

## God tier Farm 2271

### Chapter 2271 The family meeting (1)

Liu Qunfeng's expression tensed up. He knew that his father and Xia ruofei must have reached a clear conclusion from their conversation.

At this time, he couldn't wait to know the result. After all, old man Liu was too important to the whole family. Taking himself as an example, he had been working in his current position for four years. Adding the two years he had worked before he was transferred, he had been in this position for six years. If he couldn't make further progress in this election, he would soon reach the age limit, and his achievements in this life would stop here.

If elder Liu were to give up now, it would be a huge blow to Liu Qunfeng.

Unfortunately, all the specialists were at a loss on what to do with elder Liu's illness. Moreover, the illness developed extremely quickly. The most conservative estimate after the consultation of the specialists was that it would only take one or two months, and this was under the premise that they had to use all means available to extend the life of the old man.

It could be said that Xia ruofei was the only life-saving straw now.

Although he felt like he was being scratched by a cat, elder Liu didn't say anything. Liu Qunfeng didn't dare to ask any more questions, and he quickly nodded.

Then, he walked out of the ward and began to contact his brothers and sisters in Beijing, as well as important members of his family, with his mobile phone. He asked them to put down everything at hand and rush to the hospital as soon as possible.

This wait lasted for almost an hour.

During this time, Liu Qunfeng went back to the ward again, but elder Liu had fallen asleep after taking the medicine. He didn't dare to disturb him, so he quietly left.

Finally, all the important family members in the capital had arrived.

There were Liu Qunfeng's two younger brothers, Liu qun Yan and Liu Shan Shan, as well as their younger sisters, Liu Li Ru and Liu Li Fang. There were also several important members of the Liu family, such as Liu Chongli, elder Liu's cousin, and Liu Chongli's two sons, Liu qun Fei and Liu qun Xin.

In the Liu family, the eldest son, Liu Qunfeng, could be said to be the successor of old master Liu. His achievements were also the highest. Among the other family members in politics, the highest level was Liu Shanshan's department level.

Liu qun Yan and Liu Chongli were both in charge of the Liu family's business empire. At the same time, old master Liu's youngest daughter, Liu Lifang, and Liu Chongli's second son, Liu qun Xin, also worked in the family group. As for old master Liu's eldest daughter, Liu Liru, and Liu Chongli's eldest son, Liu qun Fei, although they were also part of the system, they were only at the division level, and the departments they were in were not the kind with a lot of power.

These people were basically the core members of the family in Beijing. Old man Liu had a son, Liu qunxuan, who worked in a southwest province and had already entered the leadership team. He could not return to Beijing easily. This time, when old man Liu fell ill, Liu qunxuan returned two days later and rushed back. Unless old man Liu passed away, Liu qunxuan could not stay in Beijing forever.

As for Liu haofan and the other third-generation disciples, none of them had become great people yet, so they were naturally not qualified to attend this event.

Liu haojun was the focus of the third-generation, so he was qualified to be present at such an important moment. However, after his defeat in Sanshan city, Liu haojun's political life had basically come to an end, and his status in the family had naturally plummeted.

As the saying goes, the Tian family is heartless. Although the Liu family was not considered a Tian family, in such a big family, family ties were basically very indifferent.

Just like this time when elder Liu was seriously ill, although the entire Liu family was burning with anxiety, in reality, everyone was more worried that after losing elder Liu, the Liu family would suffer various kinds of impacts that would directly affect their future development. As for the perspective of the younger generation, there was not much of a proportion of the feelings of admiration.

Liu Lifang, who was the least shrewd, could not help but ask, " "Big brother, why did the old man call all of us over? Don't tell me ... You want to explain ..."

"Shut up!" Liu Qunfeng glared at Liu Lifang and said, "don't jinx it! Dad's condition is stable, don't let your thoughts run wild ..."

"I'm just concerned about elder Zhai," Liu Lifang said, feeling a little wronged. I haven't been able to eat or sleep these days because I'm worried about the old master. He suddenly gathered everyone here, how can I not think too much?"

Liu Liru tugged at her sister's hand and said, "Li Fang, I can't blame you for saying that. What were you saying just now? It's a good thing big brother interrupted us, or else it would be so inauspicious!"

Then, Liu Liru turned to Liu Qunfeng and asked, "Big brother, dad must have called us over for something important, right?"

"Yes!" Liu Qunfeng nodded and said, "this morning, that Xia guy came to see dad, and then the old man asked me to gather everyone here. It must be related to this!"

When Liu Lifang heard that, she asked anxiously, " "Oh, really? Then what did they talk about? Did that kid agree to treat dad?"

"Don't ask me!" Liu Qunfeng said. I don't know anything about it! They met alone, and everyone was cleared out. Also, dad was very tight – lipped and didn't reveal anything to me!"

At this time, Liu Chongli said, "Qunfeng, since everyone's here, let's go in!" Won't everything be clear after meeting big brother?"

"Uncle, my dad just fell asleep after taking his medicine. I'll go in and have a look ..." Liu Qunfeng said.

Chapter 2272 Family meeting (2)

Then, he said to his brothers and sisters, ""Everyone, lower your voices. Don't disturb the old master's rest!"

"I know!" Liu Lifang said. I know! Big brother, hurry up and go in!"

Liu Qunfeng looked at Liu Lifang helplessly and walked into the ward.

As soon as he entered the house, he saw the caretaker, Mrs. Zhang, walking towards him.

Before Liu Qunfeng could say anything, Mrs. Zhang gestured for him to keep quiet. She then pointed inside. Obviously, old Liu was still sleeping.

Liu Qunfeng stopped and said in a low voice, ""Mrs. Zhang, keep a close eye on him. When my father wakes up, let me know immediately."

"Alright, chief Liu." Mrs. Zhang said softly.

Liu Qunfeng turned around and walked out of the ward. Liu Shanshan, Liu qun Yan, and the others quickly surrounded him. Liu Lifang couldn't wait to ask, ""Big brother, how is it?"

"The old man is still sleeping. Let's wait outside for a while!" "Don't make too much noise," Liu Qunfeng said."The old man doesn't think it's a big deal!"

"I know!" Liu Lifang said, a little disinterested. Then, she went straight to the bench and sat down. She took out her phone and played with it in boredom.

Everyone had something on their minds, so the waiting time seemed particularly long.

About half an hour later, the caretaker, Mrs. Zhang, finally opened the door. She looked at Liu Qunfeng and said, ""Chief Liu, the chief has woken up. He asked everyone to go in."

"Good! Good! Good!" "Mrs. Zhang," Liu Qunfeng said."You can rest outside for a while and help keep an eye on the area. Don't let anyone in." If they're medical staff, please ask them to wait. "

"I got it, chief Liu!" Mrs. Zhang said.

Liu Qunfeng beckoned everyone to follow him into the room.

"Daddy!"

"Big brother!"

"Uncle!"

Everyone respectfully greeted the skinny old man Liu who was lying on the bed.

Old master Liu was in good spirits, thanks to the "friendly massage" that Xia ruofei had given him. Now, old master Liu's face looked much Ruder than before.

With a faint smile on his face, he slightly nodded to everyone and said, ""All of you, find a stool and sit down!"

Liu Chongli, Liu Qunfeng, and the others sat around the bed, their eyes on elder Liu. They couldn't wait to know how the discussion between the elder and Xia ruofei had gone.

However, what they did not expect was that elder Liu did not talk about his condition or his negotiation with Xia ruofei. He said calmly, ""Now I can basically confirm that the haojun incident was planned and executed by Xia ruofei."

"What?" Liu Qunfeng stood up immediately. "Dad, did he admit it himself?"

Liu haojun was Liu Qunfeng's son. He had a promising future, but after this incident, he was unable to recover.

