

God tier Farm 2731

Chapter 2731 The heavenly network (2)

"Senior granduncle, you're too risky!" Li Yifu couldn't help but say, "I was so scared just now that my heart almost jumped out of my throat!"

Xia ruofei laughed and said, "you're a cultivator. How can your heart be so weak?" I won't believe it even if you beat me to death! Alright, alright! I only boarded the helicopter because I'm confident in my ability to protect myself. I've learned how to operate a helicopter in the Army!"

"It was a little dangerous when I saw you landing just now!" Li Yifu muttered.

Xia ruofei pretended not to hear him. He walked towards the stairs and said, "I just observed from the sky and found a few flaws. Godfather, come with me to arrange it."

Li Yifu only complained out of concern for Xia ruofei. Otherwise, he would not have dared to go against Xia ruofei. Now that he heard that there was a serious matter, he quickly said, "Yes! Senior granduncle!"

Xia ruofei continued, "Wang Boshan, continue to guard the phone. If there is any news from Zheng Yongshou's side, you must report to me immediately!"

"Yes! Master!" Wang Boshan replied respectfully.

Xia ruofei and Zheng Yongshou took the elevator to the underground parking lot and left the building in an off – Road vehicle.

There were a few places that needed to be checked and filled. Xia ruofei had already memorized them, so he went straight to those places after getting in the car.

After a series of camouflaging arrangements, Xia ruofei flew the Super Jaguar for a few rounds of patrol in the air and finally felt relieved.

This time, the landing process was unusually smooth, and he succeeded in one try.

After he got off the plane, he said to Li Yifu, "There shouldn't be any loopholes now. Let's wait for sect leader Luo!"

Li Yifu secretly clenched his fist and nodded heavily.

He knew in his heart that success or failure depended on this one move. If they could successfully subdue Luo Qingfeng as planned, the safety of the Peach Blossom Island would no longer be a threat in the short term. However, if the Taixu xuanqing formation could not defeat Luo Qingfeng, a golden core cultivator, even if it could not trap Luo Qingfeng and let him escape, there would be endless trouble in the future, and there would be no peace.

Xia ruofei had made all the necessary preparations and was very calm. He even took the time to guide Li Yifu in his cultivation.

Although Xia ruofei had never cultivated the Guiyuan Scripture, his explanations often pointed directly to the great Dao. It could be said that the whip had penetrated deep into the wood. Often, a simple sentence or two could make Li Yifu feel enlightened.

Under Xia ruofei's guidance, Li Yifu's cultivation had steadily increased by a large margin. He had already touched the barrier of refined Qi Level 5.

One could imagine that once the danger of the Peach Blossom Island was resolved, the Taixu xuanqing formation would begin to operate normally, and he would soon usher in another breakthrough in his cultivation.

.....

On Peach Blossom Island, Xia ruofei and Li Yifu had prepared a huge trap for Luo Qingfeng. On the other hand, Zheng Yongshou accompanied Luo Qingfeng on the flight from Ye City to Kuala Lumpur.

After a few transfers and flying through the night, the two finally landed at the airport in the capital of ponautu, evates Island.

Qingfeng Luo and Zheng Yongshou walked out of the simple and crude terminal. Even though Qingfeng Luo was an Aurous core stage cultivator, after such a long night flight, he could not help but show a trace of fatigue on his face.

It wasn't that he couldn't support it physically, but that he wasn't used to the feeling of not being able to control his own life and death in the air.

Even though Wang Boshan had booked first – Class tickets for them, Luo Qingfeng still felt a little breathless to stay in a closed cabin with some ordinary people.

In fact, Zheng Yongshou wasn't any better. After this long – distance flight, he also felt that there was something wrong with his whole body.

When the plane landed, it was already past midnight, so Zheng Yongshou said to Luo Qingfeng, ""Master, you've had a hard journey. Martial nephew Boshan has purchased a property here. Do you want to go there and rest? We'll go to Peach Blossom Island tomorrow?"

Qingfeng Luo felt much better after taking a few breaths of fresh air. He waved his hand and said, ""No need, we've already walked over ten thousand Li, I want to see our Immortal Island immediately! Let's go there directly!"

Zheng Yongshou was also hoping that Qingfeng Luo would go over immediately. After all, the visibility was at its lowest. It was definitely better to go now than during the day. Qingfeng Luo would not be able to easily notice anything wrong when he was not on guard.

Therefore, Zheng Yongshou immediately said, ""Yes! Master! Then I'll give martial nephew Boshan a call and have him prepare to receive you. "

Qingfeng Luo nodded and said, "alright!" I'll make the call while I walk! Let's find a place where there's no one and go there on our flying swords!"

Zheng Yongshou's face couldn't help but shiver when he heard that he had to ride a flying sword again. He recalled the sour and cool feeling of riding a flying sword during the day.

"Okay, master, let's head south after we leave the airport! There's a beach up ahead. There aren't many people during the day, and it's already midnight. There shouldn't be anyone!" Zheng Yongshou said.

“En!” Luo Qingfeng nodded and walked toward the South.

Zheng Yongshou quickly followed and took out his mobile phone to call Wang Boshan.

Their itinerary was arranged by Wang Boshan, so Xia ruofei and the other two knew their approximate arrival time. Moreover, Wang Boshan had been paying attention to the flight status of Luo Qingfeng and Zheng Yongshou through the internet, so Xia ruofei and Wang Boshan did not rest. They knew as soon as the plane landed.

As for Li Yifu, Xia ruofei had already arranged for him to leave Peach Blossom Island in the evening.

The reason was simple. With Luo Qingfeng’s golden core cultivation, as long as his spiritual power cultivation reached the spirit gathering realm, it should be enough to cover the entire Paradise Island. If there was one more person on the island, it would easily arouse Luo Qingfeng’s suspicion.

When Li Yifu first heard that Xia ruofei wanted him to leave Peach Blossom Island at this time, he was strongly against it. In his opinion, this was no different from running away at the last minute. Moreover, he was leaving his senior granduncle alone in danger. It was simply disgraceful!

Li Yifu refused to listen to Xia ruofei no matter what he said. In the end, Xia ruofei had to use his status as a senior granduncle and force Li Yifu to leave. He also repeatedly assured that he had a secret concealment technique that could ensure that he would not be discovered by Luo Qingfeng. Even if there was danger, he was absolutely confident that he could escape. Only then did Li Yifu reluctantly obey the order.

However, Li Yifu was determined not to go far. He stopped in the sea between peach source Island and another island, pretending to be a night – Fishing tourist, and kept an eye on the situation on peach source Island.

The phone rang and Wang Boshan immediately picked it up. He still turned on the Hands – Free and said, “Junior Master Zheng.”

“Bo Shan, the head Master has decided to come to the island overnight!” Zheng Yongshou directly said, “have you prepared the room for master?”

“Don’t worry! Junior uncle Zheng!” Wang Boshan replied, “I’ve already prepared it.”

Zheng Yongshou heaved a sigh of relief when he heard this. In fact, this was a secret message, which was to ask if the array on the island was ready. Wang Boshan gave him a definite answer, so he was relieved.

“That’s good!” Zheng Yongshou continued. Head Master, bring me here on my flying sword. We’ll go ashore from the west side of the Peach Blossom Island, and I’ll take master to the ruins where we found the crystal containing the spiritual energy.”

Zheng Yongshou said as he looked at Luo Qingfeng with a questioning look.

Qingfeng Luo was obviously satisfied with this arrangement and nodded lightly.

On the Peach Blossom Island, Wang Boshan saw that Zheng Yongshou had already passed on the information in such detail, and he was slightly happy in his heart. He nodded and said, "Alright, I'll be waiting for you in the building!"

"Mm, that's it then!" Zheng Yongshou said, "that's right, prepare something to eat. We'll serve master some supper later."

"Yes! Junior uncle Zheng!" Wang Boshan said.

After hanging up, Xia ruofei immediately stood up and said, "There's no time to waste. I'll immediately rush to the core of the formation. Wang Boshan, your task is to guard the phone and never miss any information from Zheng Yongshou. If there's a situation, use the walkie – talkie to contact me!"

"Yes! Master!" Wang Boshan replied respectfully.

Xia ruofei knew that cultivators could fly very fast on their flying swords. They were not far from evatz Island, so he could not afford to waste any time. He quickly took the elevator to the underground parking lot and drove the Land Rover to the West of Peach Blossom Island.

...

Chapter 2732 The arrival of the Golden core (1)

At this moment, peach source Island was quiet, and the roar of the car engine was very loud. Xia ruofei stepped on the gas pedal. His entire body was trembling, but at the same time, he was extremely calm.

