

God tier Farm 2981

Chapter 2981 It's the same_

Xia ruofei took out a "handwritten copy". It was a stack of ordinary A4 papers bound together with ordinary nails. It seemed that the binding was done in a hurry, so the pages were not even aligned ...

The first thing that caught his eye on the cover was the words "the glittering jewel Wonderland" in a vertical row. There were also three small words on the lower right corner: The second volume.

The handwriting looked very ethereal, as if it had a trace of immortal Qi. It looked quite comfortable, but it was obvious that it was written with a gel pen.

Compared to Xia ruofei's simple manuscript, Luo Feng's manuscript was much more sophisticated.

The paper used first should have been specially processed. The slightly yellow paper was very tough and looked antique.

Moreover, this manuscript was very exquisitely thread – bound, and the words on the cover were also written with a brush. It was a very nice regular script, as if it had been printed.

When Luo Feng and Wu Ming saw the "handwritten copy" that Xia ruofei took out, they were even more certain of their guess that Yingluo had definitely made this manuscript at the last minute. The crude and crude air that came from it was simply unbearable to look at.

Wu Ming sneered, "the star Seizer sect's hand – written manuscripts are truly unique!" This thing is worth more than 70000 spirit stones? I've really opened my eyes ..."

Xia ruofei replied indifferently, "knowledge is priceless!" Only superficial people will pay attention to their appearance. "

Liu Mansha couldn't help but burst out laughing when she heard this. She said, "Fellow Daoist Xia's words make sense. As long as the content of the cultivation method is good, I don't pay much attention to the form ..."

Wu Ming could not help but feel depressed when he heard this. He had wanted to take the opportunity to mock Xia ruofei, but he did not expect to be retorted by Xia ruofei instead.

Wu Ming could use his status as the young sect master of the spirit Vulture mountain to oppose Xia ruofei. However, he did not dare to act rashly when facing Liu Mansha, who was on the same level as his father and was even slightly stronger than him.

Wu Ming, who had suffered a loss, glared at Xia ruofei with hatred and shut his mouth unwillingly.

Liu Mansha naturally did not care about the thoughts of a junior. She smiled faintly and said, "Then I'll start the verification?"

Xia ruofei smiled and nodded.

"Valley Head Liu," Luo Feng said. "Please start checking from the first page. If the discrepancy is too big, please stop immediately."

Luo Feng naturally didn't want to reveal too much of his family's treasured cultivation technique. If it wasn't for the fact that he had been forced into a corner, he wouldn't even have agreed to this bet. When he thought of this, Luo Feng could not help but glance at Wu Ming with a bit of resentment. He sighed in his heart.

Liu Mansha naturally knew what Luo Feng was thinking. She smiled and nodded, saying, "Naturally!"

After saying that, Liu Mansha placed the handwritten copies of the two families on the coffee table in front of the sofa and turned to the first page at the same time.

Xia ruofei, Luo Feng, and the others naturally looked at the two handwritten copies on the left and right.

As for Shao Qingyang, who was standing outside the barrier, although he could hear everyone's voices and see the situation inside, everyone's back was facing him, so his eyes couldn't see through the human body to see the manuscript on the coffee table. Under the circumstances where he couldn't use his mental power to investigate, he naturally couldn't see a single thing.

When Liu Mansha flipped to the first page, Luo Feng immediately glanced at Xia ruofei's handwritten copy. As Wu Tiancheng's trusted subordinate, he had studied the original version of the lingjue mountain's "the glittering jewel true understanding" for many years and was already familiar with the contents. Naturally, there was no need to make any comparisons. He could just look at Xia ruofei's handwritten copy.

After reading a few lines, Luo Feng's heart sank. The content that Xia ruofei had copied onto the A4 paper with his distinctive and elegant handwriting was exactly the same as the lingjue mountain 's' the truth of glittering jewels '.

How was this possible? Luo Feng sighed in his heart.

Could it be that there were two copies of the glittering jewel true understanding and the lingjue mountain had only obtained one, and it was even an incomplete one?

Luo Feng held on to a glimmer of hope and continued to read anxiously.

It was the same.

It was the same.

It was exactly the same ...

A cultivator's brain development was far greater than an ordinary person's, so it was easy for him to read ten lines at a glance. Furthermore, there wasn't much content on a page. After a short while, Luo Feng had finished reading the contents on the first page of Xia ruofei's handwritten copy.

He felt bitter in his heart – from what he had seen so far, Xia ruofei's handwritten copy was exactly the same as the beginning of the second volume of the "the truth of glittering jewels – that they had –

If there was anything different, it was that Xia ruofei had added a sentence according to his own understanding of the technique.

There were no punctuation marks in the writing habits of the ancient people, and the cultivation technique was more obscure. Different sentence breaking methods could produce two different understandings.

The second volume of the glittering jewel true understanding that he had obtained from the spirit Vulture mountain was the original copy without any broken sentences. When he was making the manuscript, he had copied the original version of the spirit Vulture mountain.

To Luo Feng's dismay, he realized that after Xia ruofei's handwritten copy was broken, it was much easier to understand the technique. There were even two parts where the broken sentences were different from what the cultivators of the spirit Vulture mountain had studied for years. Luo Feng felt that Xia ruofei's broken sentences were more reasonable.

Chapter 2982 The same_

In addition, Xia ruofei used a simple black line to draw an area and wrote down his understanding and insights on some of the difficulties in the cultivation method.

On the first page, Xia ruofei had chosen two obscure places to mark.

