

God tier Farm 2081

Chapter 2081 Return (2)

After lunch, Xia ruofei did not leave the house. He strolled around the farm, looked at the greenhouse and the Pomfret cultivation workshop, and then went back to the villa to take a nap.

After he woke up, he tidied up a little and went to the cafeteria for dinner.

Xia ruofei did not see Feng Jing when the employee bus returned to the farm.

Feng Jing still lived on the farm, but the company's Affairs were complicated. As the president, it was normal for her to work overtime, so she rarely got off work on time.

Of course, all the higher – ups in the company had their own cars, so it was convenient for her to come back whenever she wanted. Besides, if she worked overtime too late, she could spend the night in the office. Her office was second only to Xia ruofei's huge office, and it also had its own big bedroom.

Initially, Xia ruofei wanted to talk to Feng Jing about the company's current situation. However, seeing that she wasn't back yet, he could only drop the idea and wait until he went to the company tomorrow.

At night, Xia ruofei watched TV in the living room for a while and left the small villa at around 10 O' clock.

He went to the pivotal water tower in the farm and the water tower in the pomfrets cultivation workshop, and added some of the spirit Heart Flower petal solution.

This was something he had to do every once in a while. Only in this way could he ensure that the produced vegetables, Pomfret, and so on were of high quality.

Although the security of the farm was tight and there were brothers from the security team patrolling from time to time, Xia ruofei was skilled enough to complete these tasks without any effort. Very quickly, he added the solution of the spiritual heart Flower petals without anyone noticing. It was not even 11 O' clock when he returned to the villa.

As he had to go to the company headquarters the next day, Xia ruofei washed up and went to bed early. After his routine cultivation, he fell asleep immediately.

The next morning, he still didn't see Feng Jing when he was having breakfast at the canteen. Even when the employees at the headquarters in the city left after breakfast, Feng Jing still didn't appear.

Xia ruofei knew that Feng Jing must have slept in the office again last night, so he got up and left the cafeteria. He drove the Knight XV SUV towards the city.

Although they left later, Xia ruofei arrived at the peach blossom mansion earlier than the company's bus.

After parking the car in the company's underground parking lot, Xia ruofei walked to the elevator with his handbag under his arm. He greeted the patrolling veteran and took the elevator to the chairman's office on the top floor.

Every time Xia ruofei came to this huge office on the top floor, he would feel that it was such a waste. The entire floor was occupied by the chairman's office, except for a small part of Feng Jing's office.

And he only came here for a few days all year round, and most of the time he was idle.

However, it was already renovated to this extent, so Xia ruofei could not say anything more. Besides, what Feng Jing said made sense. No matter how high the utilization rate was, the chairman's office was the face of the company. It could not be too luxurious.

As soon as Xia ruofei got out of the elevator, he saw a young lady sitting behind the desk in front of his office door. The moment she saw Xia ruofei, she quickly stood up and bowed slightly. "Good Morning, Chairman!"

Xia ruofei still had some impression of this lady. If he remembered correctly, she should be a staff member in the president's office. Her name was Yao Xin.

"Little Yao, what are you doing here?" he asked, slightly surprised.

"Chairman, President Feng asked me to come over," said Yao Xin quickly. "She said that you'll be coming to the company today. I'll be responsible for providing you with protection during your working hours."

In fact, Yao Xin had been learning from Liu Qian during this period of time. She was basically the "Assistant to the President's assistant". Feng Jing had the intention to transfer Liu Qian to a specific position. The position of the president's assistant couldn't be empty for even a day, so she selected Yao Xin from the president's office. Liu Qian used this time to bring Yao Xin out before she could leave. Yao Xin would then take over her position as the president's assistant.

Feng Jing had received a call from Xia ruofei yesterday and knew that he was coming over today. Hence, she had asked Yao Xin to work for Xia ruofei as an assistant or secretary.

Paradise Corporation had never set up a Board of Directors. They didn't even have a full-time Secretary for the chairman. Feng Jing had mentioned it a few times, but Xia ruofei felt that there was no need for a Secretary since he wouldn't be in the company often, so he had rejected her.

After Xia ruofei heard Yao Xin's words, he slightly nodded and said, "Alright, thank you for your hard work!"

"It's not hard!" Yao Xin quickly said and pushed open the door to Xia ruofei's office.

After learning from Liu Qian for a period of time, Yao Xin had already mastered a lot of things to pay attention to when working with the leader.

She had arrived an hour earlier today and had cleaned Xia ruofei's desk until it was spotless.

In fact, Xia ruofei's office was cleaned by someone. Otherwise, Yao Xin wouldn't have been able to clean such a large area. She mainly cleaned the area where Xia ruofei's desk was.

Yao Xin had also sorted out some documents that needed Xia ruofei's approval and signature. She arranged them according to their priority and placed them neatly on Xia ruofei's desk.

After Xia ruofei entered the office, Yao Xin also came in quickly. She made a cup of hot tea for Xia ruofei and gently placed it on his desk.

After Xia ruofei sat down, he naturally picked up the documents on the table and read them. After Yao Xin served tea, Xia ruofei looked up at her and said, "Thank you! Xiao Yao, go and prepare the meeting room. After I'm done talking with CEO Feng, I'll call for a meeting with the company's director and higher management."

"Alright!" Yao Xin quickly responded and then asked, "Chairman, do you need me to inform President Feng?"

"No need, I'll give her a call." Xia ruofei said indifferently.

Not only was Feng Jing Xia ruofei's most capable subordinate, but her position in the company was only second to Xia ruofei. It was disrespectful to let the Secretary call her.

"Alright!" Yao Xin quickly replied.

After Yao Xin left, Xia ruofei picked up the phone on his desk and called the president's office.

"Chairman, you're here for work?" Feng Rao asked with a smile.

"Sister ran, did you sleep in the office again last night?" Xia ruofei half – opened his mouth and laughed. "I'm going to criticize you! You're being irresponsible to your own body!"

"Just because I'm sleeping in the office doesn't mean that I'll be working overtime!" Feng Jing said. "I'm just too lazy to go back and forth. Besides, the office's conditions aren't any worse than the apartment on the farm!"

"No matter how good the conditions are, it's still an office!" Xia ruofei said, "I don't want to be called a capitalist who exploited his subordinates!"

"You are!" Feng Jing chuckled and said, "Chairman, I'm not joking. Are you free now? I'm here to report my work."

"Come over!" Xia ruofei said.

After a while, Feng Jing knocked on the door and walked into Xia ruofei's office. She came to see Xia ruofei and naturally didn't need the Secretary to inform her.

Xia ruofei respected her and stood up to welcome her. He smiled and said, "It's alright, you look good!"

"That's a must! You're the boss who's out all day, and we're just employees who earn money for you. How can we mistreat ourselves?" Feng Rao said half – jokingly.

"Your words are not accurate!" Xia ruofei smiled and said, "you're also a shareholder of the company, okay? You can't lose your sense of ownership just because you don't have many shares!"

Feng Rao chuckled and sat down at Xia ruofei's desk.

