

Chapter 291: Wu De is dumbfounded_1

"Increase the speed!" Du Xiaohai ordered, burning with anxiety. "Yes!" Said the policeman who was driving. He immediately sped up. The director of the Public Security Bureau also quickly informed the cars behind them to speed up through the walkie – talkie. The speed of the convoy suddenly increased as they drove toward yangdun town at lightning speed. On Xia ruofei's side, he and Xu Wu held their guns and looked coldly at the hooligans in front of them who kept quiet out of fear. Wu De covered the wound on his calf with his hand. His eyes revealed an extremely vicious look as he cursed in his heart, "You can continue to be arrogant! When the police arrive, you won't even have time to cry! It was a great irony for an old gangster who used to be a fighter to hope that the police would appear soon. It was as if the heavens had heard Wu De's wish. Soon, the shrill sound of police sirens came from far away. Police cars rushed into the old Street of yangdun town. Wu De's eyes immediately lit up. He revealed a somewhat crazy smile and shouted, ""Hahaha! The police are here! You can't run away! Just wait to be imprisoned and shot!" Seeing Wu De's reaction, Xu Wu asked, somewhat baffled, ""Ruofei, is there something wrong with this grandson? He's still so happy when the police are here?" Xia ruofei naturally knew what Wu De was planning, so he smiled and said, ""Who knows! Maybe his brain was damaged! Xu Can, do you think we should give him another shot before the police arrive? I think we should just let him be completely free! It's a pain for a mental patient like him to live! Let's be merciful and help him!" Wu De was so frightened that he shouted, "no!" Don't shoot ... You guys, come and protect me!" When the Men in Black beside Wu De heard this, they were shocked and subconsciously dodged to the side. Xia ruofei's shot had pierced through the crowd and hit Wu De directly. Those Men in Black were still afraid! If it had been slightly off – Target, they would have been the ones lying on the ground. When Wu De saw the performance of his underlings, he was even more furious. He thought ruthlessly in his heart that if nothing happened this time, he must teach these blind things a good lesson when he returned. In just a short while, the police car had already rushed to the side of the shop. Wu De looked as if he had seen his own mother who had not been seen for many years. He shouted with tears and snot, ""Police! Help me! Help me!" More than half of the city's police force had already been gathered. The police quickly surrounded them as soon as they got out of the car. Each of them was armed, and the police officers at the front were all wearing bulletproof vests, looking very nervous. In Wu De's opinion, this was very normal. He urged his underling to call the police and said that there were armed thugs here, and they had shot and injured people. In response to such an emergency, the police would definitely be on guard. However, when Wu De saw a group of armed police jumping out of a few military trucks behind the police cars, he could not help but be stunned. There were dozens of armed police, and the soldiers were all equipped with Type 95 automatic rifles. They gathered in front of the truck and quickly began to divide and surround the crowd. Wu De's mouth was wide open. He thought to himself, this is too big of a commotion! Did the person who picked up the call hear it wrong? There was only one armed thug here! Even if they included the one with the gun, there were only two of them! Why are there so many armed police here! They've mobilized all the armed police in the city, right? Could it be that these two people were extremely dangerous terrorists? The more Wu De thought about it, the more he felt that it was possible. When Xia ruofei had fired the shot, his indifference to life and the monstrous murderous intent made him tremble. When the armed police saw that Xia ruofei and Xu Wu were holding guns, they became nervous. With a clatter, they loaded the bullets and aimed their guns at Xia ruofei and Xu Wu. "Don't move! Put down your gun!" The armed police soldier shouted.

Seeing this, Wu De was very excited and shouted, "Police comrade, it's them! They were the ones who injured people with guns! The one in black said that he had taken several lives! It must be a wanted order ..." Before Wu De could finish his sentence, a cold muzzle was pointed at his head. An armed police soldier shouted, "Put your hands behind your head and don't move!" Wu De was so scared that his whole body trembled. He quickly and obediently covered his head with his hands and explained, "Comrade, we are the victims! We were the ones who called the police ..." "Shut up!" The armed police soldier glared and said. Wu De quickly shut his mouth. Xia ruofei and Xu Wu cooperated and lowered their guns, then slowly put them on the ground. They knew that the police and armed police must have rushed over after manager Lu informed the local government. Wu De, a local snake, might have some friendship with some basic police, but it was absolutely impossible to call so many armed police and armed police. Not to mention Wu De, even some of the local officials with real power could not do it. In particular, the use of the Armed Police Force must have been an emergency order issued by the higher – ups, and then the local leaders directly coordinated it to be possible. Hence, Xia ruofei and Xu Wu put down their guns without worry. "Brothers of the armed police, those are the ones who attacked the Bureau chief. We are the Bureau Chief's staff ..." Xia ruofei said in a relaxed tone. "Do you have any identification?" An armed police officer asked. In fact, when he saw that the two of them were using standard equipment, he had already believed 70 – 80% of Xia ruofei's words. However, this was an important matter and he did not dare to relax. "Of course I do!" Xia ruofei smiled and said, "Xu Can, show him your identification!" Xu Wu nodded and then said, "Brothers, I'm going to show you my ID NOW. Don't be nervous ..." He was really worried that when he took out his id, the new recruit from the armed police would think that he was taking out a weapon and his hand would shake in nervousness, causing the gun to go off. That would be a tragedy for him. So Xu Wu told them in advance, then slowly put his hand down and put it into the inner pocket of his clothes. Then, he slowly pulled out his military ID. When the officer saw that Xu Wu took out a red document, he was slightly relieved. He came forward to take Xu Wu's officer's card and opened it to check carefully. Then, he closed the ID and saluted Xu Wu, saying, "Good day, chief!" Xu Wu's rank was major, which was higher than the captain and instructor of their armed police Squadron. He was worthy of being called "chief." The armed police officer motioned for the soldiers to lower their guns and said, "Please wait a moment, chief. I still need to report to my superiors!" "I understand. Go!" Xu Wu nodded slightly. At this time, du Xiaohai, the Secretary of the municipal government, also came over, accompanied by the director of the Public Security Bureau and Zhang of the armed police. The sergeant ran over and saluted, then handed Xu Wu's officer id to du Xiaohai and said, "Reporting to the Secretary, the two people over there claim to be staff members of a certain chief. This is one of their identification documents!" Du Xiaohai raised his eyebrows, took the officer's id, and opened it. When he saw the words "guard Bureau" on it, he quickly said, "Let's go!" Du Xiaohai and the others quickly walked to Xia ruofei and Xu Wu. The captain of the armed police waved his hand, signaling the armed police who were still on guard around Xia ruofei and Xu Wu to withdraw. Du Xiaohai walked straight to Xu Wu and returned the military officer's certificate to him. Then, du Xiaohai asked nervously, "Major Xu, I'm the Secretary of the Wuyishan city's Municipal Committee. Is the chief alright?"

Chapter 292: Clear (1)

Xu Wu had arrived later and did not know much about the situation, so he turned to look at Xia ruofei. "The Bureau chief is very safe ..." Xia ruofei said calmly. Upon hearing these words, du Xiaohai suddenly heaved a long sigh of relief. Since he received the call from the leader of the Songping Municipal Party

