### Chapter 2711 Falling into a trap (1)

As a Qi refining Level 7 cultivator, Zheng Yongshou's hearing was very strong. Moreover, Wang Boshan did not deliberately avoid Zheng Yongshou, so he naturally heard the contents of the phone call.

"It seems ... Something we don't want to see has indeed happened. Tell us your judgment!" Zheng Yongshou said with a gloomy face.

Wang Boshan nodded and said, "martial uncle Zheng, I think the rainbow light benilatti mentioned should be the birth of a spiritual object!" Otherwise, Xia ruofei would not have changed his mind without any warning! Moreover, the last detail that benilatti mentioned was also worth paying attention to. He said that he felt that the air on the island had become a lot fresher, and he felt very comfortable. This is clearly the most intuitive feeling that ordinary people have when they are in a place with rich spirit energy!"

Zheng Yongshou nodded and said, "these are all obvious clues. The key question now is ... How did Xia ruofei get his hands on the spiritual object that came into being so easily? he could even confirm its value and tear up the agreement with us without any hesitation?" Could he be a cultivator?"

Wang Boshan pondered for a while and said, "The possibility of this person being a cultivator is almost zero! After all, we've both come into contact with him face to face. If he's a cultivator, it's impossible for us not to notice him at all. With his age, even if he was a cultivator, how high could his cultivation be? How could I have hidden it from your eyes?"

Zheng Yongshou slowly nodded and said, "Maybe I'm overthinking it ... The possibility of this person being a cultivator is very low."

"Yup! Junior uncle Zheng! If he was a cultivator, he wouldn't have needed to meet us, let alone give up the Peach Blossom Island." Wang Boshan said, "all the signs show that he was just lucky! We still don't know what kind of natural formation it is, but perhaps the spiritual objects that come into being don't need any profound cultivation to be easily obtained!"

Zheng Yongshou said thoughtfully, "there is such a possibility!" Also ... Even that benilatti could feel the changes brought about by the spiritual energy. This means that he can't stop the spiritual energy from leaking out from that Fey. This also confirms that this kid is an ordinary person!"

"Yes, I am!" Wang Boshan said, "besides, benilatti only absorbed a little bit of the spiritual energy from the fey and he could feel it so clearly. This Xia ruofei has been in close contact with the fey for so long. He must have gained a lot! Also, didn't he send people to seal off the place where the spiritual objects appeared? I think this kid is treating the fey as a rare ore. He thinks that it's a mineral vein and wants to continue excavating more Feys! That's the only reason that can explain his 180 – degree change in attitude. He stopped the deal and didn't even want to talk about money. He's obviously determined!"

Zheng Yongshou coldly snorted and said, "that's most likely the case!" Hmph! This spiritual object just had to appear at this time of all times. It's really ruining our great plan!"

"Yup! "It's not that easy to change Xia ruofei's mind now ..." Wang Boshan said with a worried look.

Zheng Yongshou sneered and said, ""Boshan, are you still holding onto the fantasy of using your so – called commercial means to acquire the Peach Blossom Island? I advise you to wake up! The current situation was very clear! We can't use the common methods anymore, it's time to let that ant experience the methods of cultivators!"

Wang Boshan was silent for a moment, and his eyes revealed a trace of ruthlessness, ""Martial uncle Zheng, since this kid is determined to ruin our plan! Then we don't have to follow so many rules! In any case, that place is far away from the cultivation world and is just an isolated island. If we deal with it quickly, no one will find it!"

"It should have been like this long ago!" Zheng Yongshou stood up, "let's go! Let's set off now!"

"Junior Master Zheng, that Xia ruofei and the employees on the island are not a cause for concern." Wang Boshan hesitated for a moment before saying, "according to the situation we have, there are still international mercenaries stationed on Peach Blossom Island. These people are equipped with advanced modern weapons, and the defensive equipment on Peach Blossom Island is also very advanced. If we attack by force, I'm afraid ..."

"A bunch of useless chickens and dogs!" Zheng Yongshou said disdainfully, "besides, we're going with just the two of us, why do we have to attack? As for the mercenary group you mentioned, we can sneak in late at night and kill them all!"

"Martial uncle Zheng, you mean ... Just the two of us will go and seize the island?" Wang Boshan was stunned for a moment and asked, "don't we need to report to the sect leader and send more people?"

Zheng Yongshou sneered, "Boshan, you've really stayed in the secular world for too long, you're becoming more and more timid!" You're afraid of just a few dozen ordinary people and a group of so – called mercenaries?"

"Martial uncle Zheng ... It's not that I'm afraid, but shouldn't we ask the sect leader about this?" Wang Boshan said with a bitter smile.

Zheng Yongshou waved his hand and said, "how can we cultivators be so overcautious?" The sect leader has already given us full authority to deal with it. He only looks at the results! Besides, this matter is top secret. After you report back, the sect leader is unlikely to send reinforcements! Unless the old man came personally! Did he have to trouble the sect leader to deal with a few ordinary people? Wouldn't that make us look too incompetent?"

## Chapter 2712 Falling into a trap (2)

Speaking of this, Zheng Yongshou's face also revealed a strange expression, and said, ""And ... Boshan, do you really want someone to share our credit?"

The expression on Wang Boshan's face changed a few times. He gritted his teeth and said, ""Martial uncle Zheng is right! If it wasn't for the rules, we would've dealt with this long ago! Now that we've decided to use the methods of cultivators, a few ordinary people can't threaten us at all! There's no need for the sect leader to worry!"

"This is right!" Zheng Yongshou revealed a satisfied smile and said, "aren't you going to book the tickets?"

“Yes!” Wang Boshan quickly replied.

If Li Yifu saw this, he would definitely admire Xia ruofei even more. The development of the situation was almost exactly as Xia ruofei had expected.

Xia ruofei had even considered Zheng Yongshou’s headstrong character. The phone call to Wang Boshan seemed to be risky, but in fact, everything was under control.

Stars Corporation also had a public jet, but it was not so convenient to apply for a flight route, and it was impossible to land directly on Peach Blossom Island like Xia ruofei’s plane. Therefore, for Wang Boshan and Zheng Yongshou, the most convenient way was to take a civil flight. Even if they needed to transfer flights, one day was enough for the entire flight.

The two of them flew from the capital to Australia’s Brian and transferred two flights before finally arriving at Evarts Island, the capital Island of carnade, in the evening the next day.

For the past two years, Wang Boshan had been keeping an eye on the Paradise Island, which was still called green cloud Island at that time. He didn’t even care much about the business of Stars Group and left it to the professional managers below.

He’d been to Evarts Island for the past two years and had even bought a property there, so he was quite familiar with the situation here.

Soon, Wang Boshan rented a diesel – powered fishing boat. The rent he paid was so high that he could even buy a new fishing boat. His only request was that he had to drive the boat himself and not allow the boatman to follow him.

The boatman had so much money that even if Wang Boshan sailed the boat to the open sea and blew it up, he would not lose anything. Therefore, he naturally agreed without hesitation and handed the boat over to Wang Boshan.

After Wang Boshan and Zheng Yongshou made some preparations, they got on the fishing boat and sailed out of the civilian dock on the east side of Evarts Island, heading straight for Paradise Island.

It was still early, and the sun was hanging over the sea in the West, slowly setting.

Therefore, Wang Boshan and Zheng Yongshou did not directly attack Paradise Island. When the outline of Paradise Island gradually appeared in their sight, Wang Boshan turned off the engine of the fishing boat and threw the anchor.

Zheng Yongshou squinted his eyes and looked at the Peach Blossom Island in the distance. He said, “Boshan, to be on the safe side, we’ll sneak onto the island at midnight. We’ll take care of the ordinary people first, then deal with the mercenaries!”

“Alright, martial uncle Zheng!” Wang Boshan replied.

“After we get on the island, find a way to find your mole and give him more benefits so that he can lead the way for us!” Zheng Yongshou said, “after all, he is more familiar with the situation on the island.”

“Alright!” Wang Boshan said, “this guy is the most greedy. As long as we give him enough benefits, he will definitely work for us!”

