### Chapter 2151 A different world (2)

Xia ruofei's mouth was wide open in shock. The strong flashlight fell to the ground, and the light beams danced wildly in the cave. He then came back to his senses and quickly reached out to grab the flashlight.

The diameter of the cave was only a little more than a meter, and it was difficult to even turn around inside.

Xia ruofei shone the flashlight behind him and turned his head around with difficulty.

At the entrance of the cave, there was a slightly shaking pool of water, but it was as if the water was blocked by a transparent cover, and it could not flow into the cave at all.

Xia ruofei guessed that this was the effect of the formation, but he was still very surprised.

It must be known that this was a depth of nearly two hundred meters, and the water pressure was astonishing. To be able to block the water outside, and yet people could easily pass through, this formation was not simple.

Xia ruofei had been holding his breath ever since he entered the water. After entering the cave, he tried to exhale and then gently took a breath.

He suddenly found that the air in the stone cave was quite fresh, and the concentration of spiritual Qi seemed to be quite high. Although it could not be compared with the environment in the spirit map space, it could be considered a treasure land with rich spiritual Qi compared to the outside world.

Xia ruofei took a few deep breaths in relief and felt much better.

Although he could rely on the great Dao Arts to maintain his internal breathing underwater, breathing was a human's instinct. After not breathing for such a long time, he subconsciously felt very suffocated.

Now, that feeling of suffocation had finally disappeared.

Xia ruofei did not stay at the entrance for long. After a short rest, he continued to move forward.

The cave was only a little over a meter in diameter. An adult could barely pass through it, and they had to crawl forward.

If someone with claustrophobia were to stay in such an environment for a long time, they would probably go crazy.

Xia ruofei's mental strength was very strong. He continued to crawl forward calmly.

The cave had a downward slope and the temperature was very low. Xia ruofei even felt colder than in the pool.

He held the dagger tightly in one hand and didn't dare to withdraw his mind power for a moment. In this stone cave, his mind power was greatly suppressed, and he could only detect about three or four meters ahead.

As they continued to crawl forward, Xia ruofei felt that the cave was gradually becoming wider and the sense of uneasiness was getting lower.

Of course, the temperature in the cave was still extremely low. In fact, the deeper he went, the lower the temperature became.

After another hundred meters, the cave was wide enough for an adult to walk with his back bent.

Xia ruofei also sat up and leaned against the wall to rest.

After all, he had been crawling in that narrow tunnel all this time. In addition, he had to continuously use true energy to resist the cold. He was also exhausted from the whole journey.

Xia ruofei took out a bottle of spirit pool water that had been mixed with the petals of the spirit Heart Flower from his storage space. He gulped it down and immediately sped up the recovery of his mental power and true Qi.

He sat there for more than three minutes, then got up and continued to move forward.

The cave continued to widen. After walking for less than 50 meters, Xia ruofei realized that the cave's diameter had become at least two to three meters. Not only was it much wider, but it was also tall enough for him to walk normally with his back straight.

This made things much easier.

Xia ruofei advanced carefully with the dagger in his hand. He was constantly scanning the surroundings with his spiritual power and was always on high alert.

It was very quiet in the cave. Xia ruofei could clearly hear his own footsteps and his own heartbeat.

The induction Jade Leaf in front of his chest had become slightly hot, indicating that the world stone was nearby.

The tunnel in the cave was slightly inclined downwards. Xia ruofei estimated that they were more than two hundred meters above the ground.

Finally, after another sixty to seventy meters, Xia ruofei saw a stone door.

This green stone door should have been made from a whole piece of huge green stone, and it gave off an ancient and simple aura. It was connected to the entire passage without any signs of a switch or handle.

Xia ruofei walked closer and quickly realized that the stone door was engraved with a mysterious array pattern that formed a complete array diagram.

After a brief analysis, he had already calmed down quite a bit. The Suan NI's formation was of the same origin as the barrier formation by the pond. Although the two formations were completely different, the idea of setting up the formation was the same.

Xia ruofei had studied the array by the pond for an entire day and night. He had already understood the principle of the array. It was much easier to analyze this array now.

He knew that this formation was the key to opening the stone door.

Of course, it would also take a lot of time to analyze this formation.

Although it had been almost half an hour since they entered the pool, it was very likely that the Python had returned to the edge of the pool. Even if it could not enter the array, it was likely that it would stay outside the array. But now that things had come to this, Xia ruofei could not care less about the giant python. He had to open the stone door with all his might.

In any case, even if they returned the way they came, the giant python was likely to have already returned, and they might even be caught red – handed.

The sensing Jade Leaf was already boiling hot, and the world stone was right in front of him. Xia ruofei naturally knew what to do.

Now was not the time to think about the giant python. Only by calming down and analyzing the formation on the stone door could he open it as soon as possible. The more anxious he was, the more counterproductive he would be.

Xia ruofei quickly memorized the entire formation under the strong light of the flashlight. Then, he sat cross – legged in front of the stone door, put the flashlight aside, and closed his eyes to analyze and practice the formation in his mind.

As time went by, the principle of the formation became clearer and clearer in Xia ruofei's mind.

Formations were also divided into different schools.

Obviously, Xia ruofei's previous analysis and solution to the pond's barrier formation had helped him a lot in his analysis of this formation.

The array patterns formed a basic array diagram, and the basic array diagrams formed an array technique.

Xia ruofei still started to analyze from every basic diagram and then used the connections between them to deduce.

Although he was doing the same work, his efficiency this time was much higher than when he analyzed the barrier formation last time.

He sat there for about an hour before he suddenly opened his eyes and a relaxed smile appeared on his face.

"It should be like this!" Xia ruofei muttered to himself.

Just now, he had gone through it several times in his mind and had basically confirmed the result of his analysis.

Xia ruofei stood up confidently and returned to the stone door.

With a confident smile on his face, he reached out his hand and pressed on a node of the formation. At the same time, he slightly exhaled his zhenqi.

Then, Xia ruofei's fingers quickly tapped on the array diagram, and each time, he poured in a wisp of genuine Qi.

The entire process only took about ten seconds.

When Xia ruofei tapped the last finger, the entire formation seemed to light up. Every pattern on the formation glowed with a dazzling light and the bright light circulated rapidly on the formation.

At the same time, a series of clacking sounds could be heard as the green stone door began to rise up slowly.

The stone door seemed to be very heavy, and the speed of its Ascension was rather slow.

Xia ruofei could see a faint green light through the gap at the bottom of the stone door.

It took more than two minutes for the stone door to rise to the top. With a click, the stone door seemed to be locked and hung firmly above, revealing a two – meter – wide and three – meter – High doorway.

Xia ruofei was full of anticipation as he walked in.

When he passed by the door, he raised his head and found that the stone door was more than a meter thick. He couldn't help but take a cold breath. This was the legendary dragon – breaking stone! It was almost impossible to open the door with brute force alone.

After passing through the one – meter deep doorway, Xia ruofei's eyes widened in shock ...

#### Chapter 2152 Spectacular View\_1

Xia ruofei had thought that after passing through this stone door, there would be a stone room or a few stone rooms. If there were no accidents, he would be able to find the world stone here.

However, everything before his eyes was far beyond his expectations.

After walking out of the door, Xia ruofei saw a huge and empty space in front of him. It was more than a hundred meters high and the size was as big as a dozen football fields. It was as if the center of the island had been dug out.

On the walls and ceiling of this huge cave, there were pieces of round beads that emitted a faint green light. They looked like stars decorating the dome, making it look spectacular.

It was these glowing beads that enveloped the entire cave in a green halo, making it look very dreamy.

No wonder Xia ruofei could see the green light when the stone door opened.

The stone door was located at the bottom of the entire huge rock cave. Looking out from here, one could see pavilions scattered all over the place. There were also winding paths, exquisite small bridges, and curved streams ... It was like a paradise on earth under the dense green qi.

