging up the phone, Wu Liqian had an urge to cry.

These days, she seemed to have been shrouded in a haze. Now, the dark clouds in the sky had dispersed, and the clear blue sky was restored above her head ...

Chapter 1944 The difference between heaven and earth (1)

At 10:15 P. M., A Boeing plane from Beijing landed smoothly at San Shan airport.

It was already 10:30 P. M. When Wu Liqian dragged her suitcase out of the passage, looking tired.

She was indeed very tired. The schedule of the training class was quite tight, and she had been reading until very late these days, so she didn't have enough sleep. In addition, the night flight she was on encountered traffic control at the busy Beijing airport. The plane that was supposed to take off at six in the evening was delayed for two hours and only took off from Beijing at eight. According to the plan, they should have landed on the three mountains by now.

In order to ensure that the plane could be pushed out and taxied as soon as it was released, the flight crew chose to let the passengers board the plane in advance. Wu Liqian had been trapped in the cabin for more than an hour, and after more than two hours of flight, she was very tired by the time the plane landed.

However, as soon as she got out of the passenger passage, Wu Liqian was stunned. She saw that the Secretary of Changping County, Zeng jianzhang, had come to the airport in person. Similarly, the county Head, Zhu zhihang, was standing beside Zeng jianzhang.

As soon as they saw Wu Liqian, they greeted her with a smile.

Zeng jianzhang gestured for his Secretary to take Wu Liqian's luggage, then said with a smile, "County Head Wu, you've had a long journey!"

Wu Liqian came back to her senses and quickly said, "Secretary Zeng, County Head Zhu, why did you come here personally?"

The Secretary and the county Head coming to the airport to welcome the executive Deputy County Head at the same time sounded like a fantasy, but it really did happen.

The most important thing was that the flight was delayed by more than two hours.

Did this mean that Secretary Zeng and County Head Zhu had been waiting at the airport for more than two hours? Thinking of this, Wu Liqian felt even more incredulous.

Zeng jianzhang laughed and said, "County Head Wu is the hope of our Changping County!" Didn't I say that I would give you a welcome dinner today?"

Zhu zhihang also joined in the fun. "We just didn't expect the plane to be so late. It's said that the accuracy of the plane in the direction of Beijing is very low. This time, we've finally seen it for ourselves!"

Wu Liqian quickly said, "leaders, you're really putting me to shame ... How could I dare to let you welcome me?" This ..."

“Hahaha! We’re all comrades of the same team, there’s no need to be so particular!” Zeng jianzhang smiled broadly.”County Head Wu, let’s go! The car was waiting outside! I’m sure you didn’t eat well on the plane. I’ve already ordered supper! I’m going to give you a welcome dinner today!”

Wu Liqian was still in a daze after she got into the car. There was something wrong with the two class monitors today.

In fact, the reason why Zeng jianzhang and Zhu zhihang were so “courteous” today was that they attached great importance to the project of Taoyuan pharmaceutical factory. Whether the project could be successfully introduced to Changping depended on Wu Liqian alone. The most important reason was that Wu Liqian’s importance in Zeng jianzhang’s eyes had far exceeded the past.

After listening to Zhu zhihang’s report today, Zeng jianzhang’s curiosity about Xia ruofei increased. He tried to ask about Xia ruofei and did not expect to get some useful information.

After working as the Secretary for two years, he was fortunate enough to attend a training course at the party school. The lowest rank in the class was an advanced student, which was the minimum threshold to enter the highest school in the party. The training course had allowed him to accumulate a lot of connections.

Today, Zeng jianzhang was actually just trying his luck by giving a call to a student from the party school who was working in the Beijing Ministry.

This student from the party school was already a Deputy Director back when he was attending a training class. Now, he had been promoted by one rank and became the head of an important Department.

Zeng jianzhang’s phone call was mainly to catch up and to mention Xia ruofei. He didn’t expect his classmate from the Communist Party school to know Xia ruofei.

And according to this student from the party school, Xia ruofei was quite famous among the second and third generation in the capital. He was very close to a few nouveau riches with strong backgrounds.

Zeng jianzhang’s mind was jolted when he heard this. He thought of Zhu zhihang’s report that Xia ruofei had said that Wu Liqian’s leave of absence did not need the county to show up.

At first, Zeng jianzhang thought that Wu Liqian would ask Tian Huilan for leave. After all, she was Tian Huilan’s former Secretary! Now it seemed that Xia ruofei had asked for the leave.

A successful entrepreneur with powerful connections at the top. In Zeng jianzhang’s eyes, this was someone worth befriending.

Xia ruofei and Wu Liqian were obviously very close, so Zeng jianzhang quickly decided to pick them up personally. This was not only a form of compensation for the grievances that Wu Liqian had suffered, but also a way to express his goodwill to Xia ruofei.

Wu Liqian didn’t know about Zeng jianzhang’s thoughts, so she was a little reserved all the way. She only felt a little more at ease when she returned to her dormitory after having supper at the hotel.

Wu Liqian didn’t even bother to take a shower. She took out her phone and called Xia ruofei.

"Sister Qian, have you reached the three mountains?" Xia ruofei smiled and asked, "I saw that today's flight is quite late on the flight monitor."

Xia ruofei was the one who had booked Wu Liqian's flight ticket, so he naturally knew the details.

When Wu Liqian found out that Xia ruofei was still following her flight information on the internet, she could not help but feel warm inside.

