

## God tier Farm 2421

Chapter 2421 Cultivator\_Pingan County, Wanyuan District.

In the duplex apartment on the top floor, Liu haojun walked out of the bathroom in a bathrobe. He went to the balcony and lay down on the recliner, looking at the sparse lights outside the window in boredom.

The penthouse apartment in Wanyuan District was definitely one of the best luxury houses in the area. However, to Liu haojun, it was no different from a slum. He had lived in luxury since he was young, and he felt that Pingan County, or rather, the entire Shaanbei province, was simply a barren land. Everything here made him feel extremely irritated.

These two days, Liu haojun would feel his heart palpitate from time to time, and his entire state was inexplicably anxious.

Liu haojun had originally wanted to bring Liu Feng to Shaanbei province to relax. Of course, the main reason was that he wanted to take the opportunity to vent his anger.

Unfortunately, Liu Feng had politely rejected his invitation. He had no choice but to return to Pingan County. Although he was now far away from the core of the family, he was still under house arrest. If he dared to stay out in the Main City, someone would immediately report it to the family. By then, he would be in even more serious trouble.

Although he had been sent away, at least he had a good guarantee of living. His monthly pocket money was much higher than most people's wages. Once his family cut off his financial source, Liu haojun's situation would be even worse.

Liu haojun felt inexplicably irritated. He couldn't help but take out a cigarette from his cigarette box and light it up.

He didn't notice that a black shadow flashed past in the night. Without alerting anyone, it had already arrived at the downstairs of the apartment.

The black shadow did not go through the building's door that was installed with a security guard. Instead, it went directly to the water pipe that was installed on the outer wall. After a short pause, it climbed up the water pipe.

Under the cover of the night, no one noticed this black shadow.

On the roof of the opposite building, a pair of bright eyes were staring at the black shadow. His eyes followed the black shadow as it climbed up.

The black shadow was like an agile monkey, using the air conditioner, the edge of the balcony, the drainage pipe, and all the other places that he could borrow strength from. He almost did not stop, and he kept jumping and climbing up at a very fast speed.

After a while, the black shadow had reached the top floor and grabbed the edge of the balcony with both hands.

He exerted strength in both his hands and waist at the same time, and his entire body flipped over, nimbly jumping onto the balcony.

Liu haojun was half – lying down and smoking. He was facing the balcony.

When the black shadow suddenly appeared in front of him, he was suddenly startled. He subconsciously sat up straight from the recliner and asked in a trembling voice, ""Who is it?"

Liu haojun saw a man in a black shirt and pants stand up on the balcony and walk toward him.

The Man in Black was wearing a mask, and only his eyes and nostrils were exposed. It was impossible to tell what he looked like.

However, Liu haojun felt a sense of familiarity from this person's figure, especially his eyes. Liu haojun felt that he had seen them before.

The Man in Black didn't say anything. He just looked at Liu haojun with a complicated expression, and then shot toward Liu haojun in a flash.

Liu haojun was so scared that he rolled down from the reclining chair and staggered in the direction of the bedroom. He staggered to the drawer of the bedside table and put a pistol in it. It was a Browning pistol that he had gotten through special channels. It was a treasure collected by many gun lovers and could also be used for self – defense.

The public security in Pingan County was pretty good. Liu haojun also had bodyguards to protect him. However, the bodyguards lived in the apartment downstairs and would only follow him when he went out.

It was precisely because of the good security here and the fact that Liu haojun couldn't go out and drink like he used to, that he naturally couldn't carry a gun with him.

From the living room to the bedroom, they had to climb a flight of stairs.

Naturally, the Man in Black would not give Liu haojun that much time. In a flash, he sped up and caught up with Liu haojun at the stairs.

The Man in Black put one hand on Liu haojun's shoulder and exerted a little force.

Liu haojun, whose body had been hollowed out by wine and women, suddenly felt an irresistible force, and he fell back involuntarily.

The Man in Black put his arm around Liu haojun's shoulder and turned around at the same time. A cold light flashed between the fingers of his other hand as he quickly attacked Liu haojun's chest.

The Man in Black's palm had already touched Liu haojun's chest. A blade had just avoided his ribs and directly pierced Liu haojun's heart without any obstruction.

The Man in Black slashed again, and Liu haojun's face froze in fear. His eyes were filled with disbelief.

At this time, the Man in Black moved closer to Liu haojun's ear and said softly, ""Haojun, don't blame me ... I'm only following orders ..."

Liu haojun's eyes suddenly widened, and he asked with difficulty, ""Brother Feng, W – why?"

The Man in Black was obviously Liu Feng. He didn't hide anything in front of Liu haojun, who was about to die. He only said with a trace of guilt, "I'm not sure ... But ... This is an order given by the higher – ups of the clan ... Haojun, you can rest in peace!"

After that, Liu Feng let go of Liu haojun gently.

At this moment, Liu haojun felt that all the strength in his body had been sucked out, and he fell to the ground softly.

Liu Feng's blade was very sharp. At this time, the wound on Liu haojun's chest opened up and blood began to flow out.

Chapter 2422 Cultivator\_ In a short while, the carpet under Liu haojun was covered with blood.

Liu haojun's eyes were wide open, and he twitched a few times in vain. His throat made a hissing sound, revealing a strong desire to live.

However, Liu Feng's knife was a fatal wound. Even if bianque was reborn, he could not save Liu haojun. After a few seconds of struggle, Liu haojun's consciousness sank into eternal darkness.

Liu Feng had been standing quietly in the room, his eyes filled with complicated emotions.

When Liu haojun stopped struggling, Liu Feng walked up to him and touched his neck. Then, he opened Liu haojun's eyelids and confirmed that his pupils had begun to dilate.

Liu Feng let out a long sigh and gently closed Liu haojun's eyes. Then, he jumped out of the balcony and quickly disappeared into the night.

Liu Feng did not know that all his actions were being monitored by Xia ruofei, who was on the roof of a residential building in the opposite District.

Xia ruofei used his spiritual power to investigate and witness the last few minutes of Liu haojun's life.

Xia ruofei finally heaved a sigh of relief when he found out that Liu haojun was dead.

Ever since Liu haojun had pestered Wu Liqian in Changping County of Sanshan city, Xia ruofei and Liu haojun's enmity had never stopped. This time, Liu haojun had hired an assassin to assassinate song Qiming. His motive had become an eternal mystery with his death. However, Xia ruofei speculated that it was likely to be a continuation of the enmity from that time.

Of course, Xia ruofei was not interested in knowing why Liu haojun wanted to kill song Qiming. Anyway, since he dared to do such a thing, he must be prepared to die an unnatural death. If he killed him directly, he would no longer be a threat.

Xia ruofei did not alert Liu Feng, who was running away quickly, nor did he plan to keep him.

Instead, he waited for Liu Feng to disappear into the night before leaving from the rooftop of the building.

It was already around nine o'clock in the evening. Xia ruofei did not rush back to Chang'an city overnight. He would not be able to catch the last flight back to the capital Tonight, so he decided to stay in Pingan County for the night and fly back to the capital city the next morning.

Hence, Xia ruofei decided to tour this famous small town in the Northwest with great interest. Finally, he came to the small mountain beside the Pingan River and sat cross – legged near the pagoda.

At this time, there were no more tourists in the pagoda Park. Xia ruofei was in a secluded place, so no one would disturb him.

He didn't plan to stay in a hotel.

Liu haojun's death tonight would definitely become big news in this small county. When the news spread back to the capital, it would probably cause a huge shock in the circle of rich and powerful people.

Nowadays, except for those small, informal hotels, most hotels needed to register their identity. Xia ruofei didn't want to appear frequently in places where things were going wrong with his Xia Tian identity. Otherwise, if someone really noticed him, he would have to give up his identity.

If "summer" appeared in Chang 'an city, it might not be too eye – catching. After all, it was a thousand – year – old ancient capital and a famous tourist city.

However, if "Xia Tian" happened to leave a record of his stay in a hotel in Pingan County on the night of Liu haojun's death, it would attract a lot of attention. In such a small county, there would not be many outsiders. A simple investigation would be enough to spot the problem.

