

God tier Farm 2171

Chapter 2171 A skyrocketing cultivation level (1)

The lifeboat had already approached the wooden raft.

Puyol and the other three had already recovered from the shock of Xia ruofei's sudden disappearance. They kept waving at the people on the lifeboat with an excited look.

Xia ruofei was very satisfied with their performance.

This Puyol looked very boorish, but to be able to lead the entire survivor camp, it wasn't just because of his high martial strength, but also because he was a very smart person. As for the other three survivors, in order not to cause more trouble, they would probably pretend that Xia ruofei had never appeared.

Of course, even if they were to spill the beans, they would still be in trouble. Xia ruofei did not leave any traces behind, so there was no need to worry.

Xia ruofei's spiritual power detected that the lifeboat was approaching.

That lifeboat was a bit smaller than a wooden raft. When the side of the boat approached the wooden raft, the crew threw the rope up.

Puyol and the others quickly took the rope and tied the raft and the lifeboat firmly together.

The crew asked a few simple questions. In fact, Puyol and the others had not been rich for many years. They had not shaved for a long time, and their clothes were ragged like savages. In addition, there was no ship around, so the possibility of them being Pirates was extremely low.

After the routine questioning, the crew took Puyol and the others to the lifeboats.

Purjue asked Dave and the other two to board the boat first. He then walked over and picked up John Junior, handing him over to Dave who was on the lifeboat.

Apart from a tattered canvas bag that contained a few mementos, she didn't take anything else with her. If she could return to civilized society, these things would basically be trash. No one would want them even if they were thrown on the side of the road.

When the crew saw that there was a baby on the raft, they were slightly surprised, but they did not ask much. They only asked Puyol to untie the rope and throw him back into the lifeboat. Then, they reached out and pulled Puyol onto the boat, and the lifeboat began to return to the big cruise ship.

As for the wooden raft, it was naturally abandoned at sea.

Xia ruofei's spirit painting was stuck at the bottom of the raft. He could sense that the lifeboat was getting further and further away until it was out of the range of his spiritual power. With a thought, he returned to the outside world from the medium.

Xia ruofei held onto the bottom of the raft with one hand and kept the painting in his body. Then, he went to the other side based on his memory. With the supplies on the deck and the cover of the tent, he threw the painting into the tent.

Then, he entered the medium again and immediately came out.

This way, he arrived at the tent without anyone knowing.

With the cover of the tent, Xia ruofei could easily observe the situation on the cruise ship through the small transparent window on the tent.

The lifeboat reached the bottom of the cruise ship and was quickly lifted up.

Puyol and the others were also picked up on the cruise ship.

Xia ruofei could finally relax. As long as they were not so unlucky and the cruise ship did not meet with a sea disaster, they could be sure that they had been rescued and could successfully return to civilized society and reunite with their families.

As for how they were going to explain the disaster in the Atlantic Ocean, only to appear in the Indian Ocean a few years later, that was not something Xia ruofei could care about.

In any case, in the long history of maritime and aviation, similar situations had happened before. Just the mysterious Bermuda ocean alone had countless missing ships and planes.

In history, there was a plane that disappeared in a storm. Everyone concluded that the plane had crashed and no one survived. However, many years later, the plane landed, and the people on the plane only felt that it had been a while.

It was also said that a group of soldiers had walked into the thick fog and disappeared without a trace. They had reappeared many years later, but to their senses, they had only been walking in the thick fog for a short while.

Whether it was time travel or space travel, the experts would always find various explanations, such as wormholes and so on.

In short, Xia ruofei did not need to care about what Puyol and the rest were going to face next.

The cruise ship quickly lifted its anchor and sailed away. With the sound of the whistle, it gradually disappeared from Xia ruofei's sight.

Xia ruofei heaved a sigh of relief. He had finally resolved one thing.

He had always felt guilty towards these survivors. After all, if he had not opened the array barrier, so many innocent survivors would not have died in the snake's stomach. This time, he could help Puyol and the other lucky ones to return to civilized society. It could be considered as compensation to them.

Xia ruofei was lying on the wooden raft that was drifting with the waves. Under him was a soft sleeping bag. The tent was filled with the unique fragrance of a baby.

After resting for a while, he sat up and took out the Golden core from the space with a flip of his hand.

After Puyol and the others left, no one would disturb Xia ruofei on the vast sea. He decided to absorb the Golden elixir first.

As for why they were on this simple raft instead of the comfortable big yacht, the reason was simple. The last time Xia ruofei had stored the yacht in the medium at the critical moment, he felt that his mental power was a little beyond his control. He still had lingering fears when he thought about the feeling of his head splitting open. He really did not want to experience it again.

Chapter 2172 A skyrocketing cultivation level (2)

Although he had to bring the azmu yacht to the outside world, or else there would be no way to return to land, he would drag it for as long as he could. He was not in a hurry anyway.

According to Xia Qing, he should be able to directly absorb the pure energy in the Golden core.

Xia ruofei adjusted his state and sat cross – legged in the tent on the raft. He held the Golden core in his hands and silently circulated the “great Dao technique”.

As soon as the technique started, Xia ruofei felt a huge amount of energy flowing into his meridians.

If ordinary cultivators cultivated at midnight and dawn, absorbing the poor spiritual Qi was like an intermittent stream, then cultivating with spiritual crystals was like a wide river. If he used origin crystals, it would be like a surging River.

However, whether he used spirit crystals or origin crystals, they paled in comparison to absorbing the Golden core.

Absorbing the energy of the Golden elixir gave Xia ruofei the feeling that the energy was like an endless wave, or like a large river during a flood. He didn’t need to absorb it deliberately as it just gushed into his body.

Xia ruofei’s Foundation in cultivation was very solid. His meridians were also very wide and tough. However, when he absorbed the energy of the Golden core this time, he actually felt that his meridians were slightly swollen and even ached.

It was obvious that the energy had reached the limit that his meridians could withstand.

Xia ruofei’s heart skipped a beat and he quickly slowed down his absorption.

Even so, his cultivation speed was still many times faster than when he usually used spiritual crystals to cultivate.

Normally, after one circulation, the true Qi in the dantian would increase by a little. Unless one deliberately checked, the total amount of true Qi would actually change very little.

However, it was completely different today.

Xia ruofei could clearly feel that his genuine Qi had increased by 10% after he had only circulated his Qi according to the technique.

Xia ruofei was shocked by the absorption rate.

This meant that there was basically no loss of energy, and the amount of energy absorbed would be converted into true Qi. It was simply a little unbelievable.

Although the spiritual energy in a spiritual crystal was very pure, it would always be consumed during cultivation. Moreover, a large amount of spiritual energy could only be transformed into a trace of true Qi.

The energy of this golden core was actually primordial Qi, which was even one level higher than true Qi. Therefore, after being absorbed, it could basically be converted into true Qi.

In this way, how could the cultivation efficiency not be high?

Xia ruofei had only cultivated for a short while and he could already feel that the genuine Qi in his dantian was almost full.

This meant that his cultivation had already reached the peak of refined Qi Level 6.

Xia ruofei didn't stop. He continued to use the great Dao technique.

His dantian continued to produce true Qi. Since it had reached saturation, the true Qi in his dantian began to compress.

Without much effort, Xia ruofei felt the true Qi in his dantian suddenly shrink. The originally full dantian became empty again.

Although the amount of true Qi that had been compressed seemed to have decreased, the energy contained in each wisp of true Qi was several times more than before.

He felt refreshed, and his entire person felt like he was floating.

In this short period of time, his cultivation had already broken through to refined Qi Level 7.

Moreover, he almost didn't feel any bottlenecks. The process of breaking through was even more smooth, with no obstacles at all. Just like that, he naturally reached the realm of refined Qi Level 7.