Obviously, this was the most critical moment since he stepped onto the path of cultivation. It would also be his first time facing a golden core cultivator. However, he had already done his best in his preparations, and his military career had tempered his strong heart. Although he was filled with endless battle intent, he did not lose his mind and did not panic.

Xia ruofei did not drive straight to the small cement room where the core of the formation was placed. He stopped the car about two hundred meters away from the cement room.

It used to be a construction site, and some construction projects had not been completed yet. Before the staff of the Liu family left, the place had been cleaned up in an orderly manner, and several construction vehicles were placed there.

Xia ruofei parked the Land Rover beside the engineering vehicle. After getting off the car, his figure flashed and he flew towards the cement room where the array core was placed.

The distance of two hundred meters was covered in the blink of an eye. After Xia ruofei entered the cement room, he flipped his hand and took out a crystal, skillfully embedding it into the grooves around the array board.

The origin crystals he took out had never been used before. The spiritual Qi inside was extremely dense, and it could guarantee that the array would be activated in a breath's time.

Xia ruofei used his fastest speed to check the array disc and origin crystals, then left the cement house in a flash. As long as he was within the range of his spiritual power, he could communicate with the array disc and control the array. Naturally, there was no need to guard this place.

In theory, Xia ruofei could control the formation anywhere on the island. However, the closer he was to the core of the formation, the easier it would be to control it. After all, it would consume a lot of spiritual power to cover a large area.

After Xia ruofei left the cement room, he headed straight for the cliff. In the blink of an eye, he was in front of the cliff. He did not stop and flew straight out. He reached out to the protruding part of the cliff and used it as leverage. His body descended lightly.

After descending for more than ten meters, Xia ruofei arrived at a position that he had found in advance. There was a gap in the cliff wall here, and it was blocked by vines. It could not be seen from the outside.

This height was just right. If they were too high and too close to the top of the cliff, the possibility of being discovered would increase. If the height was too low, the cliff wall below would be completely bare due to the erosion of the sea water. There was no cover at all. Even if he could find similar cracks, the hiding effect would not be as good as here.

Xia ruofei grabbed the edge of the gap with one hand. At the same time, he summoned the spirit map scroll from his palm and carefully stuffed it into the gap.

Then, Xia ruofei camouflaged the vines and weeds outside the crack. After a careful inspection, he found that there were no traces left behind. From the outside, there was no clue at all. With a slight thought, he disappeared from the outside world and entered the spirit map space.

Now, Xia ruofei's aura had completely disappeared from the Paradise Island. Even if Luo Qingfeng used his spiritual power to scan, he would only find Wang Boshan on the island.

After Xia ruofei entered the medium, he first reached the mountain and sea realm. Then, he carefully separated a trace of his mental energy outside and kept an eye on the sea in the West.

Xia ruofei's spiritual power had already reached the spirit gathering realm, which was equivalent to the cultivation of an early – Stage golden core cultivator. As long as one was not a cultivator who specialized in spiritual power or was particularly sensitive to spiritual power detection, it would be difficult for one to detect such a subtle spiritual power of the same level.

According to Zheng Yongshou's information, Luo Qingfeng's spiritual power was not his strong point. Hence, Xia ruofei was at ease and boldly released his spiritual power from the spirit map scroll so that he could fully understand the situation.

When Xia ruofei was done with all the arrangements, Luo Qingfeng and Zheng Yongshou had arrived at the uninhabited beach on the island.

Qingfeng Luo took out his flying sword and flew in the direction Zheng Yongshou had pointed out.

The distance between Evarts Island and Paradise Island wasn't too far, and the speed of the flying sword was so fast that they could see the outline of Paradise Island in the distance in just ten minutes.

It was the darkest time before dawn, but with Luo Qingfeng's eyesight, he could still clearly see the Paradise Island a kilometer away.

He himself had been studying the array Dao, and his level was only higher than Zheng Yongshou's, so as soon as he arrived at the nearby sea, he immediately keenly sensed the existence of the natural array.

As Qingfeng Luo continued to approach the Paradise Island on his flying sword, he scanned the area with his spiritual power. Then, the speed of his flying sword began to slow down, and finally, he simply stopped. He stood on the flying sword and held Zheng Yongshou in one hand, floating in the air.

When Zheng Yongshou heard the sound of the wind suddenly stop, he couldn't help but open his eyes.

When he saw the peach source Island in front of him, he couldn't help but shout in his heart, "You should go over! Why are you stopping here?"

The place where Luo Qingfeng was standing was not within the range of the array. Zheng Yongshou saw Luo Qingfeng stop his flying sword and float above the sea, looking at the Peach Blossom Island not far away without saying a word. He could not help but feel nervous. Did he find out something?

At this moment, Luo Qingfeng smiled faintly and said, "It's indeed a big move!"

Zheng Yongshou's heart trembled when he heard that, and he secretly cried out bitterly, "It's finished! It's finished! He had really aroused suspicion ..."

Zheng Yongshou wasn't afraid of death. As long as it was a task assigned by his master, Xia ruofei, he would complete it at all costs. Even if Xia ruofei asked him to jump off a cliff, he would not hesitate at all.

Zheng Yongshou was mainly worried that Xia ruofei's plan would fail. Furthermore, Luo Qingfeng had already raised the alarm before he even reached the island. He must have been not careful enough at some point, which led to him giving himself away.

If that was the case, Zheng Yongshou felt that he would really die without hesitation.

"Yongshou," Qingfeng Luo said. "Is Paradise Island in front of us?"

Zheng Yongshou braced himself and said, "yes, master!" Is ... Is there a problem?"

The corners of Luo Qingfeng's mouth curled up slightly as he said, "What question? This is a big problem!"

When Zheng Yongshou heard this, he felt even more disheartened. He thought to himself, "As expected, he found out ... Master, it's all this subordinate's fault for being incompetent and messing up the matter ..."

At that moment, Luo Qingfeng laughed and scolded, "I see that you've been studying formations all day, but you haven't come up with anything! You can't even tell that it's such an obvious natural Taixu xuanqing formation? He didn't go into details when he went back to report. If I knew it was the Taixu xuanqing formation, I would have come here personally!"

"Ah?" Zheng Yongshou was in a daze and didn't come back to his senses for a while.

Qingfeng Luo looked at Zheng Yongshou and said with a smile, ""Have you been blown silly by the wind? Why was she so out of it? I remember telling you about some high – Level formations, including the Taixu xuanqing formation!"

Only then did Zheng Yongshou come back to his senses. He quickly revealed a look of shame and said, ""Master, it's all disciple's fault for not being skilled enough, that's why ..."

Qingfeng Luo waved his hand and said, "the final result is good. That's good." It's just a delay of a few days! This is nothing ..."

If Luo Qingfeng had known that this natural array was the Taixu xuanqing array, he would not have allowed Wang Boshan to use the strategy of a slow plan. He might have directly used the means of cultivators to forcibly take the island from the hands of the Liu family.

It was a good thing that Zheng Yongshou had not been able to completely identify the formation back then. Otherwise, Xia ruofei would not be able to do anything on peach source Island.

"Yes! Master!" Zheng Yongshou said respectfully, "the cliff on the west side of the island is right in front of us. The remains of the spirit crystals were found not far from there. Master, should we go to the island now?"

After Zheng Yongshou confirmed that it was a false alarm, he discovered that his back was already drenched in cold sweat.

The most urgent thing in his heart now was to get Luo Qingfeng to the island. As long as Luo Qingfeng entered the range of the array, his mission would be completed. As for whether he could trap Luo Qingfeng, he was like Wang Boshan, blindly worshipping Xia ruofei.

There's something that master can't do? It didn't exist!

"Don't worry," Luo Qingfeng said lightly. "Let's look around first." This is the first time I've seen the real Taixu xuanqing formation, and the main body of the formation is naturally formed. This is simply too amazing!"

Luo Qingfeng wanted to observe everything. On one hand, it was out of his instinct to be vigilant. On the other hand, he wanted to see the natural Taixu xuanqing formation.

"Yes, master!" Zheng Yongshou quickly said.

Although he was very anxious, he did not dare to rush Luo Qingfeng at this time, in case Luo Qingfeng became suspicious.

Qingfeng Luo and Zheng Yongshou flew a few rounds around the island on their flying swords and finally returned to the sea on the west side of the island.

Qingfeng Luo sighed, 'this is really a work of art! No... This was the work of the heavenly Dao! The main body of the entire formation is completely formed naturally. It's truly too mystical!"