Besides, there was another important reason why Xia ruofei came to the pagoda Park. He could feel that the spiritual Qi in this direction was denser than in many other places. He thought that he would not have time to cultivate today, so he decided to cultivate in the pagoda Park.

To a cultivator, it was nothing to cultivate the entire night without sleeping.

After Xia ruofei sat down cross – legged in the shadow of the tree, he took out a piece of essence crystal from the space. He skillfully operated the "great Dao formula" and began to absorb the pure spiritual Qi composition in the essence crystal to cultivate.

At the same time, the spiritual Qi around his body seemed to be attracted by a magnet, slowly gathering toward him.

Xia ruofei entered a state of cultivation. Time passed by slowly, and before he knew it, it was midnight.

At this time, in a small courtyard in the western suburbs of ping 'an County, a short middle – aged man with a small mustache sat up from the bed and walked to the courtyard to wash his face with the water in the basin.

Just as he was about to return to his room and start cultivating, he suddenly felt a very strong fluctuation of spiritual energy in the East. He couldn't help but let out an "eh".

The middle – aged man with a small mustache looked at it attentively, and then muttered to himself, "It's near the pagoda Park. Could it be ... A rare treasure has appeared?"

Chang 'an city was a thousand – year – old ancient capital. The surrounding counties and cities also had a historical heritage, including Pingan County. Under the nourishment of the thousand – year – old Emperor aura, the spirit Qi in these areas was richer than that of other places on earth. At the same

time, there had been records of rare treasures appearing in history. Therefore, the middle – aged man with the small beard was a little excited.

He couldn't be bothered with his cultivation. His figure flashed and he flew in the direction of the pagoda Park.

Xia ruofei, who was immersed in his cultivation, did not notice that the middle – aged man with a small mustache was approaching him from a few kilometers away. He was still circulating the “great Dao technique” over and over again. He could feel his cultivation level increasing bit by bit, constantly breaking through the bottleneck.

The bearded middle – aged man was very fast, and he arrived at the pagoda Park in about ten minutes. He sensed it for a while, and his face was full of joy. He muttered to himself, “The spiritual energy is so dense! It must be a rare treasure!”

After saying this, the middle – aged man with a small mustache increased his speed and headed straight for the place where Xia ruofei was cultivating.

Although Xia ruofei was immersed in his cultivation, he was cautious by nature and would not cultivate in the open without any preparations.

In fact, he had set up a simple array around the area. Once someone barged in, it would activate the spiritual power imprint he had left behind. This way, even if he entered a state of enlightenment, he would still be able to wake up immediately.

This kind of arrangement was actually just to prevent people from climbing mountains in the middle of the night, or any wild beasts from accidentally barging in. After all, this was not their home.

Xia ruofei did not consider the fact that he was a cultivator.

Up until now, other than Ling Qingxue and Song Wei, the only cultivators he had seen were Li Yifu and Manzila from Africa. Therefore, he guessed that due to the lack of spiritual energy, the cultivators on earth were almost extinct.

He didn't expect to meet a real cultivator in a small county in the Northwest today.

As there were no cultivators on guard, Xia ruofei's alarm array did not cover a large area. It only covered a radius of about ten meters.

Hence, when the bearded middle – aged man activated the formation and Xia ruofei woke up from his cultivation state, he was already a few meters away from Xia ruofei.

Xia ruofei opened his eyes and saw a man with a small beard staring at him. He was stunned.

The middle – aged man with the goatee was also surprised.

He also did not expect to meet a cultivator in Pingan County. However, his eyes were quickly attracted by the piece of origin crystal in Xia ruofei's hand.

Even though Xia ruofei was holding it in his hand, even though he had used it several times, the spiritual Qi within it was still so dense that it could not be dispersed.

The bearded man's eyes revealed a hint of greed.

It was difficult to cultivate on earth. Although the middle – aged man with the small mustache had better conditions than the average cultivator, it was his first time seeing a treasure like origin crystals.

Of course, the bearded middle – aged man did not know that this treasure was called origin crystal. With his experience, he had not had the opportunity to come into contact with such a high – end cultivation resource.

He glanced at Xia ruofei.

Although Xia ruofei looked very young, one could never judge a cultivator's age by their appearance. For example, this man with a small beard looked like a middle – aged man but he was actually over 60 years old.

The middle – aged man with a small mustache bowed slightly to Xia ruofei and said cautiously, "Fellow Daoist, I'm Liu chengfeng. May I know your name? Which celestial mountain and treasured land were they cultivating in? Why did you come to Pingan County?"

Chapter 2423 Eye – opening (1)

Hearing this, Xia ruofei raised his eyebrows and became alert.

In fact, the moment Liu chengfeng appeared, Xia ruofei had already sensed the aura of a cultivator from him.

This was completely different from the situation when he saw Manzila at the temple of arulei a few days ago. At that time, Manzila's cultivation level was quite low, and Xia ruofei did not expect a black man to actually step onto the path of cultivation, so he did not pay attention to him at all.

Facing this middle – aged man with a small beard, Xia ruofei could immediately sense that his cultivation was not low. At least, it was not lower than Li Yifu 'S. He might even have reached the sixth or seventh Qi layer.

To be able to cultivate to this level in such an environment with such poor spirit Qi on earth, he must be extraordinary.

Xia ruofei looked at Liu chengfeng warily and did not answer his question. Instead, he asked indifferently, "Do you need something?"

Liu chengfeng rolled his eyes and said with a smile, "Fellow Daoist, not long ago, we accidentally lost our sect's most precious treasure. This time, we senior and junior brothers came out specifically to look for it, but we didn't expect that fellow Daoist would pick it up. Fellow Daoist, please return this treasure to Zhao. Our falling leaves sect will definitely reward you greatly!"

Liu chengfeng had obviously taken a fancy to the crystal in Xia ruofei's hand. He had even deliberately pointed out that Xia ruofei had come with his fellow apprentices and conveniently mentioned his own sect. If it was an ordinary individual cultivator, most of them would not dare to provoke the falling leaves sect. They might even swallow their anger and admit that they were unlucky, handing over the treasure.

If the other party also had a sect and was on par with the falling leaves sect, they would definitely report their sect. At that time, Liu chengfeng would weigh the situation and at worst, say that it was a misunderstanding.

However, Liu chengfeng didn't expect that the person in front of him knew nothing about the current cultivation world. Xia ruofei of the fallen leaf sect and the floating leaf sect didn't know anything about it, let alone intimidate him with this.

Hearing this, Xia ruofei was stunned for a moment. Then, a playful smile appeared on his face. He waved the origin crystal in his hand and asked, ""You mean this?"

The smile on Liu chengfeng's face was extremely sincere. He said, ""Of course! Fellow Daoist, this is our Fallen Leaf sect's most precious inheritance treasure, how could I be wrong?"

As Liu chengfeng spoke, he took a few steps closer to Xia ruofei.

He was very envious of this treasure and had long wanted to take it by force. Thus, he had intentionally or unintentionally blocked Xia ruofei's escape route in advance.

Xia ruofei asked with a faint smile, "since you say it's yours, then tell me, what's the name of this treasure?" What's its magical effect?"

Liu chengfeng lied without hesitation, ""This item is called the spirit accumulation Pearl. It will take the initiative to absorb the spiritual Qi of heaven and earth, and it has a great auxiliary effect for cultivation. Of course, the spirit accumulation Pearl has some other wonderful uses, but that's our Fallen Leaf sect's Secret, so there's no need to tell others ..."

Xia ruofei was both angry and amused. This was the first time he had met a strange cultivator. At first, he was curious about the cultivators that might exist on earth. He did not expect to meet them in person after hearing about them. When cultivators were shameless, they were even more shameless than ordinary people!

In addition, modern cultivators seemed to have very ordinary vision! It was clearly just a piece of origin crystal, yet he actually couldn't recognize it, and even forcefully called a cultivation – aiding consumable a spirit accumulation Pearl, and even said it so clearly and logically.

Xia ruofei was also speechless.

Liu chengfeng took the opportunity to take a few steps closer and said, ""Fellow Daoist, the world's most precious treasures belong to the virtuous. This is a treasure of my fallen leaves sect. Fellow Daoist, please return it to its original owner, otherwise it may bring disaster to fellow Daoist!"

