

God tier Farm 2641

Chapter 2641 Fulfilling the promise (1)

Xia ruofei busied himself in the medium for a few hours before he returned to the outside world with a satisfied look.

He didn't go directly to the Liu family's house, but rested for a night in the liuhai Lane courtyard house. The next morning, after having breakfast in the courtyard house, he drove the Alphard van to the Liu family's house.

Liu Qunfeng, Liu Chongli, and the others were already waiting for Xia ruofei in the courtyard. Before the car had even stopped, they had already come up to him with anticipation.

"Mr. Xia!" Liu Qunfeng greeted Xia ruofei nervously.

Xia ruofei smiled and said, "you're lucky!" I've collected all the herbs. "

Liu Qunfeng suddenly relaxed, and Liu Chongli, who was next to him, also looked overjoyed. Liu Kuan, who was not far away, ran upstairs to report to old Liu.

"Chief Liu, call a few people to help carry the things!" Xia ruofei smiled and said, "by the way, have you prepared the things that I called you to yesterday?"

"It's all ready!" Liu Qunfeng quickly said, "the whole set of Chinese medicine boiling equipment and the tools you mentioned are all ready. They are in your room!"

After that, Liu Qunfeng called for a few Men in Black to carry the items.

Xia ruofei opened the trunk of the car and pointed at the huge plastic box. "The medicinal herbs are all inside, help me carry them to my room!"

"Hurry up! You guys carry it together!" "Be careful!" Liu Qunfeng shouted. "Don't damage the herbs inside!"

"Yes!" "Yes, sir!" The Men in Black answered loudly. They then came over and carefully lifted the large plastic box and walked into the house.

Liu Qunfeng followed behind them nervously, constantly reminding them that the Men in Black were too clumsy to touch the boxes.

In fact, the box contained Chinese herbs, not porcelain. Even if there were occasional bumps, it shouldn't be a big problem. Liu Qunfeng was just worried.

Moreover, he knew too well the preciousness of these medicinal herbs. A few days ago, the Liu family had exhausted the entire family's strength, but they couldn't find even a single medicinal herb.

The group of people arrived at Xia ruofei's guest room. Under Xia ruofei's instructions, the Men in Black placed the large plastic box in the corner of the room, bowed, and left the room.

Xia ruofei first checked the medicine boiling equipment that he had asked the Liu family to prepare yesterday. Then, he smiled and said, "Chief Liu, everything is here. I'll start making the pills in a while."

"Then I'll leave it to you, Mr. Xia!" Liu Qunfeng bowed deeply to Xia ruofei and said, "if my father's illness can be cured, we will never forget the kindness Mr. Xia has shown us for giving us a new life!"

"Chief Liu, you're being too serious!" Xia ruofei smiled and waved his hand. "Let's take a look at the elixirs that I've spent so much effort to collect! It's rare to see so many precious herbs placed together."

Liu Qunfeng was stunned for a moment, then quickly said, "This ... Wouldn't it be a little inconvenient?"

Xia ruofei shrugged and said, "I've even given you a list of medicinal herbs. These are all on the list. Why do you need to keep it a secret?" It doesn't matter, let's take a look together!"

It would be a lie to say that Liu Qunfeng and the others weren't curious. In fact, they were more or less suspicious of the existence of those herbs. Or was it that only the Amethyst blood radish was real, and the rest were just made up by Xia ruofei to make the pill seem precious?

Besides, Xia ruofei had told them all about it. Who knew what kind of herbs were used to make the pills?

Therefore, when Xia ruofei asked Liu Qunfeng and the others to check the herbs with him, they only declined and did not move. They did not have any intention of avoiding him.

Xia ruofei was still smiling. He had a good grasp of Liu Qunfeng's and the others' mentality, which was why he had made the necessary preparations at the courtyard in liuhai Lane yesterday.

To put it bluntly, he had brought this big plastic box here today to show it to Liu Qunfeng and the others.

Xia ruofei walked over with a smile and opened the plastic box. Liu Qunfeng and the others were immediately attracted by the medicinal herbs in the plastic box.

The space in the plastic box was roughly divided into two parts, separated by a plastic partition in the middle.

Half of them were bags of medicinal herbs. These medicinal herbs were wrapped in paper and then carefully tied up with fine hemp rope. They were neatly stacked in plastic boxes.

The other half was amazing.

There were more than a dozen fresh medicinal herbs inside. They were all planted in a small flower pot, and each of them was fresh and tender. There were even water droplets hanging on the branches and leaves.

What shocked Liu Qunfeng and Liu Chongli the most was that these medicinal herbs were exactly the same as the ones on Xia ruofei's list, which naturally included the Amethyst blood radish.

One must know that the Amethyst blood radish had appeared in an auction in the secular world before. Naturally, there were pictures of it. It was much more vivid than the illustrations that Xia ruofei had drawn with a pen. The Amethyst blood radish in the plastic box looked almost exactly the same as the one that had appeared in the auction. However, it was obviously much bigger and older. As for its value, it was impossible to estimate.

As for the other ten or so medicinal herbs, Xia ruofei's illustrations didn't seem very obvious. However, when Liu Qunfeng and Liu Chongli saw them, even if they didn't have much knowledge of Chinese

medicine, they could still feel that these medicinal herbs were extraordinary. Even if they looked at them up close, they felt refreshed.

Chapter 2642 Fulfilling the promise (2)

There was no doubt that the medicinal ingredients that Xia ruofei had provided were all genuine.

In other words, the Liu family could not even find one of the ingredients. It was not because Xia ruofei had made it up but because it was too precious and rare.

Xia ruofei smiled and explained, "These spirit herbs need fresh leaves or branches. Once they wither, they will lose their medicinal value, so I thought of many ways to transport them to the capital and keep them in this state. However, spirit herbs have to be planted in the medicine garden, and now is also a temporary measure. Over time, the medicinal properties will still be lost, so ... I plan to immediately make pills!"

Liu Qunfeng quickly took two steps back and said, "Mr. Xia, that's better as soon as possible! Thank you for your trouble, you can start refining now! Please don't waste the precious spirit herbs!"

Xia ruofei nodded, then smiled at Liu Qunfeng and Liu Chongli.

Liu Qunfeng was stunned for a moment, but he quickly reacted and said, "Then we won't disturb you any longer! Mr. Xia, you can go back to your work!"

Then, he and Liu Chongli bowed slightly to Xia ruofei and said, "Please!"

Then, the two of them quickly left the room, afraid that if they were a little slower, the medicinal properties of the spirit herbs would be lost by quite a bit.

After he left, Liu Qunfeng immediately ordered twenty Men in Black to guard both ends of the corridor. No one was allowed to approach Xia ruofei's room, including these men. They were stationed far away from Xia ruofei's room.

Liu Qunfeng was trying to avoid suspicion.

He had even taken out a part of the prescription. If he still wanted to spy on him while he was refining the pill, it really didn't make sense.

After arranging the guards, Liu Qunfeng immediately went to elder Liu's room.

Soon, Liu Kuan walked out of the room and led Liu Qunfeng in.

Old man Liu had already heard the news from Liu Kuan, and he was in high spirits.

He looked at Liu Qunfeng with a smile and asked, "QUN FENG, did you see those herbs?"

Liu Qunfeng was also very happy. He nodded and said, "Yes! Mr. Xia was open and honest, showing us all the herbs! Among them is the purple crystal blood radish. There are more than a dozen precious spiritual herbs, and they are exactly the same as the ones in the illustrations he provided. Furthermore, one look and you can tell that they are not ordinary medicinal herbs. Just observing them up close is enough to make one feel refreshed!"