Then, Qingfeng Luo looked at Zheng Yongshou and said, ""Yongshou, your judgment is correct. There are indeed a few traces left behind by ancient cultivators on this Island. Judging from these traces, the Taixu xuanqing formation on this Island has been activated over the years! Furthermore, the ancient

cultivators “method of activating the array was extremely ingenious, allowing me to deepen my understanding of the array Dao.”

...

“Master, does that mean that the island still has those crystals that contain spiritual energy?” Zheng Yongshou asked with a surprised and happy expression.

“Under normal circumstances, there should be.” Luo Qingfeng said, “however, after so many years, it is unknown how many spirit crystals have been left behind! However, the value of this natural Taixu xuanqing formation alone was much higher than that of spiritual crystals! After some slight modifications, the formation could be activated! As long as the formation is successfully activated, it won’t take long for this place to become a cultivation paradise, and an extremely safe cultivation paradise at that!”

Chapter 2733 Trapped in the trapping array (1)

“Let’s go!” Qingfeng Luo said with a hint of excitement, “we’re going ashore from the west side of the island, right?”

Zheng Yongshou suppressed the excitement in his heart and said, “Yes, master! The place where I found that crystal was near the cliff on the west side of the island!”

Qingfeng Luo nodded. “There are indeed traces of an array set up by a cultivator. Although it has been a long time and the array has lost its effectiveness, it is still of great reference value for us to activate the array.”

After Qingfeng Luo finished speaking, he rode on his flying sword and brought Zheng Yongshou along with him. They drew an elegant arc above the sea and headed toward the cliff on the west side of the island.

He didn’t deliberately use his true Qi to form a protective shield, so the sea breeze made his clothes flutter. Standing on the flying sword, he had the style of a banished immortal, and he looked high – spirited.

The distance of a few hundred meters was covered in the blink of an eye, and in the next moment, Qingfeng Luo and Zheng Yongshou had already arrived at the edge of the cliff.

Luo Qingfeng jumped to the ground in a carefree manner and put away the flying sword with a thought.

At this moment, Xia ruofei had already transferred to the spirit map space. When the ray of light from the flying sword appeared on the surface of the sea, he immediately retracted his spiritual power and transferred it to the Archean realm. Time here was 30 times faster than the outside world. One minute in the outside world was 30 minutes in the Archean realm. This way, Xia ruofei could deal with any changes more easily.

It could be said that as long as he remained in the Archean realm, it was equivalent to his speed increasing by 30 times.

Xia ruofei immediately released a small wisp of spiritual energy. However, he had his spiritual energy locked on Zheng Yongshou and did not dare to directly observe Luo Qingfeng’s level of cultivation. He

was very sensitive to the prying of spiritual energy. Even if he did not really detect Xia ruofei's wisp of spiritual energy, he would still be subconsciously alert.

From Xia ruofei's point of view, everything was slowed down by 30 times. However, he was very patient. He watched as Luo Qingfeng and Zheng Yongshou slowly approached Paradise Island like a slow – Motion replay in a movie. Finally, they slowly landed on the rock at the edge of the cliff.

Xia ruofei clenched his fists, and a hint of excitement flashed in his eyes. After planning for so long and spending so much effort, he had finally achieved the expected plan step by step.

The moment Luo Qingfeng set foot on the Paradise Island, Xia ruofei was 100% sure that he had entered the range of the array!

Xia ruofei did not hesitate. He extended his spiritual power to the cement room where the core of the array was located and reached into the core array board. He touched one of the spots and the array board immediately produced a strong suction force. It sucked out the spiritual Qi from the origin crystal and poured it into the array board.

The array patterns lit up in an instant. At that moment, the power of heaven and earth was also activated. The nine Jade pillars resonated in different directions. In a breath's time, the Taixu xuanqing array was successfully activated ...

Qingfeng Luo, who was standing on a rock at the edge of the cliff, was looking at everything on the Peach Blossom Island with joy. His heart was filled with great happiness.

The natural formation on this Island had far exceeded his expectations. It was several levels higher than the star Seizer sect's current sect – protecting formation. Such a cultivation paradise was of great significance to a sect.

With the Taixu xuanqing formation, over time, the star Seizer sect would be able to continuously nurture talents, and the overall strength of the sect would also take a huge step forward.

Just as Luo Qingfeng was thinking about the future of the star Seizer sect, he suddenly felt a gust of wind blow past him.

As a cultivator in the Golden core stage and having learned a lot about arrays, Qingfeng Luo was very sensitive to the changes in the power of heaven and earth. Generally, this situation would only appear when the array was activated. However, he had clearly felt a huge amount of power of heaven and earth being attracted in an instant. Although the process was very short, it did not escape his perception.

"What's going on?" Luo Qingfeng said to himself.

However, he did not realize that his disciple had become Xia ruofei's most loyal servant. He also did not expect that his disciple would lead him into a huge trap. Therefore, his guess was more about the natural array.

After all, after on – Site Investigation, the prototype of the natural array had already been formed and was in a very high state of completion. Moreover, there were many traces of cultivators activating the array on the island, so it could not be ruled out that the natural array had not completely failed and was only activated occasionally.

Just as Luo Qingfeng was carefully sensing the changes in the surrounding aura, a dense fog suddenly surged in from all directions.

Luo Qingfeng's expression changed slightly, and he subconsciously made a defensive move. He took out a long sword from his storage ring and held it tightly in his hand.

At this time, Zheng Yongshou, who was very close to Luo Qingfeng, seemed to have fallen into a huge dilemma. He was clearly beside Luo Qingfeng, but it was as if he could not see anything. His face was filled with panic as he kept shouting, "Master! Master ... Where are you?"

Qingfeng Luo frowned slightly. With his rich experience, he could tell that Zheng Yongshou's cultivation level was still relatively weak. After falling into the trap array, he was lost in the fog. Even if he was less than half a meter away from him, he could not see anything. All he could see was the fog.

Qingfeng Luo was also an array master, so he understood the situation very well and did not doubt Zheng Yongshou.

"Yongshou, I'm here! You stand there and don't move. Don't run around!" "Yongshou!" Qingfeng Luo shouted as he walked toward Zheng Yongshou.

It was as if Zheng Yongshou could not hear Luo Qingfeng's voice at all. He was still shouting "master" with a trace of panic and kept walking around.

"Don't move!" Luo Qingfeng quickly shouted. "Yongshou, don't move!" The more you move, the deeper you'll sink!"

Zheng Yongshou was still walking and shouting. Soon, he was getting further and further away from Luo Qingfeng, and finally disappeared into the fog. Even Luo Qingfeng, who had reached the spirit gathering realm, could not sense Zheng Yongshou's existence.

Qingfeng Luo could not help but slap his thigh in frustration. He did not expect to be caught in the intermittent activation of an array as soon as he arrived on the island. At the same time, he also felt that Zheng Yongshou's array Dao had been learned in vain. The first principle of being trapped in the fog array was not to walk around! But Zheng Yongshou, who was known as the king of formations among the younger generation of the star Seizer sect, was actually so clumsy when faced with this kind of trapping formation, just like a noob who had never learned formations before.

Of course, Luo Qingfeng did not panic. It was almost impossible to trap him with a trap array of this level. Since Zheng Yongshou had already been separated, he simply didn't think about it, and instead began to think about how to break out of the array.

What Qingfeng Luo did not know was that after Zheng Yongshou entered the fog and left Qingfeng Luo's range, he kept moving forward until he was sure that he had completely left Qingfeng Luo's perception. Only then did he sit on the ground.

After two minutes, Xia ruofei appeared in front of Zheng Yongshou and said with a smile, "Well done! His acting is first – Class!"

"Master, you're too kind!" Zheng Yongshou quickly said.

Xia ruofei chuckled. "You can rest here. I'll go and meet you, my master!"

Chapter 2734 A duel between Jindan (1)

"Yes! Master!" Zheng Yongshou said, "I wish Master a Swift victory!"

Xia ruofei smiled and waved his hand, "don't run around!" If you're attacked from the depths of the formation, even I won't be able to save you!"

"I understand! I understand!" Zheng Yongshou said, "I promise I won't leave!"

Xia ruofei nodded and disappeared into the mist.

Zheng Yongshou sat on the ground and let out a long breath. Up until now, he had completely completed the task that his master had given him. Qingfeng Luo had already entered the trap, and the rest was up to his master.

Zheng Yongshou was very confident in Xia ruofei, and he did not think that Xia ruofei would not be able to take down Luo Qingfeng.

In fact, Xia ruofei was not that optimistic. He had never come into contact with a golden core stage expert before, so he really did not know how much power Luo Qingfeng could burst out when he was in trouble.

