

God tier Farm 211

Chapter 211: Not optimistic (urgent monthly votes)_1

The plane left the runway and accurately stopped at the parking spot through the runway. After the plane came to a stop, the covered bridge was soon pulled up, but at the same time, an accommodation car also drove over and leaned against a door on the side of the first – Class cabin. The crew member opened the door. At this moment, Tian Huilan's Secretary also arrived in the first class cabin. The three of them did not cross the corridor bridge with the ordinary passengers. Secretary Xiao took Xia ruofei and Tian Huilan's luggage, then they directly disembarked from the first – Class cabin door through the accommodation ladder. A military leopard stopped not far from the plane. A Lieutenant Colonel quickly walked up and saluted Tian Huilan, saying in a clear voice, "Hello, Secretary Tian! I've been ordered to welcome you!" "It's been hard on you. Let's go!" Tian Huilan nodded slightly. "Yes!" The Lieutenant Colonel opened the Leopards' door. Xia ruofei and Tian Huilan got into the back while Tian Huilan's Secretary, Xiao Xiao, sat in the front seat. After the Lieutenant Colonel closed the door for Tian Huilan, he quickly got into the car and started the cheetah cross – country. However, the car didn't drive out of the airport. Instead, it went straight to the helipad in the distance. The speed was obviously beyond the speed limit of the airport. Elder song's condition was not good. Before the car stopped, Xia ruofei raised his eyebrows. He saw a mi -171 helicopter in camouflage paint. There was a serial number starting with "eh" on the body of the helicopter, indicating that this helicopter was from the Air Force. When the helicopter saw the cheetah approaching, the helicopter's rotor started to spin. When the car stopped at a safe distance in front of the helicopter, the helicopter was ready to take off at any time. The Lieutenant Colonel opened the car door for Tian Huilan. He was only in charge of coordinating the matters at the airport and sending her here. Hence, after Xia ruofei and the other two alighted, the Lieutenant Colonel stood by the car and waved goodbye to the three. Xia ruofei and the other two jogged towards the helicopter, braving the turbulence caused by the rotor wings. A pilot in a blue flight suit stood at the cabin door and helped Tian Huilan and Secretary Xiao Xiao into the helicopter. Just as the pilot reached out his hand, Xia ruofei had already run up and stepped on the accommodation ladder. His body was like a cheetah as he scurried into the plane. As the last person to board the plane, Xia ruofei habitually turned around and prepared to close the cabin door. In the lone wolf assault team, this boarding action had been trained thousands of times, and it had long become a conditioned reflex. It was only when Xia ruofei felt the pilot's strange gaze that he reacted. He revealed an embarrassed smile and retracted his hand. The pilot also smiled, put away the accommodation ladder, and quickly closed the cabin door. Then, he patted Xia ruofei's shoulder. As the plane's engine revved, he leaned over to Xia ruofei's ear and said loudly, "Brother! You were a soldier before, right? His movements are very standard!" Xia ruofei grinned and nodded at him. The pilot gave Xia ruofei a thumbs – up and then went into the cockpit. Xia ruofei and the other two sat down. The helicopter trembled slightly and then took off. After rising to a certain altitude, the head of the helicopter lowered slightly, and the helicopter began to fly quickly in the direction West of Hongzhou. The cabin of a military helicopter was filled with loud roars. Moreover, due to the low flight altitude, it was affected by the airflow, so it was quite bumpy along the way. Tian Huilan and Secretary Xiao's faces were pale, and their hands were tightly clasped together. It was obvious that this was their first time riding a military helicopter. On the other hand, Xia ruofei was the exact opposite. This gave him a very familiar feeling. When he was in the Army, he had taken this helicopter countless times, sometimes for training, sometimes for missions. Most of the time, the members of the assault team closed their eyes to rest in the helicopter. The noisy and bumpy

environment was the best place for them to rest before a big battle. Even though he was away from the military, Xia ruofei still felt his blood boiling when he heard the sound of the helicopter's rotor wings. This time, the flight time was not long. After about half an hour, the plane began to descend slowly and soon landed steadily on an open space. When the three of them got off the plane, an off – Road command vehicle was already waiting not far away. A major with an elite short hair welcomed the three of them into the car, and then the car quickly left the helicopter landing field. Xia ruofei noticed that they were in a lush mountain forest. The SUV quickly turned into a deep, curved path and drove up the mountain along the path that was only three meters wide and lined with thick holly trees. Along the way, there were three rounds of strict checks. With Xia ruofei's keen senses as a Special Forces soldier, he found at least four hidden sentries. The soldiers in these hidden sentries were all armed with live ammunition. This place was really heavily guarded! No one spoke along the way, and there was an inexplicable tension in the silence. Finally, after passing through the fourth checkpoint, the command vehicle stopped in front of a courtyard. The walls of the courtyard were mottled, showing the traces of time. The courtyard was a gray three – story building with a rough style and hard lines. It was built with the help of his elder brother. After Tian Huilan's group of three got out of the car, a man in his forties who had been waiting at the entrance of the courtyard immediately came up to them. The man was wearing a gray jacket, a pair of gold – rimmed glasses, and his hair was neatly combed. He nodded slightly to Tian Huilan and said, "Secretary Tian, you've had a long journey!" Tian Huilan didn't dare to be negligent and said, "Thank you for your hard work, manager Lu! How's elder song?" Manager Lu's expression darkened. "It's not too optimistic ... The doctor said that it might be within the next few days ... The Bureau chief has been in a coma for longer and longer. He can barely speak when he wakes up occasionally ... He was already put on a ventilator this morning ..." Manager Lu's eyes turned red. He was elder song's Secretary and had been with him for almost ten years. When elder song retired from his position as a leader, he was supposed to be assigned to an important position in an Eastern Province, but manager Lu couldn't bear to leave the old chief and asked to continue working with elder song. Manager Lu had long regarded elder song as his family. Now that elder song was about to pass away, he couldn't help but feel sad. He took a deep breath and adjusted his mood. Then, he said to Tian Huilan, "Secretary Tian, you said on the phone that you wanted to bring a Chinese medicine doctor to take a look at the chief's condition. This ..." Manager Lu looked at Xia ruofei and then at his Secretary, young Xiao. He felt that neither of them looked like celestial – looking old Chinese doctors! Tian Huilan quickly said, "manager Lu, let me introduce you. This young man is Xia ruofei. Little Xia is very accomplished in Chinese medicine. I asked him to take a look at elder song in the hope that it can help with his condition ... Little Xia, this is Lu Liansheng, manager Lu. He's elder song's personal secretary." Manager Lu didn't expect the Chinese medicine Tian Huilan was talking about to be this young man in his twenties. His mouth was wide open in shock, and his eyes were about to pop out ...

Chapter 212: choice (1)

"Secretary Tian, you ... Are you joking?" Manager Lu was in disbelief. "Manager Lu, would I dare to joke about elder song's matter?" Tian Huilan asked seriously. Xiao Xia is really the Chinese medicine doctor I invited. "Manager Lu looked at Xia ruofei and said, "But, this is also ..." "Manager Lu, don't underestimate Xia because he's young. His medical skills are definitely not inferior to those famous doctors in big hospitals." Tian Huilan said, "moreover, he's especially good at treating difficult diseases ..." At this point, Tian Huilan looked at Xia ruofei with a questioning look. Xia ruofei also understood Tian Huilan's meaning and nodded slightly. Tian Huilan continued, "Xiao Xia had successfully cured a case of