Xia ruofei stood rooted to the ground for a long time, unable to move.

He had never imagined that on this deserted island, more than two hundred meters underground, there would actually be such a beautiful paradise. Every building here was beautiful, and every scenery was unforgettable. Moreover, it seemed to be in a mess, but in reality, it was in accordance with the laws of

heaven and earth. Everything seemed to be one with nature, and even an ordinary artificial mountain rock was just right, as if it was born there. Without this rock, the entire building complex would become disharmonious.

“Amazing ...” Xia ruofei couldn’t help but exclaim.

Could this be a celestial technique? Xia ruofei was sure that even the best ancient architect in the world could not have designed such a perfect building complex.

In particular, that natural charm was a realm that mortals could not reach.

Xia ruofei strode forward.

From the exit of the doorway, there was a path paved with bluestone that led to the huge ancient buildings. Both sides of the path were planted with purple bamboo.

These bamboos just happened to block a part of the scenery, and on the curved path, the scenery was completely different with every few steps, but each had its own charm.

Xia ruofei had visited the Zhuo Zheng garden before. This garden could be said to be the pinnacle of garden history. The most famous one was “changing scenery with steps”. Now, in comparison to this complex hidden more than 200 meters underground, the “changing scenery with steps” of Zhuo Zheng garden was at the beginner level.

Xia ruofei couldn’t help but think that if he could live in such an environment for a long time, even if he was more than 200 meters underground, he would still enjoy it!

Of course, if he could live here with his girlfriend, he would have nothing else to ask for in his life.

However, it was not easy to enter the underground cave. The low temperature of the pool and the depth of two hundred meters were enough to keep most people out.

Xia ruofei’s imagination ran wild as he walked along the small path.

After passing through the purple bamboo forest, there was a large garden in front of them. The small path passed through the garden.

Xia ruofei could see that the gardens on both sides were planted with a large number of spiritual herbs. Some of them were seen on the spirit map Island, but the difference was that these spiritual herbs were already in a mature state.

However, he didn’t see a single flower that was commonly seen in the outside world.

Xia ruofei had also read many cultivation books. He was no longer a newbie in cultivation, but he could only recognize less than 30% of these spiritual herbs.

Just the value of the items that he had recognized was enough to make him tremble with excitement.

“Seven – colored Miscanthus! Ice jade Leaf! “What the ... There’s even a snow stem Golden Lotus ...” Xia ruofei muttered to himself in a trembling voice as he tried to walk into the garden.

The value of the spiritual herbs here was no less than that of the island in the spirit map space. Although he had yet to see a spiritual herb as precious as the heart concentrating herb, Xia ruofei did not recognize at least two – thirds of the spiritual herbs here. There might be even more precious spiritual herbs here!

However, it was clearly too early for him to be happy. Before he could step into the garden, a halo lit up. Clearly, the array barrier had been activated.

Xia ruofei realized that he could not enter the garden other than this small path.

Moreover, this array was obviously much more advanced than the one in the pool. It was not damaged at all and operated normally. Even if he tried to break it, he could not find a way in.

Xia ruofei gave it some thought and decided to give up. Although he was very envious, he knew that there was no hope and he would not waste any more time here.

What he was most worried about now was what he would do if he discovered that the world stone was also in such a formation boundary.

Could it be that he had gone through so many hardships and almost lost his life to come here just to broaden his horizons?

Yes, I saw a very impressive array, a near – perfect immortal treasure land, and a garden full of spirit herbs and spirit herbs. Unfortunately, it has nothing to do with me, and I didn't take anything!

Just thinking about it made him feel vexed!

Xia ruofei was a little worried as he continued to move forward.

#### Chapter 2153 Spectacular sight (2)

After entering this beautiful building complex, the path was naturally not the only one.

However, Xia ruofei relied on the Jade Leaf and the White realm Fox's guidance to get closer to the possible location of the realm stone.

Along the way, he also saw many treasures. In addition to spiritual herbs and grass, there were also swords that were obviously sharp, and crystals with a higher concentration of spiritual Qi than spiritual crystals.

However, these treasures all had a common characteristic, and that was that they could be seen but not held!

It was as if he had been left here to annoy people.

Xia ruofei was also worried. On one hand, he was unwilling to enter the treasure Mountain for nothing. On the other hand, he was secretly glad that he had not seen the boundary stone protected by the array so far.

There was a Western saying that no news was good news.

This sentence was very suitable for Xia ruofei. As long as he did not see the world stone being protected by the formation, it was good news for him.

Xia ruofei walked through the ancient buildings that looked like a Celestial Palace for more than ten minutes. He was already numb to the beautiful scenery.

Of course, he didn't dare to let his guard down at all times. After all, this place was obviously set up by a senior cultivator with a very high cultivation level. There might be unknown dangers.

Just like that, Xia ruofei finally arrived in front of a Palace.

Yes, to Xia ruofei, this was a Palace. It was even more spectacular than the palaces in the Forbidden City.

This Palace, which was 30 to 40 meters tall, was unique in the entire ancient building complex. It was also the largest building.

In front of the palace was a huge square paved with bluestone slabs. These bluestone slabs were polished until they were as smooth as mirrors. Xia ruofei was even worried that he would slip when he walked on them.

After passing through the square, there were a total of 99 steps.

On both sides of the steps were railings made of white marble. Every three steps, there would be a lifelike beast head on the railing. There were a total of 66 beast heads on both sides, and none of them were repeated. The carving was simply a work of art.

After walking up the steps, Xia ruofei stood in front of the palace without any name carved on it.

There were two three – meter tall stone statues at the entrance of the palace. They were two Guardian beasts that Xia ruofei could not name. From the front, they looked like lions but had a tail full of scales. At the same time, the claws of The Guardian beasts were not Lion claws but dragon claws.

Xia ruofei stood in front of The Guardian beasts that looked like a dragon and a Lion. He could not feel a trace of life but he could still feel the pressure.

He was sure that they were just two stone sculptures, but just their appearance alone could produce such a strong pressure, especially the eyes of The Guardian beasts. They were cold, ruthless, and bloodthirsty. Xia ruofei only took one look at them and he felt his heart palpitate.

Xia ruofei calmed himself down, crossed the high threshold, and entered the palace.

There were huge pillars that were thirty to forty meters tall in the palace, and the roof was also inlaid with round beads that emitted a green light. Under the green light, the interior of the palace seemed a little empty.

Two rows of pillars were neatly arranged at the entrance, extending for a hundred or two hundred meters. Between the pillars was a passage paved with bluestone.

Xia ruofei looked into the distance. At the end of the bluestone path, there were more than a dozen steps. There was a platform above it, and he could vaguely see an ancient throne. In front of the throne, there was a table.

The white fox in the medium was so excited that it kept urging Xia ruofei to move towards the throne.

Xia ruofei took a deep breath and walked forward carefully.

One step, two steps ... The sound of his footsteps echoed in the empty Palace. In the strange silence, Xia ruofei was fully alert for any possible danger.

It took Xia ruofei five to six minutes to cover the distance of more than a hundred meters. He was very careful with each step.

When he was about three or four meters away from the steps of the throne, he suddenly heard a squeaking sound.

Xia ruofei turned around and realized that the palace door had closed by itself.

With a clang, the palace door was completely shut.

Xia ruofei was getting more and more nervous. He even summoned the spirit map and held it tightly in his hand.

It was the existence of the spirit painting scroll that gave Xia ruofei some confidence.

Once there was a danger that he could not resist, he only needed a thought to hide in space.

Although this underground building complex was magnificent, and he had seen many spirit herbs and natural treasures along the way, he had a faint feeling that none of them were as precious as the spirit map scroll.

The spirit map scroll had opened up a stable space, and it was not the kind of dead storage space. Instead, it was filled with heaven and earth spiritual Qi, and it could even develop rules similar to the natural space of the outside world.

Although the underground building complex was also a work of art, the difficulty of construction was obviously not as high as opening up another space.