She smiled and said, "yes!" He had been in the capital for a long time! After I landed, Secretary Zeng and County Head Zhu insisted on welcoming me, so I'm only home now ..."

Chapter 1945 The difference between heaven and earth (2)

"That's really tiring!" Xia ruofei said, "rest early today! You'll be officially taking over the job tomorrow!"

Wu Liqian smiled and said, "it might be difficult for others to do this job, but it's not a challenge for me!" Don't tell me you're going to set up an obstacle for me?"

"Hahaha! That's hard to say! This is business!" Xia ruofei laughed carefreely. "You represent the Changping County government, and I represent the peach blossom company. We're on different sides!"

"How could it be different?" Wu Liqian also laughed. "This is a win – win cooperation, okay? We're all on the same side!"

"Woof! She's already in working mode! "Sure ..." Xia ruofei said.

Wu Liqian couldn't help but giggle. After teasing Xia ruofei for a while, she felt more relaxed.

After chatting for a while, Wu Liqian said, ""Ruofei, Secretary Zeng and County Head Zhu went to the airport to pick us up today. I was shocked when I walked out of the passage!"

"There's such a thing?" Xia ruofei was also surprised.

"Isn't that so?" Wu Liqian said, "and when we had supper at night, the two leaders were very polite and kept toasting me. To be honest, I was a little flattered! Ruofei, I feel like something's not right. This doesn't seem like their style!"

Xia ruofei smiled and said, "Hi!" What are you thinking about? Perhaps they were placing too much importance on the Taoyuan pharmaceutical factory project. This was called treating the wise with respect. Who asked you to be the key person in bringing in this project? Sister Qian, although you're in Beijing, I'm sure you're aware of the situation in Changping County. Secretary Zeng and County Head Zhu are in urgent need of a big project to strengthen their hearts! At present, they were in a very passive situation! You're helping them when they're in need, so it's only right that they be polite to you!"

After Wu Liqian heard this, she smiled and said, ""Mm! I don't want to think too much about it. I'll try to get this job done as soon as possible, and then I have to go back to Beijing for training!"

"You're going back?" Xia ruofei said, "Liu haojun has already left. You ..."

“This is a formal training class, and the standards are so high. You can’t just quit if you want to! Moreover, the teaching professors were all of high standards! How can we waste such a rare learning opportunity?” Wu Liqian said.

“Alright then!” Xia ruofei said, “you’re a good kid who loves to study!”

.....

The next morning, Wu Liqian, who was exhausted from the journey, did not follow Zeng jianzhang’s instructions to rest at home. Instead, she came to the office early.

Regarding the Tao Yuan pharmaceutical factory project, a Task Force had been set up in Changping County. As the person – in – charge of this Task Force, Wu Liqian gathered everyone for a meeting on the first day she returned to work.

In the past, Wu Liqian’s prestige had plummeted because of Liu haojun’s various constraints. Everyone looked at her with contempt.

But this time, everything had returned to normal. Everyone even looked at them with more respect. It was no secret that Zeng jianzhang and Zhu zhihang had personally gone to pick them up and waited at the airport for more than two hours. Almost everyone in the agency knew about it.

What’s more, Liu haojun, who had always been against Wu Liqian, had left with his tail between his legs. Wu Liqian had taken a step further and firmly held the project that everyone was drooling over in her hands. Her authority was immediately different, and everyone could not help but respect her.

The task force was made up of elite personnel, including the director of the government office, Shi Qingyuan, who was the Deputy Team Leader of the task force and assisted Wu Liqian in handling some specific Affairs.

Wu Liqian mobilised everyone and divided the work. Some were in charge of coordination, some were in charge of communication, and some were in charge of logistics support, etc.

At the end of the meeting, Wu Liqian said, ““Director Shi, contact the Paradise Corporation immediately after the meeting. I hope to have our first business meeting with them today!”

“Alright, County Head Wu!” Shi Qingyuan said, “however, it might not be so easy to talk to the peach blossom company. We’ve been rebuffed a lot before. Even though President Xia has given us a heads up this time, we can’t expect them to be very efficient. ”

Wu Liqian frowned slightly. She had not even started work, and she was already discouraged. How was she going to progress in the future?

She said indifferently, “you’ll be in charge of contacting them!” Report to me immediately if you encounter any difficulties!”

“Alright!” Shi Qingyuan said lazily.

It wasn’t that he had anything against Wu Liqian. In fact, he was a little uncomfortable with the peach blossom company’s attitude. He had been rebuffed by Xia ruofei last time.

To Shi Qingyuan's surprise, when he contacted the peach blossom company, they immediately became much more enthusiastic when they heard that he was from Changping County and that it was Wu Liqian who asked him to contact them.

When Shi Qingyuan mentioned that he hoped to meet with the Paradise Corporation today to discuss the specific investment matters, the company agreed without much hesitation. The time was set at around 10 am, and it was not to go to the Paradise pharmaceutical factory, but to the company's headquarters, the Paradise building.

Calculating the time, it should be just right for him to leave Changping and drive to the Taoyuan building in the city.

Shi Qingyuan quickly reported the situation to Wu Liqian.

"Let's go now!" Wu Liqian said immediately.

After a while, a Buick junyue and a Buick minivan drove out of the government compound one after another and headed toward the city.

At the peach blossom mansion.

When Shi Qingyuan got out of the car, his eyes almost fell out of their sockets. He saw the chairman of paradise Corporation, Xia ruofei, standing at the entrance of the building, waiting with a smile on his face.