Xia ruofei opened his eyes and looked at the Golden elixir in his hand. It was only one circle less. At most, only one – tenth of it had been consumed.

Xia ruofei couldn't help but feel a burst of joy. The energy of the Golden elixir was too pure. The cultivation effect was much better than he had expected!

He even thought that if he had eight or ten golden cores, not to mention breaking through to the Golden core stage, even the original infant stage would not be a problem!

However, Xia ruofei knew that it was unrealistic.

On one hand, the cultivation environment was so bad. According to Daoist priest bi youzi, even the Masters above the Yuanying stage had left earth to look for opportunities, and the ones left behind were all low – Level cultivators. In such an environment, how many golden core cultivators could there be? Where would there be so many golden cores for Xia ruofei to hunt?

Secondly, even if there were so many golden core cultivators, would they stupidly swallow Xia ruofei into their stomachs like the purple – blooded spiritual Python and then let Xia ruofei cut open their stomachs? Under normal circumstances, Xia ruofei would not be a match for a cultivator in the Golden

core stage. By then, it would not be him who would be hunting for the Golden core of others, but others who would come and steal his treasures.

Besides, Xia ruofei was clear that haste makes waste in cultivation. It was fine to absorb a golden elixir, but if he cultivated by absorbing the Golden elixir, his Foundation would not be strong enough. Even if he could improve his cultivation, it would not be worth it.

Xia ruofei was only distracted for a short while before he immediately went back to his cultivation. He slowly absorbed the energy of the Golden elixir and consolidated his cultivation.

The raft continued to move up and down with the waves, and time passed.

When Xia ruofei started cultivating, the sun had just risen from the sea. As the sun slowly rose to the center and then slowly sank into the sea in the West, night fell. Xia ruofei was still sitting in his tent, not moving.

The Golden core in his hand had already shrunk to the size of a tennis ball.

At this moment, Xia ruofei's body was exuding a sharp aura. For the whole day, Xia ruofei had been absorbing the energy of the Golden elixir without stopping.

His cultivation had just gone from refined Qi Level 6 to refined Qi Level 7, and by the afternoon, he had broken through again. Similarly, he did not encounter any bottlenecks and directly entered the realm of refined Qi level 8.

He was probably the cultivator who had stayed at Lianqi Level 7 for the shortest amount of time, less than a day's time.

After breaking through to refined Qi level 8, the energy in the Golden core was still not exhausted.

Hence, after Xia ruofei had consolidated his cultivation, he continued to absorb energy in one go.

One thing he was sure of was that after absorbing the moonlight for more than a thousand years, the purpleblood spirit Python was definitely at the peak of the Golden core stage, although it was still at the Golden core stage.

If he had just entered the Golden core stage, he would only be one level higher than Lianqi level 9. Although it was a big realm difference, it was impossible for the Golden core to contain so much energy.

Xia ruofei could not feel the passage of time when he was cultivating.

When he had absorbed all the energy in the Golden core, he found that the sky outside was already full of stars.

With a flip of his hand, he took out his phone from the mountain and sea realm spatial space to look at the time. He realized that it was already past eight in the evening.

At the same time, Xia ruofei checked his cultivation.

Refined Qi level 8, and his dantian was almost full. In other words, he was not far from breaking through to refined Qi level 9.

If the Golden elixir had 10% more energy, Xia ruofei felt that he could definitely reach Lianqi level 9 in one go.

However, one shouldn't be so greedy. To be able to cultivate directly from refined Qi Level 6 to the peak of refined Qi level 8 in one day was already a great opportunity. It was absolutely something that could only be encountered by luck and not sought.

Xia ruofei was still very excited even though he had not eaten or drunk anything for the whole day.

The feeling of absorbing energy like a whale and his cultivation base rising at a speed visible to the naked eye was simply too wonderful.

As long as his cultivation level improved one more step, he would be at refined Qi level 9.

This was also the last stage of the Qi refining stage.

Once he reached refined Qi level 9, he would not be far from forming a golden core.

Xia ruofei still remembered Bi Youzi's words. If he wanted to completely refine the mansion – guarding wooden token, he had to reach the nascent Soul Stage.

He had not even condensed his golden core, so how could he talk about his nascent soul?

Hence, Xia ruofei suddenly felt that there was a long way to go.

However, he had already cultivated for a day, so he was not in a hurry to continue using spirit crystals or origin crystals to cultivate. Instead, he took out the spirit map scroll with a thought.

There were still 25 world stones in the spatial ring! It was time for the spirit map to absorb them all!

Chapter 2173 Spiritual power breakthrough (1)

Just as Xia ruofei was about to control the spirit map to absorb the world stone in the space, he suddenly stopped.

After a whole day of cultivation, not only did Yingying's true energy cultivation successfully break through to the peak of refined Qi level 8, but it seemed that ... Her spiritual power cultivation also broke through.

All this while, Xia ruofei's spiritual power cultivation had been higher than his true Qi cultivation. When he was still at Level 6 of the Qi refining realm, his true Qi cultivation had already reached the spirit evolution realm, which was equivalent to the late stage of the Qi refining realm, which was the standard of level 8 or 9 of the Qi refining realm.

Just now, when Xia ruofei took out the spirit map scroll, he used his spiritual power and realized that his spiritual power had unknowingly broken through to the spirit gathering realm. This was equivalent to the cultivation of the Golden core stage!

In the Qi refinement stage, the cultivation of spiritual power was divided into three stages: spiritual movement, spiritual palpitations, and spiritual evolution. They corresponded to the Qi refinement stage's first to third levels, fourth to sixth levels, and seventh to ninth levels, respectively.

If he continued to improve, his spiritual power would enter the spirit gathering realm, which was equivalent to the cultivation of the Golden core stage.

After that, there would be the spiritform realm that corresponded to the nascent Soul Stage and the Saint spirit realm that corresponded to the primordial soul Stage.

In other words, Xia ruofei's cultivation had not reached the Golden core stage yet, but his spiritual power cultivation had already crossed a large realm and reached the spirit gathering stage.

This made Xia ruofei both surprised and happy.

The spirit gathering realm, as its name suggested, meant that when one's spiritual power reached this realm, there would be a fundamental change in the soul.

Xia ruofei sensed it and immediately found the wonder.

He could clearly feel the niwan Palace where his soul was located. In other words, he could completely see what was inside his niwan Palace. This was impossible when he was in the spirit evolution stage. He only truly experienced the existence of a soul when he was in a deeper level of joint training with Song Wei.

But now, as long as he concentrated, he could immediately feel the state of his soul in his niwan Palace.

When one's soul became more condensed and powerful, one would reach the spirit gathering realm.

Correspondingly, the change in the quantity of his mind power had led to a qualitative change. Every strand of mind power had become more condensed, and the range of his mind power had also increased by more than ten times.

Xia ruofei expanded his spiritual power to the limit and realized that he could clearly sense everything within five to six kilometers. His spiritual Power's penetration had also increased. In the past, when he encountered walls, metal, or some liquid, his spiritual power would be hindered. However, this hindrance was much smaller now.

There were still many changes. For example, he could use his mental power to achieve an effect similar to "teleportation." Now, this ability had been greatly enhanced.

Xia ruofei examined the many changes brought about by the breakthrough of his spiritual power with great interest. He was overjoyed.

He even wanted to try to take the yacht out of the space to see if it would still be like the night when he had to store the yacht in the space in an emergency during the storm. He had a splitting headache from overload.

However, Xia ruofei held back his impulse.

He decided to let the space absorb the world stone first.

This time, he had obtained a total of 25 world stones. In addition to the few world stones that remained after the space's upgrade, he had let the space absorb them.

If his judgment was correct, the realm could at least upgrade another level this time.

