### Chapter 2681 Trekking through the peach source Island (2)

Li Yifu pondered for a moment and said, "Martial granduncle, I can gather some people from the Hong sect. The Hong sect has spread all over the world, and many people have been close to me these years. But ... Martial granduncle, this involves the world of cultivation after all. Besides, there's no knowing what's in a person's heart, and I can't be completely sure ..."

"You only need to choose those you think are reliable." Xia ruofei said, "I will do a second screening."

Xia ruofei smiled and said, "Speaking of which ... You're also a practitioner. When we have some free time, I can teach you some spiritual force techniques. It's still very easy to use them to identify ordinary people. However, this is based on the fact that your mental power cultivation is not bad, so you must consciously train your mental power when you cultivate. You can't neglect both true Qi and mental power."

"This disciple will follow senior granduncle's teachings!" Li Yifu quickly bowed and said.

"For now, this is the main task I'm giving you." Xia ruofei asked, "when is the earliest you can finish?"

Li Yifu pondered for a moment and said, "My initial plan is to gather all the members of the Hong sect from all over the world, then let them meet up in Australia. Then, we'll charter a plane to come to Paradise Island in one go, so...It'll take two to three days at the earliest."

"Sure!" Xia ruofei said, "it just so happens that I need to confirm the details and draw a detailed blueprint. There are some other tasks that can be completed in advance. When your people come, we can link them together."

Xia ruofei looked into the distance and said, "When the people you've recruited are in place, it'll be about time for me to leave the Peach Blossom Island. I've been gone for too long, and the star Seizer sect will probably get impatiently ... Before I leave, I'll give you a detailed construction plan. As long as you follow my plan and complete the transformation step by step, there won't be any problems!"

"Alright!" Li Yifu said, "senior granduncle, I will definitely not fail my mission!"

"That's good! I still have things to do, so I'll be leaving first!" Xia ruofei said, "you can take a break in the afternoon. The security around the perimeter is pretty good. You don't have to be so tense. After all, you're not young anymore. You won't be able to hold on for long."

"Yes, thank you for your concern, senior granduncle!" Li Yifu said respectfully, "take care!"

Xia ruofei nodded. He got into the land Rover and drove away from the warehouse.

For the entire afternoon, Xia ruofei drove around Peach Blossom Island, surveying the area.

Sometimes, when there were no roads, he would get out of the car and walk. After arriving at a predetermined location, he would repeatedly compare the direction and terrain, and then make various marks on the map.

His footprints covered almost the entire Island, including the cliffs on the west side.

The west side of the island was filled with craggy, strange rocks, and below the cliffs were stormy waves. This side of the sea was also covered with reefs, including some hidden reefs that did not emerge from the water. Therefore, this side could be said to be a natural barrier, and ships could not approach it.

Xia ruofei even went down to the top of the cliff. There was a key point there that needed to be used to place one of the Jade pillars.

After Xia ruofei carefully compared the direction, he made slight adjustments to the points on his map. At the same time, he used his essential Qi to blast a bowl – sized hole in the cliff and stuck a branch into the rock wall to make a mark.

In fact, Xia ruofei had already marked some important points.

Xia ruofei also met the mercenaries stationed on the southern side of the island. Back then, the Liu family had set aside an area for the International mercenaries. They were in charge of the island's defense and would not appear anywhere else on the island.

After the island changed owners, the Liu family had not ended the contract with the mercenary organization for the time being. They had also specifically instructed the person in charge of the mercenary organization to restrain their soldiers during this time and not cross the line.

Xia ruofei was sure that one of the key points was right next to the mercenary group's base. So, even though he did not want to deal with these mercenaries, he still had to come.

Fortunately, Xia ruofei had met the leader of this international mercenary group, Jonathan. When Xia ruofei came to take over Peach Blossom Island, Liu Kuan had asked him to meet him. Hence, after Xia ruofei told them his name, the mercenaries quickly made way for him. Jonathan even came out to greet Xia ruofei.

After Xia ruofei finished inspecting the location, he was also thinking about how to start construction.

The amount of work required at this point was not too large, and it did not even require the assistance of large machinery.

Xia ruofei thought for a while and decided to find a night to do the work himself.

Only if he took action himself would he be able to complete the work without alerting the mercenaries.

To Xia ruofei, these mercenaries were an unstable factor. If they knew that he was working on a project next to their base, there was no guarantee that they would not dig it up. So the best way was to do it quietly.

"I have to get these mercenaries to leave as soon as possible," Xia ruofei decided.

In fact, although the South Pacific Ocean was not very peaceful, there were not many threats such as Island attacks. These mercenaries lived a relatively leisurely life on Paradise Island. As long as the array was successfully activated, the Paradise Island would definitely be safe. At that time, he could let these mercenaries go.

When Xia ruofei was done with his investigation, the sun had finally set after struggling for a while on the surface of the sea. Night had fallen on Paradise Island.

Xia ruofei drove back to the airport warehouse in the night.

As soon as he reached the door, Li Yifu stood up and said respectfully, "Martial granduncle, you're back! You've worked hard ..."

Xia ruofei nodded and walked in.

"Dinner is ready, grand uncle – Master," said Li Yifu. "Would you like to have dinner now?"

Xia ruofei smiled and asked, "you haven't eaten either, have you?" You don't have to wait for me in the future. When it's time to eat, you should eat. When I'm busy, I don't have a good time. I might not even eat. You're already so old, you can't suffer with me!"

"This disciple won't be hungry either, grand uncle – Master," said Li Yifu. Oh right, the food was sent over from the project department's cafeteria. They only sent it to the checkpoint at the intersection, and I went to get it. In addition to dinner, I also asked them to get an Electric Stew pot. Tonight's dinner is kept warm there!"

"Then let's eat together! The sky is already dark!" Xia ruofei took off his coat and placed it on the chair as he said, "I'm probably going to stay up very late again tonight. Let's eat something first! Only when you're full will you have the strength to work!"

Li Yifu revealed a slightly ashamed expression and said, "Senior granduncle, it's all because this disciple is incompetent and can't share senior granduncle's burden. Otherwise, you wouldn't have to be so tired!"

Xia ruofei laughed, "why do you always drag yourself into everything?" Hurry up and eat!"

"Yes! Senior granduncle, please take a seat! I'll go get the food!" Li Yifu said.

When they were eating, Xia ruofei realized that the dinner was obviously more exquisite than the lunch. Without thinking, he knew that this must be Liu Qingfeng's special special meal.

Xia ruofei did not plan to return to the project building to rest tonight. He found two empty wooden boxes and stacked them together as a table. Then, he opened the drawings that he had taken out from the medium in advance and began to work at the table.

After half a day of observation, Xia ruofei now had a complete and accurate grasp of the entire formation. He was finally confident.

If Xia ruofei did not rest, Li Yifu would not go to sleep either. Seeing that he could not help Xia ruofei, he sat quietly at the entrance of the warehouse. While he was cultivating, he was also on guard.

At one o'clock in the morning, Xia ruofei's work finally came to an end. He threw the drawing pencil on the "table" and let out a long breath. He muttered to himself, "This is my greatest asset ... It should be perfect! There shouldn't be any problems, and I didn't miss anything ..."

