

God tier Farm 2691

Chapter 2691 The plan begins (1)

Xia ruofei arrived at the position of the cliff first. He agilely slid down the cliff to the position that he had marked last time.

He grabbed the rock with one hand and took out a shovel from the space with the other. He removed the tree branch that he had marked and started to dig.

The salty and wet air had eroded the rocks into the shape of a honeycomb. After Xia ruofei injected his essential Qi, he dug into the rocks easily.

It didn't take long for him to dig a place to hide, so he put a little strength into his arms and curled up on the small platform that he had just dug out. He continued to dig sideways.

He spent about half an hour before he finally dug out the hole for the Jade pillar.

Xia ruofei stuck his head out and checked carefully. After confirming that the direction was correct, he put the shovel back into the space. Then, he took out the Jade pillar that he had prepared earlier from the spirit map space and carefully placed it into the hole.

Then, Xia ruofei slowly filled the hole with the gravel that he had dug out earlier. At the same time, he adjusted the position of the Jade pillar until the gravel filled the gap and the Jade pillar was fixed in the best position.

Xia ruofei filled up the rest of the rubble and then broke off some branches with leaves from the side to disguise the position.

In fact, as long as the array was activated, ordinary people would not be able to get close to the positions of the nine Jade pillars. If someone really wanted to destroy it by force, the array would automatically counterattack.

As for the days before the array was activated, ordinary people could not climb down this steep cliff. Even a cultivator with a high level of array skills would not be able to accurately identify the position of the Jade pillar without a detailed inspection of the entire natural array like Xia ruofei.

In addition, Xia ruofei had put on some disguises, so he should be safe.

After Xia ruofei set up the Jade pillar, he quickly climbed up the cliff like an agile ape. Then, under the cover of the night, he flew towards the base of the mercenaries on Peach Blossom Island.

The spot next to the mercenary camp was not for the Jade pillars. It was less important in the entire formation, and because the terrain was flat, it was much less difficult to set up.

Xia ruofei's main focus was on the disguise after setting up the array. After all, this place was so close to the mercenaries' base. If he didn't disguise himself well, the mercenaries might be able to see through him.

Xia ruofei could not guarantee that these guys with too much energy would not dig it open to take a look. If they really destroyed the place, they would have to rebuild it. If it was destroyed just as the

formation was about to be activated, it would cause the entire formation to slow down and might ruin the big plan.

Fortunately, Xia ruofei was also an expert in disguises. When he was in the Army, he was always in the top few of the lone wolf assault team in this assessment. Now that he was a cultivator, especially with his spiritual power in the spirit gathering realm, his perception of the surrounding environment was many times sharper than before. Hence, after he set up his disguise, it could be said to be flawless. Even experienced Special Forces soldiers would have a hard time seeing through it.

After settling the two locations that he had to set up personally, Xia ruofei returned to the Sosnovka Military Base warehouse quietly. He did not alert anyone during the entire process.

The next morning, Xia ruofei was ready to return to Huaxia as planned.

Naturally, Li Yifu personally sent Xia ruofei to the airport. At first, Xia ruofei did not want Li Yifu to send him. After all, he was in charge of the renovation project. However, Li Yifu almost knelt down on the spot when he heard that he was not allowed to send him. Xia ruofei could only agree with a bitter smile.

After getting into the car, Xia ruofei returned to his original appearance.

From here to the airport, until boarding, they would not meet any outsiders. The airport of Peach Blossom Island was a private airport, and the car could directly drive to the tarmac.

The warehouse was right next to the airport, and it didn't take long to walk to the tarmac, so it was even faster by car.

Xia ruofei gave Li Yifu a few simple instructions, especially a few important points. He emphasized them again, and then the car arrived at the tarmac. Paradise was already ready to take off.

Liu Qingfeng also rushed to the airport to send him off. Of course, he also knew Xia ruofei's rules, so he came alone. He didn't even bring a driver and drove his own car to the airport.

As soon as Xia ruofei got out of the car, Liu Qingfeng came up to him.

Xia ruofei smiled and shook his hand. "Qingfeng, it's been hard on you during this period of time."

"You're welcome, President Xia. This is part of my job!" Liu Qingfeng said, somewhat flattered.

Xia ruofei pointed at Li Yifu and said, "During the time I'm not on the island, all work will be done according to boss Li's instructions. You all have to obey boss Li's leadership and cooperate with him to do the final cleaning work well."

"Yes!" Liu Qingfeng quickly said, "I will definitely obey boss Li's command!"

"Mr. Liu, you're too kind," Li Yifu said lightly. "We're all here to complete the task assigned by Mr. Xia. We'll work together in the future."

Li Yifu was a big entrepreneur and had rich management experience. The management task Xia ruofei gave him was not difficult at all.

Chapter 2692 The launch of the plan (2)

Translator: 5496903 What he felt the most pressure was the island transformation project.

This was because Li Yifu already knew that although these modifications seemed ordinary, they were actually related to the activation of a natural array, and even related to the problem of life and death. Although the core work was done by Xia ruofei, he was also worried that if there were any deviations in the basic construction work, which would affect the formation, then he would be in deep trouble.

Xia ruofei smiled and said to Li Yifu and Liu Qingfeng, ""Alright, you all can go do your own things! I'm leaving!"

After that, he walked straight to the accommodation ladder of the plane. When he saw Captain Liu An and the flight attendant waiting for him by the accommodation ladder, he remembered the recruitment of pilots.

Hence, Xia ruofei turned around and said to Li Yifu, ""Foster husband, I suddenly thought of something ... Recently, I've been frequently flying from China to peach source Island. I've found that it's really hard for Captain Liu and his crew. I would like to recruit an experienced pilot to form a three – man crew with them. This way, there will be one person who can take turns to rest during the flight. Help me with this!"

Paradise was originally a gift from Li Yifu to Xia ruofei. Nominally, it belonged to a navigation company under Li Yifu's name. Liu An and the rest of the crew were also employees of this navigation company in name. Even their salaries were paid by Li Yifu.

In fact, this amount of money was nothing to Xia ruofei. If he wanted to enjoy life, he could afford to buy a few private planes. However, Li Yifu was being filial to Xia ruofei. If Xia ruofei did not accept it, Li Yifu would overthink it.

As far as the recruitment of pilots was concerned, it was definitely more convenient to operate on Li Yifu's side. It was also more convenient to put the labor relationship under the navigation company under Li Yifu's name.

After Li Yifu heard this, he naturally agreed in a hurry. He said, ""Mr. Xia, some of the pilots in my airline are of the G650 feiwan stream. I will assign the best pilot here right away!"

From Li Yifu's point of view, Xia ruofei's kindness to him could not be measured by money. Even if he was asked to give all his assets to Xia ruofei, he would give them out willingly without hesitation. Of course, he knew that Xia ruofei would definitely not accept it. However, he would be happy to do something for Xia ruofei.

Xia ruofei nodded and said, ""I haven't decided on my schedule in China yet. After you've chosen your men, you can go to Peach Blossom Island with your next group and wait for them. Let Captain Liu and the others work hard for you two more times!"

When Liu An heard this, he quickly said, ""No problem! President Xia, it's not hard on us! There's no need to increase the number of people!"

Xia ruofei waved his hand. "We still need to increase the number of people. According to the regulations of China Civil Aviation, every time you Fly to Paradise Island, it's considered a overtime flight. We still have to respect science."

Then, Xia ruofei said to Li Yifu, ""Then it's decided!"

"Yes, Mr. Xia!" Li Yifu quickly said respectfully.

Xia ruofei didn't say anything else and stepped onto the ramp. Captain Liu An and the crew followed Xia ruofei and quickly boarded the plane.

Xia ruofei waved at everyone from the cabin door and walked into the cabin.

