Chapter 2441 Unlocking the Jade talisman (2)

In fact, with manager Lu's status, how could he not get a few sets of jaded skin ointment if he wanted to? Sometimes, it wasn't really troublesome to trouble others to do things properly. Instead, it was a display of closeness.

Manager Lu chuckled and nodded. "Then I won't be polite with you! I'll send you the address later!"

The two of them laughed and chatted at the door for a while before Xia ruofei drove away from the song family's old house.

Xia ruofei was concerned about the heaven jade talisman, so after leaving the song family, he returned to the courtyard in liuhai Lane.

When they stopped the car in the backyard, Xia ruofei said to Wu Qiang, who came forward, "I won't be having dinner today. Also, if there's nothing important, don't come to my courtyard. I didn't sleep well last night, so I'll catch up on some sleep this afternoon. "

"Okay, boss!" Wu Qiang quickly replied, "if you need supper, let me know at any time. I'll ask sister – in – Law to get ready!"

Xia ruofei nodded and threw the car keys to Wu Qiang. Then, he walked through the backyard and arrived at the courtyard where Wu Qiang lived.

Xia ruofei returned to her room and immediately locked the door and windows before closing all the curtains.

Out of habit, he used his mental power to check the room. After making sure that there was nothing unusual in the room, he took out the spirit map scroll from his palm.

Xia ruofei placed the scroll under the blanket in his bedroom and entered the medium.

He had arrived at the Tao Wu at the Archean realm. There was a 30 – fold difference in time flow here, which could save Xia ruofei time.

Although the actual time he experienced had not changed, it had been shortened by thirty times according to the time in the outside world.

Xia ruofei estimated that it would take a long time for him to perfectly inscribe the array runes on the heaven jade talisman with his spiritual energy. He could not possibly study the array runes all the time, much less stay in the space for a few days. The difference in the flow of time at the Archean realm could solve this problem.

Xia ruofei waved his hand and the heaven jade talisman was teleported from somewhere in space and flew into Xia ruofei's hand.

He looked left and right, then stepped onto the Jade Bridge and sat down cross – legged on the empty space in front of the Linglong Pagoda.

Although the spiritual Qi in the entire space was very dense, the Linglong Pagoda was the core of the formation in the spirit map world. The spiritual Qi here seemed to be even denser. Hence, Xia ruofei chose to break the heaven jade talisman here.

He first cultivated the “great Dao Arts.” After circulating his mental cultivation method a few times, his entire state of mind gradually calmed down.

Then, Xia ruofei stopped practicing and slowly opened his eyes. He looked at the ancient jade talisman in his hand.

The lines of mysterious patterns were very clear under the investigation of his spiritual power.

The array pattern on the heaven jade talisman was much more complicated than the earth jade talisman. Xia ruofei spent more than an hour just to go through all the array patterns.

One must know that Xia ruofei had inherited the knowledge of arrays and his spiritual power had reached the spirit gathering realm. Even so, it took him so much time to roughly go through the array patterns on the Jade talisman.

If he wanted to understand and understand it, it would take even longer.

In the end, if he wanted to decipher the heaven jade talisman, he not only had to understand it, but he also had to use his spiritual power to perfectly carve out the entire array pattern. That was even more difficult.

Fortunately, Xia ruofei was mentally prepared and did not feel anxious. He just sat on the ground calmly and studied the formation pattern on the Jade talisman.

Time passed by quietly. Unknowingly, Xia ruofei had already sat there for more than a day and a night. Of course, this was the time in the yuanchu realm. To the outside world, less than an hour had passed.

Xia ruofei remained in the same position and did not move. His eyes never left the array pattern on the heaven jade talisman. In these twenty hours, he didn’t even move his finger. He didn’t even try to carve. He just stared at the Jade talisman.

However, Xia ruofei’s eyes brightened and he looked more confident.

Although Xia ruofei looked at it for an entire day and night and did not seem to make any progress, he had actually gained a lot.

The array pattern on the Jade talisman became clearer and clearer in his eyes. He was even simulating the effect of the array pattern in his mind. Of course, these were all theoretical speculations. Xia ruofei himself was not very sure about the actual effect.

Xia ruofei could feel the fog covering the array pattern slowly dissipating.

Finally, he had a feeling of sudden enlightenment!

The formation patterns were still the same. However, in Xia ruofei’s eyes, the formation patterns that were initially unrelated had now become an organic whole. Every formation pattern, every curve, and every arc seemed to be just right.

Xia ruofei smiled.

At this moment, Xia ruofei, who had not moved for more than 20 hours, slowly raised his right hand. He stretched out his index finger and drew a line in the air. The invisible and intangible mental energy had a trace of golden light, leaving a mysterious arc in front of him.

Xia ruofei's fingers were moving very fast. The array patterns were faintly visible in front of him. In a short while, he was completely surrounded by the array patterns.

But soon, Xia ruofei waved his hand gently and dispelled all the array runes that he had just spent a lot of mental energy to carve.

Then, Xia ruofei picked up the "heaven" jade talisman. He frowned and stared at one of the array patterns, studying it.

After a few more hours, Xia ruofei put down the Jade talisman and started to draw in the air again.

In the next three to four days, Xia ruofei spent most of his time studying the array pattern on the Jade talisman, except for the time when he got up to eat something.

Sometimes he was in high spirits as he carved the array patterns, and sometimes he frowned and shook his head. He continued to grab the heaven jade talisman and studied the text on it.

In this repeated process, Xia ruofei's familiarity with the 'heaven' jade talisman increased rapidly and he carved more and more array patterns.

In the end, Xia ruofei put down the "heaven" jade talisman in his hand. He reached out and took a stream of spiritual water from the spiritual pond and poured it into his open mouth.

Xia ruofei drank some water from the spiritual pond to speed up the recovery of his spiritual power.

Then, he practiced the great Dao Arts for a while, filling up the true Qi in his dantian.

Xia ruofei felt that he had adjusted himself to a good state. He encouraged himself and sat down with his legs crossed.

He was also drawing the lines in the void, but Xia ruofei's state was very different from before. His drawing speed was also faster than before.

Xia ruofei's index finger continued to draw in the air and faint golden array runes appeared in front of him.

Soon, there were more and more of these array patterns. They all circled around Xia ruofei and were very beautiful.

This time, Xia ruofei didn't stop halfway. Instead, he continued to inscribe the basic array runes. After these basic array runes were formed, they would circle around Xia ruofei.

When Xia ruofei drew the last stroke and completed the last array pattern, he heaved a sigh of relief.

However, he couldn't slack off at this time. These array patterns all existed on their own and didn't form a stable union with the other array patterns.

A confident smile hung on Xia ruofei's face. With a slight thought, all the array patterns obediently moved to their positions as if they were being moved by an invisible hand.

These array patterns dazzled one's eyes as they shuttled back and forth. They seemed chaotic, but they seemed to follow a certain rule.

In the end, Xia ruofei put his hands together and all the array patterns merged together, forming a seamless whole.

If one looked carefully, they would realize that the array pattern that was emitting a faint golden light was exactly the same as the one carved on the heaven jade talisman ...

Chapter 2442 A heaven – defying inheritance (1)

Xia ruofei's expression relaxed.

However, he didn't take out the 'heaven' word jade talisman immediately. Instead, he carefully observed every formation pattern that had been fused.

After a while, Xia ruofei casually erased the array pattern that he had spent five days to inscribe.

Although the formation pattern looked exactly the same as the pattern on the heaven jade talisman, he could still find a few minor flaws when he carefully compared it with his mental power.

Xia ruofei would not allow such a flaw to exist.

If he ignored these small flaws and tried to unlock the heaven jade talisman by force, the failure would be a small matter. However, if the Jade talisman was damaged, Xia ruofei would have no time to regret.

With the experience of unlocking the human and earth Jade talismans, Xia ruofei was not in a hurry.

He knew that the most difficult part was actually the first successful inscription. Now that he was able to inscribe a complete array pattern, it was only a matter of time before he polished off some small flaws.

After Xia ruofei rested for a while, he started to carve the runes again.

As expected, he didn't encounter too many obstacles this time. Everything went smoothly from beginning to end. After about an hour, he carved and fused the array runes again.

After Xia ruofei observed it carefully, he erased the array pattern again and started to carve it again.

Xia ruofei repeated the process over and over again. He used all his energy to carve the runes and personally erased them again and again.

Although it seemed like a futile effort, if a cultivator who was proficient in arrays were here, they would realize that every array pattern that Xia ruofei drew was more perfect and in line with the way of nature.

The number of small flaws in the array pattern due to the proficiency of the technique and the control of spiritual power was also decreasing.

Just like that, after a whole day and night, when Xia ruofei once again drew the array pattern that he was so familiar with, his eyes revealed a trace of anticipation.