“En!” Zheng Yongshou said indifferently, “after we take over the island, this person will be useless. We can just dispose of him at that time!”

“Alright, martial uncle Zheng!” Wang Boshan replied.

They didn’t take benilatti’s life and death seriously and thought it was a matter of course. Ordinary people were no different from ants in their eyes.

Moreover, this bainilatti actually dared to keep this rare commodity and continuously increase the price of the information. Wang Boshan had long wanted to deal with him.

“Martial uncle Zheng, which direction should we go to get on the island?” Wang Boshan asked.

Zheng Yongshou closed his eyes and thought for a while, then said, “Didn’t that benilatti say that the rainbow light would appear on the west side of the island? Let’s go to the island from the West! If he remembered correctly, there should be a cliff there. It was a natural barrier that normal people could not climb up. Xia ruofei would not have set up a strong defense in that direction. We can enter the island from that side without anyone noticing and check out the place where the spiritual object is born.”

“Yes!” Wang Boshan said.

Then, he took out some dry food and mineral water from his backpack and handed them to Zheng Yongshou respectfully.

The two of them had a simple meal and rested on the fishing boat.

Time passed by, and the fishing boat swayed gently with the waves on the sea. The two of them sat cross – legged on the deck. Although the world Energy was very mixed at this time, and they couldn’t cultivate at all, it was good to be able to close their eyes and rest. After all, it was quite exhausting to control so many ordinary people at night.

Finally, Wang Boshan saw that the hand on his watch had passed midnight. He said softly, “Martial uncle Zheng, it’s almost midnight.”

Zheng Yongshou opened his eyes and said, “Let’s go! Be careful not to get too close! To prevent the sound of the engine from exposing our whereabouts!”

“Yes!”

Wang Boshan started the engine of the fishing boat and headed in the direction of Peach Blossom Island.

When they were still 600 to 700 meters away from the west side of Peach Blossom Island, Wang Boshan turned off the engine of the fishing boat. Then he put down a small rubber boat at the stern, sat in the rubber boat with Zheng Yongshou, and rowed hard in the direction of Peach Blossom Island.

Although Wang Boshan’s cultivation was low, only at refined Qi Level 3, he was still a cultivator. Therefore, it was very advantageous for him to row the rubber boat. The speed of the small boat was very fast, and it silently headed towards the west side of Peach Blossom Island.

Soon, they arrived at the submerged reef area. Although the rubber dinghy was relatively small, it could not continue forward.

Therefore, Wang Boshan brought the rubber dinghy closer to a slightly larger reef, and jumped on the reef with Zheng Yongshou.

Wang Boshan also tied the rubber boat's rope to the reef. Although he felt that the rubber boat was most likely not needed, out of his habit of being cautious, he felt that he should leave a way out for himself. Otherwise, if he really had to leave Peach Blossom Island in an emergency, he could only choose to swim back to the fishing boat.

Wang Boshan and Zheng Yongshou's figures flew, using the reef that was exposed above the sea as a foothold, and quickly came to the bottom of the cliff.

The two of them looked at each other and nodded at the same time. Then, they quickly climbed up.

The cliffs here were hit by the waves all year round, and it could be said that not even a blade of grass grew here. It was impossible for ordinary people to climb up from here, but for the two cultivators, there was no difficulty. They grabbed the protruding parts of the cliff and climbed up very agilely. Their speed was so fast that even the top rock climbing Masters could not compare.

In a short while, the two of them had already flipped over the cliff.

Zheng Yongshou quickly glanced around and said in a low voice, ""There's no one here as expected!"

"Martial uncle Zheng, the spiritual Qi here is obviously denser than outside the island. It should be the spiritual Qi leaking from the spiritual objects!" Wang Boshan said.

Zheng Yongshou nodded his head, and his eyes revealed a trace of fire as he said, ""I don't know what kind of luck that kid Xia ruofei has to be able to get a spiritual item! However, the treasures should be kept by the virtuous. He's just an ordinary person like an ant. What right does he have to obtain the treasures?"

"Martial uncle Zheng, this kid was happy for nothing. In the end, he's still making a wedding dress for us!" Wang Boshan laughed.

Zheng Yongshou also revealed a rare smile and said, ""Let's go! Let's search to the East and see if we can find the place where the spiritual object appeared. If we meet anyone along the way, we'll knock them out and tie them up!"

Wang Boshan's backpack was mostly filled with ropes, which were used to tie people up.

The two of them lowered their bodies and sneaked toward the east side of the island.

The two of them walked for more than ten minutes, but they still didn't meet a single person. It was as if the entire Peach Blossom Island had become empty, and the surrounding environment was unusually quiet.

Zheng Yongshou suddenly stopped in his tracks and frowned. ""Wait! Boshan, why do I feel like something is wrong?"

## Chapter 2713 Falling down (1)

Wang Boshan was still immersed in the excitement and anticipation of making a great contribution and did not feel anything unusual. He saw Zheng Yongshou stop and couldn't help but say, "Martial uncle Zheng, I think it's quite peaceful ... It's impossible for them to discover us!"

Zheng Yongshou looked around and said with a serious face, "It's because it's too quiet that I feel something's wrong. In addition ... How long have we been walking?"

"How long?" Wang Boshan was stunned for a moment. He calculated silently and his expression changed slightly, "more than ten minutes!"

"How big is this Island? With our speed, we can cross the entire Island from the West to the East Coast in ten minutes! But what about us now?" Zheng Yongshou said.

Wang Boshan looked at the surrounding environment and looked at the distant buildings. He finally realized that something was wrong.

His voice trembled as he said, "martial uncle Zheng, we ... We seem to have been staying in the same place!" But ... We're walking in a straight line! Why ..."

"If I'm not wrong, we've already fallen into a very advanced formation!" Zheng Yongshou said with a serious expression.

"How is that possible?" Wang Boshan lost his voice, "with uncle-master's array Dao level, what level of array could make you fall into it without being aware? This ..."

Zheng Yongshou's face turned green as he said, "there's something strange about this Island!" We can't walk around aimlessly now ... Otherwise, we'll definitely sink deeper and deeper!"

"Martial uncle Zheng ..." Wang Boshan said in a trembling voice, "could it be ... That the natural array on this Island was suddenly activated?"

"Impossible!" Zheng Yongshou growled in a low voice, "I've observed this array from the outside. Although I can't be sure what kind of array it is, it's of a very high level! It was already a miracle that a natural formation of this level could take shape. How could it activate on its own? It must have been modified by a cultivator!"

"This ... This ..." Wang Boshan was confused after hearing it.

Zheng Yongshou said with a gloomy face, "Boshan, we've all been wrong!" That Xia ruofei...He's playing the pig to eat the Tiger!"

"You're saying ... He's a cultivator?" Wang Boshan looked as if he had seen a ghost and said, "that's impossible! We've all had direct contact with him! There's no trace of a cultivation aura on his body. "

"There's only one possibility, and that is that his cultivation has far surpassed both of us ..." Zheng Yongshou said in a deep voice.

"This is even more impossible! How old is he?" Wang Boshan said, "even if he started cultivating in his mother's womb, it's impossible ... It's impossible for him to have a higher cultivation than you!"

Zheng Yongshou also showed a trace of hesitation and said, ""Logically speaking, with his age ... The cultivation environment on earth was already very poor when he was born. No matter how talented he is, it's impossible for his cultivation speed to be so fast ..."

"Yup! Martial uncle Zheng, let's not scare ourselves!" Wang Boshan quickly said, "and you want to! If his cultivation base is really far beyond ours, why would he go through so much trouble? He could have taken us down a few days ago in the capital ..."

"But, this place is indeed strange, and it's very likely to be a trapping array ..." Zheng Yongshou said with a frown.

Wang Boshan thought for a moment and said, "martial uncle Zheng, do you think there's such a possibility ... There were cultivators who lived on this Island many years ago. Was this array left behind?" It's not the natural formation ..."