Because the flight preparations had been made in advance, and there was no problem with queuing for take – off at Peach Blossom Island Airport, the plane quickly taxied to the runway and took off after the door was closed.

After more than 10 hours of flight, as usual, they landed in BlackBerry to refuel. Paradise finally landed smoothly on the runway of Beijing International Airport in the night.

Xia ruofei did not inform anyone of his return this time. He came out of the office building in a low – Profile manner, then took a taxi and left the airport.

He didn't return to the courtyard in liuhai Lane, but took a taxi directly to the peach blossom Association in the suburbs town of Xiaotang.

As the major shareholder, Xia ruofei had a room in the peach blossom Association that he could stay in anytime he wanted.

The security guard at the entrance saw Xia ruofei and immediately saluted. ""Hello, President Xia!"

"Who's here today?" Xia ruofei nodded and asked.

"Reporting to President Xia! President Zhao is having a banquet here today, and the other presidents are not here. " The security guard replied.

"I know." Xia ruofei said, "there's no need to inform him. Help me arrange an electric car to send me to the lakeside villa."

There was a small villa by the lake that was specially reserved for Xia ruofei. It was the core of the formation. Under Xia ruofei's arrangement, most of the gathered spiritual Qi was locked in the small villa. The spiritual Qi there was very dense.

Xia ruofei didn't return to liuhai Lane. On one hand, he didn't want Wang Boshan to know that he had returned. On the other hand, he wanted to adjust his condition to the best state at paradise gathering and then complete the carving of the core array disc.

Because of Xia ruofei's special instructions, no one would enter the villa, including Zhao Yongjun and the others. Even if they came to look for Xia ruofei, they would wait outside the door. So when Xia ruofei rested here, no one would disturb him.

"Yes, President Xia!" The security guard quickly said.

The security guard quickly called for an electric car and prepared to send Xia ruofei to the small lakeside villa.

Before Xia ruofei got into the car, he said, "I have something to deal with tonight. Please don't tell President Zhao that I'm back. He has to spend time with his friends. I don't want to distract him."

"Understood!" The security guard replied.

Xia ruofei arrived at the lakeside villa in no time on the battery – powered car. He scanned his fingerprint to enter the villa. Xia ruofei instantly felt refreshed. Although this was not the room where the relic was, the concentration of spiritual Qi was much higher than outside.

This was also the reason why Xia ruofei had specially set up a villa to lock up most of the spiritual Qi. If he followed the speed at which the spiritual Qi gathered and evenly distributed the spiritual Qi within the range of the formation, this place would be comparable to the encampment of some small sects. It might attract the attention of cultivators very quickly.

After Xia ruofei closed the door, he walked straight into the room where the formation core was.

Xia ruofei had also set up a spirit locking array around the room, locking most of the spiritual Qi in the room.

In fact, even cultivators with average array skills would find it difficult to break through the array and enter the room, let alone ordinary people.

Of course, this formation was set up by Xia ruofei himself, so it was easy for him to enter.

After entering the room, the concentration of spiritual Qi instantly increased by a large margin.

With a thought, Xia ruofei took out a Jade futon from the space and sat cross – legged on it. He took out a piece of origin crystal and started cultivating.

Recently, he had been busy with the affairs of the Peach Blossom Island and had very little time to cultivate.

His cultivation had already reached refined Qi level 9, and he could faintly feel the barrier. What he lacked now was accumulation.

After all, the difficulty of breaking through a major realm was much higher than before.

Of course, compared to the other cultivators on earth, Xia ruofei already had a unique advantage. He did not lack cultivation resources and the "great Dao technique" he was cultivating was definitely the best kind. Naturally, he was much more efficient.

What he needed to break through to the next major realm was sufficient accumulation. Under normal circumstances, he would not be trapped in this bottleneck for too long.

Therefore, he had a rare moment of free time today, so he quickly sat down to cultivate and adjust his state of mind in preparation for inscribing the core array disc.

The night passed by in a flash. When the sun shone through the window, Xia ruofei finally let out a long breath and stood up from the Jade futon.

At this time, he felt that his whole body was full of strength, and the fatigue brought by the busy days had been swept away.

After a whole night of cultivation, Xia ruofei could clearly feel that his cultivation had steadily improved and he was closer to breaking through to the next realm.

Xia ruofei stretched his arms and legs, took a deep breath, and took out his phone from his pocket ...

Chapter 2693 Direct contact (1)

Xia ruofei keyed in the number that he had memorized and dialed it without hesitation.

He was calling Wang Boshan. This was also part of his plan. Wang Boshan had been ignored for several days. If they continued to delay, they would only become more and more impatient and gradually lose their patience. They could not rule out the possibility of taking some extreme measures. Once things developed to that extent, it might bring changes to the plan.

Hence, Xia ruofei did not delay it indefinitely. After adjusting his condition, he gave Wang Boshan a call.

Xia ruofei heard the phone ring three times before the other party picked up. ""Hey! Who is it?"

"May I ask if you are President Wang from stars Corporation?" Xia ruofei asked calmly.

"I am, Who are you?"

Although Wang Boshan's tone was still calm, Xia ruofei could still detect a trace of impatience. It was probably because they had not been able to find Xia ruofei's whereabouts for the past few days and they had started to become anxious.

Xia ruofei replied indifferently, "I'm Xia ruofei." I heard that CEO Wang has been looking for me these few days? And you said you have a business deal worth billions of dollars to discuss with me?"

On the other end of the phone, Wang Boshan was silent for a while. He didn't expect that Xia ruofei, who he had been looking for for so many days and couldn't even see once, would call him without any warning.

Immediately after, Wang Boshan's heart was filled with surprise. He could not help but raise his voice a few degrees, ""President Xia! You finally called me back! I've been looking for you for many days!"

Perhaps he felt that there was something wrong with his tone, Wang Boshan immediately said, ""President Xia, I do have a big business deal to discuss with you. It's worth billions of dollars!"

Xia ruofei smiled and said, "a few billion dollars?" My company's market value is only a fraction of a few billion dollars. I'm afraid I can't take in such a big business!"

Wang Boshan quickly said, "director Xia, I've also looked into your paradise Corporation. Although it's not very big at the moment, it has great potential! It's going to become a multinational giant soon!"

At this moment, Xia ruofei heard a voice from the other end of the phone. ""Boshan, just talk to him about the main topic. Why are you talking nonsense?"

"Martial uncle Zheng, please calm down ... Please calm down ... We're about to get to the main topic." Wang Boshan said.

Xia ruofei immediately recognized the other person's voice. It was the voice of senior uncle Zheng, who he had heard on Peach Blossom Island yesterday.

In fact, when "martial uncle Zheng" just said a few words, the voice from the phone receiver suddenly became much softer. It should be Wang Boshan who covered the receiver in time.

However, Xia ruofei was a cultivator. Even though the voice was very low, he could still hear it clearly. He could also hear the last sentence that Wang Boshan said.

Xia ruofei couldn't help but smile. It seemed that senior uncle Zheng was an impatient person.

It's good to be impatient! That way, it would be easier for me to carry out my plan. Xia ruofei said in his heart.

Then, Xia ruofei heard Wang Boshan continue,""President Xia, I believe you should know about my situation. Stars Corporation is not weak, and I'm definitely not the kind of person who would swindle people. Also, the business I'm looking for you to discuss has nothing to do with the Paradise Corporation. "

"Of course I know the strength of stars Corporation." Xia ruofei smiled faintly and said,"but CEO Wang said that the billions of US dollars have nothing to do with my company, so I'm really a little confused ... Among my assets, the most valuable is Tao Yuan company. Since it has nothing to do with my company, how can I have the ability to take on a business that's worth billions of US dollars? Even if I sold this hundred Jin of mine, it wouldn't be worth that much money!"

