

God tier Farm 2091

Chapter 2091 Free gallop (1)

Xia ruofei smiled and asked, "Oh? Tell me about it ..."

Xu Yougang hesitated and said, "Chairman, after some discussion, I ... I want to stay in China. The three of them are willing to work in Australia."

Xia ruofei pondered for a while and understood the reason. He remembered that Lei Hu had told him that the reason he had chosen Xu Yougang and the other three to help him deal with Liu haojun was that they were in a difficult financial situation. Lei Hu had said that Xu Yougang's parents and daughter – in – Law were in poor health and had to take medicine all year round to maintain their health.

Xu Yougang must have chosen to stay in the country because he had to take care of his family.

Xia ruofei smiled. "Of course, I respect your choice. But old Xu, I have a suggestion. What do you think?"

"Please say it, Chairman!" Xu Yougang quickly said.

Xia ruofei said, "the four of you were originally from the same Combat Team. Everyone had their own duties and worked well together. It would be a pity if you were to split up ... Actually, you could also go to Australia to work with Zeng Liang and the others. After all, you're going to work, not be exiled. You can come back anytime when you have a holiday or something at home. Also ..."

Xia ruofei paused and looked at Xu Yougang before he continued, "Considering your family's situation, I can talk to the Australian farm and ask your family to go with you."

Xu Yougang was stunned for a moment. He did not expect Xia ruofei to be so thoughtful.

Xia ruofei said, "of course, the elderly may not be able to adapt to life abroad, but you can bring them to live outside for a while. The medical standards abroad are better than in China. Your family can go there for treatment for a period of time. If the elderly get better and want to live in China again, you can send them back. You can come back when you have a holiday anyway."

After hearing Xia ruofei's words, Xu Yougang was really tempted.

The money he earned from working so hard for Xia ruofei was mainly used for the treatment of his parents and wife. However, the old man was old and had many chronic diseases. He needed time to recuperate, which was not a problem that money could solve.

It might be even better if the two elders could really be brought to Australia for treatment. Moreover, Xu Yougang had also heard that the environment in Australia was very good, which should be more conducive to the recovery of the elderly.

"Old Xu," Zeng Liang said, "the chairman has already thought so much about you. What are you hesitating for?"

"Yes!" Wang Chong replied. Squad leader Xu, we brothers don't want to be separated from you either!"

Xia ruofei chuckled. "Don't rush old Xu. After all, this matter concerns his family. Let him think about it!"

Xu Yougang raised his head and said with a touched expression, ""Chairman, thank you! I know you're thinking about me ... But I have to ask my family for their opinion on this. Can you give me some time?"

Xia ruofei nodded and said, "of course, there's no hurry!" Go back and have a good discussion with the old man and your wife. I'll still say the same thing, I treat you as my brothers. No matter what decision you make, I'll respect it!"

"I know! Thank you, Chairman!" Xu Yougang said, "I will give you an answer in three days! Then ... We'll take our leave!"

"Mm! You can go back and rest for a few more days, especially Zeng Liang and the other two. Since you've decided to go overseas to work, you should spend more time with your family. " Xia ruofei smiled and said, "of course, when you have a certain amount of financial power, you can also take your family out! The houses in Australia aren't too expensive, so it's not impossible to settle down there!"

Zeng Liang and the others also expressed their gratitude. Then, the four of them bowed slightly to Xia ruofei and left the office.

After Xu Yougang and the others left, Xia ruofei gave pang Hao a call to ask about the situation. He learned that pang Hao had already completed the procedures for the dividends and Feng Jing had signed the papers. They were just waiting for the finance department to transfer the money to Feng Jing at the bank during work hours tomorrow.

In the afternoon, Xia ruofei was in his office dealing with some documents that had accumulated over the past few days. Most of them were reports that required his signature. Of course, if it was something urgent and required Xia ruofei's approval, Feng Jing would usually call him to report it and get his approval before doing it. Signing it now was just another step in the process.

After work, Xia ruofei did not drive. Instead, he followed a few young employees who were still living on the farm and experienced the company's commuting bus.

Xia ruofei did not put on any airs and could chat with the ordinary employees happily. The atmosphere in the car was very relaxed.

When the bus arrived at the farm, it stopped directly at the complex. Xia ruofei and the employees went to the cafeteria for dinner and then strolled back to his small villa.

After he locked the door and windows, he took out the spirit map and entered the space.

"Master!" Xia Qing immediately came over to greet Xia ruofei.

Xia ruofei nodded slightly. "I've basically prepared all the materials needed to refine the spiritual puppet. I can bring them to the spirit map world tomorrow."

Chapter 2092 Free gallop (2)

"That's great!" Xia Qing said happily, "I also hope that master can refine a few helpers for me as soon as possible!"

Xia ruofei smiled and said, "I want to!" Wasn't this because his cultivation wasn't high enough? Xia Qing, with your understanding, what level of cultivation do I need to reach to be able to refine a soul puppet?"

“The refining method you got is for making elementary spiritual puppets,” said Xia Qing. “According to your current cultivation, you’ll need to advance at least two to three levels before you can successfully refine them. However, your spiritual power cultivation is much higher than your genuine Qi cultivation, and the great way of Dao and the absolute beginning Heart Sutra that you’ve cultivated have very good control over your spiritual power, so ... I estimate that after you break through one more level, at most two levels, you should be able to refine a spiritual puppet!”

Xia ruofei was also very happy after hearing this because at least this goal was not too far away.

At the same time, he also caught a very important piece of information. He couldn’t help but ask, “Elementary spiritual puppet? Xia Qing, are there different grades for soul puppets?”

Xia Qing nodded and said, “that’s right. A primary spiritual puppet is the lowest level of spiritual puppets. Its spiritual intelligence is relatively low. However, it can still carry out orders to complete tasks. It’s just that its autonomy is less.”

Xia ruofei looked curiously at Xia Qing, who looked no different from a real person, and asked, “Then ... What level are you?”

Xia Qing’s degree of personification was really high. When he heard this, he actually revealed a proud expression and said, “Master, I have an ultimate spiritual puppet ... Above elementary spiritual puppet is intermediate spiritual puppet, then advanced spiritual puppet, and above that is the ultimate spiritual puppet ...”

Xia ruofei smiled and asked, “what kind of cultivation is needed to refine an ultimate spiritual puppet?”

Xia Qing said, “when the previous master made Xia Qing, he was already in the late stage of the Golden core stage. According to the previous master, it was quite difficult at that time. He only succeeded with a trace of luck ...”

Xia ruofei couldn’t help but take a deep breath. At the same time, he realized the huge gap between them. He smiled and said, “It seems like I can’t aim too high!”

Xia Qing pursed her lips and didn’t say anything.

Xia ruofei waved his hand. “It’s okay. I’m done here. You can go back to your work!”

“Yes, master!”

With a thought, Xia ruofei used the invisible force of space and teleported to the beach by the space sea.

Atlantean 34 was standing quietly on the frame. To Xia ruofei, it was like a high – end toy. With a trace of anticipation, he reached out and touched the smooth body of the yacht. Then, he began to touch the fixing device.

In the morning, the workers used spanners to tighten it, and there were dozens of nuts.

Xia ruofei didn’t look for any more tools. He directly used his fingers to pinch the nut and twisted it lightly. The nut easily moved.

Xia ruofei's movements were very fast. In a short while, he had removed dozens of screws. The yacht and the frame had also been officially removed.

With a slight thought, invisible spatial force gathered and wrapped around the yacht.

Then, the yacht slowly floated up in the air. The spatial force carried the yacht towards the sea and then gently placed it on the sea.

Xia ruofei's toes touched the ground lightly and he leaped up lightly. He landed on the yacht like a Fallen Leaf and the body of the yacht did not even shake.

He stretched out his hand and flipped over to the control panel of the yacht.

Although Xia ruofei had never learned how to drive a yacht, he had played with a motorboat before. The principle was basically the same. Very soon, he successfully started the engine of the yacht.

