Chapter 2341 Inheritance. A white Buick GL8 MPV was already parked by the roadside outside the private jet building. When Xia ruofei got out of the car, the electric door of the Buick MPV slowly opened and a silver – haired old man stepped out.

This person was Xia ruofei's senior brother Ge Jun, whom he had acknowledged when he was "accepting disciples" on behalf of his master at the three mountains.

Ge Jun had come to the three mountains to visit a friend. If he had not met song Qiming by chance and acknowledged Xia ruofei as his Junior Brother, he would have returned to the capital a few days ago.

When he heard that Xia ruofei was preparing to go to the capital, Ge Jun quickly decided to go back with him.

Of course, he didn't know that Xia ruofei was taking a public jet. He only wanted to buy a ticket for the same flight as Xia ruofei, but he didn't expect Xia ruofei to tell him not to buy a ticket and to meet him directly at the private plane building.

"Junior Brother Xia!" Ge Jun smiled as he welcomed them.

Xia ruofei took the luggage from the car boot and told the veteran driver to return to the city. Then, he smiled at Ge Jun and said, "Senior brother GE, I'm sorry! I'm a little late!"

"Your timing is just right. I was early." Ge Jun said with a smile.

Professor Chen from the military general Hospital also arrived at the airport with Ge Jun. When he saw Xia ruofei, he also greeted him politely. "Mr. Xia, how are you?"

Professor Chen's attitude was even a little respectful. Other than Xia ruofei's seniority, a large part of the reason was that he had been convinced by Xia ruofei's magical medical skills.

If it was not for his superior who had told him to keep the process of Xia ruofei's treatment of song Qiming a secret and not to publicize it, professor Chen would have taken the case out and analyzed it for his colleagues at various academic occasions.

However, the head of the headquarters in Beijing had directly given instructions, so he could only bury this matter in his heart. He also had to repeatedly remind the doctors who had been in contact with this matter and the few graduate students he had brought with him to keep their mouths shut.

"Professor Chen, you're here to send us off!" Xia ruofei nodded at professor Chen and said.

"Yeah!" Professor Chen said. Uncle GE's return to the capital this time, they did not know when they would be able to meet! I originally wanted him to stay for a while, but when he heard that you were also going to Beijing, he couldn't stay any longer!"

Professor Chen said with a bitter smile.

Ge Jun laughed and said, "little Chen, you've been staying here for a long time!" If there's a chance, you can come to the capital to see me!"

An expert like professor Chen had many opportunities to participate in various academic exchanges. In addition, the joint Logistics support force often had various meetings, so he had a lot of opportunities to go to Beijing.

Professor Chen nodded and said, "that's the only way!" I can't make you stay!"

Professor Chen couldn't help but ask, "Mr. Xia, I wonder how Secretary song is recovering?"

Although his superior and the southeast province did not say anything, he knew very well that Xia ruofei must have taken over the follow – up treatment when song Qiming was discharged from the hospital under such circumstances.

Professor Chen was very concerned about this special case, but his superiors did not allow him to interfere too much. It was like a child who saw a toy that he liked but could not hold it. It was like a cat scratching at his heart.

Therefore, when professor Chen saw Xia ruofei, he could not help but ask about song Qiming.

Xia ruofei smiled and said, "it's quite smooth!" I've already arranged everything. There's no point in staying at the three mountains. I still have some things to settle in Beijing, so I'll be leaving the three mountains early this time. "

The few of them talked in front of the private jet building for a while, then Xia ruofei said, "Senior brother GE, I think it's about time. Let's go in!"

"Alright!" Ge Jun smiled. "Xiao Chen, you can stop here!" I'll see you next time in Beijing!"

"Okay, uncle GE!" Professor Chen said respectfully, "I wish you a safe journey!"

Xia ruofei and Ge Jun waved at professor Chen and walked into the private plane building together.

In a short while, Xia ruofei and Ge Jun arrived at the tarmac.

Looking at the bright peach source under the sun, Ge Jun could not help but sigh, "I knew that junior Xia's career was very successful, but I didn't expect you to even have a private jet. I'm so lucky to have you this time!"

Xia ruofei said humbly, "this plane is not actually mine. Strictly speaking, it's my friend's property. It's just that I use it most of the time."

The two of them spoke as they stepped up the ramp and stepped into the cabin.

Ge Jun was someone who had seen the world. He had even accompanied the leaders on trips as a medical expert. He had even sat on China's "Air Force One" before, so he was not too surprised when he saw the luxurious furnishings in the cabin.

Of course, China did not have the so – called Air Force One. In fact, the leaders' private planes were usually used for Civil Aviation flights. Only when there was a visit Mission would they undergo internal modifications in advance, and then the Air Force private jet division's senior pilots would be responsible for the flight.

The weather in the three mountains was quite good today. The sky was clear and the traffic at the airport was still normal, so the plane was allowed to exit not long after the two boarded the plane.

The Gulfstream business jet quickly left the parking lot and slowly taxied all the way to the runway.

Chapter 2342 Inheritance. After a Sichuan Airlines vacant plane landed, Xia ruofei's paradise was allowed to enter the runway and take off.

The plane accelerated on the runway and finally leaped lightly into the blue sky.

In a short while, the plane had climbed to the cruising altitude, and the seat belt indicator light quickly went out.

The flight crew came over to ask Xia ruofei and Ge Jun what they wanted to drink. Xia ruofei asked for Ge Jun's opinion and ordered two glasses of red wine.

The entire flight was only about two hours long, so Xia ruofei did not plan to eat anything on the plane.

After the red wine was served, Xia ruofei asked the flight attendant to return to the front cabin. He opened his backpack and took out a manuscript that still smelled of ink. He smiled and passed it to Ge Jun.

Ge Jun had already guessed what Xia ruofei had given him. However, when he saw the words "three scrolls of cloud contact (one)" on the cover, he could not help but feel excited. His hands that were holding the manuscript started to tremble.

"Junior Brother Xia, this is the [three cloud rubbing scrolls]?" Ge Jun asked in a trembling voice.

Xia ruofei smiled and said, "to be exact, it's the first volume of the" three volumes of cloud contact. "" Senior brother GE, I've been treating uncle song at his house for the past two days, and I've been copying this manuscript at night when I have nothing to do. I've only written the first volume for now, and I'll give you the other two when I have time. "

"Three volumes of cloud rubbing" was written in classical Chinese. Typing on a computer might not be as fast as writing by hand. Besides, there were many illustrations in the medical book that were difficult to draw with a computer. Hence, Xia ruofei chose to write by hand and even specially used a brush.

"No hurry! There's no hurry!" Ge Jun said excitedly, "junior Xia, you didn't forget to copy the manuscript when you were treating Secretary song. It's really hard on you!"

Xia ruofei waved his hand and said, "actually, I have a lot of free time at uncle song's house." Senior brother GE, you don't have to be so polite. This medical book originally belonged to your GE family. I'm just returning it to you in one piece!"

"Thank you! Junior Xia!" Ge Jun said sincerely.

Xia ruofei chuckled, "you're really welcome. If this medical book were to stay with me, I'd only be able to improve my medical skills." On the other hand, senior brother GE might be able to bring Ge Hong's medical skills to greater heights. "

"I ... Can pass it on to my disciples and clansmen?" Ge Jun asked.

“Of course!” Xia ruofei shrugged his shoulders and said, “Chinese medicine is gradually declining. Other than some objective factors, many Chinese medicine practitioners keep their own skills to themselves, which is also a very important reason. A lot of Chinese medicine inheritance was gradually lost because of this idea of keeping their skills as a last resort.”

