

God tier Farm 2281

Chapter 2281 Begin the healing_Xia ruofei was taken aback. He did not expect Feng Jing to suddenly suggest diluting her shares. Furthermore, she had asked Dong Yun to relay the message. She was obviously determined and did not want Xia ruofei to persuade her.

In fact, Feng Jing's thinking was not unreasonable. After all, the market value of miles Pharmaceutical Group even exceeded that of paradise Corporation. After such a large corporation merged with paradise Corporation, it was equivalent to more than double its assets.

Most importantly, this "merger and acquisition" didn't cost paradise Corporation a single cent. It was equivalent to Xia ruofei buying miles Corporation out of his own money and then merging with paradise Corporation.

Naturally, Feng Jing had no idea how much Xia ruofei had spent, much less that he had not spent any money at all. However, it was all the same to her. Xia ruofei had paid the price to get miles Corporation, and as the only other executive who had shares in the company, she couldn't just sit back and watch her assets suddenly double.

Even if Xia ruofei didn't say it, she couldn't get over it. She was also worried that others would gossip.

Xia ruofei frowned and said,"We'll talk about this later. The most important thing now is to take over the entire horizon and stabilize it."

Dong Yun nodded."I understand, director Xia. I'm just passing on a message for director Feng. You guys can decide on what to do."

In reality, Dong Yun was very envious of Feng Jing. Even if it was just a single – digit amount, the shares she owned in paradise Corporation were still a huge sum of money.

The company's market value alone was already impressive, and only a fool would cash out its market value. This was because anyone could see that paradise Corporation was still in a high – speed development stage, and the shares in their hands were becoming more and more valuable every day.

The company's executives, including Dong Yun, were actually looking forward to the official establishment of the company's equity pool and the beginning of distributing a small number of shares to the executives.

Xia ruofei said,"I'll call President Feng personally. This matter will end here. Don't tell anyone else."

"I understand," Dong Yun smiled and said,"CEO Xia, I've looked up the information on miles pharmaceutical. It's a huge Pharmaceutical Group. It'll be difficult for us to take over the whole company with just the power of a few people."

Xia ruofei smiled and said,"it's okay. I've already found reinforcements for you in the capital. They're all trustworthy people. When the time comes, they'll be added to the team and follow you to Jiangsu and Zhejiang Province to take over miles Corporation."

Xia ruofei had already told elder song that the song family would send a capable team from the family business to help Dong Yun complete the handover of miles pharmaceutical.

The song family had a lot of elite talents in reserve. Whether it was in the legal or financial aspects, they had quite skilled talents. As the biggest opponent, the song family actually had a very comprehensive grasp of the Liu family's business situation. With the song family's people taking over, there was no need to worry about the Liu family playing any tricks.

Although the initiative was in Xia ruofei's hands, and the possibility of the Liu family causing trouble was extremely small, it was always good to be cautious. After all, after vision pharmaceutical took over, they would be producing the jaded skin cream and heart nourishing soup in the future. The formula and production process of these two products were highly confidential. If either of them was leaked, it would cause immeasurable losses.

"It seems that you've already made arrangements, then I don't have to worry anymore!" Dong Yun nodded.

Xia ruofei laughed and said, "don't worry!" After signing the share transfer agreement tomorrow, the helper I found for you will meet with you and go to Jiangsu and Zhejiang Province together. "

"CEO Xia, do you have any specific instructions after taking over?" Dong Yun nodded.

Xia ruofei thought for a while and said, "the first thing is to ensure a smooth handover. The second thing is to ensure absolute safety. The original management of miles pharmaceutical needs to be screened first. Those who don't have a bottom line should all be dismissed. As for the lower – Level employees, they can be retained for the time being. However, they can not be randomly assigned to core positions in the future."

Xia ruofei paused and continued, ""In addition, after taking over, miles will no longer accept new orders. After the original orders are completed, they will temporarily stop production and prepare for transformation. "As for Xue Jinshan, tell him to quickly put down his work and meet up with you guys in Jiangsu and Zhejiang. His main task is to investigate all of miles 'fixed assets, including land, factories, machinery, equipment, and so on. Then, come up with a transformation plan and budget as soon as possible. In the future, miles will completely convert to producing jadeshi ointment and heart – nourishing soup."

Dong Yun quickly recorded it and nodded, "Understood!"

Xia ruofei smiled and said, "I'll just mention something about direction for now." We'll see how it's going to be carried out step by step. If you have any uncertainties, you can call me at any time to report to me!"

"Alright!" Dong Yun replied.

"Alright, you've all been travel – worn, so don't talk about work today!" Xia ruofei chuckled and said, "you can choose to drink tea, watch a movie, or even go to the gym. There's an activity room over there!"

"I think I'll go help out in the kitchen with them!" Dong Yun said with a smile. Otherwise, there's the suspicion of reaping without sowing!"

Xia ruofei laughed and said, "sure!" This can be considered as having fun with the people! I won't be joining in the fun ..."

Chapter 2282 Begin the healing_Dong Yun rolled up her sleeves and joined the kitchen. As the host, Xia ruofei was the most idle person. He studied the newly bought Elfa van with interest.

As the saying goes, "when people gather together, the fire will burn brighter." Very soon, dinner was ready. Xia ruofei specially took out a few bottles of Semillon white wine and poured some for everyone.

Those who were selected to participate in this mission were naturally the elites of paradise Corporation. Everyone was in a rather excited mood. In addition, the chairman had personally set up a family banquet to entertain them, so the employees' mood was even higher. They all toasted Xia ruofei.

Of course, Xia ruofei was in a good mood as well, and the banquet was filled with laughter.

After dinner, Dong Yun and the rest were about to return to the hotel. Xia ruofei asked Wu Qiang to drive the brand new Elfa to send them back.

.....

The next morning, at about Teno' clock, Xia ruofei changed into a formal suit. Accompanied by Qin Yanan and he Yu, he took the Toyota Elfa driven by Wu Qiang and headed to the Shangri – La hotel.

Dong Yun and the others had already arranged the meeting room in advance.

When Xia ruofei arrived, the people from the Liu family were already there. Liu Chongli was there in person, and there were also people from Far Corporation.

That morning, Dong Yun had brought people from the legal department to have a meeting with miles Corporation to finalize the details of the share transfer agreement. Xia ruofei had only come to sign the contract.

The signing ceremony was very low – Key, and not a single reporter was invited. Only the employees of both parties took a few photos with their cameras for safekeeping.

Dong Yun had already checked all the information. Before they came, miles Corporation had already sorted out the shares, including about 30% of the shares that were not held by the Liu family. They had also issued a letter of authorization.

Xia ruofei and Liu Chongli signed and stamped on the agreement, and it came into effect.

The next step was to go to the Industry and Commerce Department for filing, and then the follow – up handover work.

Xia ruofei and Liu Chongli shook hands and said, "Boss Liu, our people hope that the transfer can be done as soon as possible. Are you okay with that?"

Liu Chongli's expression was a little complicated. He nodded and said, "Of course! My big brother arranged it personally, and the miles Corporation will do its best to cooperate!"

"That's good!" Xia ruofei said with a smile.

Liu Chongli couldn't help but lower his voice and say, "Mr. Xia, my brother's condition is getting worse. He even fainted last night. Although he's fine now after the emergency treatment, his physical condition is getting worse ..."

Xia ruofei understood what Liu Chongli meant. He smiled and said, ""Don't worry! I'll be going to elder Liu's first treatment this afternoon!"

Liu Chongli also secretly heaved a sigh of relief. They had paid such a huge price, wasn't it just to treat old man Liu?

He quickly said, "thank you so much!" Mr. Xia, do we need to prepare anything?"

Xia ruofei said indifferently, "it's like this ... I don't want everyone to know, so the treatment place can't be in Room 301. It's best not to be in your house either. Elder Liu, go through the discharge procedures first. Then, you can find a quiet and secluded place to receive treatment there."

