Chapter 2741 Taking advantage of the situation to break through (2)

Fortunately, Xia ruofei's mind was very clear and calm. He had also made all the necessary preparations in advance to help his Archean realm in the spirit map space. He had even used the time array flags to set up the formation. After the effects of the time array flags and the Archean realm were superimposed, the time flow in the formation was 2000 times slower than the outside world.

Xia ruofei's plan was to give himself more time to react when the situation turned bad.

This arrangement was now playing a key role.

The moment Xia ruofei woke up, he entered space without hesitation. He even entered the array formation formed by the time array flags of the Archean realm.

Under the effect of the 2000 – times difference in time flow, when one observed the outside world from the inside of the primordial realm time formation, everything seemed to have stopped.

Of course, after Xia ruofei entered the space, he had no time to observe the situation outside. He entered a state of no thoughts and no thoughts and devoted himself to the breakthrough.

Xia ruofei quickly realized that although Luo Qingfeng's palm had caused him some damage, most of the vital energy had been quickly assimilated by the vital energy of the great path after entering his meridians. It had joined the ranks of breaking through the bottleneck.

Under normal circumstances, it was very dangerous for the enemy's genuine Qi to rush into one's meridians, and it was an enemy who was one realm higher than one's cultivation. It was very likely to cause serious damage to one's meridians. Even if one's meridians were lucky enough not to be injured, it would still disturb the normal operation of genuine Qi. One could even go into Qi deviation if one was not careful.

However, Xia ruofei's starting point for his cultivation was very high. The foundation of the great Dao Arts was too solid, and his meridians had long been tempered by the great Dao true Qi to become extremely tough. Although Luo Qingfeng's true Qi was powerful and Xia ruofei felt as if his meridians were about to burst, he still managed to withstand it.

More importantly, the level of the "great Dao Arts" that he had cultivated was extremely high, and it was in line with the Supreme Truth of heaven and earth. The true Qi that he had cultivated was even more inclusive. The true Qi that came from Luo Qingfeng could not disturb the circulation of the true Qi of the great Dao at all. On the contrary, under the constant brushing, Luo Qingfeng's unique aura was eliminated bit by bit. This vigorous true Qi was directly transformed into the purest energy, and together with the true Qi of the great Dao, it was charging towards the bottleneck of his cultivation.

With the help of this Qi of a higher level, Xia ruofei's breakthrough speed was much faster.

Originally, the door was half – covered with a pipa, and it took a long time to widen the gap a little. But now with the help of the true Qi of Jindan stage, it was as if the door's hinges had been lubricated, and it was much easier to push.

Xia ruofei was overjoyed. He quickly mobilized his genuine Qi and tried to break through the bottleneck.

Even so, this breakthrough was the most difficult one Xia ruofei had ever experienced since he started cultivating.

He spent a full day before he finally felt a cracking sound coming from his body, as if an egg shell had cracked. The originally solid shackles of his cultivation had finally been broken.

Once the shackles were broken, it meant that more of the blocked meridians were opened.

The huge amount of true energy also had a vent all of a sudden. Like a dam bursting its dam, it gushed through these newly opened meridians.

Xia ruofei was also enlightened. He immediately started to circulate his genuine Qi according to the second level of the “great Dao technique”.

Ever since he had unlocked the “heaven” jade talisman, Xia ruofei had already collected all the techniques of the “great Dao technique”. However, the Qi refinement realm only needed to cultivate the first level of the technique.

Hence, this was Xia ruofei’s first time cultivating the second level of the “great Dao Arts”.

Fortunately, the Jade talisman of inheritance “copied” the technique directly into Xia ruofei’s mind and even brought his cultivation experience. Hence, it did not look like Xia ruofei was cultivating the second level of the technique for the first time. He controlled his genuine Qi with great familiarity and circulated it along the more complicated Meridian routes.

After a breakthrough in cultivation, it was natural to consolidate it as soon as possible. Otherwise, if the foundation was not solid, the subsequent cultivation would be affected. If the cultivation was not consolidated in time, it was not impossible to fall back to the Qi refining stage.

Most importantly, after Xia ruofei had successfully broken through, the first thing he did was to check the situation outside.

Due to the difference in time flow of two thousand times, although Xia ruofei had spent an entire day to break through the shackles of the Qi refining stage, only less than a minute had passed in the outside world.

When Xia ruofei checked, he found that Luo Qingfeng had not fully recovered. He was still looking for him, so Xia ruofei was not in a hurry to go out.

The second level of the “great Dao Arts” was even more mysterious. Many of the meridians were only opened up when one broke through. When the true energy circulated through these meridians, they greedily absorbed the nutrients of the true energy like a land that had been dry for a long time receiving sweet rain. They expanded at a speed visible to the naked eye, and at the same time, they became tougher.

With every circulation, Xia ruofei noticed that the genuine Qi in his dantian had a slight change. The new genuine Qi seemed to be fundamentally different from the genuine Qi He had before.

The same wisp of genuine Qi contained at least ten times more energy than before, and the density was obviously higher.

Xia ruofei had a sudden realization. This must be the so – called ‘vital Qi’.

The most essential difference between the Qi refining stage and the Golden core stage was that the true Qi of a golden core stage cultivator had been completely transformed into primordial Qi. So, to be more precise, when Xia ruofei was attacked by Luo Qingfeng just now, the primordial Qi that had rushed into his meridians was extremely pure. It was also because of this that his breakthrough speed had suddenly increased by a lot.

Chapter 2742 Taking advantage of the situation to break through (3)

Of course, strictly speaking, Xia ruofei’s current cultivation was not at the Golden core stage.

A true golden core stage cultivator would completely transform the true Qi in their body into origin Qi, and form a miniature golden core cyclone in their dantian. The formation of this miniature cyclone marked the cultivator’s official entry into the early golden core stage.

Luo Qingfeng’s cultivation was at this stage.

When a cultivator broke through the shackles of the Qi refining stage, they had not yet reached the Golden core stage. It was generally called the foundation building stage. As the name implied, it was a period of time when the foundation of cultivation was built.

However, the foundation establishment stage was only a transitional stage. The whole process was to transform the true Qi into primordial Qi. When the true Qi was completely transformed into primordial Qi, as long as the embryonic form of the Golden core was successfully formed, it meant that the cultivator had officially reached the cultivation of the early golden core stage.

This process could be completed as long as one cultivated step by step, and there would be no bottlenecks in the middle. Therefore, when the cultivation world divided the levels, many times the foundation establishment stage was not regarded as an independent level.

As long as a cultivator broke through the shackles of the Qi refining stage, they were already “quasi – Golden core” cultivators. Generally speaking, there were very few cultivators who could successfully build their Foundation and not reach the early golden core stage.