“Don’t worry, Junior Brother Xia,” said Ge Jun with a straight face. I definitely won’t repeat the same mistakes, but I’ll also carefully observe the character of my disciples and family members to ensure that such precious medical skills are passed on to those who truly love Chinese medicine and hope to carry forward Chinese medicine!”

Xia ruofei nodded and said, “of course, I trust you, senior.”

In fact, the reason why Xia ruofei created the drama of ‘taking in a disciple on behalf of the master’ was to promote the <three cloud – rubbing scrolls>.

After receiving the first volume, Ge Jun could not wait to open the manuscript and read it on the plane.

During the two hours of flight, Ge Jun did not even lift his head. His eyes did not leave the manuscript, and he was completely immersed in it.

In fact, although the “three volumes of cloud rubbing” was lost, some of the content was still passed down from generation to generation through word of mouth. These contents also formed the theoretical support of GE family’s Chinese medicine.

Therefore, even though it was Ge Jun’s first time studying the <three volumes of cloud rubbing>, he felt a sense of déjà vu. Furthermore, this was the original medical book created by ancestor Ge Hong. It was a huge boost and transformation to the Chinese medicine knowledge he had previously learned.

In the past, there were many problems caused by incomplete inheritances, but when he read this manuscript, he felt like the clouds were cleared and the sun was seen.

Hence, Ge Jun was so immersed in it that he did not notice the passage of time.

When the plane started to descend, the seat belt indicator light lit up. With Xia ruofei’s reminder, Ge Jun finally broke away from his Deep state of mind.

“We’ve arrived so quickly?” he asked, as if he had just woken up from a dream.

Xia ruofei laughed. “Senior, if I didn’t remind you, you wouldn’t have noticed us when the plane landed and we all left.”

“This medical book is too attractive ...” Ge Jun said awkwardly.

“Haha!” Xia ruofei laughed and said, “one look and I can tell that senior GE is a very focused person!”

The plane was about to land soon, and Ge Jun did not study the medical book anymore. He put the manuscript into his bag and carefully looked at it as if he was serving his family treasure. In a sense, this medical book was really their GE family’s family treasure.

After a short period of hovering and waiting, the Gulfstream public jet was soon granted permission to land blindly.

When the plane touched the ground and started to glide, Ge Jun smiled and said, "Junior Brother Xia, the enjoyment of the rich is really different! Look at this private jet ... Compared to a normal flight, it's like a beggar ... Not only did we save time, but we also didn't have to line up. The flight is so smooth, it's like it stopped on the ground and didn't start!"

Xia ruofei chuckled. "The Gulfstream business plane's cruising altitude is much higher than ordinary commercial planes. At that altitude, the air flow is generally more stable. So, it is very rare to encounter bumps and such situations."

As the two of them chatted, the plane had already passed through the runway and landed on a long – distance seat.

The flight attendant swiftly opened the cabin door and lowered the accommodation ladder. Xia ruofei and Ge Jun took their luggage and stood up to get off the plane.

After walking out of the restricted area of the airport, Xia ruofei saw Wu Qiang among the people who were waiting for him.

Xia ruofei met up with Wu Qiang and handed his luggage to him.

At this time, Ge Jun also met up with the people who were picking him up. A red flag sedan was sent by the health Bureau to pick him up.

The group walked out of the airport departure hall.

Xia ruofei said, "senior GE, let's split up here!" You're welcome to visit my house when you're free!"

Ge Jun asked, "Junior Brother Xia, are you really not coming back with me?" I was going to introduce you to a few friends in the Chinese medicine world! Besides, those good – for – nothing disciples of mine should also come and pay their respects to you, their martial uncle!"

Xia ruofei laughed and waved his hand. "I really can't today, I still have something to do! You can bring my martial nephews to my place some other day! My house's courtyard is in liuhai Lane, and it's very easy to find from the inner street of Desheng Gate!"

Ge Jun nodded and said, "alright!" Then I'll visit you another day!"

Xia ruofei nodded and parted ways with Ge Jun outside the airport. The two of them got into their respective cars and left the airport.

Wu Qiang was driving the Toyota Elfa commercial car today.

To be honest, Alphard was known for its unparalleled comfort. Xia ruofei did not feel that there was anything special about the air first – Class cabin. He had only been in the plane for two hours, which was much more luxurious than the air first – Class cabin.

In his opinion, it was just a means of transportation that was more comfortable than ordinary cars or off – road vehicles.

Xia ruofei adjusted the seat back a little and lifted his legs up a little. Then, he sat in the soft seat in a more comfortable position. After chatting with Wu Qiang for a while, he closed his eyes and took a nap.

Xia ruofei only opened his eyes when the car drove into liuhai Lane.

The alley wasn't very spacious, and Elfa's car was much longer than an ordinary family car. Fortunately, Wu Qiang's driving skills were good. He controlled the car and drove through the alley nimbly. In a short while, he arrived at the door of his house.

Xia ruofei immediately saw a black Mercedes – Benz car parked by the road. He squinted at the license plate and his face darkened, showing a trace of displeasure.

Chapter 2343 Beating_ Wu Qiang looked at Xia ruofei's expression through the rearview mirror and said, "Boss, this car wasn't parked at the entrance when I came out."

"I understand, Wu Qiang. Let's drive in," Xia ruofei said calmly.

"Yes, boss!" Wu Qiang didn't say much and calmly replied.

He pressed a button on the remote control, and the back door of the courtyard slowly slid open. Then, he started the car and drove into the courtyard.

On the other side of the Mercedes – Benz, when Xia ruofei's Toyota Elfa appeared at the alley, the people in the car had already seen it. However, it was not until the car had reached the entrance that the back door of the Mercedes – Benz opened. A middle – aged lady, who was dressed in jewelry, stepped out of the car.

The driver of the Mercedes – Benz jogged to the back, opened the trunk, and stood behind the middle – aged lady with some gifts.

The middle – aged lady still had a reserved smile on her face as she nodded slightly in the direction of Toyoda's Elfa.

However, the smile on her face froze at the next moment because Elfa didn't stop at all. He drove straight into the courtyard and ignored her.

The middle – aged lady was still raising her hand to greet Xia ruofei in the car in what she thought was an elegant manner. However, her arm froze in place halfway, and her elegant style instantly turned into a comical one.

When she came back to her senses, Xia ruofei's Toyota Elfa had already driven into the courtyard house and the electric door was slowly closing.

The middle – aged lady's face darkened. She stared at the electric door for a few seconds before she said to the driver coldly, "Go and knock on the door!"

This voice was extremely cold, as if it had come from an Ice Mountain that would never melt.

The driver, who had been working for the middle – aged lady for many years, naturally knew how angry his employer was when he spoke to her in such a tone. He couldn't help but shiver. He quickly put down the gifts in his hand and jogged to the gate of the courtyard house.

In the backyard of the courtyard house, the electric door of the Elfa car slid open slowly. Xia ruofei got out of the car and walked towards the master's courtyard in the middle.

Behind him, Wu Qiang was carrying Xia ruofei's simple luggage and quickly followed.

Wu Qiang had seen everything that had happened at the entrance of the courtyard house. However, he was very clear that he should not ask what he should not ask. He had to maintain the good habit that he had developed in the Army.

At this moment, the doorbell rang. Wu Qiang subconsciously stopped in his tracks.

"Let sister – in – Law Xiujuan handle it!" Xia ruofei said indifferently.

"Okay, boss!" Wu Qiang replied.

Then, he shouted for his sister – in – Law, Wu Xiujuan, to go over and see who was messing around outside. In fact, he knew very well that the person who rang the doorbell must be the person in the car just now, but since his boss had ordered him to do so, he just had to do as he was told.

Xia ruofei did not stop and walked straight to the master's courtyard in the middle.

Xia ruofei had recognized the black Mercedes – Benz the moment he saw it.