“Little Xia probably won’t lie about the medicinal herbs.” Old man Liu said,”but ... We’ve just reached a verbal agreement on the medical fees, and the medicinal herbs will be collected soon. This is indeed a bit too coincidental.”

“I think he’s already collected them and planted them in a secret place!” Liu Qunfeng nodded.

Old man Liu waved his hand and said with a smile,”“Let’s not delve into these questions. Besides ... There’s no need to doubt the preciousness of these medicinal herbs. If it were us, we probably wouldn’t be able to take out so many priceless medicinal herbs without even negotiating the treatment fee!”

“Yes, no matter what, I’m still very grateful to Mr. Xia!” “As long as he can cure you, he’ll be my Savior,” Liu Qunfeng said.

Liu Qunfeng said “I” instead of “our family” to show his attitude. Perhaps the Liu family would only treat this treatment as an equal deal. After all, they were on different sides. But as a son, Liu Qunfeng was grateful to Xia ruofei, who had cured his father.

Hearing this, elder Liu’s heart warmed. He looked at Liu Qunfeng with a gentler gaze. He smiled and said,”“Qunfeng, even if you’re lucky enough to be cured this time, you can’t go against the laws of nature. In the end, you’ll have to face all the pressure alone and bear the burden on the shoulders of the Liu family.”

Liu Qunfeng’s face revealed a trace of fear as he said,”“Dad! As the saying goes, there’s always good fortune after surviving a great disaster. If you can recover successfully this time, you’ll definitely be healthy in the future, so please don’t say anything unlucky!”

Old man Liu laughed and did not continue the topic. Instead, he instructed,”“Qunfeng, little Xia’s prescription must be priceless. You can’t reveal the complete list! In addition ... The pills he made must also be closely watched, and he must not try to restore them. Since they treat us with sincerity, we must have the most basic bottom line. ”

“Don’t worry!” “I definitely wouldn’t do that,” Liu Qunfeng said.

.....

While the father and son of the Liu family were chatting in a good mood, Xia ruofei had already started to get busy in the room next door.

After Liu Qunfeng and Liu Chongli left, the first thing Xia ruofei did was to lock all the doors and windows. Then, he released his mental power to check every inch of the room.

In fact, Xia ruofei had checked the room carefully when he moved in. He would check it again every day when he returned to the room, but this time, he was more detailed and thorough. His mental power was like mercury flowing on the floor, leaving no blind spots in the room.

Of course, he also checked the situation outside the house.

Xia ruofei could sense that Liu Qunfeng had arranged for a large number of guards to guard his room. At the same time, he had restricted the range of their security and did not allow the Men in Black to approach his room. He could not help but nod.

Xia ruofei was satisfied with the results of his spiritual power. The Liu family did not do anything to the room. They did not arrange for people to eavesdrop or install special tools to eavesdrop on the conversation through the wall.

The reason why Xia ruofei was so cautious was that he was going to take out the spirit map scroll here and enter the space to do so in someone else's territory. This was the first time Xia ruofei had done this.

After the inspection, Xia ruofei set up several layers of alarm and defense arrays in the room. He was much more cautious than when he was in his courtyard house.

In addition to the alert array, there were also two shielding arrays, which could effectively prevent eavesdropping from the outside. At the same time, even if there were hidden cameras that he had overlooked, after the shielding array took effect, the images within the range of the array would appear to be partly hidden and partly visible, as if they were shrouded in fog.

After checking the formation, Xia ruofei summoned the spirit map scroll from his palm.

He disguised the blanket on the bed as if someone was sleeping with their head covered, and then stuffed the spirit map scroll under the blanket.

Then, he put the huge plastic box into his Origin space.

Xia ruofei then entered the spirit map space.

The first thing Xia ruofei did after entering the space was to replant those spiritual herbs in the herb garden on the realm Heart Island.

In order to make it look real, he had entered the medium yesterday and dug up the dozen or so spiritual herbs along with their roots, temporarily cultivating them in flower pots.

The soil used for the flower pot was the same soil used in the realm Heart island's medicine garden. At the same time, it was also watered with the water from the spirit pond.

Xia ruofei did not immediately bring these spiritual herbs to the outside world yesterday. Instead, he placed them in the medicinal garden on the realm Heart Island, trying his best to maintain the same living environment for them.

In fact, Xia ruofei had only taken out the spiritual herbs from the medium and placed them in a large plastic box when he was about to reach the Liu family's residence.

Now that these spirit herbs had completed their mission, they naturally needed to be planted as soon as possible. These were precious spirit herbs that could only be encountered but not sought in the current cultivation world on earth.

Xia ruofei personally planted all the spiritual herbs, but he left the flower pots and the soil inside.

When he returned to the outside world, he took these flower pots and soil out and piled them in a corner of the room.

Then, Xia ruofei skillfully picked out a few useful Chinese herbs from the other half of the plastic box and poured them into the clay pot. He was ready to make the life – saving pill for elder Liu.

Chapter 2643 Going to the green cloud Island again (1)

In the eyes of the Liu family, the life – saving pill did not actually require any technical skill. It was just a “perfect supplement pill”. The only useful thing was the addition of the petals of the spirit Heart Flower in the later stage of production.

Hence, Xia ruofei could make the pills with ease.

Two hours later, Xia ruofei walked out of the room with a plastic box. Inside the box were 60 pills, each wrapped in a layer of preservation film.

For Liu Qunfeng, these two hours felt like years. He had been waiting in the corridor ever since he left elder Liu’s room. When Xia ruofei’s door opened, he jogged over subconsciously as if there were Springs under his feet.

Xia ruofei looked at Liu Qunfeng, who had a look of anticipation in his eyes. He smiled and said, “I didn’t fail you!”

Liu Qunfeng let out a long sigh of relief and thanked Xia ruofei.

Xia ruofei said, “there are a total of 60 pills in here. Take one pill a day for 30 days, and one pill every two days. If nothing goes wrong, elder Liu should be completely cured in three months.”

“That’s great! That’s great!” Liu Qunfeng said repeatedly. At the same time, he memorized the dosage Xia ruofei had mentioned.

“I’ll leave it to you!” Xia ruofei stuffed the plastic box into Liu Qunfeng’s arms and said with a smile, “you have to keep it well this time! This batch of pills is even better than the one I made last time. Moreover, good spirit medicines can only be encountered and not sought. If the medicine is contaminated or destroyed again, then I really can’t do anything.”

Xia ruofei was not lying. The pills this time were indeed more effective than the previous batch because the concentration of the spirit Heart Flower petal solution that he added was higher than the previous one. Since he had already decided, there was no need to drag it on.

As for the “course” of treatment, it was designed to be three months, mainly because he took into account that the handover of green cloud Island had not been completed yet. In addition, he also needed time to form his own team. Not only the defense of the island, but also the maintenance and use of the airport and other facilities on the island, as well as the follow – up construction and other aspects, all of which needed time.

Besides, old man Liu’s illness was too dangerous and serious. It was already shocking enough to be able to cure such an illness. Xia ruofei was trying to prolong the treatment so that he would not stand out too much.

Of course, the nature of this treatment was completely different from the previous ones. To be honest, Xia ruofei did not plan to completely cure elder Liu, so he was very strict with the dosage.

“I understand! I understand!” Liu Qunfeng quickly said, “with this as a lesson, we won’t let a similar problem happen again! Don’t worry!”

Xia ruofei chuckled. "There's nothing to worry about. I'll hand the things over to you anyway. Other than the patient, no one's skin can touch the pill. You all know this very well. If something really happens, I won't be responsible."

"Of course! That's for sure!" Liu Qunfeng said.

Then, Liu Qunfeng turned to Xia ruofei and said, "Mr. Xia, I'll have to excuse myself!"

Xia ruofei knew that Liu Qunfeng must have stored the pills and increased the security level.