He pushed the throttle lever forward, and the yacht immediately began to accelerate on the sea.

As the speed increased, Xia ruofei turned the steering wheel and controlled the yacht to change directions freely on the sea.

Anyway, there would never be a second ship here, and there would be no hidden reefs or patrol boats from the maritime department. Xia ruofei was free to do whatever he wanted.

The speed of the yacht was getting faster and faster. Xia ruofei could feel the wind blowing his hair up. The space contained a large amount of spiritual Qi. It felt more relaxed and happy to be able to speed on the sea at high speed.

After a few upgrades, the space ocean had expanded by two to three thousand meters. It was no longer just a small area near the sea. Xia ruofei was having a lot of fun.

In the end, he turned off the yacht's engine and let the yacht rise and fall with the waves. He then went to the deck and lay there facing the sky, looking very relaxed.

Xia ruofei could feel that the space ocean was too quiet. Other than a few rays and abalones that occasionally appeared within the range of his spiritual power, the ocean was empty.

"Isn't it time to enrich the marine life Community?" Xia ruofei muttered to himself.

If possible, he really wanted to raise a few whales in the space ocean, as well as such an abundance of marine fish. He imagined wearing a submarine and diving into his exclusive ocean, surrounded by all kinds of fish, turtles, and so on. That feeling made him very excited.

Xia ruofei decided to find a chance to go out to sea and have fun for a few days. He would also bring some marine creatures into the space sea. He wanted to make this place full of life.

If he were to go out to sea, the azmu yacht that he had taken a fancy to would be very useful.

It all depended on what price Qin Lan could negotiate. However, Xia ruofei had already made up his mind. He was ready to buy it when the price was about right. After all, it was a brand new yacht that could be bought without waiting for a day. There were not many opportunities like this.

If it wasn't for the fact that the client had financial difficulties and needed to withdraw the funds in time, even if the client wanted to make a move in this situation, he would definitely increase the price and would not give in to the interest.

Hence, Xia ruofei felt that it was time to stop.

He laid down in the boundless space for a while, and even took a nap on the deck of the yacht, swaying gently with the waves.

After he woke up, he drove the yacht back to the beach. After dropping the anchor, Xia ruofei jumped back to the shore.

Next, he drove the all – terrain vehicle around the entire mountain sea realm.

After the spatial upgrade, as expected, the area of the entire mountain sea realm had expanded by a lot. Of course, there was a deeper level of upgrade. The rules of the entire space had changed. Xia ruofei's current cultivation was not enough, so he could only feel a faint trace of it. It was impossible to grasp it.

Before leaving the spirit map space, Xia ruofei even caught the White realmfox and gave it a good lesson. He warned it to be obedient in the space and not cause trouble, especially destruction.

After returning to the outside world, Xia ruofei took a shower and started to practice the great way technique. He wanted to improve his cultivation as soon as possible so that he could refine the spiritual puppet as soon as possible.

The next day, Xia ruofei went to the farm cafeteria for breakfast as usual, and then followed the staff's shuttle bus to the company headquarters.

After sitting down for a while, Lei Hu knocked on the door and came in. He smiled and said, "Brother Xia, I've already completed the task you assigned me yesterday!"

When there were no outsiders, Lei Hu would still call Xia ruofei "brother Xia." However, when there were other people in the company, he would formally call Xia ruofei "Chairman."

With that, Lei Hu passed the warehouse key to Xia ruofei across the table.

"Alright, thank you for your hard work, Hu!" Xia ruofei said with a smile.

Lei Hu grinned and said, "it's nothing. Brother Xia, you're welcome!" If there's nothing else, I'll go down first!"

Xia ruofei nodded and said, "yes!" Go do your work!"

Initially, Xia ruofei wanted to work for a while. However, after Lei Hu gave him the warehouse keys, his heart was no longer in the company. Hence, he simply took the keys and left the office.

Skiping work in less than ten minutes, he was the best Chairman in the world.

Xia ruofei drove the Knight XV to the warehouse.

When he opened the door, he saw all kinds of materials neatly placed in the warehouse. He was a little excited and closed the warehouse door. Then, with a thought, he put all the materials into the space.

Chapter 2093 The young goose's "exit" _For the next few days, Xia ruofei focused on processing the materials. He spent most of his time in the small villa on the farm. He locked himself in his room, or more accurately, locked himself in the spirit map space. He processed the materials day and night and carved a large number of basic formations at the same time.

During this process, Xia ruofei's proficiency in formations had also improved greatly.

He would only leave the origin space when he felt extremely exhausted. Occasionally, he would go to the company or the pharmaceutical factory to take a walk around, just to relax.

After careful consideration and discussion with his family, Xu Yougang decided to take Xia ruofei's suggestion and go to Australia with Zeng Liang and the others.

His only condition was to bring his parents and wife there. He needed them to provide him with a place to stay and help him with the visa application.

After Xia ruofei learned about it, he was very happy. He immediately called Liang Qichao, who was in Australia, and told him that he had arranged for four veterans to be fully in charge of the security of Paradise Farm. He also told Liang Qichao about Xu Yougang's special situation in advance and asked him to help arrange their lives.

At the same time, he asked Liang Qichao to issue an invitation under the name of Paradise Farm in Australia. He also called the Executive Director, Dong Yun, and asked her to send someone from the company's legal department to help Xu Yougang's group of four, as well as Xu Yougang's parents and wife, with their visas.

In the past few days, Qin Lan of the Yacht Club had been trying her best to negotiate with President Huang and Xia ruofei on the phone, hoping to find a balance point to facilitate this deal.

As Xia ruofei was always in the boundless space, he did not pick up her calls sometimes. Even when he did, he did not seem very enthusiastic because he was focused on the batch of materials. This made Qin Lan anxious. She then increased her communication with CEO Huang and lowered the price from the original base.

To Xia ruofei, this was an accident.

Finally, on the fourth day, Qin Lan called Xia ruofei and told him that CEO Huang was willing to give him a 5% discount, which was about 3.5 million Yuan.

Xia ruofei felt that the price should be good enough. He had studied the details of this yacht. Back then, CEO Huang might not have been short of money, so many of the configurations had been upgraded. In total, the total price should be between seventy – two to seventy – three million. Now that he had given up the interest, it was almost five million cheaper. This price was already very low.

Therefore, he no longer held back and decisively agreed to this price.

Naturally, Qin Lan was overjoyed. She eagerly asked Xia ruofei when he could go over to complete the procedures.

Coincidentally, Xia ruofei had been working continuously in the spirit map space for more than ten hours and felt that his mental strength was a little insufficient. Hence, he decided to sign the contract on the same day.

The process of the transaction was not complicated. The Yacht Club was equivalent to an intermediary role, and President Huang himself did not even show up. Everything was entrusted to the lawyer to handle.

After Xia ruofei arrived at the Yacht Club, she signed a transfer agreement and paid 50% of the payment according to the rules. The total price was 66.5 million Yuan, and the down payment was 33.25 million Yuan.

Xia ruofei's cash flow was abundant now, and he paid the money without hesitation.

The remaining things could be handed over to the Yacht Club to handle, including the yacht transfer, relevant shipbuilding procedures, and so on.

The yacht was already available, but it was docked at a yacht Pier on Heron Island and needed to be driven from Heron Island to Sanshan.

Qin Lan promised to deliver the yacht to Xia ruofei within two days. Of course, Xia ruofei had to pay the remaining 33.25 million Yuan before the yacht was delivered. At the same time, Qin Lan had promised to give Xia ruofei another 500000 Huaxia dollars for equipment selection. Xia ruofei could request for modification according to his needs after the yacht was delivered. The rest could be left to the Yacht Club. Of course, Xia ruofei would still have to pay for the parts that exceeded 500000 Huaxia dollars during the modification process.