Putting aside the many changes brought about by the upgrade of the space, Xia ruofei was very clear that every time the space was upgraded, his compatibility with the space would increase accordingly, and his control over the space would be strengthened.

In this case, it would be easier to store and withdraw items in the space.

Xia ruofei felt that he should wait until the realm was upgraded. It would be much easier to take out the yacht then.

Therefore, he reached out and picked up the spirit painting scroll. Then, his mind moved slightly.

In the spirit map world, the 25 world stones that were suspended in an independent space cage immediately broke free from the cage.

One of the world stones glowed faintly and began to fade and become brittle at a speed visible to the naked eye.

At the same time, a mysterious energy of the laws permeated the surroundings of the world stone. Xia ruofei was very familiar with this energy. It was the energy of the laws of space. This aura quickly blended into the entire space.

Two, three ...

One by one, the world stones released all their essence under the power of space, turning into unremarkable waste stones.

Even though he was mentally prepared, Xia ruofei could not help but feel apprehensive when he saw that there was no change after the spirit painting had absorbed 20 world stones.

He clearly remembered that he had absorbed about 14 world stones before the space started to upgrade.

Could it be that he was going to double it this time to 28?

Then the world stones on hand would not be enough!

'If I had known earlier, I wouldn't have given the White realm Fox so many ...' Xia ruofei thought to himself.

If the white fox knew Xia ruofei's thoughts, it would definitely remember that the distribution of the shares was already very unfair to the stomping Chenchen. Do you think that you haven't exploited me enough?

Of course, the White realmfox was in a deep sleep – like state and did not react to the changes in the outside world.

If it was awake and saw the delicious world stones being absorbed by the spirit map space, it would definitely be heartbroken.

Other than being worried about not having enough world stones, Xia ruofei had another hidden worry. The amount of world stones that the spatial zone could absorb was increasing. This time, it was already over 20 world stones. Wouldn't it be over 40 next time? And the next time?

Chapter 2174 Spiritual power breakthrough (2)

The world stone was something that could only be found by luck and not by searching for it. He didn't know where to find it next time!

After the space had been upgraded to this level, it would be impossible to upgrade by absorbing Jade. The amount of Jade needed would be massive. Perhaps in the later stages, it might not even be enough to absorb an entire jade mine.

If he wanted to upgrade his spatial dimension, the only way was to absorb world stones.

The good thing was that Xia ruofei had found the realm stone in the green touring immortal abode. He had some guesses that the realm stone might not be a particularly precious item in the ancient cultivation world. Otherwise, Daoist priest bi youzi would not have placed them together with some miscellaneous items.

Or there was another possibility. There were very few cultivators who cultivated the laws of space. Even bi youzi did not know the main function of the world stone. Perhaps it was because there were other uses for the world stone, so he kept it.

No matter which possibility it was, it all meant one thing. If they could find more ruins left behind by cultivators, it was very likely that they would find more world stones.

If he could find an immortal's cave left behind by a cultivator who specialized in the laws of space, he might be able to find even more boundary stones.

According to what bi youzi said, cultivators above the nascent Soul Stage had left earth to search for opportunities. There should be quite a number of them.

It was impossible for so many cultivators at the nascent Soul Stage and above to have descendants and juniors from their sects. There were bound to be a few who were alone, or like bi youzi, who left their immortal's caves to the fated ones even if they had a sect.

Xia ruofei felt that he should visit more famous mountains, great rivers, or overseas in the future. His main goal was to find the cave abodes left behind by the ancient cultivators.

As Xia ruofei's imagination ran wild, the spirit map continued to absorb the world stone.

Finally, when the 24th world stone was absorbed, Xia ruofei could clearly feel that the space rules in the spirit map world had become a little chaotic.

Xia ruofei had some experience with this. He knew that this was a sign of the realm's upgrade. He was full of anticipation as he observed the situation in the realm.

Sure enough, as the 24th world stone was absorbed and fell to the ground, the spatial rules in the spirit map world seemed to have reached a bottleneck. They were constantly compressed and changed in the chaotic flow. Finally, after all the laws were compressed to the extreme, they seemed to have broken free of a shackle and rapidly began to reorganize.

Xia ruofei could clearly feel that the space rules in the spirit map world had become clearer.

At the same time, within the mountain and sea realm, the mountains were growing with a loud rumble. The land was rapidly expanding outwards, and the sea was also continuously extending outwards ...

This scene was as if the creator was using his endless magic power.

It was also because of the breakthrough in his spiritual power that Xia ruofei could clearly sense the spatial membrane wall of the entire mountain sea realm expanding outward.

It was like a balloon that had been blown up, continuously expanding its boundary.

The process of upgrading the spirit map world did not take long, and the dust settled in a short while.

In the process of restructuring and perfecting the space rules, wisps of rule aura passed through the White sector Fox's body, and the light on its body seemed to be even brighter ...

Xia ruofei's spiritual power swept over the little fellow and realized that its vitality had become even more vigorous. However, it still showed no signs of waking up.

Xia ruofei thought to himself, 'could it be that the upgrade of the space has affected the realm Fox as well? Please don't cause it to go berserk ...

In the space, the only remaining world stone was still floating alone.

Xia ruofei thought for a while and did not control the space to continue absorbing it.

It was foreseeable that he would need at least thirty to forty world stones for the next upgrade. Absorbing one more world stone would not have much of an effect.

He might as well save it for a rainy day, in case the White realm Fox went crazy from hunger again. He couldn't just watch this little guy starve to death!

Although Xia ruofei was very strict with the white fox, he was actually a soft – hearted person. If this little fellow's life was in danger, Xia ruofei would definitely not be so heartless as to ignore it.

With a thought, he immediately constructed a stable small space and wrapped the only realm stone in it. He then placed it high up in the space. Even if it was a backup dry food for the White realm Fox, he had to hide it well and not let it find out. Otherwise, this little fellow would definitely pretend to be pitiful and keep asking for it.

Xia ruofei was only using his mind to maintain contact with the spirit map space in the outside world. He checked on the upgraded space and did not enter it.

He wanted to retrieve the azmu yacht first.

This was because his top priority was to return to land as soon as possible.

Originally, he was still in the East Sea, and it would not take much time to return to land. However, a storm brought him to the green Immortal Island, and when he left, he was already in the Indian Ocean.

If they returned to the three mountains from here, they would most likely not have enough fuel.

Xia ruofei looked at the general location on the GPS and felt that it was closer to Australia than to China.

He had to plan the shortest route as soon as possible. Even if he couldn't return to the three mountains, he had to at least reach a port in the country so that he could refuel at the port.

After all, his yacht was directly registered as a Chinese citizen. He did not apply for a visa from another country, so it was impossible for him to enter the territorial waters of another country.

Even if he had the authority to enter the territorial waters of other countries or even ports, he could not go!

According to the yacht's theoretical range, it was impossible for him to drive to any port nearby from the three mountains. The reason why he could sail such a long distance was entirely because he had stored hundreds of tons of fuel in his space.

However, his departure from the three mountains was recorded. By then, Xia ruofei would not be able to explain.

Therefore, he could only try his best to reach a port in the country, and it had to be a port that the yacht could open from the three mountains with a full tank of oil. After replenishing the oil, he could return to the three mountains.

This would require the yacht's Positioning System and main control computer to assist in planning a route.

Xia ruofei took a deep breath and focused on the yacht floating in the sea of space. He was a little nervous.

After the realm had been upgraded, his mental connection with the realm had become closer, and his control of the realm had obviously improved. In addition, his spiritual power had broken through a major realm. Logically speaking, he should have the ability to control and take out the yacht. However, when he thought of the feeling he had when he put the yacht into the realm that night, he could not help but feel a lingering fear.

