Chapter 2931 Listening to his words and observing his actions (2)

When he saw that Charlie cohe was calling him personally, he hurriedly picked it up and respectfully said, "Mr. Cohe! Hello there!"

"Goodman, I've talked to my Chinese friend. He's pretty satisfied with your Bay group's decision and the compensation you proposed, but he also put forward a condition ..."

"Please speak!" Goodman quickly said, "we'll do our best to satisfy your friend's request!"

"My Chinese friend said that from today on, the Bay group's drugs are not to be sold to China in any form. If you can do this, then this matter will be considered over!" Said Charlie cohe.

Goodman hesitated.

For the past two to three years, the Bay group's major strategy had been to develop the Asia – Pacific market. After all, there were vast sales and huge potential there. It was a huge market that had not been developed by them yet. Although the profits in the Asia – Pacific market still accounted for a high proportion of the group's total profits in the past few years, it had shown a trend of increasing year by year, and the increase was very obvious.

If they gave up, it would mean that the Bay group would have to adjust its strategic direction, which would inevitably cause great losses. At least, the initial investment would be in vain.

However, Goodman quickly realized that giving up on the Chinese market did not mean giving up on the entire Asia – Pacific market. Although losing the Chinese market would result in a huge loss in the future, they could still make a move in other Asia Pacific regions and try to make up for their losses. And if he didn't agree to the other party's conditions, then all his previous efforts would have been in vain, and ERAD's death would have been in vain.

Goodman quickly came to a conclusion.

Therefore, he immediately said, "no problem!" Mr. Cohe! In the future, all of Bay group's ice, marijuana, and Coke would not enter the Chinese market! We'll be withdrawing all of our Chinese market explorers in the near future!"

Charlie cohe naturally noticed Goodman's hesitation. He said sternly, "Goodman, I hope you can keep your word! Don't try to fool people with tricks that deceive children! If you sell the drugs through a shell company or to distributors that are deeply rooted in the Chinese market, or use other means to sell drugs to China, you will be subject to the harshest sanctions of the cohe family! I'm not trying to scare you, but the entire Bay group will cease to exist!"

Goodman shuddered and quickly said, "Mr. Cohe! Even if you lend me a few guts, I wouldn't dare to deceive you! I'll definitely follow up on this matter personally, there won't be any mistakes!"

"I hope so!" Charlie cohe said indifferently, "I've made a promise to my Chinese friends. If anything goes wrong on your side, you know the consequences."

"Yes, yes, yes!" Goodman quickly said, "there won't be any problems! Please rest assured!"

Only then did Charlie Koch's tone become slightly more relaxed, "Goodman, you should thank God for getting through this safely. If it were my Chinese friends, you and your confidants would've been dead by now!"

Goodman was so scared that his whole body shivered. He knew that there was no need for Charlie Coch to lie to him, and he didn't care about it at all. Adding on his previous reasoning, he was pretty sure that this Chinese friend of his, Charlie Coch, was a non – existent Kong that he couldn't fight against.

Goodman quickly said with tears of gratitude, ""Mr. Cohe, thank you so much for this! If there's anything I can help you with in the future, please let me know!"

Charlie Koch did not respond to Goodman's words, and only said, "Goodman, I'll tell you one last thing. It was also from my Chinese friend."

Goodman was a little disappointed that he didn't get a response, but he still said, ""Mr. Cohe, please speak!"

"There's a Chinese saying, 'listen to what you say, observe what you do'. Right now, my friend is basically satisfied with your attitude. The next step will depend on your performance. If you're just talking without actually taking action, I'm afraid ..."

Goodman quickly said, "Mr. Cohe!" I will fulfill all my promises immediately, including the preferential treatment and protection for the Chinese!"

"That's good!" Charlie cohe said, "the people from Huafeng shipping will contact you for the details of the follow – up. I hope you can fulfill your promise."

"Yes! Mr. Charlie!" Goodman said.

Charlie cohe did not say anything else and directly hung up the phone. When Goodman heard the busy tone from the phone, he carefully hung up and let out a long sigh. He realized that his forehead was covered in sweat.

Goodman calmed down and immediately picked up his phone to give orders. He arranged everything as quickly as possible, including mobilizing 100 million US dollars to be ready to withdraw at any time. He also arranged for a full withdrawal from the Chinese market and to give preferential treatment to The Chinese in Mexico in the future, providing protection to the Chinese, etc.

Fortunately, Bay group wasn't like the traditional big companies, where there were Board of Directors and other shareholders. Basically, Goodman had the final say in Bay group. Although he gave some of his trusted subordinates some shares and dividends, as long as he gave the order, his subordinates would immediately carry it out without any doubt.

Hence, Goodman's orders were quickly passed down and carried out.

.....

Over at iswatlan, Xia ruofei was not in a hurry to find Zhang Chao. Instead, he waited until he received the email from Pierre before asking Luo Qingfeng to call Zhang Chao over.

While waiting for Zhang Chao, Xia ruofei looked at the two videos and the photos.

Xia ruofei only took a quick look at the photos and videos of ERAD's execution. With his eyes, he could naturally tell that there were no traces of fraud in the photos and videos. Unless ERAD had a twin brother who looked exactly the same, this guy who had been spouting sh \* t about the Chinese people would have been sent to meet Satan by the people of the Bay group.

Xia ruofei had watched the video that Goodman had recorded from start to finish.

The video wasn't long. In the video, Goodman first sincerely apologized to Huafeng shipping and said that he had severely punished the parties involved. Then, he promised that there would be no similar incidents in the future, and that the Bay group would provide protection and various preferential treatment to the Chinese in the future. It was basically the same as what Charlie Koch had told him.

Xia ruofei had just finished watching the video when he heard a knock on the door. He closed his laptop and shouted, "Please enter!"

The door was pushed open, and Luo Qingfeng walked in with Zhang Chao.

Zhang Chao's face showed a trace of fatigue as he respectfully asked, "Mr. Xia, you were looking for me?"

"Brother Zhang, please have a seat!" Xia ruofei nodded.

After Luo Qingfeng brought Zhang Chao over, he filled Xia ruofei's cup with water and then made another cup of tea for Zhang Chao.

Zhang Chao had seen Luo Qingfeng's powerful performance with his own eyes. When he saw Luo Qingfeng serving him tea, he was so shocked that he stood up and said, "Old Sir, I don't dare! I don't dare!"

In fact, with Luo Qingfeng's pride as a golden core cultivator, how could he serve tea to an ordinary person under normal circumstances? He positioned himself as Xia ruofei's servant. Zhang Chao was just a guest who came to visit Xia ruofei. It was the servant's duty to serve tea to the guest.

"Brother Zhang, let's sit down and talk!" Xia ruofei said with a smile.

"Okay ..." Zhang Chao took the tea from Luo Qingfeng with some trepidation and then sat down.

"I heard that you've already arranged for the evacuation?" Xia ruofei asked kindly.

"The Bay group is too powerful," Zhang Chao nodded and said, "I'm afraid we'll suffer a great loss if we fight them head – on, so I'm going to arrange for my brothers to leave the country to avoid the limelight first. We'll decide whether to come back and develop according to the situation. Maybe we won't be going back to Mexico anymore! But don't worry, Mr. Xia, we'll take care of your goods and help you get them out of Mexico!"

#### Chapter 2932 Retreat after success (1)

Xia ruofei smiled and waved his hand. "There's no rush. We'll deal with it slowly later." Brother Zhang, I called you here to tell you that you don't need to arrange an evacuation. I've already dealt with the Bay group for you. "

Zhang Chao was stunned. He didn't know what Xia ruofei meant.

In fact, he couldn't believe his ears. After a moment of shock, he quickly asked, "Mr. Xia, why...Don't we need to evacuate?"

Xia ruofei laughed and said, "Bay group won't dare to cause trouble for you in the future, so of course, there's no need to evacuate!" Are you willing to run to an unfamiliar place and start over?"

"This ... How is this possible?" Zhang Chao was dumbfounded. "The Bay group has always been very domineering. We have offended them this time. How can they not pursue the matter?"

