

God tier Farm 2321

Chapter 2321 The Morde Organization Part When song Qiming was almost done with his treatment and Xia ruofei was free, he would naturally find a way to find the financial backer.

Xia ruofei had left alone, so Qian guiyou and the others couldn't have disappeared.

In fact, they had all been sent into the spirit map space by Xia ruofei.

He did this because he had no intention of letting these people out.

The hands of these professional mercenaries were all stained with blood. Xia ruofei had already confirmed this during the interrogation. It could be said that each of the five of them deserved to die. It wouldn't be too much to execute them a hundred times.

Considering that the shortage of labor in the space was getting worse, Xia ruofei followed the principle of recycling and directly extracted them into the spirit map space.

These people were all bound by Xia ruofei's Silver needles. When he was collecting them, he released a little bit of spiritual power and put them in a daze. In this state, they did not know how to resist. Xia ruofei easily collected all five of them in one breath.

Xia ruofei used the power of space to set up a cage in the mountain and sea realm of the spirit map world. He threw the five people in and left them alone.

Xia ruofei was prepared to go into the medium to train them when he was free later.

Xia ruofei had no qualms about using the free labor in the realm.

As for safety, there was even less to worry about.

Unless Xia ruofei died and the spirit map became ownerless again, even Bai Qingqing, who had a thorough understanding of the rules of space, would not be able to escape from the small space of the spirit map world without Xia ruofei's permission, let alone ordinary people like Qian guiyou and the others.

In addition, when Xia ruofei was not in the space, Xia Qing could also use a certain amount of spatial power. Although this level of spatial power was far inferior to the spatial power that Xia ruofei controlled, whether in quality or quantity, it was more than enough to deal with ordinary people in the space.

Not to mention only five people, even if there were fifty or five hundred, Xia Qing could control them all with a single thought.

Even if they took advantage of Xia Qing's inattentiveness and launched a sneak attack on him, there was no need to worry.

Before putting them into the spatial space, Xia ruofei had stored all their weapons in an independent space in the spirit map world that he had specially opened up. Without Xia ruofei's permission, even Xia Qing could not get those weapons.

As a high – Level spiritual puppet, Xia Qing's body was also very strong. Even if a sneak attack was successful, it was impossible for a few ordinary people, who were not even at refined Qi Level 1, to cause him any harm.

Hence, Xia ruofei had considered all the possible problems before making the final decision.

.....

After leaving the residential area, Xia ruofei walked straight to his car.

On the way, he even made a detour to a shopping mall and changed his clothes and appearance in the washroom.

After collecting his car, Xia ruofei drove back to the main hospital.

Fang Liyun, Song Wei, song Qiming's Secretary, Guangzhi Cao, and the others were all in the lobby outside the ICU.

Xia ruofei did not mention the mord organization to them because he knew that this kind of overseas mercenary organization was not something that the special police arranged by the province could deal with. If he told them, it would only make them more uneasy.

Xia ruofei chatted with Fang Liyun and the rest for a while before he went to the intensive care unit to check on song Qiming's condition. He found that his vital signs were relatively stable.

Besides, Xia ruofei also used his spiritual power to penetrate the outer area of song Qiming's consciousness and checked it carefully.

The situation was almost as he had expected. Song Qiming had basically absorbed all the medicinal properties of the soup. However, the recovery of his sea of consciousness was only about 1%. If he only relied on the soup, song Qiming's recovery would be an extremely long process. After all, the soup could only be taken once in seven days.

When Xia ruofei left the intensive care unit, Fang Liyun and the others immediately came to greet him.

He found that professor Chen, who was the chief surgeon for song Qiming's head operation, was also there.

Due to song Qiming's special status, professor Chen would come over to check on the situation after finishing his work. After all, such a high – ranking leader was lying in the intensive care unit. Although the General Hospital could not do much, they at least had to show that they attached great importance to him.

"Ruofei, how's Qiming?" Fang Liyun asked.

Xia ruofei smiled."Auntie Fang, don't worry. Uncle song's condition has always been stable. It's unlikely that his sadness will relapse."

"When will he wake up?" Fang Liyun asked.

Just then, a voice came from behind Xia ruofei.""Junior Brother Xia, I knew you were still here!"

Xia ruofei turned around and saw that the person was his senior Ge Jun, whom he had acknowledged as a disciple on behalf of his master.

“Senior GE! You’re back!” Xia ruofei smiled and replied, “did everything go well today?”

He knew that Ge Jun must have gone to Min River to pay his respects to his non – existent master.

“Everything is going smoothly!” Ge Jun smiled and said, “of course, I’m just asking for peace of mind! I don’t know if master will be able to receive this kind of thought ...”

“You definitely can!” Xia ruofei smiled.

Then, Xia ruofei said to Fang Liyun and the others, “Aunt Fang, Song Wei, let me introduce you. This is Ge Jun, senior GE! His senior brother was very accomplished in Chinese medicine and was a leading figure in China’s Chinese medicine field. He usually provided health care services to the leaders in Beijing. Senior GE will also participate in uncle song’s treatment, so you can rest assured! Uncle song will definitely be fine!”

Ge Jun’s name was quite well – known. At least, Fang Liyun and Song Wei had heard of him before. Therefore, Fang Liyun was pleasantly surprised when she heard this and said, “That’s great! Dr. GE, I’ll have to trouble you with Qiming’s matter!”

Fang Liyun’s mind was all on song Qiming, so she did not notice that Xia ruofei’s way of addressing Ge Jun was a little strange.

However, professor Chen was stunned.

He didn’t even consider that Xia ruofei was introducing them to each other. He couldn’t help but exclaim, “Uncle GE, you ... You and Mr. Xia ...”

Ge Jun smiled and said, “Oh!” Little Chen! Yesterday, I talked to Junior Brother Xia and found out that we are from the same sect in Chinese medicine. In terms of seniority, Junior Brother Xia and I are of the same generation. I’m a few years older than you, so I’m naturally your senior brother. ”

Professor Chen was dumbfounded.

This works too?

In that case, in terms of seniority, this young man in front of him was his elder?

Professor Chen was also from a family of Traditional Chinese Medicine Practitioners. Naturally, he knew that Traditional Chinese Medicine was very particular about inheritance. Moreover, this inheritance was recognized by the country.

To be qualified to practice Chinese medicine, other than going through the country’s full – time Chinese medicine education and passing the examination, there was another way to obtain the qualification, and that was to pass on Chinese medicine.

Even if you didn’t even attend medical school for a day, as long as you were indeed a master and disciple in Chinese medicine, and your inheritance was recognized by the industry, you could still obtain a medical qualification certificate.

Xia ruofei noticed professor Chen as well. He was amused.

“Professor Chen,” he said quickly, “brother GE and I are talking about the succession of Chinese medicine. We should discuss it separately.”

Professor Chen couldn’t help but smile bitterly. It was precisely because this was the seniority of Chinese medicine that he felt that it was a bit of a scam! Although he studied Western medicine, he was also a child of a Chinese medicine family. Strictly speaking, he had to abide by this kind of inheritance.

Ge Jun and his father were of the same generation, which meant that Xia ruofei was of the same generation as his father.

However, professor Chen could not bring himself to call Xia ruofei ‘uncle’.

He sneaked a glance at Ge Jun and saw that Ge Jun did not object. He heaved a sigh of relief and nodded, “Oh ... I see ...”

Chapter 2322 Handling the captives (1)

Ge Jun had seen everything. He knew that it was a little too much to ask professor Chen to call Xia ruofei “uncle”. After all, Xia ruofei was only in her twenties, while professor Chen was already old. He was also an authority in the field of neurosurgery in the country and was one of the top figures in the medical world.