It was the Liu family's car. To be more precise, it was the car of elder Liu's daughter, Liu Lifang.

While he was treating elder Liu, the children of elder Liu would visit him from time to time. Liu Lifang would come in the same car every time. With Xia ruofei's memory, he would never forget her after seeing her once.

What made him unhappy was that his plane had just landed and he had not even reached home yet, but the Liu family was already waiting here.

Liu Lifang's intention was obvious – she wanted Xia ruofei to continue treating elder Liu.

However, Xia ruofei did not like this kind of aggressive attitude. He had made a verbal agreement with the Liu family and had also obtained some benefits by treating elder Liu's illness. However, this did not mean that he had sold himself to the Liu family.

Strictly speaking, the relationship between Xia ruofei and Mr. Liu as doctors and patients, as well as the pharmaceutical company and the verbal promises that the Liu family had made to the song family, were just payment for the consultation.

How could a patient's family call for a Doctor Who had just landed after a long – distance flight and had not even reached home? Shouldn't you at least let me rest?

This wasn't called inviting people, this was called forcing them to abdicate.

Xia ruofei would not let them have their way.

Xia ruofei had just arrived at the middle courtyard when Xia Xiaolan, who was working in the backyard, quickly walked over and said, "Boss, there's someone outside looking for you. It's Liu Lifang, the Senior Vice President of Liu's group."

Xia ruofei said indifferently, "help me reject it. Just say that I'm tired from the journey. I won't be seeing any guests today."

Xia Xiaolan was stunned for a moment. Wu Qiang, who was beside her, said, "Xiao LAN, don't just stand there. Do as the boss says!"

"Oh!" Xia Xiaolan came back to her senses and said, "alright, I'll go now!"

She didn't know why Xia ruofei, who had always been easy – going, would reject the guests who had already arrived at the door. However, she didn't need to speculate about her boss's decision and just followed it.

After Xia Xiaolan left, Wu Qiang put down Xia ruofei's luggage and said, "Boss, you rest for a while. I'll go down too."

Xia ruofei nodded slightly. "Okay. Just call me when it's time for dinner. No matter who comes, block them for me."

"Understood!" Wu Qiang said concisely and to the point. Then, he bowed slightly to Xia ruofei, turned around, and left the master's courtyard in the middle.

Xia ruofei put his phone aside and took out a set of loungewear. He went into the bathroom and took a nice bath.

He enjoyed the jacuzzi and unknowingly soaked in it for more than half an hour.

Chapter 2344 Strike_ After he changed his clothes, he picked up his phone and saw that he had a few missed calls.

These calls were all from the same person, Liu Qunfeng, the eldest son of elder Liu.

Xia ruofei pouted and threw his phone aside. He took out a cigarette and lit it up. He crossed his legs and lay on the sofa, not planning to return the call.

But after a while, his phone rang again. It was still Liu Qunfeng.

Xia ruofei calmly took two puffs of his cigarette and stubbed out the cigarette before answering the call.

"Hello, chief Liu." Xia ruofei said calmly.

On the other end of the phone, Liu Qunfeng seemed to be relieved. He said, "Mr. Xia, did I disturb your rest?"

Xia ruofei hummed noncommittally and then asked, "Chief Liu, what's the matter?"

Liu Qunfeng could do nothing about Xia ruofei's act of pretending to be confused. Besides, he didn't call to condemn Xia ruofei. On the contrary, he wanted to explain what had happened today to Xia ruofei.

"Mr. Xia, I heard that my sister came to your house to look for you ..." Liu Qunfeng said, a little embarrassed.

"Is that so?" Xia ruofei interrupted Liu Qunfeng and said, "I'm not sure! Chief Liu, I'm tired from the journey today. I'll rest as soon as I get home. I've also told my subordinates to reject any guests that come to visit. That's why ... I'm not sure what's going on."

Liu Qunfeng was speechless. He did not know how to respond to Xia ruofei's words.

Xia ruofei continued, "by the way, Secretary Liu, did you say that President Liu just came to visit?" I just entered the house! Boss Liu was really well – informed! Could it be that ... You've been monitoring my movements?"

Xia ruofei's tone became unfriendly as he spoke.

In fact, this was also what he was most displeased about. He had not even entered the house yet, and Liu Lifang was already waiting at the door. Wasn't this clearly saying that the Liu family had full control of his whereabouts?

Although it was easy for the Liu family to know the flight plan of the peach source, Xia ruofei was quite disgusted by their behavior.

Liu Qunfeng grumbled to himself as he smiled bitterly. "Mr. Xia, you've misunderstood us. We wouldn't dare to monitor you ... It's ... It's like this, my sister just came back from another city today. She saw you at the airport, but before she could say hello, you got into your car and left. My sister is also concerned about my father's condition. She thought that since you have returned to the capital, she would like to pay a visit and discuss my father's condition. That's the situation!"

Liu Qunfeng's words were full of loopholes.

Xia ruofei had taken a public transport back to the capital. He had left the restricted area from the private plane building and did not walk out of the normal passenger passageway. The private plane building and the terminal building were still very far apart! How could Liu Lifang have seen it?

Furthermore, Liu Lifang was behind Xia ruofei. How did she reach the courtyard house in liuhai Lane before Xia ruofei?

These details couldn't stand up to scrutiny at all.

However, Liu Qunfeng's intention to show his goodwill was quite obvious.

In fact, Liu Qunfeng was also helpless.

Liu Lifang's sudden visit to Xia ruofei was not his idea at all. He did not even know that Liu Lifang and a few other people had been following Xia ruofei's whereabouts. They had even asked for the flight plan of the peach source through their connections in the Civil Aviation sector. He was completely unaware of all this.

If Liu Qunfeng knew about this, he would have stopped Liu Lifang. How could she do something so stupid? she must have a low EQ.

Liu Qunfeng didn't know what to say. There were many people like Liu Lifang in the Liu family, all of whom were used to being pampered and domineering.

If it was any other person, they would not dare to provoke them. However, they did not use their pig brains to think about who Xia ruofei was. Could he spoil their bad habits? His intelligence was really low!

If Liu Lifang hadn't called Liu Qunfeng to complain and even made a scene, Liu Qunfeng wouldn't have known about this at all, let alone know that Xia ruofei had already returned to the capital.

He had reprimanded Liu Lifang harshly and had to clean up Liu Lifang's mess while pinching his nose. After being mocked by Xia ruofei, he still had to smile obsequiously. What sin had he committed!

After Xia ruofei heard Liu Qunfeng's explanation, he smiled and said, ""So it's like this! I really didn't know, I've neglected your sister!"

"Mr. Xia, you're being too serious," Liu Qunfeng quickly said. "It's my sister's fault. She's not sensible enough to visit you like this. " I've already severely criticized her, so please forgive me, Mr. Xia. "

Liu Lifang was already in her forties. According to her age, she should be more than enough to be Xia ruofei's Auntie. However, after hearing Liu Qunfeng's words, she felt like a child who had not grown up. No matter how she heard it, it did not feel right.

The image of Liu Lifang's face with heavy makeup appeared in Xia ruofei's mind. He could not help but feel a chill down his spine. He quickly said, "Forget it, it's not a big deal. Chief Liu, did you come to me just for this? It's not worth your call to explain! I'm not that petty. "

Liu Qunfeng smiled wryly and thought to himself, "if I don't make this call now, I'm afraid you're going to ignore my house for a few more days!"

Elder Liu had been taking the pills that Xia ruofei had given him. Although his condition did not improve significantly, it did improve.

Chapter 2345 Strike_ Most importantly, Mr. Liu's condition was very critical. Before Xia ruofei's intervention, his condition had been rapidly deteriorating. Now, not only did his condition not worsen, but it had improved to a certain extent. From the examination results, the tumor had even shrunk a little. This was undoubtedly a huge hope for the Liu family.