.....

Qingfeng Luo was calm. Even though he could not tell the direction with the compass and was surrounded by thick fog, he did not panic.

According to his experience, even if the Taixu xuanqing array on this Island was activated intermittently, it should not be able to maintain for a long time. After all, the facilities used to activate the array on the island were very old. In his opinion, it was a miracle that the array could be activated. When he used his spiritual power to observe the outside just now, he found that several man-made facilities related to the activation of the array were in a state of damage.

Qingfeng Luo did not just wait there. He walked forward carefully based on his experience and took out an ancient bronze mirror from his storage ring.

Qingfeng Luo reached out and touched the surface of the mirror. The mirror began to change slowly, and finally turned into a transparent crystal.

He injected his spiritual power into the mirror, and the surface of the mirror immediately emitted a trace of light. Then, he looked through the mirror and saw that the fog in front of him actually began to slowly disperse, becoming thinner and thinner.

The corners of Luo Qingfeng's mouth curled up slightly, and he was secretly pleased.

This was a treasure that he had found in a trade fair in the cultivation world a few years ago. At that time, many cultivators had seen this bronze mirror, but no one had found its profoundness. In the end, he had picked it up at a very low price.

Luo Qingfeng found that there were very complicated array patterns inside the bronze mirror. As long as he used a special method to activate it, he could see through illusions. It was very useful in solving maze arrays.

Luo Qingfeng did not know the origin of this mirror, but after buying it, he named it the “void exploration mirror”.

When he saw that the void exploration mirror could be used, he was overjoyed and further increased the strength of his spiritual power.

The image displayed on the void exploration mirror became clearer and clearer, and the part that was covered by the fog was slowly revealed.

“It seems that this array has indeed been in disrepair for a long time. A trapping array is only so – so!” Luo Qingfeng muttered to himself.

After the fog was seen through, it was naturally easy to determine the direction.

While Luo Qingfeng used the void exploration mirror to observe his surroundings, he began to calculate in his heart.

Array Dao was an extremely complex field of knowledge. It involved terrain, environment, astronomy, geography ... And many other theories. It was even related to Feng Shui. Anyone who had a certain level of research in array Dao would have extremely strong computational abilities. This was because whether it was setting up or breaking array techniques, they all needed to go through a large amount of calculations.

Even the most basic small – scale spirit gathering array would have to be set up in different ways depending on the time and place.

“I’ve found the kun position. Then ... I should take three steps to the right, and then one step to the left!” Luo Qingfeng muttered to himself.

As he spoke, he confidently took three steps to the right and then one step to the left according to his judgment.

Xia ruofei, who was hiding not far away and observing secretly, could not help but exclaim in surprise when he saw this scene. He was surprised that Luo Qingfeng’s judgment was very accurate. If they continued walking at this pace, they would be out of the range of the trapping array completely after another ten to fifteen meters.

Of course, this was only a trapping formation. The power of the Taixu xuanqing formation was not limited to this. The large formation also included a maze formation, an illusion formation, a killing formation, and many other formations. Moreover, these formations were still in a completely deactivated state. Xia ruofei had only released a trapping formation to test Luo Qingfeng’s strength.

Luo Qingfeng’s ability in array Dao surprised Xia ruofei, but he did not panic.

On the contrary, Xia ruofei’s fighting spirit was even more exuberant.

Although Luo Qingfeng had taken the right steps, Xia ruofei was not in a hurry to change the situation. Instead, he focused his attention and observed Luo Qingfeng's every move as he broke the array.

The expression on Qingfeng Luo's face became more and more relaxed. Every time, he would first use the void exploration mirror to confirm the position, and then after careful calculation and analysis, he would confidently take a few steps forward. Next, he observed and confirmed again, and then calculated again.

In a short while, Luo Qingfeng had already advanced about ten meters in the array.

As the controller of the array, Xia ruofei could see it clearly. He knew that Luo Qingfeng only needed to walk another three to five meters and he would be out of the range of the trapping array.

Qingfeng Luo clearly knew that he was moving forward on the right path and was only a few steps away from success. The smile on his face grew wider.

Chapter 2735 A duel between Jindan (2)

After some calculations and analysis, Luo Qingfeng took another step forward to the right with great confidence.

"I've been waiting for this opportunity!" Xia ruofei laughed coldly as he muttered to himself.

After he finished speaking, his mind moved slightly, and his mental power had already communicated with the array board placed in the cement room.

Before Qingfeng Luo's foot could land, he immediately felt a sense of warning and a chill down his spine.

Almost subconsciously, he tapped the ground with the tip of his foot and his body turned 90 degrees. At the same time, he quickly leaned back.

A sharp sword ray appeared out of thin air. It was extremely sharp, as if it was going to cut the entire space into pieces.

The sword light slashed directly at Qingfeng Luo. If he had not sensed the approaching extreme danger in advance, he would have been cut in half from the top of his head.

Qingfeng Luo's body turned 90 degrees and leaned back at the same time, barely avoiding the sword light.

Before Luo Qingfeng could react, a second, a third ... A total of five sword gleams shot toward him from different directions at an extremely fast speed.

Luo Qingfeng barely dodged four of them. At this time, he had exhausted all his energy and his body was in a temporary state of stiffness. There was no way he could avoid the last sword light that was flying toward his face.

However, even Xia ruofei could not help but admire Luo Qingfeng's calmness in the face of difficulties.

The sword ray flew extremely fast and arrived in front of Luo Qingfeng in the blink of an eye.

Luo Qingfeng subconsciously took out his flying sword. As soon as the flying sword appeared, the sword light was already in front of him. With a “ding”, the flying sword was sent flying by the sword light. Under the shock, the sword light was also out of the attack range, and in the end, it only left a penetrating wound on Qingfeng Luo’s shoulder.

The wound was completely penetrated, and it looked very frightening. However, for cultivators, this kind of injury was nothing at all. With the use of spiritual medicine, it would be able to recover in a short time.

In fact, as long as the head and dantian were not injured, it was nothing to the cultivator.

After being hit by the sword ray, Qingfeng Luo did not dare to stay where he was anymore. He ran back the way he came from and left the attack range of the sword ray.

The sword light seemed to have a mind of its own. When Luo Qingfeng stepped out of the fixed range, it immediately disappeared without a trace.

Luo Qingfeng’s expression turned grave as he muttered to himself, “That’s not right ... The direction of the kun position is a dead end! How is that possible?”

He had basically analyzed the trap array very thoroughly. It could be said that he was very close to success. However, the attack that he had attracted with that step had made him very embarrassed and injured him. If it were a disciple with a lower cultivation, no one would have been able to survive that attack.

“Could it be a chain formation?” “No...” Luo Qingfeng mumbled to himself with a grave expression, “that’s not right ... I didn’t even walk out of the confinement array just now. How did I trigger that terrifying killing array?” Don’t tell me that the formations are all interconnected?”

Luo Qingfeng would never know that with just a thought from Xia ruofei, those illusory, killing, bewildering, and trapping formations could be stacked together, let alone a killing formation.

“I can’t go in the direction of the kun position ...” Luo Qingfeng frowned and muttered to himself, “then I can only break through in another direction. But it’s clearly a dead end in other directions ...”

Qingfeng Luo did not expect things to be so tricky. He had just set foot on the Peach Blossom Island, and he had already received such a big meeting gift.

He braced himself and tried in other directions, but his face turned even uglier. He couldn’t get through at all.

Although the void exploration mirror could see through the fog, the trap array did not just rely on the fog to trap the enemy, otherwise the enemy would only need to keep moving in one direction and they would be able to break out of the trap array.

In reality, trapping arrays also contained the use of space. Those who were trapped in the trapping array, even if they sensed that they were moving in a straight line in a fixed direction, were in fact always going in circles. Unless they found the right path, they would not be able to walk out of the range of the array no matter how they walked.

This kind of illusion was basically impossible to overcome.

It was just like how people on earth could see that the earth was flat and could not feel the curvature of the earth at all. In theory, if a person walked in a certain direction, he would be constantly moving forward. However, in reality, because he was walking on the surface of a sphere, he would eventually return to his original point.

Even though the theory behind the trap array was different from this example, the result was similar.

Even though Luo Qingfeng knew that he was walking in circles, he had no way of getting out of this strange circle.

After more than ten minutes of struggle, Qingfeng Luo looked through the void exploration mirror and knew that he had returned to the starting position. Not far to his right was the range of the terrifying killing array. Once he stepped into that range, he would immediately attract the attack of countless sword lights.