"President Xia, you must be joking ..." Wang Boshan laughed dryly and said,"President Xia, this matter can't be explained clearly in a few words over the phone. I hope to talk to you in person. I wonder if it's convenient for you to arrange it?"

Xia ruofei pretended to think for a while before saying,""We can meet ... But I still have some things to deal with, so I'm afraid I won't have time tomorrow ... Is it convenient for President Wang to meet the day after tomorrow?"

Even if the second batch of people recruited by Li Yifu arrived in time, it would still take almost three days to complete the transformation project on the Peach Blossom Island. Because of this, Xia ruofei had pushed back the meeting time by one day to buy time for Li Yifu on Peach Blossom Island.

Naturally, Wang Boshan couldn't wait to meet Xia ruofei immediately to discuss the conditions for the purchase of Peach Blossom Island. Hence, when he heard Xia ruofei say that he had to wait for another day, he couldn't help but hesitate. However, he quickly said,""No problem! Then let's set it at noon the day after tomorrow! Let's talk while we eat, I'll decide the place!"

Xia ruofei said,"in the capital, President Wang is a guest and I'm the host. How can I let you arrange it?" I'll do it! I'll let you know by text when the place is set at noon tomorrow. "

Xia ruofei didn't let Wang Boshan arrange the meeting to prevent the other party from making some arrangements at the meeting place in advance. After all, the opponent was a disciple of a cultivation sect. Sometimes, it was impossible to guard against the means of cultivators.

Furthermore, Xia ruofei did not know much about them. He did not even know if there were any other people from the star Seizer sect who had come to the capital with them other than Wang Boshan and martial uncle Zheng. If the other party were to set up an ambush at the meeting point, it would be difficult for him to deal with it.

According to common sense, the star Seizer sect would not offend Xia ruofei before the deal was made if they wanted to use the secular world's methods to purchase the Peach Blossom Island. However, it was always better to be safe than sorry. It was not wrong to be a little more cautious.

When Wang Boshan heard that, he pondered for a moment and said, "Alright! Then ... I'll let President Xia pay for it."

"What's the price of a meal?" Xia ruofei laughed and said, "if our business talks go well, a few billion US dollars would be more than enough to last us a lifetime!"

"Hahaha! That makes sense!" Wang Boshan smiled and said, "President Xia, then ... I'll see you the day after tomorrow?"

"I'll see you the day after tomorrow!" Xia ruofei said and hung up.

.....

Jianguo's inner street, Beijing International Hotel, top floor luxury suite.

After Wang Boshan hung up the phone, Zheng Yongshou frowned and said in dissatisfaction, "Boshan, why do we have to wait until the day after tomorrow? You're too inefficient! No wonder you're so weak ..."

Wang Boshan felt as if he had eaten a fly, but the star Seizer sect had always emphasized respect for teachers, so he didn't dare to talk back to Zheng Yongshou. He could only smile apologetically and said, "Martial uncle Zheng, we're asking for a favor. We can't force them to meet us immediately, can we? What if this kid is disgusted with us and doesn't want to sell the island no matter how much we offer? Please forgive me ..."

Zheng Yongshou snorted and said, "he dares!" If the soft approach doesn't work, then we'll use the hard approach! He's just an ordinary person. He's a piece of cake to deal with."

"Yes, yes, yes!" Wang Boshan quickly echoed, "junior uncle Zheng, our conditions are so tempting, he can't possibly reject it." He had gotten the Paradise Island for free. If he could exchange it for three billion US dollars, he would definitely agree unless he had a problem with his brain. We've been waiting for so long, so we can't let a small detail ruin everything, don't you think?"

Zheng Yongshou waved his hand impatiently and said, "Alright, alright, alright! We'll do as you say, we'll just wait one more day!"

"Thank you for your understanding, junior uncle Zheng!" Wang Boshan quickly said, "uncle – Master, there's nothing much to do today. Do you want me to show you around the capital?" There are quite a few famous places of interest here!"

"The air here is so turbid, I don't have the mood to go out!" Zheng Yongshou said, "you don't have to keep me company. I'll go back to my room and rest for a while!"

“Yes! Then take care, martial uncle!” Wang Boshan said.

After Zheng Yongshou left the room, Wang Boshan sat on the sofa with a satisfied smile on his face.

In fact, the main reason why Luo Qingfeng, the sect master of the star Seizer sect, sent Zheng Yongshou over was because he valued his array Dao strength. In terms of social experience, Zheng Yongshou, who spent most of his time cultivating in the sect, was definitely far inferior to his martial nephew Wang Boshan.

From Wang Boshan’s point of view, he naturally didn’t want to use force at every turn. Following the rules of the secular world was only one aspect. More importantly, only by taking down the Paradise Island without shedding a drop of blood could he reflect his value! If he were to send a group of cultivators over and occupy the island by force, then how would his importance be reflected?

Once he used extreme methods, his “KPI” would plummet. After all, he was not good at fighting and killing. There were many people in the sect who had higher cultivation and strength than him.

And if he bought the Peach Blossom Island with money, then Wang Boshan would undoubtedly be the main contributor. Perhaps the sect leader would be happy and bestow him with some cultivation resources.

Therefore, in this matter, Wang Boshan was the most hardworking. He wanted to complete this mission through negotiations and transactions the most.

Through the short exchange just now, Wang Boshan felt that this young President Xia should be interested in this “billion US dollars” big project.

Wang Boshan felt that when they meet the day after tomorrow, as long as he slowly threw out the conditions here, even if Xia ruofei didn’t want to sell Peach Blossom Island at first, he would eventually agree to it because he couldn’t resist the temptation of benefits.

Wang Boshan stood up and walked to the room outside. He picked a bottle of red wine from the wine cabinet and opened it. He drank it alone.

.....

After Xia ruofei called Wang Boshan, he called Li Yifu to ask about the progress of the project.

Li Yifu reported to Xia ruofei that the overall situation was not bad. They had exceeded the task in one day. At the current speed, they would be able to complete it in about two or three days.

In addition, the second batch of personnel recruited by Li Yifu had also arrived on the island. At the same time, Robert, a senior pilot from the navigation company under Li Yifu’s name, also arrived on the island.

Robert was a mixed – Blood Chinese. His father’s surname was Luo, and his mother was from Italy.

Although his face was slightly westernized, Robert had been learning Chinese under his father’s influence since he was young, so he had a good understanding of China traditional culture.

Therefore, although Robert had the face of a Westerner, he had a pure Chinese heart. This was also an important reason why Li Yifu had sent Robert over to strengthen the pilot team.

As the second group of people had not been screened by Xia ruofei, Li Yifu had restricted their area of activity, including when they were working. He only arranged for them to be at some less important points and had sent people to watch them quietly.

Of course, the newly – joined pilot, Robert, was also restricted.

After Xia ruofei heard Li Yifu's arrangement, he expressed his approval and appreciation. At the same time, he also advised Li Yifu to speed up the progress of the project and work three shifts at night if necessary. After all, they had more manpower now.

Of course, the premise was that the quality and quantity had to be maintained.

After ending the call with Li Yifu, Xia ruofei went out again to the Paradise society's main building. He told the security not to report to Zhao Yongjun that he had arrived at the club last night. However, since the night had passed and the security guard did not see Xia ruofei leave, he would definitely report to Zhao Yongjun. Otherwise, it would be a dereliction of his duty.

If he came to the peach blossom Association but hid in the small villa for an entire night and an entire day without coming out, his brothers would also have some opinions.

Xia ruofei asked the manager in the lobby and found out that Zhao Yongjun had been drinking with his friends until two in the morning. Zhao Yongjun was still sleeping in his room.

