

God tier Farm 2331

Chapter 2331 The situation is optimistic (2)

"It's going well!" Professor Chen said excitedly. The dynamic encephalon monitor shows that Secretary song's brain waves have basically returned to normal. Judging from various indicators, everything is developing in a good direction, and it is still getting better!"

"That's great ..." Fang Liyun could not help but Mutter.

She had been under too much pressure these few days. Ever since she rushed to the hospital after finding out that song Qiming was in trouble, she had not left the building. She was in constant fear every day and did not even have the appetite to change her clothes. If this had happened in the past, it would have been unimaginable for her, who was graceful and elegant.

"Professor Chen, if that's the case ... Can you transfer uncle song to a normal Ward?" Xia ruofei asked. It's more convenient for family members to visit and take care of her!"

There were rules in the intensive care unit. Normally, visiting hours were only half an hour a day. Although Fang Liyun and Song Wei could get some extra care, they could not stay in there for long. After all, there were other critical patients in there.

Professor Chen hesitated and said, "Mr. Xia, how about ... We observe him for a few more days? The equipment in the intensive care unit was more complete, and the response in case of an emergency was faster. If we go to the general ward ..."

Every bed in the intensive care unit was equipped with advanced life – Support equipment and monitoring equipment. In addition, emergency equipment such as a defibrillator was also always available. There was even a bedside X – ray machine and other examination equipment. The cost of each bed plus the standard equipment would reach hundreds of thousands, which was incomparable to the cost of ordinary wards.

Even if it was a Ward for senior cadres, at most, the living conditions would be better, but the medical equipment in it would not be much better than that in a normal Ward.

Xia ruofei smiled and said, "it's okay, I'll always be by uncle song's side." And ... I believe that uncle song will wake up soon. There's no need to keep using up the medical resources."

If someone else had said that, professor Chen would have refuted it. However, Xia ruofei had been personally greeted by the head of the headquarters. More importantly, he was his "little uncle". Professor Chen would not dare to show his face in front of Xia ruofei.

In addition, Xia ruofei's treatment of song Qiming had shocked professor Chen greatly. It was an eye – opener.

With this layer of Halo, Xia ruofei's words more or less carried the authority of an "expert".

Professor Chen hesitated for a moment before he nodded and said, "If that's the case ... Fine! However, we still need to do a comprehensive assessment of Secretary song before he is transferred to the general ward."

Xia ruofei nodded with a smile and said, "No problem! Then I'll leave it to you, professor Chen!"

The estimated time for the examination was a little long. After all, it concerned song Qiming's safety, and the General Hospital did not dare to delay.

It was time for lunch. It was normal for doctors to work overtime and miss lunch. However, considering Ge Jun's age, professor Chen arranged for a student to take Ge Jun, Xia ruofei, Fang Liyun, and Song Wei to the hospital cafeteria for lunch.

When they came back from the meal, the check – up had been completed. It was done by professor Chen himself.

Naturally, the results of the examination showed that song Qiming was qualified to be transferred to a normal Ward.

Not only that, but professor Chen was also surprised to find that song Qiming's external injuries, especially his brain injuries, were recovering much faster than expected.

In fact, in the past few days, the General Hospital had not taken any substantial measures in terms of treatment. It was nothing more than the use of instruments to maintain breathing and heartbeat. The drip was also glucose, nutrient solution, and so on, which were needed to maintain life energy.

Now, not only was song Qiming's brain injury recovering at an incredible speed, but even the fractures and contusions on his body were recovering much faster than normal.

Naturally, professor Chen also attributed this to Xia ruofei. He was even more amazed.

Under professor Chen's arrangement, song Qiming was quickly transferred to a Ward for senior officials on the 15th floor.

It was a small suite. Other than the patient's room, there was also a room for the caretaker so that Fang Liyun and Song Wei could take care of song Qiming.

Although they couldn't be of any help in the treatment, they were completely different psychologically.

If their relatives had experience in the ICU, they should be able to understand that feeling. On the one hand, those who were in the ICU were generally in a more critical condition, and their family members' hearts were hanging. On the other hand, the doors of the intensive care unit were closed most of the time, and the people outside had no idea what was going on inside. Moreover, the visiting hours were extremely short every day, which intensified the anxiety.

Now, Fang Liyun and Song Wei were able to stay by song Qiming's side and they knew that his condition had improved greatly. He was much better than before.

Professor Chen had also brought over some emergency equipment that was not usually equipped in the general ward in case of emergency.

After song Qiming had settled down on the bed, Xia ruofei went over to check his pulse.

"Professor Chen," he said. "There should be a Chinese medicine room in the General Hospital, right?"

"Of course!" Professor Chen said.

Chapter 2332 The situation is optimistic (3)

"I'll write a prescription. Can you please arrange for the Chinese medicine pharmacy to help me brew it?" Xia ruofei asked.

Professor Chen nodded and said, ""No problem!"

Naturally, Xia ruofei could not give her a prescription for the procedure. However, since it was a procedure, there must be a way to adapt.

With professor Chen's reputation, it was easy for him to deal with this kind of thing. He just had to take Xia ruofei's prescription to the Chinese Medicine Department, find a familiar doctor, and get the bill in the name of this doctor.

By then, the prescription would be directly sent to the Chinese medicine room, and the Chinese medicine room would also have a medicine – brewing service.

"Thank you!" Xia ruofei said.

A smart graduate student handed Xia ruofei a pen and paper.

Xia ruofei nodded at him in thanks and started to write the prescription.

As a master of Chinese medicine, Ge Jun was naturally very interested. Since Xia ruofei's prescription was going to be given to the Chinese medicine Hall, there was no need to keep it a secret. Hence, he stood behind Xia ruofei and watched with interest.

The expression on Ge Jun's face kept changing. Finally, he couldn't help but say, "Wonderful! Junior Brother Xia, your prescription will be very effective in nourishing the mind! Shidi is indeed a genius!"

Xia ruofei finished writing the prescription and passed it to professor Chen. Then, he smiled and said, ""Senior brother GE, you're too kind. In fact, this is a prescription. I just made a slight adjustment to the proportion of the herbs."

"Cheng Fang?" Ge Jun revealed a look of surprise, "I've never heard of this before! Could it be ..."

A prescription referred to a more mature prescription that had been verified in clinical practice. However, Ge Jun had never seen this formula before, so he subconsciously thought that it was a formula recorded in the [three cloud rubbing scrolls] that was lost in the family.

Xia ruofei said, "I saw this in another medical book. I can't remember the name. But I'm sure it's a cure."

"I see!" Ge Jun said in realization, "it seems that Junior Brother Xia's knowledge is far more profound than I thought!"

Then, Ge Jun said to professor Chen, ""Xiao Chen, I'll go with you. I have to be watching from the side when the medicine is being brewed, so as not to ruin such a good prescription!"

Professor Chen didn't know whether to laugh or cry. How little confidence did he have in the General Hospital? After all, this was a tertiary Grade A hospital! Although the Department of Chinese medicine was not as good as a specialized Chinese medicine hospital, it was not to the extent that they would make mistakes in decocting the medicine.

