

God tier Farm 2881

Chapter 2881 Overjoyed (1)

The building that was originally used as the project department's building had now been designated as a comprehensive building by Xia ruofei. Other than a part of the floors being renovated into rooms of different grades, the rest of the floors would become the operation Center of the entire Peach Garden Island. All related staff would work there.

However, due to the location of the Paradise Island, the ordinary staff of the secular world were as simple as possible. This building was more than enough, and even the staff's dormitories could be arranged in the guest rooms upstairs.

As for the name of the building, Xia ruofei did not name it because the company's headquarters in China was called the Paradise building. He thought about it in his spare time and decided to use a simple yet Grand name to look down on the Yan Huang building.

All Chinese people were descendants of Yan Huang. On this Island that was thousands of miles away from home, naming it the Yan Huang building was a small way of remembering their family.

At this moment, in the Yanhuang building, Li Yifu, Song Wei, Ling Qingxue, and Zheng Yongshou, who had been taken in by Xia ruofei as his soul slave, were not sleepy at all. Everyone was paying attention to the situation on the west side of the island.

While Xia ruofei was absorbing a large amount of spiritual energy to form the yuan Qi Whirlpool, the spiritual energy on the Paradise Island was also consumed at an extremely fast rate. Especially since the time in the spirit map space was 30 times faster than the outside world, the spiritual energy consumed in the outside world for one minute was equivalent to the spiritual energy replenished in the spirit map space for half an hour.

In this way, the concentration of spiritual Qi within the range of the array on the Paradise Island dropped at an extremely exaggerated speed. In just one or two minutes, it had not even reached half of its original concentration.

It should be known that the area covered by the Taixu xuanqing formation was very large. Not only did it include the entire Paradise Island, but even a part of the sea outside the island was also within the scope of the formation. Although the spiritual energy in such a large area was different from the core of the formation, and the density of the spiritual energy was also somewhat different, on the whole, it was several times richer than the spiritual energy outside the formation. It could be called a paradise on earth. And in such a large area, the total amount of spiritual energy that had been condensed after such a long time was also an astonishing number.

In just one or two minutes, more than half of such a huge amount of spirit Qi had been consumed. This was completely beyond the knowledge of Li Yifu and the others. If they were to cultivate, they would probably not be able to absorb all of it in a year and a half.

Within the range of the array, it could absorb the free spirit Qi from the outside world at any time to purify and condense it, and constantly replenish it. Therefore, in theory, even if there were hundreds of

cultivators at the same level as Li Yifu and Song Wei cultivating on the island at the same time, the array could basically maintain the dynamic balance of the total amount of spirit Qi.

To be able to cause an imbalance in the spiritual energy in just one or two minutes, and even lose more than half of it, what kind of terrifying absorption speed was that!

Fortunately, due to the difference in the flow of time, this whale-like absorption did not last long. After a few minutes, when the concentration of spiritual energy in the outside world had actually dropped to a level not much higher than that of the spiritual energy outside the array, this terrifying absorption came to an abrupt end.

Of course, Xia ruofei had not stopped cultivating. However, he had already completed the formation of the vital Qi vortex and was only circulating his cultivation technique to fill his dantian, so he had slowed down his cultivation speed. The spirit map space could also absorb energy from the chaotic space outside the membrane wall to maintain a stable increase in the total amount of spiritual Qi. Naturally, he stopped the lower priority option of absorbing spiritual Qi from the outside world.

Li Yifu and the rest heaved a sigh of relief. At the same time, they were filled with anticipation. They thought that Xia ruofei's closed-door cultivation should have ended. Although this "closed-door cultivation" was probably only about ten to twenty minutes, this included the time Xia ruofei went to the core of the array and stayed outside to set up the array. In reality, if the time he spent in the Archean realm was calculated at 30 times the normal speed of time, it would definitely be less than ten to twenty minutes in the outside world.

Li Yifu and the rest did not know about the existence of the spirit map space. Unlike Li Yifu, Song Wei and Ling Qingxue knew that Xia ruofei had array flags that could change the flow of time. Hence, they were not as surprised as Li Yifu when he swallowed the spiritual Qi so quickly. They also thought that Xia ruofei had finished his closed-door cultivation, but they thought that he had used the time array flags.

However, Li Yifu and the others waited for a few more minutes before they finally sensed a familiar aura flying over from the west side of the island.

Everyone revealed a trace of joy, and then came out of their rooms in unison. They took the elevator and quickly went downstairs, gathering at the door to wait.

As expected, Xia ruofei's figure appeared in front of everyone very quickly.

Everyone felt their vision blur. Xia ruofei, who was a few hundred meters away, was now standing in front of them with a smile.

This speed had already exceeded everyone's imagination.

Besides, Xia ruofei didn't deliberately restrain his cultivation. Li Yifu and the others were all cultivators. Zheng Yongshou, who had the highest cultivation, had even reached refined Qi Level 7. Therefore, they immediately felt a strong pressure and felt a little breathless at that moment.

Li Yifu and the others immediately came back to their senses, and everyone revealed a look of surprise.

Chapter 2882 Overjoyed (2)

Li Yifu took the lead and said with a trembling voice, "martial granduncle!" If I may be so bold as to ask ... You ... Have you broken through?"

Although Song Wei, Ling Qingxue, and Zheng Yongshou did not say anything, their eyes were also filled with anticipation. The four of them looked at Xia ruofei eagerly.

Without a doubt, Xia ruofei was the backbone of the team and the core of the team. Xia ruofei's breakthrough in cultivation was something worth celebrating for everyone.

Not to mention that there was Zheng Yongshou who was absolutely loyal to Xia ruofei.

Xia ruofei had a gentle smile on his face. He nodded and said, "You're quite lucky! I've already broken through to the early jiedan stage, and I absorbed a lot of spiritual Qi when I was consolidating my cultivation. I hope I didn't scare everyone?"

As soon as Xia ruofei returned to the outside world, he could feel that the concentration of spiritual Qi on the Peach Blossom Island had dropped drastically. He thought for a while and guessed the reason.

This was actually good. If he had only absorbed the spiritual energy within the spirit map space, there would not have been any fluctuations in the spiritual energy outside, and he had already broken through to the early jiedan stage. That was obviously a bit too strange.

Now that the concentration of spiritual Qi in the outside world had dropped so much, it meant that the breakthrough just now had caused a lot of movement on the island. Everything made sense.

Although these people in front of him were worthy of absolute trust, the spirit map space was ultimately Xia ruofei's core secret. Unless it was absolutely necessary, he would never reveal it to a second person.

Li Yifu said, "we've already guessed that it's senior granduncle who's breaking through a major realm. Therefore, the more spiritual Qi He absorbs, the more excited we are. This means that senior granduncle's strength will definitely be greatly improved after this breakthrough!"

Zheng Yongshou also said with a happy expression, "Mr. Xia! I remember that after my master turned all his Zhen Qi into Yuan Qi, he went into seclusion for more than a year before he finally broke through to the early stage of the Golden core. I didn't expect you to complete it in just ten minutes. This is simply a miracle!"

Xia ruofei was slightly stunned. "You can take your time to build the vital Qi vortex?" he asked.

