Chapter 2671 Finding the mole (1)

There were about a dozen middle management personnel left on Peach Blossom Island. At this time, everyone was whispering to each other, not knowing why Liu Qingfeng had gathered everyone in the middle of the night.

Recently, the Peach Blossom Island had changed a lot, and the hearts of the people below were also wavering. Everyone didn't have a sense of security, so when Liu Qingfeng suddenly called everyone over for a meeting, their hearts were all in a state of turmoil.

After Liu Qingfeng walked into the meeting room, he faced everyone's inquiring eyes and calmly said, "Benilatti, come out for a moment. The rest of you, stay where you are."

Benilatti was the only local in the middle management. Strictly speaking, the others were employees of the Liu family, but benilatti was not, so he was a little out of place with everyone. Even his seat was a few seats away from the others.

Benilatti was slightly taken aback, and a hint of hesitation flashed in his eyes. However, he still stood up and walked towards the door.

The other middle management from the Liu family began to whisper. Liu Qingfeng stood at the door and said in a deep voice, ""Don't talk nonsense. Everyone, stay here and wait for orders!"

After that, he left the meeting room with benilatti.

At the same time, four burly guards walked into the meeting room and guarded the front and back doors respectively. They stood at the door with cold expressions.

The management members in the meeting room were all shocked by the scene. They exchanged glances with each other, showing a hint of uneasiness. However, they didn't dare to talk about anything else. They all sat in their seats in silence, and the atmosphere was quiet and heavy.

Liu Qingfeng walked to the door of the office with benilatti and said, ""Go in! Someone is waiting for you inside!"

Benilatti hesitated for a moment, but when he saw the two fierce – looking guards at the door of the office, he finally walked in with a hint of trepidation.

Liu Qingfeng also stood at the door and waited. After benilatti went in, it was quiet inside, not even a sound could be heard.

Liu Qingfeng was a little uneasy in his heart. Of course, he didn't want there to be a mole among these people; If there was really a mole, he also secretly hoped that it was bainilatti, because the others were all employees of the Liu family. If something went wrong, he would not be able to explain it to the family.

After benilatti went in, the office door opened about five or six minutes later.

Liu Qingfeng was pacing back and forth in the corridor, and when he heard the voice, he quickly turned around.

The person who appeared at the door was Xia ruofei and not bainilatti.

"Call the next one," Xia ruofei said indifferently.

Liu Qingfeng hesitated for a moment and asked, "Mr. Xia, bainilatti ..."

"There's something wrong with this person. I've already got him under control." Xia ruofei said indifferently, "don't make a big deal out of this. Continue to call in more people."

After bainilatti entered the office, Xia ruofei effortlessly put him into a Deep State of hypnosis. This mental hypnosis was used against ordinary people and was successful in interrogating them.

The first problem was already exposed by bainilatti.

Xia ruofei's question was exactly the same as the one he had asked Liu Qingfeng in the car. In the end, the answer that benilatti gave was, "He secretly sold the news to Wang Boshan."

Xia ruofei continued to ask for more details, hoping to find some useful clues.

The story was actually very simple. Because benilatti was a local, he often returned to Evates Island, the capital of the Ponautu, on his rest days by boat or helicopter.

About ten months ago, Wang Boshan found him, and with the help of money, he quickly bought benilatti.

At that time, Wang Boshan had already set his eyes on the Peach Blossom Island. Of course, it was still called the Green Cloud Island.

Bainilatti continuously provided Wang Boshan with information about the inner workings of Green Cloud Island, and Wang Boshan was not stingy with his money. He was very generous every time.

This was especially so after bainilatti first spread the news that Green Cloud Island might change hands. Wang Boshan even gave him 100,000 US dollars and asked him to further inquire about the news. Wang Boshan also promised a reward of 300,000 US dollars.

It was also because of this that when benilatti received the latest news, he immediately told Wang Boshan. This included the news that Xia ruofei had officially taken over Green Cloud Island and changed its name to Paradise Island.

It was because of this accurate information that Wang Boshan could have a target in mind. Through some connections in China, he quickly inquired about Xia ruofei's situation and then went to find him with Zheng Yongshou.

After Xia ruofei asked about the situation, he knocked benilatti out with one palm and gagged his mouth. Then, he tied him up like a rice dumpling and threw him into the lounge in the office.

After hearing Xia ruofei's words, Liu Qingfeng's heart trembled slightly. At the same time, he secretly heaved a sigh of relief. If there was a problem with bainilatti, it meant that the possibility of other people having problems was relatively low.

“Okay, Mr. Xia, please wait a moment!” He quickly said.

Next, Xia ruofei went through all the middle – Level managers who were still on Peach Blossom Island.

To his relief, there was nothing wrong with these people. Most of them were loyal to the Liu family and responsible for the work on the Peach Blossom Island. Although two or three of them had mentioned Paradise Island to their families, the details didn’t match. They weren’t like bainilatti, who had direct and irrefutable evidence.

After a round of screening, Xia ruofei could confirm that the mole was bainilatti. The others were not too much of a problem.

After the last middle management of the project left, Xia ruofei called Liu Qingfeng into the office.

“Mr. Xia ...” Liu Qingfeng called out with a trace of uneasiness.

Xia ruofei casually threw the name list to Liu Qingfeng and said indifferently, “The people who have been marked, arrange for them to leave Peach Blossom Island tomorrow!”

Liu Qingfeng’s body trembled slightly, and he quickly glanced at the list, and then carefully asked, “Mr. Xia, is there a problem with these people?”

“It’s not a big problem, but he doesn’t keep his mouth shut and tells others everything.” Xia ruofei said, “Peach Blossom Island doesn’t welcome people like him!”

“Alright, I’ll arrange it tonight!” Liu Qingfeng said.

The few people that Xia ruofei had selected were the ones who had admitted to telling their families the news during the screening process.

The next step was to set up a big array on the Peach Blossom Island. If those people with loose mouths stayed here, they would make trouble sooner or later. Hence, Xia ruofei did not show them any mercy and directly asked Liu Qingfeng to get them away as soon as possible.

Xia ruofei continued, “Also, for the projects that are currently in progress, finish them as soon as possible within three days. If you can’t finish them, stop for the time being. When the time comes, try to evacuate as many people as possible!”

Chapter 2672 Using the soul seal (1)

Although Liu Qingfeng felt that Xia ruofei was a little too anxious, he did not dare to say much and could only nod in agreement.

He felt that he was only here to clean up the mess. Since Xia ruofei, the “Island owner”, wanted to get rid of the “outsiders” as soon as possible, he was happy to “get out of this misery” as soon as possible.

After Xia ruofei gave his orders, he said indifferently, “Alright, I’m a little tired after being busy for half a day. Find me a place to rest for a while. Let me know when the transport plane is about to arrive.”

“Mr. Xia, then ... Then what about bainilatti?” Liu Qingfeng quickly asked.

"I left him in the lounge next door. Get a few people to keep an eye on him. We'll talk about how to deal with him tomorrow!" Xia ruofei said.

"Alright!" Liu Qingfeng responded and quickly called two strong guards over. They went to the lounge and carried out benilatti, who was tied up like a dumpling.

Benilatti's mouth was blocked, and he kept whimpering. He looked at Liu Qingfeng with eyes full of desire.

Liu Qingfeng turned his face and waved his hand, and two strong men directly carried benilatti away.

Xia ruofei ordered, "don't let him have any contact with the outside world. Don't hurt him either. I still have use for this person."

"Yes, Mr. Xia!" Liu Qingfeng didn't dare to delay and quickly agreed.

Then, Liu Qingfeng brought Xia ruofei to a luxurious suite upstairs to rest. After he personally sent Xia ruofei to his room, he tactfully took his leave.