Luo Qingfeng was caught in an awkward situation. He knew the right path, but he just couldn't get out.

It was like a person who needed to go out of the house, but there was a fierce beast guarding the door at all times. Other than the door, the walls of the house were all indestructible, and there were no windows.

Qingfeng Luo had no choice but to take the risk and break through the killing array again. However, the power of the killing array was much greater than he had imagined. This time, even though he was prepared, he was still surrounded by danger. He only advanced two meters more than the last time, but he could no longer cope with it. In the end, he had to retreat awkwardly with his extraordinary reaction speed.

One of the sword rays almost cut off his head. He dodged with all his might, but in the end, the sword ray flew past his scalp, splitting his hair bun.

Luo Qingfeng was scared out of his wits as he returned to his original position with disheveled hair.

When he forced his way through the killing formation, he could still vaguely see a place six to seven meters away. There, sword Qi crisscrossed and almost sealed off all the space. Just a glance made his scalp numb.

Luo Qingfeng knew that he would not be able to break through the killing array with his cultivation. He even felt that even if a peak jiedan realm cultivator came, once he was trapped in the array, he might not be able to escape unscathed.

Luo Qingfeng gave up completely after trying it out this time.

Although he couldn't get out of his current position and was surrounded by fog, he was at least safe for the time being.

Qingfeng Luo could not help but worry that Zheng Yongshou would be like Zheng Yongshou. Once he was trapped in the killing array, he might be cut into pieces by the sword rays in a breath's time. There was no hope of survival.

However, Qingfeng Luo was indeed a golden core stage powerhouse. He knew that it was useless to worry about Zheng Yongshou now. He could only hope that Zheng Yongshou would be on his own.

Moreover, he was also very clear that the current predicament was unsolvable for the time being. There was no use in being anxious.

He was very clear about the situation, and even in such an unfavorable situation, he still maintained a very clear mind.

Therefore, Qingfeng Luo sat down and took out a crystal that contained some spiritual energy from his storage ring. He cultivated and absorbed it while keeping an eye on his surroundings.

As for the spiritual crystal that Zheng Yongshou had given him, he was still reluctant to use it.

At the same time, Luo Qingfeng also realized that the concentration of spirit Qi in the surrounding area seemed to be slowly rising. Since he could not get out of this place for the time being, he might as well use this opportunity to cultivate.

In fact, Xia ruofei was observing Luo Qingfeng from a distance. However, he could not use his spiritual energy in the confinement array. In addition, Xia ruofei could change his position at any time. It was like a person with sharp ears and eyes facing a deaf and blind person. As long as the healthy person did not actively touch the deaf and blind person, the other party would not be able to discover him.

Initially, Xia ruofei had wanted to use such a scheme to make Luo Qingfeng impatient. This way, his follow – up methods would be more effective.

Xia ruofei did not expect Luo Qingfeng to be trapped. However, he did not panic at all. Instead, he began to cultivate.

“This spiritual Qi belongs to me! This guy is actually sitting down and absorbing it?” Xia ruofei said in his heart, no! We can’t let him be so comfortable!”

At the thought of this, Xia ruofei immediately used his spiritual energy to communicate with the core array disc not far away. The next moment, the various array techniques in the Taixu xuanqing array were quietly changing. Although Luo Qingfeng, who was cultivating with his eyes closed, was constantly on guard, he was completely unaware of the changes ...

Chapter 2736 Impermanent changes (1)

Luo Qingfeng sat cross – legged on the ground quietly, steadily circulating the star Seizer sect’s Unique Cultivation Technique,”STAR technique.” The spirit Qi in the crystal in his hand was constantly being extracted. At the same time, all the pores on his body were open. The spirit Qi that had gathered after the activation of the Taixu xuanqing formation also entered his meridians in wisps.

Although Luo Qingfeng still had some thoughts to keep an eye on his surroundings, he did not realize that the mist around him had quietly changed. After all, he was in the middle of cultivation and could not keep an eye on the origin exploration mirror all the time. Moreover, under Xia ruofei’s deliberate control, the mist in the direction of the origin exploration mirror had basically remained stable and had not changed much from before.

Unknowingly, a burst of sobs came from the depths of the fog.

Qingfeng Luo, who was cultivating, did not notice anything unusual. When the whimpering sound entered his ears, his body trembled slightly. In his mind, scenes of him stepping onto the path of

cultivation by chance from a Cowherd boy in the countryside for more than a hundred years suddenly appeared.

In that chaotic era, family members were separated, friends were lost, and even the entire village was turned into scorched earth.

Ever since he had entered the star Seizer sect, he had been training diligently in the dense spiritual Qi every day, ignoring the flames of war in the outside world.

He had started out as the lowest servant disciple, and through his own hard work, he had stood out from the fierce competition in the star Seizer sect, and in the end, he had inherited the mantle of the old sect master.

The important experiences in his life for more than a hundred years, as well as some unforgettable and unforgettable moments, flashed through his mind like a movie.

In the end, all the images shattered and then reassembled into a middle – aged woman wearing clothes made of coarse cloth.

This middle – aged woman was in her early forties, but the hair at her temples had already turned white. The wrinkles at the corners of her eyes were also very obvious, and the skin on her hands was very rough. This was the mark of time left behind by years of labor.

When the middle – aged woman appeared, Luo Qingfeng's body could not help but tremble slightly, and a complicated expression appeared on his face.

He seemed to have forgotten that he was trapped in the Peach Blossom Island's great array and that he was actually cultivating. It was clearly an illusion in front of him, but he was unable to break free from the mist. In fact, he subconsciously did not want to break free either. Although this was the first time he had seen this middle – aged woman, he felt a sense of familiarity and closeness from the bottom of his heart. Moreover, this woman's appearance was very similar to his mother's, so her identity was naturally on the verge of being revealed.

"Mother ..." Luo Qingfeng muttered in a trembling voice.

The middle – aged woman gave him a deep look and said, "Little Tao, you're so cruel! You just left us like that and left for more than a hundred years ..."

"Little Tao" was Luo Qingfeng's nickname. His original name was Luo Songtao. Qingfeng was a name given to him by his master after he had entered the star Seizer sect. It was given according to the seniority of the star Seizer sect. The Daoist names of his generation all had the word "Qing" in them. In the world of cultivation, he was also known as Daoist priest Qingfeng.

It had been more than a hundred years since anyone had called him by this nickname.

Hearing his mother's words, Qingfeng Luo felt as if his heart was being cut by a knife. He knelt on the ground and kowtowed as he said, "Mother! I'm unfilial ... After I was separated from you, I was brought to the star Seizer sect by my master. We weren't allowed to leave the mountain until I had some success in my cultivation. When I finally reached the fourth level of the aura refining realm and was qualified to

go out, I didn't waste a single day and immediately went down the mountain to find you. But ... In those chaotic years, I couldn't find you at all! Our village is gone, it's a piece of scorched earth ..."

The middle – aged woman did not seem satisfied with Luo Qingfeng's explanation. She looked at him indifferently and said, "Little Tao, we're right under that piece of scorched earth! That day, an Army rushed into the village and burned the entire village down. All of our villagers ... None of them managed to escape. They were all buried under the scorched earth. Little Tao, we've been waiting for you for more than a hundred years ..."

Luo Qingfeng's eyes almost popped out of their sockets when he heard this. His body trembled even more violently, and his mind gradually began to show signs of losing control.

Xia ruofei, who had been hiding at the side, did not know that Luo Qingfeng had gone through an illusionary array in the misty Taixu xuanqing formation. He only used the demonic sound as a medium to put the person in a state similar to hypnosis. Then, the inner demon would take advantage of this. Therefore, everyone's experience was different, but it was definitely the most unbearable or the most unforgettable thing in their lives.

Xia ruofei saw that Luo Qingfeng's body was trembling more and more violently. His face was also turning red, as if he could go into Qi deviation at any time.

Xia ruofei's heart was filled with joy. He did not expect the illusion of the Taixu xuanqing formation to be so powerful.

If he had known this earlier, he wouldn't have needed to use the trap formation to probe the situation and would have directly entered the illusionary formation. Xia ruofei said to himself.

Just as Xia ruofei was looking forward to Luo Qingfeng's mental breakdown so that he could take advantage of it, Luo Qingfeng suddenly felt a slight chill on his chest. A cool breath entered his body from his chest, and his mind suddenly became clear.

Luo Qingfeng's expression changed. He stood up abruptly and sealed his hearing decisively. Then, he put his hand into his pocket and took out a star – shaped pendant. There were three dark patterns engraved on the pendant. It was the token of the sect leader of the star Seizer sect and also the most precious treasure passed down by the sect. It had been personally controlled by the sect leaders of the past generations.