Committee, du Xiaohai had been in a state of high tension. Now, he had suddenly relaxed. This Deputy Department Director level cadre who had seen many big scenes actually felt like he was about to collapse. "That's good, that's good ..." Du Xiaohai said. Xia ruofei's expression was cold. He frowned and said, "Secretary du, I think the most important thing now is to catch all these thugs! Du Xiaohai couldn't help but shiver and quickly said, "Yes! We'll definitely punish him severely!" After saying that, du Xiaohai turned around and ordered, "Director Guo, Captain Xiang Zhong, immediately order our comrades to arrest all these thugs! If any of you escape, I'll hold you guys responsible!" "Yes!" "Yes!" The director of the Public Security Bureau and the captain of the armed police responded at the same time. Then, they saluted Xia ruofei and Xu Wu and immediately went to command the police to arrest all the hooligans who were under the control of the police and armed police. Wu De had been in WYS city for so many years and was now considered to have some status. Naturally, he could recognize du Xiaohai at a glance. Wu De saw that du Xiaohai was so polite to the two young men with guns, even with a trace of respect, and they repeatedly mentioned the "chief" in their conversation. How could he not know that he had caused a big disaster this time? The armed police behind him clipped his hands behind his back and handcuffed them. The cold handcuffs made Wu De quiver. He also recovered from his daze and quickly shouted, "Big Brothers, I ... I didn't intend to besiege the chief! I didn't ... Didn't know that the Bureau chief was there ... I'm being wronged ..." Xia ruofei strode over and looked at Wu De coldly, saying, "It doesn't matter if you know it or not. The truth is that you led more than a hundred people in an attempt to attack the country's leaders. Don't be too arrogant. If you walk at night too much, you'll eventually meet a ghost! Of course, the prerequisite is that you can save your dog life this time ..." How could Wu De still have the prestige of a local tyrant at this time? "Big brother, I was wrong!" He cried bitterly. I really don't know ..." At this moment, Wu De's intestines were really green with regret. If he could turn back time, he would never choose to threaten and tempt Li Zhifu. He wouldn't even open a tea factory at all. He already had enough money. Even if he didn't do anything, it was enough to live a carefree life. But now, it was too late to say anything. Because of his arrogance, he had fallen into the abyss of eternal damnation. Xia ruofei looked at Wu De coldly and turned around to leave. Du Xiaohai's eyes were about to spew fire as he said loudly, "Handcuff them all and take them away!" Du Xiaohai hated these hooligans to death. Perhaps because of today's incident, his position as the Secretary was over. Du Xiaohai was only in his forties this year. He was considered very young among the Deputy department directors. He was also the youngest member of the Standing Committee of the Songping Municipal Party Committee. It could be said that he had a bright future and was a rising star in politics. However, because of the stupid behavior of these hooligans, this new political star was likely to fall. The armed police soldiers and police officers handcuffed all the gangsters in an orderly manner. Under the watch of the armed police with Type 95 automatic rifles, these little punks were all very well – behaved, not daring to even breathe loudly. They all obediently allowed themselves to be captured. "Comrade, may I ask where the chief is now?" du Xiaohai asked carefully. Can we meet the Chief? I have to personally reflect on what happened today to the Bureau chief ..." "Secretary du, please wait for a moment. I'll go ask for instructions," Xia ruofei said calmly. "Alright, alright, sorry for the trouble!" Du Xiaohai quickly said. Xia ruofei nodded slightly and turned to walk towards the door of the shop. He didn't have a good impression of du Xiaohai. As the head of the local government, du Xiaohai had managed his jurisdiction so badly. First of all, he was not a competent Secretary. Even if du Xiaohai had no direct relationship with Wu De, the Secretary would always be the first person responsible. As long as there were any problems in the jurisdiction area, the Secretary must take the leadership responsibility. Xia ruofei left du Xiaohai behind and walked to the door of the shop. He opened the small door on the rolled – up curtain

and bent down to get into the shop. He closed the door as soon as he entered, blocking du Xiaohai's uneasy and inquiring gaze. "Little Xia, what's the situation outside? Why do I hear gunshots?" Eccentric song asked calmly. "The situation is under control." Xia ruofei said, "the local government has sent out police officers and armed police to arrest all the hooligans and ruffians who were causing trouble!" Then, Xia ruofei continued, "chief, I was the one who fired the gun just now. There were more than a hundred people surrounding the shop and someone was even smashing the door. I had no choice but to fire the gun to establish my authority. Otherwise, the situation would have gotten out of control and this place would have been in danger." "You did the right thing!" Elder song smiled and nodded. Little Xia, are there any casualties?" "I shot down two of those hooligans." Xia ruofei said, "the others are fine." Elder song looked at Xia ruofei approvingly and nodded. Xia ruofei then asked for further instructions. "Chief, du Xiaohai, the Secretary of the municipal government of WYS city, is outside with the comrades from the Public Security Bureau and the armed police Squadron. Do you ... Want to meet them?" Elder song pondered for a moment and turned to manager Lu. "Xiao Lu, did the southeast province send someone down as well?" "Chief," manager Lu replied immediately. "According to the feedback from the general office of the southeast Provincial Party Committee, the team is led by the southeast Provincial Party Committee's political and legal secretary, comrade Lei Yong. He's on his way to Mount Wuyi along with related comrades from the provincial political and legal Committee and the provincial Public Security Department. In addition, the main leaders of the Songping Municipal Party Committee are also on their way to Mount Wuyi." Elder song nodded and said to Xia ruofei, "Little Xia, I won't be meeting the leaders of the local party Committee and government for the time being. Let's go back to the hotel after we're done dealing with the matters outside. Otherwise, when comrade Lei Yong arrives later, we'll have to meet him again." Elder song had originally been afraid of trouble, so he had hidden from everyone and come to visit in plain clothes. But after today's incident, everyone in the southeast province's officialdom knew that he had come to Mount Wu Yi. It was no longer possible to ask for a "plain clothes". The Secretary of the political and legal Committee of the Provincial Party Committee had come from the provincial city 300 to 400 kilometers away in person. It was reasonable for elder song to meet him, so he thought that they might as well just be together. It must be known that the leaders of all levels set off as soon as they received the news, which meant that their arrival time was different. If elder song met du Xiaohai now, he would have to meet him again when the main leaders of the Songping Municipal Party Committee arrived later. He would have to meet him again when Lei Yong led his team to Mount Wuyi. This was too troublesome. Xia ruofei immediately replied, "understood!" Chief, I'll go out first. Please rest here for a while. We can return to the hotel after the area outside is cleared. " "Mm! Little Xia, you've worked hard. " Eccentric song said with a smile. Xia ruofei opened the door again and du Xiaohai quickly went up to him, looking at Xia ruofei with hope in his eyes. "Secretary du, I've asked the chief," Xia ruofei said indifferently. The chief has instructed you to focus on dealing with the aftermath here first. When Secretary Lei of the Provincial Party Committee of political and legal arrives, he will meet you all. " Hearing this, du Xiaohai's face suddenly turned pale, and he seemed to have lost his soul.

Chapter 293: The leading figure in the tea – making industry (1)

Du Xiaohai still had a glimmer of hope, but elder song didn't meet him, so his hope was shattered. With such a big incident happening in his jurisdiction, he felt that he had really come to an end as the Secretary. Xia ruofei frowned slightly and looked at the dazed du Xiaohai. He couldn't help but say, "Secretary du, you ... You should take care of the aftermath here first! The Bureau chief is still

waiting to return to the hotel after this place is cleared!" Du Xiaohai suddenly came back to his senses and quickly said, "Alright, alright ..." The situation had already come to this. Du Xiaohai also realized that all he could do was to deal with the aftermath as beautifully as possible. As for the rest, he could only do his best and leave it to fate. At this moment, the back door of the shop opened again. Manager Lu walked out and asked, "Which one of you is the leader of WYS city?" Du Xiaohai shivered and quickly said, "Hello! I'm du Xiaohai, the Secretary of the WYS city government!" Manager Lu nodded slightly. "Hello, Secretary du. My surname is Lu. I'm the chief's secretary." Du Xiaohai quickly came forward and slightly bowed, "So it's manager Lu, Hello!" The personal secretary of a bureau chief like elder song was at least at the level of a department head. Du Xiaohai looked at manager Lu's age and knew that manager Lu was probably a vice – Minister leader. Moreover, manager Lu was an employee of elder song, so du Xiaohai had to lower his attitude. "Secretary du," manager Lu said, "the Bureau chief asked me to pass you a message. He asks you not to feel too much pressure. Just focus on your current work." Du Xiaohai suddenly felt refreshed, as if he had just drunk iced sour plum soup in the hot summer. He said with a happy expression, "Yes! Thank you for your concern, chief. Please tell the chief that I will definitely deal with the aftermath and ensure that these rioters will be severely punished! I'll definitely tighten security management in the future to ensure that the city's atmosphere is clean and positive!" "Okay, Secretary du, I won't disturb you anymore!" Manager Lu said indifferently. Xia ruofei watched from the side and sighed in his heart. It seemed that elder song still couldn't bear it! With Xia ruofei's temper, he would never let it go so easily. However, since elder song had made the decision, Xia ruofei would not question Jian Jia. It was none of his business anyway. Du Xiaohai was full of energy again, and the work efficiency here was much higher. It didn't take long for more than a hundred ruffians to be handcuffed and escorted to military trucks. Each truck was guarded by more than a dozen armed police officers with live ammunition. The rest of the armed police gathered on the street and prepared to rush back to the city on foot. It was only a dozen kilometers from the city. For these armed police soldiers, it was just a very easy training. The police officers also got into the car. Du Xiaohai came over to report to manager Lu, Xia ruofei, and the others, then they got into the car and left. Du Xiaohai still had a lot of work to do. He had to personally monitor the follow – up interrogations of these people. In addition, there was another urgent matter, which was to rectify the social atmosphere. A city – wide operation to crack down on the underworld and evil would soon be fully launched, and he, as the Secretary, would need to take charge of all these. The town's old Street regained its peace. Only the neighbors in the neighborhood were still secretly watching from not far away. The big commotion that Gong Jie had caused today was already known to everyone in this small town. It could be predicted that in the future, all kinds of rumors about Niu Yusheng's electrical appliance repair shop would be popular in the small town. Xia ruofei and the others also returned to the shop. After elder song knew that the crowd had been cleared, he smiled and said to li Zhifu, "Brother Fu, I didn't expect to cause such a big commotion just by coming to see you ..." "It's all because of me!" Li Zhifu sighed. It's a good thing you're fine, little song. Otherwise, I'd be in deep trouble!" "Brother Fu, what are you saying?" Elder song said, "you should have told me about this in advance. If it wasn't for this today, I wouldn't have known that you were injured because of the threats and harassment of those hooligans!" At this point, eccentric song's expression turned stern. "Some people in the local area are really lawless and too arrogant! He must be severely punished!" Song Rui asked curiously, "Grandpa Li, I heard that the reason why those people threatened and bribed you was to ask you to be the technical advisor of their tea factory. Putting aside their character, this is actually a good thing! Why don't you agree to leave the mountain?" "I haven't made tea for anyone for more than ten years, except for the tea I drink myself ..."