Xia ruofei realized that he would not be able to get the yacht that day. He was still thinking about the pile of materials in the medium. After paying and getting the receipt, he did not stay in the Yacht Club for long. He immediately greeted them and drove back to Taoyuan farm.

After Xia ruofei returned to the small farm villa, he entered the spirit map space and continued to draw the formation.

To refine a complete primary spiritual puppet, he would need to engrave at least one to two thousand formations of various sizes. With his current cultivation, he was not able to complete a small part of the formations, but he could complete most of them at his current stage. All he needed was patience.

Once Xia ruofei was in, he did not eat or drink for another ten hours.

With his current cultivation, even though he still couldn't completely reach the realm of inedia, not eating or drinking for a few days wouldn't have much of an effect.

When he came out of the space, it was already the morning of the next day.

When Xia ruofei was drawing the formation, he needed to be absolutely focused. Therefore, he always left his phone outside and put it on silent mode. Anyway, he would come out of the medium every ten to twenty hours. At this stage, there was nothing urgent.

After returning to the outside world from the spirit map space, Xia ruofei naturally checked his phone first. In the end, other than a few WeChat messages, he had five or six missed calls.

Chapter 2094 The young goose's "exit"_2

Xia ruofei checked the missed calls and found that they were all from Ling Qingxue. The first call was from yesterday evening, the second was from around 10 p.m., And the rest were from the morning.

Xia ruofei couldn't help but worry. Ling Qingxue had called so many times. Could something have happened?

He hurriedly called Ling Qingxue back, and a monotonous ringing sound came from the phone. It rang for more than ten times before Ling Qingxue picked up the call. "Hey! You've finally appeared ..."

Xia ruofei could feel Ling Qingxue's complaint, but he was slightly relieved. At least he could confirm that Ling Qingxue was not in any danger.

He smiled apologetically and said, "I'm sorry, Qingxue!" I've been busy with something these few days and I need to be absolutely focused, so I put my phone on silent and didn't pick up your call ..."

"I thought you were playing a game of" disappear from the face of the earth "!" Ling Qingxue replied, "I've been calling you since last night ..."

Xia ruofei quickly said, "wife!" I'm sorry! I'm sorry ... By the way, something must have happened for you to look for me in such a hurry, right?"

Ling Qingxue pouted and said, "you're really forgetful!" Have you forgotten what day it is today?"

Xia ruofei's heart skipped a beat. Could it be some special anniversary or birthday that he had forgotten?

His mind was spinning quickly, but he could not figure out what day it was. Xia ruofei remembered clearly things like Ling Qingxue's birthday and the anniversary of their official relationship. It was obviously not today.

"What day is it?" Xia ruofei asked guiltily.

Ling Qingxue said in a bad mood, "you really forgot!" The batch of young geese that you've spent so much effort to import from abroad will officially end your 'closed – door cultivation' today. I'm really impressed that you've forgotten about them ..."

Xia ruofei finally understood. He patted his head and laughed. "Look at my brain ... Qingxue, I've been so busy these past two days ..."

"I called you immediately after I received the notice from the Inspection and Quarantine Bureau yesterday," Ling Qingxue pouted and said, "but no one picked up." I called you many times this morning ... Xia ruofei, your performance was terrible!"

"Yes, yes, yes! It's all my fault ..." Xia ruofei quickly apologized and continued, "then where are you now? I'll drive back to the city right away. Let's go and collect these precious young geese together!"

"I've been waiting for you ... It's too late!" Ling Qingxue said, "I couldn't contact you, so I came to pick them up myself! Anyway, I was the one who handled the procedures back then, so I just took my ID card and got it out!"

"You've brought all the young geese out?" Xia ruofei was overjoyed when he heard this. He quickly asked, "did you lose any young geese?"

"These little guys are very tenacious. I counted just now, and not a single one is missing!" Ling Qingxue said, "Oh right, quickly tell me where to send these things! There were 50 of them! I can't bring it back to the company! I can't raise them at home either ..."

Xia ruofei quickly said, "wife, I'll send you the location right away. You can send this batch of young geese over!" I'll rush over immediately. If you're early, just wait for me here for a while!"

"Alright then!" Ling Qingxue said, "hurry up! I still have a lot of work to do in the company!"

"Alright! Alright!" Xia ruofei said, "I'll be right out!"

After hanging up the phone, Xia ruofei washed up in the bathroom. Then, without eating, she grabbed her handbag and rushed downstairs to the warehouse in the city.

When Xia ruofei arrived at the warehouse, Ling Qingxue was already waiting for him at the entrance. There was also a small truck next to it. There were about ten cages in it. The cages were all filled with the Strasburg geese that Xia ruofei had imported from Europe. There were about four to five geese in each cage.

Xia ruofei quickly pulled over and jogged towards Ling Qingxue.

"Qingxue, I'm so sorry! "I made you wait for me again ..." Xia ruofei said apologetically.

"I'm fine ... I just arrived a while ago!" Ling Qingxue said, "hurry up and open the warehouse door! I'm in a hurry to go back to the company!"

In reality, the quarantine area for the imported live animals was not far from the airport. After Ling Qingxue collected the batch of young geese, she called Xia ruofei on the way back. Her journey back to the city was similar to Xia ruofei's journey from Tao Yuan farm to the city. Although she had set off earlier, she had hired a pickup truck, so the speed was not very fast. Therefore, the two of them arrived at the warehouse at about the same time.

Xia ruofei nodded and walked over to open the door.

Ling Qingxue did not hire a Porter, so Xia ruofei simply did it himself. Two baskets of geese at a time were gently loosened, and in a few moments, all the young geese were moved into the warehouse.

After Ling Qingxue sent the pickup away, she said to Xia ruofei, ""Ruofei, I'll go back to the company first!"

"Alright, alright!" Xia ruofei said, "it's been hard on you, wife! Drive slowly on the road!"

"I know!" Ling Qingxue said. Just as she was about to leave, she turned around and said, "Oh right, my father asked you to come over to our house for dinner today! I was so busy just now that I almost forgot about this ..."

"Why would father – in – Law suddenly want to treat me to a meal?" Xia ruofei asked with a smile.

"How am I supposed to know?" Ling Qingxue said unhappily, "just go and eat! Alright, I'll be leaving first ... Remember to be there at 6 pm sharp!"

"Yes, sir!" Xia ruofei said.

After watching Ling Qingxue leave in her car, Xia ruofei returned to the warehouse.

This batch of young Strasburg geese seemed to be in good spirits. They must have been treated well in the quarantine area.

Without hesitation, Xia ruofei kept the young geese and the cage into the spirit map space.

He locked the warehouse door and drove back to Taoyuan farm.

After this round trip, it was almost time for lunch. Xia ruofei had not eaten or drunk anything for more than a day. Although he was not very hungry, he was drooling when he thought about the food made by Cao tieshu's wife in the canteen. Thus, he went straight to the canteen and had lunch with the farm employees.

After returning to the small villa, Xia ruofei locked the doors and windows. Then, he took out the spirit map scroll from his palm and entered the medium with a thought.

"Master!" Xia Qing called out respectfully.

Xia ruofei nodded and said, "did you see the geese I just sent in?"

"Yes, master!" Xia Qing nodded.

"Do you have any way to make these geese suffer from the most severe fatty liver without suffering any pain?" Xia ruofei asked.

In fact, the delicious foie gras was, strictly speaking, the fatty liver of a goose.

"What's a fatty liver, master?" Xia Qing asked with a blank expression.

"It's a disease. But after geese get this disease, their livers will become more delicious!" Xia ruofei replied, "the liver is a type of organ. Its main function is to detoxify ..."

Xia ruofei's voice became softer and softer as he spoke, and he didn't think that Xia Qing could understand what he was saying.

Sure enough, Xia Qing said with an ashamed look, ""I'm sorry, master. I don't understand what you're saying at all, and I can't help you ..."

