### Chapter 2871 Return journey (1)

After the players had calmed down a little, Xia ruofei clapped his hands and said loudly, "Guys! Calm down! Since everyone is here today, I have a few things to announce!"

The RCD Espanyol players quieted down. Everyone looked at Xia ruofei with a hint of anticipation in their eyes. Some even thought that since the team was in a good position to compete for the European tournament, would Xia ruofei simply stay and finish the remaining three rounds? If that was the case, then it could really be said that he could rest easy.

After all, the opponents in the last three rounds of the Espanyol were not particularly strong. Even without Xia ruofei, they still had to strive to win these three matches, and the hope was not small. If Xia ruofei could represent the team, it was no exaggeration to say that the combat power of the entire Espanyol would be improved by a large margin. There was no doubt that they would win the next three rounds.

Obviously, the players were overthinking it. Xia ruofei could not possibly stay in Spain for the next three weeks.

He looked around and said with a smile, "The first thing is that I have just discussed with general manager Zhou. We have won a hearty big victory today, and Sevilla has also lost an unexpected defeat. We have finally rushed to the seventh place position, which is something to be happy about. So, we have decided that the winning bonus for today's game will be increased by 20%. Remember to check your bills after you have received it!"

"Long live!"

"Long live the boss!"

"The shop owner is so handsome!"

Some of the players even whistled, and the locker room was filled with cheers. In fact, a 20% increase in the goal bonus was not a lot of money for professional players with a high income. However, everyone was in a good mood today. When Xia ruofei announced the good news, they all cheered.

Xia ruofei smiled and pointed at the loudest young player, Pedro, and said, "I like your useless looks!"

The players in the locker room burst into laughter. Xia ruofei waited for everyone to quiet down before he continued, "The second thing is that if the club can enter the European region this season, even if it's just a spot for the qualification round, the club will provide a sum of money as a special bonus for everyone. The exact amount will be kept a secret for now, but it will definitely surprise everyone!"

This time, the cheers from the players were even louder. This time, everyone was really happy from the bottom of their hearts because everyone knew that since Xia ruofei had specifically mentioned this matter, once they really achieved their goal of returning to the European arena at the end of the season, the club would definitely give out a considerable amount of bonus.

Xia ruofei finally said, "there's one more thing. I'll treat the entire team to a big meal tonight!" I've already asked director Zhou to send someone to pick the place. It's definitely the highest – Standard

restaurant in Barcelona! Everyone had to attend, and no one was allowed to be absent! In addition ... Family members are allowed!"

"Boss, how many can I bring?" Markelka asked with a smile.

"How many wives do you have?" Xia ruofei immediately asked.

The players burst into laughter. One by one, they touched Mark Rocca's head and asked him how many girlfriends he had.

Markelka scratched his head in embarrassment and laughed. Xia ruofei had obviously misunderstood him on purpose, but it made the atmosphere in the changing room even more cheerful.

Xia ruofei smiled and said, "there's no limit to the number of people. You can bring your girlfriend, wife, and children. It's a family gathering!"

"Understood!"

"The shop owner is generous!"

"Thank you, boss!"

.....

The Spanish team's game kicked off very early today. Even though they had watched half the game in the locker room after the game, it was not even Five O' clock yet, so the players went home to change their clothes and brought their families to meet. The time was just right.

Everyone talked and laughed as they walked out of the locker room. The players had to take the team's bus back to Dani Halk base. Everyone's car was parked at the training base and then they took the bus together.

Xia ruofei and Wu Lei walked out side by side. He said, "Lei, when you go back, bring your wife and children with you. This is also a rare opportunity to interact with your teammates. If you want to play on a team for a long time, it is impossible to do so without the support of your teammates, so you have to learn to integrate into the team."

Wu Lei was a humble person, and his training and game attitude were very positive. He could be said to be a player full of positive energy. However, he was a little shy, and he had not learned Spanish well, so he usually communicated with his teammates less.

"I understand. Thank you for your reminder, brother Xia!" Wu Lei nodded and said.

Xia ruofei did not leave with the team's bus. Instead, he took Zhou leiyun's car back to the hotel.

Although it was said that Xia ruofei was treating, Zhou leiyun's assistant was actually the one handling everything, including deciding on the restaurant and informing the players and coaches.

Xia ruofei and Zhou leiyun chatted for a while in the hotel. When it was past six in the evening, they took Zhou leiyun's luxury business car to the restaurant with Song Wei and Ling Qingxue.

Although the season was not over yet and there was still the league next week, Spain had won six points in these two rounds. One was to snatch food from the Tiger's mouth from Barcelona, and the other was an eight – goal victory. The team was filled with a joyous atmosphere and morale was very high, so it was just right to call everyone together for a meal.

#### Chapter 2872 Return journey (2)

Almost all of the Spanish first team was present today, including the players, coaches, and staff. Everyone had brought their families to the high – end restaurant booked by the club to chat happily.

When Xia ruofei and his group arrived, everyone stood up and applauded.

Xia ruofei and Zhou leiyun also shook hands with everyone. When they were shaking hands with Wu Lei and his family, Xia ruofei even stopped to chat with them in Chinese.

At this point, Xia ruofei was no longer a player, but a shareholder of the team.

Of course, because they had fought side by side before, the players' affection for Xia ruofei was far greater than for Zhou leiyun.

Soon, the dinner started. Xia ruofei did not purposely invite Wu Lei to sit at the same table. Instead, he asked him to sit with his other teammates.

This was because calling his family over could backfire and make the players feel that Wu Lei was giving special treatment because he and the boss were from the same hometown. Moreover, Wu Lei also needed to integrate into the team. Such a family gathering dinner was the easiest way to get closer to each other.

Before the banquet started, Xia ruofei and Zhou leiyun both gave a short speech. Then, everyone started to enjoy the food that the restaurant had specially prepared.

Since most of them were professional players, and it wasn't the off – season yet, the restaurant didn't provide any alcoholic drinks today. Everyone only had juice.

Even so, the atmosphere of the banquet did not turn cold because there was no wine. Everyone was chatting enthusiastically. Xia ruofei saw that Wu Lei, Diego Lopez, Naldo, and the others were all chatting happily.

Of course, with Wu Lei's current level of Spanish, it was unknown how much he could understand, but it was still an improvement. Even if he communicated with simple words and gestures, he could still close the distance between him and his teammates.

Soon, everyone started to serve fruit juices to the table. Many people came to toast Xia ruofei and Zhou leiyun. Wu Lei also came with his wife and children. They used fruit juice to toast the two bosses.

Everyone left happily at the dinner. It was a way to relax after the game. Tomorrow, they would be back in training to prepare for the league tournament this weekend.

The remaining three rounds were very important for Spain.

The best outcome would naturally be for all of them to win. In that case, no one would be able to shake their current ranking, and they might even advance one or two places.

Considering the matches of the few teams that theoretically had a chance of competing for the top seven, if Spain could get six to seven points in the last three rounds, that meant that they would win at least two games and a draw or loss. If they could do that, there was a high probability that they would maintain their current ranking.

Winning at least two out of three games was still a challenge for the Spanish clubs, which did not have an advantage in La Liga on paper. Fortunately, their opponents in the last three rounds were not too strong. In addition, the morale of the Spanish team was high, so it was still possible to win in one go.

The premise was that the entire team had to be United and everyone had to devote themselves to the preparation.

With Xia ruofei's two promises in the locker room, everyone used the dinner time on the day after the game to gather again. The players were very enthusiastic now and were clamoring to defeat all three opponents.

Xia ruofei could tell that both the players and the manager, Ruby, wanted him to stay and continue to play for the team. Even if he played one more game, his chances of entering the European competition would be greatly improved. However, due to Xia ruofei's status, they did not dare to mention it.

