Chapter 2531 Amazing stability_2

“You’re too humble!” Zhou leiyun said, “we’re all aware of Liu Dong’s situation this time. If I were in his shoes, I would definitely be at my wits ‘end as well. The fact that you can help him settle this matter fully proves your ability!”

“Fine, fine, fine. If you say I’m good, then I’ll be good!” Xia ruofei said with a bitter smile.

Zhou leiyun vaguely knew that Xia ruofei’s background in China was terrifying. However, he did not expect that Xia ruofei’s influence would still be so strong even after leaving China. He knew about Italy. The Chinese who could speak in the local area must have a club background, and it had to be a big club. Otherwise, many European countries were xenophobic, and ordinary Chinese clubs would not have much influence.

Xia ruofei’s phone call was enough to make the Chinese society, which was powerful enough to influence the Italy police, step in. This already explained the problem.

However, Xia ruofei did not intend to talk about this for long and quickly changed the topic.

.....

In the evening, Ruby was still working overtime in the manager’s office of the RCD Espanyol club.

The computer screen in front of him was playing a video.

This was the video of this morning’s internal team competition, but the staff had already edited it. It was all about Wu Lei.

Ruby had watched it many times.

Through the edited video, Wu Lei’s performance in those 30 minutes could be clearly seen.

Ruby briefly summarized that in the 30 minutes of half of the game, Wu Lei had five confrontations with Naldo alone, four of which ended with Wu Lei’s victory. Among the four successful confrontations and breakthroughs, one of them had a chance to shoot directly and scored a goal, and the other one had created a penalty kick.

The only breakthrough failed. In fact, Wu Lei still had the upper hand in the physical confrontation. Naldo relied on his rich experience. When his body lost its center of gravity and was about to fall to the ground, he still managed to stretch out his foot to poke the ball and completed the defense with difficulty.

In addition, Wu Lei also faced other defenders head – on.

Except for the physical confrontation, Wu Lei’s running position, dribbling, passing the ball, shooting ... All his technical movements were full of confidence. Compared to yesterday’s game, it was as if he was a different person.

Although the pace and intensity of the team’s internal games might not be as good as official games, as an experienced manager, Ruby could naturally see that the players had put in 120% of their effort in the

first 30 minutes of today's game because the club owner was present. They all wanted to perform well in front of the club owner and the manager. Therefore, in the 30 minutes that Wu Lei played, the pace was not slow. The physical confrontations were also very intense. Everyone was fighting for real.

Under such circumstances, Wu Lei was undoubtedly the most eye – catching player in the 30 – minute game, so much so that Ruby was worried that he would not be able to take it or get injured in an accident, so he did not let him play in the second half.

Of course, from another point of view, Wu Lei's performance was perfect enough, so Ruby didn't need to observe him for a longer time.

If he had watched Wu Lei's performance on the sidelines during the day, it was an intuitive feeling. Now, he was sitting in front of the big screen computer in the office and watching all of Wu Lei's performances. Ruby was really surprised.

The statistics would not lie. Wu Lei's 30 – minute running distance, the number of times he touched the ball, the success rate of his passes, the number of breakthroughs and the success rate, the number of shots, the number of shots ... Some of the statistics were among the best among all the players who had played.

However, even though Ruby was happy, he couldn't understand why Wu Lei's physical resistance had changed so much overnight. Also, if he kept using that playing style, how long could Wu Lei last in an official game? Can you play the entire game?

With these questions in mind, Ruby made a decision in his heart. Tomorrow, he would ask the physical coach and the team doctor to do a comprehensive test for Wu Lei to see how his physical strength and physical reserves were.

It could be said that Wu Lei's 30 – minute performance had convinced the head coach, Ruby. If his physical condition allowed it, Ruby had already decided to put Wu Lei in the starting lineup.

If Piatti's injury had forced Ruby to passively put Wu Lei in the starting lineup as one of his options, then the situation was completely different now. Even if Piatti was still healthy, Ruby would still consider letting Wu Lei try to play in the starting lineup.

In the field of competitive sports, the rules were actually very simple. Everything was decided by strength!

Ruby watched Wu Lei's "half – Court highlights" a few more times, then wrote a few words in his notebook before turning off the video.

Ruby immediately opened another video.

If Xia ruofei was here, he would be very surprised that the video was of him tossing the ball on the sidelines and then competing with mark Rocca for a long – ranged free kick.

The club would set up cameras on the sidelines during training to record the training process. When the coaching staff needed it, they could watch these videos at any time to analyze the players 'conditions in a more in – depth way.

Just as Xia ruofei was tossing the ball, the camera near the opposite side of the field captured everything.

And when he competed with Rocca for a free kick, an assistant manager even moved the camera over and took a shot from several angles.

Ruby's main focus was on the free – kick part. Basic skills such as bouncing were not much. Of course, from the standard of an amateur football fan, Xia ruofei's bouncing was undoubtedly very, very good.

The video had been edited as well. The shots of marcrock's free throws had been cut out, leaving only Xia ruofei's free throws.

After watching it a few times, Ruby couldn't help but grab the mouse and drag the video into the editing software.

Ruby had been an assistant manager and a youth training coach, so a simple video clip was not difficult for him.

Ruby edited the video again in a short while. He didn't even wait for the video to be regenerated and watched it directly with the preview function on the editing software.

Ruby mainly edited the first nine free kicks from Xia ruofei.

The original video was shot from several angles, and the process of each free kick was repeated from multiple angles.

Ruby edited the scene of every free kick from the same angle and divided the screen into nine equal sections. Each small window showed different free kicks from the same angle.

Ruby moved his eyes closer to the screen and looked at it carefully. His eyes gradually widened, and his face showed a shocked expression.

After the editing, Ruby immediately noticed that Xia ruofei's free kicks were almost identical.

From his footwork, the degree of his body's tilt, the flight trajectory of the football, and the position of the football's final goal, it was almost like a copy and paste.

Ruby couldn't help but play the pictures from other shooting angles, which were even more obvious after comparison.

Ruby leaned back in his chair and took a deep breath.

It was nothing to kick a free kick like that. If they were lucky, even an amateur player could score. And to kick all nine balls in, a player with better footwork could do it. But the nine free kicks were almost exactly the same, which was a little scary.

There was only one explanation for such an effect. Xia ruofei's stability in kicking the ball was extremely strong. His grasp of strength and rotation was stable to an amazing extent.

Ruby had a look of disbelief. He could not believe that this was done by a man who had not played professional football for a day. He firmly believed that even Free Kick Masters like Zidane and Beckham, or the Ronaldo who was very good at elevator balls, might not be able to achieve such stability.

Ruby sat in his chair in silence, and a crazy idea suddenly appeared in his mind.

Chapter 2532 A crazy suggestion (1)

The next day, at the Espanyol club.

In the office of the club's manager, Jiang Xiaochen.