After Luo Feng read it, he actually had a feeling of enlightenment.

He even secretly hoped that Liu Mansha would quickly flip to the second page. At the same time, he couldn't help but feel a sense of shame. Ever since he had entered private room 20, he had been on guard against Liu Mansha, Xia ruofei, and the others, as if they were thieves who had stolen their lingjue mountain's "the true understanding of glittering jewels". Who would have thought that in the end, he would be the one who had benefited so much from the handwritten copy of the "the true understanding of glittering jewels" from the star Seizer sect ...

This was a little ironic.

Liu Mansha wasn't like Luo Feng, who was extremely familiar with the contents of the "true understanding of the glittering jewel array." She had to constantly compare the contents to her left and right to confirm whether the contents were the same, so her speed was definitely not as fast as Luo Feng's.

Luo Feng was getting anxious from waiting at the side. Liu Mansha was finally ready to flip to the second page of the spirit Vulture mountain's manuscript. She was only going to flip to the second page because the contents of each page were not exactly the same. Xia ruofei's manuscript was on A4 paper and could contain more content. After Liu Mansha checked the first page of the spirit Vulture mountain's manuscript, she realized that there was still about one – third of the content left on the first page. Therefore, she naturally went to look through the handwritten copy of the spirit Vulture mountain on her left.

Luo Feng could only continue to wait patiently, and he couldn't reveal it.

He had a faint feeling that he was going to lose this bet. If he paid the 50000 spiritual stones, the spirit Vulture mountain's competition for the treasure would be greatly reduced. Basically, the chances of him winning were slim.

However, Luo Feng couldn't care less about these things at the moment. He couldn't wait to see the new contents of the star Seizer sect's manuscript.

Whether it was Xia ruofei's unique broken sentences or the understanding of the technique at the side of the page, they were all very precious in the eyes of Luo Feng, a cultivator who had studied the 'glittering jewel true understanding' for many years.

After Liu Mansha read another portion of the second page of the spirit Vulture mountain's handwritten book, she finally finished checking the first page of the star Seizer sect's handwritten book.

Under Luo Feng's burning gaze, Liu Mansha's hand reached out to the star Seizer sect's handwritten copy on the right, preparing to flip to a new page.

Just then, Xia ruofei suddenly said, "Hold on!"

Liu Mansha stopped and turned to look at Xia ruofei. She smiled and asked, "Fellow Daoist Xia, do you have any advice for me?"

Although she had only checked a page or so of the contents, Liu Mansha's expectations for this manual had greatly increased. The contents of the manual were exactly the same as the one in the spirit Vulture mountain. There were also additional cultivation insights. Moreover, with Liu Mansha's cultivation level and vision, even if she did not have the time to carefully comprehend it, she could still discover that this cultivation technique was unusual.

Hence, Liu Mansha's attitude towards Xia ruofei had unknowingly become more polite.

Xia ruofei smiled. "Valley master Liu," he said, "I don't deserve any advice. I just have a suggestion."

"Fellow Daoist Xia, please speak." Liu Mansha said with a smile.

Xia ruofei said, "I believe Valley master Liu has already discovered that the area on the side of the hand – copied book is not the content of the cultivation technique. Instead, it is some cultivation insights. Speaking of which, these insights are very precious. It can be considered a bonus from this auction!" However ... Since these cultivation insights are more precious and have nothing to do with checking the original content, I suggest that during the process of checking, this area should be blocked to a certain extent!"

When Luo Feng heard this, he almost cursed out loud. This guy was too sleazy! I wanted to secretly learn some cultivation insights, but he actually covered all the loopholes.

Shao Qingyang couldn't see the cultivation method in the private room now. The star picking sect's people had provided this hand – written copy, and the people of the flying flower Valley had spent money to buy it, so there was naturally no need to keep it a secret from these people. In that case, the people who had to guard against it were the people of the Spirit Vulture mountain. Moreover, the contents of the second volume could only be understood by golden core stage cultivators with difficulty. If he wanted to cultivate it, he had to combine it with the basic contents of the first volume. It was basically equivalent to the heavenly book. Therefore, to be more precise, it was only guarding against Luo Feng.

Liu Mansha herself was an experienced cultivator, and she was also the valley master of the flying flower Valley. It could be said that she had seen many things and knew many people. She glanced at Luo Feng from the corner of her eye and immediately understood what was going on.

Liu Mansha couldn't help but find it funny when she thought of how Luo Feng had been so focused on preventing the star Seizer sect and the flying flower Valley's cultivators from secretly learning their "the true understanding of glittering jewels." The corners of her mouth curled up into a very beautiful arc as she said, "Fellow Daoist Xia's suggestion is very good! Thank you for your reminder!"

Xia ruofei smiled and nodded. After a moment of silence, he reminded, "That's right, because our handwritten copy is the complete second volume, and the one on the spirit Vulture mountain has a missing page, there must be some content that is unique to our handwritten copy. Valley master Liu, if you encounter this part of the content, you might as well cover it up in time. After all, this is a cultivation technique that you bought with money. This is also to protect your rights and interests!"

Liu Mansha's smile grew even wider. She nodded and said, "I've learned!"

With that, Liu Mansha took out a black paperweight from her storage ring. The width of this paperweight was about the same as the area that Xia ruofei had marked out for cultivation comprehension, and it was just enough to cover it.

Then, Liu Mansha flipped to the second page of the star Seizer sect's handwritten copy and smoothly used a paperweight to block the area at the side where the comprehensions of cultivation were recorded.