Even though Xia ruofei was also very concerned about whether the team could enter the UEFA Europa League, he really had no intention of staying in Spain.

On the one hand, it was because he had been away for more than ten days, and there were a lot of things waiting for him to deal with in Paradise Island and the company. On the other hand, the more important reason was that he could feel that he was about to make a breakthrough. Therefore, he had to return to the peach source Island as soon as possible.

Only in an environment with rich spiritual Qi like the Paradise Island would the breakthrough be smoother.

Furthermore, no one could disturb him during the process of his breakthrough. The array on the Peach Blossom Island was undoubtedly Xia ruofei's safest guarantee.

Hence, when the banquet ended, Xia ruofei greeted Zhou leiyun and told him that he would be leaving Spain the next morning.

This time, Xia ruofei had done enough for the club. Naturally, Zhou leiyun did not dare to expect Xia ruofei to continue to stay on the team and contribute. When he heard that Xia ruofei was leaving the next day, he quickly said that he would definitely send him off at the airport.

After they returned to the hotel, Xia ruofei sent Song Wei and Ling Qingxue back to their room. Then, he went to his room to take a shower and went to bed.

He didn't cultivate that night because almost all the true Qi in his body had been converted into vital Qi. If he continued to cultivate, he might have a breakthrough here tonight.

At this point, Xia ruofei had to strengthen his Foundation and the external environment for his breakthrough had to be in the best condition. Hence, he could only suppress his cultivation for now and wait until he arrived at the peach source Island the next day before breaking through.

The next morning, Zhou leiyun came to the hotel and personally sent Xia ruofei and the other two to the airport in Barcelona. He also helped to make the necessary arrangements.

After going through the security check on the private jet, Xia ruofei and the other two took the business car that the airport had prepared for high – end customers and arrived at the landing strip where paradise was parked.

Captain Liu An, who had been informed a day in advance, had already made preparations with the crew. After Xia ruofei and the other two boarded the plane, paradise was soon allowed to slip out and join the take – off sequence at the busy Barcelona Airport.

At 8:30 A. M., Paradise received permission to take off. Soon, it glided on the runway and took off ...

After docking in Australia and refueling, paradise flew all the way to the southeast and finally landed on the runway of Paradise Island in the deep night.

Li Yifu and Zheng Yongshou were waiting on the tarmac. As soon as the cabin door opened, the two of them quickly greeted them.

Xia ruofei walked out of the cabin first.

“Mr. Xia!” The two of them greeted him in unison.

The crew members of the peach source were also present, so the two of them followed Xia ruofei’s instructions and addressed him as ‘Mr. Xia’.

Xia ruofei nodded.”Yongshou, you stay here. After the crew is done with their work, you can personally bring them to their resting place.”

There was a formation on the peach source Island. Although the formation did not change its position and its range was surrounded by barbed wire, Xia ruofei was still worried that the ordinary crew members might accidentally enter it, which would be life – threatening. Moreover, there were many secrets on the Paradise Island, so he arranged for Zheng Yongshou to follow him the entire time.

“Yes, Mr. Xia!” Zheng Yongshou quickly said.

“Foster husband, let’s talk while we walk!” Xia ruofei said.

He brought Ling Qingxue, Song Wei, and Li Yifu to the business car that was parked on the tarmac.

However, Xia ruofei did not get into the car. He only said to Ling Qingxue and Song Wei,””Qingxue, Weiwei, you two take my car. He will arrange a place for you to rest.”

From what he had said, it was obvious that he was not prepared to go back with them.

Li Yifu didn’t dare to have the slightest bit of hesitation about his senior granduncle’s decision. He didn’t even dare to ask about it. Ling Qingxue, on the other hand, naturally didn’t have such concerns. She immediately asked,”Ruofei, where are you going?”

Li Yifu and Song Wei also looked at Xia ruofei.

Xia ruofei smiled and said, "I've suddenly gained some enlightenment in cultivation, so I want to go into seclusion."

Then, Xia ruofei said to Li Yifu, "Foster husband, I will go to the core of the array to seclude myself. At the same time, I will also mobilize some arrays around the surroundings for protection, so the position of the array may change slightly tonight. You also have to tell Zheng Yongshou in a while that you all stay in the building tonight and don't run around!"

#### Chapter 2873 Early gold core (1)

Ling Qingxue and Song Wei knew what was important and what was not. Li Yifu followed Xia ruofei's orders obediently, so after they heard Xia ruofei's words, they all nodded with a serious expression.

"Ruofei, you must be careful when you're cultivating alone!" Song Wei said.

They had been with Xia ruofei for a long time, but they had rarely seen him in closed – door cultivation. This time, everyone knew that Xia ruofei was about to break through to the Golden core stage, so they had already guessed the purpose of Xia ruofei's closed – door cultivation. They just didn't say it.

Xia ruofei nodded at everyone, then disappeared into the night.

Li Yifu went over to Zheng Yongshou, who was waiting by the plane, and gave him some instructions. Then, he respectfully took Song Wei and Ling Qingxue and left the tarmac.

Xia ruofei flew all the way and soon arrived at the cement house near the cliff on the west side of the island.

This was the core of the entire formation and also the place with the tightest defense on the island. However, Xia ruofei had long been familiar with the Taixu xuanqing formation and naturally came here with ease.

He first went to the core array board and used his mind power to activate the array, forming layers of protection around it. Then, he sat down cross – legged next to the core array board.

With a thought, Xia ruofei summoned the spirit painting from his palm.

Under the heavy protection of the Taixu xuanqing formation, this place was naturally very safe. Even if a nascent Soul Stage cultivator could break into the island, it would take a lot of effort to break through the heavy encirclement and reach the core formation disk. As for ordinary people, they couldn't even use advanced equipment to spy on it, let alone get close. All they could see was a cloud of fog.

Hence, Xia ruofei was not worried when he took out the spirit map scroll here.

Then, Xia ruofei quickly took out the talismans from the spirit map and placed it in a hidden corner of the room. Then, he began to skillfully set up a protective array around the place where the spirit map was hidden.

These talismans were all made by Xia ruofei when he was free. They were almost all of his assets.

In this way, with the layers of protection of the Taixu xuanqing formation on the outside and the protection of many formations around the spirit map scroll, it could be said to be impregnable.

After setting everything up, Xia ruofei entered the space with a thought.

He had chosen to break through in the spirit map space after careful consideration.

The concentration of spiritual energy in the spirit map space was much denser than the outside world. At a critical moment like breaking through to the Golden core stage, the denser the spiritual energy, the better. After all, he had no experience and only read about the experiences of his predecessors from various cultivation books. He was not sure how much spiritual energy was needed in the process of breaking through, so it was more secure to break through in the space.

Besides, Xia ruofei could clearly feel that when he cultivated in the spirit map space, not only was the spiritual Qi more concentrated, but his cultivation state, including his comprehension, was obviously better than the outside world. Perhaps this was one of the magical effects of the spirit map space, a little benefit that the spiritual master of the spirit map space had left for the younger generation.

During normal cultivation, this kind of difference was not a big deal. At the critical point of breaking through to the next realm, Xia ruofei would not let go of any advantage.

In addition, there was another crucial point in making use of the spirit map's environment to make a breakthrough. The spiritual Qi in the outside world had already accumulated over this period of time and was already quite dense. Therefore, there was no need to worry about excessive consumption during the breakthrough process. Other than absorbing energy from the chaotic space, the spirit map could also absorb spiritual Qi from the outside world to replenish and purify it. There was basically no need to worry about the foundation of the space being damaged by the excessive consumption of Reiki.

Xia ruofei directly entered the spirit map space's Archean realm and sent a telepathic message to Xia Qing, telling him not to come over to pay his respects. He told Xia Qing not to enter the Archean realm without his summons. He needed an environment where he would not be disturbed.