"Discharged?" Liu Chongli cried out, "Mr. Xia, my brother's current physical condition can't take any more stress. If anything happens after he's discharged, I'm afraid it'll be too late ..."

"With the Liu family's power, can't they find a few reliable doctors and nurses to take care of the family?" Xia ruofei had a faint smile on his face as he said, "and ... Since you've invited me over for treatment, you must choose to believe me. If you don't have confidence in me, I can also pretend that nothing happened. I can also return the shares of miles Corporation to you! This is something that both parties are willing to do!"

Liu Chongli couldn't help but choke. His eyes flashed with anger, but he still suppressed his emotions and nodded, "Okay, we'll do as you say. I'll have to trouble you to take care of my brother's illness, Mr. Xia ..."

Xia ruofei laughed and said, ""Good! Good!"

"Then I'll take my leave first!" Liu Chongli said, then nodded at Xia ruofei and walked out of the hotel conference room.

Liu Chongli was not in a good mood after he had rushed over to give Xia ruofei a pharmaceutical company worth more than a billion Yuan and had been reprimanded by Xia ruofei.

Xia ruofei didn't mind. He beckoned Dong Yun over and said, "President Dong, today you will take the staff to rest in the hotel. The help I found for you will also come to the hotel. After you meet up, you will have a meeting to get to know each other and discuss the specific work. You guys will fly to Jiangsu and Zhejiang Province together and take over vast expanse first!"

"Alright!" Dong Yun nodded and said.

Xia ruofei left the meeting room and gave manager Lu a call.

Elder song had already made the necessary arrangements. After Xia ruofei's call, manager Lu immediately arranged for people to come to the Shangri – La hotel.

It was almost time for dinner, so Xia ruofei booked a large private room in Shangri – La and invited Dong Yun and the song family's reinforcements.

After lunch, Xia ruofei did not return to the courtyard house. Instead, he checked into a hotel room to rest.

As for the people sent by Dong Yun and the song family, they continued to rent a conference room in the hotel and started to discuss the matter of taking over horizon.

Such a large Pharmaceutical Group had changed hands, and the handover work was very complicated, including the inspection of fixed assets, the inspection and handover of accounts, the situation of employees, etc. In team combat, it was natural to come up with a plan first, and everyone had to have a clear division of labor.

Xia ruofei slept for a short while and heard the doorbell ring. The people sent by the Liu family had arrived.

After Xia ruofei had changed, they took the elevator down.

He didn't take the car sent by the Liu family. Instead, he let Wu Qiang drive behind the Liu family's Red flag sedan.

The two cars, one in front and one behind, almost passed through the entire capital and arrived at a secluded place in the southern suburbs.

There was a small stream here, and there were weeping willows on both sides of the stream. These willow trees had just sprouted a few tender shoots.

Under the shade of the green trees, there was a small three – story building.

The building looked unremarkable from the outside, but the dense surveillance cameras on the wall and the strong men patrolling the building from time to time showed the identity of the owner of the building.

The car stopped in front of the small building. The electric side door opened slowly and Xia ruofei got out of the car with a medicine box.

Liu Chongli and Liu Qunfeng personally welcomed him at the door and escorted Xia ruofei into the courtyard.

"The environment here looks pretty good," Xia ruofei said as he walked.

"Mr. Xia," Liu Qunfeng said with a smile. "We'll carry out your request to the letter. We'll leave the rest to you!"

"I'll try my best. " Xia ruofei said indifferently.

The three of them came to the second floor. In a large suite facing south, old man Liu was lying on the bed with his eyes slightly closed.

The suite had been temporarily transformed into a luxurious Ward. It was fully equipped with all kinds of medical equipment. There were also two doctors and four nurses in the room monitoring the old man's physical condition.

After Xia ruofei entered the room, Liu Qunfeng took the initiative to ask the medical staff to leave. Then, he nodded slightly at Xia ruofei and closed the door from the outside.

"You're here!" Old man Liu said in a weak voice.

It seemed that Liu Chongli was not lying when he said that the old master had fainted yesterday. The old master's complexion looked much worse today.

Xia ruofei smiled and said, "that's right, elder Liu!" I'm coming ..."

Then, Xia ruofei looked around the room and said with a smile, "It's not bad this time. There's no such thing as setting up all those messy little things!"

Chapter 2283 Magical hands (1)

The "messy" gadgets that Xia ruofei was talking about were the hidden cameras and recording devices that the Liu family had installed in the high – ranking Ward in the South Building of 301 Hospital.

When Xia ruofei entered the house, he used his spiritual power to check. This time, the Liu family was rather honest and did not play any tricks. Xia ruofei's amazing performance last time must have shocked them. Besides, now was the time for the Liu family to show their sincerity. They probably did not want to make Xia ruofei unhappy at this time.

Old master Liu was indeed a sly old fox. His skin was definitely thick enough. After hearing Xia ruofei's words, he didn't feel embarrassed at all. He just smiled and nodded. "You're now our family's distinguished guest. The way the Liu family treats their guests doesn't allow us to be disrespectful to our distinguished guest."

Xia ruofei smiled noncommittally and walked straight to the head of the bed. He placed the first aid kit on the bedside table and sat on the stool in front of the bed.

"Elder Liu, you don't look well." Xia ruofei said casually, "I heard from CEO Liu that you fainted once yesterday?"

Old man Liu squeezed out a smile on his pale face and said with some difficulty, "This illness is developing very quickly. I can even feel that my life is passing by quickly ... To be honest, I've already prepared for the worst ..."

"Don't worry!" Xia ruofei said confidently, "since I've already accepted the payment from the Liu family, I won't let anything happen to you."

"This is the best news I've ever heard." Old man Liu said with a weak smile.

"I'll give you an examination first." Xia ruofei said, "give me your left hand."

There was no such thing as a man on the left and a woman on the right when taking a pulse. A real Traditional Chinese Medicine practitioner would have to check the pulse of both hands. However, old master Liu's right hand was still inserted with a drip needle. To Xia ruofei, taking a pulse was just a supplementary method. He used his spiritual power more to check.

It was no exaggeration to say that even if Xia ruofei had no medical skills, he had the "equipment" that was always successful. Even the most advanced CT machine might not be more accurate than him in terms of diagnosis.

Old master Liu took out the left and right hands from under the blanket and showed them to Xia ruofei.

Xia ruofei deftly took old master Liu's pulse, closed his eyes, and carefully checked.

The room was silent. Old man Liu even held his breath for fear of disturbing Xia ruofei.

As for the medical staff assigned to old master Liu and the other members of the Liu family, they had already been "cleared" out. This was also a rule set by Xia ruofei. He did not wish for there to be a third person present other than him and the patient when he was treating the patient.

Xia ruofei took elder Liu's pulse and only opened his eyes after two to three minutes.

"Mr. Xia, what's the situation?" asked elder Liu.

"It's indeed pancreatic cancer," Xia ruofei said indifferently. "The tumor is rather large, and liver metastasis has already appeared."

Old master Liu was shocked. He looked at Xia ruofei with his eyes wide open as if he could not believe it.

The old man was very clear about Yingying's condition, and this was also his own request. His children didn't dare to hide anything about his condition from him, not even if it was a kind lie.

Xia ruofei's judgment was almost the same as the latest examination in 301 Hospital.

The problem was, could a Traditional Chinese Medicine doctor's pulse reading really be so accurate? In old man Liu's impression, this wasn't the style of traditional Chinese medicine. Under normal circumstances, the diagnosis of Traditional Chinese Medicine wasn't as clear as that of Western medicine. This was because Traditional Chinese Medicine focused on the conditioning of the whole body, mainly from the balance of yin and yang.

It was the first time that old master Liu had seen someone like Xia ruofei, who could state the patient's condition directly and was even so sure that he had hepatic metastasis from pancreatic cancer.