Chapter 2682 \_1

Xia ruofei was also very satisfied with the results of these two days.

The level of the Taixu xuanqing formation was very high. Originally, with Xia ruofei's current cultivation in the array Dao, he could not set it up. However, the special terrain of the Peach Blossom Island had formed a natural formation. All he needed to do was to take advantage of the situation and activate the formation successfully. Naturally, the difficulty was reduced by a lot.

Even so, it still took a lot of Xia ruofei's energy.

The arrangement of the formation had to be in accordance with the terrain. The natural mountains, rivers, cliffs, and precipices of the Paradise Island were all part of the formation. Even the magnetic field of the island was an important factor in the formation.

There were too many factors to consider for a formation of this level.

Xia ruofei had racked his brains. During this process, he had gained a lot of insight into the array Dao.

He looked at the drawing placed on the wooden box, his heart filled with a sense of achievement.

If Li Yifu wasn't here, he would have taken out a bottle of wine from his space to celebrate.

Even though it wasn't time to celebrate yet, he had undoubtedly completed the most difficult part of the work.

Xia ruofei rested for a while and sat down again. He took out a new piece of paper and started to write a construction plan.

With the blueprint of the core formation, Xia ruofei had a clear idea of how to construct each position.

The process of formulating the plan was very smooth. He almost didn't stop, writing and drawing without a moment's rest.

Xia ruofei only stretched and stood up when the sun started to rise.

A stack of detailed construction plans had appeared on the "table".

Xia ruofei, who had stayed up for two consecutive nights, still looked very energetic. The excitement of getting closer to success made him temporarily forget about his mental and physical fatigue. For someone at refined Qi level 9, it was almost negligible.

Xia ruofei tidied up the drawings and construction plan, then looked at benilatti, who was obediently staying in the warehouse, and asked, "Did Wang Boshan contact you?"

Liu Qingfeng had sent people to bring benilatti here yesterday. However, the situation was different from what Liu Qingfeng was worried about. Xia ruofei did not need to spare any energy to look after him. It was no exaggeration to say that benilatti was even more loyal than Li Yifu.

"Reporting to Mr. Xia!" Benilatti quickly stood up and said respectfully, "I haven't received a call yet."

As Li Yifu was here, Xia ruofei had instructed benilatti not to call him 'master' but to address him as Mr. Xia.

Xia ruofei nodded. He had been keeping in touch with the people in the capital. Wu Qiang reported that Wang Boshan went to the courtyard in liuhai Lane again. Seeing that Xia ruofei had not returned home, he left in disappointment.

As for the three mountains, Xia ruofei had also asked Lei Hu to keep an eye on them. Once Wang Boshan and the old man in the long robe, who was suspected to be Zheng Yongshou, appeared near the company, Lei Hu would report to him immediately.

From the current situation, it seemed that the two men from the star Seizer sect were still in the capital, and after being refused the door twice, they hadn't made any drastic moves.

However, Xia ruofei was not sure how long their patience would last.

In addition, Xia ruofei was most concerned about how many people knew about the Peach Blossom Island. It was reasonable to say that a natural formation like this was comparable to a heavenly abode, or even much stronger than an ordinary sect's base. Even if the star Seizer sect had obtained this information, they should have strictly sealed off the information and controlled the scope of the information. Otherwise, if other sects found out about it, there would definitely be a bloody battle.

The last thing Xia ruofei wanted to see was the news that the Peach Blossom Island was protected by a natural formation. If that happened, trouble would come knocking on his door.

Moreover, with his current strength, whether he could protect the Paradise Island was still unknown.

After all, based on the information he had, there were at least golden core cultivators in the cultivation world on earth. For example, Luo Qingfeng, the sect leader of the star Seizer sect, who had just broken through to the Golden core realm not long ago, was not considered to be one of the top cultivators in the cultivation world.

Xia ruofei gathered his thoughts and said, "If Wang Boshan contacts you, you must deal with it calmly as I taught you. Don't let it slip."

"Understood!" Benilatti said, "don't worry, Mr. Xia! I'll be careful!"

"I repeat, if Wang Boshan asks you if you have seen me on the Peach Blossom Island these few days, what would you say?" Xia ruofei asked indifferently.

"I must deny it!" Benilatti said, "I also want to take the initiative to tell Wang Boshan that apart from a portion of the personnel who returned to Paradise Island early, the rest of the people are still carrying out the completion of the project according to the established plan. There are no abnormalities."

Xia ruofei nodded and continued to ask, "What if Wang Boshan asked you to continue providing more information about Paradise Island?"

Benilatti said without hesitation, "Agree to his request, and raise the price of the information by 20%!"

Xia ruofei then asked a few more questions that Wang Boshan might have raised. Bainilatti answered them smoothly.

These were all things that Xia ruofei had taught bainilatti in advance. He was indeed very firm in carrying out Xia ruofei's orders. He had memorized the "standard answers" of these questions very well.

## Chapter 2683 \_2

After Li Yifu heard this, he couldn't help but ask, ""Grand uncle – Master, if you ask him to increase the price of the information at this time, will Wang Boshan give up on this line? We'll have to rely on this chess piece to set up a trap for Wang Boshan in the future. "

Xia ruofei smiled and said, "Wang Boshan will only believe it even more!" Money was nothing to them. As long as the information was real and useful, they would agree to double the price without hesitation. "I let bynilati answer this way to better fit his character. After all, he's a greedy person. Only then will Wang Boshan believe the information provided by bynilati without a doubt."

"Yes! This disciple understands!" Li Yifu said.

He saw that Xia ruofei had thought it through, so he did not say anything more.

At first, Li Yifu was worried that Xia ruofei was still young and inexperienced, so he would make mistakes when planning. Now, it seemed that his worry was unnecessary. Xia ruofei seemed to have a plan in mind.

Xia ruofei turned to look at bainilatti and said, ""Very good! It seems that you have really taken my words to heart! These two days, you have to constantly review and consolidate. No matter what questions Wang Boshan asks, you must be able to deal with them calmly. Also, once Wang Boshan really contacts you, you must not be nervous. Otherwise, no matter how strong it is usually, it'll be a mess when it's actually used. That'll be a big problem!"

"Master, don't worry! I'm just being myself, there won't be any problems!" Benilatti smiled and said, "when dealing with Wang Boshan and the others, I have always been the one taking the initiative. I was the one who suggested increasing the price for the information a few times and they agreed to it in the end. I don't think there will be any accidents this time."

Xia ruofei thought to himself, "this person really loves money as much as his life!" In front of a cultivator, doing this was simply courting death! Fortunately, Wang Boshan and the rest really needed information on bainilatti, and there was no one who could replace bainilatti for the time being. Otherwise, this kid would have been killed by Wang Boshan and the rest.

Xia ruofei nodded and said, "it's good that you're not nervous!" Alright, you can go!"

"Yes, Mr. Xia!" Bainilatti said respectfully.

Then, he obediently ran to the corner of the warehouse and sat down. This was the resting area that Xia ruofei had specially designated for him. When he had nothing to do during the day, he could only stay in that corner to avoid affecting the preparation work here.

Li Yifu looked at bainilatti and asked in a low voice, ""Martial granduncle, is this person really reliable? After all, he had sold out information about you ..."