Jiang Xiaochen's eyes widened as he looked at the first team's head coach, Ruby, and asked, ""What did you just say? Can you repeat that?"

Ruby looked at the agitated Jiang Xiaochen and said calmly, ""Mr. Jiang, you heard me right. I hope that the club will do its best to sign a professional contract with Mr. Xia ruofei before the winter window closes."

"Coach Ruby, do you know who Mr. Xia ruofei is?" Jiang Xiaochen was so angry that he laughed.

Ruby had clearly thought it through before he came, so he didn't hesitate and said directly, ""Mr. Jiang, of course I know. Mr. Xia is one of the shareholders of our real Espanyol club ..."

"Why are you making such an absurd request when you already know?" Jiang Xiaochen stared at Ruby and said, "do you think Mr. Xia will sign a professional player contract with the club? How much are you going to give him? How much do you think the annual salary is enough to move the boss of a company with a net worth of hundreds of millions of euros?"

"Mr. Jiang, can you let me finish?" Ruby asked casually.

"Alright, speak! You tell me!" Jiang Xiaochen sat on the chair and looked at Ruby speechlessly.

Ruby cleared his throat and said, "Mr. Jiang, of course I know Mr. Xia's identity. I also know that a professional contract has almost no appeal to Mr. Xia ..."

"It's not almost!" Jiang Xiaochen rudely interrupted Ruby and said, "not to mention our club, even if Barcelona and real Madrid were to throw out an olive branch, Mr. Xia would definitely not be moved! Do you know how popular Mr. Xia's company is in China? Do you know how much money he is making every second? Let him sign a professional contract with our club? This is crazy!"

Ruby looked at Jiang Xiaochen quietly and only spoke after he finished, ""Mr. Jiang, I know ... Mr. Xia selection criteria can't be that low, right?"

09:20

At this point, Jiang Xiaochen immediately realized that he had misspoken and quickly said, ""I'm not is from a rich family, and I also know that a small temple like the Spanish club can't accommodate a God like Mr. Xia. But! The winter transfer window is about to close, and our non - European Union players have not yet used up their spots. If we give this extra spot to Mr. Xia, then ... It may bring a completely different change to our club! After all, he's the major shareholder of our club, right? For the club's development, maybe he'll be willing to sign this professional contract?"

Jiang Xiaochen looked into Ruby's eyes and asked, "What changes can there be? Good! Even if, as you said, Mr. Xia signed a professional player contract with our club and completed the registration with the

Spain football Association, what does that mean? You can't be so naïve to think that Mr. Xia can stay in Spain all the time and step forward when the team needs him, can you? He can't even stay in Spain for a long time. What changes can he bring to the team?"

"Of course I know that, Mr. Jiang," Ruby said. I don't expect Mr. Xia to be the team's regular player. It's just that in some key games to avoid relegation, if Mr. Xia can be a substitute for the team, I'll be very satisfied. I think ... There's still a possibility. "

Jiang Xiaochen couldn't help but rub his forehead and asked helplessly, ""Coach Ruby, why did you suddenly want Mr. Xia to become a club player? This ... This idea was too crazy! And I'm puzzled ... Didn't Mr. Xia just bump a few balls on the sidelines yesterday and then compete with Rocca for a fixed - point free kick? He had not taken any physical fitness tests or comprehensive football tests. He had not even participated in a training class. How could you be so sure of him? The LA Liga's selection criteria can't be that low, right?"

At this point, Jiang Xiaochen immediately realized that he had misspoken and quickly said, ""I'm not saying that Mr. Xia is not strong ... It's just that ... There's an old saying in China that there are specializations in the field. After all, Mr. Xia is a businessman and has never played professional football before. I think that in terms of football ability alone, he should still have a certain gap with professional football players."

Ruby said seriously, "Mr. Jiang, I can say with responsibility that Mr. Xia's free kick alone is enough to make any La Liga team willing to sign him!" I carefully analyzed the video of Mr. Xia's free kick last night and found that his stability is really high. He kicked such a difficult elevator ball a total of nine times, and each time he made a perfect free kick, not to mention that. What's more rare is that these nine free kicks, the trajectory of the football, the arc, the position of the goal, and even the time of the football in the air, were almost exactly the same! One time can't explain the problem, but nine times is enough to explain the problem. I believe that even if Mr. Xia kicks the ball 10 more times, he can still steadily kick the ball in! Teacher Jiang, do you know what this means?"

Ruby looked at Jiang Xiaochen with a fanatical expression. Before Jiang Xiaochen could reply, he said, ""This means that as long as the team creates a free kick within 30 meters of the opponent's goal, there is a high probability of it being converted into a goal! If it was a crucial game, such a goal would mean three points! It's even related to the success or failure of staying in the league!"

Chapter 2533 A crazy suggestion (2)

After Jiang Xiaochen heard this, he gradually calmed down. He was no longer as agitated as when Ruby said that he wanted Xia ruofei to be a signed player of the club. He touched his chin and pondered.

Ruby continued, "Mr. Jiang, I don't need Mr. Xia's physical fitness to play the entire game. I don't even need him to form any effective cooperation with the other players. I don't need Mr. Xia to participate in the team's defense. He only needs to take the free kick for the team. That's enough!" So, I'm not particularly concerned about how long he can last in the game with his physical fitness. In addition, I've seen his dribbles and free kicks. From the perspective of a professional coach, Mr. Xia's sense of the ball is still very good. After he comes on, he only needs to roughly stand in his position and restrain the opponent in the defense. He doesn't need to really participate in the defense. Then, when the team gets a free kick, he will stand up and take the free kick. It's that simple!"

After Jiang Xiaochen watched the video of Xia ruofei's free kick that Ruby had spent the whole night editing, he let out a long breath and said,""Coach Ruby, I admit that I'm a little moved by what you said, but ... This is too crazy! I ..."

"Teacher Jiang, how would you know without trying?" Ruby said,"this won't affect Mr. Xia at all. How do you know he won't agree if you don't try?"

"Alright!" Jiang Xiaochen nodded. I'll go ask Mr. Zhou for instructions!"

After saying that, Jiang Xiaochen couldn't help but Pat his forehead and say,""I really don't know if my decision is right or wrong! I might be scolded badly by Mr. Zhou. If I lose my job, you have to compensate me for my loss ..."

Ruby revealed a smile and said,""That won't happen, Mr. Jiang. You're Mr. Zhou's right – hand man. Even if he doesn't agree with the proposal, he won't fire you. But if it's a success, it'll be a stable point for the team!"

In a small and medium – sized club like RCD Espanyol, if there was a player who had a high success rate of free kicks, the effect would be very good. In many crucial games, the score difference might only be one goal, and even this one goal could be the key to determining the situation of staying in the league.