"Yuan Qi vortex?" Zheng Yongshou was a little puzzled.

Xia ruofei then realized that Qi refinement cultivators like him probably didn't know much about the Golden core stage. They didn't even know what a Yuan Qi Whirlpool was. Hence, he explained, "Even if I break through to the early Aurous core stage, can the process of breaking through be dragged on for more than a year? Shouldn't you finish it in one go?"

Obviously, Zheng Yongshou only knew that Luo Qingfeng had broken through to the early – Stage golden elixir realm after a year of seclusion. He did not know the details of the process, let alone the matter of cultivators constructing the vital Qi vortex. So, he was also confused and said with a confused expression, "Mr. Xia, I'm not too sure about this ... Before my master went into seclusion, he said that he had successfully transformed all the true Qi in his body into Origin Energy. This time, he was going

into seclusion and would only come out after he broke through to the early golden core stage. After that, he spent more than a year in closed – door cultivation ...”

Xia ruofei nodded. It seemed that Zheng Yongshou didn’t know much either. He also felt that other cultivators wouldn’t be able to construct the vital Qi vortex like him. Otherwise, with the current cultivation environment on earth, no one would be able to construct it successfully. However, what he didn’t understand was that before the yuan Qi vortex was completed, the cultivator should find it hard to endure the extreme hunger in his dantian and the feeling of constantly absorbing any trace of Yuan Qi in his body. Even if he could endure it, wouldn’t he be sucked dry after a long time?

Anyway, the second level of the “great Dao Arts” did not mention that the formation of the vital Qi vortex could be carried out step by step. Hence, Xia ruofei felt that his method should be more reliable. However, it might not be suitable for the current cultivation environment on earth.

Thinking of this, he muttered to himself for a moment, and then said to Zheng Yongshou, “Yongshou, contact your master. If he doesn’t have many things to do, ask him to come here. I have something to ask him.”

It was naturally better to ask Luo Qingfeng directly about the Golden core stage. Furthermore, before Luo Qingfeng left last time, he had mentioned that there would be an auction in the cultivation world in the near future, and there were rumors that storage rings might appear. Xia ruofei calculated that the time should be close, so he decided to summon Luo Qingfeng over.

“Alright, I’ll contact Master immediately!” Zheng Yongshou said respectfully.

Xia ruofei smiled and nodded. Then, he turned to look at Song Wei and Ling Qingxue.

The two of them were naturally happy that Xia ruofei had broken through to the early golden elixir realm. However, compared to the breakthrough in his cultivation, they were more happy that Xia ruofei had safely overcome the difficulty of breaking through to the next realm. If anything were to happen during the breakthrough process, they could not believe how they would handle it.

In reality, whether it was Song Wei or Ling Qingxue, they would rather Xia ruofei be mediocre than see him in any danger.

However, both of them knew that Xia ruofei was not destined to be mediocre. They could not drag Xia ruofei down, so they could only keep their worries to themselves.

When Xia ruofei looked over, the two of them smiled sweetly and said in unison, “Congratulations on your breakthrough!”

Xia ruofei laughed and said, “it’s just a matter of time. As long as you continue to cultivate, you’re not far from the Golden core stage.” Both you and Yongshou, stay on the Peach Blossom Island and cultivate. You’ll know in the future that the Golden core stage is nothing ...”

Li Yifu and Zheng Yongshou both revealed excited expressions and nodded heavily.

Xia ruofei continued, “let’s not just stand here. Let’s go in and talk ... Adopted husband, find a bigger room and prepare some food and wine. We have to celebrate today!”

“Martial granduncle, I’m ready!” Li Yifu smiled and said, “it’s in the reception room on the third floor. It’s spacious there!”

“Oh, really? What were they waiting for? Let’s go!” Xia ruofei laughed.

The reception room on the third floor of the Yanhuang building was originally designed to receive important guests as a place for official meetings. It was very spacious, but the main decoration was a circle of leather sofas with high comfort.

Li Yifu knew that Xia ruofei was going back to Paradise Island, so he set up a long table in the middle of the reception room with Zheng Yongshou in advance. They also prepared a lot of delicious food and fine wine. Currently, there were no other staff members available on Paradise Island, so they had to do everything themselves.

However, Xia ruofei had gone straight to the core of the formation to cultivate after getting off the plane, so the small welcome party was not put to use. Now, it was time to change it to a celebration party.

Xia ruofei and the others came to the reception room on the third floor. Although Zheng Yongshou’s cultivation was much higher than Li Yifu’s, he knew that his status was definitely not as high as Li Yifu’s, so he consciously took on the role of a waiter.

Soon, he brought out the cold dishes that he had prepared and was busy pouring wine for everyone. Just as he was about to heat up the dishes, Xia ruofei smiled and said, “Yongshou, don’t be busy. Let’s have a drink first ...”

When Zheng Yongshou heard this, he was so excited that he almost burst into tears. He quickly said, “Thank you, m – Mr. Xia!”

As Song Wei and Ling Qingxue were present, Zheng Yongshou had to address Xia ruofei as “Mr. Xia”. He was so excited that he almost spilled the beans.

Xia ruofei didn’t blame him. He just smiled gently and said, “Pour the wine yourself!”

“Yes!” Zheng Yongshou quickly poured wine into his own glass.

Xia ruofei raised his cup and said, “today, I have finally broken through to the Golden core stage. This is a day worth celebrating. Let’s all have a toast!” In addition, everything on Paradise Island will gradually get on the right track. Many ordinary people will come to the island to take on some basic work, including our own guards, so there are still many follow – up matters. I’ll have to trouble foster husband and Yongshou.”

“Senior granduncle, you’re being too serious. This is what a disciple should do.”

“Mr. Xia, it’s my honor to be of service to you!”

Li Yifu and Zheng Yongshou both said hurriedly.

Xia ruofei laughed and said, “good!” In the future, everyone can cultivate here. Building the Peach Blossom Island is like building your own home. I won’t be polite with everyone. Cheers!”

Chapter 2883 Night and Star Journey (1)

After the simple celebration, Xia ruofei asked everyone to go back to their rooms to rest. He was tired from his breakthrough today, so even though he had not slept with Song Wei or Ling Qingxue for a long time, he decided to wait until tomorrow to adjust his condition.

If he didn't perform well in bed, it would be embarrassing. Although the possibility of such a situation happening was very low for a cultivator, Song Wei and Ling Qingxue were also cultivators! In terms of endurance, the two of them were naturally much stronger than ordinary girls.

The next morning, after eating Zheng Yongshou's carefully prepared breakfast, Xia ruofei called Li Yifu to his room.

Ever since he met Li Yifu, Xia ruofei had been very satisfied with his performance. This old man respected him from the bottom of his heart and treated him as an elder of his sect. He had done everything he asked him to do beautifully and had never let Xia ruofei down.

Xia ruofei had no doubts about Li Yifu's loyalty.

Besides, last night in the spirit map space, after that spiritual will of perfected mountain river personally confirmed that Li Beihuai was his in – Name disciple, Xia ruofei naturally felt closer to Li Yifu.

As soon as Li Yifu entered the door, he bowed respectfully to Xia ruofei and said, "Good Morning, senior granduncle!"