Xia ruofei walked around the desk and sat down at his seat. He opened the drawer and took out an exquisite box. He pushed it in front of Feng Jing and said, "Sister che, I brought you a little gift from Italy this time!"

"At least you still have some conscience!" Feng Jing said happily, "let me see what you bought for me first!"

She put the folder aside, reached for the box, and opened it.

Chapter 2082 Summoning_1

"It's so beautiful!" Feng Rao couldn't help but exclaim.

There was a drop – shaped diamond brooch in the box. The workmanship was very exquisite, and it was obvious that it was expensive.

Feng Rao took out the brooch and looked at it over and over again. The more she looked at it, the more she liked it. She asked happily, "RUO Fei, this brooch is very expensive, right?"

Xia ruofei chuckled. "It's not that expensive. I saw it when I was shopping in Turin. I thought it would suit you. As the CEO of the company, you have to attend formal social events. This brooch would come in handy, so I bought it. Sister che, do you like it?"

In fact, this brooch was not just bought from a roadside stall. It was a limited edition brooch from the famous Italy luxury brand, Filch, which was the only exclusive store in Turin. The small brooch cost 100000 euros.

Xia ruofei had asked Lu zhengfeng to bring him there when they were shopping in Duling city. When Lu zhengfeng heard that Xia ruofei was buying gifts for girls, the first brand he recommended was Feixi.

"Of course I like it!" Feng Rao carefully placed the brooch back into the box and closed the lid. "Thank you, ruofei!" She said.

Xia ruofei waved his hand and said, "Hi!" It's just a small gift, why are you being so polite?"

Then, Xia ruofei looked at the thick file that Feng Jing had brought and said, "Let's talk business! Looking at the situation, they might not be able to finish the discussion this morning! Let me make this clear! I still have something to do later, so I have to leave early!"

"I know!" Feng Rao pursed her lips and smiled. I'll try to keep it short! Also ... You've been gone for almost a month, and it's not easy for you to show your face. Don't you want to meet the other executives of the company?"

Xia ruofei shrugged and said, "I've already asked Yao Xin to prepare a meeting room!" However, if you're taking too long, we'll have to wait until the afternoon!"

Speaking of this, Xia ruofei continued, "by the way, why did you let Yao Xin come to my side?" I'm not at home these days, so there's no need to arrange for a specialist, right?"

"You wish!" Feng Jing smiled and said, "Yao Xin is preparing to take over Liu Qian's position as my assistant. She's been learning from Liu Qian during this period of time, so ... I heard that you're coming

back today, so I lent her to you. You're the Chairman of the Board, you can't possibly not have someone to serve you tea, right?"

"Okay ..." Xia ruofei said. "Oh right, where are you going to arrange for Liu Qian?" Are there any suitable spots?"

"I was just about to report to you!" Feng Rao laughed. Since you've asked, then let's report this first!"

Feng Jing paused and continued, "I have two suggestions for Liu Qian's arrangements. One is for the company's administrative department, and the other is for the sales department. Both departments have vacancies for Deputy Managers, and I think she should be able to take up the position." RUO Fei, which one do you think is more suitable?"

Xia ruofei smiled. "Liu Qian is your assistant. She's only the assistant manager. You can decide on your own!"

After the relocation of the company's headquarters, the division of departments was more detailed. Whether it was the administration department or the sales department, they were divided into many second – Level departments according to their different functions and tasks. With Liu Qian's qualifications, it was more than enough to be appointed as a Deputy Manager.

As the company's chairman, Xia ruofei was not too concerned about such an appointment. Moreover, he had always trusted Feng Jing. As Feng Jing's assistant, Xia ruofei would definitely respect Feng Jing's decision no matter what it was.

"If we go to the administrative department, Liu Qian will definitely be able to get into character quickly. After all, she's been working in this field for a long time and has a broad vision. It might be a little difficult to start off with the sales department since she's not familiar with the work. But in the long run, it might be more beneficial for her all – Round development ..."

Hearing this, Xia ruofei couldn't help but laugh. "Sister che, you're really concerned about Liu Qian's matter! That girl is really lucky to have such a good leader like you. "

In fact, Liu Qian was about the same age as Xia ruofei, but Xia ruofei's tone did not sound out of place at all.

"I'm training talents for the company, okay?" Feng Jing replied. You're still laughing!"

Xia ruofei held back his laughter and said, "Okay, okay, okay!" In that case, he might as well let her go to the sales department! It's all – Round development!"

"You also think that the sales department is better?" Feng Rao said, "alright! Since you've also agreed, I'll arrange for her to work in the sales department!"

Xia ruofei nodded. "You can decide on these things. You don't have to report everything to me. I can't manage everything ..."

"I know! He's just a hands – off shopkeeper!" Feng Jing looked at Xia ruofei coyly and said, "later, the other higher – ups will report on their respective work. I won't go into detail. I'll pick the important ones to tell you!"

"This is the best!" Xia ruofei said and adjusted his sitting position to be more comfortable.

Feng Jing opened the folder and said,""Ruofei, you'll have a few major tasks to do when you're not in the company. The first is the drug production branch and farm expansion project in Changping County. You should have seen it when you went back yesterday. Now, the construction team has entered the field, and all the construction is in full swing!"

Xia ruofei nodded and said,"I saw it. You guys are very fast and efficient. You deserve praise!"

Chapter 2083 Summoning_2

"This can't be done without the cooperation of Changping County," Feng Jing said."Especially in terms of land acquisition. Changping County has done a lot of work and cleared the obstacles for us."

"Okay, I'll call the county Leader later to express my gratitude!" Xia ruofei nodded.

Feng Jing continued,"also, we've completed the purchase of the vehicles that you've arranged for us. Now, our employees are using our own buses to and from work. The higher – ups in the company are also given special buses. At the same time, we've also hired ten drivers. They'll be in charge of the logistics department."

Xia ruofei nodded and said,"okay, you can arrange it." I can already see our bus from the farm! Not bad, the quality of the Golden Dragon Bus on Heron Island was quite good! The key is that the design of the car is not bad. Our LOGO is big and eye – catching, and it will definitely be a beautiful scenery on the road!"

"It's all about the economy of the eyes. We have to think of ways to increase our exposure!" Feng Jing smiled.

Then, she looked at Xia ruofei with a half – Smile and said,""Speaking of exposure, my Dear Chairman, how long has it been since you last updated your Weibo?"

Xia ruofei scratched his head and said,"I'm busy." And I think our company's operations staff will keep me updated!"

"Is that the same?" Feng Jing said unhappily,"the company's operations staff can only send you some simple text at most. You can update it on your own. That's more down – to – Earth. You're going to take a private jet this time, can't you get one? Wouldn't it be nice to take a selfie on the streets of Italy?"

"Wouldn't that be showing off your wealth?" Xia ruofei said.

"Do you still need to show off? Who doesn't know that you have a super – profitable company?" Feng Jing rolled her eyes at Xia ruofei and said,"you can be said to be the most popular person in the entertainment industry other than young master Wang. You're such a good catch, yet you don't make good use of it. I'm so angry!"