Elder Liu's medicine was almost finished. If Xia ruofei delayed it for a few more days and stopped taking the medicine, no one could guarantee that his condition would not worsen again.

Liu Qunfeng wanted to worship Xia ruofei, so he could not understand why Liu Lifang would do something so stupid.

Liu Qunfeng thought for a moment and said, "it's better to explain these things clearly, in case Mr. Xia has any misunderstandings about us." Also ... My father misses you very much, Mr. Xia, and has mentioned you to me many times ..."

Xia ruofei smiled and said, "I'm just a kid. What can I do?" Chief Liu, how about this! I still have some personal matters to deal with, and there are some things I have to personally take care of. I'll take some time to visit elder Liu tomorrow or the day after. He really needs a follow – up. "

Liu Qunfeng let out a sigh of relief and said, ""Thank you, Mr. Xia! I won't disturb you any longer! Let's talk when we meet. "

"Goodbye, chief Liu!" Xia ruofei said indifferently.

After Xia ruofei hung up the phone, he closed his eyes and sat in deep thought for a while. Then, he stood up and walked to his computer to open his email.

Xia ruofei did have some things to deal with these few days. Before he returned to the capital, he had rented a large warehouse in a secluded area in the suburbs through Zhao Yongjun. In addition, he had ordered a batch of supplies through the internet, which would arrive in a few days.

These resources included 30 mobile houses, a large number of labor tools, living supplies, and small construction equipment.

He was making preparations for the spirit map space to increase manpower in the future.

The reason why he rented a warehouse in the capital was that it was more convenient to transfer goods and place orders quickly. In addition, he might live here often in the future, so it would be much more convenient to have a warehouse with a transit function in the capital.

Zhao Yongjun had rented a bigger warehouse for him, and it was no problem to put all the supplies in.

Xia ruofei also asked him to send a reliable subordinate to guard the place and send a list of supplies to the man who was in charge of receiving the supplies.

When all the supplies had arrived, Xia ruofei would go over and put them all in the medium.

Of course, even though these things were complicated, Xia ruofei didn't have to do much and it didn't affect him from doing the follow – up for elder Liu.

However, he had heard from Dong Yun that things didn't seem to be going well for the past few days. Although there wasn't much resistance, there were always small problems.

Xia ruofei guessed that someone in the Liu family was stirring up trouble, so he took this opportunity to knock some sense into them. When he talked to Liu Qunfeng, he seemed to have casually mentioned taking over the pharmaceutical Group. He just wanted to see if Liu Qunfeng understood the hidden meaning.

If Liu Qunfeng made a move, the resistance would disappear, and everything would be fine.

If the situation at the pharmaceutical Group was still the same, then I'm sorry. A visit tomorrow and a visit the day after would still be a visit. Besides, Xia ruofei could really just visit the old man. After all, he didn't say that he was going for a follow – up examination.

Chapter 2346 Tactfulness (1)

Liu Qunfeng's movements were fast, or rather, he was very sensitive.

Xia ruofei had only mentioned it casually over the phone, but he immediately realized that there might be some problems with the handover of the pharmaceutical Group.

On the night Xia ruofei returned to the capital, he received a call from Dong Yun. The small problems that he had encountered previously were easily solved.

The attitude of those who were not very cooperative in many things and refused to cooperate with him had taken a 180 – degree turn.

Furthermore, Xia ruofei had heard from Dong Yun that Liu's group in the capital had sent a team of executives over and fired several of the pharmaceutical groups' management on the spot. Then, someone from Liu's group had temporarily taken over their work.

In this way, the handover of the work was much smoother.

Xia ruofei knew that Liu Qunfeng was trying to get on his good side.

Over the phone, he encouraged Dong Yun to keep up the good work and complete the handover smoothly in one go, laying a solid foundation for the next step of the peach blossom company's expansion.

The next day.

Xia ruofei only called Liu Qunfeng in the evening.

Liu Qunfeng had been restless the entire day.

He understood that there had been many problems with the handover of the pharmaceutical Group, and they were all created by Liu Lifang and a group of people. According to Liu Lifang, they were deliberately delaying Wanwan. Why could Xia ruofei leave the old man behind and go back to the three mountains after he had treated half of the patient? Since the treatment wasn't completed, don't even think about getting the pharmaceutical company smoothly!

Even if the transfer of shares had been completed, such a huge and complicated asset transfer, if the Liu's group did not cooperate or deliberately made things difficult, the transfer work might be delayed indefinitely.

After Liu Qunfeng heard Liu Lifang's "plain" idea, he almost went crazy.

His sister had been pampered since she was young. It could be said that she had not learned anything about how to deal with people. To put it simply, she was a fool. In addition, she was the eldest daughter of the corporation. Those people in the family had also gone along with her nonsense, which led to the passive situation today.

Liu Qunfeng had been too careless with Xia ruofei's matter. He thought that Xia ruofei had gone to the three mountains and that the treatment here was mainly about taking medicine, so he did not pay much attention to the things here.

He didn't expect his good sister to almost Pierce the sky.

Liu Qunfeng made a prompt decision and sent a trusted senior executive from his family group to the pharmaceutical Group to deal with the matter.

The management of the pharmaceutical Group that had caused the most trouble had actually done so under Liu Lifang's instructions. This time, they had died a little unjustly and were directly treated as the rafters who stood out and took the blame for Liu Lifang.

Back in Beijing, Liu Qunfeng didn't care about Liu Lifang's crying. He stopped her work and told her to reflect on her actions at home.

Although Liu Qunfeng didn't work in the family group, he was the eldest son of elder Liu. Among the second – generation children, he was the best in the political field. He basically had the final say in the family, especially since elder Liu was recovering from his illness. Most of the power of the family had been handed over to Liu Qunfeng, so he could naturally make the decision with one word.

After dealing with all these things, Liu Qunfeng reported to his father.

Elder Liu was silent for a long time, then sighed and said, "What a misfortune for her family ... It's all my fault for spoiling her too much in the past!"

"Dad!" Liu Qunfeng said. As the eldest brother, I also have a responsibility. In the past, Lifang was a little domineering, but I didn't pay much attention to it. I thought that it was nothing for a daughter of the Liu family to be a little high – Profile. However, now ..."

"Now that my body isn't doing well, Li Fang and the others still don't know what's good for them!" Elder Liu said coldly, "that's enough. You've handled this matter well. Let's leave it at that for now!"

"Yes, father!" Liu Qunfeng continued, "then, about Xia ruofei ... Should I ..."

"You don't have to call him, and you don't have to take the initiative to talk about these things." Elder Liu said indifferently, "this young man is not simple. There are some things that we can only do and not say, or else it will have the opposite effect."

"I know, dad!" Liu Qunfeng said, "but what if he doesn't take the initiative to contact me? The medicine you have here ..."

"He won't keep pretending." Mr. Liu said confidently, "although Xiao Xia is decisive in killing and doesn't hold back in extorting, he is still a very particular person. There are many things that he doesn't say, but he knows in his heart!"

Hearing his father's words, Liu Qunfeng could only helplessly say, "Alright then ..."

And so, Liu Qunfeng waited for an entire day.

When he received Xia ruofei's call in the evening, Liu Qunfeng couldn't wait to answer. "Mr. Xia, how are you?"

"Hello, chief Liu," Xia ruofei said lightly. I'd like to visit elder Liu tomorrow. I wonder if he's free?"

Liu Qunfeng quickly replied, "it's convenient!" It was convenient! Mr. Xia can go over at any time!"

He wished that Xia ruofei could just stay at old master Liu's place tonight. Now that old master Liu was waiting for Xia ruofei to provide him with life – saving medicine, how could it be inconvenient?

