

God tier Farm 2521

Chapter 2521 Reborn (1)

Xia ruofei wanted to make a body tempering soup.

When Xia ruofei first obtained the body tempering soup recipe from the booklet in the stone room, there were two versions.

Of course, he didn't intend to brew a complete version of the body tempering soup with the addition of the petals of the spirit Heart Flower. He only planned to use ordinary medicinal herbs to brew a simplified version of the body tempering soup.

After all, Wu Lei was not a martial artist who specialized in body cultivation. He did not need to improve his physical fitness to such a terrifying level. Furthermore, although Xia ruofei had accumulated quite a number of spirit Heart Flower petals, there were too many uses for them. He would not waste them easily.

The simplified version of the body tempering soup required ordinary Chinese herbs. Xia ruofei had a large stock of these Chinese herbs in the spirit map space. They were not particularly expensive. In fact, as long as they could be bought with money, Xia ruofei did not need to be restricted. He could use them whenever he needed.

Although Xia ruofei had not made the body tempering soup for a while, the Kasaya was not very helpful to him now. However, his control was much better than before, so he made it very smoothly.

Xia ruofei checked the body tempering soup. After confirming that there was nothing wrong with it, he kept it in the spirit map space. Then, he went to the bathroom to take a shower and went back to his bedroom to sleep.

The next day, Xia ruofei woke up a little earlier. He took out the body tempering soup that he had brewed the night before from the medium and began to heat it on the clay stove.

At half past six, Wu Lei rang the doorbell to Xia ruofei's room.

When Xia ruofei opened the door, Wu Lei immediately smelled a medicinal fragrance. The misty body tempering soup was different from ordinary Chinese medicine. It did not have a strong medicinal smell. Instead, it had a light fragrance. However, this fragrance was also mixed with a faint medicinal smell, which was very comfortable to smell.

Of course, this was all on the surface. In reality, the body tempering soup was not as gentle as it smelled. Its medicinal properties were very strong. Even if it was a simplified version of the body tempering soup without the petals of the spirit Heart Flower, its medicinal properties were still stronger than the average body tempering medicine. If Wu Lei had not practiced the first set of body – tempering movements of the Golden Man, Xia ruofei would not have made the body tempering soup for him to consume.

The reason was simple. He was worried that Wu Lei's body would not be able to take it.

In fact, Xia ruofei suspected that the so – called simplified version of the body tempering soup was the real original formula. The version with the petals of the spirit Heart Flower should be an improvement

on the foundation of the original body tempering soup by the previous owner of the spirit map world, spiritual master Shan He, after obtaining the spirit heart tree, to make the medicinal effect stronger.

When Xia ruofei saw Wu Lei, he immediately smiled and said, "You're just in time. The medicine is just warm now. Hurry up and come in!"

Wu Lei walked into the room and immediately saw the bowl of body tempering soup that was being heated on the clay stove in the small living room. He couldn't help but be stunned for a moment and then asked, "President Xia, this ... This is for me?"

Xia ruofei nodded casually and said, "Yup! This is also a medicine to train the body. When combined with the body – tempering movement I told you to do yesterday, the effect will be even better! Don't worry, it's all made from Chinese medicine. There won't be any stimulants, so you can take it without worry!"

Wu Lei could not help but feel touched. Although everyone was born equal, objectively speaking, Xia ruofei's status was much higher than his. Moreover, the two of them could be said to have never met before, but Xia ruofei spared no effort to help him become stronger.

It was only half past six in the morning, but Xia ruofei had already prepared the medicinal soup for him to take as soon as he arrived. It could be seen how early Xia ruofei had woken up, and all of this was to help him.

Wu Lei's eyes reddened at the thought of this. He was in a foreign country and the competition was much more intense than in China. At this time, his heart was even more fragile. Xia ruofei had helped him without thinking about how to repay him. He was naturally very touched.

This was the difference between sending charcoal in the snow and adding flowers to brocade.

Wu Lei looked at the bowl of fragrant medicinal soup in a daze. His voice was a little choked, "President Xia, I ... I really don't know how to thank you ..."

Xia ruofei laughed and waved his hand. "Let's not talk about this, we are fellow countrymen! In this foreign country, they should help each other. In addition ... You really don't have to be so formal. I seem to be a few months older than you! You can call me big brother Xia from now on, and I'll call you Lei Zi, how about it?"

"Alright!" Wu Lei nodded and said, "brother Xia, then ... I'm going to climb up the social ladder?"

Xia ruofei laughed and patted Wu Lei's shoulder. "What's there to be concerned about? Everyone is equal, but you and I hit it off, so we call each other brothers. It's that simple!"

Then, Xia ruofei removed the bowl from the stove and said, "Lei Zi, I have to make one thing clear to you first, that is, this bowl of medicinal soup is also used to train the body. The effects of the medicine are a little strong, and the pain is even more intense than yesterday's body training. It's up to you to decide if you want to take it or not."

"I want to drink!" Wu Lei said without much thought. Brother Xia, I can take it no matter how much it hurts!"

Xia ruofei nodded and said, "okay!" Test the temperature. As long as you can bear it, drink it in one gulp. This medicine must be drunk while it's hot. Remember ... After you drink, immediately do the set of movements I taught you yesterday. I will correct the deviation for you at the first moment. Only in this way can you absorb the medicine as soon as possible and reduce the pain. Otherwise, your body can't take it and you may faint. Then, not only will it be a waste of effort, but it may also cause harm. "

Chapter 2522 Reborn (2)

"I understand!" Wu Lei said with a serious face.

Then, Wu Lei picked up the bowl of medicine and tested the temperature with his lips. He felt that there was no problem. He raised his head to look at Xia ruofei and said, "Brother Xia, I'll drink it!"

"Drink!" Xia ruofei nodded and said, "don't worry. Even if you can't take it, you won't be seriously hurt with me around! But he had to do his best to persevere! I believe that with your willpower, you will definitely be able to do it!"

Wu Lei nodded heavily. Without any hesitation, he lifted the bowl of medicine and gulped down the entire bowl of body tempering soup without leaving a single drop.

When the body tempering soup entered Wu Lei's stomach, he suddenly felt as if a pot of charcoal fire had started to burn in his stomach. At this time, he remembered Xia ruofei's instructions and quickly put down the medicine bowl. He sat on the ground and started the first set of body – refining movements for the little golden man.

Xia ruofei glanced around and realized that Wu Lei's movements were more accurate this time. There were a few missing parts.

Xia ruofei knew that time was of the essence. At this moment, Wu Lei must be suffering from the pain of the body tempering soup's cleansing. Hence, without a second word, he quickly corrected a few parts of Wu Lei's movements that were not quite up to standard.

