

God tier Farm 201

Chapter 201: Spare no expense (1)

Once Xia ruofei returned to the villa, he was surrounded by Hu Zi's mother and the other two. "Ruofei, it wasn't convenient for me to ask since Qingxue was around just now ..." Hu Zi's mother asked, "what does Qingxue's family do?" Lin Qiao's eyes glowed with curiosity. Even ye Lingyun, who was usually quiet, pricked up his ears. "Her family ... Runs a restaurant!" Xia ruofei laughed. "That's good!" Hu Zi's mother said, "it's good to open a restaurant! Now that everyone's living is better, the restaurant's business is not bad!" Lin Qiao laughed and said, "mom ... Sister-in-law's family must be rich!" I've seen the car she drove on the internet. It's worth at least one or two million!" "Argh! It's so expensive?" Hu Zi's mother was also shocked. She looked at Xia ruofei and asked, "ruofei, does Qingxue's family really own a restaurant?" Xia ruofei smiled and said, "Auntie, I'm not lying to you. Her family really runs a restaurant." However, her family's business is quite big ... Oh right, her family's restaurant also has a partnership with me. It's one of the two restaurants that I provide vegetables to every day, called Ling's restaurant. " Ling Ji restaurant was very famous in the southeast province, so Hu Zi's mother had naturally heard of it. When she heard this, she couldn't help but look worried and said, "Oh ... That's a big business! Her family is so rich, so ... Will her elders dislike us?" "Mom, what are you thinking? Sister-in-law's family is rich, and so is brother ruofei!" Lin Qiao said, "he opened such a big farm right after he left the military. Even the rich people in Hong Kong are fighting to buy his truffles!" "That's different ... After all, RUO Fei doesn't have any Foundation. " Hu Zi's mother said worriedly. Xia ruofei smiled and said, "aunty, don't worry about this!" Qiao' er is right, her family is rich, but I'm not that much worse off than them. Besides, Qingxue isn't the kind of person who likes the rich, or she wouldn't be with me!" Hu Zi's mother nodded and said, "yes, ruofei. It's good that you're confident in yourself. Oh, right. In the future, call Qingxue over to play more often. That girl is really likable ..." "Sure, I'll call her over when her company isn't so busy." Xia ruofei smiled and said, "Auntie, you should rest early too. I'll go back to my room first." After greeting Hu Zi's mother and the rest, Xia ruofei went upstairs to his bedroom. He locked the door and windows, summoned the spirit map scroll, and entered the original space with a thought. Xia ruofei had to start preparing the meeting gift for Ling Xiaotian. If Ling Xiaotian liked other things, Xia ruofei might have been a little confused. However, he loved Arowana so much that it was much easier for Xia ruofei. He didn't dare to say about other things in this original space, but there were many Red Arowana. The only problem was that these red Arowana had only been born for a short period of time. They were generally relatively young and had not even started to have hair color. However, to Xia ruofei, this was not a big problem. He took a box and filled it with the water in the space pool. He came to the fish pond where the young red Arowana were raised. Xia ruofei closed his eyes and used his mind to communicate with the spirit map space. Then, he focused all his senses on the fish pond. Soon, he had a panoramic view of the entire fish pond. Slowly, Xia ruofei's attention was focused on the 70 – odd young red Dragon in the fish pond. His mind swept through every single fish. In the end, Xia ruofei chose two young fish, one male and one female. They were the best pair of fish in this batch. Xia ruofei used his mind to "wrap" the two young fish and controlled them to move slowly to the side of the fish pond. In a short while, this pair of young red Dragon fish, about 20 centimeters long, was pushed to the side of the fish pond by Xia ruofei's gentle strength. Xia ruofei squatted down, carefully picked up the pair of fish, and placed them in the sorting box. Then, Xia ruofei moved the sorting box to a small fish pond not far away. This small fish pond was originally dug by Xia ruofei to raise the pair of blood red Dragons. Now that the young fish had moved to the newly dug large fish pond and the two

blood red Dragons had been brought to the outside world by Xia ruofei, the small fish pond was empty. Now, it came in handy. Xia ruofei carefully placed the two young red Dragons into the small fish pond. Then, he walked to the nameless plant and found the preservation box that contained the petals of the strange flower. Xia ruofei picked up a petal with a pair of tweezers and threw it into the small fish pond. Even though the space had a time flow that was 30 times faster, it would still take a long time for the Red Dragon to grow into a Supreme – grade Blood Red Dragon that Xia ruofei could use. Hence, if Xia ruofei wanted to shorten this time as much as possible, he had to continue looking for other help. The petals of the strange flower were undoubtedly a great help. Now, he already had 17 petals, and he was about to get another five, so he didn't feel particularly bad about the gift Yingying prepared for his future father – in – Law. He couldn't be careless at all. It was just a petal, so it didn't matter if he used it up. Of course, in terms of value, a pair of high – Quality blood – Red Dragons could not be compared to a whole petal. However, this was a gift for his future father – in – Law, so Xia ruofei did not care about the cost. The water in the pond was a spatial spirit pond, so when the petals fell into the pond, they immediately dissolved without a trace. The two young red Dragons, who were still not used to the new environment, were like cats that smelled fish. They swam excitedly in the fish pond. From the moment they were born until now, Xia ruofei would occasionally drop a small amount of petal solution into the pond. However, it was diluted and there were very few exotic flower petals in it. Moreover, the fish pond was so big that more than 70 young red Dragons were fighting for it. In the end, they could only get a pitiful amount. But this time, it was completely different. The fish pond wasn't very big. The petals of the exotic flower had dissolved in the water. It could be said that every drop of water contained a large amount of energy from the petals that made them extremely happy. Furthermore, there were no other young fish in the pond fighting for food. The entire petal belonged to the two fish. Xia ruofei's idea was simple. The original space had thirty times the time flow. If he added the spiritual Qi – rich environment in the space, one day inside would be equivalent to more than a month in the outside world. If he did not mind using an entire petal, the growth rate would definitely be greatly increased. He estimated that in a day in the outside world, these two young red Dragons could grow to the level of two or three months in the outside world. In ten to twenty days, this pair of young red Dragon should be able to grow to the extent of normal growth in the outside world for several years. A conservative estimate would be 50 to 60 centimeters long. Most importantly, the red Arowana that had absorbed an entire petal of the exotic flower would definitely be first – Class in quality. When the time came, it would definitely be a good gift for Ling Xiaotian. After observing for a while, Xia ruofei walked around the space to check on the growth of Phoebe zhennan wood, ginseng, and other crops. Then, he went to the new space to replenish the food for xiaohei and the rest and played with them for a while. After that, Xia ruofei checked the oak trees. The oak trees that were moved to the new space were all very energetic. Their leaves were green, and they had probably taken root and survived. However, the new space had the same flow of time as the outside world. It would only take a few days for them to be transplanted here. Hence, Xia ruofei was not in a hurry to remove the wooden sticks that were used as support. Xia ruofei looked around in the new space. The space was getting bigger and bigger. This time, it had not evolved completely, but the new space had reached 30 to 40 acres. If he walked around, it would take a long time. Xia ruofei suddenly had an idea, "can we get a means of transportation to get in?" However, the terrain in this space was uneven and there were no roads. Ordinary cars or even off – road vehicles would be useless in there. Besides, if the vehicle was too heavy, Xia ruofei could not bring it into the space. Take Knight XV for example. If Xia ruofei wanted to move it into the origin space, he would probably have to repeat the dangerous scene when he was transplanting the Phoebe zhennan trees. Xia

ruofei thought as he strolled around. Blackie, fluffy one, and fluffy two followed closely behind him. Suddenly, Xia ruofei thought of a great idea.