Xia ruofei smiled and waved his hand. "Foster husband, don't worry about this. I can guarantee that he's 100% reliable!" You should have more confidence in me!"

"Senior granduncle, don't misunderstand. I'm just worried ... Since you've said so, this disciple naturally believes you!" Li Yifu quickly said.

Xia ruofei laughed and said, "anyway, you don't have to worry about his loyalty. But you still can't let him leave your sight. Even if you want to leave the warehouse, you have to take him with you. This is not to guard against him, but I'm worried that if Wang Boshan really contacts him, he will be a little guilty and nervous. If anything happens, you have to make up for it in time, understand?"

"Yes! Senior granduncle!" Li Yifu quickly replied, then said, "they've already sent breakfast over! Would you like to rest for a while or have a meal now?"

Li Yifu also saw that Xia ruofei had stayed up for two nights, so he wanted to let Xia ruofei sleep for a while.

Xia ruofei said, "it's already dawn, why should I sleep?" Besides, there's still a pile of things waiting for me! How can I sleep? Don't worry! I'm already at refined Qi level 9, what's the big deal with staying up a few nights?"

"Senior granduncle, you've worked hard!" Li Yifu said.

"Let's go and eat something!" Xia ruofei said.

Li Yifu laid out the breakfast, and Xia ruofei called benilatti over for breakfast. However, how could benilatti dare to sit at the same table as the host? He came over and took two buns and a youtiao, then ran to the corner of the warehouse where his "exclusive area" was.

After Xia ruofei and Li Yifu finished their breakfast, Li Yifu cleaned up and said, "Martial granduncle, last night, I contacted a group of brothers from the Hong sect. Now, there are about 50 to 60 people who have started to gather in Australia. I asked Yi Tian to prepare a passenger charter flight for me. They will arrive at Paradise Island tonight at the earliest."

"He's fast!" Xia ruofei said happily, "adopted husband, you've done well!"

"Many thanks for the praise, senior granduncle!" Li Yifu said, "the first group is mainly the brothers from the Australian Hong sect. Yitian also helped me a lot in Australia. Some of the members in this group were also selected by him. Oh right, he said that you should know the person leading the group. It's his nephew, ah Hu!"

"It's Tang Hu!" Xia ruofei laughed and said, "I've dealt with him a few times! This kid's skills are not bad, and he's also very loyal, so it's suitable for him to lead the team. "

"You can rest assured about the people Yi Tian has arranged." Li Yifu said, "great uncle – Master, the first batch of people has about 20 full – time security personnel. The other 30 people are experienced in construction, and more than 10 of them can operate all kinds of construction machinery. With this group of people, our modification project can start first!"

"Very good!" Xia ruofei said, "I've just finished the layout. I'll tell you the construction drawings later!"

"Yes! Senior granduncle!" Li Yifu said, "I also recruited a group from the United States, about 50 people. They might arrive a day later."

"Very good!" Xia ruofei said, "after these people arrive, I'll go through a screening. If they don't meet the requirements, it may not be that they are not loyal, but they may not meet our requirements in other aspects. In short, after screening, I will not keep any of them. "

“Alright! Don’t worry, senior granduncle! They won’t have any complaints, whether they stay or leave!” Li Yifu said.

He was the elder leader of the Hong sect, and Tang Yitian had a very high position in the Hong sect, especially in the Australian Hong sect. If they came out personally, the loyalty of these brothers would not be a problem. Even if they didn’t meet the requirements, they wouldn’t have any complaints if they were asked to go back. Instead, they might blame themselves.

Xia ruofei then put the construction plan that he had spent an entire night drafting on the wooden box table and started to explain it to Li Yifu one by one.

As for the formation, Xia ruofei did not take it out.

With Li Yifu’s array formation skills, even if he took it out, he would not be able to understand it, especially some of the symbols on it that were created by Xia ruofei. If he did not explain, Li Yifu would not be able to understand.

Li Yifu listened very carefully. If there was anything he didn’t understand, he would immediately ask Yingluo. He knew that he was responsible for the follow – up construction. If he pretended to understand at this time, it would be a great sin if there were any problems during the construction.

Xia ruofei spent about an hour explaining the construction plan to Li Yifu in detail.

In fact, the difficulty of construction was not high, and it was not very complicated. The real difficulty in activating the array was in the array board, Jade pillars, and the confirmation of those positions. Except for the point on the cliff wall, the other places were not difficult to construct.

Xia ruofei did not plan to let Li Yifu’s construction team complete the reconstruction of the entire building at the point on the cliff and the point next to the mercenary group’s station. The workload might be a little heavy and they would have to rely on construction machinery. However, if it was just two points, Xia ruofei could easily complete them himself.

After explaining the construction plan, Xia ruofei went to the engineering department building without stopping to ask Liu Qingfeng to draw up the list of the second batch of people to return to China – the small number of people who were finally decided to stay would be screened by Xia ruofei today.

Chapter 2684 A thorough investigation (1)

Xia ruofei took the elevator directly from the underground parking lot of the project building to the floor where Liu Qingfeng’s office was located.

“President Xia!” Liu Qingfeng was waiting at the door. When he saw Xia ruofei walking over from afar, he immediately came up to him and said, “everything is ready! The second batch of people will leave by boat today!”

Xia ruofei nodded. “I’m going to go through everyone who’s staying behind today. I’ll make sure that no one is left out!”

“Yes! Most of them are gathered in the conference room downstairs.” Liu Qingfeng replied, “there are only a few key positions that must be guarded. I have arranged for people in the same positions to be

interviewed by you first. After the interview, if there is no problem, they will go back and replace the remaining people!"

"Very good!" Xia ruofei nodded and said, "Qingfeng, you've worked hard these few days! When this is over, I'll have a good talk with elder Liu about your performance here."

Liu Qingfeng suddenly revealed a trace of joy and said, "Thank you, director Xia! Thank you, President Xia!"

He had been working so hard these days just so that Xia ruofei could put in a few good words for him.

Perhaps in order to show more enthusiasm, Liu Qingfeng hesitated and said, "President Xia, I've thought of a question ..."

"Oh? Tell me about it!" Xia ruofei said in an encouraging tone, "I might miss something if I think about it alone."

"Alright!" Liu Qingfeng said, "I've been observing the measures you've taken in the past two days. The main purpose should be to keep it a secret. But if someone in this group is not suitable and is sent back to the country first, then The Secret of You coming to Paradise Island will be exposed, right? Is it ... When the time comes, we can control these people first and send them back when you're done with your business?"

Xia ruofei was very low – Key this time. Most of the people he came into contact with were the middle management of the original project and a few guards. He did not have any direct contact with the other staff and workers. Hence, those who had returned to the country first on the list did not know about Xia ruofei's arrival on Paradise Island.

Xia ruofei had screened most of the middle – Level managers who stayed. Only a few of them had revealed the news of the change of ownership to their families. Xia ruofei had already contacted the Liu family and temporarily controlled them after returning to the country. At least, they would not be able to contact the outside world for a while.

A few other guards who had come into contact with Xia ruofei were also on the list.