Xia ruofei quickly raised his hands and said with a bitter smile,""Alright, alright, alright. I'll humbly accept your criticism. I'll pay more attention in the future!"

"This is more like it!" Feng Jing said. She then smiled and continued, "the reason I'm talking to you about increasing your exposure is because there's a very important task that I'll need your full cooperation with!"

Xia ruofei looked at Feng Rao suspiciously and said, "Sister che, why do I have a bad feeling? You're not selling me, right?"

Feng Rao burst out laughing and said, "Who would dare to sell you! Don't be so nervous ... You know about this! The one you personally agreed to was xiangnan TV's life you yearn for. The TV station has already contacted us, hoping that you'd be able to participate in their first episode's recording and give the show a good start!"

"This matter!" Xia ruofei said, "since you've agreed to it, you have to do it even if you have to bite the bullet!"

When Xia ruofei was in Beijing, he had heard from Zhao Yongjun and the others about this. He knew that the filming location at the club was already half – completed and xiangnan TV wanted to start filming as soon as possible.

Of course, it was not enough to just build the mushroom house. Some of the basic facilities of the club had to be built. Otherwise, the camera would be full of construction sites without any sense of beauty. Then it would not be the "life I yearn for" but the "life of carrying bricks."

Feng Rao laughed and said, "so many celebrities want to go on this show but can't! And you still look so unwilling ..."

"Can I be the same as them?" Xia ruofei asked, "when does their show start recording?"

"The exact time hasn't been decided yet, but it should be in a month's time, no more than two months." Feng Jing said, "xiangnan TV has also said that they will contact us again before they are ready. They will also consider your schedule!" Our Chairman is also very busy!"

Xia ruofei forced a smile and said, "you guys go and arrange this!" If there's nothing particularly important that you can't leave, then you can go to the shooting according to your arrangements!"

"Alright!" Feng Jing nodded.

Then, Feng Jing reported to Xia ruofei about the company's recent situation, including everyone's work after the relocation of the headquarters, the company's financial situation, and so on. However, considering that Xia ruofei still had to call for a meeting with the other senior executives, Feng Jing only gave a brief report and waited for the senior executives in charge of the related work to report the specific situation.

Feng Jing stayed in Xia ruofei's office for about an hour before she smiled and closed the file. "That's about it. Let the directors Report the details to you!"

Xia ruofei nodded. "Okay. Tell Yao Xin to inform the director – Level executives at home. Tell them to come to my office for a meeting in ten minutes."

Xia ruofei's office not only had a reception hall, a meeting room, and a bedroom, but it also had a gym and a chess room. Hence, small meetings could be held here.

Although the meeting room was said to be in Xia ruofei's office, there was actually a door that led directly to the meeting room from the elevator exit. This design was also carefully thought out. When the chairman of Qianqian called for a meeting, they couldn't just walk through the chairman's office and show off, right? This wasn't a wet market.

When Xia ruofei entered the meeting room, the company's higher – ups were already there. When they saw Xia ruofei, they all stood up and greeted him.

Xia ruofei also smiled and greeted everyone. He did not put on any airs.

He sat in the middle of the conference room and said, "I've been busy these days and wasn't in the company. Everyone has worked hard! I might have to go out in a while, so I'll make it short. Everyone can talk about the work in their respective areas. If there's a long story, then it'll be short if there's no story!"

President Feng Jing, Administrative Director Dong Yun, Marketing Director Xiao Qiang, Financial Director pang Hao, Security Director Lei Hu, and the newly established Logistics Director tan Ming were present. The pharmaceutical factory director Xue Jinshan was at the construction site, so Xia ruofei did not let Yao Xin inform him to come back.

It was worth mentioning that Xia ruofei had always valued the Veterans. Hence, in this Department adjustment, he still insisted on listing the security Department, which had a relatively simple function, as a first – Class Department compared to the administrative, marketing, and finance departments.

"I've already briefly reported to the chairman before the meeting," Feng Jing said. "We'll just have to talk about the specific work that everyone is in charge of. If there are any difficulties or decisions that need to be made by the leaders, we'll focus on them!"

After Feng Jing was done, the higher – ups began to report on their work. Starting from Dong Yun, everyone's speech was very concise. They didn't use the usual vague words of the government and spoke about their work.

Even so, more than an hour had passed by the time everyone had made their reports.

In fact, the company's current operations were very healthy. They had taken a loan for the expansion of the pharmaceutical factory, but the debt rate was still quite low. In addition, the products had always been in short supply. Therefore, when they reported, they mainly talked about the recent work and did not have many difficulties that Xia ruofei needed to solve.

Xia ruofei cleared his throat. Just as he was about to conclude the meeting and ask everyone to go back to work, his phone on his table vibrated.

Chapter 2084 Flexible plan (1)

Xia ruofei's words were like a shot in the arm, and all the executives were invigorated.

The company's ability to make money was terrifying, and all the executives present were well aware of it. The salary that paradise Corporation offered to these executives was already much higher than the average salary in the industry. If they could even get a share, even if it was only a little more than 0.1%, it would be a huge fortune in the long run!

Xia ruofei was not exaggerating when he said that he could create a house full of millionaires, multi – millionaires, and even billionaires.

Xia ruofei looked around and saw everyone's excitement. As the head of the company, Xia ruofei did not need to have too many tactics. He only needed to grasp everyone's needs and psychology, and that was enough to mobilize everyone's enthusiasm.

He stood up with a smile and said, "Alright, everyone's been busy with work recently, so you can all go back! The company's future belongs to all of us! Dismissed!"

Xia ruofei greeted everyone and entered his office through the door on the other side of the meeting room. Feng Jing and the others left the meeting room through the door on the opposite side.

Xia ruofei walked to his desk as he took out his phone and called Qin Lan.

"Mr. Xia!" Her phone rang and Qin Lan immediately picked up. She had been holding her phone in her hand, waiting for Xia ruofei to call.

"I'm sorry, manager Qin," said Xia ruofei. I was in a meeting at the company just now ..."

"No, no!" Qin Lan quickly replied. I've disturbed you! Mr. Xia, may I ask if you're free now?"

"I'm done with my meeting. Manager Qin, is my yacht here?" Xia ruofei asked.

"Yes, I am!" Qin Lan said, "if it's convenient for you now, please come over and receive it!"

You've already reached that warehouse?" Xia ruofei was a little surprised and said immediately, "please wait for a while. I'll drive over now!"

"It doesn't matter, it doesn't matter!" Qin Lan said repeatedly, "drive slowly. We're not in a hurry!"

"Alright, see you later!" Xia ruofei said.

Then, he picked up his bag and car keys from the table and walked out of the office.

As soon as she went out, Yao Xin quickly stood up and greeted her.

Xia ruofei said casually, "Xiao Yao, I'm going out for a while. I might not be back by noon. If you don't have anything else to do, you should go back to President Feng's place first!"

"Yes, Chairman!" Yao Xin quickly said.