After seeing Wu Liqian, Xia ruofei even took the initiative to greet her and said very politely, "Mayor Wu! Welcome, welcome! I was wondering why I heard the chirping of Magpies today! So it's an important guest!"

Shi Qingyuan could not help but think, "you're on the 15th floor, can you hear the Magpies?"

He thought of the scene when he accompanied Zhu zhihang to visit here yesterday.

They almost couldn't even enter the door! Not only did Xia ruofei not welcome them personally, but he also made them wait in the reception room for more than an hour. In the end, they talked for more than 20 minutes.

It was really infuriating to compare people! The difference in treatment before and after was too great!

Wu Liqian felt warm inside when she saw Xia ruofei's bright smile. She took a step forward and said, "President Xia! Hello there!"

"Everyone, please come in!" Xia ruofei smiled and said, "today, I've gathered factory manager Xue and the two experts he invited. We can have a good talk about the investment!"

Then, Xia ruofei said, "Oh right, I've already booked a private room at the Ling Ji private kitchen. I think it's almost lunchtime after the discussion. County Head Wu, how about giving me a chance to treat everyone to a meal?"

"Mr. Xia, we should be the ones treating!" Wu Liqian said with a smile.

"It's the same no matter who's treating!" Xia ruofei said, "it's decided then! Come, County Head Wu, please come in!"

In the working group, other than Shi Qingyuan, there were two other people who had accompanied Zhu zhihang here the day before. When they saw this scene, they were also shocked.

Xia ruofei personally brought Wu Liqian and the others to the meeting room. On the Paradise corporation's side, Xue Jinshan, the two experts invited from outside the pharmaceutical factory, as well as Feng Jing, Dong Yun, and the others were already waiting in the meeting room.

Seeing this, Shi Qingyuan felt that there might be a chance.

Xia ruofei was planning to talk to the people from Changping County personally. He had been rather cold to them yesterday and had directly kicked the ball to the pharmaceutical factory. Today, Wu Liqian was the one who came, and the standard was immediately different.

As expected, after everyone was seated, Xia ruofei said, "County Head Wu, everyone here is quite familiar with each other, so I won't introduce you. Let's get straight to the point! I want to hear what kind of preferential treatment and support measures can Changping County give us if the Tao Yuan pharmaceutical factory project is located in Changping?"

Chapter 1946 Showing off their acting skills (1)

"The treatment is indeed different!" Shi Qingyuan thought to himself, let's get straight to the point. It seems like there's a high chance of winning this project!

Wu Liqian opened the folder and said, "President Xia, after our Standing committee's discussion, if the Paradise Corporation chooses to invest in Changping, we will provide preferential policies in land acquisition, tax collection, and many other aspects. As far as I know, these preferential policies are already quite large, and are rarely seen in recent investment projects!"

After that, Wu Liqian turned her eyes to the folder in front of her and said, "To be specific, it's like this! Regarding land acquisition, we can fully cooperate with the Paradise Corporation. We will be in charge of coordination regarding the collective land. The entire land will be transferred to the Paradise Corporation as industrial land, and the transfer fee will be 30% off this year's base price. In terms of tax, the first three years of enterprise income tax and value added tax were exempted, and the second two years 60%; As for the basic facilities and supporting construction, including the construction of power supply lines, road construction, water supply network, etc., The cost will be borne by the Changping County government. Of course, this part of the cost will need to be funded by your company and then deducted from the land transfer fee!"

Wu Liqian briefly explained the preferential measures that the Standing Committee had decided on the last time. Then, she looked up at Xia ruofei and said, "President Xia, our Changping County is very sincere! These preferential measures are basically the highest authority of the county level. As for the basic facilities and land transfer fees, we still need to ask the higher-ups, but this shouldn't be a big problem."

Xia ruofei tapped his fingers on the table and said noncommittally, "County Head Wu, our company has been inspecting several nearby districts and counties during this period of time. Everyone can see that

the Taoyuan pharmaceutical factory project is a super high – Quality project. It will have a very obvious pulling effect on the local economy, so the districts and counties we inspected are all welcoming this project with both hands. In terms of preferential policies, the plan provided by Changping County doesn't have much competition!"

Hearing this, Shi Qingyuan could not help but look at Xia ruofei deeply.

He had thought that the negotiation would go smoothly with Wu Liqian's help. At the beginning, Xia ruofei had given off the same feeling. He had personally come downstairs to welcome them with a kind attitude. However, when they got to the main point, Xia ruofei did not speak so easily.

Business was business, and no one could find fault with Xia ruofei's actions.

Wu Liqian's expression didn't change. She smiled and said, "Director Xia, what about the preferential policies that the other districts have given?"

Xia ruofei shrugged and said, "I don't think it's convenient to disclose this." This is also considered a trade secret. If I say it directly, won't the leaders of the other districts and counties blame me?"

Feng Rao, Xue Jinshan, and the others could not help but laugh in their hearts.

In fact, the offers given by everyone were more or less the same. Most of the places they inspected were the districts in the outskirts of the three mountains. These places had the same authority as Changping County. If Changping County couldn't give them any offers, these places couldn't make their own decisions.

However, Xia ruofei's current situation was just right. Furthermore, it was the Chang Ping County that needed the peach blossom company's help. Even if Chang Ping County asked other districts about the specific preferential measures, let's not talk about whether these competing districts and counties would be willing to tell them. Even if they took ten thousand steps back and asked, what could they do even if they found out? All of these were just verbal promises, and they had not been carried out on paper.