severe autism. She had also completely cured a patient with a severe cerebral hemorrhage. At that time, Hong Kong's Hengfeng hospital had already declared that there was no hope of saving the patient." Manager Lu was slightly surprised. He looked at Xia ruofei and said, "Doctor Xia, it's not that I don't trust you, but the chief's identity ..." Xia ruofei smiled faintly and said, "I understand." Manager Lu, Secretary Tian wouldn't treat the chief's life as a child's play. You should be very clear about this. " "I understand," Manager Lu said, "but all of the Bureau chief's treatment is handled by the specialist Group sent by the police. If we were to rashly use Chinese medicine for treatment, and with all due respect, Dr. Xia, you're still so young. I'm afraid it's not easy to talk to the specialist Group ..." When elder song had decided to come to Jiangnan Province to recuperate after returning to the country, the organization had immediately set up a special medical team, including some medical equipment that were all transported by air from Room 301. In addition, they had also sent a reinforced company to take on the task of guarding the Bureau chief. This company came from the old army that elder song had served as the commander of. They were absolutely loyal and reliable. All of elder song's treatment plans were drawn up by a group of experts. As elder song's Secretary, manager Lu had no say in the treatment. "Manager Lu, can't you think of something?" Tian Huilan frowned slightly and asked, "we rushed over as quickly as possible just to do our part." Since the effect of the previous treatment was not obvious, and her condition continued to worsen, why not try Chinese medicine treatment?" Tian Huilan was just short of saying "treating a dead horse as if it were alive". After all, elder song was a highly respected person, and it would be too disrespectful to compare him to a dead horse. "I understand. Secretary Tian, I also understand and thank you for elder song's sincere attitude." Manager Lu said, "but the team leader of the specialist Group is the youngest chief physician in the entire hospital, Liang Haitao. He's not easy to talk to ..." "The one from the Liang family?" Tian Huilan's brows furrowed. Manager Lu nodded without saying anything. There were some big families in China that had great influence in the political and business fields. These families often had many members in important positions, and their ancestors had come from the war. Every family had a heritage that ordinary people couldn't imagine. The Liang family of Beijing was one of the well-known families. Even Tian Huilan had heard of this young chief physician, Liang Haitao. He was only thirty years old this year, but his resume was brilliant. After he graduated from Colombia University, he joined Harvard University's post-doc station. After working for two years, he became an Associate Chief physician and was named a chief physician last year. He was also the youngest official title holder in the history of the police force. Such a young man with a powerful family background was naturally proud. Furthermore, chief physician Liang had studied abroad for many years. He highly respected Western medicine and disdained Chinese medicine. He even publicly expressed his doubts about Chinese medicine on the internet, which was criticized by many seniors in the Chinese medicine industry. However, they didn't take these criticisms seriously and continued to do things their own way. This was the confidence of a big family. Liang Haitao was now in charge of elder song's specialist medical team. It was difficult to get the medical team to agree to the intervention of Chinese medicine, especially when it was done by a young Chinese medicine practitioner like Xia ruofei who did not seem very reliable. Tian Huilan was also in a difficult position. At this moment, Xia ruofei suddenly said, "Manager Lu, you should know the situation of the Bureau chief the best. If we don't think of other ways, I don't think I need to say what the final result will be, right? To be honest, I don't have any confidence even if I use Traditional Chinese Medicine to treat it. I can only say that I'm trying my best. " At this point, Xia ruofei paused and looked at manager Lu before he continued, "However, if you don't even try, then there's no hope at all. If you try, you might still have a chance. So ... It all depends on whether you're manager Lu or Lu Liansheng. " Xia ruofei's last sentence

was meaningful and obvious. It all depended on whether manager Lu was concerned about his political future or elder song's safety. Manager Lu's eyes showed a conflicted look. After a long time, he gritted his teeth and said, "Good! Doctor Xia, I'll fight for it! Do your best to fight for it! Even if doctor Liang doesn't agree, I'll try my best to create an opportunity for you to get close to elder song!" Xia ruofei's eyes were filled with admiration. He could tell that manager Lu really treated elder song as a family member. One must know that a high – Level official like elder song had a very strict medical plan. If manager Lu really bypassed the medical team and allowed Xia ruofei to get involved in the treatment of Chinese medicine, it was equivalent to gambling his political life. From manager Lu's point of view, the chances of winning this gamble were very low. Xia ruofei was too young. It was impossible for a young man like him to cure late – Stage liver cancer. However, manager Lu still made a decision for that slim hope, which made Xia ruofei admire him. "However," manager Lu continued, "we can't skip the necessary review process. I hope you can understand this, Dr. Xia." "I understand," Xia ruofei nodded. Xia ruofei had once carried out a security mission for the Bureau chief. He knew very well that not just anyone could come into contact with the Bureau chief, especially someone at elder song's level. He had strict security rules. Anyone who got close to him had to go through a strict Political Review. Even manager Lu did not dare to go against this. Tian Huilan was also prepared. She gestured to her Secretary, Xiao Xiao, who immediately took out a piece of paper from her briefcase and handed it to her. Tian Huilan took it and passed it to manager Lu. "Manager Lu, this is Xiao Xia's basic condition." Manager Lu nodded and took the piece of paper. He glanced at it and handed it to the major who had gone to the airport to pick up the person. "Xu Wu, go and verify the information immediately. Be quick!" "Yes!" The major took the piece of paper and quickly returned to the courtyard. "Secretary Tian, let's go in!" Manager Lu said to Tian Huilan. The floor elder song is on has already been completely controlled, and he's still unconscious, so I'm afraid you can't visit him for now. "Alright, thank you for the trouble, manager Lu," Tian Huilan nodded. Manager Lu led Tian Huilan and the other two into the small courtyard. After bringing them to a room, manager Lu said, "Please have a seat, I'll go talk to team leader Liang ..."

Chapter 213: the young master's mannerisms

In the room. The three of them sat on the sofa in silence. Secretary Xiao was a little reserved. She hadn't been working for Tian Huilan for long, and this was the first time she had experienced such a big scene. Tian Huilan, on the other hand, looked a little worried. From the moment she found out that the person in charge of the medical team was Liang Haitao, she had been very pessimistic about the prospects of this trip. She wasn't worried about her political future. Elder song had a deep relationship with her family. She just wanted to do her best. Otherwise, she wouldn't have asked Xia ruofei to help her. It was a big risk to ask Xia ruofei to save her. Moreover, Tian Huilan was a vice – provincial level cadre and a member of the Standing Committee of the Provincial Party Committee. She already had her own Foundation, so it wasn't easy for others to suppress her. She was completely worried about elder song's safety. On the other hand, Xia ruofei was the calmest. He leaned back on the sofa with a relaxed expression and closed his eyes. It wasn't that Xia ruofei didn't care about old song. On the contrary, Xia ruofei was full of respect for the idol of countless soldiers. When he heard that he was the patient on the plane, Xia ruofei had already made up his mind to save elder song's life no matter what. Since he had already made up his mind, there was nothing to consider. It didn't matter whether the medical group agreed or not, or even if manager Lu failed to bring him to elder song, it didn't matter. Xia ruofei was very confident in his own skills. He knew very well that the security of the senior leaders was tight

on the outside and loose on the inside. They were surrounded by an iron bucket on the outside and were impregnable. The internal defense was mainly made up of a few elite forces. The Reconnaissance Company of the Army Corps was indeed a powerful force. However, in front of the elite member of the lone wolf assault team, Xia ruofei, it was still not enough. Especially since Xia ruofei had absorbed so many petals of the exotic flower, his skills were more than twice as strong as when he was in the Army. Most importantly, Xia ruofei only needed a few seconds to save elder song's life. He was confident that he could do it even if he had to face soldiers with loaded guns. Hence, at this moment, Xia ruofei was completely calm. Just like before he carried out his mission in the Army, he closed his eyes and rested his mind. He did not think about anything else. The three of them didn't have to wait long before someone knocked on the door. Manager Lu pushed the door open and walked in. Tian Huilan suddenly stood up and asked, "Manager Lu, how's the coordination going?" "Secretary Tian, director Liang is making a ward round in elder song's room. We'll have to wait for a while," manager Lu said. "Oh, sorry for the trouble ..." Tian Huilan said. "Secretary Tian, you're too kind. It's all for the chief!" Manager Lu said politely. At this moment, major Xu Wu walked over from the room next door with a fax in his hand. He first looked at Xia ruofei with a strange and curious look. Xia ruofei raised his eyebrows and quickly thought of the reason. In the information provided by Tian Huilan, Xia ruofei's military service resume only had a unit code and nothing special. However, when Xu Wu checked the information, he could get more detailed information. This major was obviously elder song's personal guard. If he was not mistaken, he should be under the National Guard Bureau. With his authority, he naturally had access to more core secrets. Xia ruofei's service history in the lone wolf assault team was not a secret to him. He could easily find out. From Xu Wu's strange look, she could tell that he must have found out about Xia ruofei's military service experience. He even knew about the life – and – Death battles that Xia ruofei had experienced in the sealed files. Xu Wu handed the fax to manager Lu and said in a clear voice, "Director, the information has been checked. Xia ... Doctor Xia has no problems, but ..." "But what?" Manager Lu asked with a frown. "You should see for yourself!" Xu Wu then handed the fax to manager Lu. Manager Lu took the fax and looked at it suspiciously, and the surprise on his face became more and more obvious. Finally, he looked up at Xia ruofei and said, "Doctor Xia, I didn't expect you to have such a rich military service resume ..." "Manager Lu, is there a problem?" Tian Huilan asked, slightly nervous. "Oh, there's no problem," Manager Lu said kindly, "however, Dr. Xia's resume is confidential, so I'm sorry I can't let you have a look ..." Tian Huilan looked at Xia ruofei in surprise and said, "It's okay, as long as little Xia's Political Review doesn't have any problems." Manager Lu nodded and then asked, "Dr. Xia, I didn't see any medical practice in your resume. Also, you don't seem to have a formal medical qualification certificate ..." Xia ruofei said, "I've never been to a Chinese medical Academy. I learned my medical skills from my master. I've been serving in the Army all these years. I didn't get a medical qualification certificate." "Manager Lu, although Xiao Xia doesn't have a medical license, I've seen his medical skills with my own eyes. I can guarantee that ..." Tian Huilan quickly said. "I know, this ... It's okay ..." Manager Lu said with a bitter smile. In his opinion, it didn't matter if Xia ruofei had a medical license or not. Liang Haitao would never allow anyone to touch his business, not to mention that Xia ruofei was such a young Chinese medicine practitioner. Liang Haitao hated Chinese medicine the most. He thought that it was witchcraft to trick people. Just as they were talking, footsteps came from the corridor and a few people in white coats walked over. Soon, they arrived at the door of the room. One of the doctors, who was in his early thirties, stopped in his tracks and casually swept his gaze over Tian Huilan and the others. "Director Liang, are you done with the ward round?" manager Lu greeted him. So, this was the leader of the medical team, Liang Haitao. Xia ruofei glanced at him and