This was Grandpa Liu's life – saving medicine. When the time came, the room where the medicinal herbs were stored would definitely be heavily guarded. Even a fly or a mosquito would not be able to get close to the refrigerator.

Xia ruofei nodded with a smile and said, "You can go! I'm going to see elder Liu!"

Xia ruofei didn't need to report to Mr. Liu. When he walked in, Liu Kuan was talking to Mr. Liu. When he saw Xia ruofei enter, Liu Kuan immediately bowed to Xia ruofei and greeted him. Then, he excused himself from Mr. Liu and left the room.

Old man Liu had heard all the good news today, so he was in a good mood. He looked at Xia ruofei and said with a smile, "Little Xia, it seems like you've succeeded?"

"I didn't fail you!" Xia ruofei said indifferently.

"Thank you!" Old master Liu looked at Xia ruofei and said seriously.

"Elder Liu, you don't have to be so polite," Xia ruofei smiled. "You've already paid for the treatment. It's my duty to treat you."

A bitter smile appeared on old man Liu's face as he asked, "Little Xia, can't we talk about our friendship? Actually, even if you treat this as an equal deal, we, the Liu family, will never forget your kindness. Just now, QUN FENG told me that he would be grateful to you for life!"

Xia ruofei smiled and said, "I can see that elder Liu is a sentimental person ..."

Old man Liu agreed with Xia ruofei's point of view, but he seemed to be in deep thought. After a while, he smiled bitterly and said, "Qunfeng's personality is naturally good in an ordinary family, but in our Liu family...I don't know if it's good or bad ..."

Xia ruofei said, "elder Liu, you were criticizing me just now!" Humans do need to be rational, but being too rational would make you seem a little cold – blooded. It's not necessarily a bad thing to be a little more humane!"

Old man Liu was stunned for a moment, but he immediately smiled and said, "What you said makes sense! In any case, after this crisis is over, my old bones can still hold on for a few years, and the peaks don't have to face that pressure immediately!"

Chapter 2644 Going to the green cloud Island again (2)

After that, old man Liu said, "Xia, since you're done here, you can go to the agate map with Kuan. Hurry up with the transfer of ownership of the island, or I'll keep thinking about it!"

Old master Liu's words were exactly what Xia ruofei was thinking. He was worried that a long delay would cause more problems! It was because the cyan Cloud Island was too important and precious to him.

Besides, this was an agreement between the two parties, so Xia ruofei did not decline. He nodded and said, "Alright! Today, you should take a pill first. I'll stay and observe your situation. We'll leave tomorrow morning! I'll inform my commercial plane crew in a moment and ask them to apply for a route in advance and make the relevant preparations!"

"I won't be using your plane this time!" Old man Liu waved his hand. I heard from Kuan that you went to Qingyun island two days ago, and because of the distance, you stayed in Australia for a while. So this time, I asked Kuan to contact a Chartered plane, which is an Airbus A350. Its range is much further than your Gulfstream, and it's enough for you to fly directly from Beijing to Qingyun Island. "

It was a bit ironic. Although it was only an island country in the South Pacific Ocean, it was at least a country. However, many of its infrastructure facilities were not as good as those of blue cloud Island, including the airport.

The airport in ponautu was very small, and the runway was very short. A wide – body passenger plane like the A350 could not land at all. On the other hand, although the three – thousand – meter runway on Qingyun Island was considered a short runway for the A350, it still met the take – off and landing standards.

Therefore, even if they rented an A350, they still needed to land on Qingyun Island and then take a helicopter to evates Island, where the capital of the Carnelian Empire was located.

"Actually, it's not too much trouble to refuel after landing. It won't take long." Xia ruofei said with a smile.

"We've already prepared the plane," old man Liu said."Let your crew rest in Beijing for a few more days!"

"Alright! We'll follow your arrangements!" Xia ruofei said readily.

If it were an ordinary person, they might have some doubts after hearing this arrangement and worry that the Liu family would do something to the plane.

However, Xia ruofei did not need to worry about this. Even if the plane crashed, Xia ruofei had enough trump cards to save his life.

Furthermore, Xia ruofei knew that the Liu family was not that crazy. Besides, Liu Kuan would be with Xia ruofei the entire time. Old master Liu would not sacrifice a loyal servant who had been with him for decades just to get rid of Xia ruofei.

.....

Xia ruofei stayed in the Liu family's residence for the entire day.

After lunch, Xia ruofei asked the medical staff to give a pill to elder Liu.

Liu Qunfeng was really on guard. He set up the next room like an iron bucket array. Even when the medical staff went to get the medicine, there were several people watching them. Their main task was to prevent the medical staff from touching the pills with their hands.

After going through a strict process, the medical staff could only take out a pill.

After taking the medicine, Xia ruofei immediately gave old man Liu a thorough examination.

Of course, this was mostly routine, because he didn't need to check at all. After taking the pill this time, the tumor cells in elder Liu's body would be greatly suppressed, and there would be no hope of revival. Taking the pill every day would only suppress the sphere of influence of the tumor cells more and more.

After the examination, Xia ruofei gave a very optimistic conclusion that within three months, elder Liu would definitely recover.

After hearing the news, old man Liu, Liu Qunfeng, and Liu Kuan were all overjoyed. Liu Kuan even had tears on his face. He had spent most of his life with the Liu family, and old man Liu was his God. He had even made up his mind at one point that if old man Liu were to pass away, he would continue to serve old man Liu as soon as possible after settling his funeral Affairs.

.....

The next morning, Xia ruofei and Liu Kuan left the Liu family's house with the necessary documents.

At the Capital International Airport, Xia ruofei and Liu Kuan entered the airport's restricted area through the bus passage and were quickly sent to the tarmac where the Airbus A350 was located.

Compared to Xia ruofei's Gulfstream G650, this Airbus was equivalent to a giant. Standing on the tarmac, one had to look up hard to see the porthole of the plane.

The flight crew lined up next to the ramp, waiting for today's guests.

Xia ruofei noticed that the Airbus A350 even had a Chinese flag printed on it. This meant that the charter flight this time was rented from China's Air China. Air China was the only flag – carrying airline in China. Other companies' planes did not have a national flag on them.

Xia ruofei and Liu Kuan were warmly welcomed by the flight crew as they walked up the stairs. They took dozens of steps before they reached the cabin door.

The purser behind Xia ruofei hurried to the window and bowed. "Welcome to Air China's plane rental service! This way, please!"

Xia ruofei and Liu Kuan walked into the cabin. Under the lead of the purser, they went straight to the first – Class area at the front of the plane.

This plane was not specially Chartered for the rich, so the interior of the plane was still like an ordinary civil passenger plane. However, the economy Class was empty. The only two passengers, Xia ruofei and Liu Kuan, naturally sat in the first class.

Xia ruofei and Liu Kuan each took a seat by the window. There was a semi – first – Class seat between them so that they could have as much private space as possible.

There were only two passengers on this charter flight. After Xia ruofei and Li Kuan boarded the plane, the flight attendants and security personnel immediately closed the cabin door, and the pilot in the cockpit began to request for ground control to push them out.

Although there were no written rules, Air China was indeed a special existence in the industry, especially at Beijing International Airport, where it would receive all kinds of preferential treatment.

In addition, the control center also found out that the air China plane was not operating as usual for passengers, but was privately Chartered.

Therefore, the ground soon allowed the A350 to be pushed out and driven.

After a series of complicated calls and confirmations, the plane finally glided slowly to the runway. Then, after a skilled turn and head adjustment operation, the Airbus A350 finally entered the runway. The front landing gear accurately pressed on the white line.