"It's not that I won't pursue the matter, but I don't dare to cause you any more trouble. " Xia ruofei smiled.

Luo Qingfeng, who was watching from the side, saw that Zhang Chao actually doubted Xia ruofei's words and could not help but feel a little displeased. He could not help but interrupt, "Mr. Zhang, Mr. Xia has done a lot of work to help you solve this problem. How can you still doubt his words?"

Zhang Chao came to his senses and quickly said, "You're mistaken! How would I dare to doubt Mr. Xia! It's just that this matter is really too unexpected, I'm a little confused for a moment ..."

Xia ruofei used his eyes to stop Luo Qingfeng, then smiled and said, "It doesn't matter! Brother Zhang, you can rest assured. Even if you bring your brothers back to work at Huafeng shipping now, it's absolutely no problem! This is what Goodman promised himself, and he'll never go back on his word, or someone'll teach him a lesson!"

Zhang Chao was dumbfounded. After a long while, he stammered, "Gu...Goodman? The boss ... Of the Bay group? Personally ... Personally promise?"

Xia ruofei laughed and said, "come, come, come!" I'll show you something!"

The Bay group was too notorious. Even if Xia ruofei tried to convince him, Zhang Chao would still have all kinds of doubts. He would not be completely at ease, so it was better to see for himself.

Zhang Chao followed Xia ruofei to the desk, confused.

Xia ruofei opened his laptop and opened the most direct photos.

When Zhang Chao saw this, he couldn't help but exclaim, "Isn't this that ERAD? He ... He's dead?"

Zhang Chao's impression of ERAD was too deep. In the morning in the big courtyard of Huafeng shipping in kuachakuarkos, he had really felt boundless despair when he faced ERAD. The feeling of heavy pressure was engraved in his heart.

Xia ruofei played the video of Manino executing ERAD and said with a smile, "This video is a little gory. If you don't feel comfortable, don't watch it."

"Mr. Xia, you're joking," Zhang Chao said awkwardly. Even if I'm not strong enough, I'm still a disciple of the Hong sect. I've fought on the streets before, so how can I be afraid of blood?"

In Mexico, gangs were rampant. All kinds of bloody fights and killings happened every day. Zhang Chao had been working hard in Mexico for many years, but he didn't get to where he was today overnight. In

his early years, he was only a disciple of the Hong sect at the bottom level. In order to fight for territory and interests, he had experienced all kinds of fights.

The video had already started playing. The video had been edited, and only the part where Manino conveyed Goodman's words to ERAD and then shot ERAD to death was retained. It was only about a minute.

Zhang Chao had been in Mexico for many years, so he had no problem listening to Spanish. Naturally, he could understand the conversation between Manino and irade in the video.

He said in shock, "Mr. Xia, it's actually ... Goodman who personally ordered the execution of ERAD?" Just because he ... Offended someone he shouldn't have offended?"

At this point, Zhang Chao looked at Xia ruofei in a different light.

Obviously, the "person you can't afford to offend" in Goodman's words was Xia ruofei.

Xia ruofei had just said that he was the one who helped to coordinate and solve the problem with the Bay group. The video and photos were sent to Xia ruofei immediately. It was obvious.

Xia ruofei smiled and did not say anything. Instead, he played the last video, which was the one that Goodman had recorded.

While watching the video, Zhang Chao's mind was in a daze. He didn't realize that his mouth was wide open. He even felt like he was dreaming, or that the Goodman in the video was someone else.

This notorious drug lord in Mexico actually apologized to Huafeng shipping so sincerely, and even to all the Chinese! In addition to expressing his apology, he also promised to severely punish the parties involved and promised that all Chinese people in Mexico would receive preferential treatment and protection from the Gulf Group.

This was simply too outrageous!

It was like an ordinary person beating up the "small target" 's "nation's husband", the son of the richest man. The "small target" not only did not get angry or retaliate, but also sincerely apologized to the ordinary person and said that in the future, if the ordinary person's townsman bought a house at their company, they would give him a 50% discount ...

## Chapter 2933 Retreat after success (2)

Of course, The Chinese in Mexico didn't need to buy drugs from the Gulf Group, but if something really happened to them, if the Gulf Group could provide protection, it would be an extra protective charm!

Although he didn't want to admit it, in Mexico the Gulf group's words were sometimes more effective than the government 's.

Even after the video finished playing and the computer screen turned black, Zhang Chao still hadn't recovered from the shock.

"Brother Zhang, Do You Believe Me Now?" Xia ruofei asked with a smile.

Zhang Chao seemed to wake up from a dream. He quickly nodded and said, "I believe you! He believed in him! Mr. Xia, I'm completely convinced ..."

At this time, Zhang Chao's mind was like a stormy sea. He had attached great importance to Xia ruofei before, but it was mainly because of Li Yifu, which made Xia ruofei's position in his heart very high. Of course, this morning, Xia ruofei had brought Luo Qingfeng along to defeat ERAD. This had caused Xia ruofei's position in his heart to rise by a large amount. But even so, Zhang Chao still could not imagine that Xia ruofei could make a giant like the Bay group lower its proud head with his own ability.

Such an outcome was impossible even for Li Yifu to achieve.

The Hong sect might be able to resolve the conflict with all their strength, but it was only to resolve the conflict. They would have to pay a high price for it. However, Xia ruofei's way of handling it was not to resolve the conflict at all. It was to make the other party yield. From the way Goodman was acting, he must have been under a lot of pressure.

This meant that Xia ruofei's background was even greater than Li Yifu's!

When this thought came to his mind, Zhang Chao couldn't help but be shocked.

Xia ruofei smiled and said, "brother Zhang Chao, I think you should organize everyone and get them to return to kuachakurakos as soon as possible." After all, your roots are there ... Oh! By the way, Goodman also offered to pay you 100 million US dollars as compensation for emotional damage. I'll give you his contact information later, so you can go and talk to them yourself!"

In his email to Xia ruofei, other than sending the video, Peter had also sent Xia ruofei the contact number that Goodman had left behind. It was mainly for the 100 million US dollars compensation.

Zhang Chao was shocked when he heard this. He waved his hand and said, "We can't take this money!"

Xia ruofei laughed and said, "Goodman gave it to you. Why can't you take it?" Besides, if you don't accept the money, Goodman will think that we're not satisfied with how we handled this matter! I bet he won't be able to sleep tonight!"

Zhang Chao quickly said, "Mr. Xia, we don't deserve it. The whole thing is your credit. We didn't do anything at all. How could we dare to take this money?" Besides, even if the entire Huafeng shipping was robbed by the Bay group, it would only be worth a few million dollars. 100 million dollars was too much! I think ... You should be the one to keep this money!"

Xia ruofei shook his head. "I'm not short of money. Besides, this is the money to compensate Huafeng shipping. Why would I want it?" Brother Zhang Chao, don't decline. We've all suffered a lot of shock this time. You can give everyone more money later, and the rest will be used as the company's operating funds. It's decided!"

Xia ruofei's words were unquestionable. The faint pressure made Zhang Chao unable to say anything.

However, after thinking about it, Zhang Chao still felt that the money was hot in his hands. After hesitating for a while, he braced himself and said, "Mr. Xia, we really don't dare to take this money. Even if you blame us, we can't take it! What do you think? We'll do the contacting, but I'll use the money to purchase firearms and equipment in batches after it's transferred to your account!"

Zhang Chao thought that since Xia ruofei insisted on not accepting it and they did not dare to take it, and Xia ruofei came here for the firearms, they might as well exchange the money for firearms. In his opinion, this was the best of both worlds.

Xia ruofei did not know whether to laugh or cry, "why would I need so many firearms?" We've bought enough this time. "

Zhang Chao quickly said, "firearms and equipment can be stored if they can't be used up in a short time. Bullets, grenades, and the like are all consumables. Moreover, equipment will depreciate and be eliminated with the passage of time. They will always need to be replaced with new ones." We'll buy 20 million US dollars worth of firearms every year from now on, and we'll give it to you over five years ... Mr. Xia, please don't reject it, or we really don't dare to take this money!"