Xia ruofei locked the doors and windows of the room and drew the curtains tightly. Then, he carefully scanned the entire room with his mental power to make sure that no one had installed any eavesdropping or recording devices.

The batch of materials that Li Yifu was personally escorting would be landing on Peach Blossom Island in a few hours. Xia ruofei asked Liu Qingfeng to arrange a room for him at this time. Naturally, he was not so tired that he wanted to sleep for a while.

He just needed an environment where he wouldn't be disturbed, because he needed to devote himself to one thing and condense his soul seal.

To be more precise, it was the child seal of the soul seal.

This was because he had already completed the condensation of the mother seal, and it was quietly staying in his sea of consciousness.

With Xia ruofei's current cultivation, the mother seal in his sea of consciousness could control five child seals at the same time. In other words, he could have five soul slaves at most. And now, only one of the five spots had been used on Liu chengfeng, leaving four empty spots.

Today, he was prepared to use one of the slots on bainilatti.

Although benilatti was only an ordinary person and not a cultivator, it seemed a bit of a waste to use the soul seal on him. However, this person was very important at this stage. Compared to the overall strategy of the entire Paradise Island, it was worth it.

One must know that benilatti could directly contact Wang Boshan and the others. Through their cooperation for the past six months, benilatti had frequently transmitted key information to Wang Boshan. It should be said that he had already gained Wang Boshan's trust. In Wang Boshan's eyes, as long as he gave enough money, benilatti would definitely be a loyal dog.

This point was too important.

Other than taking in bainilatti as his soul slave, Xia ruofei could not guarantee that nothing would go wrong. If bainilatti spread the news, he would be in great danger unless he killed bainilatti.

Speaking of which, bainilatti's crime did not warrant death, not to mention that he was still of great use.

At such a time, sending some information to Wang Boshan through benilatti would be very useful. At the very least, it would be very useful in delaying time.

This point alone was enough for Xia ruofei to use up one of the soul seal's slots.

Furthermore, after using the soul seal, it was not the easiest way to get rid of it. If he killed bainilatti, the slot would naturally be empty. In addition, he could still strip away the child seal, so that the seal in the mother seal would naturally dissipate. There was a certain risk in removing the ion seal, but this risk was only for benilati. To Xia ruofei, there was no danger at all.

Hence, after some consideration, Xia ruofei made this decision.

After he locked the door and windows, he went straight to the bed in the bedroom and sat down cross – legged, then began to condense the child seal of the soul seal.

Before subduing Liu chengfeng, Xia ruofei had spent a lot of time and effort to form the soul seal. However, his main focus was on forming the mother seal. The child seal was much less complicated than the mother seal, so it was much easier to form. Besides, Xia ruofei already had experience, so he was more familiar with the process this time.

After a few tries and getting the feeling back, he closed his eyes and started to draw the soul seal.

After about half an hour, Xia ruofei had successfully condensed a brand new child seal.

He put the child seal into his spiritual ocean, and the child seal immediately began to slowly spin around the mother seal, like a satellite accompanying it.

Xia ruofei stood up and went to the bathroom to wash his face. He felt as if his entire spirit had been lifted.

He walked out of the room and said to the waiter who was waiting near the room, ""You can ask where Liu Qingfeng is, I have something to talk to him about."

"Alright! Please wait a moment!" The waiter quickly said.

He contacted them through the walkie – talkie and then said respectfully, ""Mr. Xia, President Liu is in his office. He'll be right up."

Chapter 2673 Using the soul seal (2)

Xia ruofei waved his hand. "No need. Tell him to wait in the office. I'll go down now!"

"Yes!" The waiter replied.

The waiter hurriedly contacted the people downstairs through the walkie – talkie. Xia ruofei stepped into the elevator and took the elevator to the floor where Liu Qingfeng's office was located.

As soon as he got out of the elevator, Xia ruofei saw Liu Qingfeng waiting respectfully at the elevator.

He saw Xia ruofei and quickly said, ""Mr. Xia, if there's anything you need, you can just give me a call or ask me to go up. Why did you come down personally?"

Xia ruofei said indifferently, "I can't sleep ... I just thought of some questions. I need to interrogate bainilatti again. I need to use your office again."

"No problem!" Liu Qingfeng quickly said, "this way, please! I'll get someone to bring bainilatti over!"

Xia ruofei nodded and patted Liu Qingfeng's shoulder. ""I'm here, and you stayed up all night with me. It's been hard on you! This is a critical period, so I hope you can take responsibility and stabilize the People's hearts on Peach Blossom Island. I'll talk to elder Liu when I get back and try to arrange a better position for you!"

Liu Qingfeng was so excited that his body trembled slightly, and he repeatedly said, "Thank you, Mr. Xia! Thank you, Mr. Xia! I'll definitely do my best, don't worry!"

Liu Qingfeng was aware of Xia ruofei's extraordinary status in the Liu family. Although he did not know the details of old master Liu's treatment, he could see from Liu Kuan's attitude towards Xia ruofei and some news from his family that Xia ruofei's words carried a lot of weight in the Liu family.

Xia ruofei was willing to put in a good word or two for him. This was more effective than anyone else's words. How could Liu Qingfeng not be excited?

Xia ruofei nodded and walked towards Liu Qingfeng's office.

Liu Qingfeng hurriedly went to the room where bainilatti was held and asked someone to escort bainilatti to the office.

Liu Qingfeng personally brought people to carry bainilatti into the office, then said to Xia ruofei, ""Mr. Xia, we'll take our leave first. If he wasn't honest, he could take some measures. We've always had a good relationship with the officials of the ponaintu, so it's not a big deal to kill someone here. "

Bainilatti had been working for the Liu family for so many years, and his Chinese Level was quite good. When he heard Liu Qingfeng's words, he couldn't help but cry out and struggle on the ground in vain.

Xia ruofei glanced at bainilatti with a faint smile and said, ""I know. All of you can leave! Without my permission, no one is allowed to approach!"

"Yes!" Liu Qingfeng puffed out his chest and said.

With Xia ruofei's words, he was really full of energy now. He couldn't wait to perform in front of Xia ruofei without rest.

After leaving Xia ruofei's office, Liu Qingfeng immediately gathered four more people to guard the office. He didn't dare to leave and waited for Xia ruofei's call. At the same time, he kept in contact with the airport to find out when the transport plane would land.

In Liu Qingfeng's office, Xia ruofei walked in front of benilatti, squatted down, and stared at him with a faint smile.

Bainilatti was so frightened that he kept whimpering. At the same time, his body wriggled as he tried to retreat. However, his hands and feet were tied together, and his entire body was in a reverse bow shape. He couldn't use any force at all, and he was destined to be in vain.

Benilatti really thought that Xia ruofei was going to kill him. After all, he had sold the information to Wang Boshan for money. He really had a reason to kill him.

Bainilatti's heart was filled with fear. He could not help but look at Xia ruofei with a pleading expression.

When his eyes met Xia ruofei's, he felt as if Xia ruofei's eyes were like a bottomless pool and his consciousness fell into it.

Xia ruofei's strong spiritual power enveloped benilatti. After benilatti fell into a state of hypnosis, he did not hesitate to release the child seal of the soul seal from his sea of consciousness. A light visible to the naked eye flashed and entered between benilatti's eyebrows.

The next moment, Xia ruofei felt the connection between the mother seal and the child seal.

Using a soul seal to subdue an ordinary person was simply as easy as blowing off dust.

Xia ruofei retracted his spiritual power and woke up bainilatti from his state of hypnosis.

There was a moment of confusion in benilatti's eyes before he regained his clarity.