Xia ruofei smiled gently and pointed at the sofa beside him. "Adopted husband, come over and sit down to talk!"

"Thank you, grand uncle – Master!" Li Yifu said, then walked to the sofa next to Xia ruofei and sat down. Although he said he was sitting, he was actually sitting next to half of his butt. He kept his back straight in front of Xia ruofei. Whether there were outsiders or not, he would always maintain sufficient etiquette.

Xia ruofei glanced at Li Yifu and said helplessly, "Foster husband, relax! I'm asking you to sit, not do the horse stance!"

"Yes!" Li Yifu adjusted his sitting position slightly, but he still maintained a straight posture.

Xia ruofei smiled bitterly and shook his head. He stopped correcting Li Yifu's sitting posture and asked affectionately, "How's the situation on the island? Tell me about it!"

"Yes! Senior granduncle!" "Yes," Li Yifu said. "I've followed your instructions and set up all the locations where the arrays are placed as forbidden zones. I've also installed barbed wire fences and hung eye – catching warning signs. In addition, during the time when martial granduncle was away, everything was normal on the island. There were no accidents. "

"That's good. " "Did you manage to contact the seller of the list of weapons and equipment that I sent you last time?" Xia ruofei continued.

After Xia ruofei and the old company commander confirmed the equipment of the guards, they sent the list to Li Yifu and asked him to purchase it.

Li Yifu quickly said, "grand uncle – Master, I've already made an order with the black – Market arms dealer in Mexico through the Hong sect. The list is all common American Standard equipment. It's not difficult for big arms dealers to prepare. The goods should be ready soon."

Xia ruofei asked curiously, "from Mexico?" I see that the list is full of U.S. Military equipment!"

Li Yifu smiled and said, "you may not know this, uncle – Master, but although the United States allows guns, its gun control is relatively strict. In addition, it's more convenient to order such a large number of weapons and equipment Mexico. Although those black – Market arms dealers charge higher prices, they have their own channels to get bulk goods from the US military's suppliers. Also, the United States and Mexico border, so it's very convenient to smuggle arms. In addition, the demand in Mexico's market is also relatively large! There are big and small drug lords there, and they are all important customers of these black market arms dealers, so it's more convenient to get the goods from Mexico!"

"I understand," Xia ruofei nodded.

"Also," Li Yifu added, "according to their rules, they're only responsible for transporting the arms to the ship in the Mexico of Mexico. They have nothing to do with the rest of the matter ..."

"Is it difficult for us to retrieve the goods?" Xia ruofei asked.

"The Hong sect also controls a shipping company in Mexico. It's not a problem to board the ship from Mexico." Li Yifu said, "now, we have to decide where to hand over the goods as soon as possible so that the freighter of the Hong sect can plan the route."

Xia ruofei nodded. He knew that the Freemasonry's shipping company would not just help them transport a batch of firearms. Xia ruofei had bought the firearms to equip about a hundred guards. They would not use an ocean – going cargo ship to transport the firearms over. Moreover, the cargo ship would definitely need to carry some goods to cover up their tracks. As long as they entered the International waters, there would be no problem.

"They're probably looking for a freighter that will pass through the South Pacific Ocean to help us, right?" Xia ruofei asked.

"Yes, I am!" Li Yifu said, "the freighter has already docked. In fact, the goods have already been loaded and can set off at any time. We're just waiting for the batch of arms we bought to board the ship. I just contacted him yesterday, and it should be within the next two days. "

"Sailing from the Mexico of Mexico to here should take a long time, right?" Xia ruofei asked.

"If there's no delay, it'll take at least a month." Li Yifu asked uneasily, "senior granduncle, are you a little delayed?"

Chapter 2884 Night and Star Journey (2)

Xia ruofei waved his hand and said, "that's not necessarily the case ... The guards are used to deal with ordinary people's invasion. The defense of Paradise Island mainly depends on the Taixu xuanqing formation!" Besides, this isn't your fault. It's not realistic to transport such a large batch of firearms by air ..."

“There’s actually a way, but the risk isn’t small. ” Li Yifu said,”grand uncle – Master, should I contact the Hong sect and try to send this batch of goods to the nearby airport by air?”

Li Yifu could tell that even though Xia ruofei said that the safety of Peach Blossom Island mainly depended on the Taixu xuanqing formation, he still hoped that the firearms could be transported here as soon as possible.

In fact, Xia ruofei did not want to wait for more than a month. He was not worried about the safety of Peach Garden Island. The main thing was that the Veterans had already gathered and were even undergoing some intensive training. He was going to let them station on the island in the next few days. If everyone was in place and the equipment had to wait for more than a month, he would feel a little embarrassed in front of his old comrades. After all, he had already made it clear.

However, Xia ruofei knew the risk of transporting the firearms by air. He did not want his brothers from the Hong sect to take the risk. After all, they were helping.

Hence, Xia ruofei shook his head and said,”we don’t have to take the air transport.” However ... Tell them not to load the ship for the time being. I’ll deal with it. Also, tell the cargo ship not to wait and tell them to set off first. Don’t waste too much of their time because of us. ”

He already had a preliminary plan in mind, but it was not convenient to tell Li Yifu for the time being.

Li Yifu had never hesitated when it came to Xia ruofei’s decisions. He immediately nodded and said,””Fine, grand uncle – Master, I will contact the people Mexico a short while!”

Xia ruofei nodded and asked,”adopted husband, how’s your cultivation recently?”

“Thank you for your concern, Grand – martial uncle,” Li Yifu said.”I’ve been living on the Peach Blossom Island for a while, and the spiritual energy environment here is really good. Cultivating here for a day feels better than cultivating outside for a month!” All of this is thanks to martial granduncle, and this disciple will never forget martial granduncle’s great kindness!”

“The only help I can give you is the external environment,” Xia ruofei said with a pleasant expression. “In the end, you still have to rely on your own efforts to cultivate.” Foster husband, you’re a bit old, and you’ve been delayed by the cultivation environment in the early stages, so you have to double your efforts and not relax for even a moment. Otherwise, it’ll be difficult for you to have any great achievements on the path of cultivation. ”

“Yes! This disciple will definitely remember martial granduncle’s teachings in my heart. ” Li Yifu said,”actually, grand uncle – Master gave me a complete cultivation technique and allowed me to cultivate in such a unique environment. How could I not cherish it? During this period of time, as long as I have free time, this disciple will work hard to cultivate and strive to improve my cultivation. In the future, I will be able to share more of martial granduncle’s worries!”

Xia ruofei nodded with relief and said,””You and I are from the same sect, so I will definitely spare no effort in cultivating you. As for what kind of height you can reach, it will depend on your own fortune!”

“Yes! Thank you, senior granduncle!” Li Yifu said with a grateful expression.

Then, Xia ruofei and Li Yifu talked about the daily management of peach source Island, including the barracks of the guards after they landed on the island, the scope of their inspection, the recruitment of ordinary staff, management, and so on.

Xia ruofei had decided to let Li Yifu recruit some reliable staff who were willing to work on Peach Blossom Island through his channels. It would be even better if they or their families had the Hong sect's background.