Liu chengfeng's words were full of threat.

Xia ruofei took a step back and said, ""If you go any further, I'm going to crush this so – called spirit accumulation Pearl!"

Liu chengfeng immediately stopped and pressed his hands down. ""Fellow Daoist, don't be rash! Don't be rash! We can discuss this ..."

Xia ruofei smiled and said, "is this a discussion?" It's clearly mine, but you're actually so calm and composed. You're twisting the truth in front of me, how is this different from a Bandit? Could it be that your fallen leaves sect is a den of bandits?"

"Impudent!" Liu chengfeng tore off his hypocritical mask and said fiercely, "you dare to insult my sect? you're dead! I advise you to obediently hand over the treasure with both hands and I might spare your life!"

Xia ruofei's face was filled with mockery. He tossed the origin crystal in his hand and said, "Isn't that right? If you want the origin crystals in my hands, just say it! Why do you need to go through such a big round?"

Liu chengfeng's expression changed slightly. He couldn't help but widen his eyes and mumble to himself, "These are origin crystals? There are still origin crystals in the cultivation world?"

It wasn't that Liu chengfeng didn't know about origin crystals. It was just that they were legendary top – grade supplementary resources. The fallen leaves sect was considered a considerable force in the modern cultivation world. However, in the past few decades, the fallen leaves sect only had one spiritual crystal, not to mention origin crystals. This only spiritual crystal was naturally in the sect leader's possession.

Even the sect master treated this spiritual crystal as a family heirloom and was reluctant to use it for cultivation.

If spirit crystals could enjoy such treatment, then origin crystals, which were a grade higher than spirit crystals, were even more so.

Liu chengfeng had never seen what a real origin crystal looked like.

At this moment, his heart was in turmoil, "it's actually origin crystals ... I was wondering what kind of treasure could have such dense spiritual energy!" I can't believe I, Liu chengfeng, have such luck! After obtaining this origin crystal, there was hope for him to reach the Golden core stage in this life!

Xia ruofei looked at Liu chengfeng, who did not even bother to hide his greed, and sneered, "Didn't you just say that this is some spirit accumulation bead?"

"Cut the crap!" Liu chengfeng was furious. Hand over the origin crystals obediently, and I'll spare your dog life! Do you think you're worthy of such a treasure?"

Xia ruofei's "great Dao scroll" was special, and his spiritual power cultivation had crossed a large realm, reaching the spirit gathering realm. Therefore, Liu chengfeng's sense of Xia ruofei's cultivation was somewhat vague. However, Xia ruofei looked so young. Although cultivators often looked younger than their actual age, it was rare to see someone this young.

Hence, Liu chengfeng subconsciously assumed that Xia ruofei's cultivation level was not very high. Even if Xia ruofei had a treasure like the origin crystal, Liu chengfeng was confident that with his seventh Qi layer cultivation, he could definitely defeat him.

Liu chengfeng then sneered and said, ""If you didn't say that these are origin crystals, I would still be a little afraid, afraid that you would really destroy the treasure in your desperation. But since they're origin crystals, there's nothing to be afraid of ..."

The origin crystal was indestructible, and Qi refining cultivators couldn't destroy it at all, so Liu chengfeng naturally didn't have to be cautious.

After saying this, Liu chengfeng let out a soft cry and used his spiritual power to suppress Xia ruofei.

Xia ruofei only felt a little dizzy. The spiritual power in his sea of consciousness immediately trembled and actively resolved the discomfort.

Xia ruofei looked interested and said to himself, ""Eh? Spiritual power can be used in this way?"

Xia ruofei's current cultivation was close to refined Qi level 9. His spiritual power had broken through a major realm and reached the spirit gathering realm. However, he was still lacking in combat experience.

Of course, the battle experience here referred to the battle between cultivators.

In addition, the 'great Dao Arts' was a cultivation technique that pointed straight to the end. It did not involve any specific battle techniques, cultivation methods, or battle skills. Because in the eyes of the Almighty who created this cultivation method, the Qi refining stage was only the stage to lay the foundation. At this stage, what the cultivators needed to do was not to fight, but to constantly lay a solid foundation. The more solid the foundation, the longer the road of cultivation could be.

However, this had also caused Xia ruofei to be very careless in the use of his genuine Qi and mental energy.

For example, in terms of spiritual power, Xia ruofei only knew how to use spiritual power to hypnotize people. This was only a small trick. Xia ruofei did not know how to use spiritual power in a real battle.

Liu chengfeng's spiritual power attack had opened a door for Xia ruofei.

Liu chengfeng's spiritual power wasn't very high. It was probably at the spirit throb stage, equivalent to a cultivator at the fifth or sixth Qi layer. However, his use of spiritual power was much more refined than Xia ruofei's.

Xia ruofei thought to himself, "I didn't know that the use of spiritual power could be so exquisite. Several strands of spiritual power can actually produce such a great amplification effect by arranging and combining them ... The path of cultivation is indeed vast and profound. There is no end to learning!"

Xia ruofei was subconsciously analyzing Liu chengfeng's spiritual power attack and rehearsing it in his mind. His spiritual power had always been much stronger than Liu chengfeng's, so Liu chengfeng's spiritual power attacks were no secret to him.

After Liu chengfeng released his spiritual pressure, he saw Xia ruofei mumble something to himself and then fall into a daze.

He didn't know that Xia ruofei was just excited. He thought that the spiritual intimidation had taken effect and caused Xia ruofei to fall into a dazed state.

This was an opportunity that could not be missed! Liu chengfeng's mind flashed with an idea, and he immediately moved forward and slapped Xia ruofei.

Liu chengfeng didn't hold back in this attack. He poured genuine Qi into his palm and with a strong wind, he attacked Xia ruofei as fast as lightning.

At this moment, Xia ruofei glanced at Liu chengfeng from the corner of his eye. Then, he tried to copy Liu chengfeng's method and released his spiritual power to cover Liu chengfeng.

When the spiritual power came out of his body, Xia ruofei could feel that his spiritual attack had doubled! In other words, Xia ruofei's spiritual attack power had doubled through a simple arrangement.

Of course, this was not a simple arrangement. In theory, there could be countless combinations of spiritual power combat techniques, and most of these countless combinations would definitely have no effect, and might even affect the normal effect. Only a few combinations could have an amplification effect.

These combinations were naturally discovered by generations of cultivators. If Xia ruofei were to experiment bit by bit, he might not be able to find a spiritual power combat skill that could double the spiritual power even after a long time.

Liu chengfeng's eyes were filled with passion and greed as he attacked Xia ruofei.

He could almost see his cultivation advancing by leaps and bounds after he obtained this origin crystal.

However, just as Xia ruofei glanced at Liu chengfeng indifferently, he suddenly felt a buzzing sound in his head. The next moment, a powerful spiritual pressure suddenly enveloped him ...

#### Chapter 2424 The world of cultivation (1)

At that moment, Liu chengfeng felt a huge pressure. Under the pressure, his head felt like it was going to explode, and he almost lost all ability to think.

However, Liu chengfeng had been cultivating for decades. Unlike Xia ruofei, he had a lot of battle experience, so he had made a defensive response almost subconsciously.

However, the difference in their spiritual power was too great.

Xia ruofei was at the spirit gathering stage, while Liu chengfeng had only reached the spirit throb stage. Crossing a major realm was an absolute suppression. Besides, Xia ruofei was learning and applying it now. He had imitated Liu chengfeng's spiritual power combat technique by 70 – 80%, and his spiritual power attack had almost doubled.

Liu chengfeng gritted his teeth and held on. He felt like a small boat floating on the stormy sea, in danger of capsizing at any time. The other party might be able to kill him with just his spiritual power.

Liu chengfeng finally realized that he seemed to have kicked an iron plate, and his heart was filled with regret.

A thought appeared in his mind: Could it be that the person in front of him was an old monster who had hidden himself from the world?

In the sect's ancient records, there were also records of some senior experts. These people usually did not appear in the world easily, but each and every one of them had a terrifyingly high cultivation.

Once a cultivator reached the Yuanying stage, they could change their appearance at will, and even low – Level cultivators couldn't see through it.

The moment Xia ruofei released his spiritual power, he showed a crushing force. It seemed very easy, which made his previous performance seem even more like a cat playing with a mouse.