When Xia Qing sensed Xia ruofei entering the spatial zone, she was prepared to come and pay her respects to her master. After receiving Xia ruofei's voice transmission, she hurriedly and respectfully replied, "Yes! Master!"

Xia ruofei then crossed the Jade Bridge beside the spiritual pond and arrived at the small island in the middle of the pond.

He sat down cross-legged on the small square in front of the Linglong tower. He first meditated to adjust his state of mind and calm his mood.

Xia ruofei didn't set up time array flags because he was close to breaking through. He might be able to complete it in a moment and didn't need much time. Furthermore, at the Archean realm, time flowed 30 times faster than normal. This was already enough to save time.

Very quickly, Xia ruofei got rid of all distracting thoughts and entered a state of clarity.

There was no sorrow or joy in his eyes. He naturally began to operate the mental cultivation method of the “great Dao chant”. Rich spiritual Qi poured into his body and washed his meridians and dantian. After a while, the last trace of true Qi in his dantian was transformed into primordial Qi.

At that moment, Xia ruofei felt as if all the meridians in his body had trembled slightly. The circulation speed of the “great Dao technique” had obviously increased a little. There was an indescribable feeling of comfort all over his body. From this moment on, the spiritual Qi that was absorbed into his body would directly produce primordial Qi after passing through his dantian, and no longer produce genuine Qi.

#### Chapter 2874 Early Arous core stage (2)

In fact, ever since he broke through the bottleneck of the Qi refinement stage, Xia ruofei had been practicing the second level of the great way of the Dao. However, because the genuine Qi in his body had not been completely transformed into vital Qi, the spiritual Qi that he absorbed during cultivation was basically a mixture of vital Qi and genuine Qi. As the proportion of the transformation of genuine Qi increased, the proportion of vital Qi in the mixture that he cultivated would also increase.

Today, he finally cultivated his first wisp of pure vital Qi using the second level of the ‘great Dao scroll’.

Of course, cultivating vital Qi was not Xia ruofei’s main task today.

His main focus was on his dantian. At this moment, there was a large amount of elemental energy in his dantian. It was all converted from Xia ruofei’s cultivation.

Of course, since vital Qi was many times purer than true Qi, the same dantian could naturally hold more vital Qi. In comparison, Xia ruofei’s current dantian felt much more spacious than when he was at lianqi ninth level.

The second level of the “great Dao Arts” was still running, continuously replenishing his dantian with Yuan Qi.

The most obvious sign of the early – Stage golden core was the formation of a Yuan Qi vortex in the dantian, which was the embryonic form of the Golden core. As long as this Yuan Qi vortex was formed, it meant that the cultivator had reached the cultivation of the early – Stage golden core.

The great Dao Arts was a Supreme cultivation technique that pointed directly to the great Dao of heaven and earth. The second level corresponded to the Golden core stage, so naturally, there was a detailed description of how to form a Yuan Qi vortex.

Xia ruofei had already memorized it. His main task this time was to form this Yuan Qi Whirlpool.

As for the second level of the “great Dao Arts,” he only needed to split a bit of energy and he would be able to circulate it naturally.

Xia ruofei followed the instructions of the technique and used his mind to control the vital Qi in his dantian to slowly rotate in a clockwise direction.

In the beginning, Xia ruofei felt a strong resistance. With such a huge amount of vital Qi, he felt that his spiritual power could not bear the burden of moving the whole body even a little.

He had almost completely studied the second level of the great Dao Arts. He was very clear that this was a normal phenomenon.

For example, in foreign Hercules competitions, it was common to see the scene of Hercules pushing a heavy truck. At the beginning, it was also the most laborious. They often used all their strength, but the truck only moved a little. However, it became easier towards the end because the truck itself had inertia.

The situation in Xia ruofei's dantian was similar.

And this was when Xia ruofei's spiritual power cultivation far exceeded his vital Qi cultivation. When he was in the mid – Stage of Qi refinement, his spiritual power had already broken through to the spirit gathering realm, which was equivalent to the Golden core stage. If it were an ordinary cultivator, their spiritual power would barely break through to the spirit gathering realm at this stage, and some people would even lag behind. Under such circumstances, it was easy to imagine how difficult it was to drive such a huge amount of primordial Qi.

Therefore, it often took many years for ordinary cultivators to break through the bottleneck of the Qi refinement stage and officially enter the Golden core stage. Luo Qingfeng was one such example. The main thing was that although there was no bottleneck from the foundation establishment stage to the early jiedan stage, there were still many difficulties to overcome. Many people were stuck in the area of mental power and needed to spend a lot of time to improve their mental power cultivation.

Of course, when ordinary cultivators reached this stage, the amount of vital Qi in their dantian was not as high as Xia ruofei's in terms of quantity or quality. Thus, it was relatively easier for them.

Xia ruofei only felt slightly strained. Under his full control, the primordial Qi in his dantian began to move with heavy steps and slowly moved in a clockwise direction.

In order to form a Yuan Qi vortex, it was naturally not enough to simply let the yuan Qi spin. In the process of spinning, one also needed to consciously use the yuan Qi to construct a structure similar to an array at some key positions. Only in this way could the yuan Qi vortex that was finally formed be stable and continuously absorb Yuan Qi, gradually evolving into a true golden core.

Different cultivation techniques would naturally have different methods of constructing the yuan Qi vortex. Hence, the yuan Qi vortex that was formed in the end would also be different. In addition, the mass of the yuan Qi vortex was also closely related to the mass of the yuan Qi itself.

Therefore, the Golden core was divided into nine grades, whether it was the upper three grades, the middle three grades, or the lower three grades. In fact, when the yuan Qi vortex was formed, the grade of the Golden core had already been determined.

The reason why Xia ruofei placed so much importance on this breakthrough and took every step steadily and made full use of the external conditions was so that the final formed vital Qi vortex would be of a higher grade. This was a key step in his future cultivation path.

The vital Qi in his dantian was slowly rotating. Xia ruofei was paying full attention to the situation of his vital Qi, not daring to be distracted at all.

As he controlled the yuan Qi with all his might to speed up the rotation, he also continuously used his mental power to weave mysterious patterns, integrating them into the yuan Qi. This was the framework of the yuan Qi vortex.

Only when the skeleton was stable would the yuan Qi vortex that was formed be stable.

Of course, Xia ruofei had absolute confidence in the “great Dao Arts”. He knew that as long as he followed the requirements of the cultivation technique and completed the construction of the essence Qi Whirlpool meticulously, the grade of the essence Qi Whirlpool that was formed would not be low.

The rotation of the vital Qi was getting faster and faster. With this inertia, Xia ruofei no longer needed to use all his strength to drive it. On the contrary, he even started to control the rotation speed a little. This was because he had entered a critical stage in building the ‘skeleton’.

At this moment, Xia ruofei’s mind had no distracting thoughts. All he could think of was the part in the second level of the “great Dao chant” that described the construction of the vital Qi vortex. He used his spiritual power to construct the runes without any mistakes and wrapped his vital Qi around them, forming a mysterious web – like structure.

The rune network also became more and more complete as the vital Qi circulated. It almost covered the entire inner wall of the dantian.

When the last rune was integrated into the network and was closely integrated with the vital Qi, Xia ruofei finally heaved a sigh of relief. He had completed the most problematic part of the whole process.

The following work would be much easier.

He began to push his vital Qi with all his heart and soul to speed up the rotation. As the vital Qi’s rotation became faster and faster, the vital Qi in his dantian seemed to have a trace of violent Qi. However, with the restraint of this rune network, all the violent Qi was firmly suppressed. No matter how strong the centrifugal force was, not a trace of it leaked out.

When the yuan Qi began to rotate, it was like the flywheel of a huge electric motor. It was extremely heavy at first, but once the inertia took effect, the speed was so fast that it made one’s heart palpitate.