Xia ruofei took the elevator to the underground parking lot. After getting his car, he went straight to the warehouse.

Fortunately, it was already past the rush hour and there was still some time before noon, so the traffic was not too congested. Xia ruofei was able to maintain a relatively high speed on the Second Ring Road. He arrived at the warehouse in about 20 minutes.

From afar, Xia ruofei could already see a large truck parked at the entrance of the warehouse. The Atlantis 34 small yacht that he had tried out yesterday was fixed on the flat trailer behind it.

The Knight XV had a striking appearance. Qin Lan and Liao Bo, who had seen Xia ruofei drive the car, naturally saw it from afar. Before Xia ruofei's car reached the warehouse, Qin Lan had already brought Liao Bo out to welcome him.

"Mr. Xia!" Qin Lan greeted him warmly.

Xia ruofei parked the car by the side, leaving some space for the trailer to reverse. Then, he jumped out of the car and smiled. "Manager Qin, sorry to keep you waiting! Why didn't you give me a call before you left?"

Qin Lan said with a smile, "our service principle is customer first. We can wait for the customer for an hour or two. It doesn't matter. However, we can't allow the customer to arrive before we do."

"You've worked hard!" Xia ruofei said, "I'll go open the door first!"

With that, Xia ruofei quickly went to open the warehouse door.

This warehouse was more than enough to store a yacht that was more than 10 meters long. The door of the warehouse was also designed to be very high, so the flat trailer could be completely overturned in.

After the warehouse was opened, Liao Bo immediately ordered the workers to start directing the car to reverse. Xia ruofei and Qin Lan also watched from the side.

Xia ruofei saw that the parts of the yacht that were in direct contact with the tow truck, as well as other important parts such as the propeller, were all tightly protected with soft foam. He could not help but nod in his heart.

The car was slowly being reversed, and a group of workers went into the warehouse to set up the frame for the yacht.

Although they didn't know why Xia ruofei wanted to put the yacht in the warehouse, the Yacht Club had made proper arrangements. They made a solid support for the yacht to be placed. This was to ensure its safety and also to make it easier for Xia ruofei to transport it next time.

After the flatbed arrived, the small cranes and forklifts that had been prepared earlier were also driven in. The workers jumped on the flatbed and started to fix the hook. Everyone had a clear division of labor. Some were responsible for stabilizing the yacht, some were responsible for observing, and some were responsible for protecting.

After a while, the yacht was firmly hung up, and then the flat trailer was driven out of the warehouse. The workers helped the yacht adjust its direction little by little, and finally accurately landed on the frame.

Xia ruofei looked at the workers who were skillfully fixing the equipment. He wanted them to stop fixing the equipment because he would have to release the equipment later. Not only did the workers work for nothing, but he also had to go through another troublesome process.

Chapter 2085 Flexible plan (2)

However, Xia ruofei couldn't find any reason to do so. After all, it was a million – dollar item. It didn't make any sense to just leave it there without fixing it.

Hence, Xia ruofei could only watch as the workers fixed the yacht firmly on the frame.

Liao Bo went over to check and then nodded to Qin Lan, indicating that there was no problem.

Qin Lan smiled and said to Xia ruofei, ""Mr. Xia, please take a look and see if there's any problem. If not, please sign here, and we'll completely hand over the yacht to you!"

Xia ruofei had seen the entire process clearly, so he smiled and said, ""There's no need to look, your workers are all very professional!"

After he finished speaking, Xia ruofei took the form and pen from Qin Lan's hands and signed his name on it. Then, he returned it to her.

Seeing this, Liao Bo called the workers to leave first.

"Thank you, Mr. Xia!" Qin Lan said with a smile.

Xia ruofei laughed. "I should be the one thanking you. I've caused you a lot of trouble!"

"Where? This is our job!" Qin Lan said. Then, she looked at Xia ruofei and asked, "Mr. Xia, do you have time in the afternoon?" We would like to treat you to a meal. "

Xia ruofei looked at Qin Lan and Liao Bo, smiled and said, ""Manager Qin, I've already made plans for lunch, so let's skip lunch! I appreciate it. If you're looking for me for something, you can just say it!"

Qin Lan hesitated for a moment. She had wanted to find a place with a better environment to treat Xia ruofei to a meal and then mention President Huang's yacht during the meal. She did not expect Xia ruofei to reject her so directly.

This warehouse didn't look like a place to talk about a business worth tens of millions! If he had known this would happen, he would have called her directly yesterday!

In fact, Xia ruofei was not trying to shirk responsibility. He had indeed asked Ling Qingxue out for lunch. It was just that he had more time now. Otherwise, he would not even have the time to pretend to be polite to Qin Lan and the rest.

In the end, Qin Lan still decided to get straight to the point. She said, ""Mr. Xia, it's like this ... Yesterday, you raised the problem of the azmu 100 Leonardo yacht's delivery period being too long. We have also reported to the leader and actively negotiated with the manufacturer. However, the manufacturer said that the orders were very full and it would be difficult to shorten the delivery period ..."

Xia ruofei listened quietly. He knew that Qin Lan would not bring this up again for no reason. If there was no result from the negotiation, it would be meaningless for her to bring this up again after a few days! Therefore, there would definitely be a follow – up.

As expected, Qin Lan continued, "Mr. Xia, we really want to facilitate this transaction. Therefore, we have coordinated the relationship between all parties. Now, we have a flexible solution. I wonder if you are interested in it?"

"Oh? Tell me about it!" Xia ruofei smiled.

"It's like this. More than a year ago, a customer ordered an azmu 100 Leonardo from our company. This yacht has just been manufactured recently and was shipped to China by sea. It has already completed the customs clearance." Qin Lan said, "and this customer wants to cancel this order because of his own reasons. The model of this yacht is exactly the same as the one you took a fancy to yesterday. If you agree, we can coordinate to transfer this yacht to your name. In this way, you don't have to wait any longer and can directly drive the yacht you like!"

Xia ruofei raised his eyebrows. He was not overjoyed by the news. Instead, he asked calmly, "Manager Qin, is this a brand new yacht?"

"Of course!" Qin Lan quickly replied, "other than going through a sea test after leaving the factory, there are no records of the yacht being used. It was also transported by an ocean – going freighter. After customs clearance, it has been docked at the dock. Our customer has not completed the delivery procedures, so naturally, he can't have used it!"

"I see ..." Xia ruofei touched his chin and said, "this will save us time. However, as far as I know, azmu's yachts provide personalized customization. This yacht is made according to other people's preferences. It might not be in line with my aesthetic!"

This was the question that Qin Lan was most afraid of. She quickly said, "Mr. Xia, although azmu provides customized designs, there are only a few overall designs. The customer can choose a variety of combinations. In my opinion, the designs provided by the manufacturer are actually very beautiful ... You don't have to be in a hurry to decide. Maybe it's a style you like?"

Xia ruofei nodded and said, "that's fine!" Manager Qin, how about this ... Send the information about this yacht to my email. I'll take a look when I'm free, and I'll call you again once I make a decision. "

"Mr. Xia, I've brought the rendering!" Qin Lan quickly said.