When Wu Lei got into the correct body refining posture, the pain on his face suddenly reduced a lot. His face was originally red like he had a high fever, but now it had slowed down a little.

Wu Lei felt like he was in a furnace. He felt like he was being roasted by a raging fire. He could no longer feel the pain from the body – tempering movement. He was only using his willpower to maintain the movement.

Xia ruofei watched from the side and was slightly worried. However, he couldn't help at this time and could only silently cheer for Wu Lei.

Wu Lei gritted his teeth and persevered. The medicinal properties of the body tempering soup were also being absorbed bit by bit, and the burning sensation was weakening bit by bit.

This process lasted for about ten minutes before Wu Lei finally felt that he had recovered a little. At the same time, he once again felt the pain caused by the body – refining movement.

The familiar pain made Wu Lei want to cry. Although it was still very painful, it was nothing compared to the burning pain caused by the body tempering soup.

Moreover, the pain from the body – tempering movement indicated that the medicinal properties of the body tempering soup had been mostly absorbed ...

After 20 minutes, Wu Lei fell to the ground because he couldn't bear the pain of the body refining movement and ended the practice.

Because of the body tempering soup, there was not much time for reference, but there was no doubt that Wu Lei's physical fitness had once again improved by leaps and bounds.

Because at this time, Wu Lei's bare skin was covered with a layer of black fat – like impurities that emitted an unpleasant smell. It was even more impurities than the first time he practiced the body refining movement yesterday.

Wu Lei also noticed this immediately. In fact, he didn't even need to see these impurities to feel the huge changes in his body. His body still looked a little thin, but there seemed to be endless energy in his body. The majestic power made Wu Lei feel that he could kill a cow with one punch.

Of course, Wu Lei didn't know if it was an illusion, but it was a fact that his body and strength had greatly improved.

He got up from the ground and said gratefully, ""Brother Xia, I owe you more and more favors!"

Xia ruofei waved his hand and said with a smile, ""Since you call me big brother, you don't have to be so formal. Go and wash up! It's almost Seven o' clock now. Don't delay your morning training. "

"Alright!" Wu Lei nodded and said.

He had come prepared today. He was wearing the training T – Shirt he had worn at the domestic club and the Spanish team training uniform he was going to wear in the morning. He had brought it in his bag.

Wu Lei didn't stand on ceremony with Xia ruofei anymore. He grabbed his bag and went into the bathroom.

While Wu Lei was taking a shower, Xia ruofei received a call from Zhou leiyun.

"Chief Zhou!" Xia ruofei answered the call with a smile.

"President Xia, do you have any plans today?" Zhou leiyun asked, "I'm almost done with my work here. I can accompany you around Barcelona!"

Dong Yun and her team had already returned to China on paradise yesterday. As Xia ruofei did not return with them, only one of them had to take a commercial flight.

Similarly, everyone in the group used red packets to draw this "unlucky person". What was somewhat dramatic was that shi wen, who had managed to grab the smallest amount of red packets when she came, was actually the luckiest one this time and became the only person who needed to take a commercial flight back to China.

When Xia ruofei saw the results, he could not help but send three laughing emojis in the group.

After Paradise returned to China, it would soon carry the second batch of employees who were on vacation in Spain to Barcelona. Xia ruofei would also return to China with this batch of employees.

Hence, Xia ruofei still had more than a week left in Spain.

After hearing Zhou leiyun's words, Xia ruofei pondered for a moment and said, ""Director Zhou, I want to go to the club to watch the first team train today. Do you want to come?"

"You actually want to watch the training?" Zhou leiyun asked in surprise. No problem! The host will do as the guest wishes. I will make the arrangements as you wish. "

Chapter 2523 Reborn (3)

"I'm not a guest, you know!" Xia ruofei said half – jokingly.

"Yes, yes, yes! Look at my brain ... You're the second largest shareholder of the club!" Zhou leiyun quickly said,"then let's go to the halke training base today and watch our first team's training! I'll come and pick you up later!"

"Alright! Then I'll see you at the hotel!" Xia ruofei said with a smile.

Wu Lei came out of the shower quickly and said to Xia ruofei, ""Brother Xia, I'll go to the club now!"

Xia ruofei said,"director Zhou will come and pick me up later. I'll go to the club in the morning to watch your training. Why don't you come with us?"

Wu Lei shook his head with a smile."I feel like I have endless energy. So I want to run today. It's also a warm up."

The distance from the Grand Central Hotel to the halke Sports City was about five or six kilometers. For any professional football player, such a running distance was naturally no problem. In a top league team, the average distance a player ran in a game was at least nine kilometers or ten kilometers, and the more he ran, the more he could run, the more he could even run eleven or twelve kilometers.

However, most people would not choose to run there.

Wu Lei usually took the bus, but today he felt that he could not use up all his energy, and he desperately wanted to run to vent it out.

In fact, this was the feeling of discomfort after a sudden increase in strength. Xia ruofei had experienced it before and naturally understood it. He smiled and said,"no problem!" However, you have to be careful! And ... Do You Know the Way?"

Wu Lei showed his phone with a smile and said, ""There's navigation! No problem!"

"Alright! Then you can run!" Xia ruofei said,"remember to save some energy. Don't wait until the training starts and you'll be exhausted!"

"Brother Xia, don't worry! I'll make the coaching team look at me in a new light during today's training!" Wu Lei said with confidence.

After Wu Lei had left, Xia ruofei had a buffet breakfast at the hotel restaurant. Then, she waited in the lobby on the first floor for a while before Zhou leiyun arrived at the hotel.

Xia ruofei sat in Zhou leiyun's nanny van and the two of them arrived at the Halk training base.

The two of them did not let the club's officials accompany them. They only brought Jiang Xiaochen along to ask him to be a translator when there was a need. The three of them walked from the parking lot to the first team's training ground.

In addition to the regular training, the first team would also have an internal match in the morning. As the match had just ended yesterday, the training intensity today was not that high. The main focus was to recover. The match was also to let everyone maintain the feeling of a match.

As Zhou leiyun walked forward, he smiled and asked, ""President Xia, why did you suddenly want to come and watch the training today?"

Xia ruofei looked at Wu Lei, who was training his passing skills, and said with a smile, ""I've specially trained Wu Lei, so I'm here today to see how the training is going."

Zhou leiyun was stunned for a moment before he smiled and said, ""It's only been a day, what can ..."

At this point, Zhou leiyun paused. He could not help but look at Xia ruofei and said, ""If it was someone else, it would be impossible to change anything in one day, but you, CEO Xia...That might not be the case! I don't dare to make any promises!"