Jiang Xiaochen smiled bitterly."Even if this crazy idea is realized, don't expect Mr. Xia to play for the team many times. He still has a big company in China to manage. It's impossible for him to fly to Spain every two or three days."

"I understand! I understand!" Ruby hurriedly said.

"Alright, you can go back to your work!" Jiang Xiaochen said,"I have to think about how to report this to Mr. Zhou ..."

"Mr. Jiang, I'll leave it to you then!" Ruby said, then turned around and left Jiang Xiaochen's office.

Jiang Xiaochen hesitated for a long time before finally deciding to report to Zhou leiyun in person.

There were some things that couldn't be explained clearly over the phone, and he wanted to play the highlights Ruby had edited last night for Zhou leiyun. It was only after he had seen the highlights that he had been tempted.

What Jiang Xiaochen did not expect was that when he rushed to Zhou leiyun's Manor in the wealthy district of Barcelona, he found that not only was Zhou leiyun there, but Xia ruofei was also a guest.

Zhou leiyun saw Jiang Xiaochen and said with a smile,""Xiaochen is here! Is there something you need?"

Jiang Xiaochen looked at Xia ruofei, who was at the side, and hesitated.

Zhou leiyun could not help but frown."Why are you still hemming and hawing? Don't you know that President Xia is an outsider? What's the matter? hurry up and say it!"

Xia ruofei laughed and said,"director Zhou, maybe manager Jiang wants to report something about your company's secrets!" I think I'd better leave first!"

“Don’t! Don’t! Aren’t you slapping my face?” Zhou leiyun quickly said, “where would there be so many company secrets? President Xia, you stay here and don’t go anywhere!”

Jiang Xiaochen was only in charge of the Spanish club’s work and did not participate in other matters of shengshi group. How could there be any confidential information that Xia ruofei could not hear? Furthermore, Xia ruofei was one of the major shareholders of the club. Strictly speaking, Xia ruofei had the right to know everything that Jiang Xiaochen knew.

Zhou leiyun then looked at Jiang Xiaochen with a slight frown and said, “Xiaochen, what’s wrong with you today? He was so wishy – washy that he didn’t seem like a man! Was there anything in the club that President Xia could not hear? Bullshit!”

Jiang Xiaochen quickly replied, “no!” No! Please don’t misunderstand ...”

Jiang Xiaochen knew that he had to say it today. Otherwise, he would offend Zhou leiyun and Xia ruofei as well.

However, Xia ruofei’s real body was here, so Jiang Xiaochen’s prepared excuses were useless.

He could only bite the bullet and say, “director Zhou, director Xia, I ... The matter I’m reporting is related to director Xia ...”

Hearing this, Xia ruofei couldn’t help but feel curious. He smiled and asked, “Related to me? Tell me, what’s the matter!”

Jiang Xiaochen said, “that ... First team head coach Ruby suggested to me that we could ... Could ... Bring in President Xia!”

“What? I don’t understand. ” Zhou leiyun furrowed his brows and asked, “what do you mean by ‘bringing in President Xia’?”

“I hope to sign a contract with President Xia and let him become a registered player under the club.” Jiang Xiaochen made up his mind and said it directly.

Xia ruofei and Zhou leiyun looked at each other in disbelief.

Xia ruofei asked, “manager Jiang, what is coach Ruby thinking?” This brain hole is too big ...”

Jiang Xiaochen quickly explained, “director Xia, coach Ruby has taken a fancy to your excellent free – kick skills!” In addition, he also said that you don’t need to stay in Spain for a long time, and you don’t need to play in every game. It’s just that you can go on the field and take a free kick during the key period of some key games. ”

Xia ruofei couldn’t help but laugh, “this requirement is too low!” Just because I sent off a few free kicks yesterday, you decided to sign me? Wasn’t this a little too rash?! If our club’s recruitment standards are so low, then in the future ...”

“You’ve misunderstood, President Xia!” Jiang Xiaochen quickly explained, “coach Ruby didn’t make this decision rashly. He spent almost the entire night analyzing the video highlights of your free kick and even edited a video clip himself. I brought it over ...”

As Jiang Xiaochen spoke, he turned on his tablet and played the highlights that Ruby had edited. At the same time, he also played Ruby's analysis of Xia ruofei's technical characteristics.

After reading it, Zhou leiyun raised his eyebrows and said, "Xiaochen, I wouldn't have realized it if you didn't mention it ... President Xia's free kicks are almost exactly the same! No wonder Ruby couldn't help it, haha!"

In fact, Xia ruofei was secretly impressed by the coach's unique vision.

He had deliberately controlled the first nine free kicks yesterday, so the arcs and angles of the free kicks were so close. However, not everyone could see this.

Ruby edited the video of the nine free throws from the same angle together, and it became very direct.

Jiang Xiaochen looked at Xia ruofei nervously and said, "President Xia, the team still has a non-European Union player spot. If you can ..."

"Xiaochen, you don't have to say anymore!" Zhou leiyun waved his hand and interrupted Jiang Xiaochen. "What's your status, President Xia? He could play off the field, but how could he really go on the field to play professional football? You go back and tell Ruby to stop here and don't even think about it!"

Jiang Xiaochen had actually been mentally prepared before he came. He knew that the success rate of this matter would not be very high, but when he heard Zhou leiyun's words, he still could not help but feel disappointed.

"I understand, director Zhou ..." Jiang Xiaochen nodded.

He sighed to himself and closed the tablet. He bowed slightly to Xia ruofei and Zhou leiyun and was ready to leave.

Just then, Xia ruofei suddenly said, "Wait a moment!"

Chapter 2534 Special inheritance_1

Jiang Xiaochen stopped in his tracks and looked at Xia ruofei with a hopeful expression.

After being convinced by Ruby, Jiang Xiaochen actually hoped to facilitate this seemingly crazy thing.

Zhou leiyun hurriedly said, "director Xia, you don't really want to join the club as a player, do you?" This ... This is a little degrading ..."

In fact, becoming a professional player was certainly not a drop in value. Many football stars had a large number of fans around the world! However, in Zhou leiyun's eyes, Xia ruofei was already a successful entrepreneur with a strong background in the country. With all these factors, it would be a little "reverse" for Xia ruofei to become a professional player.

Xia ruofei laughed and said, "what's so cheap about that?" General manager Zhou, you should know the one who played in Serie A a years ago, right? Ka zhafei's third son!" If Prince can be a professional football player, it's not a big deal for a small boss like me to play professional football!"

"Director Xia, does that mean you agree?" Jiang Xiaochen asked in surprise.

Xia ruofei thought for a moment and said, "I agree with this in principle, but some details still need to be discussed. After all, I can't train and play with the team all year round."

"No problem!" Jiang Xiaochen hurriedly said, "you can state any conditions you want! Coach Ruby's original intention was to use you as a surprise, not to make you a regular main force or substitute."