Li Zhifu shook his head. Then, li Zhifu explained the reason why he didn't want to show his face in public. It turned out that the market for tea leaves had been on the rise in recent years. Some local tea farmers didn't pay much attention to their business, and it was very common for them to set prices at random. Some people asked li Zhifu to make a move once, and then they dared to announce that their tea factory had hired a master tea master, li Zhifu, and that all the high – end tea leaves were made by him. In fact, the quality of the tea leaves sold by these people varied. They could sell them at a sky – High price under li Zhifu's name, but in the end, it would damage li Zhifu's reputation. After this happened two or three times, li Zhifu, who had always paid attention to his reputation, directly announced to the public that he would quit the tea – making industry and would no longer make tea for any tea factory. Li Zhifu didn't care about material enjoyment. He valued the inheritance of tea culture more, but he regarded tea as his love. Therefore, over the years, there were many people who offered him attractive high salaries, but he firmly refused all of them. Until this time, Wu De had also set his eyes on li Zhifu's golden signboard and wanted to invite li Zhifu to come out of retirement. Li Zhifu still refused with a very firm attitude. He simply disdained Wu De's offer of a hundred thousand annual salary, accommodation, car, and other favorable treatment. It was just that he didn't expect that Wu De was not a proper businessman. Once the soft temptation failed to achieve his goal, he began to use the threatening method. In the end, the matter was finally blown up and out of control. After hearing li Zhifu's words, Xia ruofei and the others looked at him with admiration. This old man who was nearly a hundred years old could be said to be the leading figure in the tea making industry, but he still adhered to his professional ethics. Everyone sincerely admired him. "Brother Fu, you're still the same old brother Fu who couldn't stand a grain of sand in your eyes!" Elder song sighed. It's been so many years, and you haven't changed at all!" "Hehe, I can't change my bad temper for the rest of my life!" Li Zhifu said with a smile. "Brother Fu, I'm going back to the hotel now." Elder song stood up and said, "why don't you come to the hotel with me? There are several rooms in my suite, so we can have a good chat tonight. " Li Zhifu shook his head and said, "little song, such a big thing happened today. So many leaders are coming. You must have a lot of things to deal with. I won't go and join in the fun. If you haven't left Mount Wu Yi by tomorrow, I will go to the hotel to see you!" "That's fine!" Elder song smiled. Brother Fu, you should rest early today. " After he finished speaking, elder song also bade farewell to Niu Yusheng and Li Guizhi before walking out. As soon as they stepped out, Huang Fang and the others protected elder song tightly. After what had happened just now, Huang Fang was still very afraid, and now he was even more cautious. Before elder song got into the car, he saw that li Zhifu had also come out with Niu Yusheng and his wife to send him off. He quickly said, "Brother Fu, you don't have to see me out. It's windy outside, go in quickly!" "I'm fine, I'm fine!" Li Zhifu said with a smile. Li Zhifu couldn't help frowning as he said that. He pressed his hand on his stomach, and his face turned pale. "What's wrong, brother Fu?" elder song asked. Li Zhifu's expression quickly returned to normal as he said, "It's okay. Recently, my stomach hurts sometimes, but it's only for a while. I'll be fine after that!" Elder song looked at li Zhifu and found that he was indeed fine, so he said, "Alright, brother Fu, I'll take my leave first. If you're not feeling well, you should go for a checkup as soon as possible. After all, you're already so old, and you can't take any problems with your body lightly. " "I know, hurry up and get in the car!" Li Zhifu said. Elder song then got into the car. Xia ruofei and the others also got in the car. Li Zhifu's family stood at the door and waved goodbye to them. The three cars started up slowly and left the electrical repair shop, heading towards the city. "Xiao Lu," elder song said calmly in the car, "when we reach the hotel later, there's something you need to do first. Call the relevant leaders in WYS city and ask them to arrange for the best doctor to do a full physical examination for brother Fu!"

Chapter 294:

When they returned to the hotel, the security level had been raised a lot. The floor where elder song was staying was also cordoned off. Elder song's schedule was no longer confidential, so director Lu didn't hide the hotel where elder song was staying from the southeast province. Before everyone returned to the hotel, the local police and armed police had already implemented the highest level of security measures. It was back to the familiar rhythm, no longer as leisurely as when he first arrived. Elder song felt a little helpless. They had not rested for the whole day. They took the train, went to xiakeng village to pay their respects, looked for li Zhifu ... And finally, they had experienced a farce played by ignorant and fearless local ruffians. Everyone felt a little tired. Eccentric song was an old man in his eighties, so he was naturally a little dispirited. Therefore, after returning to the hotel, everyone went back to their rooms to rest. Song Rui was staying in elder song's suite. The suite had a master bedroom and three secondary bedrooms. This arrangement made it easier for song Rui to take care of his grandfather. Xia ruofei and Xu Wu's rooms were on the left and right side of the suite. They returned to their own rooms. Now that the security level of the hotel had been raised to the level where national leaders stayed, Xia ruofei and the others could rest in peace. Only manager Lu was busy with the southeast province and Songping city's relevant leaders, who were still on their way to Wuyi Mountain. Elder song could take a rest and wait until tomorrow to meet the relevant leaders. After all, his rank was there, and he had encountered such a big incident today. In addition, he was already old, so no one would think that he was putting on airs. However, as elder song's Secretary, manager Lu had to meet with the relevant leaders today and report the situation to the southeast province authorities. Both sides had to exchange some opinions. After Xia ruofei returned to his room, he first used his mind to check to make sure that there were no problems with the animals and plants in the space. Then, he began to practice the first set of movements demonstrated by the little golden man in the stone tablet. This time, he had learned his lesson and did not practice on the bed. Xia ruofei was wearing long johns as he sat on the floor of the room. Opposite him, there was a clock on the wall where he could conveniently count the time. He was very familiar with that strange – looking pose. The familiar pain hit him again. He felt as if all the meridians in his body were burning. However, it was this pain that stimulated the activity of every cell in his body. Every part of his body was experiencing a Nirvana rebirth. Three minutes. Five minutes passed. Six minutes ... This time, Xia ruofei persisted for a full seven and a half minutes. It was two minutes longer than the time when he was practicing in Ling Qingxue's room. Of course, for the past week, Xia ruofei had been practicing diligently every day. The amount of time he could persist was gradually increasing and it was not achieved overnight. In the beginning, Xia ruofei could extend the time for each practice. However, as the number of practices increased, the improvement decreased. For example, today's practice was only ten seconds longer than yesterday's. However, Xia ruofei was clear that ten seconds on the basis of seven minutes and half a minute on the basis of five minutes were completely different. This action was undoubtedly more difficult the longer he persisted, and the more his body was trained. He had a faint feeling that if he continued to practice, he would soon reach a bottleneck. Perhaps when that time came, the time he could hold on would reach a limit, and he might not even be able to hold on for a second more. However, once he broke through this bottleneck, it might mean that he had completed the first set of movements. At that time, it was very likely that he would be able to come into contact with information about the second set of movements. Xia ruofei had always felt that the nine sets of movements were in his mind, but for some reason, the later ones were "blocked". Xia ruofei stood up and realized that the amount of impurities discharged from his body had decreased. Of course, he knew that this didn't mean that the effect of the