However, it was very useful as a negotiation strategy.

Wu Liqian smiled and said, "director Xia, we very much welcome peach blossom company's investment in Changping. We're also very sincere about the relevant preferential policies. It's basically the biggest discount we can offer within our authority." "Of course, for a high – Quality company like paradise Corporation, we can still give more support, but we need to ask the higher – ups for instructions ..."

"No problem," Xia ruofei nodded, "we're very patient. I hope that this investment is a win – win cooperation, and this cooperation plan has to satisfy both of us!"

"Alright!" Wu Liqian nodded. President Xia, let's stop here for today. I still need to report to County Head Zhu and Secretary Zeng. There are some questions that I need to ask the city. "

"County Head Wu, stay for lunch!" He said. Xia ruofei immediately replied, "I've already made a reservation. The 'Buddha Jumps Over the Wall' from Ling Ji's private kitchen is still very special!"

Wu Liqian immediately recalled the scene where Xia ruofei treated her to Ling Ji's private restaurant 'Buddha Jumps Over the Wall' and her heart warmed.

She smiled and said, "let's wait until we reach an agreement next time!" I still have to report to my leader today, so I won't bother you anymore, President Xia!"

Shi Qingyuan and the others could not help but shout in their hearts, "It wouldn't be too late to go back after eating! What did it matter if he reported a few hours earlier or later? Ling Ji's private kitchen 's' Buddha Jumps Over the Wall 'was something that one couldn't get to eat normally even if they had money!

Of course, no one would be willing to spend half a month's salary on a 'Buddha Jumps Over the Wall' with the normal income of the system.

However, Wu Liqian, the leader, had already stood up. Even if Shi Qingyuan and the others were reluctant to leave, they had to stand up as well.

Chapter 1947 Showing off their acting skills (2)

They consoled themselves by thinking, "even if I didn't succeed this time, I'll definitely be able to succeed next time. As long as I'm still on the working group, I'll definitely have a chance!"

"President Xia, we'll take our leave first!" Wu Liqian said, "we'll come up with a new preferential policy as soon as possible. I hope both sides can reach a consensus by then!"

"Then I'll wait for the good news!" Xia ruofei stood up and smiled.

He personally sent Wu Liqian and the others downstairs, which could be said to be full of etiquette.

Xia ruofei watched as Wu Liqian's car left the peach blossom mansion. He couldn't help but think of the scene in the morning ...

As soon as he arrived at the office on the 15th floor of Taoyuan building, he received a call from Wu Liqian.

"Sister Qian, why are you up so early?" Xia ruofei joked, "you were so tired yesterday. You should have a beauty sleep today, right?"

"You've given me so many things to do, how can I sleep!" Wu Liqian smiled and said, "ruofei, I'm going to call for a meeting with the members of the working group later. Let's cut to the chase!"

Xia ruofei stopped joking and asked, "Sister Qian, why did you call me so urgently? is there something wrong?"

"Today, I'll officially start to get involved in the project to bring in the Paradise pharmaceutical factory." Wu Liqian said, "I'll mobilize the team and divide the work. Then I'll get someone to contact your company and request a meeting to discuss!"

Xia ruofei replied casually, "no problem!" I've already informed the people below, just bring your people over! Since sister Qian is back in charge of this work, it doesn't matter if we talk about it or not. We'll just go through the motions, sign the letter of intent, and you can just wait to receive your political achievements!"

"I knew you would be like this," Wu Liqian said coyly. "I called you first!"

“What’s wrong? Is there something wrong?” Xia ruofei asked in confusion.

“Of course it’s wrong!” Wu Liqian said. I’m telling you, during our meeting today, you have to express your dissatisfaction with Changping’s offer. It’s best if you compare it with the offers from other places, and then I’ll fight for a bigger offer for you!”

“Ah?” Xia ruofei was stunned. “To be fair, the preferential policy that Changping County has given us is actually quite good!”

“If I were in charge of the negotiations from the start, I would also think that this preferential policy plan is not bad!” Wu Liqian said, “but the situation is changing every day. Based on the current situation, you can totally ask for more benefits and support! And Secretary Zeng and County Head Zhu will definitely do their best to make it happen!”

Xia ruofei couldn’t help but laugh and teased, “Sister Qian, this isn’t your style! You’ve always had a high level of awareness, why are you helping an outsider today?”

Wu Liqian could not help but ask, “So you’re treating yourself as an outsider! RUO Fei, what you said makes me very sad!”

“I didn’t mean it that way!” Xia ruofei smiled bitterly.

Wu Liqian laughed and said, “I’ll get you more discounts.” Pretentious!”

“Of course, the more preferential policies, the better!” Xia ruofei said, “but you’re now in charge of bringing in this investment. The smaller the cost, the better your results will be, right?”

“You don’t have to worry about that! As long as I can successfully complete this project, it will be my greatest achievement! “As for the price, there’s basically no difference in the system. This is not a private company, so there’s no KPI or anything!” Wu Liqian said, “it’s mainly because there was a problem with what Changping County did. If Secretary Zeng had been more determined from the beginning, I think the pharmaceutical factory would have already started construction! Therefore, we have to pay a little more price to teach them a lesson and make them remember!”

Xia ruofei laughed and said, “sure!” I quite agree with this! We’ll do as you say!”

Hence, Xia ruofei and Wu Liqian’s question and answer session in the conference room of the Tao Yuan building in the morning had actually been discussed over the phone and even rehearsed.