Xia ruofei thought for a moment and said, "first of all, I can't be at Barcelona all year round. The number of games I can play in is limited. If the coaching staff wants to put me on the list of matches, they must inform me in advance and get my permission. I have the right to refuse to play."

If it were any other professional player, even a Big Shot like Messi or crony, it was impossible to make such a request, because it was a matter of reflecting a professional player's attitude in the game. However, even if Xia ruofei joined a team, he would still be considered an "atypical" professional player and could not be measured by the standards of a professional player.

"Of course, no problem! Coach Ruby has the same idea, and the coaching team will definitely respect your personal wishes!" Jiang Xiaochen said without hesitation.

"Second, the registration of players will be handled by the club. I will join the team as a free agent without a signing fee. I don't need a salary either. I will play for the club for free." Xia ruofei said, "but the contract must also state that I have full rights and the club can not sell me to another club. Besides, I have the right to terminate the contract at any time."

"Director Xia, that won't do!" Zhou leiyun quickly said. Since you're joining the team for free, according to the usual practice, the club must give you an individual signing fee. And since you've signed with the club, how can you not get a salary?"

Xia ruofei smiled and waved his hand. "I'm different from the average professional player. It's just for fun. Even if I sign with the club, I can't play a few games a year. Most of the time, I won't even be in Spain. My contribution to the club is limited. I don't want the signing fee and salary. Besides, I'm a shareholder of the club. Isn't this like changing my left pocket to my right pocket? There's no need for that."

"That's not the same. Even if you have limited playing time, it's possible that every time you play, you can score a goal worth thousands of gold!" Zhou leiyun said seriously, "a player's contribution to the team has never been measured by playing time! At least, it was not measured by this index. And even though you're a shareholder, you only have 20% of the shares! How could he change his left pocket to his right pocket! What should be there still needs to be there!"

Xia ruofei didn't know whether to laugh or cry. "General manager Zhou, there's no need. I'm not short of money." Besides, you're always fishing and fishing. I'll feel like my hands are burning with this money, so don't fight with me!"

At this moment, Jiang Xiaochen said weakly, "Director Xia, director Zhou, I have a suggestion. Since President Xia insists on not getting paid, and President Zhou feels that we can't let President Xia work for free, then we might as well compromise. As long as President Xia is on the list of contestants, the club will pay him an appearance fee. If President Xia is on the competition, the appearance fee will be raised to another level. If President Xia scored a goal in the game, he would be given a bonus. The bonus could also be divided into tiers. The more important the game was, the higher the bonus."

There was also a limit to the bonus if the club achieved various achievements at the end of the season, such as successfully avoiding relegation, entering the European tournament, or entering the King's Cup rounds. If President Xia won some official personal honors, such as the official Selection of the best player in a single game, the top ten goals in a single round, the top ten goals in a season, and so on, another bonus would be given. In short, he just wanted to use the bonus to replace the salary and list the terms in detail.

The reward was a fluctuation, and it was generally given according to the contribution. This way, President Xia wouldn't feel like he was reaping what he had sown, nor would he have to work for the club for free. What do the two of you think of my suggestion?"

Zhou leiyn's eyes lit up, and he said, "you don't say ... But Xiaochen, this idea is quite interesting!" Xiaochen, let's do this! When the time comes, I'll write it in the contract! The various types of bonuses were listed in more detail, and the standards had to be higher! It was formulated by referring to the standards of top star players! After all, President Xia plays with a zero – Salary salary, so it would be a bit unreasonable if the bonus is not higher!"

Chapter 2535 Special inheritance_2

Xia ruofei did not know whether to laugh or cry. His original intention was to not take a single cent. When the team really needed him, he would play for a match or two. It was a simple matter. However, Zhou leiyn's actions had complicated the simple matter.

However, Xia ruofei did not reject Zhou leiyn's good intentions. He just nodded his head helplessly in agreement.

Jiang Xiaochen said happily, "I understand, director Zhou!" After you've set the specific terms, I'll bring it to you and President Xia for a look! Also ... There were no problems with the conditions that President Xia had just mentioned. They could all be written in the contract. President Xia, do you have any other requests?"

Xia ruofei thought for a moment and said, "That's all I can think of for now. By the way, please tell manager Ruby that although I'm a shareholder of the club, if he puts me on the list of players for the game, he'll have the final say on whether or not I'll play! Don't worry about my identity. In addition, the manager will be the main player in the game. Even if I sit in the substitutes 'bench, I will not interfere with his command of the game. "

"Alright! Alright!" Jiang Xiaochen quickly replied, "I'll tell coach Ruby!" President Xia, thank you again!"

Xia ruofei waved his hand and said, "I'm doing this for the club ... We have a chance to qualify for the European tournament this season! I hope my joining will help the team!"

Jiang Xiaochen replied, "definitely!" Director Xia, director Zhou, I'll take my leave first!"

Xia ruofei nodded, and Jiang Xiaochen would be busy from now on. Xia ruofei's registration as a player and the drafting of the contract involved a lot of tedious work.

However, Jiang Xiaochen's efficiency was still very high. In just three days, the Espanyol club's team was very professional and quickly settled the registration. At the same time, they took out the contract that was specially tailored for Xia ruofei and presented it to Xia ruofei and Zhou leiyn.

Xia ruofei's requests were all written in the contract.

As for the prize money, as long as Xia ruofei was on the list, the club would pay him 50000 euros for each game. If a substitute came on, the appearance fee would become 80000 euros; If he were to be the starting player, the appearance fee would be increased to 100000 euros.

If Xia ruofei scored a goal in the game, he would receive a goal bonus of 100000 euros for each goal, and this was only the base bonus. If he scored a goal that changed the outcome of the game in the Derby or the key game to avoid relegation, there would be an increase of 100000 euros on the basis of the bonus. The highest increase would be 200%, which was 200000 euros.

In addition, if the team achieved some milestones, Xia ruofei would also receive corresponding rewards, such as a 100000 euro bonus for successfully staying in the league; Entering the UEFA Europa League qualification tournament would earn him 200000 euros. Entering the actual UEFA Europa League would earn him an additional 100000 euros. After entering the actual UEFA Europa League, there would be different milestones such as advancing from the group stage, the top eight, the top four ... Until they won the championship. If they did not make any progress, there would be additional rewards. In general, if the team won the next season's UEFA Europa League Championship for the first time, Xia ruofei would receive a milestone bonus of one million euros. This did not include the appearance fee and goal bonus during the competition.

Of course, the probability of such a thing happening was very, very low. Right now, Spain was still struggling near the relegation line, and the hope of entering the UEFA Europa League qualification tournament next season was very slim.

There were also other milestones, such as the top few places in the league, which each set a corresponding level of prize money. If they won the league title, they would receive a grand prize of 10 million euros. In Xia ruofei's opinion, this was purely to make the contract more rigorous. With Barcelona, Real Madrid, Atletico Madrid, and the current strength of the RCD Espanyol, the probability of them winning the league title in recent years was infinitely close to zero.