The incident at the three mountains was obviously a trap. It was just that Xia ruofei's arrangement was too meticulous, and the Liu family could not find any clues.

However, this did not stop Liu Qunfeng from hating the person who had caused this.

So, when he heard that Xia ruofei was the one who planned and executed Liu haojun's incident, Liu Qunfeng's eyes turned red.

Old Liu glanced at Liu Qunfeng with dissatisfaction and said, ""Sit down!"

Liu Qunfeng was also a powerful figure outside, especially in the important Ministry he served in. He was the second – in – command and had a lot of power in the unit. However, in front of elder Liu, Liu Qunfeng was like an obedient little sheep, and he didn't dare to disobey.

Liu Qunfeng quickly sat back in his seat and looked at elder Liu. ""Dad, what's the exact situation?"

"Qunfeng, you're already a Minister, so why can't you keep your cool?" old man Liu asked. How can I trust you with the Liu family in the future?"

"Yes ... Dad, I was wrong!" Liu Qunfeng said, his head lowered.

Old man Liu looked around at the crowd and said, ""Since little Xia has admitted to this matter, it means that he is completely fearless. Moreover, he said those words when we met in private. Even if he admits it, do we have any evidence?"

Then, old man Liu looked at Liu Qunfeng and said, ""Why did the equipment that you and your men fiddled with in the morning malfunction all at the same time? there was only the time when I met him, and nothing was recorded. Do you think this is a coincidence?"

"Even if we don't have any evidence, as long as we know he's the one who started it, it won't make a difference to us, right?" Liu Qunfeng mumbled.

Old man Liu sneered and said, ""The difference is huge! If he didn't have full confidence, would he dare to come to meet me alone? Qunfeng, although Xia ruofei is 30 years younger than you, he gives me the feeling that he's much more steady than you! You have to keep strengthening your Qi – nurturing skills!"

"I know, dad ..." Liu Qunfeng said bitterly.

Old man Liu looked at Liu qun Yan and said, ""Last time, haofan suffered a loss in the acquisition of land. Although Xia ruofei didn't admit it personally, one thing is for sure. He played a crucial role in it. Haofan was a sucker this time!"

Liu qun Yan was Liu haofan's father, so when he heard the news, he couldn't help but frown.

However, his reaction wasn't as intense as Liu Qunfeng's. After all, Liu haofan had only lost some money and then became a laughing stock in the aristocratic circle during that period of time. Overall, the impact wasn't big, unlike Liu haojun, who had his entire career ruined.

After Liu Chongli heard this, he couldn't help but frown and said, "Big brother, this kid with the surname Xia has a deep grudge against our family!"

"I'm sure we all know what our own children are like," said old man Liu indifferently. Although Xia ruofei is as cunning as a Fox, he never takes the initiative to stir up trouble. If only fan haojun and haofan had worked harder, they wouldn't have had conflicts with Xia ruofei and caused us to be in such a passive position!"

If Xia ruofei had heard that old master Liu's evaluation of him was "as cunning as a Fox", he would not know whether to laugh or cry.

Of course, in all fairness, he really did not show any mercy to his enemies, and his means were quite rich. It was not an exaggeration to say that he was as cunning as a Fox.

Liu Chongli laughed dryly. "That's true ... But we'll discipline our own children. This Xia brat clearly doesn't care about the Liu family!"

Old man Liu waved his hand and said, "we're not here to discuss this today!" Let's talk about my treatment ..."

"Dad, has Xia ruofei agreed to treat you?" Liu Qunfeng asked.

"Almost!" Old man Liu said, "we have basically reached a consensus."

Everyone heaved a long sigh of relief when they heard that. Liu Lifang even patted her bulging chest exaggeratedly and said, "This kid is quite tactful!"

"Foolish!" Old man Liu said mercilessly, "he's already in an undefeatable position. He can attack and retreat at will. He doesn't need to care about what we think of him at all. If he really refuses for the sake of treatment, what can you do to him?"

Liu Lifang shrunk her neck and did not dare to speak anymore.

At this time, old man Liu looked at Liu Chongli and said indifferently, "Chongli, there's something I need you to hurry up and do."

"Big brother, please speak!" Liu Chongli quickly said.

"Transfer all of our Jiangnan Pharmaceutical Group to Xia ruofei as fast as possible!" Old man Liu said, "that kid won't do anything until he sees the rabbit. He will never help us until he receives the real money for the treatment."

"What? The entire Pharmaceutical Group will be transferred to him?" Liu Chongli revealed a shocked expression.

"That's right. I promised him myself. Is there a problem?" Old man Liu asked indifferently.

Liu Chongli's heart couldn't help but clench, and he quickly said, "No problem! No problem! Big brother, I'll definitely settle this matter as soon as possible!"

#### Chapter 2273 Unified thinking (1)

No one in the Liu family, including Liu Chongli, who was in charge of the family's Financial Group, dared to oppose the decision made by old man Liu.

Only the eldest son of the Liu family, Liu Qunfeng, could not help but ask, "Dad, it's fine to give him the pharmaceutical company, but ... What if he takes the money and doesn't do the job, or in the end he doesn't ..."

Liu Qunfeng didn't dare to continue. If Xia ruofei's attack didn't work, then there would only be one result. Elder Liu wouldn't have much time left. How could Liu Qunfeng say such unlucky words?

"He won't," said old man Liu with a faint smile, "although it's the first time I've met this young man, I'm still confident about it." Moreover, if that was the case, would he be able to take over such a large Pharmaceutical Group? Even if my old bones enter the eight Treasures mountain, do you think that our Liu family will let others bully us like this?"

"Dad, don't say such disheartened words." "You'll be fine!" Liu Qunfeng quickly said.

Old master Liu said nonchalantly, "I've lived for so long, I've already gotten over life and death. But I can't leave so early! The huge business that I left behind is like a piece of fat meat that's glistening with oil ..."

Liu Qunfeng couldn't help but look a little ashamed as he said, "It's all our fault for not being capable enough ..."

At this moment, Liu Lifang, who had been silent all this while, suddenly had her eyes lit up and said, "Oh right! A lot of the shares of our Pharmaceutical Group are in the hands of the affiliated companies, so we don't have to transfer this part to him at all! It's not even under our family's name!"

Liu Lifang's thinking was simple. She would try to minimize her losses.

The Liu family's family group controlled many companies, both openly and secretly. Therefore, the equity structure of the pharmaceutical Group was also very complicated. From the public information, at least 30% to 40% of the shares were not in the hands of the Liu family.

But in fact, the companies that held these shares were still controlled by the Liu family. The Liu family's allocation of equity was just a routine operation for the purpose of risk control.

By right, when old man Liu agreed to give the pharmaceutical Group to Xia ruofei, he would be giving away the 60 to 70 percent of the shares that the Liu family held. As for the remaining shares, legally speaking, they were other people's shares. You can't expect me to give you other people's money, right?

From this perspective, Liu Lifang's words were not without reason.

After she said this, Liu qunyan, who also did not walk the path of the system, was even more enlightened. He slapped his thigh excitedly and said, ""Don't say it! This idea of little sister's is really good!"

"That's what I think!" Liu qunyan analyzed. This 30 to 40 percent of shares was worth at most 500 to 600 million Yuan. It was not a lot of money. However, the significance of keeping these shares is very great!"

After all, Liu Chongli had been in the business world for most of his life, and he suddenly felt that it was interesting. He said thoughtfully, "Qun Yan, you're saying ... Taoyuan pharmaceutical factory ..."