There were countless flights at Beijing International Airport every day, and it was one of the busiest airports in the world. Therefore, the airport administrator would definitely not let this plane stay on the runway to avoid delaying the take – off and landing of other planes.

Just like that, the A350 that Xia ruofei was on took off immediately. Its thrust gradually increased, and the speed of the plane gradually increased. It was difficult to increase the speed at the beginning, but once it accelerated to v_1 , it was almost impossible to stop the take – off due to the strong inertia.

After the big guy accelerated to the speed of a wheel, it slowly flew off the ground and began to climb.

After a period of climbing, the plane finally entered level – Flight cruise.

In all fairness, the Airbus A350 was much less comfortable than paradise. Moreover, its cruising altitude was not as high as paradise, so it would be a little bumpy during the flight due to the airflow.

However, Xia ruofei did not care much about this. Besides, the conditions in the first – Class cabin were much better than the narrow economy cabin, not to mention the transport aircraft or helicopter that Xia ruofei had taken during his military service.

The Airbus A350's speed was slightly slower than paradise. The flight took about 15 hours. Xia ruofei had two meals on the plane, laid down his seat, and took a nap. The plane finally landed steadily on the runway of Qingyun Island in the night.

Chapter 2645 Everyone's heart is different (1)

Although the plane was landing at night, there was still a row of people standing by the airport's parking lot to welcome them.

Liu Qingfeng had been waiting in the cold wind for more than half an hour with the management of the Qingyun Island project, which also included the agate local, benilati.

At first, they were waiting at the control center on the ground. When the A350 that Xia ruofei and the others were on entered the command range of the control center and carried out the approach procedures, Liu Qingfeng led everyone directly to the tarmac.

The exact news from the country had already been sent over. Everyone already knew that blue cloud Island was going to change hands.

Therefore, the mood of Liu Qingfeng and the others was very complicated at this time.

Originally, the construction project of the blue cloud Island still had a later stage plan that had not been completed. Now, those plans were naturally invalid, and most of the people in the team led by Liu Qingfeng were from the Liu family. Even if they were not the children of the family, they were still serving the Liu family group. They were now a little hesitant.

Originally, the construction of green cloud Island would not have ended so quickly. Even if the construction was completed, someone would need to stay to maintain the normal operation of the entire Island. Now that the master had changed, these people would definitely be transferred back to the country.

They had basically been working on the green cloud Island project all these years. After returning to the Liu family's family group, it could be said that their future was uncertain.

Therefore, it was impossible to say that Liu Qingfeng and the others did not have any complaints about Xia ruofei.

However, this kind of complaint could only be hidden in the heart. When Xia ruofei was the first to step down the ramp, Liu Qingfeng and the others all showed a warm smile and quickly greeted him.

"Mr. Xia, welcome, welcome!" Liu Qingfeng held Xia ruofei's hand tightly and shook it a few times, as if he and Xia ruofei were old friends who had reunited after a long time. In fact, they had just met a few days ago.

Xia ruofei had a faint smile on his face as he shook hands with Liu Qingfeng and the others one by one, including bainilatti.

If the enthusiasm of Liu Qingfeng and the others was forced to pretend, then bainilatti was definitely from the heart.

Bainilatti was a local of ponutu. Although he had been serving the Liu family's company Group over the years, once the owner of green cloud Island changed, it was impossible for him to follow Liu Qingfeng and the others back to China to work. After all, his home was here.

Moreover, because of the construction project on blue cloud Island, bainilatti, a middle – Level manager of the project, had also earned unimaginable wealth for the locals of ponutu. His monthly salary was more than what the locals of ponutu could earn in several years, not to mention that he had a lot of extra money in charge of the procurement and coordination work.

It was no exaggeration to say that because of its position in the blue cloud Island project, bainilatti had a certain status in front of some of the ministers in ponutu. Even if ponutu was small and poor, it was still a country recognized by the United Nations! The director of the Department was definitely a high – Level figure in the agate, and he would always be kind and friendly when he saw him.

All of this was because of the blue cloud Island, because it was the link between the Chinese and the agate.

Now that the Liu family was withdrawing from green cloud Island, benilatti keenly realized that whether he could have an enviable income and status in the future depended on this young man who always had a kind smile on his face.

If he could continue to work in his previous job, it would not make a difference to him who the owner of green cloud Island was.

Therefore, when benilatti shook hands with Xia ruofei, the smile on his face became more humble.””Mr. Xia! I’ll do my best to provide you with the best service in the future!”

Xia ruofei smiled and said,””Mr. Benilatti, at the moment, green cloud Island needs to be stabilized. I naturally hope that you can stay. As for whether you can get a long – term contract, that will depend on your usual performance!”

“I’ll make sure you’re satisfied, Mr. Xia!” Benilatti couldn’t help but puff out his chest.

Liu Qingfeng saw that benilatti couldn’t wait to show his loyalty and felt a little disdainful. However, he knew that Xia ruofei was someone he couldn’t offend. Liu Qunfeng and Liu Kuan had warned him several times in advance, so he didn’t show any dissatisfaction. He just looked at benilatti indifferently.

However, benilatti pretended not to see it and avoided his gaze.

After a short welcoming ceremony, Xia ruofei and the rest went to the building where the green cloud Island project was located.

This was the only building on the island and was now close to completion. However, the interior decoration of some floors still had a little finishing work. In addition, the greenery and landscape project around the building had not been completed.

The building was originally designed as the hub of Qing Yun Island and also had the function of an employee’s apartment. Now that it was basically completed, Xia ruofei had no intention of changing the decoration plan.

It was already dark when they arrived at blue cloud Island, so they naturally wouldn’t go to Evarts Island today. Xia ruofei and the others would rest on Qingyun Island for the night before taking a helicopter to evates Island, the capital of ponautu, the next day.

As for the flight crew of the Airbus A350, Liu Qingfeng had naturally arranged their accommodation and food. They would wait on the Azure cloud Island until Xia ruofei and the others were done with their business. Then, they would fly back to Hua Xia together.

Xia ruofei returned to his room to rest. Although Jian Jia had slept on the plane for a while, the journey had been a little bumpy. Even though her seat was flat, it could not be compared to the big bed at home. Even the bed in the back bedroom of the peach origin was much more comfortable than this first – Class seat. Hence, Xia ruofei did not sleep well.

Chapter 2646 Everyone’s heart is different (2)

Liu Kuan, who was exhausted, didn’t rest.

He first confirmed with the inner Affairs Department of the Cornelian Empire about the permanent ownership of Qing Yun Island, which was under the management of the inner Affairs Department of the Cornelian Empire. This might sound a bit weird, but it was arranged in such a way.

After contacting the Home Affairs Department, Liu Kuan called Liu Qingfeng and other middle management to the conference room.

He also came here with a mission this time. He had to arrange a lot of work overnight. When he left the blue cloud Island, the first batch of personnel who had returned to China would also return to Qianqian. This was also the reason why the Liu family had specially rented an Airbus A350 to carry out this mission.

Liu Kuan first warned everyone seriously that although the family had decided to transfer the green cloud Island to Xia ruofei and would complete the transfer procedures as soon as possible, the completion of the project and the daily management of the green cloud Island must not be affected. Those who left had to hand over their work, and those who stayed had to work harder to complete their tasks.

Liu Kuan also seriously expressed the importance that old master Liu and the Liu family attached to Xia ruofei, which rang an alarm for Liu Qingfeng and the others.

After that, he brought Liu Qingfeng and the others to discuss the issue of the personnel leaving.

Of course, those who left would just return to the country in advance to take up new positions, while those who stayed would just stay for a little longer. They would eventually reach the same destination through different means.

Therefore, Liu Qingfeng and the others naturally wanted to leave. Since there was no point in staying, it was better to return to China earlier. Perhaps they could arrange a good seat.