Chapter 202: Top – tier UTV_1

When he was in the Army, Xia ruofei had learned how to equip an all – terrain vehicle with an all – terrain vehicle. It was almost the standard equipment for Special Operations. The all – terrain vehicle could adapt to a variety of terrains and had high mobility, cross – country nature, reliability, and durability. Moreover, the military version had the ability to install various standard weapons. It could be said to be one of the most reliable partners of Special Forces on the battlefield. When the all – terrain vehicle flashed through Xia ruofei’s mind, he quickly decided to get one and store it in the medium. Needless to say, the all – terrain vehicle was very practical. For the sake of his military love, Xia ruofei also wanted to own a cool all – terrain vehicle. Although the all – terrain vehicle did not seem to be very useful for now, the new space would definitely continue to expand. Xia ruofei would continue to develop in the future as well. By then, it would be very important to have a powerful means of transportation. After making up his mind, Xia ruofei immediately left the spirit map space. He put away the spirit map scroll and sat in front of the computer to look up information. After checking, he realized that there were quite a few brands of all – terrain vehicles, and they were all selling well. In the past, they were called “beach cars” in China, mainly used for some seaside scenic spots to collect fees. Now, they were gradually being used in other fields. Xia ruofei searched for “Polaris” directly. This was a world – famous all – terrain vehicle brand. The military versions they produced were all directly supplied to the United States Army and were specially used to carry out the deceptive missions of the US Army around the world. Of course, the civilian version of Polaris was also of first – Class quality. Xia ruofei easily found Polaris ‘exclusive store in Sanshan city in the sales section. The next morning, Xia ruofei drove his Knight XV off – Road vehicle straight to the San Shan city. Qingshan District Huaxia Car City. Xia ruofei quickly found the Polaris all – terrain vehicle specialty store. This Knight XV had also earned a lot of attention in the car City. All the people here were in the car industry, so they knew more about cars than ordinary people. Everyone was wondering where this rich man came from, who even drove a Knight XV, and what car he wanted to buy. When Xia ruofei parked his car in front of the Polaris exclusive store, a pretty saleswoman’s eyes lit up and she quickly walked up to him. Anyone who could drive a Knight XV was definitely a tycoon! This kind of customer had to be served well. As soon as Xia ruofei opened the car door and jumped out, the salesgirl immediately greeted him warmly, “Hello, Sir. Welcome to the Polaris exclusive store!” “Hello, I’m here to take a look at the all – terrain vehicle.” Xia ruofei smiled and nodded. “Please follow me!” The female sales assistant quickly said, “Sir, Polaris is one of the best all – terrain vehicle brands in the world, especially our Athlete Series. It is recognized as the world’s strongest ATV with a powerful electronic injection engine and the best shock absorption system. You will definitely be able to find a car to your satisfaction here!” “Oh? Take me to see it first!” Xia ruofei said indifferently. “Sir, this is the model of the athlete 1000. It uses a double – cylinder water – cooled four – Valve engine and has a displacement of 952CC ... This is the athlete 6X6, a six – Wheel all – terrain vehicle ...” The female salesperson’s business ability was obviously very strong. She blurted out the main parameters of each model of the car in the store without looking up any information at all. Moreover, she was able to point out the main selling points of each model. She was indeed a very Good Shopping Guide. However, Xia ruofei still felt that these all – terrain vehicles were not interesting. Compared to the military version he used to play in the Army, the difference was huge. The saleswoman could tell that Xia ruofei was not very interested, so she asked carefully, “Sir, these are all popular models. Are

you satisfied with none of them?" Xia ruofei smiled. "The cars are not bad. But ... I like the more masculine ones." "I understand. I can tell from the car you're driving ..." The saleswoman said with a smile. Xia ruofei laughed. "That's why I want to buy an all – terrain vehicle. It's best if it has a domineering exterior. Of course, the stronger the performance, the better." "I see ..." The saleswoman fell into deep thought. To be honest, the civilian all – terrain vehicles on the market all looked the same, and Polaris Lord was still playing the performance card. Suddenly, the saleswoman's eyes lit up and she said, "Sir, we have a new UTV that might be able to meet your requirements. Please follow me!" The saleswoman led Xia ruofei to the other side of the exhibition hall. After they went around a pillar, Xia ruofei saw a four – seater all – terrain vehicle in khaki paint. His eyes lit up. At first sight, Xia ruofei felt a strong military vibe. The appearance was hard and powerful, with wide tires, high suspension, huge air intake, angular curves, and a thick frame. Everything was in line with the all – terrain vehicle in his mind. The saleswoman was good at reading people's expressions. She knew that there was a chance when she saw Xia ruofei's expression. She quickly introduced, "Sir, this UTV model is MRZR G. It looks exactly the same as the MRZR light all – terrain vehicle equipped by the Polaris Industries for the U.S. Military. Of course, the material and configuration of the civilian model are definitely different from the standard military model. At the same time, it also removes the standard weapon interface. However, it is definitely top – tier among all – terrain vehicles for civilian use." The saleswoman pointed at the MRZR G all – terrain vehicle and continued, "Its entire weight is less than 4500 pounds, and it has the world's top full – load extreme off – Road ability. It can move at extremely high speeds on all terrains. The cargo hold had an open design, which maximized the storage space and ensured the flexibility of the vehicle. In terms of power, it's powered by a powerful LP8cots diesel engine ..." After listening to the sales lady's introduction, Xia ruofei was even more determined to buy this car. The configuration was not much different from the military all – terrain off – Road vehicle he had used in the Army. It was definitely the first choice for military fans. "I'll take this one!" Xia ruofei asked, "do you have any in stock?" The saleswoman quickly said, "yes, yes, sir. This Car model is the new model this year. Two of them just arrived the day before yesterday. In addition to this display car, there is a brand new one left in the warehouse. If you pay the full amount, you can take it away today." Xia ruofei shrugged and said, "then the full price!" "Yes, sir!" The saleswoman was very happy. "The price of this model is 288800 Yuan. If there are no other problems, I will go through the purchase procedures for you." This mrtrhood was definitely a high – end model among high – end models. Polaris 'all – terrain vehicle series cost about 140000 to 150000 Yuan, and this car was almost double the price. The saleswoman didn't expect her luck to be so good. She closed a big deal on her first day of work during the new year. The Commission of this deal was almost comparable to her base salary this month. Xia ruofei didn't really care about the price. He smiled gently and said, "Alright, I'll have to trouble you then ..." Just as the female sales assistant was about to get the bill, she suddenly thought of something. Her expression changed slightly and she said, "Right, Sir, there's one more thing I have to remind you of ..."

Chapter 203: New space, new equipment

"Eh? What's the matter?" Xia ruofei asked, raising his eyebrows. "Sir, according to our country's current policies and regulations, all – terrain vehicles are prohibited from getting a license," the saleswoman said carefully. "In other words, this type of vehicle can only be used in certain situations and can't be driven on the road. Are you sure you want to buy more?" The saleswoman was also feeling uneasy. She was afraid that the business she had just received would fail again, but she could not hide it from the customer. If she did not fulfill her obligation to inform in advance, there would be disputes and it would

be more troublesome. Xia ruofei smiled and said, "Oh, just here?" It doesn't matter, I didn't buy it for the road anyway, you can help me get the bill!" The saleswoman was overjoyed and quickly said, "Alright! Please wait a moment, Sir!" Soon, the saleswoman finished writing the bill for Xia ruofei. He went over and paid for the car with his card. The saleswoman immediately led Xia ruofei to the large warehouse behind the store with the receipt. "Sir, I can't give you a discount because this is a new model." The saleswoman said as she walked, "but I've already tried my best to get it for you within my authority. We'll give you a set of high – Level outdoor equipment and a full box of diesel." "Okay, thank you," Xia ruofei said with a smile. Then, Xia ruofei thought of something else and asked, "By the way, since this car can't be used on the road, How do I drive it back?" "Sir, we will be responsible for the delivery!" The saleswoman quickly said, "we have a Special Vehicle for transporting all – terrain vehicles." "I see! Can you arrange it immediately?" Xia ruofei said, "I want to take the car away today." "No problem!" The saleswoman said, "I've already made the arrangements. After you've inspected the car, I can help you transport it at any time!" Xia ruofei nodded. Soon, he saw a brand – New mrtr g in the warehouse. The yellow paint was exactly the same as the vehicles used by the US military in the Middle East desert. The warehouse staff, who had been informed in advance, was filling the fuel tank with diesel, and the open cargo hold at the back of the car had been tied with a full set of outdoor equipment, which also had the appearance of desert camouflage. Xia ruofei took a quick look. There were tents, sleeping bags, backpacks, mats, and so on. There were also headlights, bright flashlights, light sticks, windproof lighter, thermos flask, and other small gadgets. Moreover, they were all products from a top international brand. This gift was very sincere. "Sir, would you like to try the car first?" The female sales assistant asked, "we have a small test field here. It's specially used to test the performance of all – terrain vehicles." Xia ruofei smiled and shook his head. "There's no need to try, just load it up! I'm in a hurry. " Since he had already bought it, what was the need to test it out? Xia ruofei was good at driving all – terrain vehicles in the Army. After seeing the model's specifications, he had a general understanding of the vehicle's performance. He had driven it in real battlefields many times. This so – called professional test field was not attractive to Xia ruofei at all. It was the first time the saleswoman had met such a straightforward customer. She quickly called for a car. Soon, a transport vehicle arrived at the entrance of the large warehouse. It was a small transport vehicle, a bit similar to the trailer of the traffic Department, but it had been modified to transport all – terrain vehicles, and the protective measures were more in place. The sound of an electric motor could be heard as the two guide rails of the transport vehicle slowly lowered. The carriage also slowly raised a small slope. A staff member jumped onto the UTV and started the car. He slowly drove it along the guide rails to the transport vehicle's carriage. Then, a staff member immediately went to fix it and protect it. The carriage was lowered slowly, and the guide rail retracted. The saleswoman handed a bag of information to Xia ruofei and said, "Sir, this is the information, receipt, after – Sales certificate, and spare key related to the purchase of the car. Please keep it well." "Thank you!" Xia ruofei took the file and said, "I'll drive in front. You can just get the driver to follow me. The delivery place is not far, not even to Changping County." "Alright!" Xia ruofei drove the Knight XV out of the parking lot in front of them. The transport truck had also arrived. The two cars left Huaxia Car City one after the other and headed towards Changping County. After leaving the Urban area, Xia ruofei drove and observed the surroundings. At the same time, he looked at the GPS. Soon, Xia ruofei found a suitable place. There was a country road not far ahead. There were mountains on one side and dense bushes on the other. It was a good place to hide. Xia ruofei slowed down and turned on the turn signal in advance. At the intersection, he turned the steering wheel and drove in. Through the rearview mirror, Xia ruofei saw that the transport vehicle was following