He was very sure that this was the latest report after yesterday's examination. There was no liver metastasis before this, and the Liu family did not show Xia ruofei the detailed examination report.

Old man Liu was not an ordinary patient. His medical records were absolutely confidential, so they could basically be sure that Xia ruofei's judgment was really based on his pulse.

After recovering from his shock, old man Liu was filled with hope. He smiled and said, "Mr. Xia, I suddenly have more confidence in your medical skills!"

"Of course, only by trusting the doctor and cooperating with the treatment can your illness be cured faster." Xia ruofei said with a smile.

Then he stood up and walked to the bathroom to wash his hands carefully. Then he returned to the bed and said with a smile, "My treatment plan isn't complicated. In the beginning, I'll try to control the condition as soon as possible through acupuncture and taking the Chinese medicine pill I prescribed. I hope that through a course of treatment, my condition will not continue to deteriorate, and even get better. Then, I can plan the next step of treatment."

"I'll do whatever you ask me to do regarding the treatment!" Elder Liu nodded with a smile.

"Alright, but don't use the drip during the acupuncture process." Xia ruofei said, "also, I need you to take off your shirt and lie on the bed. Is that okay?"

"Of course, no problem!" Old man Liu said with a smile.

Xia ruofei nodded and went forward to pull out the needle. He pressed the needle with a cotton swab and said, "Please press for a while, I'll make some preparations!"

Chapter 2284 Magical hands (2)

"Alright!" Old man Liu said.

Xia ruofei stood up and opened the first aid kit. He took out a needle bag with silver needles and spread it out on the bedside table.

After carefully disinfecting the silver needle, Xia ruofei helped old man Liu take off his shirt and helped him turn over so that he could lie on the bed.

Old man Liu had been tortured by the illness to the point where he was only skin and bones. The ribs on both sides were very obvious, and there was basically no more meat left. It was a shocking sight.

Xia ruofei said calmly, "old master, you don't have to be nervous. Acupuncture won't hurt. At most, when the silver needle goes under the skin, you'll feel like you've been bitten by a mosquito. Then, you'll only feel sore."

Old master Liu was lying on the bed. He tilted his head and smiled at Xia ruofei. "We've already survived a hail of bullets, what's so scary about acupuncture? Besides, I've been hurting all over during this period of time, so what's wrong with being pricked by a few needles?"

Xia ruofei smiled and nodded. "That's good. Please maintain this position and don't move. I'm going to start the acupuncture."

"Alright!" Old man Liu replied readily.

Xia ruofei reached out and picked up a silver needle. Without any hesitation, he quickly pierced it down and accurately found the acupuncture point.

Xia ruofei injected a small wisp of vital energy into the silver needle, allowing the thin and soft silver needle to pierce through easily. It quickly passed through the subcutaneous tissue and reached the acupuncture point.

After inserting the first silver needle, Xia ruofei did not stop. He quickly picked up another silver needle and quickly inserted it.

He moved his fingers as if they were flying, and in just a few seconds, he had inserted ten needles in a row. Each needle accurately found the acupuncture points without the slightest deviation.

As for old man Liu, he did not feel any pain at all. Just like what Xia ruofei had said, he felt like he had been bitten by a mosquito.

After he was done inserting the silver needles, Xia ruofei quickly followed the specific order and began to gently twist the ends of the ten silver needles. At the same time, he transferred wisps of essential Qi through the silver needles into old master Liu's meridians.

Old man Liu immediately felt a warm feeling from the acupuncture point. Every acupuncture point began to feel sore and swollen. This experience was indescribably comfortable, making him feel drowsy.

Wisps of true Qi flowed through old man Liu's meridians and rapidly repaired his damaged bodily functions.

Of course, Xia ruofei did not attack the cancer cells. He was only repairing the damaged functions of his body. This was definitely a temporary solution.

He did this because, firstly, if he were to directly use his true Qi to eliminate the cancer cells under the guidance of his mental power, it would consume a lot of his true Qi, so there was no need for that. Secondly, he didn't want to cure elder Liu in one go. The acupuncture was only a supplement. The real effect was the pill he had made yesterday.

The pills had been mixed with the petals of the spirit Heart Flower. Although there were very few of them, to old man Liu, it was like rain suddenly falling on dry and cracked land.

The warm feeling from his meridians made old man Liu fall asleep involuntarily, and he even let out a light snore.

As Xia ruofei twisted and flicked, each silver needle vibrated at a different frequency.

The acupuncture process lasted for about half an hour.

Xia ruofei let out a soft sigh of relief. Then, with a wave of his hand, he pulled out all 10 silver needles.

When he retracted the needle, it also passed through the subcutaneous tissue, and the feeling of a mosquito bite woke old man Liu up from his sleep.

He rubbed his eyes and turned his head to see Xia ruofei inserting the silver needles into the needle pouch in an orderly manner.

"Are you done with the acupuncture?" old man Liu couldn't help but ask.

Xia ruofei rolled up the needle bag seriously and nodded. At the same time, he smiled and asked, "Elder Liu, how do you feel?"

Old man Liu shook his head and said with a smile, "I feel much more comfortable and stronger. It's the first time I don't feel pain in my body after so many days. The effect is very obvious," said Wang Yao.

"Acupuncture is only a supplement. The more important thing is to continue taking the Chinese medicine pills I made." Xia ruofei put the needle bag into the medicine box and said, "the first treatment will last for half a month. Take one pill every morning and night."

As he spoke, he took out the porcelain bottle he had prepared earlier from the medicine box and said, "There are 30 pills in here. After you take all of them, the effect of the treatment will be more obvious."

Old man Liu was now in full admiration of Xia ruofei's medical skills. He naturally did not doubt Xia ruofei's medical advice and nodded repeatedly to show that he understood.

Xia ruofei poured half a glass of water and opened a bottle of mineral water. She poured half of the water into the glass and mixed it with warm water.

Then, Xia ruofei took out a Chinese medicine pill from the porcelain bottle and placed it in elder Liu's hand.

Xia ruofei said, "elder Liu, take the first Chinese medicine pill now. You must remember to take it after breakfast and dinner every day."

With Xia ruofei's help, old man Liu had turned over. He leaned on the bed and took the Chinese medicine pill from Xia ruofei. His other hand picked up the cup of warm water.

The pill looked black and unremarkable. However, old man Liu had absolute trust in Xia ruofei's medical skills. He stuffed the pill into his mouth without a second word, then took a big gulp of warm water and swallowed the pill.

Xia ruofei sat at the head of the bed and observed for a while. He also chatted with elder Liu for a while.

After a while, Xia ruofei checked old master Liu's pulse again.

In fact, the result was almost the same as before. After all, old man Liu had only taken one pill. Furthermore, Xia ruofei had deliberately reduced the amount of petals of the spirit Heart Flower, so the effect was not too obvious.

However, Xia ruofei's sharp senses still noticed that elder Liu's body functions had been nourished by the flower petals. At the same time, the cancer cells, which were about to win, were much less active.

Although it didn't eliminate the cancer cells directly, the pill had completely stabilized elder Liu's condition.

This was all thanks to the spirit Heart Flower petals.

Xia ruofei nodded. "It's almost as effective as I expected. Old man, I'm more confident in my treatment now."

"That's great ..." Old man Liu said with some excitement.

Due to the recovery of his body's functions, old man Liu's voice was full of energy, and his face was no longer as pale as paper.

Xia ruofei thought for a while and said, "Elder Liu, in order to cooperate with the treatment, I hope you can do the following: First, don't go for any checkups without my permission. I'll inform you when I need to do it. Second, don't take these drip that only has painkiller effects from today on. Besides the pill I gave you, you can't take any other medicine, or else there may be a conflict ..."