saw that director Liang's face was white and clean. He wore a pair of rimless glasses and his hair was smooth and shiny. In all fairness, Liang Haitao's looks were considered rather handsome. However, Xia ruofei felt that he had a feminine aura about him, especially his eyes, which gave people an uncomfortable feeling. Liang Haitao nodded slightly and asked, "Manager Lu, who are these people?" "Oh, director Liang, let me introduce you," manager Lu said quickly. "This is comrade Tian Huilan, a member of the Standing Committee of the southeast Provincial Party Committee and the Secretary of the Sanshan Provincial Committee. Secretary Huilan, this is the head of the Bureau chief's specialist medical Group, director Liang Haitao." Tian Huilan revealed an elegant smile and nodded at Liang Haitao. "Hello, director Liang," Liang Haitao didn't expect the woman in front of him, who seemed to have taken good care of herself, to be a Deputy Provincial Minister. He restrained his arrogance and said, "Oh, it's Secretary Tian. Hello!" "Director Liang, how's the chief?" manager Lu asked. Liang Haitao frowned, "not too optimistic!" This kind of cancer has already spread throughout the body, and the prognosis is very bad. Moreover, due to the influence of the cancer cells, the chief ... Has already shown signs of organ failure in many organs ..." "Director Liang, is there any other way?" manager Lü asked, his face darkened. "From a medical perspective, the Bureau chief's condition has entered an irreversible state ..." Liang Haitao shook his head. Manager Lu already knew the answer, but he still couldn't help but look sad. He hesitated for a moment before making up his mind and saying, "Director Liang, this is Mr. Xia, a doctor that Secretary Tian personally brought here. I would like to ask him to do another examination for the chief!" Liang Haitao was stunned when he heard that. He stared at manager Lu for a few seconds, then looked at Xia ruofei before saying, "Manager Lu, are you sure you're not joking with me?" "Director Liang, I'm very serious." Manager Lu said, "with the chief's current condition, it can't be any worse. Doctor Xia has some experience in treating liver cancer, so I hope he can do a check for the chief." Manager Lu didn't dare to say the word "Chinese medicine" from the start because he knew about the feud between Liang Haitao and the Chinese medicine industry. "Nonsense!" Liang Haitao rebuked angrily, "do you think it's child's play to examine and treat the chief? Then what's the point of having our Specialist Group?" Manager Lu was already a director and was elder song's personal secretary, but Liang Haitao didn't give him any face at all. He spoke as if he was lecturing a subordinate. Obviously, this person's emotional intelligence was very low. Of course, it could not be ruled out that he was certain that elder song's illness could not be cured and that manager Lu was destined to retire from politics. That was why he dared to be so presumptuous. Manager Lu's face couldn't help but sink, no matter how well-mannered he was. "Director Liang, I'm not denying the work of the specialist Group. The current situation is that the specialist Group doesn't have a good treatment plan. Why can't you let doctor Xia try it?" Liang Haitao snorted coldly and said, "give it a try?" Who do you think elder song is? Ah? Could any random cat or dog come up and try? The Bureau chief's health care has a set of systems. As elder song's personal secretary, you should know about this, right?" Tian Huilan couldn't help but furrow her brows. She had heard of the Liang family's young master's actions, but seeing it with her own eyes today, she realized that the rumors were just too exaggerated. Xia ruofei was brought here by her personally. Liang Haitao was not giving her any face by calling her a nobody in front of her. "Director Liang, do you mean that I, Tian Huilan, have deliberately sent people here to murder elder song?" she said in a cold voice. "I wouldn't dare," Liang Haitao replied coldly. "Secretary Tian would never have the intention to harm elder song, but he might be deceived!" Then, Liang Haitao stared at Xia ruofei with a dark look and asked condescendingly, "Which medical school did you graduate from? Who was the teacher? Which hospital do you work in now?"

Chapter 214: sudden turn of events_1

Xia ruofei said calmly, "director Lu has already gone through a strict review of my resume. I don't think there's a need to report it to director Liang again, right?" The political Review doesn't seem to be the medical team's job scope. " Xia ruofei paused and continued, "Also, when Western medicine is at its wit's end, trying Traditional Chinese Medicine is the choice that ordinary patients would make. Why did director Liang, as the chief physician of Room 301, refuse to try it without even trying?" When Liang Haitao heard the word "Chinese medicine," his eyes widened. He stared at Xia ruofei and asked, "What did you just say? Chinese medicine? You're a Chinese medicine doctor?" "That's right. " Xia ruofei said calmly. Liang Haitao turned to manager Lu and said, "Old Lu, are you crazy? I won't say anything if you took the liberty to find a doctor from the outside, but you actually found a sneaky Chinese medicine doctor? And a Chinese medicine doctor Who hasn't even grown his hair? Are you joking with me?" Without waiting for manager Lu to speak, Xia ruofei spoke first, "Director Liang, is Chinese medicine all about pretending to be mysterious? This doesn't sound like something a chief physician with higher medical education would say!" Manager Lu's expression was ugly. He didn't want Xia ruofei to have a direct conflict with this young master with a terrifying background. Especially after looking at Xia ruofei's resume, he had a good impression and respect for this young man, so he kept winking at Xia ruofei. However, Xia ruofei pretended not to see it and continued, "If Chinese medicine was all a trick, then the thousands of Chinese medicine hospitals and colleges in China would have been closed down by the country long ago! That's feudal superstition!" Liang Haitao laughed coldly, "if it's not acting mysterious, then what is it?" If he could diagnose a disease just by touching the pulse, then what was the point of having those expensive medical equipment? CT, X – ray, and MRI scans could all be eliminated! And ... Those roots and tree bark can cure diseases? Who knew what the ingredients were? It's really a joke!" The doctors beside Liang Haitao chimed in. "Young man, medicine is a very rigorous thing. Don't talk nonsense if you don't know anything!" "Director Liang is a professor who just returned from abroad. Do you know better than him?" "The international community doesn't recognize Chinese medicine. They think it's an ancient Eastern witchcraft without any scientific evidence!" As a doctor in the specialist Group, Liang Haitao's philosophy was naturally similar to his. Otherwise, Liang Haitao would not have brought them here. Therefore, there was not a single experienced Chinese medicine doctor in this medical team. All the doctors even looked down on Chinese medicine. Xia ruofei said indifferently, "since when did the international community not recognize Chinese medicine?" Many famous foreign athletes like to use Chinese medicine to do cupping!" Xia ruofei wasn't spouting nonsense. Famous swimmer Phelps, gymnast Naldo, and Olympic champion Evelyn were all very keen on Chinese Medicine Cupping therapy. Naldo even told the media that cupping therapy was his secret weapon to maintain his health, and the effect was better than any treatment he had ever spent money on. Xia ruofei continued, "some foreign anti – Chinese media deliberately hyped up the pseudo – Scientific theory of Chinese medicine. As the descendants of Yan and Huang, you guys actually joined in?" What kind of mentality was this? No one here would have the opportunity to receive Western medicine treatment if they were a few generations older, right? Then, they would still be alive and well, and they would have offspring. This is really a miracle of life!" Xia ruofei could not stand people who worshiped foreign countries and forgot their ancestors. Seeing the faces of Liang Haitao and the doctors, he could not hold back his anger. "Impudent!" "How can you talk to director Liang like that?" "You really have no respect for your elders and don't know the rules!" The doctors were all indignant. Liang Haitao's face was also livid. He snorted and said, "I have nothing to say to an ignorant person like you!" Then, Liang Haitao said to manager Lu, "Old Lu! As long as I'm the head of the specialist team, I won't allow such a deceitful person to get close to elder song! As for your interference in the medical work of the expert group, I will report it to