Hence, Xia ruofei deduced that the owner of this place should be much weaker than the owner of the spirit map space.

He was also very confident that the spirit map space would be able to protect his safety in this environment.

After the palace door closed, Xia ruofei was only slightly shocked. Then, he turned around and focused his attention on the table in front of the throne.

He couldn't see it clearly earlier because he was too far away, but now he could clearly see that there were three boxes on the table side by side.

Xia ruofei's gaze became fervent. Whether he could gain anything this time would depend on these three boxes ...

Just as he was about to step up the steps, a burst of hearty laughter suddenly came from the palace.

"Hahaha ..."

Xia ruofei was so scared that he almost hid in the spirit map space.

He had never thought that there would be anyone here.

The laughter was very loud, and it formed a series of echoes in the empty Palace, which made it sound even more strange.

“Who’s there!” Xia ruofei couldn’t help but shout.

At this moment, a ray of light fell on the throne behind the table. Xia ruofei watched as a figure appeared on the throne.

This figure was extremely strange. It started appearing from the feet, then the light slowly moved up, the legs and waist also began to appear, and finally the body and head. The whole person seemed to be bathed in a layer of light, looking a little hazy.

This person was wearing a moon – White Daoist robe and had his hair tied up in a Daoist bun. He had a thin face and a faint smile on his face. He was holding a horsetail whisk in his hand and casually placed it on his arm. He looked like a Sage.

Xia ruofei suddenly realized and couldn’t help but exclaim, “3D projection? This is way too advanced ...”

The Daoist seemed to be looking at Xia ruofei. He smiled and started to speak. “Junior, the fact that you are able to enter My Immortal Island means that we are fated. But you’ve made it this far, which means that you’ve at least reached a higher level in the field of arrays. And to be able to pass the purpleblood spirit Python’s test, it means that you’ve at least reached the peak of the Golden core stage ...”

After saying that, the Daoist hesitated for a moment and then said with a smile, “Speaking of which, I wonder how many years later it will be when you see this video. What if it took too long? could the purpleblood spirit Python have already broken through to the original level? Then wouldn’t it be very difficult for anyone to pass the test?”

Xia ruofei couldn’t help but smile bitterly. It turned out that this person had been expected to enter only when he was at the peak of the Golden core stage. This meant that the giant python was at least at the intermediate or advanced stage of the Golden core stage. After all, a spirit beast’s body was much stronger than a human’s. Human cultivators of the same cultivation level would most likely not be able to defeat a spirit beast.

It was unknown what expression the Taoist priest would make if he knew that Xia ruofei was only at the sixth level of the Qi refining realm and that he had entered the spirit map space with a bit of luck.

The Daoist shook his head again and said, “Forget it, I’m not worried for nothing. In this environment, it’ll be hard for the purple blood spirit Python to break through even if it trains for a thousand years! Let’s get back to the main topic!”

Chapter 2154 Bi youzi’s gift (1)

Xia ruofei immediately looked at the Daoist on the throne with full attention.

Even though it was only a video, Xia ruofei could still feel the great power from the Taoist. Xia ruofei estimated that this Taoist was at least in the nascent Soul Stage or even higher.

The thin Taoist smiled and said, ""I'm bi youzi, the master of this green Immortal Island. Since you can enter my green Immortal Island, it means that you are fated with me ..."

After saying that, Daoist priest bi youzi's face revealed a trace of desolation. ""A catastrophe happened more than a hundred years ago, which caused a large loss of spiritual energy in the divine great land. The remaining spiritual energy became extremely violent and the cultivation environment became extremely harsh. For more than a hundred years, there hasn't been a single nascent soul cultivator. Our Chinese cultivators have decided to head into the endless starry sky to find a new way out. All cultivators above the nascent Soul Stage will be leaving. In order to leave some hope for those who come later, I left this green immortal mansion and some cultivation resources for those who are fated to ..."

Hearing this, Xia ruofei's heart was in turmoil. No wonder there were so few cultivators on earth. It turned out that a large number of Masters above the original level had left earth.

He did not know which era bi youzi was from, but from the fact that all the formations and barriers were damaged, Xia ruofei guessed that it had been at least a thousand years. From bi youzi's words, Xia ruofei did not know what had happened a hundred years ago that caused the cultivation environment on earth to deteriorate to such an extent.

The large number of cultivation books left in the spirit map space's inheritance jade talisman also did not have records of this.

However, Xia ruofei was sure of one thing. After those original infant stage and higher cultivators left earth, there must have been a break in the cultivation world on earth. Many inheritances were lost.

It was conceivable that under such harsh conditions, no matter how hard those jiedan stage cultivators tried, they would have no hope of reaching the Yuanying stage. This could be seen from the giant python.

Xia ruofei was sure that the giant Python's cultivation was still at the Golden core stage. If it was a spiritual beast of the original infant stage, he would not even have the chance to escape. For so many years, the giant python had relied on absorbing the moonlight to cultivate, but it had not been able to break through to the nascent Soul Stage, let alone those human cultivators in the Golden core stage.

Golden core cultivators could only live for five to six hundred years at most. As time passed, the number of cultivators on earth would definitely decline. In this era, Xia ruofei had almost no cultivators.

The old Daoist bi youzi smiled and said, "I'm very pleased that there are still juniors who can cultivate to the peak jiedan stage under such conditions. The things in these three boxes are my gifts to you. I can imagine how difficult it must have been for you to cultivate to your current realm, so I won't set any more tests. I believe that since you've reached this point, you're qualified to obtain these treasures. Next, you can open them!"

As he said this, the old Daoist bi youzi seemed to have been hit by a pause button. He was completely frozen, and there was even a gentle smile on his face.

Xia ruofei gave senior bi youzi a thumbs up in his heart! This was a senior expert! If he wanted to give something, he would give it directly.

He walked up the steps with a trace of expectation and came to the table.

The three boxes were made of Jade and looked very warm. There were complicated patterns carved on them. These boxes alone were very precious antiques today. After all, they had at least a thousand years of history.

Xia ruofei scanned the boxes with his spiritual power and knew that Daoist priest bi youzi did not lie to him. There were no traces of formations on the three boxes, and he did not find any information about mechanisms.

He extended his hand to the first box on the left, and with a light lift, he easily opened it.

The moment the lid was opened, bi youzi seemed to come alive again. He smiled and said, "This is my first gift to you!"

Xia ruofei was shocked, but he quickly reacted. There must be some kind of restriction on the box. Once it was opened, it would trigger the stored image.

He couldn't help but curse in his heart. Senior bi youzi, you'll easily scare people like this ...

He cast his gaze into the box. There was a short sword in it. It was very small and exquisite. It was only about 30 centimeters long and as wide as a finger. It was dark green in color, and there seemed to be a sharp aura flowing around the sword. What was even more peculiar was that this short sword did not have a hilt. It was more than 30 centimeters long, and it was the blade.

Xia ruofei couldn't help but think, "is the first gift a half – finished product?"

"This is the flying sword I used when I first entered the nascent Soul Stage," bi youzi continued. "Its name is 'blue sky'. It accompanied me for more than 300 years of cultivation. Although I later had better flying swords, I always brought it with me. This time, I'm about to go to the unknown endless starry sky, and I might not be able to come back. I'll leave this blue sky sword to the fated one! I hope you can treasure this flying sword!"

After saying that, bi youzi entered the 'pause' state again.

Xia ruofei was overjoyed and said to himself, "So this is the legendary flying sword! Senior bi youzi ... Can you at least teach me how to use it? There's no instruction manual or anything in the box ..."

There was quite a lot of information about flying swords in the cultivation classics in the spirit map space's inheritance jade talisman, but most of them only introduced some famous flying swords and some glorious deeds of sword Immortals. There was no mention of basic operations like using flying swords.

However, Xia ruofei was not completely clueless. At least, he had heard that flying swords needed to be bound by blood.