However, Ge Jun was his senior and he placed great importance on this formula. He did not dare to say anything and could only smile bitterly to himself before nodding in agreement.

Professor Chen left the room with Ge Jun and the other doctors. The room became quiet.

Xia ruofei smiled and explained to Fang Liyun, ""Aunty Fang, the prescription just now is for nourishing the mind and brain. It's good for uncle song's body. Even if uncle song wakes up, he can still take the medicine for a while. "

Even professor Chen and Ge Jun respected Xia ruofei so much. Naturally, Fang Liyun believed Xia ruofei's words. She smiled and said, ""Ruofei, you're Qiming's attending doctor. I'll follow your arrangements for the treatment!"

Xia ruofei's prescription was not a secret. It was just one of the many lost prescriptions he had. It just happened to be helpful for song Qiming's recovery.

He had just checked song Qiming's condition. He had not fully absorbed the heart – concentrating herb. Song Qiming's sea of consciousness had recovered by more than half. Therefore, he was very optimistic and had already started to make arrangements for his follow – up recovery and recuperation.

At that moment, Song Wei, who was facing the hospital bed, widened her eyes. She rubbed her eyes and said in a trembling voice, ""Mom! I ... I think I saw dad's eyelids move!"

Chapter 2333 Sobriety (1)

Xia ruofei and Fang Liyun turned around immediately. Song Wei could not help but pounce on the bed and called out, ""Dad! Dad!"

Fang Liyun asked, ""Weiwei, are you sure you didn't see wrongly?"

"I'm sure I'm not mistaken!" Song Wei said with certainty.

Xia ruofei did not doubt it. Song Wei was also a cultivator. Even if she was in a state of agitation, she would not be mistaken. Besides, song Qiming's sea of consciousness was recovering well. It would not be a surprise even if he woke up.

Fang Liyun could not help but turn to look at Xia ruofei and asked, ""RUO Fei, what do you think?"

Xia ruofei looked at song Qiming, who was lying on the bed, and said, ""Aunty, uncle song's current condition ... I feel like he might wake up at any moment, so let's just observe first ..."

Xia ruofei's words stopped abruptly.

This was because he saw song Qiming move. This time, it was not his eyelids but his fingers.

Even though it was just a slight movement of his little finger, Xia ruofei was sharp enough to notice it.

"I don't think there's a need to observe! Uncle song will wake up soon!" Xia ruofei said excitedly, ""if I'm not wrong, he should be able to hear our voices now!"

Fang Liyun's body trembled slightly, and she revealed a surprised and happy expression.

Her reaction was the same as Song Wei 's. She rushed to the bed and called out song Qiming's name with tears in her eyes.

.....

Song Qiming opened his eyes, but he still looked a little weak.

He felt as if he had had a very long dream. In the dream, he was constantly moving through a seemingly endless maze, but he couldn't find the exit.

After an unknown period of time, song Qiming seemed to have seen a light. In his dream, he rushed toward the light without hesitation.

Then, he felt as if his consciousness had returned to his body.

The pain all over her body, the smell of disinfectant in the ward, and the calls of her family ...

This feeling made song Qiming feel that he was still alive.

He heard his wife and daughter's calls and tried to open his eyes, but his eyelids were as heavy as mountains.

After much effort, his eyelids finally opened with trembling hands.

When the light shone in, he could not help but squint his eyes again. It took him a while to get used to it.

When he opened his eyes again, he was greeted by the sight of Fang Liyun and Song Wei's happy faces, and Xia ruofei standing behind them.

What happened on the highway a few days ago came back to him like a tide.

Song Qiming only remembered that he was sitting behind the driver with his eyes closed. Suddenly, the car came to an emergency stop, and the world spun around.

The last thing he could think of was the driver's cry of fear and despair.

Then, he began that long and boring dream.

Song Qiming felt as if he had gone through many reincarnations in his dream, but it felt like it had only been a blink of an eye.

When he opened his eyes and saw the familiar world and the familiar people, song Qiming could not help but feel as if he was in a different world.

He opened his mouth, but no sound came out.

Xia ruofei smiled and said,""Uncle song, you're still very weak. It's best if you don't speak."

"Yes, yes, yes!" Fang Liyun quickly replied. Qiming, listen to RUO Fei! This time, it was all thanks to RUO Fei. You were so badly injured that even the medical experts in the province could do nothing about it. It was ruofei who pulled you back from the brink of death!"

Song Qiming looked at Xia ruofei with his weak eyes. He was grateful.

A few minutes later, song Qiming's ward was packed to the brim.

Of course, the people who came were all medical staff.

Professor Chen, who had just gone out, rushed back with a few of his students after hearing that song Qiming was awake.

Ge Jun could not be bothered with the Chinese medicine anymore. He also returned to the ward with great strides. His legs were even more agile than professor Chen and the others.

While professor Chen and the others were examining song Qiming, Ge Jun and Xia ruofei were whispering to each other.

This was also because the news of song Qiming's accident had always been kept a secret and the scope of information was controlled. Otherwise, the door of the ward would have been stomped flat. Of course, the ward did not have a door.

Song Qiming's Secretary, Guangzhi Cao, had been staying in the hospital for the past few days. As soon as song Qiming woke up, he immediately reported the news to the provincial Party leader.

Soon, elder song, who was in the capital, also received the news.

Xia ruofei was still talking to Ge Jun about Chinese medicine when elder song called.

Xia ruofei excused himself from Ge Jun and walked out of the ward with his phone before picking up the call.

"Grandpa song!" Xia ruofei smiled.

"RUO Fei! Good job!" Elder song's voice was a little excited. "You've done a great job!"

"Please don't say that," Xia ruofei said, "uncle song is my elder too. It's my duty to help him!"

Elder song laughed and said, "ruofei, no matter what, the song family owes you another big favor!" Qiming owes you two lives! I probably won't be able to pay you back in this lifetime ..."

Xia ruofei quickly replied, "not really!" Not really! You're treating me as an outsider by saying this ..."

"Ruofei, I would like to ask ... How long will it take for Qiming to return to work in his current condition?" elder song continued.

Chapter 2334 Sober (2)

Xia ruofei thought for a while and said, "uncle song's most serious injury is a brain injury. It shouldn't be a big problem for now." However, he has multiple fractures in his body. According to common sense, he should be able to recover in about three months after a hundred days. "

"Don't keep me in suspense, kid," elder song chuckled. "I'm sure you have a way to help him recover faster, right?"

Song Qiming's position was very important, and it was unlikely that he would be left vacant for three months. If the recovery period was really that long, a new leader would have to be appointed to replace him.

By the time his body recovered, it would be too late.

Although he wouldn't stay at home because of this, he would definitely be transferred to another position.

At his level, song Qiming's current position was already the best. Furthermore, there were not many positions at the top of the pyramid to begin with. It was impossible to arrange a position of similar importance for him. There was a high chance that he would be assigned to a relatively idle Department and only enjoy the corresponding treatment.

Xia ruofei chuckled and asked, "Grandpa song, how long do you want him to recover?"

"Woof! So if I want him to go to work tomorrow, you can do it too?" Elder song asked jokingly.