them. After driving for a few hundred meters, Xia ruofei found an open space and stopped the car. The transport truck naturally stopped as well. The driver rolled down the window and asked, "Sir, why aren't you moving?" "Let's unload the car here!" Xia ruofei laughed and gave the driver a cigarette. "It's not far from here. My people will be here soon. There are no traffic police on this road, so you don't have to work hard." The driver was naturally happy and relaxed. He immediately called the two staff members in the car to start working. The carriage slowly rose to an angle and the two guide rails slowly lowered. A staff member climbed up to untie the fixation device and slowly reversed the UTV to the road. The road where they stopped was wider. After the driver gave Xia ruofei a list to sign, he drove the transport truck away. Xia ruofei jumped onto the UTV and drove for a short distance before turning into a small ditch in the forest. This was a piece of cake for the all – terrain vehicle. He carefully observed his surroundings. After making sure that there was no one nearby, he summoned the spirit map scroll from his palm. Xia ruofei held the painting in one hand and pressed the other on the car engine. Then, he used his mind to communicate with the new space. He issued an order. The 4500 – pound lightweight UTV trembled slightly before it disappeared into thin air. Xia ruofei's mind was constantly sensing the situation inside the new space. When he "saw" UTV land steadily on a flat ground in the new space, he was relieved and kept the spirit map scroll in his palm. Then, he walked back to the village Road, returned to the Knight XV off – Road, and drove back to Paradise Farm. After returning to the villa, Xia ruofei parked the car in the garage and then quickly went upstairs to his room. After locking the door and windows, Xia ruofei summoned the spirit map scroll from his palm and entered the new space with a thought. He couldn't wait to experience driving an all – terrain vehicle in this new space ...

Chapter 204: super purification (double time)_1

In the new space, the rich spirit Qi made people feel relaxed and happy. Once Xia ruofei entered the medium, he saw Blackie, fluffy one, and fluffy two surrounding the all – terrain vehicle vigilantly. They even stretched out their legs to test it from time to time, making muffled sounds. They were very wary of the steel monster that had suddenly appeared in the space. Xia ruofei smiled and whistled, summoning little black and the rest. Xia ruofei reached out and patted Blackie's head, who was the first to reach him. He chuckled and said, "Don't be nervous, I brought that car in!" Blacky barked twice, indicating that it understood Xia ruofei's words. Xia ruofei laughed and jumped into the all – terrain vehicle. After starting the engine, Xia ruofei thought for a while and waved at Blackie and the other seven puppies to jump into the vehicle. The mrtr g was a four – seater model, and with the large cargo compartment at the back, it could easily accommodate a few puppies. Xia ruofei put on his wind – proof glasses, shifted into gear, and stepped on the accelerator. The all – terrain vehicle immediately sped off. This scared Blackie, fluffy one, and fluffy two. They barked and clutched the car seat with their claws. Fluffy four, who was the thinnest, was even trembling. Xia ruofei consoled them. He did not care if they understood him or not. He laughed and stepped on the accelerator. The car started to speed up. The design of the all – terrain vehicle was that it didn't have a windshield. This was to prevent mud from splashing and blocking the windshield when driving at full speed in bad terrain. So when the speed increased, the wind directly blew in his face and his ears were filled with the sound of the wind. It felt very refreshing. Most of the new space was a flat grassland, but it was not man – made, so it was natural to see potholes everywhere. The advantage of an all – terrain vehicle was revealed at this time. The car had a powerful anti – shock system so that Xia ruofei could not feel it when the car passed through small potholes. Even if it was a bigger obstacle, the car could pass through it at a very fast speed. He only felt a slight bump in the car. This model of all – terrain vehicle was designed for extreme terrains, so it had a

very high passing rate. In the extreme test, ordinary rocks could be directly driven through. The world's top suspension system ensured that the height difference between the wheels on both sides and the front and rear wheels was also maximized. For example, if the left front wheel of a car was pressed on a 40 – 50 cm tall stone, and the other three wheels were on flat ground, the car could still maintain a four – wheeled landing state. It would take a long time to reach the new space on foot. However, when the all – terrain vehicle picked up speed, they reached the space membrane very quickly. Xia ruofei turned the steering wheel and the all – terrain vehicle changed directions nimbly, bringing up a cloud of soil as the vehicle sped in another direction. Xia ruofei took the opportunity to explore the entire space. Then, he drove back to the foot of the hill and stopped not far from the stone tablet. Little black and the rest immediately got out of the car and ran far away. In their eyes, this steel monster was too terrifying. Its speed was simply too terrifying ... Xia ruofei sat in the car and did not get out. He suddenly thought of a problem. The area of the Kasaya space was so large, and the car would emit exhaust gas when it was moving. Wouldn't it pollute the environment of the entire space if it was used for a long time? If that was the case, then no matter how much he liked this car, he would never use it. However, Xia ruofei sniffed hard but did not smell anything. He thought for a moment and decided to start the car again. He put the car in the air Gear and lightly stepped on the accelerator a few times. The all – terrain vehicle roared, and little black and the others were scared and hid further away. The exhaust pipe at the back of the car spewed out a light green exhaust. Xia ruofei immediately connected to the new space with his mind and sensed it. At this moment, he had complete control over everything in the space, and it was much more accurate than just relying on his naked eye. Soon, Xia ruofei's attention was locked on the exhaust of the all – terrain vehicle. Then, Xia ruofei made a shocking discovery. As the exhaust gas rose, it began to dissipate at a slow speed. It did not dissipate in space, but disappeared bit by bit. Xia ruofei continued to step on the accelerator a few more times, and this time, more exhaust gas was being released. Then, he continued to focus on the exhaust gas. This time, it was even more obvious. As the large cloud of exhaust gas rose, it dissipated little by little out of thin air. Xia ruofei let out a long breath. This meant that the spirit map space had the ability to purify itself. The exhaust was harmful to the space environment and was directly eliminated by the space. It could be transformed into other harmless forms of existence, or it could be directly expelled to the void outside the space. Xia ruofei had already seen the purification ability of space at the spatial spirit pool. The spatial spirit pond was always extremely clear. One could see the bottom of the pond with a glance and there was not a single trace of impurity in the water. If the water could be purified, so could the air. Xia ruofei finally felt at ease. He called Blackie and the others over and said, "Xiao hei, the car is parked here, don't come and destroy it! If you behave well, I'll take you to the outside world to play when you grow up!" Woof woof! Blackie barked at Xia ruofei happily. Xia ruofei patted Blackie's head in satisfaction. Then, with a thought, he traveled from the new space to the original space. Today was the day to harvest the petals of the exotic flower. Xia ruofei came to the nameless plant and saw that the strange flower with five – colored petals had bloomed. Xia ruofei took the Tupperware and tweezers and carefully picked the five petals. With that, he now had 21 petals. For the time being, even if the farm started to plant them on a large scale, the flower petals would be enough. After putting the fruit away in the container carefully, Xia ruofei looked at the smallest fruit carefully. The result made Xia ruofei very happy that Yingying's fruit had really grown a little. Although the extent of the change was small, Xia ruofei had been paying attention to it before, so he was still sharp enough to notice it. This basically proved that after picking a spirit fruit, it would still bear fruit again after a certain period of time. However, it might take much longer than the time for the flower to bloom again. Then, Xia ruofei went to the small fish pond to check on the pair of

young red Dragons. He was delighted to find that the pair of young fish had grown significantly, at least a few centimeters longer than yesterday. According to the past rules, it was impossible for the young fish to grow so quickly in the original space for a month. The growth rate of the other juveniles in the large fish pond next to them was much lower than this pair of juveniles. The effect of an entire petal was very obvious. Xia ruofei was completely at ease. He patrolled around the space before leaving the spirit map space, satisfied.