Luo Feng cursed in his heart, but he couldn't show it. His expression was as if he was constipated.

Of course, he couldn't use his mental power to spy on them openly. There were several golden core cultivators present, and everyone was so close to each other. If he did this, he would be immediately discovered, and then he would really be too ashamed to see people.

However, Luo Feng was still like a dog that had caught a whiff of feces. He couldn't wait to turn his gaze to the handwritten book provided by the star Seizer sect. Even if he couldn't see his comprehension of cultivation, he could at least refer to the sentence breaking method in the handwritten book! Even if he couldn't eat meat, drinking some soup was not bad.

Xia ruofei immediately noticed the difference between the two handwritten copies. As for the broken sentences, there was no way for the other party to steal it.

Compared to the 50000 spirit stones that he would soon be able to obtain, it was still within his acceptable range for the other party to secretly learn a few simple sentences.

In fact, Liu Mansha could basically confirm that there were no problems with the star Seizer sect's cultivation technique after checking two pages.

However, this was a bet between the spirit Vulture mountain and the star Seizer sect. If they stopped the verification now, the spirit Vulture mountain would definitely not allow it. They had been worrying about having no reason to renege on the bet! And to the flying flower Valley, wouldn't it be more reassuring to check from beginning to end?

Thus, whether it was for public or private reasons, Liu Mansha chose to be patient and verify each word.

However, she still listened to Xia ruofei's words and blocked off the area where she recorded her cultivation insights. Whenever she encountered a missing part in the manuscript of the spirit Vulture mountain, she would also block the missing part in the star Seizer sect's manuscript.

Luo Feng relied on the content he was familiar with, and could often see bits and pieces of the missing parts. However, the more this was the case, the more impatient he was, and it was even more uncomfortable than not seeing anything at all.

Even though he was very shrewd, he couldn't help but reveal a very interesting expression on his face.

As for Wu Ming, his face had long turned ashen. Although he couldn't understand the contents of the handwritten book with his cultivation base, he could still recognize the words. After a simple comparison, he knew that the contents of the two handwritten books were exactly the same.

This also meant that they had lost the bet ...

Chapter 2983 willing to bet, willing to lose (1)

Wu Ming's expression was as if his father had just died, and he kept looking at Luo Feng.

He usually didn't like Luo Feng. Even though the other party was an Aurous core stage cultivator, Luo Feng was basically Wu Tiancheng's loyal servant in the Ling Jue mountain. Although Wu Ming called him "uncle Feng," he didn't have much respect for Luo Feng.

However, at this moment, Wu Ming was at his wit's end and unconsciously treated Luo Feng as his backbone.

However, Luo Feng, his backbone, seemed to be absent – minded. Luo Feng ignored his several eye signals and stared straight at the simple handwritten copy on the coffee table. His gaze was also very strange. It seemed to have a feeling of joy at seeing a prey, but at the same time, it also seemed to carry some regret. There was even a hint of an unbearable itch in his heart.

This was the first time Wu Ming had seen the shrewd Luo Feng reveal such a complicated expression. Most of the time, Luo Feng did not show his emotions on his face.

Wu Ming saw that he couldn't count on Luo Feng for the time being, and Liu Mansha's speed of verification was getting faster and faster. The second volume of handwritten copies was thin, and seeing that more than half of it had been verified, he couldn't help but feel a little anxious.

Just as Liu Mansha was about to flip a page of the star Seizer sect's manuscript, Wu Ming finally couldn't hold it in any longer. He shouted, "Valley master Liu, please wait!"

Liu Mansha stopped what she was doing and glanced at Wu Ming with slight displeasure. She asked, "What is it?"

Almost everyone in the cultivation world knew that Wu Ming was the darling of Wu Tiancheng and his wife. However, Liu Mansha looked down on this kind of second generation. With her status, she naturally did not need to be nice to Wu Ming.

"I'm not sure." Wu Ming braced himself and said, "I see that Valley master Liu has already verified more than half of it. I've just observed it, and there are still some differences between the two handwritten copies ..."

"That's because there's a missing page in your manuscript!" Liu Mansha said bluntly, "in addition, fellow Daoist Xia's handwritten copy is easier to read. Other than that, the contents are exactly the same!"

"Valley master Liu, I didn't mean it that way ..." Wu Ming said awkwardly.

At this point, Wu Ming turned to look at Xia ruofei. He did not dare to act rashly in front of Liu Mansha. Besides, the bet was between the spirit Jade Mountain and the star Seizer sect. There was nothing much to say to Liu Mansha.

Xia ruofei met Wu Ming's gaze and asked with a faint smile, "What does sect leader Wu mean? Are you trying to say that our 'the true linglang Scripture' is fake?"

"I can't tell if it's true or not," Wu Ming said with a dark face. However, our bet stated that the two handwritten copies had to be exactly the same, but it seems that the contents are not exactly the same!"

"Is this what you mean by going back on your word?" Xia ruofei asked with interest.

"How can you call that cheating?" Wu Ming argued, "I see that your handwritten copy is not much different from the original, so I naturally can't say that yours is fake. But it's a fact that it's different from our manuscript! That's why I want to say ... Why don't we both take a step back and call off the bet!"

"No!" Before Xia ruofei could say anything, Liu Mansha and Luo Feng, who were beside him, spoke in unison.

Wu Ming wasn't surprised that Liu Mansha had stood out to object. After all, Liu Mansha didn't seem to like him from the very beginning.