Liu Kuan certainly couldn't take care of everyone's needs. After discussion, he finally decided that Liu Qingfeng would stay as the chief supervisor of the project, and two other supervisors would also stay. Their management parts were related to the several projects on green cloud Island that had not yet been completed, so they naturally had to finish them.

Liu Kuan had a lot of prestige, and no one dared to refute his decision.

On Qing Yun Island, Liu Kuan represented the will of old man Liu. Who would dare to say no?

Then, Liu Kuan took everyone out the specific list overnight. In addition to the middle management, the Liu family's company Group had also sent many employees to be responsible for the basic work of all aspects of Qing Yun Island. These people would eventually have to leave.

However, during this transition period, there was still a need for a group of people to maintain the normal operation of the island.

.....

Xia ruofei rested for the night. The next morning, he opened the window and saw the blue ocean. He felt refreshed.

Liu Kuan and Liu Qingfeng accompanied Xia ruofei to have a sumptuous breakfast. On this Island thousands of miles away from Huaxia, they could drink very authentic soy milk, eat fragrant youtiao, and eat xiaolongbao, which oozed oil with just a bite. It was indeed a very sumptuous meal.

After breakfast, Xia ruofei set off for Evates Island, which was about 70 to 80 kilometers away from Qingyun Island. Liu Kuan and Benilatti were also on the same plane.

Bainilatti was in charge of coordinating the local affairs of Ponauthu, so generally speaking, as long as they were dealing with the officials of Ponauthu, they would definitely bring him along.

It was still the same super Jaguar helicopter and the same pilot.

When Xia ruofei and the others boarded the plane, the pilot even gave Xia ruofei a friendly smile.

Xia ruofei nodded at him and sat down in the cabin.

The helicopter's propeller began to spin faster, and the noise in the cabin increased rapidly. Xia ruofei and the others put on sound – proof headphones.

Liu Kuan pointed at the pilot in front and said to Xia ruofei, "Mr. Xia, this super Jaguar will stay here as well. As for the pilot, you can hire him or let him stay."

"Thank you!" Xia ruofei said with a smile.

Strictly speaking, this super Jaguar was also a property of Green Cloud Island, so it was normal to keep it. The entire Island had been transferred to him, and Xia ruofei did not refuse.

The pilot was also Chinese. When he heard Liu Kuan talking about him, he turned around and smiled at Xia ruofei and Liu Kuan.

Liu Kuan continued, "his name is Wu Wenhan. He used to be a pilot in the Air Force. He retired after choosing his own career. He's not an employee of our Liu family. If you think his skills are good, you can keep him to work."

"I will consider it!" Xia ruofei nodded.

Under Wu Wenhan's control, the helicopter slowly took off. It first flew half a circle around the island, then flew straight in one direction, which was where Evates Island was.

Because they had already contacted each other in advance, the Super Jaguar entered the territory of the Ponautu without any hindrance.

After flying for about 40 minutes, the helicopter entered the territory of Evarts Island.

Looking down from the sky, the island was much larger than the island of clear sky. However, there were only dilapidated bungalows as far as the eye could see. It seemed that more than half of the island was made up of slums. Only the southeast side of the island occupied about one – fifth of the entire Island, and some buildings could be seen.

The helicopter was flying at a very low altitude. Xia ruofei's eyesight was not bad, so he could even see the people on the ground who were looking up at the helicopter. Many of them looked pale and were

dressed in poor clothes. Some of them were children running under the plane. They were just skin and bones.

This was the capital Island, and the situation was already like this. One could imagine the poverty level of the Cornelian Empire.

The Super Jaguar quickly passed through the civilian area and arrived at a relatively well – built area on the southeast side of the island. It landed steadily on a helicopter landing point with an “H” symbol.

Xia ruofei and the others jumped off the helicopter and ran towards a building on the south side of the landing point, braving the strong wind caused by the helicopter’s propeller. They only changed to walking quickly after they left the range of the helicopter’s propeller.

“Mr. Xia, this ten – story building is the Home Affairs Department and the police department of ponautu,” Liu Kuan said as he walked. “They share this office building. Among the group of people standing in front of the building, the one in the middle wearing a brown suit is the ponautu Minister of the Interior, Evian. ”

Xia ruofei was surprised.”Uncle Liu, they actually sent the Minister to welcome you personally. You’re really respected!”

“That’s a small country,” Liu Kuan said with a smile.”Their territory is smaller than our County. The Minister of Internal Affairs is at most a bureau chief in our County!”

Xia ruofei couldn’t help but laugh. “That’s a proper country, after all!”

“Our family group also has some business overseas.” Liu Kuan chuckled and said,”in order to take over the blue cloud Island, we also gave them a lot of economic concessions. So far, the agate map and our family group have a lot of trade relations.”

Xia ruofei suddenly realized and smiled.””It’s the God of Fortune! No wonder they value it so much!”

While they were talking, they arrived at the ten – story office building. Evian, the Minister of the Interior of the carnade, also came down the steps and said enthusiastically,””Mr. Liu! My Chinese friend, long time no see!”

Liu Kuan hugged Evian and said,””Minister Evian, I haven’t seen you for a long time, but you still look so good!”

Xia ruofei could not help but look at the Minister of the Interior in front of him. Evian had brown skin and sunken eyes. He had the typical look of the indigenous people of the South Pacific island. However, compared to the skinny residents of the slums he saw on the plane just now, this Minister had a big belly and looked fat. It was obvious that he had eaten too much fish and meat every day.

Xia ruofei couldn’t help but shake his head. At this time, Liu Kuan and Evian had finished their greetings. He looked at Xia ruofei, smiled, and began to introduce,””Mr. Evian, this is Xia ruofei. He’s a junior that our master values very much. The reason why we’ve come to trouble you this time is because the master has bestowed the blue cloud Island to him.”

Chapter 2647 Very smooth (1)

Evian couldn't help but look at Xia ruofei deeply. Then, he reached out his dark and fat hand and shook Xia ruofei's hand. He said in broken English, "Mr. Xia, welcome to the ponautu!"

Xia ruofei nodded slightly and said in a neutral tone, "Sorry for the trouble, Minister Evian!"

"It's not much trouble. After all, we had an agreement before." Evian smiled and said, "then ... Please come in!"

Evian made an inviting gesture and let Liu Kuan and his men in.

Liu Kuan gave benilati a look, and he immediately went up to Evian and chatted with him in their dialect.

Liu Kuan was two steps behind Xia ruofei, walking side by side.

Liu Kuan said to Xia ruofei, "Mr. Xia, the reason I said that was to dispel some unrealistic ideas from the officials of the agate." This is also what the old master specifically instructed me to do before I left. I forgot to tell you."

Xia ruofei smiled. "I understand. Elder Liu, you're very thoughtful."

Liu Kuan's words were meant to mislead Evian into thinking that green cloud Island was not out of the Liu family's control. It was just a reward given to Xia ruofei, a junior of the Liu family.

In this way, the officials of ponathu would still be wary of the Liu family's arrangements for so many years, constantly using the hard strength of blue cloud Island as well as some political and economic means to make ponathu not dare to have the idea of taking back blue cloud Island.

In fact, many of the high – Level officials of the agate had gained a lot of benefits from this big deal with the Liu family. Later, because of the cooperation between the two sides, they had been able to gain a steady stream of benefits. This was also an important reason why the Liu family could firmly control the blue cloud Island in their hands.

Most of the executives of ponautu only cared about their own interests, which was evident from the exaggerated size of Evian compared to the ordinary people. They did not care at all that a piece of their country's territory had been essentially ceded.