During the entire process of carving the runes, Xia ruofei felt that it was smooth and natural. This feeling was hard to come by and when it appeared, it was usually when he was performing beyond his usual level.

After a day and a night of practice, Xia ruofei was getting more and more skilled at carving the array pattern. The flaws in the array pattern were rapidly reduced, and there were even a few times when it was close to perfection.

Xia ruofei was full of anticipation for the array runes that he would carve this time.

He immediately released his mental energy and carefully performed a “carpet check” on the array pattern. Starting from every small array pattern, every arc, and every detail, he examined the set of array patterns bit by bit.

Under the effect of his powerful mental energy, every detail of the formation pattern was revealed.

This examination lasted for an entire hour. When Xia ruofei finished examining the last small array pattern, he couldn't help but reveal a satisfied smile.

He had finally met the requirements!

At least Xia ruofei had reached the standard in his heart. As for whether this standard was high enough and whether he could unlock the heaven – ranked jade talisman, Xia ruofei had some confidence. After all, this was not his first time unlocking a jade talisman. With the experience from the previous two times, he knew what kind of standard the array pattern had to reach.

Hence, Xia ruofei did not hesitate and took out the ancient heaven jade talisman.

The Jade talisman floated in front of Xia ruofei with the help of the invisible spatial force.

Not far from the Jade talisman was the set of formation patterns that glowed with a faint golden light.

Xia ruofei's mind moved, and the set of complicated array patterns formed by spiritual power slowly floated towards the heaven jade talisman.

Finally, the array pattern was imprinted on the heaven word jade talisman and perfectly matched with the patterns on the Jade talisman.

Streams of light lit up on the 'heaven' jade talisman. The formation patterns engraved on the Jade talisman also lit up one by one. Finally, the entire jade talisman lit up with a dazzling brilliance.

When the last formation pattern lit up, the dazzling light suddenly expanded and flew towards Xia ruofei like a waterfall. It went straight into his forehead.

Xia ruofei, who was already experienced, was prepared. He sat up straight and closed his eyes tightly. His face revealed a rare trace of nervousness.

A huge amount of information gushed into Xia ruofei's mind.

Even though he had already experienced it, Xia ruofei still felt a sense of fullness after a second or two. Information was still pouring into his mind.

He revealed a pained expression, and the blue veins on his forehead also protruded.

Xia ruofei gritted his teeth and held on. He knew that the inheritance information in the Jade talisman was very precious. Although the process of inheritance was painful, under normal circumstances, it would not exceed his tolerance. At least, it would not cause too much danger.

At least, that was the case for the earth and human Jade talismans.

However, Xia ruofei's cultivation level was not as high this time, especially in terms of physical strength. If he had unlocked the heaven jade talisman normally, he would have been safe. However, it was hard to say in this situation ...

When Xia ruofei made the decision to take out the heaven jade talisman by force, he was already mentally prepared.

He knew that there was a certain degree of danger in doing so. On the one hand, he might cause harm to his body in the process of breaking the light membrane. On the other hand, his cultivation level might not be high enough, and the amount of information in the inheritance might be too much for his body to handle.

Chapter 2443 A heaven – defying inheritance (2)

Xia ruofei had considered all these. Hence, he kept a container with the petals of the spirit Heart Flower and a large bowl of spatial spirit pool water in case of an emergency.

The actual situation was better than what Xia ruofei had worried about.

Although the entire process of the inheritance was extremely painful, and his head was in so much pain that it felt like it was going to explode, he did not suffer any substantial damage until the last piece of inheritance information entered his mind.

After the inheritance, Xia ruofei finally heaved a long sigh of relief.

Although the inheritance had not been long, Xia ruofei felt as if he had been suffering for a hundred years.

Fortunately, the process was finally over.

No matter what the inheritance information in the heaven jade talisman was, to Xia ruofei, at least this adventure had been a success.

He wiped the sweat from his forehead and rubbed his throbbing temples. At the same time, he couldn't wait to retrieve the information of the inheritance from his mind. He wanted to see what good things the heaven jade talisman had left for him.

After a round of investigation, Xia ruofei's face revealed a surprised and happy expression. He couldn't help but clench his fist and shouted, "Yay!"

The heaven jade talisman's information was not as complex as the human jade talisman, nor did it provide a complete array Dao inheritance like the earth jade talisman. However, to Xia ruofei, the inheritance information in the heaven jade talisman was very useful.

First, it was the seventh to ninth layers of the great Dao Arts. This was within his expectations. Xia ruofei was not particularly surprised. Moreover, he didn't need such a high – Level cultivation technique at the moment. In fact, he had only cultivated the first layer of the “great Dao Arts” when he was at the Qi condensation stage.

In addition to the seventh to ninth levels of the great Dao technique, there were three complete inheritances in the heaven jade talisman.

“Floating steps,” this was a top class movement technique. After training it to the major completion, not only could one's speed increase by ten times, but one's body would also be like a ghost. Whether it was dodging or escaping, this movement technique manual was the best choice.

Even if it wasn't for the sake of escaping, in a battle between cultivators, the side with a stronger movement technique had an obvious advantage. They could easily Dodge the other party's attacks and also use their movement technique to quickly approach the enemy. If they were coupled with close combat techniques, the power would be greatly increased.

The ‘Noble Sword’ was one of the top sword techniques that practitioners used. This was completely different from Yue Buqun's “Noble Sword” created by Mister Jin Yong. This set of sword technique was divided into Four Realms of plum, orchid, bamboo, and chrysanthemum. This was not an incremental relationship, but each realm was relatively independent. After mastering it, one could fully reflect the intent of each of the four noble men. Moreover, the Four Realms could be switched at any time. According to the description in the cultivation method, this set of sword technique could even merge the Four Realms and cultivate a brand new “noble man realm.” Its power would be even more shocking.

The [Noble Sword] also didn't use ordinary swords. Instead, it used the flying swords of its practitioners. Just like Xia ruofei's Blue travel immortal sword, most cultivators' flying swords did not have a hilt. Every part of the sword body was rather sharp. Naturally, such a sword could not be controlled by hand. It completely relied on spiritual power. Even though Xia ruofei had already reached the spirit gathering realm, he was still far from being able to use this sword technique well.

What was rare and valuable was that both the “drifting steps” and the “Noble Sword” were movement techniques and battle skills that were compatible with the “great Dao Arts.” When combined with the “great Dao Arts” special circulation path, the power that was unleashed was even greater.

Xia ruofei was still not good at his swordsmanship as his spiritual power was still lacking. However, the appearance of his body movement technique was like charcoal in the snow. He could use the Jade pillar array to train his sashimi and improve his body movement technique.

No matter when, it was very important to practice the ability to save one's life.

Xia ruofei was full of motivation.

At the same time, he also secretly regretted that he had used up all three times of the Linglong tower's Jade pillar array. Moreover, he did not practice any movement techniques at that time, so the effect of the Jade pillar array could only be said to be unsatisfactory.

Now that he had the movement technique manual, he had to wait another seven days before he could have a second chance to challenge it. He regretted it.

Of course, what made Xia ruofei the happiest was the last set of cultivation techniques.

To be more precise, this was just a spiritual force secret technique.

Actually, Xia ruofei had mastered quite a few secret techniques of spiritual power. For example, his tried – and – tested spiritual hypnosis was actually one of the secret techniques of spiritual power. There were also other small techniques of using spiritual power. There were many of them in the inheritance information of the human – shaped jade talisman.

However, this time, the spiritual power secret skill called “soul seal” was taken out by itself. Together with “drifting steps” and “gentleman’s sword”, it was sealed in the “heaven” jade talisman. It was enough to show that this set of spiritual power secret skills was different from the others.

As the name suggested, after successfully cultivating “soul seal,” the practitioner could form a soul seal in his sea of consciousness.

The soul seal itself did not have any benefits to the sea of consciousness, nor could it improve the cultivation of spiritual power. However, after Xia ruofei read the introduction of “soul seal”, he was overjoyed.

The soul seal was actually a combination of mother and child. The mother seal was naturally in the cultivator’s sea of consciousness, while the child seal could be imprinted in other people’s sea of consciousness. Through this set of mother and child soul seals, the cultivator could completely control the other party.

The so – called complete control meant that no matter if it was an ordinary person or a cultivator, after being branded with the child seal of the soul seal in the sea of consciousness, they would absolutely submit to the cultivator who had the matching mother seal. This was a kind of submission that came from the depths of the soul, rather than being forced to submit under the suppression of absolute strength.

Of course, if one really wanted to brand a soul seal in the other party’s sea of consciousness, it would also be an absolute suppression of strength. Because as long as the practitioner of the soul seal thought about it, the other party’s sea of consciousness would instantly explode. Naturally, that person would also die.

In reality, they were soul slaves.