Of course, these people would be "interviewed" by Xia ruofei alone before they were hired. Under his spiritual hypnosis, those with ulterior motives would never be able to get in.

Li Yifu also shared some of his thoughts and reported to Xia ruofei some of the work he was working on.

Just as the two of them were about to finish their conversation, there was a knock on the door. Xia ruofei scanned with his spiritual power and found that Zheng Yongshou was standing at the door with a respectful face. He said indifferently, "Yongshou, come in!"

"Yes!" Zheng Yongshou then pushed the door open and walked in.

When he saw that there were only Xia ruofei and Li Yifu in the room, he immediately greeted the two of them respectfully. "Master! Senior li!"

"What's the matter?" Xia ruofei nodded.

"Reporting to master! He's already near the Peach Blossom Island. " Zheng Yongshou said respectfully, "master would like to ask for your permission. Can we go to the island to meet him now?"

Xia ruofei raised his eyebrows and said in surprise, "He's already here?"

"After this subordinate contacted master last night, he immediately rushed over on his flying sword through the starry night," said Zheng Yongshou.

Qingfeng Luo had been to the peach source Island once. For a cultivator in the beginning stage of the Golden elixir realm, it was easy to find this place again. Therefore, he did not need anyone to lead the way this time, nor did he need to take a plane. Especially when Xia ruofei personally summoned him, he put down everything at hand and immediately came on his flying sword.

Xia ruofei silently calculated the time and smiled. "It seems like the speed of sword Kinesis flight is much faster than that of an Airplane!"

Then, Xia ruofei immediately said, "since we're here, what are we waiting for?" Let him get on the island quickly! I just happened to have something to talk to him about! Foster husband, go with Yongshou and see which direction Qingfeng is coming from. Open a hole in the defensive formation and let him in. Also, guide him. "

"Yes! Senior granduncle!" "Yes, master!" Li Yifu quickly replied. Then, he and Zheng Yongshou bowed to Xia ruofei and left his room.

Half an hour later, a tired – looking Luo Qingfeng appeared in Xia ruofei's room. After Zheng Yongshou led Luo Qingfeng here, he respectfully left. As soon as Luo Qingfeng saw Xia ruofei, he immediately bowed deeply and said, "Master! Qingfeng is here to report to you!"

"Qingfeng, you must have had a hard journey, right?" Xia ruofei said with a pleasant expression.

"It's not hard," Luo Qingfeng quickly said. "It's just some vital Qi. It's not hard!" I'll be fine after recovering for a while! If master has any orders, please let me know!"

In fact, Luo Qingfeng had not only consumed 'some vital Qi', but almost all the vital Qi in his body. He had been flying at high speed all the way and did not care about the consumption of vital Qi at all. Halfway through, he could not hold on any longer and landed on an uninhabited island to recover.

Xia ruofei was already in the beginning stage of the Golden elixir realm. He could tell that Luo Qingfeng was almost at the end of his rope. He smiled, took out a piece of crystal, and handed it to Luo Qingfeng, saying, "I'll use this to meditate and recover my Yuan Qi first!"

Luo Qingfeng looked at it and could not help but widen his eyes. He asked with a trembling voice, "Master, these are ... Origin crystals?"

Now that the cultivation environment on earth was so harsh, spirit crystals were already very precious, let alone origin crystals, which were even more precious. When the cultivation environment was good, origin crystals were the standard of golden core cultivators. It was the most convenient way to recover Origin Energy. However, Luo Qingfeng had never even seen an origin crystal before. When he saw the origin crystal in Xia ruofei's hand that was emitting dense spiritual energy, he did not even dare to confirm.

Xia ruofei smiled and nodded. "Hurry up and recover. If you stay in this state for too long, you will hurt your Foundation!"

"Master!" Luo Qingfeng said fearfully, "master, I'll just adjust my breathing for a while!" The spiritual Qi on the Paradise Island is rich ..."

He suddenly stopped and looked embarrassed. Xia ruofei had almost absorbed all the spiritual Qi on the island yesterday. Although there was some increase after a night's recovery, to an Aurous core stage cultivator, the concentration of spiritual Qi was not much different from the outside world. No matter what, it was definitely not rich in spiritual energy.

Xia ruofei smiled and stuffed the crystals into Luo Qingfeng's hands. He said, "You dare to disobey my master? Just take it if I tell you to! Don't talk so much nonsense, quickly sit down and regulate your breathing! In addition, this isn't a gift for you. You can return it to me after you've recovered a portion of your vitality!"

Chapter 2885 Flying on a sword (1)

Qingfeng Luo thought to himself, it's not as easy as you say! The spiritual energy contained in this origin crystal can't be replenished after it's been consumed ..."

In fact, according to what Luo Qingfeng had learned from the ancient records passed down by the sect, even in the era where the cultivation environment was better, origin crystals were not common goods. On the contrary, origin crystals had always been precious. In the past, golden core cultivators would not easily use origin crystals to absorb and recover. They would usually save origin crystals for critical moments, such as when they were about to break through or when they were saving their lives. After all, even in the era where the cultivation environment was the best on earth, origin crystals were not

common. The efficiency of directly absorbing the free spiritual energy in the air was also far inferior to using Origin crystals.

However, Xia ruofei had already given the order as the master. How could Luo Qingfeng dare to disobey? He could only gratefully accept the origin crystal that seemed as heavy as a thousand Jun with both hands, and said in a trembling voice, ""Master, then this old servant will have to suffer! Thank you, master, for your generosity!"

"Let's not talk about this. Just meditate here and recover!" Xia ruofei said.

He only had Luo Qingfeng as his golden core stage soul slave, and he did not wish to see Luo Qingfeng's Foundation damaged due to over – consumption of vital Qi.

"Yes! Master!" Luo Qingfeng said.

He forced himself to calm down, and directly sat down cross – legged on the soft carpet in the living room. He held the origin crystal in his hand and began to transfer his cultivation technique to absorb it.

Luo Qingfeng did not hold back at all during the night's sword flight. Taking into account the time difference, he had flown for more than ten hours. Halfway through, he had to adjust his breathing. At this time, his dantian was almost dry. The dense spiritual energy in the origin crystal was like sweet spring water, quickly nourishing his dantian. In a short time, his dantian had produced a lot of Yuan Qi.

Luo Qingfeng did not dare to absorb too much. He felt that his condition had stabilized a little, at least it would not affect his cultivation Foundation. He immediately stopped cultivating, stood up, and respectfully handed the origin crystal to Xia ruofei. He said, ""Master, this old servant has already adjusted my breathing. Next, I only need to absorb spiritual energy normally to slowly recover. If I continue to use origin crystals, it would be a waste of a heavenly treasure. Master, please take it back."

Xia ruofei glanced at Luo Qingfeng and said, ""Absorb a little more. Although this origin crystal is precious, I won't go bankrupt because of a piece of origin crystal!"

"There's really no need for that!" Luo Qingfeng quickly said, "master, the concentration of spirit Qi on the Paradise Island has been increasing. I only need to meditate for half a day and I should be able to fully recover!"

Xia ruofei thought for a moment and took the crystals. He then nodded and said, ""Alright then! Let Zheng Yongshou arrange a room for you to recuperate! When you've recovered to your best condition, I still have something to ask you. "

"Yes! Master!" Luo Qingfeng quickly said, "then this old servant will take his leave!"