As the vital Qi rotated to its extreme, Xia ruofei suddenly felt that the vital Qi under the centrifugal force was about to dissipate at any time. But now, it suddenly changed. It suddenly collapsed inward and a huge suction followed.

This was like riding a pirate ship, and after reaching the highest point, it suddenly began to fall again. The instantaneous transformation from overweight to weightless made one’s heart feel like it was about to fly out of their chest.

This feeling was very similar, and it made Xia ruofei feel uncomfortable.

Of course, he didn’t have the time to think too much. When the yuan Qi vortex produced a suction force, he instantly felt a void in his dantian ...

The technique described this feeling, so Xia ruofei did not panic. Instead, he felt a burst of joy.

He knew that when the yuan Qi vortex in his dantian began to have the devouring attribute, it meant that the yuan Qi vortex had been successfully built.

Of course, Xia ruofei did not dare to relax. The yuan Qi Whirlpool was like a black hole, constantly swallowing the free Yuan Qi to strengthen himself. At this time, his dantian was extremely empty.

Xia ruofei quickly circulated the second level of the “great Dao technique” and absorbed the rich spiritual Qi in the outside world. He quickly converted it into elemental energy in his dantian.

#### Chapter 2875 Achieving success in one stroke (1)

The spiritual Qi in the spirit map space was extremely dense. It had even formed a misty spiritual liquid in the air. Hence, Xia ruofei started absorbing at full speed and the efficiency was shockingly high.

The moment Xia ruofei fully activated the second level of the “great Dao technique”, a spiritual energy hole appeared in the small square where he was meditating. A large amount of spiritual energy that was almost liquefied rolled towards Xia ruofei who was sitting upright.

After Xia ruofei had broken through to the beginning stage of the Golden elixir realm, the meridians in his body had also been strengthened greatly. Therefore, although the amount of spiritual Qi was large, he could still bear it. He only felt that the meridians in his body were full.

The spiritual energy in his meridians quickly circulated along the path of the second level of the “great Dao Arts.” After one circulation, it entered his dantian, and a wisp of extremely pure vital Qi naturally appeared in his dantian.

Every time Yuan Qi was produced, the vortex that was spinning rapidly in his dantian would automatically produce a huge suction force and absorb the yuan Qi into the vortex.

The vital Qi Whirlpool grew bigger and bigger. Basically, no matter how much vital Qi was produced, the whirlpool could absorb it all. Hence, even though Xia ruofei was trying his best to absorb spiritual Qi to cultivate, he could still feel the emptiness in his dantian. It was as if he had been hungry for days and had a strong desire for vital Qi.

Countless spiritual Qi gushed in from the outside and surged in Xia ruofei’s meridians. He could feel the yuan Qi vortex in his dantian growing bit by bit. At the same time, he also felt his strength rising steadily.

For the first time, Xia ruofei had a direct understanding of the strength of an early – Stage golden elixir realm expert. He felt that he had been able to defeat Luo Qingfeng with the help of the array more or less due to luck. Even though he had broken through the bottleneck of the Qi refining stage at that time, his strength was obviously much weaker than it was now before he had formed the vital Qi vortex.

However, Xia ruofei also felt that Luo Qingfeng’s strength seemed to be weaker than what he had expected. He had not completely stabilized the vital Qi vortex and could not be considered to have entered the early stage of the Golden elixir realm. However, according to his judgment, his strength was already stronger than what Luo Qingfeng had shown that day.

Not only was Luo Qingfeng a true early – Stage golden elixir realm expert, but he had also broken through many years ago. Xia ruofei’s breakthrough had not even been completed.

The only explanation was that the essence Qi vortex formed by Luo Qingfeng was much worse in quality than the one Xia ruofei was trying to stabilize.

Of course, this thought flashed across Xia ruofei's mind and he quickly focused on his cultivation.

Xia ruofei let go of all his worries and absorbed the spiritual Qi with all his might. The effect was that the spiritual Qi around his body temporarily had a hole. Of course, the spirit Qi from other places in the space was also being replenished quickly. The current concentration of spirit Qi was still enough to support his cultivation.

However, Xia ruofei's cultivation speed of absorbing spiritual Qi was too fast. The spiritual Qi in the spirit map was consumed at a very fast rate, which naturally triggered the lowest level of array. Hence, the space began to absorb energy from the chaotic space outside the membrane wall and quickly transformed it into spiritual Qi.

The speed of absorbing energy from the chaotic space could not keep up with Xia ruofei's cultivation speed. After all, the energy absorbed from the chaotic space needed to be transformed by the array in the space. It would take time.

In this way, the total amount of spiritual energy in the space was always in a slow process.

For example, in the classic math problem, if there was a pool with water on the tap and water leaking out from the drainage valve, if the speed of adding water was slower than the speed of releasing water, the water level of the pool would naturally decrease slowly.

If the speed of descent was fast enough and the time was long enough, the water in the pool would definitely be drained dry.

Fortunately, the "pool" in the spirit map space had another tap besides absorbing energy from the chaotic space, which was the Paradise Island in the outside world.

Therefore, when the total amount of spirit Qi in the space continued to decrease, the low – Level array of the spirit map space also triggered the protective mechanism and began to absorb spirit Qi from the outside world.

What the spirit map space absorbed from the Peach Blossom Island was the rich spiritual energy, and the process of transformation was omitted. Naturally, the speed of energy absorption was much faster than that of the chaotic space.

Soon, with the two "faucets" supplying water continuously, the spirit Qi in the spirit map space stopped declining and began to slowly rise again.

Xia ruofei was so immersed in his cultivation that he didn't notice anything. He was still fully operating the second level of the "great Dao Arts". The spiritual energy in the space was also continuously pouring into his body, and it was constantly producing wisps of pure Yuan Qi in his dantian.

It was already late at night on the Peach Blossom Island.

However, other than the flight crew led by Liu An, who had already washed up and gone to bed early, no one else was sleepy.

Song Wei and Ling Qingxue were staying in different rooms tonight. It was a tacit understanding. After all, they had to practice the “absolute beginning Scripture” with Xia ruofei on the Peach Blossom Island. It would be inconvenient if they stayed together.

As for what would happen after the other party and Xia ruofei trained together, they both knew it. From their own point of view, they were all adults. Not only men, but women also had such needs. During their time in Spain, the two simply lived together because they were shy. After returning to the peach source Island, they had at least a reason that could convince themselves. Naturally, the two of them chose to live in their own rooms.

#### Chapter 2876 Achieving success in one stroke (2)

Anyway, the reception rooms in this building were basically empty. Let alone one room per person, even if one person stayed in ten rooms, it would not be a problem to change rooms every hour.

At that moment, Song Wei and Ling Qingxue were both standing on the balcony of their room, looking towards the West of the island. Their faces were filled with worry.

Li Yifu and Zheng Yongshou had also been looking in the direction of Xia ruofei’s cultivation place. They were waiting in their rooms with anxiety.

After a while, Song Wei, Ling Qingxue, and the others raised their eyebrows in unison and looked to the West of the island.

At this moment, the spiritual Qi on the west side of the island had a huge fluctuation. Although Song Wei and the rest were not as powerful as Xia ruofei and they were so far away, they could still feel it.

Soon, all the spiritual Qi in the entire Paradise Island seemed to be circulating rapidly, rushing toward the core of the formation on the west side of the island.

When Xia ruofei was setting up the protective array for the spirit map, he also added a spirit gathering array around it.

After gathering for so many days, the spiritual energy on the Paradise Island was already very rich. Xia ruofei added another spiritual energy gathering array, which was equivalent to gathering the spiritual energy from other places, increasing the density of the spiritual energy.

When the spirit map space first started to absorb the spirit Qi from the outside world, it was like a whale swallowing.