the higher – ups! Just wait for your punishment!” Then, Liang Haitao looked at Xia ruofei coldly and said, “Let’s go!” “Manager Lu, are elder song’s children here?” Xia ruofei asked. Manager Lu was stunned for a moment before saying, “the Bureau chief’s condition has worsened drastically this morning. I’ve already informed his children. However, most of them hold important positions in various places and need to go through the leave application procedures. Moreover, the transportation in Hongzhou is not as convenient as that in Beijing. So, they are still on their way here.” In fact, Tian Huilan had also received the news around the same time and had immediately contacted Xia ruofei. However, she wanted to bring Xia ruofei to elder song’s treatment as soon as possible. She had coordinated with many parties in the military and had arrived in Hongzhou earlier than elder song’s children. “Doctor Xia, why are you asking this?” manager Lu asked after he finished. Xia ruofei glanced at Liang Haitao and said, “It’s nothing. I just think that elder song’s decision to accept Chinese medicine treatment should be decided by his children, not by the so – called Specialist Group!” Liang Haitao, who was already walking out, stopped in his tracks and turned around. He sneered, “You’re really ignorant to the extreme! Do you think elder song is an ordinary person? And the children decide? To tell you the truth, even elder song’s children have to get my permission to visit him!” With that, Liang Haitao turned around and left. At that moment, a piercing warning sound suddenly came from the corridor. Manager Lu’s expression changed and said, “Not good! The chief’s condition has changed!” Elder song’s small courtyard had been specially renovated. The entire building was equipped with alarms connected to the wards. This was to ensure that when elder song’s vital signs were abnormal, no matter where the doctor was, he would be the first to know and immediately organize an emergency rescue. Liang Haitao’s face turned serious. He led a few doctors and ran to the stairs. Xia ruofei immediately stood up and said, “Manager Lu, let’s go and take a look!” “Alright!” Manager Lu said without much hesitation. Tian Huilan told her Secretary, Xiao Xiao, to wait there, and then she quickly went up. The second floor was already in a state of chaos. When a nurse saw Liang Haitao, she immediately said, “Director Liang, chief’s blood pressure and pulse are dropping. He’s in a critical condition!” “Prepare the cardiac stimulant!” Liang Haitao ordered loudly as he walked towards the ward. Walking to the door of elder song’s room, Liang Haitao saw manager Lu and the other two from the corner of his eye. He stopped and frowned, “Manager Lu, don’t come over and make trouble! Hurry up and urge the chief’s family! Also, according to the procedure, you should immediately report to the central government. I’m afraid the chief can’t hold on for much longer!”

Chapter 215: It’s my turn_1

After that, Liang Haitao quickly entered the ward with his men. In all fairness, although Liang Haitao’s young master had a lot of bad habits and had a very serious prejudice against Chinese medicine, his professional quality in the field of Western medicine was still very good. After all, he had studied in many famous schools and had a lot of opportunities to practice clinical medicine after working in 301. His medical skills naturally improved very quickly. There was no specialist with a high title who had an undeserved reputation. Therefore, even though elder song’s condition was critical, Liang Haitao remained calm and started to organize the rescue. Manager Lu, who had always been calm and steady, was a little flustered. He had followed elder song for more than ten years, and his feelings for elder song were no different from family. He was a little out of his wits when elder song was dying. Tian Huilan reminded manager Lu in a low voice. Manager Lu woke up from his daze and quickly took out his phone to call elder song’s children. However, after a round of calls, only elder song’s eldest son picked up. His plane had just landed at Hongzhou airport and he was rushing over in a car. The others had their phones

turned off, so they must still be on the plane. After the call, manager Lu looked at Xia ruofei, as if he wanted to say something but stopped. Xia ruofei said calmly, "manager Lu, don't be anxious. Let's see how the emergency situation is. If it really doesn't work, I'll force my way in. I can't guarantee anything else, but it's not a problem for elder song to hold on until his children arrive." Of course, Xia ruofei was being conservative. In fact, as long as he was willing to part with the petals of the flower, it was possible to cure eccentric song in a short time. However, that would be too shocking. Xia ruofei would not do that. In the ward, Liang Haitao and his medical team quickly injected elder song with a cardiac injection. Under the forced effect of the medicine, elder song's blood pressure and pulse were temporarily stabilized, and they were starting to rise again. However, Xia ruofei still noticed that elder song's hands that were exposed outside the blanket had some black spots. This was caused by the cancer cells invading his entire body. It meant that he was about to die. It could be said that if it wasn't for eccentric song's special status, any ordinary person would have been gone by now. Now, it was completely meaningless to rely on devices and drugs to prolong his survival. If Xia ruofei had not come today, then there was really nothing they could do. Liang Haitao wiped his sweat and checked the monitoring device again before he got up and left the room. When he saw manager Lu and the other two, he couldn't help but frown and ask, "Why are you guys still here? Manager Lu, have you informed the chief's family? The effects of the cardiac stimulant won't last for too long. The Bureau chief might not be able to last more than a few hours ..." "I've already called, but only Chief Judge song has arrived in Hongzhou and is on his way. The others' phones are all turned off, so they should still be on the plane ..." Director Lu said, then he couldn't help but ask, "director Liang, is there really no other way?" Liang Haitao said impatiently, "Old Lu, I've told you many times. The Bureau chief is at his last moment. There are some things that need to be prepared!" Then, Liang Haitao looked at Xia ruofei sternly and said, "Also ... This person is not allowed to enter the ward! Did you hear that?" The last sentence was directed at the two soldiers in charge of guarding the door. The two soldiers replied in unison, "Yes!" They were on guard duty in the ward, so they naturally listened to the orders of the medical team leader. Liang Haitao glared at Xia ruofei coldly before returning to the lounge next to elder song's ward. There were also hospital – like long chairs in the corridor. Manager Lu and the other two walked over and sat down. "Manager Lu, what should we do now?" Tian Huilan asked with a slight frown. Manager Lu's expression was serious. He thought for a while before asking, "Doctor Xia, if you help, is there still hope for the chief?" In fact, manager Lu was already on the verge of despair. Almost everyone at his age had experienced the death of their loved ones. Manager Lu had already made a judgment about elder song's current situation, but he was unwilling to accept it emotionally. "We need to check the patient's condition to know," Xia ruofei said calmly. "But it shouldn't be a big problem if it can extend his life for a few days." Manager Lu nodded and sat in his chair without saying anything. It was obvious that he was having an intense mental struggle. Tian Huilan stood up anxiously and looked into the room. Elder song was lying quietly on the bed in the ward, and two doctors were nervously monitoring the complicated instruments. His personal guard, Xu Wu, stood straight and not far from the door. His determined eyes were also filled with sadness. Only Xia ruofei was sitting calmly on the chair. The small suitcase was beside his feet. As long as he had the solution in the suitcase, Xia ruofei had nothing to worry about. Time passed by. About half an hour later, a doctor walked out of elder song's room in a hurry. He stood at the door of the lounge next door and said hurriedly, "Director Liang, the chief's vital signs are dropping again!" Liang Haitao walked into the ward quickly. This time, he didn't even look at Xia ruofei and the others. Just as Liang Haitao walked into the ward, all sorts of alarms went off again, which meant that elder song's vital signs had dropped to a very dangerous level. Manager Lü stood up immediately. He saw Liang Haitao

checking elder song's pupils and doing some other checks. Then, he stood up and shook his head helplessly. "Director Liang!" Manager Lu called out anxiously. "Old Lu, the Bureau chief might not be able to wait for Secretary song to arrive ..." Liang Haitao turned around and said. Obviously, Liang Haitao thought that the rescue method was useless and was giving up. In fact, if it was an ordinary person, the hospital would have told his family to give up treatment long ago. It was because of elder song's special status that the treatment was delayed for an entire day. "Don't we have the cardiac stimulant?" Manager Lu called out. "It's no use ..." Liang Haitao waved his hand weakly and said, "hurry up and report to the higher – ups! We still have a lot of work to do." When such a big bureau chief passed away, the medical unit had to accurately record the time of death and all kinds of data, which had to be stored in the historical archives. In addition, the nurse had to clean the chief's body, change his clothes, and so on before the body stiffened. Just then, Xia ruofei stood up unhurriedly and walked into the ward with his suitcase. "Doctor Xia, you –" manager Lu called out. The two soldiers wanted to stop Xia ruofei by reflex, but Xia ruofei suddenly sped up. The two of them felt a huge force and were pushed to the sides. Xia ruofei passed through the two soldiers in an instant. The two soldiers' expressions changed drastically, and they subconsciously grabbed their guns. At this time, Xu Wu's eyes gleamed, and he shook his head at the two of them without a trace. The soldier looked confused, but he still looked at Xu Wu and chose to obey his order. Manager Lu, Tian Huilan, and Xu Wu saw that Xia ruofei had entered, so they naturally followed him in. Manager Lu and Xu Wu were both their superiors, so the two soldiers would not stop them. In the ward, Liang Haitao's face darkened when he saw Xia ruofei enter. He shouted, "Who let you in? Get out of here immediately!" "Since you've given up, it's my turn now," Xia ruofei said calmly. With that, Xia ruofei walked straight to elder song's bed with his suitcase. "Impudent!" Liang Haitao scolded angrily. He walked forward to stop Xia ruofei, but Xia ruofei only waved his arm lightly. Liang Haitao staggered and took a few steps back, hitting the wall in a sorry state. Xia ruofei didn't even look at Liang Haitao. He placed the suitcase on the bedside table, unzipped it, and opened the lid ...

