

God tier Farm 2121

Chapter 2121 Everything is in place (2)

"Randomly playing the zither!" Xia ruofei said, "the weather is so cold. How can we sleep in the wild?" I'll talk to the jianda group. Isn't there a mobile building at the construction site next door? Let them help us build the smallest sized temporary house next to this place. Anyway, this place is still very empty!"

"Chairman, there's no need to go through so much trouble. It's only a matter of one or two months ..." Cao tieshu said.

"One or two months is not one or two days. How can there be no shelter at all?" Xia ruofei said, "there is a lot of rain in the winter in the three mountains. Where are you going to hide if it rains? Alright, this matter is settled!"

Cao tieshu also knew that he had not considered this carefully. He did not dare to say anything more, only repeatedly expressing his thanks.

Xia ruofei immediately gave Liang Weimin a call. Liang Weimin naturally wouldn't object to such a small matter and immediately made arrangements.

Now, the peach blossom company's basic infrastructure projects were basically handed over to jianda group. Liang Weimin had always placed Xia ruofei's matters as the top priority. Not only did he ensure quality and quantity, but he was also very efficient.

Currently, the construction of the pharmaceutical factory and the expansion of the farm were also under the responsibility of jianda group. The construction site was not far away.

Therefore, after a while, a truck drove into the farm, and the workers came with a mobile house. The familiar workers built a single – story house in a short time, and they even connected electricity from the nearby cold storage.

Xia ruofei went in to take a look. Although the room was not big, it was not a problem to put two single beds in it. Moreover, it was well sealed. At least it would not be exposed to the wind and rain. The most important thing was that after the electricity was connected, the cold and air conditioner that had been installed together with the house came in handy. After the heater was turned on, the inside of the iron House was as warm as spring.

Xia ruofei nodded in satisfaction.

He encouraged Cao tieshu with a few words, and then asked, "Big brother Cao, I will send the young goose over in three days. Do you have any problems with the time?"

"Three days is enough!" Cao tieshu did not hesitate to say, "Chairman, I think two days is enough ..."

Xia ruofei smiled and said, "it's not on this day!" Didn't you say that we have to wait until the cement of the water channel has dried up?"

"Alright then! Then you can bring the young goose here three days later! There won't be any problems here!" Cao tieshu said.

“MMH! By the way, the pharmaceutical factory will be producing a batch of Chinese medicine today. It’s needed to breed the Strasburg goose. After you’ve received it, store it in our cold storage.” Xia ruofei said.

“Alright!” Cao tieshu replied.

“I’ll tell you in detail how to use it and what you need to pay attention to during the breeding process in three days.” Xia ruofei said, “by the way, go and purchase a batch of cornmeal in advance these two days. This is also for the goose. We’ll prepare it in advance.”

“Okay, Chairman, don’t worry! I’ll remember it all!” Cao tieshu said.

“Alright, you guys go ahead. I’ll go back first!” Xia ruofei said.

.....

After distributing these tasks, Xia ruofei was finally free from these administrative tasks. He had been living in the villa in the city for the past two days. After all, it was quite troublesome to travel back and forth every day.

After Ling Xiaotian returned, Ling Qingxue could no longer stay over at Xia ruofei’s place. Although Ling Xiaotian did not mind, as a girl, Ling Qingxue was rather embarrassed. Moreover, she could not bring herself to leave her father alone at home while she went to spend the night with her boyfriend.

But even so, because the two families were very close, Ling Qingxue still had many opportunities to be with Xia ruofei.

After dinner, he strolled a few steps and arrived at Xia ruofei’s place.

Furthermore, Xia ruofei’s dinner had been settled at Ling Xiaotian’s place for the past two days. Wasn’t it normal for the young couple to go out for a walk after dinner?

Hence, Xia ruofei finally had nowhere to vent his energy. Besides, the two of them had time to cultivate together. With the help of the time array flag, even an hour was enough for them to cultivate in the array for two to three days.

Ling Qingxue’s cultivation was improving steadily, and everything was developing in a good direction.

Feng Jing’s Villa was already under renovation. The designers of jianda group worked through the night to communicate with Feng Jing, and the design plan was quickly approved by her.

After that, it was time for the renovation team to enter the site for construction.

Feng Jing trusted jianda Group A lot, so she left all the renovation to them. She basically didn’t need to be on – site to supervise the work. She just came over every day after work to check on the progress, and at the same time, she started to order the necessary furniture, household appliances, and daily necessities online.

Shi Qiang quickly got Xia ruofei’s yacht driver’s license. It looked like a car driver’s license, but it was only valid for five years. After that, he would have to take the test again.

However, the azmu yacht was still in the process of being modified. After Xia ruofei got the yacht, according to the agreement between the two parties, he chose about 500000 Yuan worth of equipment to be replaced and installed by the Yacht Club.

Hence, Xia ruofei had not had the chance to personally drive the yacht out to sea.

On the third day, after Xia ruofei woke up, he drove straight to Ling Qingxue's house and had breakfast with the father and daughter.

Then, he drove Ling Qingxue to work.

The past two days had basically been like this. Ling Xiaotian was now in a semi – Retired state, so he would not go to the company every day. Even if he did, he would not go so early. Ling Qingxue, on the other hand, had taken up most of the responsibility of the company. Unless there were special circumstances, she would always come to work on time.

The two of them did not go out together. In the past, Ling Qingxue would usually drive herself. Now that Xia ruofei had moved in, he was basically in charge of sending and sending her.

Xia ruofei did not find it troublesome at all. After all, he had not taken much care of Ling Qingxue before. Now that he had the opportunity to do more for her, he felt that it was only natural.

Of course, this was also because Xia ruofei always felt that he owed Ling Qingxue. Whether it was Song Wei's incident or Monica's incident, Xia ruofei always felt guilty and guilty.

After returning home from Ling Qingxue's company, Xia ruofei immediately took out the cage that contained the six Strasburg geese that he had prepared in the medium.

Then, he took all six cages to the villa's yard and put them there.

At around 10 O' clock, ye Lingyun drove the pickup truck from the farm to Xia ruofei's Villa.

"Brother Xia, your place was hard to find!" Ye linyun said with a smile.

Xia ruofei chuckled."We're familiar with each other. Now that we know the way, we should come here more often!"

"Alright!" Ye linyun said,"you don't live on the farm much now, so we don't have many chances to meet ..."

Ye Lingyun was now basically devoted to the tea – making business. Lei Hu was mainly in charge of the security Department. He rarely went to the company's headquarters in the city and spent most of his time in the employees 'apartment on the farm.

After the headquarters moved, the staff apartments were no longer so tight. Ye Lingyun could enjoy the treatment of having two rooms and one living room by himself.

Xia ruofei laughed."You should also bring a few disciples out soon. I don't want my right – hand man to be tied up in tea – making all day long. You still have to come to the headquarters to take up a position in the future!"

"I know, brother Xia!" Ye Lingyun smiled and said,"Oh right, these are the cages!"

“Mm! Load them all into the car, and then we’ll go back home!” Xia ruofei said.

“Alright!” Ye Lingyun quickly put the cages into the back of the pickup truck, then carefully secured them with straps.

Then, Xia ruofei drove his off – Road vehicle and ye Lingyun drove his pickup truck. The two cars drove out of the villa district One after the other and sped in the direction of the peach Garden Farm.

Chapter 2122 Keeping people by heart (1)

tao yuan farm, under the hillside of the orchard.

ye lingyun unloaded the cage from the pickup truck. cao tieshu was already waiting there with a few workers. they quickly came to help when they saw the situation.

cao tieshu took the two cages, and the two workers he brought also took the two cages from ye lingyun.