"Second uncle, great minds think alike!" Liu qunyan said, "Xia ruofei asked for the pharmaceutical Group. His purpose is obvious! It's to expand the scale and production capacity of their company's pharmaceutical factory. If we retain a portion of the shares in the name of an affiliated company, when the time comes for the merger, it'll be equivalent to us infiltrating paradise pharmaceutical factory! This pharmaceutical factory's ability to make money is too terrifying, and it has never had any intention of financing. If we hold these shares, at the very least, we can ride on the rapid sales of the Yushi cream and heart – nourishing soup and make a lot of money! If we're lucky, we might even be able to take this opportunity to slowly take over the Paradise pharmaceutical factory, or even the entire paradise Corporation!"

Liu Lifang was overjoyed and said triumphantly, "How is it? Isn't this a good idea?"

Actually, Liu Lifang just felt bad for the money and wanted to give him as little as possible. She didn't think so deeply! But after Liu qun's analysis, Liu Lifang was very pleased that the shares still had such an important role.

Liu qun Yan, Liu Lifang, and a few other second – generation members of the family group started to discuss excitedly.

However, Liu Chongli realized that old man Liu had not said a word. He only looked at Liu Lifang, Liu qun Yan, and the others indifferently. There was even a hint of sadness in his eyes.

"Qun Yan, Li Fang, let's not talk about this for now. Let's listen to big brother's opinion!" Liu Chongli quickly said.

"Yes, yes, yes!" Liu Lifang quickly asked, "dad, what do you think of my suggestion just now?"

Only then did old man Liu raise his eyes and look around.

The family members who met his eyes all involuntarily avoided his gaze. Some even lowered their heads slightly. Even though old master Liu was so sick that he was only skin and bones, once he exuded his might, the younger generation of the family would be afraid.

Even Liu Chongli, who was of the same generation as old master Liu, respected and feared this cousin of his.

Although Liu Chongli was old man Liu's cousin, he was younger than old man Liu by more than ten years. When he was very young, he had followed old man Liu out. Although they were of the same generation, in life and work, old man Liu was more like his elder, and often taught him earnestly.

Chapter 2274 Unified thinking (2)

“Are you guys done?” old man Liu asked indifferently.

Liu qunyan finally felt that something was wrong, and quickly said carefully, “I’m done. Dad, what’s your opinion?”

After Liu qunyan finished speaking, he mustered his courage and looked up at elder Liu. His eyes met the sharp gaze of the old man, and he was so scared that he quickly lowered his eyes to avoid the sharp gaze.

“What opinion do I have? What do you think I can say?” Old master Liu laughed coldly. “Do you think Xia ruofei is a fool? Did he think the song family was just for show? Was it still a secret who the shares of the affiliated companies belonged to? Using this as a reason to retain a portion of the shares, and even thinking of taking over paradise Corporation, what are you thinking? Ridiculous! You’re simply stupid!”

Liu qun Yan, Liu Lifang, and the others were so scared by old man Liu’s scolding that they didn’t even dare to breathe, let alone talk back. They even lowered their heads to their chests.

Actually, there was one more thing that old man Liu did not say out loud. That was, Qianqian’s father’s life was in Xia ruofei’s hands. If you plot against him, isn’t that the same as trying to kill me?

At the thought of this, old man Liu couldn’t help but feel inexplicably angry. This bunch of unfilial descendants ...

Liu Qunfeng, who was the closest to old man Liu, quickly got up and patted him on the back. “Dad! Don’t get too excited! Don’t get too excited! Qun Yan and the others are just saying ...”

“This kind of thinking is very dangerous!” Old master Liu said, “don’t even think about it! Chongli, you’re in charge of the transfer of shares. Don’t do anything sneaky. You must hand over the entire Pharmaceutical Group to Xia ruofei. Also, don’t try to plant any spies in the group, and don’t even think of stealing the formula of the heart – nourishing Jade skin cream! Do you understand?”

“Alright, big brother! Don’t worry! I’ll definitely get it done!” Liu Chongli quickly replied.

As for Liu qun Yan, Liu Lifang, and the others, who had been beaming with joy just a moment ago, they did not even dare to breathe loudly now. All of them lowered their heads, looking like frozen eggplants.

Old man Liu calmed down a little and said seriously, “Transferring the pharmaceutical Group is only the first step. There are more important things to do next. Qunfeng, take note.”

Liu Qunfeng quickly stood up and said, “Dad, give me your orders!”

“From today on, all the arrangements against the song family will be temporarily put on hold,” said old man Liu. “At all levels, it’s appropriate to give way. Don’t take the initiative to stir up conflicts. In short, as long as the song family doesn’t take the initiative to touch our cake, we will live in peace with them. Even if the song family really does something, we’ll endure it as much as we can ...”

Liu Qunfeng gasped in shock and muttered, “Dad! Is this what Xia ruofei asked for?”

Old man Liu didn’t give a direct answer. He only said, “This is my decision after careful consideration!”

"But ... This way, a lot of our plans will be in vain!" "And ..." Liu Qunfeng said. "Will the Gaos and the other families have any opinions on what we're doing?"

"We're only in a truce with the song family, not an Alliance," old man Liu frowned and said, "who are they to judge us?" You can't tell what's more important, can you?"

Liu Qunfeng's heart skipped a beat, and he quickly said, "I know, dad! I'll immediately carry out your orders and ensure that it's completed to the letter!"

Only then did old man Liu nod slightly. He looked tired and waved his hand. "Alright, I've gathered everyone here today to let everyone know and to remind you all to keep a low profile from now on. I don't want to see haojun's incident happening again!"

Liu Qunfeng felt bitter. Liu haojun was his son! His bright future had been ruined just like that. Now, he was being used as a negative example by the old man. Furthermore, Xia ruofei, the person who had caused Liu haojun's downfall, had earned a lot of money. This was really too heartbreaking ...

However, Liu Qunfeng only dared to criticize him in his heart. He, Liu Chongli, and his brothers and sisters all nodded in agreement.

At a time like this, they naturally had to be the first to express their opinions. If there was any hesitation, it would be a matter of attitude.

"I'm a little tired," said old man Liu, "everyone can leave now!"

Liu Qunfeng and the others left the room with complicated expressions on their faces. Each of them had their own thoughts, but they were all alarmed.

.....

The Liu family was in an uproar because of the old man's announcement. After Xia ruofei left Room 301, he returned to the song family's old house in the red flag car.

"Ruofei, the Bureau chief just woke up from his lunch break." Manager Lu smiled and said, "he said that you can meet him directly once you come back. There's no need to inform him."

"Alright!" Xia ruofei said with a smile.

"You're familiar with the house, so I won't be leading the way." Manager Lu smiled and said, "I still have to go to the kitchen and ask the cook to cook a few more dishes. Your face is glowing. It's obvious that something good has happened! It seems like the chief will have to break his precept and drink more tonight ..."

"Hahaha! I didn't expect you to be so good at reading people's faces, manager Lu!" Xia ruofei said with a smile.

"Your grin is almost reaching your ears, isn't it obvious enough?" Manager Lu said, "alright, don't argue with me. Hurry up and go see the chief! Don't let him wait too long ..."

"Alright!" Xia ruofei said, "manager Lu, see you later!"

Manager Lu waved at Xia ruofei and walked to the kitchen. Xia ruofei walked to the study room with ease.

He gently knocked on the door and heard elder song's voice from inside,""Please enter!"

Xia ruofei pushed the door open and walked in with a smile. He called out,""Grandpa song!"

Elder song put down the newspaper in his hand and smiled."RUO Fei is back? It seems like the result of the conversation was very ideal!"

Xia ruofei was stunned. He touched his nose and said,""Is it that obvious? Manager Lu also said the same thing just now ..."

Eccentric song couldn't help but laugh heartily,"Tell me! What did you talk to that old man about?"