Xia ruofei couldn't help but laugh. "Chief Zhou really thinks highly of me! Let's go! Let's go and take a look!"

Chapter 2524 Show off (1)

When Xia ruofei and his team walked to the side of the training ground, the team had just finished a stage of training. The players were all relaxing on the field. Head coach Ruby saw his bosses and quickly walked up to them.

"We're just here to take a look." Zhou leiyun smiled and said, "you guys go ahead and train."

Although they did not win yesterday's game, they tenaciously equalized the score despite being two goals behind. Wu Lei even created a penalty kick. Zhou leiyun was quite satisfied with the result.

The most important thing was that Wu Lei's performance yesterday was very eye – catching. The Spanish club also showed its face in front of the domestic fans and raised a wave of reputation, which made Zhou leiyun very happy.

The reason why he had been trying to bring in Wu Lei was, of course, because of Wu Lei's influence among the Chinese fans.

"Mr. Zhou! Mr. Xia!" Ruby said, "everyone's training attitude is very serious, and Wu's performance during training is also very good. After a short break, we will have an internal match."

Ruby had a high EQ. He knew what the Chinese boss was concerned about, so he especially praised Wu Lei.

Zhou leiyun nodded."Alright, we'll do as you've arranged. We're just here to see everyone." Coach Ruby, you don't have to accompany us. Go and organize the training!"

"Alright, please do as you please." Ruby nodded.

The players were organized by the assistant manager to do some relaxation exercises in an orderly manner. The staff were collecting the training equipment on the field and the scattered football around, because the team's internal game would be held here in a while.

Xia ruofei looked at the soccer balls piled on the side of the court and couldn't help but feel a little itchy in his feet. He had loved playing soccer in high school and even played five – man soccer games with his comrades from time to time after he became a soldier. It was just that after he left the Army, he had basically not touched the ball.

The turf on the Spanish football club's training ground was excellent. Xia ruofei could not help but walk over and stretch out his foot to pick up a football. Then he tried to start to dribble the ball.

Today, Xia ruofei was dressed in loose, casual clothes. His shoes were New Balance sneakers. Although they were not specialized for football, they were enough for some simple sports.

After all, Xia ruofei had not touched a soccer ball for a long time. His sense of the ball had inevitably declined. Hence, after bouncing five or six times at the start, the soccer ball fell to the ground due to his control issues.

Of course, this was also because he did not deliberately use his mental power to control it. Otherwise, even if he did not know how to play football at all, the football would be stuck to his feet like glue and could not fall off even if he wanted to.

However, Xia ruofei's subtle control of his strength was superb. In addition, he had a certain Foundation in football. After a short period of adaptation, he became more and more skilled in dribbling the ball. Every time he did it, it was full of rhythm.

After all, Zhou leiyun was older. At first, when he saw Xia ruofei running to the side of the court to play football, he thought it was funny. However, when he saw Xia ruofei's dribbling becoming more and more skilled, he could not help but widen his eyes.

Xia ruofei bounced the ball for 60 to 70 times, but it did not seem like the ball was going to fall.

This attracted the attention of the players and the coaching staff. They had already relaxed and were about to start preparing for the group match. Now that they had nothing to do, they could not help but gather around.

"How many times has President Xia jolted?" Zhou leiyun asked as he looked at Jiang Xiaochen, who was mumbling to himself.

"It's 86!" Jiang Xiaochen replied quickly and continued counting, " 87,88,89 ..."

He was Xia ruofei, who had been counting since the start of the game. He didn't think much of it, but he didn't expect the game to continue after so long.

Soon, the players and coaching staff also got the exact number. Everyone kept counting loudly at the side. Some were in Spanish, some in Catalan, and some in Portuguese. Of course, Zhou leiyun and Jiang Xiaochen were both in Chinese.

In fact, throwing the ball was just a very basic technical movement. It was mainly used to cultivate the players' sense of the ball. Any of the players and coaches present today could easily do it dozens of times.

There were even children who specialized in bouncing the ball and could continuously bounce it hundreds or even thousands of times.

Therefore, bouncing ball itself wasn't that amazing.

However, Xia ruofei was the owner of the club and was not a professional player. He could not even be considered an amateur player. It was surprising that he could do this.

Besides, Xia ruofei's dribble had a strong rhythm. It seemed to have a special rhythm that made people feel very comfortable. It was definitely not like watching other people who were worried about him.

Everyone had a feeling that if Xia ruofei wanted to, he could continue to dribble the ball until the end of time ...

"156、157....."

Xia ruofei could hear the crowd counting. He had been through a lot. He would not have stage fright in such a situation. On the contrary, he felt a little excited. It was as if he had returned to his high school days when he was playing football. However, the people standing on the sidelines were not the coaches and players of the top league, but his classmates. If there were beautiful girls among them, his sense of achievement would immediately rise by several levels.

Chapter 2525 Show off (2)

Xia ruofei felt that he was in a good state. He added a few fancy movements in the process of tossing the ball. When the ball spun and fell, Xia ruofei's feet quickly circled the football twice and then lightly padded under the football. The football suddenly stopped at his feet and did not move an inch.

Then, Xia ruofei kicked the ball up with all his strength. The ball flew up at least ten meters high, and it was not the kind of ball that went up and down.

Xia ruofei jogged a few steps towards the predicted landing point. At this time, the football also fell quickly.

Under the effect of gravity, the football fell faster and faster.

Everyone watched as Xia ruofei lightly touched the bottom of the ball with the tip of his foot. The ball immediately stopped as if it was stuck to Xia ruofei's toes and did not move at all.

From the speed of the whizzing arrow to the moment when it obediently stopped on Xia ruofei's toes, the change from extreme movement to extreme stillness had a strong visual impact.

Even the professional coaches and players couldn't help but exclaim in admiration. Although the action seemed simple, it was actually a test of the control of the football. Even some professional football players might not be sure to stop the ball well when facing such a fast ball that went straight up and down.

Chinese fans often joked that some National Football players stopped the ball ten meters away. In fact, when they encountered some difficult balls, many professional athletes were not sure that they could stop it well.

Xia ruofei gently picked up the ball again. Then, before the ball fell to the ground, he bent his body, knocked the arrow, and kicked the bottom half of the ball.

The football suddenly flew out at an extremely fast speed, drawing a large arc in the air, and suddenly went into the net. When it fell, the football was still spinning at a high altitude.

Xia ruofei tossed the ball to the side of the field. The distance between the end line and the center line was almost the same. Although the training ground was a small field, he shot directly near the sidelines, and he used an outer instep arc. The trajectory of the football was almost perfect. Finally, it flew into the goal along the corner between the pillar and the crossbar.