Ever since Xia ruofei had given him the crystals to recover his energy, he had changed his address from "subordinate" to "old servant". This was also because he was truly convinced of Xia ruofei's abilities from the bottom of his heart, and it was not just the soul seal that was controlling him.

After Luo Qingfeng left, Xia ruofei also left his room. He quietly went to Ling Qingxue's room. With his current cultivation, as long as he did not want anyone to know, even Luo Qingfeng would not be able to detect his traces easily.

Ling Qingxue, who was in a daze in the room, was shocked when she saw Xia ruofei. She touched her chest and asked, "How did you get in?"

"I came in from the door!" Xia ruofei smiled and said, "wife! I'm here to help you with your cultivation! You've been in Spain these days, and your cultivation progress has been delayed a lot. I'm free this morning, so I'll take the time to come and practice together!"

Ling Qingxue rolled her eyes at Xia ruofei and said, "Why don't you go to Wei Wei's place first? Aren't you afraid that she'll be jealous?"

Xia ruofei shrugged and said, "there's always a first and a second!" If I go to Wei Wei's place and she asks me this, what should I say? I'm willing to ..."

"You wish!" Ling Qingxue's face was red as she lowered her eyes and said, "what are you thinking?"

Xia ruofei was stunned and said, "I mean, I'm willing to cultivate with you guys at the same time. Unfortunately, the cultivation technique doesn't allow three people to cultivate together!" Is there a problem with my words?"

Ling Qingxue's pretty face heated up. She glared at Xia ruofei and said, "Don't even think about it even if you have the support of your cultivation technique!"

Xia ruofei laughed as he took out his hand from behind his back. He was holding the time array flag. As he skillfully set up the time array in Ling Qingxue's room, he said, "Qingxue, let's not waste any more time. I might have something to do in the afternoon and have to leave Peach Blossom Island. I've already broken through to the Golden core stage, so I should be of even greater help to you during our joint training. "

Ling Qingxue asked curiously, "you're leaving in the afternoon?" Are you going back to China?"

"No, I didn't," Xia ruofei said, "I'm going to take Luo Qingfeng to do something. At the same time, I'll practice sword Kinesis flight. If everything goes well, I should be back in two or three days at most. "

Flying on a sword was also a clear sign of the Golden core stage. When a cultivator reached the early stage of the Golden core stage, the yuan Qi in their dantian would be enough to support the use of sword techniques and form a protective shield while flying at high speed. This was something that no cultivator in the Qi refining stage could do. There was a clear "generation difference" between true Qi and Yuan Qi.

Chapter 2886 Riding a flying sword (2)

Ling Qingxue's eyes lit up, 'flying on a sword? That's so cool!"

Her eyes were filled with yearning as she said, "It'll be great if I can experience it one day. "

Xia ruofei laughed. "We now have the unique conditions that no other cultivation sect has. Moreover, the martial arts you're cultivating are all of the best quality. If you can't reach the Golden core stage even with this, then you should really be locked up in a small black room and reflect on yourself!" Also ... If you just want to experience it, I can take you flying once after I master it, as long as you're not afraid!"

"That's a deal!" Ling Qingxue said, "you're not allowed to go back on your word!"

"I won't regret it ..." Xia ruofei chuckled and said, "wife, the time formation is done. Let's go in and cultivate!"

"En!" Ling Qingxue nodded her head and said, "I will also work hard to cultivate and try to reach the Golden core stage as soon as possible!"

Xia ruofei stayed in Ling Qingxue's room for about two hours. Most of the time was spent on "rolling around in bed" after their cultivation. This was because they were cultivating within the time array flag's range and the time flow was more than 90 times slower than the outside world.

After leaving Ling Qingxue's room, Xia ruofei sneaked into Song Wei's room.

The process here was basically the same. First, they practiced the "absolute beginning Heart Sutra" together in the time formation. Then, when they were in deep love, they left the formation and fell into the soft bed, hugging each other ...

Xia ruofei was like a hardworking bee, working hard in Song Wei and Ling Qingxue's room. The morning passed quickly.

When they went to the restaurant downstairs for lunch, Song Wei and Ling Qingxue blushed at the same time when they saw each other. Their eyes met for a moment, then they quickly looked away. They knew that Xia ruofei must have been busy with both sides in the morning. When they thought about the crazy time in bed that morning, their faces blushed and their hearts beat faster.

Luo Qingfeng also appeared in the restaurant on time. When he saw Xia ruofei and the other two, he quickly walked up and bowed respectfully in front of Xia ruofei. "Mr. Xia!"

"Qingfeng, have you recovered your energy?" Xia ruofei nodded and asked.

Luo Qingfeng nodded gratefully and said, "Mr. Xia, the yuan Qi in my dantian has recovered by more than 80%. If you have any orders, you can order me to do so at any time!"

When Song Wei and Ling Qingxue heard this, they were also shocked. This was an Aurous core stage cultivator!

They were even more shocked when they saw how respectful Luo Qingfeng was to Xia ruofei.

Xia ruofei smiled and nodded, "let's eat first!" After the meal, come to my room with your adopted husband!"

"Yes, Mr. Xia!" "Yes," Luo Qingfeng replied respectfully.

After lunch, Xia ruofei soon saw Li Yifu and Luo Qingfeng in his room.

"Senior granduncle!"

"Master!"

The two of them greeted Xia ruofei with great respect.

Xia ruofei nodded and said, "come and sit!"

He first looked at Li Yifu and asked, "Yifu, has the weapons and equipment been prepared in Mexico?"

Li Yifu quickly replied, "senior granduncle!" Everything is ready, but according to your instructions, the goods have not been loaded onto the ship yet. "

Xia ruofei nodded and asked, "by the way, how much is the equipment?" I'll transfer it to you later!"

"Senior granduncle, didn't we have an agreement?" Li Yifu quickly said. I'll pay for this! I can't help much with the construction of the Peach Blossom Island. This kind of problem can be easily solved with money, so I ask martial granduncle to give this disciple a chance to show filial piety?"

Xia ruofei smiled and said, "you've already put in a lot of effort by using your connections in the Hong sect to do this. How can I let you pay for it?" This is not appropriate ..."

"Suitable! It's very suitable!" Li Yifu said, "it's only about a few million US dollars in total, and the people in the Hong sect are my old brothers. The only difficulty in this matter is that the black market arms dealers all require cash transactions. After I transfer the money, they need to find a safe channel to exchange it for cash. But all these things have been done, so you don't have to worry about it!" Martial granduncle, the problem now is how to transport it back to the Peach Blossom Island. Have you decided?"

Xia ruofei saw that Li Yifu had put it this way, so he didn't stand on ceremony with Li Yifu. He nodded and said, "Alright, I'll take this money as your contribution for the construction of the Peach Blossom Island!"

"Thank you, martial granduncle, for your help!" Li Yifu was overjoyed. "I don't have any strong points, but I've indeed accumulated a lot of worldly wealth. In the future, I hope that senior granduncle will not treat me as an outsider!"