However, he was only joking. After he finished speaking, he pondered for a while and said seriously, "If you can control the recovery cycle to be about one month, I should have room to coordinate all aspects!"

Elder song did not know that as long as Xia ruofei wanted to, song Qiming could even be alive and kicking immediately.

This was because the problem that troubled Xia ruofei was not these external injuries, but the damage to his soul and sea of consciousness.

Now that this problem had been solved, so what if the external injury was serious? It was just a waste of a few more spirit Heart Flower petals.

Compared to the precious spiritual crystals, Xia ruofei did not feel any heartache for the regrown petals of the spiritual heart Flower. It did not matter if he used them.

Of course, Xia ruofei would not do that.

It was difficult to use Chinese medicine to explain how a serious fracture could be completely recovered in such a short time.

On the other hand, a more serious brain injury would not easily arouse suspicion. After all, the research on the human brain in modern medicine was extremely limited. There were too many unknown areas, and it would not be surprising if anything happened.

Hence, after hearing elder song's words, Xia ruofei replied without hesitation, "No problem! I can guarantee that in a month ... No! 25 days! I'll return you a healthy uncle song in 25 days!"

"That's great!" Eccentric song couldn't help but exclaim in excitement.

"Grandpa song, I have a request," Xia ruofei continued.

"You say it! As long as it's within my means and it goes against my principles, there's no problem!" Eccentric song said without hesitation.

Xia ruofei smiled. "It's not that serious. My request is for uncle song to be discharged in two days after his condition has stabilized. He can receive treatment at home."

Xia ruofei made such a request because he wanted to keep a low profile.

Elder song immediately understood Xia ruofei's intention. He said without thinking, ""No problem! I will personally coordinate this matter! Then ... I'll leave Qiming's follow – up treatment to you!"

An early discharge from the hospital did not seem like a big deal. However, song Qiming's status was different. Moreover, his external injuries were so serious that it was necessary for elder song to personally come forward to coordinate things. He also needed to inform the higher – ups in the southeast province and Beijing.

"Don't worry! I promise to complete the mission!" Xia ruofei said confidently.

"Then I'll be waiting for your good news!" Elder song chuckled and asked, "by the way, you're still ignoring old Liu! When are you going back to the capital? Can I take care of both?"

Xia ruofei said, "let them wait a few more days!" He won't die so soon anyway! I'll go back after I'm done here. It's not a problem to take care of both sides. It's just a few more trips! Don't worry!"

"Hahaha!" Elder song couldn't help but burst out laughing. That's good!"

After Xia ruofei hung up the phone, he turned around and saw Song Wei standing outside the ward and staring at him.

Xia ruofei stuffed his phone into his pocket and walked over with a smile. ""Wei Wei, what are you daydreaming about?"

Song Wei looked at Xia ruofei and said, ""Ruofei, thank you ..."

Xia ruofei looked around and realized that there was no one in the corridor. The people in the ward were all focused on song Qiming. He hugged Song Wei secretly and quickly separated.

"What nonsense are you saying!" Xia ruofei said affectionately, "do you have to be so polite with me?"

Song Wei blushed and said, "I ... Previously, Qingxue and I teamed up to give you the cold shoulder ... Don't be angry! Actually, when you contacted me, I was so happy! It's just that ... I'm not in a good position to do that ... After all ..."

Xia ruofei laughed, "silly girl!" Why would I blame you? Come to think of it ... The ones who are really wronged should be the two of you ... Forget it! Let's not talk about this! Let's go in! Uncle song just woke up, we should be happy!"

"En!" Song Wei nodded and followed Xia ruofei back to the ward.

Professor Chen personally performed many examinations on song Qiming. Then, according to song Qiming's condition, he developed a detailed rehabilitation plan.

Looking at the excited and busy professor Chen, Xia ruofei did not have the heart to tell him that all the rehabilitation plans would soon be canceled because song Qiming would not be receiving rehabilitation treatment at the General Hospital.

The medical staff was busy for a while, and the ward finally returned to peace.

In order to give song Qiming enough rest, professor Chen and the others left the room. Even Cao Guangzhi waited outside the ward. Only Fang Liyun, Xia ruofei, and Fang Liyun stayed.

Xia ruofei stood up and poured a glass of water. He walked to the bed and smiled. "Uncle song, have some water first! You've been relying on fluid transfusions for the past few days. I'm guessing your mouth must be dry by now!"

Xia ruofei then gestured for Song Wei to feed song Qiming some water.

In fact, Xia ruofei had already secretly put a few drops of concentrated spirit Heart Flower petal solution into the cup.

Even the pot of boiling water was personally fetched by Xia ruofei. He only filled half the pot and the other half was filled with some spiritual water from the spiritual pool.

There were no surveillance cameras in the water room, so Xia ruofei found an empty place and finished the job without anyone knowing.

The petals of the spirit Heart Flower were very effective in healing external injuries. The spirit pond water could also refresh one's mind. In the past, whenever Xia ruofei's spiritual power was exhausted, he would take the spirit pond water to speed up his recovery.

To song Qiming, this cup of water was exactly what his body needed.

As expected, song Qiming looked much better after drinking the glass of water.

He said weakly in a hoarse voice, "Ruofei, our family owes you another life ..."

Song Qiming said the same thing as elder song.

Xia ruofei quickly said, "uncle song, you're welcome!" I'm just in time ... I happen to know some medical skills, and it's mainly because you're in good health. If it were someone else, they might not have made it. "

Then, Xia ruofei briefly told him about how song Qiming had been injured for the past few days and how elder song had called him several times to ask about his condition.

Xia ruofei had also informed song Qiming of his decision to be discharged from the hospital in two days and go home for rehabilitation.

Song Qiming nodded slightly and said, "The Bureau chief's concern for me is really unrequited ..."

With his political wisdom, he naturally knew elder song's intention for Xia ruofei to shorten the recovery time. He was touched.

"I'll listen to you regarding the treatment. I'll follow your arrangements!" Song Qiming continued.

Chapter 2335 An unexpected surprise (1)

As song Qiming had just woken up, his body was still weak. Furthermore, Xia ruofei could not use the petals of the spirit Heart Flower on song Qiming in such a crowded place like the main hospital. Hence, he only chatted with song Qiming for a short while and let him rest well. He then got up and left.

Song Wei knew that her mother, Fang Liyun, had a lot to say to her father. Hence, she left the ward under the excuse of sending Xia ruofei off.

Fang Liyun looked at the back view of the two leaving together, and at that moment, she suddenly felt that the scene was quite beautiful. If only RUO Fei didn't have a girlfriend. Such a son – in – Law would be hard to find!

However, Fang Liyun also knew that Xia ruofei and Ling Qingxue had a good relationship, so this thought only flashed through her mind for a moment. She quickly eliminated it.

Xia ruofei asked Song Wei to send him to the elevator. He told her to rest and then took the elevator down.

He even called Guangzhi Cao and told him to keep the possibility of the attacker behind the car accident a secret from song Qiming.

Since the crisis was over for the time being, the most important thing for song Qiming now was his rehabilitation. If he knew about these things, it would only add to his troubles.