Old master Liu couldn't help but interrupt Xia ruofei. He asked worriedly, "Mr. Xia, you know my illness very well. Once it flares up, the pain is unbearable. If I really can't bear it, can I take some painkillers?"

“Naturally, I’m confident in my ability to do so,” Xia ruofei smiled and said, “don’t worry. That unbearable pain will not appear again for a period of time. Even if it hurts a little, I promise that it will be within a normal person’s tolerance.”

Xia ruofei said this with strong confidence. After all, he had just checked and found that the cancer cell activity in elder Liu’s body had dropped sharply. His body function had recovered quite well. Under such circumstances, the possibility of the unbearable pain appearing again was very low.

“I understand ...” Old man Liu said with some uncertainty.

Chapter 2285 Immediate effect (1)

Xia ruofei continued, “thirdly, please prepare a room for me. I’ll be staying here tonight.” I’ll give you another round of acupuncture in the evening, and I’ll come back every three days. The first course of treatment will take about 15 days, and I believe your condition will be completely stabilized by then. ”

Hearing this, old man Liu was overjoyed and said, “It’s great that Mr. Xia can stay. I’ve always wanted to show my gratitude as a good host!”

In fact, old master Liu was more uncertain, especially when Xia ruofei asked him to stop taking the other drugs today. His heart was beating like a drum. After all, the bone – piercing pain was terrifying just thinking about it.

Although Xia ruofei’s treatment was effective immediately, old master Liu was still worried. Now that Xia ruofei was willing to stay, his worries were mostly gone. Even if there were any changes to his condition, Xia ruofei would be able to deal with it immediately.

Xia ruofei smiled. “You’re welcome. I’m not treating you for free. My fees are not cheap.”

“Life is priceless!” Old man Liu laughed. I believe that if Mr. Xia is willing to disclose your medical skills, even if the consultation fee is several times more expensive, there will be a lot of rich people lining up to see you!”

Xia ruofei waved his hand and said, “Forget it! I’m especially lazy, and I’m especially afraid of trouble! As long as you have enough money to spend, it’s fine. No matter how much you earn, isn’t it just a pile of numbers?”

In fact, as the company grew, Xia ruofei’s feelings for her grew stronger.

With his personality, it was enough for him to achieve financial freedom. He did not have much motivation to continue making money. However, the Paradise Corporation was no longer just his company. The company’s development was also related to the livelihood of hundreds of employees, and behind these hundreds of employees were hundreds of families!

This was also the reason why Xia ruofei had chosen the Liu family’s Pharmaceutical Group. He had enough money to spend, and he might not even be able to finish it in a few lifetimes. However, with this Pharmaceutical Group, the company could develop faster.

Old master Liu chuckled, “Mr. Xia sure is carefree!” I’m ashamed of my inferiority in this regard!”

Old man Liu could clearly feel that his body was much more relaxed now. His desire to live was also burning. The most obvious reaction was that his complexion had improved a lot all of a sudden. His mood was suddenly as bright as the clouds and the sun.

“Elder Liu, you should rest for a while!” Xia ruofei smiled and said, “by the way, take this pill every morning and night. Don’t take too many of them or it will backfire.”

In fact, even if old man Liu ate all 30 pills in one go, there wouldn’t be any problem, because the main effect was the small amount of spirit Heart Flower petals in the pills. These spirit Heart Flower petals were only equivalent to one – tenth of a petal, so there was no problem at all if he took them all at once.

However, Xia ruofei had hoped to slow down the pace of the treatment. His guiding principle was to stabilize the patient’s condition. Naturally, he was not willing to let elder Liu take all the pills in one go.

Actually, even if Xia ruofei had not reminded him, old man Liu would not have dared to do so. He would have definitely asked about the dosage. After all, from a traditional point of view, all medicine was partially poisonous. When it came to taking medicine, it was natural to follow the doctor’s advice.

“I’ll remember that.” Old master Liu laughed and said, “Mr. Xia, let Qunfeng accompany you to shop! I’ll tell him to make the arrangements.”

Xia ruofei nodded with a smile. Old man Liu gently pressed the alarm on the bed. Everything here was set up according to the hospital’s model. The medical equipment in this room was more complete than the senior cadres’ Ward in the hospital.

Soon, a medical staff knocked on the door and pushed it open.

“Xiao Zhu, help me call QUN FENG over.” Old man Liu said indifferently.

The nurse in the pink lab coat looked at Xia ruofei curiously before she quickly replied, “Yes, chief!”

Liu Qunfeng had been waiting outside the door, and he soon knocked on the door and walked in.

He first nodded at Xia ruofei to show his respect, then turned to look at old man Liu and asked, “Dad, you were looking for me?”

Old man Liu nodded slightly and said, “Send someone to clean up the room next door immediately. Mr. Xia will be staying here tonight.”

When Liu Qunfeng entered the room, he noticed that his father’s complexion had improved. His face was a lot rosier, and he looked completely different from the haggard man he had looked this morning. He was both surprised and happy. He did not expect Xia ruofei’s treatment to be so effective.

Now that he heard that Xia ruofei would be staying the night, he was overjoyed and quickly said, “Alright! Alright! I’ll make the arrangements immediately.”

Liu Qunfeng and old master Liu had similar thoughts. As long as Xia ruofei was here, they would feel more at ease.

If it was not for Xia ruofei's special status, the Liu family would have tied him up here and made him stay by elder Liu's side.

Xia ruofei said a few words and told elder Liu to rest. Then, he left the room with Liu Qunfeng.

Liu Qunfeng arranged for people to tidy up the guest room next to old master Liu 'S. Xia ruofei found Wu Qiang and asked him to drive back first. He also told him to come and pick him up tomorrow morning.

Chapter 2286 Immediate results (2)

After sending Wu Qiang away, Xia ruofei saw Liu Chongli walking towards him.

"President Xia!"

"Hello, President Liu!" Xia ruofei said with a smile.

The two of them exchanged some pleasantries before Liu Chongli personally showed Xia ruofei around the small villa.

It turned out that this was one of the Liu family's properties, and it had always been in a semi – Idle state. It was just that old man Liu would occasionally come here to stay for a few days.

This time, Xia ruofei had suggested to treat old master Liu in a secluded place, but he did not want to do it in the Liu family's mansion. Hence, old master Liu had decided to stay here. The Liu family had hurriedly sent people to clean up the place and brought old master Liu from the hospital.

The environment here was indeed not bad. It was located in the suburbs of the capital, and there were no noisy high – rise buildings around. The courtyard environment was also very quiet.

The room was quickly tidied up, and Liu Qunfeng personally came to invite Xia ruofei to rest.

Xia ruofei knew that elder Liu must have something to tell Liu Qunfeng and Liu Chongli, so he nodded and followed Liu Qunfeng to the room next to elder Liu 's.

The room was clean and tidy, looking very refreshing.

This was a small suite. Other than a large bedroom, there was a small study room, a guest room, and a large independent bathroom. The bedroom was connected to the balcony, and when he pushed open the door to the balcony, he could see the fields in the suburbs. The view was very wide.

The room was filled with the faint scent of Cape Jasmine. The scent came from a vase on the window sill, which had fresh flowers inside.

Xia ruofei was very satisfied with the room. He leaned back on the sofa by the balcony and closed his eyes to take a nap.

In the evening, the Liu family prepared a sumptuous dinner for Xia ruofei.

Liu Chongli, Liu Qunfeng, and the others were like stars surrounding the moon as they expressed their gratitude to Xia ruofei.

To Xia ruofei's surprise, Liu haofan was called back.

Seeing Xia ruofei in such a situation, Liu haofan looked a little embarrassed. Xia ruofei, on the other hand, was calm and even greeted Liu haofan with a smile.

Under Liu Qunfeng's urging, Liu haofan apologized to Xia ruofei unwillingly. He expressed that he had been thoughtless in his actions and had offended Xia ruofei. He hoped that Xia ruofei would be magnanimous and forgive him.