However, when he looked at Xia ruofei again, his eyes were filled with fanatical admiration.

Xia ruofei casually set up a sound – proof array around them, then reached out and took out the rag that was gagging benilatti's mouth.

As soon as his mouth was free, bainilatti immediately said respectfully, "Hello, master!"

He was still using his Chinese Kasaya with a strange accent. In his opinion, it would be the greatest disrespect if he didn't use his master's language when talking to him.

Before this, Xia ruofei had come to Peach Blossom Island twice, and benilatti had mainly communicated with Xia ruofei in English.

Xia ruofei nodded and said, "Originally, I should've executed you for leaking the information about the Paradise Island, but the heavens are kind, so I gave you this opportunity to turn over a new leaf."

Bainilatti said gratefully, "Thank you, master. You're too kind! I'm willing to do anything for master! Even if you die ten thousand times!"

"Very good!" Xia ruofei said.

With that, Xia ruofei reached out to untie the ropes on benilatti.

Once benilatti regained his freedom, he immediately turned over and knelt down at Xia ruofei's feet. "Master, what can I do for you? Master, please give me your orders!"

Xia ruofei said, "first, I'll tell Liu Qingfeng later that since you're more cooperative, there's no need to tie you up. However, we still have to keep you under watch. This is mainly because we're worried that the difference will be too big and it will make people suspicious."

"I understand! I'm willing to do anything for master! What's the big deal about being locked up?" Benilati said without hesitation.

"Second, I'll ask Liu Qingfeng to exchange the communication tool with you. For the time being, don't take the initiative to contact Wang Boshan. If he contacts you, just say that everything is normal on the peach Garden Island and that I didn't come to the peach Garden Island." Xia ruofei said.

"Alright, your subordinate will remember!" Beniladi said.

Xia ruofei said,"third, be ready at any time. When the time is right, I need you to send the message I want to send to Wang Boshan. Don't give yourself away!"

"Yes! This subordinate understands!" Beniladi said.

"That's all for now. In short, don't let anyone here know that you've been subdued by me. Don't let Wang Boshan know that there's any abnormality. Just remember these two points!" Xia ruofei said.

"Understood!" "Yes," bainilatti replied.

Xia ruofei let bainilatti rest in the office for a while, then opened the office door and called Liu Qingfeng in.

When Liu Qingfeng saw that bainilatti had already regained his freedom, he couldn't help but be stunned. However, he didn't say anything and only asked respectfully,""Mr. Xia, what are your orders?"

Xia ruofei pointed at bainilatti and said,""This guy is quite cooperative, so let's just let him suffer less! There's no need to tie him up from now on. "

At this point, Xia ruofei paused for a moment and made a thoughtful expression. Then he said,""In order to prevent Wang Boshan and the others from feeling strange that they can't contact bainilatti, return his phone to him tonight. But you have to keep a close eye on him 24 hours a day, especially when Wang Boshan and his gang call. If there's any possibility of him leaking the news, hang up immediately!"

"Understood!" Liu Qingfeng nodded and said. I'll pass down the order! This guy is very afraid of death. If we scare him with a few words, he definitely won't dare to act recklessly and will definitely cooperate with us!"

Chapter 2674 Open and honest (1)

"En!" Xia ruofei nodded and looked at his watch."We'll be leaving for the airport in an hour. You can go and arrange things for bainilatti!"

"Yes, Mr. Xia!" Liu Qingfeng respectfully replied.

Xia ruofei returned to the luxurious suite that Liu Qingfeng had prepared for him. He did not rest, but sat cross – legged on the bed again and began to condense the child seal of the soul seal. Ever since he knew that the star Seizer sect had set their eyes on the peach source Island, Xia ruofei had a sense of urgency that time waited for no one. Seeing that he still had a little time, he decided to condense another child seal.

The child seal of a soul seal could be condensed in advance and stored in the sea of consciousness.

The seed seal was like an empty disc. There was no content in it, and it would automatically revolve around the mother seal in the sea of consciousness.

Xia ruofei was just being prepared. He had prepared the child seal in his sea of consciousness so that he would not have to spend time to condense it when he needed to use it.

Xia ruofei was getting more and more skilled at condensing the child seal. In an hour, he had successfully condensed two child seals and stored them in his sea of consciousness.

Then, he looked at the time, stood up, and walked out of the room.

Liu Qingfeng had already been waiting in the corridor of this floor in advance. When he saw Xia ruofei come out, he quickly greeted him and said, "Mr. Xia, the car is ready. We can leave at any time."

"Let's go!" Xia ruofei nodded.

After he finished speaking, he strode towards the elevator, and Liu Qingfeng followed Xia ruofei step by step.

Xia ruofei said as he walked, "make sure to keep it a secret. Whether it's the Benilatti incident or the plane coming over tonight, I don't want it to spread to the whole world tomorrow."

"Yes!" Liu Qingfeng quickly responded, "I've already given the order to keep quiet. They know the severity of the situation!"

Xia ruofei nodded and walked into the elevator without another word.

After a while, a Mercedes – Benz car drove out of the underground parking lot of the building and sped in the direction of the airport.

Peach Blossom Island Airport.

The Mercedes – Benz drove directly to the tarmac.

This was the advantage of a private airport. If a car wanted to enter the tarmac at an International Airport, it would need to go through very cumbersome procedures, and there would be many inspections and security checks, which were quite troublesome. However, there was no need for all these in Peach Blossom Island. The car could drive in directly.

"Mr. Xia, the tower Station announced that the plane will land in about 20 minutes," said Liu Qingfeng. You can rest in the car for a while!"

"Alright," he said. Xia ruofei replied indifferently.

He leaned back in his seat and closed his eyes to rest. Suddenly, he asked, "Is the warehouse and the transport vehicle ready?"

"Everything has been arranged according to your instructions. Once the plane lands, the transport trucks will come over." Liu Qingfeng said, "the warehouse here at the airport was almost empty. Only a small part of the building materials were stored. I have already arranged for some workers to come over and clear the warehouse."

“Very good,” he said. Xia ruofei said indifferently. Then, he didn’t say anything more. He leaned back in his seat as if he had fallen asleep.

After 17 to 18 minutes, they could faintly hear the sound of an aircraft’s engine in the distance.

Liu Qingfeng sat in the co-pilot’s seat. Through the side window, he could see a plane in the distant night sky approaching from afar, the red lights on the wing tips flashing rhythmically.

He turned around and said, “Mr. Xia, the plane has arrived. I’ll go down and take a look.”

“Let’s go together!” Xia ruofei opened his eyes and said.

The plane landed smoothly on the runway in no time. The guide car set off and met up with the plane at the runway. Then, the car led the plane slowly to Xia ruofei’s side.

This was a Boeing 757 cargo charter flight. After the plane was parked in the parking space, the ladder car that had been prepared on the side immediately approached. Two trucks that Liu Qingfeng had arranged in advance from the construction site also drove over.

Soon, the cabin door opened. Li Yifu was the first one to appear at the cabin door. He quickly walked down the ramp. When he was taxiing the plane, he already saw Xia ruofei waiting on the tarmac. He was both excited and nervous. He was excited because he finally saw his senior granduncle again, but he was nervous because he had actually asked his senior granduncle to wait on the tarmac. It was too outrageous.

Li Yifu also noticed Liu Qingfeng beside Xia ruofei, so when he came to Xia ruofei’s side, he could only suppress his excitement and call out, “Mr. Xia.”

This was what Xia ruofei had told Li Yifu a long time ago. He was not allowed to call him ‘senior granduncle’ in front of outsiders.

Xia ruofei nodded and said, “You’ve had a hard journey! Let’s organize the unloading first!”

“Alright!” Li Yifu replied.