Xia ruofei felt the difference between vital Qi and genuine Qi, then continued to use the great Dao Arts. He was now in the spirit map’s space, and the spiritual Qi was very rich. After the space was upgraded, he could replenish energy from the chaotic space outside, so he did not have to worry about the space being affected by the large consumption of spiritual Qi.

Xia ruofei absorbed the pure spiritual Qi into his body. At the same time, the genuine Qi in his body was circulating in his meridians. With every big circulation, it would produce a more condensed vital Qi.

After three hours of cultivation, Xia ruofei finally felt that the speed of the genuine Qi conversion had slowed down.

He knew that his cultivation base had been completely consolidated.

Although only about 10% of the true Qi in the body had been converted into primordial Qi, cultivation was never something that could be achieved overnight. Even if there were no bottlenecks and shackles

in the Foundation Stage, it would still take a certain amount of time to successfully form the embryonic cyclone of the Golden core.

Xia ruofei's cultivation had already been consolidated. If he continued to cultivate, his efficiency would be greatly reduced.

He also sent out a wisp of his spiritual energy to check the outside world and found that Luo Qingfeng had given up on looking for him and had turned to the core array disc that was still operating on its own.

Luo Qingfeng was decisive. He used his spiritual energy to search the entire peach source Island, but he could not find Xia ruofei. Of course, there were blind spots in his search. Although the Taixu xuanqing formation had suffered some damage, the main body of the formation was not affected. Thus, Luo Qingfeng's spiritual energy could not probe deeply into many areas.

Therefore, Luo Qingfeng quickly made the right decision. He had to destroy the core array disc first before considering the next step.

Although this core array disc could activate the Taixu xuanqing formation, it was set up by the enemy. With his array Dao cultivation, it was not enough to find out if the enemy had any other tricks up his sleeve. Therefore, the safest way was to destroy the array disc completely first and then use his own means to reactivate the array. In this way, he could still control the formation without leaving any hidden dangers.

Seeing this, Xia ruofei's expression turned cold. Without hesitation, he moved out of the spirit map space and appeared directly outside the cement room. At the same time, his spiritual power entered the core array board without hesitation and began to skillfully manipulate the array ...

Chapter 2743 A direct confrontation_1

As soon as Xia ruofei's figure appeared, Luo Qingfeng immediately sensed that Xi Jue was near the core of the array. He did not dare to relax and kept his spiritual power on high alert.

Qingfeng Luo did not turn around. Instead, he controlled his meteor flying sword and stabbed it toward the core array disc.

The meteor flying sword, as its name suggested, was extremely fast. As it flew, it let out a piercing sound. In the blink of an eye, it had already stabbed heavily into the core formation plate.

However, the scene that Luo Qingfeng was looking forward to did not appear. The core array disc suddenly burst out with a brilliant light, and a translucent light film appeared. Before meteor sword's lightning – like attack could touch the core array disc, it was blocked. The light film only caved in a little and immediately returned to its original state. Meteor sword could not move forward at all. No matter how hard Luo Qingfeng tried, he could not break the light film.

"Hmph!" Luo Qingfeng snorted coldly and retrieved his flying sword with a wave of his hand. Then, he turned around and looked at Xia ruofei coldly.

Luo Qingfeng was very experienced in combat. He knew very well that the entire array was controlled by Xia ruofei. Although he did not know how Xia ruofei had disappeared, the moment he reappeared, he

did not attack Xia ruofei just because he had a higher cultivation level. Instead, he planned to destroy the array disc first.

From Luo Qingfeng's point of view, the Taixu xuanqing formation was Xia ruofei's biggest reliance. As long as he could completely crack the formation, he would be able to capture Xia ruofei, who was only at the ninth level of the aura refining realm.

Even a Lion would use its full strength when hunting a rabbit, not to mention that there were too many uncertain factors in the Taixu xuanqing formation.

However, it was obvious that Xia ruofei's reaction was also quite fast. He activated the defensive function of the formation at the first moment.

Luo Qingfeng realized that he could not destroy the array disc in a short period of time, so he decisively chose to give up and turned to face Xia ruofei.

As long as he could restrain Xia ruofei in an instant, the formation would not be a problem without a controller.

At the end of the day, strength was the only thing that mattered.

"Hmph!" Luo Qingfeng snorted coldly. "I didn't expect you to have some tricks up your sleeve!" You actually managed to escape from my hands and even knew to protect the formation at the first moment. Your reaction is also fast! However ... You still dare to appear here. Could it be that you think I can't do anything to you?"

Xia ruofei's lips curved up and he said, "If I were you, I wouldn't be so confident. Who said that you can do anything to me?"

Luo Qingfeng could not help but burst into laughter as if what Xia ruofei had said was the funniest joke he had ever heard in his life.

Luo Qingfeng pointed at Xia ruofei and said, "Why don't you use the formation and see if you can escape from me again at such a close distance ..."

As soon as Luo Qingfeng finished speaking, Xia ruofei disappeared into thin air again.

Luo Qingfeng was stunned. The expression on his face was very interesting. It was as if a thousand alpacas were running wildly in his heart. I just said you can't escape, and you disappeared into thin air again? Did he have to slap his face like this?

The next moment, Xia ruofei suddenly appeared again. This time, he appeared behind Luo Qingfeng.

Luo Qingfeng noticed it immediately and turned around. He stared at Xia ruofei with a serious expression and asked, "You ... How did you do that? Could this also be the effect of the Taixu xuanqing formation?"

Xia ruofei smiled and asked, "You want to know?"

Luo Qingfeng nodded subconsciously, but then immediately realized that his reaction seemed too low. He immediately snorted and said, "Stop playing tricks! It was nothing more than using the power of

formations or magic treasures to hide their tracks! What can you do to me? Don't tell me that you want to rely on your cultivation of refined Qi level 9 to ..."

Luo Qingfeng suddenly stopped. He looked as if he had seen a ghost. He stared at Xia ruofei, and his mouth opened subconsciously. He did not come back to his senses for a long time.

Xia ruofei crossed his arms and looked at Luo Qingfeng with a faint smile on his face.

Luo Qingfeng asked with a trembling voice, "You ... You've broken through?"

Xia ruofei shrugged and said, "He had accidentally used too much strength just now and directly broke through! Sigh ... I originally wanted to lay a more solid foundation for cultivation, but I didn't expect to break through so quickly. What a headache!"

Luo Qingfeng almost spat out a mouthful of blood.

Still vexed?

Troubled your sister!

When other cultivators broke through the shackles of the Qi refining stage, they had to go through a considerable amount of accumulation. Moreover, before the breakthrough, they had to make sufficient preparations and adjust their physical condition to the best state. Then, they would find someone they absolutely trusted to help guard them, and then they would go into seclusion to breakthrough.

Even for cultivators with a solid foundation and extremely high talent, it would take a long time to break through the bottleneck of such a big realm.