Chapter 205: The beautiful agent (1)

On the seventh day of the first month, all units returned to work as usual. The employees of Taoyuan farm also came early in the morning. As the boss, Xia ruofei had also woken up early in the morning. He was at the entrance of the farm, giving red packets to his employees. This was a custom in the southeast province. On the first day of work of the new year, red packets had to be given out. This was commonly known as a "good start." It wasn't a lot of money, just 300 yuan per red packet. It was mainly to get some good luck. The farmworkers were all grinning. They had only been employed for a month, and their salaries were high. Many of them had received three red packets for the end of the year, a red packet for working overtime on the fourth day of the new year, and a red packet for opening the door today. In addition to the monthly salary of 5000 Yuan, most people's monthly income was even higher than that of the White – collar workers in the city. Therefore, everyone was full of energy, and their sense of belonging to the farm was stronger. Cao tieshu immediately called everyone to work in the large shed. After transplanting the vegetables on the fourth day of the new year, only the people on duty every day would take care of the new vegetables. There was still a lot of work waiting for them to complete. Fatty pang Hao had also officially started working at the farm. This made Xia ruofei realize that it was urgent to build another building on the farm. Now, pang Hao's temporary office was also set up in a guest room on the first floor of the villa. Ye Lingyun was also staying in the villa. This was definitely not a long – term plan. Xia ruofei decided to look for Liang Qichao in the next two days. He had completed the farm project beautifully. Now that they were going to build a new building, he would naturally look for him. However, before that, Xia ruofei had one more thing to do. After the Kongtong Festival, all units would resume work. The deal for this villa had been discussed previously, and he would be going to settle the transfer of ownership today. Xia ruofei drove around the farm. Seeing that it was about time, he left the farm in his Knight XV and headed straight for the San Shan city. The agent of the villa owner had contacted Xia ruofei yesterday. They had agreed to meet at 10 am. Xia ruofei drove to the bus stop near the real estate trading center. His classmate, Guan Ping, had already left the company with the excuse of going to the real estate trading Center for Business. When Xia ruofei drove to the bus stop, he saw that Guan Ping was already waiting at the platform. The Knight XV's appearance was too majestic. As the car slowly pulled to the side, the people waiting for the car could not help but look over, including Guan Ping. However, he did not expect it to be Xia ruofei's pickup truck. Xia ruofei had driven it to the last class reunion! Knight XV stopped beside Guan Ping. Xia ruofei rolled down the window on the passenger's side and waved at him with a smile. Guan Ping's eyes widened ... "Get in the car! What are you doing? We're going to be photographed in a while!" Xia ruofei smiled. "Oh, oh!" Only then did Guan Ping come back to his senses. He quickly opened the door and climbed into the car. The chassis of the car was very high, and the action of getting on was similar to getting on a big truck. He had to hold the handrail with one hand, then step on the pedal with one foot and "climb" up the car. As soon as Guan Ping got on the car, he shouted, "F * ck!" RUO Fei, you've changed your weapon! No, no, this is a small slingshot that has been replaced with a cruise missile ... This car is too awesome!" "It's alright!" Xia

ruofei smiled. "Still okay? This is simply too good!" Guan Ping said exaggeratedly, "I think I've seen this car on the internet once. It cost more than ten million Yuan ..." "Almost!" Xia ruofei said with a smile. "Don't tell me you went to rob a bank!" Guan Ping was shocked, "he was driving a pickup truck not long ago! It's only been a few days and you're already driving a luxury car worth tens of millions?" "It's a long story, but I'm not as rich as you think." Xia ruofei laughed and said, "my entire net worth is not even as valuable as this car! I'll tell you more when I have time ..." Xia ruofei chatted with Guan Ping as he drove. They soon arrived at the agreed place, a café called left bank. There were still more than ten minutes before the meeting time. Xia ruofei and Guanping found a place to sit down. After a while, Xia ruofei's phone rang. He saw a young woman walking into the coffee shop with a folder in her hand. She held the phone to her ear as she walked. Xia ruofei stood up and waved at the woman with his phone in hand. The woman hung up the phone immediately and walked towards Xia ruofei with a smile. "Hello! You must be Mr. Xia?" The young woman took the initiative to reach out her hand to Xia ruofei. Xia ruofei shook her hand and smiled. "Hello, I'm Xia ruofei." "We spoke on the phone yesterday, I'm Zhao Xueqing." The young woman smiled and said, "I didn't expect Mr. Xia to be so young." "I didn't expect sister Zhao to be so charming either!" Xia ruofei smiled. "Mr. Xia, you've got a way with words!" Zhao Xueqing grinned. "I'm just telling the truth ..." Xia ruofei said. "Oh, sister Zhao, this is my classmate, Guan Ping. He's more familiar with the process of real estate transactions, so I'm going to ask him for help with the transfer of ownership." "Nice to meet you, Mr. Guan!" When Guan Ping saw Zhao Xueqing, his face revealed a look of surprise, and he was slightly dazed. It was only when Zhao Xueqing took the initiative to greet him that he came back to his senses. He quickly said, "Hello, Sister Zhao!" Both parties sat down, each ordered a drink, and went straight to the point. "Sister Zhao, we've reached an agreement on the transaction price, so all that's left is for both parties to draft up the contract and handle the transfer." Xia ruofei said with a smile. "That's right, I'm actually brother Wu's runner." Zhao Xueqing chuckled. By the way, I've brought the real estate certificate, Land certificate, and power of attorney. Take a look." Xia ruofei gestured to Guan Ping. Guan Ping took the relevant documents and looked through them carefully. He nodded to Xia ruofei and said, "No problem. With these, I can successfully complete the transfer." With that, Guan Ping took out his laptop from his bag and turned it on. He turned to Zhao Xueqing and said, "Sister Zhao, I'll add the relevant data and transaction price to the contract, and then you can see if there are any problems." "Alright! But I don't understand it either, just send me a copy, I'll send it to brother Wu to see for himself!" Zhao Xueqing smiled and said, "as long as there's no problem on his side, it's fine!" "Alright!" Guan Ping opened up a standard contract that he had already modified in advance, and filled in the relevant information according to the property certificate, Land certificate, and power of attorney. Very quickly, the contract was complete. There was free WiFi in the café. Zhao Xueqing gave Guan Ping An email address, and Guan Ping immediately sent her the contract through email. Just as Guan Ping sent the message, Zhao Xueqing received a notification on her phone. She swiped on her phone and fiddled with it a few times. Then, she looked up and said with a smile, "I've already forwarded it to brother Wu. Let's just wait for his reply!" "Alright! I've troubled sister Zhao today." Xia ruofei said with a smile. "You're welcome, I'm also entrusted with this task!" Zhao Xueqing smiled as she stood up and said, "I still have some matters to attend to at the company, so I'll take my leave first!" "Alright," he said. Xia ruofei said, "Oh right, sister Zhao, exchange contact information with Guanping! When the time comes, I'll get him to contact you directly." "No problem!" Zhao Xueqing took out her name card and passed it to Guan Ping. As a real estate agent, Guan Ping naturally had his own name card. He quickly took out one and passed it to Zhao Xueqing along with the real estate information. It was obvious that Guan Ping was a little reserved in front of

Zhao Xueqing. After Zhao Xueqing left, Xia ruofei and Guan Ping sat down again. Xia ruofei said, "pingzi, I'll leave the transfer of ownership to you!" Just call me when you need me to sign and pay. As for the other things, you can just follow sister Zhao ..." When Xia ruofei said this, he realized that Guan Ping was a little absent-minded and his eyes were a little straight. He couldn't help but call out, "Ping Zi! Ping Zi ..." "Ah?" Guan Ping seemed to wake up from a dream. "What's wrong, ruofei?" "What are you so focused on?" Xia ruofei smiled and said, "I've been talking to you for so long and you didn't hear a single word?" Xia ruofei followed Guan Ping's gaze and saw Zhao Xueqing's figure disappear at the corner of the street. Xia ruofei turned around and looked at Guan Ping, who was looking a little uncomfortable. He smiled knowingly ...