“xiao liu zi, slow down! This thing is precious!” Cao tieshu saw that a worker was so impatient that he almost tripped, and quickly reminded him.

He led the workers to carefully take the 6 Strasburg geese out of the cage and placed them in the new Goose House. Then, he jogged to Xia ruofei.

“Chairman!” Cao tieshu smiled as he greeted him.

Xia ruofei smiled and nodded at Cao tieshu, saying, “Brother Cao, not bad! You’re very efficient, this place has been completely renewed!”

Although this area was not big, it looked very clean and neat. It was surrounded by a bamboo fence. The goose House near the hillside was about half a meter above the ground, and it still maintained the original color of bamboo. The green Goose House was refreshing. Not far from the goose House was a newly dug pond. A lot of green grass was transplanted beside the pond, which were the most common kinds of grass in the countryside.

Of course, the Strasburg goose was still very small at the moment, so it was mainly fed.

“Hehe! “In fact, there’s not much work ...” Cao tieshu laughed, “don’t worry!” I’ll definitely take good care of these geese!”

“Alright!” Xia ruofei nodded and said, “I’ll tell you the things you need to pay attention to!”

“Alright, Chairman, let’s talk over here!” After Cao tieshu finished speaking, he led Xia ruofei to the wooden house next to the fence.

Xia ruofei walked in to take a look. The place had been tidied up. There was a single bed like those in the student dormitory on the left and right side of the window. The bedsheets and blankets had been laid out.

In the remaining space of the mobile temporary house, there were bags of cornmeal.

“Chairman, we bought quite a lot of cornmeal this time. This is only a portion. The rest is in our warehouse,” Cao tieshu said with a smile.

“Not bad, not bad!” Xia ruofei said, “the main food for the Strasburg goose is cornmeal and the batch of Chinese medicine from the manufacturer ...”

Xia ruofei explained the key points of feeding Cao tieshu one by one, including the feeding frequency, the ratio of Chinese medicine to cornmeal, and other things to take note of.

Cao tieshu was also very serious. He took down everything that Xia ruofei had said and even repeated it to Xia ruofei.

Xia ruofei smiled and said, “that’s about it. Brother Cao, don’t be too nervous. Just treat it as a normal goose.” How many people in the countryside had never raised a goose? It’s not difficult at all!”

Cao tieshu laughed and said, “that won’t do!” The geese in the countryside could be reared freely, but these geese were precious! That was a foreign goose that was specially imported from abroad! If I don’t take good care of them, I won’t have the face to work here anymore!”

“It’s not that bad ...” Xia ruofei said, “just follow the instructions I gave you. Feed them on time every day and pay attention to them. Don’t get sick. That’s all!”

“Alright, I got it!” Cao tieshu said, “Chairman, I’ve already arranged the manpower. Xiao liuzi, who was moving things with me just now, is also from the same village as me. Although this kid is a little rash when doing things, he is a proper graduate of an agricultural school. It’s just that it is difficult to find a job after graduating from secondary school. It has been half a year since he graduated, and he has not had any serious work to do. So, I brought him here to give it a try.”

Xia ruofei nodded and said, “sure!” Just treat it as an internship here! He would be put on probation and his salary would be 70% of that of a regular worker. The next step is to start the breeding of goose in Strasburg, and we need a lot of manpower in this area. If the young man’s work is good, we’ll officially hire him. ”

“Chairman, there’s no need for the salary, just food will do!” Cao tieshu quickly said. He’s been idle at home, and now he has the opportunity to work in our company, which is already very good!”

Xia ruofei smiled and said, “since he’s working, of course he has to be paid!” However, whether he could become a full – time employee or not would still depend on his own performance. Big brother Cao, it’s settled then. Remember to report to the company that the finance department wants to make a salary statement. ”

“Okay, okay, then I’ll thank you on behalf of Xiao liuzi!” Cao tieshu said happily.

They were all from the same village, so they were more or less related. Xiao liuzi was Cao tieshu’s distant nephew. When he had just graduated from secondary school in June and July, Xiao liuzi’s family had asked Cao tieshu for help, hoping to bring their son into the Tao Yuan company to work.

Now, the living conditions of the villagers who worked for the Paradise company were obviously much better than others. Their high income also made everyone very envious.

However, the farm had been well – staffed for the past six months. Although Cao tieshu was the person in charge of the farm, he could not simply put in people. Xia ruofei trusted him so much. He was also extremely loyal to the company and would not do anything that would harm the company’s interests.

This time, Xia ruofei wanted to develop the breeding of Strasburg geese. Coincidentally, Xiao liuzi had graduated from an agricultural school, so Cao tieshu wanted him to work here first. When the large – scale breeding began, he could arrange for him to work here.

Chapter 2123 Tying the heart and keeping the person (2)

He did not expect Xia ruofei to be so forthright. Not only did he agree to it, but from now on, it would also be Xiao liuzi's trial period. This made Cao tieshu pleasantly surprised, but he was also very touched. He knew that Xia ruofei had absolute trust in him, and he also reminded himself that he must not betray Xia ruofei's trust.

After sending Xia ruofei off, Cao tieshu walked to the side of the fence of the goose House.

The workers who helped had already returned to the vegetable greenhouse. Xiao Liu Zi was standing by the goose House and looking curiously at the Strasburg geese inside, as if he wanted to see how they were different from the geese raised in the countryside.

"Little six, come here!" Cao tieshu shouted.

Xiao liuzi quickly ran over and said, "Uncle tie Shu, you were looking for me?"

Cao tieshu cleared his throat and said, "Xiao Liu Zi, I just mentioned your matter to the boss ..."

"Did the boss agree to it?" Xiao liuzi asked nervously.

He had been unemployed at home for the past six months. When he had just graduated, he had worked in a nearby factory for a while, but it had nothing to do with his profession. Every day, he had to work on the production line. Because he was not skilled, his salary was low, and he soon wanted to quit. Later on, he would occasionally work part – time at home, but he basically didn't have much income, so he was very concerned about this job.

Cao tieshu looked at Xiao liuzi and said, "With your uncle tie Shu taking action, how could the boss not give him face?"

"He's agreed!" Xiao liuzi's face was full of anticipation.

"En!" Cao tieshu nodded his head and said, "the boss said that this period of time will be considered your probation period. If you do well, you can become a regular employee. By then, the farm will have a large breeding farm and you will have to raise at least a few thousand geese. Then, you can start working at the farm!"

"That's great! Thank you, uncle tie Shu!" Xiao liuzi was so happy that he almost jumped up.

"I'm not done yet!" Cao tieshu said. This child, you're so impetuous! He had to change this bad habit! Otherwise, you won't be able to do your job well!"

Cao tieshu was no longer the honest farmer he was before. Now, he had the dignity of a leader. His face turned serious, and Xiao liuzi quickly said, "I understand, uncle tie Shu!"

Cao tieshu nodded and said, "The boss said that during the probationary period, you'll be paid 70% of the salary of a regular new employee on the farm."

Xiao liuzi was stunned. He asked with his eyes wide open, ""Ah? There's also my salary!"

"What are you saying! You're working here, can I not pay you?" Cao tieshu slightly raised his head and said, "does our boss look like someone who lacks money?"

"That's right, that's right ..." Xiao liuzi quickly smiled apologetically and then asked, "uncle tie Shu, then ... Seventy percent ... How much is that?"

Cao tieshu cleared his throat and said, "I'm not too sure about the exact standard, but ... It should be around 4000 Yuan!"

"So many!" Xiao liuzi immediately cried out, "uncle tie Shu, you're not joking with me, are you?"