Xia ruofei waved his hand and said, "I'm an elder of your sect. It's improper for me to keep using your money." Besides, I have some savings ... Let's not talk about this for now. Foster husband, I've decided that I'll personally go and get this batch of firearms!"

"What?" Li Yifu was stunned for a moment. "Great uncle – Master, you ... You're going to Mexico in person?"

Xia ruofei nodded and said, "that's right!" I'll try to get it done in three days! I've just broken through to the early jiedan stage, so I'm going to practice sword riding. This trip to Mexico will be my training!"

Luo Qingfeng, who was standing at the side, could not help but gasp. He looked at Xia ruofei with wide eyes and asked in a trembling voice, "Master! You ... You ... You've already broken through to the early jiedan stage?"

Regarding Xia ruofei's breakthrough last night, Zheng Yongshou and Li Yifu, who were in charge of picking Luo Qingfeng up, did not dare to tell him much without Xia ruofei's permission. Since Luo Qingfeng saw Xia ruofei this morning, Xia ruofei had not deliberately released his aura and even restrained it a little. As a result, Luo Qingfeng had not even noticed that Xia ruofei had officially entered the early – Stage golden elixir realm.

There were two things that shocked Luo Qingfeng. The first was that Xia ruofei had completed the formation of the vital Qi vortex in such a short time. He had personally witnessed Xia ruofei break through the bottleneck of the Qi refinement realm. Xia ruofei had completed the breakthrough in the

battle with Luo Qingfeng. From that battle that could affect him for the rest of his life until now, it had only been more than 20 days. Xia ruofei had actually crossed two large steps, transformed his vital Qi, and formed a vital Qi vortex.

Luo Qingfeng had spent a lot of time and effort to complete each step. He had spent more than a year to build the vital Qi vortex. In comparison, Xia ruofei's cultivation speed was unbelievable.

What shocked Luo Qingfeng even more was that he had not noticed that Xia ruofei had broken through to the early – Stage golden elixir realm even though he had met him several times in the past half a day. Generally speaking, a cultivator with a high cultivation level could easily see the cultivation level of a cultivator with a low cultivation level. If Xia ruofei could hide his aura in front of him, didn't it mean that Xia ruofei's cultivation was more powerful than his? Or did Xia ruofei cultivate some special secret technique to hide his aura?

The news that Xia ruofei had broken through to the early – Stage golden elixir realm was so shocking that Luo Qingfeng could not help but be a little dazed.

Xia ruofei smiled and said, "I just broke through last night!" Qingfeng, I'll have to ask you some things about the early jiedan stage later!"

Luo Qingfeng also came back to his senses and quickly said in awe, "Master, if you have any questions, please feel free to ask. This old servant will definitely answer everything I know!"

Xia ruofei nodded and looked at Li Yifu. "Foster husband, contact the people in Mexico and get the firearms ready. You'll have to arrange in advance where I'll go and who I'll contact after I arrive in Mexico. When the time comes, you can send me the specific location and contact information, and leave the rest to me!"

Chapter 2887 Dumbfounded_

"No problem!" Li Yifu quickly replied. This batch of firearms had already been delivered to the Hong sect and was stored in the warehouse of the shipping company! I'll contact them immediately and ask them to find a reliable person to contact you!"

Xia ruofei nodded and said, "okay!" Just send me the specific address and contact information of the docking person as soon as possible."

"Alright, martial granduncle!" Li Yifu said. Then, he hesitated for a moment and asked, "grand uncle – Master, may I be so bold as to ask, how do you plan to transport this batch of firearms back? These weapons and equipment take up quite a lot of space. The brothers from the Freemasonry in Mexico said that they almost filled up a whole container ..."

Hearing this, Luo Qingfeng also said with some difficulty, "Master, are you thinking of using a spatial magic treasure to transport these supplies? Although I have a storage ring, the space is very limited. I wonder ... How big is this container?"

Qingfeng Luo had been living in the sect for a long time, so he had no idea what containers were. However, his storage ring could not hold many things, so he was worried that he would screw up. If he could not bring his things back to Mexico after so much difficulty, he would be too ashamed to face his master.

Xia ruofei smiled faintly and said, "I'm indeed planning to use a storage artifact to carry it, but your storage ring definitely can't hold a container ..."

"This ..." Luo Qingfeng could not help but freeze.

Xia ruofei chuckled. "Don't worry. Since I've proposed this plan, I've naturally prepared a storage treasure. You just need to accompany me!"

The secret of the spirit map space could not be revealed to Li Yifu. Even if it was Luo Qingfeng and the other soul slaves, Xia ruofei did not want to let them know unless he had used the spirit map space to subdue Liu chengfeng. However, it didn't matter if they knew that he only had a storage treasure.

Everyone, including Li Yifu, knew that Xia ruofei was the personal disciple of immortal mountain river. Wasn't it normal for such a senior expert to leave behind a large – Capacity storage magical treasure?

After listening to Xia ruofei's words, the pressure on Luo Qingfeng disappeared. Li Yifu also heaved a sigh of relief. He quickly stood up and said, "Since martial granduncle has already made preparations, then this disciple can rest assured! Martial granduncle, if there are no other instructions, this disciple will take his leave first!"

Xia ruofei knew that Li Yifu must be in a hurry to contact the people Mexico, so he nodded with a smile and said, "You go! I'll be away for a few days, so I'll have to trouble you with all the affairs on the Peach Blossom Island. Oh, and also, please take good care of Weiwei and Qingxue. "

"Please rest assured, martial granduncle!" Li Yifu said quickly. Then, he bowed slightly to Xia ruofei and left the room.

The shock in Luo Qingfeng's heart did not dissipate. He lowered his head and said to Xia ruofei, "Master, you're the most talented cultivator I've ever seen! To be able to convert true Qi into Yuan Qi and construct a Yuan Qi Whirlpool in just over twenty days is simply unheard of!"

Xia ruofei laughed. "Stop flattering me. I really do have some things I want to know from you!"

"Please speak, master!" Luo Qingfeng said quickly.

"Actually, it's also about the construction of the yuan Qi vortex." Xia ruofei said, "I heard from Zheng Yongshou that you went into closed – door cultivation for more than a year before you completed the breakthrough process?"

"Master," Luo Qingfeng said with a look of shame. "I'm not talented enough. I can't compare to a genius like you ..."

Xia ruofei waved his hand. "That's not what I wanted to ask. I mean ... Can the construction of the vital Qi vortex be done step by step? can it be completed slowly through grinding?"

"Don't you know, master?" Luo Qingfeng looked surprised and said, "as far as I know, most cultivators use this method to break through to the early stage of the Golden core realm. Very few people can do it overnight. At least, I have never heard of it."

Xia ruofei was very confused. "But when I was building the vital Qi vortex, I felt that my dantian was extremely empty. Once the vortex started to spin, it would absorb energy all the time. If I stop

cultivating, even the weak vital Qi in my muscles, bones, and meridians would be completely absorbed. How could I stand it?" And you've been in closed – door cultivation for more than a year ..."

Xia ruofei found it hard to imagine such a feeling, so he was also full of confusion. Could it be that the cultivation technique practiced by Luo Qingfeng and the others was not so overbearing, and the yuan Qi vortex would not have such a strong suction force?