In terms of personal achievements, there were also very detailed bonus terms.

For example, being selected for the official best lineup for the current round, a prize of 50000 euros; He was officially selected as the best player on the spot with a bonus of 50000 euros. The goal became one of the top ten official goals of the round with a bonus of 50000 euros. Selected for the season's best squad, 200000 euros; The goal was selected for the official top ten goals of the season, and the prize for each goal was 100000 euros and so on.

When Xia ruofei saw the terms of the bonus, he felt a little dizzy. He felt that the bonus was too high. He had originally wanted to play around and help the Spanish team. He had no intention of making money through this. Now, the standard of the bonus was close to the world's top star players.

Xia ruofei asked Zhou leiyun to lower the bonus but was firmly rejected. He felt that Xia ruofei had not collected any signing fees or salary. If the bonus was not higher, it would be an insult to Xia ruofei and it would not match his ability. If that was the case, the Spanish club would rather not sign Xia ruofei.

Seeing Zhou leiyun's firm attitude, Xia ruofei had no choice but to accept the standard bonus for top players.

As for the other contents of the contract, they were the same as what Xia ruofei had suggested. He had a quick look and signed his name.

From that moment on, Xia ruofei was officially a professional footballer under the Spanish team.

Of course, as a “professional footballer,” he was not “professional” at all. He did not even participate in the team’s daily training and did not stay in Spain most of the time. He would only fly over to help play a few games when the team needed him and he agreed to it.

Xia ruofei specifically instructed Jiang Xiaochen not to hold any press conferences or fan meetings about his joining of Espanyol. He did not even announce his joining of the team on the official website. He had to keep a low profile as much as possible.

Of course, even though the official website did not announce it, Xia ruofei still had to choose a jersey number. This jersey number had to be recorded in advance.

The Jersey numbers that symbolized the main players in the middle and front field, such as No. 7, No. 9, No. 10, and No. 11, already had owners. Wu Lei joined Espanyol at the winter window and wore the number 24 jersey.

Xia ruofei was not particular about the Jersey, so he simply asked for the number 25 Jersey that was next to Wu Lei’s.

This made Wu Lei a little embarrassed to tell the other players that they might not know about this extremely strange signing, but Wu Lei was in a favorable position and he already knew about it.

Wu Lei felt that it was inappropriate for Xia ruofei to be ranked behind him even though he had taken the number 24 jersey. He even took the initiative to exchange numbers with Xia ruofei. Anyway, he liked number 7 the most. When the RCD Espanyol’s main center – forward, iglesias, was still on the team, this number would definitely not be his. Since he could not get his favorite number, number 24 and number 25 were no different to him.

However, Xia ruofei refused firmly. Wu Lei’s jersey number had been announced a long time ago. The Jersey had just been displayed at the joining ceremony not long ago. It had only been a few days since he changed his number. Who knew what the domestic fans would think!

Besides, Xia ruofei had always wanted to keep a low profile. Even though he could not keep a low profile after the competition and it would definitely cause a wave of discussion, he did not want to attract too much attention before that.

However, there was no such thing as an impervious wall in the world. Xia ruofei had to be registered with the Spanish football Association to become a player of the Spanish club. Soon, the media found out that the Spanish club had quietly brought in a forward player with the registered name “XIA ruofei.” From the name, he looked like a Chinese player. He was only one jersey number different from the Chinese player, Wu Lei, who had joined a few days ago. Naturally, it would cause people to have wild thoughts.

Soon, some of the Spain sports media, including The Sports Daily and marca, reported the matter in their respective newspapers.

Chapter 2536 Guess who I am (1)

“RCD Espanyol suspected of bringing in Chinese players again.”

“The mysterious owner of the number 25 Jersey, is he a fellow Countryman of Wu?”

“Before the winter window closes, the Spaniards sign in again.”

.....

Many media outlets had reported on this matter. Of course, this news wasn't very big, so it wasn't placed in a very striking position. The report wasn't very long either. It was basically a third or fourth – Page tofu block.

However, after Wu Lei joined La Liga, he also attracted the attention of a large number of Chinese sports media to Spain. Some major media even sent reporters to Barcelona, mainly to collect news about Wu Lei.

Whether it was the domestic sports media or The Sports Reporters stationed in Barcelona, they were used to looking for news about Wu Lei in the local Spain media. As long as it was about Wu Lei, they would translate it into Chinese, regardless of the size, extract the main points, and then give a more gimmicky title. Basically, one report was enough.

Moreover, readers preferred to read such reports. After all, it was a report and evaluation of Wu Lei by a well – known foreign sports media.

Therefore, these sports media would have people keeping an eye on the major local sports media in Spain every day in order to find reports about Wu Lei immediately.

As a result, the news about the Spanish team's suspected re – Introduction of Chinese players quickly entered the sights of the Chinese sports media.

The Chinese sports reporters were naturally very excited when they saw this news.

Many of them even went on the official website of the Spain football Association to check it out immediately. The results were completely consistent with the reports of the Spanish media such as the daily sports and Maca.

The Chinese sports reporters could almost confirm that the name was indeed in Chinese Pinyin.

The reporters couldn't suppress their excitement. Once this piece of news was confirmed, it would be big news! Although the Spanish team still had a Chinese young player, Zhang aojie, it was still a youth team after all. And this No. 25, XIA RUOFEI, was a real first – tier player, Wu Lei's teammate!

However, the name made the reporters very confused. They searched the Internet in China, but they did not find a professional player with the pinyin of “XIA ruofei.”

It wasn't that no one thought of Xia ruofei, but it didn't make any sense. Many people only had this thought for a moment before they immediately denied it.

After all, the names published on the Spain Football Association's website were in pinyin and had no tones. There were countless possibilities for the Chinese characters corresponding to this pinyin, such as

“Xia yingfei,” “Xia ruofei,” “Xia RUO ...” If the more common surname “Xia” was excluded, there were people in China with surnames like “Xia” or “Xia”. It was just that these rare surnames were relatively rare.

The reporters would rather believe that a professional player with the name “XIA RUOFEI” had joined Espanyol than consider the possibility of Xia ruofei joining.

After all, Xia ruofei was a billionaire and no one had ever heard that he could play football. It was simply a fantasy for him to join the top league and become a first team player!

No matter how brave a sports reporter was, he would not make such a guess.

The Spain Football Association’s website only published the name and did not have any information such as photos. On the Spanish club’s official website, there was no update at all about the signing, and there was no information about number 25 in the player’s information.

As a result, the Chinese sports reporters went to the press officials of the Spanish clubs to verify it, but the answer they received, without exception, was “no comment for the time being.”

Some reporters who were close to Wu Lei looked for him, hoping to get some inside information from Wu Lei, but Wu Lei was naturally tight – lipped and did not reveal a single word.