In addition, although professor Chen was also from a family of Traditional Chinese Medicine Practitioners, he did not inherit his family’s medical skills. Instead, he turned to study Western medicine. In addition, the Chen family and the GE family were only friends for generations, and there was no real relationship between the two.

Hence, Ge Jun thought for a while and said with a smile, “Little Chen, let’s do as Junior Brother Xia said! There aren’t so many rules in modern society.”

In fact, this was because professor Chen was not the descendant of the GE family. Otherwise, no matter how old and qualified professor Chen was, Ge Jun would not allow the seniority to be messed up.

Professor Chen was relieved and said, “Alright! Alright!”

Although he did not have to call Xia ruofei “uncle”, Xia ruofei had become Ge Jun’s junior. In professor Chen’s heart, Xia ruofei’s importance was naturally different from before.

After this small interlude, Ge Jun then said to Fang Liyun with a pleasant expression, “Madam song, I’m just here to observe and learn. With junior Xia around, Secretary song will definitely recover. You don’t have to worry about this.”

Fang Liyun could not help but be stunned, thinking that this Chinese medical master’s attitude was too humble! Although she knew that Xia ruofei’s medical skills were amazing, Ge Jun was a leading figure in the Chinese medicine world! Even he had to learn from Xia ruofei?

Fang Liyun thought that Ge Jun was being humble. Of course, professor Chen had the same thought.

They did not know that Ge Jun was speaking from the bottom of his heart.

Ge Jun had personally checked on song Qiming's condition. He had also heard from professor Chen about song Qiming's condition when he was admitted to the hospital. He knew that even he would not be able to do anything when he was in such a critical condition. However, Xia ruofei had successfully stabilized his condition. Moreover, song Qiming's life force was getting stronger and stronger. He knew that Xia ruofei's medical skills were better than his.

Xia ruofei chuckled. "Senior, you're too humble. In terms of comprehensive medical skills, I can't compare to you. I only have a little experience in external injuries."

Then, Xia ruofei said to Fang Liyun, "Auntie Fang, I've already prepared another treatment plan, but there's one medicine that will only be available in two days. Uncle song's condition is very stable at the moment, so we'll observe his condition for the next two days. I'll try a new treatment plan in two or three days. I believe he'll wake up very soon."

Professor Chen was dumbfounded. In his opinion, song Qiming was relying on the expensive equipment in the ICU to maintain his vital signs. Even his primary reflex had disappeared, which meant that he had completely lost his brain function. How could he be in a stable condition?

However, even Ge Jun did not agree with his conclusion. Moreover, Xia ruofei was still his junior uncle, so professor Chen naturally did not dare to refute him.

Since the head of the hospital had already given the word regarding song Qiming's treatment, the people from the hospital did not have much say in it. Therefore, professor Chen decided to keep quiet.

Fang Liyun immediately replied, "Alright, you can make the decisions regarding the treatment!"

Xia ruofei smiled and said, "aunty, Song Wei, let's do this for now!" I won't be keeping an eye on this place for the next two days. You guys should take a rest. Uncle song is in the intensive care unit, and there's someone taking care of him 24 hours a day. My phone is always on, so if anything happens, I'll be able to rush back immediately."

Fang Liyun nodded and said, "yeah!" Ruofei, you've worked hard these past two days! Go home and have a good rest for two days!"

Although Song Wei did not say anything, the way she looked at Xia ruofei was filled with gentleness. It explained everything.

.....

Ge Jun accompanied Xia ruofei as they walked out of the hospital.

"Senior GE, when do you plan to return to the capital?" Xia ruofei asked.

Ge Jun chuckled. "I've been out for a few days now. Let's see how it goes after you treat Secretary song. If there's nothing else, I'll return to the capital around then!"

Xia ruofei nodded. "After I'm done with uncle song's matter, I'll find some time to sort out the contents of <three cloud rubbing scrolls>. Then, I'll have a good exchange with you, senior."

"There's no rush for this, there's no rush for this," Ge Jun quickly said.

Xia ruofei smiled and said, "since I've accepted you as my disciple on my master's behalf, I naturally have to bear the corresponding responsibility." Senior brother GE, the 'three volumes of cloud contact' originally came from the GE family, so it's considered a complete piece returned to Zhao. I believe that the heritage of old ancestor Ge Hong's Chinese medicine will definitely be carried forward in your hands.

Ge Jun was slightly moved and said, "Thank you! Junior Xia!"

As Ge Jun had a tea date with his friends, the two of them bade each other farewell in front of the hospital building. Xia ruofei drove the Knight XV back to the Jiangbin villa district.

When he got home, he went straight to his bedroom. After locking the doors and windows, he took out the spirit map scroll and entered the medium.

.....

Spirit map space, mountain and sea realm.

A small spatial cage was suspended above the vast grassland.

Chapter 2323 Handling the captives (2)

Qian Guiyou and the other four were inside the cage. They had been trapped there for two hours, but they were still in a daze.

Just a moment ago, they were still in the rented house in the old community. They only felt dazed for a moment, and then the scenery in front of them changed completely. They found themselves in a place with green grass and extremely fresh air.

This kind of experience, which was like the stars shifting, was absolutely subversive for them.

What made their hearts tremble even more was that they were actually suspended in the air in a small space cage that only bound them in a very small area, but it did not hinder their vision.

Qian Guiyou and the others found that they didn't fall down, but were suspended in the air.

After fumbling around, they realized that although there was no shelter in the surroundings, their range of activity was only a few meters. Any further and it was as if they had hit an invisible wall, and they could not get out no matter how hard they tried.

The few of them looked at each other as if they had seen ghosts.

In this one hour, they had discussed for a long time and tried many ways, but they were unable to escape.

Qian Guiyou and the others knew that this must have been the work of the demon – like young man. In their eyes, Xia ruofei's actions were undoubtedly demonic. He could freeze people with a few needles, make them lose their freedom with just a look, and answer whatever they were asked. All of this was too unbelievable.

In the end, they couldn't help but have a terrible thought. "Is the young man trying to trap us in this strange place and starve us to death?"

Qian guiyou and the others shuddered at the thought.

At this moment, they suddenly felt their bodies sink.

Although there was nothing under their feet, they felt like they were standing on solid ground. However, that feeling had disappeared. They began to free – Fall, falling straight down from a height of more than ten meters.

Qian guiyou and the others screamed instinctively.

The green grass quickly grew larger in their field of vision. Although there was grass below, falling from a height of more than ten meters, even if they were lucky enough to survive, they would probably break their bones.

Just as their faces were about to touch the grass, they suddenly felt a gentle force holding them up, and then they slowly landed on the ground.

Qian guiyou and the others gasped for breath as if they had just survived a disaster.

At this moment, a voice rang out, “Everyone, welcome to the spirit map space! How did it feel to ride the free drop machine just now?”

Qian guiyou raised his head and saw Xia ruofei’s face. He cried out in surprise, “It’s you! You’re Xia ...”

Xia ruofei smiled and said, “you’ve done your homework. That’s right. I’m Xia ruofei. At the same time, I’m also ...”

As he spoke, he changed his appearance.

Qian guiyou and the other four witnessed another strange scene. Under their watchful eyes, the muscles and bones on Xia ruofei’s face began to change. In a short while, he seemed to have turned into another person.

Qian guiyou and the others would never forget that he was the young man who had captured them in the room an hour ago, even if he turned into ashes.

“You ... You ...” Qian guiyou stammered in shock.