"It doesn't matter, I'll think of a way myself!" Xia ruofei said, "when you're not working, you have to help take care of these young geese. Hmm ... Feed them once every ten hours or so! Let's cut some grass to feed them first!"

"Understood!" Xia Qing replied without the slightest hesitation.

After Xia ruofei left the medium, he sat by the window of his bedroom and stared blankly at the lush farm outside. In fact, his mind was completely focused on the large number of Chinese medical books.

These were all the information contained in the Jade talisman of inheritance. Xia ruofei was basically reading the crystallization of the ancestors' wisdom in his mind. He wanted to find an effective way to let these Strasburg geese grow without pain and at the same time, form high – Quality foie gras.

Suddenly, Xia ruofei's eyes lit up as an idea came to him ...

Chapter 2095 Control experiment_1

Xia ruofei was thinking about people with fatty liver.

This disease was not particularly common in the past. With the improvement of people's living standards, more and more people slowly developed fatty liver. In fact, it was because they ate too much, and their bodies could not absorb it.

In fact, modern Chinese medicine had also studied fatty liver. Besides absorbing the Chinese medicine books in the Jade talisman of inheritance, Xia ruofei had also found some Chinese medicine books from the outside world to help with his research.

According to Traditional Chinese Medicine, the diet was fat, sweet, and greasy. In other words, eating things with high fat, especially thick, and especially oily would easily cause fatty liver.

Modern Chinese medicine also had a mature treatment plan for fatty liver.

If he wanted to deliberately create fatty liver, he could do the opposite and think of a way to eat.

Xia ruofei did not know how different the goose's body was from a human's, but he felt that it was worth a try.

In fact, the modern production of foie gras also used this method to encourage the West to use the cruel feeding method. In essence, it was to make the body of the fat goose unable to absorb it, and then the liver would become abnormally fat due to overload.

At the same time, in order to ensure that the whole goose liver was fat, greasy, and tender, farm owners had to try to reduce the calcium content in the food as much as possible. Without enough calcium during the development period, the goose would suffer from "osteodystrophy". It would then squat lazily in the cage without moving, and its weight would "explode" in exponential levels.

In order to produce goose liver in this way, the goose had to go through unbearable pain. It was locked in a small space every day, and it was difficult to even turn around. Then every few hours, an iron tube would be inserted into its throat for 20 to 30 minutes, and a large amount of food would be directly poured into it. Its stomach would be stuffed like a dough bag, and before the food was digested, it would be immediately stuffed with more food.

It could be said that if a goose had its own thoughts, it would not be willing to reincarnate as a goose for ten lifetimes after experiencing such a tragic life.

In order for the goose to not experience such pain in the process of growth and at the same time produce high – Quality foie gras, he could only think of a way in the diet.

They didn't need to eat too much, but at the same time, they had to make the nutrition and fat content of the food seriously exceed the limit, even exceeding the effect of forced feeding by Western farms.

Xia ruofei's thoughts started to clear up ...

In fact, there were many prescriptions that had such an effect. They were originally aimed at the situation of malnutrition to supplement the body's qi and blood. If the dosage and proportion of the prescription were adjusted to a certain extent, it would definitely cause the Strasburg goose to be seriously overnourished.

Of course, the body structure of a goose and a human was completely different. As for how to adjust the prescription, it still needed to be tested many times.

However, he was sure that once this method was successful, the Strasburg goose would not experience any pain in the growing process.

It should be known that aside from the nerves distributed on the surface of the liver, there were almost no nerves on the inside. When a human liver area had lesions, generally speaking, they would not feel anything at all. It would not hurt or itch at all unless it had seriously spread to the surface of the liver. Only then would they feel a dull pain. This was also why liver cancer was often found to be in the late stage when it was detected. When patients felt pain in the liver area and went to the doctor, it was often very serious.

Therefore, even if the liver of the Strasburg goose became unusually fat because of the special blend of food, they would not feel any pain.

As for the liver being fattened up and slaughtered, this was the law of nature. Even the most nitpicking animal rights activists could not find any fault with it.

Xia ruofei was sure of a few things. First, the herbs used in the prescription had to be common. If they used precious herbs like hundred – year – old ginseng, it would be meaningless as the cost was too high. Second, these medicinal herbs must be easy to grow in large quantities. The third was to find a way to turn it into powder that could be mass produced.

Only when these conditions were met could large – scale reproduction and breeding of the Strasburg fat goose be feasible.

At this thought, Xia ruofei raised his hand to look at his watch. It was three in the afternoon. Ling Qingxue had told him to come to the Ling family's house at the Riverside Villa area at Six o' clock sharp for dinner. In other words, excluding the time he would take on the road, he had at least two hours.

He had already formed a few backup plans in his mind. He had to test out the effects of these prescriptions and what adjustments needed to be made.

He was already a little impatient.

Since there was still time, Xia ruofei immediately took out the spirit map scroll and entered the space.

Xia Qing saw Xia ruofei return, but she didn't find it strange. These days, Xia ruofei would go into the space to deal with the materials whenever he had time.

Xia ruofei waved at Xia Qing and said, "Xia Qing, stop what you're doing for a moment. I have something for you to do!"

Xia Qing quickly ran over and respectfully said, "Master, please give your orders!"

Xia ruofei said, "from the batch of young geese that I just sent in, you can pick ... Five of them!" Pick five and send them to the Archean realm. Calculate the time and let them be famished to the point where their stomachs are rumbling. The effect I want is that when I feed them later, even if the food is a little unpalatable, they will still be eager to eat it!"

"Alright!" Xia Qing answered without the slightest hesitation, "master, I'll head over first!"

Chapter 2096 Control experimentation_2

The flow of time in the Archean realm was 30 times faster than the outside world. Xia ruofei wanted to make use of the difference in the flow of time to make these young geese go hungry quickly.

"Go!" Xia ruofei nodded.

Xia Qing had just circled a small area of the grassland in the mountain sea realm, built a simple fence, and put the young geese in it.

When Xia Qing went to pick the young geese, Xia ruofei was the first to arrive at the Archean realm. He used the apparatus for brewing Chinese medicine and stored some common medicinal herbs. They were all at the Archean realm.

Xia ruofei quickly picked out some Chinese medicinal herbs from the shelves. Sometimes, he would stop and think for a moment before picking a few more. Finally, he wrapped these medicinal herbs separately and placed them all into a plastic tidying box. Then, he took out a clay stove, a clay pot, charcoal, and other items to boil the medicine. With a thought, he returned to the mountain and sea realm.

In the end, Xia ruofei chose two prescriptions. Both of them were made of common medicinal herbs that met the requirements. They were not expensive and were suitable for mass cultivation while ensuring the efficacy of the herbs.

In the cave in the mountain sea realm, Xia ruofei was writing and drawing on a piece of paper. After a few adjustments, each prescription had two different ratios of medicinal materials.

After all, the body of a Strasburg goose was very different from that of a human body. Besides, Xia ruofei did not need to consider the problem of the mild effect of the medicine. What he wanted was the strong effect of the medicine, so the proportion of the main medicine had to be increased.

Xia ruofei felt that the ratio of each ingredient was the best.

With one prescription and two ratios, there were four plans. In addition, they had to use the ordinary feeding method as the control group. Five young geese for the experiment were just right.

After confirming the prescription, Xia ruofei started a fire to brew the medicine.

Now, he was very familiar with brewing Chinese medicine. Even if he had to brew four different Chinese medicines at the same time, he could still handle it easily.

One by one, the herbs were placed into the claypot, and water was added to let it simmer.

Xia ruofei kept observing the four claypots and added one or two herbs from time to time. The process of brewing the medicine was orderly and busy.

After more than an hour, Xia ruofei had harvested four pots of Chinese medicine.

He thought for a moment, then left the medium in a flash. He found a bag of cornmeal in the kitchen of the small villa and put it into the medium as if it was a treasure.