Liao Bo immediately handed her an iPad. Qin Lan opened it and showed it to Xia ruofei.

Xia ruofei raised his hand and looked at his watch. It was still early, so he took the iPad and swiped it left and right.

In all fairness, the yacht that CEO Huang had ordered was in line with Xia ruofei's aesthetics. At least it was not full of bright decorations and did not give off the aura of a nouveau riche.

The interior of the yacht was minimalistic and looked refreshing. The layout of the cabin was in line with Xia ruofei's requirements.

He flipped through the pictures without saying a word and even frowned slightly from time to time. This made Qin Lan and Liao Bo, who were at the side, nervous and unable to relax, look at him.

Xia ruofei said, "manager Qin, this style can only be said to be barely satisfactory!" There are some places that I don't want ..."

Liao Bo's heart sank when he heard that. He felt that there was probably no chance.

On the other hand, Qin Lan saw a glimmer of hope because Xia ruofei did not make it a dead end. On the contrary, he even picked a fault, which meant there was hope.

If Xia ruofei was not interested at all, or was disappointed with the proposal, he would not have said these words and would have rejected it directly.

This was similar to buying a second – hand house. If the person looking at the house didn't say a word after looking at it or vaguely said something like "go back and think about it", it was likely that there was no chance. And if the landlord started to pick all kinds of faults, it meant that he was actually tempted. He only picked faults to bargain.

Qin Lan quickly said, "Mr. Xia, after all, this was custom – made by someone else. It's indeed very difficult to completely meet your requirements. However, if you're satisfied with the overall situation, you can also make some changes to the details."

Xia ruofei smiled and didn't say anything. He just looked at the effect picture on the iPad slowly.

Qin Lan gritted her teeth and said, "Mr. Xia, if you're willing to take over this yacht, we can negotiate with the customer and give you a discount on the price. In addition, if it doesn't involve the overall structure of the yacht, we can try our best to modify the parts that you're not satisfied with!"

Xia ruofei said indifferently, "I see that the internal facilities of this yacht are all standard!" The discount you mentioned yesterday for equipment selection ..."

"Of course there is!" Qin Lan said, "all the preferential conditions will remain the same. We will try to lower the price as much as possible. Is that alright?"

After she finished speaking, Qin Lan opened her eyes wide and looked at Xia ruofei expectantly.

Xia ruofei thought for a while and finally nodded. ""You guys go talk to the client first! Whether I buy it or not depends on how much of a discount I can get. Also, send me a copy of the details of this yacht, including the relevant documents of the client's purchase. "

Buying a yacht that was worth tens of millions was not like buying vegetables. Even if Xia ruofei was not short of money, he could not be so casual. He had to carefully look through all the information and documents on the yacht and compare the price before making a decision.

"Alright!" Qin Lan immediately replied. Mr. Xia, we'll go to the customer today to coordinate! The relevant information will be sent to you before noon!"

When Xia ruofei bought the Atlantean 34 yacht in the warehouse, he had already filled in the relevant information, including the email address. Therefore, Qin Lan did not need to ask Xia ruofei for the email address. She directly handed this matter over to Liao Bo.

Xia ruofei nodded and said, "sure!" That's all for today! I'll be waiting for your good news!"

Chapter 2086 The arrival of the materials (1)

Qin Lan also knew that it was impossible to settle this matter in one go. In order to make this deal happen, she still needed to go back and forth between Xia ruofei and President Huang. However, no matter what, she was already very satisfied with this result. At least she could see the hope of a successful deal, so she was very happy.

After Qin Lan, Liao Bo, and the rest left the warehouse, Xia ruofei went to lock the door and used his spiritual power to check to make sure that no one was spying on them.

Then, he went to the Atlantean 34 small yacht. The yacht was firmly fixed to the frame by the workers. If Xia ruofei wanted to loosen the fastening device, he would have to remove at least a few dozen large screws. It was almost noon now, and he had asked Ling Qingxue out for lunch.

Hence, after a moment's deliberation, Xia ruofei decided to put the yacht and its frame into the spirit map space. When he had time at night, he would go into the space to remove the yacht from the frame and put it out at sea.

Xia ruofei's spiritual power locked onto the yacht and its frame. With a slight thought, the ten – meter – long yacht and its frame strangely disappeared from the warehouse.

Xia ruofei placed the yacht and the bracket on a flat beach by the space sea. Although the beach was soft, Xia ruofei used the invisible force of space to push the tripod down. Soon, it was firmly held on the beach. There were no strong winds or waves in space, so there was no danger of it flipping.

Xia ruofei used his spiritual power to communicate with Xia Qing, who was in the space. He asked Xia Qing to look after him when he was working. Then, he warned the White realm Fox sternly and told it not to get close to the yacht. Otherwise, it would not be able to eat realm stones anymore.

After settling down the yacht, Xia ruofei did not stay in the warehouse. He opened the door a crack, dashed out, and quickly locked the door. Then, he drove to the Ling Ji F & B headquarters.

The security guards of the lingji food and beverage building were already very familiar with this flashy off – Road vehicle and let them pass. Xia ruofei parked the car in front of the building, but no one came to stop him.

Xia ruofei raised his hand to look at his watch. Just as he was about to get out of the car for a smoke, he saw Ling Qingxue's tall figure appear at the entrance of the building.

Xia ruofei put the box of cigarettes back into his pocket, pushed open the car door, and jumped out. He smiled and went up to them.

Ling Qingxue was wearing a black suit today, and her black hair was tied up behind her head. She looked like a capable white – collared beauty.

"RUO Fei!" When Ling Qingxue saw Xia ruofei, a bright smile appeared on her face and she quickened her pace.

Xia ruofei stood at the bottom of the stairs in front of the building, smiling at his girlfriend. After she walked down the stairs, Xia ruofei naturally held her hand and smiled."Mm! You look good!"

"That's right!" Ling Qingxue raised her chin proudly and said,"I'm a cultivator after all. What's the big deal with staying up for one or two nights?"

Xia ruofei couldn't help but laugh."With your cultivation level, if you really meet someone from the world of cultivation, don't tell them that I taught you. I can't afford to lose face ..."

Ling Qingxue pinched Xia ruofei in embarrassment and said coyly, "It's all your fault! He had left for such a long time! If you had accompanied me in my cultivation in the three mountains every day, my cultivation would have gone up a long time ago!"

Ling Qingxue naturally could not bear to hit him too hard, but Xia ruofei still cooperated and groaned in pain. "Wife, I was wrong, I was wrong! Didn't he come back already? This time, I'll stay a little longer and accompany you in your cultivation!"

"This is more like it!" Ling Qingxue glanced at Xia ruofei proudly and asked, "where are we going for lunch?"

Xia ruofei thought for a while and said, "let's go to the Western restaurant around the corner from last time!" I think it tastes pretty good!"

"Sure!" Ling Qingxue said.

As long as Ling Qingxue was with Xia ruofei, she didn't care what they ate. Besides, the environment and taste of the Western restaurant around the corner were very good.