There must be something wrong with this unusual situation. The mysterious No. 25, “XIA RUOFEI,” had joined the club without a press conference, a fan meeting, an official announcement, and no updates on the official website. Even the club’s press officer and Wu Lei seemed to have received a gag order and were silent in front of the media.

As a result, the Chinese sports reporters were naturally even more interested. They retold the Western media’s report and added in their own process of verifying it, writing reports and sending them back to China.

Wu Lei’s decision to stay abroad had already caused a sensation. Now that the Spanish club was very likely to bring in another Chinese player, the Chinese fans were suddenly excited.

Soon, a “guess who the mysterious Spanish No. 25 is” event was launched on the internet, and the netizens’ imaginations started to run wild.

Some netizens found the names of all the registered players of the Chinese Football Association and used software to change these names into pinyin. Then, they did an automatic comparison and found that none of the names had the pinyin of “XIA ruofei.”

This meant that the mysterious new player of RCD Espanyol was not a registered player of the Chinese Football Association at all.

However, this was not a big deal. Many professional players went abroad to study and live since they were young. They all became registered players in the country. In recent years, there were many such situations in China. Of course, with the rise of the Chinese Super League’s gold yuan football, some Chinese players who were on the edge of the foreign League had also exported to sell internally, returning to the domestic league to make a lot of money as “overseas returnees.”

This “XIA RUOFEI” was not a registered player of the Chinese Football Association, which was also within the expectations of the fans. After all, as long as a domestic player had a little fame and strength, there would be a fan group. The only difference was the size of the group. After the news of this “XIA ruofei” was exposed, no one on the internet had heard of this player, which meant that this player was likely to have played abroad since he was a child.

In any case, the name had a strong Chinese characteristic. The possibility of him being a Chinese player or a Chinese player was more than 99%.

The fans played with their imagination and participated in the “guess who I am” game with great interest.

Many netizens also mentioned Xia ruofei. After all, his name was exactly the same as “XIA RUOFEI”. Moreover, he had watched the game at the home stadium of RCD Espanyol a few days ago and had a meal with Wu Lei.

However, this speculation by a few netizens did not receive the support of the majority of fans. The reason was the same as what was previously said. Xia ruofei’s identity and his identity as a professional player were too different.

There were constant discussions and speculations about “XIA RUOFEI” on the domestic internet, but the initiator, Xia ruofei, was still leisurely living in a hotel in Barcelona, Spain.

The second batch of employees from paradise Corporation, who had come to Spain for a holiday, had arrived in Barcelona two days ago. This group of employees was led by Xue Jinshan and they were still staying at the Grand Central Hotel where Xia ruofei was staying.

Xia ruofei met up with his employees. After touring around with them for half a day, he did not follow the team to explore the famous attractions in Barcelona. He had explored most of the places for the past few days. He also knew that if he followed a large group of people, the employees would not be able to relax and enjoy themselves to the fullest.

As such, he decided to just “have fun with the people” for half a day as a symbol, and left the rest of the staff’s schedule to Zhou leiyun’s subordinates to arrange.

Anyway, Zhou leiyun’s men would make the necessary arrangements, and Xue Jinshan would be leading the team. Xia ruofei was more at ease.

These few days, the club was busy with Xia ruofei’s registration procedures and other things. Xia ruofei did not need to show up much. He only took some time to go to the club to take a set of makeup photos and a short dynamic video of him wearing the blue and white number 25 Home Jersey.

In the future, if he really entered the game’s squad list, whether he was a starting player or a substitute, he would need to provide the player’s makeup photos to the broadcaster, which had to be displayed during the broadcast process.

Besides, once Xia ruofei entered the arena, his identity would no longer be kept a secret. The club’s official website would also update his information at the same time, and this photo would be useful.

Other than this small matter, Xia ruofei basically did not need to show his face for other matters.

He simply asked Jiang Xiaochen to find him some materials on learning Spanish. There were both written and audio materials, and they all started from the beginner level.

Xia ruofei was thinking that if they were really going to compete, they should be able to understand what their teammates were saying, or at least be able to communicate with simple words. Besides, it was not a bad thing to master another language. It was no burden to have more skills!

Since he had cultivated his spiritual power, Xia ruofei's brain was more developed. Hence, he could learn and memorize things much faster than before.

Although Spanish was a completely foreign language to Xia ruofei, he had mastered a large number of common vocabulary in just two to three days, especially professional vocabulary in the field of football. He had put more emphasis on memorizing it. Besides, he had learned pronunciation and grammar from videos and audio, and his speed was quite fast.

Jiang Xiaochen, who was in charge of following up on this matter, was shocked by Xia ruofei's learning speed. He even thought that Xia ruofei had learned Spanish before and was just joking with him, so he pretended to be a beginner who knew nothing.

However, Jiang Xiaochen still vividly remembered how clumsy and strenuous Xia ruofei was when he first got the learning materials and tried to learn the pronunciation of the Western language. If that was an act, then Xia ruofei's acting was really good.

In the end, Jiang Xiaochen had no choice but to accept the fact that Xia ruofei was a language genius. Anyway, it was already surprising enough that a rich boss like Xia ruofei could Cross Worlds and play the top professional football. It didn't matter what jaw – dropping skills he had.

Jiang Xiaochen even suggested that Xia ruofei learn Catalan.

Barcelona, where the Spanish club was located, was located in the Catalan region. The local players in this region must all speak Catalan.

However, Xia ruofei gave it a thought and decided to continue to study Spanish.

Catalan and Spanish were like Chinese and dialect. People who could speak Spanish could understand Catalan. People who could speak these two languages could communicate easily. Xia ruofei felt that there was no need for him to learn another language.

Soon, it was Thursday.

The team would fly to Valencia, Spain's third – largest city, on Friday and challenge the bat Legion, valentian, in an away match at 8 p.m. Local time on Saturday.

Valencia was an old and strong team with a long history. They had won six la Spain titles and eight kings 'Cup titles. They had also achieved good results in the European tournament, winning the second place in the UEFA Champions League and the UEFA Europa League.

On paper, Espanyol was definitely no match for Valencia, so the possibility of them returning in defeat in the away game was not small. It was also part of their plan to not get many points from the Valencia team.

According to the agreement, Xia ruofei was not required to participate in the competition.

However, Ruby considered the fact that Xia ruofei was in Spain for the next few days. If he needed Xia ruofei for some matches in the future, he would have to fly all the way from China. As for the match against Valencia, he did not need to travel all the way.

Moreover, when they faced Valencia, they would definitely play defensive counterattack. If they counterattacked quickly, the opponent might commit a tactical foul before the counterattack player entered the threat zone to stop the counterattack.

At this time, it was very likely to be Xia ruofei's chance. He was more than 30 meters away and had a terrifyingly stable and accurate free kick technique. What the opposing players thought was "outside the threat area" might actually be within Xia ruofei's shooting range.