Chapter 2737 Impermanent changes (2)

Qingfeng Luo saw that one of the three dark patterns on the pendant had lost all its spirituality, and there were some cracks thinner than hair around the dark pattern.

Luo Qingfeng's expression became even more serious.

This was the sect's precious treasure. If it wasn't for the star – shaped pendant that released a cool aura at the critical moment of his Qi deviation, he might have been crippled by now, or even lost his life.

However, the dark patterns on the star – shaped pendant had clearly been damaged after this incident. If nothing unexpected happened, one of them would disappear very soon.

This made Luo Qingfeng's heart ache. When he had first taken over the position of sect leader of the star Seizer sect, there had been four dark patterns on the pendant. Later, he had been ambushed in a battle and was caught off guard. He had been severely injured. At that time, it was also this star – shaped pendant that had actively released a trace of cool air, allowing him to recover from his injuries in an extremely short time and escape successfully. However, after that, there were three fine lines on the star – shaped pendant. The other line disappeared after releasing the cool aura.

And now, it was clear that another fine line was about to disappear.

In Qingfeng Luo's eyes, the star – shaped pendant was like three lives. It could really save his life at a critical moment. He did not expect to use one so easily. When he thought of this, his heart ached.

Luo Qingfeng did not expect the array on the Peach Blossom Island to be so dangerous.

His understanding of the Taixu xuanqing formation came from the ancient books on arrays. The introduction of these ancient books was not so detailed. Naturally, he had no way to solve the problem from the root and directly break the entire formation.

However, it was not difficult for Luo Qingfeng to defend one place and wait for the array to lose its effect.

He had never thought that the formation's changes would be so strange and ever – changing, to the extent that he had unknowingly fallen for it.

Luo Qingfeng suddenly picked up the void exploration mirror and kept shining it around.

In fact, Xia ruofei had not hidden far away. He had thought that even if Luo Qingfeng did not go into Qi deviation, he would soon fall into a state of madness under the influence of his inner demon. So, he was ready to take down Luo Qingfeng in one fell swoop! He did not expect Luo Qingfeng to suddenly wake up.

Furthermore, the process of Luo Qingfeng checking the pendant was actually very short. He immediately picked up the void exploration mirror and looked around.

Coincidentally, the first direction that Luo Qingfeng randomly checked was where Xia ruofei was.

He had been hiding in the array under the cover of the fog, and he was surprised to see Luo Qingfeng wake up, so he relaxed a little at that moment.

When Luo Qingfeng scanned the area with the void exploration mirror, Xia ruofei had already realized it at once. He immediately used the floating steps to change his direction and hid in the depths of the array.

Xia ruofei could not help but feel depressed. Luo Qingfeng's methods were much richer than he had imagined, and some of them were really impossible to guard against. It seemed that no Arous core stage cultivator could be underestimated.

Although Luo Qingfeng was still using the void exploration mirror to look in other directions, his heart was already in a state of shock.

Although Xia ruofei's reaction was extremely fast, the eyesight of an Aurous core stage cultivator was by no means comparable to that of an ordinary person. In just a flash of movement, Luo Qingfeng had actually seen half of the person's figure flash and disappear.

Although Luo Qingfeng did not make a sound, his brows furrowed.

There was someone inside the formation! This was bad news for Luo Qingfeng.

From the start of the array until now, Qingfeng Luo had always felt that it was the intermittent activation of the array. Judging from the old state of the facilities, the array would not be able to last long even if it wanted to. This was the biggest motivation for him to sit down and cultivate while waiting for the array to collapse on its own.

However, she had clearly seen a person just now, so things were complicated ...

Luo Qingfeng stared in the direction where Xia ruofei had disappeared, his mind spinning rapidly.

The Peach Blossom Island incident had dragged on for so long without any news. Yesterday, Zheng Yongshou had directly reported the best news to him. The formation of the Peach Blossom Island was not activated earlier or later, but it was activated the moment they landed on the island. Zheng Yongshou was a cultivator with a good array Dao level, but when he encountered a trapping array, he was actually incoherent, and his behavior was even more ridiculous. He directly barged into the depths of the array and then disappeared without a trace ...

There were so many suspicious points mentioned above, but Luo Qingfeng either selectively ignored them or did not care at all.

Now, with the appearance of this figure, Luo Qingfeng felt that his thoughts were gradually becoming clearer ...

No wonder the natural array just so happened to appear at this time, no wonder Zheng Yongshou fearlessly rushed into the depths of the array, no wonder when he was about to break the trapping array, a killing array suddenly appeared in front of him ...

Luo Qingfeng knew that generally speaking, arrays could not change on their own. When the killing array had appeared, he had already felt that something was wrong, but he had not thought of the worst case scenario. Then, an illusion array had appeared, and with the figure he had just seen, there was no doubt that someone was controlling the great array.

Of course, after he understood some things, his expression became even uglier.

Zheng Yongshou returned to the sect with a face full of joy to report to him, as well as the scenes along the way. They all appeared in Luo Qingfeng's mind. Now, no matter how slow Luo Qingfeng was, he knew that his beloved disciple had actually completely betrayed him. His only purpose in returning to the sect was to trick him to come to this Island and fall into the array.

Luo Qingfeng's face turned livid. He was in danger on one hand, but it was more because of the betrayal of his beloved disciple.

If Wang Boshan had betrayed him, Luo Qingfeng would not have been so angry. After all, Wang Boshan had been active in the secular world all year round and had experienced a lot of complicated things. Moreover, Wang Boshan was not important in the sect. He might have even harbored a grudge.

But Zheng Yongshou was completely different. Qingfeng Luo had always taken care of Zheng Yongshou, because Zheng Yongshou also liked array Dao. Furthermore, Zheng Yongshou had spent most of his time cultivating in seclusion within the star Seizer sect. He had a very strong sense of belonging to the sect. Why would he betray the sect just because he was out on a mission?

Qingfeng Luo forced himself to calm down. If he did not deal with the current situation carefully, he might even die Here.

As for the traitor Zheng Yongshou and the traitor Wang Boshan, Luo Qingfeng could deal with them after breaking the array.

His mind raced and he suddenly shouted, ""Yongshou! You're the one who activated this formation, right? I've really underestimated you. You can actually control the Taixu xuanqing formation in such a short time and use it against your master. You've really made it!"

Xia ruofei, who was hiding in the depths of the array, could not help but be stunned when he heard these words. Then, he immediately revealed a bitter smile. He thought about it and realized that he might have been too careless just now and did not completely avoid the detection of the void exploration mirror. Luo Qingfeng might have noticed that something was wrong.

However, Qingfeng Luo thought that it was Zheng Yongshou who had set up this trap.

Of course, Xia ruofei did not panic. After all, the initiative was in his hands. Luo Qingfeng was already deeply trapped in the array. Even if he woke up, it would not affect the situation.

After shouting, Qingfeng Luo waited for a while. Seeing that Zheng Yongshou did not respond to him, he could not help but shout again, ""Yongshou! There was no need to hide! After all, we're master and disciple. Even if we're going to meet on the battlefield, you should at least come out and meet your master!"

The array was still silent, but the surging fog seemed to be responding to Luo Qingfeng silently.

Luo Qingfeng sneered and said loudly, ""Aren't you afraid that I'll capture you and torture you to death after I break the formation? Or do you think that you can trap me with a mere formation? Hmph! Since that's the case, I'll give you a lesson on breaking arrays!"

Chapter 2738 A breakthrough at the last minute (1)

There was still no response from the depths of the formation.

Qingfeng Luo sneered. With a flip of his hand, he took out a Pearl that was emitting a terrifying aura. He poured the tremendous vital energy of the Golden core stage into the Pearl without reservation.

Although Xia ruofei was hiding far away, he could not help but feel his heart palpitate when Luo Qingfeng took out the Pearl. He could smell a trace of danger.

Xia ruofei did not hesitate to move through the array. In the blink of an eye, he arrived at the cement room where the core array disc was.

Then, Xia ruofei flicked his fingers and spiritual energy entered the array board.

The Taixu xuanqing formation, which had been slowly operating, suddenly accelerated. At the same time, it jumped out of its self – sufficient circulation and began to absorb the energy of the crystals in the groove.

Almost at the same time that Xia ruofei had completed this series of operations, Luo Qingfeng had also completed the process of accumulating energy. A trace of pain flashed in his eyes, but soon, he revealed a fierce light. He raised his hand and threw the bead that was emitting a terrifying aura.