Back when Luo Qingfeng broke through the shackles of refined Qi level 9, he had gone into seclusion for seven days and seven nights before he was lucky enough to break through.

It had only been 20 to 30 minutes since he stepped into the Taixu xuanqing formation. Besides, Xia ruofei couldn't have started to break through before he entered the formation. Otherwise, this couldn't be explained by Almighty Xin. It was simply stupid.

Luo Qingfeng judged that Xia ruofei had most likely entered the state of breakthrough uncontrollably while he was breaking through the layers of formations with an unstoppable force. He had been continuously injecting essential Qi into the formations at all costs and at the same time, replenishing his essential Qi through cultivation. Moreover, his own cultivation had long reached the critical point.

Chapter 2744 A direct confrontation (2)

If that was the case, Xia ruofei's breakthrough process had only lasted three to five minutes!

He completed the breakthrough just like that?

It was even easier than eating and drinking, right?

What was even more outrageous was that Luo Qingfeng felt that his palm had clearly hit Xia ruofei. Even if his palm did not touch Xia ruofei's back, the primordial Qi that seeped out of his body had firmly imprinted itself on Xia ruofei's back.

During the process of breaking through, he suffered a heavy blow on his back, but not only was he not injured, but he also did not suffer from Qi deviation. Moreover, he easily broke through the shackles of a major realm within three to five minutes?

Did it have to be so fierce?

Seeing this scene, Luo Qingfeng felt that his cultivation knowledge system was about to collapse.

Luo Qingfeng could not help but look deeply at Xia ruofei again to confirm that what he saw was not an illusion. Xia ruofei had indeed broken through, and it seemed that his cultivation was very solid. His cultivation was higher than Xia ruofei 's, so it was not difficult to see this.

However, Luo Qingfeng did not dwell on Xia ruofei's breakthrough any longer. He snorted and said,""So what if you've broken through? The true Qi in your body hasn't even been transformed into vital Qi, so how much combat power can you improve? If I were you, since I've broken through by luck, I would hide and consolidate my cultivation, working hard to transform more true Qi into origin Qi, and not be so arrogant that I think I can arm – wrestle with you just because I've broken through!"

At this point, Luo Qingfeng looked at Xia ruofei with contempt and asked,""I'm guessing that you've only converted one – thousandth of your true Qi into Yuan Qi, right? You haven't even consolidated your cultivation base and you dare to jump out. You're truly an ignorant person!"

Although there would not be any bottlenecks in the whole process from the successful Foundation establishment to the complete transformation of true Qi into primordial Qi, it was still Quite time – consuming. This was because this transformation could only be completed slowly with solid cultivation, and it was a test of patience.

It took Luo Qingfeng three years to completely convert the vital energy in his body into vital energy.

It had only been a few minutes since Xia ruofei broke through. Luo Qingfeng felt that he had overestimated Xia ruofei by saying that it was one in a thousand.

"Ah? One in a thousand?" Xia ruofei was stunned for a moment, then said weakly,"I don't think I have so little! It should have been converted to about 10%!"

"Pfft ..." Luo Qingfeng felt like he was about to vomit blood.

"Ten percent?" "What?" Luo Qingfeng was in disbelief."Are you sure you're not exaggerating?"

Xia ruofei shrugged and said,"what's there to exaggerate?" It's only 10%. It's already very embarrassing, okay? If I wanted to exaggerate a little, I wouldn't say such a low number! You should at least say 70 – 80%!"

Although Qingfeng Luo did not know what "low" meant, he could more or less guess it from the context. At least, he could confirm that it was not a good word.

10% and it's still "missing"? Then how can you let me, who can only convert one – thousandth of a favor every day, bear it? 'Luo Qingfeng thought to himself.

Was there really such a huge difference between people? Luo Qingfeng was speechless.

Luo Qingfeng, who had recovered from the shock, returned to his cold expression. He snorted and said, "So what if it's ten percent? I will let you truly experience the gap between you and a real Aurous core stage cultivator!"

After saying that, Luo Qingfeng did not say anything more. Instead, he took the initiative to attack Xia ruofei.

Luo Qingfeng could already feel that things were getting out of his control. This feeling was extremely unpleasant. He felt that it was necessary for him to take the initiative of the situation. As long as he could get rid of Xia ruofei, he would naturally have the initiative.

Luo Qingfeng's speed was extremely fast, and he had rich combat experience, but Xia ruofei did not panic.

He was not trying to act dumb or cute just now. In fact, he had already used his spiritual power to communicate with the core array disc and adjusted all the intact formations of the Taixu xuanqing formation to his surroundings.

However, Xia ruofei was not in a hurry to activate the formation.

He had made a breakthrough in his cultivation, but he had never really fought a golden core cultivator like Qingfeng Luo. He wanted to see how much his strength had improved and how big the gap was between him and Qingfeng Luo.

Therefore, when Luo Qingfeng closed in on him, Xia ruofei did not retreat.

Luo Qingfeng appeared in front of Xia ruofei in the blink of an eye. His palms struck toward Xia ruofei's face with a cold wind. The Qi in his body was flowing as if it had sealed off all of Xia ruofei's escape routes. It was obvious that it was a very advanced martial art technique.

Xia ruofei took a deep breath and moved his feet at will. He dodged casually and easily avoided Luo Qingfeng's attack.

Floating steps!

This was the first time that Xia ruofei had used the floating steps in a battle. He had already practiced this movement technique to an extremely proficient level when he was breaking through the array. Before Luo Qingfeng's attack arrived, he had subconsciously used this movement technique.

Luo Qingfeng was slightly stunned. He did not expect Xia ruofei's movement technique to be so profound.

However, he didn't stop. He took advantage of the situation and kicked to the side. He wanted to attack Xia ruofei before he could steady himself.

However, Xia ruofei seemed to have anticipated his next move. He still easily dodged and appeared behind him. His movement was so fast and his trajectory was so mysterious that even Luo Qingfeng could not see any traces of it. It was as if it was natural.

Naturally, Xia ruofei would not be passively beaten up. He now occupied an advantageous attacking position, so he punched Luo Qingfeng's back without hesitation.

Luo Qingfeng was also very observant. He tilted his body slightly and extended his forearm to accurately block Xia ruofei's powerful punch.

Xia ruofei suddenly felt a strong rebound force. He could not help but take five or six steps back before he could stabilize himself. His fist was in pain as if the bones in his fingers had been cracked.

Xia ruofei could not help but sigh. He knew that although he had broken through, the conversion rate of his vital energy to vital Qi was still too low. He was still lacking when it came to a direct confrontation with a golden core cultivator like Luo Qingfeng.

What Xia ruofei did not know was that Luo Qingfeng's shock could not be any greater.