Hence, he decided to give it a try.

A sharp stream of genuine Qi condensed into a line and easily forced a drop of blood out of his finger, which dripped on the dark green flying sword.

After the drop of blood came into contact with the flying sword, it disappeared without a trace and integrated into the flying sword.

In the next moment, Xia ruofei felt a strong connection with the flying sword. This feeling was similar to when he first absorbed the spirit map into his body, but it was slightly different.

Xia ruofei felt that he could keep the flying sword in his body at any time.

He tried to control his thoughts. As expected, the flying sword flew up and flew in an arc before entering Xia ruofei's body.

Looking at the flying sword with a cold glint flying towards him, Xia ruofei was still a little scared. However, he endured the discomfort in his heart and stood still.

The flying sword directly entered his body, and he soon felt the flying sword quietly staying near his dantian.

With just a thought, the flying sword could leave the body at any time.

Unlike the sword Immortals in TV shows, they didn't need to fly out of their mouths and enter their bodies through their mouths. After the flying sword acknowledged its master by dripping blood on it, no matter which part of the master's body it was, it could receive or release the flying sword.

The flying sword was like a part of its master's body, so it naturally wouldn't harm its master's body.

Xia ruofei could use his hand to hold the flying sword as he wished without having to worry about cutting his hand.

Only then did he understand why the sword didn't have a hilt. It was unnecessary.

Of course, flying swords were rarely held in their hands. Since they were flying swords, they were naturally more likely to fly in the air.

Xia ruofei's spiritual power cultivation was higher than his genuine Qi cultivation. After a few tries, he could control the flying sword very well.

He controlled the flying sword to fly up and down around him, and then let the flying sword dance freely in the space of the palace. Sometimes it swooped down, sometimes it suddenly stopped and turned. In a short time, he had become very skilled.

If it wasn't for the two boxes that had yet to be opened, Xia ruofei might have been able to play with it for a few hours. It was a very fresh feeling.

He had heard that after the Golden core stage, cultivators could even ride a flying sword. This made Xia ruofei look forward to it even more.

After playing with it for a while, Xia ruofei kept the flying sword in his body and looked at the second box.

The first gift had already surprised Xia ruofei. He was even more excited about the second box.

When the second box was opened, bi youzi, who had been in a 'paused' state, immediately came back to life. He smiled and said,""This is the second gift! A total of two hundred origin crystals. Now that the world's spiritual energy is barren, I believe that with these two hundred origin crystals, it should be of some help to your cultivation. I hope that you can use this to break through to the Yuanying stage!"

Even though Xia ruofei had a strong mentality, he could not help but feel ecstatic after hearing this.

Two hundred pieces of crystal stones with extremely dense spiritual Qi were neatly placed in the box. The entire box was filled to the brim. These were origin crystals, which were even more precious than spiritual crystals!

Xia ruofei had read a lot of cultivation books and knew that once a cultivator reached the Golden core stage, the Qi in the body would be transformed into Yuan Qi. During the process of cultivation, the demand for spiritual Qi would also increase greatly. Golden core cultivators who had the conditions would absorb Yuan crystals to cultivate.

The spiritual Qi of heaven and earth contained in origin crystals was a hundred times richer than that of spirit crystals! And the absorption rate was even higher!

It could be said that just one origin crystal was enough to provide all the spiritual Qi that Xia ruofei needed for the entire Qi refining stage.

And there were two hundred Yuan here!

Xia ruofei's hands trembled slightly. He took out a piece of crystal from the box and looked at it carefully.

This origin crystal had been cut into a standard rectangular shape. Once he touched it, he could feel the huge amount of spiritual energy contained within it. He tried to operate the "great Dao Arts" and immediately felt a strong wave of spiritual energy directly enter his meridians from the palm of his hand.

Not only was the spiritual Qi rich, but it was also extremely pure. Xia ruofei easily absorbed the spiritual Qi and immediately felt that the genuine Qi in his dantian had increased.

One could imagine how much more efficient it would be if origin crystals were used for cultivation!

He was like a pauper who had picked up a huge sum of money. He quickly put the piece of origin crystal back into the box, and then with a thought, he put the box into the spirit map space ...

## Chapter 2155 The real big gift (1)

Bi youzi seemed to have predicted that Xia ruofei would be stunned after seeing the crystals. He purposely waited for a while before continuing with a smile,""The first two treasures are a small gift from me to you. They can only help your cultivation to a certain extent. The third treasure is what I really want to leave for the fated person of the younger generation! Its value was ten times or even a hundred times more than the first two treasures! What was he hesitating for? Hurry up and open it!"

Xia ruofei was stunned.

The legendary flying sword and the whole box of origin crystals were just appetizers. The value of the third treasure was ten times, or even a hundred times, more than the first two? What was that? Xia ruofei could not imagine it.

In his opinion, if the third treasure was really that valuable, it would not be inferior to his spirit map painting.

Full of anticipation, Xia ruofei looked at the last box.

This box looked exactly the same as the previous two, but in Xia ruofei's eyes, it was completely different.

Bi youzi, who was on the throne, had entered a 'pause' state again. It was obvious that he needed to open the third box to trigger the next video.

Xia ruofei took a deep breath and reached for the box with trembling hands.

His hand touched the lid, and then his eyes widened as he opened it with force.

A ray of light shot out from the box. A dark brown wooden board appeared in front of Xia ruofei. It was unknown what kind of wood it was made of, but it was shining with a white light. The wooden token was carved with mysterious array patterns. Even with Xia ruofei's array Dao cultivation, he could not understand the function of these array patterns. He could not even see the most basic functions.

The moment the box was opened, bi youzi's smile became even wider. His gaze seemed to travel through time and space as he looked at Xia ruofei, who was in front of the table, and said, "This item is called the mansion – guarding wooden token. It is the control center of this green immortal mansion and even the entire Immortal Island. After refining it, you will be the true master of this green Immortal Island! You'll be able to use all of the formations and restrictions on the immortal Island as you please. You'll also be able to use some of the other heavenly materials and earthly treasures, spirit stones, and magical treasures I left in the immortal abode as you please! That's right, once you completely refine this wooden tablet, you can also find the "blue sword Art" that I left for you! Practicing the secondary Sword Art can maximize the power of the blue travel immortal sword. If you want to ride a flying sword, you must practice this Sword Art!"

Xia ruofei's body couldn't help but tremble. There was only one thought in his mind, and that was that Yingluo was rich!

He couldn't help but think of the spirit herbs and various treasures he had seen along the way. Not only these, but as long as he refined this mansion – guarding wooden token, this entire beautiful immortal mansion and the entire Immortal Island would really belong to him!

There was also the "blue sword technique". Xia ruofei could not help but think of the legendary swordsmen like the red – Striped maiden and Kong Kong 'er, who rode their flying swords and took people's heads from a thousand miles away.

Of course, there was also the sword Kinesis flight. Just thinking about it made him feel excited ...

This was too wonderful!

Bi youzi continued to introduce the wooden token, ""Junior, you must be very curious about how to refine this mansion – guarding wooden tablet, right?"

Even though he knew that the image in front of him was just a '3D projection', Xia ruofei could not help but nod and stare at bi youzi.

Bi youzi smiled and said, ""The method is very simple. You only need to drip a drop of blood on the wooden token ..."

Xia ruofei immediately forced out a drop of blood from his fingertip.

Before he could drip the drop of blood onto the wooden token, bi youzi continued, ""After you drip your blood essence into it, the wooden token will automatically enter your body. Of course, there would be two possibilities. One was to start refining the wooden token; The other possibility is that your body will explode and you will die!"

The drop of blood on Xia ruofei's fingertip had already started to drip down. After hearing bi youzi's words, he was so frightened that he immediately waved his hand and a wisp of true Qi swept the drop of blood away.

Then, Xia ruofei couldn't help but smile bitterly and said, ""Daoist priest bi youzi! Master bi! Can you please not take such a long breath when you speak! You'll die!"