For the next two days, Xia ruofei did not appear in the General Hospital.

He had disappeared in the name of tidying up the medical books. He did not want to see professor Chen's sad face when he heard that song Qiming was going to be discharged. Even if no one said it, professor Chen could guess that if song Qiming was to be discharged, Xia ruofei would be the one taking over the treatment.

Under elder song's arrangement and coordination, song Qiming stayed in the senior cadre Ward in the General Hospital for two days. After his physical indicators stabilized, he was successfully discharged.

The General Hospital sent an ambulance to take song Qiming back to the family members' District. Although song Qiming was a provincial leader, he still chose to live in the family members' hospital of the Sanshan Municipal Party Committee.

According to Xia ruofei's instructions, song Qiming's family declined the good intentions of the medical staff from the General Hospital. After they settled down at home, they let the medical staff who escorted them go back with the ambulance.

Not long after the ambulance left, Xia ruofei's Black Knight XV SUV appeared at the entrance of song Qiming's small villa.

He also brought a big bag with a change of clothes, toiletries, and some things that he had prepared for the past two days.

Yes, Xia ruofei was going to cohabit with Song Wei.

To be more precise, he was going to stay at song Qiming's house for two days to make arrangements for his rehabilitation. Then, he would be ready to return to the capital.

Fang Liyun and Song Wei personally came out and warmly welcomed Xia ruofei into the house.

Song Wei was looking forward to living under the same roof as Xia ruofei for a few days. At the same time, she felt a little guilty because her parents were watching.

"This feeling is quite exciting ..." Song Wei thought to herself.

"Wei Wei, take RUO Fei to his room and settle him down!" Fang Liyun said, "I'm going up to see your father! He's been talking about it the whole morning, asking when RUO Fei would be coming!"

Xia ruofei smiled and said, "no need, Auntie!" I'll just go and see uncle song! I haven't seen him for two days, I have to quickly give him a checkup."

"Alright then!" Fang Liyun had indeed treated Xia ruofei as her junior. She did not bother to be polite with Xia ruofei. She agreed readily and personally led Xia ruofei upstairs.

Song Qiming was arranged to stay in the master bedroom on the second floor. He was still unable to get out of bed, so Fang Liyun was the one who took care of him. She did not even hire a caretaker. It was clear that the two of them were very close.

When Xia ruofei entered the room, song Qiming was leaning against the headboard and reading the newspaper. His head, which had been shaved off due to the surgery, had short hair, but he seemed to be in good spirits.

To make it easier to take care of him, song Qiming's bed was a bed that had been transported from the hospital. It was placed side by side next to the master bedroom's bed. This way, when needed, the head of the bed could be raised directly, and he could eat on the bed directly by placing it on a small table.

As soon as Xia ruofei entered the room, song Qiming heard the commotion. He looked up and immediately put down the newspaper in his hand. At the same time, he took off his glasses.

Song Qiming smiled and said, "RUO Fei is here!" You've had a hard journey! Quickly come over and sit!"

"Uncle song, you seem to be in good spirits!" Xia ruofei smiled. "How are you feeling these two days?"

Song Qiming said half – jokingly, "I feel great!" I'm just not used to having nothing to do all of a sudden ..."

Xia ruofei laughed and said, "then you can slowly get used to it!" But I guess after you get used to it, you'll be busy again, and you won't be used to it!"

What Xia ruofei meant was that song Qiming could recover in a relatively short time.

In fact, song Qiming was very eager to go back to work. After all, he had reached his current level at his age, so his future was very bright. He was full of energy and enthusiasm in his work. He would not even think about taking a break.

Therefore, song Qiming could not help but smile happily when he heard that. He said, ""Then I'll be counting on your blessings ..."

Chapter 2336 An unexpected surprise (2)

After some small talk, Xia ruofei sat down and examined song Qiming.

The external injuries were mainly fractures in several places. There was nothing much to say about that. Xia ruofei's next stage of treatment would also focus on that.

He was mainly concerned about song Qiming's soul and sea of consciousness. Therefore, after a simple examination of the external injuries, his mental power directly probed in the direction of song Qiming's sea of consciousness.

Although the medicinal power of the heart – concentrating grass was strong, it was basically used up after a few days of absorption.

Xia ruofei realized that song Qiming's sea of consciousness had almost recovered. The vigorous sea of consciousness was completely different from a few days ago when it was riddled with holes and filled with an aura of defeat. It was as if he had been reborn.

This made Xia ruofei feel at ease. Although the sea of consciousness had not fully recovered and the effect of the heart – concentrating grass had been used up, the remaining small part of the injury could slowly recover over time without any intervention. After all, the human body's self – Recovery ability was very powerful.

Besides, Xia ruofei still had the spirit nourishment soup and the spirit pool water. They were enough to deal with the small damage.

Just as Xia ruofei felt a little relieved and was about to withdraw his spiritual power, he suddenly had a new discovery. He couldn't help but raise his eyebrows and used his spiritual power to check carefully. Then, he withdrew his spiritual power and opened his eyes.

Song Qiming, Fang Liyun, and Song Wei had been paying attention to Xia ruofei's expression. When they saw Xia ruofei open his eyes, Song Wei immediately asked, ""RUO Fei, what's the situation?"

Xia ruofei glanced at song Qiming and smiled. ""You're recovering well! It seemed that uncle song's physique was very good! I'm more confident in the next stage of treatment. "

"That's good ..." Song Wei said as she looked at Xia ruofei.

Song Qiming also heaved a sigh of relief. He chuckled and said, ""Ruofei, I'll leave it to you!"

Xia ruofei nodded and said, "uncle song, we'll start the treatment after lunch." I've also made some preparations in advance these two days. Later, I'll refine the treatment plan according to your specific situation. In general, it's still acupuncture and external application to treat external injuries, and at the same time, you must take Chinese medicine to assist. "

"Alright!" Song Qiming said, "your Auntie Fang has prepared a lot of good food. Let's eat first!" Liyun and Weiwei, please give a toast to ruofei for me!"

"Let's not drink for now. We'll have a good drink after you've recovered, uncle song!" Xia ruofei quickly said.

Then, Xia ruofei said to Song Wei, ""Song Wei, I still have some things in my car, come with me!"

"Alright!" Song Wei said.

Xia ruofei nodded at song Qiming and left the room with Song Wei.

When the two of them went downstairs, Song Wei suddenly asked, ""Ruofei, I saw your strange expression just now. Could it be that my father ..."

Xia ruofei couldn't help but laugh. "Our Wei Wei is quite observant! That's right, uncle song's situation is beyond my expectations ..."

When Song Wei heard that, she could not help but exclaim. Then, she asked impatiently, "What's wrong?"

Xia ruofei laughed and said, "don't worry!" It was not a bad thing and it would not affect his recovery. It's just that ... It's really a little unexpected ..."

Song Wei could not help but hit Xia ruofei and said, ""Why are you still keeping me in suspense? What's going on?"

Xia ruofei thought for a moment and said, ""Wei Wei, do you remember what I told you before? Uncle song was unconscious at the time. His condition was very similar to the time you came out of the ancient tomb on Mount Yu. "

"Of course I remember, and you also concluded that his sea of consciousness was damaged!" Song Wei said.