However, what Wu Ming couldn't believe was that Luo Feng had also expressed his opposition. Which side was this old man on?

Luo Feng blurted it out and only came back to his senses after he finished speaking.

When he saw Wu Ming's expression turn extremely ugly, Luo Feng hurriedly transmitted his voice, "Young sect leader, please don't mention that the bet is invalid. Don't speak, just listen to me ..."

Although Wu Ming, this good – for – nothing, was already at the sixth Qi layer, he had taken countless pills and wasted countless cultivation resources. It could be said that the resources that Wu Tiancheng and his wife had spent on him, if used on the genius disciples of the spirit Vulture mountain, might be able to make the sect have another golden core stage. Although the probability was not high in the current environment, there was still hope.

With Wu Ming's current cultivation and half – baked voice transmission skills, it was no different from speaking directly to Liu Mansha and Luo Qingfeng, who were golden core cultivators. Luo Feng couldn't see through Xia ruofei's cultivation and didn't put Xia ruofei in the ranks of golden core cultivators for the time being. After all, a golden core cultivator in his twenties was a little too scary.

Thus, in order to prevent Wu Ming from being muddled, Luo Feng, who had recovered from his shock, also deliberately spoke faster, "Young sect leader, Liu Mansha and Luo Qingfeng are not fools, and Shao Qingyang was there as a witness. They know very well whether the contents of the two handwritten copies are the same or not. Moreover, we've already agreed that if the main contents of the two handwritten copies are the same, it can prove that there's no problem with their handwritten copies. Now that you're twisting your words and making unreasonable claims to void the bet, the star Seizer sect will never agree to it. Moreover, you've lost both the person and the array. Once this gets out, the reputation of the spirit Vulture mountain will be completely ruined!" If sect leader Wu knows about this, no matter how much he dotes on you, he will definitely punish you severely!"

When Wu Ming heard this, he couldn't help but shiver.

His parents had doted on him since he was a child, but there were once or twice when he had caused too much trouble and he had been punished. When he thought of those two experiences, Wu Ming's heart couldn't help but beat like a drum.

Chapter 2984 willing to bet, willing to lose (2)

"Young sect master!" Luo Feng immediately replied. Don't lose your mind. If you lose the spiritual stones and can't get the treasure, sect leader Wu will only reprimand you a few times when you return. If you ruin the reputation of the spirit Vulture mountain, it won't be as simple as a reprimand ..."

Wu Ming finally heard her. He raised his head and looked at the impatient Liu Mansha and the smiling Xia ruofei. He said in a ridiculing tone, "It's just a suggestion ... Since no one agrees, then let's drop the matter. Valley master Liu, please continue ..."

Liu Mansha snorted and elegantly flipped to a new page.

Luo Feng was like a cat that had caught the scent of fish, and he hurriedly turned his gaze to the newly opened book.

However, Liu Mansha's movements were very fast. She immediately used a paperweight to cover the area next to her where there were insights on cultivation. She also quickly read through it once. After confirming that there were no additional contents in the star Seizer sect's handwritten copy because of the missing page, she then slowly began to check each word and sentence.

It was very quiet in the private room. Luo Qingfeng, who was supposed to be one of the leaders, was completely invisible. Liu Mansha and Luo Feng were reading the manuscript seriously. Yang Liu was looking around in boredom. As for Wu Ming, he stood in the corner with his face alternating between red and white. No one knew what he was thinking.

There wasn't much content in the manuscript. In a short while, Liu Mansha had checked everything from beginning to end.

She closed the two handwritten copies and handed the star Seizer sect's obviously better – looking manuscript to Luo Feng. Then, a playful smile appeared on her face as she asked, "Elder Luo, you've also checked it just now. I think there should be no objection to the conclusion, right?"

Luo Feng forced a smile and nodded, "No objections. The young sect master just spoke without thinking. Our lingjue mountain is not going to deny our loss. We've lost this bet ..."

Liu Mansha nodded and turned to look at Xia ruofei. She smiled and said, ""Fellow Daoist Xia, congratulations!"

Xia ruofei replied nonchalantly, "what joy is there? this is a bet that shouldn't have happened. I don't think the cultivation techniques that were auctioned earlier had such a check."

Liu Mansha thought to herself, "this little fox, she's taking advantage of me!"

She smiled and said, "at least you don't have to pay a compensation of over 700000 spiritual stones, and the star Seizer sect doesn't have to go bankrupt!" And ... There's also a 50000 spirit stone income. Isn't that worth congratulating?"

"Haha!" Xia ruofei laughed and said, "Valley master Liu is right. I can't even refute him!"

After he finished speaking, Xia ruofei took out another handwritten copy from the spirit map space. This handwritten copy had the same style as the one on the coffee table, but the small words on the cover had changed to "Volume One."

Xia ruofei passed the handwritten copy to Liu Mansha and said, ""This is the content of the first scroll. When the two scrolls are combined, both Qi condensation and Aurous core cultivators can cultivate it."

Seeing this, Luo Feng's eyes were fixed on the handwritten book in Liu Mansha's hands. He almost couldn't help but release his spiritual power to spy on it. Fortunately, his rationality won over his impulse in the end.

Luo Feng looked longingly at the two handwritten copies and took out a big bag of spirit stones from his storage treasure. He scanned it with his spiritual force and took a portion of it to store in his storage treasure. Then, he handed the bag to Xia ruofei and said, ""Fellow Daoist Xia, here are 50000 spirit stones. The spirit Vulture mountain is willing to accept our loss! This manuscript will also be removed from the auction!"