It was no wonder that Liu chengfeng would have such an idea.

Liu chengfeng wanted to beg for mercy, but he couldn't even open his mouth now. He could only clench his teeth and hold on. At this moment, he was so regretful that his intestines were turning green.

Liu chengfeng could feel his bones creaking. Once his spiritual power reached a certain level, he could completely crush his opponent into meat paste with just pressure.

This was Liu chengfeng's current situation. If it weren't for his strong body and his spiritual power, which had reached the spirit throb stage, his bones and armor would have been broken inch by inch.

As time passed, the despair in Liu chengfeng's heart continued to grow. His spiritual power was almost exhausted, but the spiritual pressure from his opponent did not weaken at all. Xia ruofei looked extremely relaxed and even had a faint smile on his face. It was obvious that he still had some strength left.

Just when Liu chengfeng felt that he was about to be suppressed to death by his spiritual power, he suddenly felt his body relax. The spiritual power that had made him despair had disappeared.

Liu chengfeng fell to the ground, his clothes soaked in sweat. His eyes were filled with extreme fear. He panted heavily and said to Xia ruofei, "Senior, this junior was blind. Please spare my life ..."

With such terrifying spiritual power and the legendary origin crystal, which was a cultivation – aiding treasure, in Liu chengfeng's mind, Xia ruofei was definitely an old monster who had not left the mountain for hundreds of years. He might even be a nascent soul old monster.

Xia ruofei's face was uninterested. He pouted and said, "Too weak! You can't hold on anymore?"

Liu chengfeng didn't even dare to raise his head. He could only keep begging for mercy.

In fact, he didn't know that the person in front of him was not a nascent soul old monster! In fact, Xia ruofei's cultivation was slightly higher than Liu chengfeng's, but not by much.

Xia ruofei's cultivation was close to refined Qi level 9, and Liu chengfeng had already reached refined Qi Level 7.

Although there was a huge gap of two levels, Xia ruofei did not practice any combat skills. If Liu chengfeng had not used his spiritual power to suppress Xia ruofei at the beginning but had used combat skills directly, the outcome of the battle would have been uncertain.

However, Liu chengfeng wanted to be more relaxed and chose the most disadvantageous method. In the end, not only did he fail to suppress Xia ruofei, but he also allowed Xia ruofei to master some spiritual power combat techniques and was crushed.

Liu chengfeng's mind was on the verge of collapse. He couldn't even muster up any will to resist.

"You're Liu chengfeng, right?" Xia ruofei said indifferently.

"Yes, I am a disciple of the fallen leaves sect ..." Liu chengfeng said with a trace of hope.

Of course, the sect was just a glimmer of hope for him. In fact, although the fallen leaf sect used to be very glorious, in recent decades, the Earth's spiritual energy had been barren, and the strength of the fallen leaf sect had also declined.

Not only the fallen leaves sect, but the entire cultivation world was facing the problem of a lack of cultivation resources.

Furthermore, some of the sect's former experts had disappeared without a trace for unknown reasons, which had also caused a great impact on the sect's strength.

The current sect master of the falling leaves sect was only a late Jindan.

This was also because the fallen leaves sect had saved a lot of resources for thousands of years, which was why they were able to create Jindan cultivators.

After passing on the cultivation to this generation, some of the resources of the fallen leaves sect were almost exhausted, and the phenomenon of the sect's lack of talent was becoming more and more serious.

The one in front of him was most likely a nascent soul old monster, or at the very least a golden core cultivator. Liu chengfeng had no confidence that the name of the falling leaves sect would be able to make him fear him.

However, at this point, he could only make a last resort.

After hearing Liu chengfeng's words, Xia ruofei's voice turned cold. He asked indifferently, "Do you think I should be afraid of your falling leaves sect?"

"I wouldn't dare!" Liu chengfeng quickly replied in fear. He didn't dare! I have misspoken, please forgive me, senior!"

"Raise your head!" Xia ruofei said coldly.

Liu chengfeng raised his head uneasily, but he did not dare to meet Xia ruofei's eyes.

With a thought, Xia ruofei summoned the blue travel immortal sword from his dantian.

The flying sword danced around him like a fish. Liu chengfeng was shocked when he saw it.

It was actually a flying sword! Furthermore, one could tell that the flying sword was of very high quality.

How long had it been since such a high – grade flying sword had appeared in the cultivation world?

Although a small number of golden core cultivators in some sects also had flying swords, compared to this senior's flying sword, those flying swords were simply fire sticks!

The sect leader of the falling leaves sect also had a flying sword. This was the only flying sword the sect had, and it was their true treasure. It was completely different from the so – called “spirit accumulation Pearl” that Liu chengfeng had just casually fabricated.

But with just a glance, Liu chengfeng knew that this senior's flying sword was more than one grade higher than his sect master 's!

This further confirmed Liu chengfeng's judgment. If he wasn't a reclusive nascent soul old monster, how could he have crystals and high – grade flying swords? These things were almost extinct in the current cultivation world!

Xia ruofei said playfully, “young one, you've offended me. Tell me ... How should I punish you?” Do you want to leave an arm or a leg? Or should I just turn you into a human stick?”

“Senior, please spare me! Senior, please spare my life!” Liu chengfeng kneeled on the ground and kept kowtowing for mercy with a sad face.

At this moment, Xia ruofei's eyes lit up. He used his spiritual power to crush Liu chengfeng. This time, his spiritual power was stronger than the one Xia ruofei used in the battle. He was not holding back at all.

Liu chengfeng did not dare to move at all. He had long given up on resisting. So, almost instantly, he was dragged into a Deep State of hypnosis by Xia ruofei.

This was also because he was scared out of his wits by the spiritual power confrontation just now. Otherwise, with his cultivation of the palpitating stage, Xia ruofei would not have been able to hypnotize him so easily. Some time ago in Africa, Xia ruofei had to spend a lot of time and effort to successfully hypnotize even Manzila, who had just entered the threshold of cultivation.

Liu chengfeng's eyes became dull.

Under the investigation of Xia ruofei's spiritual power, there was no way for him to hide whether the other party was really in a state of hypnosis.

Xia ruofei showed a satisfied smile and asked, “Let's talk about the current situation in the cultivation world! Let's start with your fallen leaves sect ...”

Liu chengfeng said without hesitation, “Yes! Reporting to senior, the fallen leaves sect has been passed down for more than a thousand years ...”

The conversation went on for more than an hour before Xia ruofei finally finished.

Through this hypnosis session, Xia ruofei had finally gotten a lot of information about Huaxia's cultivation world from Liu chengfeng.

Nowadays, the cultivation world had few talents and cultivation resources. Many sects had not entered the world for a long time. However, with the deterioration of the cultivation environment, whether these sects were constantly entering the world in search of an opportunity to break through, or had

closed their gates to form their own system, they could not avoid the cruel reality of their strength declining.

In the current cultivation world of Huaxia, the five major sects were the strongest.

Other than Liu chengfeng's fallen leaves sect, there were four other sects: the five elements sect, the Jade sword sect, the nine suns sect, and the dry Zen temple.

The five major sects all had golden core stage cultivators in charge and were considered the leaders of the cultivation world in Huaxia.

However, the five great sects were also struggling to hold on, and the environment was deteriorating day by day. The living conditions of the other small sects were even worse.

It could be said that the entire cultivation world was currently living a hard life.

Other than news about the cultivation world, Xia ruofei also asked about combat skills.

Liu chengfeng didn't hold anything back either. He told Xia ruofei everything, be it the sect's Secret or the battle technique he had obtained by chance.

This opened a new door for Xia ruofei.

It turned out that in addition to mental power being able to be amplified through a specific combination, there was also a similar method for true Qi. Mental power and true Qi could even be used together. Many long – range attack unique skills involved the problem of the combination of mental power and true Qi.

Of course, when Xia ruofei had asked about the overall strength of the cultivation world, Liu chengfeng had not only explained the current situation of the sects in detail, but also told him that there were many Senior Masters who had hidden from the world. The strength of these people was unknown, but there were definitely some who were stronger than the Golden core Masters of the five major sects.