Xia ruofei sat down across from elder song and said,""I've already thought about it. Since you still care about our friendship, I can't just leave him in the lurch. I'll definitely treat him."

"Ha!" Elder song laughed. My face is quite big. "

"That's for sure!" Xia ruofei said,"however, the Liu family is quite hostile to me, so I can't cure the old man in one go. The best way is to keep him alive and not let him get rid of the disease completely. Only then will I be able to do it with ease."

Elder song nodded in agreement."Indeed, I think you already have a plan, right?"

"I'm still confident in my treatment. " Xia ruofei smiled confidently and said,"but I don't have any relationship with the Liu family. I can't just do it for free! Therefore, the only problem is ... How much money do I need from them?"

"Looks like old Liu's going all out today!" Elder song laughed.

"I want their Pharmaceutical Group," Xia ruofei said with a smile.

"Hmm ... That's appropriate. Although the Liu family will feel some heartache, it won't be a serious blow." Elder song pondered for a moment and said,"I'm guessing that old Liu agreed without hesitation."

Xia ruofei gave him a thumbs up and said,""You're indeed a divine strategist!"

Xia ruofei continued."Other than this condition, I wanted to mediate and make the Liu family give up their hostile position against the song family. The two families would join forces and fight against the song family."

Eccentric song replied without hesitation,"That old man will never agree. There are too many factors involved. Even if he is very afraid of death now, he will never agree to this condition, because in this way, even he himself will not be able to control the situation. Then there is no meaning for him to live!"

Chapter 2275 Virtue and tolerance (1)

Xia ruofei couldn't help but sigh in his heart. None of these old men were easy to deal with! Back at the hospital, elder Liu had rejected the offer without hesitation, but now, elder song had spoken his judgment without hesitation.

Xia ruofei smiled."You're right. Old master Liu is very determined. I can tell that there's no room for negotiation."

Elder song looked at Xia ruofei with a smile and said,""RUO Fei! You can just get what you deserve, you don't have to consider the song family. The song family and the Liu family have been fighting for decades, and neither has gained any advantage. My body is still good now, so I don't need to find outside help. "

The more elder song looked at Xia ruofei, the more satisfied he was. He regretted that he did not have a granddaughter of the right age. Otherwise, he would definitely make the decision to marry Xia ruofei.

Xia ruofei said,"Grandpa song, although the Alliance didn't come to an end, Grandpa Liu has agreed to stay out of the song family's way. They won't go against the song family. They'll remove all their previous arrangements. Also, when the song family has conflicts with other forces, the Liu family can remain neutral. At least, they won't help either side."

Elder song's eyes widened. This was beyond his expectations.

"Did old Liu say it himself?" he asked.

"Of course!" Xia ruofei smiled."Before I left, old master Liu also said that in a complicated situation, there's no way to stay out of each other's way. However, if there is a conflict of interest between the two sides, we can negotiate to resolve it. "

Eccentric song nodded. After a long pause, he smiled and said,"I really didn't expect that you would bring back such a big surprise when you met that old man."

Indeed, the promise of nonaggression that Xia ruofei brought back was undoubtedly very positive for the song family.

"Alright!" Elder song continued. Since old Liu has spoken, I'll give the order as soon as possible to stop the confrontation between the two sides at all levels. If there is a conflict of resources and interests, try to negotiate!"

"I'm only in charge of pulling the strings. I won't interfere in the specific matters. " Xia ruofei said with a smile.

The disputes of interests between big families were very complicated, and could not be explained clearly in two or three sentences. However, the two helmsmen of the Liu and song families were both veterans who had been in battle for a long time. With such a tacit understanding and consensus between them, the conflict between the two families should be basically resolved.

Although it was impossible to have one more ally, one less enemy could also reduce a lot of consumption, especially a huge enemy like the Liu family.

Therefore, elder song was in a good mood and invited Xia ruofei to stay for dinner. He even made an exception and had two more glasses of wine.

While they were eating, elder song asked Xia ruofei about his company, especially about taking over the Liu family's Pharmaceutical Group. There were many things involved, and elder song expressed that he would have the song family's full support to ensure the smooth completion of the share transfer and the acquisition of the factory.

Xia ruofei didn't know that Liu Lifang had the idea of keeping a portion of the shares, and Liu qun Yan even had the idea of using these shares to gradually nibble away at Tao Yuan company. However, he knew that it would be a very complicated matter to take over such a huge Pharmaceutical Group. With Tao Yuan company's current strength, it would be difficult to check all the reports and accounts.

Therefore, he didn't decline. He only expressed his gratitude to elder song and said that if there was a need, he would be the first to ask the song family for help.

After dinner, Xia ruofei did not stay too long in the song family's old house as he knew that the old man went to bed early. He chatted with elder song for a while and then got up to leave.

Manager Lu personally accompanied Xia ruofei to the front yard in the same bulletproof car with the red flag.

The chauffeur opened the door and waited by the car.

As Xia ruofei was saying goodbye to manager Lu, Fang Zhongming, the head of the song family's security guards, came over in a hurry and said, "Mr. Xia, please wait!"

Xia ruofei had already bent down to get into the car, but when he saw this, he straightened up and looked at Fang Zhongming.

Fang Zhongming held a long paper box in his hand and walked quickly to Xia ruofei. He said, "Mr. Xia, this is a gift from the Bureau chief. Please accept it."

Xia ruofei quickly took it with both hands and said, "This is too precious!"

Manager Lu was very envious and couldn't help but say, "Ruofei, the Bureau chief rarely inscribes you! Isn't this already your second painting?"

"Hehe!" Xia ruofei was so happy that he could not close his mouth.

"Open it and take a look!" Manager Lu said, "let us also broaden our horizons ..."

"Manager Lu, you work beside Grandpa song every day. Do you think you don't have a chance to see his calligraphy?" Xia ruofei hugged the box and said, "don't tell me you're thinking of ..."

"You child!" Manager Lu chuckled and said, "the Bureau chief gave it to you. Who would dare to snatch it from you? I just wanted to experience it ..."

"You're quite curious!" Xia ruofei muttered to himself.

He opened the box and carefully took out elder song's calligraphy.

This piece of calligraphy was rectangular in shape and had been rolled up and placed in the paper box. After Xia ruofei took it out, Fang Zhongming helped from the side and the two of them slowly unfolded it.

## Chapter 2276 Virtue and tolerance (2)

The four words “virtue and tolerance” were presented in front of everyone. The strokes were vigorous and powerful, revealing a stern aura unique to people in the military, but there was no sense of disharmony. It seemed to interpret the profound meaning of these four words from another angle.

“Good writing!” Xia ruofei couldn’t help blurting out.

He knew that elder song was giving him encouragement, but at the same time, it was a reminder.

As the peach blossom company expanded, Xia ruofei had shown more and more amazing things. Elder song also hoped that Xia ruofei would never forget his original heart and never lose himself. He wanted to always be like a real gentleman, carrying the world with his moral character.

This was elder song’s good intention.

Elder song didn’t know that for Xia ruofei, whose cultivation was getting higher and higher, these words were a good reminder.

A cultivator’s power was so great that they could move mountains and fill the sea. As their cultivation continued to improve, many people would often lose their original heart and forget that they were once a powerless mortal. They would even put themselves in a higher species and regard mortals as ants.

“The Bureau chief spent a long time in the study last night writing,” manager Lu said. “This should be the piece he’s most satisfied with.”

Xia ruofei was touched. It seemed that elder song knew that he would be visiting today and had prepared this gift in advance yesterday.

Elder song’s calligraphy had a high artistic value. More importantly, his personally written works were often given a deeper meaning. This was also the reason why elder song did not write for others easily. However, he never hesitated when giving Xia ruofei his calligraphy pieces. Including this time, elder song had already given Xia ruofei two pieces of calligraphy.