The cargo door in the middle of the plane slowly opened, revealing the cargo inside. These cargo were all packed in sealed cargo boxes, neatly stacked in the cargo hold.

Soon, the cargo containers were transferred to the trucks by the workers. The trucks and Xia ruofei’s Mercedes – Benz drove into the night and headed to the warehouse on the other side of the airport.

Li Yifu personally escorted the first truck. After the truck arrived at the warehouse, Li Yifu personally watched the workers move the heavy cargo boxes into the warehouse.

This was Li Yifu’s first time seeing Xia ruofei give him a task so seriously, so he didn’t dare to relax for a moment. He had to personally watch over every step to be at ease.

Chapter 2675 Open and honest (2)

After the goods were transported into the warehouse, Xia ruofei said to Liu Qingfeng, “Alright, there’s nothing for you to do here. You can go back and rest!”

Liu Qingfeng was stunned for a moment, and quickly asked, "Mr. Xia, what about you?"

"Me? I still have something to do at the warehouse, you don't have to worry about me." Xia ruofei said indifferently, "be careful of bainilatti when we get back ... Forget it. Send him to the warehouse tomorrow morning. I'll watch over him personally!"

"Alright!" Liu Qingfeng replied, "Mr. Xia, don't you want to go back and rest for a while?"

"I'll rest here in the warehouse. Get someone to send two camping beds over." Xia ruofei said, "also, send more men to the periphery. Don't let anyone get close to this warehouse."

"Alright!" Liu Qingfeng said, "Mr. Xia, I'll go back first."

Liu Qingfeng could naturally see that Xia ruofei attached great importance to this batch of goods, and it seemed that he did not want more people to know about the situation of these goods, so he was very tactful. After Xia ruofei gave his orders, he immediately left.

The workers left after transporting the goods, so after Liu Qingfeng left, only Xia ruofei and Li Yifu were left in the warehouse.

"Disciple greets senior granduncle!" Li Yifu immediately greeted him respectfully.

"Mm! You've worked hard, foster husband." Xia ruofei said indifferently and continued to ask, "have you found all the materials I need?"

"It's all here. I've even bought ten percent more than the amount on the list in case there's a shortage of materials," Li Yifu said.

Xia ruofei nodded. In fact, he had already considered this problem when he was making the list. He had added more of each material. However, Li Yifu did this out of responsibility, so Xia ruofei did not say anything else.

"You didn't attract any attention when you bought these materials, did you?" he asked.

"Don't worry, senior granduncle." Li Yifu smiled and said, "although it was a little rushed, I still didn't buy it directly. Instead, I bought it anonymously through different agents and scattered it in several warehouses. Then, I sent people to gather it in the warehouses and put it in a unified box, so I came a little late."

Xia ruofei nodded. "Very good. You're indeed experienced and reliable. You're so reliable!"

"Martial granduncle, you're overpraising me." Li Yifu said as he bowed slightly.

Xia ruofei said, "foster husband, this is an island I bought. It's called Paradise Island. This Island is very important to me. It's also very useful for your future cultivation." I'll need you here in the near future to carry out the island's transformation plan. Is there any problem? Can you make arrangements for your own business?"

When Li Yifu heard that, he said without hesitation, "I have no problem with that! It's my honor to be able to work for you. I basically don't care about business anymore. When I was in the United States, I

rarely asked about business, so it won't affect me. Even if it does, how can a mere business be more important than martial granduncle's matter?"

Xia ruofei nodded and casually set up a sound – proof formation.

Although Li Yifu's knowledge of arrays was average, he could still feel the profoundness of the array that Xia ruofei had casually set up. He could also vaguely sense the function of the array.

Seeing Xia ruofei being so cautious, he couldn't help but feel a chill in his heart. He asked, "Martial granduncle, do you have any secret matters to announce?"

Xia ruofei said indifferently, "adopted husband, I have to explain to you in detail about Paradise Island." This Island and the surrounding seas and the environment form a natural formation called the Taixu xuanqing formation ..."

Xia ruofei briefly introduced the functions of the Taixu xuanqing formation to Li Yifu and said, "To put it simply, this is a natural formation at the level of a sect – protecting formation. And as far as I know, the sect – protecting formations of some cultivation sects on earth are far inferior to the Taixu xuanqing formation. Once the formation is activated, the Paradise Island will undoubtedly become a Holy Land for cultivation. At that time, even without the help of spirit crystals, the cultivation speed will be several times faster than normal. "

After Li Yifu heard this, he was stunned as if he had been electrocuted. His mouth was wide open unknowingly. He was obviously shocked by the news.

"My adopted husband!" Xia ruofei called out with a frown.

Li Yifu came back to his senses and quickly said, "Senior granduncle, please forgive this disciple for losing my self – Control ... This disciple really didn't expect that there would actually be such a blessed paradise."

Xia ruofei said indifferently, "the work of nature is beyond the imagination of ordinary people. Before this, I didn't dare to believe that there was a place that could form a natural formation like the Taixu xuanqing formation. However, it does exist. I have checked it carefully. It is indeed a natural formation. There are no traces of man – made things or any marks left by cultivators."

Then, Xia ruofei changed the topic. "However, fortune may be the root of misfortune, and such a paradise may not necessarily be a good thing. If some sects in the cultivation world set their eyes on us, it'll be very difficult for us to protect the Paradise Island with our current strength. Even with the help of the Taixu xuanqing formation, it'll be difficult for us to resist the siege of those big sects. "

"Martial granduncle, although this disciple's cultivation is low, I'm willing to defend the Peach Blossom Island with my life!" Li Yifu said in an impassioned tone.

In his eyes, the Peach Blossom Island was the foundation of a sect. Although Xia ruofei had no intention of establishing a sect, Li Yifu felt that the relationship between him and Xia ruofei's master had already formed the embryonic form of a sect. As the successor of Shanhai Zhenren, they had the obligation to develop the sect. With the Peach Blossom Island, all of this was possible.

If someone wanted to take the Peach Blossom Island, they would be snatching someone's Foundation! No matter how strong the other party was, they had to fight them to the death!

Xia ruofei waved his hand and said, "It's not that serious. This is the South Pacific Ocean, and cultivators rarely appear in this Sea area. With the current situation of Paradise Island, even if cultivators who have studied arrays a little can't see the Taixu xuanqing formation, they will definitely be able to detect the abnormality of this Island. Therefore, if cultivators often pass by this Sea area, the secret of Paradise Island would have been discovered a long time ago, and it wouldn't have taken until today to ... Forget it, we'll talk about this later! In any case, the situation isn't too bad. "

"I understand." Li Yifu nodded and said.

"Once we successfully activate the array on the Peach Blossom Island, it will cover up the aura of the great array. At that time, even if a cultivator appears here, they basically won't be able to detect any abnormalities unless they observe closely and touch the great array." Xia ruofei said and then added, "even a cultivator in the original infant stage would find it hard to notice the abnormality if he didn't look carefully."

When Li Yifu heard this, he was immediately relieved. The cultivation world on earth was so withered that it was doubtful whether there were any nascent soul old monsters alive. Moreover, the South Pacific Ocean was too remote for the cultivation world. How could there be a nascent soul old monster here so coincidentally and even use spiritual power to investigate carefully?

In this case, the safety of the Paradise Island was still very high.

Li Yifu didn't expect Xia ruofei to immediately change the topic and say, "I was planning to set up the Taixu xuanqing formation slowly, but do you know why I asked you to bring all the materials and come here as soon as possible?"

"I'm slow – witted, please enlighten me, senior granduncle," Li Yifu bowed and said.