As Wang Boshan spoke up to this point, he suddenly recalled the rainbow light that Benilatti had mentioned and quickly added, ""Also, didn't Benilatti say that there was a rainbow light the day before yesterday? Could it be that the birth of a spirit item triggered this formation? According to him, the fey appeared around here. Xia Ruofei might have been lucky not to get caught up in it, and this area is deserted, so no one noticed it?"

Zheng Yongshou pondered for a long time before saying, ""That's indeed a possibility ... Boshan, if that's the case, then our luck is really bad! Of all the places to enter the island, why did he choose this side ..."

Wang Boshan didn't dare to speak. It was Zheng Yongshou's own decision to go to the island from the west side. He was only following orders. How could he dare to use this to provoke bad luck now?

Zheng Yongshou took a deep breath and said, ""No matter what, let's think of a way to escape from this formation first before we think about our next step!"

With that, Zheng Yongshou took out a compass from his backpack and carefully used it to determine the direction and find a breakthrough in the array.

Wang Boshan knew nothing about arrays, so he could only wait anxiously on the side. He didn't dare to leave Zheng Yongshou's side. He knew that he was trapped in the array and was afraid that if he was even a little further away from Zheng Yongshou, he would be completely separated by the array. He didn't even dare to imagine facing the array alone.

Zheng Yongshou measured with the compass for a long time with a solemn expression, then took three steps forward to the right with some uncertainty. Wang Boshan also followed him step by step.

Then Zheng Yongshou used the compass to test for a long time before continuing to move forward.

The two of them carefully tossed and turned for almost half an hour before Zheng Yongshou let out a long breath and said, ""Boshan, it seems like our guess was right. This is just an ordinary trapping array. It's still far from the level of the natural array."

"Martial uncle Zheng, you mean ... We've already walked out of the formation?" Wang Boshan asked with uncertainty.

Chapter 2714 Falling (2)

Zheng Yongshou smiled slightly, giving off the feeling of a master from beyond the world, "I'm sure we've already walked out of the trap array's range. The magnetic field in the array earlier was obviously more chaotic, but look, it's back to normal now!"

After Zheng Yongshou finished speaking, he showed the compass in his hand to Wang Boshan.

How could Wang Boshan understand it! However, he knew that Zheng Yongshou was one of the star Seizer sect's top formation experts. Since Zheng Yongshou had said so, there should be no problem.

Wang Boshan was overjoyed and quickly flattered, "Fortunately, martial uncle Zheng is here. Otherwise, we would be in real trouble ..."

"Uncle sect leader sent me here to deal with this kind of situation." Zheng Yongshou said indifferently, "we've already wasted a lot of time just now. Let's hurry up and work!"

"Yes! Junior uncle Zheng!" Wang Boshan replied excitedly.

Zheng Yongshou put away the compass, identified the direction, and then said, "This way!"

In a flash, the two of them headed quickly in the direction of the airport warehouse. According to the information provided by benilatti, Xia ruofei and his subordinates were all near the airport warehouse. To catch the bandits, one had to first catch the leader. To control Peach Garden Island, the most important thing was to capture Xia ruofei.

Moreover, bainilatti was also at the airport warehouse. They also needed to find bainilatti as soon as possible and let him be their guide.

Zheng Yongshou suddenly saw a figure flash in front of him while he was moving quickly, and he quickly stopped.

Wang Boshan did not know what was going on, so he naturally stopped as well.

"There's someone in front!" Zheng Yongshou said in a low voice.

Wang Boshan squinted his eyes and tried his best to look forward, but he didn't see anyone at all. However, he didn't dare to raise any doubts. After all, Zheng Yongshou's cultivation was much higher than his. Even if he couldn't see it, it didn't mean that martial uncle Zheng couldn't.

Wang Boshan didn't know that in Zheng Yongshou's line of sight, that figure was standing five meters in front of them, with his back facing them.

Zheng Yongshou coldly snorted and said, "You're acting like a ghost!"

The people on this Paradise Island were all ordinary people. Even if they discovered his whereabouts, it wouldn't have much of an impact.

So, Zheng Yongshou relied on his seventh Qi layer cultivation and didn't have too many scruples. He directly took advantage of the situation and hit the back of the figure with his palm.

Just as his hand was about to touch the other person's body, the figure suddenly shifted a foot away, slowly turning around while dodging his attack.

A pale face appeared in front of Zheng Yongshou.

When Zheng Yongshou saw this face, his eyes suddenly became round and his face revealed an extremely shocked expression. His own face also became pale.

“Luo ... Luo ... Senior brother Luo ...” Zheng Yongshou’s teeth chattered uncontrollably, making a gurgling sound. He was obviously in a state of extreme fear.

He had never dreamed that he would meet his senior brother Luo, who had been dead for many years, on an island in the South Pacific Ocean, thousands of miles away from the sect.

Most importantly, Luo Wenxuan was the one who had pushed Luo Wenxuan off the cliff.

That year, when they went to pick herbs together, they were very lucky to find a 300 – year – old misty star grass on a cliff. In order to monopolize this spiritual grass that was enough for him to break through a small realm, Zheng Yongshou found an opportunity to seriously injure Luo Shixiong, who was completely unprepared for him, and pushed him off the cliff.

After returning to the sect, Zheng Yongshou also relied on this star Mist Grass and successfully broke through to refined Qi Level 7.

There was still blood on the corner of Luo Wenxuan’s mouth. He smiled at Zheng Yongshou and said, “Junior Brother Zheng, you’re really a good Junior Brother that I’ve taken extra care of ... Back then, you kicked my back, and it still hurts even now. Look, the footprint you left behind is still there ...”

After saying that, Luo Wenxuan slowly turned around.

The strange thing was that his face was still facing Zheng Yongshou, even when his back had completely turned, his face was still facing Zheng Yongshou, and he continued, “Junior Brother Zheng, do you still remember? When you first entered the sect, I was the one who brought you up the mountain. That day, I even lent you my clothes to wear ... Every time you were scared when you were on duty in the ancestral hall, I was always with you ... Is this how you repay me?”

The footprint on Luo Wenxuan’s back was very eye – catching, as if it was reminding Zheng Yongshou of the crime he had committed back then.

Zheng Yongshou’s soul was in a daze at this moment, and he shouted, “No! You’re not senior brother Luo! I’ve killed senior brother Luo with my own hands. How could he be here? Say ... Who are you? Who the hell are you? Why did he pretend to be senior brother Luo? You don’t want to say it? I’ll kill you! I’m going to kill you!”

Zheng Yongshou shouted crazily while hitting Luo Shixiong’s face, who had turned 180 degrees. He used his fiercest killing move at the beginning, not holding back at all.

However, Zheng Yongshou’s attacks seemed to have all fallen into the air. Even several times, his palm directly passed through Luo Shixiong’s body without any resistance.

Luo Wenxuan looked at Zheng Yongshou and said, “I’ve already been killed by you. How can you kill me again?”

“No! Get lost! Get lost!” Zheng Yongshou shouted hysterically, “get lost ...”

As he shouted, he attacked Luo Wenxuan crazily, not caring about the rapid consumption of his true Qi.

Wang Boshan was already stunned and did not have any reaction at all.

He only saw Zheng Yongshou suddenly hit the air with his palm, and then crazily attacked the empty space in front of him. This scene was extremely strange, and it made his heart tremble.

At this moment, Wang Boshan suddenly felt someone patting his shoulder. He screamed in shock and jumped up as if his tail had been stepped on.

Wang Boshan quickly turned his head around, his eyes immediately revealing extreme fear.

In front of him, there were five to six girls around the age of 14 to 15. Each of them was dressed in rags and their hair was disheveled. Some of them even had scars on their faces. They all had strange smiles on their faces as they looked at Wang Boshan in unison.

Wang Boshan sat on the ground, paralyzed. He kept moving backward, trying to get away from those girls.

“You ... You ... Don’t come near me ... I was wrong ... I shouldn’t have forced you ... Ah ...” He kept saying.

Before he could finish his sentence, he saw all the girls pouncing on him.

Wang Boshan’s soul was shattered and he fainted after letting out a blood – curdling scream.