practice had decreased, because he knew his body best. Every time he finished practicing, he felt as light as a swallow, and the feeling of his body being filled with explosive power made him feel that he had improved. The fact that there were fewer impurities meant that his body had already been purified to a certain extent, close to the limit of what the first set of movements could purify. As soon as he got out of that weird position, the pain in his body would disappear without a trace. It would be replaced by a lazy and comfortable feeling, which made Xia ruofei feel addicted. He went to the bathroom to take a thorough shower. Then, he washed his long johns that were stained with black impurities and changed into clean pajamas. After Xia ruofei hung the clothes on the balcony, he gave Ling Qingxue a call. The two of them talked a lot of sweet nothings. Xia ruofei naughtily said that after returning from Wuyi Mountain, the two of them would have a good chat. Ling Qingxue could naturally understand what Xia ruofei meant and was extremely shy for a moment. After Xia ruofei returned to his room, he immediately went to bed and quickly fell into a deep sleep. That night, the leaders of the southeast province and Songping city rushed to Mount Wuyi. However, Xia ruofei had already gone to bed. Manager Lu was the one who received them. The next morning, after breakfast, elder song met with the southeast Provincial Party Committee's political and legal secretary, Lei Yong, and the others. This time, Xia ruofei was also present. When Lei Yong and the rest arrived, Xia ruofei was taking elder song's pulse. As soon as Lei Yong entered the room, he immediately reflected on his actions. Du Xiaohai, the Secretary of Songping city and the Secretary of Wuyi Mountain, came in with him. The others didn't even have the right to be met by elder song. Elder song had been very magnanimous about the fact that they had been attacked. He didn't say anything harsh, but he had made a clear request to punish those lawless ruffians. When it came to li Zhifu, elder song wasn't as calm. Elder song explained in detail what li Zhifu had encountered during this period of time, then said, "A 90 – year – old man who is also a master in tea making was threatened by a group of hooligans. I feel that the local government is not doing their job well! This isn't just a problem of Social Security, it also involves the inheritance of tea culture." Elder song took a sip of tea and continued, "It can be said that li Zhifu is definitely a representative of the rock tea of Wuyi Mountain. His unique tea – making skills are an extremely valuable intangible heritage. Such a person took the initiative to withdraw from the tea industry for as long as ten years because of the environment. Is there a phenomenon of inaction in our party Committee and government? Is there any chaos in our tea industry that needs to be dealt with? this is worth thinking about, comrades!" By the time elder song finished speaking, du Xiaohai's back was already drenched in cold sweat ...

Chapter 295: Nine Dragon carriage (1)

After elder song finished speaking, du Xiaohai immediately said sincerely, "Chief, your criticism is right! We must correct it immediately and start from grasping our work style. We will firmly play the two cards of tourism and tea culture. As for the chaos in some industries, we will immediately come up with effective measures to rectify it!" Although Lei Yong was the leader of the Provincial Party Committee, he was mainly in charge of Political and Legal Affairs. The purpose of his visit this time was only to deal with emergencies, so he didn't say much about the deeper problems raised by elder song. He only expressed his position on behalf of the Provincial Party Committee. Songping city's Secretary of the committee of judges also made a similar statement. After elder song heard this, he calmly nodded. "It's good that you have such an attitude. "Our party's cadres must calm their hearts and truly do practical and good things for the common people. Their views on achievements can not be biased, otherwise, the achievements they make will only be bright on the outside, but unbearable on the inside!" "Yes, chief. We will definitely remember your teachings!" Du Xiaohai said. The atmosphere eased up a lot after they were

done talking about business. Lei Yong and the others also heaved a sigh of relief. At this moment, du Xiaohai gathered his courage and reported, "Bureau chief, after the sudden interrogation last night, the crimes of Wu De and the rest are basically clear ..." After saying that, du Xiaohai handed over the report that he had personally written overnight. Elder song waved his hand. "I won't read the report. I believe that you will use the law as a guide and deal with this matter fairly and appropriately." "Yes! We will definitely follow the instructions of the Bureau chief and severely punish the people involved in the case!" Du Xiaohai said. Lei Yong also reported, "chief, our Provincial party's political and legal Committee and the provincial Public Security Department have also specially mobilized capable personnel to guide the trial of this case in Mount Wu Yi. In addition, I have also instructed the relevant leaders of the provincial Procuratorate and provincial High Court to guide the follow – up prosecution and trial work. We will definitely handle this case with irrefutable evidence." Elder song nodded slightly and said, "yes, a rigorous working attitude is good. We can't blindly be serious and fast just because this case involves me and my friends. Governing the country according to law must be implemented in every detail. Everything must be based on the law!" "I understand! Don't worry, we'll definitely carry out your instructions!" Lei Jun immediately said. He was also secretly glad that he had made sufficient preparations. He had also understood elder song's nature and characteristics in advance. He knew that elder song was an old general who hated evil as if it were his enemy and was full of righteousness. Therefore, he did not make any harsh words about how to punish him. Instead, he reported it from the perspective of procedural justice. The facts proved that this was exactly in line with elder song's philosophy. After talking about the case, du Xiaoyu said, "Chief, there are two things I need to ask you. The first is that our municipal government hopes to hire li Zhifu as a Senior Consultant for the tea culture industry in Wuyi Mountain. Regarding the tea of our city ..." "I don't think so." Elder song waved his hand. "Based on my understanding of li Zhifu, he won't agree to such an honorary position." Elder song continued, "if you really want li Zhifu to make full use of his talents, I suggest that he be a teacher." As far as I know, there's a tea – making major in your city's vocational school. Comrade Zhifu's tea – making skills have been passed down from generation to generation. If we can invite him to the school to give a lecture, it would be a very good inheritance. " "That's a good idea, chief!" Du Xiaohai was overjoyed. We can also choose a few students with better comprehension and let them follow Mr. Li Zhifu, just like a Master Teaching his disciples in the old society. At the same time, they can also take care of Mr. Li's daily life. It can be said to be killing two birds with one stone!" "That's a good idea," said eccentric song with a smile. However, it's hard to say whether comrade Zhifu will agree to it. I'll mention it to him. " "Thank you! Thank you, chief!" Du Xiaohai said excitedly. "You just said you have two things to ask. What else?" eccentric song asked with a faint smile. "Oh! Du Xiaohai hesitated for a moment and said, "chief, I was thinking ... Since you've come to our Wuyi Mountain, I'd like to invite you to inspect and guide us in our city, especially some of the iconic locations of the tea culture industry, such as the Jiulong Ridge ..." Xia ruofei, who had been silent all this while, could not help but ask, "Secretary du, is the nine Dragon carriage where the six Da Hong Pao parent trees are located?" When du Xiaohai asked for permission, he was worried that elder song would reject him. Now that Xia ruofei was suddenly very interested, du Xiaohai quickly nodded and said, "Yes, yes. The six most famous Da Hong Pao parent trees in WYS city are located in jiulongyao, West of Yongle Zen temple in the northeast of our city. The older generation of revolutionaries also had a lot of praise for the Da Hong Pao grown from the parent trees. Old chief Zhu even wrote poems for them." Elder song had almost blurted out his rejection. He didn't like welcoming and sending people off, especially after retirement. Every time they went to a place, the local officials would always ask the Chief to inspect and guide them. In comparison, he preferred to walk

around without being disturbed. This way, he could see more of the real situation. However, Master Song saw that Xia ruofei seemed to be very interested in the mother tree, Da Hong Pao. Du Xiaohai's story about master Zhu's poem also piqued his interest. He had been in the military for his entire life, so he was naturally full of respect for the highest commander in the Army. The place where the commander – in – chief had been to and praised the tea, he also had the idea of going to take a look. Seeing this, du Xiaohai quickly struck while the iron was hot. "Chief, we have an ecological tea plantation and a tea art school near Jiulong District. We would like to ask for your guidance." "I'm just a layman, what guidance can I give you?" elder song couldn't help but laugh. Du Xiaoyu smiled awkwardly and didn't dare to answer. Just when he thought elder song was going to refuse, elder song said, "Since you're here, there's no harm in taking a look. However, I can go and take a look, but you guys are not allowed to do anything ostentatious such as police cars clearing the way, road intersections sealing, scenic spots clearing, etc. You are not allowed to do anything! We can't disturb the residents, so let's go there quietly and not alarm the local people and tourists." "Yes!" Du Xiaohai said happily, "we'll definitely follow the chief's instructions!" Du Xiaohai then asked tentatively, "Bureau chief, then ... Do you think we should invite Mr. Li Zhifu? He's an expert in this area, and he can give us more guidance." "Forget it," elder song muttered, "comrade Zhifu hasn't been feeling well recently. Oh right, since we've come to this point, Secretary du, please personally arrange for a full body examination for comrade Zhifu at the best hospital in the city." "Alright, I'll get it done immediately!" Du Xiaohai quickly said. "Well, since we're going to the nine Dragon carriage, let's set off in the morning!" Said eccentric song with a nod. He looked at the people in the room and said, "There's no need for too many accompanying personnel. Don't make a big fuss. Xiao Lu will stay here and accompany comrade Zhifu to the hospital. Xiao Xia and Xiao Rui will accompany me. The rest of you will be on standby at the hotel." Then, elder song turned to Lei Yong and said kindly, "Secretary Lei, I think one of you three can be my guide. What do you think?" "No problem," Lei Yong quickly said, "then let little du go!" He's the Secretary here, so he's more familiar with all aspects. Secretary he and I will stay behind to deal with the case from yesterday." Secretary he was the Secretary of the song Ping City Committee. In fact, both Lei Yong and Secretary he wanted to show their faces to elder song, but since the Bureau chief had spoken, they naturally didn't dare to force their way in. After all, objectively speaking, du Xiaohai was the most suitable candidate. Du Xiaohai was overjoyed. He secretly decided that even if he had to give it his all, he would make elder song's trip to the nine Dragon carriage perfect and complete, to make up for the bad impression he had left in the leader's heart because of his previous failure. Thus, the group set off immediately. Before they left, Xu Wu, who had stayed at the hotel to write a report, even gave his gun to Xia ruofei. He was still worried about what had happened the day before. Although the local government leaders were with them this time, he was still a little worried. The car was still the Mercedes – Benz, which was a specially made bulletproof vehicle. No car in the city was as safe as this one. The chauffeur was a capable man specially selected by Huang Fang. Du Xiaohai sat in the front passenger seat. This was not only a humble gesture, but also convenient for him to guide the driver. Xia ruofei was still sitting beside elder song. This way, he could ensure the safety of the general. As for song Rui, he could only sit in the back row again. After the car left the hotel, they first went out of the city in the northeast direction according to the navigation instructions. On the way, du Xiaohai kept explaining the situation to elder song. It was obvious that he was very familiar with the situation. Wherever the car passed, he explained it to elder song and some data was at his fingertips. Elder song also listened with interest. Sometimes, he would ask a question or two, to which du Xiaohai answered very calmly. Xia ruofei, who was sitting at the side, did not care about what du Xiaohai was talking about. His mind had