"Yup! I've tried a more conventional treatment, but it didn't work. " Xia ruofei said, "in the end, I had to pay a price and use a precious medicinal herb. This herb is the same as the one I gave you, but the effect is quite good. Uncle song woke up that day ..."

"I know that you must have paid a huge price to wake my father up." Song Wei said gently.

"That's not the main point," Xia ruofei said with a smile.

"Then what are you trying to say?" Song Wei asked in confusion.

"Think carefully," Xia ruofei reminded. "What changes have you undergone since you woke up?"

When Song Wei heard this, she came back to her senses and an idea flashed through her mind. She could not help but ask, "Ruofei, you're not trying to say...My dad can also ..."

"That's right!" Xia ruofei laughed and said, "when I was checking uncle song just now, I noticed the changes in his body. To be more precise, his affinity to Reiki had greatly increased, and his soul had also become much stronger. If he was 30 years younger, he would definitely be able to achieve great things on the path of cultivation!"

"Heavens! "This is unbelievable ..." Song Wei covered her mouth as she spoke, her eyes filled with disbelief.

Song Wei was no longer completely clueless about the path of cultivation. At least, she knew that there were not many people with the physique to cultivate. It could be said that 90% of them were ordinary people. Only a small number of people could go far on the path of cultivation because of their strong affinity with spiritual Qi and the strength of their souls.

Otherwise, he wouldn't even be able to cross the threshold of cultivation.

Song Qiming's ability to cultivate after being severely injured was like winning the lottery.

Xia ruofei smiled. "I don't know the reason either. The herb I used can indeed improve the user's cultivation talent, but the extent won't be so great. Besides, many people don't have obvious effects after taking it."

Back then, in order to forcefully change Ling Qingxue's talent and let her embark on the path of cultivation, Xia ruofei had also tried to use the heart – concentrating herb. In the end, the effect was not obvious the first time he used it. Later on, he had to grit his teeth and continue to cultivate the heart – concentrating herb at a high price. After another try, Ling Qingxue's physique had completely improved.

Xia ruofei paused and continued, "I think it might have something to do with uncle song's injury. He was injured on his head, and according to my examination, his sea of consciousness was severely damaged. His soul was completely sealed off for self – Protection. The repair of his sea of consciousness seems to be very suitable for the situation of destruction and reconstruction. In short, this kind of small probability event just happened like that ..."

Hearing this, Ling Qingxue's eyes flashed with anticipation. She couldn't help but ask, "Ruofei, do you think it's possible for my father to cultivate?"

Xia ruofei thought for a while and said, "I can't say for sure. After all, he's too young to be a cultivator. He's already missed the best time to cultivate. I think he won't have much energy left even if he cultivates ..."

"Is that so ..." Song Wei said, slightly disappointed.

Xia ruofei smiled and said, "Weiwei, don't be disappointed." Nothing is absolute! But we'll talk about this later. The most important thing now is to let uncle song recover!"

"What you said makes sense!" Song Wei said, "I was too greedy. Given my dad's condition, it's already a blessing from our ancestors that he could keep his life."

Xia ruofei laughed and said, "after the treatment is over, I'll pick a suitable martial art for uncle song and find a suitable opportunity to teach him!" Don't worry! I have quite a few cultivation techniques, so I'll be able to find a suitable one for uncle song. But before that, don't mention this to him!"

"I understand!" Song Wei smiled and said, "even if I tell him now, he won't believe me!"

"Yes, I am!" Xia ruofei said.

As they were talking, the two of them had already arrived at the courtyard downstairs. Xia ruofei opened the trunk of the Knight XV. Song Wei took a look and couldn't help but say, "You ... Why did you bring so many things? did you move your entire house here?"

Chapter 2337 A man and a woman's pairing (1)

Xia ruofei looked at Song Wei and said, "I wish I could move my house here! I've been dreaming about it!"

Song Wei blushed. She knew what Xia ruofei meant.

After being with Xia ruofei for so long, Song Wei had become immune to this kind of teasing. She blushed and retorted, ""I don't have any objections! I'm sure my parents won't have any objections! Why don't you go in now and tell them that you've broken up with Qingxue and that you want to be our live – in son – in – Law? I think they might really agree to it!"

Xia ruofei couldn't help but be dumbfounded. He smiled bitterly and said, "Please spare me!"

Song Wei rolled her eyes at Xia ruofei and burst into laughter.

Then, she pointed at Knight XV's spacious trunk and said, ""By the way, you have too many of these things!"

The wide trunk was almost filled to the brim, and this did not even include the backpack that Xia ruofei had been carrying.

There were large and small bags of medicinal herbs in the trunk, and some other bags contained unknown things. There was also a small Plastic Sealing Machine, and there were even several buckets of water piled in the corner of the trunk. It really looked like they were going to move.

Xia ruofei smiled and said, "these are all for uncle song's rehabilitation. Let's not talk so much. Let's start moving!" You can just take the lighter ones!"

After Xia ruofei finished speaking, he took a step forward and easily lifted the heaviest Plastic Sealing Machine. Song Wei also quickly took a few big bags of herbs. As a cultivator, this little weight was naturally nothing to her.

The two of them had to make three trips to move most of the things. They had sent everything to Xia ruofei's guest room on the first floor. In the end, there were only four buckets of water left in the car.

"Are you going to move this too?" Song Wei asked, feeling a little speechless. We have bottled water at home! And it can be sent over with a phone call ..."

Xia ruofei laughed and said, "of course we're moving!" This was no ordinary water! I prepared this especially for uncle song! Wei Wei, you don't have to do this hard work, I'll finish moving the rest of the things in two trips!"

In terms of weight, he could easily carry four buckets of water by himself, but it was not easy to carry, so two buckets at a time was the most appropriate.

"Are you looking down on me?" Song Wei pouted and said. This little weight can trouble this young lady?"

After she finished speaking, she took the lead and walked to the back of the car. She gently carried a bucket of water in each hand and walked into the house.

Xia ruofei quickly moved the remaining two buckets of water out of the car. After closing the trunk, he took the two buckets of water and quickly chased after them.

Fang Liyun was just coming down the stairs when she saw Song Wei and Xia ruofei carrying two buckets of water. She was stunned.

Her first reaction was, "did your family call for water?"

However, Fang Liyun immediately realized that even if they did call for water, they would not let them move by themselves! Even Song Wei, the delicate – looking young lady, had rolled up her sleeves and joined the battle. What was going on?

"Where did the water come from?" Fang Liyun quickened her pace down the stairs and said, "put it down, put it down! You two kids, why are you doing your own hard work? Wei Wei, did you order RUO Fei around?"

Song Wei put down the two buckets of water and said with a wronged expression, "Mom! How can you be so biased! He's the one ordering me around, alright?"

Xia ruofei chuckled as he put down the bucket of water. "Aunty, Song Wei is helping me! I prepared this water for Uncle Song, it's good for his recovery ... I wanted Song Wei to help me carry some small things, but I didn't expect her to be so strong!"