This wasn't just a problem of overusing one's mental strength or having a headache. If one overused their mental strength, it could cause permanent damage to their soul.

That was why Xia ruofei had a close call the last time.

Now that things had come to this, he couldn't back down. After gathering his courage, he finally made up his mind. With a slight thought, he controlled the yacht and moved it out of the space.

Xia ruofei felt as if his spiritual energy was being sucked away by a high – Power vacuum. It was only for a moment, but he felt like he was losing strength.

Fortunately, the yacht soon appeared outside, about half a meter above the sea. It landed with a bang, setting off a wave, causing the raft to shake and drift away from the yacht.

With a thought, Xia ruofei kept the tent in his space. The tent was still intact and it was not a good habit to waste.

At the same time, he tapped his feet on the simple deck of the raft and leaped up lightly, landing smoothly on the rear deck of the azmu yacht.

Looking at the luxurious and comfortable yacht, Xia ruofei felt as if it was a lifetime ago.

The traces left by the storm that night were still there. Some tables, chairs, and sofas that were placed in the open were not cleaned up. Xia ruofei did not have the time to deal with these minor details these few days.

He went straight into the cockpit, connected the power, and turned on the main computer.

Chapter 2175 Curve back to China (1)

Xia ruofei checked his exact location through the satellite positioning system on the yacht and could not help but smile bitterly.

He was now in the depths of the Indian Ocean. If he wanted to return to China, he would have to make a detour around the Malacca Strait and then pass through the South China Sea. In theory, the nearest supply point was in the South China province. However, after simulating the route and calculating the fuel consumption through the main computer, he found that the 100 tons of fuel he had stored was not enough.

He did some calculations. At the most economical speed, they might not even reach the Strait of Malacca. The 100 tons of fuel would be consumed, which was less than two – thirds of the voyage.

According to the calculations of the main control computer, the current fuel could only reach the Maldives at most.

Although he could definitely replenish his supplies in the Maldives it would not be of much use! A Chinese yacht that was generally used for offshore navigation suddenly appeared in the Maldives without any entry documents. Wouldn't it be arrested immediately?

Xia ruofei's eyes couldn't help but move down the map. Since it was impossible to return to the country directly, he had to think of another way.

From where he was now, the distance between the Maldives and Australia was about the same.

It seems like I can only go to Australia ... Xia ruofei laughed bitterly in his heart.

After all, they were unfamiliar with the Maldives and Australia had Tang Yitian. She believed that with Tang Yitian's status in the Chinese society in Australia, it wouldn't be difficult to help him settle this matter.

After making up his mind, Xia ruofei did not hesitate anymore. He quickly set the route on the main control computer and activated the autopilot system at the most economical speed. He headed in the direction of Persia.

The yacht sailed forward, cutting through the waves. Xia ruofei sat in the cockpit and pondered for a while. He took out the maritime satellite phone and connected it to the satellite. He found Tang Yitian's phone number and dialed it.

The call was hung up after two rings. Xia ruofei was stunned when he heard the busy tone from the receiver.

He thought for a moment, then found Jennifer's number and dialed it.

This time, it went relatively smoothly, and the call was connected very quickly.

"hello?" Jennifer's voice came from the receiver.

Xia ruofei immediately smiled and said, "Jennifer, it's me!" Xia ruofei!

As soon as Xia ruofei opened his mouth, Jennifer recognized his voice. She said in surprise, "Xia! You haven't contacted us in a long time! Is this your new number?"

Xia ruofei replied, "no, no. My phone has no signal now. This is a satellite phone number!" Jennifer, how's Haoran doing?"

Although he wanted to find Tang Yitian as soon as possible, Tang Haoran was his disciple after all. He naturally had to care about him when the call went through.

Jennifer laughed and said, "he's very good!" He had grown a lot taller! I've been following your instructions every day ... And cultivating! By the way, he misses you very much too. If he knows that you're calling, he'll be very happy! But he's in school now ..."

Xia ruofei said, "it's okay. I'll call you again during my rest time next time. Jennifer, I'm looking for brother Tang for something, but I couldn't get in touch with him on the phone just now. Are you with him now?"

"Isaac went to the company, maybe in a meeting!" Jennifer said, "he must have seen an unfamiliar number and hung up. Xia, I'll contact him immediately and ask him to call you back!"

"I'll have to trouble you then!" Xia ruofei said.

"It's no trouble, no trouble at all ..." Jennifer said quickly. "Are we just going back to this number?"

"Yes, I am!" Xia ruofei said, "I'll keep in touch and wait for brother Tang to call me back."

"OK!" Jennifer said, "then I'll help you contact them right now."

"Thank you!"

After Xia ruofei hung up the phone, he placed the Haishi satellite phone on the dashboard and used the phone to connect to the internet on the yacht's WiFi.

He hadn't gone online for a few days, so he immediately received a lot of WeChat messages.

There were messages from Ling Qingxue, Song Wei, Feng Jing asking when he would return to the company, and even from song Rui and his other friends.

After all, since he had gone out to sea, there had been no news of him except for the message he had posted on Weibo that day. Everyone was more concerned about him.

Xia ruofei's heart was filled with warmth. He quickly replied to everyone on WeChat. He mainly said that there was no cell phone signal at sea and the Internet was intermittent, so he did not see everyone's messages immediately. He also told everyone that he should be returning in a few days so that they did not have to worry.

He had just finished replying to WeChat when the maritime satellite phone on the driver's seat rang.

Xia ruofei immediately reached out for it and picked it up.

"RUO Fei?" Tang Yitian's uncertain voice came from the phone.

Xia ruofei replied, "it's me!" Big brother Tang, were you in a meeting just now? I'm sorry for disturbing you ..."

"I'm sorry!" Tang Yitian quickly apologized. I saw that it was a number I didn't recognize, so ..."

"I'm fine, I'm fine!" Xia ruofei smiled and said, "big brother Tang, I need your help with something ..."

"Speak!" Tang Yitian said without hesitation, "your brother Xia's matters are my matters!"

"It's like this, I might be coming to Australia in the next few days ..." Xia ruofei said.

Chapter 2176 Curve back to the country (2)

Tang Yitian immediately said happily, ""That's great! Haoran also often talks about you, his master! When will you be there? I'll arrange for a car to pick you up at the airport ..."

Xia ruofei smiled bitterly and said, ""Big brother Tang, I didn't come by plane this time. I can't explain the details in a few words. Let's put it this way ... I didn't enter the country through the proper channels ..."

Tang Yitian was stunned for a moment, then he lowered his voice and said, ""RUO Fei, is there something that is inconvenient for you to enter the country? Don't worry, I still have a lot of brothers in Australia! I can help you solve both the legal and illegal matters ..."

"That's not it!" Xia ruofei quickly said, "big brother Tang, it's like this ... I did come to Australia to settle some things, but I don't need to trouble you. I can handle it myself. However, I need you to help me get a legal identity. It's best if it's an Australian Chinese identity."

"No problem! Just leave it to me!" Tang Yitian said.

"For some reason, I'll disguise myself. I'll send the photo to your email in a while. I'll leave the identity to you ... Oh, I also need this identity to enter China directly. Is that okay?" Xia ruofei asked.

"Of course, no problem!" Tang Yitian chuckled. "I'll make you an employee of our company and send you to work in China. I have friends in the Embassy, you don't even need to go there yourself, I can get the visa!"

"That's great!" Xia ruofei said, "big brother Tang, I'll be at POLH in about three to four days. I want to return to Huaxia as soon as possible ..."

Tang Yitian pondered for a moment, then said, ""Three days is enough! Ruofei, ruofei, if you're not in a hurry to go back, I'll have someone wait for you in Persia and take you directly to Sydney. Haoran misses you a lot ..."