Xia ruofei took it without hesitation and scanned it with his spiritual power. He found exactly 50000 spiritual stones. He nodded and kept the spiritual stones. He smiled and said, ""Then it would be impolite for us to refuse!"

Luo Feng's expression naturally didn't look too good. He shot a look at Wu Ming, whose eyes were burning with anger, and then said, "We'll take our leave first!"

After saying that, the two of them left the private room without looking back. They didn't even pay attention to Shao Qingyang's greeting. It was obvious that the people of the Spirit Vulture mountain also hated the fallen leaves sect.

But Shao Qingyang didn't care about this at all. He laughed as he walked into the boundary of the barrier and said, ""It seems that there is no problem with the cultivation technique! Congratulations to fellow Daoist Xia and valley leader Liu for finally finding an excellent psyche cultivation technique. I'm sure it'll only be a matter of time before you break through to the late – Aurous core stage!"

Liu Mansha's shortcoming in the aspect of mental power was basically known to all the prominent figures in the cultivation world. It was no secret.

Liu Mansha was also in a good mood. She said with a smile, "Then I'll be counting on sect leader Shao's auspicious words!"

Then, Liu Mansha took out more than 70000 spiritual stones from her storage ring and completed the transaction of the two handwritten copies.

Shao Qingyang had already promised that he would not take a cut of this transaction, so Xia ruofei naturally kept these spiritual stones without any hesitation.

Liu Mansha said to Xia ruofei, "thank you, fellow Daoist Xia. If there's a chance, we can communicate again. Oh, that's right. If you still want to sell the Qi gathering pills, please consider our soaring Flower Valley First. We can discuss the price!"

Xia ruofei nodded with a smile and said, "No problem. We'll probably continue to sell Qi gathering pills in the future, and in greater quantities. We'll give Valley master Liu a discount then!"

"Then I'll have to thank fellow Daoist Xia in advance!" Liu Mansha said with a smile.

After saying that, Liu Mansha beckoned to Yang Liu and also left room 20.

After the people of the Spirit Vulture mountain and the flying flower Valley had left, Shao Qingyang couldn't hold it in any longer. He rubbed his hands and smiled at Xia ruofei, "Fellow Daoist Xia, this matter has finally come to a satisfactory conclusion. Do you think ..."

Xia ruofei naturally knew what Shao Qingyang was concerned about. He smiled and said, "Sect leader Shao, please come here in fifteen minutes. I will lend you the first volume of the glittering jewel Wonderland for two hours, but you can only read it in this room and can not take it away. I also hope that you will keep your promise and not secretly teach it to cultivators outside of the falling leaves sect."

"No problem! No problem!" Shao Qingyang was overjoyed. He quickly said, "fellow Daoist Xia, I'll take my leave first!"

Shao Qingyang naturally knew that Xia ruofei wanted to copy the contents of the first volume again at the last minute, so he quickly took his leave and left the room. He naturally wanted to see the cultivation technique as soon as possible.

After Shao Qingyang left, Luo Qingfeng immediately went to lock the door of the private room. At the same time, Xia ruofei set up the protective barrier.

Then, he took out a piece of paper, a gel pen, a stapler, and other things from the space, and wrote on the table.

The complete content of the "the glittering jewel Wonderland" was in his mind, so he naturally did not need to go through any thoughts or memories. It could be said that the speed at which he wrote was the speed at which the handwritten copy was made.

The first volume did not have much content either, and there were no complicated illustrations. Hence, Xia ruofei was naturally able to copy it very quickly.

He could even pay attention to the auction.

The auction had already resumed. Although Hao Qingsong didn't announce the final result of the bet between the spirit Vulture mountain and the star Seizer sect, the handwritten copy of the spirit Vulture mountain had already quietly withdrawn from the auction. The usually haughty Wu Ming had also stopped making a fuss. Everyone was naturally aware of the final result.

At this time, a piece of refining material was being auctioned. There were not many cultivators competing for it. After all, there were not many cultivators who studied refining in this era. But even so, the few cultivators who were involved in artifact refining were obviously not short of money. These people had their eyes on this material, so the competition was naturally very fierce.

Xia ruofei was not interested in this piece of material. He quickly copied the contents of the first volume of the "glittering jewel Wonderland" while paying attention to the auction.

Luo Qingfeng was full of questions, but seeing that Xia ruofei was so busy, he did not dare to disturb him. He just sat quietly at the side and occasionally served him tea.

Just as Xia ruofei had finished writing the contents of the first volume of the "the glittering jewel Wonderland" as fast as he could, a new item appeared on the main auction stage. It was the pair of storage rings that Xia ruofei had been waiting for a long time.

Chapter 2985 The pair of phoenixes (1)

This pair of storage rings was listed in the auction booklet, and everyone knew that the handwritten copy of the "glittering jewel true understanding" remnant from the lingjue mountain would no longer appear. So unless there was another item that cut the queue, it was time for them to appear.

All the cultivators who were interested in the two storage rings sat up straight, including Xia ruofei, who had been thinking of buying them for Ling Qingxue and Song Wei.

Xia ruofei took one last look at the first volume of the glittering jewel Wonderland, the ink still wet, and threw it on the coffee table.

Luo Qingfeng could not help but look at the manuscript, his eyes full of anticipation.

Xia ruofei turned to look at Luo Qingfeng and said, "After Shao Qingyang has finished reading it, you can keep this cultivation technique! I'll find some time to write out the contents of Volume two and three for you."