already flown to the nine Dragon carriage. It was the location of the six mysterious Da Hong Pao parent trees. Xia ruofei had always wanted to plant top – grade tea trees in the spirit map space, and the mother tree, Da Hong Pao, was naturally the best choice. He didn't know if he could get one or two tea tree branches this time ... Xia ruofei mumbled in his heart, 'it doesn't matter even if it's not the standard ear – cutting method. As long as it's a branch from the mother tree, the spirit map space will definitely be able to succeed!' Hehe, it'd be best if each of the six trees had one or two branches. This was because Xia ruofei had checked the information. The six mother trees were not of the same species. Their leaf – shaped leaves and germination stages were all different. If he could collect all of them, he could replicate six different species of Dahongpao tea trees in the origin space. The quality could even surpass the mother tree on the Jiulong carriage! Xia ruofei was very excited just thinking about it!

Chapter 296: Here comes the opportunity (1)

The car quickly arrived at the scenic Area of Mount Wu Yi. Although elder song had instructed them not to make things special, they couldn't just walk around like ordinary tourists. They couldn't let elder song get off at the entrance of the scenic Area, line up with the ordinary tourists to buy tickets, and then wait for the bus in the scenic Area, right? Out of safety considerations, Xia ruofei would not agree to this. Therefore, elder song acquiesced to du Xiaohai's arrangement and drove directly into the scenic Area. The Mount Wu Yi Scenic Area was made up of many parts, and each part had its own system. Everyone's destination today was the Da Hong Pao Scenic Area inside. The Mercedes – Benz business car drove directly to the entrance of the Da Hong Pao tourist area. If they went any further, they would have to walk, and the six Da Hong Pao parent trees were at the end of the road. It was a good thing that elder song was full of energy now, and the Da Hong Pao Scenic Area wasn't that big, so walking for a while wasn't a problem. Everyone alighted from the car. The air in the mountain was filled with the fragrance of the earth and the faint fragrance of tea leaves, making people feel relaxed and happy. Two or three people who looked like government officials were already waiting at the entrance of the scenic Area. They quickly walked up to them. Du Xiaohai introduced them to elder song. One of them was the director of the city's tea industry Bureau, another was the director of the city's Tea Research Institute, and the last was the director of the scenic area's Management Committee. Eccentric song smiled and nodded at them very kindly. He took the initiative to extend his hand to them and said, "You've worked hard, comrades!" These few people were only section – Level cadres. When had they ever seen a Big Chief like elder song? All of them were very excited and came forward to shake hands with elder song. "Chief, this is our Da Hong Pao Scenic Area. There's our ecological tea garden and a experimental nursery of the Tea Research Institute," said du Xiaohai. "Let's go!" Elder song smiled. Let's go in and take a look!" "Please, chief!" The group of them passed through the Da Hong Pao attraction's ticket gate and entered. After entering the scenic Area, there was a stone path. This path passed through tea gardens, and along the way, there were green tea trees. "Chief, this year's tea leaves have already been picked. A new batch of tea will be released after the spring Festival. That's why the tea garden is currently in a recuperating stage." Du Xiaohai smiled and explained, "these tea gardens are owned by the local tea farmers. When the scenic Area was built, the tea farmers all moved to the foot of the mountain, but the management rights of the tea gardens are still reserved for them." "En!" Elder song nodded. It's a good thing for the government to engage in development and construction, but you can't invade the interests of the people and fight for benefits with them. You've done well on this point!" "You're too kind, chief," du Xiaohai said modestly. Along the way, the fresh smell of soil and the faint fragrance of tea leaves assailed their nostrils. All that entered their eyes was a lush green Scene. It contrasted with the

layers of strange peaks and rocks in the distance, making one feel a lot more open – minded. Du Xiaohai also introduced the situation of the tea plantations in the Da Hong Pao Scenic Area. The focus of his introduction was, of course, the ecological tea plantation of the city tea industry Bureau and the experimental nursery of the Tea Research Institute. Du Xiaohai was very familiar with the business. The director of the tea Bureau and the director of the Tea Research Institute basically didn't need to be supplemented. Elder song also nodded frequently and asked one or two questions from time to time. Obviously, he was quite interested in what du Xiaohai was introducing. Du Xiaohai was naturally overjoyed. He carefully organized his words and answered elder song's question. The group walked and talked, and soon reached the end of the road. From afar, he could see the three red words "Da Hong Pao" on the rock wall. Beside the stone carving, there were six tea trees growing in the cracks of the steep cliff. "Chief, there are six famous Da Hong Pao parent trees up ahead. The stone carvings on the rock wall were carved by the monks of Tianxin temple during the Republic of China ..." Du Xiaohai introduced. Eccentric song listened with great interest. Suddenly, he saw a shop under the cliff in front of him. The signboard was quite eye – catching. Elder song laughed and pointed to the front. "The world's number one egg! That's an interesting name ..." "Chief, they're actually selling herbal tea eggs, but the tea leaves used to make the herbal tea eggs are Da Hong Pao. The shop sign is just a gimmick ..." Du Xiaohai said, a little embarrassed. The scenic Area management Committee Director came over and said, "Chief, this shop has been open for many years and is one of our old tenants. Although the signboard is a little exaggerated, we still run it with good faith. One herbal tea egg is only three Yuan." After hearing that, song Rui asked with interest, "a tea egg that costs three Yuan ... It's not made from the Dahongpao tea leaves from the mother tree, right?" Otherwise, wouldn't we lose all our capital?" The Administrative Committee Director laughed. "You must be joking ... The Da Hong Pao parent trees have stopped being harvested since 2007. However, the tea leaves used in this shop are also quite authentic. They are the Da Hong Pao tea leaves produced in our tea garden in the scenic Area." "Then let's go and try the 'world's first egg'!" Eccentric song nodded. "Alright!" Du Xiaohai quickly said. Chief, there's a teahouse up ahead, we can go and have some tea. " "Alright!" Elder song said heartily. Xiao Rui, go buy a few herbal tea eggs and bring them to the teahouse!" "Alright!" Song Rui replied. "Chief, we'll go buy it ..." Du Xiaohai said hurriedly. Elder song waved his hand. "No need, no need. It's good to let Xiao Rui run the errands. My grandson is usually too lazy. It's not easy for him to come out. I have to order him around ..." Xia ruofei couldn't help but laugh. Song Rui pulled a long face and didn't dare to refute. As for du Xiaohai and the others, they wanted to laugh but didn't dare to. They could only laugh awkwardly. As the group walked forward, the smile on elder song's face gradually disappeared, and his brows furrowed. Because his view was blocked by the shop, elder song only saw a whole team of armed police standing at the bottom of the cliff after he got closer. "Secretary du, what's going on?" Elder song's tone was a little bad. "Didn't I tell you not to make a big scene? Why did you transfer the troops over?" "You're mistaken, chief!" Du Xiaohai quickly explained. Today is the day for the Tea Research Institute to carry out routine maintenance and trimming of the six Da Hong Pao parent trees. These armed police soldiers are also here to maintain order. Every time we carry out maintenance on the parent trees, we will ask the Armed Police Force to send a squad of soldiers to help maintain order. " Eccentric song's face brightened a little and asked, "Is that really the case?" "Yes, yes," Du Xiaohai said, "chief, at first, the comrades in the team were asking if we should postpone the inauguration, but I said there was no need. What you want to see is our real situation, so I made the decision to let the comrades in the tea leaves Bureau and the Tea Research Institute work as usual." Eccentric song finally smiled and nodded. Du Xiaohai was secretly relieved. Xia ruofei's heart started to beat faster when he

saw this. Along the way, he had been thinking about how to get some branches from the mother tree. He didn't expect that today would be such a coincidence. The staff was trimming and maintaining the branches, so some branches would definitely be cut off. The opportunity was right in front of him! Xia ruofei took a deep breath and calmed himself down. Then, he asked in a calm tone, "Secretary du, I'm very interested in these six tea trees. May I go up and take a look? Don't worry, I won't affect the work of my comrades!"