This idea was deeply rooted in Liu chengfeng's mind, especially after the battle with Xia ruofei's spiritual power. Therefore, even under hypnosis, Liu chengfeng still insisted on this idea.

After Xia ruofei finished asking, he withdrew his spiritual power.

Just as Liu chengfeng woke up and heaved a sigh of relief, he immediately felt a wave of majestic spiritual energy pressing down on him.

Liu chengfeng was dejected. He thought that he was of no value to Xia ruofei, and now the other party was ready to kill him.

However, he didn't feel death approaching. Instead, he felt the world spinning ...

Chapter 2425 Sense of urgency (1)

Xia ruofei immediately put Liu chengfeng into the spirit map space and set up a space cage to imprison him.

Actually, with Liu chengfeng's spiritual power cultivation, if he had resisted, Xia ruofei would not have been able to put him into the medium so easily.

However, Liu chengfeng had been scared out of his wits in front of a "nascent soul old monster", and he could not even muster up any will to resist.

That was why Xia ruofei had gently brought Liu chengfeng into the medium.

When Liu chengfeng came back to his senses, he found that he had been imprisoned.

As Liu chengfeng was a cultivator, Xia ruofei was not sure how well he had mastered the rules of space. Hence, this space cage was much more secure than the ones used to imprison ordinary mercenaries.

Furthermore, Xia ruofei had specially extracted all the spiritual Qi in the space cage. He did not want Liu chengfeng to use his spiritual Qi to cultivate in the space.

After Liu chengfeng realized his situation, he was even more disheartened. He was so remorseful that he wanted to bang his head against a wall.

It was a pity that there were no walls here. There were invisible but extremely tough spatial membranes all around.

Liu chengfeng's knowledge was naturally different from those ordinary people. Even a half – baked cultivator like Manzila was an absolute rookie in front of Liu chengfeng.

Although Liu chengfeng's cultivation wasn't very high, he was a true disciple of the sect and had cultivated for decades. So he quickly realized that he had been imprisoned by the senior.

This at least explained two things:

First, that senior's cultivation was much, much higher than his. He could easily drag him into the confined space and torture him. Of course, this was actually Liu chengfeng's illusion. The actual reason was that his mind was in a mess, and he did not have the heart to resist.

Second, this senior actually had a magical treasure that was similar to a heavenly abode.

Especially the second point, which completely shocked Liu chengfeng. He even forgot to worry about his situation for a short time.

Grotto – heaven type magic treasures were treasures that rarely appeared even in legends.

Even in the prosperous era of cultivation, such a magic treasure was priceless. Even nascent soul cultivators rarely had one.

Although Liu chengfeng was still trapped in a small space cage and didn't know how big the space Inside the Magic treasure was, it was enough to cause a shock in the cultivation world.

Taking ten thousand steps back, even if it wasn't a magical treasure that could imprison a living body, even if it was a storage ring with such a large space, it would be enough to cause a large number of experts in the cultivation world to fight for it.

If Liu chengfeng knew that the space that the spatial cage occupied was only one – thousandth or even one – hundred – thousandth of the entire spirit map world, his jaw would probably drop.

However, it was impossible for him to know so much for the time being, because Xia ruofei had no intention of dealing with the spirit map space now. Even the one or two hundred people he had captured in Africa were all locked up in the space cage and were barely surviving on the basic living resources provided by Xia Qing!

Xia ruofei did not let the spirit map space absorb the huge realm stone either.

He was prepared to return to the capital and deal with these matters when he was absolutely safe.

This was especially so when it came to absorbing world stones. After all, the spirit map space might be upgraded again after absorbing the world stones. With the expansion of the spirit map space, the time required for each upgrade would also become longer and longer. During the process of the upgrade, the stability of the space would be worse than usual, and there might even be a situation where the space could not be used temporarily.

Hence, when Xia ruofei was outside, he had to try his best to avoid such a situation.

For example, this time, he had come to the Shabei province. He had not expected to meet a cultivator who wanted to snatch the origin crystals from him.

If the spirit map space couldn't be used now, he wouldn't have been able to put Liu chengfeng into the space.

Xia ruofei only had one choice, and that was to kill Liu chengfeng.

Although Xia ruofei had changed his appearance this time, cultivators could usually recognize each other by their aura. Liu chengfeng had a sect background and there were golden core cultivators in his sect. He was not a match for him at the moment.

No matter what, Xia ruofei would not let Liu chengfeng go. It would be a safety hazard.

This was under the condition that Liu chengfeng was not strong enough. If Xia ruofei had encountered a cultivator who was stronger and more experienced than him, Xia ruofei would have had to run away.

The spirit map space was also a hidden weapon when he was escaping.

Without this weapon, Xia ruofei's safety was not guaranteed.

Hence, Xia ruofei would not rashly choose to upgrade the spirit map space when he was out.

After he put Liu chengfeng into the medium, he didn't leave the pagoda Park immediately. Instead, he moved to a deeper part of the forest where there were fewer people. He set up a new alarm array, sat down cross – legged, and continued to cultivate.

This time, Xia ruofei was even more alert. He had set up an alarm array 30 meters away so that he would be able to detect any cultivators earlier if they appeared.

Of course, Xia ruofei had interrogated Liu chengfeng through the deep hypnosis and knew that Liu chengfeng was acting alone this time. There were no senior or junior brothers around.

## Chapter 2426 Sense of urgency (2)

Otherwise, he would have left in the middle of the night without any hesitation after capturing Liu chengfeng.

Xia ruofei held the crystal in his hand and cleared his mind of all the distracting thoughts. He quickly entered a state of cultivation.

The “great Dao Arts” was a top – tier cultivation technique. Although it focused on building the foundation in the early stages and did not involve much actual combat content, it was still the most suitable cultivation technique for Xia ruofei.

With the “great Dao Arts” as the main cultivation and the “absolute beginning Heart Sutra” as the supplementary cultivation, in addition to the large amount of cultivation resources at hand, Xia ruofei’s cultivation had improved rapidly.

Liu chengfeng’s sudden appearance had given Xia ruofei a sense of urgency.

He didn’t know much about the modern cultivation world. In addition, the cultivation environment on earth was so harsh that he had hardly met any other cultivators in the past two years. Therefore, he had always had a more Buddhist attitude when it came to cultivation and didn’t have a strong desire to improve.

Liu chengfeng’s appearance made Xia ruofei feel a sense of danger.

Although the cultivation world was declining day by day, their strength was still not to be underestimated.

Xia ruofei’s current cultivation was far from being invincible. Moreover, he was alone. Even if Li Yifu, Song Wei, Ling Qingxue, and even Tang Haoran were to be considered, they wouldn’t be considered a powerful force. When he encountered a sect like the fallen leaves sect, he had no chance of winning.

Xia ruofei also believed that as the cultivation of himself and the people around him increased, it was inevitable that he would have to deal with people in the cultivation world.

Cultivators like Liu chengfeng were very likely to be a typical example of greed in the cultivation world, who would do anything to improve their cultivation.

Compared to the world of ordinary people, the rules in the world of cultivation were obviously more realistic and crueler. The law of the jungle was an irrefutable truth here.

Of course, Xia ruofei didn’t want to become the ‘weak’ in the cultivation world because of his lack of cultivation.

Moreover, he had a super treasure like the spirit map space. If there was a slip – up in any part of the process and the news was leaked, the entire cultivation world would definitely rush over like a cat that had smelled the fish. With his current cultivation, he would definitely not be able to resist it.

An ordinary man is innocent, but he is guilty of treasuring a treasure.

As long as his cultivation reached a level that no one else could match, then even if the whole world knew that he had a rare treasure like the spirit map painting scroll, no one would be able to take it away from him.

Xia ruofei cultivated with such thoughts.

His cultivation had already reached a small bottleneck. Once he broke through, he would be refined Qi level 9.

Xia ruofei decided to work hard on his cultivation and at least break through this small realm.

While cultivating, one could not feel the passage of time.

It was not until the next morning, when the sun shone on his body, that Xia ruofei slowly opened his eyes.

The clothes on his body were already wet from the dew, but his entire person was refreshed.

After a night of cultivation, he felt that his cultivation had improved a lot. Refined Qi level 9 was already close at hand. He felt that he had touched the bottleneck of that level. Perhaps he only needed an opportunity to break through in one go.