Xia ruofei thought for a while. Since Zhang Chao insisted, he didn't want to push it around for 100 million US dollars. He nodded and said, "Alright! Let's do this then! However, you'll be in charge of the purchase. I'll take care of the transportation. You can contact Li Yifu when the time comes!"

"Alright!" Zhang Chao heaved a long sigh of relief and said, "Mr. Xia, it's settled then!"

Xia ruofei saw that Zhang Chao was afraid that he would go back on his words and couldn't help but find it funny. He smiled and nodded. "Alright! It's decided!"

Zhang Chao thought for a moment and immediately said, "By the way, Mr. Xia. Do you think we should ship this container of goods back to kuachakuros port? Why don't our company contact a ship to help you transport this batch of equipment out of Mexico?"

Xia ruofei shook his head and said, "no need. I've already said that we'll take care of the transportation." There's no need to transport this batch of goods back to kuachakuros. Help me find a truck to pull this container to a more remote place and unload it. Then, leave the rest to us!"

Zhang Chao subconsciously wanted to fight for Qianqian. He also wanted to do something for Xia ruofei. He could not repay this favor, but he could at least do his best for Xia ruofei.

However, he thought about it again. Xia ruofei was able to make a giant like the Gulf Corporation yield in such a short time. It was clear that Xia ruofei's power in Mexico was much greater than he had imagined. Perhaps he had better channels? Furthermore, Xia ruofei had said earlier that he wanted the goods to be unloaded at a remote place. It was obvious that he wanted to avoid people's eyes and ears!

Thinking of this, Zhang Chao knew what he should do. He quickly said, "Alright! Mr. Xia, I'll do as you say!"

Xia ruofei nodded and said, "then I'll have to trouble you to help us transport the goods!" We'll go with the car and won't be accompanying you back to quachakuarkos. "

"No problem!" Zhang Chao said, "the trailer of the truck is ready. We can set off now!"

Xia ruofei smiled and said, "then what are we waiting for?" Let's go!"

He had been delayed in Mexico for more than half a day, and the trouble here had been solved for Zhang Chao. Now he just wanted to return to peach source Island as soon as possible. He didn't want to waste a single moment.

“Yes! Mr. Xia, please follow me!” Zhang Chao said respectfully.

Soon, Zhang Chao brought Xia ruofei and Luo Qingfeng to the big yard behind the safe house. The container of firearms was placed there. The trailer of the truck was also there. It was the one that had been driven over from kuachakuarkos. The container was still loaded on it and had not been unloaded.

Zhang Chao first gave a few instructions to ah Qiang, asking him to inform everyone to stop their evacuation preparations and to stand by. Then, he asked for the truck’s key and personally drove Xia ruofei and Luo Qingfeng out of the safe house with the box of firearms.

Ishwaatlan and kuachakurakos were next to each other. Zhang Chao often came here, so he was very familiar with the roads here. He drove for about 40 minutes and arrived at a remote road.

There were very few vehicles here, and both sides of the road were barren land. There were almost no buildings in sight, so it could be said to be deserted.

Xia ruofei observed the surroundings and nodded in satisfaction. The place Zhang Chao had chosen was very much to his liking.

#### Chapter 2934 Returning to the house (1)

As Zhang Chao slowed down the car, he turned his head and asked, “Mr. Xia, there are usually very few people and cars on this road, you see ...”

Xia ruofei smiled and said, “very good, let’s do it here!” Let’s find a place to Park and unload the containers!”

“Yes!” Zhang Chao quickly said.

He drove a little further and saw an open space by the road. He turned the car around and stopped it on the open space.

It was very convenient for a container truck to unload cargo. The supporting leg of the rear compartment was lifted up, and the lock was unlocked. The trailer could be used to drive away.

After removing the car, Zhang Chao drove the mop a little and stopped. He jumped out of the driver’s seat and walked quickly to Xia ruofei.

Xia ruofei took the initiative to shake hands with Zhang Chao and said, “Brother Zhang, thank you!”

Zhang Chao quickly extended his hands and shook Xia ruofei’s hand tightly. He said, “Mr. Xia, please don’t say thank you to me. I’m not worthy of it! Compared to the help you’ve given us, what I’ve done for you is not worth mentioning! Right, can I just unload the things here? Do you still need my side to ...”

Xia ruofei waved his hand and said with a smile, “It’s done! We’ll leave the rest to ourselves! You can just arrange for someone to tow the back of the car away tomorrow!”

“Alright!” Zhang Chao said, “then ... Mr. Xia, I’ll go back first!”

“Go!” Xia ruofei smiled. “Let’s part ways here! We’ll meet again if we’re fated to!”

“Mr. Xia, goodbye!” After Zhang Chao finished speaking, he solemnly bowed to Xia ruofei and said sincerely, “thank you!”

Then, he walked quickly to the front of the truck. When he left, he honked at Xia ruofei and Luo Qingfeng to express his gratitude.

The truck quickly disappeared from sight. Xia ruofei then smiled at Luo Qingfeng and said, “We’ve been busy for half a day, we should go back! Let’s get to work!”

With that, Xia ruofei and Luo Qingfeng unlocked all the containers. Then, with a single thought, he stored the containers in the back of the truck into the spirit map space.

Although he already knew that Xia ruofei must have a storage magical treasure with a large storage space, Luo Qingfeng was still shocked to see Xia ruofei put away such a large container with his own eyes.

A storage treasure that could store such a large object was already priceless in the current cultivation world.

Furthermore, Luo Qingfeng also knew that in Xia ruofei’s storage treasure, there was at least a yacht in addition to the container. This meant that the space in the storage treasure might be much larger than he had imagined.

Xia ruofei kept the container easily and used his mental strength to check. After making sure that there was no one within a few kilometers, he smiled and said, “Qingfeng! Let’s return to the residence!”

“Yes! Master!” “Yes,” Luo Qingfeng replied respectfully.

The two of them summoned their flying swords at the same time. Their figures flashed and jumped on the flying swords. Then, two sword lights flashed. The two figures flew straight into the sky on their flying swords and soon disappeared in the horizon.

.....

The return journey was smooth and quiet, and the two of them flew for more than ten hours.

Of course, since they were not in a hurry, Xia ruofei stopped to rest twice on the way. He took out the yacht from the spirit map space, landed the flying sword, and rested on the yacht for about an hour before continuing to fly.

Due to the time difference, it was almost Teno’ clock in the morning the next day when the two returned to Peach Blossom Island.

It was a sunny day on the peach source Island. There were no clouds in the sky, and the blue sky and the sea were connected in a line. The scenery was very beautiful.

Xia ruofei and Luo Qingfeng rode on their flying swords and passed through the Taixu xuanqing formation, landing on the square in front of the Yanhuang building.

When the two of them activated the array, Li Yifu noticed it immediately. He quickly walked out of the building and saw two sword lights flying down from the sky. Then, he saw clearly that Xia ruofei and Luo Qingfeng had returned.

Li Yifu quickly came forward and bowed. "Martial granduncle! You've returned!"

Xia ruofei nodded with a smile and asked, "adopted husband, how has the island been these two days?"

"Reporting to grand uncle – Master, everything is normal!" Li Yifu said.

"By the way, where are Wei Wei and Qingxue?" Xia ruofei asked.

"They probably don't know that you're back yet, senior granduncle. I'll go and inform them right away!" Li Yifu quickly said.

Li Yifu was in control of the formation, so he sensed it immediately when someone touched it. Song Wei and Ling Qingxue naturally didn't have such a quick reaction.

However, just as Li Yifu finished speaking, Song Wei and Ling Qingxue appeared in front of Xia ruofei. They happened to see Xia ruofei and Luo Qingfeng coming on their flying swords from the window and quickly ran down the stairs, so they were just behind Li Yifu.

"Ruofei, you're back!" Song Wei said with a smile.

Ling Qingxue said with envy, "RUO Fei, we saw you flying on your sword just now! He's so handsome! I also want to ride a flying sword ..."