Therefore, after careful consideration, Ruby decided to ask Xia ruofei's opinion if he could participate in the competition.

Xia ruofei did not hesitate and agreed to Ruby's request to include him in the team's list of away league matches.

Considering that he might be playing in a game on Saturday night, Xia ruofei made a special trip to Danhark Sports City on Thursday to participate in the team's training.

Wu Lei and Xia ruofei were in the same car. They had arrived at the training ground from the hotel.

After the two of them got out of the car, they chatted as they walked to the locker room, where they would change into their training suits and then come to the training ground for today's training.

The two of them arrived a little early. After they changed, most of the players had not arrived yet, so they left the locker room first and headed to the training ground not far away.

As soon as they stepped out, Xia ruofei and Wu Lei saw Markelka, who was dressed in casual clothes and had large headphones on, walking over while shaking his head.

Xia ruofei smiled and waved at Mark Roca. Mark Roca took a look and realized that the person beside Wu Lei was Xia ruofei. He quickly took off his headphones.

"Hey! Good Morning! Rocca!" Xia ruofei greeted him in fluent Spanish.

Rocca's eyes immediately widened. With a look of disbelief, he asked, "Mr. Xia, you ... You can speak Spanish?"

Chapter 2538 Far beyond expectations (1)

Mark Rocca still remembered that a few days ago, when the two of them were competing in free kicks, they still had to communicate through Jiang Xiaochen's translation. Xia ruofei suddenly greeted him in Spanish, and her pronunciation was quite accurate, which made him feel like he was dreaming.

Xia ruofei smiled. "I've learned some simple Spanish these few days. I can barely communicate with them."

Wu Lei, who was beside him, looked at Xia ruofei with a hopeless expression and asked, ""Brother Xia, what are you talking about?"

He had arrived Spain a few days earlier than Xia ruofei and had been studying Spanish all this time. Every day, after training and competitions, he would return to the hotel and attend at least one to two hours of Spanish lessons.

However, up until now, Wu Lei had only learned some very simple words and rote memorization of a few football terms. For example, in the conversation between Xia ruofei and markelka, he only heard the word "Good Morning".

Besides, Wu Lei knew very well that Xia ruofei had only started learning Spanish for three days, and he had already reached such a level.

Xia ruofei had never played professional football for a day. It was already depressing enough that he was better at free kicks than Xia ruofei, who had received systematic training since he was young. Now, even his language talent was so much worse than his. How could he live?

Xia ruofei laughed and said, "it's just a simple greeting!" Lei Zi, you have to work hard on your Spanish. If you want to gain a foothold in the team in the future, it's necessary to communicate with your teammates!"

Wu Lei said gloomily, "brother Xia, it's not that I'm not working hard enough, but you're too outstanding ... How did you raise your Western language level from zero to this level in three days? Isn't your language talent a little too scary? Why are you so outstanding in everything you do? Could it be that you saved the Milky Way in your past life? Standing next to you, the sense of defeat is too serious!"

"As long as you work hard enough, you can do it too!" Xia ruofei laughed.

Wu Lei was speechless for a while. He thought to himself, "I don't see you working so hard! Didn't you just flip through the pages of the Western dictionary and mumble a few words to the video tutorial these few days? A talented person was a talented person ...

Xia ruofei looked at markelka, who was also dumbfounded. He had no idea what they were talking about.

"Wu is asking me about Western language!" Xia ruofei smiled and explained.

Markelka gave Xia ruofei a thumbs up and said, ""Mr. Xia, you're the most talented speaker I've ever seen, no one else!"

Xia ruofei smiled and waved his hand, "you flatter me!" Rocca, go and change your clothes! We'll go to the training ground first!"

"Wait!" Markelka quickly said. Mr. Xia, I was just about to ask! You're wearing this today because ..."

Xia ruofei's contract with Espanyol had always been kept a secret. Other than the club's management and the head coach, Wu Lei was the only one among the players who knew about it.

Although the Spain sports media's reports on the signing caused a wave of heated discussion in China, it did not actually cause any waves in Spain. It was just a few articles in the newspaper. Moreover, the

players did not pay much attention to such news, so no one on the team knew that Xia ruofei had become their “special teammate.”

Xia ruofei smiled and said, “you’ll know soon!” Go change your clothes first! Maybe I’ll give you a surprise later!”

Since Xia ruofei was going to play in the away game against Valencia, and he had to attend training today, the coaching staff would naturally announce his joining of the team, so everyone would know about it by then.

With a dumbfounded look, markroka nodded and went straight to the locker room. Xia ruofei and Wu Lei jogged to the training ground to warm up.

Xia ruofei and Wu Lei jogged around the training ground to warm up. After a while, mark Roca joined them.

Soon, the team members arrived at the training ground one after another. When they saw Xia ruofei in the training uniform, their expressions were the same as markeloka’s, dumbfounded.

However, the coaching staff quickly answered everyone’s doubts.

Before the training officially began, Ruby gathered everyone and said, “I have something to announce to everyone! From now on, Mr. Xia will be a member of the team. He will wear the number 25 Jersey and fight alongside everyone!”

As soon as Ruby said this, the Spanish first team players could not help but be dumbfounded, their faces full of disbelief.

One was a high – Level executive in a suit and leather shoes, and the other was a professional player who often sweated and exuded the smell of hormones. How could these two identities be connected?

Ruby continued, “of course, Mr. Xia is busy with work. He can’t stay on the team all the time, so he will only play for the Spanish club in some key games. In two days, Mr. Xia will contribute to the team with his exquisite free kick skills in our away game against Valencia!”

After Ruby finished speaking, everyone finally came back to their senses and quickly applauded Xia ruofei’s arrival.

Chapter 2539 Far beyond expectations (2)

Mark Rocca had the most direct understanding of Xia ruofei’s free – kick techniques. He was also the most welcoming of Xia ruofei’s joining, and his hands were almost red from clapping.

Of course, there were also some people who gave a perfunctory applause. In fact, they did not think much of it. This included the young players trained by the Spanish, such as merendo and pouado. They felt that Xia ruofei was just playing around and was not serious.

Pouado, in particular, had just been promoted from the youth team and was a fringe player on the first team. Sometimes he could sit in the substitutes’ bench for dozens of minutes. If he was lucky, he could get a few minutes of playing time in the final stage. If he was unlucky, he could not even get into the substitutes’ bench and was directly excluded from the big list.

Puado's position was a little similar to Wu Lei's. After Wu Lei came, his position was even more marginalized, so he was not very interested in Chinese players. He thought that the Chinese were rich and nouveau riche now, and were actually weak in football. No one, including Wu Lei, was worthy of playing in La Liga.

As for Xia ruofei, it was even more impossible for him to meet the standards of a professional player in the top league. Wasn't he only able to join the team because he was a shareholder of the club and wanted to play?