In reality, Liu haofan didn't gain any advantage from Xia ruofei, Zhao Yongjun, and the others. Instead, he lost a large sum of money, allowing Xia ruofei and the others to obtain that piece of land at a price lower than the market price. Now, the Paradise society had already become famous in the capital before it even started its business. Naturally, Liu haofan was jealous and resentful.

However, to Liu Qunfeng and the others, Liu haofan had opposed Xia ruofei's group during the auction in order to save face. Later on, he couldn't control the situation and sold the land to Xia ruofei's group at a low price. Then, he brought his men to cause trouble at the foundation laying ceremony of the peach blossom society. They thought that this would definitely make Xia ruofei unhappy.

Now that old master Liu's condition was in Xia ruofei's hands, they were worried that Xia ruofei would hold a grudge against him and refuse to treat old master Liu with all his heart. Hence, they called Liu haofan over without any explanation.

Xia ruofei expressed magnanimously that the matter was over and he had never taken it to heart.

As for whether it was true or not, only Xia ruofei knew in his heart. Anyway, he and Liu haofan seemed to be harmonious on the surface, and they smiled when they met, but in fact, Xia ruofei knew exactly what Liu haofan was thinking.

However, he didn't care at all. He and Liu haofan weren't on the same side anyway. This kind of brainless rich kid couldn't pose a threat to him at all.

If it was someone like Liu Qunfeng or Liu Chongli, Xia ruofei might be a little afraid, but Liu haofan ...

Elder Liu was still very weak, so he naturally couldn't attend the dinner.

After Xia ruofei had his dinner, he took a few steps in the courtyard before returning to his room to retrieve his medical kit. He then performed acupuncture on elder Liu.

The consumption of energy from acupuncture was nothing to Xia ruofei. Basically, after he was done with acupuncture, he could recover completely with a short rest.

However, this kind of acupuncture was quite effective on old man Liu. Although the warm and swollen feeling was a little strange, he immediately felt as if the power in his body had been awakened after the acupuncture. It was a long – Lost feeling.

After the acupuncture session, Xia ruofei rested for a while before letting old man Liu take the pill.

After waiting for a while, Xia ruofei observed for a while and did not find any problems. He got up and said good night to elder Liu and told him to rest quickly. Then, he returned to his room.

It was a quiet night.

The next morning, Xia ruofei woke up early. Taking advantage of the fact that it was still early, he sat on his bed and cultivated for a while.

The Liu family had prepared a sumptuous breakfast. After Xia ruofei had his breakfast, he went over to check on old master Liu and felt that he was in good condition.

Old man Liu had a good night's sleep last night. It was the first time he had such a good sleep at night without the help of painkillers since he was diagnosed with the disease.

After a night of uneasiness, old man Liu had more confidence in Xia ruofei. Qianqian had taken two pills the day before and he really didn't feel the piercing pain anymore. For old man Liu, who felt it was a luxury to have a full sleep, last night was a very good sleep.

After a while, Wu Qiang also drove over.

Xia ruofei said a few words and bade farewell to old master Liu. He got into Wu Qiang's Elfa business car and returned to the courtyard in liuhai Lane.

For the next few days, Xia ruofei went to the Liu family's courtyard in the suburbs of Beijing every three days to check on elder Liu's body and do acupuncture.

Xia ruofei's life in the capital had become very regular.

Old man Liu's complexion was getting better day by day. He could even get out of bed now, but with the help of the caretaker, he could sit up from the bed. However, this was already a great improvement for him. Once, he was completely lying on the bed, eating, drinking, and peeing.

For this old general who had spent his entire life in the military, this was truly a bit of a sorry state.

Now that old master Liu's condition was gradually improving, the entire Liu family could not help but secretly heave a sigh of relief.

Other than going to the clinic every three days, Xia ruofei spent most of his time in the courtyard house. Occasionally, he would go back to the nearby Houhai Park for a walk.

Of course, he would contact Dong Yun and the others who had taken over Miles Corporation in Jiangsu and Zhejiang Province every day to check on the progress there.

For such a large Pharmaceutical Group, the handover process was naturally very complicated. Not to mention other things, just the financial staff had to make an inventory of the accounts over the years, which required a lot of time and energy.

Fortunately, she had the support of the Song family's employees. The Song family's leader was a member of elder Song's grandnephew's family. He knew more about the Liu family's situation and helped Dong Yun check on the situation.

Xue Jinshan also temporarily put down his work and headed to Jiangsu and Zhejiang Province to meet up with Dong Yun and the others.

As soon as he arrived at the hotel where the reception team was staying, he didn't even bother to chat with his colleagues. He couldn't wait to get some information and data from Miles Pharmaceutical Group.

Miles had more than ten branches all over the country. Of course, the proportion was still higher in the coastal provinces like Jiangsu, Zhejiang, and Southeast provinces.

Xue Jinshan combined the information he had obtained and asked the driver to take him to each sub – Factory for an inspection every day. He knew the most about the machines and equipment in these pharmaceutical sub – factories.

Because it involved the merger of these pharmaceutical sub – factories into the peach blossom company, Xue Jinshan's focus was on the location of these sub – factories and the equipment of each factory.

Xue Jinshan needed to determine the requirements for a fully automatic production line as soon as possible based on these specific conditions. This was also a very difficult task.

Other than taking over the pharmaceutical company, Xia ruofei also realized that the official Weibo accounts of xiangnan TV, life you yearn for, and Tao Yuan company all revealed that he was a guest in the first episode of the show.

When the news came out, the netizens were all excited ...

Chapter 2287 Leisurely (1)

Although Qin Yanan was on a business trip in the capital, the small team she was in charge of was still under her control. Xia ruofei's personal Weibo account was also maintained by this team of secretaries.

Therefore, although Xia ruofei had not been on Weibo recently, he had still posted two pieces of news related to the show.

One of them was a repost of the program's official Weibo exposing Xia ruofei's participation in the program. The other post was simple with only a few words: I'll be waiting for you in life I yearn for! The accompanying pictures were carefully selected by Qin Yanan, all of which were taken by the festival group's professional photographers.

Weibo's netizens were very active in leaving comments, especially now that there were many hardcore fans of Xia ruofei and Ling Qingxue on the internet. They had spontaneously formed a "president's support group" and shared the news of Xia ruofei's participation in the recording of "life you yearn for".

Because of this, xiangnan satellite TV also gained a wave of viewership. The show had not even started broadcasting, but the attention on it immediately rose by a large amount.

In fact, there was a fixed routine in variety entertainment. The ancient people paid attention to the food before the soldiers and horses were mobilized, and the operation planning of variety shows was also well – versed in this. The show had not even started broadcasting, and some warm – up actions had already been planned and launched in the planning and recording stage.

For example, when the life I yearn for visited the filming location for this season, it caused a lot of discussion on the internet. Several locations were exposed to be the filming locations for this season's show, and there were even photos of the crew visiting the locations.

In the end, the shooting location was chosen to be in Xiaotang town, a suburbs of Beijing, which surprised many onlookers.

Since the program had started recording, the festival team naturally had people in charge of the operations to increase the popularity before the broadcast.

Xia ruofei's participation in the show naturally became the biggest selling point, and the effect was obvious.

This was also the reason why many movies, TV series, and variety shows liked to invite young and fresh meat. Even if the acting skills of these young and fresh meat were worse than those of the veteran actors, even if the pay of these young and fresh meat was countless times higher than that of many senior actors with excellent acting skills, the crew would still be like ducks.

The reason was simple. Traffic meant attention and exposure.

Xia ruofei's popularity on the internet was not as exaggerated as some young male stars. It was impossible for him to have hundreds of millions of reposts that insulted the IQ of netizens just by posting a message about dyeing his hair on Weibo. However, his fans were real. Xia ruofei did not need to spend money to buy traffic or Trending Searches. His popularity was real.