Xia ruofei looked at Song Wei with a smile.

Fang Liyun could not help but look at her daughter and said, "Yup! Wei Wei, when did you become so strong? Didn't you need your dad's help to open a can of drink before?"

Song Wei was embarrassed and anxious after her mother exposed her dark history in front of the person she loved. She said in a low voice, "Mom! What old history are you talking about? Even when I was in college, I still worked out, okay?"

"Alright, alright, alright. I'm the one who didn't understand my precious daughter ..." Fang Liyun said with a smile.

She looked at Xia ruofei and Song Wei and thought of the scene where they carried water together. The more she looked at them, the more she felt that they were a good match.

Fang Liyun couldn't help but shake her head, trying to stop herself from having such a dangerous thought. She changed the topic and asked, "Ruofei, is this water prepared for your Uncle Song?"

He was just trying to find something to talk about. Xia ruofei had already said it!

Xia ruofei nodded with a smile and said, "I made this with spring water. Although it's colorless and tasteless, it actually has many medicinal ingredients that can promote the recovery of brain injuries."

The barrelled water was actually the spirit pond water in the spirit map space. Xia ruofei had specially bought a few barrelled water and poured out the drinking water before filling the space with the spirit pond water.

The spatial spirit pool water was beneficial for the recovery of one's spiritual power. Xia ruofei believed that long – term drinking of it would help Song Qiming recover his sea of consciousness.

Since Fang Liyun was asking about the buckets of water, Xia ruofei decided to explain clearly. He said, "Auntie, from today onwards, uncle song's daily water will be changed to the bottled water I brought. This is drinkable, or you can heat up the tea. Just treat it as daily drinking water."

Chapter 2338 A man – woman pairing (2)

"Alright, I'll remember that!" Fang Liyun nodded.

"Mom, RUO Fei brought a lot of stuff here, and I was just saying that!" Song Wei said. I thought he moved his house here ... I'll take you to see it!"

After that, Song Wei pulled Fang Liyun to the guest room that was arranged for Xia ruofei.

"This child ..." Fang Liyun rebuked.

Even though Fang Liyun sounded a little reproachful, she was still curious. Besides, the things that Xia ruofei brought must be related to song Qiming's rehabilitation, so she really wanted to take a look. Thus, she followed Song Wei into the room with a half – heartedly.

Fang Liyun was stunned for a moment when she saw the large and small bags piled in the corner of the wall and the eye – catching small Plastic Sealing Machine. She then smiled and said, "There are quite a lot of things!"

Xia ruofei smiled and explained, "Auntie!" These are all useful for the treatment, and I'm going to Beijing in two days. Before I leave, I have to boil the medicine that uncle song has been using recently! Wasn't this? I even brought the Plastic Sealing Machine over. After the Chinese medicine is sealed, it should be stored in the refrigerator for ten days to half a month without any problem!"

Xia ruofei had told song Qiming and Fang Liyun about his trip to the capital. Song Qiming understood the reason behind it. Although Fang Liyun was not too sure, she knew that it was related to elder song. Hence, she was worried that Xia ruofei's departure would affect song Qiming's recovery. However, she did not object to it.

Seeing that Xia ruofei had arranged for his treatment in the capital, Fang Liyun was very pleased and said, "Ruofei, you're so thoughtful!"

She continued, "ruofei, rest for a while. I'll go and see your uncle song!" He can't get out of bed now, and he can't be without someone by his side!"

Xia ruofei quickly said, "you can go!" Don't worry about me, I also need to prepare in advance. I'll start treating uncle song after lunch. "

Fang Liyun nodded and said to Song Wei, "Wei Wei, you stay here and see if RUO Fei needs any help. You can help too."

Xia ruofei couldn't help but cheer in his heart, and his impression of his future mother – in – Law rose sharply.

Song Wei sneaked a glance at Xia ruofei and knew that he was secretly happy under his serious appearance. She could not help but feel her face heat up. She quickly pretended to be calm and said, "I know ..."

Fang Liyun bade Xia ruofei goodbye and left the guest room.

Xia ruofei and Song Wei looked at each other. Song Wei couldn't help but laugh and said, "What are you planning?"

Xia ruofei chuckled and said, "what wicked idea can I have?" I just feel that mother – in – Law is too cute!"

"You're not allowed to call me that!" Song Wei said in a low voice. Who's your ... That?"

Xia ruofei laughed and said, "that's true!" What if this was a habit and he said it in front of her? that would be terrible ... Alright! I'll just keep this respectful address in my heart!"

"Not even in my heart!" Song Wei looked like a little girl who was throwing a tantrum. She looked very cute.

Xia ruofei couldn't help but hug her and said, ""Weiwei ..."

"Hmm ..." Song Wei let out a soft moan through her nostrils and leaned her head against Xia ruofei's broad chest. She mumbled as if she was sleep talking, "if only time could stop flowing ..."

Xia ruofei was also mesmerized by the beauty of this moment. He gently stroked Song Wei's hair and said, ""Weiwei, everything will be fine. In the future ... Your parents will definitely accept me. I won't let you continue to live without a title ..."

"This ..." Song Wei frowned. "This is too difficult!"

With Xia ruofei's excellence, he was definitely a good match for Song Wei. The problem was that he had two women at the same time. This was unacceptable in today's society. Moreover, song Qiming was a high – ranking leader. If this was exposed, it would definitely be a big family scandal!

How could they possibly accept it? Song Wei did not even dare to think about it.

Xia ruofei's eyes were firm as he said, "people think of ways. I always believe that strength determines one's status." If I can't let you guys be with me openly for the time being, it must be because I'm not strong enough. I believe that one day, we will be able to ignore all worldly customs!"

"En!" Song Wei was also affected by Xia ruofei's emotions. She nodded heavily.

Xia ruofei chuckled and said, ""You just said that you wanted time to stop. I can't do that for now, but it's not a problem to slow down time! Should I? I set up the array flags? This way, you can hug me for as long as you want!"

Song Wei's face heated up and she struggled out of Xia ruofei's arms. She said coyly, "Who wants to hug you! Let's get down to business! You're not serious!"

Xia ruofei laughed and said, "being intimate with our Weiwei is the most important thing!"

"You still dare to say that!" Song Wei acted as if she wanted to fight.

After the two of them had a good time, Xia ruofei started to work.

This time, Xia ruofei had brought a complete set of things. Not only did he bring enough medicinal herbs, but he also had the tools for decocting the medicine and even charcoal prepared.

The guest room that Fang Liyun had prepared for Xia ruofei had a door that led to the small garden at the back. It was the best room on the first floor.

This made it easier for Xia ruofei to do things. He directly left the work of brewing the medicine outdoors. If he were to boil the medicine in the room, the smell would not go away for a long time.

Xia ruofei was preparing for the treatment at noon, so he did not have much work to do.

After he started the fire, he skillfully picked out the medicinal herbs and put them into the claypot to boil.

The water was also from the spirit pool. He filled a 2.5 – liter large bottle of mineral water.

Xia ruofei had already considered that he would have to complete these tasks in the song family. Hence, he had prepared everything he could think of in advance and tried not to use the spirit map space here.