The two of them put on a show together. Other than Shi Qingyuan and the other members of the Changping County Task Force, Feng Jing, Xue Jinshan, and the others were also kept in the dark.

They followed Xia ruofei to see Wu Liqian off.

After the car left the Tao Yuan building, Feng Jing smiled and said, “Chairman, you’re taking advantage of the situation! Aren’t you afraid that Changping County will be eliminated and not play?”

Xia ruofei shrugged and laughed. “I don’t care! Even if they don’t want to play, there are plenty of people who are willing to play with us! Moreover, it’s not like we’re taking money out of their personal pockets to subsidize the company. They won’t be angry. They’ll only do their best to help us fight for it in a higher level organization! After all, they’re more eager to get this project than anyone else!”

“You’re right!” Feng Jing said, “but Mayor Wu is your friend! You’re even taking advantage of your friends ...”

“How am I scamming her! I’m clearly helping her, okay?” Xia ruofei said, “at first, Changping County was already eliminated. Now that she’s back, I’ve given them another chance to enter the arena. This is the greatest result!”

“Fine, fine, fine. You’re right anyway!” Feng Rao smiled and said, “by the way, Chairman, don’t forget about the Hong Kong auction the day after tomorrow! That’s the most important item of all, and all of our auction items are prepared by you! The promotion has been going on for a few days now, and everyone in Hong Kong is watching us with wide eyes! If you screw up at the critical moment, you’ll be embarrassed!”

“Ah! CEO Feng, I don’t like what you’re saying!” Xue Jinshan said, “why is it that you lost a great deal because of a small gain? The pharmaceutical factory is also a big deal, okay?”

Feng Rao couldn’t help but burst into laughter. “I forgot that factory manager Xue is here too ... Right, right, right, the pharmaceutical factory is a big deal too. We must take it seriously!”

“Why do I feel like you’re being perfunctory ...” Xue Jinshan said with a depressed expression, causing everyone to burst into laughter.

Actually, Xue Jinshan was mostly joking. He also knew that the pharmaceutical factory project would most likely fall in Changping. The previous inspection was just a smokescreen. Now that the negotiation for this project was very close to success, his mood was naturally quite bright.

.....

It turned out that Wu Liqian’s analysis was quite accurate.

After she went back, she reported to Zhu zhihang and Zeng jianzhang that the leader and vice leader of the Changping team quickly decided to give paradise company more preferential policies. They were really eager to introduce this project.

The three of them had a small meeting in Zeng jianzhang’s office and roughly decided on a new discount plan.

In this new plan, the preferential rate of land transfer would be increased from 30% to 50%. In other words, the Paradise company could use 50% of the base price of industrial land in that year to get the land they needed.

The tax preferential treatment was directly reduced from a complete exemption for the first three years, and a 40% discount for the next two years to a complete exemption for five years.

In terms of basic facilities, Changping County had once again given them preferential treatment. As a result, the profits of the power companies and water companies might decrease a lot, but they couldn’t care so much now.

Of course, in the previous plan, Changping County would be responsible for the basic facilities, but this required the peach blossom company to pay for the construction. If the price in this area was

discounted, the amount of funds that the peach blossom company needed to pay would naturally be less.

The land transfer fee could also be paid for a long time, divided into three years.

Zeng jianzhang even proposed that if the Paradise company was still not satisfied, they would promise to give preferential electricity prices within three years.

One had to know that once the Taoyuan pharmaceutical factory was built, with their snowflakes of orders, they would basically be working 24 hours a day. With so many production lines running together, the consumption of electricity was also huge. Even if the electricity was discounted by 10 cents and 50 cents per kilowatt – hour, it would still be a rather large figure in a year.

This was equivalent to cutting a piece of meat from the power system. Only a senior secretary like Zeng jianzhang had the ability to coordinate it successfully!

Although this was not included in the new plan, they had a “mole”, Wu Liqian, among them. This electricity bill discount policy was most likely inevitable ...

Chapter 1948 Full of Yuan Yuan (1)

The rest of the work progressed quite quickly.

The next morning, Wu Liqian brought the team to the Tao Yuan mansion again. Xia ruofei personally came out to receive them. After a short discussion, Xia ruofei seemed to be interested in the new preferential policy proposed by the Changping County, but he had not agreed yet.

Hence, Wu Liqian invited the inspection team from the Paradise Corporation to investigate the location of the factory in Changping County. At the same time, she expressed that she would report Xia ruofei's opinion to the two leaders in the county.

Xia ruofei agreed happily and instructed Xue Jinshan on the spot to have his inspection team go with the Changping County inspection team after the meeting.

In fact, the site selection had already been decided in the early stage, and the inspection by Xue Jinshan and the others was naturally just a formality.

In the afternoon, Xue Jinshan and the others came back with good news. Changping County said that they could give preferential treatment to the pharmaceutical factory's electricity price within three years. Specifically, on the basis of the industrial electricity price calculated by the power company, they would give a discount of 10 cents per kilowatt – hour of electricity during peak and valley hours.

The production line made in Germany was a large consumer of electricity. Xue Jinshan estimated that after the new pharmaceutical factory started production, the electricity bill would be saved at least one or two million Yuan.

Changping County was very sincere.

Naturally, Xia ruofei already knew this. He thought for a while and asked Xue Jinshan to inform Changping County that the peach blossom company had agreed to let this project land in Changping County.

Zeng jianzhang and Zhu zhihang were overjoyed after hearing Wu Liqian's report.