When they drove to the Western restaurant around the corner, manager Bastian and Xia ruofei's fan Cheng Xiaoxiao were naturally very surprised. They treated them as distinguished guests and insisted on giving Xia ruofei a free meal.

Xia ruofei tried his best to persuade Bastian and even threatened that he would never come again if the bill was free. Bastian finally gave up, but he still gave them a very high discount and even gave them two specialty dishes and a bottle of good wine.

While they were eating, Xia ruofei remembered that Feng Jing had said that she would actively update her Weibo and increase her exposure, so when Cheng Xiaoxiao served them the dishes, he took out his phone and asked Bastian to take a photo of the three of them.

Then, he took a few photos of the day's food and red wine and posted them on Weibo with the caption: He came to the corner to check in with our CEO Ling again, and it was still the same feeling!

At the same time, Xia ruofei also tagged Ling Qingxue and Cheng Xiaoxiao's Weibo accounts.

To Xia ruofei, this was just a simple action. It was more of a show of how much importance he attached to Feng Jing's suggestion.

However, his casual operation had gained Cheng Xiaoxiao another wave of fans, and the number of followers on Weibo had increased by several thousand.

Even the Western restaurant around the corner had become a slightly famous online restaurant. Many people came because of its fame. Some were looking forward to a chance encounter with Xia ruofei, while others simply wanted to try the Western food that even overbearing CEOs liked.

Chapter 2087 The materials have arrived (2)

Of course, this was all a story for later.

After Xia ruofei and Ling Qingxue finished their lunch, they went straight to the nearby Shangri – La hotel and booked a room. The two of them had not been together for almost a month. How could a meal be enough to satisfy each other's strong needs?

After a round of intimate activities, the two of them were both physically and mentally satisfied, and they leaned on the bed while hugging each other.

Since both of them had to go to the company in the afternoon, they were more or less reluctant to have more.

Ling Qingxue snuggled into Xia ruofei's arms, her fingers drawing circles on his sweat – covered chest. She pouted and said, "Ruofei, when are you going to buy a house in the city? It's not easy for us to get a chance to be together, and we have to get a room in a hotel. It's too inconvenient ..."

Xia ruofei smiled and said, "buy, buy, buy!" I'll buy it immediately! He had been so busy the last time that he couldn't take care of it. I'll settle the house issue once I'm back!"

After the company headquarters moved to the city, Xia ruofei also felt that it was more or less inconvenient to live on the farm. Although the farm was quiet and the environment was good, the location was a little remote. If he came to the company often, he would have to spend more than an hour on the road every day. Therefore, it was necessary to buy a house in the city.

Moreover, the property prices in San Shan had dropped recently due to some adjustments. It was a good time to buy a house at this time.

After getting a windfall of 200 to 300 million euros in Italy he could even buy a building, let alone a house.

Xia ruofei immediately asked, "by the way, didn't you say last time that your family had a house for sale in the villa district?" Don't tell me it's already been sold?"

Ling Qingxue smiled and replied, "not really!" Recently, the real estate market hasn't been very good, and the transaction volume of second – hand houses has dropped a lot. It's more difficult to sell high – value properties like villas, but it doesn't matter if you buy them and live in them yourself!"

Ling Qingxue shifted to a more comfortable position and continued, "It seems that there are a few villas in our community that are for sale! There are several types of houses to choose from, and I don't see anyone living in these houses usually. They're probably hoarded by people who speculate in real estate. Recently, the price has dropped a lot. If you want to buy them, they can be much cheaper now!"

Once there was any movement in the real estate market, the capital chain might have problems. Therefore, every time the real estate market was regulated, many real estate investors would sell their properties.

Xia ruofei nodded and said, "yes!" Then I'll take some time to go over and take a look in the next two days! By the way, I didn't have time to ask you just now. The batch of young geese I imported last time should be almost past the quarantine period, right?"

"I thought you had forgotten!" Ling Qingxue chuckled.

"How is that possible? This batch of young geese is very important to me. " Xia ruofei said.

Ling Qingxue smiled and said, "don't worry!" I've set a reminder on my phone, and when the time is up, the Inspection and Quarantine Bureau will call to inform me! If I'm not mistaken, I should be able to get it in five days!"

"I don't know if there will be any problems when they're in quarantine ..." Xia ruofei said.

"If there is a plague or a large number of deaths during the quarantine period, the Inspection and Quarantine Bureau will inform me as soon as possible. If I didn't receive their call, it means that everything is normal!" Ling Qingxue said, "don't worry! I'll go with you to get them back in five days!"

"Alright!" Xia ruofei said, "it's almost time. Let's take a shower and leave!"

"Yes ..." Ling Qingxue nodded.

At first, Ling Qingxue was a little shy about taking a bath with Xia ruofei. However, after spending more time with him, she became more open.

The two of them took a couple's bath in the hotel's bathroom, and naturally, there was no lack of intimacy during the process.

After checking out at the front desk, Xia ruofei sent Ling Qingxue back to the company and then drove back to Taoyuan building.

Xia ruofei went to the chairman's office on the top floor and realized that Yao Xin had already retreated. It seemed like Feng Jing was quick to execute his orders.

Xia ruofei smiled, pushed the door open, and entered the office.

There were still a few minutes before work, so he got up and went to the cabinet to take out some tea leaves. He made himself a cup of hot tea and drank it for a while before heading to the balcony to smoke a cigarette. He then returned to his desk and sat down. He picked up the internal phone on the desk and called Feng Jing.

"Sister che, are you free?" Xia ruofei asked with a smile.

"This is rare! I thought you were going to slip away this afternoon!" "Why wouldn't I be free when the Chairman's calling?" Feng Jing teased.

"Alright then, come to my office! I have something to tell you!" Xia ruofei said.

"Okay, I also have something to report to you!" Feng ke said.

"Let's talk when we meet!"

After Xia ruofei hung up, Feng Jing knocked on the door and came in.

Xia ruofei smiled and pointed to the chair opposite the desk. "Sister che, sit down! Pour yourself some water! I don't have anyone to serve me ..."

Feng Rao couldn't help but roll her eyes at Xia ruofei and said, "I assigned you an assistant, but you didn't want it!"

Xia ruofei couldn't help but laugh. "I just don't want to waste the company's human resources! Right, didn't you just report this morning? What's the matter?"

"There's something I forgot to tell you this morning ... Didn't you order a batch of strange materials from the company? These things have already arrived. Basically, we've bought everything you requested."

Xia ruofei suddenly remembered that he had indeed asked the company's purchasing department to order a batch of materials for the production of the soul puppet. At that time, he also saw that these materials could be bought on the market, but it was too troublesome to purchase them one by one, so he simply let the company's procurement department handle it.

In any case, these things were not connected to each other at all. Even if outsiders saw this list, they would not know what they could do when combined, let alone think that they were somewhat supernatural.

After Xia ruofei made the arrangements, he did not bother about it anymore.

He said happily, "really?" That's great!"