Returning to the villa upstairs, Xia ruofei entered the medium and divided the bag of cornmeal into five portions. He poured four portions into four claypots and stirred them as he poured.

In a short while, four pots of flour paste were produced. They had the fragrance of corn and a hint of Chinese medicine. Xia ruofei did not know if the Strasburg geese would like to eat them, but the smell was a little strange to him.

As for the remaining cornmeal, Xia ruofei added water and mixed it into paste. This was the food for the young geese in the control group.

Xia ruofei pondered for a moment. He didn't rush to find Xia Qing, but returned to the outside world.

He used the computer to create a form and printed out a few copies.

It was a comparison form. He had to divide the five young geese into five groups and mark them separately. Then, four of them would take the Chinese medicine flour paste he had prepared every day, and the remaining one would be fed according to the traditional method.

The comparison form was to fill in the eating and weight conditions of the five young geese every day.

Since it was an experiment, Xia ruofei wanted to be as careful as possible to get the most accurate results.

Xia ruofei took the form from the printer and grabbed a carbon pen from the pen holder. He then returned to the space.

"Xia Qing!" Xia ruofei used his spiritual power to communicate with Xia Qing. "Are the five geese ready?"

"Master, I've been hungry for an entire day!" Xia Qing said, "it looks like they're about to faint from hunger. They'll probably be able to eat anything we give them!"

"Very good!" Xia ruofei said, "bring them to the cave in the mountain sea realm."

"Yes, master!" Xia Qing said.

Xia ruofei also walked out of the cave. The five claypots swayed and floated in a straight line behind him. They followed him.

A word was pasted on each of the five claypots, which were 12345.

The reason why they didn't use Arabic numbers was that the experiment was mainly done by Xia Qing. It was easier for Xia Qing to recognize Chinese characters.

After a short while, Xia Qing came to the front of the cave with a bamboo cage. Inside the bamboo cage were the five young Strasburg geese.

Xia ruofei didn't rush Xia Qing to release the young goose, but said to Xia Qing, ""Xia Qing, in the next few days, you have to spare some energy to help me complete an experiment!"

"No problem! Master, give me your orders!" Xia Qing said without the slightest hesitation.

Xia ruofei pointed at the five claypots on the ground and said, ""There are five types of food here. In a while, give the young geese their corresponding numbers. You will feed them every day. I will tell you how to prepare the food. What you need to do is to use the time flow of the Archean realm to speed up the progress of the experiment. You have to record every feeding. The form is here. You just have to fill it out according to the requirements."

Xia ruofei then handed the form and pen to Xia Qing.

The comparison table was very simple, and Xia Qing understood it easily. However, the carbon water pen made him feel very fresh. This pen was very different from a writing brush, but it wrote very smoothly.

"No problem!" He nodded. Master, just leave it to me!"

Xia ruofei nodded and said, "I will give you four prescriptions. You will decoct the Chinese medicine according to the prescriptions and mix it with the cornmeal to make paste. Give it to goose number one to four separately. For goose number five, eat the cornmeal directly without adding anything else!"

After he finished speaking, Xia ruofei handed four pieces of paper to Xia Qing.

These four prescriptions were actually two prescriptions, but because the proportion of medicinal materials had been adjusted, it could be said that each of them had two prescriptions.

There was also a number on each prescription paper, from "one" to "four," which corresponded to the claypots one to four today. It could be said that it was clear at a glance.

Xia Qing took a look at the prescription and the refining method, and then put them into her cufflinks. She nodded and said, ""Yes, Master. The brewing method is very simple. I can definitely complete it!"

Xia ruofei nodded with satisfaction. "Hmm, then I'll leave this experiment to you!"

Then, Xia ruofei said, "okay, let's start feeding!" Let's catch one!"

"Yes, master!" Xia Qing said.

Then, he deftly grabbed a young goose from the bamboo cage.

Xia ruofei smiled. "We have to give it a mark. Otherwise, it'll be confused."

With that, Xia ruofei took the young goose. He gathered a trace of true Qi in his hand and drew a line on the body of the young goose. Yellow fur fell down and the Arabic number '1' appeared on the body of the young goose.

Xia ruofei said to Xia Qing, "remember, this represents one!" Let it eat the food in claypot number one!"

"Yes, master!" Xia Qing said.

Then, he grabbed the young goose and took the number one claypot to the side.

Next, Xia ruofei followed the same pattern and marked the five young geese.

These young geese were obviously famished. When they smelled the corn paste, they immediately couldn't wait to eat.

Although four of the pots of corn paste had the smell of Chinese medicine, they still ate it and finished it in a short time.

Xia Qing caught them one by one and locked them in the bamboo cage.

Xia ruofei said, "Xia Qing, find a place in the Archean realm and raise them separately. The place doesn't need to be too big, but it shouldn't be too cramped either. At least, it should allow them to move around normally." After that, you will brew the medicine at the mountain and sea realm. Every time you need to feed it, go to the Archean realm. This way, you can make use of the time flow to complete the experiment as quickly as possible."

"Yes, master!" Xia Qing said.

Xia ruofei reminded them again, "you must keep them separately. Also, don't mix up the five groups!" Otherwise, the experiment data would be inaccurate!"

Chapter 2097 Father – in – Law (1)

"Don't worry, master!" Xia Qing said, "I will definitely follow your instructions and record it carefully!"

Xia ruofei nodded and asked some more detailed questions. Then, he handed the experimental work to Xia Qing.

Under normal circumstances, the growth cycle of a Strasburg goose was about two to three months. With the addition of the time flow at the Archean realm, the experiment could be completed in a few days.

After Xia ruofei left the origin space, he saw that it was already past Five O' clock. He quickly washed up, grabbed his coat, ran downstairs, and drove straight to the jiangbin villa district in the city.

The agreed time for dinner was Six O' clock. It was rush hour. Xia ruofei rushed left and right in the traffic and even stuffed himself a few times. Finally, he arrived at Ling Qingxue's Villa area at around five fifty.

Xia ruofei did not even have time to prepare a gift for Ling Xiaotian when he left the house. Fortunately, most of his things were stored in the spirit map space, so he had plenty of time to think about what to give his future father – in – Law.

When he alighted from the car, he took out two bottles of expensive fermented red wine and two bottles of the highest quality Drunken Eight Immortals from his storage space. Ling Xiaotian loved to drink, so bringing him wine was the best gift he could give.

Ling Xiaotian and Ling Qingxue, father and daughter, had gotten off work early today. When they heard the sound of the car, the two of them quickly walked out of the villa.

"Uncle Ling! Qingxue!" Xia ruofei smiled and walked over with a glass of wine.

"Ruofei, why are you taking things again?" Ling Xiaotian said angrily, "you can't do this next time!"

Even though he said that, his hands did not slow down. He took the two bags from Xia ruofei's hands. Actually, he had already seen that the bags were filled with wine.

Ling Qingxue looked at her father speechlessly, not knowing whether to laugh or cry. "Dad, can't you be more reserved?"

"What's there to be reserved about with your own son – in – Law!" Ling Xiaotian laughed.

"You ..." Ling Qingxue said shyly, "what do you mean by son – in – Law? Do you really want me to get married?"

"Qingxue, this wine was originally prepared for uncle Ling!" Xia ruofei quickly tried to smooth things over.

"Wine isn't anything good," Ling Qingxue said. "You bring him wine every time you come. What if he gets sick from drinking?"

Xia ruofei laughed and said, "I'm here." Have you forgotten that your boyfriend is a very good doctor? By the way, uncle Ling, I'll check your body later. If you feel uncomfortable, let's recuperate as soon as possible!"

Ling Xiaotian chuckled, "sure!" Good!"

The father – daughter pair welcomed Xia ruofei into the villa. Ling Xiaotian said, "" Aunt Liu is preparing dinner. Ruofei, let's go make some tea. It's been a while since we last met. Let's have a good chat!"

"Alright, my guest will do as the host wishes!" Xia ruofei said with a smile.