Chapter 297: acquired_1

"No problem!" Du Xiaohai quickly replied. But ... The mother trees are all on the cliff, and the path up is very narrow and steep. It's not easy to walk!" "I'm fine with it," Xia ruofei said with a smile. "Xia is very good," elder song said with a smile. "Climbing the mountain won't be a problem!" Hearing elder song's words, du Xiaohai quickly instructed the director of the tea Bureau beside him, "Director ye, take Mr. Xia up for a tour. Make sure to keep him safe!" "Alright!" Director ye said immediately. "Sorry to trouble you ..." Xia ruofei said with a smile. "You're welcome, you're welcome!" Xia ruofei followed director ye and walked down the cliff. The Spring Festival had just ended, and it was the off – season for tourism. There were not many tourists in the scenic Area. Besides, there was a whole squad of armed police soldiers next to the teahouse. Besides, Xia ruofei had only left for a short while, so he did not have to worry about elder song's safety. Several staff members of the tea Bureau were under the cliff, maintaining order with the armed police. Their main purpose was to prevent people from breaking in and causing security risks. They naturally wouldn't stop director ye from personally bringing people over. There was a narrow path under the cliff. Director ye took the lead and stepped on the stone steps. "Slow down and watch your step," he said as he turned around. Xia ruofei nodded with a smile and also stepped onto the stone steps. This path was very steep, and there were many places that required both hands and feet to pass through. Moreover, one had to stick close to the cliff to pass through. The cliff was right next to them, and they might fall down if they tripped. Therefore, if an ordinary person came over, their legs and stomach might really tremble. However, Xia ruofei walked as if he was walking on flat ground. To him, this kind of road was not difficult at all. After a short steep slope, the two of them passed by the stone carving with the words "Da Hong Pao" and came to a slightly protruding platform. There were four tea trees growing here. A little further ahead of this platform, there was an even smaller platform with a tea tree growing there. Further down, there was another tea tree, a total of six. "These six trees are the famous Da Hong Pao parent trees. The one closest to us is of the same origin as the one on the middle platform. The second tree on this side was of the same origin as the tea tree on the farthest lower platform. The Da Hong Pao tea leaves that are currently being sold in the market are all from the asexual reproduction process of these six trees." Xia ruofei smiled and nodded. He walked towards the tree closest to him. The staff had already finished trimming the four trees and moved them to the middle and lower platforms. The branches that had been trimmed from the four trees had been gathered by the staff and stacked under their respective trees. When he left, he must have taken these branches with him. "Director ye, can I go over and take a closer look?" Xia ruofei asked. "Of course you can, but the ground there isn't very flat. You must be careful!" Director ye said quickly. If it was someone else who made this request, director ye would definitely not agree. Yingluo's mother tree Da Hong Pao was too precious, and the city government had insured it for hundreds of millions of Chinese dollars! Furthermore, a professional technical team was maintained all year round to do the technical maintenance of these six mother trees, including trimming the branches and maintaining the ecological environment. However, Xia ruofei was elder song's man. How could he reject director ye's request? As

long as he did not destroy the mother tree, he could look at it for as long as he wanted. Xia ruofei smiled and expressed his gratitude. Then, he walked to the first Da Hong Pao tree and observed it carefully. In fact, his mind was already locked on the pile of trimmed branches under the tree. These branches were piled up together. Xia ruofei intentionally or unintentionally blocked director ye's view. Then, with a slight thought, the thicker branch at the bottom of the pile disappeared into thin air and reappeared in the space. Because these branches were all piled together, one branch missing at the bottom could not be seen from the outside. At this moment, Xia ruofei was very excited. At the same time, he was secretly glad that he had enough space to upgrade in time. It was only after the space had been upgraded that he could store items directly in the space without summoning the spirit map scroll. And it was also because of the upgrade of the space that he could directly store the target object into the space without touching it with his hand, provided that the target object was within two meters of him. It was because of all these factors that Xia ruofei was able to store the branches into the medium without anyone noticing. Xia ruofei took a total of three branches. After he was done "admiring" one tea tree, he turned to the next one. Soon, Xia ruofei stayed under the four tea trees for a while. From director ye's perspective, Xia ruofei was only here to take a closer look at the legendary mother tree, Da Hong Pao. After all, young people were more curious. Furthermore, Xia ruofei had been very well – behaved the entire time. He had not touched the tea tree at all, so director ye was very assured. In fact, Xia ruofei had already successfully cut off some branches from the four trees and secretly stored them in his space. To be on the safe side, he took three branches from each tree. Xia ruofei was also very careful. He used his mind to control these branches and directed them to the iron cage that was used to cover the hornet's nest in the new space. Firstly, the branches would not come into direct contact with the soil. In the medium, anything that did not come into direct contact with the soil would be kept fresh. It would not rot or go bad with the passage of time. Xia ruofei had confirmed this after many experiments. Secondly, the hornet's nest was now a restricted area for Blackie and the others. After being attacked by the three hornet's nest, Blackie and the others didn't dare to get close to the iron cage. Therefore, the Da Hong Pao branch was the safest place to be. There was no need to worry about it being torn and destroyed by the naughty little dog. The biggest goal of this trip had been achieved. Xia ruofei could not suppress his joy. He tried to control his emotions and tried to appear calm. As for the two tea trees further away, Xia ruofei did not plan to go there. First of all, the staff was concentrated on trimming the branches, so it was impossible to remove the branches without anyone knowing. Secondly, director ye had already introduced that the two tea trees over there were of the same origin as the first and second tea trees over here, which meant that they were of the same species, so there was no need for him to take a few more branches. After watching for a while, Xia ruofei expressed his gratitude to director ye and the two of them went down the same way.

Chapter 298: eager to return (1)

Down the rock wall, Xia ruofei saw elder song and the others sitting in the pavilion called Jiulong teahouse, making tea and talking. He walked straight over. They were all sitting around the antique tea table. A young woman in a cheongsam with a blue and white porcelain pattern was making tea for everyone. Her green and Jade fingers were holding the tea set, and her movements were smooth and natural. It looked very pleasing to the eye. There were a few brown herbal tea eggs on the coffee table. They must be the 'number one egg in the world' that song Rui bought. Master Song saw Xia ruofei and asked with a smile, "Little Xia, how do you feel after seeing the Da Hong Pao parent trees?" "Bureau chief, how can a layman like me see anything?" Xia ruofei smiled and said, "I feel that they are similar to

the tea trees in the tea garden, but they are a little older.” “There’s a need to pay attention to this,” said eccentric song with a laugh. “I’m definitely particular about it, but I’m an amateur! “It’s just something new ...” Xia ruofei said as he sat down. The pretty lady who was brewing the tea immediately handed Xia ruofei a cup of tea. “Thank you!” Xia ruofei said. He picked up the teacup and took a sip, then asked, “Bureau chief, how do you feel after walking all the way?” “Guilin’s mountains and rivers are the best in the world, not as good as a small hill in Wuyi. This is not an exaggeration!” Although it was just a cursory view this time, one can see the whole picture with just a glimpse. The Wu Yi Mountains and rivers are truly beautiful and fragrant!” It was obvious that elder song was in a good mood today. Du Xiaohai was naturally very happy. He struck while the iron was hot and asked, “Bureau chief, why don’t we ... Sit on some bamboo skewers next? If you go down the nine winding stream, you can basically see most of the scenic spots on Mount Wu Yi. ” Elder song was a little tempted, but before he could say anything, song Rui’s phone rang. Song Rui answered the call and said a few words before handing the phone to elder song. “Grandpa, it’s Uncle Lu.” Elder song raised his eyebrows and took the phone. “Hello, Xiao Lu ...” Manager Lu said something on the other end of the phone, but Dr. Song’s face changed slightly. He stood up and slowly walked out of the tea room. “Is the situation serious?” Du Xiaohai looked at elder song nervously, his heart beating like a drum. He didn’t know if there was another problem in the city. After listening for a while, elder song said, “Xiao Lu, contact the relevant comrades in the southeast province and arrange for a better hospital in Sanshan city. Also, get a few experts to do a consultation for brother Fu.” Soon, elder song finished the call and exchanged the phone with song Rui. “Secretary du, thank you for your kind invitation!” He said to du Xiaohai. But I won’t be sitting on the bamboo raft this time. Li Zhifu has a small health problem, so I want to go back and see him. ” “Alright, this way please, chief.” Du Xiaohai quickly said. He heaved a sigh of relief in his heart. Fortunately, there wasn’t any problem in the city. They walked out of the scenic Area. Xia ruofei walked beside elder song and asked in a low voice, “Chief, is old Mr. Li’s condition very serious?” “The doctor said that it might be a kidney stone that caused the abdominal pain,” said elder song. “It shouldn’t be life – threatening, but I think it’s better to arrange a hospital for brother Fu in San Shan for treatment. After all, the medical conditions and experts in the provincial capital are better than here.” “Okay, let’s go to the three mountains for treatment!” Xia ruofei nodded. Soon, everyone arrived at the entrance of the Da Hong Pao attraction. The group got on the car and left. Du Xiaohai was tactful and did not follow them into the car. Instead, he waved goodbye to elder song and the others at the entrance of the attraction. After getting in the car, elder song told the driver to drive to yangdun town because li Zhifu had already returned home. When they arrived at the Yusheng electrical appliance repair shop in yangdun town, Niu Yusheng was fiddling with a broken TV. When he saw elder song and the others, Niu Yusheng quickly stood up and greeted, “Chief, you’re here ...” “Yusheng, where’s brother Fu?” Elder song asked kindly. “Dad is upstairs!” Niu Yusheng said, “this way, please ...” Elder song and the other two followed Niu Yusheng upstairs. Li Zhifu was sitting in the living room, making tea and talking with manager Lu. “Dad, the chief is here to see you!” Niu Yusheng said. “Little song, you’re here!” Li Zhifu seemed to be in good spirits. “Come and have some tea!” Manager Lu also quickly stood up and greeted elder song. Elder song walked over and sat down beside li Zhifu. “Brother Fu, I heard from Xiao Lu that you found kidney stones? Come back to the three mountains with me! I’ve asked Xiao Lu to contact a hospital in Sanshan city. ” “Song, there’s no need to go through so much trouble. It’s not a big problem ... The hospital here can treat it all the same!” Li Zhifu said. “The conditions here aren’t good!” Elder song said, “brother Fu, you should come back with me!” Niu Yusheng also advised, “father, since the chief has said so, you should go to San Shan for treatment!” The hospital in the provincial city has better