Hearing this, Luo Qingfeng could not help but be surprised and happy. At the same time, he was also a little puzzled. He could not help but ask, "Master, the third volume?"

"The third volume can also be practiced by golden core cultivators. For golden core cultivators, after mastering the contents of the third volume, the speed of their spiritual power cultivation will be at least 20% faster than those who only learned the first two volumes!" Xia ruofei said indifferently.

Luo Qingfeng was overjoyed and quickly said, "Thank you, master! Thank you, master!"

Xia ruofei waved his hand and said, "you're welcome. You've helped me with many things. It's only right that I provide you with some resources." Right, you can choose some disciples in the star Seizer sect to teach the contents of the first volume, but the prerequisite is that the disciples must be absolutely reliable!"

In this auction, the star Seizer sect had been in the limelight. As the saying goes, "the rafter that sticks out rots first." It was not necessarily a good thing for the star Seizer sect to attract so much attention, especially when their own strength was still far from the level of a top sect. Hence, Xia ruofei had long made up his mind to help the star Seizer sect improve its strength. Whether it was its hard or soft power, it had to be improved accordingly.

From the perspective of a high – Level cultivator, Xia ruofei was at least comparable to a cultivator in the intermediate stage of the Golden core realm. Even if he were to face a cultivator in the advanced stage of the Golden core realm, Xia ruofei, who had a variety of means, might not be unable to fight. On the other hand, Qingfeng Luo was only at the early – Stage golden core realm. If he invested some cultivation resources, he still had a high chance of reaching the mid – Stage golden core realm. This kind of high – Level combat power was already considered top – notch among the first – Class sects. Compared to the top sects that had four to six Aurous core stage cultivators at the helm, it was naturally still a little worse.

There was also the work of laying the foundation. Xia ruofei had asked Luo Qingfeng to choose loyal and reliable disciples to teach the glittering jewel truth in order to improve the overall Foundation of the star Seizer sect.

The importance of mental power in cultivation was self – evident. Take Xia ruofei as an example. Even though he did not specifically cultivate mental power techniques, the great Dao Arts itself was a technique that cultivated mental power, true Qi, or primordial Qi at the same time. His mental power cultivation had always been at the forefront, which had also brought great benefits to his cultivation. Some bottlenecks were easily solved.

If the core members of the star Seizer sect were able to receive a huge boost in their spiritual power, then their cultivation bases would also experience rapid growth in the near future.

Of course, Xia ruofei also had some ideas to improve his hardware, but he did not plan to discuss it with Luo Qingfeng for the time being.

All in all, he had been nurturing the star Seizer sect as an important force in his own power.

If Xia ruofei's group of people could be considered a sect, then the star Seizer sect could be considered a subsidiary or peripheral force of the sect.

When Luo Qingfeng heard that the glittering jewel Wonderland could be passed on to his disciples, he was naturally moved to tears. He quickly said, "Don't worry, master! This old servant will definitely be strict ... Uh ... This old servant has a presumptuous request ..."

"Go ahead," Xia ruofei said with a kind smile.

"Before I choose a disciple to teach the true understanding of the glittering jewel array, I would like to ask you to check on me again." Luo Qingfeng said carefully, "this is the only way to ensure that such a precious cultivation technique will not be passed on to the wrong person ..."

Luo Qingfeng was well aware of the power of Xia ruofei's hypnotism technique. This cultivation technique had been given to the star Seizer sect by Xia ruofei, and its value could be seen from the

auction price today. Thus, he did not want the cultivation technique to be leaked because of his misjudgment.

Asking Xia ruofei to personally guard one of the obstacles was naturally a safe and wise choice.

“Sure,” Xia ruofei replied indifferently. However, if I’m in the Peach Blossom Island, you’ll have to run there to find me. ”

“No problem!” Luo Qingfeng quickly replied. If the disciples he brought could pass the master’s test, their reliability would naturally not be a problem. If this disciple has any disloyal thoughts, this old servant will directly clean up the sect on the Peach Blossom Island, and there is no need to worry about the secret of the Peach Blossom Island being leaked. ”

Luo Qingfeng’s words were filled with killing intent. Xia ruofei chuckled and said, “We’ll talk about it later! Actually the “glittering jewel truth” isn’t a particularly precious cultivation method, but since it was sold to the flying flower Valley at a high price, if we don’t keep it a secret and let this cultivation method go to waste, that would be a bit unkind. So we still have to keep it a secret, including the fallen leaf sect, I also have a request. ”

“Yes! Master!” Luo Qingfeng said with a slight bow.

At this moment, Hao Qingsong, who was on the main auction stage, had already started to introduce the pair of storage rings. Xia ruofei’s attention was also diverted to that side, and he no longer discussed the issue of the ‘truth of the glittering jewel’ with Luo Qingfeng. Luo Qingfeng also sensibly sat down quietly at the side, not daring to disturb Xia ruofei.

Chapter 2986 The pair of phoenixes (2)

A tray was placed on the table in front of Hao Qingsong, and the two storage rings were quietly lying on the tray.