Chapter 206: Drunken Eight Immortals (1)

"Ha! "Pingzi, I think I found something ..." Xia ruofei laughed evilly. Guan Ping's eyes dodged, but he acted as if nothing had happened, "I don't know what you are talking about! Hey! Anything else? If there's nothing else, I have to go back to the company! I sneaked out ..." Xia ruofei smiled and said, "little ping, sister Zhao is indeed pretty!" If you don't mind being in a relationship with an older brother, you can go after her boldly!" "Kid, do you still have anything to do?" Guan Ping said, "if you continue to talk nonsense, do you believe that I won't care about the transfer of ownership?" "I don't." Xia ruofei laughed evilly. "As long as the agent is Zhao Xueqing, you can't just ignore this matter!" "I ..." Guan Ping was so angry that he closed his laptop. He wanted to say something but stopped himself. "Ruofei, don't say anything in front of sister Zhao! It's just that he's more to my liking. Besides ... He's obviously a rich man, how can we be a good match?" Xia ruofei patted Guan Ping's shoulder and said, "Pingzi, don't belittle yourself. If you like her, then be bold and chase her! I'll back you up! But then again, we don't know anything about this sister Zhao! If she already has a family, then forget it, but we can't be a third party!" "Ruofei, do you think I'm that kind of person?" Guan Ping smiled bitterly. "That's good!" Xia ruofei smiled and said, "it just so happens that we're going to transfer the ownership soon. You'll have many opportunities to interact with each other. You should get to know each other first. As long as she's single, you're free to do it!" "Let's understand it first!" Guan Ping said without much confidence, "love at first sight ... Even I don't think it's reliable!" "Mm! You can handle this kind of thing yourself!" Xia ruofei smiled and said, "let me give you a sentence: He would attack when it was time! Otherwise, it'll be too late for regrets in the future. " "I know ..." Guan Ping said, "ruofei, don't worry about the transfer! I'll call you when I need you to sign the papers, and I'll take care of the rest. " "Alright! You've worked hard!" Xia ruofei said with a smile. The two of them paid the bill and Xia ruofei drove Guan Ping back to the company. On the way, Xia ruofei asked, "Oh right, pingzi. You've been in the three mountains for so many years. You're more familiar with all aspects. Do you know if there are any good wineries in the three mountains?" "I want to buy a batch of white wine. " Xia ruofei suddenly remembered his idea of getting some white wine to store in the spirit map space. With the difference in the flow of time and the unique environment, he could easily get his hands on precious old wine. Guan Ping replied without thinking, "Ding Feng wine factory!" Although the price is very affordable, the people of the three mountains basically love to drink the rich and abundant Drunken Eight Immortals white wine. They are not even used to the Maotai Wuliangye that costs a few hundred or even a few thousand per bottle!" Xia ruofei nodded and agreed. "I'll go back and understand the situation first!" Guan Ping's recommendation was exactly what Xia ruofei wanted. This kind of well-known local time-honored brand might not have any star products, but it won in its long history and the quality of the wine was generally good. It was the kind that was good and cheap. After sending Guan Ping to the company, Xia

ruofei decided to go to Ding Feng winery to take a look. Xia ruofei found the location of Ding Feng winery on the car navigation system and drove to the suburbs. The Dingfeng winery was located in Lingshui District, West of Sanshan city. Xia ruofei drove for more than 20 minutes before the GPS accurately brought him to the entrance of Ding Feng winery. He told the guard that he was here to talk about business. The guard saw that Xia ruofei's car was extraordinary and his attitude was more polite. He called the factory and soon a man in his early thirties came out. The man looked at Xia ruofei's car and said enthusiastically, "Hello, Sir! I'm the deputy manager of the sales department of Ding Feng winery, my surname is Qi!" "Hello, manager Qi." Xia ruofei smiled gently and said, "I want to buy a batch of white wine, so I came to understand the situation." "Alright, alright, alright. Please come in, please come in!" Manager Qi said quickly. "Take my car!" Xia ruofei said. The two of them got into the car. Xia ruofei started the car and under manager Qi's guidance, he drove to a building in the factory and parked the car. Manager Qi enthusiastically led Xia ruofei to his office and personally made tea for him. Then, he sat down and asked, "What's your name, Sir?" "My surname is Xia." "So it's Mr. Xia." Manager Qi asked, "what kind of white wine would you like to buy, Mr. Xia?" The Drunken Eight Immortals and white brew produced by our factory are very popular among consumers. "Xia ruofei smiled and said, "manager Qi, if I wanted to buy those bottles of Drunken Eight Immortals, I could have just gone to the supermarket. Why would I come to the winery personally?" So ... I'm here to ask if your winery has a large jar of white wine for sale?" "Wine in bulk?" Manager Qi was stunned for a moment before he said, "this is available for sale, but the quality is ..." Manager Qi was a little disappointed, but at the same time, he was also very puzzled. This person in front of her was obviously rich! How could someone without money drive such a luxury car? But why did this rich guy buy wine in bulk? Those were for small village Stores and small supermarkets. Although the bottled wine from Ding Feng winery wasn't expensive, it was still just a bottle of wine. People with a little bit of money wouldn't even drink it. "Manager Qi, you've misunderstood," Xia ruofei said with a smile. I mean ... For wine like Drunken Eight Immortals, can you guys just sell it to me in a big jar?" "You mean custom – made?" Manager Qi also came to his senses. "That's what it means, right? By the way, what's the price of an ordinary Drunken Eight Immortals in your market? I don't want aged wine. "Xia ruofei asked. "The one that sells the most. It's 18 Yuan a bottle, and it's 500 ml." Manager Qi said immediately. "I want this type!" Xia ruofei asked, "can we order the big jars here?" A jar ... A hundred or two hundred catties will do. " "Then ... If I may ask, how much do you need?" Manager Qi asked carefully. If the demand was low, they might not do this business. After all, it would require changing the production process, which would be more or less troublesome. "The first batch should be around 5000 catties!" Xia ruofei said indifferently. "No problem! Mr. Xia, we'll accept this business!" Manager Qi immediately said, "but ... You also know that it's more troublesome to order a custom order, so the price ..." "State your price first!" Xia ruofei said calmly. "200 catties per jar, 4500 per jar!" Manager Qi said, "Mr. Xia, this price is really not too expensive. The cost of a large wine jar is about 400 to 500 yuan. In total, we'll only charge you 20 yuan for 500 grams ..." "Sure!" Xia ruofei said, "but you must ensure the quality of the wine. Don't take cheap wine in bulk to replace the good quality!" "I wouldn't dare!" Manager Qi quickly said, "please don't worry. Our Dingfeng winery has been around for decades and we have always been honest. At that time, you can inspect the goods as you wish. If there's a problem with the wine, we're willing to compensate you ten times the amount!"