However, if the Carnelian Empire knew that the Liu family had completely transferred the ownership of clear sky Island to Xia ruofei, and Xia ruofei was only a slightly wealthy Huaxia who did not have the terrifying power of the Liu family, then it was inevitable that they would slowly begin to covet clear sky Island.

This was something old man Liu did not want to see. Since he had transferred the island to Xia ruofei as medical expenses, he naturally hoped that the entire handover process would be smooth so that Xia ruofei would not have to worry about the agate map snatching the island back.

That was why old man Liu and Liu Kuan had the same answer.

Of course, Liu Kuan did not forget to inform Xia ruofei. In fact, old master Liu had specifically told him not to tell Xia ruofei in advance because he did not want to give Xia ruofei a chance to refuse.

Xia ruofei was not a pedantic person, so he did not dislike such a strategy.

Liu Kuan was also secretly relieved. He quickly caught up with Evian and chatted with him in English.

The group soon arrived at Evian's large office on the ninth floor.

In fact, Xia ruofei had already noticed it the moment he entered the building. This office building shared by two departments had a luxurious interior design that was no less than some five – Star hotels in the country. It was even more eye – catching in the slums of Evates Island.

Evian's office was also extremely luxurious, but to Xia ruofei, it had the air of a rich upstart.

Evian's office was very large. In fact, the entire nine floors were divided into two. Evian and the Minister of Police each took half of the floor. Other than the secretary's office and the conference room, Evian's office was the other part of the floor.

The procedure for changing ownership was not complicated, and Evian followed it up personally, so the efficiency was naturally higher.

Soon, all the procedures were completed. Evian announced on behalf of the Carnelian officials that the permanent ownership of Qingyun Island was now under Xia ruofei's name. At the same time, he also congratulated Xia ruofei.

Evian also expressed on behalf of the ponathu officials that ponathu respected and acknowledged Xia ruofei's ownership of Qingyun Island.

Next, he just had to complete the registration procedure and Xia ruofei's main mission would be accomplished.

Just then, Xia ruofei suddenly asked, "Minister Evian, I'd like to ask if I can change the name of the island?"

Evian pondered for a moment and said, "Of course! You have the right to do so!"

Xia ruofei had already thought it through. He said directly, "I wish to change the name of the blue cloud Island to the Peach Blossom Island. I wonder if the procedures will be more troublesome?"

"No trouble at all! It's no trouble at all!" "We just need to fill in an application form for the change of name," Evian said with a smile. "I'll get someone to bring it over!"

Soon, Evian's Secretary printed out the template of the application form and handed it to Xia ruofei.

Xia ruofei followed the Secretary's instructions and quickly filled in the form. The Chinese name was "Peach Blossom Island". As for the English name, Xia ruofei still used the word "Fairyland" to form "Fairyland – like islands", which looked quite poetic.

After all the formalities were completed, in fact, the current clear sky Island should be called Peach Blossom Island in the future. Legally, Peach Garden Island now belonged to Xia ruofei.

Chapter 2648 Very smooth_2

Evian also warmly invited Liu Kuan, Xia ruofei, and the others to have lunch together, but Xia ruofei and Liu Kuan declined in unison. They weren't used to the local food in Agate, and both of them hated social interactions.

Xia ruofei felt that he would never be able to get used to eating with unfamiliar people and flattering each other.

Liu Kuan declined Evian's invitation with the excuse that there was still a lot of work waiting for him to deal with on Peach Blossom Island.

At the same time, Liu Kuan took out a cash check and put it on Evian's desk.

Evian didn't even try to hide his excitement. He grabbed the check on the table and opened the drawer with his right hand. His left hand naturally put the check in the drawer. During this process, Evian even sneaked a few glances out of the corner of his eye. When he saw the long string of numbers on the check, one could imagine how ecstatic he was.

Looking at his practiced appearance, it was obvious that this was not the first time he had collected money.

After Xia ruofei, Liu Kuan, and benilatti said goodbye to Evian, they were ready to take the helicopter back to Paradise Island.

As the Minister of a country, Evian personally sent the three of them downstairs again. It was not until the helicopter took off and flew further and further away until it became a black dot in the sky that Evian slowly turned around and returned to the office building.

On the helicopter, Xia ruofei asked curiously, "Uncle Liu, before we left, I noticed that you gave the Minister of Internal Affairs a cash check. How much money is there in there?"

"This is an unwritten rule," Liu Kuan said with a smile. "Blue cloud Island ... Uh ... Peach source island's Affairs are handled by Evian, the Minister of Internal Affairs, so all the benefits he gets belong to him. It's actually not that much, just five thousand dollars, but it's still a huge sum for the Carnelian economy."

Xia ruofei couldn't help but click his tongue. Even corruption was out in the open! There were quite a few people in the office just now, including Evian's subordinates and Secretary, but he didn't avoid them at all.

Xia ruofei felt that this country was rotten to the core. It might fall into civil strife in the near future, and then peach source Island ...

Liu Kuan seemed to have guessed Xia ruofei's thoughts. He smiled and said, "Mr. Xia, we don't need to worry about the internal affairs of the ponaafford Island. In fact, in the more than ten years that our Liu family has controlled the blue cloud Island, the power of the ponaafford Island has been rotated three times. No matter who comes to power, and no matter who is responsible for the blue ... Peach Blossom Island's Affairs, our permanent ownership transfer agreement is still in effect."

Liu Kuan paused for a second, then continued, "In fact, the reason is very simple. The interests of all aspects of the map are tied to our Liu family. If we fall out with them, the map will fall into famine and endless war. No ruler would dare to take such a risk, so you can relax!"

Xia ruofei smiled and said, "This can be considered as using economic means to the extreme! The person in charge of this Grand project is really amazing!"

Liu Kuan also looked proud and said, ""Since the beginning of the plan more than ten years ago, all the affairs of green cloud Island were personally directed by master!"

"Old Liu, you're still young!" Xia ruofei gave him a thumbs up.

The transfer of the island's permanent ownership went very smoothly. The agate map was very cooperative, and there were no accidents, so everyone was in a good mood. They chatted and laughed along the way. Soon, Xia ruofei and the others arrived at Paradise Island in the Super Jaguar helicopter.

Xia ruofei stayed on peach source Island for a day.

Liu Kuan mainly had to deal with the personnel and projects here.

So, after Liu Kuan got off the helicopter, he began to get busy. He kept talking to people, and at the same time, his plan to evacuate people step by step was getting better and better.

That night, Liu Kuan ordered Liu Qingfeng to prepare a sumptuous banquet. On the one hand, it was to invite Xia ruofei, and on the other hand, it was actually for everyone to have a "farewell dinner" later.

Some of the project staff who decided to return to China early had a lot to drink at the dinner. They had been working here for at least a few years, and at most more than a decade, so they had a deep relationship with this Island.

The banquet was very noisy, but Xia ruofei, who always liked peace and quiet, did not leave early. He stayed in the banquet hall patiently.

Xia ruofei was actually feeling a little guilty. If it were not for the natural Taixu xuanqing formation on Qingyun Island, he would not have been so determined to take over the island.

After the dinner, Liu Kuan called Liu Qingfeng, who had confirmed that he would stay, to his room and had a long talk with him.

It was mainly to once again emphasize the importance of Xia ruofei to the family, and to remind Liu Qingfeng to be more careful than before. During the transition period, there must be no mistakes, and he must stand on the last shift.

After two days of repeated emphasis from Liu Kuan, Liu Qingfeng had naturally become highly valued in his heart. He vowed that he would firmly carry out the family's decision and repay the family's trust with practical actions.

.....

The next morning, Xia ruofei and Liu Kuan boarded the Airbus A350 that had been rented from Air China and prepared to return home.

There were also hundreds of Liu family's children and employees who took the same flight back home.