Xia ruofei was very satisfied with the results of his cultivation.

He stood up and moved his hands and feet while releasing a trace of true Qi to dry the water on his clothes.

Then, Xia ruofei left the mountain.

After walking for a while, Xia ruofei arrived at the trail of the pagoda Park. There were already some people jogging there.

Xia ruofei jogged down the mountain like a person doing his morning exercise. He greeted the runners with a smile.

After leaving the pagoda Park, Xia ruofei hailed a taxi and returned to Chang 'an city.

He had bought a plane ticket back to Beijing with his mobile phone while he was in the car.

There were still about three hours before the plane took off, so Xia ruofei asked the taxi driver to drive directly to the airport.

After changing his boarding pass, Xia ruofei had a simple breakfast at the airport. It was not too early. It was already past nine in the morning.

After that, he passed through the security check and waited for a while in the VIP lounge before boarding.

Xia ruofei had booked a first – Class ticket for the return trip. The journey was smooth, and there were no bumps. After three hours, the plane landed smoothly on the runway of the Capital International Airport.

After Xia ruofei left the airport, he found a place to change into his original appearance and then took a taxi back to the courtyard house in liuhai Lane.

Xia ruofei had just returned to the master's courtyard. He was about to take a shower, close the door, and go to the medium to deal with the staff. Just as he took off his coat, his phone rang.

Xia ruofei had left his phone on the coffee table in the living room when he entered.

He reached out and easily took the phone. He glanced at the caller ID and saw that it was song Rui.

Xia ruofei picked up the call. Before he could say anything, song Rui asked, "Have you heard?"

Xia ruofei was confused and asked, "Heard what? Did you just wake up in the afternoon? You speak without thinking ..."

Song Rui was not in the mood to argue with Xia ruofei. He said directly, "Liu haojun is dead!"

"What?" Xia ruofei pretended to be surprised and raised his voice.

"Liu haojun! The eldest grandson of the Liu family! He's the one who just left the southeast province!" Song Rui said, "he died! Last night ..."

"What's the situation?" Xia ruofei said, "it can't be ..."

"How is that possible? That grandson doesn't know how to be afraid of death!" Song Rui said disdainfully, "he was killed by someone! The technique was quite professional! He dodged the ribs and cut his heart with a sharp blade ... Tsk tsk! Who knows how many people this guy has offended ... He's already been sent to Shaanbei, but he still won't let him go and wants to take his life. How much hatred does he have?"

Of course, song Rui wasn't feeling sorry for Liu haojun's death. On the contrary, his tone more or less had a hint of gloating.

Xia ruofei laughed and said, "you're really well – informed!" Last night's incident happened in xiabei province. You actually found out so quickly and even knew so many details!"

Xia ruofei had personally witnessed the entire process of Liu haojun's death. Naturally, he knew that song Rui's information was very accurate.

In just one night and half a day, the news had already spread like wildfire in the capital's circle.

Xia ruofei felt that the Liu family had intentionally spread the news. If the Liu family had wanted to hide it, this matter would not have been spread.

Perhaps the Liu family wanted to show the song family that they had done what they had promised.

Moreover, it should more or less carry some resentment, and could also win some sympathy.

Now Xia ruofei knew that people like old master Liu would squeeze everything dry, no matter what it was, even if it was the news of his own grandson's death.

Song Rui laughed and said, "What is this?" I'm known as an all – knowing scholar in the circle, so there's nothing that can be hidden from me! Liu haojun, this grandson, used to be very arrogant! He thought

that he had a bright future ahead of him, so he looked down on us good – for – nothing scions. I didn't expect that in just a few months, our official careers would be cut off, and then we'd even lose our lives. How pitiful ..."

Xia ruofei said, "song Rui, stop gloating!" Also, don't get involved in Liu haojun's matter! We don't care what others say, but don't get involved! We just have to do our own things well and earn our money! Also... We have to learn from the fact that we're always being treated like a joke, or we'll become a joke in the eyes of others sooner or later!"

Song Rui was stunned for a moment and said, "ruofei, why do you speak like my dad today?" I'm just sharing some happy things with you, why are you being so serious?"

Xia ruofei said seriously, "song Rui, listen to me. From now on, don't discuss Liu haojun's matter. Don't spread it either. I can't tell you the reason. Just pretend you don't know." If you don't believe me, you can go back and ask Grandpa song. He'll definitely ask you the same thing!"

Liu haojun's death was more or less due to elder song's personal pressure. Although the Liu family was in the wrong first, he was dead after all. If song Rui continued to talk about this matter in a high – Profile manner, the Liu family would definitely hate the song family even more. Song Rui might even be at a disadvantage. Hence, Xia ruofei thought of this and immediately reminded song Rui.

#### Chapter 2427 Strong intimidation (1)

Although song Rui was usually arrogant, he was, after all, a child of a big family. After being influenced for so many years, as long as he was not an idiot, he still had this basic sense of sharpness.

Hence, after hearing Xia ruofei's words, song Rui fell into deep thought. After a while, he said, "I know, don't worry! I know what to do!"

"It's good that you understand!" Xia ruofei said, "alright, I'm busy! If there's nothing else, I'll hang up first!"

"What are you busy with all day?" Song Rui couldn't help but complain again, "the clubhouse is almost completed, but I've only seen you come a few times! I'm always busy ..."

Xia ruofei laughed and said, "I'm someone who does great things!" How could they pay attention to a small project like the club every day? Besides, with you brothers here, what do I have to worry about?"

"Does your conscience not hurt?" Song Rui rolled his eyes and asked.

Xia ruofei and song Rui bickered for a while before hanging up the phone.

He went into the bathroom and took a hot bath. After changing into comfortable cotton home clothes, he locked all the doors and windows. Then, he set up an alarm array in the house before returning to the bedroom and summoning the spirit map scroll from his palm.

Xia ruofei stuffed the scroll into his blanket and entered the space.

Ever since he met the modern cultivator last night, Xia ruofei had become more cautious. In the past, he would lock the door and windows tightly and at most leave a trace of his spiritual power to keep an eye on the outside world before entering the medium.

After arriving at the mountain and sea realm in the spirit map space, Xia ruofei first went to take a look at the work of the free laborers who had been recruited.

What Xia ruofei saw was a bustling scene of labor.

Not only had the construction of the herb garden been greatly accelerated, but there were also some people who were busy in the paddy fields.

The rice field was an experimental one. Xia ruofei wanted to try out the rice grown in the spirit map space. If the improvement was obvious, he would consider doing a few generations of breeding in the space and try to grow it in the outside world.

Under Xia Qing's arrangement, the staff was in good order. Bao Guijun and the first batch of free labor were now appointed as team leaders. Each of them was very enthusiastic. They led the way to work in the herb garden and paddy fields, and at the same time, they did not forget to supervise the other free labor.

As for the others, most of them had already accepted their fate after living in the boundless space for so many days. They had also realized the importance of points. Every day, Bao Guijun and the others could take advantage of the breaks in between work to smoke. Without points, how could they get cigarettes?

The luxury items in the realm were all very expensive. Even a pack of ordinary cigarettes that cost seven or eight Yuan would cost them the points they earned after two or three days of work. For free labor who could maintain their basic survival, it was definitely a luxury.

Bao Guijun's basic points were higher than theirs. In addition, he tried to save on smoking after exchanging for cigarettes. He only smoked one or two a day, at most two or three. One pack of cigarettes could last him for more than ten days. That was why he was willing to exchange his hard-won points for cigarettes.

Xia ruofei walked around and was satisfied with the free laborers' mental state.

Then, he came to the mobile room where Bao Guijun and the others lived. Manzila was lying on the bed recuperating. When he saw Xia ruofei suddenly come in, he quickly sat up and greeted respectfully, "Master!"

Xia ruofei waved his hand. He first looked around the mobile house and found that it was very clean and tidy. The blankets on each bed were also folded in an angular manner.

As for the air ... In the spirit map space, the air was definitely several levels higher than the outside world, even in the group dormitory where many people lived.

Xia ruofei nodded in satisfaction and asked in English, "How's your recovery?"