This was because the spirit map space was not like cultivators who needed to circulate their cultivation techniques to absorb spirit Qi. The spirit map space was truly swallowing! No matter how much spiritual energy was absorbed, the spiritual energy stored would be the same. At most, it would be compressed a little.

Therefore, the absorption speed was quite terrifying.

Song Wei and the rest felt as if a black hole had formed in the direction where Xia ruofei was cultivating. The surrounding spiritual Qi was pouring in as if it was free.

Soon, they felt that the concentration of spiritual energy around them had a slight trend of decline. This speed was really terrifying. It should be known that the array of the Paradise Island was so large that the total amount of spiritual energy was quite considerable. Moreover, once the concentration of spiritual energy dropped, the spirit gathering array of the Taixu xuanqing array would immediately speed up its absorption. Under normal circumstances, when the concentration of spiritual energy reached an extreme, a dynamic balance would be formed.

Only when the speed of consumption was far greater than the speed at which the formation absorbed spirit Qi would the spirit Qi concentration of the entire Island begin to decline.

Everyone couldn't help but wonder what Xia ruofei was doing. Could it be that breaking through to the Golden core stage would really cause such a big commotion?

Xia ruofei's cultivation level was beyond the reach of Song Wei, Ling Qingxue, Li Yifu, and the others. They did not have a clear idea of what it was like to be in the early stage of the Golden core realm. Hence, they could only watch Xia ruofei's situation with a trace of worry. At the same time, they were praying for Xia ruofei in their hearts.

Xia ruofei, who was in the spirit map space, was not in as much danger as everyone had thought.

However, the constant hunger in his dantian made him feel a little uncomfortable. No matter how many wisps of Yuan Qi he cultivated, the yuan Qi vortex in his dantian would absorb them all as if it would never be full.

Xia ruofei had no choice but to continue to operate the second level of the "great Dao Sutra" while absorbing the spiritual Qi in the space.

It could be said that Xia ruofei was absorbing countless spiritual Qi every second.

This was also due to Xia ruofei's unique conditions. Otherwise, even a sect leader like Luo Qingfeng would not have so many resources for him to squander.

In fact, for Luo Qingfeng and most of the cultivators, even if the framework of the yuan Qi vortex was completed, the formation of the entire Yuan Qi vortex was not done overnight because the consumption of spirit Qi was too great.

Therefore, normal early jiedan stage cultivators would also spend a lot of time in the yuan Qi vortex stage, constantly producing Yuan Qi through cultivation, and at the same time, the yuan Qi would be absorbed by the vortex, making the vortex slowly grow stronger.

This process could last for months or even a year or two.

Before a cultivator successfully constructed a Yuan Qi vortex, the entire vortex would only enter and not leave. It would not form a normal energy circulation with the dantian and the body. Moreover, Yuan Qi was the purest energy in the cultivator's body, so it led to a side effect. That was, during the period from the initial formation of the yuan Qi vortex to the complete stabilization, most cultivators would be as thin as a stick, like a skeleton.

This included Luo Qingfeng.

Xia ruofei didn't know how ordinary cultivators formed their vital Qi Whirlpool. However, the second level of the great Dao technique didn't mention it! Furthermore, the cultivation technique did not mention that this Yuan Qi vortex could be stabilized bit by bit and did not need to be completed overnight.

Even if Xia ruofei knew that he could take it slow, he would not choose this relatively safe path of cultivation if the conditions allowed it. The reason was simple. The constant hunger was too unbearable. Furthermore, if he stopped cultivating, the remaining Yuan Qi in his meridians, bones, and muscles would be sucked away and then swallowed into the yuan Qi vortex. This was also the reason why many cultivators at this stage were like skeletons. If Xia ruofei had known that he would end up like that, he would not have made the right choice.

In short, before the vital Qi vortex had completely stabilized, Xia ruofei had been constantly absorbing spiritual Qi for cultivation.

Of course, he could also feel that the yuan Qi vortex in his dantian was starting to stabilize bit by bit. He had not absorbed so much Yuan Qi for nothing.

Xia ruofei actually spent quite a long time cultivating this time. Fortunately, time was 30 times faster in the outside world than in the Archean realm. Hence, Song Wei and the others did not have to wait long in the outside world.

The concentration of spiritual Qi in the outside world had dropped to about half of its usual stable state, and the spiritual Qi in the spirit map space had also dropped due to the thinning of the spiritual Qi in the outside world. Xia ruofei finally felt that the vital Qi vortex had completely stabilized.

He had just produced a wisp of vital Qi from his cultivation. Although the vortex had also absorbed it, it had actually spat out half of it.

This wisp ... To be precise, it was half a wisp of Yuan Qi. It was floating outside the range of the yuan Qi vortex in his dantian space.

Xia ruofei was pleasantly surprised. This long cultivation process was finally coming to an end. He roughly estimated that if the vital Qi produced during this cultivation was not absorbed and compressed by the vortex but directly stored in his dantian, even ten dantians would not be able to contain it.

In other words, the yuan Qi vortex had successfully compressed the energy at least ten times, and the energy per unit volume was more than ten times higher than ordinary Yuan Qi. Compared to the true Qi before, the difference was even greater.

Xia ruofei could finally relax a little. He could also feel that the concentration of spiritual Qi in the spirit map space seemed to have decreased to a certain extent. However, the decrease was not very large and it was far from hurting the foundation of the space. Hence, he did not stop his cultivation immediately. Instead, he continued to operate the second level of the "great Dao technique" and continued to absorb spiritual Qi.

The reason was very simple. Although Lao Ai's yuan Qi vortex was finally full, his dantian was still empty! No matter what, he had to first fill up the yuan Qi in his dantian!

However, the hunger had started to ease, so Xia ruofei deliberately slowed down his cultivation speed. He steadily absorbed spiritual Qi and then produced vital Qi to fill the space in his dantian.

Xia ruofei slowed down the speed of absorption, which was a relief for the spirit map space. Under such circumstances, the spirit map space continued to absorb energy from the chaotic space and spiritual Qi from the outside world. Hence, the concentration of spiritual Qi in the space slowly stabilized.

#### Chapter 2877 The magical bead (1)

Xia ruofei cultivated for another two hours, and his dantian was finally filled.

Right now, in addition to the yuan Qi vortex that was emitting a terrifying aura, his dantian was also filled with wisps of extremely pure Yuan Qi.

Xia ruofei only stopped cultivating when he felt that his dantian had reached its limit.

In fact, he had already felt it. Although he had “fully charged” his dantian through more than two hours of cultivation, the essence Qi vortex was still devouring the essence Qi all the time. However, after the vortex had consolidated, the speed of devouring the essence Qi was no longer as fast as before. Instead, it had become a kind of nourishing and silent absorption. Although the speed was not fast, it was carried out at all times.

As a result, the yuan Qi in his dantian was still in a state of slow reduction. He needed to cultivate frequently to replenish it.

This was also a situation that all cultivators in the early stage of the Golden core realm would encounter. Xia ruofei had already understood it from the cultivation manuals. Moreover, the speed of the consumption of vital Qi was not very fast, so he was not worried at all.

In fact, he had hoped that his vital Qi would be consumed faster! Because after the yuan Qi vortex absorbed Yuan Qi, it did not absorb it for nothing. With every wisp of Yuan Qi absorbed, the vortex would grow a little stronger, and the final evolution form would naturally be a complete golden core. The faster one’s vital Qi was consumed, the faster one’s cultivation speed would naturally be.

Unfortunately, even a top cultivation method like the “great Dao Arts” could only rely on grinding at this stage. Unless there was a special encounter, it was difficult to take a shortcut.

After Xia ruofei stopped cultivating, he did not leave the spirit map space immediately.

He first inspected his body and checked the condition of his body. After the major realm breakthrough, especially during the process of constructing the yuan Qi vortex, his body had also been tempered to a large extent. The width and toughness of his meridians were now incomparable to when he had just broken through the bottleneck of the Qi refining stage.