As for song Rui and the others, they didn't come here last night. It was still so early, so they must not have woken up yet. Naturally, they wouldn't come to the club.

Hence, Xia ruofei ordered the lobby manager to report to Zhao Yongjun after he woke up.

Then, Xia ruofei asked the lingji private restaurant to prepare a table of food and wine. He was going to have a few drinks with Zhao Yongjun in the afternoon.

After giving his orders, Xia ruofei returned to the small villa. Since Zhao Yongjun and the others were still asleep, Xia ruofei naturally did not want to waste time there.

He still had to inscribe the core array disc, and time was of the essence.

After returning to the villa, Xia ruofei meditated for a while to adjust his state. Then, he started to practice drawing the core array disc.

Of course, as usual, Xia ruofei didn't start carving on the materials. Instead, he used his fingers to draw in the air, practicing the carving of the core array disc.

These days, Xia ruofei had been observing the formation, designing the activation and shutting down methods, and so on. His skills in the array Dao had improved significantly. At the same time, his understanding of the Taixu xuanqing formation had deepened. In addition, he had personally designed and improved the core array disc according to the actual formation, so he was very familiar with it. He could simulate it even with his eyes closed.

What he lacked now was nothing more than the proficiency and accuracy of the technique. There were no shortcuts in this area, and he could only improve through repeated practice.

Chapter 2695 Formation of the disk array_1

Time passed by quietly, and the morning went by very quickly.

Xia ruofei had been practicing the inscribing of the core array disc in the small villa. Although he was only using his spiritual power to simulate it, it still consumed a lot of energy.

He sat on the Jade futon. His psychic energy was recovering very quickly, but it was still not enough to support this consumption, so he had to drink a few sips of water from the spirit pool from time to time. He would only stop to rest and recover for a short while when he had used up too much of his mental power, and then continue to practice.

After half a day, he had become much more familiar with the inscribing of the core array disc.

He was already extremely familiar with every line on the array disc. After a lot of practice, he had a clearer understanding of some of the difficulties in the carving process.

Xia ruofei felt that he only needed to practice for half a day and he should be able to start drawing.

After a few hours of practice, Xia ruofei was exhausted.

Plus, he had an appointment with Zhao Yongjun for lunch, so he just stopped and stood up to stretch his arms and legs. Then he pushed the door open and walked towards the main building of the club.

Xia ruofei walked along the lake's Plank Road. The scenery here was pleasant. Because of the formation, the air was especially fresh. Xia ruofei felt refreshed.

When they arrived at the main building, Xia ruofei realized that Zhao Yongjun was not the only one in the club. Song Rui, Hou Liang, and the others were there too. It was obvious that Zhao Yongjun had informed them.

The brothers hadn't gathered together for a long time, so they naturally drank when they met.

Xia ruofei didn't try to control himself. As long as someone wanted to drink with him, he wouldn't reject them. He didn't even use his true energy to cheat.

Therefore, even though he had a good tolerance for alcohol, he still felt a little tipsy.

Of course, Song Rui and the others had long been defeated. Even Zhao Yongjun, who had always been calm, had slipped under the table.

Xia ruofei called for a waiter to arrange for them to rest in their respective rooms and told the waiter to look after them. Then, he left alone.

He declined the electric car arranged by the club manager and continued to walk alone along the lake path towards the small villa.

Under the influence of alcohol, Xia ruofei's steps were still a little weak. It felt like he was walking on cotton.

However, Xia ruofei quite enjoyed this feeling. He walked back to the small villa with uneven steps.

After scanning his fingerprint and entering the house, Xia ruofei circulated his essential Qi in his body. The remaining alcohol in his body was like ice and snow meeting the blazing sun. It melted in an instant, and his blurry eyes regained their clarity.

Xia ruofei took off his clothes that reeked of alcohol and threw them into the washing machine. Then, he went to the bathroom to take a hot bath and changed into a clean bathrobe.

At this moment, Xia ruofei felt that all the fatigue in his body had disappeared. Drinking and chatting with his buddies had allowed him to fully relax his mind. He was in a good condition now.

Hence, he sat down and continued to practice the inscribing of the Taixu xuanqing formation's core array disc.

When Xia ruofei returned to the villa, it was around 2:30 in the afternoon. He practiced for another three to four hours and only stopped when it was past 6:00. The sky had already turned dark.

Xia ruofei stood up, a satisfied smile on his face.

Apart from drinking with Zhao Yong Jun and the others, he didn't do anything else the entire day. He just practiced carving the core array disc.

This kind of practice was very boring. The continuous repetition and polishing process was quite boring. However, Xia ruofei always maintained his focus and the effect was very obvious.

Now that he was using his spiritual power to simulate the entire inscribing process of the core array disc, there were basically no obvious mistakes. Some of the difficult parts could also be done smoothly.

Xia ruofei decided to start inscribing the array disc tonight.

He didn't even go out to eat. Instead, he took out a box of instant noodles from the medium and had a simple meal. Then, he began to set up.

The first thing Xia ruofei did was to check the entire house again to make sure that all the doors and windows were locked and the curtains were drawn.

Then, he set up a simple trapping array. If any uninvited guests were to break in, they would most likely be trapped in circles on the spot, unable to get near his room.

In the end, Xia ruofei set up a security formation at the door as usual. This was the last line of defense. Once someone touched this formation, Xia ruofei would be able to detect it immediately and respond at once.

After setting up the protection, Xia ruofei walked into the room with the densest spiritual Qi.

After he locked the door, he summoned the spirit map scroll from his palm and entered the space.

The actual carving of the core array disc would take much more time than practicing. Furthermore, it could not be disturbed. Hence, Xia ruofei naturally chose to complete it in the spirit map space.

Xia ruofei had set up the formation in the villa himself. He checked the villa several times with his spiritual power and confirmed that there was no monitoring equipment. It was safe here, no worse than the courtyard in liuhai Lane.

In addition, there was a warning array and a trap array at the door, so Xia ruofei could use the spirit map space in this room without worry.

After entering the Archean realm, Xia ruofei crossed the Jade Bridge beside the spirit pond and came to the empty space in front of the Linglong Pagoda. Then, with a slight thought, a Jade futon and a few processed Jade plates flew over and floated in front of him.

Chapter 2696 Formation of the disk array_2

Xia ruofei placed the Jade futon on the ground and sat down cross – legged.

Xia ruofei had asked Li Yifu to prepare these Jade plates in advance. There were three in total. These Jade plates were also the most expensive items on the list.

To inscribe the core array disc, one Jade disc was enough. The reason why he had prepared three was to prevent any mistakes that might destroy the Jade disc. He would have no place to look for it at the moment.

Xia ruofei placed the three Jade plates aside and took a large bucket of water from the spiritual pond. Whenever he felt that his spiritual power could not continue, he had to drink the water to speed up the recovery of his spiritual power.

The preparation work was done. Xia ruofei reached out for a Jade plate and placed it on his lap.

Xia ruofei took a deep breath. Then, without much hesitation, he stretched out his finger and drew a line on the surface of the Jade plate. A mysterious arc was drawn on the inside of the Jade plate ...

As time passed, Xia ruofei's drawing speed was very stable. It was neither fast nor slow. One by one, the formation patterns appeared inside the formation disk. Each arc seemed to be full of spirituality.

After more than five hours, when the carving of the array disc was more than two – thirds done, there was a slight cracking sound. Xia ruofei's movements suddenly stopped, and then a bitter smile appeared on his face. He thought that there was a problem with the carving this time.

Xia ruofei stopped immediately. The ethereal array disc had a crack and could no longer be used. In other words, the five hours of non – stop effort had been in vain.

However, Xia ruofei was not discouraged. In fact, he already knew what the problem was when he made that stroke.