What was even more heaven – defying was that, according to the description of this secret skill, even a Yuanying stage cultivator would find it difficult to find the soul seal in another person’s sea of consciousness. Even if they were lucky enough to find it, it would be extremely difficult to break or even destroy the soul seal. If they were not careful, they would touch the soul seal and the final outcome would still be the destruction of their soul.

Even a nascent Soul Stage cultivator would find it difficult to break through, so the power of the soul seal could be seen.

The “minimum configuration requirement” for the cultivation of soul seal was that one’s spiritual power had reached the spirit gathering realm.

In fact, this kind of secret skill was closely related to the soul and the sea of consciousness, and the cultivation threshold was often the cultivation of spiritual power.

Xia ruofei couldn't help but secretly rejoice. If this secret skill required the cultivation of true Qi, he probably wouldn't be able to meet the cultivation requirements at his current stage.

When a spirit gathering realm cultivator practiced the soul seal to completion, he could form a mother seal and five child seals.

In other words, once Xia ruofei mastered this secret skill, he could control five soul slaves.

It didn't seem like a lot, but considering how thorough and domineering the control was, if he used all of them, it would be equivalent to having five more servants that he could absolutely trust and would never betray him. This was simply too heaven – defying.

This sort of absolute control over the soul was extremely terrifying. Even if his master ordered him to immediately cut off his head, he would not hesitate to carry it out.

When Xia ruofei examined the secret soul skill in the heaven jade talisman, the first person that appeared in his mind was Liu chengfeng, who could only be imprisoned in the spatial cage of the mountain and sea realm.

If he could plant a soul seal on Liu chengfeng, it would be equivalent to planting a sharp nail in the falling leaves sect. This would be extremely useful for Xia ruofei's future dealings with the falling leaves sect and even the entire cultivation world!

Although Liu chengfeng's Qi Level 7 cultivation was a little low in Xia ruofei's eyes, he was the most suitable candidate for the position.

Thinking of this, Xia ruofei couldn't wait to start cultivating. As long as he could successfully cultivate and form the first child seal, he would be able to completely control Liu chengfeng.

Chapter 2444 Cultivating the soul seal (1)

"Great Dao Arts" Level 7 to level 9 cultivation techniques,"drifting steps","gentleman sword", and "soul seal" were all the inheritances in the heaven word jade talisman.

Although it was not as all – encompassing as the human jade talisman or as complete as the earth jade talisman, Xia ruofei was still very satisfied.

There was no doubt that the inheritance in the heaven word jade talisman was much more precious than the human word and earth word Jade talismans combined.

Although there were not many inheritances, they were all the essence. To Xia ruofei, every inheritance was very useful.

Xia ruofei left the empty space in front of the Linglong tower and returned to the spiritual pond through the Jade Bridge.

He had not slept or rested for the past few days in order to decipher the heaven word jade talisman. Now, he had used up a lot of mental power and was feeling a little tired.

Regardless of whether it was the floating steps or the soul seal, it was impossible to master them in one go.

Even though the inheritance was imprinted in Xia ruofei's mind and it was not difficult for him to understand the martial arts and secret skills, after all, no matter if it was body movement, sword technique or spiritual power secret skills, it was not enough to understand them. It was more important to practice repeatedly.

For example, the soul seal was actually a very complicated seal formed by the use of spiritual power. It was impossible to form it without a lot of practice.

Therefore, Xia ruofei was not in a hurry. He spoke to Xia Qing in his mind and left the spirit map space in a flash.

Although he had been working hard in front of the Linglong tower for four or five days without rest, only a few hours had passed in the outside world because of the difference in the flow of time. The sky had just turned dark.

Xia ruofei had eaten something in the interspace. In addition, he was extremely tired, so he did not eat dinner. He went to the bathroom to take a shower and went to bed.

If it was someone else who had obtained a heaven – defying secret skill like soul seal, they would probably be extremely excited no matter how tired they were. They would toss and turn and not be able to sleep. However, Xia ruofei's mental strength had been slowly trained after obtaining the spirit map space. Although he was very excited when he first obtained the inheritance, he fell asleep very quickly after lying on the bed.

The next morning, Xia ruofei woke up on time. In the past, he would be cultivating at this time, and today was no exception.

However, he would not choose to use spirit crystals or origin crystals to cultivate in the outside world. Instead, he took out the spirit map scroll and entered the medium to cultivate.

Xia ruofei did not deliberately choose the Archean realm to save time. He sat cross – legged on the peak of the mountain in the mountain sea realm and cultivated for about two hours.

This was the highest point of the mountain sea realm, and the field of vision was quite good. As long as one's vision was good enough, they could see every corner of the mountain sea realm.

Of course, as they continued to level up and expand, the area of the mountain sea realm would continue to expand. Now, the surface and the surface of the sea were already curved to a certain extent. Hence, Xia ruofei had always wondered if the mountain sea realm would become a planet if they continued to level up.

He believed that even the cultivators from hundreds of years ago would know more about earth than ordinary people. These cultivators might know that there was a “big ball” under their feet.

Thinking that he might own a ‘private planet’ in the future, Xia ruofei could not help but feel a sense of longing.

Xia ruofei ended his cultivation and opened his eyes. In the herb garden and rice fields at the foot of the mountain, the free workers with a regular schedule had already started working.

Xia ruofei took a quick glance and left the space.

It was seven or eight o'clock in the morning. Xia ruofei had breakfast in the backyard and told Wu Qiang that he had important things to deal with at home for the next few days and that he should not be disturbed if there was nothing. Also, unless it was Zhao Yongjun and the others, he should decline any visits.

After returning to his master's courtyard, Xia ruofei locked himself in his room again.

As usual, he locked the door and windows, checked them with his mental power, and then set up a warning array in the room. He then took out the spirit map scroll and entered the space with a thought.

Xia ruofei was planning to focus on cultivating his soul seal for a few days.

Xia ruofei's cultivation was still not high enough to practice the 'Noble Sword', and it would be difficult for him to master it. It was best to practice the drifting footwork with the Jade pillar array to achieve twice the result with half the effort. Now that the challenge count of the Jade pillar array had not refreshed, Xia ruofei had pushed back the cultivation of the drifting footwork.

As for soul seal, it was obviously a matter of utmost importance.

Liu chengfeng had been captured by him for a few days. If he wanted to take Liu chengfeng as his soul slave, he had to hurry up. Otherwise, it was hard to guarantee that the falling leaves sect would not be suspicious.

Xia ruofei went to the Linglong Pagoda and sat down cross – legged.

Xia ruofei didn't need to spend time to understand the secret skills that he had inherited. He could practice them directly.

After Xia ruofei sat down, he immediately focused his mind and released a wisp of spiritual power. Slowly, under his control, it began to form seals.

Another advantage of Xia ruofei's cultivation of the soul seal was that he had spent a lot of spiritual energy to carve the runes during the three times he unlocked the Jade talismans. He had a lot of experience in the fine control of his spiritual energy, and his accuracy had obviously improved.

Although drawing the array pattern and forming the seal were different, it was only a difference in the technique. In the end, it was still about the control of spiritual power. Hence, when Xia ruofei was cultivating the soul seal, he was able to master it relatively quickly.

Xia ruofei was trying to form the master Seal.

In fact, whether it was the mother seal or the child seal, they were both very complicated. The difficulty level was much higher than the formation pattern of the heaven jade talisman.

Layers of seals condensed from mental energy continued to stack up, and a mysterious stream of light flowed on the seals.

However, Xia ruofei soon frowned.

The flowing light on the magic seal also stagnated slightly. Then, the complicated magic seal collapsed all of a sudden, and the spiritual power disappeared.

Xia ruofei couldn't help but sigh as he looked at the progress. This time, he had only completed less than one – tenth of the mother seal. Furthermore, the formation of the seals went from easy to difficult. The first few seals were relatively easy.

Even so, Xia ruofei had only completed less than one – tenth of it. Due to the precision of his control, the entire seal had collapsed.

However, Xia ruofei would not give up just because of one failure.

Failure was normal, but if he succeeded on the first try, then the soul seal would be worthless.

Xia ruofei took a short break and started his second attempt.

For the entire day and night, Xia ruofei tried countless times, but each time ended in failure.

In the past 20 hours, Xia ruofei had also successfully completed about one – seventh of the progress.

He stood up and stretched his arms and legs, then ate something and drank a few mouthfuls of water from the spirit pool to help his mental power recover.

After a short rest, Xia ruofei prepared to continue condensing his soul seal.

This time, he decided to bring the Jade – like praying mat in the stone chamber of the mountain sea realm to the Archean realm. Sitting on the praying mat would not only speed up the recovery of his mental power, but it would also help him concentrate more.

For the next three days, Xia ruofei almost never left the small open space in front of the Linglong tower. Other than when he used up a lot of spiritual power, he would stop to rest and recover. He would also eat something occasionally. The rest of the time, he was practicing how to form a soul seal.