Cao tieshu's eyes widened and he said, "When have I ever joked with you? Was 4,000 a lot? Which official worker on our farm has a lower salary than this? Xiao liuzi, I'm telling you, our company now has a tiered salary. The salary for new employees is low, and you only get 70%, so it's only 4000 Yuan. You have to work hard, and you'll get much more when you become a full – time employee! Furthermore, the year – end bonus would be a huge sum. In the future, when his salary was raised, he would get even more money! If you win the title of "outstanding employee," your salary will be directly increased by one level!"

Xiao liuzi was fascinated and couldn't help but ask, ""Uncle tie Shu, then ... Then how much is your current salary?"

"I'm an old employee, so my salary is relatively high," Cao tieshu said in a reserved manner. "I also have a management bonus. You don't have to ask me how much it is. In any case, it's not lower than the county head's salary!"

The division leaders in San Shan only received about seven to eight thousand Yuan a month. However, civil servants received a spiritual civilization award at the end of the year. In addition to the high Housing Fund and car allowance, their actual annual income was about two hundred thousand Yuan.

As the person in charge of the farm, Cao tieshu's income was indeed higher than that of the county Head.

Xiao liuzi couldn't help but open his mouth wide when he heard this. To them, the county Head was a very high official. Cao tieshu, who was in charge of a farm, actually received more than the county Head. This was simply like a fantasy.

However, Xiao liuzi did not doubt Cao tieshu's words. After all, a probationary intern was given more than 4000 Yuan. There was still a huge difference between an intern and a farm manager!

Cao tieshu said again, "Xiao liuzi, you have to do a good job!" If you don't perform well and can't become a permanent employee, you won't just be embarrassing yourself. I recommended you and picked you up, so I'll also be embarrassing you!"

Xiao liuzi quickly patted his chest and said, ""Uncle tie Shu, don't worry! I will definitely perform well! Just wait and see! I'll move the things over today, and I'll be living on the farm for the next two months!"

"That's not necessary, we can just take turns to keep watch ..." Cao tieshu said with a smile.

"It's fine, it's fine! I'll be idle at home, so I might as well do more!" Xiao liuzi said, "uncle tie Shu, you have to manage the entire farm, so you can't keep an eye on this place all day long. If I stay here, I can share your burden!"

Cao tieshu nodded and said, "that's fine!" By the way, the boss just told me some things to pay attention to when raising geese. Come with me, I'll tell you ..."

"Alright ..." Xiao liuzi hurriedly followed Cao tieshu into the mobile home.

.....

Xia ruofei didn't know that his small decision had made Xiao liuzi so excited that he was completely devoted to the small farm.

In fact, he had never been stingy with his employees. As long as his employees were loyal and treated the company as their own career, he would not have to worry about them.

As for the extra manpower cost, it was nothing compared to the huge profits of the company.

Take the farm as an example, it was nothing to pay a few tens of thousands of Yuan a month. Perhaps a complete Strasburg foie gras was enough to pay the salary of several workers.

After Xia ruofei had arranged his work, he did not return to the city. Instead, he went to his bedroom in the small villa, locked the door and windows, and entered the spirit map space.

There were still a lot of materials from the last batch of materials for making the spiritual puppet. He finally had some free time today, so he planned to use this opportunity to process as many as possible.

In the afternoon, Xia ruofei did not leave the origin space. He only stopped to eat some fruits before continuing his work. While he was building the orchard, Xia ruofei had also planted a few fruit trees in the Archean realm. For such a long time, Xia Qing would harvest the fruits every time they ripened, so there were quite a few cherries and lychees in the origin space.

The fruits grown in the spirit map space tasted much better than the fruits in the orchard outside. It was truly a mouth – watering experience.

With Xia ruofei's current cultivation, it was fine even if he did not eat a few meals. He just had to maintain a regular routine and eat a few fruits.

He worked for more than ten hours.

Xia ruofei felt a sense of achievement as he looked at the array runes and the materials that were polished into various shapes.

If he had the time to process some every day, he estimated that he would be able to process all the materials he could in two weeks at most.

The next step was to combine these materials.

Of course, Xia ruofei's current cultivation was not enough to assemble a complete soul puppet. According to Xia Qing, it was mainly because his spiritual power cultivation was not enough. In the

process of assembling, it was not a simple combination of materials. The most important thing was to fuse the array together seamlessly, which required a very high level of spiritual power.

Especially the core formation of the spiritual puppet. It was the most complicated formation that Xia ruofei had ever seen. He could not even process the few materials that made up the formation, let alone successfully assembling it.

Xia ruofei looked at the time. It was already one or two o'clock. He felt that his spiritual energy was getting depleted, so he stopped what he was doing.

Just as he was about to leave the medium and go to the outside world to rest, a white light flashed before his eyes. The White realm Fox suddenly appeared in front of him.

Chapter 2124 The abnormal realm Fox (1)

During this period of time, Xia ruofei had entered and exited the spirit map space many times. However, this little guy was always hiding in the various space nodes to comprehend the spatial rules tirelessly and had no time to bother with Xia ruofei. This time, it came out on its own, and Xia ruofei was a little curious.

He chuckled as he greeted the white fox and said, "Little guy, what's the matter?"

The White realmfox supported itself on its two feet and waved its front claws at Xia ruofei while squeaking.

Xia ruofei had spent some time with the White realmfox and could roughly guess what it was trying to convey through its body language.

Xia ruofei thought for a while and asked with a smile, "You're saying that you're very hungry and want to eat World stones?"

The White realmfox nodded.

Xia ruofei smiled and shrugged. "But according to our agreement, you have to help me find the world stone before I can give you a share!"

Back then, he had kept the three world stones in the spirit map's space. He was not in a hurry to let the space absorb the Suan ni since there was no way to upgrade the space after absorbing it. Instead, he had left them in the space. The White world Fox could see them but not eat them. This gave it some motivation to work hard with him to find more world stones.

The White realmfox squeaked and gestured with its forelimbs. It meant that Xia ruofei had not gone out to travel during this period of time. Even if it wanted to find a realm stone, it had no way.

Xia ruofei thought for a while and said, "You're right. I'm really busy these days. But you have to bear with it." I'll take you out in a few days, and you can use your senses to sense it. "

The White realmfox had a bitter expression on its face. It rubbed its stomach as it lay down, made a kicking motion, and then lay motionless on its back.

Xia ruofei couldn't help but laugh. This little fellow's body language was quite vivid. It was clearly saying that if there were no more world stones, it would starve to death.

However, Xia ruofei would not easily believe the words of the strange white fox.

Moreover, this little fellow looked very lively. How did it look like it was about to die from hunger?

Even though it had not eaten a world stone for a long time, it was definitely not so serious that it would starve to death.

On the contrary, Xia ruofei was worried that once he gave it a world stone, it would not have the motivation to find more after eating it.

After all, this little fellow seemed to be able to go without eating for a long time after eating a world stone once.

Now that it had taken the initiative to come out and ask for the world stone, it meant that it was really hungry. It was not easy for Xia ruofei to have a chance to control it, so how could he give it up so easily?

Thinking of this, Xia ruofei chuckled and said, "Alright, alright! Stop pretending! Quickly get up!"

The White realmfox rolled to its feet and looked at Xia ruofei indignantly, as if protesting that Xia ruofei had left her in the lurch.

Xia ruofei laughed and said, "little guy!" If you really want a world stone, then go and sense it properly in a few days. I promise you, I'll take you out for a walk in at most seven days. And if I really find something, even if it's just a world stone, I'll let you eat it first. Is that okay?"

Xia ruofei's plan was this: "the yacht should be ready in a few days. By then, I'll bring enough supplies and sail out to sea alone. It'll be a good way to relax. At the same time, I'll let the White realm Fox sense the realm stone. Who knows, there might be some new discoveries."