It could be said that even if the goal was guarded by a goalkeeper, there was nothing he could do in the face of this kind of world wave that went straight into an absolute dead corner.

"Wow!"

"God, what did I just see ..."

.....

After the players took a deep breath, they couldn't help but wonder if they were born to see a company boss wearing amazing sneakers, stretching more than a professional footballer, side – stepping near the sidelines and sending the ball directly into the goal. If luck was excluded, many people secretly compared the ball to themselves and sadly found that they might not be able to do it ...

Wu Lei was the first to react. It wasn't because he had a strong mentality. It was because Xia ruofei's image and position in his heart had been deified. No matter what Xia ruofei did, he would not be surprised. In his heart, Xia ruofei was omnipotent.

So, Wu Lei was the first to cheer. Then, the players and coaches all reacted and applauded Xia ruofei's wonderful performance.

Zhou leiyun and Ruby even gave Xia ruofei a thumbs up.

"Mr. Xia, I didn't expect your footwork to be so good. Have you received professional football training before?" Ruby came forward and asked.

After Xia ruofei heard Jiang Xiaochen's translation, he smiled and shook his head. "I only liked to play football when I was in middle school. I didn't learn it systematically."

Ruby couldn't help but say with some regret, "I can see that your talent is quite good! If he had received professional football training from a young age, he would have definitely become a star player!"

Ruby suddenly reacted and smiled in embarrassment. ""Of course, maybe it's a good thing ... If you play football, you won't be so successful in your career ..."

Ruby recalled that Xia ruofei was already a shareholder of the club. For a young man to be able to easily invest tens of millions of euros in a Football Club, his net worth must be in the hundreds of millions, and in euros.

In comparison, what was the big deal about becoming a football star?

Even a top star like Messi could only earn about a few hundred million euros in his entire career. Xia ruofei was still so young. When he reached Messi's age, his wealth would definitely not be lower than that.

And how many people could be Messi 's?

Xia ruofei chuckled. "It's not necessarily a good thing for a hobby to become a career. But to be honest, the population of China is there. There are still many talented players. It's just that because of the environment, many talented players did not end up on the path of professional football. Some people started to go downhill early and did not display their talent because of unscientific training or other reasons."

Ruby nodded in agreement. In the past, he did not know much about Chinese football. He only knew that it was almost a football desert. When the club decided to bring in Wu Lei, he was a little disapproving, thinking that the commercial significance of the signing might far exceed the competitive level.

However, after getting in touch with Wu Lei and watching his training, Ruby's perception of him changed.

"You've said a lot," Ruby said. "I'll suggest that the club visit China more often to investigate. If there are talented young players, they can be recruited into our youth training camp."

"That's a good idea!" Xia ruofei said with a smile.

"Boss, let us see your footwork again!" A young player shouted.

After Jiang Xiaochen translated the player's words to Xia ruofei, he said, ""Director Xia, this player is called mark Rocca. He is a product of RCD Espanyol's own youth training. He is only 21 years old this year, but he is already the core of the team's midfield and an important point of the backfield. His straight passes are very accurate and can often tear open the opponent's defense. Coach Ruby values this player very much."

Xia ruofei looked at the young player in the number 21 Jersey and smiled. ""If it doesn't affect everyone's training, then I'll kick a few more times?"

Ruby saw that Xia ruofei was in high spirits and did not want to dampen his spirits. He immediately said, ""This morning's training schedule is a little loose. Mr. Xia, please show us your footwork again!"

Xia ruofei nodded. He pondered for a while, then asked Jiang Xiaochen to arrange for the staff to move a few human figures to the venue.

Everyone could tell that Xia ruofei was ready to attack the goal with a free kick.

However, everyone was still mumbling in their hearts because Xia ruofei had arranged for the dummies to be placed a little far away. They were almost 30 meters away from the goal.

The human wall was also very dense. Two human walls were formed by eight Dummies, which almost blocked all the shooting routes. This was almost impossible in a real game. There were only 11 people in the team. Besides the goalkeeper, if eight people were used to form a human wall, there would only be two people left. How could they defend?

Xia ruofei easily picked up a ball and walked over. He placed it at a position about thirty – two or thirty – three meters away from the goal. The position was relatively straight, almost directly facing the goal.

Those who had played before knew that the best distance for a truly threatening free kick must be more than 20 meters. This distance was just right for the force to be released, and there was enough space to make a curve ball. If it was too close, the ball would have already flown out before the arc could be drawn. If it was too far, both the accuracy and speed of the ball would be affected. Furthermore, the goalkeeper would have more time to react, and it would be difficult to pose a threat.

Moreover, the position had to be slightly off. It would be bad if the angle was too straight.

Xia ruofei's current position was not only far away, but the angle was also very accurate. It was too difficult to shoot directly.

Xia ruofei stepped on the soccer ball and smiled at markeloka. ""Rocca, are you interested in competing with a direct free kick to attack the goal from this position?"

Chapter 2526 A world – shaking kick (1)

Markelka was stunned. He didn't expect Xia ruofei to challenge him. His footwork was not bad, but he was not the first free kick player in the team. His strengths were that his defense was good and he had a strong view of the overall situation, so he could play the role of the manager in the middle and backfield. However, he was not best at free kicks.

Not to mention, Xia ruofei's current position was so good that even some free – kick experts were not confident.

His teammates laughed when they saw that he was stunned. They then cheered for him to not be afraid and to fight bravely.

Even the manager, Ruby, said with a smile, ""Rocca! You're one of the fans 'favorite young players. Although Mr. Xia is our boss, as a professional player, how can you cower in the face of a challenge from someone who has never played professional football?"

Melondo, who was about the same age as him and had also been trained by the Spanish, cheered for mark Rocca, ""Rocca! There's nothing that can stop you. Go and kill the boss, and you'll be the hero!"

Markelka smiled wryly. He had no choice but to do it.

As a result, he could only brace himself and walk over. The players and managers naturally gathered around to watch the fun. Meanwhile, Zhou leiyun and Jiang Xiaochen were cheering for Xia ruofei.

Markelka asked cautiously, "Mr. Xia, how do you want to compete?"

Xia ruofei smiled and said, "I'm fine with anything!" Why don't we make it simple? we'll just shoot at a fixed point and put a dummy at the goal. After all, there must be a goalkeeper guarding the goal in a real game!"

"No problem!" "But ... We can't decide the winner with one goal. We'll each play 10 goals, and the one who scores the most wins. Is that okay?"

The reason why Mark Rocca suggested this rule was naturally to eliminate the influence of luck as much as possible. It was impossible for every kick to be so lucky that it would exceed the standard, right?