“I’m sure many fellow Daoists are waiting for this pair of storage rings!” Hao Qingsong chuckled. To tell the truth, if it wasn’t for the fact that I’m short on money and that our fallen leaves sect is the host, I would have wanted to participate in the competition. ”

Immediately after, Hao Qingsong’s expression changed as he said, “Let’s get back to the main topic. I don’t know the name of this pair of storage rings, but because both rings have the image of a Phoenix spreading its wings and ready to fly, we named them the pair of rings, the flying Phoenix ring. The flying Phoenix pair ring was obtained from an ancient cultivator’s ruins by the fellow Daoist who had entrusted the auction of this pair of storage rings to him. According to the information provided by this fellow Daoist, that ancient cultivation ruin should be a separate courtyard of scholar Yuntai’s immortal’s cave. Combined with the records in a personal letter in this ruin, this pair of storage rings should have been specially made by scholar Yuntai for his twin Dao companions. These two storage rings have the same style, but the pattern is a different Phoenix. Their storage space is both ten meters in diameter ...”

Hao Qingsong explained the situation of these two storage rings in a very familiar manner. Some of the basic information could be found in the auction manual, but some of the information had just been disclosed, such as the detailed origin of these two rings and the specific size of the storage space.

The 30 feet square was a cube of 10 meters by 10 meters by 10 meters, which meant that the storage space had reached 1000 cubic meters. It was already quite good, and it was a small treasure among the storage rings.

In addition, although this Grand cloud stage scholar was an ancient cultivator, he was still quite famous in the modern cultivation world.

In particular, the higher – ups of some sects more or less knew about this layman Yuntai.

The reason was very simple. This scholar Yuntai owned many courtyards and immortal's caves. Including today's exploration, there were six immortal's caves that had been discovered and explored by cultivators.

And it seemed that master Yuntai especially liked to record some trifles. In these courtyards and cave abodes, it wasn't a rare thing to find personal notes recording trifles of life.

Therefore, everyone naturally knew more about this scholar Yuntai.

According to some past information, it could be roughly pieced together that the portrait of the master of the cloud platform was at least in the Yuanying stage or even higher. He had a handsome appearance (not excluding the fact that the master of the cloud platform boasted in his own diary), had many dual cultivation partners, was involved in a wide range of things, and was especially good at forging artifacts.

Therefore, the magical treasures and items personally sold by master Yuntai were often very popular in the modern cultivation world, and their prices would be much higher than the market price.

A pair of twin female cultivators became the cultivation partner of master Yuntai at the same time. This should be the pride of master Yuntai, which was reflected in several journals. Everyone even knew that one of the Twin female cultivators was called Nishang fairy and the other was purple cloud fairy. According to master Yuntai's own records, they were both devastatingly beautiful women.

Of course, all the information came from the records of master Yuntai himself, and its authenticity could no longer be verified.

In any case, this pair of storage rings had been personally refined by master Yuntai, and had once been used by Nishang fairy and Ziyun fairy, who were more famous in the modern cultivation world among the ancient cultivators. This meant that this pair of storage rings was of very high quality. At the same time, there was also a historical story, so naturally, their value had doubled.

Luo Qingfeng was relatively familiar with the world of cultivation, so after listening to the introduction, he also told Xia ruofei about the stories of the Grand cloud scholar.

Xia ruofei was also excited after hearing this. He was even more interested in the storage ring.

As for the possibility of the price increasing due to these factors, he didn't really care.

This was the confidence that the hundreds of thousands of spirit stones had given him.

Of course, even if he didn't have enough spiritual stones, Xia ruofei had his Plan B, which he had prepared before the auction.

All in all, Xia ruofei was determined to get the two storage rings.

This pair of storage rings was clearly one of the more valuable items in this auction, so Hao Qingsong had spent more time introducing them, hoping to get a higher price.

Just as Hao Qingsong was prattling on and on about this pair of storage rings, a light knock came from the door of room 20. At the same time, Shao Qingyang's careful voice could be heard, "Fellow Daoist Xia, sect leader Luo, is it convenient for me to come in?"

Xia ruofei and Luo Qingfeng looked at each other and then said loudly, "Please come in, sect leader Shao!"

As soon as Xia ruofei's voice fell, Shao Qingyang pushed the door open and walked in with a smile on his face. His eyes swept over the hand-written copy of the first volume of the "the truth of linglang" on the coffee table. His eyes immediately lit up, and his steps became lighter.

Xia ruofei pointed at the manuscript and said, "Sect leader Shao, in the next hour, you are free to read this manual, but you can only read it in this private room. I also hope that sect leader Shao will keep your promise and not leak the manual to others."

For an Aurous core stage cultivator, an hour was more than enough time to memorize this thin booklet.

As a result, although the fallen leaves sect seemed to have been exempted from the Commission of the previous deal, in reality, they had obtained an extremely precious spiritual power cultivation method. Although this cultivation method was only suitable for Qi layer cultivators, it was still a big profit.

"No problem!" Shao Qingyang quickly replied. No problem! Don't worry, fellow Daoist Xia, we all know the rules!"

Chapter 2987 The pair of phoenixes (3)

Naturally, Shao Qingyang would not casually reveal this cultivation method. Even within the fallen leaf sect, he would not easily impart it to others.

As the saying goes, the Dao can not be easily passed on. In this era, a good cultivation method was quite valuable, not to mention that the flying flower Valley had just spent a large sum of money to buy this cultivation method. If it were to be leaked from the fallen leaves sect, then they would not only offend the star Seizer sect, but also the flying flower Valley.

Xia ruofei nodded and looked at his watch. He said, "Please go ahead, sect master Shao!"

Shao Qingyang didn't dare to waste any more time. He quickly sat down on the seat that Li Yifu had been sitting on earlier, picked up the manuscript, and read it carefully, memorizing it.