facilities and the doctors are highly skilled. It's much better than this small place." "I'm not going! "There's nothing wrong with it ..." Li Zhifu said stubbornly. "Brother Fu, I've arranged a good job for you, but if you don't come back with me for treatment, I'll have to cancel it," elder song said after some thought. Li Zhifu looked at elder song and asked, "You're giving me an assignment?" "That's right!" Elder song laughed. Haven't you always been worried that your tea – making skills would be lost in your hands? "Today, I've spoken to the leaders of your local government to invite you to the vocational College's tea – making major to give lessons to the students. In addition, you can also find a few excellent students to take in as your disciples and let them follow you to learn tea – making skills ..." Li Zhifu's eyes lit up when he heard that. Elder song also smiled. He knew that although Li Zhifu had announced his "retirement" for more than ten years, his love for this industry had not diminished. He had always hoped that someone could pass on his tea – making skills. Thus, he struck while the iron was hot and said, "brother Fu, it's not easy to preach and teach!" It was not good to be in poor health. And school has already started. The faster you recover, the earlier you can go to school, right?" "You little song!" Li Zhifu said with a bitter smile. He has grasped my pulse! It seems like I have to go back with you ..." Elder song laughed and said, "Yusheng, pack up brother Fu's things. We'll go back to San Shan after having lunch here!" "Good! Thank you, chief!" Niu Yusheng said hurriedly. Everyone had lunch together at Li Zhifu's house. After that, Niu Yusheng and Li Guizhi sent Li Zhifu to the car. Li Zhifu even brought along his precious tea leaves, saying that they were for elder song. Since he wanted to treat Li Zhifu's illness, elder song decided to take a taxi on the way back. The Wuyishan North Station, which was the closest to the city, had very few trains, and the Wuyi SD station was far away. It would be faster to drive back to Sanshan. The Mercedes – Benz MPV met up with the two Mercedes – Benz sedans led by Huang Fang at the intersection. The three cars formed a small fleet and went directly onto the highway from outside the city, heading in the direction of Sanshan city. Xia ruofei, who was sitting in the passenger seat of the business car, was also eager to go home. He wanted to go home as soon as possible and then cut the branches of the Da Hong Pao parent trees in the medium. Three hours later, the car exited the highway at the East exit of Sanshan city. Just then, Xia ruofei's phone rang. He took it out and saw that it was Liang Qichao calling. He could guess the purpose of the call. Xia ruofei answered the call with a hint of excitement.

Chapter 299: Thriving farmy...1

"Brother Liang." "Ruofei, my cousin – grandfather is leaving for home today. He'll probably be in Sanshan city tomorrow or the day after." "How's the situation with the Phoebe zhennan material?" Liang Qichao asked impatiently. "I'm ready!" Xia ruofei said with a smile. "Aiya, that's great!" Liang Qichao said excitedly, "ruofei, thank you so much! I owe you a big favor!" "You're welcome ..." Xia ruofei chuckled. "Brother Liang, do you want to come over and take a look at the material first?" "No need! "I trust you ..." Liang Qichao said. "My family has to go to Shen Cheng to welcome the old man today, so I don't have time to come over. Tell me the rough data of the Phoebe zhennan material!" "I'll tell the old man ..." "No problem, I'll send it to you on WeChat later!" Xia ruofei said readily. "Alright!" Liang Qichao said, "hehe! Even my father doesn't know about this! He had been depressed for the past few days! I'm really looking forward to his expression when he hears that I've also found a big scoop in two days ..." After hanging up the phone, Xia ruofei was very excited. Good things keep happening recently! He had just successfully obtained the branches of the Da Hong Pao parent tree, and the Phoebe zhennan material was about to be sold. He felt great just thinking about how he could earn a large sum of money. It was already evening when the car got off the highway. So, the convoy went straight back to the villa in

guling. Elder song asked manager Lu to arrange for li Zhifu to be hospitalized the next day. Xia ruofei's car was parked at the guling courtyard. He was eager to go home, so he politely declined elder song's invitation to stay for dinner. He drove away from the courtyard and returned to Taoyuan farm. When Xia ruofei's car drove into the gate of the farm, the farm workers were getting off work and walking out. The moment Cao tieshu saw Xia ruofei, he immediately stopped the car and excitedly told him that the vegetables on the farm could be harvested. Xia ruofei couldn't resist Cao tieshu's enthusiasm. He parked the car at the side and followed him to the vegetable greenhouse. Cao tieshu pointed at the green vegetables in the greenhouse and said, "Boss, I've grown vegetables for half my life, but this is the first time I've seen such good growth and such high quality vegetables! That high – tech seed is really powerful!" Xia ruofei looked at the vegetables and felt a sense of achievement. He smiled and said, "Old Cao, this is also because of your good work!" Cao tieshu chuckled. "We were just taking care of the vegetable field on a daily basis. We didn't do anything ... Besides, these vegetables are too worrying. There's no need to prevent pests at all. We don't have much to live after a day ..." Xia ruofei took a closer look. This vegetable really did not have a single worm hole. The green color of the leaves was very pure, and there was a faint feeling of crystal – Clear, as if it was carved out of Jade. It even felt unreal. This had completely reached the standard of growing vegetables in the space! Xia ruofei said happily, "old Cao, well done!" How about this, from tomorrow onwards, we'll supply the vegetables to Xi Jiang Yue club and Ling Ji restaurant from the vegetable greenhouse. I'll get little fatty to give you the specific data later. "No problem!" Cao tieshu laughed. After working for a few months, they had finally achieved some results. Cao tieshu had been looking forward to this day for a long time. Otherwise, with such a high salary and an easy job, the few workers would feel bad. Xia ruofei thought for a while and said, "from tomorrow morning, arrange for the workers to take turns to pick the vegetables. They have to come over at about Five O' clock. Then, prepare the vegetables according to the demand of each family. Generally, they will send a car over to pick up the vegetables before six – thirty." "Alright! Boss, don't worry!" Cao tieshu said. Xia ruofei thought for a while and said, "yes. For the workers who came to pick vegetables in the morning, we'll pay you overtime. You'll be paid overtime." "No need, no need!" Cao tieshu hurriedly said, "there's not much work in the day anyway. We, the older people, all get up early in the morning. Why do we need overtime pay!" "That won't do!" Xia ruofei said, "this is an additional task. After the cold storage is built, you can pick the fruits a day earlier. Before that, you have to come here early every day. Besides, it's only temporary that you're not busy with work. When the fish ponds and orchards are built, you'll have more and more work to do." "But you don't need to be paid for overtime either!" Cao tieshu said very firmly, "our current salary is already high enough. Everyone feels that they have energy but no place to use it. We are sorry for the salary that the boss gave us!" Xia ruofei couldn't help but find it funny. These villagers were really simple and honest. They didn't even want extra money. He saw that Cao tieshu's attitude was very firm, so he could not be too insistent. Xia ruofei thought for a while and said, "how about this, old Cao?" When the time comes, make a schedule and everyone will take turns picking vegetables in the morning. As long as the workers come in the morning, they can take half a day off in the morning! This way, everyone will have time to deal with any work at home. "Cao tieshu grinned and said, "deal!" Then we'll do as the boss says!" "Boss, you have to prepare the next batch of seeds in advance. After the vegetables are harvested, we will immediately start to grow the seedlings and plant a new batch of vegetables," Cao tieshu said. This constant – Temperature greenhouse could be planted all year round. When the mature vegetables were harvested, they would start to grow seedlings. This way, new vegetables could keep up and form a virtuous cycle. Xia ruofei nodded. "Calculate the required amount and report it to chubby boy. I'll go and prepare it in a