In addition, the most obvious change was the increase in his strength. He could use the energy of the yuan Qi vortex at any time. Even if he didn’t use his Yuan Qi, the strength of his body alone was much higher than that of a cultivator at the Qi refining stage. He even felt a little unaccustomed to it. It seemed that he still couldn’t control the sudden increase in his strength freely and completely.

Finally, Xia ruofei carefully observed the vital Qi Whirlpool in his dantian.

In the early stage of the Golden core, the most important thing was this Yuan Qi vortex. The grade of the yuan Qi vortex would determine the quality of the Golden core formed in the future. Naturally, it would also determine how far the cultivator could go on this thorny road.

Basically, after the formation of the yuan Qi vortex, the upper limit of the cultivator's golden core stage was already determined. Very few cultivators could form a high – Quality golden core after building a relatively garbage Yuan Qi vortex, unless they had a fortuitous encounter that completely changed their physique.

The so – called ninth – grade golden core actually referred to the grade of the yuan Qi vortex.

Xia ruofei followed the method described in the cultivation manual and observed the yuan Qi Whirlpool in his dantian with a trace of anticipation.

The structure of the yuan Qi vortex was compact and stable, and the power of Yuan Qi was very pure. From the outermost layer of the yuan Qi vortex, one could see wisps of Yuan Qi dissipating, each wisp containing a terrifying energy. When the yuan Qi vortex spun, it seemed to be able to devour a person's soul, which made people's hearts palpitate.

Xia ruofei was overjoyed. This was at least a third – grade Yuan Qi vortex!

He looked at the center of the whirlpool and realized that the black hole in the center was giving off a faint golden light.

For the center of the vortex to emit a golden light, this essence Qi vortex had to be at least at the eighth grade. In fact, most of the things that happened were at the ninth grade.

Thinking of this, Xia ruofei was even more delighted.

He thought to himself, "the great Dao Arts are indeed extraordinary. A top cultivation technique is indeed a top cultivation technique!" If he could form a ninth – grade golden core in the future, his future cultivation path would be much smoother!

Furthermore, a cultivator with a grade nine Yuan Qi vortex could even challenge a mid – Stage golden core cultivator at the early golden core stage. Their combat power was very shocking.

Xia ruofei continued to look at the vital Qi vortex and suddenly revealed a look of surprise. He found that in the center of the vital Qi vortex, where there was a faint golden light, there was a small bead floating steadily in the center. It was even spinning in the direction of the vortex.

This Pearl was purple – gold in color, and there was a faint purple – Gold light flowing on the surface.

Xia ruofei could feel the terrifying energy contained in the bead just by using his inner sight.

"What the hell is this?" Xia ruofei couldn't help but Mutter to himself.

According to the basic knowledge of the Golden core stage that he had learned from the cultivation manual, this was not in line with the norm. Although the vital Qi vortex was very stable in structure, it was still made up of vital Qi. Xia ruofei had never heard of a vital Qi vortex that could condense into a solid.

Xia ruofei did not know if this was a good thing or a bad thing. However, he could feel that the structure of the vital Qi vortex was very stable. Although the purple – Gold pearl contained a terrifying amount of energy, it was completely controllable. There was no risk of accidentally blowing up his dantian. Thinking of this, he felt a little more at ease.

Xia ruofei searched through all the cultivation manuals related to the Golden core stage in his mind, but he could not find any description of the purple – Gold pearl. He could not think of anything either.

## Chapter 2878 The magical bead (2)

Therefore, after some slight adjustments, he stood up and prepared to leave the spirit map space and return to the outside world.

He knew that Ling Qingxue, Song Wei, and the others must have been worried about him.

However, before he left, Xia ruofei still used his heart to inform Xia Qing to come over to the Archean realm. He wanted to ask about the situation in the space.

Very quickly, Xia Qing's figure appeared at the Archean realm. At this moment, Xia ruofei had just returned to the side of the pond after crossing the Jade Bridge.

Xia Qing saw Xia ruofei for the first time and revealed a trace of joy. Then, she immediately lowered her head and said respectfully, "Congratulations to master for breaking through to the early golden core stage!"

"You can tell that I've broken through?" Xia ruofei asked with great interest.

"Master," Xia Qing said respectfully, "the aura on your body is completely the aura of a golden core cultivator. I can sense it."

Xia ruofei couldn't help but look deeply at Xia Qing. Although Xia Qing was a soul puppet that completely obeyed him, his understanding of Xia Qing was very limited. Xia Qing was restricted by the established rules of the space, and there were many things that he couldn't tell him before his cultivation reached the required level.

Now, it seemed that Xia Qing could tell that he had broken through to the Golden core stage at a glance, so his own strength should at least not be weaker than that of a golden core cultivator.

Xia ruofei didn't ask further because he knew that if he couldn't tell him, he would definitely keep his mouth shut even if he was his master.

"Master," said Xia Qing, "since you've already broken through to the Golden core stage, I have something to give you."

"Oh?" Xia ruofei's interest was piqued. "What is it? Let me see!"

It could only be taken out when he broke through to the Golden core stage. This thing was definitely not simple. Xia ruofei's anticipation was immediately aroused.

"Master, please wait for a moment!" Xia Qing said respectfully.

After saying that, Xia Qing left the Archean realm with a flash.

Xia ruofei subconsciously tried to sense it, but was surprised to find that he couldn't sense Xia Qing's existence. He had absolute control over the spirit map space. No matter where Xia Qing was in the space, he could find her immediately with a thought.

Now that Xia ruofei realized that he had lost track of Xia Qing, his curiosity was piqued.

Could it be that there was a place in the space that he could not control or even sense?

Xia Qing returned very quickly. Almost a moment later, he reappeared at the Archean realm. At this moment, he had a Jade Pearl in his hand.

Xia Qing presented the Jade Pearl to Xia ruofei with both hands and said respectfully, "Master, this is what the previous master instructed me to give you when you have reached the Golden core stage. Please accept it!"

Xia ruofei took the bead curiously and asked, "What is this?"

The surface of the Pearl was engraved with the Tai Chi Yin Yang fish pattern. Xia ruofei tried to use his spiritual power to examine it but realized that his spiritual power could not penetrate the surface of the Pearl. Naturally, he could not get any useful information.

Xia Qing said, "when the previous master gave it to this subordinate, he didn't say what it was." However, the previous master said that when master breaks through to the Golden core stage, he can give it to you. The previous master also said to ask you to input your spiritual power and vital Qi at the two points of the yin – yang fish pattern at the same time. Other than that, there are no other instructions."

Xia ruofei's curiosity had reached its peak. He didn't hesitate and held the bead with two fingers. At the same time, he injected his spiritual power and primordial Qi into the Yin Yang fish pattern to check it out. He knew that the immortal Shanhe wouldn't be so bored as to use such a bead to plot against a junior. Since the immortal Shanhe had instructed so, he would just do as he was told.

When Xia ruofei's spiritual energy and Yuan Qi were transferred into the Pearl, the Pearl lit up immediately. The brightness was so high that it was like a small sun. Xia ruofei subconsciously closed his eyes.

However, he quickly opened his eyes again because he didn't want to miss a single detail.

Just then, to Xia ruofei's surprise, a wisp of green smoke emerged from the Pearl and quickly condensed into the figure of a middle – aged man in a Taoist robe ...

Xia ruofei's eyes almost popped out of their sockets at this unimaginable scene.

He had thought of countless possibilities. Perhaps this Pearl contained an exquisite cultivation technique or a mystical formation, or perhaps directly consuming it would allow one's cultivation to advance greatly. However, he had never thought that a figure would actually run out of the Pearl.

Xia Qing also opened his eyes wide. His body trembled slightly as he cried out in a trembling voice, "Master ..."