When he was about one – third done with the condensing of the soul imprint, Xia ruofei stopped his practice. He had been at the Archean realm for four days and four nights. It was almost noon in the outside world.

Xia ruofei left the medium and went to the backyard. Wu Xiujuan and Xia Xiaolan had already prepared lunch. Xia ruofei went back to his courtyard after he had some food.

After continuously practicing under that state of high concentration, Xia ruofei was inevitably tired. So after lunch, he took an hour's nap. At one o'clock in the afternoon, he entered the space again and continued to practice forming the soul seal.

In the following days, Xia ruofei would wake up early and cultivate for an hour or two in the medium before having breakfast. Then, he would return to his room and enter the medium to practice forming his soul seal.

He had already calculated the time in the outside world when he was in the medium. He would leave for a while when it was mealtime and use the mealtime to relax a little. After resting, he would immediately enter the medium to practice.

This continued for three days.

In the past three days, Xia ruofei stayed in the outside world for about 10 hours. Other than his three meals a day, he would take an hour nap if he was not struck by lightning. Then, at 9 pm in the outside world, he would leave the medium and return to the outside world to sleep. Although he wanted to master the soul seal as soon as possible, he still tried to maintain the normal work and rest in the outside world.

Even so, due to the 30 times difference in time flow, Xia ruofei had actually stayed in the spirit map space for 40 to 50 days.

In the past two months, Xia ruofei had only been doing one thing, and that was to practice forming soul seals.

In the beginning, his progress was very fast. From the first time he condensed a soul seal, he only completed one – tenth, then one – eighth, one – fifth, one – third ... However, as the seals needed to be condensed became more and more complicated, and the fusion between the seals became more and more difficult, Xia ruofei's progress in cultivating the soul seal also slowed down.

Finally, after going through such a difficult process, Xia ruofei successfully condensed a complete soul seal for the first time!

Even though it was just a spiritual seal simulated outside the body, as long as it was successfully condensed, it meant that Xia ruofei had mastered the basic level of this spiritual secret skill.

The true condensation of a soul seal had to be carried out directly in the sea of consciousness.

Naturally, Xia ruofei would not be like a hotheaded youth who would try it in his sea of consciousness right from the start. One must know that once the soul seal failed to form, the seals formed by the spiritual power would collapse instantly. If this collapse had happened in the sea of consciousness, Xia ruofei's sea of consciousness would probably be riddled with holes by now.

After all, even Xia ruofei could not remember how many times he had practiced, let alone how many times the seals he had condensed had collapsed.

The successful condensation this time boosted Xia ruofei's confidence. He dispelled the seal formed by his spiritual power and immediately started a new round of practice. He had to practice as much as possible. Once he really condensed a soul seal in his sea of consciousness, it was best to succeed in one try. Otherwise, his sea of consciousness would be more or less damaged.

Another day had passed in the outside world. Xia ruofei had been practicing for more than twenty days in the spirit map space. He was finally satisfied with his soul seal condensation technique.

Chapter 2445 Loyal servant No. 1 (1)

Xia ruofei stood up and stretched his arms and legs while sighing in his heart.

Cultivation knew no time. Xia ruofei had read about this in many cultivation books, but he finally understood it this time.

Just to cultivate a soul seal, he had stayed in the space for more than two months. This was also due to the unique environment in the space, the top cultivation technique he cultivated, and the practice he got when he carved the array patterns. With many other beneficial factors stacked together, he still spent such a long time.

This was also the first time Xia ruofei had spent so much time in space using the difference in the flow of time.

As only three or four days had passed in the outside world, Xia ruofei had spent more than two months in the medium. In theory, he had aged more than two months.

Of course, this was relative to the people in the outside world. To Xia ruofei, the past two months had passed by day by day. It did not mean that he had aged two months in just three or four days.

For cultivators, their bodies were spotless. As their cultivation level increased, the aging speed of the body would be greatly delayed, or even completely stopped. Therefore, two months was nothing.

Although Xia ruofei felt that he was fully prepared, he was not in a hurry to form a soul seal in his sea of consciousness.

He had enough rest to ensure that his body and spiritual power had recovered to their best condition. Then, he sat down cross – legged on the Jade futon, closed his eyes, and focused.

It was extremely dangerous to form a soul seal in the sea of consciousness.

However, when Xia ruofei truly entered a state of calmness, all his nervousness, worry, and worries disappeared. At this moment, he was like an old monk with no desires. The only thing in his mind was the mysterious pattern of the soul seal.

A wisp of mental energy entered his sea of consciousness through his meridians. Under Xia ruofei's control, it condensed into a seal in an instant. The whole process was extremely smooth and natural, like an Antelope hanging its horn without leaving a trace.

Xia ruofei's face was emotionless. The spiritual power in his sea of consciousness continued to form seals.

After these dharmic seals were condensed, they stacked together, and a huge, complicated dharmic seal gradually took shape.

As time passed, more and more dharmic seals appeared in Xia ruofei's sea of consciousness. Finally, the last dharmic seal was formed.

The seal floated toward the huge seal like the last piece of a puzzle. When it was embedded, the soul seal was finally formed.

After the complete soul seal was condensed, the infinite world in the sea of consciousness seemed to shake slightly. The spirit on the small island in the center of the sea of consciousness spontaneously released a mysterious aura, which came to the soul seal in a flash and integrated with it.

Xia ruofei suddenly felt a connection between him and the soul seal.

He vaguely realized that this was the reason why the soul seal could control others' souls.

Obviously, when the child seal merged into the other party's sea of consciousness, it would also form a similar connection with the other party's spirit body. Then, with the help of the connection between the child and mother seal, it would achieve the purpose of Soul Control.

Xia ruofei couldn't help but admire the exquisiteness of the soul seal's design. No wonder it could be sealed in the heaven jade talisman even though it was only a spiritual power secret skill.

When Xia ruofei's spiritual aura was imprinted on the soul seal, the mother seal of the soul seal was completely condensed.

Xia ruofei's face revealed a satisfied smile.

He rested for a while and immediately began to practice condensing child seals.

With the experience of forming the mother seal, Xia ruofei's process of forming the child seal was much smoother.

Of course, the child seal was much less complicated than the mother seal.

In about half a day, Xia ruofei had already mastered the formation of the child seal.

After he recovered, he immediately began to form the child seal in his sea of consciousness.

This time, it was still a success on the first try.

After the child seal was formed, it naturally revolved around the mother seal slowly, like a satellite.

Xia ruofei's heart was filled with joy. For the past two months, he had been practicing without sleep for a few days. Today, he had finally achieved great results.

Cultivators whose spiritual power had reached the spirit gathering realm could only control five child seals at most. However, Xia ruofei did not continue to form child seals. Instead, he stood up and teleported to the mountain and sea realm in space.

Now, Xia ruofei's top priority was not to form child seals because Liu chengfeng was the only one who was suitable or qualified to be soul controlled by him. No matter how many child seals he formed, it would not be of use.

He had captured Liu chengfeng and imprisoned him in the space for many days. Since he wanted to control him completely and make him a nail in the world of cultivation, he had to return to the world of cultivation as soon as possible.

Hence, Xia ruofei did not waste a single moment and immediately arrived at the mountain and sea realm.

He didn't alert Bao Guijun and the others who were working in the herb garden and paddy fields. Instead, he wrapped himself with the invisible force of space and went to the space cage where Liu chengfeng was imprisoned.

Liu chengfeng was sitting in the cage, bored.

Although there was a certain amount of spiritual Qi in it, it was a non – renewable resource. Even if the concentration of spiritual Qi was higher than the outside world, Liu chengfeng did not dare to practice without restraint.

Liu chengfeng couldn't get out, and he couldn't cultivate either.

It was also because he was a cultivator that his physical and mental qualities were stronger than ordinary people. Otherwise, ordinary people would have gone crazy after being locked up in such a confined space for so many days.

Xia ruofei's sudden appearance in the spatial cage gave Liu chengfeng a shock.

When Liu chengfeng saw who it was, he quickly stood up and knelt on the ground, calling out respectfully, "Senior!"

Xia ruofei glanced at Liu chengfeng indifferently and did not say anything.

Liu chengfeng couldn't figure out what Xia ruofei was thinking, so he was naturally very nervous.

At this moment, Liu chengfeng suddenly felt a huge pressure coming toward him. He was so scared that his soul almost left his body. Could it be that senior Qianqian thought he was useless and changed her mind to kill him?

After Liu chengfeng had such a thought, he was so scared that he kowtowed like pounding garlic and shouted, "Senior, please spare me! Senior, please spare my life!"

Xia ruofei didn't say a word, but the spiritual pressure on Liu chengfeng kept increasing.

Liu chengfeng struggled to hold on, his face turning pale.

In front of Xia ruofei, he couldn't even think of resisting. However, the pressure was getting stronger and stronger. Liu chengfeng had no choice but to use his own spiritual power to resist.