The only possible problem would be the group of people who had been decided to stay. After Xia ruofei's "interview", if any of them failed and were sent back, they would have already known that Xia ruofei was on Peach Blossom Island. It would be difficult to keep this a secret.

Liu Qingfeng also saw that all of Xia ruofei's actions these two days revolved around secrecy, so he felt that he might have found a loophole. After a few moments of hesitation, he decided to tell Xia ruofei.

Hearing this, Xia ruofei smiled and said, "The fact that you raised this question shows that you've put in a lot of effort. Not bad! Not bad!"

Liu Qingfeng was stunned. Then, he asked, "President Xia, then ... Do you think we should follow my suggestion? even if this batch of people doesn't pass the test, we shouldn't let them leave Peach Blossom Island for the time being?"

Xia ruofei smiled and waved his hand, "no problem!" Qingfeng, how did you inform them?"

“According to your instructions, they said that they were going to take the psychological test from the peach blossom company’s headquarters, but they didn’t mention your name ... But ... Didn’t they want to meet you face to face?” This ... This ... Doesn’t seem to make any sense ...”

Xia ruofei smiled and said, “you’ll know soon enough!” I’ll be borrowing your office for a while. ”

“Ah?” Liu Qingfeng was stunned for a moment before he reacted, “Oh! This way, please!”

Xia ruofei walked into Liu Qingfeng’s office, took off his backpack, and put it on the sofa in the reception area. Then, he said to Liu Qingfeng, “Wait for me outside for a few minutes.”

“Yes, President Xia!” Liu Qingfeng quickly nodded and replied, then left the office and locked the door for Xia ruofei.

He went to the corridor outside the door and waited. He was also wondering in his heart. This CEO Xia had been very mysterious when he came to Peach Garden Island this time. Most of the time, he would either stay in the sealed airport warehouse or wander around the island. Now, he was going to interview the remaining employees. It was obvious that he had to meet them face to face, but he asked him to be ambiguous when giving out the notice. He also specifically instructed him not to reveal his identity. Why was he going through so much trouble?

Liu Qingfeng didn’t wait long before he heard Xia ruofei’s voice from the office. “”Qingfeng, come in!”

“Yes!” Liu Qingfeng quickly pushed the door open and walked into the office.

As soon as he entered the door, Liu Qingfeng could not help but be stunned. There was an unfamiliar middle – aged man standing in front of him, and Xia ruofei was nowhere to be seen.

The middle – aged man’s skin was a little dark, and he had a little eye bags. He was wearing a white shirt and black trousers that were very common for white – collar workers in the company. He had a red striped tie on and was looking at him with a smile.

“You ... You are ...” Liu Qingfeng hesitantly asked.

Chapter 2685 A thorough investigation (2)

“Qingfeng, it’s only been a few minutes and you don’t recognize me anymore?” The middle – aged man asked with a smile.

Liu Qingfeng couldn’t help but tremble. This voice was too familiar. It was Xia ruofei’s voice! But ... The person was completely different. He was a different person. There was nothing that could be linked to Xia ruofei.

“You’re President Xia?” Liu Qingfeng asked hesitantly.

The middle – aged man was Xia ruofei after he had changed his appearance. He shrugged and said, “”Is there anyone else in this room?”

Liu Qingfeng was too familiar with this office. Except for the lounge in the next room, there was no other place that could hide people. He even couldn’t help but go to the lounge to check if Xia ruofei was hiding inside.

Of course, his rationality told him that it was impossible. Xia ruofei had no reason to play such a prank on him.

“President Xia ... This ... This ...” Liu Qingfeng said with a bitter smile, “you ... This is like magic!”

Xia ruofei folded the clothes he had just changed out of and put them into his backpack. Then, he said nonchalantly, “It’s just a little trick. I learned how to disguise myself when I was in the Army. I can cover up my original features by changing some facial details.”

Xia ruofei’s current method of changing his appearance was obviously not the disguise investigation method that he learned in the Army. However, the principle he spoke of was not different.

“It’s simply amazing!” Liu Qingfeng sighed, “why do I feel like my height has changed?”

Xia ruofei lifted his feet and said, “can’t you see that I’ve changed my shoes?” It’s easy to become taller, but it’s not so easy to become shorter. ”

Liu Qingfeng gauged and felt that Xia ruofei had indeed become taller.

Xia ruofei continued to smile and asked, “Do you think the employees can still recognize me now?”

“Impossible!” Liu Qingfeng said, “if you didn’t say anything, I wouldn’t have believed it. Those employees are not familiar with you, so they definitely can’t recognize your voice.”

“Your voice can also be changed.” Xia ruofei smiled and said, “for example ... Can you still hear it now?”

The second half of his sentence was spoken in a completely different tone. His voice was much lower, and this change was very natural, unlike some people who lowered their voices and could be heard at once.

Liu Qingfeng was simply dumbfounded, and could not help but sigh in admiration, “President Xia, I’m really convinced! I can guarantee that even those who are close to you wouldn’t be able to recognize you!”

“That’s good!” Xia ruofei smiled and said, “alright, take me to the interview room!”

“Yes! This way please, President Xia!” Liu Qingfeng said.

“From now on, call me Commissioner Xu!” Xia ruofei said, “I’m the HR manager from the headquarters.”

“I understand! Commissioner Xu!” Liu Qingfeng said, “please wait a moment. I’ll go out and make some arrangements!”

Liu Qingfeng thought of the guards in the corridor and decided to go out first to send them away, and then let Xia ruofei go out.

Xia ruofei looked at Liu Qingfeng’s back with satisfaction and nodded secretly.

The reason why he did this instead of directly disguising himself to come to the island was, on the one hand, that his own identity was more intimidating in front of Liu Qingfeng and the others. On the other hand, he also deliberately wanted to muddy the water and make the situation more confusing, so as to lay the foundation for his next plan.

It was conceivable that if Wang Boshan really used the Liu family's employees who were sent back to the country to get information, the information would definitely make them more confused. When Xia ruofei started to set up, it would be hard not to fall into the trap.

After Liu Qingfeng went out, he withdrew all the guards, then walked in and said to Xia ruofei, "Xia ... Commissioner Xu, you can leave now!"

"Alright!" Xia ruofei nodded.

Liu Qingfeng led Xia ruofei to a small meeting room on the same floor as his office. It had been set up as an interview venue. Xia ruofei walked to the meeting table and sat down, then said to Liu Qingfeng, "Go and call for help!"

"Alright!" Liu Qingfeng nodded and said, then turned around and left the small conference room.

Next, the remaining staff were called to this small conference room to be "interviewed" by Xia ruofei. Liu Qingfeng had been standing guard outside the whole time. He realized that everyone had only been in for about three to five minutes. He even asked a few people what the "interview" was about. The result was that the answers were varied, and everyone was asked different questions. In conclusion, Commissioner Xu was actually just having a casual conversation with everyone. He casually asked a few questions and asked everyone to leave. As for the results of the "interview," naturally, he had no idea.

Actually, if Xia ruofei wanted to identify a person, he only needed ten to twenty seconds. Moreover, he used his mental strength technique when he was hypnotizing. The person being hypnotized would not even realize that they had been hypnotized for a while.

Hence, Xia ruofei's "interview" question was actually just a formality.