It wasn't that there was a mistake in his technique or that he didn't control his strength properly. It was just that when he was carving this array pattern, an array pattern more than a hundred steps ago had clashed with it. The aura had been thrown into chaos and the energy carried by the array pattern had also started to run amok, finally causing the array disc to crack.

In other words ... The design of the core formation plate might have to be changed.

Xia ruofei couldn't help but frown. Every array pattern in the core array disc was determined by him after repeated deliberation. If there were any problems in the design, it would be a big change.

However, Xia ruofei did not panic. He rested for a while to calm himself down.

Then, he began to analyze the design of the core array disc and took out a piece of paper to deduce.

Gradually, Xia ruofei's brows relaxed. He realized that the design did not need to make any major adjustments or change the other materials to solve the problem of the aura conflict.

Of course, whether it was effective or not still needed to be tested in practice. Otherwise, no matter how perfect the theoretical deduction was, there might still be problems in actual use. Just like the array pattern just now, it would never be discovered without really testing it.

What Xia ruofei had changed was the order of drawing the array patterns. Since the two array patterns were in conflict, he might as well change their relationship.

Of course, this wasn't as simple as just switching the order of the two array patterns. The array board was interlinked, and after adjusting one place, there might be many array patterns that were related to it that needed to be adjusted in order.

Xia ruofei quickly did calculations on the draft paper. After about an hour, he confirmed the plan for adjusting the array pattern order.

The next step was to verify it.

Xia ruofei looked at the remaining two Jade plates and took a deep breath. He picked up one of the Jade plates and started to carve.

Was the last – minute adjustment rigorous? Would changing the order cause a greater clash of auras? Everything was unknown and could only wait for the test.

Besides, Xia ruofei had only brought three Jade plates with him this time. One of them had cracked, and there were two left. If there was another problem with this one, the only Jade plate had to succeed. Otherwise, the entire plan would be greatly affected.

Hence, Xia ruofei was under a lot of pressure.

However, once he entered the state of drawing the formation, Xia ruofei would not have any distracting thoughts. He would only put his heart and soul into drawing the formation.

Time passed by, and another five hours had passed.

Xia ruofei finally arrived at the location where the aura had clashed. His speed did not change at all and his hand was surprisingly steady. Without any hesitation, he drew it.

This was the first array pattern that he had changed the order of, and it was perfectly engraved on the array board.

Even though the formation had yet to take shape, this formation pattern fell down very steadily without any change in its aura.

This made Xia ruofei relax a little. He continued to work hard and carved it step by step.

Finally, he finished inscribing all the array patterns that he had adjusted. If it was the same situation as the last Jade plate, the Jade plate might not be able to withstand the constant conflict of the Qi field and eventually crack.

This time, he was about two – thirds through the process, but everything was still very stable. There were no accidents.

Xia ruofei was slightly happy. It seemed that his modification was a success.

He didn't have the time to celebrate, and very quickly, he threw himself into the carving of the next array pattern.

The difficulty of the remaining one – third was increasing, so Xia ruofei had to be more careful.

After another four hours, Xia ruofei finally finished the last stroke.

Then, he almost collapsed on the bed. Although the carving process seemed calm, there were actually all kinds of hidden stimuli in it. There were two or three times when he almost collapsed. Fortunately, with his own experience and understanding of the Taixu xuanqing formation, he finally completed it smoothly!

Xia ruofei quickly used his spiritual power to check and found that there were no mistakes in the lines of the array in the core array disc. Even the strength and depth of each line were similar. It could be said that his control of power had reached the peak in the process of carving.

At this moment, Xia ruofei was sure that he had successfully completed the inscribing of the core array disc!

However, Xia ruofei did not plan to rest.

First, he sat on the Jade futon to rest for a while, allowing his mental and physical strength to recover. The two array discs in front of him had already taken him fifteen to sixteen hours. Even if he was a cultivator, maintaining such a long period of high concentration was very tiring.

When he felt that he had almost recovered, Xia ruofei immediately picked up the third and last Jade plate.

Using his finger as a knife, he carved the first formation pattern on the last Jade plate without hesitation.

It was followed by the second, the third ...

A total of 2659 array patterns were densely distributed within the Jade plate.

This carving process took more than nine hours. When Xia ruofei carved the last array pattern, he finally revealed a satisfied smile. The third array disc was also successfully carved!

Two successful formation disks, one for the main and one for the backup, would be foolproof.

Xia ruofei used his spiritual power to check and found that the second time, the quality of the array disc was higher. Perhaps it was because he had the experience of the first success, but his proficiency level had increased. Many of the array patterns seemed to fit the great Dao more.

Of course, the first array disc was also qualified and had no problem using it for the Taixu xuanqing formation.

Moreover, when Xia ruofei's cultivation level increased and he had more resources, he could change the core disk array, including the materials used to set up the array on Peach Blossom Island. He might even change the design of the core disk array.

After all, with different cultivation levels, one's understanding of formations would also be different.

At that time, the power of the formation would naturally become even greater and stronger.

But now that he was using this core array disc to activate the Taixu xuanqing formation, he should be able to deal with the current crisis.

...

Xia ruofei smiled in satisfaction and left the space.

As for the core formation plate, he naturally left it in the spatial Rift. There was no place safer than this place.

Xia ruofei washed up and went back to his room to rest.

He had to conserve his energy to better deal with the meeting with Wang Boshan and that martial uncle Zheng tomorrow.

Chapter 2697 The two sides meet (1)

The next morning, Xia ruofei had breakfast at the clubhouse and rested for a while. At around 9 am, he asked the staff to prepare a car for him and left the clubhouse.

Xia ruofei drove to the private kitchen where he used to hang out with Zhao Yongjun, song Rui, and the others.

In fact, if one wanted to be safe, it was definitely the safest to arrange for them to be in the Paradise gathering. However, the Paradise gathering's territory was also set up with an array, and that martial uncle Zheng who was traveling with Wang Boshan was very likely to be Zheng Yongshou, who had the deepest understanding of array techniques in the star Seizer sect. If they were to meet at the Paradise gathering, it was very likely that the other party would be able to see through the existence of the array.

Hence, Xia ruofei could only settle for the second – best option and chose the private kitchen of the royal family as the meeting place.

Xia ruofei personally went to the royal family's private kitchen and reserved the most luxurious private room. This was an independent small courtyard. Once the door was closed, no one would disturb him.

He asked the private restaurant to prepare a table of food and wine for lunch, and then asked the waiter to take him to the independent courtyard called green bamboo pavilion.

When they arrived at green bamboo pavilion, Xia ruofei said to the waiter, ""I'm going to take a look at the environment here. It might take a little long. You don't have to accompany me. I'll look for you if I need anything."

Although the waitress felt that it was a little strange that it took a long time to look at the room, the customer was God, and his request was very reasonable, so she didn't say anything and nodded. ""Alright! Sir, if there's anything you need, or if you want to change a private room, you can directly call the front desk with the phone in the private room. "

"Alright! Thanks a lot!" Xia ruofei smiled.

After the waiter left, Xia ruofei looked around the small courtyard. He even used his spiritual power to check it carefully.

Then, Xia ruofei used his spiritual power to spread out. After making sure that no one was spying on them, he raised his hands and rays of light shot out from his palms. In a flash, they disappeared into the garden, grass, and potted plants.

In the end, Xia ruofei flipped his palm and a warm jade stone appeared in his palm.

If a cultivator were to see it, they would definitely be able to see that this jade stone, which seemed to be traceless on the outside, was actually filled with dense and profound array patterns on the inside.

Xia ruofei's spiritual power penetrated the Jade slightly. A murderous aura suddenly rose in the courtyard, hiding an invisible killing intent.