In the first head – on collision just now, Luo Qingfeng had thought that even if Xia ruofei was not bragging and had really transformed 10% of his genuine Qi into primordial Qi, he would not be able to fight him head – on. He had just injected primordial Qi into his forearm. Even if Xia ruofei had taken the initiative to attack and he had only blocked it, Xia ruofei would have been sent flying under normal circumstances. Even if the bones of that fist were not broken, it would at least cause a fracture. At the very least, it should have made Xia ruofei's fist red and swollen.

Although Xia ruofei took a few steps back and his fist seemed to hurt from the impact, that was all. After shaking his fist, he seemed to be fine again.

Was this really just ten percent of his true Qi? Luo Qingfeng was speechless.

He felt that even if Xia ruofei's genuine Qi had been converted into primordial Qi, his body could not be so strong!

It should be known that not only had all of his true Qi been transformed into primordial Qi, but the most important thing was that the embryonic form of the Golden core had already been formed in his dantian. The formation of this vortex would also increase the strength of the cultivator by several times, because this marked the official entry into the Golden core stage. Even the level of life had evolved.

Luo Qingfeng naturally did not know that Xia ruofei's "great Dao Arts" was of a much higher level than his own. The vital Qi produced by the two was also of a completely different level. In addition, Xia ruofei had been practicing the little golden man's body – tempering movements all this while. The strength of his body was not inferior to that of the other golden core cultivators.

Seeing that close – range attacks were ineffective, Qingfeng Luo immediately changed his strategy.

Xia ruofei also felt an extremely dangerous aura. He did not hesitate to activate his floating steps to the maximum. The next moment, he felt a cold light almost brushing past his waist. He could clearly feel the biting cold aura through his clothes.

Xia ruofei was furious. An Aurous core stage cultivator was using a flying sword against a cultivator who had just broken through to the Foundation Stage? Furthermore, he had even launched a sneak attack. He had simply lost all the face of an Aurous core stage cultivator!

You have a flying sword, do you think I don't?

Xia ruofei did not hesitate. With a slight thought, the blue travel immortal sword that had been nourishing in his dantian flew out and accurately hit meteor sword, who had just made a wrong move and was about to change its direction to attack again ...

Chapter 2745 No way to escape (1)

Ding! Ding!

In a flash, the two flying swords collided.

Luo Qingfeng's Meteor sword was sent flying, but the blue travel immortal sword was not affected at all. Its momentum was only slightly reduced, and then it immediately drew a beautiful arc and quickly slashed toward Luo Qingfeng's neck.

Luo Qingfeng's mind trembled, and his eyes revealed a look of disbelief.

Didn't this young man just break through? How did he manage to nurture a flying sword in his dantian?

Most importantly, his meteor sword was completely suppressed by his flying sword and was at a disadvantage.

What did this mean?

It meant that the other party's flying sword was of a much higher grade than his, and at the same time, the other party's mental power cultivation was at least not weaker than his, and might even be stronger than his.

These two conditions were indispensable. Otherwise, it would be impossible to achieve the effect of sending meteor sword flying with a single collision.

For the first time, Luo Qingfeng felt a trace of fear.

The person opposite him was definitely a super genius!

Perhaps Luo Qingfeng was confident that he would not be at a disadvantage if he were to face Xia ruofei head on. However, he also knew that it would be extremely difficult to kill Xia ruofei.

Most importantly, he couldn't afford to offend such a super – genius because only those reclusive superpowers could cultivate such a genius.

Each of these forces could shake the cultivation world with a stomp of their feet.

Moreover, since they dared to allow such a super genius to roam the world on his own, how could they not have given him a trump card?

In just a short while, the other party had mysteriously disappeared on the spot, and now a flying sword of such a high grade had appeared. All of these had already been exposed, so what trump card could it be that had not been revealed?

At this moment, the blue travel immortal sword had already taken the initiative to attack him, so he didn't have time to think.

Luo Qingfeng dodged subconsciously and tried to regain control of his meteor sword.

Initially, he did not think much of Xia ruofei's attack. After all, no matter how much of a genius Xia ruofei was, he was only a cultivator who had just broken through to the Foundation Stage. Even if his spiritual power cultivation was relatively strong, he did not think that he was that skilled in controlling the flying sword.

To Luo Qingfeng's surprise, Xia ruofei's flying sword attack was very fierce, and its attack trajectory was quite strange. It seemed to have calculated the direction he was going to Dodge in. It actually changed its direction agilely in the air and waited in front of him.

If it was not for Luo Qingfeng's quick reaction, he might have crashed into it.

If such a thing really happened, Qingfeng Luo felt that he should just knock himself to death with a piece of tofu. How could a dignified Aurous core stage cultivator knock himself against the flying sword of a young man who had just broken through?

Luo Qingfeng stopped in time and immediately used the star Seizer sect's movement technique, trying to find a breakthrough point in the sword curtain and attack Xia ruofei directly.

However, Xia ruofei's flying sword seemed to have a mind of its own and did not reveal any flaws at all. On the other hand, Luo Qingfeng seemed to be in a sorry state under such an attack. He could not even divert his attention to control his own meteor sword.

Luo Qingfeng could not help but feel fear, and for the first time, the thought of running away emerged in his mind.

On the other hand, Xia ruofei was overjoyed. He was performing the 'gentleman sword', which did not have a nice name. This sword technique had to be used with a flying sword.

This was Xia ruofei's first time using the noble Sword in actual combat. He did not expect the effect to be so good. Even Luo Qingfeng was a little flustered when dealing with it.

Xia ruofei's spirit was lifted, and he continued to control the blue travel immortal sword. He did not care how Luo Qingfeng dodged, and directly executed each move according to the gentleman sword. He did not expect the effect to be so good. Luo Qingfeng was completely at a disadvantage, and there were even a few times when he almost injured him.

Luo Qingfeng's face grew uglier and uglier. Finally, he could not hold it in any longer. After barely dodging a fierce attack from the blue travel immortal sword, he turned his hand and took out a talisman from his storage ring.

This talisman looked very simple and unadorned. The pale yellow talisman had complex dark red patterns drawn on it, and it actually emitted a faint golden light in the night.

Luo Qingfeng's heart ached, but he did not hesitate and threw the talisman at the blue travel immortal sword.

This seemingly light talisman seemed to have a huge weight. After being thrown out, it was very fast, and even made a sound of breaking the air.

Xia ruofei controlled the blue travel immortal sword and changed its move, bypassing the talisman just in time. He was about to continue his fierce attack on Luo Qingfeng.

However, something that surprised Xia ruofei happened.

The talisman seemed to have a spirit of its own. It also changed its direction in the air, increasing its speed instead of decreasing, and continued to fly toward the blue travel immortal sword.

Xia ruofei was slightly stunned, but the talisman had already caught up with the blue travel immortal sword.