Chapter 216: Dr. Xia's approach (1)

Xia ruofei took out a porcelain bottle on the far right and deftly unscrewed the cap. Then, he walked to the bed and reached for the oxygen mask that elder song was wearing with his other hand. "Bastard! What are you doing?" Liang Haitao roared and rushed towards Xia ruofei. But his body was stopped by a strong arm. The one who did it was elder song's personal guard, Xu Wu. He only extended one hand and stopped Liang Haitao. Liang Haitao glared at Xu Wu and rebuked, "Xu Wu, get out of my way! I'm warning you, you've seriously violated medical discipline! Don't keep making mistakes!" Xu Wu's eyes were calm as he said indifferently, "Director Liang, since you've given up on saving the chief, I don't think it's a problem to let doctor Xia take over the chief's treatment!" "Bullshit!" Liang Haitao cursed, "Who Do You Think You Are! Get lost!" Liang Haitao cursed as he pushed Xu Wu with all his might, but Xu Wu was as immovable as an iron tower. Liang Haitao's small body was simply not on the same level as Xu Wu's. "Dr. Zhao, Dr. Zhong, what are you two doing? Why aren't you stopping that bastard?" Liang Haitao roared. The other two doctors in the ward were shocked at first, but they only reacted after hearing Liang Haitao's roar. They quickly ran towards the bed. "Stop them!" Xu Wu shouted sternly. The two soldiers had already rushed into the ward when the conflict broke out. Now that they heard Xu Wu's order, they didn't even hesitate for a second. They immediately rushed in front of the two doctors and reached out to stop them. These 2 soldiers were from the Army that elder song had once served as the commander of. This time, their entire Reconnaissance Company had been

deployed around the small courtyard, acting as elder song's personal guard. As elder song's personal guard, Xu Wu naturally became the direct leader of this company. Thus, the two soldiers did not hesitate to carry out Xu Wu's orders. Manager Lu also shouted, "no one is allowed to get close to the bed!" Do Not Disturb doctor Xia's treatment! Xu Wu, get a few more soldiers here!" Manager Lu had a calm personality, but he was not an indecisive person. Before elder song retired from his core leadership position, manager Lu had been his Secretary for a long time. How could a person who had been in the red wall of the palace for so many years be simple? Therefore, when he saw that they had already shed all pretenses of cordiality, he made a decision without any hesitation. "Understood!" "Yes!" Xu Wu replied loudly, then ordered loudly, "squad leader Lu, transfer everyone from your class here! Bring your weapons!" "Yes!" The corporal of the two soldiers immediately responded. Then, squad leader Lu quickly left the ward, while the other soldier held his gun and looked at the two doctors vigilantly. The two doctors were so scared that they didn't dare to act rashly. Due to Xu Wu's decisive reaction and manager Lu's timely decision, the entire situation was under control. Xia ruofei turned around and grinned at Xu Wu, "Thank you! Comrade!" A rare smile appeared on Xu Wu's usually stern face. However, he did not say anything and only nodded slightly at Xia ruofei. Xia ruofei gave the worried Tian Huilan a reassuring look, then reached for the oxygen mask again. This time, Xia ruofei did not hesitate. He took off his mask and put the porcelain bottle in his other hand to elder song's lips. Liang Haitao, who had been flying into a rage the whole time, calmed down instead. He looked at Xia ruofei with a dark gaze and thought to himself, "If he takes off his mask, elder song won't live for more than a minute. At that time, he'll die in your hands. I'll see how you end this! Manager Lu, Tian Huilan, and Xu Wu couldn't help but hold their breaths. The alarm of the monitoring Instrument became more urgent, and the screen showed that elder song's vital signs were dropping rapidly. Xia ruofei did not panic at all. He fed the petal herbal tea from the porcelain bottle into elder song's mouth bit by bit. Even if a small portion leaked out from the corner of his mouth, Xia ruofei did not care about the composition of the petals. As long as it was in contact with his skin, it would be directly received by the human body. Xia ruofei fed elder song half a bottle before putting the oxygen mask back on. Then he tightened the bottle stopper and put the porcelain bottle on the bedside table. Then, he pulled a chair over and sat down in front of the bed. He put his hand on elder song's wrist and began to take his pulse. Xia ruofei was very calm throughout the entire process. He closed his eyes when he felt her pulse and turned a deaf ear to the sharp alarm. The sound of hurried footsteps could be heard. The corporal Lu squad leader from earlier had arrived at the ward with eight or nine soldiers with loaded guns. "Squad leader Lu," Xu Wu ordered. "Immediately organize a team to stand guard. Without my or manager Lu's permission, no one is allowed to approach the ward!" "Yes!" Then, Xu Wu looked at Liang Haitao and said, "Director Liang, you guys should leave the ward first! From now on, doctor Xia will be in charge of the chief's treatment!" "I can't leave!" Liang Haitao said loudly, "the specialist medical Group was directly established by the central government's office. What right do you have to remove me from my position as a mere security staff officer? If you're so capable, then order them to shoot me!" Xu Wu's face darkened. "Squad leader Lu," he said, "get a few people over here and 'invite' director Liang and the others out!" "Yes!" Captain Lu replied loudly. With a wave of his hand, two soldiers immediately came over and closed in on Liang Haitao. "What do you want? Do you still have any discipline?" Liang Haitao rebuked. It was a soldier's duty to obey orders. They didn't care about Liang Haitao's protests. Two people grabbed Liang Haitao's arms and dragged him out. At this moment, Xia ruofei, who had been taking her pulse with his eyes closed, opened his eyes and said, "Forget it, let them stay! Aren't these few people arrogant and looking down on Chinese medicine? Let's show them the methods of Chinese

medicine!” The soldier looked at Xu Wu. Xu Wu looked at Xia ruofei and nodded slightly, indicating that they should do as Xia ruofei said. Hence, the two soldiers immediately let go of Liang Haitao and retreated to the door to stand guard. There were many doctors and nurses from the medical team gathered outside the door, but they were all blocked outside the cordon. They couldn’t see what was happening in the room at all, and they were all talking nervously. Liang Haitao tidied up his white coat, which had been crumpled by the soldiers, and sneered at Xia ruofei.””Hmph! You won’t give up until you’ve reached the Yellow River! Chinese medicine? The Bureau chief’s vital signs have dropped to ...” At this point, Liang Haitao seemed to have been choked by someone and he stopped. His eyes were fixed on the screen of the monitoring device, and his face was full of disbelief, as if he had seen a ghost ...