After witnessing Xia ruofei’s magical ability, he immediately realized something and couldn’t help but shout, “You were the one who killed Qian GUI douyou, right?”

Xia ruofei smiled and changed his appearance again. Soon, he looked like the person that Qian GUI douyou’s glasses had captured.

“As expected ...” Qian guiyou said with a slight tremble.

He knew that he had no hope of avenging his brother in this life.

Xia ruofei smiled and said, “I have to correct you. Your brother bit the poison capsule and died. I didn’t want to kill him.” For example, you all. Although you all deserve to die, aren’t you all still alive and well? If he hadn’t foolishly chosen to commit suicide, he would be in the same situation as you. ”

No. 4 was a Chinese, his name was Bao Guijun. He couldn't help but ask, "Mr. Xia, what is this place? How did we end up here in the blink of an eye? you ... How did you do it?"

Xia ruofei smiled and said, "you don't need to know this." You only need to remember one thing, and that is ... The five of you are now my captives!"

Bao Guijun couldn't help but show a bitter smile. He could already predict his fate.

Xia ruofei looked down at the five of them and said, "I don't like to force people to do things they don't want to do. So, although you're prisoners, I've decided to give you a chance to choose."

At this point, Xia ruofei paused and glanced at the five people's faces. Then, he said, "I'll give you two choices. First, you can choose to die for your organization like qangui douyou, and I will not stop you. If you don't want to commit suicide, I have another option, and that is to work for me. You can exchange your contribution for survival supplies to ensure that you can continue to live. "

"Mr. Xia, if we work for you, you probably won't be able to rest assured ..." Bao Guijun asked carefully.

Xia ruofei laughed and said, "since I'm willing to let you live, I'm not worried about you betraying me." How about this! I can give you a chance to escape. As long as you can get out of my territory, I can let you go. "

Qian guiyou raised his head and asked, "Is this true?"

Xia ruofei shrugged. "Your lives are in my hands. Why Would I Lie to You?" he asked.

Then, Xia ruofei looked at Bao Guijun and asked, "How is it? Do you want to try your luck?"

Bao Guijun exchanged a look with his partner and said, "Since Mr. Xia is so generous, we'll thank you first. May I ask ... How do I play this game?"

Xia ruofei laughed. "There are no rules and no time limit. From now on, you can run. If you can run, you will be free!"

"It's a deal!" Bao Guijun gritted his teeth and said.

Xia ruofei smiled and nodded. "It's a deal!"

Bao Guijun and the others discussed in a low voice. Xia ruofei didn't go over to join in the fun. He walked to the side and sat on the ground with a playful smile on his face.

Bao Guijun and the others came to a conclusion very quickly.

They had been trapped in a spatial cage that was more than ten meters high and had used the high ground to observe the surrounding situation, so they quickly agreed to run in the direction of the sea.

They felt that even if Xia ruofei had set up an iron bucket formation around this area, the sea was so vast that it would not be easy for Xia ruofei to catch them as long as they escaped into the sea.

They even saw a small yacht floating on the sea near land.

If they could get their hands on the yacht, the chances of them successfully escaping would be higher.

Thus, they exchanged a look and quickly rushed in the direction of the sea.

Bao Guijun didn't forget to look at Jian Jia. He felt that Xia ruofei was like a cat toying with a mouse. He was afraid that Xia ruofei was playing with them. Once they started to run, hundreds of people would rush out and surround them.

Bao Guijun saw that Xia ruofei didn't even bat an eye and didn't look like there was anyone lying in ambush. He made up his mind and followed Qian guiyou and the others to the seaside.

The journey was unusually smooth. There were no obstacles at all. Xia ruofei even stayed in the same place and did not move. They rushed to the seaside just like that.

From afar, the small yacht was still bobbing up and down on the sea.

"Everyone, let's work harder!" Qian guiyou shouted. We'll be free once we get out!"

Chapter 2324 The omnipotent God (1)

Qian guiyou took the lead, and Bao Guijun was the last. The five of them rushed to the beach.

As they stepped on the soft and wet sand, a glimmer of hope gradually appeared in their originally nervous hearts. Because so far, everything had been unusually smooth.

They believed that as long as they could get their hands on the yacht, they would have a high chance of escaping.

Qian guiyou and the others rushed towards the yacht as the cold water reached their ankles. In a short while, the water was already at their waist, so they decided to swim forward.

The small yacht swayed gently with the waves and was already very close.

"Good luck!" Qian guiyou cheered everyone on excitedly.

They didn't know that even if they could get the yacht, they could only go in circles in the space ocean at most. Now, they were like turtles in a jar. Where could they run to?

Of course, Xia ruofei would not let them come into contact with small yachts. He was still a bit of a clean freak.

Therefore, when Qian guiyou and the others swam desperately towards the yacht, they were shocked to find that they couldn't move forward no matter how hard they tried. The yacht was just within reach, but they were just a little bit away.

"What's going on?" Qian guiyou shouted in anger.

However, what made them feel even more devastated was that in the next moment, they were directly lifted up from the sea by an invisible force and suspended in mid – Air.

Then, to the horror of Qian guiyou, Bao Guijun and the others, Xia ruofei appeared out of thin air in front of them. It was as if he had teleported. One second, there was no one there, but the next moment, he appeared.

Furthermore, Xia ruofei was standing in the air. He was more than ten meters above the sea and he looked like an immortal.

Xia ruofei had a teasing smile on his face. ""The game can end now ..."

Qian guiyou and the others were dumbfounded. What they had seen was beyond their knowledge. How could a person just float in the air without stepping on anything?

When they thought of Xia ruofei's ability to change his appearance at will, they were filled with despair.

This made them think of the mysterious Eastern legends. Could this young man be a legendary immortal?

What happened next seemed to confirm their guess.

Xia ruofei waved his hand and the calm sea suddenly became violent. In an instant, it formed a huge wave that was dozens of meters high. Qian guiyou and the others watched in fear as the huge wave came crashing down on them.

In the face of nature's might, humans seemed so small. The fear that came from the bottom of their hearts could not be suppressed. Qian guiyou and the others couldn't help but scream in horror.

However, just as the huge wave was about to hit them, it suddenly stopped, as if it was frozen, and maintained its original shape.

Qian guiyou and the others had lost all ability to think. They looked up at the terrifying wave and didn't even dare to breathe.

Xia ruofei waved his hand again and the wave that was strong enough to flip a ship disappeared into thin air. It turned into water vapor and returned to the sea.

Qian guiyou and the others felt their vision blur, and then they found themselves back in their original position.

The green grass and the faint smell of earth made them feel as if they had not been running for their lives, nor had they entered the ocean, nor had they encountered the terrifying waves. It was as if what they had just experienced was a dream.

However, her clothes were still wet, and it was very uncomfortable to stick to her skin. This made them realize that they weren't dreaming at all. They had been teleported here by the 'Huaxia deity'.

Qian guiyou and the others looked at Xia ruofei in a completely different light. They were full of respect and awe.

These mercenaries were all desperadoes, but no matter how unruly they were, they couldn't resist when faced with a power that was on a completely different level.

Even Qian guiyou, who had killed Xia ruofei's brother, was in despair. He knew that there was no chance of revenge.

The five of them looked at Xia ruofei in silence.

Xia ruofei's gaze swept across them one by one.

Wei nation Qian guiyu.

Chinese, Bao Guijun.

The sniper was ruan Zhongyuan from annan.

There was also Park taishu from the bangziguo and Huang rujue from the Lusong.

Xia ruofei didn't speak for a long time. Bao Guijun and the rest felt the pressure as heavy as a mountain. It was as if the air had frozen. The five of them didn't even dare to breathe.