Xia ruofei laughed and said, "isn't that simple?" He just had to work hard in his cultivation! When you reach the Golden core stage, I will definitely get you a good flying sword! At that time, I'll naturally be able to ride a flying sword!"

"The Golden core stage ... It seems so far away!" Ling Qingxue said, "I've been cultivating for almost a year, but I'm only at the fourth level of the aura refining realm!"

Li Yifu and Luo Qingfeng almost vomited blood when they heard this, especially the old Li Yifu. Before he met Xia ruofei, he had spent decades and half of his life to reach the third level of the aura refining realm!

## Chapter 2935 Returning to the house (2)

Although Qingfeng Luo was already in the early stage of the Golden core realm, he had not broken through to the fourth level of the Qi refinement realm from scratch in a year when he was still in the Qi refinement realm. He had never even heard of it, let alone experienced it.

Xia ruofei laughed and said, "look at your adopted husband and Qingfeng's expressions ... You and Weiwei's cultivation speed is already fast enough." Believe me, if we continue to work hard at this speed, the Golden core stage won't be too far away!"

Xia ruofei was not simply encouraging Ling Qingxue. In fact, as his cultivation level improved, he would be able to obtain more resources in the future. It could be said that other than Ling Qingxue and Song

Wei's cultivation techniques being inferior to his, their cultivation conditions were better than when he had first started cultivating.

For example, the Taixu xuanqing formation on the Peach Blossom Island. Xia ruofei could not enjoy such an environment back then.

Besides, Xia ruofei's cultivation had already broken through a major realm. In the future, when he practiced the "absolute beginning Scripture" with Song Wei and Ling Qingxue, he would be of great help to them. Naturally, their cultivation speed would be faster.

Everyone stood in front of the building and chatted for a while. Xia ruofei said, "Foster husband, I'm going to put the equipment we brought back from Mexico in place. By the way, has the Guard's military camp been built?"

"It's been built according to your instructions," said Li Yifu quickly. The guards are stationed at the former mercenary camp. Many of the buildings and facilities are already there. They only need to make some modifications to the original foundation, and they have all been completed now!"

"Very good!" Xia ruofei nodded and said, "let's go! Let's go and take a look!"

Ling Qingxue and Song Wei had a lot of free time on the island, so they naturally followed along.

The Paradise Island was not big, and Xia ruofei wanted to patrol the area to see if there was anything that needed to be improved, so he decided to walk.

The group walked for more than ten minutes and arrived at the guard station set up in the forest.

As the previous group of mercenaries had been stationed here, the watchtowers, barracks, and fortifications were all ready. In order to make it more suitable for the guards to be stationed here, some modifications had been made later on. Now, in the eyes of a professional like Xia ruofei, the military camp was basically complete.

Xia ruofei had specially designed two sturdy cement rooms as weapon and equipment warehouses. The two warehouses had thick reinforced concrete walls and sturdy iron doors. They were also equipped with advanced password locks and many surveillance cameras. The walls were also connected with barbed wire. The electricity on Xuanji Island mainly relied on solar and wind power, so it was basically self-sufficient. If the weather was bad and there was a power shortage, the cave shelter had a diesel generator set. It could provide power to the entire island in an emergency.

In fact, when Peach Blossom Island was still called green cloud Island, the Liu family had already spent a lot of time and money to transform it. Now, there was no problem with water and electricity on the island. In addition, there was also a small water treatment plant that could process the sewage produced every day. It could be said that there were no other problems in life except for the domestic garbage that needed to be transported out of the island to be dealt with.

For the rich who could afford to enjoy private islands, the garbage disposal fee, which was very expensive in the eyes of ordinary people, was naturally nothing.

Of course, in order to maintain the normal operation of the island, a lot of staff was needed. This included the water treatment plant, the airport, and other places that needed professionals to take up

positions. In addition, there was also cleaning of the environment, maintenance of water and electricity facilities, road maintenance, and so on. These positions were indispensable.

Li Yifu walked over and opened the password lock. There was a small courtyard inside, and the entire Equipment Warehouse was a small two – story building. A squad would be assigned to guard the first floor in the future, while the two rooms on the second floor were naturally for storing weapons and equipment.

Xia ruofei and the rest entered the room in a single file. They went straight through the courtyard and took the stairs to the second floor. Li Yifu opened the lock on the warehouse door.

Xia ruofei took a look and realized that the warehouse had been installed with rows of steel frames and gun cabinets. The doors and windows of the warehouse were also very sturdy. There were also sensors installed on the doors and windows. Once someone broke in, the alarm would make a piercing sound.

Iron doors, iron windows, iron cabinets, and alarms. This was completely built according to the standard of “three iron and one weapon” in the Army’s weapons and equipment Warehouse.

Xia ruofei nodded in satisfaction.

He did not enter the warehouse directly. Instead, he stood in the corridor outside the door. With a thought, he took out the large container from the spirit map space and placed it in the small courtyard on the first floor.

Ling Qingxue, Song Wei, and Li Yifu were all amazed when they saw Xia ruofei take out such a huge container from his storage space. Even Luo Qingfeng, who had seen it before, could not help but look envious.

Xia ruofei didn’t go downstairs. Instead, he controlled his spiritual power and went over.

In an instant, the lock of the container in the first – Floor yard was unlocked, and the door of the container opened by itself.

Then, Xia ruofei waved his hand and all the weapons and equipment in the container flew out of it as if they were caught by an invisible hand. They flew up to the second floor and entered the weapons warehouse like a long Dragon.

Then, there was no need for anyone to organize them. Under Xia ruofei’s control, the weapons and equipment flew directly to the iron shelves and cabinets. All the equipment was arranged in their respective positions according to their different models.

Song Wei, Ling Qingxue, and the rest were all stunned. Even Luo Qingfeng looked at Xia ruofei with a shocked expression. Xia ruofei’s little trick actually required a very strong spiritual power and a very detailed control.

Looking at Xia ruofei’s relaxed expression, Luo Qingfeng knew that he had not used his full strength. From this move alone, it could be seen that Xia ruofei’s spiritual power cultivation and control of spiritual power were stronger than his, a golden core cultivator who had broken through many years before Xia ruofei.

From the time Xia ruofei took out the container to the time he arranged all the weapons and equipment neatly, the entire process only took two minutes.

With another thought, Xia ruofei kept the empty container into the spirit map space. The Qingqing Guard's military camp was not big to begin with, and this weapons and equipment Warehouse was even smaller. The container alone took up more than half of the courtyard's space, so naturally, Xia ruofei would not leave it outside to get in the way. Instead, he kept it directly into the spirit map space.

Anyway, there was a lot of space. If the container was useless, he could just sink it to the bottom of the sea the next time he flew out on his sword.

Ling Qingxue and the others couldn't help but take a look around the weapons and equipment Warehouse. They saw that the shelves and cabinets were filled with equipment, and they were all neatly arranged. Even the grenades were placed in fixed positions. The empty boxes were piled up in a corner of the warehouse. There were also shiny firearms placed neatly on the gun rack. Even the crosshairs were aligned in the same direction.

Everyone was amazed. At the same time, as cultivators, they had been taught a lesson by Xia ruofei. They now had a direct understanding of how high one's spiritual power could be and the importance of it.

While everyone was looking around, Xia ruofei was not idle. He stood at the entrance of the equipment Warehouse, took out his phone, and dialed the number of the old company commander, Ma Su.

"President Xia, you've finally remembered us!" Ma Jia answered the phone and said half-jokingly.

Xia ruofei laughed and said, "Old company commander!" From your tone, why do I feel that my comrades are not having a good time in the Three Mountains? Was the guarantee at Taoyuan Farm not in place? I'll call them immediately to criticize them!"

Chapter 2936 Full speed\_

"Don't!" Ma Su quickly said, "Ruofei, I was just joking with you! The farm serves us with good food and drinks every day! It was because of this that the brothers felt uneasy! You're just eating and not working, and we haven't even arrived at the base yet, and you're already paying everyone their salary!"

Xia ruofei laughed and said, "Old company commander, sharpening a knife will not delay the work of cutting wood!"