Bi youzi's image paused for a moment before he chuckled, ""Junior, are you scared? I hope you haven't rashly performed the blood contract before listening to me ..."

Xia ruofei looked at bi youzi unhappily, thinking to himself, "what a senior!" Was it really fun to play with people like this?

Bi youzi smiled and continued, ""Actually, as long as you're cultivating the Orthodox cultivation method of my Dao sect, you don't have to worry! After the mansion – guarding wooden token is kept in your body, it will automatically sense the vital Qi in your dantian. As long as it's the vital Qi cultivated by my Orthodox cultivation technique, there won't be any problems. And if you're an evil spirit ..."

At this point, bi youzi's expression changed and he said seriously, ""I advise you to take the first two treasures and leave my green travel Immortal Island as soon as possible! Don't try your luck, the mansion – guarding wooden token is very sensitive to vital Qi. Once it senses evil vital Qi, it will trigger the most powerful attack formation on the wooden token, blowing you into pieces from the inside out!"

After hearing this, Xia ruofei couldn't help but shiver. One must know that if this mansion – guarding wooden token was kept in the body, it would appear in the dantian. One could imagine that if it released the strongest array attack in the fragile dantian, even a nascent soul cultivator would die!

Xia ruofei also understood bi youzi's way of doing things. At first glance, Daoist priest bi youzi was obviously cultivating the Orthodox Daoist technique. Although he was going to escape to the starry sky, he definitely didn't want the immortal mansion he left behind to fall into the hands of an evil cultivator.

As for the blue travel immortal sword and the origin crystal, in bi youzi's eyes, their value was probably just ordinary. He must have taken the truly precious treasures with him. And among the things he left behind, the most precious was obviously this mansion – guarding wooden tablet. The flying sword and

the origin crystal were only a very unremarkable part of all the wealth he had left behind. If someone from the evil way really came here by fate, bi youzi wouldn't mind giving him two gifts. But if he wanted to take away the immortal Island and immortal abode together, he couldn't!

However, Xia ruofei started to feel conflicted.

Although he knew that the possibility of the 'great Dao Arts' that he cultivated was extremely low, and that his true Qi naturally contained a brilliant righteous aura, there was absolutely no cold aura, no matter how he looked at it, it could not be an evil technique.

However, there was a very serious problem here. Bi youzi had always tacitly agreed that those who could enter this immortal mansion were at least peak Jindan stage cultivators. Therefore, he had always mentioned the "primordial Qi" that only cultivators above the Jindan stage could possess, and not the "true Qi" of Qi refining stage cultivators.

However, Xia ruofei was only a Qi refining cultivator. He only had true Qi in his body.

Could the mansion – guarding wooden token distinguish the nature of genuine Qi? If it mistook the true Qi in his body for demonic Qi of the evil path, wouldn't he die in vain?

Xia ruofei looked at the residence – guarding wooden token that was emitting a milky white light, feeling extremely conflicted.

To drip blood or not to drip blood, this was the question!

At this moment, bi youzi spoke again ...

Chapter 2156 Wealth comes from danger (1)

"Junior," bi youzi said with a serious expression, "I have three things to remind you of. First, the mansion – guarding wooden token would stay here for an hour. If you didn't drip your blood on it within an hour, it would automatically escape and hide in a powerful restriction in the immortal mansion, waiting for the next fated person. By the way, don't try to put it into a storage treasure. Before it recognizes you as its master, it can't be put into a storage treasure. Of course, if you don't believe me, you can try ..."

After Xia ruofei heard this, he really tried it and realized that this wooden token really couldn't be stored in the spirit map space. It seemed like it was impossible to take this wooden token away and refine it after he broke through to the Golden core stage and transformed the genuine Qi in his body into vital Qi.

Bi youzi continued, "second, the green immortal mansion can be big or small. After you completely refine the mansion – guarding wooden token, you can even take the immortal mansion into your body and take it away." Of course, dripping blood on it to recognize it as its master was only the first step. To completely refine the mansion – guarding wooden token, one needed to be at least in the Yuanying stage. But it doesn't matter, as long as you refine it, you'll be able to use some of the restrictions. Even if you're ten thousand miles away, you'll be able to sense the location of the immortal Island, and you can come to collect it at any time in the future. "

Bi youzi paused for a moment before saying, "Third, if you don't do it within an hour, not only will the mansion – guarding wooden token disappear, you will also be directly teleported out of The Enchanted Island. You will probably never find The Enchanted Island again in your life."

When Xia ruofei heard this, he vaguely understood. This Island might not be in a fixed location. Also, because of the celestial formation, it would not be discovered by satellites or other detection means. It would appear randomly in the vast sea and find the island again after leaving. The probability of this was very low and could be ignored.

Bi youzi smiled and said, "alright, junior, that's all I have to say!" How should you choose, please consider it yourself! I'll give you one last warning, don't take any chances! Even if it was me, it would be very difficult for me to keep my life when the mansion – guarding wooden tablet attacks from the dantian!"

After he finished speaking, bi youzi's image went back to the 'paused' state. Obviously, he had said all that he needed to say. Next time, only when the wooden token recognized its owner by blood or some other conditions were met would other video content be triggered.

Xia ruofei looked at the wooden token in front of him and found it difficult to make a decision.

In half an hour, which was only an hour, he had to make a decision.

If he gave up, then he would basically miss this precious Immortal Island and immortal abode for the rest of his life.

Although he had obtained a flying sword and two hundred precious origin crystals, which was already an unimaginable amount of cultivation resources, he was still somewhat unwilling to give up on such a huge immortal mansion and the many treasures inside.

Furthermore, he had come here to search for the world stone. However, even after opening all three boxes, there was still no trace of the world stone! If he didn't refine that wooden token, he would be directly teleported out of the immortal Island.

He believed that by then, he would have found the immortal Island by the time he turned back. If he looked at it from the perspective of finding the world stone, it would be equivalent to wasting his efforts.

However, Xia ruofei could not guarantee what would happen if he were to bind it with blood. After all, he did not have any vital Qi in his body. If the mansion – guarding wooden token misjudged him, no one would know even if he died of injustice.

This immortal Island was on the vast ocean. Puyol and the others had lived here for seven to eight years, but no one had discovered it. If he really died on this Island, people in the outside world would definitely think that he had gone missing. After all, he had sailed out to sea alone and then disappeared.

Xia ruofei looked at the wooden token that was giving off a milky white glow, constantly weighing the pros and cons.

As time passed, beads of sweat appeared on his forehead, and his expression was extremely conflicted.

Bi youzi had given him an hour, and Xia ruofei naturally could not wait indefinitely.

He gritted his teeth and stared at the wooden tablet, finally making up his mind.

“Let’s do it!” Xia ruofei shouted loudly to encourage himself.

Cultivating was a heaven – defying act. If he didn’t even have the courage, what was the point of cultivating? He had been cultivating the Orthodox ‘great Dao Arts’, and he had no ulterior motives. What was there to be afraid of?

If such a good opportunity was placed in front of them and they let it slip by because of cowardice, then wouldn’t they live in regret for the rest of their lives? In fact, it might even affect his Dao heart.

Xia ruofei kept giving himself psychological hints. His eyes gradually became more determined. He first summoned the spirit map scroll from his palm and held it tightly in his hand. Then, he used his genuine Qi to force out a drop of blood and dripped it on the wooden board.

At this moment, Xia ruofei was also very nervous. He stared at the wooden token without blinking.

The blood immediately seeped into the wooden token after it fell on it. At the same time, he immediately felt that he had established a very close mental connection with the wooden token.

Of course, this connection was somewhat different from the connection between him and the spirit map and painting scroll. It was even different from the connection with the blue immortal sword. He could feel that this wooden token was not under his control for the time being. It was only a trace of thought connection.

## Chapter 2157 Wealth comes from danger (2)

After the mansion – guarding wooden token absorbed Xia ruofei’s blood, the milky white glow on it suddenly increased.