After a long time, Xia ruofei finally said, ""You can make your choice now. You can either stay and work hard, or you can sacrifice yourself for the modr organization. I won't interfere."

Xia ruofei did not tease them. After all, if they wanted to commit suicide, he could not watch them all the time. Besides, these people deserved to die. If they wanted to commit suicide, Xia ruofei would not stop them.

If they were willing to work here, Xia ruofei would not mind making use of the waste.

It was not a difficult decision to make, especially after seeing Xia ruofei's overwhelming power. It was a simple decision.

After all, it was better to live than die! With Xia ruofei's strength, even if the modr organization used all their power, they would not be able to do anything to him. Besides, they were professional mercenaries and did not have a strong sense of belonging to the organization.

Chapter 2325 The omnipotent God_The reason why he had chosen to commit suicide was because he knew that if he fell into the enemy's hands; he would suffer if he didn't confess. And if they sold out the organization's information, then no matter where they ran to, it would be difficult to escape the organization's revenge. This kind of revenge was a hundred times more terrible than death.

As for Bao Guijun and the rest, they had already revealed all the secrets of the modr organization. In fact, they had already betrayed the organization, so why would they be so silly as to sacrifice themselves in the line of duty?

Moreover, they all thought that working for Xia ruofei would ensure their safety. In this secluded place, the chances of being found by the modr organization were very low.

Even if they lost their freedom, being able to live on was a huge temptation.

Of course, they didn't know that Xia ruofei's terrifying power was only limited to the space. Even though he was strong in the outside world, he would still need to cultivate for a long time before he could reach the level that he had just reached. He could create a huge wave with a thought.

After exchanging glances, Bao Guijun quickly said, "Mr. Xia, we're willing to work for you! Thank you for sparing my life, Mr. Xia!"

"You're very tactful!" Xia ruofei smiled and said, "actually, the job I want you to do is not complicated. I believe you can do it ... Yes! Let the person in charge of you tell us!"

After he finished speaking, Xia ruofei sent a telepathic message to Xia Qing, ""Xia Qing, come to my place!"

"Yes, master!" Before Xia Qing's voice could finish, he had already appeared beside Xia ruofei.

Bao Guijun, Qian guiyou, and the others were shocked.

It was teleportation again! It seemed that this person was also a very powerful character!

"This will be your supervisor from now on. You can call him supervisor Xia Qing," Xia ruofei said indifferently.

Bao Guijun and the others quickly greeted him, "Manager Xia Qing!"

Xia Qing was absolutely loyal to Xia ruofei. Since it was Xia ruofei's arrangement, he naturally had no objection. Thus, he nodded to Bao Guijun and the others.

Xia ruofei said to Xia Qing, "these people will be under your command in the future. You can arrange some jobs that are not very technical but consume more physical strength for them to do."

"Yes, master!" Xia Qing said respectfully.

"You can tell them the specific work arrangements!" Xia ruofei said.

Xia Qing pondered for a moment and said, "at present, the most important task is to open up the herb garden. During this time, you will mainly be doing this work. I will arrange the specific things for you!" In the future, after the expansion of the medicine garden is completed, we'll adjust the new work. "

Ever since he had acquired miles Corporation, Xia ruofei had arranged for Xia Qing to expand the scale of the herb garden as soon as possible. After acquiring miles Corporation, Taoyuan pharmaceutical factory's demand for raw materials and herbs would increase by several times. It was impossible to meet the demand by just relying on centralized purchasing and farming contracts.

It would be a huge project to expand the herb garden several times, even if Xia Qing didn't sleep or rest. Most of the work would be repetitive physical labor, which was suitable for Bao Guijun, Qian guiyou, and others.

"Understood, manager Xia Qing!" Bao Guijun and the others responded.

Xia ruofei said indifferently, "Xia Qing will give you a quantitative evaluation based on your work performance. The higher the score, the better your life treatment." If their performance was average, they would only receive the minimum living supplies. If you're just wasting time or deliberately causing damage, I don't mind throwing you into the sea to feed the Sharks. "

Xia ruofei's tone was very indifferent. Bao Guijun and the rest had no doubt that if they had any evil thoughts, Xia ruofei would immediately destroy them without hesitation.

In their eyes, Xia ruofei was an omnipotent God. In fact, in the spirit map space, such an evaluation was not too exaggerated.

"I don't dare, I don't dare ..." Bao Guijun and the others quickly said.

Xia ruofei's tone softened a little and said, ""In here, other than not having freedom, it's much better than being a mercenary. This was the Paradise of the immortals. Even if you didn't do anything, you would become very healthy just by staying here. If you stayed here for a long time, you would definitely live a long life! So, before you have any bad plans, you'd better weigh the pros and cons. "

Out of the five, Bao Guijun was from Huaxia. He was the first to react. Wasn't this the legendary heavenly paradise? No wonder the air here was so fresh. Taking a deep breath felt like one's bones had relaxed a few taels, and there was an indescribable feeling of carefreeness in one's body.

These people had chosen to become mercenaries, and they basically didn't have any family to worry about. Other than the lack of freedom and entertainment, it was quite good in comparison.

At the very least, they could live, and they could live very healthily. This had long been an extravagant hope when they stepped on that bloody road.

So, Bao Guijun immediately said, "Mr. Xia, thank you for your reminder. We will not dare to have any disloyal thoughts. From now on, we will work for you with all our hearts!"

Xia ruofei smiled faintly and said, "I don't mind if you have other thoughts as long as you don't put them into action." Don't blame me for not reminding you, Xia Qing's ability is on par with mine. He can know your every word and action with just a thought. No matter how far you run, he can bring you back with just a thought! So ..."

Xia ruofei didn't finish his sentence, but his meaning was clear.

"Yes, yes, yes ..." Bao Guijun and the others quickly nodded.

Xia ruofei waved his hand and set up a soundproof barrier around himself and Xia Qing. Then, he said, ""Xia Qing, these people in the outside world deserve to die. I have no intention of letting them out since I've captured them. If they dare to play any tricks, you can just kill them directly. We only need to ensure that the precious crops in the space can not be touched or destroyed by them, and that's enough. "

"Understood, master!" Xia Qing said.

"Alright, you can bring them to work! You have to keep a close eye at the beginning!" Xia ruofei said, "also, you have to keep an eye on the cultivation of the heart – concentrating grass. Don't let anything go wrong!"

The heart – concentrating grass was grown in an environment where time was 2000 times faster. If any problems were not discovered and dealt with in time, the consequences could be very serious.

If it was just Jade and spiritual crystals, Xia ruofei could afford to lose them. However, he only had one heart – concentrating grass. If he lost the heart – concentrating grass, he would not be able to get back the spiritual crystals no matter how many he had. Hence, he had to be very careful.

"Yes, Master. Don't worry!" Xia Qing said.

Xia ruofei removed the wizardry barrier and warned Bao Guijun and the others before handing them over to Xia Qing. He asked him to bring Bao Guijun and the others to work at the herb garden.

With a thought, Xia ruofei left the medium.

He saw that it was getting late, so he went downstairs to cook some noodles for himself.

After dinner, Xia ruofei drove out.

When he came back, there was a small truck behind his Knight XV off – Road vehicle, and the trunk of the off – Road vehicle was full.

On the small truck were the iron – Framed bunk beds that he had purchased from a nearby furniture store. They were the cheapest kind, with a total of three and six bunk beds.

In addition, he also went to a small supermarket and bought five sets of bed sheets, blankets, pillows, and the like. They were all very ordinary, but they were cheap.