"Ruofei, those materials are all piled up in the company's warehouse!" Feng Jing said, "do you need to go and take a look?"

There were still a few empty floors in the company's headquarters, so there was plenty of space. They had specially made a warehouse to store some office supplies and so on.

Xia ruofei said, "I won't watch it ... How about this?" I'll give you an address. Get Lei Hu and the others to find a car and send all these things there!"

Xia ruofei grabbed a piece of paper and wrote down the address of the warehouse in the city.

He thought for a while and said, "forget it, I'll just tell Lei Hu directly!" You don't have to worry about this!"

"Alright then!" Feng ke said.

Xia ruofei was very happy that he had collected all the materials. According to Xia Qing, his current cultivation might not be enough to make a spiritual puppet, but some preparations could be done in advance. Many materials had to go through secondary processing, and his cultivation was enough to do it.

"Oh right, ruofei, why did you call me over?" Feng Jing asked.

Xia ruofei smiled and said, "of course there's something!" Sister ran, I've asked around and found out that Qingxue's neighborhood has a few villas for sale. I'm already preparing to buy one there. I thought you don't have a house in the city either? After all, it's not convenient to live on a farm. Why don't you get one too? We live in the same neighborhood, so we can take care of each other!"

Feng Jing was a little moved when she heard that. Besides, she was the first person Xia ruofei thought of when he bought a house, so she felt a little warm inside.

However, when she thought about how Ling Qingxue also lived in that community, she had a strange feeling in her heart. In her inexplicable mood, she blurted out, "Ruofei, I don't want to buy a house for the time being ..."

Chapter 2088 Dividends_1

Xia ruofei was stunned and asked, "what's wrong?" Although the real estate market was not doing well now, it was still quite good to buy and live in it! And the price of the house has also dropped a little, so this is the perfect time to sell!"

Feng Rao was in a dilemma. On the one hand, she enjoyed Xia ruofei's genuine concern. On the other hand, she was not used to living in the same neighborhood as Ling Qingxue, so she was a little absent-minded for a while.

Seeing that Feng Jing was silent, Xia ruofei thought to himself, "could it be that sister Jing has some difficulties?" He thought for a moment, then patted his forehead and said with a smile, "Look at my brain! Sister che, I know. Is it because you don't have enough funds?"

With the current housing prices in San Shan city, a villa in a better location, even if it was a townhouse, would cost more than a few million. If it was a standalone villa, it would cost at least ten million.

Although Feng Jing's salary at paradise Corporation was high, she had only worked for slightly more than a year, and the company didn't give her any dividends. Her 2% shares were just in name, and it didn't bring her any substantial income. If she wanted to buy a villa, it would be difficult to pay the down payment even if she applied for a loan.

Xia ruofei saw that Feng Jing wanted to say something but hesitated. He assumed that Feng Jing did not have enough money and was too embarrassed to ask for it, so she rejected him.

Feng Rao was still in a dilemma. When she heard Xia ruofei's words, she immediately said, "Yup! I don't have much savings, and it's a bit hard to buy a villa ... I'll think about it later! It's quite convenient to live in the company's house now!"

Feng Jing thought that this was the end of the matter and was a little disappointed. After all, she was looking forward to living in the same neighborhood as Xia ruofei.

To Feng Jing's surprise, Xia ruofei replied in a relaxed manner, "Not enough money? It was simple! It just so happens that you haven't received any dividends yet, so why don't I take this opportunity to withdraw some for you first?"

"Ah?" Feng Rao was taken aback.

"Wait!" Xia ruofei laughed.

Then, he picked up the phone on the table and dialed the internal number of pang Hao's office. He said, "Director pang, I'm Xia ruofei. Come to my office for a moment ... Yes, right now!"

Xia ruofei would only address pang Hao by his nickname "fatty" in private. In the company, he was formally addressed as "director pang".

Feng Rao finally reacted and quickly said, "RUO Fei, no need, no need! I'm not short of money now, so it doesn't matter when I buy a house! I don't need it that urgently!"

"What do you mean no need? Didn't I tell you? This time, let's go look at the houses together. It'll be great if we can all live in the same neighborhood!" Xia ruofei said, "it's decided then! You have to listen to me this time!"

Feng Rao opened her mouth but didn't say anything when she saw Xia ruofei's firm attitude.

In a short while, pang Hao arrived at Xia ruofei's office.

He greeted Feng Jing with a smile, "Boss Feng is here too!"

Then, pang Hao turned to look at Xia ruofei and asked with a smile, "Chairman, you've called me here in such a hurry. Do you have any important instructions?"

"Director pang, is there enough money in the company's account?" Xia ruofei asked.

"That's plenty!" Pang Hao said, "our company's cash flow is sufficient to begin with. This time, we've also received a large sum of bank loans. The initial investment for the project was not that much at all. There are several hundred million Yuan on the book now!"

Xia ruofei nodded and said, "that's good!" Director pang, go and make a list to withdraw 10 million Yuan of dividends for President Feng. We're a little tight on time in the afternoon, so go to the bank tomorrow and get it done as soon as you start work!"

"Ten million dividends?" Pang Hao was stunned for a moment.

"Is there a problem?" Xia ruofei asked.

"Oh! No, I didn't!" "Chairman," pang Hao said hurriedly. "Then what about you ..."

Xia ruofei was stunned for a moment before he reacted. He waved his hand and said, "I don't need it, I'm just doing CEO Feng's dividend orders! I'll just record it when I'm doing the accounts. I'll wait until the company has accumulated more funds to talk about my dividends!"

Feng Jing only had two percent of the company's shares. According to the ratio, she would get ten million, which meant that Xia ruofei would get four hundred and ninety million. If they were to follow this ratio, even if they did not empty out the company's books, they would at least be unable to make ends meet. This was what pang Hao had been worried about.

Now that Xia ruofei was not short of money and had no need to spend a large sum of money, there was no need to withdraw the bonus.

Of course, although 98% of the company's shares were controlled by Xia ruofei, the company's money was the company's money, and personal money was personal money. They could not be mixed together. Of course, there would be no problem as long as the accounts were clear.

"Understood!" Pang Hao heaved a sigh of relief and said, "I'll get it done immediately! President Feng, I'll have to trouble you to sign this later. "

"I'll go with you," Feng Rao said. In case you run back and forth!"

Then, she turned to Xia ruofei and said, "Chairman, thank you!" Then I'll head over first!"

Xia ruofei smiled. "You're welcome. That's your bonus anyway." I'll give you a call after I've made the arrangements!"

As pang Hao was present, Xia ruofei did not mention the house but brought it up vaguely.

Chapter 2089 Dividends -2

After Feng Jing left, Xia ruofei thought about the materials again. He couldn't wait to store them in his interspace and take care of them when he was free.

Refining a spirit puppet was a complicated and vast project. There were some tasks that he couldn't complete with his current cultivation base, but there was a lot of basic preparation work that could be done in advance, such as the pre – processing of materials and the carving of a large number of basic formations.