"The blade is already polished until it's shiny! Everyone's looking forward to chopping wood!" Ma Su said, "Ruofei, we can only do some basic training in the country. We can't get any equipment. I think we're almost ready now. You'd better arrange for everyone to go to the island as soon as possible!"

Xia ruofei smiled and said, "Old company commander, I'm calling you to tell you that everything is ready on Peach Source Island. Everyone's barracks have been built, and the first batch of equipment has arrived. Since everyone is eager to fight, let's get ready and set off in a few days!"

"That's great!" Ma Su was overjoyed. We've been looking forward to this day!"

"Old company commander, you can sort out a list of names and send it to my email! I'm going to book a plane to pick everyone up, and the name list must be specific to everyone." Xia ruofei said, "You have to

provide a name list of the accompanying people. For example, isn't sister – in – Law coming this time? That must also be reflected in the list. ”

“No problem!” Ma Jia said, “this time, your sister – in – Law is the only person who is not part of the guard. I will send the list to your email in a while!”

“Alright!” Xia ruofei said, “old company commander, please get everyone ready in the next two days and wait for further notice!”

“Alright!” Ma Jia said excitedly.

After hanging up, Xia ruofei called his assistant at peach blossom company, Qin Yanan, and gave him some instructions.

At this moment, Song Wei, Ling Qingxue, Li Yifu, and Luo Qingfeng all walked out of the weapons and equipment Warehouse. Everyone looked at Xia ruofei with admiration.

Xia ruofei called for everyone to go downstairs. As he walked, he said to Li Yifu, “Foster husband, there shouldn't be any problems in the guard Camp. I just took a look. Everyone's dormitories, kitchens, dining rooms, training grounds, warehouses, and so on are all complete. All the facilities are basically in place, so I'm going to gather the guards here and get them to get to work as soon as possible.”

“Yes! Senior granduncle!” Li Yifu nodded and asked, “is there anything I can help you with?”

Xia ruofei thought for a while and said, “with more than a hundred people coming here together, we definitely have to book a plane.” I'm thinking ... Why don't we just book a bigger plane from Australia so that everyone can have a more comfortable flight!”

“No problem! Leave this matter to this disciple!” Li Yifu said without hesitation.

The Hong sect was quite powerful in Australia, especially Li Yifu, who had a close relationship with Tang Yitian. He could coordinate the charter of the plane from Australian Airlines at any time.

Of course, with Tang Yitian and Xia ruofei's relationship, as long as Xia ruofei asked, he would naturally take care of everything. It was just that Xia ruofei didn't want to worry about these trivial matters. Besides, he was more at ease to leave it to Li Yifu.

Xia ruofei nodded and said, “yes!” I'll give you the contact information of the person in charge of the whale Island guard, and you'll be in charge of the details. ”

“Yes! Senior granduncle!” Li Yifu nodded and said.

“Adopted husband,” Xia ruofei continued, “before we pick up the guards, there's one more thing that must be done.”

“Grand uncle – Master, what are your instructions?” Li Yifu quickly said.

“We have to recruit staff for other positions on the island first.” Xia ruofei said, “you have a lot of connections in Australia and North America. You should know what kind of people are needed on the island, so I'll leave this matter to you.”

“Alright, martial granduncle!” Li Yifu said, “I will get it done as soon as possible!”

Xia ruofei nodded."I'm thinking of registering another company. It'll be in charge of managing the secular Affairs of Paradise Island. This way, the salary of all the staff, including the guards, can be paid through this company."

"This is a good idea!" Li Yifu asked,"great uncle – Master, do you want to register this company in China or overseas?"

Xia ruofei thought for a while and said,"I think we should register an offshore company in Cayman Islands and then have 100% control of a domestic company." It's more convenient this way. "

Many employees from China, including Ma Jia and his family, needed to apply for insurance and housing Fund, so it was more convenient to stay in a local company.

In the beginning, Xia ruofei wanted to hang them at paradise Corporation. After some thought, he decided that it was better to separate them. Although he had absolute control of the company and owned a majority of the shares, Feng Jing and the other higher – ups of the company all had a small share. In the future, Xia ruofei would gradually release more shares to motivate his employees. Therefore, it was best for those who had nothing to do with paradise company to leave. Otherwise, it would be difficult to do the accounting.

"No problem!" Li Yifu replied. Martial granduncle, this disciple's company in the United States has people who specialize in this area, so let this disciple handle the registration of the company!"

"Mm! You'll have to work hard for the next few days!" Xia ruofei nodded slightly and said,"there are very few people available right now and you are someone I absolutely trust. So, I can only rely on the capable to do more work!"

Chapter 2937 Full speed operation\_

"Senior granduncle," Li Yifu said excitedly,"this is a disciple's duty. Please don't say that!"

Xia ruofei patted Li Yifu's shoulder and said,""After a period of time, when everything is on the right track, you can stay on the island and cultivate in peace! I should be spending more time on the island, and this will be our base camp from now on! If you have any problems with your cultivation in the future, you can come and ask me at any time. "

"Yes! Thank you, senior granduncle!" Li Yifu said, touched.

"The recruitment and the registration of the company can be started at the same time." Xia ruofei said,"if we can't find enough people, we'll give priority to the normal operating conditions of the airport. The positions of the administrator and stewardess must be filled as soon as possible. Otherwise, the charter flight of qucan't be used to Fly to Paradise Island."

When Xia ruofei and the others took the public jet paradise to come here, they had already landed on their own when they were supposed to be in charge of the tower. The airport's automatic navigation equipment was always in operation, and there were absolutely no other planes in the airspace and on the airport runway. In addition, the pilot was also his own employee, so although this operation was a little illegal, there was no problem.

If it was a charter flight by a regular airline, the pilot would not be able to control the plane to land on his first flight to the airport without the tower's command.

Therefore, the airport's normal operation was the top priority.

"This disciple understands!" Li Yifu said, "don't worry, senior granduncle. I will complete the recruitment of airport staff as soon as possible!"

Xia ruofei nodded and said, "yes!" One more thing to take note of was to ensure that the personnel were absolutely reliable! Also, I will personally interview every person you recruit. Not a single one can be left out!"

"Yes!" Li Yifu replied solemnly.

He knew Xia ruofei's rules. The workers he had hired to carry out the reconstruction work had to be personally interviewed by Xia ruofei. Of course, he also knew the importance of the Paradise Island, so he agreed with Xia ruofei's actions. He also believed that one could never be too careful when it came to safety.

The group of them chatted as they walked and soon returned to the Yanhuang building.

In the next few days, Xia ruofei focused on his cultivation. While he was working hard to consolidate his cultivation, he also spent as much time as possible with Song Wei and Ling Qingxue.

The days of pure – heartedness had finally become history. Now, the three of them had basically formed a tacit understanding. Xia ruofei took turns to accompany Song Wei and Ling Qingxue in "cultivation" in days. While he was cultivating, he naturally enjoyed the good fortune of being with women.

There was still about a week before the auction, and the cultivation environment on the Paradise Island was much better than that of the star Seizer sect. Therefore, Luo Qingfeng did not return to the sect and stayed there to cultivate.

Anyway, the invitation was in his storage ring. He could just go with Xia ruofei from here.

Li Yifu was busy with the complicated tasks that Xia ruofei had given him.

If these tasks were given to an ordinary person, they might not be able to do it in a month or two. However, Li Yifu had a unique advantage. Not to mention registering a company, he had a group of professionals in his own company. It could be said that he was familiar with the process. It was said that he could settle both companies in a week at the earliest, and the equity relationship was also very clear.

In terms of recruitment, Li Yifu's strong network also played a role. The Hong sect itself was full of talents, so he also gave priority to selecting disciples from the Hong sect. Although the Peach Blossom Island was isolated overseas, there were still many people who applied. Everyone was looking for Li Yifu, the big boss of the Hong sect.

Li Yifu was highly respected in the Hong sect. If she could work beside Li Yifu, her status in the Hong sect would naturally rise.

In addition, Xia ruofei had helped Li Yifu find two prescriptions from the cultivation classics and easily made pills that could enhance the physical quality. He had also let Li Yifu spread the news. Some young disciples of the Hong sect who wanted to improve themselves were even more eager to get the pills.