"The reason is very simple. Just yesterday, I have confirmed a piece of news. Our peach source Island has been discovered by a cultivation sect. They have set their eyes on this Island." Xia ruofei said calmly, "of course, I can't just hand the Paradise Island over to someone else. Therefore, there is only one choice in front of me, and that is to activate the Taixu xuanqing formation as soon as possible. Only then will we have a chance to fight against that cultivation sect."

Chapter 2676 Start work (1)

Li Yifu couldn't help but smile wryly, 'grand uncle – Master, can you not take a deep breath when you speak? In this short period of time, my mood has gone up and down a few times like a roller coaster ...

Xia ruofei looked at Li Yifu and asked indifferently, "Foster husband, you'll stay on the island to manage the entire transformation project. If you happen to encounter the people from that cultivation sect who come to attack, your life may even be in danger. So, you should think it over carefully. You can actually choose to spend the rest of your life in America, and I definitely won't blame you. "

Hearing this, Li Yifu's face turned red, as if he had been greatly insulted.

Without the slightest hesitation, he said, "martial granduncle!" Although I'm slow-witted and my cultivation is low, I'm not lacking in courage! This is a matter of great importance to the foundation of the sect. Even if this disciple's bones are crushed, this disciple will absolutely not retreat!"

A smile gradually appeared on Xia ruofei's face, and his eyes revealed a trace of relief.

"Foster husband, I'm very happy that you have this intention." Xia ruofei said, "however, the people from the cultivation sect won't be coming to Paradise Island for the time being. As long as we are careful, we can still guarantee our basic safety."

Xia ruofei wasn't trying to comfort Li Yifu. The star Seizer sect hadn't fallen out with them yet. They should still have high hopes of buying Paradise Island. Under such circumstances, they wouldn't come to Paradise Island easily. After all, Paradise Island was a private island. They couldn't come to the island through normal means. If they sneaked in or snuck into the island, there wouldn't be much meaning. Besides, if they were discovered, they might even incur Xia ruofei's hatred and cause the deal to fail.

Therefore, according to common sense, the star Seizer sect's people wouldn't be coming to the island at this time.

As long as they did not come to the island, it would be impossible for them to discover Li Yifu's identity as a cultivator, and he would naturally be safe.

"Senior granduncle, even if there's danger, I'm not afraid!" Li Yifu nodded.

Xia ruofei smiled and said, "I'll tell you the details." Let's analyze it together!"

Following that, Xia ruofei explained everything about the star Seizer sect to Li Yifu in detail.

After Li Yifu heard this, he showed a relieved expression and said, "It's a good thing you discovered it early, or else it would've been dangerous!"

Xia ruofei nodded and said, "my initial plan is to use benilatti to delay time. At the same time, we'll speed up the formation." If necessary, we can even send false information to the other party through benilatti and trick them into coming to Paradise Island to trap us!"

Hearing this, Li Yifu pondered for a moment and carefully said, "Martial granduncle, shouldn't we play it safe? If the trap fails and they manage to escape, the entire star Seizer sect will come at us, and it will be very difficult for us to resist them. Even if the trap was successful, the star Seizer sect would still be able to detect it after some time! And their people being locked up here is a hot potato!"

Xia ruofei chuckled. "Under normal circumstances, that would be the case. However, what if I'm absolutely sure that I can make the captives betray us and become our people?"

Li Yifu thought about it carefully, and his eyes lit up. "If that's the case, it might have an unexpected effect!"

However, his expression quickly darkened as he said, "However ... Martial granduncle, it's not easy to distinguish whether a captive is a traitor. The risk is also very high ..."

Xia ruofei smiled. "You don't have to worry about that. Just trust me. I never do things that I'm not confident in."

After that, Xia ruofei said, "alright, our top priority now is to set up the formation." This is the key premise of this duel. If the formation is not set up well, then everything is equal to zero!"

Li Yifu felt full of energy. He said eagerly, "Right! Martial granduncle, you can assign the tasks!"

Xia ruofei smiled. "You have two tasks at the moment. One is to open the boxes with me and separate the materials so that it's easy to find and use them."

"Alright, senior granduncle. What about the second mission?" Li Yifu asked.

"Protect me!" Xia ruofei said, "guard this place well and don't allow anyone to come close or spy on us. You should be able to do this, right?"

Li Yifu was stunned. He didn't expect Xia ruofei to arrange such "low – end" work for him, such as opening boxes and being a Sentry ... Who wouldn't be able to do this kind of work?

"Yes, sir!" Out of respect for Xia ruofei, Li Yifu did not haggle. He even hid his disappointment well.

Xia ruofei knew what was going on. He smiled and said, "Foster husband, the main task at this stage is to process these materials. This involves complex array knowledge, and it also has a very high demand on spiritual power, so you can't help much for the time being. However, your work is also very important, especially the second one. When I'm processing the materials, no one can disturb me. Otherwise, wasting precious materials is a small matter, and even I will be greatly affected and hurt. Therefore, my safety and the safety of the materials are all in your hands. "

Li Yifu quickly replied, "I understand!" Don't worry, martial granduncle, this disciple will do my best to complete the task you've given me!"

"Mm! Let's start!" Xia ruofei said.

The two of them found two steel drills in the corner of the warehouse and began to break down the wooden boxes containing the materials.

Chapter 2677 Start work (2)

This time, the formation of the Taixu xuanqing formation required a large number of materials. Some of them even required Xia ruofei to carve the formation runes himself. Some of the materials did not require the formation runes, but they still needed to be processed. Xia ruofei had to complete all these tasks personally.

Moreover, he could only complete a portion of it today because Xia ruofei only had a preliminary plan for activating the formation. This plan still needed further refinement. After all, he had only observed it once from the sky when he first came to Paradise Island. Some details still needed further confirmation.

This plan had to be as perfect as possible because Xia ruofei did not have much time left. The star Seizer sect's people's patience would be worn out sooner or later.

Hence, Xia ruofei was racing against time. He did not plan to rest today. To a cultivator, staying up a few nights would not affect him. The only disadvantage was that it would consume a lot of mental power to prepare the materials. For this, Xia ruofei had prepared the spatial spirit pool water, the Jade futon, and even the petal solution of the spirit Heart Flower.

At this time, it was worth it to pay a price.

Xia ruofei and Li Yifu were both cultivators, so they were very efficient. In a short while, all the boxes were opened.

The two of them took out all the materials together and piled them up in the warehouse separately.

Xia ruofei let out a long sigh and said, "That's enough, foster husband. Go stand guard outside the door now. Without my permission, no one is allowed to enter!"

"Yes! Senior granduncle!" Li Yifu replied respectfully.

Xia ruofei smiled. "Be prepared to pull an all – nighter. Can your body take it?"

"Of course, no problem!" Li Yifu said with great enthusiasm, "great uncle – Master, thank you for your hard work! Disciple will be leaving now!"

"En!" Xia ruofei nodded.

Li Yifu strode out of the warehouse while Xia ruofei walked through the materials. Soon, he found a set of 16 Jade pillars that were as thick as a child's arm. These Jade pillars were made of natural jade. Although the quality of the Jade was not particularly high, it was enough.

Of course, the higher the quality of the Jade materials used to inscribe formation patterns, the better the effect of the formation.

However, due to the lack of time, Xia ruofei could not ask Li Yifu to find the best Jade. It was not realistic at all.

Therefore, he could only solve some of the problems first. If he could survive this crisis, he would slowly find better materials to replace them.

At that time, the power of the formation would be increased again. Even the Masters of the late jiedan stage would find it difficult to shake it. Even if the Yuanying stage old monster came over, it could also have the power to block.