The effect of the promotion could be seen from this. Although Xia ruofei only had one – tenth of the number of fans compared to those male idols, the number of shares and comments rose steadily after the Weibo post was released. Moreover, these shares and comments were obviously operated by real accounts. Most of them were active old accounts and would not have the same situation as those male idols. The pile of comments was made up of numbers.

The crew even called Qin Yanan to express their gratitude. Xia ruofei had indeed helped them a lot in this round of publicity.

.....

Soon, a week had passed. Xia ruofei's days in the capital were more relaxed. He went to elder Liu's place every three days to perform acupuncture on him and check his body.

After taking the pill that contained the petals of the spirit Heart Flower, elder Liu's condition had obviously stabilized. He strictly followed Xia ruofei's advice and stopped taking other drugs, including painkillers. He did not feel any severe pain for the past week.

For old man Liu, who had been tormented by his illness for so long, this week was like a God's life. He was not tormented by any illness and could sleep well every day. This was something that was within reach for ordinary people, but it was extremely precious in old man Liu's eyes.

Old man Liu's complexion had also improved significantly. His face was a lot rosier, and although he still looked very thin, he was in much better spirits.

Previously, there were some objections from the Liu family, but no one dared to voice it out because of old master Liu's prestige. However, after a week of treatment, all the noise had disappeared. Everyone in the Liu family was grateful when they saw Xia ruofei.

If he was polite on the surface before, he was grateful from the heart now. Even Liu haojun's father, Liu Qunfeng, didn't hate Xia ruofei so much.

After all, old man Liu was the pillar of the Liu family. As long as he was still alive, the foundation of the Liu family would not be shaken. In comparison, although Liu haojun's future was bleak, the latter was obviously more important than the interests of the entire Liu family.

Of course, Xia ruofei was well aware that old man Liu's condition had only stabilized. In fact, the cancer cells in his body were still present. As the amount of medicine used was not enough, it was far from killing the cancer cells. It had only suppressed them and made them less active.

Other than the treatment once every three days, Xia ruofei had nothing to do.

He would occasionally have a small gathering with Zhao Yong Jun and the others, or go to the Paradise society's construction site to take a look.

After all, he was still the major shareholder of the peach blossom Association. It was fine if he wasn't in the capital in the past, but now, it would be a little unreasonable if he were to be a hands – off manager.

Of course, Zhao Yongjun and the others had arranged the details in an orderly manner. Xia ruofei was more of just going over to take a look.

The life I yearn for was still in the midst of filming.

Before filming started, Hunan TV had already coordinated the schedules of several permanent guests, so they could basically guarantee continuous filming.

As the filming location was inside the Paradise society, Xia ruofei went to visit them. The guests for that episode were a few talk show actors who had become more popular recently. Xia ruofei was not very familiar with them and only went to say hello.

He Jiong, Huang Lei, Zhang Xing and Peng Chang were also very happy to see Xia ruofei. They even came over to chat with him for a while during the break between recording, then everyone took a few group photos.

On the way back to siheyuan, Xia ruofei casually posted the group photo that He Jiong sent on Weibo with a caption:

Today, he couldn't help but go to the production team again. He saw his dear teacher he and the others and ate the fried sauce noodles that he had been longing for for several days. He suddenly felt comfortable. This was the life he had been yearning for!

After the Weibo post was posted, the netizens burst into laughter.

"President Xia, did the festival team pay you for your notice? It's basically a free release for the next episode!"

"This is the first guest in the history of this show to take the initiative to request to return to the show and put it into practice! You're so cute, President Xia!"

"This group photo is really full of gay love!"

.....

Xia ruofei was also smiling as he scrolled through the Weibo comments. He was in a good mood when he saw the netizens 'imaginative comments.

Just then, his phone vibrated.

Xia ruofei, who was scrolling through Weibo, was stunned when he saw the caller ID. He quickly picked up the call.

"Weiwei!" Xia ruofei called out happily.

This was the first time Song Wei had called him since he came to Beijing.

Xia ruofei even went to Capital University in his spare time. However, Song Wei did not come out to meet him. This made him rather depressed. It was not easy for Qianqian to tell everything to Ling Qingxue. The two girls had basically acquiesced to this situation. However, the subsequent script seemed to be a little different from what he had imagined ...

"Ruofei, something happened to my dad ..." Song Wei said in a panic as she sobbed.

Chapter 2288 Emergency (1)

Xia ruofei's heart skipped a beat. He knew that something big must have happened. Otherwise, Song Wei would not have lost her composure and become so helpless.

"Don't worry, Weiwei," he said quickly. "Tell me slowly. What happened?"

"My dad ... My dad ... He was in a car accident!" Song Wei sobbed. The situation seems to be very bad ... My mom ... Called me and asked me to go back as soon as possible. She said ... She said ... My dad ... He's dying ... Wuwu ..."

At the end of her sentence, Song Wei could not help but cry.

Xia ruofei's mind buzzed. This news caught him off guard. For a leader like Song Qiming, the possibility of a car accident was too low.

However, it was not the time to ask for details. He quickly asked, ""Wei Wei, where are you now? I'll come and take you to the airport immediately!"

"I'm at school ... I checked the flights, the earliest one will take off in three hours ..." Song Wei said while sobbing.

"I'll make the arrangements, you don't have to worry about it!" Xia ruofei said, "wait for me at the north gate of the school now! I'll be there immediately!"

"Alright!" Song Wei said.

After hanging up the phone, Xia ruofei immediately said to Wu Qiang, who was driving, ""Wu Qiang, go to the north gate of Capital University!"

"Okay, boss!" Wu Qiang said.

He could hear Xia ruofei talking on the phone but he did not know what song Wei said. He only knew that something had happened.

Out of professional habit, Wu Qiang did not ask much. He quickly turned the car around at the next intersection and drove in the direction of Capital University.

Xia ruofei called the cabin crew from the car.

"Captain Liu, I'm Xia ruofei!" Xia ruofei said directly, "I have something urgent to attend to and need to return to the three mountains immediately. What's the earliest time you can take off?"

Now, Xia ruofei was glad that he did not let the flight crew return to the three mountains but had them wait for orders in the capital. Otherwise, they would have been delayed even longer.

"Mr. Xia, two of our flight attendants have gone to the suburbs ..." Liu An was stunned for a moment.

The flight crew had been on standby in the capital city for the past few days. They could not stay in the hotel all the time. After all, if Xia ruofei wanted to use the plane, he would usually inform him in advance. Hence, Liu An agreed to let the two flight attendants go to the hot springs in the suburbs without much hesitation.

He didn't expect Xia ruofei to use the plane at such a time, and in such a hurry.

If he asked them to come back at this time, with the traffic conditions in the capital, it would probably take at least two hours.

"It's fine if they're not here! It won't affect my flight!" Xia ruofei said, "it's fine as long as you and Captain Zheng are here! Captain Liu, just tell me, how long will it take to complete the flight preparation and route application?"

Liu An quickly calculated and said, ""Director Xia, Captain Zheng and I have no problems with the flight preparations. We also have some special channels to apply for a flight route. If it's an emergency request, we should be able to settle it within an hour."

Xia ruofei said, "okay, then I'll have to trouble you to get ready!" I'm on my way to the airport now!"

Xia ruofei thought that if it took too long for Liu An to apply for a flight route, he would have to use the connections of the song family to contact the Air Force and get special approval.

However, since Liu An promised that he could finish it within an hour, there was no need to do so.

After all, it would take at least an hour for him to pick up Song Wei from Capital University and then go to the airport.

"Understood!" Liu An said immediately.

After hanging up the phone, Xia ruofei called Qin Yanan and told her that he had something urgent to attend to and had to go back to Sanshan immediately. He asked her and he Yu to take a civil flight back later, or they could just wait for orders in the capital. No matter how the matter at Sanshan was handled, Xia ruofei would definitely have to come back to the capital. The treatment for old master Liu was only half done.