.....

Xia ruofei and Li Yifu were standing less than ten meters away from them, looking at them quietly.

In fact, from the moment Wang Boshan and Zheng Yongshou stepped onto Peach Blossom Island, they had never left Xia ruofei’s surveillance.

The last time they tested the formation, Xia ruofei and Li Yifu were both standing outside the attack range of the formation, so they could feel all kinds of strange phenomena.

Today, Xia ruofei had specially used the spirit gathering array to gather some spiritual energy in the Western area of the island, which made Wang Boshan and Zheng Yongshou more certain of their judgment.

Using Origin crystals to activate the formation was extremely fast, so the two of them didn’t notice any abnormalities at all and directly fell into the formation.

Moreover, the two of them weren’t trapped in the trap formation that Zheng Yongshou thought they were, but another even more terrifying formation, the misty illusory formation.

Therefore, Zheng Yongshou and Wang Boshan had already fallen into the illusion.

Xia ruofei and Li Yifu were not far away from them, watching them running in circles within a radius of more than ten meters.

Later on, Zheng Yongshou thought that he was breaking a trapping array and had even succeeded. In reality, this was all their own illusion.

...

It was only when they relaxed their minds that the inner demons in the illusory formation took advantage of the opportunity to enter and completely destroy their will.

Li Yifu revealed a shocked expression and said, "Martial granduncle, is this illusory formation so powerful? To be able to scare people like that ..."

Xia ruofei chuckled. "Actually, I don't know what the illusory formation has created. I only know that the illusory formation of the Taixu xuanqing formation can directly attack the things that people fear the most and are most unwilling to face. It can also infinitely magnify this fear." It's already beyond my expectations that Zheng Yongshou could last this long!"

#### Chapter 2715 Effortless\_1

Li Yifu couldn't help but click his tongue and said, "Grand uncle – Master, the power of the Taixu xuanqing formation is too terrifying ..."

Li Yifu had heard everything about the Taixu xuanqing formation from Xia ruofei. Although he had tried the formation the day before yesterday, it was a short time and he had not experienced the trapping and attacking functions of the formation himself, so he did not have a direct experience.

But today, Li Yifu had personally witnessed a Qi refining Level 7 array Dao master being pushed to the brink of a mental breakdown by the illusory formation of the Taixu xuanqing formation without any resistance. Li Yifu's heart was shocked.

Xia ruofei smiled and said, "this is only the tip of the iceberg of the Taixu xuanqing formation. It's also because the opponent is too weak. There are still a few formations that I haven't had the chance to use!" However ... This is only effective against Qi condensation cultivators. If Jindan or even Yuanying cultivators were to come here, it would be difficult for this level of illusory formation to affect them. "

Li Yifu's mind was in a state of chaos. He felt that with the formation in his hands, he could rule the world. Even if the star Seizer sect sent out all their forces, they would not be able to deal with such a heaven – defying formation. After hearing Xia ruofei's words, he suddenly realized something and said hurriedly, "Senior granduncle, this disciple understands!"

Xia ruofei once again looked into the array. Wang Boshan had already fainted, and Zheng Yongshou's breathing was chaotic and he seemed to have gone crazy. The true Qi in his body was almost exhausted. The key was that his emotions were in turmoil and he had completely fallen into fear.

"It's almost time!" Xia ruofei said, "adopted husband, stay here and don't move in case you get hurt by the formation. I'll go and deal with these two guys!"

"Yes! Martial granduncle, you be careful too. " Li Yifu quickly said.

He knew that his cultivation level was low, especially in the field of arrays. He would only be a burden if he followed.

Xia ruofei nodded and stepped into the formation.

The illusory formation that scared Zheng Yongshou and Wang Boshan out of their wits had no effect on Xia ruofei at all. The entire formation was controlled by his thoughts. The formation automatically separated on his path.

Xia ruofei didn't care about Zheng Yongshou who was in a state of madness. Instead, he went directly to Wang Boshan and penetrated his body with spiritual power, entering his sea of consciousness without any obstacles.

Then, a soul seal was sent into Wang Boshan's sea of consciousness by Xia ruofei.

The next moment, Xia ruofei felt a spiritual connection with Wang Boshan. He knew that the soul seal had been successfully planted.

So he withdrew his mental power, and without caring about the still unconscious Wang Boshan, he came to Zheng Yongshou.

It was slightly different from before. This time, Xia ruofei directly released a huge amount of spiritual power and suppressed Zheng Yongshou with a majestic force.

Zheng Yongshou himself was in a state of confusion, and his spiritual power cultivation was a whole realm lower than Xia ruofei's. How could he have the power to resist in such a situation?

He didn't have any reaction before he fell unconscious under the pressure of the powerful spiritual power.

Xia ruofei didn't stop at all. He used the last soul seal that he had condensed a few days ago.

The soul seal disappeared in a flash and entered Zheng Yongshou's forehead.

A trace of mental connection was established. Xia ruofei took in Wang Boshan and Zheng Yongshou as soul slaves without any effort.

With a wave of his hand, he stopped the Taixu xuanqing formation. At the same time, he stimulated the two's sea of consciousness with his spiritual power, and they woke up at once.

After a short period of confusion, Wang Boshan and Zheng Yongshou saw Xia ruofei standing with his hands behind his back. They couldn't help but feel a shiver in their souls. This kind of absolute obedience came from the depths of their souls and was not under their control at all.

Even though they hated Xia ruofei to the core, after the soul seal was planted, they had undoubtedly become Xia ruofei's most loyal servants.

"Master!" Wang Boshan and Zheng Yongshou knelt in front of Xia ruofei and greeted him respectfully.

"Get up!" Xia ruofei said indifferently.

"Yes! Thank you, master!" The two of them said in unison. Then, they stood up and stood beside Xia ruofei with their hands by their sides.

"You guys wait here for a while!" Xia ruofei said.

"Yes! Master!"

Xia ruofei walked towards Li Yifu who was not far away.

Li Yifu was already dumbfounded. He only saw Xia ruofei walk over and didn't see Xia ruofei do anything special. He vaguely saw Xia ruofei release a ray of light. This light entered Wang Boshan and Zheng Yongshou's foreheads, but it was so fast that he couldn't see it clearly. Then, he saw Wang Boshan and Zheng Yongshou respectfully kneeling in front of Xia ruofei and calling him master.

What was this?

Xia ruofei did not intend to hide it from Li Yifu. He walked in front of Li Yifu and smiled. "Foster husband, this is the most important part of my plan. I'll first subdue the two of them completely, then we'll arrange the next step of the plan."

"Senior granduncle, you ... How did you do it?" Li Yifu asked.

Xia ruofei said indifferently, "it's just an application of spiritual power. There's a secret technique called the soul seal that can make a person's soul completely submit to it. Previously, we used this method on benilati. That's why I'm so assured of him. After being planted with the soul seal, he will never betray us."

Chapter 2716 Effortless\_2

Li Yifu couldn't help but feel that this secret technique was too overbearing!

Xia ruofei glanced at Li Yifu and more or less guessed what he was thinking.

Xia ruofei asked, "foster husband, do you think that this method is evil? do you feel a little uncomfortable?"

"Your disciple wouldn't dare!" Li Yifu replied fearfully.

"There's nothing to be afraid of. It's good to have the courage to question." Xia ruofei smiled and said, "then I'll explain it simply! What was an evil spirit? Are there good and evil secret techniques?"

Li Yifu revealed a thoughtful expression. Xia ruofei glanced at him and continued, ""At the moment of life and death, when faced with the cultivation sects coveting the Peach Blossom Island like wolves and tigers, if you still worry about whether the secret technique is in line with the right path, that's pedantic and not righteous! A secret technique that is used in the right way is the right way, and the opposite is the evil way. The soul seal is the same!"

Xia ruofei's words were like the evening drum and morning bell, making Li Yifu feel enlightened.

His body trembled slightly, and the confusion in his eyes was swept away.

Li Yifu bowed to Xia ruofei respectfully and said, ""Thank you for your advice, senior granduncle. This disciple has learned!"