This was exactly what Xia ruofei wanted. He continued to release his spiritual pressure and continuously consumed Liu chengfeng's spiritual power.

After a long while, Xia ruofei suddenly retracted his spiritual pressure. He glanced at Liu chengfeng and left the spatial cage in a flash.

The whole process only took three to four minutes, but Liu chengfeng's clothes were already soaked with sweat. He felt as if he had just walked through the gates of hell, and he was filled with fear.

At the same time, Liu chengfeng did not know what Xia ruofei was up to. He became more and more nervous.

After Xia ruofei left the spatial cage, he hovered outside the cage and took a large bottle of spatial spirit pool water. He took a few big gulps.

Then, a Jade – like futon appeared under his feet. He took a step forward and sat down with his legs crossed.

The Jade futon was suspended in the air. Xia ruofei sat on it but the Jade futon did not move at all. It was as if it was placed on the ground.

With the help of the spiritual pond water, the praying mat, and the rich spiritual Qi outside the cage, Xia ruofei's spiritual power was recovering rapidly.

When he had recovered about 90% of his mental power, he immediately flashed back into the cage.

Xia ruofei still didn't say a word. He directly released his spiritual pressure and swept it towards Liu chengfeng.

Liu chengfeng wanted to cry but had no tears. His spiritual power had been consumed by more than half in the short three to four minutes.

After Xia ruofei left, Liu chengfeng also tried to recover his spiritual power.

However, his cultivation technique was very ordinary and the spiritual Qi in the cage was pitifully little. So when Xia ruofei recovered his spiritual power and entered the cage, Liu chengfeng's spiritual power had not recovered much.

However, the spiritual pressure that he was in awe of once again descended on him. Helplessly, he could only use his spiritual power to resist.

This was also an instinctive reaction of a cultivator. Even if the one standing in front of him was a "nascent soul cultivator" who was highly respected, Liu chengfeng did not sit still and wait for death. He knew that he could not defeat his opponent, but he still tried his best to use his spiritual power to resist the pressure.

This was the effect that Xia ruofei wanted.

This time, Xia ruofei didn't leave the spatial cage. Liu chengfeng's spiritual energy had been exhausted, but Xia ruofei still had some energy left.

Xia ruofei saw that Liu chengfeng's face was as pale as a sheet of paper. He was dispirited, and his eyes were dull. At the same time, his resistance to the spiritual pressure was getting weaker.

Xia ruofei knew that Liu chengfeng's spiritual energy had been worn out.

Sure enough, the next moment, Liu chengfeng fell to the ground with a trace of despair in his eyes. He soon fell into a coma.

Xia ruofei had been waiting for such an opportunity to check that the gap between their spiritual power cultivation was not as wide as the chasm between heaven and earth. If he used the soul seal on Liu chengfeng directly, it would definitely cause a strong resistance and the success rate would not be too high. Now that Liu chengfeng's spiritual power had been completely consumed and he had passed out, it was naturally the best time to use the soul seal.

Xia ruofei didn't hesitate. With a thought, the child seal in his sea of consciousness was released. Under the control of his mind, the child seal was like a beam of light and entered Liu chengfeng's forehead in the blink of an eye.

After the child seal entered Liu chengfeng's body, it didn't need Xia ruofei's control at all. It spontaneously went straight into Liu chengfeng's sea of consciousness.

Liu chengfeng was in an extremely weak state at the moment, and there was almost no resistance in his sea of consciousness. The child seal went straight in, and the fog in its path automatically parted to the sides.

In just a few seconds, the child seal was imprinted in Liu chengfeng's sea of consciousness.

At this moment, Liu chengfeng's spirit body seemed to have fallen into a deep sleep. When the child seal was imprinted in his sea of consciousness, a wisp of Qi from Liu chengfeng's spirit body was sucked out by the child seal and integrated into it.

When Liu chengfeng's soul aura was sucked into the child seal, Xia ruofei immediately felt the connection between the child and mother seals. At the same time, he also sensed that Liu chengfeng's consciousness and spiritual body could be sensed directly without the need to use spiritual power to probe inside.

Xia ruofei revealed a look of joy. He had successfully obtained his first soul servant!

Chapter 2446 The future is limitless if you follow me (1)

Liu chengfeng was still unconscious, but it didn't affect Xia ruofei from feeling the heaven – defying function of the soul seal.

The moment the mother – child seal formed a connection, Xia ruofei knew that he could destroy Liu chengfeng's soul with a single thought.

And according to the description of the soul seal, no matter how far the two were, this soul restraint would not be affected.

What was even more terrifying was that even if Liu chengfeng's cultivation increased in the future, even if he had heaven – defying luck and his cultivation even surpassed Xia ruofei's, he would not be able to get rid of the control of the soul seal. With the growth of cultivation and time, the connection between the child seal and Liu chengfeng's sea of consciousness would become closer and closer. In the end, they would basically become one.

It could be said that once the child seal was branded in his sea of consciousness, Liu chengfeng would never be able to get rid of it for the rest of his life.

Of course, because his soul was being controlled, Liu chengfeng could not even think of getting rid of it.

Xia ruofei looked at the unconscious Liu chengfeng. He did not feel guilty at all.

That day, if Liu chengfeng had not been greedy and provoked Xia ruofei, Xia ruofei would not have captured and imprisoned him.

It could be said that Liu chengfeng's ending today was mostly his own fault.

Besides, it was not necessarily a bad thing for his soul to be controlled by Xia ruofei. Xia ruofei was not a bloodthirsty person, and he would not sacrifice Liu chengfeng for no reason. Because of Liu chengfeng's

absolute loyalty, Xia ruofei would not be stingy with cultivation resources. At least in cultivation, Liu chengfeng's future achievements would be much higher than when he had not met Xia ruofei.

Xia ruofei waved his hand and removed the spatial cage.

The invisible force of space carried him and the unconscious Liu chengfeng, and slowly landed on a patch of grass.

This place was very far from the place where the free laborers worked, and there was a tall mountain in the middle.

Without the imprisonment of the space cage, Liu chengfeng was exposed to an environment with extremely rich spiritual Qi.

Xia ruofei didn't try to save Liu chengfeng. In such an environment, Liu chengfeng slowly woke up.

Liu chengfeng's eyes were filled with confusion when he first woke up. However, his body quickly shook and he looked at Xia ruofei with respect.

Liu chengfeng kneeled on the ground and said respectfully, "Master!"

Now that Liu chengfeng knew that Xia ruofei had planted a soul seal in his sea of consciousness, he naturally understood why Xia ruofei kept using her spiritual power to suppress him. He was very clear that he would be under Xia ruofei's control for the rest of his life.

However, this was the magic and horror of the soul seal. Even if Liu chengfeng knew everything, he still had a kind of admiration and respect for Xia ruofei from the bottom of his heart. There was no trace of hatred at all.

Xia ruofei nodded and said, "In the future, you can call me Mr. Xia in front of others."

"Yes! Master!" Liu chengfeng knelt on the ground and answered without hesitation.

"Get up!" Xia ruofei said indifferently.

"Thank you, master!" Liu chengfeng said. Then, he stood up and stood in front of Xia ruofei with his hands by his side.

Liu chengfeng could no longer have any other thoughts, so Xia ruofei did not intend to deliberately hide the matter of the spirit map space.

"Liu chengfeng, what do you think of this place?" Xia ruofei asked indifferently.

"Master, this place is the best place for cultivation," Liu chengfeng said respectfully. "I've read some ancient books in the sect. The so – called paradises recorded in them are nothing but slums compared to your abode!"

Xia ruofei smiled and said, "what if this is just a spatial treasure?"

Liu chengfeng couldn't help but open his eyes wide in shock. After a while, he said, "This place ... Master, are you saying that we're in the same magical abode?"

He couldn't help but look at the vast space around him again, and his face revealed a look of disbelief.

Xia ruofei smiled lightly and did not explain. He brought Liu chengfeng out of the spirit map space and returned to the house outside.

As soon as Liu chengfeng returned to the outside world, he immediately felt the familiar environment. He had been cultivating on earth for decades, so he was very familiar with the environment.

Liu chengfeng did not have the time to look at the furnishings in the room. He felt his vision blur and was once again brought into the spirit map space by Xia ruofei.

"Now you believe me?" Xia ruofei asked.

"I didn't mean to question you, master ..." Liu chengfeng quickly replied in fear.

There was a huge wave in his heart. Although the soul seal had controlled his soul and made him absolutely loyal to Xia ruofei, it did not stop him from thinking independently, nor did it turn him into a walking corpse that only followed orders mechanically.

Liu chengfeng had never heard of such a vast space that could allow living things to survive. He didn't even dare to think about it.

At this moment, his admiration and respect for Xia ruofei had reached a higher level.