"Time is a little tight this time. I'll go see him next time if I have the chance!" Xia ruofei said after some thought.

“Alright then! Since you’re in a hurry to go back, then how about this! After I’ve settled your identification documents, I’ll transfer my private plane to Persia, and you can fly back to the country directly from there!” Tang Yitian said.

Xia ruofei really wanted to return to Huaxia as soon as possible, so he didn’t stand on ceremony with Tang Yitian. He said, “That’s fine. Thank you, big brother Tang!”

“Why are you being so polite with me?” Tang Yitian laughed. RUO Fei, please send me the photos as soon as possible!”

“Alright!” Xia ruofei said.

After hanging up the phone, Xia ruofei immediately changed his appearance and took out a single-lens reflex camera from the space to take a few photos.

As the background of the photos was on a yacht, Xia ruofei took out his laptop and downloaded the photos. He used the Photoshop software to remove the background and only left the portrait.

Then, Xia ruofei sent the original files to Tang Yitian’s email. This way, he could adjust the background color of the photo whenever he wanted to make the ID.

After sending the photos, Xia ruofei used the maritime satellite phone to call Tang Yitian.

The next few days would be a lonely voyage.

In order to save time, the yacht did not stop almost every day. Just like that, it followed the set route and let the automatic driving system control the yacht to move forward.

Only when the fuel was almost used up would Xia ruofei stop to rest and reorganize. He would also take out an oil barrel from the medium to refuel the yacht.

On the third day, as they were close to Australia’s territorial waters, Xia ruofei became more cautious. He first filled the yacht’s mailbox on the International waters. By the time the yacht reached Australia, 90% of the fuel had been consumed. There were less than 10 tons of fuel left.

Then, Xia ruofei disconnected from the autopilot and switched to manual control, carefully sailing toward Persia.

Because after entering Australian waters, the Coast Guard’s ships could appear at any time.

A yacht of unknown origin and nationality would definitely be investigated.

Hence, Xia ruofei had to avoid the inspection as much as possible and get as close to the coastline as possible.

Therefore, he had chosen a section of the coast that was unpopulated. This place was densely covered with reefs and was not suitable for ships to sail at all.

Xia ruofei’s spiritual power could cover a larger area, which helped him avoid the inspection of the ship.

After going around in a circle, Xia ruofei finally got close to the shore.

Night had just fallen, and he could already see the outline of the coast.

The chart showed that the reef area was just ahead. If the yacht continued to move forward, it was likely to hit the reef or get stranded.

Hence, Xia ruofei stopped the yacht.

He first tidied up his things, putting the GPS, cell phone, satellite phone, and other items into a small bag and kept it in his interspace. In order to prevent being located, he even turned off his phone and took out the battery.

Then, Xia ruofei went to the deck and changed into a shark skin swimsuit from the medium.

He looked back at the coastline in the distance, then jumped into the sea in a beautiful arc.

At the same time, with a thought from Xia ruofei, the 30 – meter long yacht suddenly disappeared from the sea.

Xia ruofei shook his head to get used to the dizziness caused by the huge consumption of his mental power. Then, he swam towards the shore.

The sea in this area was full of reefs and high cliffs, so there were basically no patrols.

Xia ruofei swam for a full hour before he landed on solid ground at the bottom of the cliff.

Even though he had excellent physical strength, he couldn't help panting slightly when he swam to the shore at low tide. In order to get ashore under the cover of the night, he could only choose this time. It just so happened that it was low tide time, and most of his physical strength was used to resist the power of the receding tide.

Xia ruofei took a break and took off his shark skin swimsuit at the bottom of the cliff. Then, he quickly changed into a set of clean clothes and took out the small bag that contained the satellite phone.

Xia ruofei dialed Tang Yitian's number with the satellite phone.

This time, Tang Yitian picked up quickly, ""Ruofei, have you arrived at Persia?"

"Mm! Big brother Tang! "My location is ..." Xia ruofei gave an address.

He had already chosen a landing point, so he didn't need to check the GPS.

Xia ruofei said, "there's a cliff here. We should be on Route 67 after crossing the cliff. I'll be waiting by the road later."

"Alright!" Tang Yitian said, " the car will be here soon! You can wait by the road."

Xia ruofei had contacted Tang Yitian after confirming the landing point, so the people he had sent were already on standby nearby.

After Xia ruofei put the satellite phone away, he carried his backpack and agilely climbed up the cliff.

This cliff was hit by the sea water during high tide all year round. There were many holes on the cliff. Xia ruofei used these holes and the protrusions on the cliff to borrow strength. He was like an agile monkey as he quickly climbed up the cliff.

After a while, he arrived at the top of the cliff.

Xia ruofei looked around and saw a road not far away.

He ran over and easily climbed over the guardrail. Then, he walked along the road for a while and found a kilometer sign.

So Xia ruofei called Tang Yitian and told him where he was.

With this kilometer plate, the people sent by Tang Yitian would be easy to find.

Xia ruofei waited for about 20 minutes before he saw a Toyota Elfa commercial car driving over slowly.

The car stopped beside him. The driver rolled down the window and looked at Xia ruofei seriously. Then, he asked in Chinese, "May I ask if you're Mr. Tang Fei?"

Xia ruofei was stunned for a moment before he realized that 'Tang Fei' was the name Tang Yitian had applied for for his new identity.

Hence, Xia ruofei nodded and said, "It's me. Did big brother Tang send you here?" "You've worked hard!"

Chapter 2177 The master and disciple meet (1)

At this moment, the electric door of the Elfa van slowly opened.

Xia ruofei couldn't help but be stunned. With the help of the light in the car, he saw Tang Yitian sitting on a seat with a smile on his face. Jennifer was beside Tang Yitian. A small head peeked out from the space between the two seats. Who else could it be but Tang Haoran?

Xia ruofei was dumbfounded. After a while, he said, "Big brother Tang, why did you come in person? And Jennifer and Haoran, why are you guys here?"

Although Porter was in Australia, just like Sydney, the distance between the two places was more than 4000 kilometers. It would take at least 40 hours to drive and nearly five hours to fly.

Xia ruofei thought that it was already troublesome enough to ask Tang Yitian to help with the identification documents and use the plane. He didn't expect that his family would actually come all the way from Sydney. It was really a long journey!

Tang Yitian wasn't used to Xia ruofei's changed appearance. He stared at him for a while, but Xia ruofei's voice didn't change. They also knew Xia ruofei's magical means, so they knew that the person in front of them was definitely not a fake.

Tang Yitian laughed, "Haoran really wants to see you!" "You're in a hurry to return to China, so we had to rush over!"

"Xia, let's get in the car first!" Jennifer said happily.

"Yes, yes, yes, we'll talk in the car!" Tang Yitian also said quickly.

Jennifer took the initiative to sit with Tang Haoran in the back row and gave up her seat to Xia ruofei.

Xia ruofei went around the front of the car and got in from the other side.

He first turned to look at Tang Haoran and said with a smile, "Haoran, why didn't you say hello to your master? This child is already shy after not seeing her for a few months!"

Tang Haoran was very used to Xia ruofei's changed appearance. Even if Xia ruofei did not look the same as before, the sense of intimacy and familiarity would not change.

If he was walking on the street and no one told him that this person was Xia ruofei, he might not be able to recognize him. But after knowing it, that feeling immediately matched.

Tang Haoran laughed in embarrassment and said, "Master!"

Xia ruofei reached out and ruffled his hair. He laughed and said, "This kid! Without master by your side, will you be lazy in your cultivation?"

"Master, I'm very serious every day!" Tang Haoran said, "I'm about to reach refined Qi Level 4!"

Xia ruofei looked at Tang Haoran in surprise and said, "Oh, really? Then I'll test you later!"