Xia ruofei nodded and said, "foster husband, remember this. As long as you stick to your principles, you don't have to doubt yourself no matter what method you use to achieve your goal. There are good and evil people, but there are no martial arts!"

Xia ruofei paused for a moment and continued, ""Of course, the premise is that the cultivation of this technique doesn't require the assistance of any messy blood essence or even the assistance of young boys and girls. The soul seal is a cultivation technique passed down from our sect, do you think it's this kind of evil secret technique?"

"Senior granduncle, this disciple knows his mistake!" Li Yifu said, "I was too pedantic ..."

He did have such doubts just now, but after Xia ruofei's words, he realized that his thoughts were a little too pedantic.

In fact, Li Yifu had been a low – Level individual cultivator for the past few decades. He didn't understand the cultivation world on earth, especially those cultivation sects. If it were a sect disciple, his first reaction would definitely not be whether this cultivation method would harm the harmony of the world, but whether he could learn it.

The laws of the cultivation world were far crueler than those of the secular world.

Xia ruofei nodded and said, "also, the spiritual power requirement for using the soul seal is very high. One has to be at least in the spirit gathering realm. I barely meet the requirements. Also, there is a limit to the number of people who can be controlled by the soul seal."

Xia ruofei then patted Li Yifu's shoulder and said, ""Alright, let's not talk about this! He had finally achieved his goal today! Let's go back first! I need to ask the two of them some questions immediately. "

"Yes, martial granduncle!" Li Yifu replied.

Xia ruofei and Li Yifu strode towards the warehouse of the airport. Wang Boshan and Zheng Yongshou did not need to be called and quickly followed.

On the way, Li Yifu couldn't help but ask, ""Martial granduncle, since you've mastered the soul seal secret technique, why don't you use it directly in the capital? Didn't you guys meet face to face before?"

"Beijing is the core of Huaxia, after all. It's not good to make a scene." Xia ruofei smiled and said, "of course, the main reason is that using a soul seal is not always successful. The reason why I went through so much trouble was to find the opportunity when they were distracted. Otherwise, even if my cultivation is higher than theirs, it would not be easy to plant a soul seal in their sea of consciousness. Once they resist, they might die. The star Seizer sect will immediately be alerted. "

Li Yifu thought about it carefully and recalled that Xia ruofei had asked benilatti to constantly send false information to Wang Boshan. Even earlier, Xia ruofei had also planted a soul seal on an ordinary person like benilatti. In fact, he had already been planning this. It could be said that every step was calculated very accurately to ensure that there were no mistakes.

Li Yifu couldn't help but say, "senior granduncle's plan is flawless. This disciple is impressed!"

"No," Xia ruofei said, waving his hand. "It's related to a cultivation sect. We can't be too careful."

While they were talking, the group had arrived near the airport warehouse.

The four of them were all cultivators, so they easily avoided the patrolling brothers of the Hong sect and entered the warehouse without anyone knowing.

Xia ruofei found a chair and sat down. Wang Boshan and Zheng Yongshou stood in front of Xia ruofei with their hands down.

Although the two of them did not turn into delirious puppets, under the effect of the soul seal, they did not have any hatred towards Xia ruofei. Instead, they had a kind of absolute obedience that came from the depths of their souls.

Xia ruofei asked Li Yifu to find a chair to sit down as well. Then, he looked at Wang Boshan and Zheng Yongshou, and asked lightly, "Tell me, how did you set your eyes on the Peach Blossom Island?"

Wang Boshan quickly told him everything about how he accidentally discovered the extraordinariness of the Paradise Island, how he reported it to the sect leader, Luo Qingfeng, and how the sect sent Zheng Yongshou to take charge of the mission. He did not hold anything back.

"So you're saying that you haven't confirmed the specific situation of this formation?" Xia ruofei asked.

Zheng Yongshou replied respectfully, "master, this subordinate's array skills are limited. I've found an opportunity to examine it up close, but I can only confirm that this array is of a very high level. It's much higher than the star Seizer sect's sect – protecting array. I can't tell anything else."

Xia ruofei nodded and asked the question he was most concerned about. "Apart from the two of you and Luo Qingfeng, the sect master of the star Seizer sect, does anyone else know about the natural formation on the Peach Blossom Island?"

Zheng Yongshou hesitated for a moment and said, "Master, before this subordinate left the sect, the sect leader had sealed off all information. Even the sect elders didn't know. The sect leader also strictly ordered his subordinates not to leak the news. He said that once the news spread, it was very likely to attract other sects to snatch it, so it must be tightly sealed. Thus, this subordinate judged that this news should not have spread. It's just that ... This subordinate has left the sect for some time. I don't know if the sect master has told this news to anyone else."

Hearing this, Xia ruofei felt a little more at ease. Although he could not be sure of the scope of this information, at least he knew that Luo Qingfeng had his own concerns, so he would not spread the news everywhere.

Xia ruofei continued to ask about the star Seizer sect, paying special attention to Luo Qingfeng.

Wang Boshan and Zheng Yongshou naturally didn't dare to hide anything. As long as they knew it, they poured it out like beans from a bamboo tube.

Xia ruofei's information was similar to the one Liu chengfeng had obtained from the sect. However, Wang and Zheng had explained it in more detail, which could be considered as confirmation of the previous information.

The one with the highest cultivation level in the star Seizer sect was undoubtedly the sect master, Luo Qingfeng. He had already reached the early stage of the Aurous core stage and was the only person in the sect who had reached the Aurous core stage.

Xia ruofei calculated in his heart. One golden core cultivator, two Qi level 9 cultivators, 20 to 30 Qi Level 7 and 8 cultivators, plus 60 to 70 low level cultivators. This was the entire strength of the star picking

sect. He definitely couldn't fight against them alone. The good news now was that the information about the Paradise Island had not been spread. If he could deal with sect leader Luo Qingfeng, he could probably block the news.

At the same time, he could also obtain a soul slave at the Golden core stage and even control a cultivation sect indirectly.

Therefore, although this was the most dangerous thing he had encountered since he had obtained the spirit map space, risk and opportunity coexisted. If he could handle it well, the benefits would be huge.

Without the Taixu xuanqing formation, Xia ruofei would not even dare to think about subduing an Aurous core stage cultivator. But now that he had a natural formation and had gone through the test today, Xia ruofei was even more confident. In addition, he had two spies who were absolutely loyal to him. With a good plan, it was not impossible to take down the Aurous core stage cultivator Luo Qingfeng!

#### Chapter 2717 The Army and the Prince's son – in – Law (1)

Although Xia ruofei had learned from Wang Boshan and Zheng Yongshou that the star Seizer sect had only sent the two of them to handle this matter, and that no one else was involved, and that Wang Boshan had even hired a staff member to be a spy in the Internal Affairs Department of ponautu, Xia ruofei still had Wang Boshan and Zheng Yongshou leave Peach Blossom Island overnight and return to Evarts, the capital Island of ponautu, out of careful consideration.

Xia ruofei had them stand by on evates Island and wait for orders.

Wang Boshan and Zheng Yongshou, who had already been implanted with their soul seals, naturally obeyed the order. They immediately withdrew from the cliff on the west side of Peach Blossom Island and drove the fishing boat they had rented at a high price back to evates Island.

Wang Boshan had once bought a property on evates Island where the two of them lived. Wang Boshan's phone was always on 24 hours a day, waiting for Xia ruofei's notice.

After sending Wang Boshan and Zheng Yongshou away, Xia ruofei did not have time to rest. He had to plan his next move immediately.

The situation was better than he had expected. At least, the news of the natural formation on the Peach Blossom Island had not spread. The problem that he needed to solve now was the star Seizer sect's sect master, Luo Qingfeng, who had already been confirmed to know the news.

The most ideal result would be to use the soul seal to completely control Luo Qingfeng.

This way, as long as Luo Qingfeng did not tell anyone about the news, it meant that the existence of the natural array on the Peach Blossom Island would not be leaked. Unless another cultivator accidentally discovered the clue, there would be no more trouble.