day or two!" "Alright!" Cao tieshu said,"boss, it must be this kind of high – tech seed!" Xia ruofei laughed and said,"don't worry!" If we're going to do it, we'll do it with high – tech!" Cao tieshu couldn't help but chuckle. Cao tieshu then thought of another matter and said,""Boss, it's going to be spring soon, so we have to prepare the fruit trees in advance. I think we should be able to plant them in a month or so. If we miss it, it will delay us for a year! There was still a fish pond that was still empty! Our hearts ache when we see this. When are you going to get some fish?" Xia ruofei couldn't help but have a headache. There were indeed many things to do, and these things couldn't be passed on to others. He had to do it himself. No matter if it was fruit or fish, they had to be transformed by the spatial spirit pond water or the petal solution of the wondrous flower before they could be planted. If he wanted to take the high – Quality route, these were necessary. Otherwise, he might as well not do it. "I know. I'll be in the three mountains for the next few days, so I'll focus on dealing with these things!" Xia ruofei said,"old Cao, you'll be busy when the time comes! If you don't have enough manpower, you have to tell me in time, so I can go and recruit more people!" "I know, boss!" Cao tieshu said,"then I'll go back first! I still have to cook for my wife!" "Go back quickly!" Xia ruofei said,"say hello to sister – in – Law for me!" "Alright!" After Cao tieshu left, Xia ruofei strolled around the vegetable greenhouse once more before he came out and drove back to the villa. As soon as the car stopped, lightning, who had not seen Xia ruofei for a few days, immediately pounced on him affectionately, shaking its head and wagging its tail. Xia ruofei hugged lightning and rubbed its smooth fur while shouting,""Little fatty!" "Swish!" Pang Hao came out of the house when he heard the noise."Ruofei is back!" Xia ruofei told pang Hao about what Cao tieshu had just said and asked him to give Cao tieshu a copy of the supply data tonight. In addition, Xia ruofei also asked pang Hao and Cao tieshu to calculate how much surplus there was in the vegetable greenhouse other than the two food and beverage companies, and how many extra vegetables they could provide each day. Xia ruofei was considering that the vegetable greenhouse had basically entered a virtuous cycle and it was time to start supplying to the MA family's Hengfeng group. Both parties had already signed the contract and were just waiting for the vegetables to arrive. After he was done, Xia ruofei let lightning play on her own. Then, he bade farewell to pang Hao and ye Lingyun, took his little bag, and went upstairs in a hurry. He couldn't wait to go into the medium and cut out the precious branches of the big red – robed mother tree ...

Chapter 300: Cutting of the mother tree (1)

Xia ruofei returned to his room and locked the door and windows impatiently. Then, he summoned the spirit map scroll from his palm and disappeared from the room with a thought. In the next moment, he was already next to the iron cage in the new space. There was a faint sweet smell in the air because Xia ruofei had placed some ripe fruits in the cage as temporary food for the Hornets. Blackie and the rest were overjoyed at Xia ruofei's appearance. Although the space was very spacious, it was still too quiet at the moment. For the lively dogs, it was a little boring. Hence, every time Xia ruofei appeared in the medium, Blackie and the rest would rush over to play with him. However, this time, Xia ruofei appeared next to the hornet's nest, which they were terrified of. They hesitated and stopped halfway, as if they were having a mental struggle. Xia ruofei laughed and waved his hand to let them play by themselves. Then, he focused his attention on the dozen or so tea tree branches at the top of the iron cage, and his eyes became a little heated. With a thought from Xia ruofei, 12 tea tree branches were lifted by an invisible force and floated into Xia ruofei's hands. Now that Xia ruofei's control of space had improved, he could do things like this with ease. Xia ruofei looked at the branches of the tea tree carefully and realized that the leaves were still green as if they had just been cut from the tree. In fact, when Xia

ruofei obtained these branches, they had just been cut from the big red Robe mother tree by the technicians. After Xia ruofei put them into the space, they were kept in their original state without any direct contact with the soil. There were no changes. Xia ruofei took these branches and moved them to the original space with a thought. If he wanted to quickly form a certain scale of planting, he had to make use of the time flow in the original space. Therefore, he had to plant the tea trees in the original space in the early stages. Now, the original space had already formed a plantation area. In the distance was a forest formed by Phoebe zhennan trees, and ginseng was planted all over the side of the forest. The part near the spatial spirit pool, where the vegetable field used to be, was now planted with thousands of iron – Skin dendrobes. Xia ruofei brought the tea tree branches to the other side of the ginseng field. He was going to cultivate a tea tree forest here. Xia ruofei put down the branch and had a thought. The shovel, hoe, watering can, tidying box, and other tools that were neatly placed next to the spatial spirit pond were all carried by the invisible force of the space and directly flew over. Then, the water in the spatial spirit pond was also sucked up by an invisible force. It drew a beautiful arc in the air and accurately fell into the plastic tidying box, filling it just enough. Xia ruofei's control of space was getting better and better. He felt like he was in control of the creator and he enjoyed this feeling. Of course, Xia ruofei had also deliberately used every opportunity to practice, so that he could be more familiar with the use of space power. He believed that as long as the space continued to upgrade and he continued to become stronger, one day, he could even move mountains and fill seas in the space. The cutting process was very simple. Xia ruofei dug a hole in the ground and inserted the branches of the tea tree into it. Then, he filled the space with soil and watered it with the space spirit pond water. In the end, Xia ruofei directly sucked out a tidying box that contained the diluted petal solution and watered the leaves and roots of the tea tree with some petal solution. This was a great success. Then, Xia ruofei went to the iron – Skin Dendrobium. After a few days, the iron – Skin Dendrobium had grown a lot. Xia ruofei cut down the half – mature branches again and used the free vegetable field for cutting to further expand the planting scale. Previously, Xia ruofei had cut the 20 – odd iron – Skin dendrobes into about 1000 pieces. This time, he continued to cut and increased the planting scale to about 5000 pieces before stopping. This was because he had been working for nearly 20 hours. During this time, he would drink some spirit pool water when he was thirsty and the petal solution when he was tired. Moreover, he had used his Space Force as an aid, so he had been working at a very high efficiency. This was also the longest time Xia ruofei had stayed in the medium ever since he obtained the spirit map. Even after taking the petal solution and the spatial spirit pool water, Xia ruofei still felt very tired. Hence, he decided to stop working for the time being. His goal was to plant 10000 stalks of iron – Skin dendrobes in the medium. At the moment, it was definitely enough to plant ears, but he couldn't keep up with the tedious and repetitive work alone. Therefore, he decided to cut about 1000 plants in batches. In the outside world, it would take two to three years for the iron – Skin Dendrobium to mature and be harvested, but in the original space, it would basically take about a month. Xia ruofei dragged his exhausted body out of the spirit map space. As for the old Silkwood, Xia ruofei kept it in the medium for the time being. Firstly, it was safer. Secondly, every day that passed in the outside world was equivalent to a month in the medium. In this way, he could leave it for two more days to let it weather more thoroughly, and the quality of the material would naturally be higher. After returning to the bedroom, Xia ruofei looked at the time. It had only been less than an hour in the outside world. Xia ruofei took a hot shower in the bathroom and drank some flower petal solution. She felt a little better and went downstairs for dinner. Pang Hao didn't return to the city either. Starting from tomorrow, the greenhouse would be providing vegetables. It was the first time Cao tieshu and the others were in

charge of this work, so pang Hao was a little worried. Thus, he decided to stay behind and keep an eye on them the next morning. Xia ruofei's Villa had a few guest rooms anyway. It would not be a problem for pang Hao to stay the night. After the three of them had dinner, Xia ruofei returned to his room, saying that he was tired from the journey. He gave Ling Qingxue a call. After the two of them chatted for a while, Xia ruofei went to bed. After working for more than 20 hours, Xia ruofei soon fell asleep. When Xia ruofei woke up the next day, the greenhouse had already completed the first supply of vegetables. It could be said that the vegetable planting was on the right track. Pang Hao and Cao tieshu were calculating the current daily output of the vegetable greenhouse and how much surplus there was after supplying it to the two catering companies. Xia ruofei gave the number of Hengfeng group's office manager in Rong city to pang Hao. He asked pang Hao to contact the other party for the specific supply plan. Now that there were more and more things to do on the farm, Xia ruofei was starting to let go. This was also a form of training for pang Hao. Xia ruofei's position in him was not only to manage the finances. After breakfast, Xia ruofei left the farm in his pickup truck. There were still a lot of things waiting for him to do today.