Chapter 217: Taking the initiative (1)

The ear – piercing alarm was still ringing, but Liang Haitao had already turned a deaf ear to it. Because he saw that all the vital signs, which had been falling like a cliff just now, had stopped falling and began to rise back up by a small margin. It was even more effective than the cardiac stimulant he had received earlier. This had completely subverted Liang Haitao’s understanding of medicine. In his opinion, this was not in line with the laws of science. As the chief physician, he knew very well that in elder song’s condition, even God would not be able to save him. Liang Haitao’s gaze fell on the small porcelain bottle on the bedside table. “What ... What did you give the chief to drink?” Liang Haitao’s voice trembled as he asked. Xia ruofei smiled and said, “Chinese medicine!” It’s made from the grass roots and tree bark you mentioned.” Liang Haitao was speechless. He had a strong dislike for Chinese medicine, but now that the truth was right in front of him, he couldn’t refute it. Liang Haitao consoled himself in his heart, “Chinese medicine can’t cure liver cancer. He must have used some kind of stimulant to make elder song’s body regain its consciousness. It must be!” At this moment, Xia ruofei frowned and said, “”The medicine doesn’t seem to be enough ...” After saying that, he stood up and opened the porcelain bottle again. He fed it to elder song like before. He didn’t sit back in his chair until the entire bottle of “Chinese medicine” was fed. Xia ruofei finally had the time to look at elder song. The eighty – year – old man with his eyes closed had almost all his hair white, and his thin face had many age spots. His hands were bony, and the black spots on his skin had not faded. But even in his dying state, he still had a kind of imposing manner without anger. Xia ruofei could vaguely remember elder song’s appearance on the news a few years ago. Before he left his position as a leader, he would appear on the national news broadcast almost every day. In the news, elder song was upright and in high spirits. But now, he looked like this. It made people sigh that a hero had passed his Prime. Just as Xia ruofei was sighing, the alarm from the monitoring Instrument suddenly stopped. Liang Haitao and the other two doctors were already dumbfounded. At this moment, they stood in place as if they were petrified. After Xia ruofei gave elder song the second dose of the Chinese medicine, elder song’s vital signs started to rise again. Although it was still much lower than the normal standard, the warning had stopped, which meant that the indicator had already left the danger zone that could lead to the death of the patient at any time. The most important thing was that these indicators had suddenly recovered from the state of near death. The effect was so obvious that even two shots of cardiac stimulant would not be as effective. When Liang Haitao looked at Xia ruofei again, his eyes were filled with shock and fear. Xia ruofei placed his hand on elder song’s wrist again and stood up after taking his pulse. Manager Lu quickly took two steps forward and asked, “”Doctor Xia, how’s the situation?” “He’s out of danger for now,” Xia ruofei said as he stood up. Manager Lu and Tian Huilan let out a long sigh of relief at the same

time. Liang Haitao and the medical team's attitude just now was basically to prepare for the work after elder song's death. Moreover, the alarm continued to sound, which made people panic. "This is impossible ... Impossible ... How could this be?" Liang Haitao's eyes were wide open as he muttered to himself. Manager Lu raised his eyebrows and said in an unfriendly tone, "Doctor Liang, what are you saying? Do you want something to happen to the chief?" He had always addressed Liang Haitao as "chief Liang", but now he had changed it to "doctor Liang". It was clear that his dissatisfaction with Liang Haitao had accumulated to a very large extent. Now, both sides had basically fallen out. If Xia ruofei's treatment was ineffective, he, Xu Wu, and even Tian Huilan would have to sacrifice their political futures. However, now that Xia ruofei's first move had achieved an obvious result, his confidence naturally rose. "That's not what I meant ..." Liang Haitao quickly said, "manager Lu, don't twist my words!" Manager Lu snorted and ignored Liang Haitao. He turned to Xia ruofei and asked, "Doctor Xia, I'll have to trouble you with the next step of the treatment ..." Manager Lu had placed all his hopes on Xia ruofei. He was not only thinking about his own political future, but also out of concern for elder song. Xia ruofei thought for a while. "I have a rough idea of elder song's condition. I need to make some Chinese medicine. You should have a Chinese medicine room here, right?" "I'm sorry, Dr. Xia," manager Lu said awkwardly, "we don't have any Chinese medicinal herbs in stock ..." After that, manager Lu couldn't help but glare at Liang Haitao. Xia ruofei immediately understood. Based on Liang Haitao's character, the medical team he was in charge of was naturally all Western medicine. It was even more impossible for them to store any Chinese medicine. Tian Huilan thought for a moment and said, "little Xia, how about this?" "Write a list and ask manager Lu to send someone to Hongzhou to buy it immediately. If it's not convenient, you can go there yourself. But elder song ..." "Yes, yes, yes!" Manager Lu quickly said. "We'll go to Hongzhou to buy it immediately! Xu Wu, go and contact the Air Force and ask them to send another helicopter over!" "Yes!" Xu Wu replied. Xia ruofei thought for a while and said, "I think I'll stay here." "It'll be easier to deal with in time if anything happens." Then, Xia ruofei continued, "manager Lu, please prepare a room for me. I'll make a list. You guys hurry up and prepare the medicinal herbs. By the way, I'm sure you don't have the equipment for brewing Chinese medicine here." And bring a set back as well. "Alright!" Manager Lu said. Now that Xia ruofei was his only hope, he would naturally listen to her. Xia ruofei stood up and took out another porcelain bottle from his suitcase. The concentration of the flower petal solution in this bottle was slightly higher than the first bottle, but the purity was also lower. Xia ruofei smiled and said to the soldier, "Squad leader Lu, I'll give you a task. Take this bottle of Chinese medicine and guard this room at all times. If the Bureau chief's condition worsens, immediately give him half a bottle. Other than you and me, no one is allowed to touch this bottle. Remember, no one! Can you do it?" Xia ruofei glanced at Liang Haitao, who had an ugly expression. "I promise to complete the mission!" Squad leader Lu immediately puffed out his chest and said. Squad leader Lu took the porcelain bottle from Xia ruofei and immediately took out a magazine from the bullet bag and handed it to the soldier next to him. Then, he carefully inserted the porcelain bottle into the sub – Bag. He held the type 95 rifle in his hand tightly and looked vigilant at all times. Xia ruofei explained to manager Lu, "this is the eastern medicine that I've prepared in advance before we set off today. I used many rare herbs. Its effect is to stimulate the human body's potential and keep the chief's vital signs at a relatively normal level." The proper treatment can only be carried out after you've bought the medicinal herbs. "I understand, doctor Xia. I'll leave everything to you!" Manager Lu said. "Let's go then!" Xia ruofei nodded. He then looked at Liang Haitao and said, "As for doctor Liang's treatment group, find them a place to rest! I'm sure they don't care to observe Chinese medicine treatment." Liang Haitao's face turned green and he snorted coldly. He didn't say anything.

Manager Lu couldn't help but laugh. "Alright! There are many empty rooms here, and doctor Liang and the others have worked hard for so many days, it's time for them to rest!" After that, manager Lu gave an order to squad leader Lu. A few soldiers immediately entered the room and carried Liang Haitao and the other two doctors out, ignoring their protests. Including the members of the medical team outside, they were all 'invited' to a large meeting room on the first floor to 'rest'. Manager Lu had arranged for a full squad of armed soldiers outside the meeting room to ensure that Liang Haitao would not cause any trouble during Xia ruofei's treatment. As for what would happen after that, he didn't have time to think about it. As long as Xia ruofei's treatment was successful, even if Liang Haitao had a powerful background, he would not be a threat to elder song's personal secretary. Xia ruofei had used a bottle of petal solution with a very low concentration to easily take the initiative. Manager Lu personally led Xia ruofei to the doctor's lounge to list the Chinese medicine. Just as they arrived at the corridor, they heard the sound of a car engine. Manager Lu looked down through the window and immediately said, "Secretary song is here!" "Doctor Xia, time is of the essence. Please make a list immediately!" Manager Lu said, "Secretary Tian and I will go down to welcome provincial judge song!" Elder song's eldest son, song Zhengping, was already in the main department. He had been the Deputy Chief of xiangnan province for more than four years. This time, there were many people who were promoted to the position of Secretary of the provincial deputy Committee. He could definitely be considered a Governor. "Alright, Xu Wu can stay." Xia ruofei smiled and said, "he can just go and buy them after I've written the list!" Manager Lu and Tian Huilan hurried down the stairs while Xia ruofei and Xu Wu entered the doctor's lounge.