In addition, he also bought a batch of instant noodles, mineral water, and other daily necessities, which were all stuffed in the trunk of the Knight XV.

Xia ruofei asked the workers to unload the iron – Framed bed in the living room of the villa and let them leave.

The iron frame bed was packed in boxes. It was originally installed by the workers, but Xia ruofei did not need this service.

With a thought, he stored the iron frame bed and all the living supplies into the spirit map space.

Then, he went upstairs to his bedroom, locked the door and windows, took out the spirit map scroll from his body, and returned to the medium.

Chapter 2326 A new train of thought (1)

Xia ruofei went straight to the mountain sea realm and saw Bao Guijun, Qian guiyou, and the others digging the drain of the herb garden under Xia Qing's lead. They were all sweating profusely and looked like they had been doing it for a while.

"Everyone, stop!" Xia ruofei clapped his hands and said.

Xia Qing immediately came over with Bao Guijun and the others. Xia Qing called out respectfully, "Master!"

Bao Guijun and the others also bowed, "Mr. Xia!"

Xia ruofei waved his hand, and a few large boxes containing the parts of the iron – Framed bed were lifted by an invisible force.

Bao Guijun and the others had already seen Xia ruofei's magical means, so they were not surprised by this scene. They were still in awe.

Xia ruofei said, "pack these beds first. You can rest for today. I'll make some appropriate improvements to your living conditions later." Xia Qing, bring them a set of tools. "

Bao Guijun and the rest thanked him profusely. They were prepared to sleep on the ground, but they did not expect Xia ruofei to be so "kind".

Xia Qing took out a set of tools and gave them to Bao Guijun and the others. Then, they simply flattened a small piece of land in the area that Xia ruofei had marked out next to the herb garden. Then, they started to install the iron frame bed there.

Xia ruofei was not in a hurry to leave the medium. Instead, he handed over the living supplies he had purchased to Xia Qing and said, ""You'll be in charge of these things and distribute them according to their performance. In the future, we can refine a standard, such as how much work we can complete, how many points we can get, and then use the points to exchange for living supplies. "

Xia ruofei also planned to buy some more advanced resources for basic survival. It was equivalent to having some enjoyment on top of the basic survival.

Of course, these things required a lot of points to exchange for. This would give Bao Guijun and the others more motivation to work.

Xia ruofei had not spent so much effort on this just for the five free laborers.

He had a rough plan in his heart – the scope of the spirit map space was getting larger and larger – and it was impossible for Xia Qing to manage it alone, so it was imperative to increase the manpower.

On the other hand, the spirit map space was Xia ruofei's absolute secret. He couldn't even reveal it to the people closest to him, which created a contradiction.

However, mord's assassination team had given Xia ruofei a new idea.

There were many sinful people in this world who could die a hundred times without being wronged. In the past, Xia ruofei didn't think that these people had anything to do with him. This time, in order to not leave any traces, he directly sent Bao Guijun and the rest into the spirit map space. This gave him an idea.

He could use this method to increase the manpower in the spirit map space, which would greatly speed up the construction of the space.

Moreover, he didn't have any psychological burden by doing this. As long as he didn't Rob ordinary people and only targeted assassin organizations and mercenary organizations, he could even be said to be doing good!

Xia ruofei had to confront the Morde organization in order to dig out the mastermind behind the attack. It would be easy to recruit a group of free labor.

When they had more manpower, they would naturally need to set up rules.

In fact, Xia ruofei had already started on this matter.

"Yes, master!" Xia Qing nodded.

Anyway, he would do whatever Xia ruofei said and did not need to think too much.

Xia ruofei thought for a while and said,"by the way, these people are all ordinary people. They can't work continuously like you. They still need a certain amount of rest time. You have to make arrangements."

After that, he found an electronic clock in the pile of supplies and said, ""In the future, the management of these few people will arrange their work and rest according to this time."

This was an electronic clock with Arabic numerals. As long as it was constantly used in the mountain sea realm, it would be synchronized with the time in the outside world. There was no day and night in this space. If he didn't prepare a clock like this, it would be hard to arrange his work and rest time.

As for the Arabic numbers on it, it wasn't complicated. Xia ruofei only needed to teach it once, and Xia Qing had already mastered it.

In fact, it was just dividing two hours into two hours, and then each hour into sixty minutes. In addition, Arabic numbers were used instead of Chinese characters. The rest of the time was no different from the ancient way of telling time.

As for the dry batteries used for the electronic clock, Xia ruofei had bought a lot of them. A pair of batteries could last for a few months, and the pile of batteries could last for a few years.

Xia Qing looked at the electronic clock with some curiosity and nodded, ""I understand, master. Then wake up at 6:30 every day and start working at 7:00. He would rest from 12 to 1 p.m. And then work from 1 p.m. To 6 p.m. What do you think?"

Xia Qing had quickly gotten used to the new way of counting time, and her expression was also very accurate.

Xia ruofei nodded and said, "sure." In addition, looking at their work performance, if they were very active, they could rest for half a day every seven days. Hmm ... We can tell them this too, so that they have some hope. "

Such a work and rest arrangement was naturally very harsh. He had to work ten hours a day, and it was all heavy physical work.

However, Bao Guijun and the rest were Xia ruofei's captives. To put it bluntly, they were no different from slaves. There was no eight – hour work system, two – day rest days, and so on.

Chapter 2327 A new train of thought (2)

"Yes, master!" Xia Qing took note of Xia ruofei's instructions.

Xia ruofei had nothing to do, so he watched Bao Guijun and the rest assemble the iron frame bed in the medium.

Although this group of people had never done this kind of work before, the iron frame bed was a standard component produced, and there were also drawings. Ordinary people could install it according to the drawings. Not to mention that Bao Guijun and the others had been receiving high – intensity military training over the years. It could be said that they were all strong and powerful. Such a simple task was naturally not difficult for them.

After the iron frame bed was put together, it was placed in the open space next to the herb garden. With the current condition of the space, it was already good enough to have a bed for them to sleep on.

Xia ruofei beckoned for Bao Guijun and the others to come over. Then, he moved the mattress, blanket, pillow, and sleeping mat that he had bought over.

Xia ruofei pointed at the supplies and said, ""One set per person, come and get it yourself!"

Although they were all cheap goods, they were a pleasant surprise for Bao Guijun and the others.

Bao Guijun even learned how Xia Qing addressed him and said gratefully, ""Thank you, master!"

Qian guiyou and the others also came back to their senses and quickly said, "Thank you, master! Thank you, master!"

Xia ruofei didn't bother to correct him. He just smiled and said, ""Today's the first day, so I won't count the workload. Each of you can get a bowl of instant noodles and a bottle of mineral water from Xia Qing. Rest early after eating, and starting tomorrow, the points will be officially calculated according to the workload!"

"Yes! Master!" Bao Guijun and the others responded.

It was already Teno' clock in the evening according to the outside world's time. They hadn't even eaten dinner and had worked for so long, so they were already famished. After receiving instant noodles and mineral water, they even gave up the gas stove and kettle that Xia Qing had provided to boil water. They directly chewed on the mineral water.

Xia ruofei didn't think that it was too harsh. He knew that these people were all scoundrels. If you gave them some face, they would start a business. On the contrary, the harsher he was to them, the less they dared to resist.

Of course, the most important thing was that there would be no order without rules. If the realm continued to increase manpower in the future, these initial rules should be set up first and strictly implemented.

Xia ruofei waved his hand and set up a space cage where Bao Guijun and the others had placed the iron frame bed. He trapped them inside.