Xia ruofei's face showed a trace of satisfaction. He withdrew his spiritual power from the Jade, and the murderous aura immediately disappeared.

After making all the arrangements, Xia ruofei felt more at ease.

He had set up a small – scale deathtrap array in the courtyard, but he had not activated it yet. All the array foundations were carved out of Jade and hidden in every corner of the courtyard. The core of the array was the Jade in his hand.

As long as Xia ruofei did not input his spiritual power to activate the array, everything would be the same as usual. Even if senior uncle Zheng was an expert in array, he would not be able to discover it.

Besides, according to Xia ruofei's judgment, Wang Boshan and junior uncle Zheng definitely did not realize that he was also a cultivator. Otherwise, they would not be like now, hoping to negotiate and buy the Paradise Island with money. The significance of the Paradise Island to cultivators was huge. If it fell into the hands of cultivators, it would be impossible to buy it with money.

Hence, Xia ruofei thought that Wang Boshan and that martial uncle Zheng would not be too guarded against him and would not notice the Jade array Foundation scattered in the hidden corner of the courtyard.

Of course, Xia ruofei was only doing this for a rainy day.

Although his cultivation had already reached the ninth level of the aura refining realm, and the star Seizer sect would only be able to match or even surpass him if they sent out experts of the same

generation as Luo Qingfeng, he had never dared to underestimate the foundation of a cultivation sect. Perhaps these people had some unexpected skills. In addition, he basically had no experience in fighting between cultivators. If he did not make more preparations and really fell out with them, he might not have the confidence to win.

He had set up this trap and kill array in preparation for the worst possible scenario.

By then, Xia ruofei would only need to jump into the courtyard from the private room and he would be basically invincible.

He had already observed in advance that there was a Xuan window on the left side of the master's seat in the private room. When needed, this kind of exquisite Xuan window did not need to be opened at all. He could just hit the Xuan window and directly jump into the courtyard.

The other party would definitely chase after them, and when the trap & kill array was activated, it should have no problem dealing with Qi condensation cultivators.

However, if it was not necessary, Xia ruofei would definitely not choose to make a move here.

After all, this was the capital. The commotion caused by a battle between cultivators would not be small. If it were to be stirred up, it might spread to the whole city, and it was very likely to reveal his identity as a cultivator.

Therefore, in Xia ruofei's plan, the location of the attack was still Peach Blossom Island. The current arrangement was just a plan for failure before the victory.

Xia ruofei checked again before walking out of the courtyard of green bamboo pavilion.

He confirmed with the private restaurant that he wanted to go to green bamboo pavilion and told them not to serve the dishes or let the waiters enter the courtyard when the guests arrived. He would call them when he needed them.

Chapter 2698 The two sides meet (2)

The Wang family's private restaurant was also a very high – Class private restaurant in the capital. Ordinary people could not afford to eat such expensive dishes, so the people who came here to spend were either rich or noble. When everyone gathered together to eat, most of them wanted to use the meal to discuss some things, or to make friends and so on. The requirements for privacy were very high.

Hence, the staff at the private restaurant was not unfamiliar with Xia ruofei's request and was not surprised. They agreed with a smile without hesitation.

After Xia ruofei walked out of the private restaurant, he did not leave. Instead, he got into the Mercedes – Benz that he had driven over from the peach blossom gathering. He had set up an array in the courtyard of green bamboo pavilion. He could not leave at ease now. If the service staff accidentally touched the array, all the previous arrangements would be in vain.

This kind of simple array formation, under the circumstances of being drawn but not released, had no power at all. The array base was just a simple jade stone at this time, and ordinary people could also destroy it.

Xia ruofei's car was parked near the backyard, so he could easily monitor the situation at green bamboo pavilion with his spiritual power.

Xia ruofei adjusted the back of the driver's seat to the maximum and lay down in the car. He kept a part of his spiritual power monitoring the situation in the courtyard.

At the same time, Xia ruofei was multitasking. He took out his phone and texted Wang Boshan, telling him the time, place, and room name for lunch.

Obviously, Wang Boshan had been waiting for Xia ruofei's message all morning. After this message was sent, he replied in seconds, ""Received! Thank you, President Xia, for taking the time out of your busy schedule to meet us. We'll be there on time!"

Xia ruofei glanced at Wang Boshan's message and threw his phone on the passenger seat. Then, he closed his eyes to rest.

Xia ruofei chose to stay in the parking lot of the Wang family's private kitchen for another purpose. He wanted to see if Wang Boshan and uncle Zheng had any ill intentions towards him.

If Wang Boshan and martial uncle Zheng really wanted to deal with him, they might have come over in advance or sent people over to make some arrangements. Naturally, all of this could not escape Xia ruofei's spiritual energy.

Time passed by slowly.

Waiting was actually a very boring thing. However, Xia ruofei had received special stealth training when he was in the Army and was very patient. He was not impatient at all. As he used his mental power to monitor the surroundings, he even found a novel on his phone to read.

It turned out that Xia ruofei's previous worries were unnecessary. There was nothing unusual in the area the entire morning.

Xia ruofei looked at his wrist and realized that it was already past 11 O' clock. He had agreed to meet Wang Boshan at 11:30 in the morning. It should be about time since Jian Jia was the host. He must have arrived at green bamboo pavilion earlier.

Hence, Xia ruofei opened the car door and went back to the king's residence's Green bamboo pavilion private room.

As Wang Boshan and uncle – Master Zheng could appear at any time, these two were real cultivators. To avoid being discovered by them, Xia ruofei also retracted his spiritual power. Now, his divine light was restrained, and from the outside, one could not tell that he was a cultivator.

In fact, Xia ruofei had also done some research on this matter. It was almost impossible for people with lower cultivation levels to see the exact strength of people with higher cultivation levels. On the other hand, people with similar cultivation levels could more or less detect it under normal circumstances.

However, this was only under "normal circumstances". Xia ruofei did not belong to this "normal situation". The "great Dao Sutra" that he cultivated was a top – tier technique. Naturally, the genuine Qi He cultivated was extremely pure. The more advanced the technique was, the more natural it would be

after cultivation. Hence, even if someone had the same cultivation as Xia ruofei or even slightly higher than him, they would not realize that he was actually a cultivator.

However, it was easy for Xia ruofei to see through his cultivation.

Of course, this was the information provided by the cultivation classics. Whether it was accurate or not, it still needed to be tested in practice. Today was a good opportunity.

Xia ruofei sat quietly on the guest sofa in the private room, holding a covered cup of tea in his hand and taking a sip from time to time.

He waited for another ten minutes or so before he heard footsteps coming from outside.

Then, there was a light knock on the door. Xia ruofei said, "Please enter!"

The waiter opened the door and Xia ruofei immediately saw two people behind the waiter. The younger one was Wang Boshan, who was no different from the photo in the information. As for the other old man, just as Wu Qiang had reported, he was still wearing a faded dark blue long shirt.

After Wang Boshan entered the house, he looked around and immediately locked his eyes on Xia ruofei who was drinking tea. He put on a warm smile and walked two steps forward, "You must be President Xia! I've long heard of your great name! I've long heard of your great name!"

Xia ruofei replied neither haughtily nor humbly, "CEO Wang, you're too kind ... How can my small company be compared to stars Corporation?" If we're talking about names, it's chief Wang who's the most famous!"

Wang Boshan laughed and said, "director Xia, you're too humble. Nowadays, it's all about internet celebrities. Popularity is the most important thing!" President Xia's popularity, I can't even catch up with it!"

After exchanging a few pleasantries, Wang Boshan pointed to the old man in the dark blue long robe beside him and said, "President Xia, let me introduce you to an elder of mine. This time, it's mainly the two of us who will be talking to you."