As for some relatively unpopular professional positions, Li Yifu had also successfully recruited suitable talents through his business connections.

These people had gone through a round of remote interviews. The airport was in urgent need of administrators, aircraft maintenance personnel, meteorological professionals, and so on. There were about 15 or 16 people, respectively in Australia and the United States. Xia ruofei simply sent the business plane paradise to fly twice and bring these people to Paradise Island.

Naturally, Xia ruofei had to conduct the individual interview.

He still used the spirit hypnotism technique that had worked every time and checked everyone's background. The people Li Yifu found were quite reliable. Except for one person's resume, which was flawed, the others had no problems. There was not a single person who had sneaked in with ulterior motives.

The one with a flawed resume was not a fake resume. Under Xia ruofei's hypnosis, he told Xia ruofei everything about himself. Xia ruofei judged that he was barely qualified for the job, so he didn't pursue the matter and let him stay.

Of course, the main reason was that this person's position was at the airport's weather control station. Xia ruofei had already decided that the position of the person in charge of the weather control would be reserved for Ma Jia's lover. Therefore, this person would only stay to help out. He was basically competent.

As for the staff in the other positions, it was not the time to worry about them yet. Moreover, these people did not set off from the same place, so Xia ruofei could not be extravagant enough to send a private plane to pick them up one by one.

Therefore, they mainly took the plane to the nearby Island and then came up by boat.

Xia ruofei had already asked Li Yifu to purchase two passenger ships for future transportation between peach source Island and the nearby islands. In the future, with more staff, everyone would naturally have the need to leave the island. At that time, these two ships could directly be changed into regular logistics ships, making it convenient for everyone to enter and leave the island.

After the airport began to operate normally, the garrison personnel on the island was naturally put on the agenda.

Tang Yitian had already arranged for a Boeing 757 plane from Australia to set off at any time to pick up the people in the three mountains.

Before everything was ready on the peach source Island, Li Yifu and Ma Su had communicated with each other several times. Soon, they decided on the departure time. Then, the charter plane in Australia took off on time and headed for the Sanshan International Airport.

.....

Taoyuan farm.

The guards had already cleaned up the room.

They lived in the vacant staff apartment of Tao Yuan farm. Today, they were leaving for Tao Yuan Island. They had never lost the good work style of the People's Army. Before leaving, Ma Jia organized everyone to clean the surrounding environment and the apartment they lived in.

When the team members gathered below the apartment, the rooms they had lived in were all clean and bright. The sheets on the bed did not have a single wrinkle, and the blankets were folded into neat tofu blocks.

Three Golden Dragon buses with the LOGO of the Paradise Corporation slowly drove into the paradise Farm and stopped in front of the employees 'apartment building.

Xia ruofei's assistant, Qin Yanan, was here with a car to send them to the airport.

After some small talk with Qin Yanan, Ma Jia organized everyone to board the train.

After getting on the bus, everyone saw that there was an identical camouflage suitcase next to each seat. There was also an army green sign hanging on it with everyone's name printed on it.

When everyone saw the luggage, they were stunned.

Qin Yanan was holding a small megaphone used by tour guides. She smiled and said,"Hello, everyone! I'm President Xia's assistant, Qin Yanan. President Xia has specially instructed me to prepare the luggage beside everyone's seats. President Xia said that everyone should be able to use these things when they get to work!"

#### Chapter 2938 Star level service (1)

On the other two buses, the staff that Qin Yanan had brought along was also making the same introduction.

Ma Jia was the person in charge of the guard, so he was naturally on the first bus. After hearing Qin Yanan's words, he smiled and said,"He even prepared a surprise for everyone! Then I'll open it and take a look!"

Qin Yanan smiled and nodded,"sure!" The initial password is six 1s, you can change the password later as you need!"

Ma Jia picked up the camouflage suitcase with her name tag and said with a smile, "It's quite heavy!"

He placed the suitcase in the middle of the aisle, then deftly unlocked it with a password lock and unzipped it. The contents of the suitcase were immediately revealed to everyone.

The whale Island guards also gathered around curiously, wanting to see what Xia ruofei had specifically asked Qin Yanan to buy for everyone.

The big suitcase was almost filled with all kinds of daily necessities, from large vacuum mugs and shampoo to small band – Aids, toothpaste, toothbrushes, and more. There were at least dozens of things in it, including snacks and daily necessities. Ma Jia even found a bottle of Lao Gan Ma, which was

probably prepared to prevent the team members from not getting used to the food on Paradise Island. It could be said that there was such a guarantee package. He didn't need to prepare anything. After all, the guards worked on the island, and their clothes were all issued in the same uniform.

Qin Yanan smiled as she introduced,""President Xia specifically instructed me to do this. Everyone's box contains the same thing. President Xia said that it's not convenient to shop at your workplace and was worried that you didn't bring everything, so he simply used the company's funds to give everyone a portion!"

Ma Jia silently closed the box. The other guards didn't say anything either, but a warm feeling began to flow in their hearts.

They had been very serious about this job because of their friendship. Xia ruofei's thoughtful action made everyone feel a stronger sense of belonging.

After the small interlude, the three buses set off on time and drove out of the gate of Tao Yuan farm in a single file. Soon, they turned onto the National Highway and headed for the Sanshan International Airport, which was also located in Changping County.

The security team took a chartered flight, and Qin Yanan had also come out in advance to coordinate in the name of the Paradise Corporation. The airport had specially opened a fast lane, and this time, everyone heading to Paradise Island would quickly pass through the security check through this Lane, and then take the long – prepared shuttle bus directly to the tarmac.

Qin Yanan and two other staff members, who had completed the procedures in advance, also followed everyone to the tarmac.

A Boeing 757 of qplease was quietly parked in the plane. The captain, along with three other pilots and crew members, stood by the accommodation ladder to welcome them.

After getting off the shuttle bus, the security guards quickly lined up and pushed the same camouflage suitcases toward the plane. They looked like an Army except for the fact that they were not wearing standard Chinese military uniforms.

Qiuhan was equipped with two flight crews for this flight, which were two captains and two co – pilots. The two flight crews would take turns to rest and complete the mission together.

With the Boeing 757's cruising ability, this flight would not need to stop at any airport for refueling. After taking off from San Shan, they would directly land at Peach Blossom island's airport.

Considering that the runway of Peach Blossom Island Airport was a little short, qplease airlines also specially arranged an experienced pilot instructor, Nielson, to be the first pilot.

Standing at the front of the welcoming team, Nelsen took a few steps forward and said to the leading horse Deputy in English with a smile,""Welcome to our flight! I would like to welcome you all on behalf of quité airlines and the flight crew!"

Although Ma Jia had also graduated with a bachelor's degree, after working in the Army, the English he had learned in college had basically fallen behind. Plus, Nelsen spoke a little fast, so he didn't understand much.

Fortunately, Ma Jia's family member Lin Yue's English wasn't bad. She looked at Ma Biao with a smile and temporarily took on the role of a translator.

After Ma Jia heard Lin Yue's translation, she shook hands with Nelson and said in English, which she was not very proficient in, "Thank you! You've all worked hard!"

Although listening, reading, and writing had deteriorated a lot, Ma Jia still had no problem with some simple English conversations.

He originally thought that Nelson was just being polite, but he didn't expect that Nelson would say a lot of words at a very fast speed. It was difficult for him to guess what it meant from the few words he barely heard, so he turned his eyes to Lin Yue for help.

Lin Yue also revealed a puzzled expression and shrugged her shoulders, "The captain said that Captain Brook had a strong desire to take this flight, but unfortunately, he flew on an Airbus, while Mr. Xia rented a Boeing plane. Of course, the most important thing was that he had retired not long ago, so he could not fly even if he wanted to. Those were his exact words, I don't know what he meant ..."

Ma Jia was confused. She thought for a while and said, "Then why don't you ask him who Brook is?"

"Wouldn't that be a little rude?" Lin Yue hesitated for a moment.