The two of them immediately asked Wu Liqian to bring some people to the Paradise company on the same day to discuss some specific terms.

Because of Liu haojun's incident, the topic of public opinion had been at its peak. It was said that the city leaders were also dissatisfied with Changping County. The two of them felt like they were being roasted on a fire. This news was like charcoal in the snow.

According to Zeng jianzhang, he naturally hoped that this matter would be settled on paper as soon as possible. Xia ruofei didn't want to delay any longer. He had to fly to Hong Kong tomorrow to prepare for the auction, so they hit it off.

In the afternoon, Wu Liqian brought Shi Qingyuan and the others to the Paradise company. Together with them were the leaders of the county power company, water company, public road Bureau, and other related units.

Xia ruofei didn't show up at the peach blossom company.

The general direction had been set, so Feng Jing, Dong Yun, Xue Jinshan, and the others would follow up on the rest of the details.

Since four o'clock in the afternoon, the two parties had been in the conference room on the 14th floor of the peach blossom building. They talked and discussed one by one, putting the previous consensus on paper and forming the first draft of the letter of intent for investment.

This letter of intent not only clearly stated all the preferential policies that Changping County had promised, but it also marked the specific scope of the Taoyuan pharmaceutical factory and the land acquisition for Taoyuan farm.

At the same time, the Paradise Corporation also made corresponding promises. For example, the first investment would not be less than 500 million Yuan, and they would provide no less than 500 jobs for Changping County. These were all written in black and white in the letter of intent.

Even though the general direction had been set, the specific terms still needed to be negotiated and coordinated by both parties.

Therefore, it was not until 10 P. M. That the first draft was finally out.

Xia ruofei didn't leave either. Feng Jing immediately sent the first draft to Xia ruofei's office.

Xia ruofei glanced through it and signed a line on the cover."Agree to use this letter of intent to sign a contract with Changping County!

It was a success! After Shi Qingyuan and the rest saw Xia ruofei's signature, they all heaved a long sigh.

Wu Liqian also nodded secretly. In her opinion, although this matter had gone through many twists and turns, it was finally perfect now.

Wu Liqian and the others declined Xia ruofei's invitation for supper and rushed back to Changping County overnight. Zeng jianzhang hoped to sign the contract as soon as possible, so the contract signing was set for tomorrow morning.

Zeng jianzhang and Zhu zhihang naturally hoped that the signing ceremony would be as Grand as possible, so Wu Liqian had to prepare for the signing ceremony tomorrow morning with the team.

Some of the staff had already contacted the major media outlets while the two sides were still discussing the specific terms in the afternoon.

There were also staff members who were in contact with the advertising company and the conference management company to prepare some materials in advance, including the design of the background board, spray painting, and so on.

Tonight, they still had to set up the venue, adjust the lights, sound system, and so on. They would basically be busy all night.

Shi Qingyuan and the others 'wish to taste the' Buddha Jumps Over the Wall 'was once again in vain. At the very least, it would have to be pushed back a little.

.....

The next morning, at around 9 am, Xia ruofei, Feng Jing, Dong Yun, Xue Jinshan, and the others arrived at Changping County in a Mercedes – Benz that Tao Yuan company had just purchased.

Today's contract signing ceremony was held at Li Gang hotel in Changping County.

This was the best hotel in Changping County. It was built to the standard of a five – Star hotel. Most importantly, Li Gang hotel had a Grand meeting hall.

When Tao Yuan company's car stopped at the entrance of Li Gang hotel, the main leaders of Changping County, Zeng jianzhang, Zhu zhihang, and Wu Liqian had been waiting for a long time. As soon as the car stopped, Zeng jianzhang led the group to welcome them. It could be said that the standard of reception was quite high.

Chapter 1949 Full of Roly Poly (2)

"President Xia! President Feng! Welcome, welcome!" Zeng jianzhang said with a red face.

"Secretary Zeng, you're too kind!" Xia ruofei smiled and said, "we can't afford to be welcomed by you personally!"

"Where? President Xia's decision can be said to benefit the 700000 people of Changping!" Zeng jianzhang laughed and said, "anyone who can help the development of our Changping County is our honored guest! Of course I have to personally welcome him!"

Zeng jianzhang was a wily old fox in the system, so these polite words naturally came out of his mouth.

Xia ruofei said a few humble words and walked into the hotel with Zeng jianzhang.

The contract signing ceremony was at 10 O' clock. Before that, Xia ruofei and the others were arranged to rest in a lounge next to the conference hall, accompanied by Zeng jianzhang.

Xia ruofei saw that Wu Liqian looked tired and was still busy with the signing ceremony. He couldn't help but feel concerned. He wanted to let Wu Liqian sit down and rest, but he thought about it and decided not to.

Xia ruofei knew that the more Wu Liqian did, the greater her achievements would be. It would be best if she could complete it all by herself and the other leaders could not interfere.

At Teno' clock sharp, all the reporters in the conference hall were already there. The photojournalists were busy looking for seats to set up their machines, while the text journalists were mostly editing scripts or conceptualizing today's press release on their laptops. Some people were also chatting with other media reporters who were familiar with them.

The lights in the conference hall changed, and the lights on the podium in front were brighter.

The next moment, Zeng jianzhang and Xia ruofei walked out side by side, followed by Zhu zhihang, Wu Liqian, Feng Jing, and Xue Jinshan.

The stage lots were already set up on the stage, and everyone took their seats according to their names. The venue gradually quieted down.

The reporters looked curiously at Xia ruofei, who was sitting beside Zeng jianzhang.