Luo Qingfeng smiled bitterly and said, "The process is indeed very painful. Once you stop cultivating, the incomplete Yuan Qi vortex will continue to absorb the weak yuan Qi in your body. Once the yuan Qi is completely absorbed, even the energy in your muscles and bones will continue to be absorbed. In the year that this old servant has been in seclusion, I've basically been skin and bones like a skeleton. This old servant has been in seclusion for about a year and a half, but in reality, it has only taken me one year and three months to break through. I spent the remaining three months recovering ... I really can't show my face to anyone."

Qingfeng Luo paused for a moment and continued, "In addition, just as master said, I feel a strong sense of hunger in my dantian at all times. Even if I stop cultivating, I can't fall asleep. When I think back to what I experienced over the past year, it was like a nightmare!"

Chapter 2888 Flabbergasted (2)

Xia ruofei had just completed his breakthrough and naturally had a deep impression of that feeling. He nodded in agreement and said, "That hunger was really intense. I couldn't stand it even after a few hours. It's hard to imagine that you've been suffering for more than a year!"

"Master," Luo Qingfeng said with a bitter smile, "this old servant's breakthrough speed is actually quite fast. As far as I know, some cultivators take three to five years to break through to the early – Stage golden core realm! That was the real torture. However, all cultivators, as long as they're at the Golden core stage and above, will go through this process. It's rare for someone to complete a breakthrough in a few hours like master!"

"What caused you to drag this process out so long?" Xia ruofei asked.

"Master, this is caused by many factors," Qingfeng Luo said. "From an external perspective, continuous and rapid cultivation requires a large amount of resources. Many cultivators do not have that many resources at all, so they can only rely on the normal cultivation method of absorbing spirit energy to complete the formation of the vital Qi vortex. As for the cultivators themselves, even if they had enough resources, the process of building a vital Qi vortex was relatively long. Basically, no one could maintain a high – speed cultivation state continuously. They had to stop to adjust and rest. Of course ... If it's someone like you, master, who completed the construction of the vital Qi vortex in a few hours, then there won't be such a problem. This old servant feels that it should be because of the difference in cultivation techniques. Master's cultivation technique must be of a very high grade."

Luo Qingfeng's explanation was simple and easy to understand. Xia ruofei nodded and said, "I understand now. For most cultivators, it's not that they don't want to, but that they can't do it. So, they can only endure the constant hunger and the pressure of the vortex on their body functions."

Luo Qingfeng smiled wryly and thought to himself, 'you just found out ...'

However, he naturally wouldn't show it. He only nodded respectfully and said, "Yes, Master. This is what most Aurous core stage cultivators experience when they break through."

Xia ruofei nodded and said, "let's go!" I'm going to say hello to my friend, then we'll get ready to leave!"

Luo Qingfeng saw Xia ruofei walking towards the door. He opened his mouth, wanting to say something but stopped. Then, he quickly followed.

In fact, Luo Qingfeng wanted to tell Xia ruofei that although early – Stage golden core cultivators could ride a flying sword, they still needed to practice hard to master the technique of riding a flying sword after just breaking through.

After all, sword Kinesis flight was a relatively high – Level use of vital Qi, and it also needed to be used in conjunction with mental power. Whether it was vital Qi cultivation or mental power cultivation, it would have a great impact on the user. Even if the conditions were met, the technique of sword Kinesis flight was not so easy to master. The balance of flying in the air needed even more constant practice to gradually become proficient.

Many cultivators in the early jiedan stage were very careful when they first learned how to ride a flying sword. Their flying posture was also crooked and they looked very embarrassed.

After all, this was the true meaning of humans not relying on mechanical means to fly directly into the sky. Since ancient times, humans had not been able to fly like birds. Human genes had a natural fear of the sky and an instinctive fear of flying off the ground. All of these had to be overcome.

Only after mastering it would the instinctive fear gradually disappear. Then, cultivators in the Golden core stage and higher cultivation could take flying on a sword as a common meal, and it was the most convenient and efficient way of travel.

Luo Qingfeng felt that Xia ruofei had just broken through to the early – Stage golden elixir realm, and he wanted to try sword Kinesis flight over such a long distance. Furthermore, he spent most of his time flying on the sea. One could imagine the difficulty and psychological pressure he would face.

However, when he thought about how Xia ruofei was able to complete the construction of the vital Qi vortex in a few hours, he realized that he could not be judged by common sense. Hence, he hesitated for a while and did not say anything.

Xia ruofei told Ling Qingxue and Song Wei. Then, without waiting for Li Yifu to send him the address, he left the Yanhuang building with Luo Qingfeng.

The two of them headed straight for the core of the formation on the west side of the island. With Xia ruofei leading the way, they were naturally unobstructed. No formation would affect them.

Luo Qingfeng had a deep impression of the cement room at the core of the array. Back then, he had been defeated by Xia ruofei, who had not broken through the bottleneck of the Qi refinement stage, with the help of the array. He had even been taken in as a soul slave by Xia ruofei.

Furthermore, Xia ruofei had used that battle to break through the bottleneck of the Qi refining stage, which laid the foundation for him to break through to the beginning stage of the Golden elixir realm.

Luo Qingfeng could not help but feel a little emotional when he saw the cement room that contained the core of the array again. However, he did not have any resentment towards Xia ruofei. Other than the use of the soul seal, Xia ruofei had treated the soul slaves well. He did not really treat them as chess pieces that could be sacrificed at will and at his beck and call. He even gave them basic dignity, which made him feel deeply grateful.

Xia ruofei pointed at the empty space in front of the cement house and said to Luo Qingfeng, ""Qingfeng, this place has the highest concentration of spirit Qi on the entire Island. You continue to meditate and regulate your breath here, and try to recover all of your vitality. Our journey today is still very long, so we should take advantage of the fact that the spirit Qi here is denser than the outside world and absorb as much as possible!"

Chapter 2889 Flabbergasted (3)

"Yes! Master!" "Yes!" Qingfeng Luo said respectfully.

Then, he couldn't help but ask curiously, ""Master, you ..."

Xia ruofei smiled and said, "I have to practice sword Kinesis flight first!" He didn't try it after his breakthrough yesterday. He couldn't just fly right away! Wouldn't it be so embarrassing if you fell into the sea?"

Luo Qingfeng was dumbfounded. After a while, he asked, ""Master ... You haven't tried to ride a flying sword after your breakthrough?"

Generally speaking, when a cultivator broke through to the Golden core stage, they could not wait to try flying on a sword. After all, flying had been the dream of all humans since ancient times, including Luo Qingfeng. After he had completed the construction of the vital Qi vortex, he was still a skeleton. He could not wait to sneak out of his closed – door cultivation and began to learn how to fly on a sword like a child who had just gotten a new toy.

Luo Qingfeng thought that Xia ruofei must have tried it after his breakthrough last night. Otherwise, why would he fly so far today just to get a batch of supplies from the secular world?

Xia ruofei shrugged. "I went back to rest after breaking through last night. I was busy this morning too. I didn't have the time to try it out!"

Luo Qingfeng could not help but be speechless. He thought to himself, isn't master's heart too big?