Xia ruofei smiled. "That's good. I'll go and visit him tomorrow morning."

"Alright! Alright!" Liu Qunfeng said excitedly, "Mr. Xia, when would you be free? I'll send a car over to pick you up!"

He had even unconsciously used honorifics.

Xia ruofei smiled and said, "there's no need to pick me up. I know the place." Tomorrow at around 90 O'clock! I'll go there myself. "

"Alright!" "I'll see you tomorrow, Mr. Xia!" Liu Qunfeng said.

.....

The next day, Xia ruofei woke up and cultivated for a while. After breakfast, he took a shower unhurriedly. Then, he got into the Toyota Elfa driven by Wu Qiang and drove towards the small building in the southern suburbs of the capital where old man Liu lived.

Liu Qunfeng did not go to work today. He had been waiting for Xia ruofei at the three – story building in the southern suburbs.

He saw Xia ruofei's car from afar and ordered the guards at the entrance to let them in.

The car stopped in the yard. The electric door was only half open when Liu Qunfeng walked up to them.

For a Deputy – Level leader, such a gesture in front of a young man in his twenties was obviously quite humble.

"Mr. Xia, you've worked hard! It's been hard on you!" Liu Qunfeng greeted Xia ruofei warmly.

Xia ruofei's expression was still calm, like a master who did not like material things.

"I don't deserve to be welcomed by you personally, chief Liu!" He said with a smile.

"No, no, no!" "Mr. Xia is my father's Savior," Liu Qunfeng said humbly. "No matter how much courtesy you receive, you deserve it!"

"I can't be considered a Savior!" Xia ruofei said, "elder Liu's illness is quite tricky. Although I managed to control his condition by accident, no one can guarantee that he will be fine with this illness."

"Of course!" Liu Qunfeng laughed dryly. That was! For Mr. Xia to be able to control the illness, his medical skills are already superb. "

"Let's go and see elder Liu first!" Xia ruofei said.

"Alright, this way please, Mr. Xia!" Liu Qunfeng said.

He personally led Xia ruofei to old master Liu's room on the second floor.

The old man seemed to be in good spirits. His face was still thin, but his complexion was different.

The first time Xia ruofei met old master Liu, his face was full of defeat. It was obvious that he did not have much time.

And this time, it was obviously a little more alive.

"Little Xia!" Old master Liu reclined on the bed and greeted Xia ruofei with a smile.

"Hello, elder Liu!" Xia ruofei said with a trace of respect.

Excluding the differences in their positions and the disputes with the Liu family, Xia ruofei respected this old man who had come from the war era and participated in the creation of the Republic.

Moreover, from Xia ruofei's previous contact with him, he could tell that old master Liu was very wise and not as sinister as he had imagined, let alone the descendants of the Liu family.

"Did everything go smoothly on your return to the three mountains?" Old man Liu asked with a smile.

"Thanks to you, I've finally lived up to my orders!" Xia ruofei said with a smile.

Song Qiming's matter could be controlled through public opinion on the internet, and people who knew about it could be silenced, but it could not be hidden from the big families in Beijing.

Xia ruofei knew that the Liu family had probably found out about song Qiming's escape from danger.

"That's because your medical skills are superb and you can do what others can't!" Old man Liu said with a smile.

To be honest, the old man had really understood song Qiming's situation in detail. He had even listened to the opinions of medical experts.

The conclusion that elder Liu had obtained from the experts was that, based on song Qiming's condition at that time, there was a 90% chance that he would not be able to last more than five hours before his brain died. The possibility of him being saved or even out of danger was almost zero.

Therefore, it could only be explained by the magic of Chinese medicine.

With such a conclusion, old master Liu looked forward to Xia ruofei's medical skills even more.

He knew very well that Xia ruofei was not only a life – saving straw to him. To be exact, Xia ruofei was a life – saving log or even a lifeboat.

Xia ruofei smiled and said, "you're too kind!" Old man, let me give you a checkup first! Let's see how he's doing during this period of recovery!"

"Alright!" Elder Liu chuckled and said, "Xiao Xia, when you weren't in Beijing, my heart was in a mess. Now that I've seen you, I feel at ease!"

"The reason why I'm able to go back at ease is because I'm confident." Xia ruofei said, "you should believe in the doctor!"

"Hahaha! Yes, yes, yes!" Old man Liu said with a smile.

Xia ruofei came to the bedside and sat down. Then he said, "Elder Liu, please extend your left hand!"

Chapter 2347 Healing_Even though Xia ruofei had intentionally delayed the treatment process, he was still very serious during the examination.

Xia ruofei strictly followed the procedure of looking, listening, asking, and feeling. He used Traditional Chinese Medicine methods to check on old man Liu. At the same time, in the process of feeling the pulse, he also used his spiritual power to observe the condition of the tumor.

The results of the examination were similar to what he had expected. Overall, the patient's condition had improved. The specific signs were that the tumor no longer spread, and the tumor in the main tumor area had a slight trend of shrinking. It could be said that the patient's condition was basically developing according to his imagination.

This also explained why old man Liu looked so much better than before. His cancer cells were suppressed, and they were much less active than before. They couldn't spread any further, so he was naturally in good spirits.

When Xia ruofei pulled his hand back and opened his eyes, Liu Qunfeng, who was beside him, asked impatiently, "Mr. Xia, how's my father?"

"It's not bad," Xia ruofei said indifferently. "You can even say ... It's better than what I expected."

Xia ruofei turned to look at Liu Qunfeng and smiled. "If I'm not wrong, the tumor in Mr. Liu's body has stopped spreading, and the tumor in his pancreas has shrunk a little, right, chief Liu?"

"Mr. Xia, your judgment is very accurate!" Liu Qunfeng nodded.

During the time that Xia ruofei was not in the capital, the Liu family had followed Xia ruofei's instructions strictly and gave elder Liu the pills on time. Naturally, they could not be completely at ease, so they had two more comprehensive examinations during this period.

The results were basically the same as what Xia ruofei had described.

He could make such an accurate judgment through Chinese Medicine's look, listen, ask, and touch. The results were the same as the results of the examination with sophisticated medical instruments. Many Chinese medicine doctors in the country could only look up to him with this skill.

"That's not strange at all," elder Liu said with a smile. "If Xiao Xia can't even do such a test, how would he dare to take over a patient like me who's beyond cure?"

Xia ruofei smiled and said, "elder Liu, although your illness is serious, it's not incurable. Isn't the treatment going in a good direction now?" Therefore, it's impossible to say that he's beyond cure. "

"Yeah!" Liu Qunfeng chimed in. Dad! Mr. Xia is right, you can't say such inauspicious words. "

Old man Liu laughed indifferently and said, "Why are you guys even more superstitious than me? I've lived for so long, and I've been through mountains of corpses and seas of blood during the war years, so why would I care about this? Besides, I'm a pure materialist! I don't believe in those things!"

Liu Qunfeng couldn't help but smile bitterly.

Xia ruofei thought for a while and said, "elder Liu, it seems that my treatment direction is correct, so there's no need to make too many adjustments to the entire treatment plan." Since the medicine I've prescribed is the right one, then continue to take it. "

"Alright!" Old man Liu nodded with a smile. You'll be in charge of the treatment. "

"Also, I'll perform acupuncture on you again today." Xia ruofei nodded. However, I need to explain to you that acupuncture doesn't have a direct effect on the tumor. Instead, it stimulates the potential of

your body, which is more conducive to the absorption of the medicinal properties. From today's examination, your body's function is much better than last time. This undoubtedly accelerated the absorption of the medicine, so the number of acupuncture should not be too many. After all, overusing the body's potential is not a good thing. "

"I understand!" Old man Liu nodded slightly. Going too far is just as bad as not enough!"