After all, a world stone was something that could only be encountered by luck. Running around the world to find it was similar to trying one's luck in the sea. The probability was actually about the same.

The White realmfox also realized that there was no point in acting pitiful. It could only nod its head in disgust, squeak, and leave in a flash.

In the spirit map space, Xia ruofei's senses had almost no blind spots. With a sweep of his mind, he "saw" that the White realmfox did not burrow into a spatial node to comprehend as usual. Instead, it found a soft patch of grass and lay down weakly, looking very tired.

Xia ruofei mumbled to himself, "it seems like this little guy is really hungry ... It should be fine after a few days, right?" You won't really starve to death, will you?"

He was a little uncertain and felt very strange. He was fine two days ago, why did he suddenly become so hungry?

Xia ruofei was still a little worried, so he sent a telepathic message to Xia Qing and asked, "Xia Qing, come over here for a moment!"

After Xia Qing received Xia ruofei's order, she immediately put down her work and appeared in front of Xia ruofei in a flash.

He bowed slightly and respectfully said, "Master!"

Xia ruofei asked, "the realm Fox doesn't seem to be in a good state of mind. It even took the initiative to ask me for realm stones. It said that it would starve to death if it didn't eat anything ... How did this happen?" Wasn't it still fine two days ago?"

"It's alright, master," said Xia Qing with a smile. "The life force of a realm Fox is very strong. It'll be fine."

"Do you know the reason?" Xia ruofei asked.

"Master, I'm guessing that it has made great progress in its comprehension of the spatial laws. Perhaps it's about to make a breakthrough," said Xia Qing after a moment of silence.

"Breakthrough?" Xia ruofei asked.

"That's right. After the realm Fox breaks through the bottleneck in its comprehension of the spatial rules, it will have a qualitative leap." Xia Qing explained, "energy is required for a breakthrough, and the main source of energy for a realm Fox is the realm stone."

Xia ruofei nodded. "No wonder ... Is it really okay with its current state?"

Chapter 2125 The abnormal realm Fox (2)

"It's fine!" Xia Qing said with a smile. I guess it's just that the energy of the world stones he ate has been exhausted, which is why he looks so listless. However, the life force of a world Fox is extremely strong. Even without any source of food, it can live for a long time. If it really can't, it can enter a state similar to hibernation like some animals. In this state, the body's energy consumption is very low, and it can hold on for a year and a half without a problem!"

Xia Qing paused for a moment before continuing. "I think it's just anxious to break through. That's why it let go of its restraint and came to ask master for the world stone. When it couldn't get it, it acted pitiful ..."

Hearing Xia Qing's words, Xia ruofei's heart settled and he said, "So that's how it is ... I was so soft – hearted that I almost gave it a world stone! Pay more attention to its condition. If the situation doesn't look good, let me know immediately!"

Xia ruofei felt that Xia Qing's analysis should be very close to the truth. He was also very happy in his heart. This way, the world Fox's need for the world stone would become even more urgent. It would definitely use 120% of its strength to sense the world stone and would definitely not hold back.

"Yes, master!" Xia Qing replied respectfully.

Xia ruofei nodded and left the spirit map space in a flash. He appeared in the bedroom outside.

Xia ruofei kept the painting in his palm and went to the bathroom to take a quick shower. He changed into his home clothes and took the time to rest.

.....

For the next few days, Xia ruofei basically lived in the villa in the city. However, he would come to the farm during the day to check on the condition of the six Strasburg geese.

In addition, the plan for the expansion and transformation of the farm was also being adjusted, and the design of the Strasburg goose farm was soon out.

Xia ruofei could also discuss the design with Xue Jinshan and the other designers at the farm and give suggestions for changes.

The entire breeding farm was designed to raise 2000 Strasburg geese. There was a spacious and beautiful aerial Goose House, a winding man-made stream and pond, and a large activity area.

In addition, according to Xia ruofei's request, there was a special area for breeding geese and a facility for hatching goose eggs.

Since he wanted to carry out large-scale breeding, he naturally had to form a continuous cycle. It was impossible to wait for a batch of geese to be slaughtered and take the foie gras before starting to raise the young geese again.

In the future, the farm would definitely have a fixed output every month or even every week.

Xia ruofei used these few days to finalize the revised design draft. The construction site also started to build vegetable greenhouses and farms according to the new plan.

Other than these things, Xia ruofei spent most of his time in the small farm villa, tirelessly processing the materials for refining the spiritual puppet.

Looking at the mountain of raw materials decreasing bit by bit, and the parts with various shapes and complicated array patterns increasing in number, Xia ruofei felt a strong sense of achievement.

Every day, at four or five o'clock, he would leave the spirit map space on time and drive to the Ling Ji restaurant headquarters in the city. He would be just in time to pick Ling Qingxue up from work.

Sometimes, the two of them would eat out directly, and sometimes, they would go back to have dinner with Ling Xiaotian. After dinner, they would "take a stroll" to Xia ruofei's Riverside Villa, or shamelessly roll around in the sheets to digest their food, or simply go to the spacious master bedroom to set up a time formation and cultivate.

It could be said that Xia ruofei's life was very regular.

In the past few days, Xia ruofei did not forget to pay attention to the white fox's condition.

The little guy's movements were getting less and less. He looked sickly and would sometimes lie on the ground for hours without moving.

If it wasn't for Xia Qing's assurance that the White realm Fox would not be in any danger, he would have given it a realm stone long ago.

After about six or seven days of this routine, Qin Lan from the Yacht Club called to tell Xia ruofei that his yacht had been completely modified and asked Xia ruofei to go over and check it.

Xia ruofei also wanted to go out to sea as soon as possible. After all, the White realm Fox's condition made him more or less worried.

However, Xia ruofei also knew that it would not be easy to find the world stone if he were to go out aimlessly. Fortunately, he still had three world stones from the last time. He could still use them in case of an emergency.

Although Xia ruofei was not friendly to the white fox, they had gone through thick and thin together. If the little one's life was in danger, Xia ruofei would not be indifferent.

Hence, after Xia ruofei received the call, he immediately drove to the dock of the Yacht Club.

The modified yacht was already quietly moored at the dock.

The exterior didn't look any different from before. Of course, there weren't many changes internally either. Using 500000 Yuan on the yacht wouldn't be able to do much.

Xia ruofei mainly changed the jacuzzi and upgraded the stereo system in the cabin to 7.1 channels. Just this set of stereo equipment alone cost nearly 300000 Yuan. With a few other minor changes, the 500000 Yuan quota was used up. Xia ruofei still had to pay another 20000 to 30000 Yuan.

Accompanied by Qin Lan, he came to the yacht mainly to check the refitted parts.

The sound effects were much better after the modification. The melodious music seemed to be in every corner of the cabin, with a clear sense of layering. The bass effect was simply shocking.

He could imagine the yacht bobbing up and down on the blue ocean. All he could see was the endless ocean, as if he was the only one left in the world. Then, he lay on the deck and looked up at the sky, the beautiful melody echoing in his ears ...

The feeling of being completely relaxed and free made Xia ruofei yearn for it.

Xia ruofei had even specially released the restrictions so that the white fox could sense the situation outside.

The little fellow already knew that Xia ruofei was going to bring it out to sea in the next few days. Now that it saw Xia ruofei on a beautiful "big ship", it was instantly excited and gestured for Xia ruofei to set sail quickly.

Xia ruofei said to the realm Fox telepathically, "Little fellow, don't be anxious! We still need to do some preparation work before going out to sea. We'll definitely be able to set off in a day or two, so just bear with it for now!"

The White realmfox pouted in disappointment and fell back to the ground.