Otherwise, it would be too strange for the interviewees to be in a daze after entering, and then the interview would be over.

There were about 50 people who wanted to stay, so Xia ruofei spent a full three hours to go through all of them.

To be honest, hypnotizing these ordinary people was not difficult for Xia ruofei at all. It did not consume much of his mental strength. However, he was very tired from being patient and asking all kinds of boring questions like an examiner.

Chapter 2686 A thorough investigation (3)

Finally, the last employee also finished his "interview" and left the small conference room. Liu Qingfeng quickly walked in and immediately turned around to close the door of the conference room.

"President Xia ... Uh ... Commissioner Xu, how did the interview go?" Liu Qingfeng asked.

These people were all carefully selected by him and were basically the minimum number needed to maintain the normal operation of the Peach Blossom Island. He didn't want any of them to fail, otherwise, wouldn't it be a problem with his vision?

Xia ruofei was arranging the forms on the table. These were the resumes of the employees who had been interviewed today.

He tidied up the stack of forms and put them aside. Then, he picked up two forms on the other side and said without looking up, "The overall situation is not bad. These two people ... Zeng Zilong and Jiang dandan ... Let them prepare and return to China with that group of people today!"

Liu Qingfeng's face revealed a strange look, and he quickly asked, "Xia ... Commissioner Xu, is there a problem with these two people? The two of them were usually quite honest! And their background is clean, I know them quite well ..."

Xia ruofei replied indifferently, "it's not a big problem, but it might not be suitable to work on Peach Blossom Island." Don't tell them anything. Tell them this isn't an elimination and that they should go back and arrange their work. "

"Alright ..." Liu Qingfeng said with a bitter smile.

In fact, it was not an elimination, but 50 people participated in the "interview" and only two people were sent back. If that was not elimination, what was it? The two young men would be greatly affected by this.

Xia ruofei raised his head and glanced at Liu Qingfeng. He knew that Liu Qingfeng was definitely unwilling. But Xia ruofei did not explain too much. He only said, "The others can stay! Especially with so few people, the workload will definitely increase. I hope everyone can overcome the difficulties and persevere through this period. "

Xia ruofei was actually being very tactful. Zeng Zilong and Jiang dandan did not pass Xia ruofei's screening.

Both of them had fallen to the same problem.

If someone was willing to pay you a high price to buy information about the situation on Peach Blossom Island, would you agree?

Under the state of hypnosis, both of them chose the correct answer.

In other words, although these two people had not betrayed Paradise Island for the time being, once there were enough benefits, they would most likely choose to betray it.

Naturally, Xia ruofei could not allow such a person to stay on Peach Blossom Island.

In his previous questions, he had confirmed that the two of them had not actually betrayed Tao Yuan, or they might not have had the chance to do so at all. Otherwise, it would not have been as simple as sending them back to their country.

"Okay, Commissioner Xu!" Liu Qingfeng replied.

"By the way, without Zeng Zilong and Jiang dandan, do we have enough people?" Xia ruofei asked again.

"They're not in the core positions, and their technical skills aren't particularly good. If the other employees do more work, they should be able to fill in their vacancies." Liu Qingfeng said.

The list of people returning to China had already been confirmed. Liu Qingfeng really didn't want to go through it again. If he chose two people to replace Zeng Zilong and Jiang dandan, Xia ruofei would definitely have to go through "interviews" again, and it would be a hassle.

Rather than that, it would be better to let the remaining employees share the burden.

"That's good!" Xia ruofei said indifferently, "hurry up and make the arrangements! Also, inform the airport that there should be a Chartered plane landing on Peach Blossom Island today. I've also sent some of my men in. "

"Alright!" Liu Qingfeng quickly said, "Commissioner Xu, do you need us to make any preparations in advance?"

Xia ruofei thought for a while and said, "mainly about food and accommodation." As for accommodation ... Now that many of your people have left, the mobile temporary houses at the previous construction site have been vacated. This afternoon, arrange for some people to build a few mobile temporary houses next to the airport warehouse. As for the food, ask the canteen to prepare more. The first batch of about 50 people will arrive, so we'll send food over together!"

Xia ruofei did not want the brothers of the Hong sect to have too much contact with the people who used to work on Peach Blossom Island. That was why he made such an arrangement.

"Alright!" Liu Qingfeng replied, "I'll arrange it immediately!"

"Mm! Thank you for your hard work, everyone!" Xia ruofei said with a smile.

After that, he didn't change his appearance anymore and directly left the small conference room as the "personnel Commissioner" of paradise corporation's headquarters. He then drove the car in the direction of the airport warehouse.

Chapter 2687 The fish is about to take the bait (1)

Before Xia ruofei passed the checkpoint in front of the warehouse, he changed his appearance back to his original one. After passing the checkpoint, he changed back to "Commissioner Xu" and drove the car directly to the warehouse entrance.

Xia ruofei pushed the door open and entered. Li Yifu and bainilatti turned their heads at the same time.

"Who's there!"

"Mr. Xia!"

The two of them spoke at the same time, but after bainilatti subconsciously finished shouting, he looked at Xia ruofei with a face full of confusion.

There was a soul seal between bainilatti and Xia ruofei, so bainilatti knew that Xia ruofei had entered before he could see clearly. However, when he saw him clearly, he was dumbfounded. He did not know this person at all! Why does he have the same aura as master?

Li Yifu, on the other hand, could not tell Xia ruofei apart without him releasing his aura. His eyes were filled with vigilance.

Xia ruofei smiled and released a little of his cultivation aura. Then, he said, ""Foster husband, I just changed my appearance, and you don't recognize me anymore?"

Li Yifu's body trembled and he quickly came forward and said, ""Martial granduncle! You've returned ..."

When benilatti was sent over, Xia ruofei had told Li Yifu not to avoid him. Although Li Yifu did not understand, he treated Xia ruofei like a god. He would not doubt Xia ruofei's words. Hence, even though benilatti was present, Li Yifu still called Xia ruofei "Grand – Master".

Xia ruofei nodded and looked at bainilatti. He said lightly, ""Your first reaction is not bad. Remember, you must trust your intuition in the future. It is often more reliable than your eyes!"

Only then did benilatti confirm that the middle – aged man in front of him was his master. He quickly nodded and said, ""I understand! Mr. Xia ..."

Xia ruofei continued, "I will appear with this face for the next two days. I will be the HR Specialist of the peach blossom company's headquarters. In the future, when there are outsiders, you can just call me Commissioner Xu."

"Yes!" Li Yifu and bainilatti responded in unison.

Then, Xia ruofei looked at bainilatti and asked, ""Did Wang Boshan contact you this morning?"

"Reporting to Mr. Xia, I only answered one phone call this morning. It was from a friend of mine in carnade." "Wang Boshan didn't contact me," said benilatti.

Xia ruofei nodded. He didn't need Li Yifu's confirmation because under the effect of the soul seal, benilatti would definitely not lie to him.

Xia ruofei said, "if Wang Boshan asks you about the situation on Paradise Island, you can tell him that I didn't appear on Paradise Island. However, paradise Corporation sent a personnel Commissioner with the surname Xu over. He assessed the current personnel on the island and arranged for more than half of the people to leave Paradise Island. Only the minimum number of people to maintain the operation of the island was left." However, you can't tell him this information for free ..."