The economy Class, which was empty when they arrived, became lively on the return trip.

Because the estimated flight was 15 or 16 hours, Liu Qingfeng had already asked people to prepare the food in advance. Before the flight, these food had been properly arranged on the plane.

When the Airbus A350 began to accelerate and take off on the runway, the cabin, which had been quite lively just a moment ago, suddenly quieted down. The employees all looked through the porthole at the beautiful island that they were about to leave. They had very complicated feelings in their hearts.

No one spoke in the cabin until the plane took off and left Paradise Island behind.

It was a happy thing to return to China, and Liu Kuan had promised that everyone would be well – arranged, but they still felt very upset.

Xia ruofei and Liu Kuan sat in the first class cabin. They did not disturb the children and employees of the Liu family in the back.

After more than ten hours of long – distance flight, the plane landed smoothly at the Beijing International Airport, which was shrouded in darkness.

The children and employees of the Liu family were settled down by someone. Xia ruofei and Liu Kuan took the Liu family's business car and returned to the house where old master Liu lived.

Xia ruofei immediately went to check on old master Liu and confirmed that the treatment effect of the pill was good.

He also knew that Liu Kuan had to report to Grandpa Liu, so he didn't waste any time. After the inspection, he returned to his room, saying that he was tired from the long – distance flight.

In the two days that Xia ruoxin had been on her way to the Peach Blossom Island, Liu Qunfeng had already arranged for the guest room to be cleaned.

The broken pieces of pots and soil from the spiritual herbs in the room, as well as the small amount of dregs that Xia ruofei had deliberately left behind, had all been cleaned up.

Liu Qunfeng had seen with his own eyes the fresh and green spirit herbs planted in the flower pots. Now, the pots and soil were still there, but the spirit herbs were gone. It was impossible for them to know that Xia ruofei had such a heaven – defying treasure like the spirit map space. Hence, they believed him without a doubt and thought that Xia ruofei had consumed all the spiritual herbs in one go.

Therefore, even though Xia ruofei had taken away 500 million US dollars and the entire Paradise Island, the Liu family did not think that Xia ruofei had taken advantage of them. Instead, they felt a little guilty. According to the value, even two paradise islands could not be compared to those elixirs!

This was the effect that Xia ruofei wanted. He did not want the Liu family to think that they were at a disadvantage after old master Liu had recovered.

Since elder Liu's recovery was not far from what Xia ruofei had expected, and there were no signs of danger or hidden dangers during the examination, Xia ruofei bid farewell the next morning.

Under the current circumstances, Xia ruofei did not need to stay here.

Chapter 2649 missed (1)

Xia ruofei had already made arrangements for the follow – up treatment. Old man Liu and Liu Qunfeng had no reason to ask him to stay here. After all, Xia ruofei was not old man Liu's family doctor.

Besides, Xia ruofei had said that his mobile phone would be available 24 hours a day and that he could be contacted if there was any situation. In addition, he would also come over regularly to check up on old man Liu.

What else could the Liu family say?

Old man Liu and Liu Qunfeng expressed their sincere gratitude to Xia ruofei again. Then, Liu Qunfeng personally sent Xia ruofei to the courtyard.

Xia ruofei had driven here by himself. However, he had called Wu Qiang in advance and asked him to take a taxi to the Liu family's residence.

After waving goodbye to Liu Qunfeng, Xia ruofei got into the Toyota Elfa, which had been parked in the Liu family's house for the past two days. Wu Qiang drove him straight to the Beijing International Airport.

After arriving at the airport, Xia ruofei asked Wu Qiang to drive back. He dragged his small suitcase that was used for decoration and walked into the private passage for the bus.

Yesterday, Xia ruofei had already informed the flight crew to make preparations. Not long after he boarded the plane, the plane was allowed to take off.

What Xia ruofei did not know was that not long after Paradise took off, a flight from Australia landed at the Capital International Airport. An old man in a light green long – sleeved shirt and a middle – aged man in a suit stepped out of the cabin.

The old man in the long robe sniffed, as if he was not used to the terrible air quality in the capital. He frowned and said, ""Boshan, let's hurry up. The air here is really uncomfortable!"

These two people were Zheng Yongshou and Wang Boshan from the star Seizer sect. They had been delayed for a few days due to some matters, and had only made a turn to Australia today. They had flown to the Huaxia capital city and didn't have a direct flight to Huaxia. For their trip to Huaxia, they had to first go to either Sydney or BlackBerry to transfer flights.

Zheng Yongshou lived in the star Seizer sect all year round. Although the environment there was not as good as Xia ruofei's spirit map space, it was at least much better than the outside world. When he arrived at the foggy capital, he suddenly felt uncomfortable.

On the other hand, Wang Boshan had been in the secular world for many years. In recent years, China's economic development had been very dazzling. Wang Boshan had come to China many times because of business, including Beijing, so he was still able to adapt.

"Alright, martial uncle Zheng!" Wang Boshan replied respectfully.

The two of them hailed a taxi as soon as they left the airport and headed straight for liuhai Lane. Wang Boshan had already gotten some information about Xia ruofei through his internal line before they came.

Liuhai Lane wasn't very wide, so they didn't want to go in when they got out of the taxi, so they walked in.

Soon, they arrived at the entrance of Xia ruofei's courtyard house.

Wang Boshan raised his head to check the house number and said, "Martial uncle Zheng, it's here!"

Zheng Yongshou looked at the magnificent gate and nodded, "This house is not bad ... Much better than the chimney – like buildings outside."

Wang Boshan didn't know whether to laugh or cry as he said, "martial uncle Zheng, this house is good, but ordinary people can't afford it." There were more and more people in modern society, so the buildings were built higher and higher. Otherwise, it wouldn't be able to accommodate them! To be able to afford such a large courtyard in the heart of the capital, it's not an ordinary person. "

"Even if he's not an ordinary person, he's still a person of the secular world. How extraordinary can he be?" Zheng Yongshou said indifferently.

Wang Boshan was also somewhat helpless towards this martial uncle who was almost otherworldly. What he actually wanted to express was that he lived in such a big house and looked like a person who did not lack money. It would obviously be more difficult to buy the green cloud Island from him.

Wang Boshan did not dare to refute and could only smile awkwardly, "Martial uncle, I'll go knock on the door then."

"Go!" Zheng Yongshou said indifferently with his hands behind his back.

Wang Boshan walked up the stairs and came to the front door. He wanted to knock on the door knocker, but he found that there was a doorbell device on the door, so he walked over and rang the doorbell a few times.

After a short while, the small door at the side opened, and a man in his early thirties walked out. He looked at Zheng Yongshou and Wang Boshan with a trace of vigilance and asked, "Who are you guys looking for?"

He was a comrade – in – arms recruited by Wu Qiang. His name was Gu Yong and he was in charge of the security of the courtyard. He usually lived in the front courtyard.

Wang Boshan's face revealed a smile and asked, "Hello, is Mr. Xia ruofei at home?"

"The boss is not here." Gu Yong said.

"Do you know where he went?" Wang Boshan asked again.

Gu Yong looked at Wang Boshan and said lightly, "I'm sorry, but the boss doesn't report to me where he goes. "

Gu Yong knew that if it was someone Xia ruofei knew, they would definitely call him before coming. Even if they came rashly and couldn't find him, they would still call. The two people in front of him clearly didn't even have the boss's contact information.

"Then ... Do you know when Mr. Xia will be back?" Wang Boshan asked, not giving up.

"That's hard to say. " Gu Yong said, "the boss doesn't live in the capital often. Sometimes he doesn't come for a month or two, and sometimes he's here every day ... Why are you looking for him?"