Xia Qing still had to go to the Archean realm to take care of the heart condensing grass. Xia ruofei naturally had to limit the area of activity of Bao Guijun and the others. He couldn't let them wander around the mountain and sea realm without any restrictions.

Of course, Xia ruofei had also given Xia Qing the authority to open the space cage.

This time, the spatial cage was no longer transparent. Instead, it had a faint Halo, showing the clear boundaries.

Bao Guijun and the others were already immune to Xia ruofei's magical methods. At the same time, they did not resist the restrictions on their freedom. Instead, they thought it was natural.

They tidied up their beds in the space cage and prepared to rest. Xia ruofei gave Xia Qing a few more instructions before leaving the space, returning to the outside world to shower and sleep.

The next day, Xia ruofei flew to a factory in San Shan that specialized in manufacturing mobile houses used at construction sites and bought two mobile houses.

Xia ruofei did not have any requirements for comfort, so he picked a cheap model that was available in stock and asked the manufacturer to send it to his warehouse in the city.

Similarly, Xia ruofei did not ask for the installation service. After the goods were delivered to the warehouse, he settled the payment quickly.

Then, he went to the farm equipment store and bought a few sets of commonly used farm equipment. At the same time, he also bought some coarse cloth clothes, gauze gloves, and so on. He also asked the merchant to send them to the warehouse in the city.

Xia ruofei then bought a few other trinkets. This matter alone took him the whole day. When he drove back to the Jiangbin villa, the sky was already dark.

After he returned home, he first cooked a few good dishes to reward himself. He even poured himself two cups of the highest grade Drunken Eight Immortals.

After clearing the dishes, Xia ruofei returned to his bedroom, locked the door and windows, took out the spirit painting scroll, and entered the medium.

In the mountain sea realm, the iron – Framed bed that had been set up the day before had already been moved to the side. Bao Guijun, Qian Guiyou, and the others were enthusiastically installing the components of the mobile temporary house.

Before Xia ruofei returned home, she had stored all the things she had purchased in the warehouse into the space. Then, she sent a telepathic message to Xia Qing, asking him to organize Bao Guijun and the others to start building the mobile houses.

The construction of the mobile temporary house was naturally not as simple as the installation of an iron frame bed.

Not to mention the complexity, just the heavy components alone could not be installed in place without the help of engineering equipment.

Moreover, Xia ruofei had bought a two – story mobile house.

However, in the spirit map space, with Xia ruofei's help, this was not a problem.

After Bao Guijun and the others assembled the scattered parts, Xia ruofei used the invisible force of space to grab the heavy parts and place them in the corresponding positions. Bao Guijun and the others immediately climbed up to fasten them. They did not even tie the safety rope so they were not afraid of falling down.

Of course, even if they really slipped and fell, Xia ruofei could ensure their safety. After all, they had only used their free labor for two days. Xia ruofei would not just watch them get into trouble.

With Xia ruofei's cooperation, the installation progress was greatly accelerated.

At around 10 O' clock in the evening, two mobile houses had been erected beside the herb garden. One of them was for Bao Guijun and the other five people, as well as those who might be caught later, to rest. Xia ruofei prepared the other one as a material warehouse.

He had hoarded some living supplies here. In the future, Bao GUI Jun and the others would earn points through labor, and then use the points to exchange for supplies from Xia Qing.

Some of these resources were the necessities of life, such as rice, flour, oil, and so on. At the same time, there were some low – grade white wine, cigarettes, and other consumables.

Xia ruofei's principle was that the daily necessities were relatively cheap, but the points required for cigarettes, alcohol, and drinks were relatively higher. After all, that was a higher level of "enjoyment".

The mobile house that Bao Guijun and the others lived in was also two stories. Currently, it was very spacious. The five of them lived in one of the rooms on the second floor, while the other rooms were temporarily empty.

The first floor had some living facilities, including a simple kitchen, shower room, and so on.

These facilities had a common feature, and that was that there was absolutely no electricity equipment. Whether it was a range hood, air conditioning, or even an electric fan, they were not equipped at all. Because electricity was a scarce resource in the space, they could not always use a small portable generator to generate electricity!

In addition, there would be a toilet.

Xia ruofei was still struggling with the problem of the toilet.

In the past, no one lived in the spirit map space, so there was naturally no such problem. Now that there were five more free laborers, and there might be more in the future, the matter of using the toilet had become a realistic problem.

Fortunately, he had communicated with Xia Qing, and this problem was easily solved.

The solution was very simple, which was to use the toilet directly.

It was the room on the first floor that was used as a toilet. After digging a two – meter – deep hole and placing two pieces of steel plates that had been cut in advance, a simple toilet was done.

The reason why he used this method was because Xia Qing had told Xia ruofei with certainty that the spirit map space's self – cleaning function was very powerful. The excrement could be degraded in a very short time. Part of it would be transformed into normal soil composition, and the other part would be directly discharged into the boundless chaotic space.

Since that was the case, things were simple.

When Bao Guijun and the others dismantled the bed frame into a few large pieces, carried it into the mobile board room and installed it, the living problem was basically solved.

Xia ruofei set up a permanent space cage and covered the entire mobile house. Then, he left the space and returned to the outside world.

The next day, Xia ruofei made a trip to the General Hospital to check on song Qiming's condition. She then chatted with Fang Liyun and Song Wei for a while to comfort them. After that, she left the General Hospital and returned home.

This was because Xia Qing had told him through telepathic thoughts that the heart concentrating grass had already matured.

Xia ruofei immediately instructed Xia Qing to remove the time formation flag and the spirit gathering formation. Then, he cut up the medicinal components of the heart concentrating grass and immediately began to brew the medicinal soup.

All this work was done at the Archean realm. Hence, when Xia ruofei returned home, the heart condensing grass that he had paid a huge price to cultivate had already turned into a bowl of brown medicinal soup that emitted a strong medicinal fragrance ...

Chapter 2328 It's working_Xia ruofei carefully poured the precious medicinal soup into the thermal flask. He even used the power of space to transfer all the remaining medicinal soup into the thermal flask. It could be said that not a single drop was left.

He was looking forward to it, but at the same time, he couldn't help but feel nervous.

This was because if the heart concentrating grass did not achieve the expected effect, then he would really have to be prepared for a long battle. He would have to take the spirit nurturing soup once every seven days, and the whole treatment process would be very long.

Then, Xia ruofei would not be able to fulfill his promise to elder song.

Xia ruofei placed the thermal flask into his shoulder bag before instructing Xia Qing to move the heart condensing grass to the realm Heart Island as soon as possible. He then left the spatial zone and returned to the outside world.

Xia ruofei drove back to the military hospital.

He went to the intensive care unit area with a shoulder bag and greeted Fang Liyun and Song Wei before he went into song Qiming's ward alone.

Xia ruofei did not tell Fang Liyun and her daughter that he was going to give song Qiming a new drug. This was to prevent them from feeling uneasy outside.

If the decoction worked, song Qiming might wake up today. It would be a surprise for Fang Liyun and Song Wei. And if the expected effect was not achieved, it would be useless to tell them in advance.

The intensive care unit was very quiet, with only the rhythmic beeping of the medical equipment from time to time.

The monitor showed that song Qiming's vital signs were very stable.

Of course, all of this was under the premise of the assistance of the equipment. If there was no breathing machine and other medical equipment, song Qiming might not even live for five minutes before he really died.

Xia ruofei walked to the bed, took out the thermos from his shoulder bag, and placed it on the bedside table. Then, he looked at song Qiming.