The notice of the interview they had received was not very detailed. It only said that the government of the Changping County party Committee had important news on investment attracting and now that Xia ruofei had appeared at the press conference, it meant that the news about the construction of a branch of the Taoyuan pharmaceutical factory that had been spreading around was true. Furthermore, this project that had become popular had been pulled in by Changping County?

The reporters' interest was immediately piqued. The reporters who had originally wanted to come over to take a transportation fee, then take a draft and go back to edit it. If the coverage was enough, they would post a piece of news for the sake of Changping County, but they also put away their indifferent attitude and looked towards the stage.

Ever since the qiuhan incident, Xia ruofei's popularity on the internet had not decreased. As long as he updated his Weibo, even if there was nothing interesting, there would be thousands of comments at the end. This kind of popularity could not even be compared to some a – list celebrities.

It could be said that Xia ruofei was now the main source of traffic. As long as there was news related to him, it would definitely be a hit.

As a reporter, which one of them didn't want the news they wrote to be a hit?

After everyone was seated, Wu Liqian, who was sitting on the far left side of the podium, opened the microphone in front of her. She was the emcee of today's signing ceremony.

Zeng jianzhang had arranged for Wu Liqian to host the signing ceremony, which was also a form of recognition of Wu Liqian's position in the project.

Wu Liqian looked around at the reporters below the stage and said, ""Thank you to all the media friends present for coming to our signing ceremony and press conference today! First of all, please allow me to introduce the leaders and guests who will be attending the signing ceremony!"

"They're ... The Secretary of the committee of Changping County, comrade Zeng jianzhang! Zhu zhihang, head of the Changping County People's Government! Mr. Xia ruofei, Chairman of paradise Corporation! Mrs. Wu Liqian, the president of paradise Corporation! Mr. Xue Jinshan, the director of Taoyuan pharmaceutical factory! I'm Wu Liqian, the deputy head of Changping County. I'll be the host of today's press conference!" Wu Liqian said.

There was a round of sparse applause from the audience.

"Next, I'll first invite Secretary Zeng to announce the news!" Wu Liqian said.

Zeng jianzhang opened the microphone in front of him with a smile, cleared his throat, and said,""Welcome to the media. I have good news to announce today. After a long discussion, the Paradise Corporation has decided to build a branch of the Paradise pharmaceutical factory in Changping County!"

The reporters had an "I knew it" look on their faces, and all of them were eager to ask questions.

However, it wasn't time for the media to ask questions yet, so they could only suppress their anxiety and listen carefully to Zeng jianzhang's speech on stage.

"As we all know, paradise Corporation is a high – Quality company with great potential for development. The Jade skin cream produced by paradise pharmaceutical factory is popular all over the world, and the heart – nourishing soup has also benefited countless families with autism. I think it means a lot to our Changping to have such a company choose Changping!" Zeng jianzhang said,"first, it's about the social influence ..."

Zeng jianzhang's speech had a lot of formal words, but the reporters had also recorded the entire process with their recording pens.

In the end, Zeng jianzhang said with a smile,"I can reveal a few specific figures to you here. The total investment amount for this project is more than 1.5 billion. The initial capital for the first phase is as high as 500 million! And after the completion of the Taoyuan pharmaceutical factory, it would provide at least 500 jobs in Changping County! It was foreseeable that the factory manager of Taoyuan pharmaceutical would become a booster for the economic growth of Changping County! I'm full of confidence in this!"

The reporters applauded enthusiastically, not because Zeng jianzhang's speech was wonderful, but because he had finally finished ...

"Thank you, Secretary Zeng!" Wu Liqian said,"let's welcome Mr. Xia ruofei, the chairman of the peach blossom company, to speak!"

Xia ruofei smiled and patted the microphone lightly. Then, he moved closer to the microphone and said,""Thank you, reporter friends, for coming! Why do I feel that all of you look so familiar! We've been seeing each other a little too many times recently!"

The reporters in the audience suddenly laughed. A bolder female reporter said loudly,""This means that you've been especially popular recently, President Xia!"

“Hahaha! I don’t know if it’ll be popular or not! “I knew I had to be more careful when dealing with you guys. Once I’m not careful with my words, you’ll immediately magnify them ...” Xia ruofei said half – jokingly.

“President Xia, you’re the pride of our three mountains! We definitely won’t slander you!” The female reporter said loudly. She looked like a fan of Xia ruofei.

“I’ll remember that! The next time I see any negative news about me in the newspapers or on the internet, I’ll come to you!” Xia ruofei said.

“No problem!” The female reporter patted her chest and said. The shaking waves made the male reporter beside her steal a few glances.

Xia ruofei’s casual conversation with the reporter drew everyone closer.

In fact, in some foreign talk shows or speeches, a joke would usually be told on stage to make the atmosphere a little more relaxed.

Xia ruofei continued, “alright!” Let’s get back to the main topic! The Paradise Corporation had chosen Changping County after rigorous inspection and verification. “First of all, I would like to thank Changtai County and the other districts. For the location of the Taoyuan pharmaceutical factory branch, our company has almost gone to all the districts and counties around the three mountains. Wherever we go, we receive a warm welcome. Thank you!”

“Although we chose Changping this time, I believe that the pharmaceutical factory will expand again.” Xia ruofei said, “we will have many opportunities to work together in the future!”