The next moment, the wooden token floated up. After a short pause, it turned into a white light and entered Xia ruofei’s body.

With Xia ruofei’s reaction speed, even if a bullet was shot at him, he could subconsciously avoid it. However, he could only watch helplessly as the mansion – guarding wooden tablet entered his body. He did not even have a subconscious reaction.

Xia ruofei could feel the wooden token entering his body and appearing in his dantian.

Then, the house – guarding wooden tablet began to emit a mysterious aura. This aura seemed to have intelligence and wrapped around the true Qi in Xia ruofei’s dantian. Then, this aura began to change continuously ...

Xia ruofei didn’t even dare to breathe as he clenched the painting in his hand.

He was thinking that if the wooden token determined that he was not a righteous cultivator and triggered the attack array on the wooden token, he would immediately hide in the spirit map space.

Although he had no way to resist the mansion – guarding wooden token’s attack from his dantian, and it was almost impossible for his dantian to be preserved, it was likely to be shattered in an instant. However, the probability of his survival was slightly higher in the space.

After all, he could use the power of the entire space inside. He was almost the absolute master. By then, he might be able to use the invisible spatial force to dissolve this attack. Even if his cultivation was destroyed, he could at least keep his life.

Hence, Xia ruofei was highly focused and paid close attention to the status of the wooden token at every moment.

Soon, Xia ruofei realized that the aura released by the mansion – guarding wooden token had changed and was almost the same as the genuine Qi in his dantian.

Could it be that this aura also had the ability to learn and copy? Xia ruofei suddenly had an idea.

After the evolution, the aura quickly returned to the wooden token.

The mansion – guarding wooden tablet sat quietly in Xia ruofei's dantian, emitting a milky white light. After the aura returned to the wooden token, the Halo suddenly grew a little.

Xia ruofei was so scared that he almost teleported into the spirit map space to look at him. He thought that the wooden token had started to attack.

Fortunately, at this moment, bi youzi, who had been frozen in a daze, spoke again.

He had a very kind smile on his face and said, ""Congratulations! Junior, you have already obtained the recognition of the mansion – guarding wooden token! This means that you are a cultivator of the same path as me! I, bi youzi, am very pleased that my inheritance in the human world can be handed over to a fellow cultivator!"

After hearing this, Xia ruofei couldn't help but let out a long sigh of relief. The heavy stone in his heart was finally lifted.

It was obvious that bi youzi's image would only be triggered after the residence – guarding wooden token confirmed that the person who performed the blood contract was not an evil demon.

Xia ruofei only realized then that the back of his shirt was already drenched in sweat.

This process didn't last long, but he felt like a hundred years had passed. The mental pressure was too great.

After the mansion – guarding wooden token confirmed Xia ruofei's identity as a righteous cultivator, he could clearly feel that his spiritual connection with the token had become closer. Without anyone's reminder, Xia ruofei already knew how to refine this wooden token.

In fact, the method was very simple. The first step was to drip blood on it to recognize it as its master. After the wooden token was put into the dantian, it was a painstaking process. One needed to constantly inject mental power into the wooden token and refine it bit by bit.

The time required for this process was inversely proportional to one's cultivation.

If Xia ruofei was a nascent soul realm cultivator, the refining process would be very short. At most, it would only take one or two days.

If Xia ruofei's cultivation was higher, he could even refine the wooden token with a single thought.

At that level, even an evil cultivator would be able to easily refine the mansion – guarding wooden token’s attack array, which might not be able to hurt him.

Of course, if one’s cultivation had reached such a high level, this small green immortal mansion would probably not have any attraction.

Xia ruofei was only in the Qi refining stage and had not even cultivated the most basic vital Qi. Although his spiritual power cultivation was higher than his genuine Qi cultivation, there was a limit to it. If he wanted to rely on this little bit of cultivation to completely refine this wooden token, he did not know how long he would have to wait.

However, Xia ruofei was not in a hurry. He had already kept the mansion – guarding wooden token in his dantian. In other words, this immortal mansion was already in his pocket. Even after he left, the immortal Island would be completely closed until he had completely refined the mansion – guarding wooden token and came back to take the immortal mansion.

Even if it would take a long time, it was only a matter of time for Xia ruofei. Moreover, he had obtained precious origin crystals this time. His cultivation would definitely progress at a tremendous pace. As his cultivation level increased, the speed at which he refined the wooden token would also increase.

Xia ruofei continued to inject his spiritual power into the wooden token happily.

Through this direct test, Xia ruofei also felt the difficulty of refining the residence – guarding wooden token.

Although it was only for a short while, he had poured all of his spiritual power into it, and the consumption was not small. However, he felt that the progress of refining the mansion – guarding wooden token was not even one – millionth.

It could be seen that to completely refine this wooden token, how big of a project would it be?

Even if Xia ruofei could continuously maintain his full spiritual power output without rest, it would probably take a few years.

And Xia ruofei couldn’t possibly not eat or sleep. He couldn’t just sit and refine the wooden token without doing anything. Moreover, his spiritual power couldn’t withstand such a continuous output! Therefore, it might take even longer.

At this moment, bi youzi revealed a complicated expression and said, “Junior, I’ll give you everything that I’ve left behind ... Accept my kindness and tie my karma. Remember, I, bi youzi, am a third generation disciple of the Jade void temple. If you meet any Junior Disciples of the Jade void temple in the future, if you have the ability, help take care of them. Go! Hahaha ...”

Xia ruofei looked at bi youzi, who was on the throne. Bi youzi laughed carefreely, and then his image began to slowly dissipate, finally returning to nothingness.

“Jade void temple ...” Xia ruofei muttered to himself. “Senior bi youzi, I’ll remember it!” However, there are many Taoist temples in China called Jade void temple! How do I know which one is your sect?”

Xia ruofei didn’t know that there were many Taoist temples called Jade void temple. However, more than a thousand years ago in the cultivation world, Jade void temple was the only one.

The real cultivators of the Jade void temple were naturally different from the Taoist priests in the Taoist temple. Of course, most of them had already hidden from the world. The chances of Xia ruofei meeting them were very low.

After bi youzi's image disappeared, Xia ruofei did not put all his effort into refining the residence – guarding wooden token because he knew that it was not something that could be done in a short period of time. He only maintained a wisp of mental energy and continuously penetrated the wooden token. Most of his energy was still focused on searching for the realm stone.

One had to know that the first goal of this trip had not yet been achieved! If they still could not find the realm stone after spending so much effort, Xia ruofei would not mind. After all, his harvest was already big enough. However, wouldn't that white realm Fox go crazy?

Xia ruofei wasn't worried that there were no realm stones in green touring immortal abode because the White realm Fox and the sensing Jade Leaf couldn't have made a mistake at the same time. The sensing Jade Leaf on his chest was still burning hot!

What he was worried about was that the world stone was like the other treasures he had seen before, protected by a powerful array barrier.

Although he had already taken the mansion – guarding wooden tablet, the degree of refining it was extremely low. After all, he was only a Qi condensation cultivator. He basically had no way of activating any of the immortal estate's restrictions.

Of course, it was even more impossible for him to destroy it by force with his cultivation base.

If the world stone was really within the restriction, he could only watch helplessly ...

Chapter 2158 The world stone in the storage box (1)

"Where could the world stone be?" Xia ruofei muttered to himself.

In fact, he didn't need to spend much effort to look for it because the White realm Fox in the space was already very anxious. It was pointing and giving directions to Xia ruofei.

Now that Xia ruofei had bound the mansion – guarding wooden token with his blood, he was equivalent to half the owner of the immortal mansion. Although he could not open any of the restrictions here because of his low level of refinement, at least the array in the immortal mansion would not attack him on its own because of the aura of the mansion – guarding wooden token in his dantian.