Xia ruofei checked the yacht and was very satisfied with the modifications. He signed his name on the form without hesitation.

From that moment on, the registered "paradise" was officially handed over to Xia ruofei.

However, it would still stop here.

This was the exclusive berth of the peach Garden. In order to facilitate this deal, the Yacht Club had given the right to use the berth for three years, two years of free maintenance, and two years of management fee exemption. Now, the peach Garden could use these resources of the Yacht Club for free.

After signing, Xia ruofei said to Qin Lan, ""Manager Qin, please arrange for someone to fill up the yacht! I might have to go out to sea in two days ..."

"Alright!" "Yes," Qin Lan replied. Ma Shan then asked in surprise, "Mr. Xia, are you sure you want to fill it up?" The yacht's fuel tank was relatively large, and it could hold several tons of fuel! It's not cheap to fill them all up ... If you're only going for offshore navigation, I suggest adding a part ..."

For a medium – sized or large yacht like this, a full tank would cost at least 100000 to 200000 Yuan. Even rich people might not do this.

Xia ruofei smiled and said, "it's okay, I'll fill them all up!" I'll transfer the fee to you in advance!"

The customer's needs came first. Qin Lan had already reminded him. Seeing that Xia ruofei was insistent, she naturally did not say anything more. She just nodded and said, ""Okay, I'll arrange for someone to come over in the afternoon to cheer for us!"

In fact, even if he filled up the fuel, Xia ruofei might not be satisfied with the flight. Not only did he have to fill up the fuel tank, but he also wanted to bring more diesel in the space to increase the range.

Chapter 2126 Full preparation_1

Sufficient preparation

"If it's convenient to arrange, why don't we fill up the gas now?" Xia ruofei said to Qin Lan.

As there was still some diesel left in the tank, they did not know how much to add to fill it up. Although the Yacht Club would not play tricks on things like refueling, Xia ruofei felt that it was better to personally watch. Besides, he paid the money on the spot so that everyone could rest assured.

"Mr. Xia," Qin Lan said, "if we want to refuel, we'll need to drive the yacht to a special berth. If we want to find a temporary yacht pilot, it might take some time."

Qin Lan considered that Xia ruofei's time was precious, so she said that they would go to refuel in the afternoon. After all, the yacht's pilot had been assigned in advance and was not always available. If they needed to refuel immediately, Xia ruofei would have to wait here.

Xia ruofei laughed. "Manager Qin, you just need to contact the people who will refuel the yacht. I can drive the yacht there myself."

"Ah?" Qin Lan was shocked and said, "Mr. Xia, this is not a joke. You need to be qualified to drive a yacht. The punishment for driving a yacht without a license is very heavy!"

Xia ruofei chuckled and put his hand into the inner pocket of his coat. Of course, he was actually taking out his yacht driving license from the spirit map space. He then handed it to Qin Lan and said, ""Manager Qin, I have a certificate!"

Qin Lan was a little confused. She took Xia ruofei's yacht driving license subconsciously and opened it to take a look. She realized that the witness was really Xia ruofei.

She did not doubt the authenticity of the certificate, but she was surprised that a rich man like Xia ruofei would spend time learning how to drive a yacht. Weren't they the kind of people who could earn hundreds of thousands every minute?

Those who had the money to buy a yacht would usually hire professional pilots and sailors. For a yacht like Xia ruofei's, there would only be one pilot and two sailors. At most, two service staff would be enough. These people's salaries added up would not be much!

However, these thoughts only flashed through Qin Lan's mind. She quickly came back to her senses and returned the license to Xia ruofei. "I'm sorry, Mr. Xia. I didn't mean to doubt you. I just didn't expect you to have a yacht driver's license ..."

"I'm fine!" Xia ruofei smiled and said, "manager Qin, can we go and do our best?"

"Of course!" Qin Lan said, "I'll contact them now!"

Qin Lan took out her phone and dialed a number. After the call was connected, she hung up after saying a few words. Then, she said to Xia ruofei, "Mr. Xia, our staff is already making preparations. You can start the yacht and I'll show you the direction."

Xia ruofei nodded and said, "let's go to the bridge!" The view is better there!"

The flying bridge deck was located at the top of the yacht. It was the most open deck on the yacht, and its position was 'noble' with a wide view.

The azmu 100 Leonardo's flying bridge was 11 meters long. At the forefront of the deck was a second pilot's zone. One could also drive the yacht from there as there was no windshield. The high position gave one a better view and allowed one to experience the feeling of being as fast as lightning.

In addition to the driving area, there was a lounge area on the deck of the flying bridge, a massage pool with sunbathing mats, a large sunbathing mat near the driver's seat, and a dining table for eight guests.

Although Qin Lan was a little afraid of the cold wind in this winter, she couldn't reject the customer's request. Besides, this place was not far from the refueling berth. She just had to bear with it and went to the Qingqing refueling dock, which was originally operated by the Yacht Club and was one of the club's basic facilities.

Qin Lan followed Xia ruofei to the deck of the flying bridge. Xia ruofei sat in the driver's seat and started the yacht. Qin Lan stood beside him and gave him directions at any time.

To be honest, Qin Lan was still a little uncertain. After all, every time Xia ruofei came to experience the yacht, it was always a professional yacht pilot. She had never seen Xia ruofei show that he knew how to drive a yacht!

However, the yacht started steadily and slowly left the berth. Qin Lan's heart also calmed down. She had been on various types of yachts and worked with different yacht drivers. One look at Xia ruofei's operation and she knew that he must know how to drive a yacht. That certificate was really not bought with money.

In fact, although the yacht driving license was not bought with money, Xia ruofei did not spend a minute in training or taking the exam. Shi Qiang helped him to get it.

Of course, when Xia ruofei was in the Army, he had received some quick training and mastered the basic operations. Then, he had studied the yacht pilot training materials and the operating manual provided by Shi Qiang very seriously. So, he was definitely able to drive the yacht with ease.

The yacht slowly moved forward and soon arrived at the berth for refueling.

Xia ruofei saw that there was a refueling station on the shore of the row of parking lots. It was equivalent to a gas station, but the object of refueling was the yacht in the water.

Xia ruofei had become more skilled after the previous operation. He controlled the yacht and docked it accurately.

There were already staff members waiting on the shore. They first took the cable to fix the yacht in the berth, then came over with a gas gun to refuel the yacht.

Chapter 2127 Full preparation (2)

The fuel tank of this yacht was about 11000 liters, and it was about 60000 Yuan to fill it up. However, there was still a surplus in the fuel tank, so Xia ruofei ended up paying about 50000 Yuan for the fuel.

Although it wasn't as much as 100000 or 200000 Yuan, this yacht was still too expensive for ordinary people.

After all, even if they filled up the oil, if they sailed a little further out to sea, they would probably use up most of the oil in a round trip.

After refueling, Xia ruofei drove the yacht back to his designated berth and parked it. Then, he got off the yacht.

Before driving away from the Yacht Club, Xia ruofei told Qin Lan that he would be going out on the yacht the day after tomorrow.

Of course, Xia ruofei was just making a casual remark. He did not need the Yacht Club to prepare a pilot or any other staff.

After leaving the Yacht Club, Xia ruofei contacted Liu Zhe.

It was mainly about the purchase of diesel. He thought that Liu Zhe's father was the leader of the state – owned assets Control Commission and should have more dealings with large state – owned enterprises like two barrels of oil. He should be able to buy diesel smoothly if he asked for his help.

After all, gas stations didn't sell diesel directly. They could only fill it up by driving. If they wanted to buy it in bulk, they usually went to the fuel depot, but the procedures were very troublesome and required the approval of many departments.