While the two were whispering, Nelsen quickly said in English, "I forgot to tell you, Brook and I are very good friends. We were classmates in the aviation school, but after we returned to the company, we were arranged to learn how to fly different aircraft models. By the way, you guys still don't know who Brook is, right?"

Chapter 2939 Star level service (2)

Lin Yue quickly translated these words for Ma Jia and then said, "Yes, Mr. Captain! We really don't know who this Captain Brook is ..."

Nelsen laughed and said, "That's a lucky guy! If Mr. Xia had not been on the plane that time, Brook would have been buried in the sea! Therefore, when he heard that Mr. Xia had entrusted the Mei 'ya group to rent the plane, Brook wished he could put on his flight uniform again and learn how to fly a Boeing plane again! Hahaha!"

Back then, Xia ruofei had turned the tide and saved an Airbus A350 from Macao. That was big news. It was also because of this that Xia ruofei became a popular celebrity on the internet. Therefore, whether it was Lin Yue or Ma Su, who was in a closed-off camp at that time, they were very familiar with this matter. When they heard what Nelson said, they immediately reacted. It turned out that Brook, whom Nelson had mentioned, was the captain of the plane that Xia ruofei had saved.

At this moment, a person came out from behind the accommodation ladder and said, "Nelsen! Can't you leave me some face in front of my Chinese friends?"

Ma Su and Lin Yue took a closer look and could still vaguely recognize that this should be the key figure in the forced landing of Captain Brook, Jian Jia, because of a Chinese man. Therefore, the local media had carried out a lot of reports. As one of the main characters, Brook's image also frequently appeared in the media reports, so the two of them more or less had some impression of him.

Captain Brook was also wearing a short – sleeved flight uniform today, but he didn't wear the captain's epaulet. It was probably because there was a rule in Australia that retired captains were not allowed to wear epaulets to perform missions.

Nelsen laughed and hugged Brook. Then, he said to Ma Jia and Lin Yue, "Let me introduce to everyone, this is the lucky Captain, Mr. Brook! Under his strong request, the company agreed to let him participate in this flight mission as a consultant ..."

Nelsen shrugged and said, ""God bless, I hope he doesn't affect the safety of the flight!"

Brook glared at Nelsen and said, ""Hell! You old man, stop talking!"

After that, Brook put on a sincere smile and said to Ma Jia and Lin Yue, "Hello, Chinese friends! Welcome to this flight!"

Brook was speaking Chinese, but his accent was very strange. Fortunately, he could barely understand what it meant. He probably learned it at the last minute and memorized the syllables.

"Thank you!" Ma Jia said in English with a smile. Captain Brook!"

Brook then switched to English and said, "For the next ten hours, I promise you'll receive the best service from Quto's staff! Because you're Chinese and Mr. Xia's employees, you're qiuhan's most distinguished guests!"

After Ma Jia heard the translation, she nodded and said, ""Thank you very much! Thank you for your hard work, everyone!"

He sighed in his heart. Xia ruofei was no longer the little soldier in his company. Now, not only did he have a net worth of hundreds of millions, but he also had a prominent identity and amazing connections. Even the foreign airline company and pilot respected him so much.

"I've already taken up quite a bit of everyone's time, so ... Let's board the plane quickly!" Brook said with a smile. I don't want to delay Mr. Xia's business because of our small talk!"

Ma Jia nodded, then waved her hand and ordered, ""Two roads to the left! Boarding! The two on the right, follow from the back!"

The security guards immediately formed two rows and stepped up the ramp in neat steps. They entered the cabin and placed their luggage and took their seats under the guidance of the flight attendant.

Ma su and Lin Yue stood beside the accommodation ladder. After all the members had boarded the plane, ma su said to Qin Yanan, who came to the tarmac to send the plane off, ""Manager Qin, everyone has worked hard today, please go back!"

"Captain MA, then I wish everyone a safe journey!" Qin Yanan said with a smile.

Ma Jia nodded and shook hands with Qin Yanan before climbing up the accommodation ladder with Lin Yue. He stood at the cabin door and waved goodbye to Qin Yanan and the other two staff members on the tarmac. Then, he turned and walked into the cabin.

After everyone boarded the plane, the cabin door was quickly closed. The pilots entered the cockpit to prepare for take – off. Usually, during a dual flight, both flight units would be in the cockpit at the same time during the take – off and landing stages. This way, if there were any special circumstances, they could deal with it together to maximize the utilization of the cockpit resources. Therefore, the so – called taking turns to rest was when the plane was cruising in the sky.

Brook was not responsible for the flight, so he did not enter the cockpit immediately.

The arrangement of quinba was very thoughtful. The flight crew also arranged two Chinese female flight attendants. One of them was a senior employee who would be the chief flight attendant of the chartered flight.

After all, the Chinese face could make these Chinese passengers feel closer. Moreover, the Chinese of these two people was quite good, so they could communicate well with the passengers during the flight.

During the preparation stage of the flight in the cockpit, the Chinese female Purser gave everyone a routine safety reminder in Chinese.

Then, Brook appeared at the front of the cabin with a microphone in his hand. The female attendant stood beside him as a translator.

Brook greeted everyone with a smile. Then, he reminisced about the unforgettable horror in the air. Finally, he said with emotion, “It’s no exaggeration to say that Mr. Xia ruofei gave me a Second Life. He allowed me to fly my last flight and retire safely! I’m very grateful to Mr. Xia and all the Chinese people! Therefore, I’m very honored to be able to join the crew as a non – staff Consultant to serve our distinguished guests! I hope that everyone will be able to enjoy this trip in the next ten hours! If you have any needs, please feel free to ask me or the purser. We will do our best to satisfy you!”

After the Chinese chief flight attendant translated Brook’s words, the cabin was filled with warm applause.

Everyone felt a sense of honor and pride in their hearts.

At the same time, everyone admired Xia ruofei even more. They were full of anticipation for their future work under Xia ruofei.

Soon, the flight controlled by quinba was allowed to be pushed out. Brook also returned to the cockpit after bowing to everyone.

The Boeing 757 heavy – duty aircraft of Qinba was moving and stopping on the runway before it was finally allowed to enter the runway and take off.

The pre – take – off inspection had been completed during the taxiing process. When the nose of the plane was aimed at the runway, Nielson immediately pushed the throttle handle to the take – off thrust. The plane gained a surge of power and began to increase its speed rapidly on the runway.

The security guards in the cabin felt a strong push on their backs, and the scenery outside the porthole was quickly moving backward.

The plane's speed was getting faster and faster. When it reached VR, Nelson gently pulled the control stick back, and the heavy passenger plane suddenly rose into the air. The heavy body of the plane steadily flew into the sky under the effect of the lifting force on both wings.

The security guards looked at the building outside the porthole getting smaller and smaller, and each of them couldn't help but feel excited. They were slowly looking forward to a new life.

After more than 20 minutes of climbing, the Boeing 757 finally entered the cruising altitude. When the seat belt indicator light went out, one of the flight crew's pilots returned to the cabin to take a break, and the crew began to busy provide food service to the security members who were on the chartered flight.

Just as Brook said, Qinba provided service to everyone with the highest standards. Even the side dishes on the plane were much more sumptuous than those in the economy Class on ordinary flights. This was not agreed on in the charter contract. It was an additional service provided by Qinba.

#### Chapter 2940 Safe arrival (1)

During the ten – hour flight, the security guards had truly experienced what it meant to have meticulous service.

While the plane was cruising, the two flight crews worked in shifts, shuttling back and forth in the cabin almost non – stop to provide the most thoughtful service at all times.

When she was almost done with her drink, she didn't even need to press the bell for a beautiful flight attendant to fill it up. The three meals were even more sumptuous. In addition, qihang also provided each passenger with an exquisite wash bag, which contained a full set of bulgari's nursing suit ... Except for the seats in Economy Class, the service was completely first – Class.

This was truly like home to the guests. While the security team members enjoyed super – Standard and high – Quality service, they once again saw Xia ruofei's omnipresent influence through these details.

When the first ray of morning light shone through the porthole, the seat belt indicator light in the cabin finally lit up. The plane had entered the descent phase.