Peach source Island was located in the depths of the South Pacific Ocean. According to the information obtained by Liu chengfeng and Zheng Yongshou, most of the cultivation sects on earth were in Huaxia and its surrounding countries. Some of them were on islands, but most of them were in the Northern Hemisphere, not far from Huaxia.

The cultivation of the cultivators on earth wasn't very high. Even if golden core cultivators could ride a flying sword, they generally wouldn't fly for such a long distance. After all, it would consume true Qi.

In addition, the cultivation environment on earth was relatively harsh, and it was almost the same everywhere. Therefore, the probability of cultivators passing by Paradise Island was not high.

Unless it was someone like Wang Boshan, who had a certain level of cultivation and was also in charge of the sect's secular Affairs, but came here because of business matters. However, the possibility of satisfying so many conditions was not high.

Although Qingfeng Luo was an Arous core stage cultivator, he had only broken through not long ago and was only in the early Arous core stage.

Currently, the Taixu xuanqing formation on the Peach Blossom Island was Xia ruofei's biggest reliance. With this natural array, Xia ruofei would have the ability to fight against golden core cultivators.

Xia ruofei's spiritual power had reached the spirit gathering realm and he could control five child seals at most. He had already used four of them on Liu chengfeng, benilatti, Wang Boshan, and Zheng Yongshou. There was one spot left for Luo Qingfeng.

However, to capture an Arous core stage cultivator alive and plant a soul seal in his sea of consciousness was not an easy task.

Xia ruofei had to come up with a perfect plan in a short time. First, he had to make sure that Luo Qingfeng arrived at the Paradise Island without any suspicion. Then, he would use the Taixu xuanqing formation to deal with him.

Xia ruofei frowned. All sorts of plans appeared in his mind and he was trying to find a loophole.

With Xia ruofei's current strength, he could only succeed in one try to deal with a golden core cultivator like Luo Qingfeng. Once there was a mistake in the middle, it would be almost impossible to catch him again.

In particular, he had to lure Luo Qingfeng to the Peach Blossom Island. This was a crucial part.

Once Luo Qingfeng noticed it, it would basically mean that the plan had failed completely.

An Arous core stage cultivator who was in control of a cultivation sect, it was needless to say that he was decisive in killing.

It was conceivable that when Luo Qingfeng realized that it would be difficult to take the Peach Blossom Island by force, he would probably spread the news. By then, Xia ruofei would face endless trouble.

Even if Xia ruofei had the best conditions, he would not be able to fight against the entire cultivation world.

Li Yifu knew that Xia ruofei was thinking about something important, so he did not dare to disturb him.

Xia ruofei sat in silence for one to two hours. A plan gradually took shape. However, he did not immediately start to implement it. After all, there were still many details that needed to be thought over

bit by bit. There could not be any mistakes. It was not an exaggeration to say that it was a matter of life and death.

Xia ruofei opened his eyes and looked at his watch. It was already three in the morning.

He saw that Li Yifu was still by his side, so he said, "Adopted husband, go and rest first! There are still many things to do tomorrow."

"Grand uncle – Master, then you ..." Li Yifu hesitated.

Xia ruofei laughed and said, "of course I'm going to rest too!" We're only achieving in – Progress results. In order to win the final victory, we must conserve our energy!"

"Yes!" Li Yifu said.

Xia ruofei didn't say much. He walked to his bed and lay down.

Although the process of subduing Wang Boshan and Zheng Yongshou was very smooth, in fact, from the beginning of the plan to the end of the net, every link had consumed a lot of Xia ruofei's energy. Moreover, the key to activating the Taixu xuanqing formation was completed by Xia ruofei personally, so he was mentally exhausted these days.

## Chapter 2718 The Army and the horses (2)

After lying on the bed, Xia ruofei felt a wave of fatigue hit him and he quickly fell asleep.

When Xia ruofei woke up the next morning, he saw that Li Yifu was already up.

Seeing Xia ruofei stand up, Li Yifu quickly walked over and bowed. "Senior granduncle, you're up."

Xia ruofei nodded and said, "yes!" You slept so late last night, why didn't you sleep a little more in the morning?"

"I don't sleep as much as I get older," said Li Yifu. "I woke up just as the sun rose."

"Senior granduncle," Li Yifu continued, "do you have a plan to deal with Luo Qingfeng?"

Yesterday, when Xia ruofei asked Wang Boshan and Zheng Yongshou, Li Yifu was there the whole time, so he was very clear about the current situation. He knew that the key to the problem was Luo Qingfeng.

However, Luo Qingfeng was a golden core cultivator. Compared to Luo Qingfeng, Zheng Yongshou, who was at Level 7 of the Qi refinement realm, was like a Firefly compared to the bright moon. Even though the Taixu xuanqing formation had given Li Yifu a lot of confidence, his heart could not help but beat like a drum when he thought of Luo Qingfeng's cultivation.

Xia ruofei nodded and said, "I have a General Plan." "But don't rush. Luo Qingfeng is thousands of miles away, and he has given the task to Wang Boshan and Zheng Yongshou. He definitely won't start urging us now, so we still have enough time. This matter must be planned properly, and there can't be any mistakes!"

"Yes!" Li Yifu said, "that's a golden core cultivator ... Just thinking about it makes me feel intimidated."

Xia ruofei chuckled and said, "in front of the Taixu xuanqing formation, an early Aurous core cultivator can't do much. The problem now is how to make him defenseless on the Peach Blossom Island." I've already come up with a preliminary plan, but that's not the priority right now. We need to evacuate everyone on the island!"

"Everyone is retreating?" Li Yifu asked.

Xia ruofei nodded and said, "there is no point for them to stay. Once we start to deal with Luo Qingfeng, we have to consider the possible changes. These ordinary people will only be a burden if they stay here."

There were three groups of people on the island. The brothers of the Hong sect were brought here to carry out the modification project. It turned out that the staff of the Paradise Island were in charge of the daily operation of the island. And then there was the International mercenaries.

The reason why Xia ruofei kept these people was, on one hand, for the preliminary work; On the other hand, it was to minimize the possibility of the secret being leaked.

Now that Wang Boshan and Zheng Yongshou had become his soul slaves, he didn't have to be so careful in keeping it a secret. After all, those who could really find out the news were people like Wang Boshan. Although his cultivation was low, he had a lot of power in the secular world.

As for Luo Qingfeng, these cultivators were all far away from the mortal world. The news of the star Seizer sect's mortal world was all passed back by Wang Boshan. Luo Qingfeng would never have dreamed that Wang Boshan would betray him, so it was naturally impossible for him to arrange for someone else to deliberately inquire about the information of the Peach Blossom Island.

Therefore, if these ordinary people were dismissed, there would be no hidden dangers.

"Yes!" Li Yifu nodded. I'll make the arrangements immediately!"

The dismissal of the staff sounded complicated, but it wasn't difficult to execute.

As for the International mercenaries, the fees paid by the Liu family had not expired yet. They could end the mission ahead of time and leave this isolated island without any entertainment, and they would not have to refund the money. They were overjoyed.

Li Yifu had asked the brothers of the Hong sect to help him. Now that their work was over, they were supposed to go back to their own places.

Xia ruofei personally went to Liu Qingfeng's side to inform him. In the past two days, more than 50 staff members had actually been moved to live in the shelter inside the mountain.

When Liu Qingfeng heard that Xia ruofei wanted all the staff to leave, he was only a little worried about the daily operation of Paradise Island. After all, the airport control and some equipment maintenance staff needed very professional people to take on the responsibility. If they dismissed everyone now, wouldn't Paradise Island be paralyzed?

However, after seeing Xia ruofei's firm attitude, Liu Qingfeng did not say anything more. He immediately began to actively organize the work of returning to the country.

After all, the Liu family had already prepared a good position for him. The only request was for him to fully obey Xia ruofei's management on Peach Blossom Island and do the aftermath well. Now that Xia ruofei had taken the initiative to ask everyone to leave, he could return to the bustling capital immediately and grasp more power. Why not?