Rich people really knew how to play! Puaduo snorted coldly in his heart.

Xia ruofei naturally did not know the thoughts of the players below. Even if he knew, he would not care. A player like puado was of a much higher level than him. To put it bluntly, would a person care about what an ant was thinking?

Xia ruofei walked to Ruby's side and pressed his hands down. The applause gradually died down.

Xia ruofei's words shocked everyone. He had to speak in Spanish.

He said, "on the field and training ground, I'm just an ordinary player and I obey the instructions of the coaching staff. I also hope that everyone will not treat me as a shareholder of the club and give me no special treatment. I'll be the same as everyone else!" I think our goal is the same, and that is to win all the way to the European tournament! For that goal, I will also help the team as much as I can!"

After Xia ruofei finished, he nodded at Ruby, indicating that he could start the training.

Ruby was shocked when he heard Xia ruofei's words in Spanish. He even wondered if all Chinese people had such a high talent for languages. It was said that Chinese was one of the most complicated languages in the world. For a Chinese to be able to master such a complicated language, it should be easy for them to learn English, French, Spanish, and other languages! Otherwise, how could Xia ruofei speak Spanish so fluently after not seeing him for a few days?

To be honest, Xia ruofei's impromptu Spanish speech was quite standard in all aspects, including grammar, language habits, and pronunciation, except for the speed.

'If only Wu could master Spanish so quickly,' Ruby thought.

When he thought of this, he could not help but look at Wu Lei.

Wu Lei could feel Ruby's eyes on him. He could even guess what Ruby was thinking. He could only squeeze out a smile that was uglier than crying as a response to Ruby's anticipation.

Ruby gestured to the assistant coach to bring everyone to training. He then said to Xia ruofei, "Mr. Xia, if you don't mind, I hope to arrange some tests for you first ... The coaching team needs to know the details of your body so that we can reasonably arrange the tactics for the game the day after tomorrow and your playing time."

Ruby was also worried that Xia ruofei's physical fitness was not good enough to last for a long time.

Xia ruofei smiled and nodded. "Of course, no problem! I've said it before, whether it's training or competition, you're the highest decision maker. I won't interfere!"

Ruby was secretly relieved. To be honest, he had some contradictions in his heart about bringing in Xia ruofei. On one hand, he felt that it would be a pity not to bring in such a good killer. On the other hand, he was also a little worried that there would be an old man in the team who would point fingers at the team's command and then dominate the locker room, making a mess of the team.

Of course, in the end, Ruby was still reluctant to give up the precise free kick, which was a very important killer weapon for a mid – to – Low level team. He still chose to bring in Xia ruofei. However, he had always been a little apprehensive. He was worried that Xia ruofei would interfere with the team's command and weaken his prestige.

Xia ruofei's two statements and actions finally put Ruby at ease.

He quickly arranged for a physical trainer to take Xia ruofei to do a series of physical exercises, while he stayed in the training ground to lead the other players to do some tactical exercises, which might be useful against the Valensia team.

Ruby also focused on the front field attack, emphasizing the speed of the counterattack. He also put forward specific requirements for the front field players, which was that once Xia ruofei was on the field, the front field players should try to cooperate and break through as much as possible. In the thirty – meter zone, they should deliberately create some fouls from the other side to win free kicks.

Generally, in that area, the threat of free kicks was not particularly big, so the opposing players would not pay much attention to their movements under normal circumstances. Once they could not get the ball, the possibility of a foul was still very high.

Chapter 2540 Far beyond expectations (3)

Xia ruofei, on the other hand, went to the indoor training ground and easily completed a series of tests according to the fitness coach's requirements. He didn't even sweat much. The fitness coach began to doubt his life. Xia ruofei's data was a little too perfect!

He had once suspected that the testing equipment had malfunctioned. If it had been any other player, the fitness coach would not have hesitated to let them test again. But now, the person standing in front of him was the major shareholder of the club! He wouldn't dare to even if he was given a few guts! Was he supposed to tell Xia ruofei, "the test just now was due to an error in the instrument and the data was not accurate. Please do it again?"

Do you still want to work?

Xia ruofei saw the physical trainer's constipated expression and couldn't help but ask, "Coach, is there a problem?"

"Argh! No, no... No problem!" The fitness coach said quickly.

Xia ruofei looked at the data in the coach's hand and said with a smile, "Don't doubt the authenticity of the data. The machine is definitely not broken. This is the objective data ... If you're worried, I can do it again!"

"No need, no need!" The physical coach said quickly, "Mr. Xia, you can go and rest for a while. You can join the team training in a while!"

“Alright!” Xia ruofei was relieved to hear his coach’s words. He shrugged and said, “thank you for your hard work today!”

“It’s not hard! It’s not hard!” The fitness coach said.

After Xia ruofei left the indoor training ground, the physical trainer busied himself again. Although he did not dare to let Xia ruofei take the test again, he still could not believe that the data was so close to perfect. So he decided to try it himself to see if there was a problem with the testing equipment.

The fitness coach breathlessly finished most of the tests according to Xia ruofei’s order. When he got his data, he couldn’t help but smile bitterly. His data was much worse than Xia ruofei’s. As a professional fitness coach, it was embarrassing.

However, this also proved that there was no problem with the testing equipment. Xia ruofei’s physical data was objective and true.

The physical trainer heaved a sigh of relief. He picked up Xia ruofei’s physical strength data and walked quickly to the training ground.

He realized that with Xia ruofei’s current physical condition and strength, he did not have to consider how long he could last in the competition because Xia ruofei could complete the match.

Of course, it was the head coach’s decision whether he could be a starter or even play the entire game. Just because he had good physical fitness did not mean that he could be a starter. After all, Xia ruofei had never played professional football. Besides free kicks, the coaching staff did not know much about other aspects of the situation. Furthermore, Xia ruofei had never cooperated with his teammates. In this case, the possibility of letting him start was very small.

However, no matter what, the physical coach felt that he had the obligation to report Xia ruofei’s physical test data to head coach Ruby as soon as possible, so as to provide a basis for his decision.

When the fitness coach arrived at the training ground, Xia ruofei was already in the team training.

He did not deliberately make use of his practitioner’s ability to perform well. Overall, he could only be considered average. However, even so, Ruby was very surprised. At least in a short time, Ruby saw that Xia ruofei could gain a foothold in the Spanish team based on his performance in the joint training and the team confrontation, even without taking into account the free – kick factor.

This had far exceeded Ruby’s expectations.

As long as Xia ruofei was not rendered useless in both offense and defense, Ruby would have more choices in his lineup. There would be more room for maneuver, and the risk of Xia ruofei’s participation would be greatly reduced.

Ruby was both surprised and happy.

At this time, he saw the fitness coach walking over and asked impatiently, “How is it? How’s Mr. Xia’s physical performance?”