Qin Yanan didn't even think about it and chose to return to the three mountains. Xia ruofei was the target of their small team's service guarantee. If Xia ruofei was no longer in the capital, there was no point in her and he Yu staying in the capital.

Xia ruofei didn't want to dwell on such a small matter, so he agreed immediately. He told Qin Yanan to book a plane ticket back home. Yueyue was in a hurry, so she definitely wouldn't wait for them.

After making the call, Xia ruofei thought of informing the Liu family as well. Although the pills could last for a week, he had to stop the acupuncture that was done once every three days.

He dialed Liu Qunfeng's number.

Liu Qunfeng quickly picked it up and said enthusiastically, "Mr. Xia!"

"Chief Liu, I have something urgent to attend to and need to return to San Shan immediately!" Xia ruofei went straight to the point. "Stop elder Liu's acupuncture for now. Just let him take his medicine normally."

"No, Mr. Xia," Liu Qunfeng quickly said. The old man's condition has finally improved, you can't leave at this time!"

Xia ruofei said impatiently, "Chief Liu, I have something urgent to attend to! Don't worry, it won't delay the treatment! Besides, he hadn't finished the medicine for this course of treatment. I'll definitely be back within a week no matter how things are handled."

"Mr. Xia, but ... Without acupuncture, will the effect ..." Liu Qunfeng said.

"I'm a doctor, and I know elder Liu's condition the best. He won't be affected." Xia ruofei said decisively.

"The problem is ... You're not in the capital. What if something happens to the old man?" Liu Qunfeng said, "when the time comes, we'll have no one to help us, right?"

In fact, this was what Liu Qunfeng was most worried about. They wanted to tie Xia ruofei to old master Liu and keep him by his side. Now that Xia ruofei visited every three days, they felt uneasy. However, Xia ruofei had a close relationship with the song family, and they relied on Xia ruofei to treat old master Liu, so they did not dare to force Xia ruofei to do something he did not want to do.

However, no matter what, Xia ruofei was still in the capital. If anything happened, they would be able to rush over immediately. If Xia ruofei were to return to the three mountains, they would not be able to call for help in time if something happened to the old man!

Xia ruofei frowned. "Chief Liu, I'm very clear about elder Liu's situation. I'm also very confident that nothing unexpected will happen."

Xia ruofei knew very well that as long as elder Liu took the pill according to plan, the cancer cell activity in his body would be suppressed and there would be no accidents.

Of course, if it was a sudden illness of some other elderly person, such as myocardial infarction or cerebral hemorrhage, it would be hard to say. After all, the medicinal properties of the spirit Heart Flower petals were not enough to deal with cancer cells, and it was impossible to further improve elder Liu's physique.

However, the Liu family had so many medical staff, so it wasn't as difficult to deal with sudden diseases as they had imagined.

"Mr. Xia, what's so urgent that you have to leave my father behind and rush back?" Liu Qunfeng asked. We have an agreement, and we've also paid the consultation fee ..."

Xia ruofei was instantly displeased. He asked coldly, ""Chief Liu, I don't think I signed an Indenture! Is your Liu family going to restrict my personal freedom?"

Chapter 2289 All parties are shaken (1)

Liu Qunfeng laughed dryly and said, ""Mr. Xia, you've misunderstood. I didn't mean it that way. It's just that my father's treatment is at a critical stage. I hope you can understand my anxiety as his son ..."

"Chief Liu, I've made myself clear. I won't let my personal matters affect elder Liu's treatment!" Xia ruofei said, "I can guarantee that nothing will happen to the old master during this period!" I don't know what you have to worry about. "

At this point, Xia ruofei said indifferently, ""Also, chief Liu, please be clear that I'm not reporting to you, but to the Liu family! In short, this trip had already been set and could not be changed! If the Liu family thinks that I have violated the agreement, I can also allow you to stop this treatment. I will definitely return the consultation fee in full. The previous half of the treatment, consider it a friendly gift from me! Alright, chief Liu, I'm really busy here, so that's all for now!"

Xia ruofei hung up the phone without further explanation.

Xia ruofei did not like Liu Qunfeng's pestering style, especially at the end when Liu Qunfeng mentioned the consultation fee. He even seemed to be complaining and threatening him, which made Xia ruofei even more unhappy.

If others respected him, he would naturally not get angry for no reason.

After hanging up the phone, Xia ruofei said to Wu Qiang, ""Wu Qiang, drive faster. Song Wei is waiting for us at the capital Gate."

"Yes, President Xia!" Wu Qiang said.

The next moment, he sped up and drove the Toyota Elfa commercial car through the traffic, heading toward Capital University.

In the Liu family's courtyard, Liu Qunfeng put away his phone with a dark face.

Leaning on the bed, old man Liu had a faint smile on his face as he asked, ""Qunfeng, what did little Xia say?"

"He said he had something urgent to attend to," Liu Qunfeng said. "He said he had to go back to Sanshan. He'll stop the acupuncture for a while and let you take your medicine ..."

"Oh!" Old man Liu said indifferently.

Liu Qunfeng stood up and said, "dad, this Xia ruofei is too arrogant!" I was just expressing my objection. After all, he's already halfway through your treatment! Why did he suddenly leave the matters here and run back to the three mountains? If something happened to his condition, would he be able to make it back in time? As the patient's family, can't I say a few words?"

"What you said just now wasn't very nice ... What did Xiao Xia say?" old man Liu asked with a smile.

"He said that if we're not satisfied, we can only hold it in! Otherwise, we can just stop the treatment and he can return the consultation fee to us. The previous treatment can be considered a friendly gift!" Liu Qunfeng said, "you be the judge! These words were too arrogant! He's sure that we don't dare to fall out with him, so he's taking advantage of us!"

Because of Liu haojun, Liu Qunfeng had always held a grudge against Xia ruofei. Recently, Xia ruofei had been treating old man Liu, and the effect was very obvious. He had only temporarily suppressed his dissatisfaction, but it all exploded today.

"Qunfeng, you're already a government official, so why are you still so impatient?" old man Liu laughed. Since Xiao Xia said so, he naturally has confidence. Aren't we all very clear about his medical skills? Besides, they must have something urgent to attend to, so we should understand each other!"

"What could be more important than your health?" Liu Qunfeng said, unconvinced.

"In my family, this is a big deal, but in other people's eyes, it's just a transaction for money." Old man Liu said playfully, "Qunfeng, this little Xia is a strange person. I can't see through him anyway. His strength shouldn't be just what he appears to be. There must be a lot of things we don't know ... It's best not to make an enemy of such a person. It's best to build a good friendship with him ... It's a pity that we're one step too late. We let that old ghost, old song, take the lead!"

At this time, there was a soft knock on the door of the ward, and a middle – aged man who looked like a Secretary walked in. He first nodded at Liu Qunfeng, then said to the old man on the bed, ""Chief, we just received news that song Qiming of the song family was involved in a serious car accident an hour ago. It's unknown whether he's Dead or Alive!"

Although song Qiming was not elder song's direct descendant, he had the same origin as the song family. He was elder song's distant grandnephew and was of the same generation as song Rui. Therefore, in the eyes of the outside world, song Qiming was naturally a member of the song family.

Old man Liu raised his eyebrows and asked, ""How could this happen?"

"We don't know the details yet," the middle – aged Secretary said. "According to the information we received, song Qiming was in a car accident on his way to Songping city for research. We can't be sure if there's any human intervention in this."

Old man Liu nodded thoughtfully and said, "I know, you can go down first! Report anything about song Qiming to me immediately!"

"Yes, chief!" The middle – aged Secretary said with a slight bow, and then quietly left the ward.

A smile appeared on old man Liu's face as he said, "QUN FENG, isn't this a match? Xiao Xia has a close relationship with the song family. He's in such a hurry to go back this time, it must be because of song Qiming."