In Ling Xiaotian's living room, there was a very stylish root – carved tea tray. The entire tea tray was carved from a huge tree root. After being coated with a lacquer, it retained the original color of the wood and at the same time gave people a glossy and smooth feeling.

Ling Xiaotian took out some tea leaves from the tea tray and said with a smile, "" No matter how much I drink, the Dahongpao you gave me is still the most authentic. It's much better than those Zhengshan little seeds that are sold outside for a few thousand Yuan per 500 grams!"

"Uncle Ling, if you like it, I'll bring you more next time!" Xia ruofei smiled.

"How can I accept that?" Ling Xiaotian chuckled.

Xia ruofei said, "these tea leaves were originally produced by our farm. What's there to be embarrassed about giving you some tea leaves to drink? As long as you don't mind this Da Hong Pao, I'll take care of all the tea you drink in the future!"

"Good, good, good!" Ling Xiaotian said happily.

Xia ruofei took the bag of tea leaves from Ling Xiaotian's hands very naturally and started to make the tea. If he let his future father – in – Law be busy making tea while he sat there waiting to drink, he would be too insensible.

However, just as Xia ruofei finished distributing the first batch of tea, the task of brewing tea was taken over by Ling Qingxue. She smiled and said, "" Ruofei, have a good chat with my dad! I'll make the tea ..."

After Xia ruofei and Ling Xiaotian chatted for a while, Ling Xiaotian said, ""Ruofei, there's something I need to discuss with you. The winery has been asking me a lot recently, hoping to expand the production. The sales of our wine are really good, and the profits are also very impressive. The person in charge of the winery said that with such a good reputation, if we don't expand the production and quickly occupy the market, it will be a huge loss!"

Xia ruofei understood what Ling Xiaotian meant. The production capacity of the winery did not depend on how much Drunken Eight Immortals wine they could produce, but how much Drunken Eight Immortals wine they could "process".

Ling Xiaotian was asking for his opinion!

Xia ruofei thought for a while and said, ""Uncle Ling, since everyone has this suggestion, let's appropriately expand the production! We can't just leave the money to be earned, right?"

Previously, Xia ruofei had limited the production of the wine every month because it took time to brew the Drunken Eight Immortals wine. In order to quickly produce Drunken Eight Immortals of all levels, he had to make use of the difference in the flow of time in the spirit map's space.

Furthermore, the territory of the Archean realm had not expanded for a long time, so the space wasn't large. He couldn't possibly squeeze into the space of other precious crops just to produce more wine.

However, the situation was different now. Xia ruofei's control of the spirit map's spatial rules had improved. He could now stack small spaces in the space at will so that the Drunken Eight Immortals wine could be stacked up. As long as the space was high enough, he could stack it however he wanted.

Chapter 2098 Father – in – Law -2

This was equivalent to changing the original layout from a flat surface to a three – dimensional space. This way, the capacity would be increased many times, and the space would no longer be limited.

After all, the Drunken Eight Immortals wine only needed to be placed in a spatial dimension, and then cast a magic with time and spiritual energy to turn it into an unparalleled wine. It was unlike other crops, which could not be separated from the soil of the Archean realm.

When Ling Xiaotian saw Xia ruofei nod in agreement, he could not help but be overjoyed. He quickly asked, ""Ruofei, to what extent do you think it can be expanded?"

Xia ruofei said straightforwardly, "if the winery can produce it, then we'll double it!" Starting from next month, send me 200 tons of one month, six tons of three months, two tons of five months, and 1000 pounds of one year's raw wine every month. "

Ling Xiaotian was both surprised and happy. He had expected the production to increase by 20 to 30 percent. After all, he had mentioned expanding the production before, but Xia ruofei had rejected him with all sorts of reasons. He did not expect Xia ruofei to be so straightforward this time, directly promising to double the production.

"No problem!" Ling Xiaotian quickly replied. The winery's production capacity has always been a little over, so there's a lot of raw wine in stock. There's no problem supplying you for the first few months. "If

we're going to have a long – term supply in the future, we'll have to expand the production line. This work has to be arranged in advance so that we won't be out of stock ..."

Xia ruofei smiled and said,"sure!" Uncle Ling, you can arrange it. I said before that I won't participate in the specific operation and management of the winery. I'll be responsible for the processing of the raw wine and the dividends ... By the way, it's going to cost a lot of money to introduce a new production line, right? Uncle Ling, if you want to spend money, let's just invest in proportion!"

Ling Xiaotian waved his hand and said,"no need, no need!" The winery hadn't received any dividends for a long time, so there was plenty of money in its book now. It was more than enough to build a new factory and introduce new production lines! Ruofei, you don't have to worry about this. I'll arrange for my men to complete it as soon as possible!"

"Okay!" Xia ruofei nodded.

After talking about the winery, Ling Xiaotian and Xia ruofei started talking about paradise Corporation. He was a very successful entrepreneur and naturally had his own unique views on running a company. Xia ruofei also benefited a lot from talking to him.

When Xia ruofei mentioned that Feng Jing had been urging him to show off more in the new media and had even urged him to participate in reality shows like "the life I yearn for", Ling Xiaotian expressed his full approval.

Although Ling Xiaotian was an entrepreneur of the older generation, he did not reject new technology and new ideas. Ling Ji F & B was also one of the first F & B enterprises to implement online food ordering. After the emergence of take – out platforms, Ling Ji F & B was also the first to enter.

He also knew that Xia ruofei was very popular on the internet because of the forced surrender of Macau airlines. To him, this was a precious resource. In fact, many founders of internet companies were also internet celebrities. Xia ruofei could use this popularity to promote the development of the company.

After chatting for a while, Ling Xiaotian said with a smile,""Oh right, ruofei, I heard from Qingxue that you're planning to buy a villa in this district?"

"Yup!" Xia ruofei said,"after the company's headquarters moved to the city, I felt that it was somewhat inconvenient to live on the farm, so I wanted to buy a house in the city. The area you're living in is in a good location and the environment is quite good. If there's a suitable house, it's not a bad idea to buy one!"

"Alright!" Ling Xiaotian happily replied. We'll be neighbors then! When this community was first developed, I was very optimistic about it. At that time, the opening price was several times higher than the average price in the city. Many people were waiting to see, so I bought this villa directly. Now, the price has multiplied several times!"

"Uncle Ling's vision is naturally good!" Xia ruofei smiled and said,"even if I wanted to buy it, I didn't have that much money! I can only buy it at a high price now ..."

Ling Xiaotian chuckled."If I buy it, I don't have to worry about the rise and fall of the house price. The real estate market is not doing well now. It's a good time to buy it!"

Then, Ling Xiaotian continued, "I have an old friend who owns a villa in this district. Because he's from Heron Island, he doesn't really live in the house here. Now that he needs cash for his business, he intends to cash out the property here. I'll help you contact him later. His villa is quite good!"

Ling Qingxue, who was brewing tea at the side, could not help but ask, "Dad, are you talking about uncle Jiang? He's selling his house?"

"Yup!" Ling Xiaotian said, "recently, his company is preparing for a new project, but there is a slight shortage of funds. So, not only the villa in our neighborhood, he is also planning to sell a few shops near the East Street entrance!"

"Really!" Ling Qingxue said, "ruofei, uncle Jiang's house is very good! The location is even better than our house. It's right beside Min River and the area is much larger than our house. The key is that the developer even gave us a huge garden and a private beach. I'll Take You There tomorrow. You'll definitely like it!"

Xia ruofei smiled and said, "Qingxue, I'm already very tempted just by hearing what you said!" I think you have the potential to be a real estate agent!"

Ling Qingxue pouted and said, "I'm telling the truth!" They were unlike those real estate salesmen who had a glib tongue and could even say that the dead were alive! I'm different from them, okay?"

Ling Xiaotian couldn't help but burst out laughing when he saw the two of them bickering.