Song Wei stood at the side and helped. Of course, she was mainly Xia ruofei's helper, such as passing things and Fanning the fire.

It was not tiring for a man and a woman to work together, let alone a couple who loved each other. Therefore, the two of them enjoyed the boring process of boiling the medicine.

The pot of medicine ended up with a small bowl of paste – like ointment. Xia ruofei took out a small mineral water bottle from his bag and poured some water in. He mixed it well and then sealed the bowl with a preservation film.

This small bottle of water was naturally filled with the petal solution of the spirit Heart Flower, and the concentration was not low.

"Success!" Xia ruofei said with a smile.

Song Wei took out a tissue and wiped the sweat off Xia ruofei's forehead. "You've worked hard!"

Xia ruofei laughed and grabbed Song Wei's hand. "Then give me a reward!"

Song Wei blushed and asked in a low voice, "What kind of reward?"

Xia ruofei pointed at his face and winked at Song Wei.

Song Wei was a little shy, but at the same time, she looked nervously in the direction of the door. Finally, she mustered up her courage.

She stood on her tiptoes and slowly moved her lips closer to Xia ruofei's cheek.

Although they had tried all kinds of embarrassing positions when they were in the spirit body joint cultivation, Song Wei rarely had any intimate actions with Xia ruofei in the outside world. Moreover, they were in her own home. She was more or less shy and could not help but close her eyes tightly.

At first, Song Wei wanted to give him a light kiss, but Xia ruofei turned his face away and ...

Their lips were locked in a kiss. Song Wei felt something was wrong and opened her eyes.

Song Wei's beautiful face instantly turned red. She subconsciously wanted to retreat and escape. However, the experienced Xia ruofei had already grabbed her delicate waist and held her tightly in his arms ...

Chapter 2339 Focused on Healing_He was in a state of confusion ...

Both of them were cultivators, so their hearing was naturally much better than ordinary people. Therefore, when they heard footsteps coming from outside the door, they separated in time.

However, Song Wei's face was still blushing. She looked like a child who had done something bad. She seemed very guilty.

The next moment, the two of them saw Fang Liyun appear at the door. She smiled and said, "Ruofei, Weiwei, come over for lunch!"

"Alright!" Xia ruofei replied.

When Song Wei recalled the scene just now, she could not help but feel a little 'guilty'. At the same time, she felt a faint sense of excitement as if she had done something bad under the eyes of her parents.

She did not dare to look at Fang Liyun and followed Xia ruofei out of the room with her head lowered.

However, Fang Liyun took another look at Song Wei. She could not help but ask curiously, "Wei Wei, why is your face so red?"

Song Wei was at a loss for words and did not know how to explain.

Xia ruofei reacted quickly and immediately said, "Oh! Auntie, Song Wei was helping me look after the stove just now! I guess you got too close and got roasted?"

"Oh ..." Fang Liyun did not doubt him and said casually, "Weiwei, remember to put on a Facial Mask later. You're not young anymore, you have to take care of your health!" Be careful that you won't be able to get married in the future!"

Song Wei couldn't help but secretly roll her eyes. This was too heart – wrenching ...

Xia ruofei tried to hold back his laughter. "Auntie, you're worrying too much. Song Wei is a natural beauty. Why would she worry about getting married?"

"Whoever's child is whoever's to worry about!" Fang Liyun sighed. "In the past, when she was in high school and university, we didn't want her to fall in love. We were afraid that it would affect her studies. But now that she's studying for her master 's, we're starting to worry about her finding a partner!"

"Mom! I'm not even in a hurry, so why are you in a hurry?" Song Wei blushed and couldn't help but say.

"It's because you're not in a hurry that I'm in a hurry!" Fang Liyun's words sounded like a tongue twister, but it did make sense.

Xia ruofei saw that Song Wei was about to go berserk. He realized that he was the one who started this conversation. In order to avoid Song Wei from finding him for revenge, he decided to change the topic.

"Oh right, aunty," Xia ruofei said, "I'll prepare the medicine for the next few days. You have to clear out the refrigerator first!"

The change of topic was a little stiff. However, Fang Liyun was very concerned about anything related to song Qiming's rehabilitation. Hence, Xia ruofei successfully diverted her attention.

"There's an ice box in the living room. It's used by your uncle song to store the tea leaves. I think it's okay to use it to store Chinese medicine, right?" Fang Liyun said after some thought.

"Yes, yes ..." Xia ruofei said.

The three of them chatted as they walked to the dining room.

The lunch was very sumptuous.

Although Fang Liyun did not want to leave song Qiming's care to the caretaker, she did everything herself and asked Song Wei for help occasionally. Other than that, she left the rest to the domestic service staff.

For example, cooking and cleaning.

Knowing that Xia ruofei was coming over today, Fang Liyun had specially instructed the chef to make a good preparation.

Although it was not made by Fang Liyun personally, it was still a heartfelt gesture. Hence, Xia ruofei ate it with great relish and even praised it from time to time.

Fang Liyun was very happy to see Xia ruofei eating so happily. In the blink of an eye, he had finished three bowls of rice and a lot of dishes.

Xia ruofei had done so much for their family, but Fang Liyun could not think of many ways to repay him. This time, Xia ruofei was staying at her house because he was treating song Qiming. Naturally, she wanted to ensure that her life was well taken care of. Only then would she be at ease.

After lunch, Xia ruofei went back to her room to pick up the ointment that he and Song Wei had worked together to make. At the same time, he carried his small medicine box and went upstairs to treat song Qiming.

The small medicine box contained some of Xia ruofei's usual items, such as a whole set of silver needles for acupuncture, a jar for cupping, and a horn piece for scraping sand.

Xia ruofei went to song Qiming's side and gave him a massage to relax.

Of course, what he used was not a simple massage technique. The massage techniques from the lost medical books combined with true energy. It was not an exaggeration to say that if he was willing to become a physical therapist, he would have a steady stream of business just based on this unique skill.

Song Qiming felt as if Xia ruofei's hand had some sort of magic. Wherever it went, there was a sense of warmth. The Topsy feeling made him feel drowsy.

After the massage, Xia ruofei began his first acupuncture session.

He still chose to use the nine needles of the moyun technique that he was most familiar with, and used it with his genuine Qi. The effect was quite good.

The purpose of both massage and acupuncture was to relax song Qiming's muscles and meridians, which were blocked or damaged due to external injuries, to a certain extent. This was beneficial for the absorption of the medicinal properties.

The first part of the work was auxiliary. The real effect was the ointment he specially formulated.

The ointment itself was extremely effective in treating external injuries. In addition, he had added a concentrated solution of spirit Heart Flower petals, which made the effect even better.

After the acupuncture, Xia ruofei rested for a while. Then, he put on a pair of disposable gloves and started to apply medicine for song Qiming.

There was not a lot of ointment, and most of it was used on song Qiming's fracture.

Chapter 2340 Focus on healing_Xia ruofei carefully applied the ointment evenly. He did not waste the remaining ointment on his gloves. He applied most of it on song Qiming's injured head.

Although song Qiming's body and head were covered in black lumps and looked a little comical, as long as the treatment was effective, song Qiming would not mind at all.