Song Qiming's eyes were tightly shut, but the swelling on his face and head had mostly subsided. The wound on his head was still clearly visible. His body was connected with wires of various colors, and the ventilator's tube was inserted through his nose, directly connected to his trachea.

It was obvious that song Qiming was in a critical condition. However, Xia ruofei knew that song Qiming's body was fine. The main problem was that his consciousness was damaged.

The modern medical treatment methods could not cure the damage to the soul.

Xia ruofei sat down first and put his hand on song Qiming's wrist. He sent his spiritual power into his body and went straight to his sea of consciousness.

Since the medicinal properties of the spirit nourishment soup had been completely absorbed, his sea of consciousness had not improved further, but the situation had not worsened either. From the outside, it was still in a state of ruins, which was a shocking sight.

Xia ruofei retracted his spiritual force, took out the Jade stones used to set up the array, and scattered them.

With the support of his spiritual power, each piece of Jade quickly and accurately fell in its corresponding position. As the last piece of Jade was in place, the array was instantly activated.

At this time, whether it was the doctor's on – call room or the monitoring Hall of the operating area, the image of this Ward would become very blurry.

However, this wasn't the first time this had happened, and the higher – ups had specifically instructed them to do so. Therefore, even if the doctor on duty found out, he wouldn't come over to interfere, nor would he get someone to check for a fault in the surveillance cameras.

After setting up the array, Xia ruofei stood up and opened the thermal flask. Then, he gently pinched song Qiming's jaw. At the same time, he used his spiritual power to extract the medicinal liquid from the thermal flask. He drew an arc in the air and dropped it into song Qiming's slightly opened mouth.

Xia ruofei used his spiritual power to wrap around the liquid and sent it directly into song Qiming's stomach.

It was no exaggeration to say that this medicinal soup was almost priceless, because the resources consumed were enough to cultivate several high – Level Qi refining cultivators.

Hence, Xia ruofei treasured it very much. He did not even let go of the few drops of medicinal liquid that remained. He used his spiritual power to wrap them up and sent them into song Qiming's stomach.

Then, Xia ruofei used the nine needles of cloud contact technique on song Qiming to promote the effect and absorption of the medicine.

After the acupuncture, Xia ruofei waited for a while before he reached out and gently placed his hand on song Qiming's wrist. With a trace of nervousness, he sent his mental strength into song Qiming's meridians and explored the direction of his consciousness.

When his spiritual power reached the outer area of song Qiming's conscious, he could not help but show a hint of joy on his face.

The medicinal soup made from heart concentrating grass was effective!

He could clearly sense that song Qiming's broken sea of consciousness was slowly recovering under the effects of the spiritual medicine.

Although this speed wasn't fast, it was much faster than when he consumed the gestation soup.

Furthermore, Xia ruofei could feel that the medicinal effect of the heart – concentrating grass was much stronger. At this rate of recovery, it would take a long time for him to fully absorb it.

Xia ruofei retracted his spiritual power. He was very happy that there was a higher chance that song Qiming would regain his consciousness this time.

He first retrieved the Jade stones that were placed around the bed.

After removing the formation, Xia ruofei did not rush out. Instead, he sat down in front of the bed.

Every now and then, he would check song Qiming's pulse. In fact, he was using his spiritual power to check on the recovery of song Qiming's spiritual sea.

Xia ruofei stayed in the intensive care unit for more than an hour. When it was almost noon, he got up again and used his spiritual power to check on song Qiming's consciousness.

Chapter 2329 It's working (2)

In the past hour, Xia ruofei had used his spiritual power to check many times. His sea of consciousness was slowly recovering. This time, when his spiritual power came to the periphery of his consciousness, he clearly felt a trace of difference.

Song Qiming's sea of consciousness was originally lifeless, like a silent dead land. This time, Xia ruofei felt a trace of life. Although it was weak, it was as if spring had returned to the earth or a withered tree had come back to spring.

Xia ruofei couldn't help but feel excited. He knew very well that this was a sign that he was about to regain consciousness!

The withered sea of consciousness had regained its vitality. Correspondingly, song Qiming's brain activity should also gradually start to activate. At least, some of his primitive reflexes should recover.

Xia ruofei withdrew his mental strength without hesitation. Then, he stood up and carefully opened song Qiming's eyelids. He put his hand into his pocket and took out a small flashlight from the medium.

After turning on the flashlight, Xia ruofei aimed it at song Qiming's eyes.

As expected, song Qiming's pupils avoided the bright light instinctively.

This was the simplest way to check. The light immunity reflex had recovered, which meant that song Qiming's brain was no longer in a completely silent state.

Xia ruofei let out a long sigh of relief and pressed the call bell on the bedside.

Soon, the doctor on duty's slightly nervous voice came from the communication device. "What happened?"

This was also because the on – call room could see the situation in the ward. In addition, the patient's vital signs data would also be summarized and displayed on the monitoring screen in the on – call room. If song Qiming had given a warning because of some indicator, the doctor on – call would not have time to ask about the situation and would have rushed over directly.

Xia ruofei said, "please ask professor Chen to come here!" The patient might be regaining consciousness soon ..."

"Argh! This is impossible ..." The doctor on duty subconsciously blurted out, and then immediately said in a hurry, "it's impossible. "I'm sorry! I ... I'll inform professor Chen immediately!"

After a while, professor Chen came back with two neurosurgeons.

To Xia ruofei's surprise, Ge Jun had also followed professor Chen to the intensive care unit.

Ge Jun nodded at Xia ruofei but did not say anything.

Professor Chen couldn't wait to ask, "Mr. Xia, I heard from the doctor on duty that you told him that Secretary song might be regaining consciousness soon?"

Xia ruofei nodded and said, "professor Chen, uncle song has recovered some basic reflexes. It seems that my treatment was right. I believe that he will regain consciousness soon!"

"How is this possible?" Professor Chen was dumbfounded.

However, he reacted quickly. He strode to the bed and began to perform a preliminary examination on song Qiming.

Professor Chen gasped as he examined the wound.

Pain reflex, light – repelling reflex ...

If song Qiming's condition was considered brain – dead to professor Chen, he had a completely different conclusion now.

Even though song Qiming was still unconscious, it was obvious that his brain had not died. In fact, it seemed to be gradually working again.

Professor Chen was completely shocked when the electrocardiogram was done.

He stammered, "this ... This is too ... Too magical!" The patient's brain is already very active ..."

After the operation on the day of the accident, song Qiming's electrocardiogram was almost a straight line. Although it still showed some abnormalities, it was very close to a normal electrocardiogram.

Xia ruofei stood at the side calmly, knowing that he had already passed the stage of excitement.

He knew very well that as his sea of consciousness recovered, song Qiming's brain would naturally start working again. There was no doubt about that. The only question was how long it would take for song Qiming to wake up.

After all, the soul was in the sea of consciousness. Not only was song Qiming's sea of consciousness dried up, but his soul had also fallen into a deep sleep to protect himself.

The equipment in the intensive care unit was very complete, and most of the examinations could be done by the bedside. Professor Chen was busy at song Qiming's bedside, performing various examinations repeatedly.

To professor Chen's surprise, song Qiming's condition was still improving during the examination.

This could no longer be described as a miracle, it was simply a miracle!

Ge Jun stood beside Xia ruofei and smiled, "Junior Brother Xia, I'm impressed! It seems that Secretary song will be fine ..."

Xia ruofei replied humbly, "I was just lucky!" It just so happens that I have some experience in treating brain damage. In terms of comprehensive medical skills, I can't compare with you, senior brother GE!"