"That's the logic," Xia ruofei smiled.

Then, Xia ruofei turned to Liu Qunfeng and said, ""Chief Liu, please leave us alone! I'm going to start the treatment for elder Liu. "

Liu Qunfeng looked at elder Liu, who pouted at him angrily. He nodded slightly and left the room.

After Liu Qunfeng left, Xia ruofei asked old man Liu to take off his shirt and lie on the bed. Then, he took out a silver needle from the small medicine box that he carried with him. After carefully disinfecting it, he began to perform acupuncture on old man Liu.

He was still using the nine needles of the moyun technique.

A few days ago, he had copied down the first volume of <three cloud rubbing volumes> and passed it to Ge Jun. During this process, he had gained a deeper understanding of this treasured medical book in the field of traditional Chinese medicine. In addition, he had used the nine cloud rubbing needles more often during this period of time, so his proficiency level had obviously increased.

Xia ruofei's needles were like flying. There was no hesitation at all. In the blink of an eye, he had accurately pierced the eight silver needles into the corresponding acupuncture points.

Then, he followed the steps of the nine cloud rubbing needles, either flicking, twisting, or lifting ... At the same time, wisps of mild true Qi were injected into old man Liu's meridians during the acupuncture process.

Old man Liu felt that the acupuncture point was slightly sore and swollen. At the same time, he could clearly feel a warm current flowing slowly through his body. He was so comfortable that he almost moaned.

Xia ruofei was focused on the acupuncture while old man Liu had his eyes closed and was enjoying the process.

Time quietly passed.

When Xia ruofei used the special technique of the nine cloud contact needles to retrieve all eight silver needles, old man Liu seemed to have woken up from a dream. He asked, ""It's over?"

Xia ruofei nodded with a smile. "Mr. Liu, your body is still relatively weak. It's better not to spend too much time on acupuncture."

"Understood!" Old man Liu laughed. Understood! Going too far is just as bad as not enough!"

"Yes, the principle is the same." Xia ruofei said as he disinfected the silver needle and nodded at elder Liu.

Old man Liu said with emotion, "our ancestors have passed down good things!" Just like acupuncture, Western medicine would never be able to have such a magical effect. Xiao Xia, after the acupuncture, immediately feel much more energetic! I don't think I'll have a problem even if you ask me to jog a few laps!"

Xia ruofei chuckled and said, "it's nothing special. Acupuncture is like a trigger that stimulates the potential in your body." China's TCM is broad and profound, but it's a pity that its heritage is incomplete. In addition, with the deliberate guidance of the Western public opinion, it has led to many people misunderstanding TCM. "

Old man Liu said thoughtfully, "I think the country should also increase support for Chinese medicine and related industries!"

After all, he had been a leader before, so he naturally got inspired by this matter and expanded it to the national level.

Xia ruofei only nodded in agreement and did not continue the conversation.

After all, this was not something that could be done with just a few words. If they really wanted to promote and support Chinese medicine, there would be many practical problems that needed to be solved.

For example, the quality of Chinese medicine practitioners was uneven, the standards and regulations of the Chinese medicine industry were unclear, and so on.

In fact, why were there so many voices of support for some prejudices about Chinese medicine in society? A large part of it was because of the existence of some quacks who smeared Chinese medicine and caused the patients to lose confidence.

After Xia ruofei finished the acupuncture for elder Liu, he took out two small porcelain bottles. Inside the bottles were enough pills for elder Liu to take for a month.

He had asked Xia Qing to prepare it in the space yesterday.

The main ingredient of these pills was actually honey. In addition, there were a few other Chinese medicine ingredients, which also had the effect of conditioning the body.

What really played a role was naturally the evenly stirred spirit Heart Flower petal solution.

After leaving behind the porcelain bottle filled with pills, Xia ruofei tactfully declined old man Liu's invitation to stay for dinner and directly bade him farewell.

Wu Qiang did not leave after dropping Xia ruofei off here. After Xia ruofei was done with the documents, he took the Toyota Elfa business car back to the siheyuan.

Liu Qunfeng personally sent Xia ruofei to the car in the courtyard downstairs. After watching the car drive away, he went upstairs to old master Liu's room.

"Dad!" Liu Qunfeng greeted him with respect.

"He left?" old man Liu nodded.

"Yes, I am!" Liu Qunfeng nodded and said,"he said that you only need to take your medicine on time for the next month. You don't need any other treatment. He told us to call him immediately if anything happened ... Which means he might not be able to make it in a month. "

"There's nothing wrong with that!"Old man Liu said with a smile. He was a doctor, so of course he had the final say in how to treat her! Besides, wasn't the healing effect quite good now? This shows that his treatment direction is correct. "

Liu Qunfeng nodded and said,"understood!" Oh right, dad! Do you need me to explain to Xia ruofei about the little obstacles that Li Fang has been causing recently?"

Old man Liu waved his hand and said,""There's no need for that. Before he left, I had a simple chat with him and tactfully expressed our attitude. I believe that with his wisdom, he should be able to feel the goodwill we are giving out. "

"Alright then!" Liu Qunfeng said.

"Although Xiao Xia's side has been pacified for the time being, Liu Lifang can't be let off easily!" Old master Liu said sternly,"from today onwards, she's not allowed to interfere with the company's Affairs! In addition, all her credit cards and savings cards were frozen! Control her pocket money every month!"

"Ah? This ... Isn't this a little too strict?" Liu Qunfeng hesitated.

"If I don't be strict, how can she remember?" Old master Liu said,"let's do this! Just say that I personally gave the order! If she's not convinced, let her come to me!"

"Understood!" Liu Qunfeng said.

Then, Liu Qunfeng hesitated for a moment, and said with a worried expression,""Dad! Why do I feel that ... Xia ruofei is deliberately delaying it so that you won't get better so quickly?"

"That's only human nature!"Old man Liu laughed. I'm not as lucky as old song to have found such a treasure!"

"If elder song had this disease ..." Liu Qunfeng frowned and said,"he might have recovered in a week or two!" This Xia ruofei ..."

"Don't mention it," old man Liu waved his hand."It's normal for him to do this. I'd do the same if I were him!"

Liu Qunfeng nodded, a little depressed. He then said,""Dad! I still have one more worry ..."

Chapter 2348 Departure (1)

"Why are you so worried?" old man Liu laughed. It's not your style to be so timid!"

"This concerns you, Sir, so I have to be careful ..." Liu Qunfeng said with a bitter smile.

Old man Liu nodded slightly and said,""Then tell me! What are you so worried about?"

Liu Qunfeng looked worried."Dad, I've been worried about one thing these days. That is ... The medicine that Xia ruofei gave you. Will you be dependent on it?"

Old man Liu raised his eyebrows and asked, ""You're saying ... You're worried that this pill will be like a drug, and you'll be addicted to it?"

"Yeah!" Liu Qunfeng nodded. After all, he's on the opposite side of our Liu family, and we have some conflicts in the past. You're very important to our family. If he uses a drug to control you and threatens our family with it, the consequences will be unimaginable ..."

Elder Liu chuckled and didn't answer Liu Qunfeng's question directly. Instead, he asked, ""Qunfeng, let's make a hypothesis first. If your worries become reality, then I'll be faced with two choices: First, if I reject this medicine, I might lose my life very soon. Second, accepting the drug would result in addiction and even losing oneself. If you were me, what would you choose?"

Liu Qunfeng couldn't help but smile wryly as he shook his head, "I don't know ... It's indeed a difficult choice."

Old Liu looked at Liu Qunfeng and asked, ""Then think about it from your own perspective. What choice do you think I should make?"