Chapter 218: The eldest son of the song family (1)

Xia ruofei entered the doctor's lounge. There was a computer, a printer, and so on. He was too lazy to write by hand. He sat in the seat that originally belonged to Liang Haitao, opened a document on the computer, and started to make a list. Xia ruofei was no longer the newbie he was when he first got the spirit map space. He had a lot of knowledge in Chinese medicine. Before he set off, he had even memorized a few Traditional Chinese Medicine prescriptions for liver cancer, so he could easily make a list. In any case, these Chinese medicines were just a cover. The real effects were naturally the petals of the strange flower. Xia ruofei had no choice but to do so. If the petal solution he had prepared in advance could alleviate elder song's condition, it would be too illogical and would easily arouse suspicion. Therefore, he had to make the process as complicated as possible. He even had to change the prescription later to make his treatment seem relatively reasonable. Of course, Xia ruofei's list of Chinese medicine included many unrelated medicinal herbs. He even deliberately listed some Chinese medicines that were incompatible with each other to prevent people from speculating about his prescription through the list. Traditional Chinese Medicine was very complicated, and it paid attention to the monarch, the subject, and the assistant. Even if it was the same few medicinal herbs, the dosage would be different, and it would produce completely different medicinal effects. And different herbs and different dosage combinations could produce endless changes. Xia ruofei had specially mixed in many other medicinal herbs and even listed a few precious medicinal herbs. This way, even if a Chinese medical Master came, he would not be able to deduce the real prescription from the list. Xia ruofei quickly typed out the names and quantities of the Chinese medicine on the computer. Xu Wu made a cup of tea for Xia ruofei and placed it by his hand. Then, he stood straight opposite Xia ruofei's table. Xia ruofei stopped and said to Xu Wu with a smile, "Staff officer Xu, take a seat!" "No need," Xu Wu said. "Doctor Xia, you go ahead. I'll just stand." "Don't mind me!" Xia ruofei smiled and said, "if you were

in my old unit, you would be at the same level as our battalion commander. You're just standing there. I'm just a small Sergeant. I'm under a lot of pressure!" Xu Wu also smiled and said, "A Sergeant of the lone wolf assault team is no worse than a major in an ordinary Army! Besides, from your resume, you're still an elite member of your commando unit. If you don't retire, it's only a matter of time before you get promoted!" Xia ruofei laughed and said, "the problem is that staff officer Xu is not a major in an ordinary Army!" I heard that everyone in the guard Bureau is an expert! If there's a chance, how about we exchange a few moves?" Xu Wu quickly waved his hand and said, "no, no, no! You're precious now! If I accidentally hurt you, manager Lu will skin me alive!" "Hey! Staff officer Xu is very confident!" Xia ruofei laughed. "I don't believe that the lone wolf assault team is worse than your guard Bureau. If you put it that way, I really have to fight you, but we'll talk about it after the treatment is over!" "Yes, yes, yes. The most important thing now is to treat the chief's illness!" Xu Wu quickly said, "as long as the chief's condition improves, I'll play with you however I want! If you think it's not enough, I'll get the kids from the Reconnaissance Company to fight with you!" Xia ruofei couldn't help but laugh out loud. Although he had left the Army, Xia ruofei still had a deep affection for the Army. He felt very close to the soldiers when he interacted with them. In particular, because of the political Review, Xu Wu also knew about his dusty resume in those confidential files. He did not have to worry about leaking secrets when he spoke, so he naturally felt closer to him. Xia ruofei didn't waste any time while he was chatting. He quickly came up with a list of hundreds of Chinese medicines. He pressed the print button, and the printer beside him started to run. Downstairs, a black Audi was parked at the entrance. A middle – aged man in his fifties pushed the door open and got out of the car without waiting for the Secretary to open the door. The middle – aged man was tall and had a square face that exuded the majesty of a superior. His bright eyes revealed a deep sense of worry and his face was very serious. On the other side of the back seat, a young man in his 20s also got out of the car. The young man looked somewhat similar to the middle – aged man, but compared to the middle – aged man's simple clothes, the young man was much more high – Profile. He was from an international luxury brand, but because of the long journey, his Givenchy casual suit was a little wrinkled, his hair was a little messy, and his face was a little pale. He seemed to be in a bad mood. The middle – aged man looked at the slightly bleak building and felt an irrepressible sadness in his heart. If this were in Beijing, his father's ward would be full of relatives and friends by now! Even the central government would send a core member as a representative. However, he understood his father's feelings for Jiangnan Province very well. He was not surprised by his father's decision. The middle – aged man strode into the courtyard. Manager Lu and Tian Huilan had already come downstairs. They quickly walked up to him. "Provincial judge song!" "Big brother song!" The two of them greeted the middle – aged man at the same time. The middle – aged man was elder song's eldest son, song Zhengping. He was the Chief Judge of the Xiang Nan Province. His youngest son, song Rui, arrived in the same car as him. Manager Lu and Tian Huilan addressed song Zhengping differently. Manager Lu was the "Chief Judge of the song province", while Tian Huilan called him "big brother song." It was clear that Tian Huilan had a deep relationship with the song family. Song Zhengping didn't bother to greet the two of them. He only nodded his head before asking anxiously, "Manager Lu, how's my father's condition?" As soon as he got off the plane, he received a call from manager Lu, who told him that his father was in a critical condition. He was anxious all the way, afraid that he wouldn't be able to see his father one last time. "Don't worry, Chief Judge song, the Bureau chief's condition has stabilized for the time being!" Manager Lu quickly said. Maybe ... There's still a chance for her condition to turn for the better. " Song Zhengping was also taken aback. Under normal circumstances, for a senior official like his father, the medical unit would definitely be very strict. Manager Lu's second phone call basically

meant that the old man had no hope and could pass away at any time. How could there be such a relapse in such a short time? Of course, elder song's temporary stability was great news for song Zhengping. He heaved a sigh of relief and said, "That's good, that's good ... Let's go and see my father first! By the way, Xiao Liang and the others have been working hard these days. It's all thanks to their careful treatment!" Manager Lu and Tian Huilan looked at each other, and their expressions suddenly became strange ...

Chapter 219: beat him to death_1

What kind of person was song Zhengping? He immediately felt that something was wrong and couldn't help but ask, ""What's wrong, manager Lu? What's going on?" "Chief Judge song, it's a bit complicated. Let's go upstairs and see the Bureau chief first!" Manager Lu said with a bitter smile. I'll explain it to you later ..." Song Zhengping suppressed the questions in his heart and nodded. "Alright," he said. The group of them went upstairs. When they arrived at elder song's ward, Xia ruofei and Xu Wu were walking out of the doctor's lounge next door. "Staff officer Xu, hurry up and come back!" Xia ruofei said, "I need it urgently." "Understood!" Xu Wu replied in a clear voice and jogged downstairs with the list. Xia ruofei smiled and greeted manager Lu and the rest. Song Zhengping had never seen Xia ruofei before. He asked, ""Manager Lu, this is ..." "Oh! Chief Judge song, let me introduce you, this is Xia ruofei, Dr. Xia!" Manager Lu quickly said, "it was because of doctor Xia's timely treatment that the chief's condition was stabilized!" Manager Lu then said to Xia ruofei, ""Doctor Xia, this is song Zhengping, the head of the judges of Xiang Nan Province. He is the eldest son of the Bureau chief." "Hello, Chief Judge song!" Xia ruofei greeted song Zhengping with a smile. His attitude was neither humble nor arrogant. "Thank you! Doctor Xia, you've worked hard." Song Zhengping said sincerely. "You're too kind, Chief Judge song." Xia ruofei smiled. "Let's go see the chief first! His condition is quite stable now, so you don't have to worry too much." "Okay, thank you, Dr. Xia," song Zhengping said with a nod. The group walked into elder song's room. Squad leader Lu was the only one guarding the room. He stared unblinkingly at the monitor. This was the task that Xia ruofei had just given him. Once the device rang an alarm, he had to feed elder song the Chinese medicine in the porcelain bottle. Squad leader Lu immediately stood at attention and saluted when he saw song Zhengping and the others enter. Song Zhengping nodded slightly and walked to elder song's bed. Song Rui quickly followed. Song Zhengping's eyes reddened when he saw his father's Haggard face. He stood quietly by the bed and stared at elder song. Song Rui stood there obediently as well. The others stood quietly at the side, not bothering song Zhengping. After a long while, song Zhengping slowly reached out and gently touched elder song's wrinkled forehead. He tidied up a lock of hair for him, then straightened up and gently wiped the corner of his eye. "Let my father rest!" Song Zhengping said. Let's go out and talk. " They went to the doctor's lounge next door. Song Zhengping sat in the middle of the sofa and asked, ""Manager Lu, why don't I see Xiao Liang and the others? Why isn't there a single nurse in my father's ward? Tell me, what happened?" Song Zhengping had long noticed that the atmosphere was a little off, but it wasn't convenient for him to ask in elder song's room. Manager Lu and Tian Huilan looked at each other. In the end, manager Lu said, ""Chief Judge song, regarding this matter ... I have to reflect on it first. Director Liang from the medical group has been temporarily detained by the people I sent. He's in the big conference room on the first floor ..." "Oh?" Song Zhengping raised his eyebrows and looked at Xia ruofei thoughtfully. Then, he asked, "what's going on?" Song Rui, who was at the side, could not help but ask, ""Uncle Lu, is second Liang up to something again? That guy is really digging his own grave!" Song Rui and Liang Haitao both grew up in Beijing. They were both part of the third generation of the red generation. They saw each