He said, "ruofei, I'll contact old Jiang later. He has a set of keys with the property management. I'll get Qingxue to take you to see it tomorrow. If you're satisfied, I'll get him to give you a better discount!"

"Alright! Thank you, uncle Ling!" Xia ruofei said.

Then, Xia ruofei thought of looking for a house for Feng Jing, so he said, "By the way, uncle Ling, our company's President Feng also wants to buy a house in this community. Can you help me pay attention to the sales information of the second-hand houses here? After all, you've lived here for so long, you should know which houses are better!"

"Boss Feng, do you want to buy a set too?" Ling Xiaotian couldn't help but be stunned for a moment before saying, "Old Jiang has a smaller villa, but it hasn't been renovated yet. This time, he's planning to sell the one he used to live in when he was on vacation. After all, the price of a small villa is much lower, and he'll have to raise a lot of money ..."

"Does he sell the smaller one?" Xia ruofei asked quickly.

"I'm not too sure about that." Ling Xiaotian said, "I remember that he said that he wanted to keep the small one and find time to renovate it so that he can have a place to stay in the three mountains when he's old ... How about this? I'll talk to him again and try to get him to sell the two sets at the same time!"

"Alright! You can ask him if he's willing!" Xia ruofei said, "if you really can't do it, then forget it. Qingxue said that there are many rough villas in the community that are ready for sale!"

"Alright, I'll try my best to convince him!" Ling Xiaotian said.

At this time, the housekeeper, aunt Liu, walked into the living room and said, ""Mr. Ling, dinner is ready. Would you like to have dinner now or ...?"

"Ruofei, why don't we go eat?" Ling Xiaotian asked.

Xia ruofei smiled and said, "sure!" Let's talk while we eat!"

"Hahaha! It's to drink and chat!" Ling Xiaotian said, "you haven't been here for a long time. Let's have a few drinks today!"

"Alright! Then let's drink and chat!" Xia ruofei said with a smile.

The group of them arrived at the dining room of the villa. Ling Xiaotian opened one of the two bottles of Drunken Eight Immortals that Xia ruofei had brought and said, ""Ruofei, let's have a taste of your good wine today!"

At this moment, Xia ruofei's phone rang. He took it out and looked at the caller ID. It was Qin Lan from the Yacht Club.

Chapter 2099 Acquiesce (1)

"I'm sorry, I have to take this call," Xia ruofei said.

Ling Xiaotian smiled and nodded. He picked up drunken eight immortal's wine bottle and poured himself some wine. Then, he leaned over and poured Xia ruofei some wine as well.

Ling Xiaotian and Ling Qingxue were not outsiders, so Xia ruofei did not deliberately avoid them. He answered the call directly at the dining table.

"Manager Qin." Xia ruofei said, "is that my yacht?"

"Yes, Mr. Xia," Qin Lan said enthusiastically, "your yacht has been shipped from Heron Island to our Yacht club's dock. When will it be convenient for you to come over and receive it?"

Xia ruofei thought for a while and said, "it's a little late today. How about this?" I'll find some time to come over tomorrow morning. "

"Alright, alright!" Qin Lan said happily, "Mr. Xia, I'll be waiting for your arrival at the club tomorrow!"

It was a win – win situation for everyone. CEO Huang canceled the deal as he wished. Xia ruofei got a satisfactory yacht at a cheaper price and faster time. Qin Lan also closed a big business deal of sixty to seventy million Yuan. Her Commission for this month would increase a lot.

"Okay, see you tomorrow!" Xia ruofei said indifferently and hung up the phone.

"Ruofei, you bought a yacht?" Ling Qingxue asked as she looked at Xia ruofei.

Xia ruofei nodded and said, "yes!" Originally, it would take more than half a year for the yacht to be placed in order and delivered, but this time, they happened to have a client who wanted to cancel the order due to financial problems and gave me a big discount, so I accepted the order. "

"What kind of yacht is it? That must be a lot of money, right?" Ling Xiaotian asked with a smile.

"Azmu's 100 Leonardo is considered one of the more high – end models among azmu's yachts." Xia ruofei smiled. "The entire set would cost about 60 to 70 million!"

"60 to 70 million ..." Ling Qingxue's family was rich, but she still exclaimed in surprise. "You're really rich now!" He just bought a yacht worth sixty to seventy million!"

Xia ruofei chuckled. "My company has sufficient cash flow. Besides, I'm in light debt. I didn't think too much about it. I thought it was a good idea, so I bought it."

Ling Xiaotian laughed and said, "you've made the right choice!" Hahaha! This was how young people should be! As long as you don't pretend to be rich, you can spend as much as you want within your financial ability!"

Ling Xiaotian was also tactfully reminding Ling Qingxue that even if she and Xia ruofei were to get married in the future, she should not be too strict on the issue of money. Otherwise, men would have rebellious thoughts.

Of course, Ling Qingxue had no intention of stopping Xia ruofei from spending. She did not even catch the hint from Ling Xiaotian. Instead, she said excitedly, "Ruofei, I'll go with you to see the new yacht tomorrow!"

Xia ruofei spread his hands and said, "I'm fine with it!" But don't you have to work?"

Xia ruofei turned to look at Ling Xiaotian after he finished speaking.

Ling Xiaotian chuckled and said, "Qingxue, you can go with RUO Fei tomorrow!" It's been hard on you during this period of time, so just take it as a break. I'll keep an eye on the company. "

Ling Qingxue was very happy and said sweetly, "Thank you, dad!"

"Silly girl! Do you need to be so polite with me?" Ling Xiaotian smiled and said, "come, ruofei, let's drink!"

Xia ruofei quickly raised his glass and said, "Uncle Ling, a toast to you!"

After the two of them clinked their glasses, Ling Xiaotian raised his head and finished the wine in his glass. He then praised, "Good wine!"

This was the first batch of Drunken Eight Immortals that Xia ruofei had stored in the medium. When this batch of wine was stored in the medium, Ling Xiaotian had not even purchased the winery. Xia ruofei had bought the wine himself and put it in. It was also because Ling Xiaotian had drunk the Drunken Eight Immortals that Xia ruofei had given him that he had the idea of acquiring the winery.

This batch of wine had been around for more than a year. If one included the time flow difference at the Archean realm, it would be several decades.

Even in the outside world, a wine that had been aged for decades was definitely of the best quality. Furthermore, it was constantly being nourished by the rich spirit energy in the medium. This batch of Drunken Eight Immortals had absorbed so much spirit energy that it was more or less like spirit wine.

Ling Qingxue had already stepped into the door of cultivation, so she could naturally feel the faint spiritual Qi in the Drunken Eight Immortals wine. She couldn't help but say, "I'll have a cup too!"

Ling Xiaotian looked at his daughter and said with a smile, "Qingxue, when did you learn how to drink white wine?"

Ling Qingxue was a little embarrassed as she said, "I just wanted to try it out because I saw your intoxicated look."

Ling Xiaotian laughed out loud, "alright, alright, alright, I'll let my precious daughter have a taste of this fine wine!"

Ling Xiaotian then passed the bottle of wine to Ling Qingxue.

Ling Qingxue couldn't wait to pour herself a glass. Then, she raised her glass and said, "Dad, ruofei, let's have a drink together!"

"Alright!"

"Come, cheers!"

Ling Qingxue took a big gulp. Even though it was a little spicy, it had a fragrance that made one reminisce. At the same time, the faint spiritual energy in the wine excited the true Qi that was slowly flowing in her meridians.

Ling Qingxue took a deep breath and imitated Ling Xiaotian's expression. "It's really good wine!"

Ling Xiaotian and Xia ruofei looked at each other in dismay. Could it be that this girl had become a little drunkard?

Chapter 2100 Acquiesce (2)

With Ling Qingxue's participation, the atmosphere at the table became even more lively. The three of them chatted as they drank, and they finished the two bottles of Drunken Eight Immortals that Xia ruofei had brought.