He was most concerned about his work. If he could really recover within a month or even 20 days as Xia ruofei had promised, the impact of this accident on him could be minimized.

Xia ruofei had specifically ordered Cao Guangzhi and the others who knew the truth to not report to song Qiming. That was why song Qiming still thought that it was just an accident, a bunch of coincidences.

Song Qiming was fully focused on the rehabilitation. He had full confidence in Xia ruofei. At the same time, he had full trust in Xia ruofei's treatment. He would cooperate with Xia ruofei's instructions.

After Xia ruofei helped song Qiming apply the ointment, he took off his gloves and threw them into the trash can.

"Ruofei, thank you for your hard work!" Song Qiming smiled.

Xia ruofei smiled and said, "you're welcome." Uncle song, I'll treat you twice a day for the next two days. You'll be fine as long as you keep changing the medicine on time. Also, from today on, in addition to physical therapy, you have to take some Chinese medicine to cooperate with the treatment. "

Song Qiming nodded and said, "we'll listen to you regarding the treatment!" We'll follow your arrangements!"

Xia ruofei nodded and said, "then you should rest for a while." After dinner, they would go through another physical therapy session and change the medicine. In addition, you'll also be taking the internal Chinese medicine after dinner tonight. "

In less than half a day, the components of the spirit Heart Flower petals in the ointment must have been completely absorbed. Hence, the frequency of applying the ointment twice a day was more appropriate. If the ointment was denser and based on the terrifying recovery rate of the spirit Heart Flower petals, song Qiming might be able to fully recover in a week. This was something Xia ruofei did not want to see.

If he recovered in a month, he could still be explained as having great medical skills. If he could cure such a serious injury in a week, it was not something that could be explained by medical skills.

“Alright!” Song Qiming readily accepted her advice. “Then I’ll sleep for a while! Get enough mental energy for rehabilitation treatment!”

.....

After Xia ruofei came out of song Qiming’s room, he went straight to his guest room and started to prepare the Chinese medicine.

This task was still quite tedious. He had to prepare at least ten days ‘worth of Yingying, which included the ointment that was added with the concentrated spirit Heart Flower petal solution, Chinese medicine to assist in external injury recovery, and spirit nourishment soup.

Song Qiming’s sea of consciousness had not fully recovered. It would be too slow if he were to rely on his own body to recover. Hence, Xia ruofei prepared two portions of spirit nourishment soup. After all, the spirit nourishment soup could be consumed for at least seven days.

Fang Liyun and Song Wei did not follow Xia ruofei in when he was treating song Qiming as they were worried that they would disturb him.

When Xia ruofei returned to the guest room to prepare the Chinese medicine, Song Wei came over to help.

With an assistant, Xia ruofei’s speed of brewing the medicine was much faster.

In the evening, night had just fallen.

Xia ruofei had finally finished the tedious work.

The paste that was added with the spirit Heart Flower petal solution filled up a large porcelain bowl, which contained two whole spirit Heart Flower petals.

Xia ruofei believed that after the ointment was used up at the same rate as today, song Qiming’s fractures and other external injuries would be healed.

Other than the ointment, Xia ruofei had also brewed a large pot of Chinese medicine to aid in the treatment of external injuries and three portions of Yingling soup.

The small Plastic Sealing Machine he had brought with him came in handy at this time.

Xia ruofei packed the supplementary herbal soup and the spiritual nourishment soup into small bags. After sealing them, he even carefully labeled them.

The dinner was quite sumptuous as usual.

After Xia ruofei finished his dinner, he immediately returned to song Qiming's room on the second floor. He realized that the ointment on song Qiming's body had already been wiped off. It must have been done by Fang Liyun.

It was the same massage, acupuncture, and external application that Xia ruofei was very familiar with.

After he was done, Xia ruofei brought song Qiming a bowl of Chinese medicine and watched as he consumed it. Only then did he basically complete his treatment for the day.

.....

For the next two days, Xia ruofei did physical therapy for song Qiming in the morning and evening. At the same time, he applied and consumed Chinese medicine externally to help song Qiming complete his rehabilitation treatment as soon as possible.

Although it had only been two days, song Qiming could clearly feel that his external injuries were getting better, especially his fractures. A few days ago, song Qiming could not sleep well because of the pain. After Xia ruofei's treatment, the pain had weakened a lot. Song Qiming could also feel that his injured bones often felt numb.

It was obvious that song Qiming's physical condition was improving.

Because of this, song Qiming's confidence and favorable impression of Xia ruofei increased.

On the morning of the third day, Xia ruofei finished his breakfast and was ready to leave.

The medicinal herbs in the big and small bags he brought two days ago were basically all converted into Chinese medicine to assist in external injury treatment and Yingling soup that were kept in the refrigerator.

Although there were fewer things, the trunk of the Knight XV was still full. Other than the small sealing machine, there were more cigarettes, tea leaves, wine and other gifts that Fang Liyun had prepared for Xia ruofei.

They would never be able to repay Xia ruofei's kindness. That was why Fang Liyun would express her feelings whenever she had the chance.

Xia ruofei was not a pedantic person. He did not reject Fang Liyun's good intentions. He only expressed his gratitude respectfully. After all, "one should not reject a gift from an elder"!

In comparison, Xia ruofei was more concerned about song Qiming's follow – up treatment after he left.

Therefore, he gave Fang Liyun and Song Wei instructions in detail.

This included wearing isolation gloves when applying the ointment and not letting the ointment come into direct contact with the skin; Also, for example, the three portions of spirit gestating soup must be taken after seven days.

Xia ruofei had repeatedly told song Qiming to follow his orders strictly. Otherwise, it was fine if the medicinal properties of the cream were lost. However, if he did not control the period of consumption well and caused song Qiming to take the soup twice in seven days, it might cause unknown danger.

Fang Liyun didn't dare to be slow and jotted down Xia ruofei's instructions. She even showed it to Xia ruofei for confirmation before she was relieved.

Xia ruofei waved goodbye to Fang Liyun and Song Wei and left the city Council family compound in his Knight XV SUV.

He drove back to the jiangbin villa community.

After storing everything in the car into the spirit map space, Xia ruofei returned home to take a shower and change into a set of clean and refreshing clothes. Then, he packed his luggage and carried a small bag on his back, mainly for show.

It didn't take long for a black Mercedes – Benz, which he had specially called in advance from the company, to arrive at the jiangbin villa community.

The veteran driver of the fleet of cars sent Xia ruofei to the private terminal of Changping International Airport.

Yesterday, Xia ruofei had already asked the flight crew to apply for a flight route in advance and make preparations to return to Beijing.

When he returned, it was extremely urgent, but when he went to the capital, it was much easier to arrange.

Initially, Fang Liyun wanted Song Wei to fly back to the capital with Xia ruofei to continue her studies. However, song Qiming was still bedridden, so how could Song Wei be at ease?

Fang Liyun could not convince Song Wei no matter what she said. In the end, she had no choice but to agree to let her stay for a few more days.

However, Xia ruofei would not be flying back to the capital alone. There would be another passenger on the business jet paradise today.