"I agree!" Xia ruofei smiled and said, "since it's a competition, we should have some stakes. If I lose, I'll invite the entire first team, including the coach, the team doctor, the translator, and other staff, to the best restaurant in Barcelona for a big meal!"

The players, coaches, and staff all cheered when they heard that.

"Alright!" Markelka replied. If I lose, I will also ..."

He had wanted to treat everyone to a big meal. He was now a first team star. Although treating the entire team to a big meal would hurt him a little, it was not impossible.

However, Xia ruofei waved his hand and interrupted him, saying, "If I'm lucky enough to win, you just have to promise me that you'll have at least one assist in the next round of the league tournament. How about it?"

Magroca hesitated for a moment. In the next round, Espanyol would be challenging Valencia in an away game. They were a traditional strong team in La Liga. Although they might still be a little behind Real Madrid, Barcelona, and Atletico Madrid, they were a frequent European player and were much stronger than Espanyol.

In addition, the Spaniards were playing away, so it was not easy to score in this situation.

However, since he had already said so, he couldn't back down. He hesitated for a moment before nodding. "No problem! If I can't do it, I'll treat the entire team to a big meal, two meals!"

Xia ruofei laughed heartily and high – fived markelka. They had reached an agreement.

The staff went to move a dummy and placed it in front of the goal. This way, the angle of the shot, which was not big to begin with, was even smaller now. If one wanted to directly shoot and hit the goal, they had to bypass the "goalkeeper" while bypassing the human wall. Moreover, at such a long distance, if the ball was not fast enough, even if it hit the range of the goal, it was very likely to be pounced by the goalkeeper in actual combat.

Everyone present was a professional player. It was certainly impossible to use a very low speed to improve the hit rate under the watchful eyes of the public, otherwise it would be a joke.

"Who's first?" Xia ruofei stood in front of the soccer ball and said, "why don't you go first?"

"Sure!" Said markelka.

Hence, Xia ruofei took a few steps back, while mark Roka stood in front of the football.

He first picked up the football, then stepped on the grass near the penalty spot, then squatted down and carefully placed the football on the penalty spot. After he placed it, he felt that it was not good, so he picked it up and adjusted the position.

In the process of moving the ball, magroka had to make several adjustments.

However, no one urged him, and no one was making a fuss now. Everyone was watching quietly.

After he set up the ball, he started to step back. It was normal for him to back off a long distance because the penalty spot was too far away from the goal. If he wanted the ball to have enough initial speed, he had to have a long enough running distance.

Mark Rocca finally stopped. He put his hands on his hips and looked at the goal in the distance. He looked like Ronaldo. After taking a deep breath, he started to run.

Mark Rocca's speed was getting faster and faster. When he came in front of the football, one of his feet was firmly planted in the grass, while the other leg was swinging widely. There was only a bang, and the football was like a cannonball that was shot out of the barrel, flying in an arc in the direction of the goal.

Chapter 2527 A world – shaking kick (2)

This time, Mark Rocca was well prepared. After the football was kicked out, whether it was the initial speed or angle, it was very good.

The football quickly bypassed the human wall and spun in the direction of the goal.

The speed of the ball was very fast. In the blink of an eye, the ball had arrived in front of the goal and was about to fly into the goal from the dead angle in the upper right corner of the goal.

However, everyone heard a “bang” as the football slammed heavily into the angle between the crossbar and the pillar, and then bounced out.

Everyone could not help but let out a huge sigh in unison.

Mark Rocca's kick was almost perfect, but his luck was a little bad. The ball did not go in.

He was also very depressed. He felt that the ball should have been there as soon as he kicked it, but it was just a little short. It was estimated to be an error of one or two centimeters. Otherwise, it would have been an absolute dead end.

Markelka held his head in regret and sighed. He then nodded at Xia ruofei and said, “Mr. Xia, it's your turn!”

A staff member had already brought another football over. Xia ruofei smiled and nodded. He casually placed the football in the position where markelka had served.

Then, Xia ruofei looked up at the goal and took a few steps back. Without any preparation, he strode forward and kicked the ball in the middle.

The ball flew up with a whoosh and quickly exceeded the height of the human wall.

After crossing the human wall, the football was still rising rapidly. Looking at the movement, it was definitely an anti – aircraft shot. By the time it reached the goal, it would definitely be high in the sky.

Just as everyone was sighing in secret and Markelka was rejoicing in his heart, the football had already reached the highest point. Immediately after, its trajectory seemed to go against the law of a parabola, and it suddenly dropped rapidly.

In the blink of an eye, the football whizzed into the net from the bottom of the crossbar.

The training ground was silent for a long time before a burst of applause broke out.

“This is the ‘elevator ball’!” An assistant manager couldn’t help but reveal an extremely surprised expression as he muttered.

The manager, Ruby, looked at the field and nodded. “Yes, and his mastery of the footwork is quite accurate!”

Ruby looked at the calm Xia ruofei with a complicated expression. If Xia ruofei’s kick was not a fluke, then his talent was too scary. However, such a talented person was not a professional player. This was a waste of God’s gift!

Xia ruofei’s free – kick shocked Mark Rocca. He took a while to come back to his senses and said to Xia ruofei, “Mr. Xia, good footwork!”

Xia ruofei smiled and said to Jiang Xiaochen, “Xiaochen, tell him it’s his turn to kick.”

After listening to Jiang Xiaochen’s translation, Mark Rocca nodded and picked up a football to go to the penalty spot.

Xia ruofei’s amazing performance did not make him discouraged. Instead, it aroused his fighting spirit.

This time, Mark Rocca no longer pursued extreme speed and angle. He steadily sent the ball into the goal with one kick.

However, the speed of the ball was much slower than Xia ruofei’s earlier kick and the arc was average. If it were an actual match, the goalkeeper would probably have missed the ball.

Markelka’s face was a little hot, and he felt like he was cheating. Xia ruofei didn’t care at all. He smiled and clapped at him, then walked to the penalty shot.

Just like before, Xia ruofei did not prepare carefully. He just casually placed the ball with his foot, took a few steps back, and then strode forward to kick again.

With a whoosh, the football went into the net.

This ball was the same as the previous one. It was extremely fast and had a strange arc. Even the position where it flew into the goal was similar to the previous one.

2 to 1. Xia ruofei was still in the lead.

The competition continued.

The two of them took turns to make free throws. In a short while, both of them had made nine shots. Under the pressure, Mark Rocca did well and scored a total of six shots. Although the speed and arc of the ball were barely satisfactory, considering the distance and the difficulty of the human wall placement, the result was quite good.

However, compared to Xia ruofei's results, the six free throws were not worth mentioning. The first nine shots were all sent into the net by Xia ruofei in the same way, in the same position. It was like a computer's copy and paste, with almost no mistakes.