"Ruofei, I have a holiday villa in Persia, so let's stay there for the night!" Tang Yitian said with a smile. Even if you're in a hurry to go back, you shouldn't have to rush back overnight, right?"

Xia ruofei smiled and nodded. "That's not necessary. Since we're here, we'll follow big brother Tang's arrangements!"

If Tang Yitian's family hadn't come, Xia ruofei would've flown back to China overnight. However, they came from thousands of miles away. It would be too unreasonable if he left after meeting them in a hurry.

After Xia ruofei got in the car, the driver started the car and drove forward. Obviously, Tang Yitian had already ordered them to go back to the holiday villa after picking up Xia ruofei.

Xia ruofei and Tang Yitian's family chatted in the car. After about 40 minutes, they arrived at a seaside resort.

The villa was not very big. It was a small three – story building.

However, even though a Sparrow was small, it still had all the essentials. The villa's courtyard faced the sea, and the soft beach was not far from the door. There was a small garden in the backyard.

After the chauffeur dropped Xia ruofei and Tang Yitian's family off, he drove away. There were no staff or bodyguards here. With Xia ruofei around, there was no need to worry about safety. Tang Yitian also knew that the fewer people knew about Xia ruofei's visit to Australia, the better. Even the driver was an Australian who didn't understand Chinese, and he was Tang Yitian's trusted subordinate.

Tang Yitian arranged for Xia ruofei to stay in a large guest room on the second floor.

Xia ruofei returned to his room, put down his bag, and restored his original appearance. Then, he went downstairs.

He didn't change his appearance in front of Tang Yitian and the others. Although he was a God – like figure in Tang Yitian's family's eyes, Xia ruofei still wanted to keep a low profile as much as possible. This

method of directly controlling his muscles and bones to change his appearance was indeed a bit terrifying.

As soon as Xia ruofei went downstairs, Tang Yitian said with a smile, ""RUO Fei! It's much more comfortable this way ..."

Xia ruofei laughed. "Looks are just a facade ... Brother Tang, you really don't have to come all the way here. I often come to Australia. I'll naturally visit you when the time comes!"

"No way!" Tang Yitian said. I know you're in Australia, so I have to meet you! Besides, you're Haoran's master! If the little guy knows that you've come to Australia but I didn't bring him to meet you, wouldn't he blame me?"

Tang Haoran nodded his head like a chicken pecking at rice and said, ""Master, your method of changing your appearance is so interesting! Can you teach me?"

"Why do you suddenly want to learn this?" Xia ruofei asked with a smile.

"I want to become like Jabson ..." Said Tang Haoran.

Chapter 2178 The master and disciple meet again (2)

Xia ruofei couldn't help but laugh. "Why?"

"Jebson is a boy in their class," Jennifer said with a smile. "Alan, why do you want to look like Jebson?"

"He often bullies other children. I want to tease him!" Tang Haoran said.

Xia ruofei and Tang Yitian looked at each other and burst out laughing.

Xia ruofei asked, "Haoran, is this kid bullying you too?"

"He wouldn't dare to bully me, master!" Tang Haoran said proudly. He might be the biggest in the class, but ten of him can't even beat me!"

Tang Yitian coughed and said, "Haoran, I didn't teach you Kung Fu for you to fight! You can't bully the weak!"

Xia ruofei looked at Tang Haoran with a smile. He wanted to hear his reply.

"I won't bully anyone!" Tang Haoran puffed out his chest and said. I still remember what master said! And when Jebson bullies other little students, I'll stand up to stop him! At first, he wanted to teach me a lesson, but after I taught him a lesson, he no longer dared to bully other students in front of me!"

Xia ruofei couldn't help but laugh. "Woof! Even little Haoran knew how to be chivalrous! Not bad, not bad ..."

Tang Haoran looked at Xia ruofei and asked, ""Master, can I sleep with you tonight?"

Xia ruofei looked at Tang Yitian and Jennifer with a smile, then said, ""Sure! I still want to test your cultivation! In addition, if you have any questions about cultivation, you can also ask me. How about we master and disciple talk by candlelight tonight?"

“Yay! That’s great!” Tang Haoran was so happy that he jumped.

Tang Yitian and Jennifer naturally didn’t have any objections. They were overjoyed!

“Haoran,” Jennifer said with a smile, “since you’re going to sleep with master tonight, why don’t you go wash your face and brush your teeth now?”

“I know!” Tang Haoran replied.

Jennifer brought Tang Haoran to wash up while Xia ruofei sat in the living room and chatted with Tang Yitian for a while.

Xia ruofei suddenly thought of his identity and couldn’t help but ask, “That’s right, big brother Tang! I’ll use this identity to enter China, and this person will only have an entry record and then disappear. Will it cause you any trouble?”

Tang Yitian thought for a while and said, “this shouldn’t be a big problem ... If you really can’t do it, then we’ll do it this way ... When you return to San Shan, you can go to the beach in that disguise. We’ll just report that you went missing and said that you didn’t come back after swimming in the sea. After a certain number of days, we’ll be sure that this person is dead, and all the identity records will be erased.”

Xia ruofei couldn’t help but giggle. He was going to go to the sea too because he had left the three mountains on a yacht back then. In the end, he still had to drive that yacht back to the dock! Otherwise, Xia ruofei would not be able to explain why such a big yacht had disappeared just like that!

“Then it’s decided!” Xia ruofei smiled and said, “I’ll contact you when the time comes.”

Tang Yitian nodded, then asked, “Ruofei, are you really not going to visit Paradise Farm this time?”

Xia ruofei shook his head and said, “this is illegal entry. It’s not convenient.” And I’m in a hurry to go back ... By the way, big brother Tang, you didn’t tell Liang Qichao that I’m in Australia, did you?”

“No, no! You already said that you entered the country through an abnormal method, why would I go around telling people?” Tang Yitian said, “apart from Jennifer and Haoran, no one knows that you’ve come to Australia.” Even the people who helped with the identification documents don’t know your true identity ...”

“That’s good! I’m confident in big brother Tang’s work!” Xia ruofei said with a smile.

The two of them chatted for a while. Since Xia ruofei had to fly to China the next morning, they didn’t stay up too late and went upstairs to their room.

Tang Yitian even went to Xia ruofei’s room and told Tang Haoran to be obedient and not disturb Xia ruofei’s rest.

After Tang Yitian and Jennifer went back to their room, Xia ruofei called Tang Haoran over. After checking, he found that his cultivation had really reached the 3rd level of the refinement stage and he should not be too far away from a breakthrough.

This showed that the little guy was really diligent and didn’t relax for a day.

Xia ruofei was naturally very satisfied. He told Tang Haoran about the practice of the “blazing sun Sutra”. After his cultivation and spiritual power had improved, his understanding of cultivation had also improved. Although the cultivation experience of the “blazing sun Sutra” came from the Jade talisman of inheritance, his understanding of this cultivation technique and the cultivation experience were different.

After he was done, Xia ruofei answered some of Tang Haoran’s questions about cultivation. When he saw that it was already one in the morning, he told Tang Haoran to go to bed.

The next morning, while Xia ruofei was still asleep, he saw Tang Haoran get up.

He opened his eyes and saw that Tang Haoran was already sitting cross – legged on the bed. He was holding a spirit crystal in his hand and starting to cultivate.

Xia ruofei couldn’t help but feel a little ashamed. As a master, he didn’t have as much perseverance in his cultivation as Tang Haoran.

He didn’t disturb Tang Haoran, and quietly got out of bed to wash up. Then, he took out origin crystals and started cultivating.

Two hours later, the master and disciple woke up from their cultivation state.

Xia ruofei said, “Haoran, not bad, not bad!” He’s been training very hard!”

Tang Haoran smiled embarrassedly and said, “Master, please teach me the method to change my appearance!”