Liu Qunfeng furrowed his brows and thought for a while. Suddenly, he felt elder Liu's thoughtful gaze on him, and he couldn't help but shiver. He quickly said, "I think he'll still choose the second option! No matter what the situation is, your life must be the most important! Even if we have to pay a huge price for it, there's nothing to consider. "

The corners of elder Liu's mouth curved up slightly. In fact, Liu Qunfeng's hesitation was already an answer.

If it was really as he had said, that elder Liu's life was the number one priority, then what was there to hesitate about?

To put it bluntly, when elder Liu suddenly asked this question, Liu Qunfeng inevitably thought about his family, and even his personal growth and progress, as well as his wealth.

Liu Qunfeng felt like he was sitting on pins and needles under the wise gaze of old man Liu. He knew that his concern and the hesitation he showed when he answered the old man's questions were actually very inappropriate.

Old Liu looked at Liu Qunfeng, and after a long while, a smile slowly appeared on his face. ""Qunfeng, why are you so nervous? I was just asking casually. "

Old man Liu wasn't angry. At this age, he had already seen through many things. Even if he was his own son, it was impossible for him to be completely free of selfish thoughts. Moreover, even he himself would prioritize his family's interests most of the time, which was not a mistake.

Liu Qunfeng smiled awkwardly and said, ""Dad! Maybe I'm just worrying for nothing ..."

"You're worrying for nothing!" Old master Liu said indifferently, "put away those inexplicable worries! Xia ruofei is not that kind of person ..."

"I know, dad!" Liu Qunfeng said, then asked curiously, "dad! Why are you so confident in Xia ruofei?"

Old man Liu chuckled and said, "It's not that I trust him! This little guy is old song's man, how can I trust him one hundred percent! However, the probability of what you just said happening is so small that it's basically negligible."

"Oh? Why do you say so?" Liu Qunfeng asked, raising his eyebrows.

"I've always taught you that you must always think from the other party's point of view," old man Liu said indifferently. It's the same for this matter. If you try to think from Xia ruofei's point of view, you'll know that he wouldn't do that!"

Old man Liu paused for a moment and continued, "First of all, it can be said that he originally held my life in his hands, holding the power of life and death in his hands. He can control the rhythm and cycle of treatment to keep us in check. That's enough for him."

"That's the logic." Liu Qunfeng said, "but a man's heart is not content! What if he's not satisfied with this kind of restraint?"

Old man Liu smiled faintly and said, "I'm a good judge of character. Based on my understanding of Xia ruofei, he's not the kind of person who's insatiable. On the contrary, he had always done a good job of controlling his limits. The most important thing is that if he really uses his strong reliance on drugs to control me, then he has undoubtedly crossed the line. Once he crosses this line, many things will go out of control. By then, even if old song wants to protect him, it will be difficult."

Liu Qunfeng had a thoughtful look on his face. After a long while, he let out a sigh of relief and said, "Dad! You're so thoughtful. This ... I was indeed a little worried!"

Just as old man Liu had said, even if Xia ruofei had deliberately delayed the treatment period to achieve the purpose of restraining the Liu family, it was still within the scope of the game rules. However, once he crossed this line and used drugs to control a former leader who had studied under him and was the head of a top family in Huaxia, it would not just be Xia ruofei or the Liu family's matter. Xia ruofei would be affected by the terrain of all the forces and the government would not allow such a situation to happen.

Chapter 2349 Departure (2)

As long as everyone was within the circle of rules, they could live in peace. However, once someone tried to break the rules, everyone in the circle would gang up on them.

"Alright!" Old man Liu nodded. Qunfeng, the discussion just now was limited to you and me, so don't spread it out."

"Okay, dad!" Liu Qunfeng said.

"Also, during this time, put more effort into your work!" Old master Liu said, "now that my condition has entered a stable period and Xia ruofei's medicine is very effective, I'll be fine as long as I take the medicine on time every day. So, you don't have to come to my place every day. Also ... Don't arrange the physical examinations so closely. It's enough to just do a full body examination once a month. There's no need to go through so much trouble."

"I know, dad!" Liu Qunfeng said, "then have a good rest! I'll go back to the office now."

Old man Liu slowly closed his eyes and nodded slightly.

Liu Qunfeng saw that elder Liu had closed his eyes and was resting, so he didn't say anything more. He just bowed slightly to elder Liu and quietly left the room.

.....

After Xia ruofei returned to the courtyard in liuhai Lane, he went to the song family's old house for the next two days. When he visited elder song, he reported song Qiming's treatment to him.

Song Qiming's "accident" was not a real traffic accident. It was a deliberate attack planned by someone behind the scenes. This kind of thing could not be hidden from elder song. After he saw Xia ruofei, he naturally asked about the situation.

Xia ruofei had already taken care of Bao Guijun's assassination team. The crisis on song Qiming's side had been temporarily resolved. Next, he would go to arulei, a small African country where the modr organization was located, and destroy the organization. At the same time, he would find the mastermind behind this incident and completely eliminate the danger to song Qiming.

This arrangement was naturally not convenient for elder song to know, so he did not disclose this information to elder song.

He only said that the southeast province had already been placed under control. Although there were no clues for the time being, the safety of song Qiming's family was not a problem.

Elder song didn't doubt it. Although he was a little disappointed, he knew that Xia ruofei couldn't do everything. After all, the enemy was hiding in the dark. In order to find them, he needed both strength and luck.

Other than visiting elder Song, Xia ruofei also took the time to visit the Paradise gathering.

Firstly, he wanted to check on the progress of the construction, and secondly, he wanted to visit the set of the life I yearn for.

The recording of the program had been in progress, with a few days of rest in between.

Although it would take some time to finish the season's recording, xiangnan TV had already increased their publicity efforts. The first episode of this season, which was the one that Xia ruofei had participated in, would be shown to the audience soon.

Xia ruofei chatted with He Jiong, Huang Lei, and the others for a while during the filming. The director even came over to express his gratitude to Xia ruofei.

He was mainly grateful to Xia ruofei for cooperating with the publicity program. Xia ruofei's popularity on the internet was even comparable to some popular young male idols. If he posted a Weibo post to promote the program, the effect might be better than the program team promoting it ten times through other channels.

As for the director's gratitude, Xia ruofei just laughed it off. To be honest, he didn't do anything. That Weibo account was maintained by Qin Yanan and his team most of the time. Even for the show's

publicity, it was also communicated between Qin Yanan and the production team. Whatever content to be released was discussed by both sides. Xia ruofei didn't participate in it.

After returning to the liuhai Lane courtyard house from the Taoyuan Association, Xia ruofei stayed at home for another day. Then, he received a call from Zhao Yongjun telling him that he had arranged for a reliable subordinate to help Xia ruofei guard the warehouse in the suburbs of Beijing. Now that the supplies Xia ruofei ordered had arrived, he called to inform Xia ruofei.

Xia ruofei was overjoyed. He personally drove the Land Rover to the warehouse that Zhao Yongjun had rented for him.

The subordinate that Zhao Yongjun had arranged for help was called Xie Wei. He was truly loyal to Zhao Yongjun. These few days, he had moved his bedding and lived in the warehouse, not leaving for a single moment. When all the supplies had arrived, he reported to Zhao Yongjun immediately.

Xia ruofei expressed his gratitude to Xie Wei and even prepared a red packet with ten thousand Yuan.

Xie Wei kept rejecting Xia ruofei's Red packet.

After much persuasion, Xia ruofei finally forced the red packet into Xie Wei's hands with a straight face. Xie Wei thanked him profusely and accepted the red packet, feeling flattered.

After Xia ruofei had finished counting the supplies, Xie Wei handed the key to Xia ruofei and left.