When Liu Zhe heard that Xia ruofei wanted to buy a batch of diesel wholesale, he did not ask why Xia ruofei wanted to buy diesel in detail. He immediately agreed and asked Xia ruofei how much he needed to buy.

Xia ruofei thought for a while and said, "if possible, about 100 tons!" Of course, if there are any difficulties, less is fine. "

The fuel tank capacity of his yacht was about ten tons. If he could store another 100 tons of diesel, it was equivalent to a tenfold increase in range. He could drive at least a few thousand nautical miles. If he used an economic speed, he could even go to Australia and back.

With such a long range, it was enough for him to gallop freely on the sea.

After Liu Zhe heard this, he smiled and said, "Since brother Xia has spoken, what can't I do? Moreover, 100 tons wasn't a lot. I'll help you with the relevant procedures, it'll be done in a day!"

"Thank you so much!" Xia ruofei smiled and said, "Oh right, I need to pack all this diesel in oil barrels and send it to the designated location for me. I'll pay for the oil barrels and the transportation fees."

"No problem!" Liu Zhe said, "I'll get them to store it in 200 L barrels!"

Xia ruofei calculated silently. The density of diesel was lower than that of water. One ton of diesel was about 1200 l, which meant that six barrels had to be filled. 100 tons would be about 600 barrels.

This kind of oil barrel could be stacked up to several levels, and his warehouse in the city could completely store it.

Hence, he said, "that's fine!" Liu Zhe, I'll send you the address in a moment. Tell them that I'll pay in cash and check. If they want to transfer the money, I can also transfer it to their account in advance. "

"Alright!" "Brother Xia, just wait for my news!" Liu Zhe said.

.....

Liu Zhe was very efficient. He called Xia ruofei in the afternoon and told him that the procedures were all done. He had also contacted the oil depot. 100 tons of diesel was only about 120000 liters. This amount of oil was not much for the fuel depot, and there was no need to mix the oil.

However, Xia ruofei had requested for them to be filled in the bucket, so it would take some time.

They would start loading the barrels at the oil depot this afternoon. With some overtime at night, they would be able to deliver the barrels to the warehouse that Xia ruofei had specified the next morning.

Xia ruofei was overjoyed and said, "thanks!" Liu Zhe, you've been a great help!"

"Brother Xia, this is a piece of cake for me," Liu Zhe said with a smile. "You don't have to be so polite ... By the way, I'll go with you tomorrow!"

"No need!" Xia ruofei said, "just give me the contact information of their team leader! I'll be there in advance to wait for them. "

"I don't have anything to do tomorrow anyway ..."

"There's really no need to go through so much trouble. You can just greet them. " Xia ruofei smiled and said, "and I might buy it more than once! I'll have to trouble you in the future, you can't always send oil over!"

“Alright then!” Liu Zhe said, “brother Xia, if anything happens, just give me a call.”

“Alright!” Xia ruofei said with a smile.

After hanging up, Xia ruofei started to pack his things.

He used the afternoon to purchase a lot of things in the city, including food, drinking water, and other necessities of life on the sea, as well as some emergency facilities and survival equipment.

If it was an ordinary person, they would not be able to carry too much due to the limited capacity of the yacht. However, Xia ruofei had an almost infinite space with him, so he did not have such concerns.

They did not know how long they would be out this time and what they would encounter at sea was unknown. Hence, Xia ruofei had prepared a large amount of food, drinking water, spices, and so on. As for the other supplies, as long as he felt that they might be useful at sea, he would purchase them in large quantities.

In the afternoon, several small trucks used to deliver goods from the supermarket were used. There were also delivery trucks from other stores. His villa in the city had become a courier station.

That night, after Xia ruofei and Ling Qingxue had cultivated for a while, they sent her home early.

Xia ruofei also told Ling Qingxue that he was going to sail the yacht out for a few days.

Of course, he first invited Ling Qingxue to go out with him. However, when he heard that he was going to go out for a few days to test the performance of the yacht, Ling Qingxue gave up. After all, it was impossible for her to not go to the company for a few days in a row. She was not Xia ruofei, who could just leave everything to others.

Xia ruofei had originally planned to go out to sea alone. As for going to the coastal waters with Ling Qingxue to enjoy some alone time, he could only think about it next time.

Xia ruofei went to bed early after he got home.

The next day, he had a simple breakfast and dropped Ling Qingxue off at the office. Then, he drove straight to the warehouse in the city.

The truck from the oil depot had not arrived yet, but a manager named Wu had contacted Xia ruofei in advance and told him that they had already set off. They should be arriving soon.

Xia ruofei opened the door of the warehouse and sent a WeChat message to Feng Jing as he waited. He told her that he would be out for a few days and that there might be no signal by then.

He also left the maritime satellite phone number on the yacht with Feng Jing, so that he could contact her if there was an emergency.

Feng Rao was already used to Xia ruofei's occasional shirking. She didn't even complain about Xia ruofei. She only said that she understood and didn't say anything else.

Xia ruofei waited for another ten minutes or so and saw a convoy of large trucks driving over from afar.

A middle – aged man in his forties jumped down from the first car and said to Xia ruofei, ""Hello, you must be President Xia?"

Xia ruofei smiled and said, "it's me!" Are you manager Wu? Hard work! It's been hard on you!"

"You're welcome, President Xia! This is part of our job!" Manager Wu smiled and said, "the 600 barrels of diesel are all here! Mr. Xia, are we unloading it at this warehouse?"

Xia ruofei nodded and looked at the trucks. ""Yes! The door here is higher, so the car can directly drive in to unload ..."

"Okay, okay ..." Manager Wu said.

Then, he beckoned for a subordinate to come over and whispered a few instructions. The first truck immediately started slowly, increased its horsepower, and drove up the small slope at the entrance of the warehouse, directly into the warehouse.

The unloading workers brought by manager Wu immediately ran into the warehouse and began to unload the truck.

Xia ruofei smiled at manager Wu and said, ""Manager Wu, let's settle the payment! Do you accept cash and checks? If it's not convenient, I can go with you to the bank to transfer the money. "

"Convenient! It's convenient!" Manager Wu quickly said, "you can just give me cash and a check!"

Xia ruofei nodded. He took out a checkbook and asked, ""How much is it in total?"

Chapter 2128 Set sail (1)

Manager Wu said eagerly, "director Xia, the total is 687352 Yuan. Our director Chen has said that we don't need the small change. You can just give 680000 Yuan!"

Xia ruofei raised his eyebrows and said, ""This amount doesn't seem right. Why is it so cheap?"

Now, the retail price of diesel was about 6.5 yuan per liter. 100 tons of it was at least 120000 liters. The cost of diesel alone was nearly 800000 Yuan, and this did not include the transportation cost and the cost of oil barrels.

Manager Wu smiled and said, "President Xia, you're probably calculating the retail price, right?" Since you're buying so many at once, of course we'll pay you at the wholesale price! The wholesale price we give to our major customers is about 6800 Yuan per ton. "

In fact, how could buying a hundred tons be considered a big customer? This was all because Liu Zhe had personally come out to greet him. Xia ruofei was very clear about this, so he could only say, ""I see, thank you ... By the way, I haven't counted the transportation fee and the oil barrel!"

Manager Wu laughed and said, "director Xia, you're taking care of our business by buying so much at once. Of course, we're delivering the goods to our doorstep!" Now, even shipping is included if you buy a bag of rice! As for the oil barrels ... Young master Liu said that you may need to continue to buy diesel in the future, so we'll lend you these oil barrels. In the next trade, you can just exchange empty barrels for barrels full of oil. "

Look! How thoughtful was she? Everything had been thought out. This was the magic of power. Furthermore, Liu Zhe had such a high status just because of his father's identity. No wonder so many people were fighting to become an official, a high – ranking official.