Xia ruofei couldn’t help but laugh, “you still remember that?” Your current cultivation is still too low. When your cultivation reaches the required level, I will teach you!”

In fact, if he was at refined Qi Level 3, he could definitely practice Xia ruofei’s method of changing his appearance. However, Xia ruofei was worried that after he passed it to Tang Haoran, the little guy would be too playful and play with people everywhere. He thought that it was better to wait until he grew up and matured.

“Alright then ...” Tang Haoran was a little disappointed and said, “I’ll definitely work hard in my cultivation! Try to meet the requirements as soon as possible!”

“That’s the right way to think!” Xia ruofei laughed.

Then, he took out a spiritual crystal from the medium and handed it to Tang Haoran, saying, “I see that you’re cultivating so hard. Take this spiritual crystal first, in case you use up the one you have.”

“Master, I feel that there’s a lot of spiritual Qi in this spiritual crystal! No need to give me a new one!” Tang Haoran said quickly.

“If I give it to you, just take it!” Xia ruofei said, “it’s for cultivation anyway, so it won’t go to waste. What if I’m not by your side after you’ve used up all your spirit crystals? Take this as a backup!”

Xia ruofei had obtained two hundred origin crystals this time. From now on, he would definitely use origin crystals as his main source of cultivation. For Tang Haoran's current cultivation, using the spirit crystal to cultivate was just right.

Naturally, Xia ruofei would not feel bad about giving it to his own disciple.

Tang Haoran took the crystals from Xia ruofei and said, "Thank you, master!"

Xia ruofei smiled and touched his head. "No need to be so polite with master. Hurry up and wash your face and brush your teeth!"

When Xia ruofei brought Tang Haoran downstairs, Jennifer had already prepared breakfast.

After Xia ruofei had breakfast with Tang Yitian's family, the Elfa van from last night arrived at the holiday villa.

"Ruofei, the arrangements at the airport have been made. We won't be sending you to the airport." "I wish you a smooth journey!" Tang Yitian said.

Tang Yitian knew that Xia ruofei had to keep a low profile on this trip. He and Jennifer were a famous Chinese tycoon in Australia and a superstar. Once they appeared at the airport, it was impossible to keep a low profile, so they decided not to go.

Xia ruofei nodded and said, "Then, let's meet again!"

Tang Haoran revealed a reluctant expression and said, "Master, you have to come to Australia often to see me!"

Xia ruofei smiled and nodded, "definitely!" My good disciple is in Australia! And master has a business in Australia, so he'll come here often in the future!"

"En!" Tang Haoran nodded.

Xia ruofei waved goodbye to Tang Yitian's family and got into the Elfa van. They left the holiday villa and headed towards the Polz airport.

Chapter 2179 A smooth return (1)

Xia ruofei had been delayed at Green Immortal Island for a few days and had sailed on the sea for a few more days. He wanted to get back as soon as possible. After all, that yacht was only suitable for sailing in the coastal waters. If he went out to sea for more than ten days and did not return, his family would be worried.

Therefore, he didn't stay in Persia for a long time. He hurriedly met with Tang Yitian's family and immediately set off on his return journey.

Tang Yitian's private jet was already ready at the airport. The flight route had been applied for two days ago. It was to fly directly from Porter to the three mountains of China.

Xia ruofei got a full set of identity documents, which were all real and effective. Tang Yitian still had a lot of power in Australia.

He quickly passed through the customs security check in the business aircraft building and went directly to the tarmac.

The biggest advantage of a private jet was that time was relatively free. Although the route was planned in advance, it could still be adjusted according to the passenger's situation.

After Xia ruofei boarded the plane, the crew was quickly approved to leave.

In less than ten minutes, the plane had already taxied off on the runway.

Such efficiency was impossible to achieve by taking a civilian flight.

After more than ten hours of flight, Xia ruofei finally returned to the three mountains.

The flight crew would rest for a day in San Shan and return to Sydney, Australia the next day.

Xia ruofei, on the other hand, used 'Tang Fei' as an Australian – Chinese to handle the immigration procedures.

As he did not return using his own identity, Xia ruofei naturally could not ask the company to arrange for a car to pick him up. After he left the airport, he took a taxi and arrived at the Shangri – La hotel in the city.

Tang Yitian had already booked a room for Xia ruofei. After Xia ruofei entered the hotel, she used 'Tang Fei' s 'identity to check in.

Thanks to the development of the Internet, Tang Yitian had arranged everything in Australia. Besides booking the hotel, he even signed Xia ruofei up for a one – day tour.

This tour group set off from San Shan city and went to Pingtan. They went out to sea by boat at the dock and spent half a day on a nearby tourist Island before returning.

Xia ruofei rested in the hotel for a while. The phone he used as "Tang Fei" rang. The hotel informed him that the one – day tour group was about to set off.

So he packed his things and went downstairs. The tour guide gathered all the members in the hotel lobby and everyone got on a bus to go to Pingtan.

After arriving at Pingtan, they took a boat out to sea. Xia ruofei was in high spirits along the way and the members gradually became familiar with each other. They knew that this "Mr. Tang" was a Chinese man who was born and raised in Australia and was not good at Mandarin, so no one talked to him.

When they arrived on the island, Xia ruofei had a meal with everyone.

Just as the tour guide was about to bring everyone to snorkeling, Xia ruofei found the tour guide and told him that he was not going to move with the tour group or return on the boat at night. He was going to stay on the island for a day and then return on his own.

The main thing was that Xia ruofei was planning to' disappear 'from this Island, and he could not ruin the tour group. If he disappeared while he was with the team, it would involve a lot of troublesome problems.

The tour guide did not ask further. After confirming that Xia ruofei was leaving the tour group early, he took out a standard disclaimer for Xia ruofei to sign.

After that, Xia ruofei stopped following the group.

He strolled around the island for half a day and even had dinner at the food stalls by the sea. Then, he walked along the sea, looking no different from a leisurely tourist.

However, as Xia ruofei continued to walk forward, he gradually came to a sparsely populated beach.

Night had fallen. Xia ruofei looked left and right to make sure that no one was paying attention to him. Then, he jumped into the sea while standing on a rock.

It just so happened that the tide was low, so Xia ruofei easily swam in the direction of the tide towards the outer sea.

After a while, the small island was left far behind.

Night shrouded the sea in the summer and visibility was very low. After Xia ruofei swam for one or two kilometers, the lights on the island were already faintly visible.

There weren't any ships nearby, so it could be said that no one knew.

Xia ruofei stepped on the water and drifted with the current. He expanded his spiritual power to the maximum and confirmed that there were no other boats within a few kilometers. He took a deep breath and took the azmu yacht out of the realm.

The yacht hit the surface of the sea, causing huge waves.

Xia ruofei swam half a circle around the yacht and easily climbed onto the yacht through the affinity platform.

Now, even if the Australian – Chinese "Tang Fei" was missing, the overbearing President Xia ruofei's yacht trip was coming to an end.

Tang Yitian would naturally take care of the rest of the work.

Xia ruofei stood on the deck of the yacht and took off his wet clothes. He used the bath towel on the yacht to clean his body and changed into the clean clothes that he had taken out from the interspace. Then, he threw the wet clothes into the washing machine on the yacht.

Then, he controlled the muscles and bones on his face and quickly returned to his original appearance. He quickly walked to the cockpit and started the engine without turning on the lights. He steered the yacht in the direction of the three mountains.

However, he did not return to the yacht Harbor immediately. After all, it was already very late. Furthermore, he did not know when he would return to the sea after this trip. Hence, Xia ruofei decided to spend the night at sea and return the next morning.

He drove the yacht to the sea near the three mountains, stopped the boat, and then went to the luxury bedroom in the cabin to rest for the night.