BOOM!

The talisman exploded with a loud noise.

A shock wave visible to the naked eye shook the blue immortal sword away and temporarily cut off the spiritual connection between Xia ruofei and the blue immortal sword.

The blue travel immortal sword flew askew for a distance before falling down.

Before Xia ruofei could regain control of the flying sword, Luo Qingfeng had decisively used the shock wave from the talisman explosion to leap forward. Then, he exerted force on his feet and quickly fled into the distance.

Chapter 2746 No way to escape (2)

Xia ruofei couldn't help but be stunned. He didn't think that he could actually force an Aurous core stage cultivator to run away. Furthermore, he didn't even use the power of the array. It was a direct confrontation.

This confrontation had greatly boosted Xia ruofei's confidence.

Seeing that Luo Qingfeng had escaped dozens of meters away in the blink of an eye, Xia ruofei was not in a hurry to give chase. He calmly looked in the direction that Luo Qingfeng had escaped in, then released his spiritual power to establish a connection with the core array disc not far away.

Several arrays that had been set up in place were activated at the same time, and Luo Qingfeng was enveloped in an instant.

Qingfeng Luo did not even take his flying sword. He immediately fled in the direction of the island. He was really frightened. He had clearly felt the threat just now. He knew that if he continued to stay here, his life would definitely be in danger.

Although he had escaped dozens of meters away in the blink of an eye, Qingfeng Luo did not dare to relax. He increased his speed and maintained a high level of vigilance.

Sure enough, he only felt his eyes blur, and then the scene in front of him suddenly changed.

Originally, he was under the night sky with a bright moon and few stars, and the sea in the distance could be vaguely seen.

However, in the blink of an eye, Luo Qingfeng found himself in a Valley with bright sunlight, chirping birds, and fragrant flowers. There were a few white clouds floating in the sky, and his nose could vaguely smell the fragrance of grass. It was as if he had suddenly been teleported to another time zone, and he was instantly in a picturesque paradise on earth.

Although the environment here was beautiful and made people involuntarily relax, Luo Qingfeng did not feel the slightest bit of satisfaction. On the contrary, his expression became even uglier.

He knew very well that he must have barged into an illusory formation, and everything in front of him was just an illusion to confuse him.

However, the most terrifying thing was that even though he was the number one formation master of the star Seizer sect, he could not see any trace of a formation in his surroundings. Everything was so natural and filled with the aura of nature.

The feeling of the breeze brushing against his skin was no different from reality.

There were also the grass swaying gently in the wind, the butterflies dancing in the wildflowers, and the birds leaving traces of their wings in the sky ...

Qingfeng Luo looked around nervously. He knew that the more peaceful the environment was, the more dangerous it was.

Now, he had basically used up all his trump cards. Whether it was the bead that he had used to break the array or the talisman that he had just used to get rid of the attack of the flying sword, they were all treasures that Luo Qingfeng had kept for many years to save his life. These were all one – time use items and would be gone once they were used.

Moreover, his meteor flying sword had been abandoned at the place where he had fought with Xia ruofei.

It could be said that Luo Qingfeng's strength had been greatly reduced after using these trump cards.

Luo Qingfeng was like a bird startled by the mere twang of a bow. All the vital Qi in his body circulated, and he was constantly in a state of high alert.

At the same time, he flipped his hand and took out the only magic treasure that might still be of some use, the misty void exploration mirror.

This magic treasure could see through all illusions, so it should be effective in dealing with maze and illusionary formations.

Luo Qingfeng activated the void – Exploration mirror and aimed it in the direction he had come from. He was most worried that Xia ruofei would catch up to him and he would not be aware of it. Therefore, after using the void – Exploration mirror, he first observed the situation behind him.

Unbeknownst to him, he had actually stepped into a bewildering formation just now. He thought that he was running in a straight line, but in reality, he had already circled around the same spot a few times, and his direction had deviated by an unknown distance.

Moreover, the effect of the void exploration mirror on this illusory formation did not seem to be as good as Luo Qingfeng had imagined.

Although the mirror didn't show the scenery of this paradise, it was dark and shrouded in a layer of mist, so it couldn't be seen clearly.

Luo Qingfeng's eyes widened as he stared at the surface of the void exploration mirror and shifted his position bit by bit.

He hoped to use the limited information he had to try his best to confirm the location. It would be best if he could find a loophole in the formation.

Luo Qingfeng knew very well that the longer this dragged on, the more disadvantageous it would be for him.

He hated Zheng Yongshou and Wang Boshan to the core. Of course, he hated Xia ruofei the most, but he didn't know Xia ruofei's name yet.

While staring at the void exploration mirror, Luo Qingfeng said in his heart, "As long as I can get out of this, I will definitely spread the news of this Taixu xuanqing formation in the cultivation world so that you will never have a peaceful day!

He knew that with the star Seizer sect's current strength, it would be very difficult for them to forcefully take the Peach Blossom Island.

This time, not only did he not get anything, he even used his life – saving trump card. Now, he was even trapped in the array. He really tried to steal a chicken but ended up losing the rice.

Since he could not get it, he would not let the other party have an easy time. This was Luo Qingfeng's current mentality.

Luo Qingfeng was staring at the void – Exploration mirror when suddenly, he saw a dazzling bright spot on the surface of the mirror. Just as he was about to examine it carefully, he suddenly felt a huge warning in his heart.

Luo Qingfeng's heart tightened, and he subconsciously rolled to the side.

With a flash of cold light, the blue travel immortal sword seemed to appear out of thin air and cut directly at the place where he had just been standing. Then it disappeared immediately, as if it had never appeared.

Luo Qingfeng's heart was beating wildly. He now realized that the dazzling light on the void exploration mirror was actually the sword ray produced by the blue immortal sword. If the void exploration mirror had not been aimed in that direction, he might have been seriously injured by now.

Chapter 2747 No way to escape (3)

As soon as he thought of the void exploration mirror, Luo Qingfeng realized that he had been too focused on avoiding the danger and had accidentally thrown the void exploration mirror away.

He quickly turned around to look for it, but where could he find it? The void exploration mirror disappeared just like the blue immortal sword.

Luo Qingfeng's expression changed drastically. He could not help but secretly regret that he had only been concerned with running for his life and did not hold on tightly to the void exploration mirror.

One had to know that the void exploration mirror was already his most useful magic weapon in this situation, but he had actually thrown it away ...

Qingfeng Luo was very clear that everything in front of him was an illusion. It was impossible for the void exploration mirror to have fallen into the grass and not be found for a while, because the grass itself did not exist.

Perhaps the void exploration mirror was still on the ground, but he could not see it.

And the possibility of this happening was extremely small. Xia ruofei must be hiding somewhere nearby. He probably had already taken this magic treasure away the moment the void exploration mirror fell.