other often in the circle and could be said to know each other quite well. Liang Haitao was second in his family and people in the circle usually called him second young master Liang. However, song Rui and Liang Haitao had never really gotten along, so he always called him second Liang. Song Zhengping frowned and turned to look at song Rui sternly. Song Rui immediately shrank his neck and stopped talking. "Big brother song," Tian Huilan said, "this matter actually has something to do with me. "I heard that elder song is in a critical condition. I also know that Xiao Xia's medical skills are good, especially for some difficult diseases, so I decided to bring him here to check on elder song and see if there's any way to treat him ..." "Thank you, Huilan," song Zhengping said, nodding. "I thank you on behalf of my family and my father!" "Big brother song, you're too polite." Tian Huilan said with a smile. Song Zhengping was a little confused. "But this is a good thing! Manager Lu, why did you ..." Manager Lu smiled bitterly. "Director Liang doesn't like others to interfere in Medical Affairs. Moreover, Dr. Xia is a Chinese medicine doctor. Director Liang...Has some prejudice against Chinese medicine. So when I asked Dr. Xia to come for a consultation, director Liang flatly refused." Manager Lu paused and observed song Zhengping's expression before continuing, "Then, the chief's condition suddenly worsened. Director Liang performed an emergency rescue and stabilized the situation for the time being. It was also at that time that he judged that the chief might ... Not be able to hold on for much longer, so he asked me to rush you guys again ..." Then, manager Lu told song Zhengping everything about elder song's second sharp decline in vital signs, Liang Haitao's decision to give up on emergency treatment, Xia ruofei's entry into the ward, their conflict, and how Xia ruofei successfully used the Chinese medicine that she had prepared in advance to stabilize and improve elder song's condition. Song Zhengping listened very carefully. When he heard manager Lu say that Liang Haitao had given up on saving himself and even stopped Xia ruofei from making a last – ditch attempt, his face couldn't help but darken. Song Zhengping snorted coldly, "this Xiao Liang is really messing around!" He still wanted to suppress Chinese medicine at that time? He was already at his wit's end, yet he didn't allow others to try? It seems that things have been going too smoothly for the Liang family recently. Even a junior dares to be so overbearing!" The song family's influence was much greater than the Liang family's. The three brothers of the song family had already grown their wings, especially song Zhengping, who was already a governor of a region. They already had enough strength to support this huge family. Therefore, even though elder song had died this time, the song family's overall strength was still not to be underestimated. They were still a level higher than the Liang family. The murderous intent in song Zhengping's words made manager Lu break out in cold sweat for Liang Haitao. It was obvious that song Zhengping was going to give the Liang family a good beating. As the instigator of this incident, Liang Haitao would probably be in for a rough time when he got back. At this time, song Rui couldn't help but stand up and say angrily, "He even dares to delay my grandfather's life! This second Liang was too gutsy! Uncle Lu, that grandson is on the first floor, right? Find someone to bring me there, I'll beat him to death!"

Chapter 220: Official Healing_1

Song Zhengping turned his head and glanced at song Rui. Then, he asked indifferently, "Who do you want to kill?" Song Rui, who was just rubbing his hands in anger, immediately cowered. He smiled embarrassedly and said, "No, no, no, I'm just joking ... You guys can talk, you guys can talk ..." It was obvious that song Zhengping was a strict father. When song Rui saw him, he was like a mouse seeing a cat. He didn't have the aura of a rich third generation heir at all. Song Zhengping glared at song Rui, then turned to manager Lu and said, "Old Lu, I have to thank you this time! If it wasn't for your persistence and decisiveness, I'm afraid I wouldn't even be able to see my father one last time, not to mention that

his condition might have taken a turn for the better. " Song Zhengping was touched when he heard the entire process. Manager Lu and Tian Huilan had both taken a huge political risk to do this, especially when the person in charge of the medical group was a descendant of a family. It was a near – Death situation for the two of them, but they still did it without hesitation. He knew very well that when manager Lu made the decision, he had completely put his personal political life out of his mind. The only thing on his mind was elder song's condition. The song family had to remember this favor. "Chief Judge song, it's my job to do my best to provide the chief with all the services. You don't have to be so polite." Manager Lu was a little flattered. Song Zhengping smiled kindly. Manager Lu had been by his father's side for more than ten years, so they were already half family. After this incident, manager Lu's position in song Zhengping's heart had clearly become even closer. Then, song Zhengping said to Tian Huilan and Xia ruofei, ""Huilan, doctor Xia, it's all thanks to you guys this time! Otherwise, I'm afraid I won't even be able to see my father one last time. That will be my lifelong regret! No matter what the result of the treatment is, I have to thank you!" "Big brother song, you're being too polite." Tian Huilan smiled and said, "isn't it my duty to do something for elder song's health?" "Chief Judge song, I'll do my best," Xia ruofei said. The medicine used before was to ensure that the Bureau chief's vital signs are stable. I've already listed a few prescriptions, and staff officer Xu is rushing to Hongzhou to buy Chinese medicine. When he comes back, I can start the official treatment. I believe it will be effective!" "Go to Hongzhou?" Song Zhengping looked at manager Lu in confusion. "Chief Judge song, I didn't have time to report to you just now," director Lu said awkwardly. "This ... Director Liang is in charge of the medical work. All the equipment and medicine were transported from Beijing with the medical team by air, so there is no reserve of Chinese medicinal herbs and related equipment ... But I have asked Xu Wu to coordinate with the land aviation side. He will take a helicopter to Hongzhou to buy medicine, and he should be back soon!" Song Zhengping's expression turned even uglier. "This Xiao Liang, he's really a failure! Later, I'll ask the comrades in the central Health Bureau how they choose the medical team! This Liang is obviously not up to the task!" In fact, song Zhengping had said this out of anger. To be honest, Liang Haitao's professional quality in Western medicine was definitely not a problem. He was completely qualified to be the leader of the medical team. To be honest, even if it was anyone else, they wouldn't be able to save elder song. Liang Haitao's mistake was that he was too headstrong, especially when he stopped Xia ruofei from making the last effort. This had already crossed the line with song Zhengping. From the family's point of view, he was not taking the patient's life seriously! He was not capable of treating the patient and had already given up. Yet, he refused to let others try and had to watch the patient die. How could he be qualified for such an important position as the leader of the medical team with such character? "Chief Judge song, what about director Liang ..." Director Lu gave song Zhengping a questioning look as he spoke. Song Zhengping waved his hand and said, "don't worry about them. Just lock them up!" I'll settle this with him later!" "Alright," he said. Manager Lu nodded with a smile in his eyes. Manager Lu was relieved. Song Zhengping's attitude was clear. Even if the effect of Xia ruofei's treatment was average, at least he had taken control of the medical group and supported Xia ruofei. It was a very correct and decisive decision. He had not made any mistakes! After song Zhengping understood the situation, he expressed his gratitude to Xia ruofei. He had been traveling non – stop and was already exhausted, so manager Lu quickly arranged a room for the father and son to rest. Manager Lu had also arranged accommodations for Tian Huilan and her Secretary, Xiao, and told them to rest separately. Xia ruofei took the doctor's resting room. There was a quiet inner room, an office and a guest area outside. It was the closest to elder song's room. If anything happened, he would be able to deal with it immediately. They waited for about an hour before they finally heard the faint sound of a

helicopter in the distance. However, it was impossible for the helicopter to land directly next to the small courtyard, so it would take more than ten minutes for Xu Wu to arrive. During this period, elder song's vital signs had been quite stable. His various indicators had risen a little compared to the second time he had taken the petal solution. Manager Lu went in to check a few times and finally felt more at ease. Before Xu Wu could rush back, Xia ruofei came to elder song's room again. He took his pulse and checked his health. Xia ruofei had to save the life of this legendary chief, but he did not want to expose his secret. Naturally, it would be more troublesome. Manager Lu looked at Xia ruofei nervously. After Xia ruofei finished the examination, he stood up and said, "I know what to do, manager Lu. Please ask someone to bring all the herbs and boiling equipment that Xu Wu bought to my room. I'm going to brew the first dose of Chinese medicine for the chief right away. This dose is very important and will affect the subsequent treatment. No one is allowed to disturb me during this period!" "Alright, alright!" Manager Lu said, "don't worry, I'll personally guard the door!" Soon, Xu Wu returned, covered in dust. A few soldiers carried a large box and quickly followed him. The box was carried to Xia ruofei's room. There was a set of claypot, stove, and even a lot of charcoal. All the Chinese medicinal herbs were packed separately, and each packet had the name of the medicinal herb on it. Xia ruofei nodded in satisfaction. Seeing this, manager Lu immediately started to clear the area and asked everyone to leave immediately. He closed the door from the outside and then personally stood guard outside. Xia ruofei started to get busy. Thinking about how he was going to save the life of the idol of countless soldiers and a legendary general, he couldn't help but feel excited. At this moment, he had completely thrown all the utilitarian thoughts he had before his departure to the back of his mind ...