Xia ruofei waited for Xie Wei's car to drive away before he locked the warehouse door from the inside.

As for the windows, Xia ruofei had already asked someone to paste matte stickers on them when they rented the room.

After locking the warehouse door, Xia ruofei carefully released his spiritual power to check the entire warehouse, including the ordered supplies, to prevent anyone from installing pinhole cameras or other monitoring equipment.

Even though he trusted Zhao Yongjun, he wasn't close to Xie Wei. The spirit map space was his most important secret, and Xia ruofei couldn't allow any risk of it being leaked.

He didn't find anything wrong with it after checking it with his spiritual power.

Only then did Xia ruofei put all the supplies into the spirit map space with relief.

This time, he had ordered a large number of materials. He had bought 30 mobile houses. Some of the other resources were also very heavy, such as some small construction machinery.

Hence, Xia ruofei could only collect them in batches. He spent about ten minutes to put everything into the medium.

The warehouse suddenly became much more spacious.

Xia ruofei used telepathy to order Xia Qing to bring Bao Guijun and the others to store the supplies separately.

As for the 30 mobile houses, Xia ruofei asked Bao Guijun and the others to do the preliminary assembly first. When it was time to hoist them, he would enter the space and use the invisible force of space to cooperate.

After arranging everything, Xia ruofei took out a big lock that he had prepared earlier from the space. Then, he opened the warehouse door a crack and walked out in a flash.

He took off the original lock from the door and threw it into the warehouse, then locked the warehouse door with his new lock.

Naturally, this was to prevent Xie Wei from duplicating the warehouse keys.

If Xie Wei took advantage of Xia ruofei's absence to come back and steal some things from the warehouse, he would be suspicious when he opened the door and found that the warehouse was empty.

As long as there was the slightest possibility of revealing the secret of the spirit map space, Xia ruofei would be very careful to eliminate this possibility.

He drove back to the courtyard in liuhai Lane, returned to his room, and tidied up a little. Then, he called Wu Qiang over.

"Wu Qiang, I'm going to a friend's place these few days, so I won't be coming back to stay." Xia ruofei said, "I might go back to the three mountains directly. You don't have to worry about me. If I come back, I'll let you know in advance."

"Okay, boss!" Wu Qiang said, "I'll go and prepare the car."

Xia ruofei waved his hand and said, "you don't have to send me off. I don't plan to drive. I still have something to do later." Alright, you don't have to worry about me, go and do your work!"

Wu Qiang didn't dare to ask any further. He nodded and said, "Okay, boss!"

Xia ruofei carried a small backpack and walked out of the front door of the siheyuan. After passing through liuhai Lane, he stopped a taxi and arrived at a commercial plaza nearby.

Xia ruofei walked straight to the washroom of the department store. When he came out again, he had changed his clothes. His backpack had been replaced with a boarding device. At the same time, his appearance had changed.

If Zhao Yongjun or Monica were here, they would be able to tell that Jian Jia and Xia ruofei were the same as Xia Tian, the fake identity he had used before.

After Xia ruofei had changed her appearance, she walked out of the shopping mall and waved for a taxi. She went straight to the Capital International Airport ...

Chapter 2350 The African continent (1)

An hour later, a Huaxia airlines plane with the national flag painted on its body took off from Beijing International Airport.

Xia ruofei was on the plane. His destination was Shen Cheng International Airport, which was hundreds of kilometers away.

Of course, Xia ruofei's final destination would not be Shen Cheng city.

In fact, he only stayed in Shen Cheng for a little more than an hour. He did not even leave the airport's restricted area. He directly took a plane from China Airlines to bolé airport Ethiopia's capital, Ethiopia.

Xia ruofei's final destination was arulei, a small country on the mainland of Africa.

However, many countries in China and Africa did not have direct flights. Some small countries in Africa had to transfer planes.

The boullé airport in Africa was one of the busiest airports in Africa. Many Chinese corporate employees who went to Africa for business trips would transit here. When they returned to the country, they would also transfer flights at boraine airport first.

Xia ruofei had booked an international flight from Hua Xia airlines. As the flight was more than twelve hours long, Xia ruofei had naturally booked a first – Class ticket.

In fact, the so – called luxury first – Class cabin was just like that. At most, the seats were more comfortable and spacious. In addition, the seats could be laid flat to become a bed. Of course, it was not as spacious as the bed at home. People who were slightly higher would have to curl up to sleep.

If not for the need to change his appearance, Xia ruofei would definitely choose a private business jet for such a long flight. Even if he had to refuel once on the way, the entire travel experience would definitely be more comfortable than taking a civil aircraft.

Of course, Xia ruofei was also born a poor child. He had been in the Army for so many years. Although the conditions were better now, he was not so pretentious as to not be able to stand sitting in a plane for more than ten hours. There were so many people who were reluctant to part with the expensive tickets and chose Economy Class!

It was already evening when the plane took off from Shen Cheng. When the plane climbed to the cruise altitude and the seat belt indicator light went out, it was already dark outside the porthole.

The air stewardesses also began to leave their seats to serve the passengers.

The service in the first – Class cabin was very thoughtful. The stewardess first brought blankets, toiletries, pajamas, headphones, and so on. Each first – Class passenger had one.

Then came the menu. Yingying could order in first class.

In fact, China Airlines even allowed people to order food online before traveling, but Xia ruofei didn't want to go through the trouble. After all, there weren't many choices. Besides, people's appetites would be reduced and their taste buds would become dull in the air. It didn't matter what they ate.

The first – Class meal was actually just a relatively high – Class in – Flight meal.

Xia ruofei casually ordered a few dishes and a glass of red wine, mainly for a more comfortable sleep.

Soon, the food he ordered was served. The plate presentation was quite exquisite, but the amount was a little small.

Xia ruofei quickly finished his dinner and sipped the red wine.

An air stewardess quickly came over and asked him softly if he wanted to eat anything else.

Xia ruofei waved his hand and said, "I'm full." Thank you for taking all these! By the way ... After you're done, can you help me lay down my seat? I'm going to rest. "

"Alright!" Said the air stewardess as she started to pack up.

Xia ruofei, on the other hand, went to the bathroom to brush his teeth and wash his face. He also changed into the cotton pajamas provided by the airline.

When he returned to his seat, the stewardess had already made his bed and brought him a small blanket.

"If I don't wake up, please wake me up in seven hours." Xia ruofei said.

"Yes, sir!" The air stewardess said respectfully, "good night!"

"Thank you!"

Xia ruofei snuggled under the covers, put on the headphones, and picked a movie from the multimedia system. After a while, he fell into a deep sleep.

About seven hours later, the air stewardess came to wake Xia ruofei up.

He rubbed his eyes and sat up. The plane was still flying steadily at the cruising altitude.

Xia ruofei looked out of the porthole and saw that it was still dark.

He got up and went to the bathroom to wash up and change his clothes. When he returned to his seat, the air stewardess had already restored the bed to the seat.

For the next three to four hours, Xia ruofei sat in his seat, feeling bored. As time Ethiopia five hours slower than in China, it was still midnight here even though it was almost morning in China. It was pitch black outside the porthole and he could not see anything.

At around 1 am local time, China Airlines 'giant Airbus landed smoothly at bolé airport in Ethiopia.

Xia ruofei picked up his small backpack and got off the plane.

The airport was not very busy in the early morning. The frequency of take – off and landing was much lower than during the day, and there were not many people in the terminal.

There were only two flights from bolé airport to arulei airport every day. The earliest flight was at noon the next day, so Xia ruofei had already booked a local hotel in advance and decided to rest for a while before boarding.

Therefore, besides arulei's tourist visa, Xia ruofei also applied for an Ethiopia visa.

Of course, this was all done in a short time with the help of Zhao Yongjun.