Ge Jun laughed and said, "I don't think so!" Junior Xia, seeing how outstanding you are, I feel that I've really lived for ..."

He originally wanted to say "live like a dog", but then he thought that it didn't seem appropriate to describe himself like that, so he suddenly stopped.

Xia ruofei was amused. He looked at Ge Jun and said, "Senior GE, don't belittle yourself. If you're so humble, then 99% of Chinese medicine practitioners in China would probably find a piece of tofu and kill themselves ..."

Just as the two senior and junior brothers were "complimenting each other," a wave of suppressed cheers came from the bedside.

Xia ruofei and Ge Jun looked over and saw professor Chen's face flushed with excitement. He mumbled, "Unbelievable ... It's simply unbelievable ... His spontaneous breathing and heartbeat have all recovered ... Oh my God ..."

Xia ruofei and Ge Jun looked at each other and a smile appeared on their faces.

Just then, Xia ruofei's phone vibrated in his pocket.

Xia ruofei took it out and saw that it was Song Wei. He walked to the door and answered the call.

It turned out that Fang Liyun and Song Wei had been waiting in the lobby outside the intensive care unit. They were worried when they saw Xia ruofei had gone in for so long and had not come out even when it was almost time for lunch.

Then, they saw professor Chen walking in with a few doctors, and they became even more worried.

Fang Liyun and Song Wei had been waiting anxiously outside the door. They wanted to call Xia ruofei to ask about the situation, but they were worried that something had happened to song Qiming and he was in emergency treatment. If they called now, they would disturb Xia ruofei.

After hesitating for a while, Song Wei decided to call Xia ruofei because she couldn't take it anymore.

Besides, she was very familiar with Xia ruofei's abilities. She knew that even if Xia ruofei was trying to save song Qiming, he would not be affected by a phone call.

Xia ruofei couldn't help but laugh when he heard the reason. He said,""Wei Wei, wait a moment!"

Then, he covered the phone and walked back to professor Chen.""Professor Chen, uncle song's family is a little worried outside. Can you ... Let them in? I promise they won't interfere with the treatment!"

Song Qiming's identity was special, and Xia ruofei was technically his "senior". Professor Chen could not reject such a small request. He nodded without hesitation and said,""No problem!"

Then, he turned to a graduate student who was also participating in the examination and said,""Xiao Li, go and bring Secretary song's wife and daughter in!"

"Alright, teacher!" Graduate student Xiao Li immediately said and then walked to the door of the ward.

Xia ruofei finally let go of the phone and smiled.""Weiwei, professor Chen has sent someone to pick you up. Come in and talk! Don't worry! Uncle song is fine!"

"Oh! Alright!" Song Wei's voice was trembling. Xia ruofei could tell that she was nervous.

After hanging up the phone, professor Chen's student, Xiao Li, came in with Fang Liyun and Song Wei who had changed into hazmat suits.

As soon as Fang Liyun entered the room, she asked nervously,""Ruofei, what happened? Why are there so many people here?"

Chapter 2330 The situation is optimistic (1)

Fang Liyun's mind was in a mess because of her concern.

In fact, Xia ruofei had already told Song Wei that song Qiming was fine. However, when Fang Liyun came in and saw so many doctors in front of the bed, and all of them were working excitedly, she could not help but feel nervous.

However, Song Wei believed Xia ruofei's words. If he said that she was fine, she was definitely fine.

Her gaze fell on the bed. Before Xia ruofei could explain, she cried out in surprise,""Eh? The ventilator had been removed? RUO Fei, has my father regained his ability to breathe?"

For the past few days, song Qiming had been lying in the ICU. As his family, Fang Liyun and Song Wei had been worried sick. They had also done a lot of research on brain trauma and brain death. Although they were not experienced doctors, Song Wei had at least learned some common knowledge.

She immediately saw that song Qiming's nasal tube had been removed.

"Ah?" Fang Liyun was stunned.

Xia ruofei smiled and said,"aunty Fang, Song Wei, I have good news for you. Uncle song's condition has improved greatly. His spontaneous breathing and heartbeat have recovered. His nerve reflexes have also appeared. From the results of the electroencephalogram, he has returned to normal. I think he should be able to wake up soon if nothing unexpected happens!"

“Really?” Fang Liyun could not believe her ears.

Professor Chen, who was busy in front of the bed, also stood up and said, “Mrs. Song, Mr. Xia is right. Secretary song’s condition has improved a lot. We’re also optimistic about his recovery.”

Professor Chen did not dare to be too sure. After all, song Qiming was in a vegetative state. Although he could breathe on his own and his nerve reflex function was normal, the human brain was too complicated. In this era of medical prosperity, the research on the brain was very limited. According to the usual cases, some might wake up on the same day, while others would lie in bed for more than ten years.

However, even though it was a cautious optimism, it sounded like a heavenly sound to Fang Liyun.

She couldn’t help but cover her mouth, and tears flowed out of her eyes.

Song Wei held her mother’s arm tightly and consoled her, “Mom! It’s a good thing that dad’s health is getting better. He should be happy! Why are you still crying ...”

Fang Liyun wiped away her tears and said in embarrassment, “I’m just excited ...”

Then, she quickly thanked professor Chen.

“Madam song, to be honest, I didn’t do anything about Secretary song’s treatment ...” Professor Chen said with a guilty look. “With our current medical standards, Secretary song’s condition was indeed quite dangerous. We were basically helpless. This is all thanks to Mr. Xia, so ... If you want to thank someone, thank my little martial uncle!”

This was the first time professor Chen had called Xia ruofei “senior uncle”. Although he was half – joking, he was indeed impressed by Xia ruofei’s amazing medical skills.

Fang Liyun looked at Xia ruofei and said emotionally, “Ruofei, any words of thanks are too weak. Our family owes you too much. Last time, it was Weiwei, and this time, it’s Qiming. If it wasn’t for you, our family might have already fallen apart. I ...”

Xia ruofei quickly said, “aunty, you and uncle song are both respectable elders in my eyes. My parents passed away when I was young. I treat you like my own parents. Please don’t treat me as an outsider!”

Xia ruofei’s words made Song Wei’s face heat up, but Fang Liyun did not find anything wrong with it.

Because of their relationship with elder song, song Qiming took great care of Xia ruofei. Xia ruofei had always been close to his family. Besides, Xia ruofei said that his parents had passed away early, which triggered Fang Liyun’s maternal instinct. A child without parents was always particularly lovable. Moreover, Xia ruofei had pulled song Qiming back from the gates of hell by himself, so there was no need to mention the closeness between them.

Therefore, Fang Liyun immediately replied, “Ruofei, Qiming and I have always wanted another son when we were young! It was just that the National policy at that time did not allow it. If you don’t mind us, why don’t we become God – relatives?”

Xia ruofei was dumbfounded. He had wanted to get closer to them, but he had never thought of acknowledging them as godparents! How could he turn his godparents into his in – laws after he acknowledged them as his godparents?

Song Wei, who was standing at the side, was a little shy at first, but she could not help but burst out laughing. She was mainly amused by Xia ruofei's dumbfounded expression.

Song Wei glanced at Xia ruofei and said to Fang Liyun, "Mom! Who would acknowledge godly relatives in the ICU? We'll talk about this later! Dad hasn't woken up yet ... You should at least discuss it with dad, right?"

Fang Liyun smiled in embarrassment and said, "Oh yeah! I'm a little impatient ..."

"Aunty, Song Wei is right. We should focus on uncle song's matter." Xia ruofei said as if he had been granted Amnesty.

In order to change the topic, he immediately asked, "Professor Chen, how's uncle song's condition?"