Chapter 2180 A smooth return (2)

The next morning, the sun rose slowly, sprinkling golden light on the sea.

Xia ruofei only woke up when the sun shone through the window. He washed up and went to the deck of the bridge.

Looking at the sparkling sea, Xia ruofei felt relaxed and happy.

This trip out to sea could be said to be very fruitful. The biggest harvest was naturally green travel Immortal Island. That magnificent immortal abode must have become the place that Xia ruofei was constantly thinking about. The wooden token in his body was constantly being refined. Compared to after he broke through to the Golden core stage, the refining speed should be much faster!

Other than the realm stones and origin crystals he had obtained on The Enchanted Island, the spiritual Python golden core was also a huge surprise. It allowed Xia ruofei's cultivation to reach refined Qi level 8. His spiritual power had also broken through a major realm and reached the spirit gathering realm, which was equivalent to a golden core cultivator. It could be said that this trip to the sea had completely transformed Xia ruofei.

In addition, he had also collected a lot of marine creatures in the sea, including the rare blue lobster. Those marine creatures were now living freely in the sea of the spirit map space, but in time, they would continue to reproduce and strengthen their group.

When the blue lobster was caught, there were many young lobsters attached to it. If they were lucky, a group of blue lobsters might even appear in the sea of space.

Xia ruofei was in a good mood. He shouted at the sea for a while before returning to the lower cabin in satisfaction. He took out bread, milk, and eggs from the medium space and made himself a simple breakfast.

After breakfast, Xia ruofei went to the cockpit and found the yacht dock on the main control computer. He set the auto – Pilot route, then lifted the anchor and set off on the way home.

After almost two hours of sailing, Xia ruofei could already see the yacht Pier in the distance. There were also some ships around him. He switched to manual driving mode and contacted the pier through the small radio on the yacht, telling them that he would be docking in a while.

As for the Yacht Club, they were actually a little worried about the Paradise Cruise going out for so many days.

Especially since the yacht's owner was driving the yacht out to sea alone. Even if Xia ruofei had a yacht driving license, he was not a professional yacht driver and was all alone. If anything happened to him at sea, there would be no one to take care of him.

After the yacht set sail, there was no news from it, nor did it contact the Yacht Club. Everyone was naturally very worried.

Therefore, when the staff on duty received the news that paradise was about to dock, they were very excited. They quickly called Qin Lan to inform her that Xia ruofei was definitely a big customer and that Qin Lan was usually the one who followed up on his matters.

Xia ruofei was getting more and more familiar with the yacht. He drove the yacht back to his exclusive berth with ease.

A staff member was already waiting there. He took the cable that Xia ruofei had thrown over and fixed the yacht to the dock.

By the time Xia ruofei returned to the shore, Qin Lan had already arrived at the dock in the electric car.

"Mr. Xia, you're finally back!" Qin Lan said the moment they met.

Xia ruofei smiled and asked, "what's wrong?" Is there something urgent, manager Qin?"

"You've been out for so many days and there's been no news from you. Our club's staff are all worried about you!" Qin Lan said in a coquettish manner.

Xia ruofei laughed and said, "actually, I didn't go far. I'm still in the nearby waters." And most of the time, they stopped the ship to rest! It's just that the scenery on the sea is very beautiful and leisurely. So many days have passed unknowingly ..."

"It's good that you're back, it's good that you're back ..." Qin Lan said, "Mr. Xia, you can't disappear like this next time. Everyone was worried to death ... This time, we tried to call you through the radio, but there was no response ..."

Xia ruofei smiled awkwardly and said, "I'm still not very familiar with the radio station ..."

In fact, he didn't even turn on his phone. He only turned it on when he was about to return to the port.

"Thank you for your concern, manager Qin." Xia ruofei smiled. "I'll leave the yacht to you. We'll be away for a few days this time. You have to clean it up and take care of it ..."

"Don't worry!" Qin Lan said.

Xia ruofei and Qin Lan arrived at the club in an electric car.

His Knight XV off – Road vehicle was parked there, and there was a layer of dust on it.

"Mr. Xia," Qin Lan said, "we have a free car wash service here. When we received the news of your return, we wanted to help you wash your car. But you didn't leave the car key, so ..."

"I'm fine!" Xia ruofei smiled and said, "I'll find a car wash later. It'll be the same."

"That's so troublesome! There's a professional car wash center right next to us, it's dedicated to club members "service!" Qin Lan said, "just give me the car keys. You can also go in and have a cup of tea and rest!"

"Then ... I'll have to trouble you!" Xia ruofei said.

He put his hand into his pocket and took out the car key from the medium and handed it to Qin Lan.

Qin Lan immediately called a staff member over and gave him a few instructions before handing him the car keys.

Then, she enthusiastically led Xia ruofei to the club's reception hall.

Through the floor – to – Ceiling glass, he could see the car washing situation next door.

In fact, this Yacht Club also provided maintenance services for luxury cars. After all, those who owned yachts were basically rich people, and they must all drive luxury cars.

As for the car wash, it was a free service for the club members.

Qin Lan personally accompanied Xia ruofei to wait in the hall. She asked with a smile, “Mr. Xia, how did it feel to go out to sea this time? Are you satisfied with the performance and comfort of the azmu yacht?”

“Not bad!” Xia ruofei said. I’ve made the right choice by buying this yacht!”

“Then, please help me promote it. If your friend needs to buy a yacht, I’ll give him the biggest discount!” Qin Lan said.

“I will! I will!” Xia ruofei laughed.

In fact, although he knew a lot of rich people, there were not many local people in San Shan. People like Tang Yitian, Tang He, and MA Xiong from Hong Kong had all bought luxury yachts a long time ago.

As a business manager, Qin Lan built up her network through this. She did not care how sincere Xia ruofei was. Even if there was only a one percent chance, it was enough for her to put in 100 percent of her effort. After all, the Commission for selling a yacht was quite high.

Qin Lan accompanied Xia ruofei the entire time and did not handle any other business.

After the car was washed, she personally sent Xia ruofei to the door and waved goodbye to him. Her service could be said to be quite good.

Xia ruofei drove away from the Yacht Club and headed straight for the villa area.

He gave Ling Qingxue a call on the way.

Ling Qingxue teased, “you’re finally willing to come back?” I thought you found an Immortal Island on the sea and then flew away with the fairy on the island!”

Xia ruofei smiled and said, “I really did find a mystical island!” I’ll bring you around when I have the chance in the future? I guarantee that you’ll never leave!”

“Virtue!” Ling Qingxue lowered her eyes and said, obviously not believing Xia ruofei’s words.

Xia ruofei smiled bitterly, “why don’t you believe me when I’m telling you the truth?” Forget it, forget it ... Let’s not talk about this anymore, you’ll know in the future! Qingxue, are you in the office?”

“Then why not?” Ling Qingxue said resentfully, “you went out to sea without me ...”

Xia ruofei looked at his watch and said, “Then I’ll come to the company to pick you up! I’ll go to the supermarket to buy some groceries first. We’ll have lunch at my house! I’ll cook for you!”

“Alright then!” “I want to eat kun fish!” Ling Qingxue said happily.

"I'll get the farm to send one over immediately. If we want to eat it, we'll eat it alive!" Xia ruofei said without hesitation.

"This is more like it!" Ling Qingxue said,"see you later! Come here a few minutes earlier. I don't have much to do today, so I should be able to leave early!"

"Alright!" Xia ruofei said.

After he hung up, he turned the steering wheel and was ready to buy some ingredients at the nearby Walmart.

At this moment, his heart suddenly moved. He felt that the white fox in the space seemed to have moved.

Xia ruofei smiled and mumbled to himself,""This little fellow is finally going to wake up?"