Therefore, Xia ruofei's safety in the green touring immortal abode had increased by a lot. There was basically no danger to his life. Of course, the premise was that he didn't take the initiative to attack those dangerous restrictions.

Xia ruofei followed the direction pointed out by the white fox and walked to the side hall.

The palace was huge. The side halls on both sides of the main hall were also very spacious. Xia ruofei could not understand why a cultivator would build such a huge Palace. If he were to sleep in such an empty place, he would be terrified!

In comparison, Xia ruofei still felt that the exquisite and small buildings outside were more to his liking.

Of course, this bi youzi was at least at the nascent Soul Stage, or even higher. Xia ruofei could not guess the thoughts of an expert of this level.

There were many things in the side hall as well. On the way, Xia ruofei found three or four extraordinary small boxes, a gourd that gave off a mysterious aura, and a Jade slip. However, they were all protected by formations and restrictions. Xia ruofei could not even get close to them, let alone retrieve the treasures.

Xia ruofei couldn't help but be speechless, thinking that this senior bi youzi was too stingy!

He even suspected that there were restrictions protecting the tables and chairs in this green touring immortal mansion.

In fact, this wasn't an exaggeration at all. Many of the tables and chairs in the immortal mansion were made of very precious ores and raw materials. These things were rare treasures in the eyes of Qi condensation and even golden core cultivators!

Of course, Xia ruofei only grumbled a little. He no longer felt as uncomfortable as before. On the contrary, the more treasures he found, the happier he was.

Because he knew very well that these things were only temporarily unavailable, but they would be his sooner or later, and no one could take them away.

Xia ruofei's main goal was to find the realm stone, so he did not stay in the side hall for long. Under the guidance of the White realm Fox, he passed through the side hall and arrived at the back of the palace.

The left, right, and front were all spacious halls, while the back half were rooms.

With the "super radar" of the white fox, Xia ruofei went straight to his target.

Soon, he arrived at the door of a room.

"There are world stones inside?" Xia ruofei asked.

The white fox nodded its head like a chicken pecking at rice.

Xia ruofei smiled and pushed the door open.

Fortunately, bi youzi was not 'crazy' enough to seal every room with arrays and restrictions. Xia ruofei pushed the door open easily.

He walked into the room.

The room was not very big. It was only about 30 to 40 square meters. If such a room was placed in a big city where every inch of land was worth its weight in gold, the developer would definitely promote it as a "super large bedroom" or something. However, in this magnificent Palace, it was indeed a very small room.

There was almost nothing in the room except for a few boxes in the corner.

Of course, even after a thousand years, the whole immortal mansion was still spotless, and this room was no exception. The boxes still looked as if they were new.

The white fox impatiently asked Xia ruofei to open the box.

However, Xia ruofei's heart sank slightly. Based on his experience, this kind of box would be protected by a formation. If the world stone was inside, it would not be easy to get it.

However, since they were already here, they had to try it out to find out. Xia ruofei walked over.

Just as he was about to open the first box, the White realm Fox in the medium kept shaking its head, indicating that the realm stone was not inside.

Although he was stopped by the white fox, Xia ruofei could still feel a layer of energy barrier around the box.

He was even more pessimistic about it. However, he still followed the guidance of the white fox and walked toward the third box on the left.

"I hope this box can be opened directly!" Xia ruofei said in his heart.

He slowly reached out to the box, and as his hand got closer to the box, he became more and more nervous.

Even when his fingers touched the lid of the box, he did not encounter any array or barrier. He could not help but let out a sigh of relief, and at the same time felt a burst of unexpected joy.

He didn't expect that this box really wasn't protected by a barrier. This was the first box that could be opened directly! If there were really world stones inside, then his luck was really too good!

Xia ruofei's heart was pounding. No matter how many treasures he obtained, he was still most concerned about the world stone. This was because it was related to whether the spirit map space could continue to upgrade.

He had always wanted to know what it would be like when the spirit map space was upgraded to its ultimate form.

Chapter 2159 The world stone in the sundry box (2)

What would it become if the area of the space continued to expand?

A huge continent? The vast ocean? Or even ... A planet? Or was it a bigger and wider space?

The spirit map space was Xia ruofei's capital to settle down. It was his core interest. Everything related to the spirit map space was his top priority.

His hands trembled slightly as he opened the box.

There were no restrictions or barriers, and no attack arrays were triggered. The box was just quietly placed there, no different from an ordinary farmer's toolbox.

Xia ruofei's eyes fell on the inside of the cage.

It really did look a bit like a "toolbox." The things inside were a mess. There were a few pieces of good quality Jade, a few half – finished sword blanks, and even a stack of yellow joss paper used to draw talismans. In short, there were all kinds of things inside, but they didn't seem to be anything important.

They were more like some miscellaneous things. No wonder they were so casually placed together without any formation or restriction.

Even Xia ruofei, a Qi refining cultivator, didn't feel that these things were very precious.

Of course, Xia ruofei's main goal was the world stone.

He took out the "junk" and put them aside. Soon, his eyes lit up because he had already seen a thin layer of black stones at the bottom of the box. That familiar aura told him that this was the world stone that he had been searching for.

It really didn't take much effort to find it!

Xia ruofei couldn't wait to use his spiritual power to scan it and immediately got an accurate number. 35 pieces!

His heart could not help but beat faster. This was the first time he had obtained so many world stones in one go.

With this batch of world stones, it wouldn't be a problem for him to upgrade his space by one or two levels!

Xia ruofei didn't know why Daoist priest bi youzi had classified the world stone as 'junk'. It had been placed in the cage without any restriction.

He could only vaguely guess that the world stone only involved relatively high – Level spatial laws. Although bi youzi's cultivation level was not bad, his comprehension of spatial laws might not be deep. It was very likely that he did not even know how precious the world stone was, which was why he had casually placed it with these items.

Of course, this was just Xia ruofei's guess. Only bi youzi himself knew the exact situation.

The White realmfox in the medium was also jumping for joy and was eager to' divide the loot '.

Xia ruofei waved his hand and all the world stones at the bottom of the box were kept into the spirit map space.

Of course, he didn't let the space directly absorb the world stone. He was still thinking about the threat of that giant python and didn't dare to stay in green touring immortal abode for too long.

In addition, he didn't know how long it would take for the space to absorb the world stone and upgrade. He thought that it would be better to wait until he left green Immortal Island safely and reached the vast sea where no one would disturb him. Then, he would let the space absorb it in peace.

After Xia ruofei kept the world stone, he walked out of the palace.

He knew that there might be some things in this immortal abode that weren't protected by array formations, just like this world stone. If he searched carefully, there should still be a chance to "pick up" the leftovers, but he didn't intend to do that.

The main thing was that it was too much of a waste of time. The things in this immortal mansion would be his sooner or later, so why bother to search for them now? As long as he completely refined the

mansion – guarding wooden token, no corner of the entire immortal mansion would be able to escape the search of his mind. As long as his mind moved slightly, he could take anything he wanted.

If the purpleblood spirit Python was still thinking about the pond, it would have returned to the pond by now. However, Xia ruofei still felt that it was a fluke. He decided to leave as soon as possible.

As he flew toward the stone door, he sent a wisp of his consciousness into the spirit map space.

The White realmfox was looking at the pile of realm stones floating in the air above the mountain and sea realm, protected by layers of small spaces. It was drooling non – stop.

With a thought, Xia ruofei took out ten world stones and pushed them in front of the white fox.

Seeing this, the White realmfox was stunned for a moment. Then, it immediately showed a very dissatisfied look, waving its forelimbs and squeaking.

Xia ruofei used telepathy. "Little guy, I've already given you 30%. Are you still not satisfied?"

The White realmfox was trying its best to gesture with its forelimbs. However, each of its forelimbs only had four toes. No matter how it gestured, it could not accurately express its meaning.

But Xia ruofei understood. He sneered, "Little guy, what are you thinking? And you want a 50 – 50 split?"

The White realm Fox squeaked and gestured.