Xia ruofei sighed in his heart and said, "Alright then! Manager Wu, I'll write you a check!"

Xia ruofei tore off the check and handed it to manager Wu. He then passed it to a subordinate.

This was the financial staff that he had specially brought along.

Even though Liu Zhe had informed manager Wu about this through his connections, he did not dare to be careless when it came to hundreds of thousands of Yuan.

The finance staff checked the check quickly and nodded slightly to manager Wu.

Manager Wu immediately smiled and extended his hand to Xia ruofei. "President Xia, happy working with you!"

"Happy cooperation!"

The stevedores were very efficient. One truck drove out after unloading, and another truck drove in. It took about two hours for all the oil barrels to be unloaded. They were stacked on two floors and took up almost two – thirds of the space in the warehouse.

Xia ruofei waved goodbye to manager Wu. He waited until the car disappeared from his sight before he returned to the warehouse and locked the door from the inside.

He used his mental power to check and made sure that no one was spying on them, so he quickly put all the oil barrels into the space.

The mountain sea realm was now very vast. Although many medicinal gardens and rice fields had been developed, there was still a large piece of land that was idle. Xia ruofei casually found a flat area and placed the oil barrels in a steady and orderly manner.

The space was big enough, so there was naturally no need to stack up several layers.

After doing all this, Xia ruofei opened the warehouse door a little, dashed out, and quickly locked the door. Then, he drove straight to the Yacht Club.

Xia ruofei called Qin Lan as he entered the club. When he arrived at the main building of the club, he saw that Qin Lan was already waiting at the door.

Xia ruofei parked his car on the side of the road and jumped out of the car. He opened the door of the back seat and took out a huge backpack. There were a lot of supplies and equipment in it. Of course, it was just a cover. After all, he would be out at sea for many days. If he came empty – handed, it would easily arouse suspicion.

In fact, most of the supplies that Xia ruofei had prepared were kept in the spirit map space. The amount of supplies was ten times or a hundred times more than what he had in his backpack.

Qin Lan smiled as she walked up to him and greeted him, "Good day, Mr. Xia!"

Xia ruofei nodded at Qin Lan and said, ""Manager Qin, I'll have to trouble you to arrange an electric car to send me to the dock."

"I'm ready!" Qin Lan smiled and waved her hand. An electric car that was parked at the side drove over.

The driver came over and moved Xia ruofei's heavy backpack into the car.

Qin Lan insisted on sending Xia ruofei to the dock. Xia ruofei could not reject her and could only nod in agreement.

After a while, the electric car arrived at Xia ruofei's exclusive berth at the yacht Pier.

Xia ruofei and Qin Lan stood on the dock. Xia ruofei smiled and said, ""Manager Qin, let's say goodbye here! I might stay in the open sea for a few more days this time. It's rare for me to relax, so I might just stop in a certain Sea area and stay there for a few days."

Xia ruofei was just giving them a heads up. After all, he had brought a large amount of fuel with him, so he would definitely be out at sea for a longer time than a normal yacht.

"Then I wish you a good time!" Qin Lan nodded and said. If you need anything, you can contact us through the maritime satellite phone!"

"Alright!"

After Xia ruofei finished speaking, he grabbed his backpack and walked towards the platform.

Qin Lan couldn't help but ask, "Mr. Xia, are you really not going to consider bringing along a few staff members?" We can take care of each other at sea ..."

Qin Lan had been in contact with many rich people, but it was the first time she had seen someone like Xia ruofei, who insisted on being alone and sailed out to sea alone.

In fact, it was quite dangerous to drive a yacht out to sea alone. The main reason was that if something happened at sea, there was no one to help.

Xia ruofei smiled and said, "no need, I'm used to being alone." Besides, I won't be going far. I'll just stroll around the coastal waters. I mainly want to stay at sea for a few days and experience the feeling of sleeping at sea at night. "

Chapter 2129 Set sail (2)

Qin Lan could only try to persuade him. Seeing that Xia ruofei insisted on doing so, she had no choice but to say, ""Alright then! Mr. Xia, you're alone at sea, so you must be careful ..."

Qin Lan had a very good impression of this bright and rich young man. Of course, she didn't want anything to happen to him.

For some reason, a scene from a movie appeared in Qin Lan's mind uncontrollably. In that movie, a group of friends drove a yacht out to sea. When they reached the calm open sea, everyone jumped into the sea and swam. Even a girl with deep sea phobia was thrown into the sea by everyone like a prank, leaving only an infant on the yacht.

Then, to everyone's horror, they realized that they had not lowered the accommodation ladder. They could not exert their strength on the sea, and no one could reach the side of the boat. After that, a series of terrifying things happened.

Although this was a horror movie, Qin Lan's deepest impression was that everyone was soaked in the sea. There was only a yacht around them that could be seen but could not be boarded, and then there was the vast sea. As long as she put herself in that position, she could feel the helplessness.

Of course, Xia ruofei did not know what was going on in Qin Lan's mind. Even if he did, he would just laugh it off. For a cultivator, it was easy to fly onto a boat in the situation in the movies.

Of course, the power of nature was awe – inspiring. Even cultivators who were much stronger than Xia ruofei could lose their lives in the face of the power of nature. Xia ruofei would not let his guard down.

The staff untied the cable and threw it onto the yacht. Xia ruofei skillfully tied the cable and waved at Qin Lan. Then, he walked into the cabin with his big backpack.

He casually placed his backpack on the circular sofa in the reception area, then continued to walk forward a little bit and entered the cockpit.

Qin Lan stood on the dock and watched as the yacht started to move slowly towards the direction of the open sea.

She didn't leave immediately. Instead, she waited until the yacht became smaller and smaller in her field of vision until it was completely out of sight. Then, with a trace of worry, she got on the electric car and returned to the Yacht Club.

On the yacht, Xia ruofei was sitting in the driver's seat leisurely. He was not controlling the yacht but it was still moving forward steadily.

After the yacht was delivered, Xia ruofei not only upgraded some of the equipment but also added a global autopilot system.

Generally speaking, yachts were mainly used for offshore travel, so even some luxury yachts were not equipped with global autopilot systems. This system was mainly used on some ocean ships.

The system was very expensive and needed to be updated regularly. However, Xia ruofei did not hesitate and chose to install it.

This time, Xia ruofei had experienced the convenience of the system on the yacht.

After the route was set on the main control computer, the yacht would follow the GPS positioning and travel along the set route. When it reached the set turning point, it would automatically turn, and it would also adjust its error according to the weather, wind, and other factors.

At the same time, there were also some other auxiliary functions, such as maintaining a flight path for a long time, warning off course, warning of approaching targets, and so on.

It could be said that after the installation of this system, the yacht pilot's hands were greatly liberated.

Just like now, Xia ruofei was sitting in front of the driver's seat with a glass of fresh fruit juice in his hand. He just had to monitor the data from time to time. It was very easy.

After leaving the coastal waters, there were fewer and fewer ships in the surrounding area. The land was also left far behind and finally disappeared from sight.

The last thing he could see was the endless sea, as if he was the only one left in the world.

The route that Xia ruofei had set was very simple. After going out to sea from the three mountains, they would head east. They would make a slight turn North of taisheng Bay Island, pass through the entire East China Sea, and enter the Pacific Ocean. After that, there was no further route set.

After all, it was at least a few hundred nautical miles across the East China Sea. With the yacht's cruising speed, it would take at least more than 20 hours to sail continuously.

Since there was no specific destination for this trip, Xia ruofei decided to take it one step at a time and enter the Pacific Ocean first.