After losing the void exploration mirror, Luo Qingfeng, who was in the illusion, looked even more like a blind man.

He knew that everything in front of him was just an illusion, but he just couldn't find the way out.

Luo Qingfeng's face was twisted as he gritted his teeth and said, "I don't believe that this formation is indestructible! Even if I have to smash it, I'll smash a way out!"

After saying that, he really did take out a sledgehammer from his storage ring.

The hammer was not an ordinary hammer. It was made of many precious ores. It was the most precious weapon in Qingfeng Luo's hand besides meteor sword.

He raised the sledgehammer high up in the air, then poured his vital Qi into it and smashed it down on the ground.

The ground trembled slightly, and the soil was sent flying.

However, in the blink of an eye, the hole in the ground was restored to normal.

The valley was still the valley, and the butterflies in the distance were still dancing, as if they were laughing at his overestimation of his ability.

Luo Qingfeng's face was livid, and he did not hold back at all. He swung the hammer again and again.

This was destined to be a futile effort. The speed at which the ground recovered was even faster than the speed at which he smashed it.

At this moment, Xia ruofei's voice was heard in Luo Qingfeng's ear. "Sect leader Luo, I'll give you two choices now. Surrender or die!"

Luo Qingfeng gritted his teeth and roared, 'you want me to submit to you? You're just a kid who hasn't even reached the Golden core stage? In your dreams!'

After he finished speaking, he swung the sledgehammer and slammed it down on the ground.

Xia ruofei sneered and said, "Since you're so stubborn, then don't blame me for being ruthless ..."

After that, Xia ruofei did not make any more sound. The surroundings seemed to have returned to peace.

However, the more it was like this, the more uneasy Luo Qingfeng felt.

Sure enough, after a short while, the blue travel immortal sword appeared behind him silently. Then, it suddenly accelerated and stabbed at Luo Qingfeng's back.

Luo Qingfeng had been on high alert for a long time. When the blue travel immortal sword began to accelerate, he immediately made a half – turn and lowered his center of gravity, then slashed forward.

However, the distance was too close, and the blue travel immortal sword was extremely fast, so Luo Qingfeng could not completely Dodge it. In the end, the blue travel immortal sword streaked across his arm and disappeared into the void again.

A string of blood flew up. Luo Qingfeng groaned in pain and covered the wound on his arm with his hand.

This was the first time he had been injured and bled since he was trapped in the formation.

"This is just a small lesson. If you're still stubborn, it won't be as simple as a cut on your arm next time." Xia ruofei's calm voice was heard.

"Kill Me if You Can!" Luo Qingfeng growled in a low voice,"as long as I don't return to the sect safely, the news of a natural array on this Island will immediately spread to the entire cultivation world! I'd like to see how you deal with the endless troubles!"

Chapter 2748 Success (1)

"It seems that you still have some illusions! Are you trying to trick me?" Xia ruofei sneered,"the natural array on Peach Blossom Island is so important, and you never thought that Zheng Yongshou and Wang Boshan would betray you. Would you leave a backup plan? Do you think I'm a three – year – old kid?"

While Luo Qingfeng was trapped, Xia ruofei had already brought Zheng Yongshou to his side and asked him about the entire process of his return to the star Seizer sect.

Hence, Xia ruofei naturally knew that Luo Qingfeng had not taken any precautions to prevent the news from being leaked. He had quietly left the sect with Zheng Yongshou. Even now, the people of the star Seizer sect still thought that their sect master was in seclusion!

Luo Qingfeng's face was livid. Without a word, he continued to swing the big hammer around.

He could only try his luck now. If he hit a node of the formation, he might still have a chance of survival!

Besides, there was no need to hold back anymore. If they couldn't escape from this illusory formation, what was the point of leaving so much vital Qi?

Xia ruofei did not say anything more. He just quietly watched Luo Qingfeng's meaningless attempt.

What happened next was a nightmare for Luo Qingfeng.

No matter how he tried, he could not break the illusion. Not only that, but what drove him crazy was that the blue travel immortal sword that Xia ruofei was controlling would often appear in his blind spot without a sound and then suddenly accelerate to stab him without any warning.

This method was a bit cheap, but the effect was surprisingly good. Qingfeng Luo did not have such a fast reaction speed. In a short time, he had six or seven wounds on his body. His clothes were also stained red with blood, and he looked like a bloody gourd.

Of course, Xia ruofei did not want to kill Luo Qingfeng so easily. After all, the best outcome would be to use the soul seal to control Luo Qingfeng. Otherwise, if Luo Qingfeng went missing, the star Seizer sect would definitely notice that something was wrong, because Luo Qingfeng had gone out with Zheng Yongshou. Although Luo Qingfeng claimed that he was in seclusion, Zheng Yongshou had also disappeared at the same time. Once the investigation was carried out, it would naturally lead to the stars Corporation controlled by Wang Boshan.

If he could use the soul seal to control Luo Qingfeng, everything would be normal. Furthermore, Xia ruofei would be indirectly controlling a cultivation sect.

Therefore, Xia ruofei's attacks did not target Luo Qingfeng's vital parts. Luo Qingfeng's injuries were mostly superficial. He had lost a lot of blood, and his clothes were covered in blood. It looked scary, but it was not fatal.

Another sword came, leaving a bloody wound on Luo Qingfeng's right arm. Luo Qingfeng felt like his spirit was about to collapse.

At the same time, he had used up more than half of the yuan Qi in his dantian by smashing his body with all his might. Even the cyclone of his embryonic golden core had become a little thin.

Luo Qingfeng was gasping for air. He ran and dodged in vain in this illusion, and his heart had already sunk to the bottom.

He knew that he was doomed today.

Xia ruofei controlled the array and the blue travel immortal sword to launch countless sneak attacks on Luo Qingfeng like a cat catching a mouse. The whole process lasted for more than an hour and successfully tortured Luo Qingfeng's body and mind to the limit.

It was impossible for Qingfeng Luo to be on high alert all the time. He was like a rubber band. If he kept it tight, it would eventually lose its elasticity. If he was too tight, it might even break.

Just as his mind was a little careless, the blue travel immortal sword once again appeared silently on his left side. Then, it accelerated to the extreme and slashed toward his neck.

By the time Luo Qingfeng came back to his senses, the blue travel immortal sword was already very close to him, and it was too late for him to Dodge.

Luo Qingfeng could not help but close his eyes in despair, waiting for the final moment to arrive.

He could even feel the cold sensation of the sharp edge of the flying sword touching his neck.

After waiting for a while, Luo Qingfeng did not feel any pain. He could not help but open his eyes.

It was only then that Luo Qingfeng realized that the blue travel immortal sword had stopped when it touched his neck. It was now floating behind him with the blade pressed against his carotid artery.

Luo Qingfeng was so scared that he did not dare to move.