In Xia ruofei's plan, he needed a total of nine of these Jade pillars. However, when he gave Li Yifu the list, he had taken into account the fact that he would need more if he failed to draw or if the plan was adjusted at the last minute. Hence, he had asked for 12 of them. In the end, Li Yifu had prepared four more.

According to Xia ruofei's plan, these nine Jade pillars were the most important parts, second only to the core array disc. They were very important in activating the Taixu xuanqing formation. Moreover, the formation patterns needed to be engraved on these nine Jade pillars were ready – made. They could be engraved according to the formation diagram of the Taixu xuanqing formation and would not change according to the plan.

Hence, Xia ruofei decided to prepare the nine Jade pillars.

Of course, he didn't blindly inscribe array patterns on the Jade pillar.

After finding the Jade pillars, Xia ruofei put them aside and sat on the ground with his legs crossed. He started to practice with his spiritual power.

This was a good habit he had always maintained.

Time passed by. These nine array runes were not particularly complicated. Xia ruofei practiced for about half an hour and was able to master the key points of the first array rune.

Thus, he sat on the Jade futon and took a few large gulps of the spatial spirit pool water to slowly recover his mental power.

After another twenty minutes, Xia ruofei felt that he was in his best condition. He reached out and took a Jade pillar.

He first checked the size of the Jade pillar and made sure that Li Yifu had cut it according to the requirements. Then, he reached out and gently stroked the surface of the Jade pillar, feeling the details of the Jade with his heart. This was also very important for him to carve the array pattern. Only by understanding the materials as much as possible could he ensure that the probability of mistakes in the carving process was the lowest.

Finally, Xia ruofei felt that the time was right. He placed the Jade pillar horizontally on his lap and closed his eyes. A stream of spiritual energy shot out from his fingertips and penetrated deeply into the Jade pillar.

His finger moved slightly, and a mysterious arc that was invisible to the naked eye appeared inside the Jade pillar.

Xia ruofei didn't stop at all. He continued to carve in one go. There was a special sense of rhythm in the process. It was as if his fingertips were playing a beautiful piece of music on the surface of the Jade pillar. If anyone were to see it, they would definitely be pleased.

In a short three minutes, Xia ruofei had finished inscribing the first array pattern.

He held the Jade pillar with both hands and carefully examined the array patterns inside the Jade pillar. Finally, he revealed a smile and nodded in satisfaction.

After a short break, Xia ruofei immediately started to practice the second array pattern.

.....

Xia ruofei spent the entire night practicing, carving, and checking.

When he finally carved the 9th array pattern into the Jade pillar, he couldn't help but let out a sigh of relief.

Staying up all night without sleep was nothing, but staying up all night would consume and replenish his spiritual power. He had wandered on the edge of spiritual power exhaustion many times, and this feeling was really as sour as it could get.

Although he was exhausted, Xia ruofei felt a sense of achievement when he saw the nine Jade pillars neatly placed at the side.

Other than the core array disc, the most important part of the entire Taixu xuanqing formation was these nine Jade pillars.

He still needed to wait for the details of the entire plan to be finalized before he could start carving the core array disc.

The core array disc of the Taixu xuanqing formation was not static. This was because the array disc controlled the entire formation. Therefore, some details were closely related to the implementation plan of the formation.

Now, other than the array disc that could not be made for the time being, the nine Jade pillars had been completed. All that was left was some more cumbersome work that did not require much energy. To Xia ruofei, these tasks were not difficult.

Xia ruofei stood up and stretched. The sky outside was already starting to light up.

Xia ruofei walked out of the warehouse and found Li Yifu still standing upright at the door of the warehouse. His sharp eyes were constantly scanning the surroundings.

Hearing Xia ruofei's footsteps, Li Yifu quickly turned around.

As soon as he saw Xia ruofei, Li Yifu immediately greeted him with respect. "Senior granduncle!"

"You've worked hard last night!" Xia ruofei said with a pleasant expression.

"This disciple was only standing here to guard, while martial granduncle was busy the entire night!" Li Yifu said, "the one who has really worked hard is you, Grand – Master!"

Xia ruofei smiled and said, "let's not be polite with each other." Everyone has worked hard! Adopted husband, you can go in and rest for a while! You'll have to stay in the warehouse for the next few days and won't leave the materials for a moment. The conditions are a little rough, so you have to overcome it!"

"Yes! Grand Master!" Li Yifu said, "I think that the conditions are good enough! It's disciple's honor to be able to serve by martial granduncle's side!"

"Okay, okay ..." Xia ruofei said helplessly, "go in and rest for a while. Just be alert. I'll tell them not to come near here!" I still have something to do, so I'll probably be back in the afternoon. Remember not to touch the materials, because I've already processed some of them. "

"Alright, martial granduncle!" Li Yifu said.

After Xia ruofei left the warehouse, he went straight to Liu Qingfeng and asked him to restrain the guards and not go near the warehouse.

In addition, Xia ruofei asked Liu Qingfeng to arrange for the pilot to prepare the helicopter. He wanted to take a good look at the entire array structure of Peach Garden Island today. Now that Peach Garden Island belonged to him, he did not need to have any more concerns.

Chapter 2678 Full of confidence (1)

The Super Jaguar helicopter whizzed past Paradise Island.

Xia ruofei sat in the front passenger seat with a pair of soundproof headphones on. Looking down from the sky, the green peach Garden Island looked like a Pearl embedded in the South Pacific Ocean. The color of the sea around the island changed from light to dark, and gradually transitioned to a deep dark blue.

Looking down from the sky, the entire Peach Blossom Island could be seen at a glance.

The helicopter pilot, Wu Wenhan, was controlling the plane while secretly observing Xia ruofei, who was sitting on his right, out of the corner of his eye.

Wu Wenhan used to be a land pilot, but he stopped flying due to physical reasons.

However, although he couldn't take on combat flight missions, Wu Wenhan had no problem flying a civilian helicopter. He had excellent skills and quickly got a position as a helicopter pilot in a civilian aviation company. Later, he was sent to green cloud Island, which was now Peach Blossom Island, to work.

To be honest, Wu Wenhan really wanted to keep this job. Although this small island in the South Pacific was far away from the mainland and his family, the pay was high! He was sent abroad by the navigation company, and his salary was still received from the navigation company, but the Liu family gave him quite a generous subsidy, which was much higher than the usual subsidy for being sent abroad. Moreover, on this Island, there were not many flight missions, and the work was very easy.

Wu Wenhan couldn't wait to fly more, because every time the helicopter took off, he could get another flight allowance, which was also given by the Liu family.

Unfortunately, the good days didn't last long. This green cloud Island changed hands just like that, and it was even renamed as Peach Blossom Island. And the owner of Peach Blossom Island was this young man who was ten years younger than him.

Wu Wenhan's field work was done by the Liu family contacting the airline company he worked for and paying the cost of renting a pilot to the airline company. So, in theory, if the Liu family withdrew from Paradise Island, he would also have to withdraw.

However, the Liu family had continued to pay for a period of time, allowing him to stay and clean up the mess.

In fact, if Xia ruofei wanted to continue to hire him, it was very simple. He just had to sign a new contract with the navigation company.

Therefore, whether Wu Wenhan could continue to get a high salary or not, it was all up to Xia ruofei.

Hence, from the moment Xia ruofei boarded the plane today, Wu Wenhan had been very careful. He was afraid that Xia ruofei would be unhappy if he did not provide good service.

However, Xia ruofei's performance confused Wu Wenhan.

Xia ruofei's expression had been serious since they boarded the plane. Other than giving him directions, he did not say anything else.

Xia ruofei's instructions came through Wu Wenhan's earphones from time to time.

“Turn 5 degrees to the left ... Pull up a little ... Hover ... Lower the altitude ... Fly towards the southeast ... Hover ...”