"Master, I'm already trying to recover, but it will take a long time for my bones to recover, so I can't move freely for the time being ..." Manzilla said with some fear.

In fact, Manzila was still considered an entry-level cultivator, and his body was much better than the average person's. However, this was a fracture, after all. Even if the recovery speed was faster than the average person, it could not be completely recovered in a few days.

Xia ruofei replied indifferently, "it's fine. I'm not in a hurry. I don't lack the food to feed a few idlers."

"Yes ... Yes ..." Manzila said with a smile.

"The last time I asked you about the modr mercenary group, your performance was quite satisfactory." Xia ruofei said, "I hope that after you recover, you can show that kind of loyalty when you work."

"Don't worry! Master!" Manzila said with confidence, "Manzila will always be your loyal believer! I'll never dare to betray my master!"

Xia ruofei pouted and did not respond to Manzila's words.

Everyone knew how to say pretty words. Xia ruofei would not believe Manzila just because she was like a docile puppy now.

This seemingly harmless old African was the one who had personally founded the infamous modr organization. Countless people had died directly or indirectly at his hands.

Not only Manzila, but all these free laborers in the realm were also very obedient. In the past, none of them were easy to deal with, but now they just didn't have the opportunity to do so.

## Chapter 2428 Intimidating (2)

However, everyone, including Manzila, was in Xia ruofei's absolute control of the spirit map space. He could kill them all with a single thought.

In the face of absolute strength, even if these people had any little thoughts, they would not be able to cause any harm.

With a thought, Xia ruofei left the mobile house. The next moment, he appeared in the void.

In front of him was a small spatial cage.

As the master of the space, Xia ruofei could easily see through the membrane wall of the space cage and see the Restless Liu chengfeng.

Liu chengfeng's cell was completely isolated from the outside. He was completely unaware of Xia ruofei's arrival.

Liu chengfeng was very anxious.

It had been almost a day since he had been captured by that senior, and he had been left here without a care. He didn't know what his fate would be in the next moment.

What was worse was that in this narrow space, he couldn't feel the existence of any spiritual energy at all.

In the past, no matter where one was, even if the spiritual energy was not as rich as the inside of the sect, one could still more or less feel the existence of free spiritual energy. At midnight and dawn, cultivators could still use these four hours to cultivate.

However, he couldn't feel a single wisp of spirit Qi within this 'Grotto – heaven magic treasure'. He was certain that this narrow space that had confined him was that 'senior's Grotto – heaven magic treasure'.

Cultivation was like a boat sailing against the current. If Liu chengfeng was imprisoned here for a long time, even if the “senior” didn’t kill him, his cultivation would decline greatly.

Liu chengfeng, who was burning with anxiety, suddenly felt that his vision had widened. The mountains, rivers, and seas in the distance all came into his sight. He couldn’t help but be stunned. Then, he quickly looked around and saw Xia ruofei behind him.

At this time, Xia ruofei had already recovered his original appearance and the spatial cage had sealed all his aura. Hence, Liu chengfeng did not immediately recognize that the person in front of him was the “nascent soul old monster” from last night.

But Liu chengfeng didn’t dare to be slow. He quickly knelt down and said, “Junior Liu chengfeng greets senior!”

Although Liu chengfeng did not know who this person was, he could see that he was standing in the air. Even if an Aurous core stage cultivator could fly on a sword, it would be impossible to stand in the air like this without any external help.

One had to be at least at the original infant stage to do so!

Another nascent soul old monster!

Liu chengfeng’s mind was in turmoil, and at the same time, he was filled with regret.

What kind of terrifying force had he provoked?! Since when were there so many Yuanying stage cultivators?

One must know, he had cultivated for several decades, and was even in a large sect like the falling leaves sect. Up until yesterday, he had never seen a Yuanying stage senior!

Liu chengfeng glanced around and felt that he was imprisoned in a huge cave. Although he couldn’t feel any spiritual Qi, the vitality outside couldn’t escape his eyes.

There were mountains and seas in this immortal’s cave, and there seemed to be some mortals working in the distance. This was definitely a great force! The falling leaves sect was known as one of the five great sects, but compared to this place, it was simply a small village in the countryside!

“Liu chengfeng,” Xia ruofei said indifferently, “it’s only been a day and you don’t recognize me anymore?”

Hearing Xia ruofei’s voice, Liu chengfeng seemed to wake up from a dream. He quickly knelt down again and said, “Senior’s transformation technique is unfathomable. Please forgive this junior for not recognizing senior!”

At this moment, Liu chengfeng was even more certain of his judgment. Everything showed that the person in front of him was an original infant stage senior.

He was also feeling uneasy, not knowing how this senior would deal with him.

When he thought about how he had actually planned to snatch the origin crystal of a Yuanying stage old monster yesterday, he couldn’t help but break out in cold sweat.

This was ten thousand times more serious than touching a Tiger's butt! It was definitely an act of seeking death.

If he encountered a nascent soul old ghost with a bad temper, he could turn him into ashes with a wave of his hand.

However, the senior in front of him didn't seem to be so brutal. If the other party wanted to kill him, he didn't need to go through so much trouble ...

Thinking of this, Liu chengfeng couldn't help but feel a little lucky.

Liu chengfeng had already made up his mind. No matter what request this senior had, even if he wanted him to take him to destroy the falling leaves sect, he would agree unconditionally.

What could be more important than being alive? He had cultivated for decades, while the sect master of the falling leaves sect had cultivated for one or two hundred years. Wasn't it all in pursuit of that illusory immortality?

Thinking of this, Liu chengfeng couldn't help but say nervously, "Senior, please forgive me on account of my young age and ignorance ... I'm willing to be your slave and do my best to serve you!"

Xia ruofei couldn't help but laugh when he heard Liu chengfeng call him "young and ignorant."

However, he also knew that he was now a nascent Soul Stage old monster in Liu chengfeng's heart. In front of a nascent Soul Stage old monster, Liu chengfeng was indeed considered "young."

"What can you do for me?" Xia ruofei asked with a faint smile.

Liu chengfeng was at a loss for words.

That's right! The opponent was a master of the original level. Liu chengfeng did not know Xia ruofei's exact cultivation level. It could be higher than the original level, but that was a realm that Liu chengfeng did not even dare to think about.

### Chapter 2429 Intimidating (3)

As for himself, he was only a Qi layer cultivator.

What qualifications do I have to work like a horse for a nascent soul senior?

Thinking of this, Liu chengfeng couldn't help but feel depressed.

Without waiting for Liu chengfeng to speak, Xia ruofei suddenly waved his hand and removed the spatial cage that trapped Liu chengfeng.

Without the support of the space cage, Liu chengfeng fell down involuntarily.

Although he was shocked, at the same time, he was so comfortable that he almost moaned.

There was no other reason. After losing the barrier of the space cage, Liu chengfeng felt the dense spiritual Qi in the space for the first time.

Even without practicing, Liu chengfeng could feel the genuine Qi in his dantian stirring just by taking a deep breath. The refreshing feeling made him feel dizzy, as if he was drunk.

Liu chengfeng had heard of oxygen intoxication and the possibility of getting drunk after drinking too much tea. He had never thought that he would feel drunk because of the rich spiritual Qi.

It could be said that Liu chengfeng had never been to a place with such rich spiritual Qi in his decades of cultivation. He would never have dreamed that there would be such a treasure land.

For a moment, he even forgot that he was falling rapidly.

At this moment, he suddenly felt an invisible force lifting him up. Xia ruofei had appeared beside him without him knowing.

Then, Xia ruofei brought Liu chengfeng along and flew at high speed through the mountain and sea realm of the spirit map space.

Liu chengfeng felt as if he was in a dream. The spiritual Qi in the sky was so dense that it had already turned into mist, and the beautiful mountains and rivers reflected in his eyes. Everything was so harmonious and natural, as if it contained the great Dao of heaven and earth.

Xia ruofei even brought Liu chengfeng and flew past the vicinity of the realm Heart Island.

When Liu chengfeng saw the many rare herbs on the realm Heart Island, he was so shocked that his jaw almost dropped.

His mouth was wide open, allowing the wind to enter, but there was no reaction.

The scene in front of him was too shocking!