Xia ruofei carefully rolled up the piece of calligraphy and said to manager Lu, “Manager Lu, please tell Grandpa song that I will remember his words!”

“I’ll definitely bring it!” Manager Lu smiled and nodded.

Xia ruofei nodded and sat in the car. He waved goodbye to manager Lu and Fang Zhongming.

The car started slowly and left the song family’s old house.

It was almost nine o’ clock in the evening when he returned to the courtyard house. Xia ruofei washed up, sat on the bed, and cultivated for a while before lying down to rest.

The next day, Xia ruofei did not plan to leave the house. He had to prepare the medicinal herbs for elder Liu’s treatment.

Facing such a serious illness, Xia ruofei definitely could not rely solely on traditional Chinese medicine. He still had to use the petals of the spirit Heart Flower. However, even if they had a certain effect, they could not cure him immediately. It was not easy to grasp the extent.

After he finished his breakfast, he returned to the master's courtyard in the middle, ready to close the door and enter the spirit map space.

Just as Xia ruofei was about to take out the painting, he heard footsteps. From the sound, Xia ruofei knew that it was Qin Yanan.

Sure enough, Xia ruofei heard a soft knock on the door. Qin Yanan said, "President Xia, I have something to report to you."

Xia ruofei had already locked the door, so he had to open it again. He smiled and asked, "Yanan! Did something happen in the company?"

Qin Yanan's expression was a little strange as she said, "President Xia, the company called me. There's something very strange. Everyone is indecisive and asked me to report to you as soon as possible."

"What's so troublesome?" Xia ruofei smiled and said, "tell me!"

"Yesterday evening, the company's legal department received a fax from miles Pharmaceutical Group from Jiangsu and Zhejiang Province. The other party said ..." Qin Yanan hesitated for a moment, then continued, "the other party said that they want to transfer all the shares of the group to you, and they want us to send someone to get in touch with it as soon as possible ..."

Qin Yanan quickly explained, "President Xia, this matter sounds very ridiculous. The colleagues in the legal department thought it was a prank and ignored it at first, but soon the other party called again. They were very serious and seemed to be very anxious. "After hanging up the phone, my colleagues from Legal Affairs immediately reported to the company leaders at home. This morning, President Feng got the contact information of the chairman of miles Pharmaceutical Group through his personal connections and called to ask. Chairman Liu personally admitted that there was indeed something going on and said that as long as he reported it to you, the matter would be clear, so ... President Feng asked me to report this to you immediately ..."

Xia ruofei thought to himself, "the Liu family is quite fast!" It seemed that the old man was not as calm as he looked on the surface. He was still very afraid of death ...

"President Xia, this matter ..." Qin Yanan carefully asked.

"There is indeed such a thing." Xia ruofei smiled. "However, I did pay some other price. It's equivalent to an exchange! Our paradise pharmaceutical factory happens to be in the stage of rapid expansion. If we take over miles Corporation, we'll save a lot of time!"

"So this is true!" Qin Yanan was shocked.

The market value of miles Pharmaceutical Group was higher than that of paradise Corporation. Now, all the shares were going to be transferred to Xia ruofei? He didn't know what price Xia ruofei had paid for the equivalent exchange, but one thing was for sure. Once miles Corporation was merged into the paradise Corporation, the company's assets would at least double.

If he counted the additional value brought by the rapid development of Taoyuan pharmaceutical factory, it would be even greater.

"Of course it's true!" Xia ruofei laughed and said, "who would make such a joke for no reason?"

Then, Xia ruofei said seriously, "Yanan, contact your family and ask CEO Feng to immediately gather the elite forces to form a team. The team must include legal, financial, and pharmaceutical factory professionals. Let CEO Feng or CEO Dong lead the team. Come to the capital and meet me immediately!" I'll ask miles to send a team to Beijing to sign the transfer agreement. After that, I'll go to Jiangsu and Zhejiang Province to take over the manufacturing factory. "

"Alright!" Qin Yanan said excitedly. At the same time, she quickly jotted down notes in the small notebook she carried with her.

Xia ruofei thought for a while and said, "by the way, tell boss Feng not to affect the company's normal operations because of this. There's no need for too many people in the acceptance team." If you don't have enough manpower, I have reliable candidates on my side who can be filled in by then. "

"Understood!" Qin Yanan asked as she jotted down notes, "President Xia, do you have any other orders?"

"Not at the moment, but I have one request, as soon as possible! It's best if you fly over today!" Xia ruofei said, "by the way, since you're in Beijing now, you and he Yu will be responsible for some front – back coordination and security work. For example, the accommodation and accommodation of our company's team after they come over. Once the number of people is confirmed, you will have to book a hotel in advance. Of course, I'm just giving you an example. You and he Yu will have to work harder for the specific matters. This matter is more urgent. "

"Don't worry, President Xia!" Qin Yanan quickly said, "I'll coordinate it."

Xia ruofei nodded and said, "then go!" If there's anything you can't make a decision on, report to me at any time!"

"Alright!" Qin Yanan replied.

When she walked to the front yard, she felt that her steps were light, because this matter was really like a dream and too unreal.

Qin Yanan contacted San Shan, and Feng Jing was extremely excited when she heard the news. Paradise Corporation also quickly took action. After discussing with a few senior executives at home, they quickly gathered the elite forces to form a ten – person team led by Dong Yun. They booked a flight to Beijing at around noon.

Xia ruofei had also contacted the Liu family, saying that he wanted to come to the capital city to sign the share transfer agreement. Since old master Liu had already spoken, Liu Chongli would naturally fully cooperate, so he agreed without hesitation.

Miles Corporation also sent people to Beijing. The two parties agreed to meet at the Shangri – La hotel the next morning to sign the agreement.

## Chapter 2277 Expanding the herb garden (1)

Because miles Pharmaceutical Group was not a listed company, and there were no executive shares, employee shares, or other legal prohibitions, and 100% of the pharmaceutical group's shares were

actually in the hands of the Liu family, the stock ownership change process was relatively not too complicated.

After Xia ruofei had arranged the work, he didn't have to worry about it anymore. Of course, as the shareholder, he still had to attend and sign the documents tomorrow. However, he didn't have to worry about the early coordination and preparation.

Qin Yanan and he Yu were busy coordinating with the people behind them, while Xia ruofei went back into the house and locked the doors and windows. Then, he walked into the bedroom and summoned the spirit painting scroll from his palm.

He used his mind power to check the surrounding situation. After making sure it was safe, he entered the space.

As soon as he entered the mountain sea realm, Xia ruofei saw a flash of white light in front of him. He subconsciously used the invisible force of space to confine it. Then, he saw the realm Fox Bai Qingqing floating in front of him in a strange posture. Xia ruofei could not help but laugh when he saw her grimacing.

With a wave of his hand, he removed the seal, and Bai Qingqing fell to the ground.

"This is too much! You tricked me the moment we met!" Bai Qingqing transmitted her voice in dissatisfaction.

"Who asked you to launch a surprise attack?" Xia ruofei chuckled.

"Isn't it because it's too boring here?" Bai Qingqing pouted and sent a voice transmission, "when are we going to explore this barren world again? Don't forget that you also need world stones to upgrade this small space!"

As there was Bai Qingqing in the space, whose intelligence was not lower than that of a human, Xia ruofei was now used to the feeling of being in a closed space. He did not want to have a pair of curious eyes "watching" the battle in the space while he was rolling around with Ling Qingxue.

Of course, with the current situation, it would be difficult for him to have sex with Ling Qingxue.

Xia ruofei smiled. "I'll be busy for a while. I don't plan to go out for the time being."

He continued to ask, "the spatial rules here are so profound, are they not enough for you to comprehend?" Why do you keep thinking about going out?"