Then, he saw Xia ruofei smiling as he appeared five to six meters away from him.

Xia ruofei's smile was very gentle, but to Luo Qingfeng, it was like a demon's smile. It made his hair stand on end.

Today, Luo Qingfeng had been completely defeated. He was an early – Stage golden core cultivator, but he could not even fight back against a young man who had just completed the foundation establishment stage. It was really embarrassing.

Xia ruofei had a faint smile on his face. "Luo Qingfeng, how do you feel now?"

Luo Qingfeng snorted and closed his eyes. Then he said, "Winner takes all, I have nothing to say! I only hope that you can give me a quick death!"

Luo Qingfeng had no intention of running away. No matter how fast he was, he could not be faster than a thought. Now, Xia ruofei only needed a thought, and the blue travel immortal sword could easily cut off his head.

Moreover, he was physically and mentally exhausted and had no more strength to escape.

Out of careful consideration, Xia ruofei still maintained a relatively safe distance from Luo Qingfeng.

He stood in place and said with a smile, "Do you want to die so badly? You've cultivated for over a hundred years to get to where you are today. Don't you have any feelings for this world?"

Chapter 2749 Successful (2)

Luo Qingfeng closed his eyes and raised his head slightly without saying a word.

How could he not be reluctant to leave this world? Even ants covet their lives, let alone humans? After he broke through to the Aurous core stage, he had a place in the current cultivation world. Furthermore, he was in charge of a sect and had absolute authority in the star Seizer sect.

Living such a Wonderful Life, if it wasn't for the fact that he couldn't escape even after using all his means, how could he stay here and wait for death?

Seeing that Luo Qingfeng did not speak, Xia ruofei's face darkened and he said, "He's really unafraid of death! Is it so embarrassing to submit to me? You'd rather lose your precious life than work for me?"

Luo Qingfeng suddenly opened his eyes and asked, "Submit to you? Would you be at ease letting me leave the formation? Rather than becoming your prisoner and struggling on whilst at death's door, I'd rather die!"

"Haha!" Xia ruofei laughed and said, "if that's the case, I'll fulfill your wish!"

After he finished speaking, he had a thought.

Luo Qingfeng immediately felt the blue travel immortal sword in front of his neck tremble slightly, as if it was about to cut down.

At that moment, even though Luo Qingfeng thought that he had already seen through life and death, he could not help but be scared out of his wits.

There was great Terror between life and death.

Luo Qingfeng could clearly feel Xia ruofei's killing intent. At that moment, he felt that he was so close to death.

He could not help but shout, "wait!" Wait a minute!"

A mocking smile appeared on Xia ruofei's face. Under his control, the blue travel immortal sword settled down again. Luo Qingfeng could not help but secretly heave a sigh of relief.

"You have any last words?" Xia ruofei asked indifferently.

Luo Qingfeng took a deep breath and asked, "As long as I submit to you, you will not kill me?"

Xia ruofei shrugged and said, "of course. Why else would I waste so much time talking to you?" Don't forget, your life and death are in my hands!"

Luo Qingfeng hesitated for a moment before he looked up at Xia ruofei and said, "Good! I can submit to you! I only hope that you will keep your word! Let me go first. "

Luo Qingfeng was still fantasizing. He guessed that Xia ruofei might have wanted to ask for information or something from him, which was why he had spent so much time and effort. He might as well go with the flow and pretend to be a snake to save his life first. If he could find a good opportunity, he might be able to reverse the whole situation.

After all, Luo Qingfeng's actual cultivation was much higher than Xia ruofei's.

Without the constraints of the array and a sudden sneak attack at the same time, Luo Qingfeng felt that his chances of success were quite high.

Xia ruofei seemed to have seen through Luo Qingfeng's thoughts. He sneered and said, "Luo Qingfeng, what are you thinking? Do you really think you'll submit just because you say so? Do you think I'm a three – year – old kid?"

Luo Qingfeng could not help but feel angry from embarrassment. He asked, "Since you don't trust me, why waste your breath?"

"Since I said I want you to submit, I have my own way!" Xia ruofei said with a smile.

After saying that, he moved his mind, and an extremely complicated mark made up of spiritual power appeared in front of him.

Xia ruofei said coldly, "Luo Qingfeng, this is your only chance!" The choice is up to you! Now, completely open up your sea of consciousness and don't resist, or ... You can choose to die immediately!"

The complicated mark was the child mark of the soul mark. It was the last child mark that Xia ruofei had condensed.

When the child seal of the soul seal appeared, Luo Qingfeng's face turned pale.

He was only five to six meters away from Xia ruofei. At such a close distance, the moment the child seal appeared, he could already feel a terrifying aura. Especially when he looked at the child seal, he felt as if his soul would be sucked in.

Luo Qingfeng was filled with fear toward the child seal of the soul seal. He had already vaguely guessed the use of this seal.

Under Xia ruofei's control, the child seal slowly floated toward Luo Qingfeng.

Xia ruofei also said indifferently, "Luo Qingfeng, you'd better not try to destroy this imprint. Also, don't deliberately reject it in your spiritual sea. Otherwise, if you damage the imprint, you'll be dead too!" I don't mind telling you that it takes a lot of time and energy to form a mark like this. If it's damaged because you don't cooperate, I won't try to form it again. I can't guarantee that you won't really submit, so I can only kill you! So ... You'd better not have any other thoughts, and at the same time, pray that I succeed!"

After saying this, Xia ruofei's tone softened a little. "You don't have to be too pessimistic. This thing is just to prevent you from having disloyalty towards me. It won't make you lose your self – consciousness, and I won't use it to force you to do something against justice. In truth, submitting to me is also an opportunity for you. In the current cultivation environment, it's already extremely difficult for someone at your level to make progress. The cultivation resources I have here are beyond your imagination. Let's not talk about other things, you saw the spirit crystal that Zheng Yongshou brought back for you, right? I still have a lot of intact spirit crystals. As long as you perform well, it's not impossible to give you one or two. Moreover, I have also mastered the great void clear sky formation. I don't think I need to explain the cultivation environment of this Paradise Island in the future, right?"

Initially, Luo Qingfeng had wanted to resist and secretly destroy the mark. However, after hearing Xia ruofei's words, he could not help but feel a chill in his heart. Xia ruofei's next words were full of enchantment, and even Luo Qingfeng could not help but be tempted.

Finally, a bitter smile appeared on Luo Qingfeng's face. He had finally given up on that Last Fantasy.

Seeing Luo Qingfeng's expression, Xia ruofei asked lightly, "I'm sure you've already thought it through?"

Luo Qingfeng let out a long sigh and nodded silently.

Xia ruofei's mind moved slightly, and the soul imprint that was slowly floating toward Luo Qingfeng suddenly sped up by several times. It flashed like a meteor and directly sank into Luo Qingfeng's forehead ...