Wu Wenhan did not dare to relax. He executed Xia ruofei’s instructions meticulously and flew the helicopter skillfully.

From the corner of his eye, he could see Xia ruofei scribbling and drawing on a piece of paper. He did not dare to ask more, nor did he dare to peek at what Xia ruofei was writing or drawing.

The flight lasted for more than an hour. The entire time, they were in the sky above Paradise Island. The furthest they flew was only about three nautical miles perpendicular to the airport runway.

Although Xia ruofei’s instructions were not complicated, Wu Wenhan was walking on thin ice. He even guessed that Xia ruofei was deliberately testing his flying ability because Xia ruofei’s instructions were traceless. She often told him to change the route without warning. If it were not for his excellent flying skills, he might not have been able to react in time.

Finally, Wu Wenhan heard Xia ruofei’s calm voice from his earphones.””Alright, let’s return!”

Wu Wenhan was relieved and quickly flew the Super Jaguar to the helicopter parking spot on the roof of the building.

The Super Jaguar landed steadily on the helicopter with the “H” logo.

After the car was shut down, the sound of the propeller quickly became lower.

Xia ruofei took off his headphones and turned to Wu Wenhan.””You’ve worked hard, you’ve flown well!”

Wu Wenhan was excited and quickly said,””You’re too kind, boss!”

“Fly well. I’ll need an excellent pilot like you in the future!” Xia ruofei said with a smile.

“Thank you, boss! I will definitely work hard!” Wu Wenhan said excitedly.

Xia ruofei nodded and stepped out of the cockpit. He walked straight to the stairs after he got off the plane.

Wu Wenhan was still sitting in the cockpit. He raised his arms and shouted,””Yay! That’s great!”

Xia ruofei did not know that his casual words would make Wu Wenhan so excited. In fact, whether Wu Wenhan could continue to stay would depend on his performance in the “interview.”

In the future, Xia ruofei would have to personally screen all the people who would work on Peach Blossom Island.

There was no way Peach Blossom Island could be completely isolated from the outside world like those cultivation sects. After all, the airport, docks, planes, yachts ... All of them needed ordinary people to maintain them.

Since it was inevitable, Xia ruofei had to go through them one by one. At least, he couldn't leave behind those with ulterior motives. Otherwise, if the secret of the Paradise Island were to be leaked, the consequences would be extremely severe.

Xia ruofei no longer had to carefully hide his intentions on this flight, so he could see it the clearest this time.

Chapter 2679 Full of confidence (2)

When he was on the plane, he had been writing down his inspiration on a piece of paper while reading. At the same time, he had drawn a few rough sketches. It could be said that the overall layout of the array was becoming clearer and clearer in his mind, and some details were gradually being perfected.

Even though he did not sleep the entire night, Xia ruofei was in a state of excitement and did not feel tired at all.

He got off the helicopter on the roof, but he did not immediately return to the warehouse at the airport. Instead, he took the elevator down to the floor where Liu Qingfeng's office was located.

"Hello, President Xia!" A burly Man in Black standing by the elevator saw Xia ruofei and quickly bowed to greet him.

"Is President Liu in his office?" Xia ruofei nodded.

"Reporting to President Xia, President Liu just went to the dock." The Man in Black said, "there's a group of people leaving today. According to the usual practice, boss Liu will go to the dock to see them off."

Xia ruofei knew that these people had been sent back to the country in advance because of his words.

It wasn't easy for these ordinary employees to return to their country. They would first take a boat to Evatz Island and then fly back from there. There were no direct flights to China in Ponatu, and the airport on Evarts Island only operated short-distance small planes, so they still had two transfers on their way back to China. It could be said to be a very difficult journey.

"I know. When he comes back, ask him to come to my room to find me!" Xia ruofei said indifferently.

"Yes! President Xia!" The black-robed man quickly replied.

Xia ruofei turned around and walked back to the elevator. When he reached the floor where his suite was, he walked into his room.

He went straight to the small study next to the bedroom, took out a drawing, ruler, and pencil from the space, and then began to draw on the table.

His spiritual power cultivation of the spirit gathering realm allowed his memory to be far better than that of an ordinary person. This time, he had no scruples when he took the plane to survey the area, so he could see very carefully. Therefore, he quickly outlined the terrain and environment of Peach Source Island and the surrounding sea areas without thinking.

Then, Xia ruofei started to make notes on the blueprint.

The positions that needed to be modified, the positions and depths of the nine Jade pillars, and how to set up the core array disc ... Xia ruofei already had a relatively clear answer to these things on the plane. He marked them all on the blueprint.

Of course, the symbols he used were very special. Without his explanation, even if someone got the drawing, they would not know what these scribbled – like patterns meant.

Xia ruofei was so engrossed in the drawing that he had completely forgotten the passage of time.

It was not until a knock on the door that he raised his head and stretched his slightly sore neck.

Xia ruofei's spiritual power swept in the direction of the door, and he knew that Liu Qingfeng had come.

Thus, he stood up and with a slight thought, the drawings and tools on the desk disappeared into thin air and were put into the spirit map space.

Xia ruofei walked to the door and opened it.

"President Xia!" Liu Qingfeng respectfully bowed slightly and asked, "you're looking for me?"

"Come in and talk!" Xia ruofei said indifferently.

Liu Qingfeng followed Xia ruofei into the room and sat down on the sofa in the living room.

"Have you sent all these people away?" Xia ruofei asked casually.

"Yes, they've already left the Peach Blossom Island by boat!" Liu Qingfeng said.

Xia ruofei nodded and said, "there are a few things that I need you to confirm."

"Please give me your orders!" Liu Qingfeng quickly said.

"First, find me an off – Road vehicle. I don't need a driver. I want to take a good look around the island for the next two days." Xia ruofei said.

Although he had basically figured out the situation of the entire natural array in the helicopter, there were still some details involved, especially several key parts of the array, which he still needed to go to the scene to confirm.

"No problem!" Liu Qingfeng said without hesitation.

There were a few cars and off – road vehicles on the island, which were usually used by the project department. This kind of thing was not difficult for Liu Qingfeng.

Xia ruofei continued. "Second, send benilatti to the airport warehouse later. From today onwards, my people will personally look after him!"

Liu Qingfeng was slightly stunned, and couldn't help but say, "President Xia, will there be any safety issues? Why don't I ... Send a few people ..."

Liu Qingfeng was very clear that Xia ruofei's so – called "people" were actually only the White – bearded old man who escorted the goods yesterday. Using an old man to look after the strong benilatti? What if there were any safety issues?

From Liu Qingfeng's point of view, bainilatti was a hot potato. He couldn't wait to get rid of it. However, if anything happened on Xia ruofei's side, it would be difficult for him to escape responsibility. Instead of that, it would be better to make things more troublesome and send more people to watch over this side.

Xia ruofei waved his hand and said, "you don't have to worry about that. I'll have more people to replace them." Moreover ... This place was surrounded by the sea, where could he run to? As long as his brain is still working, he would not do such a stupid thing!"

Since Xia ruofei had already said this, Liu Qingfeng was naturally happy to save the trouble. He immediately said, "I understand! I'll arrange for someone to send bainilatti over in a while!"

Xia ruofei nodded and said, "third, set up a temporary restricted area around the airport warehouse. Put up the cordon. Arrange for people to stand guard outside the cordon. All the staff and construction workers are not allowed to approach." This must be strictly enforced. If anything goes wrong, I'll hold you responsible!"

"Understood!" Liu Qingfeng said with a straight face. Don't worry, President Xia! I'll personally go and keep an eye on it!"