Like a bolt of lightning, the bead streaked across an arc and landed accurately on a node of the array formation to check out the situation of the nearby array formation. Just now, Luo Qingfeng had almost finished checking through the void exploration mirror, but he could not break the array with his own strength.

Of course, what he had investigated was only the partial situation of the formation. As for the entire Taixu xuanqing formation, his level of formation Dao was not enough to fully grasp it. Otherwise, he would not have fallen into a passive state so quickly.

Xia ruofei had originally wanted to rotate the array, but just as he finished the reinforcement work, Luo Qingfeng had already started.

In the blink of an eye, the bead hit the node of the array and exploded with a huge amount of energy. It was like a nuclear bomb explosion, and a visible shock wave began to spread from the center of the explosion.

Xia ruofei felt as if his eardrums were about to burst. It was as if the entire peach source Island was experiencing an earthquake. The strengthened formation was flashing continuously. The energy accumulated since the activation of the formation was being consumed rapidly. At the center of the explosion, the boundary of the formation was clearly approaching its limit and was about to collapse.

Once the Taixu xuanqing formation was activated, it could be said to be endless. No matter which point it attacked, it was actually going against the entire formation. The energy in the other parts of the formation was constantly flowing and forming a whole.

Therefore, under normal circumstances, even if a cultivator in the early stage of the Golden core realm were to perform beyond his usual level, it was unlikely that he could break the array.

However, there was one exception, and that was when a certain node was struck by energy many times more than what it could withstand. This way, the energy of the other parts of the formation could not be replenished in time. Even if it could be replenished, it could not keep up with the speed of consumption. Then, in theory, this part could also be destroyed. Moreover, a slight change would affect the whole body. Once a point collapsed, it was likely to cause a chain reaction.

This was the so – called using force to break through.

However, with Luo Qingfeng's cultivation level, even if he used all his strength, it was impossible.

However, Xia ruofei did not expect Luo Qingfeng to have such a trump card.

The bead he had taken out, even from a distance, could still feel the terrifying aura it exuded.

Xia ruofei had no idea what it was but he still subconsciously followed his sense of danger. He rushed to the core array board at once and converted the energy supply of the array into origin crystals. At the same time, he strengthened the array.

However, his movements were still half a beat too slow. Before he could rotate the nodes of the array, he was directly attacked by the bead.

Xia ruofei took a look and saw that energy vacuums had formed at the places where the nodes of the formation had been attacked. There was no time to replenish the energy in other parts of the formation. Furthermore, the shock wave was still spreading outwards. The other parts of the formation were also under tremendous pressure. He knew that it might only take a few breaths 'time for the formation to show partial collapse.

The situation had suddenly become very grim.

Xia ruofei didn't have time to hesitate. He took a big step and arrived in front of the core array board. One of his palms pressed on the array board without hesitation and continuously transferred his true Qi into it. At the same time, he used his mind and a piece of origin crystal appeared in his other palm. He was transferring energy into the array at the fastest speed regardless of the consumption. At the same time, he was still operating the "great Dao technique" to absorb the spiritual Qi in the origin crystal. If he was multitasking, even the slightest mistake would cause him to go berserk.

However, Xia ruofei knew the severity of the situation. Hence, he did not hesitate and chose to do so.

True Qi was also a very pure energy, even purer than spiritual energy. In a sense, true Qi was the product of the circulation of spiritual energy through the meridians and purification in the dantian. In terms of energy purity, it was indeed higher than spiritual energy.

However, true energy could not be directly instilled into other cultivators for use. This was because after the spiritual energy was transformed into true energy by the cultivator, it would actually carry the cultivator's own aura. Under normal circumstances, other cultivators could not absorb it.

However, the formation didn't have such a restriction. As long as it was energy, it could definitely be absorbed.

Xia ruofei was madly circulating the "great Dao chant" mental cultivation method. The meridians in his body were also stretched to the limit. Spiritual Qi was like a large river flowing through his meridians. On the other side, he was continuously pouring his true Qi into the core array disc and quickly transmitted it to the most dangerous position.

Chapter 2739 Breakthrough at the last moment (2)

After the tottering array barrier received energy replenishment, it shook a few times and began to close in on stability again.

Seeing this, Luo Qingfeng could not help but sneer. Then, he flashed over and hit the node of the array heavily with his palm. The full – force attack of an early – Stage golden core cultivator might not be able

to shake this enchantment under normal circumstances, but now, the enchantment was already an arrow at the end of its flight. It was originally supported by the energy that Xia ruofei had added. Luo Qingfeng's attack was like the last straw that broke the camel's back. With one palm, cracks began to appear on the enchantment, and the cracks were spreading at a speed that was visible to the naked eye.

Xia ruofei knew the situation inside the formation like the back of his hand. He sensed this situation immediately.

However, the more dangerous the situation was, the calmer Xia ruofei was. He did not panic because of the barrier's destruction. Instead, he quickly released his spiritual power to control the array board and adjust the circulation of the array.

Luo Qingfeng was also very experienced. After the wizardry barrier shattered, he did not hesitate to fly along the route that he had previously checked. The direction was exactly the cement house where Xia ruofei was.

Although Luo Qingfeng could not fully understand the mystery of the Taixu xuanqing formation, he had still chosen the most correct path based on his extensive experience and investigation of the local formations.

Xia ruofei's face turned bitter. He did not expect that the biggest variable would be the bead that Luo Qingfeng had taken out.

It could be seen from Qingfeng Luo's pained expression that he would not have taken out the Pearl if he had not been forced to or at a life – and – Death juncture. It was clear that this item was very precious and was most likely a one – time use item.

No matter what, this was the current situation. Luo Qingfeng had already cracked part of the Taixu xuanqing formation, and Xia ruofei was not able to mobilize the formation so quickly. In addition, this part of the node had been destroyed, so it was inevitable that the operation of the formation would be delayed to a certain extent. Thus, the efficiency was even lower.

In the surging fog, the various defensive formations of the Taixu xuanqing formation were constantly changing positions.

Xia ruofei continued to channel his true Qi into the formation plate as if he didn't care about his own life. He didn't even care that his dantian was starting to hurt.

At the same time, he was also continuously absorbing the extremely dense spiritual energy of the origin crystal in his palm, and continuously operating the <great Dao Scripture>.

Xia ruofei was so focused on controlling the formation that he didn't even realize it. Because of the high – intensity cultivation and consumption, the originally firm shackles of the realm had begun to loosen.

It was like a heavy door that couldn't be pushed open before, but now a very small gap had been opened.

Although the gap was small, he could already smell the scent inside the door.

However, Xia ruofei did not feel it at all. He was still operating the great Dao formula at high speed. At the same time, he was continuously injecting his genuine Qi into the core array board to speed up the operation of the array.

At this moment, Luo Qingfeng was like a god who had descended to the mortal world. He would kill anything that stood in his way.

No matter if it was an illusion array, a trap array, or a killing array, they did not have time to completely close up. Luo Qingfeng's cultivation was relatively high, so he broke through all the arrays with force and quickly rushed to the front of the cement house ...

Qingfeng Luo saw that there was no fog around the cement house. He was slightly stunned at first, and then he revealed a cruel sneer.

"I've finally found you, my disciple!" Qingfeng Luo said word by word.

With his array Dao level, he could naturally guess that this place was most likely the array core, and the array controller would naturally be next to the array core.

However, up until now, Luo Qingfeng still thought that it was Zheng Yongshou who had controlled the array to deal with him.

The anger in Luo Qingfeng's chest was burning. At the same time, he felt a sense of pride. After all, he had broken the Taixu xuanqing formation with his own hands. Even though he had paid a great price, at least the result was quite good.

How could a formation at the level of the Taixu xuanqing formation be so easy to crack? Luo Qingfeng felt that Zheng Yongshou's array Dao cultivation was limited, and the array had just been activated and was not yet stable.

He believed that after he took control of the peach source Island, he would be able to improve the power of the formation by a large margin.

Qingfeng Luo's anger dissipated at the thought of his bright future. Losing the Pearl was indeed a heartache, but he felt that it was worth it to exchange it for a cultivation paradise like the peach source Island.

Qingfeng Luo paused for a moment, then waved his hand. The iron door of the cement room was grabbed down by an invisible force and flew to the side.

As soon as the iron door opened, Xia ruofei was naturally exposed to Luo Qingfeng's sight.

Luo Qingfeng was stunned when he saw Xia ruofei injecting vital energy into the core of the array. He squinted his eyes and sized Xia ruofei up, then said, "Zheng Yongshou isn't controlling the formation? I knew it ... With his half – baked skills, how could he possibly control the Taixu xuanqing formation?"