Bai Qingqing said gloomily, "cultivation can't be eaten! You humans all know how to strike a balance between work and rest. I've been comprehending the spatial laws every day, don't you think I'm tired of it?"

Xia ruofei laughed. "I saw your energy earlier. You didn't feel bored at all!"

In the past, eight out of ten times Xia ruofei entered the space, he would see Bai Qingqing feeling the fluctuations of the laws of space. She would ignore him when he suddenly appeared in the space. He did not expect her to be bored of him now.

Bai Qingqing said, "I was in a hurry to evolve before." Now that he had used up all his world stones, he was still far from the next evolution! Who can stand living like an ascetic every day!"

Xia ruofei didn't know whether to laugh or cry. So this little guy was working so hard because it was on the verge of evolution and wanted to break through the bottleneck in one go. Now that it had successfully evolved, it had become lazy.

"I know!" Xia ruofei smiled and said, "after I'm done with my work, I'll take you out for a walk again ..."

Bai Qingqing rolled her eyes and said, "Why don't you ... Take me to the outside world to play? It's so annoying to stay in this small space every day ..."

Xia ruofei hesitated for a moment. He was not worried that Bai Qingqing would take the opportunity to escape after leaving. In fact, he did not restrict Bai Qingqing's freedom at all. If she wanted to leave the medium, he would not stop her.

Xia ruofei's concern was that if Bai Qingqing went out of control, she might cause a lot of trouble.

When the little fellow was in the medium, Xia ruofei could still rely on his strong control of the space to imprison it at any time. Once he went out, it was so fast that even if Xia ruofei's cultivation had improved greatly, he might not be able to control it with a single mistake.

Bai Qingqing's claws and teeth were extremely sharp. She could easily cut through a world stone as if it was tofu. If she were to attack anyone, they would definitely end up with a gutted stomach. If such a thing were to happen, it would be quite troublesome.

"Why don't you say something!" Bai Qingqing said, "it's so boring to stay in this small space ..."

Xia ruofei thought for a moment and said, "I ... I'll consider it! However, you have to promise me first that you will listen to me after we leave this place. You absolutely can not act recklessly. Without my permission, you are absolutely not allowed to attack others. Otherwise, we will go our separate ways and don't work together to find world stones. "

Xia ruofei's words had a certain deterrent effect on Bai Qingqing. After all, the world was so big. Even if Bai Qingqing's ability to sense the world stone was far better than Xia ruofei's, it would still be quite difficult for her to find the world stone on her own.

Just like the time in the tomb, Bai Qingqing could also sense the location of the world stone, but with her strength, she could only look at it. If Xia ruofei had not helped, she might not have been able to obtain the world stone even if she had a few more years.

Moreover, most of the earth was covered by seawater. Many cultivators liked to find a small island overseas to use as their abode. Therefore, the probability of world stones appearing in the sea was relatively high. To Bai Qingqing, if she wanted to find world stones in the vast sea, she would need Xia ruofei's help even more.

## Chapter 2278 Expanding the herb garden (2)

As expected, Bai Qingqing immediately nodded and said, "I promise! I will definitely not cause you any trouble!"

Xia ruofei nodded."I'll think about it. But I can't do it these few days."

Bai Qingqing was a little disappointed. She pouted and said,"Then don't forget!"

"Don't worry! When have I ever gone back on my word?" Xia ruofei said with a smile.

"Someone seems to have forgotten about embezzling my world stone ..." Bai Qingqing said disdainfully.

"I'm going to Sue you for slander!" Xia ruofei said,"what do you mean by I'm greedy for world stones? We've already agreed to distribute the world stones according to our contribution. I feel that my distribution is very fair, alright?"

Bai Qingqing snorted and said,"I'm too lazy to argue with you!" I'm going to comprehend the spatial laws!"

With that, a white light flashed, and Bai Qingqing escaped. She found a space node accurately, closed her eyes, and began to comprehend the laws.

Xia ruofei smiled and shook his head. With a flash, he appeared beside the mountain sea realm's spatial herb garden. The area of the Archean realm was limited, so Xia ruofei had already asked Xia Qing to move all the herbs that were originally stored in the Archean realm to the mountain sea realm. He had built a simple herb warehouse beside the herb garden. There were rows of shelves in the warehouse, and they were filled with all kinds of common herbs.

It just so happened that Xia Qing was also busy in the herb garden. In fact, Xia Qing had already sensed Xia ruofei entering the space. However, Xia ruofei was talking to Bai Qingqing, so he didn't come over to disturb him.

Seeing Xia ruofei walk over, Xia Qing immediately put down the medicinal hoe in her hand, bowed slightly, and called out,"Good day, master!"

Xia ruofei nodded and said,"Xia Qing, for a period of time from now on, the demand for the medicinal herbs to make the jaded skin cream and heart – nourishing soup will increase greatly. I need you to quickly expand the planting area. The main thing is to plant the medicinal herbs needed for these two products."

"Yes, master!" Xia Qing answered without hesitation,"I wonder how much Area Master needs to expand?"

Xia ruofei thought for a while and asked,"how long will it take to expand it by ten times?"

Now, the only one who could help Xia ruofei take care of all these things in the space was Xia Qing, the spiritual puppet. He had been trying to refine his own spiritual puppet, but the preparation work was very cumbersome, and his spiritual power cultivation was still a little weak, so the possibility of adding an assistant to Xia Qing in a short time was not high.

However, after taking over miles Corporation, the demand for the raw materials for the jaded skin cream and heart nourishing soup would definitely rise. It was unrealistic to completely rely on purchasing raw materials. The best solution was to build a base for raw materials in the realm.

In any case, the area of the mountain and sea realm was growing larger and larger, and there was simply no way to use up all the land. Furthermore, the spiritual Qi in the spatial zone was so dense that the growth cycle of medicinal herbs could be shortened by a lot, and the quality would also be much higher than those purchased outside.

Xia Qing thought for a moment and said, "if we're just expanding the planting area, two months should be enough." "However, medicinal herbs have a growth cycle. If we want this herb garden, which is ten times its current size, to be able to start producing in a short period of time, we can only use Archean realm to cultivate it. When the medicinal herbs grow to a certain extent, we can transplant them over. This might take longer ..."

"Is three months enough?" Xia ruofei asked.

"Enough!" Xia Qing said, "in three months, even if we can't reach ten times the production, we can at least reach seven or eight times. As time passes, the production will gradually increase. In five months, we can definitely reach ten times the current production."

Xia ruofei nodded and said, "very good!" Then, from today onwards, you will focus on this task. In addition, after you harvest these herbs, you have to separate them and store them separately. In a few days, I'll purchase a few mobile rooms and medicinal storage devices. When the time comes, I'll build a special medicinal material warehouse and place it next to this warehouse. "

"Yes, master!" Xia Qing nodded and said.

Although this task was very difficult and boring, Xia Qing, as a soul puppet, would obey the master's orders unconditionally. Moreover, he did not know what was difficult and what was boring. He did not even need to sleep, and could work without rest. In addition, his work efficiency was much higher than ordinary people, so this seemingly impossible task was not a problem for him.

"You can go back to your work! I want to make a batch of pills. " Xia ruofei said with a pleasant expression.

"Yes, master!" Xia Qing bowed slightly, then picked up the medicinal hoe and continued to work.

The next step was to expand the area of the medicine garden by ten times. Xia Qing estimated that for a long time, her main energy would be concentrated on the medicine garden.

Xia ruofei shuttled through the simple medicinal warehouse with ease and familiarity. He quickly picked out more than ten medicinal herbs that he needed to make the pills today.