Xia ruofei smiled. "By the way, I'm not a nascent soul senior. I'm only 27 years old."

Liu chengfeng was dumbfounded once again. He stood still like a statue. After a long while, he asked in disbelief, "Master, then ... Then your cultivation ..."

"Not much higher than you." Xia ruofei said, "I'm only at refined Qi level 8 now, but I should be able to break through to refined Qi level 9 soon."

Chapter 2447 You'll have a bright future if you follow me (2)

In the past two months, although Xia ruofei did not deliberately cultivate in the spirit map space, his cultivation had improved to a certain extent due to the unique environment and the fact that he needed to cultivate to recover from his condition sometimes.

Now, Xia ruofei could clearly feel that he was about to break through the bottleneck of refined Qi level 9.

His experience told him that this was actually a sign of a breakthrough.

As for how long it would take, it was not easy to judge. It was possible that he would break through naturally in the next cultivation, but it was also possible that he would need to drag on for a period of time.

However, he was sure that he was not far from breaking through to refined Qi level 9.

Liu chengfeng felt that his knowledge system of cultivation that he had formed over the past few decades was about to collapse.

Qi level 8. Even if he was about to break through to the peak of Qi level 9, he was only one level higher than him. But in front of Xia ruofei, he had no power to resist.

So, Liu chengfeng couldn't help but ask, ""Master, if you're only a Qi condensation cultivator, how did you ..."

Liu chengfeng suddenly realized something and quickly said, ""I understand! Master, that's because we're in your spatial magic treasure!"

Liu chengfeng was initially confused as to why Xia ruofei, as a Qi refining cultivator, could have such an incredible ability like standing in the air and even teleporting. Then, he thought about it and realized that it was in Xia ruofei's spatial Dharma Treasure. Although he did not know much about such a high – grade spatial Dharma Treasure, he could guess that the reason Xia ruofei was able to use a nascent soul cultivator's divine power in here was most likely related to the spatial Dharma Treasure.

However, Liu chengfeng would not look down on Xia ruofei just because he was only in the Qi refining stage. Even without the soul seal, Xia ruofei could still crush him.

That day, his mental power was completely suppressed, and he was not in the spatial treasure.

Thinking of this, Liu chengfeng couldn't help but ask curiously, ""Master, if I may be so bold as to ask, your spiritual power cultivation ..."

"I've just broken through to the spirit gathering realm not long ago," Xia ruofei said indifferently.

Liu chengfeng couldn't help but shiver. He looked at Xia ruofei with respect and said, ""Master's spiritual power cultivation has already reached the spirit gathering realm! No wonder ..."

Xia ruofei waved his hand and said, "the spirit gathering stage is nothing!" The Qi refining stage was just the beginning of cultivation. It wasn't even enough to lay the foundation. As long as you work for me with all your heart, your future achievements will definitely not stop at the Qi refining stage!"

Liu chengfeng knelt down again in excitement and said, ""It's my great fortune to meet you, master! This subordinate's life is yours, master. Even if I have to go through fire and water, as long as Master says the word, this subordinate will not hesitate to sacrifice my life!"

Xia ruofei said indifferently, "okay, I need you to return to the sect and gather all the information about the cultivation world. Other than that, you don't need to do anything else. You don't need to deliberately gather information either. You just need to note it down within the range that you can normally come into contact with. Don't deliberately ask about it. Your safety is the most important. I will need you in the future."

Xia ruofei was very clear about the power of the soul seal, so he had explained it clearly to Liu chengfeng to prevent him from working too hard and giving himself away.

"Thank you for your understanding, master!" Liu chengfeng said, touched. This subordinate will remember!"

Xia ruofei thought for a while and asked again, "by the way, you disappeared for a few days. Will the sect be suspicious?"

"No, I won't!" Liu chengfeng quickly said. Every year, disciples above the fifth Qi layer have a month of vacation, and often have the opportunity to leave the sect to go out to do business. This subordinate

used the vacation to come out this time. Generally speaking, unless something big happens in the sect, no one will come to find this subordinate during the vacation!"

The world of cultivation was not isolated from the world. They had never cut off contact with the secular world, so they used modern means of communication. Xia ruofei found a mobile phone in Liu chengfeng's personal belongings, but he had casually thrown it into the warehouse where the spoils of war were kept. In the spirit map space, mobile phone signals could not penetrate in.

"Master," Liu chengfeng added, "even if someone looks for me during this period, I can just find a reason to brush it off. It's normal for cultivators to go into seclusion. Some people don't even turn on their phones for the whole holiday. It's fine as long as they return to the sect on time."

Hearing this, Xia ruofei finally felt at ease.

"I'll take you to a place!" He said after some thought.

With that, he teleported to the Archean realm with Liu chengfeng and appeared in the open space in front of the Linglong Pagoda.

"You can stay here and cultivate ... By the way, how much time do you have left for your holiday?" Xia ruofei said.

Liu chengfeng looked a little embarrassed and said, "When I met master in Pingan County that day, I had just started my vacation ... Counting the days, I should have about twenty days left on my vacation."

Xia ruofei did some calculations. A year in the Archean realm was only about 12 days in the outside world. Hence, he said, "Liu chengfeng, you can cultivate here for a year first. Try to make a breakthrough in your cultivation!"

The soul seal could ensure Liu chengfeng's loyalty. In addition, after the space was upgraded, it could exchange energy with the chaotic space. Liu chengfeng's cultivation here would not affect the spiritual Qi in the space. Hence, Xia ruofei would not be stingy with his cultivation resources.

The stronger Liu chengfeng was, the more help he would be. Xia ruofei naturally understood this.

"One year?" Liu chengfeng asked in surprise. Master! Then ... What about the sect ..."

Xia ruofei said indifferently, "the time flow here is 30 times slower than the outside world. If you cultivate here for one year, only 12 or 13 days would have passed in the outside world. The remaining time is enough for you to return to the sect."

After Liu chengfeng heard Xia ruofei's words, he was stunned on the spot like a clay sculpture. He was so shocked by this news that he had lost his ability to think.

Time law! And it was a difference of 30 times in the flow of time! This spatial magic treasure was simply too heaven – defying ...

"Liu chengfeng!" Xia ruofei frowned and shouted.

Liu chengfeng came back to his senses and quickly bowed, ""Thank you, master! This subordinate will definitely work hard to cultivate! He would strive to break through to refined Qi level 8 as soon as possible! In the future, I will be able to contribute more to master!"

Xia ruofei nodded and said, "you only have one mission here, and that is to improve your cultivation as much as possible." Also, don't touch anything here. I'll have people prepare some living supplies for you. If you run out of supplies, just contact me through telepathy at any time!"

Xia ruofei was not worried that Liu chengfeng would lose control, but he still gave him some advice.

In fact, Xia ruofei had constructed a spatial barrier around some of the important resources and resources in the Archean realm as protection. For example, the spirit heart tree, spirit heart fruit, and spirit Heart Flower petals. Even if Liu chengfeng accidentally barged in, these strategic resources would not be damaged.

"Yes!" Liu chengfeng quickly replied. Master! This subordinate will definitely remember this in my heart!"

The thought of being able to cultivate in an environment where the spiritual Qi was so dense that it had turned into mist for a year made Liu chengfeng extremely excited. His respect and gratitude for Xia ruofei deepened.

Xia ruofei then called Xia Qing over and briefly told her about Liu chengfeng.

Xia Qing naturally knew that the "soul seal" was passed down from the heaven word jade talisman. Seeing that Xia ruofei had condensed a soul seal in such a short time and had even taken in a seventh Qi layer soul slave, she couldn't help but congratulate Xia ruofei.

Xia ruofei asked Xia Qing to move some compressed biscuits, instant noodles, bottled water, and other living supplies to the Linglong tower. She also brought a sleeping bag.

These were the living supplies for Liu chengfeng. As long as there was enough spiritual Qi, cultivators didn't need too much food. Although Qi refining cultivators couldn't completely abstain from eating, they didn't need to be too particular about food. These supplies were basically enough for Liu chengfeng to support himself for a year.

Xia ruofei gave Liu chengfeng a few more instructions and left the spirit map space, satisfied.

Chapter 2448 The arrival of two daggers (1)

Xia ruofei heaved a long sigh of relief when she returned to her bedroom.

This trip to Africa could be said to have been a huge harvest. It could be said that it had basically come to a perfect end.

Xia ruofei did a quick count. His biggest gain was the basin – sized world stone. No matter what, the development of the spirit map space was always the top priority in Xia ruofei's mind.

He had accidentally obtained that world stone and successfully upgraded the spirit map space by one level.

The upgrade of the interspace could be said to be a qualitative leap. Not only did it solve the problem of cultivating in the interspace, but it also developed the Linglong Pagoda, which would be very beneficial for Xia ruofei's future cultivation.