"Yes! "I understand ..." Benilatti said. "You have to charge, and you have to increase the price!"

"That's right!" Xia ruofei said, "you have to remember what I just said. Don't make a mistake. This is very important."

"Don't worry, Mr. Xia. My memory has always been good!" Bainilatti said with a fawning smile.

"Wang Boshan will definitely ask you about the other situations on Peach Blossom Island." Xia ruofei said, "you just need to tell him that the Chinese people who stayed here look mysterious and we don't know what they are busy with. However, you will find out as soon as possible."

"Yes, Mr. Xia!" Beniladi said.

After Xia ruofei gave his orders, he said indifferently, ""Alright, you can go first!"

Just as he finished speaking, benilatti's phone in the corner of the warehouse rang. Since he moved into this warehouse, he had never carried his phone with him. It had always been placed within Li Yifu's sight.

Although Xia ruofei felt that it was unnecessary, he did not object to Li Yifu's insistence on benilatti doing so.

When the phone rang, the three of them turned their heads in unison.

"Let's go and see who's attacking!" Xia ruofei said calmly.

"Yes!" Benilatti rushed over to take a look at the phone, then said in a trembling voice, "Mr ... Mr. Xia, it's Wang Boshan ..."

Although the call was not connected, benilatti still subconsciously lowered his voice, as if he was afraid that Wang Boshan would hear him.

Bainilatti looked at Xia ruofei eagerly, waiting for his next instruction.

Xia ruofei thought for a while and said, "Don't worry about him! Let's talk after you catch your breath."

"Okay, but ... He'll hang up if I don't pick up!" Beniladi said.

"If I die, then I die!" Xia ruofei shrugged his shoulders and said, "he's in a hurry to find you. He'll definitely call back."

"Yes! Yes!" Benilatti was indeed still panting heavily. Furthermore, Xia ruofei had just finished talking to him, so he was still a little nervous. It was not appropriate for him to answer the phone.

Benilatti took the phone and walked to Xia ruofei's side. The phone was still ringing. Xia ruofei took the phone and glanced at it before throwing it on a wooden box.

Ten seconds later, the phone finally stopped ringing.

Chapter 2688 The fish is about to take the bait (2)

"Are you still nervous?" Xia ruofei looked at benilatti and asked.

Benilatti's face turned red and said, "Mr. Xia, I'm actually not nervous ... I'm just a little breathless from running over ..."

Xia ruofei smiled and said, "you should sort out your thoughts now. Remember what I told you just now." If Wang Boshan doesn't call back, call him back in five minutes. You don't need me to teach you how to say it, do you?"

"Just say that I didn't have my phone with me just now." Beniladi said without thinking.

Xia ruofei nodded and agreed.

Thus, bainilatti mumbled to himself and recalled all the possible problems that Xia ruofei had told him to deal with wangboshan.

In less than five minutes, bainilatti's phone rang again, and it was still Wang Boshan.

"It looks like he's in a hurry!" Xia ruofei smiled and said to benilatti, "don't pick it up so quickly. Let the phone ring for a while ..."

Benilatti had already stretched out his hand, but after hearing Xia ruofei's words, he pulled it back.

Xia ruofei waited for about ten seconds before nodding at bainilatti.

Benilatti quickly picked up the phone, swiped the answer button, and turned on the speaker.

Li Yifu, who was at the side, immediately revealed a nervous expression.

He already knew that Wang Boshan was from the star Seizer sect. The news of Paradise Island changing hands was also leaked to the star Seizer sect by bainilatti. Although Xia ruofei had already said that bainilatti was absolutely reliable, Li Yifu still did not dare to let his guard down. He focused all his attention on bainilatti. If bainilatti tried to inform Wang Boshan, he would immediately take action and cut off their communication.

A smile appeared on beniladi's face as he said, ""Mr. Wang! Hello ... I'm really sorry, I didn't bring my phone with me just now and missed such an important call from you. I was just about to call you back!"

The phone was on speaker so Xia ruofei and Li Yifu could hear Wang Boshan's voice clearly.

"Benilatti, I would like to ask you about some matters regarding the green cloud Island," Wang Boshan said.

A smile appeared on benilatti's face as he said, ""Of course, no problem! You're my old customer! The price is absolutely fair!"

Wang Boshan snorted and said, ""Since you're a regular customer, you're asking me for money before I even ask? As long as the information you provide is valuable, when have I ever been stingy?"

"That's right! That's right!" Benilatti nodded and bowed. "Mr. Wang is the most generous!"

At this moment, Xia ruofei heard another voice from the other end of the phone. ""Boshan, don't waste your breath on him. Ask him quickly!"

Then, Wang Boshan's voice was heard, ""Yes! Junior uncle Zheng!"

These two sentences were said in Chinese, and the voice was very soft, especially the last sentence that Wang Boshan said. He was probably covering his phone.

However, Xia ruofei and Li Yifu were both cultivators, so their hearing was much better than ordinary people. Hence, they could hear the two sentences clearly.

Xia ruofei and Li Yifu looked at each other. This had revealed a very important piece of information. There was someone with a higher position than Wang Boshan. This person's surname was Zheng and he was Wang Boshan's uncle master.

Xia ruofei analyzed and felt that this person should be the one who came to find him with Wang Boshan at the liuhai Lane courtyard house in the capital that day. This martial uncle Zheng was most likely Zheng Yongshou.

However, since benilatti was currently dealing with Wang Boshan, Xia ruofei and Li Yifu only paid a little attention to this detail and immediately focused their attention on benilatti.

After that martial uncle Zheng finished speaking, Wang Boshan immediately said, ""Benilatti, I want to ask you a few questions. If your answers are really useful to us, we will definitely not shortchange you!"

"Alright! Mr. Wang, feel free to ask!" Benilatti quickly said in a greedy tone, "as long as I know, I will definitely not hide anything from you!"

"Okay, the first question, has the new master of the blue cloud Island appeared on the island?" Wang Boshan asked.

"Mr. Wang, I must correct you. This Island is now called Paradise Island." Benilati smiled and said, "I'll give you this information for free!"

Wang Boshan said impatiently, ""I know this! Isn't this just a habit? Hurry up and get to business!"

"Alright!" Benilatti pouted and said. It seems that Mr. Wang's sense of humor needs to be improved ... I can tell you very clearly that the new owner of Peach Blossom Island, Mr. Xia ruofei, has not appeared on the island for the past few days. As for where he went, we have no idea. "

"He didn't appear on the island?" Wang Boshan muttered to himself, "then where could he have run to?"

Benilati looked at Xia ruofei, asking for his opinion.

Xia ruofei knew what benilatti meant. He pondered for a while and nodded.

Therefore, benilatti took the initiative to say, ""Mr. Wang, although Mr. Xia ruofei did not come to Paradise Island, the situation on the island has changed. I believe you will be interested in this news!"

As expected, Wang Boshan immediately asked, ""What change?"

After hearing this, benilatti did not speak immediately. Instead, he smiled and remained silent.

Wang Boshan waited for a few seconds before he reacted. He said in a slightly unhappy tone, ""I'll give you \$50000 for this piece of information. If we think it's worth more, we'll give you an additional bonus!"