The old man of the Liu family had pancreatic cancer, which could be said to be the most dangerous type of cancer. It was completely cured by Traditional Chinese Medicine, but the possibility was not high. Even if bianque was reborn, it was estimated that there was no absolute cure for this illness.

But even so, Xia ruofei was confident that he could delay the development of the disease with the help of Chinese Medicine and Acupuncture.

Moreover, he planned to add a very small amount of spirit Heart Flower petals into the pill today. This way, it would basically be foolproof.

Xia ruofei had already mastered a few lost medical books. Hence, his knowledge of Chinese medicine was not much worse than some Chinese medical experts. He might not be as experienced, but his theoretical level was definitely higher than others. After all, he had inherited a few lost medical books. Any one of them was a classic.

Hence, Xia ruofei could no longer just follow the prescription mechanically.

Xia ruofei had come up with this prescription based on his knowledge of Chinese medicine and the analysis of old master Liu's condition. Although he had used an ancient prescription, Xia ruofei had added and deleted the amount of medicinal herbs according to his own understanding.

In other words, Xia ruofei had already passed the stage of rote memorization and had begun to integrate in the field of Chinese medicine.

He skillfully placed the best charcoal in the stove and started a fire.

Then, he added the spirit pond water into the claypot and began to put in the medicinal herbs one by one.

Now, Xia ruofei was very familiar with making pills. After about an hour, there were 20 to 30 round pills in the claypot in front of Xia ruofei.

The main ingredient of these pills was actually honey. Of course, there were also Chinese medicine ingredients in it, as well as a small amount of spirit Heart Flower petals.

However, after he had boiled the entire pot of medicine into a paste, he had only added a few drops of concentrated spirit Heart Flower petal solution. In terms of composition, it was probably only one – tenth of a complete spirit Heart Flower petal.

However, Xia ruofei felt that it was enough. He predicted that after taking all these pills, elder Liu's health would improve to a certain extent. Even the tumor would shrink to a certain extent. Anyway, the effect would definitely be there.

However, because there were too few spirit Heart Flower petals, it was absolutely impossible to completely cure him.

These 30 pills were equivalent to a course of treatment.

After seeing the effect, Xia ruofei believed that the Liu family would treat him as a life – saving straw and worship him like a god. By then, he would have a way to advance and retreat.

Xia ruofei found a beautiful porcelain bottle and put all the pills in it. Then, he carefully sealed the bottle and waved his hand. The porcelain bottle disappeared into thin air.

In reality, Xia ruofei had already used the invisible spatial force to send him directly to the stone room in the cave in the mountain sea realm. He was just waiting for him to take him out before he went to treat old man Liu.

As for now, of course, it was better to keep it in the space. At least, the medicinal properties would not be lost at all.

After making the pill, Xia ruofei left the spirit map space.

Chapter 2279 The car has arrived\_ Not long after Xia ruofei left the origin space, he received a call from Li Zhe. He was informed that the Elfa MPV he had ordered had arrived in the capital.

Xia ruofei was very surprised. Li Zhe had said that the goods would arrive in three to five days, but it had been brought forward.

“Xiao si, where’s the car? I’ll bring someone over to bring it now!” Xia ruofei asked.

Li Zhe laughed and said, “brother Xia, you don’t have to worry about this!” I picked up a car from the Jing Jin port this morning and am on my way back. I’m sure the car will reach your house before noon!”

“Yo! This is so embarrassing! “And you’re asking for delivery ...” Xia ruofei smiled and said, “you can tell us the location. We’ll go and get the car ourselves!”

“Hey! You don’t have to be so polite with me!” Li Zhe laughed and said, “it’s just a few steps away. How could I trouble you to run around? It’s decided!”

“Alright then!” Xia ruofei smiled and said, “I’ll be waiting for you at home!”

“Alright! I’ll see you later!” Li Zhe said with a smile.

After Xia ruofei hung up the phone, he thought that he had nothing to do, so he went to the courtyard to make tea and enjoy his leisure time.

After two drinks, Xia ruofei suddenly remembered that Li Zhe had been running around personally for this car and even delivered it to his door today. He should at least express his gratitude.

Although it was impossible for him to agree to let Li Zhe invest in the Paradise Association just because of such a small matter, he still needed to prepare a small gift to express his sincerity.

Xia ruofei thought for a while and felt that this peach blossom Da Hong Pao would be a good gift.

Hence, he returned to his room and took out a box of tea leaves from the interspace. He asked Xia ruofei to put many company – customized packaging for tea leaves in the interspace. He even specially wrapped some tea leaves and put them in the packaging so that they could be given to others as gifts at any time.

Of course, the Da Hong Pao tea leaves in these gift boxes weren’t packed in small packages. They were packed in sealed clay jars, and each box contained two jars of tea leaves, each weighing about half a catty. As a result, it was convenient to pack the tea leaves in the space, and there was no need for sealing devices.

Xia ruofei casually placed the tea leaves on the stone table in the courtyard and sat down to continue drinking.

At around 11 am, Wu Qiming, a veteran who was in charge of guarding the front yard, reported to Xia ruofei through the internal communication system that someone with the surname Li was looking for him.

Xia ruofei knew that Li Zhe had arrived. He immediately told Wu Qiming to let him in. At the same time, he picked up the tea bag and walked towards the front yard.

Xia ruofei had just passed through the moon gate when he saw a black business car parked in the courtyard. He could not help but speed up.

Li Zhe was standing beside the car. When he saw Xia ruofei, he quickly walked up to him and greeted him. "Brother Xia, you're here!"

Xia ruofei chuckled and nodded. "Xiao si, you've had a hard journey!"

After saying that, he handed the tea leaves in his hand to Li Zhe and said, "This is for you, a small token of my appreciation!"

Li Zhe was flattered and took the tea leaves with both hands. He said in surprise, "Thank you, brother Xia! Your good tea is famous far and wide, I'm really in luck today!"

Xia ruofei nodded with a smile and walked towards the Toyota Elfa.

The two veterans, Wu Qiming and Zheng Zhigang, were also standing next to the car. Qin Yanan, who was working in the house, also came out. They were all attracted by the car's appearance.

"Brother Xia, it's the top black Edition!" Li Zhe laughed and said, "original imported goods! Please take a look and see if you're satisfied?"

Xia ruofei looked around the car and found that the appearance of the MPV was indeed very eye – catching. No wonder it was popular on the internet in the country.

This was this year's top model. The logo was not a traditional Toyota logo, but a limited – edition shield. The front face with a large air intake grid was quite eye – catching, and the slender headlights on both sides had sharp lines, giving off a very domineering feeling.

The Elfa was designed to be very slender on the side of the car, and the waistline went from the front to the tail light. The body of the car gave a very smooth and dynamic feeling. With the black paint, it was like Batman.

Turning to the back, Xia ruofei realized that the tail light design of this car was also very full and prominent. The red tail light was jagged on both sides. With the high brake light, the entire tail light was very recognizable.

The most prominent part was the four exhaust pipes at the back. The symmetrical design made the whole vehicle look very athletic.

Xia ruofei was very satisfied with the car's appearance.

This model was very popular in the country. Li Zhe had already sold dozens of them, so he had a good understanding of this model. After Xia ruofei looked at the exterior, he attentively introduced some of the features of this model to Xia ruofei.

"Brother Xia, the Elfa is definitely the best in terms of comfort among its peers." Li Zhe said as he pressed the handle of the side door, and the electric side door slowly opened.

Li Zhe continued, "look, brother Xia. This car uses ergonomic luxury aviation seats with electric lifting pillows. Our car also has a custom – made floor made of rare dragon blood sandalwood with the rare cherry blossom element. The partition glass in the middle can be turned into mist with a click, creating an exclusive private space for the back row ..."