Xia ruofei thought that Xia Qing was calling him, but he soon realized that Xia Qing's eyes were completely focused on the Taoist – robed figure that had just appeared.

At this moment, Xia ruofei had a thought. "Could it be ... That the person in the Daoist robe was ... The previous owner of the spirit map space, immortal mountain river? If it was immortal mountain river, then ... This state ... Could it be his soul? In other words ... Immortal mountain river was already dead, and his soul had always been hidden in this small bead?

Xia ruofei suddenly felt that his brain was not working.

The middle – aged man in a Daoist robe looked kind and had a gentle smile on his face. His eyes fell on Xia Qing and said, "Little six, are you okay?"

Xiaoliu? Xia ruofei couldn't help but have a suspicion. Could it be that this immortal mountain river's soul had stayed in the Pearl for too long and his memory was affected? This was obviously Xia Qing!

However, Xia Qing said respectfully, "Master, little six has been fine. He just misses you ..."

Only then did Xia ruofei pat his forehead, completely coming back to his senses. He was the one who gave her the name "bi an, Xia Qing." Before he became the master of the spirit map space, Xia Qing was definitely not called Xia Qing!

It seemed that everything was so shocking that his brain had short – circuited ... Xia ruofei could not help but smile bitterly.

At this moment, the middle – aged man in Taoist robes nodded at Xia Qing and then turned his eyes to Xia ruofei. He had a warm smile on his face and his voice seemed to have a unique charm. "Little friend, we finally meet ..."

Xia ruofei was a little confused. He looked at the shadow and asked with uncertainty, "May I ask ... Are you venerable mountain river?"

The shadow smiled. "To be exact, I'm not immortal mountain river. However ... You can also think of me as immortal mountain river. There's no problem with that."

Hearing this, Xia ruofei was even more confused. Seeing this, the shadow smiled and explained, "In fact, I'm just a thought left behind by immortal mountain river. However, I also have the memories of the main body. If that's the case ... Do you understand?"

Ever since Xia ruofei started cultivating, he had seen many things that were beyond his imagination. Hence, his mental endurance had also been greatly trained. Although he did not fully understand immortal Shanhe's explanation, he still nodded and said, "I think I understand ... Senior mountain river, Hello!"

Immortal mountain river smiled and nodded, saying, "Young friend, congratulations on reaching the Aurous core stage. From this moment on, you've truly stepped onto the path of cultivation. It seems that the opportunity I left in China was not wasted ..."

Xia ruofei couldn't help but be surprised. He had never reached the point where he would forget to eat and sleep in his cultivation. After obtaining the spirit map space, the first thing he thought of was to plant all kinds of vegetables, fruits, and rare medicinal herbs in the space ...

Of course, Xia ruofei had also caught some key information from immortal mountain river's words. He quickly asked, ""Senior mountain river, does this mean ... You've already left earth?"

Chapter 2879 A super – grade golden core (1)

After hearing Xia ruofei's words, immortal mountain river raised his eyebrows and said, ""Earth? This name is quite fitting ... So you already know that the place we live in is actually a very large sphere?"

Xia ruofei was speechless. This was common sense, okay? Even a three – year – old would know, right?

However, on second thought, he realized that Daoist master mountain river had lived at least hundreds or thousands of years ago. Even if Daoist master mountain river had accepted Li Yifu's Grandmaster, Li beihuai, as an in – Name disciple, it had been more than 300 years ago. It should be during the Kangxi period of the Qing Dynasty. After that, Daoist master mountain river disappeared. He had probably left earth at that time.

The real proof that the earth was round was Magellan's global voyage in the 16th century. This scientific theory was brought to China by missionaries at the end of the Ming Dynasty, but it was only widely accepted by the Chinese at the beginning of the 20th century. In addition, cultivators probably didn't care much about the scientific theories of the secular world. Therefore, immortal Shanhe might not know that as early as the 16th century, someone had already confirmed that the earth was round.

Hence, Xia ruofei nodded. "Yes. In fact, more than 500 years ago, there were people who sailed in one direction and eventually returned to the starting point. This proved that the earth is round."

"Oh, really? I didn't think that the ordinary people of the secular world would have such a way. " Daoist master mountain river said with a smile and then asked, "Oh right, what era is it now?"

"Senior Shanhe, it's 2019 A.D. This year ..." Xia ruofei said.

Immortal mountain river calculated silently and said with emotion, ""So it's been over 300 years ..."

Xia ruofei saw that immortal mountain river was sighing, so he did not disturb him and just stood aside silently.

Immortal Shanhe quickly adjusted his emotions and smiled at Xia ruofei. ""You just asked ... Whether I left ... Earth? Actually, I don't know either ..."

Xia ruofei looked at immortal mountain river in confusion.

"I don't even know if I'm still alive ..." Immortal mountain river said with a smile.

He laughed and looked at Xia ruofei. ""Is this hard to understand? You'll understand when your cultivation base is high enough to separate a thought. "

"Senior, please advise me." Xia ruofei said respectfully.

Immortal mountain river nodded and said, ""I've already said that I'm just a thought left behind by immortal mountain river. When he left this thought behind, he was indeed preparing to leave the earth you speak of. Before he left, he left behind this mountain and river Spirit map and sealed my thought here. As for what happened after that, I naturally have no way of knowing. "

Xia ruofei suddenly realized that the thought that immortal mountain river had left behind also carried his previous memories. However, the thought itself would not know what would happen after it separated from the thought.

Xia ruofei was just caught in a thought process. He instinctively thought that the shadow in front of him was immortal mountain river. In fact, strictly speaking, this was not the actual immortal mountain river.

“I understand. Thank you for your explanation, senior!” Xia ruofei said respectfully, “I would like to ask you why senior Shan He left earth more than 300 years ago. Moreover, according to my observation, the spiritual energy on earth is very heterogeneous and not suitable for cultivation at all. If it weren’t for this space treasure left behind by senior, I wouldn’t have been able to cultivate to the Golden core stage in such a short time. I also know that the cultivators on earth are generally not very good. What about those high – Level cultivators? Did they all leave earth?”

With a smile, immortal mountain river said, “You’re right. More than 300 years ago, most of the cultivators above the nascent Soul Stage left the divine continent in batches, which is what you call earth. As for the reason ... The most direct one is what you said just now, the cultivation environment of the divine continent has suddenly deteriorated. Of course, the experts “departure wasn’t simply to avoid disaster, so I can only explain it to you in simple terms. As for the deeper reasons, with your current cultivation, knowing them will only bring you harm.”

Xia ruofei was a little speechless. He didn’t expect that a senior expert like Daoist master mountain river would play this trick.

It was as if immortal mountain river had seen through Xia ruofei’s thoughts. He laughed and said, “Little friend, it’s not that I’m deliberately tantalizing you, but knowing too much won’t do you any good! I can only tell you that the deterioration of the cultivation environment in the divine continent is not a natural development, nor is it caused by the cultivators on the continent. If you want to understand all of this, you must first possess the basic strength to interfere in this matter. ”

“Then may I ask senior, what cultivation level do I need to reach?” Xia ruofei asked.

“At least the nascent Soul Stage, or more accurately, the advanced stage. And I must practice the ‘great Dao Arts’ to reach the advanced stage.” Daoist master mountain river said seriously, “I can also tell you that the deterioration of the cultivation environment has not stopped. I estimate that more than 300 years have passed, and the cultivation environment on the divine continent is probably even worse now. This deterioration will continue, and the speed will get faster as time goes on. By then, it will not only affect cultivators, but even the living environment of ordinary people will be affected ...”

Xia ruofei suddenly felt a sense of danger. He knew that immortal mountain river would not lie to him, and there was no need for him to lie to him.

Chapter 2880 A super – grade golden core (2)

It was just that he didn’t even have the right to understand this matter now, which also gave him a deep sense of defeat.