After the yacht set sail, Xia ruofei released the restrictions on the spirit map space. This way, the white fox could sense the outside world without any obstacles.

Usually, Xia ruofei would seal off this kind of feeling. He did not want the White realmfox and Xia Qing to watch him in the space when he was having sex with Ling Qingxue.

The scenery of the ocean was extremely beautiful and vast. The boundless scene of the sea and the sky merging into one could make one's heart unconsciously open up.

However, as time went by, he would gradually find it boring. Humans were social animals. After being away from the hustle and bustle of the world, it was as if he was the only one in the world. Even someone as powerful as Xia ruofei could not avoid that sense of loneliness.

Of course, Xia ruofei had undergone strict training in the Army. He did not have any psychological problems. He just felt a little bored.

Fortunately, in order to increase the probability of finding the realm stone, Xia ruofei did not blindly approach the island when he set the route. Instead, he deliberately let the yacht pass by some uninhabited islands. This way, with the white fox's sensing ability, if there were really realm stones on those deserted islands, it would be able to detect them in time.

Therefore, after the yacht sailed for a while, they would occasionally see an Island.

After Xia ruofei went out to sea, the White realmfox no longer looked sickly. Instead, it perked up and sensed the aura of the realm stone that might exist in the outside world.

However, the probability of encountering a realm stone on such a lucky voyage was very low. The White realm Fox had not discovered anything yet.

Xia ruofei set off at around 11 am. Other than the small part of the ship that was manually driven, the rest of the ship was left to the autopilot system. At about 5 pm, Xia ruofei saw the ship's flight path on the main computer. The ship had already traveled more than 160 nautical miles and was far from land. It had passed by a few deserted islands along the way, but the white fox did not find anything.

Xia ruofei was already mentally prepared for such a situation, so he was not in a hurry.

It was almost evening. Xia ruofei turned off the autopilot and stopped the yacht. In order to prevent the yacht from drifting away with the current, Xia ruofei carefully anchored it.

After the engine was turned off, the yacht became even quieter, and the sound of waves gently hitting the hull could be heard.

Xia ruofei took out some lychees, cherries, bread, and milk for dinner.

He came to the stern deck and sat on the soft recliner, eating while looking at the sun in the west.

After Xia ruofei left the harbor from the three mountains, he had been heading east. It was already evening and the sun was in the direction he had come from. It was no longer as hot as it was at noon. It looked like a huge red fireball, dyeing the sea red.

The white fox was squeaking anxiously in the medium. It was very unhappy that Xia ruofei had stopped the yacht. However, Xia ruofei enjoyed his dinner on the sea unhurriedly and enjoyed the rare sunset on the sea. He only stood up and walked to the cockpit when the sun had completely fallen below the sea level and the sky was getting dark.

Xia ruofei said as he walked, "little guy, don't be so anxious!" Haste makes waste ... Besides, it's so dark tonight, how dangerous would it be to sail the ship! I've decided to continue for a while on your account, but you must stop the ship and sleep before eight o'clock! I'll only have energy tomorrow if I rest well!"

Chapter 2130 Harvesting_1

The white fox was jumping up and down in the space, gesturing with its two forelimbs to express its strong dissatisfaction.

Xia ruofei rolled his eyes and said, "It seems that you don't agree with my plan ... In that case, I'll just turn the ship around and return! I see that you're very energetic! He doesn't look like he's about to starve to death!"

The White realmfox immediately stopped and cupped its hands pitifully. Xia ruofei couldn't help but laugh at its funny look.

He was only scaring the white fox on purpose. How could he really turn around and go back?

After all, he would also have a share if they found the world stone. Furthermore, he had made ample preparations this time. Wouldn't it be a pity to return without spending a few days on the sea?

Xia ruofei continued to scare the white fox. He told it that if it wanted to cooperate, it had to listen to his arrangements and not raise any objections.

Then, Xia ruofei kept the anchor and continued to drive the yacht.

After the yacht started moving, Xia ruofei quickly switched to autopilot and let the yacht follow the route he had set.

After the sun set below the sea, night soon fell.

The clouds were very thick tonight. The moon and stars were almost blocked, and it was almost pitch black outside.

On this vast ocean, under the cover of the night, an ordinary person would probably feel an extremely oppressive feeling and a fear of the unknown.

However, Xia ruofei was still at ease. He did not turn on the lights of the yacht. Only the instrument panel and the main control computer in the cockpit emitted a faint glow. He held a can of beer in his hand and listened to music while monitoring the navigation data of the yacht.

As long as the yacht was moving forward, the White realm Fox in the space would maintain a high level of concentration, trying to sense the aura of the realm stone.

At around eight in the evening, Xia ruofei stopped the yacht and stalled the engine. The white fox did not notice anything.

This was all within his expectations. Xia ruofei was not too disappointed.

He didn't go to rest right away, but went through the entire yacht to the stern. There was a unique affinity platform here. The height was almost close to the sea, and there were no fences around it. It also used a convex design, so it could be said to be surrounded by water on three sides.

Xia ruofei sat down on the platform and felt as if he was on the sea.

The waves gently hit the boat, and the yacht also swayed gently with the rhythm of the sea. There was no other sound except the sound of water around them, and the whole world seemed very quiet.

Xia ruofei held a spiritual crystal in his hand and started to cultivate the great Dao Sutra.

Few humans set foot on this vast sea, and it was far away from the noisy cities. There was almost no pollution, and the spiritual energy here seemed to be richer than on land.

In the fishy smell in the air, Xia ruofei quickly entered a state of cultivation.

The true Qi in his body flowed along the meridian circulation diagram of the great Dao Arts. After every circulation, the spiritual Qi in his dantian would be transformed into true Qi.

Although his true Qi only increased by a little each time, Xia ruofei's cultivation continued to grow day by day.

When it came to cultivation, it was a test of perseverance and patience. There were no shortcuts.

After a long time, Xia ruofei let out a long breath of air and felt refreshed.

He put the spirit crystal, which had shrunk to a size smaller, into his space and lay down on the platform casually. He looked up at the starless sky and released his spiritual power.

There seemed to be another world under the sea. Xia ruofei's spiritual power could detect all kinds of sea creatures swimming at different depths. They were completely unaware of Xia ruofei's spiritual power.

Clownfish, porcupines, jellyfishes ... Xia ruofei used his not – so – profound knowledge to distinguish the sea creatures that were swimming under the yacht.

He suddenly had an idea.

Xia ruofei's spiritual energy suddenly shot out and wrapped around a porcupinefish in an instant.

The porcupinefish was swimming around without any warning when it suddenly felt as if it had fallen into a swamp and became unable to move. It subconsciously swelled up. This was the reaction of the porcupinefish when it encountered danger.

In the next moment, Xia ruofei had already retrieved the porcupinefish from the sea.

His mental power cultivation had always been higher than his true Qi cultivation, so he had long been able to capture objects from a distance. The porcupinefish wasn't big, so although it was slightly more difficult to capture swimming objects than stationary objects, it wasn't a big deal for him. He succeeded very easily.

Xia ruofei didn't reach out to touch the little porcupinefish. After summoning it out of the sea, he used his mind and the porcupinefish disappeared into thin air.

In the next moment, it appeared on the surface of the ocean inside the spirit map space and was thrown into the sea with a plop.

If the porcupinefish could think, it would definitely be puzzled. It was just that this kind of low – Level creature moved by instinct. It could feel that it was still in the sea, but the environment was countless times more comfortable than before. The spiritual Qi in the dense space was already in the form of a watery mist. The external environment was completely incomparable to the environment inside the space.

After a short period of panic, the porcupinefish quickly regained its composure and began to swim leisurely in the sea of space.