"This is the market price for our previous transactions," said beniladi slowly. "But ... The situation is different now. The information on peach source Island is more valuable now ..."

When Wang Boshan heard this, he secretly cursed 'greedy B \* stard'. However, he was not in the mood to bargain with benilatti and said without thinking, ""Eighty thousand dollars! Beniladi, this price is already very high, I hope you won't push your luck!"

"OK! Deal!" Benilati couldn't help but whistle, clearly in a good mood.

"Alright, enough of your nonsense!" Wang Boshan said, "hurry up and tell me what the news is! If I don't think it's worth the price, I'll still transfer the money to you, but this will be the last time!"

Benilatti said with confidence, ""Mr. Wang, don't worry! I promise that after today, you will continue to take the initiative to come to me for information transactions!"

After saying this, benilatti didn't delay any further and said, ""Although Mr. Xia didn't come to Paradise Island, his subordinates did, and they should be here with his latest instructions!"

"His subordinates?" Wang Boshan could not help but frown and asked, "who is it? What is he going to Qing ... Peach Blossom Island for?"

"I don't know his name, but I do know that his surname is Xu." Benilatti said, "those Chinese people call him Commissioner Xu and say that he's a human resources Commissioner sent by the Paradise company."

Beniladi paused and continued to say what Xia ruofei had told him, ""After Commissioner Xu came, he only did one thing, which was the interview! He had interviewed everyone on the island, and only about 50 people were left. The rest had been sent back to their countries. Those people who stayed behind are always mysterious. I don't know what they are doing at all. It seems that the atmosphere on the island is getting weirder and weirder ..."

"You're being marginalized!" Wang Boshan snorted and said.

"It's just that the work we're in charge of is different!" "If I've been marginalized, how can I get so much important information?"

"Alright! That's good news, 80000 US dollars will be transferred to your account soon!" Wang Boshan said, "but you have to tell me, what's wrong with the atmosphere? Any specific performance?"

Benilatti deliberately thought about it and said, ""There are too many strange things. For example, they have surrounded the entire area next to the airport. I don't know what they are hiding in there for ..."

Benilatti then pointed out a few more unusual points, which were all made up by Xia ruofei in advance, so all benilatti had to do was to follow the instructions.

Xia ruofei's judgment was not wrong. Wang Boshan fell silent after hearing this. Then, he told benilati to contact him immediately if he found out such important information. Wang Boshan then hung up the phone.

...

Benilatti hung up the phone, let out a long sigh, and asked, ""Mr. Xia, how was my performance just now?"

Chapter 2689 Everything is in place (1)

Xia ruofei replied indifferently, "not bad!" If Wang Boshan continues to contact you, do you know what to do?"

"I'll follow your instructions and feign civility with him! Let him be as patient as possible. " Benilatti said without hesitation, "and we are ready to contact him and give him false information according to your latest instructions!"

Xia ruofei nodded and said, "very good!" You have to continue to familiarize yourself with the countermeasures I've instructed you to take, so that no matter when Wang Boshan calls you, you can skillfully respond. And even if the questions he asks are beyond the scope of the plan I've set for you, you have to be able to deal with them properly. "

"Yes!" "Yes," benilatti replied.

"You should go and rest!" Xia ruofei said. Then, he looked at Li Yifu and said, "Yifu, you should also go and familiarize yourself with the transformation plan! I'm going to continue processing the raw materials!"

"Alright, martial granduncle!" Li Yifu said. Then, he took the island transformation plan that Xia ruofei had personally drawn up and walked to the side to read it carefully.

Xia ruofei continued to process the materials.

Now that the nine Jade pillars had been processed, the processing of the other materials was relatively simple. Hence, Xia ruofei was very efficient.

Of course, Xia ruofei had not started to carve the core formation plate yet.

In fact, the details of the plan had already been confirmed. Xia ruofei could start to inscribe the array disc. However, inscribing the array disc required a high level of concentration. There could not be any interruption or interruption in the middle. It would take a long time, so it was not suitable for him to inscribe it now.

Besides, the core array disc was so important that Xia ruofei had to be in his best condition before he could start carving it. He had stayed up for two nights and was not in his best condition.

It wasn't a big problem to process ordinary materials in this state, but it wasn't suitable for carving the core array disc.

In fact, Xia ruofei had already planned it out. He decided to carve the core array disc in the spirit map space. After he processed the materials, he would have to return to China. Otherwise, Wang Boshan and his martial uncle Zheng would not be able to wait indefinitely.

Li Yifu was in charge of the island's transformation, and as long as it was completed step by step according to his plan, there was basically no possibility of any problems. On the other hand, Xia ruofei had to meet Wang Boshan and martial uncle Zheng in person to find out more about them. At the same time, he had to buy as much time as possible for the transformation of the Paradise Island.

After returning, Xia ruofei could find time to enter the spirit map space. The environment there was unique, and he could make use of the difference in the flow of time to complete the core array disc without delay.

Xia ruofei spent the entire afternoon processing the materials.

The processed materials were stored in a special place and carefully marked. In two days, when Li Yifu presided over the island's transformation, he could directly take the materials according to the labels.

After dinner, Xia ruofei continued to work on the materials for the formation. At around nine o'clock in the evening, the first batch of 50 people that Li Yifu had recruited from Australia to Peach Blossom Island was about to land. Li Yifu personally went to the airport to pick them up, while Xia ruofei did not move away and was still busy working on the materials.

Most of the materials were for the appearance and size. A small portion of them required simple array patterns. To Xia ruofei, it was not difficult at all. It was just a tedious and repetitive labor.

Li Yifu returned with his men at around 10 pm.

Only then did Xia ruofei put down his work and got up to meet everyone.

Of course, Xia ruofei was meeting everyone as Paradise Corporation's Human Resources Department's Commissioner Xu. These brothers from the Australian Freemasons naturally did not recognize him. Even Tang Hu, who had dealt with him a few times, did not recognize him. Instead, he kept asking if Xia ruofei was there.

When Tang Hu received the news from "Commissioner Xu" that Xia ruofei was currently not on Peach Blossom Island, he was very disappointed and immediately lost interest in continuing the conversation with "Commissioner Xu."

Since Xia ruofei did not reveal his identity, the brothers from the Australian Tang sect naturally followed Li Yifu's lead. Although they had heard of Xia ruofei's name, they did not treat him so well. Li Yifu was one of the founding members of the Hong sect and was also the idol of many young members. Hence, he was much more popular than Xia ruofei, who was pretending to be 'Commissioner Xu'.

During the day, Liu Qingfeng had arranged for people to build two rows of mobile temporary houses next to the airport warehouse. The facilities in the temporary houses were equipped from the island's material reserve warehouse. Every bed was covered with brand new sheets, quilts, tables, chairs, benches, and other furniture.

In addition, Liu Qingfeng also asked the chef to prepare in advance, for the brothers of the Hong sect who had just gotten off the plane, to prepare hot supper.

Everyone had been on the plane for a long time and were already exhausted. Xia ruofei would not be so heartless as to screen these people overnight. However, just in case, he still arranged for the guards of the Paradise Island to stand guard around the mobile houses. If someone really wanted to sneak out, they would definitely be stopped.