After the flight attendants confirmed that everyone had fastened their seat belts, straightened their seat backs, and put away the small table, they finally finished their work and returned to their seats.

The Boeing 757's huge body slowly descended under the pilot's control. Soon, the runway that extended to the sea on Peach Garden Island appeared in their view.

There was absolutely no problem for a Boeing 737 to take off and land on Peach Garden island's airport runway. If it was a Boeing 757, the length of the runway barely met the standard, but it required the pilot to have very precise control and find the landing point very accurately. Once there was a slight flat drift, they could only fly back. Otherwise, it was easy to go off the runway due to the insufficient length of the runway.

Therefore, the landing operation was also personally completed by the most experienced captain Nelson.

With one hand on the control stick and the other on the accelerator, he focused on controlling the plane to descend steadily along the runway.

Xia ruofei had already arrived at the airport. At the same time, he was controlling the Taixu xuanqing formation to fully activate it on the side of the runway.

The staff of Peach Blossom Island Airport had also entered the zone. This was the first time the administrator of the tower had directed the landing of an aircraft on Peach Blossom Island. However, the route on Peach Blossom Island was relatively simple, and there were no other aircraft taking off and landing in the airport, so they only had to strictly follow the standard procedures to command.

The Australian airline Boeing 757 was getting bigger and bigger in everyone's field of vision. Soon, it entered the end of the runway steadily, and then it gently touched the ground at the expected landing point. Nielson's entire operation was almost flawless and could be said to be close to perfect.

The reverse thrust of the engine was turned on, and the plane began to slow down rapidly. Finally, at the second last Exit, the plane had already dropped to the safe speed for taxiing and left the runway smoothly.

Nielson's technique was indeed excellent, for such a heavy aircraft to land on a short runway with a few hundred meters of space left.

The airport's Guide car was already waiting on the runway. The guide car with flashing yellow lights LED the Boeing 757 to the scheduled parking spot.

When the plane descended through the clouds, the security guards on the plane couldn't help but look out the porthole.

At that stage, all one could see was a deep blue ocean.

During the aircraft's approach process, there was a turn. When the turn was carried out, Peach Garden Island happened to be on the right side of the aircraft. Everyone immediately saw the small island that looked like a Pearl embedded in the sea. The lush vegetation and white beach on the island were clearly visible. The water around the island also changed according to the depth of the water, gradually changing from light blue to dark blue, looking very layered.

Everyone was intoxicated by the beautiful scenery in front of them and felt even more strongly that joining the guard team was the correct choice.

When the plane landed, whether it was the security team or the crew of qiuhan, they all felt the refreshing atmosphere of the Paradise Island. No one knew the existence of Reiki, but they felt as if there was a hint of sweetness in the air, which made them feel refreshed.

After the plane taxied into position and stopped the engine, the ladder truck that was already prepared on the side drove over and firmly fixed the ladder to the door position.

A ground crew member quickly ran up the accommodation ladder and knocked on the cabin door.

After receiving the signal, the flight attendant immediately opened the cabin door.

Ma Jia unbuckled her seat belt and stood up. She began to organize everyone to pick up their luggage and get off the plane in an orderly manner.

Ma Jia and Lin Yue walked at the front of the group, and Xu Yougang was at the back.

In addition to the Veterans of lone wolf, there were also some old comrades that Xu Yougang had contacted. These two groups of people formed the main body of the peach blossom guard.

Hence, Xia ruofei had basically decided that ma su would be in charge of the guard in the future, Xu Yougang would be the Deputy, and the officers of lone wolf would be in charge of one piece of work.

As soon as Ma Jia and his lover, Lin Yue, came out of the cabin door, they saw Xia ruofei, who was waiting for them with a smile on his face. They hastened their steps.

Xia ruofei laughed and walked up to Ma Jia to give her a hug. Xia ruofei had wanted to shake hands with Lin Yue, but Lin Yue graciously imitated him and hugged him.

"Old company commander, sister – in – Law, was the journey smooth?" Xia ruofei asked.

"It's too smooth! Along the way, the people from Quto treated us like they were the Masters!" Ma su said, "ruofei, you're the most respected!"

Xia ruofei was stunned and asked, ""My face?"

Lin Yue rolled her eyes at Ma Jia and said with a smile, "Ruofei, I think qplease airlines knows that you're the one who rented the plane, so they're very friendly to us! By the way, there's also a Captain who said that he's an old acquaintance of yours. He sees us Chinese as if we're his family!"

Just then, Xia ruofei heard a warm voice from above. ""Hey! Xia! We meet again!"

Xia ruofei looked up and saw Brook sticking his head out of the side window of the cockpit and waving at Xia ruofei.

Brook was also very surprised. Although he knew that Xia ruofei had rented the plane for his employees, he did not expect to see Xia ruofei here because the destination was a small island in the South Pacific Ocean.

When Xia ruofei saw that it was Brook, he was also very surprised. He and Brook were really fated to meet. The first time they met, there was a hijacking incident, and the two of them worked together to avoid a huge life and death crisis. The second time, the plane he took landed one after the other, the Airbus 350 with the peach blossom corporation's LOGO and special paint, and just happened to be in time for Brook's last flight before his retirement. He witnessed Brook's plane fly over the Watergate and his retirement ceremony. And today, he met Brook for the third time on the Paradise Island.

It had to be said that the two of them were indeed fated.

Of course, this third encounter was something Brook had strongly requested and fought for.

Xia ruofei also waved at Brook and said loudly, ""Hey! Captain Brook! We'll talk later!"

Half of Brook's body was already out of the window. Xia ruofei was really worried that the old man would fall down accidentally. The cockpit of a Boeing 757 was very high. If he fell, he would be half – dead even if he did not die.

The security team members also walked out of the cabin in a single file and walked down the accommodation ladder in an orderly manner.

Xia ruofei waved to everyone and smiled as he nodded.

Ma Jia beckoned to Xia ruofei and began to organize the team.

Xia ruofei, the boss, personally came to the airport to welcome them, which made everyone feel honored. The Veterans who had worked with Xia ruofei in the Army all smiled and greeted him.

Everyone had a strong sense of novelty. After more than ten hours of long – distance flight, they still did not feel tired at all.

After all the security guards had alighted from the plane, Brook walked out of the cabin immediately. He quickly walked down the ramp and came to Xia ruofei.

Upon seeing Xia ruofei, Brook gave him a big hug and said happily, ""Xia! I didn't expect to see you again on this small island in the South Pacific Ocean! Is this what you Chinese people call 'meeting by fate'? By the way, I've been learning Chinese recently. Oh ... Your language is really difficult!"

Xia ruofei laughed. "Brook, 'we're fated to meet' is usually used to describe couples. It's not suitable here."

Then, Xia ruofei asked again, "by the way, didn't you retire?" Why are you still participating in the flight mission?"

Brook smiled and explained to Xia ruofei the reason for his appearance on the chartered flight. At this time, Captain Nelsen and the crew walked down from the plane. Except for the co – Pilot who was finishing up in the cockpit, all the crew members were present.

Brook then introduced Nelsen to Xia ruofei. He said, ""Xia, this old man is Nelsen. He's my classmate in the aviation school, but he's two years younger than me, so he can fly for another two years!"

"Captain Nelsen, thank you for your hard work in renting my plane!" Xia ruofei smiled and said, "my staff told me that qiuhan's service is very thoughtful. They are very grateful!"

...

"You're welcome, Mr. Xia," Nelsen said with a smile. You will always be our Quto airlines 'distinguished guest! "Every Air Australia fleet has learned about your case of forced landing. It was truly shocking! To be honest, even a professional pilot might not be able to do it better than you. It was a miracle that an amateur who had never flown before could do that! So, you're the idol of all of us qucan pilots!"

"Hahaha! You flatter me!" Xia ruofei smiled and said, "although I can't rule out the possibility that I have a certain talent for flying, don't forget that a person's survival instinct is very strong and can bring out their full potential. If I were to fly again in a simulator, I'm afraid I wouldn't be able to do it!"