Under normal circumstances, one had to take a boat and then transfer to another plane to return to China from Paradise Island, which was very troublesome. There were many people who wanted to leave the island this time, so it was not easy to organize them.

However, Li Yifu directly contacted Tang Yitian and asked him to book three Qinba passenger planes from Australia to Peach Blossom Island. The employees of the Liu family and the brothers of the Hong sect each took one of the chartered planes and flew directly to Australia.

After landing in Australia, the Liu family's employees naturally transferred back to their country. The brothers of the Hong sect also returned to their respective places. Li Yifu asked Tang Yitian to arrange everyone's itinerary.

The International mercenary group, because they had a lot of weapons and equipment, naturally did not go to Australia for a transit flight. According to their request, Australian Airlines Chartered a plane to send them to another island country in the South Pacific.

This mercenary group had been operating in that island country for many years. Going there was equivalent to returning to their base camp. They naturally had a way to return to their old nest.

When the last Chartered plane took off on Peach Blossom Island's runway and soared into the sky under the sunset, the entire Peach Blossom Island suddenly became quiet.

There was no one in the airport tower or on the runway. The dock was also quiet.

There were only three people left on the entire Peach Blossom Island. They were Xia ruofei, Li Yifu, and benilatti, who was actually useless. The rest of the crew had all left, including the helicopter pilot who wanted to stay and work.

"Alright, we don't have to live in the warehouse anymore!" Xia ruofei laughed and said, "let's move to another place!"

Although the project department building was empty, the basic living facilities did not need to be maintained every day.

The island's electricity mainly relied on solar and wind power, so it was basically self – sufficient. When there was a shortage of power, they also had diesel generators.

Now that there was no one on the island, the electricity consumption had dropped significantly, and solar energy was enough.

There was no problem with water and food. There was also a large cold storage in the sanctuary in the mountain. The food stored in it was enough for three people to eat for several years.

Xia ruofei asked benilatti to find a guest room to stay in while he brought Li Yifu to the luxury suite that he was originally living in.

When Xia ruofei took out the peach blossom Da Hong Pao, Li Yifu naturally didn't dare to let his senior granduncle make the tea himself. He quickly took the tea leaves and started to boil water and make the tea.

The two of them sat at the coffee table, drinking tea and discussing Xia ruofei's plan.

This time, Xia ruofei did not hide anything from Li Yifu. On the contrary, he felt that Li Yifu had lived for a long time and had been in charge of a huge Financial Group for a long time. He should have more experience.

Luring Luo Qingfeng to the Paradise Island actually had little to do with cultivation. It was more of an analysis from the perspective of human nature, such as whether Luo Qingfeng would fall for a trap, whether he would have doubts, how he would react, how he would deal with it, and so on.

When Li Yifu heard Xia ruofei reveal the whole plan, he couldn't help but nod and say, "Senior granduncle, you've considered it very carefully. You've thought of almost all the possibilities ..."

Xia ruofei waved his hand and said, "don't say that. I want your opinion now. The plan is definitely not perfect. If you have any problems or doubts, you can tell me. It's better to find a loophole now than to have it discovered by Luo Qingfeng, right?"

#### Chapter 2719 Imparting cultivation technique (1)

Li Yifu thought for a while and said, "grand uncle – Master, I've carefully thought over the first half of the plan. There shouldn't be any major problems." As long as the other party didn't know that Wang Boshan and Zheng Yongshou had changed sides, they definitely wouldn't have such a big defense. Furthermore, as an Aurous core stage cultivator, they definitely had this confidence. The only thing we can't control is ... We don't know if Qingfeng Luo will come alone. After all, he's here to take over the Peach Blossom Island. After that, he still needs to carry out the island's construction. He might even move the entire sect here. There are many things that he can't do alone. "

Xia ruofei thought for a while and said, "This is indeed a problem, but it's something we can't control. "And according to my judgment, the possibility of Qingfeng Luo coming alone is very high. From his previous style of doing things, he should be a cautious person. With his personality, he probably won't let this news spread unless he's already completely in control of the Peach Blossom Island. "

Xia ruofei paused for a moment, and his thoughts became clearer. He said, "According to our information, apart from Luo Qingfeng, the only other person in the star Seizer sect who has studied arrays is Zheng Yongshou. The purpose of Luo Qingfeng's trip this time is to activate the array. There is no point in bringing the rest of the sect along. He can activate the array and then start laying out the plans for the island's construction. After all, for a cultivator, as long as they can control the array, the star Seizer sect will basically have complete control over the Peach Blossom Island. It was also difficult to find a breakthrough. But before that, it was hard to say. He would probably continue to block the news. So ... I think it's highly possible that Luo Qingfeng came alone!"

Li Yifu thought about it carefully for a while and said with an expression of admiration, "Martial granduncle's words are reasonable!"

Then, Li Yifu frowned and said, "Martial granduncle, although this disciple has some apprehensions about the first half of the plan, I don't think there will be any problems on the whole. "As for the second half ... I feel that there's a lot of uncertainties ... After all, Luo Qingfeng is a cultivator at the Golden core stage. We've never encountered cultivators at this level. Their strength and means may exceed our expectations. In addition ... According to Zheng Yongshou, the person with the highest level of array Dao in the sect is Luo Qingfeng. Thus, I'm worried that the Taixu xuanqing formation won't be able to trap him ..."

Xia ruofei smiled. "If that's the case, I'm afraid we'll have to be prepared to fight to the death ... Of course, when facing an early golden core cultivator, we might not even have the capital to fight to the death. We might not even have the chance to escape ... The worst case scenario is that neither of us can escape and we'll stay here forever ... I'm mentally prepared for that."

Li Yifu's expression changed as he said, "senior granduncle, I've already put my life and death aside!" "However, if there is really a problem, I hope that senior granduncle can escape decisively. Although my cultivation is low, I will do my best to stall Luo Qingfeng. Even if I can buy one more second, I am willing to do so!" But ... Nothing must happen to senior granduncle, otherwise ... Our sect's legacy will be broken!"

Xia ruofei smiled and said, "adopted husband, you don't have to be so tragic. I've said it. That's the worst outcome." We should always consider the most difficult things in everything we do. This is the right attitude, but it shouldn't affect our confidence. "

Xia ruofei looked confident and continued, "In fact, I'm very confident in the Taixu xuanqing formation. It's still unknown how much of an effect Luo Qingfeng's knowledge of arrays will play in the face of a large formation of this level! To be honest, although the overall strength of a sect like the star Seizer sect is not bad, they are not good at array formations. Luo Qingfeng's array formation skills are relatively high, but we can't scare ourselves before the war even starts!"

"I understand!" Li Yifu said, "I only hope that if the worst case scenario really happens, grand uncle – Master must not care about my life and death. Please escape from this place as quickly as possible. As long as you're alive, there's hope! As long as martial granduncle can be safe and sound, even if disciple's body is smashed to pieces, disciple can still die with a smile!"

"Don't say such demoralizing words!" Xia ruofei chided him in a low voice, "adopted husband, I've told you that the Peach Blossom Island is our greatest opportunity. I've also promised that I'll help you break through the shackles of the aura refining realm. Do you think I'm a man of my word?"

"This disciple doesn't dare!" Li Yifu said fearfully, "it's just that we are facing a great enemy. I hope to tell you some things in advance." It's precisely because martial granduncle is a person who values relationships and righteousness that this disciple is worried that once things go south, martial granduncle will miss the best opportunity to escape because of this disciple. If that's the case, even if this disciple dies a hundred times, it's still difficult to atone for his sins!"

Xia ruofei waved his hand and said, "alright!" Let's not talk about this now! Foster husband, since you've acknowledged me as your martial granduncle, I can't possibly abandon you at a critical moment and run for my life. This goes against my principles, and if I do, it might even affect my Dao heart, making it difficult for my cultivation to advance in the future. Do you understand?"

## Chapter 2720 Imparting cultivation technique (2)

"I understand ..." Li Yifu lowered his head and said.