Seeing Xia ruofei fall into silence, immortal Shanhe couldn’t help but smile and say, “Don’t feel too much pressure. Since I’ve left behind this mountain river spiritual map and you’ve inherited it, you’ll

have a high chance of reaching the advanced stage of the nascent Soul Stage. Also, when you reach the Yuanying stage, I'll give you a big gift that will be of great help to you. "

"Thank you for your encouragement, senior mountain river ..." Xia ruofei said, "but I'm worried that my cultivation speed is too slow ..."

"You're overthinking it," Immortal mountain river said with a smile, "I said that the rate of environmental deterioration is intensifying, but that's relative to the long river of history. How long will it take for you to cultivate to the nascent Soul Stage? "In addition, this is only the worst possibility. There is another possibility. If it succeeds, you don't even need to do anything, and the problem will be solved ..."

"You can't tell me exactly what this possibility is, right?" Xia ruofei asked.

"You're Teachable!" Immortal mountain river laughed and said.

Xia ruofei smiled helplessly. He suddenly thought of something and quickly asked, ""Senior mountain river, may I ask if you have a disciple named Li beihuai?"

Li beihuai was Li Yifu's Grandmaster. Although Xia ruofei had basically confirmed this relationship from his cultivation technique and the personal notes left behind by perfected mountain river, he still wanted to confirm it since perfected mountain river was here.

Immortal mountain river's expression changed, and he said, ""Young friend, you know Li beihuai? He's indeed an in – Name disciple I've taken in. Bei Huai's talent wasn't bad, but at that time, the cultivation environment in the divine continent had already deteriorated by a lot, so I'm afraid that his path of cultivation would be extremely difficult. Furthermore, I was already planning to leave the divine continent, so I only took him in as an in – Name disciple. "

At this moment, the illusory figure of immortal mountain river trembled slightly. He spoke faster and said, ""Little friend, if you have any more questions, ask them quickly. As long as I know and can say it, I'll definitely tell you. I won't be able to maintain this will for much longer. "

Xia ruofei was shocked and quickly asked, ""Senior, you're ..."

"I'm just a thought, and now that I've completed my mission, it's time for me to disappear," immortal mountain river said with a smile. The spiritual Pearl's energy can still be maintained for a while. If you have any questions, young friend, please ask them quickly!"

Xia ruofei nodded quickly. He did not have time to be sad. He racked his brain to think of what questions he had that needed to be answered. However, the more anxious he was, the more he could not think of anything. After half a minute, he saw that the shadow of immortal mountain river was starting to fade away. Suddenly, an idea flashed through his mind.

Xia ruofei quickly asked, "may I ask, senior? when I was forming the beginner Aurous core energy Whirlpool, I noticed a small purple – Gold ball in the center of the whirlpool. It seemed to contain a very terrifying power. What caused this?" Are there any hidden dangers?"

Immortal mountain river smiled. "Don't worry, my young friend. You've broken through to Jindan by cultivating the great way of Dao. It's normal for vital Qi beads to appear in the vital Qi Whirlpool. Moreover, the vital Qi beads have reached the highest grade of purple – Gold, which means that your

cultivation Foundation is very solid. You just need to seriously cultivate according to the “great Dao chant.” As long as you don’t make any mistakes, there won’t be any problems.”

Xia ruofei heaved a long sigh of relief. Ever since he discovered the purple – Gold bead in the yuan Qi vortex, he had been feeling uneasy. It was mainly because he had read through the descriptions of the early jiedan stage in many cultivation books in his mind, but none of them had mentioned that there would be a solid bead – like object in the yuan Qi vortex of the early jiedan stage. This made him even more worried about whether there was a deviation in his cultivation process.

Immortal Shanhe’s words completely dispelled Xia ruofei’s concerns and worries.

“Senior Shanhe,” Xia ruofei continued, “according to the cultivation records, the quality of the Golden core is closely related to the grade of the vital Qi Whirlpool. What grade is the vital Qi Whirlpool with the purple – Gold vital Qi condensed Pearl in the center of the nine grades?”

Hearing this, immortal mountain river revealed a confident smile and said lightly, “The nine levels of the Golden core are divided according to most cultivation methods. Little friend, you practice the great Dao Arts, so your golden core is naturally not in the nine grades. If you have to divide it, then it’s super – grade, right? After all, the Golden core formed by cultivating the great Dao Arts is much stronger than an ordinary ninth – grade golden core ...”

Xia ruofei’s mouth was wide open in shock. Daoist mountain river’s words were really domineering! A super – grade golden core! They all sounded much more domineering than the upper three ranks, middle three ranks, and lower three ranks! He also said that the Golden core formed by cultivating the great Dao Arts was much more powerful than an ordinary ninth – grade golden core.

Furthermore, according to what immortal mountain river said, the essence Qi Whirlpool that Xia ruofei had created this time was the highest – grade purple – Gold essence Qi Pearl. Wouldn’t the Golden core that he would form in the future be awesome?

Xia ruofei was still in shock and deep in thought. He didn’t even notice that the apparition of immortal mountain river had become fainter. It was as if he would disappear without a trace with a gust of wind.

At this time, Xia Qing, who had been standing respectfully at the side, shouted in a sad voice, “Master ...”

Only then did Xia ruofei come back to his senses. He saw that the apparition of immortal mountain river had faded so much that it was almost unrecognizable. He couldn’t help but cry out sadly, “Senior mountain river!”

Immortal mountain river’s illusory figure was in the dark and in the light. He smiled and said, “Little six, little friend, don’t be sad. We will meet again if we are fated ...”

Immortal mountain river’s voice became more and more ethereal. He said, “Little friend, I hope you will work hard in your cultivation and not waste this rare opportunity ...”

Xia ruofei looked at the shadow of immortal mountain river that had almost disappeared. He suddenly shouted, “Senior, this junior has a presumptuous request. I hope to be your disciple, and I hope that senior will grant me this wish!”

At this moment, the apparition of immortal mountain river could no longer be seen with the naked eye. However, immortal mountain river's hearty laughter could still be heard. He said, ""You obtained my opportunity and cultivated my cultivation technique. You and I are naturally fated to be master and disciple. I ... Will take you as my disciple ..."

The sound stopped abruptly and the shadow of immortal Shan He disappeared completely. The Pearl with the pattern of the Yin Yang fish in Xia ruofei's hand cracked into a few pieces ...

Xia Qing's face was filled with grief as she shouted, ""Master ..."

Xia ruofei could hear Xia Qing's sorrow. If Xia Qing was not a spiritual puppet but a human with flesh and blood, she would be in tears by now.

Xia ruofei's emotions were also a little agitated. After a while, he slowly calmed down. He first knelt down solemnly in the direction where the illusionary figure of immortal mountain river had disappeared and kowtowed three times respectfully. After completing the ceremony of acknowledging a master, he stood up and said, ""Xia Qing, you don't have to be too sad. Master just said that this is only a thought of his old man. Master has already left earth. I promise you, when my cultivation reaches master's requirements in the future, I will definitely find an opportunity to take you to him!"

Xia Qing's face was filled with gratitude as she respectfully said, ""This subordinate thanks master!"

"No need for formalities," Xia ruofei said, waving his hand.

After that, Xia ruofei asked Xia Qing a few more questions about the recent situation in the spirit map space. After knowing that everything was normal, including the labor team formed by the mercenaries, he left the spirit map space in a hurry and returned to the outside world.

Xia ruofei also knew that Song Wei and the rest must be looking forward to it, so he did not stay in the spirit map space for long.

After returning to the outside world, Xia ruofei kept the spirit map scroll in his palm and removed the array talismans that he had just set up. Through the core of the array, he restored the many protective arrays of the Taixu xuanqing array to their original positions. Then, his figure flashed and he headed towards the building where Song Wei and Ling Qingxue lived.