9 – 6, the result was already decided. No matter what the result of the last free throw was, Mark Rocca had already lost the match.

However, he didn't give up on the last free throw just because he was going to lose.

This time, Mark Rocca also went all out. After putting down all the psychological burdens, he played beyond his level and kicked the ball into the goal with a beautiful arc.

Out of his 10 free kicks, this one was the most beautiful.

After the penalty, Mark Rocca could not help but raise his arms and cheer for himself.

Xia ruofei smiled and clapped at Mark Rocca. "Good play!"

Mark Rocca said guiltily, "Compared to Mr. Xia's footwork, I'm still far from it ..."

"No, no, no. In my opinion, you're already very good!" Xia ruofei said.

He was not just trying to comfort Mark Rocca. After all, the player was still very young. It was already very rare for him to be able to play such a beautiful free kick.

Xia ruofei placed the ball on the penalty spot and started to retreat.

Everyone was even somewhat immune to Xia ruofei's beautiful elevator ball. Although Xia ruofei's field goal percentage was a frightening 100% and each of his shots interpreted the art of football very well, the first nine shots were almost exactly the same. No matter how beautiful the goal was, anyone who watched it nine times in a row would feel aesthetic fatigue.

However, everyone soon realized that Xia ruofei had retreated a little too far this time.

During the first few free throws, Xia ruofei only took three to five steps back, then he ran up and made the free throw in one go.

But now, Xia ruofei had already retreated seven or eight steps. The distance of the run – up was obviously longer than before.

Xia ruofei took a total of nine steps back. He looked at the goal again, took a deep breath, and started running with small steps.

Xia ruofei's speed was getting faster and faster, and his steps were getting bigger and bigger. By the time he reached the back of the ball, his speed had already increased. When he took his last step, his right leg had already started to swing backward.

After a large swing of his leg, Xia ruofei's body tilted slightly. His right leg was like a whip, heavily hitting the middle part of the football.

The football whizzed out like a heavy cannon and went around the right side of the human wall. After avoiding the human wall, the football crossed a very large arc and deviated to the left side of the goal.

However, in the process of flying, the football changed direction again. It made another huge arc and just flew past the goalkeeper's dummy, directly drilling into the upper right corner of the goal.

If one were to stand directly facing the goal, one would be able to see that the football had crossed a very exaggerated "S" shaped arc and finally entered the goal.

If this was a real match, the goalkeeper's center of gravity would have been shaken, and there would only be one result, which was to watch the football enter the net.

After the penalty kick, the whole court was silent. Even Wu Lei, who had blind trust in Xia ruofei, could not help but open his mouth in surprise.

...

A scene appeared in everyone's mind. It was the short and strong Robert Carlos, who was wearing a yellow jersey, after a super – long run – up, and the violent free kick.

Xia ruofei's free kick was a perfect copy of Robert Carlos's S – shaped free kick.

It took a while for everyone to come back to their senses. They broke out in applause and praises, and some players couldn't help but whistle.

Mabroka was dumbfounded. After a while, he laughed bitterly and said, "Mr. Xia, I admit my defeat!"

Xia ruofei laughed and said, "since I've won, don't forget your promise!" I'll be there to watch the next round of the competition!"

"I will do my best to fulfill my promise!" Said markelka seriously.

Xia ruofei nodded and said, "alright, I've wasted so much of everyone's time. You guys can continue with your training!" Wasn't there still an internal match? I'll be your cheerleader!"

Chapter 2528 If the gods help (1)

Xia ruofei, Zhou leiyun and the rest walked to the side of the field, and the team's match officially began.

However, after seeing Xia ruofei's amazing free kick performance, everyone was more or less distracted. When the assistant coaches were grouping, they even read two names wrong.

If it was a famous star player who showed such footwork, everyone would praise him, but the shock would not be as great. However, Xia ruofei had not even played professional football for a day. He was one of the club owners, but his footwork was better than the team's main midfield core. How could he let people live?

Ruby accompanied Xia ruofei and Zhou leiyun to the side of the field, while Jiang Xiaochen acted as their translator.

Zhou leiyun said to Xia ruofei, "CEO Xia, I didn't expect this!" Your ball skills are actually so good! Why didn't you play professional football in the beginning?"

Xia ruofei waved his hand and said with a smile, "I'm just playing for fun, I can't compare to a professional. And the football environment in the country back then ... You should know that not many people were willing to play football as a career."

Zhou leiyun sighed and said, "that's right!" Don't look at how the Chinese Super League players are all making a lot of money now. Our country's football talents are actually very lacking. After a series of shady dealings were exposed back then, there were really not many parents willing to send their children to learn to play football. This is equivalent to a generation being cut off!"

Xia ruofei smiled and said, "it's okay, we can wait!" Aren't there more and more children playing football these days? Now that the Spanish clubs are becoming more and more famous in the country, they will also drive the development of football. The children who are learning to play football now are the future of Chinese football!"

Zhou leiyun nodded. "Our club is also planning to cooperate with our country's youth training. We hope to select some talented seedlings to enter the Spanish ladder team from a young age. They will be trained in accordance with the mature youth training methods in Europe."

"For the development of Chinese football, it still has to be based on youth training and the league. Now the league seems to be a bit of a false prosperity, but the youth training really has to be done well." Xia ruofei said, "I think it's a good idea to use Europe's mature youth training system to train a group of football talents for our country. It doesn't matter even if we have to lose some money."

"Yup!" Zhou leiyun nodded.

The two of them chatted in low voices, and the match on the field finally began, so everyone turned their attention to the field.

Today's team competition was not strictly divided according to the main force and substitutes. Basically, the number of main forces and substitutes on both sides was similar. Wu Lei was assigned to the first team wearing the yellow Training Vest, while their opponents were wearing training jerseys directly without a vest.

The match began with the whistle of the assistant coach who was acting as the referee.

Ruby and the other coaches also perked up and looked at the field. In addition to keeping the players' 'game sense, this kind of game was also a good opportunity for the coaches to observe the players' competitive state.

After the game started, the fight between the two sides was still quite intense, especially for some fringe players. Many of them had the goal of entering the big list and playing as substitutes first. And whether they could make it into the squad list naturally depended on their condition during training. This kind of match was a very good opportunity to show off.

Moreover, the two major shareholders of the club were also present today, so he had to perform well.

Wu Lei was still playing on the right side, which he was familiar with. However, he did not have many opportunities to get the ball. Many of his teammates did not trust him very much, and his shortcomings in the last game had been exposed.

Sometimes, Wu Lei ran out of a very good gap, but his teammates chose to pass the ball in the other direction. He only played the role of pulling the defensive line.