Liu Qunfeng's dissatisfaction dissipated a little. His attention was now on what was happening to song Qiming.

Chapter 2290 All parties are shaken (2)

"Dad!" Liu Qunfeng couldn't help but say. How could this happen? When a leader like song Qiming goes out, everyone at all levels will pay great attention to safety. He actually got into a car accident ... Could there be some hidden story behind this?"

In terms of rank, Liu Qunfeng and song Qiming were of the same rank. In terms of importance, song Qiming was the third in command of the southeast province and was in charge of the provincial capital, Sanshan. Liu Qunfeng was the Deputy Minister of an important Ministry, so they should be about the same. In comparison, song Qiming was a few years younger than Liu Qunfeng. The two of them were considered the backbone of their respective forces.

"There's too little information at the moment, so we can't make a judgment for the time being," said old man Liu calmly. However ... If anything happened to song Qiming, the song family would be furious! Who knew what kind of storm would come next! Sigh ... It's been an eventful period recently!"

Liu Qunfeng was deeply touched, and he couldn't help but sigh.

"Qunfeng, tell everyone to restrain their children," said old man Liu. "The wind has been a little off recently, and I keep feeling that something is going to happen." Now that song Qiming is in trouble, no one knows what's going to happen next ... Also, we have to learn from this and ask everyone to pay more attention to safety!"

"Okay, dad!" Liu Qunfeng said.

"I'm a little tired, you can go back first!" Old man Liu said, "my situation here is very stable. Even if Xiao Xia is not in Beijing, there is nothing to worry about ... You don't have to come here every day. Doing your job well is better than anything else!"

"Dad, I know." Liu Qunfeng said, "I'll go back first ..."

Old man Liu nodded slightly and waved his hand without saying anything.

.....

Not long after Xia ruofei hung up the call with Liu Qunfeng, the car arrived at the north gate of Capital University. From afar, he could see Song Wei standing by the road. Her eyes were red and swollen.

"Wuqiang, drive over there!" Xia ruofei said quickly.

Toyoda Elfa stopped beside Song Wei.

Xia ruofei had only bought the Elfa when he came to the capital, so Song Wei did not know that it was Xia ruofei's car. She only saw Xia ruofei sitting in the car when the electric door opened.

Song Wei's eyes turned red and she said weakly, "RUO Fei ..."

"We'll talk in the car!" Said Xia ruofei. He moved to the seat next to him and left the seat next to the door empty for Song Wei.

Song Wei nodded and got into the car. She sat beside Xia ruofei.

The electric car door closed slowly. Xia ruofei said, "Wu Qiang, go directly to the airport and the private aircraft building! Try to drive faster on the road!"

"Understood!" "Yes," Wu Qiang replied calmly. He then stepped on the accelerator and drove Alphard in the direction of the Capital International Airport.

At the same time, Wu Qiang also pressed a button next to the instrument panel. A thick piece of glass slowly rose, separating the back row from the driving area.

He knew what Xia ruofei and Song Wei were going to say next. It was best if he didn't listen.

Xia ruofei looked at Wu Qiang's back with satisfaction. Then, he gently pressed on the glass partition and the transparent glass instantly turned into mist.

It blocked sight and sound, completely separating the front and back.

Then, Xia ruofei turned to Song Wei.

Song Wei had been holding back in school. Now that she saw Xia ruofei, she could no longer hold back the grief in her heart. She leaned on Xia ruofei's shoulder and cried like a Pear Blossom bathed in rain.

Xia ruofei held Song Wei's hand tightly and said, "Weiwei, don't worry ... Uncle song is a lucky man, he'll be fine! And you know my medical skills. Even if uncle song is slightly injured, I'm confident that I can cure him!"

Song Wei nodded her head and said, "Mm! My dad will definitely be fine!"

When Song Wei received her mother's call, she was out of her wits. She felt as if the sky had fallen down on her. Only when she saw Xia ruofei did she feel as if she had a pillar of support and her heart was at ease.

"You should sleep for a while ... I'll wake you up when we reach the airport." Xia ruofei said, "don't worry, I've already arranged for a private jet. We can take off as soon as we reach the airport. There won't be any delay!"

"Mm! "RUO Fei, thank you ..." Song Wei said gently.

Xia ruofei stroked her cheek affectionately and said, "Silly girl, do you need to be so polite with me?"

In reality, Xia ruofei and Song Wei were really passionate and polite. It was the first time they were so close to each other. However, Xia ruofei did not have any other thoughts. Song Wei was at her most helpless. She subconsciously treated Xia ruofei as her support.

Xia ruofei helped Song Wei lower the back of her seat so that she could lie down comfortably. After a while, Song Wei fell asleep. However, even in her sleep, she was frowning and holding Xia ruofei's hand.

Xia ruofei looked at Song Wei with heartache. He was frustrated.

There was too little information available, and they did not know how song Qiming was doing. If song Qiming was really injured and died before they could get back, then no matter how capable he was, he would not be able to save a dead person.

If that was the case, it would be a huge blow to Song Wei.

One thing was for sure, song Qiming's condition was not looking good. Otherwise, Song Wei's mother would not have asked her to go back so quickly. She was basically asking Song Wei to see song Qiming for the last time.

Therefore, it was hard to say if song Qiming could last until they returned to the three mountains ...

Xia ruofei had no other choice but to pray in his heart.

He was already on his way back as fast as he could.

Let's do our best and leave it to fate! Xia ruofei sighed in his heart.

After a while, Xia ruofei felt the phone in his pocket vibrate. His phone was in his right pocket and his right hand was being held tightly by Song Wei. He quickly took out his phone from his pocket with his left hand in an awkward position.

He glanced at the caller ID and immediately picked up.

"Manager Lu ..." Xia ruofei was afraid of waking Song Wei, so he lowered his voice.

"Ruofei, where are you now?" Manager Lu asked anxiously.

"I'm on my way to the airport. Manager Lu, what's the matter?" Xia ruofei asked.

"The airport?" Elder song's voice came from the phone. It was obvious that manager Lu had put the call on speaker. "Ruofei, you already know?"

Xia ruofei was stunned for a moment and asked, "Grandpa song, are you talking about Secretary song?" Song Wei told me about it. I'm on my way to the airport with her right now, and we're getting ready to go back!"

"Are you coming with us?" asked elder song.

"Of course!" Xia ruofei said.

"That's good! "I'll be more at ease if you go back ..." Elder song heaved a sigh of relief and said, "ruofei, you must do your best to save Qiming's life!"

"I understand, Grandpa song." Xia ruofei said.

Elder song did not know about his relationship with Song Wei, so Xia ruofei did not explain much.

Then, Xia ruofei couldn't help but ask, ""Grandpa song, I don't have much information on hand. I want to know how Secretary song is doing."

"He's not in good condition. He has a severe brain injury. He was dying when he was sent to the hospital. Ruofei, you ..."Elder song said in a low voice.

"As long as Secretary song can hold on until we get back, even if he's on his last breath, I have a 50% chance of saving his life!" Xia ruofei said without hesitation.

"Alright!" Elder song said,"I'll personally inform the southeast province. We'll pay any price to maintain Qiming's vital signs and wait for you to return!"

"Alright!" Xia ruofei said.

"Right, the situation is urgent. Do you need me to ask the Air Force to send an aircraft ..." Elder song continued.

"Grandpa song, I've already arranged for a private jet to be on standby at the airport!" Xia ruofei said.

"That's good! That's good!" Elder song said,"I'll get Xiao Lu to inform the Air Force to make sure that the plane can take off as soon as you arrive at the airport!"

"Okay, thank you, Grandpa song!" Xia ruofei said.

"I should be the one thanking you!" Elder song said emotionally,"ruofei, Qiming has suffered a lot since he was young. He shouldn't have such an ending. Please do your best to save his life!"