A soul puppet was actually a combination of a large number of basic formations to achieve an effect similar to artificial intelligence. Xia ruofei could understand most of the formations, but he did not know how to combine them. He had no idea why those basic formations could achieve such a magical effect after being combined in a special way.

However, Xia ruofei did not need to know the reason. He just had to follow the refining method strictly and complete the preparation step by step.

Thinking of the materials, Xia ruofei was about to call Lei Hu over and ask him to arrange for people to transport the materials to the warehouse as soon as possible.

Just as he swiped his phone screen and was about to call Lei Hu, he heard a knock on the door.

Hence, Xia ruofei placed his phone on the desk and called out, ""Come in!"

The office door was pushed open and a group of people walked in. The first one was Lei Hu.

Xia ruofei couldn't help but be stunned for a moment. They really have telepathy! I was just about to call you over! You ran over on your own.

However, when he thought about how Lei Hu was a man, the idea of telepathy was a little strange. He could not help but shake his head and throw these messy thoughts to the side.

"Chairman, look who I've brought!" Lei Hu said, smiling.

Xia ruofei took a closer look and couldn't help but smile. He stood up and said, ""Old Xu! You guys are here!"

The people who came in with Lei Hu were the Veterans who had helped Xia ruofei deal with Liu haojun's problem.

Xu Yougang, Zeng Liang, Wang Chong, and Zhang Aijun all went to Xia ruofei's office.

"Good day, Chairman!" Xu Yougang and the other three said in unison.

Xia ruofei laughed and said, "good, good, good!" You guys look good! It seems that the environment in Sanya is really nourishing!"

After Liu haojun's matter, Xia ruofei gave Xu Yougang and the others a sum of money to go on a long vacation in Sanya. On the one hand, it was to avoid the limelight, and on the other hand, it was naturally to reward them.

"Thanks to you!" Xu Yougang chuckled. It's been a long time since we've had a good rest. The blue sky and blue ocean in Sanya has made us want to go back!"

Xu Yougang and the others were all selected by Lei Hu. The common point was that the four of them had just been recruited at that time and had not even gone through the employment procedures. In addition, their situation after their retirement was not very good. They were financially stretched because of their families or other reasons.

After they helped Xia ruofei with Liu haojun's matter, Xia ruofei not only provided them with the luxury tour to Sanya, but also gave them a large sum of money each. Naturally, their family's difficulties were solved.

A man would die for his bosom friend. Xu Yougang and the other three were absolutely loyal to Xia ruofei. After returning from Sanya, Lei Hu had asked them to rest first. After all, Xia ruofei was the one who decided on their arrangements. When they heard that Xia ruofei had finally returned to the three mountains, the four of them, who were bored to death, immediately went to find Lei Hu and reported to Xia ruofei.

Xia ruofei laughed and said, "since you like it there, why don't you spend more time there?" Do you not have enough money?"

"No, no!" Xu Yougang quickly said, "Chairman, we just did a small thing for you. You gave us so much money and even sent us on a trip. We feel very apologetic. Everyone wants to work for you as soon as possible!"

"It's good that you're back!" Xia ruofei smiled and said, "you guys work hard by my side. If you like Sanya, you can buy a house there and stay there for a while whenever you want to go on vacation!"

"Hehe!" Xu Yougang scratched his head. "The houses there are too expensive. We can't afford them!"

"Old Xu, if you work for the chairman, you'll be able to afford a house in the future," Lei Hu said.

"That's right, that's right!" Xu Yougang said with a smile.

"Don't just stand there, come and sit here!" Xia ruofei laughed and said, "if you want to drink water, pour it for yourself! There are drinks in the fridge too, don't be shy, I don't have a Secretary here to serve me!"

"Yes, thank you, Chairman!"

Xu Yougang and the others followed Xia ruofei to the reception area and sat down.

Xia ruofei thought for a while and said, ""Old Xu, I've thought about your arrangements some time ago. Now, I have two plans. You can choose one."

Xu Yougang and the other three quickly sat up straight and pricked up their ears to look at Xia ruofei.

Xia ruofei said, "first of all, I want to say that no matter what the plan is, it's best that you don't go through the formal employment procedures at the Paradise Corporation."

He did this out of careful consideration. After all, the Liu family was a giant and their power was beyond ordinary people's imagination. Although Liu haojun's incident had happened some time ago and according to Xia ruofei's indirect inquiries, the Liu family did not seem to have found anything, it was better to be safe than sorry. If the Liu family really found any clues, Xu Yougang and the others would all be employed by the Paradise company, which might cause trouble.

Chapter 2090 Dividends -3

Although the possibility was small, Xia ruofei still had to be careful.

"We understand!" Xu Yougang nodded and said.

Xia ruofei smiled. "The first option is for you to continue working for me in secret. I'll personally pay you. As for the salary ... It'll be the same as the salary of the Vice President of the security Department! I don't need your help in normal times, nor do I need you to be responsible for security issues. However, you may be required to carry out some tasks at certain times. "

Xia ruofei was different from the other rich people. As a cultivator, he did not need a bodyguard for his own safety. If he really met someone who could threaten his safety, it was not something that the bodyguard could handle. Furthermore, the bodyguard was always with him, which made it more inconvenient for him to do some things. In addition, if the Liu family found out something, it would be easier for them to link Liu haojun's incident with Xia ruofei.

So, if Xu Yougang and the others chose this plan, he needed to keep quiet and live like an ordinary person. When needed, he could use their investigative expertise to help Xia ruofei do things that were inconvenient or inconvenient for him to do. That would be enough.

Xia ruofei did not care about the money he had to spend on these people.

"What about the second plan?" Xu Yougang asked.

"The second option is to go abroad to work." Xia ruofei smiled and said, "I have a big farm in Australia and I need someone I can trust to be in charge of security there. If I go abroad, the salary might be higher since it is based on the local employee's treatment standards. However, I will be far away from my family, so it's up to you to make the choice ..."

Xu Yougang and the other three looked at each other and said, ""Chairman, we need to discuss this!"

"Of course, you guys can discuss it slowly!" Xia ruofei smiled and said, "Lei Hu, come with me. I have something for you to do!"

"Alright!" Lei Hu replied.

Xia ruofei and Lei Hu stood up and left the guest area, leaving Xu Yougang and the others to discuss.

After walking to his desk and sitting down, Xia ruofei passed the note with the address to Lei Hu and said,""I asked the company to buy a batch of materials for me. They're now stored in the temporary warehouse of the building. Help me transport these materials to the warehouse at this address."

Xia ruofei then took out the key to the warehouse and handed it over."Oh, this is the key to that warehouse. After you put the items there, you can return the key to me!"

"Understood!" Lei Hu took the key and the note and said,"I'll contact the car in a while. It'll be done by today!"

Xia ruofei nodded."You can contact President Feng for the details. She personally handled the materials."

"Alright!" Lei Hu said,"Chairman, if there's nothing else, I'll take my leave first!"

"Mm! Go!" Xia ruofei said.

Lei Hu greeted Xu Yougang and the others before leaving Xia ruofei's office to look for Feng Rao to discuss the materials.