Xia ruofei replied telepathically, "yes!" You're the one who sensed the world stone, but what could you have sensed before the appearance of the green Immortal Island? You only sensed it after I was sucked in by the White mist of the immortal Island. Even without you, wouldn't I have been able to explore this green immortal mansion? And after I refine the mansion – guarding wooden token, I can take anything in the entire green touring immortal abode as I please!"

Naturally, the White realmfox was not satisfied with the distribution ratio. It tried to argue with Xia ruofei using its body language.

Xia ruofei said, "little guy, even if we find these world stones under your guidance, I can't possibly split it 50 – 50 with you!" You'll be in charge of sensing the location of the world stone. I'll face all the dangers we'll encounter in the process of searching for the world stone alone. Tell me honestly, without me, even if you were lucky enough to find this immortal Island, would you have been able to escape the attack of the giant python? Can you understand the principle of the protective barrier? That's impossible! So if it were you, you could only watch helplessly. You wouldn't even be able to find the door to the immortal estate, much less find the world stone. I've paid so much, shouldn't I get more?"

Xia ruofei's glib tongue rendered the white fox speechless.

Xia ruofei looked at the unwilling expression on the white fox's face. He smiled and said telepathically, "Alright, alright! With such a small stomach, it won't be easy for you to digest too many world stones at once ... I promise you that in the future when we work together, I'll at least give you a 30% share. If you contribute more, I'll raise it to 40%. For example ... Unlike this time when I accidentally came to the immortal Island, I relied on your sensing ability to discover the existence of the world stone. Without your sensing ability, I might have missed the opportunity to obtain the world stone. In that

case, I'll give you an extra ten percent! However, I definitely won't agree to a 50 – 50 split. At most, I'll give you 40%! After all, I contributed more!"

Hearing this, the White realmfox reluctantly nodded.

After accepting this split, the White realmfox looked at the twenty – five world stones floating in the air with some envy. Finally, it accepted the reality and turned to look at the ten world stones that belonged to it.

The White realmfox was like a reincarnated Hungry Ghost. With a wave of its front paw, it sucked all ten world stones over. Then, it opened its mouth and began to chew. After a short while, all ten world stones were eaten by it.

Even for an adult, if he were to eat a large amount of food like ten world stones, his stomach would probably feel bloated and uncomfortable. However, this little fellow didn't look that big, yet he could easily eat so much. Xia ruofei couldn't help but be amazed.

Of course, he was more concerned about the world stone. It had actually been eaten by the realm Fox as food. What a waste of a heavenly treasure. Of all the things it could have used as food, it had to use such a precious world stone ...

After the White realm Fox ate the realm stone, it rubbed its slightly bulging stomach and lay down on the spot. It squinted its eyes and revealed a very enjoyable expression.

Slowly, it seemed to have entered a special state, and even its breathing became very slow, and mysterious ripples circulated around its body.

#### Chapter 2160 Escape from the snake's belly (1)

In reality, Xia ruofei had only diverted a small part of his attention to the spirit map space. His speed was not slow. While he was splitting the loot with the White realmfox, he had already opened the door of the palace, passed through the immortal abode, and returned to the position of the stone door that led to the immortal abode.

After he refined the mansion – guarding wooden token, although he couldn't use, open, or close almost all the formations and restrictions, there was no danger in the immortal mansion, so he didn't have to be as careful as when he came, and his speed naturally increased a lot.

Xia ruofei could sense that although the white fox was not moving, its vital signs were very stable and it was full of vitality. He was relieved and focused all his attention on the outside world.

After Xia ruofei had passed through, the heavy stone door closed with a loud bang.

He moved quickly along the tunnel and made a slight adjustment in front of the water – proof array at the end of the tunnel. After taking a deep breath, he directly passed through it.

As soon as he entered the cold water, Xia ruofei could feel the huge water pressure coming from all directions.

He was already prepared, and as soon as he entered the water, he immediately controlled his body to swim to the surface.

With the help of the water's buoyancy, Xia ruofei did not need to exert much effort. Moreover, his body was strong. He did not need to control his speed and float up slowly like ordinary people to prevent his body from being injured by sudden changes in pressure difference. Hence, he floated up much faster than when he dived.

Xia ruofei was like an agile fish swimming up the water.

The corners of his mouth couldn't help but curve up, and his heart was filled with the joy of his harvest.

Suddenly, the smile on his face froze, and he immediately bent his body in the water, forcibly stopping the trend of rising, and turned to dive down desperately.

This was because when Xia ruofei had raised his head to look at the water, he had noticed a huge shadow on the surface of the water. He had recognized it almost immediately. It was the purpleblood spirit Python!

Xia ruofei cursed in his heart as he dived in. F \* ck! What was going on? Wasn't there a formation barrier? How did that big guy come in? Furthermore, he was guarding the pool. Wasn't this like catching a turtle in a jar? Pei Pei Pei! This metaphor was not appropriate!

Although he had accidentally compared himself to a 'turtle' in his anger, there was nothing wrong with that logic. With the purple – blooded spiritual Python on top, Xia ruofei would not be able to get out.

And this wasn't even the worst case scenario.

Xia ruofei quickly realized that just as he 'braked' and turned to dive, the purple – blooded spiritual Python also moved and quickly chased him down.

It turned out that after devouring most of the survivors, the purple – blooded spirit Python had habitually returned to the pool, mainly because of the green immortal mansion below. The world Energy here was the richest, and it was also the best place to absorb the moonlight.

The worst part was that bi youzi had left the purple – blooded spirit Python inside the barrier to guard the pool. It was also a test for the lucky cultivators of the younger generation who had entered the immortal Island. Thus, he had engraved array patterns on the purple – blooded spirit Python's body. This way, the purple – blooded spirit Python could not leave the array, but it could return to the pool from the outside without any obstacles.

Naturally, the purpleblood spirit Python returned to the pond where it had lived for more than a thousand years and settled down.

Its cultivation was much higher than Xia ruofei 's. When Xia ruofei swam up and noticed it, it naturally felt the movement at the bottom of the water and noticed Xia ruofei immediately.

If it wasn't for the fact that the purpleblood spirit Python's attention was focused on the outside of the formation, Xia ruofei would have been discovered earlier.

When the purple – blooded spiritual Python saw Xia ruofei appear from the water below, it flew into a rage. It immediately extended its long body and dived into the water, chasing after Xia ruofei.

In the water, the purpleblood spirit Python's speed was much faster than Xia ruofei's. Xia ruofei used all his strength to dive down, hoping to return to the water – proof formation.

As long as he could hide in green touring immortal mansion, he was confident that he could stop the purple blood spirit Python, Lao Ai. At least, the purple blood spirit Python would not be able to break through the stone door.

However, the purpleblood spirit Python's speed in the water was simply too fast. This was its home ground, and the distance between it and Xia ruofei was rapidly shrinking.

In just a few seconds, Xia ruofei immediately judged that he would not be able to make it to the entrance of the cave in time.

At this speed, the purple – blooded spiritual Python would catch up to him in ten seconds at most.

Xia ruofei could not help but feel bitter. This was really a bit of extreme joy turning into sorrow!

He had always believed that even if the purpleblood spirit Python returned, it would only be blocked outside the formation. If that was the case, he could still think of a way after he returned to the surface.

As such, his vigilance had actually been lowered during the process of floating up. Otherwise, he would have been able to discover the purpleblood spiritual Python earlier.

It's too late to say all this now. Xia ruofei could feel the water rippling behind him. The purpleblood spirit Python was getting closer and closer to him.

He could truly feel the threat of death.

After at most five to six seconds, Xia ruofei felt a suction force and his diving speed was greatly reduced.

In an instant, the purpleblood spirit Python had caught up to him. Xia ruofei turned around and saw that the giant python had opened its mouth wide. Needless to say, it must have opened its mouth to suck back, which was why Xia ruofei's movement had been blocked.