Chapter 2690 Everything is in place (2)

The temporary lodgings were also within the previously marked boundary, so there was no need to add too many people.

After Xia ruofei met with everyone, he went back to the warehouse to continue processing the materials for the array. Li Yifu wanted to go back with Xia ruofei, but Xia ruofei asked him to stay and have a few drinks with the brothers of the Hong sect. He naturally did not dare to disobey.

Of course, Li Yifu didn't stay for too long either. It wasn't easy for him to have the opportunity to serve and respect his grand uncle – Master, so he naturally had to put in more effort. Moreover, when he

thought about how his senior granduncle was busy working overtime to deal with the materials, while he was drinking and having fun here, he felt even more apologetic.

Therefore, Li Yifu only accompanied everyone to drink three glasses of wine and immediately left.

Of course, in fact, with a Big Shot like Li Yifu present, everyone was a bit nervous, including the team leader, Tang Hu, who was also respectful and fearful of Li Yifu. Therefore, when Li Yifu left, everyone secretly heaved a sigh of relief. It was too much pressure to be with such a Big Shot.

Li Yifu returned to the warehouse and saw Xia ruofei still busy under the light.

He couldn't help but walk over. "Senior granduncle, you should have a good rest. You've already stayed up for two nights!"

Xia ruofei was processing a piece of special wood. He did not even lift his head as he said, "I know. I'll take a nap after I'm done with my work."

"Yes, martial granduncle, then this disciple will not disturb you any further!" Li Yifu quickly said.

After Xia ruofei finished processing the wood, he stood up and stretched. He smiled and said, "I'm indeed a little tired. It seems that I'll have to sleep for a while before continuing to work!"

Xia ruofei asked Liu Qingfeng to put a few single beds in the warehouse, one of which was reserved for Xia ruofei's exclusive use. It was placed in a corner of the warehouse. Liu Qingfeng also took two partition screens from the dining hall and surrounded the entire area, forming a relatively private space.

This was the best spot in the warehouse and was naturally reserved for Xia ruofei.

He walked into the "room" from behind the screen and lay on the bed with his clothes on. After a while, he started to snore.

At this time, bainilatti had already fallen asleep. Only Li Yifu was still reading the plan that Xia ruofei had personally drawn up under the light. When he heard Xia ruofei's snoring, he immediately went over to dim the light.

The huge airport warehouse was also in darkness. Only two dim lights near the entrance were still on. Li Yifu sat under the lights and used the weak light to familiarize himself with and memorize Xia ruofei's modification plan.

.....

The next morning, Xia ruofei, who had slept for six to seven hours, felt full of energy and vitality.

After breakfast, Li Yifu accompanied him to the temporary house where the members of the Hong sect were staying.

These brothers of the Hong sect were also having breakfast. As more and more people gathered in the warehouse area, Liu Qingfeng had specially arranged a car and two people to deliver the food to them.

Xia ruofei actually had some materials to process yesterday, but he had to put down his work and come over to finish the more important work of screening the staff.

It wasn't that he didn't trust the Hong sect brothers, but it was just that there was no knowing what a person's heart was like. If there was someone with ulterior motives and they didn't identify it in time, they could ruin things related to Paradise Island. Xia ruofei felt that he could never be too careful.

Originally, when they heard that this "Commissioner Xu" sent by the Paradise Corporation would interview everyone, everyone was still somewhat puzzled.

However, Li Yifu told them that this was a rule set by Xia ruofei himself. Everyone who entered Paradise Island must go through a strict review, and the Human Resources Commissioner's interview was a very important part of the review.

When Tang Hu heard Li Yifu say that this was a rule set by Xia ruofei, he no longer had any psychological rejection. He quickly used his own cohesion to make a call. Everyone listened to Tang Hu and naturally cooperated.

The "interview" was held in the mobile temporary room. Tang Hu personally led people to quickly tidy up a room, and then, together with Li Yifu, arranged for everyone to come over and accept the inquiry in order.

Tang Hu also took the lead, being the first to enter this temporary interview room.

.....

Xia ruofei spent almost the entire morning screening the fifty people.

Fortunately, he was very satisfied with the loyalty of the 50 people. They all came from the Hong sect, which valued righteousness, so none of them were tempted by the external temptation.

According to Xia ruofei's own judgment, it was not a problem for all 50 Hong sect members to stay in the Peach Blossom Island during the transformation.

After Xia ruofei finished interviewing the last person, he immediately told Li Yifu and Tang Hu about the situation and the results of the interview.

The two of them were naturally very happy after hearing this.

Especially Li Yifu, he knew that this "Commissioner Xu" was Xia ruofei. He had gained a lot of face in front of Xia ruofei for the recruitment.

In fact, Li Yifu was a little nervous the whole morning. He was afraid that a few people who didn't meet the requirements or even had ulterior motives would appear. If that happened, he didn't know where to put his old face.

After the screening was completed, Li Yifu immediately assigned the members of the Hong sect to their respective duties.

More than 20 members of the Hong sect quickly replaced the Liu family's guards near the airport warehouse and began to patrol the perimeter of the cordon.

As for the remaining 20 or 30 people, some of them could operate construction machinery, and there were also professionals in communication, mapping, weather, and so on. With the cooperation of Liu

Qingfeng, they were all arranged to corresponding positions and temporarily worked with the employees left by the Liu family.

Xia ruofei re – checked the modification plan to make sure that there were no problems. He then asked Li Yifu to lead the engineers to start the construction and preliminary preparations according to the modification plan.

The construction machinery on Peach Blossom Island began to rumble again. Xia ruofei returned to the warehouse and processed the remaining raw materials into shapes that met the requirements for the transformation. Some of them were even engraved with array patterns.

All the materials had been neatly arranged by Xia ruofei in their respective positions. Li Yifu only needed to follow the map to get the materials and carry out the construction according to the plan.

After Xia ruofei was done with the materials, he drove to the island's construction site for an inspection.

He saw that Li Yifu was personally watching over the site. The construction process was meticulous and carried out in strict accordance with the construction plan and drawings.

Xia ruofei also checked a few foundation trenches that had just been dug. He found that the direction, size, and depth were exactly the same. The steel bars and cement used were also in line with the construction requirements.

Xia ruofei was very satisfied. He was even more assured that Li Yifu would stay behind to take charge of the island transformation project.

At noon, Xia ruofei informed the Paradise flight crew, who had been on standby on the island, and asked Liu An to apply for a flight route back to China the next morning.

In the afternoon, Xia ruofei relaxed a little and took a two – hour nap. Then, he got up and went to inspect the construction site. Li Yifu's men from the Hong sect were all of high standards, so their construction efficiency was naturally not low. Of course, what pleased Xia ruofei the most was the precision of their construction. They followed the construction plan and drawings without any signs of cutting corners or sloppiness.

At night, Xia ruofei rested for a few hours. After midnight, Xia ruofei got up and sneaked out of the Sosnovka Military Base's warehouse. There were still two points of work that he had to complete. One was the point on the cliff and the other was the point next to the mercenary group's base.

Xia ruofei's figure was like a ghost. The Australian Hong sect members who were on guard did not notice him at all. He had already disappeared into the night.