Chapter 2650 missed (2)

Wang Boshan saw that Gu Yong was getting impatient and quickly said, "Brother, we're looking for Mr. Xia to discuss a business deal. Can I trouble you to give me Mr. Xia's contact information?"

"No way!" Gu Yong shook his head. You can't just give your boss's phone number to anyone! Besides ... I don't have the boss's contact information!"

Gu Yong was not speaking nonsense. In the siheyuan, only Wu Qiang had Xia ruofei's contact information. The others did not need it as they were all under Wu Qiang's management. They were still one level away from Xia ruofei!

Wang Boshan had been rebuffed several times in a row and could not help but be secretly annoyed. He thought to himself that it was so difficult to deal with even a gatekeeper, it seemed that this time would not be too smooth! He couldn't flare up. After all, he needed Xia ruofei's help. If he were to ruin their relationship, it would be hard to talk to him.

He thought for a while and said with a smile, "Brother, we really have something urgent to discuss with Mr. Xia. Could you please help me contact him?"

"Didn't I already tell you? I really don't have the boss's contact information!" Gu Yong frowned slightly and said, "if you're looking for him to discuss business, why don't you go to the three mountains? The boss's company is in San Shan! Shouldn't they go to the office to discuss business? Even if the boss isn't there, there must be someone in charge!"

Wang Boshan didn't know whether to laugh or cry. The business he was talking about wasn't about trading with the Tao Yuan company. What was the use of the Tao Yuan company buying an island? Moreover, Qingyun Island was clearly Xia ruofei's personal property and had nothing to do with the Paradise Corporation.

Wang Boshan had also checked that Xia ruofei owned almost 100% of the shares of Paradise Corporation. This company was actually Xia ruofei's private property. The professional manager of the company could not make the final decision, so they had to look for Xia ruofei in the end.

He thought for a while and said, "brother, what do you think?" I'll leave my phone number with you. Please find someone to report to Mr. Xia. If it's convenient, please ask him to call me back. "

After that, Wang Boshan took out a gold – stamped business card from his pocket and said, "This is my business card. My job and contact information are on it. I'll have to trouble you for a while, okay?"

As Wang Boshan spoke, he took out a stack of cash from his pocket, all of which were green US dollars.

He put the cash and business card together and stuffed them into Gu Yong's hands.

Gu Yong quickly pushed the money away and said, "What are you doing? I don't want your money!"

"This is the fee for your hard work, just accept it!" Wang Boshan passed the money forward and said.

Gu Yong quickly took a step back and waved his hand. "I'll keep the business card, but you should keep the money! I'll report this to the person in charge here, but I can't guarantee that he won't help to contact the boss, let alone guarantee that the boss won't call you back!"

When Wang Boshan heard that, he quickly nodded and said, "Alright! Alright! Thank you, brother! When you contact Mr. Xia, just tell him that I have a business deal that involves billions of dollars to discuss with him! Please ask him to spare some of his precious time and give me a call."

The moment Gu Yong heard that it was a few billion dollars, the first thought that came to his mind was that two scammers had come.

However, he saw that the two of them were well – dressed. The clothes they were wearing were not cheap at first glance. Moreover, both of them had a strong aura. Ordinary scammers could not pretend to be them.

In addition, Wang Boshan's attitude was very good from the beginning to the end. As the saying goes, don't hit a smiling person, so Gu Yong couldn't reject him.

He took the name card and said, "I'll help you pass the message, but I can't control what the boss decides. But no matter what the result is, I will call and let you know."

"Thank you so much!" Wang Boshan expressed his thanks.

Gu Yong nodded and walked into the courtyard with his name card.

Zheng Yongshou, who hadn't said a word throughout the whole process, looked at the door that was closed again and said, "Boshan, why are you wasting your breath on a mortal? Can't we just capture him and interrogate him?"

"Martial uncle Zheng, we still have to talk to Xia ruofei about buying the island! It's best not to have a conflict ..." Wang Boshan smiled apologetically, "it's just a matter of waiting for a few more days. I believe that as long as we pay a high enough price, he will definitely be tempted! Even if this guard didn't help us, I'll come and wait here every day. This is his home, he can't possibly stay here forever!"

"It's so troublesome to do things in the secular world!" Zheng Yongshou said in dissatisfaction.

"Martial uncle, let's find a hotel to settle down in first." Wang Boshan quickly said, "you can rest in the hotel then. I will come and wait for you every day!"

Zheng Yongshou didn't have a good way to talk about social experience. He had lived in the star Seizer sect for decades and rarely came to the secular world. Wang Boshan's social experience was definitely a few streets ahead of his.

Zheng Yongshou finally nodded and said, "Let's do this! You'd better hurry up to avoid any more trouble!"

If it wasn't for the sake of sharing this great contribution, Zheng Yongshou definitely wouldn't be willing to stay in the capital and breathe in the dirty air.

Wang Boshan heaved a sigh of relief and said to himself, "I've finally appeased martial uncle Zheng. It's been so hard on me ..."

The two of them continued to walk through liuhai Lane, then took a taxi to a nearby hotel.

.....

Fortunately, Zheng Yongshou and Wang Boshan did not listen to Gu Yong's suggestion to chase after him to the three mountains. Otherwise, they would be doomed to meet another empty target. Xia ruofei's destination was not the three mountains at all, but the capital of the Jiangsu Province, Jin Ling city.

With the speed of the Gulfstream G650, it would only take about an hour to fly from Beijing to Jinling.

Hence, Xia ruofei did not rest in the back cabin after boarding the plane. Instead, he sat on the leather sofa in the middle of the cabin and sipped on a glass of red wine while thinking about the next arrangements.

At this moment, Xia ruofei's phone rang. It was not the ringtone of an incoming call, but the unique sound of WeChat voice chat.

There was no cell phone signal in the plane, but there was WiFi. The internet on the plane was through satellite communication. As long as the WiFi device was turned on, the cabin could be connected to the network.

Xia ruofei swiped on his phone and saw that it was a voice call from Wu Qiang. He must have used WeChat voice chat because his phone could not be connected.

This type of Wi – Fi wasn't very fast, but it could handle normal voice communication.

Xia ruofei picked up the call and put the phone to his ear. ""Wu Qiang, is there an urgent matter?"

Wu Qiang's voice came from the phone, "Brother Xia, I do have something to do, but there's no rush. Why don't we wait until your plane lands?"

"You're still trying to keep me in suspense?" Xia ruofei laughed and scolded, "if you have something to say, say it quickly! The internet signal isn't particularly good at high altitude. It might be cut off in a while. "

"Yes!" Wu Qiang said, "brother Xia, after I came back from the airport after sending you off, Gu Yong, who was in charge of the front yard, came to report to me. He said that not long after you left, two people came to look for you. They also said ... They have a big business deal worth billions of US dollars to discuss with you and would like you to return his call. Brother Xia, when I heard that there was a business deal worth billions of dollars, I was afraid that I would delay your business, so I quickly reported it to you. "

"A few billion dollars?" Xia ruofei raised his eyebrows. "It's really a big business competition!"

Xia ruofei quickly analyzed the situation. If the other party wasn't exaggerating, then this number was really too big. Even if peach blossom company were to sell all of its assets, it wouldn't be worth that much. The only thing that was worth a little bit was the Peach Blossom Island that they had just taken down. Could it be ...

Thinking of this, Xia ruofei couldn't help but frown. After a moment of silence, he asked, ""Wu Qiang, did they say what they do for a living?"

Wu Qiang said, "no, they didn't. But they left a business card. I took a look at this person's title. He is the CEO of Stars Group. His name is Wang Boshan ..."

“Stars Corporation?” Xia ruofei felt that the name was familiar, but he could not recall it. After a moment of silence, he said, “take a picture of this person’s business card and send it to me!”