Ling Xiaotian was still a little unsatisfied and wanted to open the two bottles of noble red wine to drink as well, but Xia ruofei quickly stopped him.

Xia ruofei would be fine. He would not get drunk from this little bit of alcohol. Even if Ling Qingxue's cultivation was still very low, she could still use her true energy to expel the alcohol from her body. Therefore, if she were to really drink, the one who would get drunk would definitely be Ling Xiaotian.

Being drunk was not only bad for one's health, but being knocked out by one's own daughter on the wine table was also a bit too much of a blow, especially for Ling Xiaotian, who considered himself a wine immortal.

Of course, Xia ruofei would not say that he was worried that Ling Xiaotian would drink too much. This would only add fuel to the fire. His reason was that he still had to check Ling Xiaotian's body. If he drank too much, he would not be able to do so.

Ling Xiaotian could only say, ""Alright then! It's not easy for me to drink so happily today, I want to drink more!"

"Uncle Ling, there's still a long way to go. We'll have many more opportunities to drink together in the future!" Xia ruofei said with a smile.

The three of them got up and left the dining room. Aunt Liu would naturally clean up the leftovers.

They made tea in the living room for a while. Xia ruofei noticed that Ling Xiaotian reeked of alcohol and suggested that he should check on him.

Xia ruofei checked Ling Xiaotian's pulse and then looked at his tongue. Of course, to be more accurate, he used his spiritual power to check his pulse.

Xia ruofei checked carefully and said, ""Uncle Ling's health isn't bad. It's just that his spleen and stomach are a little weak, and his liver fire is a little strong."

"Ruofei," Ling Qingxue said hurriedly, "can you give my father a prescription? get some medicine and take it."

Xia ruofei smiled. "It's just a small problem. Food therapy is better than medicine. I'd better give uncle Ling two herbal recipes!" It just so happens that your family does this, so it's perfect to use Medicinal Food to recuperate!"

Ling Xiaotian chuckled, "sure!" I don't like to eat bitter Chinese medicine, so it's better to use medicinal cuisine!"

Ling Qingxue quickly returned with a pen and paper for Xia ruofei. Xia ruofei scribbled down a prescription and handed it to Ling Xiaotian.

Then, he said, "uncle Ling, I've written down the ingredients needed for the herbal dish and the cooking method on the paper. You just have to follow the recipe!" This medicinal cuisine is not suitable for daily consumption. You should probably eat it every other day! In less than a month, all these small problems will be recuperated. "

"Good, good, good!" Ling Xiaotian said happily, then carefully kept the recipe.

Then, Ling Xiaotian said, "ruofei, you've drunk quite a lot tonight. You definitely can't drive. Why don't you stay here for the night?"

Ling Qingxue turned to look at Xia ruofei.

Naturally, she wanted Xia ruofei to stay the night. However, she was a girl after all and was embarrassed to ask her father to stay. Now that Ling Xiaotian had suggested it himself, she was overjoyed.

If Xia ruofei stayed here, not only could the two of them be intimate, they could even use the time formation to cultivate. Ling Qingxue was looking forward to it.

Of course, Xia ruofei would not decline. He smiled and said, ""Alright! Then I'll have to trouble uncle Ling!"

Ling Xiaotian smiled and waved his hand. "We're all on the same side. What's there to talk about?"

“Father, I’ll go prepare a guest room for RUO Fei!” Ling Qingxue said hurriedly.

Ling Xiaotian looked at his daughter with a smile that was not a smile and said, “Why do you need a guest room? Even if it’s prepared, it might not be used. When the time comes, aunt Liu will have to wash an extra set of bedsheets ...”

How could Ling Qingxue not understand what Ling Xiaotian was hinting at? She immediately blushed and pouted, “Dad ...”

Ling Xiaotian waved his hand and said, “Alright, alright!” You’ve been together with ruofei for so long, I’m not an old – fashioned man!”

Xia ruofei didn’t expect Ling Xiaotian to be so carefree. Wasn’t it said that all fathers would pay special attention to their daughters, and even unconsciously carry a trace of hostility towards their daughters’ boyfriends?

“Uncle Ling, this ... Isn’t appropriate, is it?” he laughed drily.

Ling Xiaotian laughed and said, “anyway, I’ve said enough. You guys can decide for yourselves how you’re going to stay the night!” I’ll give old Jiang a call and ask him about the house ...”

With that, Ling Xiaotian left Xia ruofei and Ling Qingxue behind and went straight to the study.

Xia ruofei and Ling Qingxue looked at each other. Finally, Ling Qingxue asked with a red face, “Ruofei, what should we do?”

Xia ruofei chuckled. “My future father – in – Law has already made it so clear. How can I disappoint his good intentions?”

“Ah? My dad is at home! “If we stay in the same room, wouldn’t it be ...” Ling Qingxue said shyly.

“If we don’t stay in the same room, wouldn’t we be lying to ourselves?” Xia ruofei smiled and said, “wife, it’s getting late. Let’s go to bed!”

With that, Xia ruofei strode upstairs and went straight to the door of Ling Qingxue’s boudoir. Then, he turned around and said to Ling Qingxue, who was following behind him slowly, “Wife, do you have to walk until dawn?”

Ling Qingxue glared at Xia ruofei and said, “Fine, we’ll live together! I’m not afraid of you!”

Then, she strode forward and opened the door before Xia ruofei could. She glared at Xia ruofei as if to show off her power and then walked in.

Xia ruofei laughed and entered the room, locking the door from the inside.

That night, the two of them were naturally very intimate. However, because Ling Xiaotian’s bedroom was also on the same floor, and it was diagonally opposite Ling Qingxue’s room, the two of them had to carefully suppress their voices while they were having the most fun, so as to have a different taste of excitement.

Now that they finally had the chance to be alone, Ling Qingxue naturally wouldn’t waste it. In the middle of the night, the two of them put on their clothes and got out of bed.

Xia ruofei casually set up the time formation and cultivated the “absolute beginning Scripture” with Ling Qingxue for a few more days. Of course, the few days here referred to the time inside the formation. In reality, only a few hours had passed in the outside world.

The two of them only ended their cultivation at four in the morning in the outside world.

This time, both of them had improved, especially Ling Qingxue. It had been a long time since she had felt the joy of her cultivation level rising. She had cultivated the “absolute beginning Scripture” alone, but her progress was relatively slow. Basically, she could only barely maintain her cultivation level and not regress.

If Xia ruofei had not been worried that Ling Qingxue’s body would not be able to take it and wanted to let her rest for a while before the sun rose, she would definitely have been able to cultivate all night.

The two of them soon fell asleep in each other’s arms.

It was close to eight in the morning when the two of them finally woke up. By the time they finished washing up, changed their clothes, and went downstairs, Ling Xiaotian had already finished his breakfast and left for the office.

The housekeeping Attendant, aunt Liu, prepared a sumptuous breakfast for them. At the same time, she conveyed Ling Xiaotian’s original words, saying that he would be going to the company to oversee things, so he would leave after having breakfast and let them have a good rest.

Ling Qingxue’s face turned red and she glared at Xia ruofei.

At that moment, aunt Liu had already left after preparing breakfast for the two of them. Ling Qingxue pinched Xia ruofei’s soft waist and said, “It’s all your fault, it’s all your fault ...”

Xia ruofei chuckled and did not avoid the question. He said, “Didn’t you oversleep? What was there to be embarrassed about? Wife, are you eating or not? I’m about to start eating! We still have to go to the Yacht Club later!”

When Ling Qingxue heard about the yacht, she temporarily forgot about her shyness and sat down to have breakfast with Xia ruofei.

After breakfast, Xia ruofei drove Ling Qingxue to the Yacht Club in his SUV.

Since they did not set a specific time yesterday, Qin Lan had arrived at the Yacht Club early to wait.

She saw Xia ruofei’s flashy off – Road vehicle through the glass wall and quickly walked out to greet him.