"I'm Zheng Yongshou." The blue – robed elder said indifferently, "you can call me Mr. Yongshou or Mr. Zheng."

Xia ruofei thought to himself, "this junior uncle Zheng is indeed Zheng Yongshou!" It seemed that the star Seizer sect was really taking this matter very seriously!

Although his mind was racing, Xia ruofei's face was still smiling. "Welcome Mr. Zheng!" He said.

After everyone had taken their seats, Xia ruofei said, "Director Wang, I've already cleared out all the unrelated personnel. Can you tell us what this billion – dollar business is for now?"

Wang Boshan said with a smile, "President Xia, please calm down!" Since we're here, we're definitely going to tell you everything!"

Zheng Yongshou also squeezed out a smile and said, "I'm sure you'll be interested in this business deal."
"

Although Zheng Yongshou was chiming in from the side, his tone was somewhat stiff, making people who heard it feel uncomfortable.

Wang Boshan smiled wryly at the side. He almost shouted out to let this martial uncle Zheng be a spectator at ease, so as not to offend people the moment he opened his mouth.

To Wang Boshan's relief, Xia ruofei did not show any anger. Instead, he said with interest, "Oh, really? Then I'm all ears!"

Wang Boshan looked at Zheng Yongshou, and after seeing Zheng Yongshou nod slightly, he said, "President Xia, to tell you the truth, our company has taken a fancy to your Qingyun Island ... It should have been renamed to Peach Blossom Island by now. Our company hopes to develop Peach Blossom Island into an international tourist Island, so we hope that President Xia can part with it! Of course, we won't let President Xia suffer any losses. "

At this point, Wang Boshan paused and looked at Xia ruofei, "We're willing to buy Paradise Island from you for three billion US dollars. As far as I know, this Paradise Island didn't originally belong to President Xia. It was a gift to you. Instead of continuing to invest in development, it's better to cash it out directly. That's equivalent to you making three billion dollars for free!"

Xia ruofei smiled and said, "So, director Wang wanted to talk to me about the Peach Blossom Island?"

"It is!" Wang Boshan said sincerely, "I hope President Xia will part with it!"

Xia ruofei stood up and said, "if CEO Wang's several billion US dollars business is to buy my Paradise Island for three billion, then there's no need to talk about it. I only have three words to say. No way!"

Wang Boshan and Zheng Yongshou's expressions changed slightly. They had expected that Xia ruofei might not agree readily, but they did not expect Xia ruofei to reject so firmly.

The two of them had the same thought at the same time: Could it be that ... He had already discovered the extraordinariness of the Paradise Island?

Chapter 2699 The fish bites the hook (1)

Just as Wang Boshan and Zheng Yongshou were bewildered, Xia ruofei's eyes flashed with a trace of disdain. He said indifferently, "Back then, I had three choices. I won't talk about the other one, but one of the two choices was the ownership of Paradise Island, and the other was three billion US dollars. I chose the former. "

Speaking of this, Xia ruofei revealed a playful smile and looked at Wang Boshan, "Mr. Wang, if I wanted 3 billion dollars, would I need to go through so much trouble to get Peach Blossom Island and then transfer it to someone else? I've also spent a lot of time, manpower, and resources on this. It's not like there's a hole in my brain ..."

Although Xia ruofei's tone was sarcastic and his words were not pleasant to hear, Wang Boshan secretly heaved a sigh of relief.

It turned out that he was complaining about the lack of money! Wang Boshan said in his heart.

As long as Xia ruofei was willing to talk about money, it would be great news. To the star Seizer sect, the stars Corporation was just an external organization in the secular world. The purpose of making money was also to exchange for cultivation resources.

At present, what cultivation resource could be more precious than the Paradise Island?

As long as they could take down Peach Blossom Island, the star Seizer sect would not hesitate to give Xia ruofei the entire stars Corporation, let alone the money. They would even think that they had taken advantage of Xia ruofei and would probably laugh at him even when they were sleeping at night.

Of course, Wang Boshan could not do something like that. There must be something wrong with anything out of the ordinary. If he had proposed to use stars Corporation to exchange for the peach Garden Island, even if Xia ruofei was not smart, he would definitely think that the peach Garden Island had a special value that he had not discovered. On the contrary, it might be a rare commodity and he would not want to sell it rashly.

Therefore, the price that Wang Boshan proposed at the beginning was basically in line with the market rules.

He and Zheng Yongshou weren't afraid of Xia ruofei's exorbitant demand. They were more worried that Xia ruofei wouldn't even talk about money and would be determined to keep Paradise Island in his hands.

After all, Xia ruofei was a successful person with financial freedom. No matter how much money he had, it was just a number. And Xia ruofei was so young. Perhaps he liked the feeling of being the island owner? Moreover, with such a large private island, how much face would he have in front of his friends?

As for the money, so what if it was three or four billion more? How much money could a person spend in their lifetime?

Fortunately, Xia ruofei didn't make it a definite statement. Instead, he revealed that he had given up on the three billion USD and chose the peach source Island.

From Wang Boshan's point of view, there was room for discussion!

Wang Boshan quickly said, "director Xia, I really don't know the situation you're talking about." If that's the case, it's indeed not appropriate for us to offer 3 billion USD ... However, our stars Corporation is preparing to start a big tourism project in the South Pacific island, and Paradise Island happens to be an indispensable part of our plan. As long as we can get the development and ownership rights of Paradise Island, the price can still be negotiated!"

Xia ruofei said indifferently, "CEO Wang, I'm not short of money. I can say that I have more than ten lifetimes worth of money. Besides, my company is making money for me every second." To tell you the truth, I quite like the Paradise Island. The air, the sun, the sand, the sea ... These things can't be bought with money."

"3.5 billion US dollars!" Wang Boshan said directly, "director Xia, everything has a price. The peach source Island is no exception. For the sake of the company's grand strategy, I'm willing to offer a premium on the basis of the valuation."

When Wang Boshan said this, he gave Zheng Yongshou a look, signaling him to calm down, then he continued, "Of course, we are very clear about President Xia's net worth. We also know that President Xia has so much money that he can't finish spending it. However, 3.5 billion USD isn't a small amount. I don't think anyone would complain about having too much money, right? With 3.5 billion USD, President Xia can definitely buy an Island with a much better environment than Paradise Island. There are many such islands in the South Pacific Ocean that can be bought as long as you have the money. "

Xia ruofei knew that the time was right. If he continued, it would be too much.

Thus, he revealed a slightly moved expression, as if he had been struggling in his heart. Finally, he revealed a helpless expression and asked, "Mr. Wang, can you guys afford that much cash?"

"Don't worry about that, President Xia!" Wang Boshan smiled and said, "I'm sure you know the strength of stars Corporation, President Xia. Although 3.5 billion US dollars is a lot, we can still raise it in a short time. And ... If the money isn't in place, President Xia won't transfer the ownership of Peach Blossom Island to us, right?"

Xia ruofei said, "since you have so much money, just like what you said, CEO Wang, you can totally buy an Island much better than Paradise Island!" Why did he have to spend so much money to buy Paradise Island? This doesn't make sense!"

Wang Boshan and Zheng Yongshou's hearts trembled. They knew that Xia ruofei was not an easy person to deal with. Qianqian was able to have such a career at this age. She was not easy to fool. If they were not careful, they would give themselves away.

Fortunately, before Wang Boshan and Zheng Yongshou came out, they had already discussed what to say.