Chapter 207: The future space wine

Xia ruofei smiled and said, "alright, I'll pay the deposit first!" Immediately organize the production, the sooner the better. "Alright, alright!" Manager Qi hurriedly said, "I'll make the arrangements now. I guarantee that the 5000 catties of Drunken Eight Immortals will be ready within two days!" Manager Qi took Xia ruofei to the finance department and paid a deposit of 10000 Yuan with his card. 25 jars of 5000 catties of wine would cost a total of 112500 Yuan. To manager Qi, this was definitely a big deal. Although Ding Feng winery had been a well – established brand for decades, it had never been able to get involved in the high – end wine industry. It was basically taking the path of small profits but high volume sales, and its sales had been declining over the years. This was because many young people were no longer interested in drunk eight immortal. Only a few old customers still maintained the habit of Drinking Drunk eight immortal. Relying on the feelings of the old customers, the winery could only maintain its operations for a few days. Therefore, getting an order of more than 100000 Yuan in one go was a great bonus for manager Qi's performance, and he could also earn a lot of Commission. Manager Qi was very polite to Xia ruofei. He personally handed the receipt for the deposit to Xia ruofei and then personally saw him out. Before Xia ruofei got into the car, he said, "manager Qi, let me know when the wine is ready. I'll give you an address when the time comes. Please help me deliver it directly." "No problem! Mr. Xia, don't worry!" After leaving the Dingfeng winery, Xia ruofei was not in a hurry to return to the farm. He found a place to stop by the side of the road, took out his mobile phone to connect to the internet, and searched for rental information on the same city's website. This time, he had ordered a total of 25 large jars of white wine. If he sent all of them to Taoyuan farm, it would be too obvious a target. These white wine would all be sent into the spirit map space. At that time, Xia ruofei would definitely not be able to explain why the white wine had disappeared. The workers were fine. After all, they had gone home after work. But there were people living in the villa! Especially since ye Lingyun, a former Special Forces member, was in charge of the entire farm's surveillance system, so if he wanted to put the white wine into the space, he definitely couldn't send it to the farm. And Xia ruofei couldn't always order people to unload the goods on the way. The best way was to rent a small warehouse. This was because there would definitely be similar situations in the future. Having such a place would be much more convenient. Now that the internet was very advanced, Xia ruofei quickly found a suitable small warehouse. The warehouse was located in the northern suburbs of Jinning District. It was only about 150 square meters in area and the monthly rent was 2200 Yuan. Although the location of the warehouse was a little remote, it was relatively convenient to get there. Even heavy trucks could drive all the way to the entrance of the warehouse. Furthermore, the warehouse was located right next to the swirling highway. It would only take five minutes to enter the swirling highway by car. Xia ruofei would be able to return to Taoyuan farm in Changping from the warehouse even faster than returning from downtown. Xia ruofei called the landlord according to the information provided on the internet in the same city. After hearing that the warehouse had not been rented out, he immediately expressed his desire to go to the site to take a look. Then, he drove directly from the Lingshui District in the western suburbs to the Jinning District in the northern suburbs. After Xia ruofei had inspected the warehouse, he felt that it was similar to the information on the internet. Furthermore, it was very suitable in all aspects and decided to rent it on the spot. The landlord was overjoyed. Soon, both parties signed the lease contract. Xia ruofei paid the full year's rent in one go. After settling the warehouse, Xia ruofei drove back to Taoyuan farm. In the next two days, Xia ruofei lived a carefree life. He did not need to worry about the transfer of ownership at all. From Guan Ping's feedback, the transfer process would take about a week, and this was under the condition that the loan was paid in full. If he wanted to apply for a mortgage, it might even be delayed by a month. Of course,

Xia ruofei only needed to sign the last few papers and pay. Some procedures required both the buyer and the seller to be present at the same time, so he probably needed to make two trips to the real estate Center. For the time being, the farm was only occupied with the vegetable greenhouse. Cao tieshu managed it well, and Xia ruofei only needed to go over occasionally. His most important task was to go to the water tower on the mountain every once in a while to add some petal solution. The vegetables in the greenhouse were growing very well, and the farm employees were amazed. They said that it was indeed a new vegetable product, and the growth rate was far faster than ordinary vegetables. It seemed that it would take less than a month for the first batch of vegetables to be harvested. The ninth day of the first month of the lunar year. Hu Zi's mother and Lin Qiao were ready to return to the city. Lin Qiao was about to start school, and the two had to return to the forestry Bureau dormitory in the city early. Lin Qiao needed to finish the rest of her winter vacation homework, and Hu Zi's mother also needed to clean up the house. No one lived there for so many days, so they had to clean it thoroughly. Hence, Xia ruofei drove them back to the city. When they arrived at the forestry Bureau dormitory, Xia ruofei stayed behind to help Hu Zi's mother clean up and even had lunch with them. While they were eating, Xia ruofei received a call from manager Qi of the Dingfeng winery, saying that the 25 jars of Eight Immortals drunk were ready. Xia ruofei immediately sent the address of the warehouse to manager Qi, then gobbled up the rice in his bowl and hurriedly left Hu Zi's mother's house. Xia ruofei drove to the warehouse in Jinning District. After waiting for a while, two large trucks arrived at the entrance of the warehouse one after the other. Manager Qi personally escorted the carriage and directed the workers to carefully move the heavy wine jars into the warehouse and place them neatly along the wall. "Mr. Xia, can you check these bars?" manager Qi asked. Xia ruofei nodded and casually opened a jar. He first smelled the fragrance, then took a spoonful of the wine from manager Qi. He brought it to his mouth and tasted it. Then, he closed his eyes slightly and savored the taste before nodding in satisfaction. Before this, Xia ruofei had even bought a bottle of ordinary Drunken Eight Immortals from the supermarket to try it so that he could remember the taste of the wine. Then, Xia ruofei randomly opened three jars and took a sip of each. They tasted the same as the bottled wine he had bought from the supermarket. "No problem," he said. Xia ruofei smiled and said, "manager Qi, I'll transfer the rest of the money to you!" I can pay by card, right?" "Sure, sure!" Manager Qi said happily, "I brought a mobile credit card machine!" Xia ruofei paid the remaining 110000 Yuan by credit card. At the entrance of the warehouse, manager Qi shook hands with Xia ruofei and said, "Mr. Xia, thank you for taking care of our business. Call me directly if you need anything next time!" "Alright!" Xia ruofei said, "you've all worked hard today. Take care!" "Mr. Xia, please wait!" Manager Qi said goodbye to Xia ruofei politely and left with the workers. Xia ruofei returned to the warehouse and locked the door from the inside. Then, he closed the blinds at the air vents and summoned the spirit map scroll from his palm. As the gap between the two teams was slowly closing, steel Spear's heart was burning with anxiety.

Chapter 208: Tidying up the plan (1)

Gu PU's painting looked unremarkable. Other than Xia ruofei, no one knew that this old – looking scroll actually contained a magical space. Xia ruofei held the scroll in one hand and walked around the warehouse. If there was anyone in the warehouse at this moment, they would think that it was a magic trick or that there was something wrong with their eyes. They would see that wherever Xia ruofei passed by, the huge wine jars would disappear into thin air. After a while, the small warehouse was empty again. Xia ruofei used his mind to sense the interior of the space. 25 large wine jars were neatly

placed in an open space in the original space. Xia ruofei nodded in satisfaction. As his spiritual connection with the spirit map space grew stronger, his control over it also grew stronger. This time, he placed the 100 – pound wine jar into the spirit map space according to Xia ruofei’s wishes. It appeared in the spirit map space almost exactly as he wished. Xia ruofei kept the painting in his palm, locked the warehouse door, and drove straight to Taoyuan farm. Back at the villa, Xia ruofei immediately went upstairs to his room. Hu ‘Zi’s mother and Lin Qiao had returned to the city. Ye Lingyun had always followed the rules and would not break into the room without knocking. However, Xia ruofei still carefully locked the door and windows before taking out the spirit map. Xia ruofei entered the spirit map space. He directly appeared at the place where the wine jars were placed in the original space. The 25 large wine jars were neatly arranged in a five by five square matrix, as if they had been measured with a ruler. Xia ruofei was very satisfied with his control over space. Xia ruofei walked around the wine jar and made a decision. He walked to the spatial spirit pond, picked up the container with the petals, and returned to the wine jar. Xia ruofei opened one of the wine jars, then used a pair of tweezers to pick up a petal from the Tupperware and threw it into the wine jar. He was going to keep this jar of wine as a treasure for himself or his close friends to enjoy. He had 21 petals now. After using one, he had 20 left, which was enough for him to use in the future. Xia ruofei covered the wine jar and made a mark on it. Then, he went to dig up some soil from the space and brought out the water from the space pool. He mixed them together and stirred them into a paste. He carefully sealed the mouth of each wine jar tightly. There were also sealing measures taken when Xuanji Dingfeng winery sent them here. However, Xia ruofei still trusted this ancient method more, so he added a “double insurance”. After doing all this, he patrolled the space again. The pair of young red Dragons had grown a few centimeters and were obviously different from their siblings in the big fish pond. The small spiritual fruit on the nameless plant also had a slight change. Although the growth was not obvious, as long as it was growing, Xia ruofei was very relieved. Then, Xia ruofei went to the new space to play with Blackie and the rest for a while to replenish their food supplies. He also checked the oak trees. They were all firmly rooted and luxuriant. Xia ruofei removed all the wooden sticks that were used as support. As for whether truffle mushrooms would grow by the end of the year, it would be a test of time. However, with the successful planting experience in the original space, Xia ruofei was very confident. After the inspection, Xia ruofei was lying on the cargo hold at the back of the all – terrain vehicle, a blade of grass in his mouth. The grass in the interspace had a special fragrance. It was the kind of pure grass fragrance. Xia ruofei closed his eyes to rest, while Blackie lay quietly beside him. Xia ruofei was considering his next step. Taoyuan farm was already on the right track in the field of vegetable planting. He did not need to worry too much. He only needed to regularly supply Cao tieshu with “high – tech seeds” and remember to add the petal solution into the water tower. The cutting of the succulent plant could bring him a monthly income of 200000 to 300000 Yuan. However, he had to do it himself. From cutting the seedlings to mailing them, he had to do it himself. Now that he had more and more things to do, he found it a little too troublesome. Xia ruofei was considering if he could move the succulents ‘business to the outside world. Of course, the biggest problem was time. The succulents grew so slowly in the outside world that it was outrageous. If this problem could not be solved, he would have to gradually stop this business. Xia ruofei decided not to care about the meat for now. For the time being, he could still handle it. Besides, the profits from this area were quite impressive. The Taobao shop had already made a name for itself. It would be a pity to close it down. It was still too little profit! Xia ruofei was making money very quickly, but the spirit map space was like a bottomless pit. If he wanted to level up, he had to spend a lot of money on Jade. This time, he had earned more than ten million in one go, but he spent it very quickly. The worst part was