He knew that what Xia ruofei said made sense. If Xia ruofei really abandoned him and ran for his life, with Xia ruofei's loyal personality, he would probably live in guilt for the rest of his life. He would also be implanted with a huge mental demon and it would be difficult for him to improve his cultivation.

Therefore, Li Yifu secretly made up his mind that if he couldn't hold on any longer, he would kill himself decisively so that his senior granduncle could escape without any distractions.

Naturally, Xia ruofei did not know that Li Yifu had already prepared for this. He softened his tone and said, "Foster husband, you don't have to think too much. I still have many ways to save our lives. Even if this Luo Qingfeng can really break the Taixu xuanqing formation, we still have a great chance of escaping."

"Yes! Senior granduncle!" Li Yifu lowered his head and said.

Li Yifu's conviction to sacrifice his life for justice was extremely firm. He felt that Xia ruofei's words were just to comfort him. Hence, although he agreed verbally, he did not change his mind.

In fact, Xia ruofei was not just comforting Li Yifu.

Even if Luo Qingfeng's array skills were far beyond their expectations and he could break the Taixu xuanqing formation, Xia ruofei would still have a way to escape. He could only wait for his death. Xia ruofei's biggest trump card was not the peach Garden Island or the Taixu xuanqing formation, but the spirit map space.

In the worst case scenario, Xia ruofei could have brought Li Yifu into the spirit map space. He was absolutely sure that an Aurous core stage cultivator would not be able to discover the secret of the spirit map space. It would not be a big problem to save their lives.

However, if that were to happen, he would have to reveal the secret of the spirit map space to Li Yifu. There was also the biggest problem. When Xia ruofei was in the space, the spirit map scroll could not be moved. To enter the space at any time, the spirit map scroll had to be within Xia ruofei's range of thought. This meant that even if Xia ruofei brought Li Yifu into the space, they would still be Trapped in Paradise Island or even in the space for a long time. There was no chance to escape.

Hence, unless it was the last resort, Xia ruofei would not use this trump card.

Xia ruofei looked at Li Yifu and said, "Wait here for a moment, I have something to give you."

"Yes, martial granduncle!"

Xia ruofei got up and walked to the bedroom next door. Then, he took out a small booklet that he had prepared earlier from the spirit map space. He then returned to the living room.

Xia ruofei handed the booklet to Li Yifu and said, "Take it. Cultivate well for the next two days. Although it's just a last – minute preparation, every bit of improvement is good."

Li Yifu was stunned for a moment and subconsciously looked at the cover of the small booklet in his hand. Then, his whole body trembled, and his eyes could no longer move away from the words “Guiyuan Scripture” written on the first page of the booklet.

Li Yifu’s cultivation technique was called the Guiyuan Scripture. Although it was only one word different from the Guiyuan true Scripture, the difference was like heaven and earth.

To put it bluntly, the origin returning Scripture was only a simplified version of the origin returning true Scripture. Compared to the origin returning true Scripture, there were many omissions and even mistakes. This was also an important reason why Li Yifu’s cultivation progress had been slow for the past few decades.

When Xia ruofei first met Li Yifu, he already knew about this. However, he did not pass on the Guiyuan Scripture to Li Yifu rashly.

Although the Guiyuan Scripture was only one of the many cultivation techniques stored in the Jade talisman of inheritance and its level was not particularly high, there was a saying in the world of cultivation that “techniques should not be passed on easily”. Through some experiences later on, Xia ruofei had a better understanding of Li Yifu and was more assured of his character.

He thought that the time was right, so he gave Li Yifu the Guiyuan Scripture that he had already copied.

Although some of the techniques he had obtained from the Jade talisman of inheritance were better than the Guiyuan Scripture, Li Yifu had been practicing the Guiyuan Scripture for decades. It was a technique that originated from the Guiyuan Scripture. Now that he was practicing the Guiyuan Scripture, it could be said that they were of the same lineage, and success came naturally when water flowed.

The most suitable one was the best.

Li Yifu’s hands couldn’t help but tremble slightly, and he couldn’t speak for a long time.

He had once fantasized that Xia ruofei would give him the Guiyuan Scripture, but he did not dare to have too much hope. After all, Xia ruofei had only mentioned that the sect had this technique, but he did not say whether it had been passed down. Moreover, even if it was passed down, why would Xia ruofei pass it to him?

Xia ruofei had always been the one who had been kind to him, giving him pointers on cultivation and giving him spiritual crystals ... But he had only given Xia ruofei a commercial plane. To him, money in the secular world was nothing. If he were to be measured in value, a Gulfstream G650 commercial plane was not even comparable to the scraps of spiritual crystals.

Li Yifu knelt in front of Xia ruofei and said in a trembling voice, “Senior granduncle, this disciple is fear.....I can’t accept a reward without doing anything. Senior granduncle has given this disciple such a precious cultivation technique, this disciple .....

Xia ruofei waved his hand and said, “get up first!”

Although Xia ruofei had accepted the fact that Li Yifu was his Grand – disciple, he still felt uncomfortable when an old man knelt in front of him.

“Yes!” Li Yifu didn’t dare to disobey and quickly stood up.

Xia ruofei said kindly, “adopted husband, this technique is not particularly outstanding among the inheritances of the sect. However, you’ve been practicing this technique all these years. It’s the most suitable for you.” To be honest, when I first met you at big brother Tang’s house, I had the idea of passing the cultivation technique to you, but I didn’t do so at that time. I hope you don’t blame me for not passing it to you later. ”

“I wouldn’t dare!” Li Yifu quickly replied. The disciple had not made any contributions, but the Grand uncle – Master had guided the disciple’s cultivation and even given him a spirit crystal, the most precious treasure for cultivation. The disciple was already terrified. Moreover, at that time, the senior granduncle didn’t know much about his disciples. The cultivation technique was so precious, so how could it be passed on to the wrong person? This disciple understands martial granduncle’s good intentions. ”

Xia ruofei had wanted to explain, but seeing that Li Yifu had thought it through so clearly, he could save his breath.

“It’s good that you understand,” he said gently. It shouldn’t be difficult for you to learn this cultivation technique. However, if there’s anything you don’t understand, you can come to me anytime. In short, the most taboo of cultivation is to shut yourself in. If you don’t understand, ask. You can’t rely on your own imagination. ”

Although Xia ruofei did not cultivate the Guiyuan Scripture, the techniques in the Jade talisman of inheritance were directly transferred to his mind. He also had a lot of cultivation experience, so there was no problem in guiding Li Yifu.

“Yes! Senior granduncle!” Li Yifu said respectfully.

Xia ruofei encouraged Li Yifu with a few more words and then let him find his own room to cultivate.

After Li Yifu left, Xia ruofei did not immediately rest. Instead, he left the building and flew towards the shelter on the island.

The Paradise Island was now empty, and he didn’t have to worry about being discovered, so he didn’t need to hide. He took the fastest path and quickly arrived at the shelter embedded in the mountain.

After passing through the heavy door, Xia ruofei headed straight for the storehouse.

After a while, he arrived at the huge warehouse.

About half of the entire shelter was a warehouse, while the other half was a living area.

The Liu family’s warehouse was full. They had prepared for the worst. Most of the food stored were necessities for survival such as food and drinking water. There was also a large cold storage warehouse full of meat and fish, all of which had been frozen solid in the low temperature below zero degrees.

Xia ruofei didn’t hesitate. He used his spiritual power to store the items in the warehouse into the spirit map space.

The mountain and sea realm in the spirit map space was extremely vast. Even if all the food in the sanctuary was stored inside, it would only take up a small portion of the space.

In the spirit map space, he didn't have to worry about food going bad.

He casually set up an independent space in the mountain and sea realm, and moved all of the war preparations and storage materials in the sanctuary into it.

Xia ruofei was preparing for the worst. If he really needed to hide in the spirit map space, he might have to live in the space for a long time. He could only find a chance to escape when the time was right. So, it was safer to move these supplies into the space in advance. After all, they were just small amounts of spiritual power.

After emptying the warehouse, Xia ruofei returned to his luxurious suite in the project department building. He took out the crystals and cultivated for a while before going to bed to rest.