Therefore, Wang Boshan did not panic at all. He said with a smile, "President Xia, as I said just now, it's mainly for the sake of our company's overall strategy. The peach Garden Island and the nearby islands are all part of our company's development plan. The geographical location and scenery of Peach Garden Island are irreplaceable. Without this link, the entire Tourism Development Plan will be missing a key element, which means that the whole project will be useless. It's for this reason that we're willing to buy it from you at such a high price. I'm sure you're well aware of the market value of Peach Blossom Island, President Xia. The price we're offering is definitely the highest. Even if you want to sell it in the future, you won't be able to sell it for a higher price than this. "

Chapter 2700 The fish bites the hook (2)

Xia ruofei nodded casually, agreeing with Wang Boshan's point.

Wang Boshan and Zheng Yongshou looked at each other, and then asked tentatively, "President Xia, then ... Can you part with your love?"

Xia ruofei frowned and said, "Director Wang, I like peach source Island very much too ... You guys ... You're making things difficult for me ..."

Wang Boshan was secretly pleased with himself. He knew that when his opponent revealed such an expression, it basically meant that he was very close to success.

Wang Boshan could not help but shiver at the thought of the rewards he would receive from the sect after he obtained the Paradise Island.

In order to strike while the iron was hot, Wang Boshan pondered for a while and said, "We'll add another 100 million dollars! The total price was 3.6 billion US dollars! President Xia, this price is already too high, and it's also our bottom line ... If we add more money, our entire project's capital structure will be destroyed, and the reconstruction of the other islands will also be affected. The company's Board of Directors will definitely not agree!"

After he finished speaking, Wang Boshan looked into Xia ruofei's eyes, trying to get some information from his expression.

There was a flash of greed in Xia ruofei's eyes, and then it was replaced by a conflicted expression.

But Xia ruofei's conflicted expression, according to Wang Boshan's own judgment, was more of an act. However, when he heard the figure of 3.6 billion USD, the greed that flashed in Xia ruofei's eyes should be his true thoughts.

As expected, after much hesitation, Xia ruofei finally nodded reluctantly and said, "Since you're so sincere, it'd be rude of me to reject you ... How about this? I agree to this in principle, but I can only make a verbal agreement with you. As for the change of ownership, I'll naturally take care of it after you transfer the money to my personal account. "

Zheng Yongshou couldn't help but say, "A verbal promise? After all that talk, he couldn't even sign a contract? Wouldn't that be a waste of time?"

Wang Boshan quickly replied in a low voice, "Martial uncle Zheng! Don't be rash ..."

Then, Wang Boshan immediately explained to Xia ruofei, "President Xia, don't be angry! My uncle is too impatient, and ... I personally think that a paper agreement is more secure ..."

Xia ruofei seemed to be a little unhappy. He looked at Zheng Yongshou with dissatisfaction, then said, "You guys don't understand the process of transferring ownership of the Peach Blossom Island. In principle, the ownership of this Island is not allowed to be transferred. The Liu family transferred it to me in the name of gifting it to a junior of the family. I still need to go to the officials of the agate to coordinate this matter. It's useless for me to sign the agreement before it's settled! And even if the agate map agreed, the change of ownership also required both the buyer and the seller to be present at the same time to deal with it. If you take the agreement with you, they won't admit it at all! Since you don't trust me, then this business is over!"

Wang Boshan quickly said, "President Xia, please calm down!" President Xia, please calm down! That's not what we meant ... My uncle is just a little anxious. After all, this project is too important to stars Corporation. "

When Wang Boshan spoke, his face was filled with sincerity, especially the last sentence. It came from the heart, so it seemed even more sincere.

Xia ruofei then pretended to be angry and said, "Doing business is all about integrity. Only with mutual trust can cooperation succeed. Besides, my company in China is so big, do you think I can just run away?"

“Yes! Yes! Yes!” Wang Boshan quickly replied, “of course, we trust you! Then ... We’ll do it according to the plan you proposed, President Xia! We ... Will pay you a deposit first ...”

“Let’s forget about the deposit!” Xia ruofei waved his hand and said, “I’ve already said that the success of this matter depends on the attitude of the officials of the agate. Besides, trust should be mutual, right?”

“Yup! You’re right, President Xia!” Wang Boshan said, “then how about we have a gentleman’s agreement?”

Xia ruofei nodded and said, “I agree!” I can guarantee that under the same conditions, I will have the priority to cooperate with your company! And I believe that it won’t take too long to coordinate with the officials of the agate, so the trade should be ready in three to five days at the latest!”

“That’s great!” Wang Boshan said excitedly, “Mr. Xia, I wish us a happy cooperation!”

Wang Boshan raised his cup and gestured to Xia ruofei.

Xia ruofei also smiled and picked up his glass. He clinked his glass with Wang Boshan’s and the two of them drank at the same time.

After they finished their business, they naturally started to chat about other things. Xia ruofei had been very cautious and did not let the other party see any flaws.

During this meeting, Xia ruofei had another result. He had previously summarized, sorted, and integrated all the theories about cultivation. Today, he had also partially verified it. At least, Wang Boshan and Zheng Yongshou did not realize that Xia ruofei was a cultivator, but Xia ruofei could see through their cultivation at a glance.

The lunch lasted for more than an hour, and both the host and the guests were happy.

It was mainly Wang Boshan who was looking for topics to chat with Xia ruofei. Zheng Yongshou, who had a higher status than Wang Boshan, seemed to be the kind who spent most of his time cultivating in the sect and was a little dull.

Xia ruofei took the initiative to chat with Zheng Yongshou. The other party’s reply was also very concise, as if he didn’t want to talk to Xia ruofei anymore.

In fact, this was also an agreement between Wang Boshan and Zheng Yongshou in advance.

It couldn’t be helped, Zheng Yongshou rarely walked in the secular world, and he knew too little about the ways of the world, so his emotional intelligence was really too low. It was easy to offend people when he spoke, so this matter was mainly left to Wang Boshan to deal with.

At first, Zheng Yongshou didn’t think much of it, but after the negotiation just now, he agreed with Wang Boshan’s point of view. According to Zheng Yongshou’s temper, he might have asked for a high price of four to five billion US dollars in the beginning, hoping that the other party would agree immediately. The facts proved that Xia ruofei was not a person who only saw money. He was very vigilant. If they had followed Zheng Yongshou’s idea, Xia ruofei might have noticed something was wrong long ago.

The other thing was about the verbal agreement. Zheng Yongshou almost messed up the matter once he opened his mouth, so he also realized that he was lacking in this aspect. He simply drank most of the time and watched Wang Boshan and Xia ruofei exchange toasts and pretend to be polite.

After lunch, Wang Boshan and Zheng Yongshou got up and left.

The two agreed to keep in touch for the next few days, and Xia ruofei also said that he would immediately leave for Peach Garden Island to deal with the official authorities of the agate. Once the agate had no objections, he would inform Wang Boshan to transfer the money. At the same time, both parties would go to the agate to complete the transfer procedures.

Although they didn't put the agreement on paper, and Wang Boshan and Zheng Yongshou were more or less a little uneasy, but overall, the purpose of this meeting had been achieved. They were in a good mood when they left.

Xia ruofei was in an even better mood because everything was going according to his plan.

In addition, through this somewhat risky contact, he was certain that as long as he didn't actively reveal his cultivation, Qi condensation cultivators basically wouldn't be able to see that he was a cultivator.

In fact, other than the fact that his cultivation technique was more advanced and the purity of his true Qi was far higher than that of ordinary cultivators, there was another important factor. His mental power cultivation had already broken through to the spirit gathering realm, which was equivalent to a golden core cultivator. This also helped him to hide his cultivation.

After Wang Boshan and Zheng Yongshou left, Xia ruofei removed the trap & kill array in the courtyard and left quickly after paying the bill.

He didn't waste any more time and immediately informed Liu An to apply for a flight route. They would fly to Paradise Island today, and it was just in time to carry out the next step of the plan.

Everything was going very smoothly. This time, Xia ruofei could return to Paradise Island openly and proudly.