that the space's upgrade was not complete. Xia ruofei was eager to explore the secret of the space. He had a feeling that although the spirit map space had shown its extraordinary side, it was only the tip of the iceberg. It could only be revealed slowly after continuous upgrading. Just the stone tablet in the new space alone was not simple. The golden light that Xia ruofei had sensed the last time seemed to have opened a door. The endless truth of heaven and earth leaked out from the crack of the door. He could not forget it even now and could not wait to explore more mysteries. Xia ruofei also used this free time to sort out his next plan. At Taoyuan farm, there was still an Orchard and a fish pond in the back of the mountain that had not been used. He already had a plan in mind for planting fruit trees. He could buy the saplings in the next two days when he had time, but he had no idea what to raise in the fish pond for the time being. Even though raising ordinary edible fish could still sell for a price that far exceeded the market price, the economic benefits were still too low. Xia ruofei decided to do some research on the internet later to settle the matters of raising fish. Other than that, Tao Yuan farm had no other profit points. Next, other than the transfer of houses, fruit trees, and fish fry, Xia ruofei also had to build a new building on the farm. In Xia ruofei's mind, the first and second floors of the building would be used for administrative work, and the third floor and above would be used as employees' apartments. Some guest rooms could also be reserved so that when guests visited the farm in the future, they could have a place to stay. After all, the villa was his private property. Moreover, he had a big secret like the spirit painting scroll. No matter how good their relationship was, it was still inconvenient for them to live together in the long term. Xia ruofei decided that he would focus on settling all these things in the next few days and then go out for a walk to find new sources of profit. Recently, he had been spending money faster, and it was urgent to speed up his earning. After sorting out the plans for the future, Xia ruofei jumped out of the car. He reached out his hand and gently jumped out. After giving a few instructions to Blackie, Xia ruofei left the spirit map space. Xia ruofei kept the painting in his palm and glanced at his phone out of habit. He saw that there was indeed a missed call. Moreover, this phone call was from Secretary Tian Huilan of Sanshan city. Xia ruofei raised his eyebrows. What important matter would make Secretary Tian call him personally? He immediately picked up his phone and called back ...

Chapter 209: the Secretary's help (1)

"Little Xia!" Tian Huilan quickly picked up the call and said anxiously. Xia ruofei couldn't help but raise his eyebrows. This was the head of Sanshan city and a Deputy provincial – Level leader. Her ability to maintain her composure was definitely not something that ordinary people could imagine. At this moment, Tian Huilan's tone made Xia ruofei realize that the matter might not be small. "Secretary Tian, I'm sorry I didn't have my phone with me just now," said Xia ruofei. Is there anything I can help you with?" "Xiao Xia, one of my elders is in critical condition and is dying ..." Tian Huilan said. "I want to ask, can you ... Can you help diagnose and treat him?" In fact, Xia ruofei had already guessed it when he saw Tian Huilan's missed call. In Tian Huilan's impression, Xia ruofei's best skill was undoubtedly his medical skills. Other than saving lives, the Secretary couldn't have called him personally to ask for a few handfuls of vegetables, right? "Secretary Tian, is it serious?" Xia ruofei asked calmly. "Late – Stage liver cancer ..." Tian Huilan said. Xia ruofei frowned. It wasn't that he had no confidence in the flower's petals, but the disease was incurable. Moreover, it was one of the more dangerous types of cancer. It was hard to detect in the early stages, difficult to treat, and the survival rate was very low. If this disease was cured casually, it would bring him a lot of trouble. In the secretary's office. Tian Huilan couldn't help but smile bitterly when she heard the silence on the other end of the phone. He was really a little desperate. Xiao Xia's medical skills were indeed brilliant. His father's heart disease and Huanhuan's autism could not

stop him. He even saved his sister's father – in – Law, who had a serious cerebral hemorrhage and was on the verge of death. But elder song had late – Stage liver cancer! With elder song's status, as long as there was a way, his condition would not have developed to such a serious extent. Moreover, he had gone to Germany for surgery some time ago, but there was still no way to control his condition. In the end, he had no choice but to return home. In this situation, even the gods could not do anything, right? Asking Xiao Xia for help was indeed a little too much. Thinking of this, Tian Huilan said, "Xiao Xia, I ..."

"Secretary Tian, I can try." Xia ruofei interrupted Tian Huilan. "Ah?" Tian Huilan was so shocked that she thought she had heard wrong. "I said, I can try." Xia ruofei said, "but I'm not confident, especially before I see the patient ..." "I understand. I'm already very grateful that you're willing to help!" Tian Huilan said, slightly excited. "You're too kind, Secretary Tian." Xia ruofei smiled and said, "where is the patient now? When do you need me to go over?" "The faster, the better!" Tian Huilan immediately said. The patient is in Jiangnan Province, and I've already contacted the airport. There's a flight to Hongzhou city in Jiangnan in 50 ... No, 45 minutes. If you don't have any questions, we'll meet at the airport!" "Secretary Tian, you're going in person too?" Xia ruofei was a little surprised. "Yes, this is a very important senior of mine." Tian Huilan said, "so ... Xiao Xia, I'll leave it to you this time ... Of course, if there's really no way to turn the situation around, then there's nothing I can do. I'll still be very grateful to you!" "Don't worry, Secretary Tian. I'll do my best." Xia ruofei said, "then let's meet at the airport!" "Alright, thank you for your hard work, little Xia!" After hanging up the phone, Xia ruofei sat on the chair and pondered for a moment. He didn't regret promising Tian Huilan that he could make a provincial level official so nervous. This patient was definitely not an ordinary person. In a human society like Huaxia, if Xia ruofei wanted to develop his business, he could not do without the support of the rich. Otherwise, when Taoyuan farm rose to fame, it might be snatched away by others. Tian Huilan's elder was definitely worth Xia ruofei's time. However, it was one thing to be willing to save him, and another thing to do so. Late – Stage lung cancer and possibly body metastasis. This kind of illness was basically on the irreversible countdown to death, so naturally, he couldn't just stupidly cure it. If he did that, not only would he not receive the gratitude of that Big Shot, but he might also bring himself big trouble. Even a fool would know that Xia ruofei was hiding a big secret. Terminal cancer was not like MA Xiong's acute cerebral hemorrhage. Who wouldn't want to grasp the big secret of being able to cure a fatal disease? The more important a person was, the more he would treasure his life! Xia ruofei thought for a moment, took out the spirit map scroll, and entered the original space. He had to make some preparations before he set off. The flow of time in the original space was 30 times slower than the outside world. Xia ruofei was not worried about not having enough time. He found a few porcelain bottles and filled one of them with the spatial spirit pond water. He then directly fused a whole petal into it. The other porcelain bottle was also made into flower petal solution of the same concentration as the first bottle. Then, he diluted it according to different ratios. In total, he made five bottles of flower petal solution of different concentration. The one with the lowest concentration was the same as the petal solution he usually used to water the Phoebe zhennan and ginseng. That was a large box of space spirit pool water mixed with a petal solution. He made marks on them that only he could understand. Then, he took a few more bottles of red herbal tea. Except for the first bottle of petal solution with the highest purity, he added the brown herbal tea with a little medicinal smell into the other bottles, then closed the bottle stopper and stirred it well. This was the solution that Xia ruofei came up with in a short period of time. After seeing the patient, he would use the petal solution with the lowest purity first. Even if it could not kill the cancer cells, it could at least keep the patient alive. In short, the principle was that the effect couldn't be too fast, and it couldn't be completely cured. Although he did not know the patient's identity, Xia ruofei believed that with his

status, as long as he could pull him back from the gates of hell and alleviate his condition, the usual medical methods should be effective. In this way, he would not expose his secret, and he could also gain a big favor, which was basically a life – saving grace. Xia ruofei took a suitcase and sealed the porcelain bottles. Then, he placed them neatly in the suitcase. Then, he took out a set of silver needles and put them in. Xia ruofei had bought them from the Chinese medicine pharmacy when he had time last year. It was for the sake of acting when he needed to treat people. Of course, Xia ruofei had also learned some basic knowledge about acupuncture points in Chinese medicine. It was enough for him to put on an act. In the end, he randomly found two sets of clothes to change into and put them in. Then, he left the spirit map space with his suitcase. After keeping the painting, Xia ruofei did not waste any more time. He took his suitcase and quickly went downstairs. He found ye Lingyun and gave him some instructions. Then, he drove the pickup truck straight to Changping airport.