Liu Qingfeng was still counting on Xia ruofei to put in a few good words for him in front of old master Liu! Who would dare to slack off at Xia ruofei's request? Moreover, Xia ruofei's visit this time had stopped some of the clean – up projects, and more than half of the personnel had been sent back. It could be said that the engineering department did not have much work left. Liu Qingfeng naturally had to put his main energy into the things arranged by Xia ruofei.

Xia ruofei patted Liu Qingfeng's shoulder and said, "There may be more restricted areas in a few days, but I will also arrange some people to come over. At that time, you will be able to relax a little."

"President Xia, it's fine!" Liu Qingfeng grinned and said, "this little bit of work is nothing!"

"One last thing," Xia ruofei said, "the original personnel will continue to be reduced! All the projects were stopped, and only the necessary personnel to maintain the normal operation of the Peach Blossom Island were kept. Go and make another plan immediately. Don't let anyone who can leave stay! In addition, I want you to make a list of the people who have been decided to stay for the work. I want to meet them one by one. "

"Yes!" Liu Qingfeng said. I'll get on it immediately!"

Xia ruofei nodded and said, "okay, you can leave now." After you've arranged the car, just leave the keys at the front desk on the first floor. I'll go and get it myself when I go downstairs. "

"Alright! President Xia, I'll get back to work then!" Liu Qingfeng said.

After Liu Qingfeng took his leave, Xia ruofei returned to the small study room and took out the drawings and tools from the spirit map space again. He continued to work on the unfinished part.

Xia ruofei only finished the blueprint by noon. He only needed to go to the place to confirm the details.

Xia ruofei also heaved a long sigh of relief. After today's further investigation, he found that it was easier to activate the Taixu xuanqing formation than he had expected. In addition, Li Yifu had prepared sufficient materials, so he was naturally more confident.

Xia ruofei kept the drawing and left the room to take the elevator down.

Although Xia ruofei said that he only needed to leave the car keys at the front desk on the first floor, how could Liu Qingfeng dare to neglect it? After he had settled Xia ruofei's matters, he personally went to pick up the best land Rover in the project department. He drove it out and cleaned it inside and out. Then, he parked the car downstairs and waited with the car keys.

"President Xia, the car is ready! It's at the door! "Here's the car key. Here you are ..." Liu Qingfeng quickly went up to Xia ruofei when he saw him walking out of the elevator.

"Alright, thank you for your hard work!" Xia ruofei took the car keys. After taking two steps, he turned back and said, "Oh right, can you go to the staff cafeteria and pack two sets of lunch for me? I'll take it with me."

...

Chapter 2680 Trekking through the peach source Island (1)

Liu Qingfeng was stunned for a moment, and then remembered that this person had not had lunch yet. He quickly said, "President Xia, I'll get the chef to make it right away ..."

"No need!" Xia ruofei waved his hand and said, "fight whatever's in the cafeteria. I'll wait here. The sooner, the better!"

"This ... Alright!" Liu Qingfeng said after hesitating for a moment.

After he finished speaking, Liu Qingfeng ran all the way to the cafeteria. He could have ordered his men to do this, but now he was worried that he would not have the chance to perform well in front of Xia ruofei! How could he not seize the opportunity?

Xia ruofei took the car keys and quickly found the clean land Rover in front of the project department building.

He opened the car door and sat inside. After a while, he saw Liu Qingfeng running over with two plastic bags. Liu Qingfeng came to the front of the car, and said breathlessly, "President Xia, the food is quite ordinary, you ..."

"This will do. I'm not particular about food." Xia ruofei took the plastic bag and placed it under the passenger seat. He continued, "make arrangements for the next few days. Get someone to send the three meals a day to the airport warehouse. There's no need to send them in, just set up a spot outside the cordon and put the things there."

"Alright!" Liu Qingfeng quickly responded.

"Alright, you can go and do your work!" Xia ruofei said, "carry out the few things that I mentioned!"

"Yes!" Liu Qingfeng replied.

Xia ruofei started the car and drove towards the airport.

Peach Blossom Island wasn't big to begin with. It didn't take long for Xia ruofei to arrive at the periphery of the airport. He could see the airport's warehouses standing in the distance.

Xia ruofei realized that the warehouse had been cordoned off. The cordoned off area was about 50 meters away from the warehouse. Around the cordoned off area, guards in black could be seen patrolling back and forth. Especially on the road leading to the warehouse, there were more than ten burly Men in Black standing guard.

Xia ruofei secretly nodded. It seemed that Liu Qingfeng was very fast in carrying out his instructions, and he carried it out very well.

When the car reached the cordon, a Man in Black immediately gestured for Xia ruofei to stop the car. Xia ruofei stopped the car and stuck his head out of the window to lift his chin. When the Man in Black saw that it was Xia ruofei, he quickly bowed slightly and jogged over to lift the temporary roadblock.

Xia ruofei honked the horn and drove straight to the entrance of the warehouse.

Li Yifu heard the sound of the car engine outside and immediately went to the warehouse with a vigilant look. He happened to see Xia ruofei getting out of the car with two lunch boxes. Xia ruofei laughed and said, "My adopted husband! It's time to eat!"

Li Yifu said fearfully, "senior granduncle!" You're personally getting food for your disciple, this ... How can you be worthy of this?"

"Martial granduncle doesn't need to eat?" Xia ruofei said nonchalantly, "what's the big deal about bringing a meal along? Hurry up and eat! I still have something for you to do!"

"Yes!" Li Yifu quickly took the lunchbox from Xia ruofei and followed him into the warehouse.

"There! One for each person!" Xia ruofei took a lunchbox from Li Yifu and said, "hurry up and eat. I still have things to do after I finish eating!"

Xia ruofei opened the plastic bag and took out the lunchbox.

Inside each plastic bag were two disposable lunch boxes and a disposable soup bowl. The food was placed separately, and there was also a bowl of soup.

Xia ruofei opened it and smiled, "Not bad! There's even chicken legs ... Foster husband, hurry up and eat!"

"Yes! Senior granduncle!" Li Yifu replied.

Although he agreed, he still obediently waited for Xia ruofei to start eating before moving his chopsticks in front of the elders. It was the rule of the older generation to wait for the elders to move their chopsticks first.

Xia ruofei gobbled down his food and soon finished more than half of the food. However, he noticed that Li Yifu was eating a little slowly, so he also slowed down consciously. He knew that once he finished eating, Li Yifu would definitely put down his chopsticks immediately no matter how much he had eaten.

After the two of them finished eating, Li Yifu immediately arranged all the lunch boxes and disposable chopsticks, put them into plastic bags, and tied them up tightly.

Xia ruofei brought Li Yifu to the entrance of the warehouse and said, ""Foster husband, I've already given the orders. Now, the warehouse is surrounded by a cordon. There's also a sentry post set up on the road. In addition, I've also arranged for all unrelated personnel to leave the island these two days, leaving only the minimum number of personnel to maintain the operation of the facility. This way, there will be no idle people on the island, and the risk of the warehouse being leaked will be reduced to the minimum. "

"Understood, martial granduncle!" Li Yifu said.

After Xia ruofei had explained the situation to Li Yifu, he smiled and said, ""Foster husband, I'm not just handing over the security work for the next few days to you. For a cultivator, this is really a waste of talent."

"Please give me your orders, grand uncle – Master!" Li Yifu said without hesitation.

"Mm! The most important thing right now is to transfer a group of people here, a group of people that we can completely trust. " Xia ruofei said,"the activation of the array will involve a lot of modification works. We need people who can control the construction equipment and it's best to change the security personnel to people we can trust completely. I had originally started recruiting, but water far away can't catch up with a near thirst. I need you to help me find some people for the time being. In addition, if you can recruit reliable people, it's best to replace them with our own people. "