Sure enough, Luo Qingfeng did not resist at all. He completely let go of his sea of consciousness, and the soul seal entered his sea of consciousness without any hindrance.

Qingfeng Luo's spiritual power had also reached the spirit gathering realm, and his sea of consciousness was much wider than Zheng Yongshou, Wang Boshan, and Liu chengfeng. There was no need to mention an ordinary person like bainilatti. Compared to Qingfeng Luo's sea of consciousness, bainilatti's sea of consciousness was simply a small puddle.

As Luo Qingfeng had completely given up on resisting, the child seal of the soul seal easily found its position in his spiritual ocean and successfully imprinted itself on it.

When Xia ruofei felt the spiritual connection with the child seal, he finally heaved a long sigh of relief.

He knew that the soul seal had completely merged with Luo Qingfeng's consciousness. Even if Luo Qingfeng's spiritual power cultivation had reached the spirit gathering realm, there was no way he could remove it.

If he tried it by force, there was a high probability that it would cause permanent damage to his sea of consciousness, or even directly die.

Furthermore, after leaving the soul seal, Luo Qingfeng would not resist him at all, nor would he try to remove the soul seal.

Sure enough, after planting the soul seal, a complicated look appeared on Luo Qingfeng's face. The hostility in his eyes when he looked at Xia ruofei had completely disappeared. In its place was absolute submission from the depths of his soul.

With a thought from Xia ruofei, the blue travel immortal sword flew back to his dantian.

On the other hand, Luo Qingfeng knelt on one knee and cupped his fists at Xia ruofei respectfully. "Master! This subordinate has offended you, please punish me, master!"

Chapter 2750 Settle accounts after autumn (1)

Xia ruofei nodded and said, "get up and talk." We were enemies before, so how could I blame you? I can't do anything about it. The natural formation on the Peach Blossom Island is too important, so I can only control everyone who knows this secret. Otherwise, you should know what the consequences will be if the news is leaked. "

In fact, Xia ruofei did not need to explain to Luo Qingfeng at all. Under the control of the soul seal, Luo Qingfeng would never have any disloyalty or resentment. However, Luo Qingfeng was a cultivator in the Golden core stage after all. He was the cultivator with the highest cultivation level that Xia ruofei had subdued since he stepped onto the path of cultivation. Therefore, he planned to train Luo Qingfeng to be his right – hand man. Naturally, he should be honest with him.

After all, the environment of the cultivation world on earth was deteriorating. It was not easy to reach Luo Qingfeng's level. Furthermore, now that the soul seal had been planted, there was no need to worry about Luo Qingfeng's loyalty. Thus, he had to maximize his use.

"Yes!" Luo Qingfeng quickly replied. "I understand!"

Although he was controlled by the soul seal and subservient to Xia ruofei, he did not lose his self – consciousness. Hence, he was very nervous. After all, he had attacked Xia ruofei without holding back and almost destroyed his breakthrough. If Xia ruofei held a grudge against him, he would be completely under Xia ruofei's control. He did not know how he would be tortured!

After listening to Xia ruofei's words, Luo Qingfeng's anxious heart was finally at ease. At the same time, because of the soul seal, Xia ruofei's gentle attitude had moved him from the bottom of his heart.

Xia ruofei then asked the question that he was most concerned about, "Apart from you, Zheng Yongshou, and Wang Boshan, have you told anyone else about the news of the natural formation on the Peach Blossom Island?"

“Master,” Luo Qingfeng replied, “I’ve always treated this as a top secret and have not told anyone. I’ve also strictly ordered Zheng Yongshou and Wang Boshan not to disclose a word to anyone. This time, I came out in the name of closed – door cultivation. No one else in the sect knows my whereabouts, so please rest assured, master! Other than the few of us, no one else knows about this. ”

When Luo Qingfeng heard Xia ruofei’s question, he could already confirm that Zheng Yongshou and Wang Boshan were most likely controlled by Xia ruofei in the same way.

Xia ruofei heaved a long sigh of relief.

Ever since he had taken over the Peach Blossom Island and learned that there was another power watching this place, his heart had been hanging in the air. The star Seizer sect was like a shadow that he could not get rid of, causing him to be unable to eat or sleep in peace. After all, no matter how strong a person was, he was still very small in the face of a cultivation sect. Even if the star Seizer sect was not a top – tier sect and Xia ruofei was not weak, he would still be a small fry.

Now that things had developed to this point, he could finally confirm that the crisis of the Paradise Island had been resolved.

Xia ruofei nodded and said, “let’s go!” Let’s leave this place first. ”

With a thought, Luo Qingfeng immediately felt the environment change. The illusion had disappeared. He suddenly realized that he had been running around in circles the whole time, and he was still not far from the cement house.

Luo Qingfeng felt that he could not blame himself for losing. In fact, even without the help of the great formation, Xia ruofei’s superb swordsmanship and fine control of the flying sword would not be at a disadvantage even if he were to fight him head – on.

In addition, with the effect of the soul seal, Luo Qingfeng had long admired Xia ruofei.

He suddenly thought of something and quickly took out the precious spiritual crystal from his storage ring. He presented it to Xia ruofei with both hands and said respectfully, ““Master, these are your spirit crystals.”

Xia ruofei waved his hand and said, ““You can keep it! Consider it my gift to you! I’ve said it before, if you follow me in the future, it won’t be worse than you being the sect leader. At least in terms of cultivation resources, it’s something you didn’t even dare to think about before!”

Then, Xia ruofei changed the topic and said, ““But of course, you’ll have to continue being the sect master. The star Seizer sect must be firmly controlled by us.”

Even though the star Seizer sect’s strength was not the best in the cultivation world, the power of a sect was still considerable. Now that Xia ruofei had fully fulfilled this condition, he naturally would not reject a gift that had been delivered to his door.

If this power was used well, it might play a key role in the future.

Upon hearing this, Luo Qingfeng said gratefully, ““Thank you, master, for your generosity! This subordinate will do his best to serve master!”

Xia ruofei said indifferently, "I don't have the habit of sacrificing my subordinates and I won't throw you out for no reason." Of course, the premise is that you can carry out my orders without any discount. "

"Yes! This subordinate will definitely remember this!" Luo Qingfeng felt warm in his heart as he lowered his head and said.

This time, the crisis had been successfully overcome. Xia ruofei did not stop the operation of the Taixu xuanqing formation. The great suanni formation needed time to gather spiritual energy. Only after a period of continuous operation would the cultivation environment of the Paradise Island Reach the standard of a cultivation paradise. Without the star Seizer sect, the greatest threat, and with peach source Island being located in the depths of the South Pacific Ocean, it was almost impossible for cultivators to set foot in this area. Therefore, the formation could naturally be maintained.