Chapter 210: The legendary star of a general

As the car had to be left at the airport, Xia ruofei drove the pickup truck, the Knight of the XI Xi, which was too cool. He was a little worried about leaving it at the airport overnight. Taoyuan farm was about 20 to 30 minutes away from Changping airport by car. After Xia ruofei arrived at the airport, she parked her car in the overnight parking lot and walked to the harbor Hall with her suitcase. She took the escalator to the harbor Hall upstairs. Xia ruofei found a place to sit down in the main hall and took out his phone to call Tian Huilan. “Little Xia, have you arrived?” “Yes, Secretary Tian. I’m at the departure hall now.” Xia ruofei replied. “Okay, I need about 5 minutes. You can wait for me there!” After Xia ruofei hung up the phone, he couldn’t help but click his tongue. Normally, it would take about 40 minutes to get here from the city. As the leader of the Provincial Party Committee, Tian Huilan had to apply for leave from the organization. In other words, not only did she apply for leave in the first place, but she also made the driver race all the way. That was how they could arrive at the airport so quickly. Very quickly, Xia ruofei saw an Audi driving at high speed to the entrance of the departure hall. Tian Huilan did not wait for the Secretary to open the door and opened the door herself to get out. Her new female secretary quickly walked to the trunk and took out a small suitcase, then jogged all the way to catch up with Tian Huilan. Xia ruofei also stood up and went out to welcome him. “Xia, there’s not much time left. We’ll tell you in detail when we get on the plane.” Tian Huilan said directly. “Alright,” he said. A middle – aged man in a suit and leather shoes with a work pass also quickly came up and said, “Secretary Tian, please follow me!” Xia ruofei took note of his work pass. He was the Deputy General Manager of the airport Group. He had three boarding passes in his hand, which meant that he had prepared them in advance. The three of them followed the Vice President to a prepared passage and quickly passed through the security check. The Vice President also showed his work pass and followed them into the restricted area. Then, he quickly led the three people to a boarding gate. From the time Tian Huilan entered the airport to the time the three of them stepped on the boarding bridge, it took less than three minutes. It could be said that they were extremely efficient. Xia ruofei also took a look at the boarding gate and realized that there were only three minutes left before the departure time. Under normal circumstances, the plane should have stopped boarding more than 20 minutes ago. By now, the door should have been closed, or even slid to the runway to wait for departure. In other words, because of Tian Huilan, the flight had been delayed. This made Xia ruofei even more curious about the patient’s identity. Making the plane wait for ten to twenty minutes was an easy task for Tian Huilan. The key was that a high – ranking leader like her usually cherished her reputation very much. For Tian Huilan to do this for this patient, he must be an extremely important person to her. As Xia ruofei

thought about this, he did not slow down at all. The three of them soon arrived at the cabin door. The purser personally welcomed them at the door and led the three to the first – Class cabin. After Tian Huilan's Secretary had settled their luggage, she respectfully bade Tian Huilan and Xia ruofei farewell and left. Her seat was in Economy Class. The cabin door closed after the three of them boarded the plane. Then, just as Xia ruofei and Tian Huilan were putting on their seat belts, the plane trembled slightly and the tractor started to push the plane out. Immediately after, the plane came to the end of the runway through the runway. Without waiting for a second, it drove directly onto the runway. After the body of the plane was adjusted, it did not stop. It directly added the take – off thrust, and the Airbus A380 began to accelerate and take off. In other words, the airport control had also opened a green channel for this plane. As soon as Tian Huilan arrived, this plane was immediately added to the first flight of the take – off sequence. There was no need to wait, and it could fly as it came. After the plane took off, Tian Huilan turned to look at Xia ruofei and said gratefully, "Thank you, Xia!" "Don't mention it, Secretary Tian. I don't know if I can help!" Xia ruofei said with a smile. "No matter what, I'll owe you this!" Tian Huilan said, "as for elder song's condition, we can only say that we've done our best and leave it to fate!" "Is the patient's surname song?" Xia ruofei asked subconsciously. His brain was spinning fast as he tried to think of the big shots with the surname song in Huaxia. However, Xia ruofei did not know much about Huaxia's political scene. Unless it was someone with a very high position, Xia ruofei would not know. He did know of a Big Shot with the surname song, but his status was too high. Xia ruofei did not dare to think of him. And if that person's illness was so serious, he should have been receiving treatment in the capital long ago. How could he be in Jiangnan Province? Just as Xia ruofei's mind was racing, Tian Huilan smiled and said, "Xia, stop guessing. It's the elder song you're thinking of." Xia ruofei's jaw dropped. "You ... You're saying the capital ..." At this point, Xia ruofei pointed up and continued, "That person?" "Haven't you noticed that he hasn't appeared on any news or screens in the past year?" Tian Huilan nodded. Xia ruofei laughed in embarrassment. "Secretary Tian, I don't really pay attention to the news ..." Then, Xia ruofei asked in confusion, "But why is elder song in Jiangnan Province? Since he's so seriously ill, shouldn't he ..." "This is elder song's own wish." Tian Huilan said, "after he returned from his surgery Germany, he requested to return to Jiangnan Province to recuperate. He's planning to return to his roots!" Xia ruofei also immediately realized the extraordinary significance of Jiangnan Province to elder song. Elder song was definitely a legendary figure. Xia ruofei, who was once an excellent soldier, knew about elder song's situation because of his legendary experience. As elder song was once a general with outstanding military achievements, his legendary experience was closely related to Jiangnan Province. Elder song was not from Jiangnan, but he had fled to Jiangnan when he was young. At the age of 15, he had joined the People's Army of Hua Xia who had passed by this place. He had followed the Army all the way South and liberated half of Hua Xia. Before the founding of the country, he had already grown into an excellent battalion commander before he was even 18 years old. After the founding of the People's Republic of China, he had participated in two wars and made great military achievements. His position had also been promoted rapidly. His troops had been stationed in Jiangnan Province during peaceful times. Even more legendary was that in the 1990s, he, who was already a major General, responded to the call for disarmament and took the initiative to transfer to a local area. It was very rare for a general to change his career. Elder song, who set an example, was directly placed in a Deputy provincial leader position in Jiangnan Province. Elder song, who was working in a local area, was still full of vigor. He was quickly promoted to the head of Jiangnan Province. After nearly ten years of governing Jiangnan, he made great progress and was transferred to Beijing to serve as a core leader. Three years ago, the 80 – year – old elder song retired from his position

as a leader. However, elder song's influence was still unparalleled, be it in the local or the military. To this day, the legendary story of the regiment commander, elder song, personally entering the enemy camp on the battlefield of the southern border and "catching their tongues" was still circulating in the military. It could be said that elder song's entire life was closely tied to Jiangnan Province, so it was reasonable for him to choose to stay in Jiangnan in the last days of his life. Xia ruofei felt like he was in a dream when he thought about how he was going to meet the idol of countless soldiers, the legend of legends, and how he was going to treat his cancer. Tian Huilan looked at Xia ruofei and said, ""Xiao Xia, elder song and my family have a deep relationship, and I'm indebted to him for his knowledge and guidance. Please ..."" "Secretary Tian, don't worry!" Xia ruofei didn't wait for Tian Huilan to finish her sentence and said, "I will do my best to save elder song's life! Even if he couldn't be completely cured, he would try his best to prolong his life! To ease his pain. " Tian Huilan's eyes revealed a trace of gratitude as she said, "Okay, thank you, Xia ..." Xia ruofei was in a state of excitement the entire journey. Soon, the plane began to slowly descend and finally landed smoothly on the runway of Hongzhou International Airport. Would he be able to see elder song soon? Xia ruofei felt an inexplicable sense of nervousness and excitement ...