He thought for a moment and said tactfully, "master, you should get familiar with the operation of sword Kinesis flight first. If it really doesn't work, we'll delay our departure for a few days."

In Luo Qingfeng's opinion, it was already a genius to be able to master the technique of sword Kinesis flight in a few days.

Xia ruofei smiled. "Thank you for your reminder. I'll give it a try. If it's too difficult to master, we'll delay the departure time."

Qingfeng Luo was secretly relieved. It seemed that master was not a stubborn person. Look, master was very good at sword Kinesis flight!

With a thought, Xia ruofei took out the blue traveling immortal sword that had been nurtured in his dantian.

The blue immortal sword was like a nimble fish, dancing nimbly around Xia ruofei. This flying sword had been nurtured for a long time and was now very compatible with Xia ruofei. He could control it as if it was his own arm.

Luo Qingfeng was not in the mood to cultivate and regulate his breathing. He stared at Xia ruofei without blinking.

Luo Qingfeng had witnessed the power of this flying sword long ago and had a deep impression of it. At that time, Xia ruofei had just broken through the bottleneck of the Qi refinement stage and had used the power of the array to kill Luo Qingfeng with this flying sword.

Now that Xia ruofei was already in the early – Stage golden core realm and was going to try sword Kinesis flight for the first time, Luo Qingfeng naturally did not want to miss any details.

In the second level of the great Dao Arts, in addition to the cultivation method, there were also various techniques that matched the various stages of the Golden core stage, including the construction of the vital Qi vortex. At the same time, it naturally also contained the very important skill of the Golden core stage, sword riding flight.

The sword control technique recorded in the second level of the “great Dao Arts” was naturally unique. In fact, every cultivator’s sword control technique was different. Because the level of exquisiteness of the technique was different, everyone’s speed and energy transformation efficiency when controlling the sword were different.

Xia ruofei silently reviewed the sword control technique recorded in the “great Dao Arts”, then confidently released his spiritual power to explore the Blue immortal sword ...

Chapter 2890 You don’t understand the world of geniuses_

You don’t understand the world of geniuses

The blue travel immortal sword trembled slightly and obediently floated half a foot above the ground.

Xia ruofei did not hesitate. He leaped up and landed on the blue immortal sword deftly. At the same time, he poured his vital Qi into the flying sword and combined it with the blue immortal sword through a special technique. Instantly, a net – like vital Qi structure was formed on the body of the blue immortal sword.

With the help of this special net of vital Qi, the blue travel immortal sword only sank slightly and immediately stabilized.

Xia ruofei was like a child who had come into contact with a remote – controlled toy for the first time. With a trace of curiosity and exploration, he stepped on the blue travel immortal sword and felt it. He found that it was quite stable standing on it. It was actually in a state of floating half a foot above the ground, but he did not feel shaky. Although it was slightly different from stepping on the ground, it was not as unstable as he had imagined.

Besides, Xia ruofei also realized that as long as he used the sword control technique, the vital Qi web could change its range at will and even extend upwards to include himself.

Xia ruofei knew that it would be useful when flying at high speed. Otherwise, it would be very difficult to ride a flying sword in such a strong high – altitude wind. There was no comfort to speak of.

Luo Qingfeng had been watching from the side for a long time. When he saw that Xia ruofei had not moved after stepping on the flying sword, he thought that he was afraid!

This was also very normal. When cultivators in the early jiedan stage tried to ride a flying sword for the first time, many people were trembling with fear. This was because the vast majority of jiedan stage cultivators had not experienced the highly developed era of Science and Technology and had no experience of flying in the sky at all. Even if they had a Qingfu technique, it was a completely different thing from flying.

However, Xia ruofei was different. It was very common for modern people to travel by plane. Moreover, Xia ruofei had undergone strict training in the Army. There were even plane landing and parachute landing courses in the Special Forces. They were all high altitude courses, so Xia ruofei did not have a fear of heights.

He decided to try it out for the first time after feeling the feeling of flying in the air.

Xia ruofei silently circulated the sword – controlling technique and poured vital Qi into the blue immortal sword. The vital Qi He poured in traveled through the previously formed vital Qi net and was constantly accelerated. Finally, it spurted out at the end of the flying sword. Under the effect of this force, the blue immortal sword immediately moved forward smoothly.

Xia ruofei realized that the principle of sword Kinesis flight was similar to that of a rocket. They both used a backward force to push the flying sword forward.

The only difference was that sword Kinesis flight actually didn't consume much energy. A wisp of his vital Qi, after being accelerated by a special technique, could give the flying sword a very strong kinetic energy. Besides, Xia ruofei could clearly feel that the sword Kinesis flight was very agile. Just by slightly changing the direction of the vital Qi jet, he could easily control the flying sword under his feet to rise, fall, turn, and so on.

In the beginning, Xia ruofei was only controlling the blue travel immortal sword to move it parallel to the ground at a height of half a foot. Although he had already familiarly memorized the sword control technique, this was his first time actually controlling it. However, after a short period of familiarization, Xia ruofei felt that he could control the flying sword more proficiently, so he began to try some more complicated movements.

Under the effect of the vital Qi net, his feet seemed to be stuck to the flying sword. Under his control, the blue travel immortal sword began to rise in the air, then turned and descended ...

Luo Qingfeng's eyes widened when he saw that Xia ruofei was getting more and more skilled in the control.

Was this really his first time controlling a flying sword? Why wasn't there any delay? Other than the time when Xia ruofei was standing on the flying sword in a daze, no one could tell that he was a newbie who was controlling a flying sword for the first time in his life.

In a short while, Xia ruofei had already controlled the flying sword to fly around the area several times, and its speed was getting faster and faster.

Xia ruofei was no longer satisfied with the simple controls. He smiled and released the vital Qi under his feet. The blue immortal sword suddenly made a sharp turn at a height of more than ten meters from the ground. Then, it shot straight into the sky. As it ascended rapidly, it flew above the sea outside the cliff.

The speed of Xia ruofei's flying sword suddenly increased, and he suddenly made a difficult move, which shocked Luo Qingfeng. He subconsciously thought that Xia ruofei was unfamiliar with the control and had caused the flying sword to lose control.

"Ah!" Luo Qingfeng could not help but scream and quickly chased after him.

The next moment, Qingfeng Luo, who was standing at the edge of the cliff, opened his mouth wide. He did not even notice the fishy smell of the sea wind that was pouring into his mouth.

In front of him, the sword light danced. Xia ruofei controlled the blue travel immortal sword to ascend at high speed for a while and then dive down at high speed. He would also change directions suddenly at an extremely fast speed from time to time.

Xia ruofei was trying to control the flying sword to perform some of the stunts that he knew. What was the Cobra maneuver? what was the falling leaves? he treated himself and the flying sword as a stunt plane and flew out easily. He was having a lot of fun.

It took Luo Qingfeng a while to come back to his senses. He could not help but smile bitterly. Indeed, geniuses could not be measured by common sense. His master was clearly a rare genius. Even Luo Qingfeng himself might not be able to perform these frightening flight controls proficiently. However, Xia ruofei had easily achieved it on his first day of sword Kinesis flight. Wasn't this infuriating?