Li Zhe went on and on, and Xia ruofei was also interested in trying out the functions one by one, nodding in satisfaction from time to time.

Chapter 2280 The car has arrived\_ In the end, Li Zhe said, "this car is different from most Wei nation cars. Not only does it retain the high comfort of Wei nation cars, but it has also been optimized to the extreme. It's also quite safe, unlike the Wei nation cars that people have a stereotype of ..."

After that, Li Zhe briefly introduced the safety features of the car.

Xia ruofei nodded and said, ""Not bad! Not bad! Xiao si, you've really worked hard this time! Thank you very much!"

"I should! I should!" Li Zhe quickly said, "as long as you're satisfied, brother Xia!"

"I'm satisfied! I'm satisfied!" Xia ruofei said with a smile. Then, he took out the cash check that he had prepared earlier from his inner pocket and handed it to Li Zhe. He said, "Xiao si, this is the money for the car. Keep it."

The amount on the check was 550000 Huaxia dollars. It was basically the price that song Rui had mentioned. Li Zhe had also mentioned during the meal that day that the car was originally custom – made and had some additional functions. Although it had been negotiated and given to Xia ruofei first, the car had already been on the cargo ship at the time. Naturally, it was impossible to change the configuration. Therefore, the price was slightly more than what song Rui had said.

Of course, compared to the market price, it was simply too cheap.

Nowadays, the price of an Elfa car was usually 200000 to 300000 Yuan. Including the import tariffs, the landing price of the same model would be at least 1.6 million Yuan, and 550000 Yuan was not even a fraction of that.

Of course, Li Zhe knew that Xia ruofei was not short of money. At the same time, he also knew that Xia ruofei did not want to owe him too much, so he did not insist on giving Xia ruofei a discount or simply giving him the car.

After Xia ruofei handed the check over, Li Zhe did not reject it and took it with a smile. However, he did not look at the amount and kept the check. He said, ""Thank you, brother Xia!"

"I should be the one thanking you!" Xia ruofei smiled. "Xiaosi, I know what to do!"

"Hehe, it's nothing. It's not worth mentioning." Li Zhe hurriedly said.

"Xiao si, it's almost noon. Stay for lunch!" Xia ruofei said with a smile.

Li Zhe waved his hand and said, "no!" No! Brother Xia, I'm still working on the license plate! I'll be going to the vehicle Administration soon! Let's forget about eating! If there's a chance next time, I'll treat you to ..."

“Alright! Since you’re busy, I won’t keep you. ” Xia ruofei smiled and said, “let’s meet again when we have time!”

“Alright! Alright!” Li Zhe hurriedly said, “brother Xia, although the license plate is still being processed, I’ve given you a temporary license plate. You can use this car at any time. Don’t worry, I’ve already done a full – body test at Jingjin port, and the fuel tank is full!”

“Thank you ...” Xia ruofei smiled and nodded. Then he asked, “Oh right, you left your car here. You don’t have a car, do you?” I’ll get Wu Qiang to drive you!”

“No need! No need! No need!” Li Zhe quickly said, “brother Xia, I brought a car. It’s parked at the entrance.”

“Oh, alright then!”

“Brother Xia, I’ll take my leave first. Please stay!” Li Zhe hurriedly said.

Xia ruofei still personally sent Li Zhe to the door. After watching the car leave, he returned to the courtyard.

“President Xia, this car is so beautiful!” Qin Yanan said.

The Veterans, Wu Qiming and Zheng Zhigang, also nodded in agreement.

Xia ruofei walked over with a smile. After looking at Qin Yanan, he suddenly had an idea and asked, “Yanan, has President Dong’s schedule been decided? How many people are there in their group?”

“President Xia, I was just about to report to you!” Qin Yanan quickly said. This time, our company has formed a team of six people, led by President Dong. They’ve already booked the tickets and will be landing in Beijing around 3 pm!”

“Has the hotel been arranged?” Xia ruofei nodded and asked.

Qin Yanan nodded. “Yes, it’s at the Shangri – La Chaoyang restaurant. Tomorrow’s contract signing ceremony will also be held at this hotel. We’ve already booked the room and conference room in advance. He Yu has already gone to the hotel to make the first move. I’ll go to the airport to pick her up in the afternoon.”

Xia ruofei nodded and said, “okay!” There are a total of six of them. Including you who’ll be there to pick them up and the driver, there’ll be a total of eight people ... Although it’s a little crowded, it’s still enough! Yanan, you can take this new car to pick us up in the afternoon! If we let Wu Qiang drive, there might be one more person in the back seat, but it’s not a big problem. ”

Qin Yanan smiled and said, “President Xia, you haven’t even enjoyed the new car yet!” Let’s take the lead!”

Xia ruofei laughed and said, “didn’t I buy the car for use?” Besides, I bought this car for business purposes, so ... It’s just entered the door, and it’s already in use. How great!”

"That's because you're considerate of your employees, President Xia!" Qin Yanan complimented Xia ruofei. "Why don't we just rent a car or ask them to take a taxi?"

"Stop flattering me!" Xia ruofei smiled and said, "there will be a lot of work to do these two days. You have to do a good job in coordinating all aspects!"

"Yes!" Qin Yanan said with a smile.

"Go to the backyard and inform Wu Qiang!" Xia ruofei said, "by the way, tell Auntie Wu that I'm going to invite the company's employees to my house tonight. Tell her to bring out her trump card and prepare a banquet!"

"Do you want to invite President Dong and the others?" Qin Yanan asked.

"Of course! This kind of temporary business trip is also very tiring, I'm going to reward them!" Xia ruofei said, "tell President Dong that after we pick them up in the afternoon, they can go to the hotel to settle down first. Then, they can come directly to the siheyuan!"

"Understood!" Qin Yanan said.

.....

After lunch, Qin Yanan left the siheyuan in Wu Qiang's Black Toyota Elfa business car and headed to the airport to meet Dong Yun and her group.

The car finally returned at around Five O' clock, and the courtyard house suddenly became lively.

On the way back, Wu Qiang drove the car in directly from the backyard. As there were several garages rebuilt in the backyard, the car would definitely be parked in the backyard in the future.

The employees that Dong Yun had brought with her were from the finance department, the legal department, the Taoyuan pharmaceutical factory, and the company's administrative office. Everyone had their own duties and responsibilities, and Dong Yun was in charge of managing the company.

The employees were naturally very excited that the chairman was going to reward everyone with a family dinner.

When everyone saw the magnificent siheyuan, their envy was beyond words.

There were four girls in the team, including Dong Yun, and only two guys.

After looking around, the girls went to the kitchen in the backyard to help out. Even Qin Yanan and he Yu put on their aprons and were busy in the kitchen.

Dong Yun didn't join in the fun. She came to Xia ruofei and said, ""President Xia, this move of yours is really unexpected! When factory manager Xue heard the news, he was so happy that he almost went crazy!"

Xia ruofei laughed. "Jinshan must be complaining. Since he's going to acquire such a large Pharmaceutical Group, why did he approve the plan to build a branch in Changping County?"

"I guess Factory manager Xue hasn't had the time to think about this yet!" Dong Yun said with a smile. He's already drowned in a great sense of happiness!"

Xia ruofei couldn't help but laugh." "Actually, plans can never be as fast as changes. This incident was also caused by a series of coincidences. I can't predict the future, so ..."

"By the way, President Xia, President Feng wanted me to pass you a few words before I came out!" Dong Yun suddenly said.

"Why didn't she call me directly?" Xia ruofei couldn't help but laugh."Why are you being so mysterious?"

"Director Feng was going to come over personally, but she really can't leave the company. That's why I'm the one who brought the team here in the end. "President Feng said ... After horizon Corporation merged with paradise Corporation, she requested to dilute her shares ..."