After going one round, Xia ruofei brought Liu chengfeng back to the place where he had placed the space cage. With a wave of his hand, he set up a new and secure space cage and threw Liu chengfeng in.

The moment he entered the space cage, Liu chengfeng could not feel any spiritual Qi at all. For a moment, he could not help but feel lost.

Xia ruofei looked at Liu chengfeng with a smile and asked, "What do you think you can do for me? In other words, what do you think you have that's worth me showing you mercy?"

Liu chengfeng smiled bitterly and said dejectedly, "Senior, junior truly can't think of what use I have for you."

With the other party's cultivation base and the astonishing wealth in this immortal cave, he was indeed not even qualified to serve tea.

If it was a pretty female cultivator, she might be able to be a servant girl, but she ...

Xia ruofei said indifferently, "since I didn't kill you directly yesterday, I'll let you live. Otherwise, I wouldn't have to go through so much trouble." The heavens care for all living things. Although you've offended me, I don't want to kill you unless it's necessary. "

Liu chengfeng suddenly felt like he had found a way out of a desperate situation. He was so excited that he almost shed tears. He quickly knelt on the ground and kowtowed as he said, ""Thank you, senior, for showing mercy! Thank you for showing mercy, senior!"

Xia ruofei waved his hand and said, "as for what I want you to do ... I haven't thought about it yet. However, you're still a Qi refining cultivator. You're still stronger than the ordinary people below. Even if you're just making use of trash, it's not completely useless."

Liu chengfeng didn't feel humiliated at all after hearing this. Instead, he was overjoyed and said, ""Thank you, senior! As long as senior gives the order for junior to work with those ordinary people, junior will have no complaints!"

Xia ruofei waved his hand and said, "no need!" You should stay here for a while! When I've thought it through, I'll naturally use you!"

"Yes, junior will obey senior's orders!" Liu chengfeng's attitude became even more respectful.

Xia ruofei's mind moved slightly. The next moment, Liu chengfeng felt strands of vital energy appear in the space cage that imprisoned him. Although it was not as dense as before, it was still stronger than many places on earth.

Liu chengfeng couldn't help but be overjoyed.

Xia ruofei said indifferently, "this spiritual Qi is only for you to maintain your cultivation. It's a tree without a source or water. If you absorb it in one go, you won't have any spiritual Qi to use for a period of time. Don't blame me then."

"Yes!" Liu chengfeng quickly replied. This junior understands!"

Then, Xia ruofei moved some food and drinking water from the warehouse in the interspace and threw them into the spatial cage.

Although it was fine for a cultivator to not eat for a few days, without the protection of spiritual energy, it was impossible for a low – Level cultivator in the Qi refining stage to maintain it if they did not eat for a long time.

Xia ruofei said indifferently, "you stay here obediently. I'll let you out when I think of how to use you."

"Yes, senior!" Liu chengfeng replied respectfully.

With a thought, Xia ruofei restored the membrane wall of the space cage.

Liu chengfeng's vision blurred, and he could no longer see the mountains and rivers outside. All he could see was this small confined space and the faint glowing membrane wall.

After Xia ruofei settled Liu chengfeng down, he flashed towards the place where the mercenaries and assassins were held.

He had his own reasons for doing all he could to intimidate Liu chengfeng.

Liu chengfeng didn't know that he wasn't like what he had thought. He wasn't even qualified to serve Xia ruofei tea.

On the contrary, to Xia ruofei, if he could make good use of Liu chengfeng, there would be many benefits.

Chapter 2430 The space is upgraded again (1)

If Liu chengfeng could really be taken in by Xia ruofei, his Qi Level 7 cultivation alone would be much higher than Li Yifu 's.

Among the people around Xia ruofei, his direct disciple Tang Haoran was still young and had a low cultivation. Ling Qingxue and Song Wei were only at the third level of the Qi refining realm. Even if they were about to break through to the fourth level, they would still be far behind Liu chengfeng.

Furthermore, Liu chengfeng was very familiar with the world of cultivation. He was also a disciple of the fallen leaves sect. This would be very helpful for Xia ruofei to get in touch with the world of cultivation in the future.

If he could completely subdue Liu chengfeng, it would be equivalent to planting a spy in the falling leaves sect. At a critical moment, it might play an unexpected role.

Of course, the premise of all this was that he could completely subdue Liu chengfeng. At the moment, there was no other way.

If Xia ruofei was really a nascent soul cultivator, it would be easy. The problem was that his cultivation was only a little higher than Liu chengfeng 's. Furthermore, Liu chengfeng already knew part of the secret of the spirit map space. Even if he didn't know that this was an independent small space, just a cave abode with extremely dense spiritual Qi was enough to shake the cultivation world. Hence, Xia ruofei would not risk sending Liu chengfeng out.

Of course, if Xia ruofei really had the cultivation of the original infant stage, he would not need to arrange any spies. He could destroy the falling leaves sect with a wave of his hand.

All in all, Xia ruofei did not want to leave any hidden dangers behind. At the same time, he held onto the hope of subduing Liu chengfeng. That was why he did not kill him on the spot but kept him in the spirit map space instead.

However, there was no other way for now, so Xia ruofei could only keep Liu chengfeng in captivity.

In the blink of an eye, Xia ruofei arrived at the large space cage where the assassins and mercenaries were imprisoned.

With a wave of his hand, the two spatial cages disappeared.

One to two hundred people screamed as they fell from the sky.

Xia ruofei easily used the invisible force of space to hold them up just as they were about to hit the ground.

Then, he casually demonstrated what seemed like a miracle to these "foreigners" and easily dispelled their thoughts of resistance.

Even the arrogant leader of the modr mercenary group, Douglas, was scared out of his wits by Xia ruofei, the “Eastern deity”.

No matter how powerful the Special Forces were, could they defeat the ‘Immortals’ who could fly in the sky and travel on the ground?

Moreover, after being locked up in the space cage for the past few days, these people’s spiritual will had long been worn down. With the “appearance” of Bao Guijun, Golden Fox merendo, and Viper Boak, these killers and mercenaries were quickly incorporated.

On the other hand, Manzila, nicknamed Satan, did not play any role in the process of recruitment.

No one in the upper echelons of modr knew his identity except for Boak. Douglas only knew that his boss’s nickname was Satan.

The assassins and mercenaries were also split up and sent to their own groups. Bao Guijun and the others had more people under them.

Xia ruofei simply allowed them to add a higher level of leadership and divided each group into three teams. He let Bao Guijun and the other team leaders choose three team leaders to each take charge of one team and assist them in management.

The squad leader also enjoyed a certain amount of basic points.

Bao Guijun and the others were naturally overjoyed. They had more soldiers under them, and they could also have a certain “human rights.” The management would naturally be more flexible.

Other than the lack of freedom, Bao Guijun, Qian guiyou, and the others felt that this place was not bad.

There would be no harm without comparison.

At the same time, it was also because of this comparison that Bao Guijun and the rest felt that they were at least living better than most of the captives. They felt much more balanced.

They even felt that it might not be a bad thing to be caught during a mission in China.

At least, they had the advantage in being free labor.

Xia ruofei gave them an hour after quickly regrouping the captives.

Xia ruofei didn’t need to do the work of grouping, splitting up, registration, arranging dormitories, collecting labor tools and basic living supplies. With Xia Qing in the medium, Bao Guijun and the others could do the specific tasks and naturally, everything was arranged in an orderly manner.

Xia ruofei left the medium and returned to the outside world. He rested in his bedroom for a while.

Less than an hour had passed, at most forty minutes, when Xia ruofei received Xia Qing’s telepathic message. This batch of free labor had been properly arranged.

With a thought, Xia ruofei re – entered the space.

Xia ruofei stood in mid – Air like a god. His voice was not loud but it was clearly heard by everyone. “Today’s work is temporarily suspended. Everyone, go back to your rooms immediately. You are not allowed to come out until you have received notice!”

In this space, Xia ruofei’s words were unquestionable.

As soon as the order was given, all the workers, under the leadership of their newly appointed team leaders, withdrew from the rice fields, medicine gardens, and other places in an orderly manner, and all returned to the mobile temporary houses to stay.

They didn’t know what had happened, and they couldn’t help but feel nervous, especially those who had lived in the space for a while. It was the first time they had encountered such a situation.