However, Wu Lei didn't slack off just because he didn't have a chance to touch the ball. He still ran with all his might. As long as there was a chance, he would rush to the opening with all his might.

Ruby saw this scene from the sidelines and could not help but secretly nod.

After a few days of observation, Ruby had a better understanding of Wu Lei's characteristics. The Chinese striker might not have a position in a big team, but he was still valuable in a club like RCD Espanyol. It was not like the mainstream opinion that the transfer was only for commercial purposes.

Ruby's only concern was Wu Lei's stamina and ability to fight.

In terms of physical fitness, Wu Lei's physical fitness was not bad when he was in the Chinese Super League. However, he came directly to La Liga after playing in the Chinese Super League. The cycle of the two leagues was different. The leagues in Europe were all cross-year, which meant that Wu Lei had played a lot more games than other players. His physical reserves were definitely not as good as other players. Moreover, the pace of La Liga was much faster than that of the middle Division, so the physical requirements were naturally higher.

Based on Wu Lei's physical data in the team, his current physical fitness was not enough to support the whole game.

Needless to say, Wu Lei was the best striker in China. However, because the overall training and management level of Chinese football were not as good as those in Europe, even a striker like Wu Lei's muscle strength was not up to the standard of European professional football clubs.

This was very obvious in Wu Lei's first game yesterday.

However, no matter what, Wu Lei's game attitude was good, and his awareness was also very good. He spared no effort to run like this, and he would definitely get a good opportunity in the game. As long as his ability to grasp opportunities in front of the goal improved a little, there would be no problem in scoring.

Chapter 2529 If the gods help (2)

As for physical fitness, it could be slowly trained. He could play in the starting lineup for 60 minutes and be replaced, or he could simply come on as a substitute at the start of the second half. In short, there were many options.

Ruby was still very satisfied with the transfer. Compared to Wu Lei's transfer fee and the tactical effect of his team, he was indeed a good deal.

The match continued.

Finally, Wu Lei got a chance to take the ball. It was a precise straight ball from Mark Rocca in the backfield.

However, the gap was not big this time. When Wu Lei got the ball and cut inside, the opposing center back, Naldo, had already closed in.

Naldo was the Spanish team's main center back. The black center back did not look very strong, but he was actually very strong. His positioning was also very accurate. He was the iron gate of the Spanish backfield.

If it was in the past, Wu Lei would definitely transfer the ball away when he encountered such a situation. His teammates next to him would have already run and prepared to receive him.

However, this time, Wu Lei's choice was beyond everyone's expectations. Wu Lei protected the ball by his side, and then his shoulder leaned toward Naldo's direction. He was actually actively seeking a physical confrontation.

Wu Lei's choice was exactly what Naldo wanted. He also leaned over with his shoulder heavily. This was a reasonable collision. Even in an official game, the referee would not call for a foul.

Naldo thought that with Wu Lei's small body, he would be sent flying and would not be able to stabilize himself.

However, just as their bodies touched, Naldo felt as if he had been hit by a bull. He lost control of his body and fell to the ground.

Several players could not help but be stunned when they saw this scene because Naldo's fall posture was too exaggerated, especially when he was fighting against Wu Lei. It was a little too fake to fall like this.

Moreover, it was just a shoulder collision, and Wu Lei didn't make any additional movements. Even in an official game, such a confrontation was absolutely in line with the rules. No referee would blow the whistle, and it was impossible to trick a foul!

Wu Lei was not dazed. After he knocked Naldo away, he took the opportunity to dribble the ball into the penalty area. Before the second back woke up from his dream and made up for it, he immediately pulled his leg and shot.

The football shot straight to the upper left corner of the goal like a cannonball. Everyone only felt a blur in front of their eyes, then heard a clang, and then saw the ball spinning in the net.

This shot was very powerful, so the ball was very fast. Moreover, the distance of the shot was so close that even the goalkeeper had almost no reaction. He just subconsciously stretched out his hand and did not make any saving action at all.

Wu Lei waved his arms excitedly after the goal.

Although it was a goal during training, the confrontation with Naldo made Wu Lei feel an obvious improvement.

It could be said that his current body could fully meet the requirements of La Liga matches. If he insisted on practicing that set of body – tempering movements, it would be basically impossible for the defenders in La Liga to eat him alive in the future.

What made Wu Lei even happier was that he felt that his improvement was not only in physical strength and other aspects. Just now, from receiving the ball, stopping the ball, breaking through, confrontation, all the way to shooting. Throughout the entire process, he could clearly feel that his body's flexibility and coordination had also improved to varying degrees.

When he dribbled the ball at high speed, changed directions, and shot with great force, his control of power was clearly better than before. It was also because of this that he managed to score a beautiful goal.

In the past, whenever Wu Lei had an opportunity, his first series of operations would be as fierce as a Tiger, and his last shot would be an anti – aircraft cannon shot. There were many reasons for this, including his lack of physical strength and his poor psychological quality.

But this time, he had completed it almost perfectly. On one hand, his physical fitness had been improved in all aspects, and on the other hand, his self – confidence had naturally increased a lot while he had improved.

It was no exaggeration to say that because he had practiced the body – tempering movements of the little golden man, Wu Lei had risen from a second – or third – rate striker who could barely stand in the top European leagues to a higher level all of a sudden. Moreover, he still had a lot of room for development in the future.

As Wu Lei ran towards the ring, he turned his head to look at the side of the court. He saw Xia ruofei smiling and clapping. He could not help but cast a grateful look at Xia ruofei.

Head coach Ruby was also a little surprised. He was also a little surprised by Wu Lei's goal, but he did not think too much about it. He just thought that Naldo might not be able to stand firm because of the field. Anyway, he definitely would not have thought that Wu Lei's physical fitness today could already go head to head with Naldo. It was simply unimaginable.

Only Naldo himself rubbed his painful shoulders after he stood up. He looked at Wu Lei's back in confusion.

He didn't know if he was bewitched. How could he not even be able to withstand Wu Lei's small body?

At this time, the assistant manager blew the whistle again to kick off. Naldo shook his head and focused his attention on the game.

After the game resumed, Wu Lei's chances of getting the ball gradually increased.

Everyone felt that Wu Lei was in good form today. Most importantly, Wu Lei finally dared to take the ball and no longer passed it out immediately after receiving it.

With Wu Lei as the receiving point in the front field, their side gradually took the initiative.

Although Wu Lei did not succeed every time he took the ball, he had changed a lot compared to before. His awareness was very good and his vision was wider. Even if he did not have a good chance, he could resist the opposing defenders in time and then send the ball to a more threatening position.