Then, Luo Qingfeng asked again, 'tell me! Who are you? And how did you find the Peach Blossom Island?"

Luo Qingfeng was still very vigilant when he saw a strange young man on the Peach Blossom Island with such a high level of array Dao.

It was obvious that Zheng Yongshou and Wang Boshan had betrayed the sect and sought refuge with this young man.

What Luo Qingfeng was most worried about was that this young man had a sect background.

This was because the secret of the Paradise Island had already been exposed.

Especially when he found out that Xia ruofei's cultivation had already reached refined Qi level 9. He was even more shocked. How could he reach refined Qi level 9 at such a young age?

Qingfeng Luo thought about it. When he was her age, his cultivation level ... Seemed to have just reached refined Qi Level 2!

Could it be that he was someone from a powerful faction? Luo Qingfeng had a bad feeling.

However, Xia ruofei did not say a word. He remained sitting cross – legged with his eyes closed.

He had already stopped injecting vital energy into the core array disc. Luo Qingfeng was already right in front of him, and it was too late to activate the array.

However, Xia ruofei did not stop cultivating the great Dao technique.

It wasn't that he didn't want to, but he simply couldn't stop.

Just now, he had desperately poured in true Qi at all costs, and at the same time, he had also used his fastest speed to circulate his cultivation method to absorb the spiritual energy contained in the origin crystals. Without realizing it, he had already touched the biggest bottleneck of the Qi refining stage.

If Xia ruofei had discovered it in time, he could have suppressed his cultivation and stopped.

However, all of his attention had been focused on the formation at the time, and he had no time to check his own condition.

By the time Xia ruofei realized that something was wrong, he was already on the verge of breaking through and could not stop.

It was like a heavy train. If it started to accelerate, it could still stop. However, as it gradually increased its speed, under the huge inertia, if the train wanted to stop, it had to slow down a long time in advance.

This was Xia ruofei's current situation. The difference was that he couldn't slow down at all. The genuine Qi in his body was boiling and constantly attacking the bottleneck of his cultivation.

The pure energy in the origin crystal was still flowing into his meridians.

What Xia ruofei could do was to break through as soon as possible. Otherwise, he would definitely suffer from Qi deviation. If he was lucky, he might lose all his cultivation and become a cripple. If he was unlucky, he might even die on the spot.

Even though he knew that he was facing a powerful enemy, Xia ruofei remained calm and focused on breaking through the bottleneck of his cultivation.

Seeing the young man sitting cross – legged on the ground without even turning his head, Qingfeng Luo was furious.

However, he soon noticed that something was wrong and could not help but release his spiritual power to investigate.

“Hahaha!” Luo Qingfeng could not help but laugh wildly. “You’re actually breaking through? You still have the heart to break through at this time! Truly, the ignorant are fearless!”

Qingfeng Luo knew all too well how tough the bottleneck of the Qi refinement stage was. Under normal circumstances, one would have to make all kinds of preparations and adjust their body to the best condition before attempting to break through. Even so, the success rate was very low.

...

But this young man in front of him actually broke through at the last minute. Wasn’t he looking down on him, an Aurous core stage cultivator?

A cruel smile appeared on Luo Qingfeng’s face. Even if he thought that the chances of Xia ruofei’s breakthrough were very low, he would not let Xia ruofei continue to try. Now that they were enemies, he would not be so pedantic as to wait for Xia ruofei’s breakthrough before fighting to the death.

Luo Qingfeng’s figure flashed and he dashed in Xia ruofei’s direction. At the same time, he waved his palm and struck Xia ruofei’s back ...

Chapter 2740 Taking advantage of the situation to break through (1)

It was the most critical moment for Xia ruofei’s breakthrough when Luo Qingfeng did not have the time to form the surrounding array in front of the cement house. Although he knew that Luo Qingfeng was unstoppable, he had to cut off the connection with the core array disc for the time being and focus all his attention on the breakthrough.

Xia ruofei used all his strength to operate the “great Dao Arts” technique. He used his genuine Qi to flush the unopened meridians again and again, constantly breaking through the bottleneck of his cultivation.

But the shackles of crossing major realms were even stronger than he imagined.

Although the true Qi cultivated from the great Dao Arts was extremely pure and the foundation he had laid down before was very solid, this breakthrough was still a little rushed.

Xia ruofei could feel that the sturdy door had been pushed open a crack. Under the repeated washing of essential Qi, it was slowly opening. However, the opening speed was too slow. He even felt that it was difficult to continue.

Although he was completely immersed in his breakthrough and isolated himself from the outside world, he knew that the situation was not good. He knew that what he needed the most now was time.

However, the process of breaking through was extremely difficult, and time did not allow it.

What was more serious was that Xia ruofei could not move at all. In fact, he was fully focused on breaking through. Unless he wanted to go into Qi deviation, he could not multitask like he did just now.

Xia ruofei circulated the “great Dao Arts” to the extreme. His genuine Qi was constantly breaking through the bottleneck in the high – speed circulation.

“Break it ...” Xia ruofei shouted in his heart.

The heavy door was still opening slowly. Xia ruofei could feel the alluring view behind the door, but he was still far from a complete breakthrough.

Luo Qingfeng did not give him any time.

Danger was approaching!

Xia ruofei had already closed his Six Senses. It was only when Luo Qingfeng’s attack landed on his back that he suddenly woke up from his state of concentration.

The Golden core Qi entered Xia ruofei’s body from his back. He felt as if he had been hit by a heavy truck. The powerful Qi entered his meridians. He felt something sweet in his throat and could not help but spit out a mouthful of blood.

In fact, Luo Qingfeng’s palm had not even touched Xia ruofei’s back, but his vital energy had already surged in.

Luo Qingfeng had a cruel smile on his face.

There was no doubt that this young man was a genius. Otherwise, he wouldn’t have been able to reach refined Qi level 9 at such a young age. He might have even begun to break through the bottleneck of the major realm.

Killing such a genius with his own hands gave Luo Qingfeng an indescribable pleasure.

However, Luo Qingfeng’s smile only lasted for a second before it froze on his face. Then, he widened his eyes as if he had seen a ghost.

It turned out that when his genuine Qi entered Xia ruofei’s body, Xia ruofei opened his eyes and spat out a mouthful of blood.

However, Xia ruofei disappeared right after.

Qingfeng Luo couldn’t believe his eyes. Such a living person had just disappeared into thin air right under his eyes. This made Qingfeng Luo feel like he was hallucinating. He subconsciously rubbed his eyes and looked over, but the young man was still nowhere to be seen.

If not for the blood that Xia ruofei had spat out, Luo Qingfeng would have thought that he was in a dream.

He incredulously took two steps forward and carefully examined it, but there was no trace at all. It was as if the young man had teleported.

Could it be that he had a magic treasure that could teleport? Luo Qingfeng’s expression became even more solemn.

He had only heard of such a magic weapon, but had never seen it before. To be able to take out such a precious magic weapon, it could be imagined how powerful the force behind this young man was. Perhaps there was a Yuanying stage old monster beyond the Golden core stage.

Even if he managed to take down the Peach Blossom Island, could he really keep it? Luo Qingfeng could not help but wonder.

Of course, Xia ruofei didn't disappear because of some heaven – defying treasure given by the elders of his sect.

When Luo Qingfeng's powerful vital energy attacked him just now, he had finally broken away from the state of no thoughts and no thoughts. It was as if he had been hit by a heavy hammer on his back. If it had been an ordinary person, he would have been flustered. Even if he had not been killed by Luo Qingfeng, he would have been possessed by the devil.

However, Xia ruofei had long trained his mental strength to be strong. At that moment, his thoughts were extremely clear and he made the most correct and crucial choice. He did not hesitate to communicate with the spirit map space with his mind and entered the spirit map space the moment he was attacked.

Xia ruofei had already considered the worst – Case scenario when he was making his preparations. Hence, he had hidden the painting in a crack on the cliff wall in advance. He had also covered it with weeds. It could be said to be seamless.

The cement room was not far from the cliff. It was within the range of Xia ruofei's spiritual power. As long as he willed it, he could directly communicate with the spirit map scroll in the crack of the cliff and enter the space.

Originally, it was just a preventive measure, but who would have thought that the final arrangement would actually work.

It could be said that Xia ruofei's own cautiousness had saved his life.

Xia ruofei was at the critical moment of his breakthrough. Although he was forcefully awakened by Luo Qingfeng's attack, he only had a moment before he had to continue to immerse himself in the breakthrough. Otherwise, he might really lose control of his violent essential Qi.