The unlocking of the "heaven" jade talisman had given Xia ruofei a lot of benefits, especially the "soul seal", which allowed Xia ruofei to successfully have a soul servant at Lianqi Level 7. In the long run, be it 'casual steps' or 'Noble Sword', they would greatly increase Xia ruofei's combat strength. The seventh to ninth levels of the 'great Dao technique' would be enough to support Xia ruofei's cultivation to the legendary realm.

Other than the upgrade of the spirit map space and the unlocking of the heaven jade talisman, Xia ruofei's trip to Africa had also earned her two to three hundred free laborers. While she was temporarily unable to make her own spirit puppets, it had solved the severe shortage of manpower in the space.

Besides, after wiping out the mord organization, the funds in Xia ruofei's overseas account had risen to more than two billion US dollars. If the company were to speed up its development, he would have plenty of funds.

Of course, when he went to Africa, he successfully found Liu haojun, the mastermind behind Song Qiming's assassination. A few days ago, Liu haojun was also killed by elder Liu in the name of "justice." This hidden danger was forever resolved.

All in all, Xia ruofei's trip to Africa could be described as "perfect". His harvest had exceeded his expectations. At least, he did not expect to get such a huge piece of world stone from his trip to Africa.

This time, Xia ruofei had been out for a longer time. However, he did not return to the three mountains immediately after he was done with his business.

This was because the Paradise Club would be opening in two days. Although he didn't manage much as a major shareholder, he definitely couldn't be absent from the opening ceremony.

Zhao Yongjun, Song Rui, and the others were all very concerned about the Paradise gathering. To Xia ruofei, this project was just for fun, but to Zhao Yongjun and the others, it was basically the core of their careers.

This group of people had a lot of power in Beijing. They were so serious about this project and invested a lot of energy, so the construction progress was naturally quite fast. In fact, when Xia ruofei was recording "a life to look forward to," the construction of the peach blossom society was basically completed. All that was left was some ancillary works such as greenery.

Zhao Yongjun and the others were determined to make Paradise Club the benchmark for the high – end clubs in the capital, so they chose the best construction materials and decoration materials. After the construction, they even asked an authoritative organization to carry out a Comprehensive Environmental inspection of the club. The result was that the interior of the club met the standard for opening, and the harmful gases and other indicators were all within the standard range.

In addition, when the club was still under construction, the recruitment and training work had already been carried out simultaneously, so it was basically a seamless link.

Xia ruofei rested for a day. The next morning, he took the Toyota Elfa business car driven by Wu Qiang and headed to the Capital International Airport.

The Paradise Club was going to open tomorrow, and Ling Ji's private kitchen would also be set up in the club. According to the original agreement, the Ling's private kitchen of the Beijing paradise society was relatively independent of the Ling's Dining Group. Ling's Dining Group was considered to have invested in the company and was mainly responsible for running this paradise society.

As a shareholder, Ling Ji restaurant naturally had to send a representative to attend the opening ceremony.

The representative of Ling Ji restaurant was Ling Xiaotian's successor, Ling Qingxue.

Xia ruofei had to welcome his girlfriend at the airport since she was in the capital.

Not only that, Xia ruofei had already made arrangements yesterday for the flight crew to coordinate the flight route, so Ling Qingxue had actually taken the public jet paradise today.

After Xia ruofei arrived at the airport, he let Wu Qiang wait in the car while he went to the private aircraft building to handle the procedures. After going through a strict security check, he entered the restricted zone accompanied by the ground staff and directly arrived at the landing strip where paradise was about to land.

If non – Internal staff wanted to enter the tarmac, the procedures were very strict. However, the crew of the peach Garden had their own channels in the Civil Aviation field. Furthermore, they were entering the tarmac to pick up the Paradise. Hence, Xia ruofei did not use his connections in Beijing. Instead, he asked Captain Liu Ancheng to coordinate with them.

The weather today was very good. The blue sky was cloudless, which was very rare in the capital. The field of view on the tarmac was very good, and they could clearly see the planes taking off and landing on the runway in the distance.

Beijing airport was one of the busiest airports in the world. On average, there were more than 1600 flights taking off and landing every day. It was also the second most crowded airport in the world, only second to Atlanta Airport in the United States.

Xia ruofei had only been waiting on the tarmac for a few minutes when more than a dozen planes took off or landed. On average, there was more than one plane taking off and landing every minute. Of course, the Capital International Airport had three runways. It could only achieve such high efficiency when it was running at full speed.

Chapter 2449 The arrival of two daggers (2)

Xia ruofei didn't have to wait for long. After about 10 minutes, he saw the peach source slowly descending.

Although the Gulfstream business jet was much size than a single – Channel narrow passenger plane like a Boeing 737 or an Airbus A320, the visibility in the airport was very high today. Furthermore, Xia ruofei's vision was far better than ordinary people. So, when others could only see a small black dot

slowly descending from the distance, he could already distinguish the LOGO of paradise Corporation on the tail of the plane.

Paradise landed steadily on the runway. Because it was a remote plane, it took more than 20 minutes to reach the tarmac. Under the command of the ground crew, it accurately landed on the plane.

Although Xia ruofei had been waiting for more than half an hour, he was not impatient at all. On the contrary, he and Ling Qingxue had not seen each other for a long time. He was about to see his girlfriend, so he couldn't help but feel a little excited.

After Paradise's engine died down, the tarmac became much quieter. Soon, the door of the peach origin opened and the accommodation ladder was lowered. A flight attendant stepped down from the plane and stood beside the cabin door.

When she saw Xia ruofei waiting on the tarmac, she immediately bowed slightly and said, "Good day, Mr. Fang!"

Xia ruofei smiled and nodded at her. Then, he turned to look at the cabin door.

Ling Qingxue finally appeared at the cabin door. Xia ruofei quickly walked up to her and said with a smile, "Qingxue, you've had a long journey!"

Xia ruofei stood under the plane and reached out to Ling Qingxue, wanting to take her luggage.

Unexpectedly, Ling Qingxue did not get off the plane immediately. She only smiled at Xia ruofei and moved away.

Then, another beautiful figure appeared at the cabin door.

Xia ruofei could not help but be stunned. He subconsciously took a quick glance at Ling Qingxue, then laughed dryly. "Wei Wei? You're in the capital too?"

This time, it was Song Wei who appeared at the door.

Xia ruofei did not know that Song Wei had come to the capital with Ling Qingxue. Moreover, Ling Qingxue and Song Wei did not reveal anything, which made Xia ruofei a little surprised.

Especially with the relationship between the three of them, Xia ruofei couldn't help but feel awkward.

Song Wei smiled at Xia ruofei and asked, "Am I not welcome?"

"How could it be!" Xia ruofei quickly said, "let's get off the plane first! Let's talk while we walk!"

Song Wei nodded and walked down the ramp with her luggage. Xia ruofei quickly took Song Wei's luggage and Ling Qingxue's luggage.

When facing Ling Qingxue and Song Wei at the same time, Xia ruofei had to be careful, afraid that he would favor one over the other.

Ling Qingxue saw Xia ruofei's nervous look and a smile flashed across her eyes. However, she did not show it on her face and just quietly followed Song Wei as they got off the plane.

Captain Liu An also got off the plane. The other Captain, Zheng Daming, probably stayed in the cockpit to do some inspection work after landing and did not come down.

Xia ruofei said to Liu An, "Captain Liu, you've worked hard!" The crew will rest in Beijing for the next few days! I'll contact you in advance if there's anything."

"Yes, Mr. Xia!" Liu An said, "take care! I still have some work to do, so I won't be able to see you out."

Xia ruofei smiled and nodded. He waved at Liu An and the flight crew. Then, he pushed the two suitcases and led Ling Qingxue and Song Wei to the exit.

From afar, Wu Qiang saw the three of them walking out of the private jet building. He quickly got off the car and walked up to them, taking the luggage from Xia ruofei's hands.

The two most comfortable seats in the middle row were naturally reserved for Ling Qingxue and Song Wei. Xia ruofei took the initiative to sit in the front passenger seat.

After Wu Qiang placed his luggage in the trunk, he quickly walked to the front and sat in the car.

"Let's go back to siheyuan!" Xia ruofei said to Wu Qiang.

"Yes! Boss!" "Yes!" Wu Qiang replied calmly and started the car slowly.

Xia ruofei sat on his side and turned to the back. He smiled and asked, "Weiwei, how's uncle song's health?"

"It's recovering well!" Song Wei said. The medicine you left behind is very effective. He can now walk!"

Xia ruofei said happily, "that's great!" I was still wondering if I should find some time to go back and show him! It seems like there's no need for that ..."

"It's just that my dad can't stay idle. He started working as soon as he recovered a little!" Song Wei said with a frown. Even though he hasn't gone to work yet, he has to read a lot of documents every day, and there's an endless stream of people reporting to him ... He's treating his home as his office!"