Then, Xia ruofei said, “I don’t want to introduce the project of the Taoyuan pharmaceutical factory.” Thank you to the leaders of Changping County, you’ve provided us with a series of favorable policies that we can’t refuse. It can be said that you’re protecting the stable start and rapid development of the pharmaceutical factory!”

Next, Xia ruofei briefly introduced the factory’s scale, the number of production lines, estimated production capacity, the number of jobs available, expected annual interest tax, and so on. After the introduction, Xia ruofei ended his speech.

Wu Liqian followed the procedure and said, “The next stage is the signing of the letter of intent between the peach blossom company and Changping County! Please welcome Secretary Zeng and Chairman Xia!”

Chapter 1950 Small trick (1)

Xia ruofei stood up and made way for Zeng jianzhang. Then, the two of them walked side by side to a signing table that had been prepared.

The two of them sat down behind the table, and the assistant handed over the contract of intent.

After the two signed the contract, they exchanged it and signed it again. It was a symbolic signing ceremony.

In fact, this was just a prop. The real contract of intent had already been signed in the lounge under the witness of the lawyer. It was the same as a lottery winner taking a picture of a prop check.

After all, this contract of intent involved many detailed terms in many aspects, and both parties were very cautious. In this situation, it was impossible to check each one by one, so it must be signed in advance.

Although if the local government wanted to renege on their promise, it was basically a situation where there was no way to Sue, no matter what, the contract still had to be treated with caution.

Moreover, this was a combination of interests in itself. As long as Taoyuan pharmaceutical factory could continue to shine, continue to generate profits and taxes for Changping County, and increase GDP, the possibility of Changping County breaking their promise was very low.

Besides, Xia ruofei was not worried that Changping would go back on their word or wait for the pharmaceutical factory project to start construction. If they really made him angry, he could play his Cards against the rules. Song Qiming, the head of the three mountains, treated him like his own nephew. As long as he was in the right, he could not sit by and watch him get bullied by Changping.

After the contract was signed, Xia ruofei and Zeng jianzhang stood up and shook hands with each other. At the same time, they showed the contract of intent to the camera. Of course, it was only the cover of the folder.

The reporters were also very supportive of Xia ruofei and pressed the shutter. Under the camera light, Xia ruofei, who was wearing a tailored suit, looked very radiant. Even Wu Liqian, who was sitting on the side of the podium, couldn't help but feel a little lost.

She shook her head lightly and waited for Xia ruofei and Zeng jianzhang to return to their seats before she said, ""Next up is the media Q & A segment. I'll appoint the media friends to ask questions. Please introduce yourself before you ask questions. Thank you for your cooperation!"

As soon as Wu Liqian finished speaking, the reporters below the stage immediately raised their arms in unison.

"The lady in orange in the middle of the front row!" Wu Liqian pointed at a female reporter and said.

The female reporter took the microphone from the staff and said, ""Thank you, emcee! I'd like to ask Secretary Zeng, during this period of time, there have been rumors on the internet about Deputy Secretary Liu haojun of Changping County's lifestyle. Can Changping County provide positive and specific information?"

Zeng jianzhang's face sank slightly. Today was their day to hold their heads up high, but the first reporter came up to them and touched on a sore spot. Wasn't this too disrespectful?

Xia ruofei maintained his smile. It was none of his business anyway, so he was just a quiet onlooker. That was good.

Wu Liqian also frowned slightly and asked, ""My reporter friend, I just reminded you to tell me which media you're from before you ask questions. You haven't introduced yourself yet."

Today's press conference was arranged in a hurry. As for the media, Changping County wasn't as well prepared as before. At least, they didn't give the media some preset questions. But generally speaking, the seating arrangement of reporters was also very particular. This female reporter's seat was in the middle of the first row, which meant that the media she represented should not be small.

The female reporter showed a reserved smile and slightly raised her chin. "I'm sorry, I forgot! I'm a reporter from Beijing News Group and Yanjing E family network! Secretary Zeng, can you answer my question now?"

Wu Liqian couldn't help but frown. The questions of new media reporters were often sharper than those of traditional media reporters. Moreover, Yanjing E family website was a website under the Beijing newspaper group. This website was not only a local website in Beijing. In fact, in the past few years, the Yanjing E family website had developed rapidly and was already a comprehensive portal website. Its reporter stations were spread all over the major cities in the country.

This was also the reason why this female reporter could get such a good position. The staff of Changping County must have arranged her position according to the importance of the media.

"I'm sorry," Wu Liqian said. "Today is the press conference regarding the signing of letter of intent between Changping County and Tao Yuan company. It has nothing to do with the topic. We are ..."

"It's alright, County Head Wu. I'll answer this question!" Zeng jianzhang waved his hand.

Wu Liqian looked at Zeng jianzhang, nodded slightly, and closed her mouth.

Zeng jianzhang knew that if he avoided the question, the reporter would make a big fuss about it, and Changping County would be in a more passive position.

These days, Changping County had not responded to this question directly. In fact, they were very passive in public opinion. Since this reporter had brought it up today, they could take this opportunity to clarify.

Of course, there was another reason why Zeng jianzhang had made such a decision.

Zeng jianzhang pondered for a moment, thought about his words, and then said, "Regarding the question raised by this reporter friend, we don't know the specific situation and can't confirm the authenticity of the online rumors. "What I can tell everyone here is that comrade Liu haojun has officially submitted his resignation application to the organization. After we reported it, the higher – ups have approved his application. Just yesterday, comrade Liu haojun has completed all the resignation procedures. In terms of organizational and administrative relations, he is no longer a member of our Changping County."