Naldo deliberately looked for opportunities to fight against Wu Lei a few times, but he did not manage to win. He had almost never succeeded in defending against Wu Lei's head – on attacks. Moreover, he felt pain everywhere on his body. He guessed that many places were bruised.

Naldo could not help but feel depressed. He could not help but look at Wu Lei, who was still active, and thought to himself, 'is this guy on steroids today?' How could he be so fierce!

In the beginning, Naldo thought that it was because it was not an official game, so he was not very excited. However, later on, he obviously had a competitive heart. He also knew that Wu Lei was very fierce today. He tried his best to defend every time, but he still could not get the upper hand, which made him a little depressed.

Ruby only allowed Wu Lei to play half of the game, and the half of the match only had 30 minutes to check a player's condition. 30 minutes was enough.

Obviously, Wu Lei's state of mind was burning.

In addition, Wu Lei had been running up and down from the start of the game, so he could be seen on both offense and defense. Ruby was worried that he would fight too hard during the team competitions, which would cause physical problems or injuries, which would not be worth it.

In fact, Wu Lei felt that he was at ease. He was still not satisfied with bringing him off in the first half of the game, even if he scored a goal, assisted a goal, and created a penalty kick in the 30 minutes.

This penalty shot was also during his one – on – one fight with Naldo. He used a very fast pace in the penalty area to poke the ball in the instant before Naldo went up to grab the ball. Naldo's up grab directly tripped Wu Lei's leg.

"Leizi! Good job!" Xia ruofei said to Wu Lei with a smile.

Wu Lei smiled shyly and said, "This is just an internal confrontation. The intensity isn't high."

"I think everyone's giving it their all, but they just can't stop you!" Xia ruofei laughed and said, "the improvement is very obvious! Keep it up!"

"Yes, yes!" Wu Lei nodded heavily and said.

"Alright, hurry up and take a shower. Change into dry clothes. Don't catch a cold!" Xia ruofei said, "director Zhou and I should leave too!"

Chapter 2530 Amazing stability (1)

Xia ruofei and Zhou leiyun watched half of the match and left after Wu Lei left.

On the way back to the hotel, Zhou leiyun could not help but say, "President Xia, you're really a God! The effect of your special training for Wu Lei is obvious!"

Xia ruofei laughed and said, "I'm just joking. It's only been one night. I'm not a God!" That was Wu Lei's own hard work. At most, I was just counseling him. I also felt that he was a little unconfident in yesterday's game, so I talked to him. It seems that the effect was not bad. "

Zhou leiyun could not help but feel a little disappointed. He asked, "Ah? There's no special training ..."

Xia ruofei smiled and said, "but Wu Lei's body is a little thin and not as good in confrontation. I will use some methods passed down by our ancestors to help him improve as much as possible. I believe that the training effect will not be worse than those professional physical coaches."

Only then did Zhou leiyun reveal a hint of joy. He said, "I knew it! How could President Xia's methods be so simple! Wu Lei is now the club's precious baby. The height he can reach will determine the height of our club's influence in the country! You must pay more attention to it!"

Xia ruofei said, "don't worry!" I'll do my best. "

At that moment, Xia ruofei's phone vibrated. He took out his phone and saw that it was a call from Liu Dong, the boss of jingbei group. He signaled to Zhou leiyun and answered the call.

Xia ruofei smiled and said, "President Liu, you're calling me so late at night. Could it be that you want to invite me for a drink?" I'm not in the country!"

"President Xia, thank you so much for this!" Liu Dong said. I'll treat you to a drink after you return to China!"

Xia ruofei was stunned and asked, "boss Liu, what are you talking about?" I don't understand what you're saying. "

Liu Dong said, "director Xia, don't hide it from me. I've already inquired about it. The reason why my matter in Italy was resolved so quickly was because you entrusted the local Chinese leaders and Chinese society to help. They put in a lot of effort!"

Then, Liu Dong sighed, "this matter was resolved so quickly, and it has also reduced a lot of losses for kyokuboku group! I can't thank you enough for this. President Xia, I'll see you in the future!"

Xia ruofei finally understood why Liu Dong had called. It was about the incident in Italy.

While Liu Dong was being schemed against in Italy was embroiled in a lawsuit, the stock price of kyokuboku group also fell. At the same time, there were also undercurrents within the company.

Xia ruofei heard about this at the opening ceremony of the Paradise gathering. He called lui hai of the Italy Freemasonry and asked him to use the influence of the Freemasonry to urge the Roman police to close the case as soon as possible.

Xia ruofei did not care about this matter after the call. He did not know that Liu Dong's matter had been resolved.

"Hi!" Xia ruofei said. It's this matter! I thought it was a small matter! Boss Liu, you don't have to be so polite. "After I heard about you the other day, I happened to have a few friends in Italy who are doing pretty well, so I tried to call them and tell them. Actually, I'm not sure if they can help, so I didn't tell you ..."

Liu Dong said gratefully, "director Xia, you're a great man!" I, Liu Dong, am convinced! If it were any other person, regardless of whether they could help or not, they would have told the world about it, afraid that I wouldn't appreciate it. You, on the other hand, have done it without a sound! I'm definitely going to make friends with you!"

"Haven't we been friends for a long time?" Xia ruofei said with a smile.

"Yes, yes, yes!" Liu Dong hurriedly said, "my mistake! A slip of the tongue! President Xia, we must get together after you return to the country. I have to give you a few drinks!"

"Alright! I'll contact you when I get back!" Xia ruofei smiled and said, "if the grade is not high enough, I won't agree to it!"

"Hahaha! That's a deal! When the time comes, we'll have a good gathering at the peach blossom banquet!" Liu Dong said.

"Hey! You really know how to pick a place!" Xia ruofei said, "it's a deal then!"

After he hung up, Xia ruofei kept his phone in his pocket and smiled at Zhou leiyun. "It's from kyokuboku group's President Liu."

Zhou leiyun was sitting right beside Xia ruofei, so he could clearly hear the contents of their phone call.

Zhou leiyun asked with a smile, "has the issue with him in Italy been resolved?" Or did you help me solve it?"

Xia ruofei smiled. "I've only made a few calls. Actually, I'm not sure if my friend Italy can help, so I didn't tell you about it. It seems like the result is not bad!"

Zhou leiyun sighed, "it's not easy to do things abroad these days!" Don't think that Liu Dong and I have some influence in China, but outside of China, we are of no use! Just like in Spain, money alone was not enough! President Xia, you're the best! You can still do whatever you want in Europe!"

"It's not that exaggerated. I just know a few friends! I can't say that I can call the wind and summon the rain." Xia ruofei said humbly, "it just so happens that they were able to help this time. If we were in another place, I might not be able to use my reputation."