Xia ruofei laughed. "Uncle song's position is more important. There are many things that need his approval. You have to understand!"

"It doesn't matter if I understand him or not. He doesn't listen to me anyway ..." Song Wei said, "well ... I asked him a few more questions, but he found me annoying. He said that he's fine now and told me not to stay at home and slack off. He told me to come back to school as soon as possible ..."

Xia ruofei couldn't help but laugh. He knew that Song Wei was just complaining.

As song Qiming's daughter, Song Wei had been influenced by him since she was young. How could she not know the severity of the situation? In fact, many people were envious of song Qiming's current state! Even elder song was worried that song Qiming's recovery period would take too long. If that happened, he would have to appoint someone new to his current position. After song Qiming recovered, he might only be able to arrange a position of the same level, but the importance of this position would definitely be far less than that of the Deputy Secretary of the southeast province and the Secretary of Sanshan city.

Song Qiming's position had not been replaced, and there were so many people reporting to him every day. This was the most ideal result.

Xia ruofei also knew that Song Qiming's brain injury was still recovering. After drinking the soup, the injury in his sea of consciousness had probably recovered as well. His other external injuries were not serious. With his current state, he should be able to handle work every day without any problems.

Xia ruofei was worried that Ling Qingxue would feel that he had been left out. So, after talking to Song Wei for a while, he immediately changed the topic to Ling Qingxue and asked about the recent situation of Ling Ji restaurant.

This time, Ling Qingxue did not treat Xia ruofei badly because of Song Wei, as Xia ruofei had worried. Although Ling Qingxue didn't smile much, at least she didn't look cold.

After a few words, Xia ruofei said, "Qingxue, there might be a lot of guests at the opening ceremony tomorrow. There might be a lot of pressure on Ling Ji's private kitchen. You have to make arrangements in advance!"

The service staff was all provided by the Paradise Club. As for the management, Ling Ji F & B had sent a manager over. In addition, the entire kitchen was also in charge of Ling Ji F & B. The manager and chef had arrived in Beijing a few days ago and settled in the Paradise Club.

They had come early to familiarize themselves with the environment and the team. After all, they would be working together in the future. If they didn't manage to establish a good relationship, it would cause all kinds of trouble.

Ling Qingxue nodded and said, "don't worry!" Ling Ji's private kitchen definitely wouldn't drop the ball! We've already made sufficient preparations. In addition, senior brother has already started to process the ingredients since the day before yesterday. Tomorrow, our signature 'Buddha Jumps Over the Wall' will definitely be a hit!"

This 'Buddha Jumps Over the Wall' was a secret recipe provided by Xia ruofei. Later on, it had become the signature dish of the three mountains Ling Ji private kitchen. If customers wanted to eat it, they had to make an order many days in advance.

Many of the ingredients for the Buddha Jumps Over the Wall soup had to be prepared in advance. Some of them even had to be slowly cooked for more than ten hours. Therefore, Ling Qingxue had already made arrangements for them in advance.

Along the way, Xia ruofei kept his side facing Ling Qingxue and Song Wei as he talked to them. Although there was still a little bit of awkwardness between the three of them, Xia ruofei could still feel that Ling Qingxue and Song Wei's subconscious rejection seemed to have decreased a lot.

Xia ruofei was overjoyed, this was a good start!

Chapter 2450 The opportunity for a breakthrough_Translator: 5496903After they returned to the courtyard in liuhai Lane, Xia ruofei asked Wu Xiujuan to prepare two guest rooms.

He had thought that only Ling Qingxue would be coming, so he had not asked anyone to prepare a guest room. He had even thought that he could use Ling Qingxue's visit to the capital as an opportunity to

ease the somewhat awkward relationship between the two of them. It would be best if they could sleep on the same bed again.

However, this time, Song Wei and Ling Qingxue came together. Xia ruofei knew that it was impossible for them to live together.

It was already noon when they returned from the airport. Ling Qingxue and Song Wei went back to their rooms to pack up and went to the backyard to have lunch with Xia ruofei.

After the meal, the three of them returned to the courtyard in the middle. Ling Qingxue said, ""Ruofei, can you arrange a car for me? Tomorrow is the opening ceremony, and I'll be going to the peach blossom gathering in the afternoon to see how senior brother Wu and the others are preparing. "

The "senior brother Wu" that Ling Qingxue was talking about was one of Ling Xiaotian's disciples. Previously, he had been working at the Ling's private kitchen of the three mountains. This time, he had been sent to the capital city to take charge of the Ling's private kitchen of the peach blossom society. He could be considered to be in charge of the work alone.

Xia ruofei nodded and said, "no problem!" I'll go with you in the afternoon! It just so happens that I haven't been there for a while ..."

"Don't go in the afternoon!" Ling Qingxue said, "Weiwei is looking for you for something!"

"Ah?" Xia ruofei was stunned.

"I'm fine!" Song Wei replied with a flushed face. What could happen to me?"

Ling Qingxue smiled and said, "how can it be fine?" Didn't we have an agreement? I'll let this guy accompany you in your cultivation in the afternoon! It's my turn to cultivate at night ... Now that this guy often runs out, and our cultivation technique needs his cooperation, it's not easy to catch him, so of course we have to seize the opportunity!"

"It's okay to train ... We'll have plenty of time in the future ..." Song Wei said shyly.

Xia ruofei looked at Ling Qingxue and then looked at Song Wei. He thought for a moment and nodded. "Alright then! I'll get Wu Qiang to drive you, and ... I'll give brother Zhao a call! They should be at the club today!"

Ling Qingxue smiled and nodded, "sure!" You just have to make the arrangements!"

Ling Qingxue then took Song Wei's hand and said, ""Wei Wei! We've already come to an agreement, what's there to be embarrassed about? If we don't take the initiative to seize the opportunity to cultivate, then when can we improve our cultivation? What if the gap between us gets bigger and bigger in the future?"

Xia ruofei laughed dryly at the side and did not say anything. Song Wei blushed and nodded her head, saying, "I got it!"

Xia ruofei called Wu Qiang over and gave him some instructions. He asked Wu Qiang to drive Ling Qingxue to the peach blossom Association in a Toyota Elfa car and stay there in the afternoon.

He then called Zhao Yongjun.

Zhao Yongjun, song Rui, and the others were all at the club, busy preparing for the opening ceremony tomorrow.

Zhao Yongjun heard Xia ruofei say that Ling Qingxue would be there in a while, so he said, ""Let sister – in – Law do it! If there's anything you need us to coordinate with the private restaurant, you can also find me directly!"

"Thanks!" Xia ruofei said with a smile.

"Why are you being so polite with me!" Zhao Yongjun laughed and scolded, "besides, isn't this our own business? That's right! Your sister – in – Law just arrived in the capital and wanted to come over to see her. You're a major shareholder, how can you still have the nerve to hide?"

Xia ruofei glanced at Song Wei and Ling Qingxue and said awkwardly, ""Big brother Zhao, I have some things to do this afternoon and can't leave. Otherwise, I would definitely go with Qingxue!"

Zhao Yongjun wasn't song Rui. He wouldn't keep harping on this matter. Since Xia ruofei had explained, he didn't say anything more. He just smiled and said, ""Then you have to come over tomorrow! Please don't be late!"

"Definitely not! Brother Zhao, don't worry! I'll definitely arrive early tomorrow!" Xia ruofei said.

"Alright! I'm busy here! I won't talk to you anymore!" Zhao Yongjun said.

"Good! Then see you tomorrow!"

After Xia ruofei hung up, he said to Ling Qingxue, ""You're familiar with brother Zhao and song Rui. They'll be there this afternoon. You can find them if you need anything! We're all family, and it's our own business, so you're welcome!"

"I got it!" Ling Qingxue said, "then I'll go over directly!"

After she finished speaking, she winked at Song Wei and clenched her fist to cheer her on, causing Song Wei to blush again.

Ling Qingxue went to the back yard to get a car. Only Xia ruofei and Song Wei were left in the yard. The atmosphere suddenly became a little ambiguous.

Song Wei blushed and stared at her feet. She said softly, "Ruofei, you should rest for the afternoon!"

Xia ruofei chuckled. "Let's not stand here and talk. Let's go inside!"

"Ah?" Song Wei was stunned.

"Ah what?" Xia ruofei laughed and said, "of course, I have to cultivate in the house! Are we going to set up a time formation in the courtyard?"

Then, Xia ruofei held onto Song Wei's hand and led her into his house.

After entering the house, Xia ruofei saw that Song Wei was a little reserved. He could not help but smile and said, ""Wei Wei, you've been here countless times. Why are you acting so distant today?"

Song Wei was very familiar with this room. It was here that she had insisted on removing the peach blossom miasma. Xia ruofei had taken the risk and accidentally discovered the spirit body combined cultivation method.