As long as Shao Qingyang did not take this book out of the private room and did not take a pen to copy it, Xia ruofei would naturally not care about him.

The auction for the pair of flying phoenixes had already started. Xia ruofei shot a look at Luo Qingfeng, asking him to keep an eye on Shao Qingyang. Then, she turned her attention to the auction.

The starting price of the flying Phoenix ring was 15000 spirit stones. As soon as Hao Qingsong announced the start of the auction, many cultivators joined in the bidding. The price on the big screen jumped up and down, soaring all the way.

Xia ruofei did not participate in the bidding at first. He just watched the price of the storage ring rise from 15000 spiritual stones to 25000 spiritual stones.

The 10,000 spiritual stones increase took less than three minutes.

The enthusiasm of the cultivators was evident.

The price was still rising very quickly. Some cultivators who were not very rich had not been kicked out yet, so Xia ruofei was not in a hurry to join in. He held a glass of fruit juice and took a sip from time to time, looking very relaxed.

In Room 6, Willow saw this and couldn't help but smile. "It's a good thing I'm not going to participate in the auction. It looks like even 50000 spirit stones won't be enough to win!"

As soon as Liu Mansha returned to the private room, she could not help but flip open the first volume of "the true understanding of Linlang" and read it with great interest. When she heard Yang Liu's words, she shifted her gaze away from the handwritten book, raised her head, and said with a trace of guilt, "Junior Sister yang, this pair of rings has an extraordinary origin, and they're even better than you expected ... It's a pity to miss them! This time, it's Senior Sister who has dragged you down ..."

"Senior Sister Liu, please don't say that!" Yang Liu laughed. So what if the storage ring was good? It was nothing more than a storage device! However, this cultivation technique was different! It can increase the strength of our flying flower Valley by a large margin! Isn't it obvious which one is more important?"

"The valley will definitely compensate you in the future. I'll also try my best to find you a high – Quality storage ring as soon as possible ..." Liu Mansha nodded.

"Then I'll thank you in advance, Valley master!" Willow said with a smile.

In contrast to the harmonious atmosphere in Room 6, the atmosphere in room 15, where the spirit Vulture mountain was located, was a little dull.

After Luo Feng and Wu Ming returned in defeat, they didn't speak for a long time. Wu Ming was so angry that he couldn't speak. Luo Feng, on the other hand, was secretly trying to figure out the new insights about the glittering jewel true understanding. According to the sentence breaking method in the star Seizer sect's hand – copied copy, he found that some questions that had troubled him for a long time had actually been explained. Now was the time when he remembered them the most deeply, so he naturally hoped to digest these insights as soon as possible.

When the pair of rings was revealed, the hatred in Wu Ming's eyes grew even more intense. If the star Seizer sect had not intervened and put the "glittering jewel true understanding" up for auction, the spirit Vulture mountain would have had an abundant reserve of funds this time. He would definitely have competed for this pair of storage rings.

However, now that he had lost the income from the auction of the cultivation technique and lost 50000 spirit stones, the remaining spirit stones were not enough to support him in competing for the treasure.

The more detailed Hao Qingsong's explanation was, the uglier Wu Ming's expression became.

When the bidding price reached 25000 spirit stones, Wu Ming couldn't help but shout, "Uncle Feng! No! I'm definitely going to have this pair of storage rings!"

Luo Feng, who was trying his best to comprehend the glittering jewel true understanding, was shocked. He quickly turned his head to look at Wu Ming and said, "Young sect leader Wu, we don't have enough spirit stones ..."

"Aren't there 80000 spirit stones left?" Wu Ming said with a gloomy face.

The spirit Vulture mountain had prepared 130000 spirit stones this time. In addition, they were also preparing to auction the transcript of the "glittering jewel true understanding". The plan was to invest at least 180000 spirit stones.

If he had so much money, it would be enough for Wu Ming to buy the storage ring and use the remaining spirit stones to fight for the treasure.

However, without the income from the 'glittering jewel true Scripture' and losing another 50000 spirit stones, he was left with only 80000 spirit stones. He was already stretched thin and had little hope of winning the bid for that treasure. How could he let Wu Ming compete for the storage ring?

Luo Feng couldn't be bothered to comprehend the "glittering jewel true understanding" anymore. He quickly said, "Young sect leader, you can't touch these 80000 spirit stones! Otherwise, we definitely won't be able to compete with the other sects in the auction for that treasure later!"

"Even if we don't use a single spirit stone, do you think 80000 spirit stones are enough for us to compete?" Wu Ming said in frustration. I think he's most likely going to run with them! You might as well just buy me a Storage ring! This pair of rings was also given to his Dao companions by scholar Yuntai! It would be so meaningful if I bought it for Yiyi and Xiaoxiao!"

Yiyi and Xiaoxiao were a pair of twin female cultivators that Wu Ming had been pursuing. According to his experience, as long as he put in some effort, he should be able to get them very soon. If he had the pair of Flying Phoenix rings, he was absolutely confident that he could capture these two stunner girls easily.

Luo Feng didn't know whether to laugh or cry, "the competition for that treasure was a big deal set by the sect leader!" Young sect leader, we can't delay the important matters! Otherwise, we'll all be dead when we go back!"

Chapter 2988 The last bit of stubbornness (1)

After hearing Luo Feng's words, Wu Ming was like a defeated rooster, and his previous imposing manner was instantly dispelled.

Seeing this, Luo Feng also heaved a sigh of relief. He knew Wu Ming's temper too well. If Wu Ming really became stubborn, he wouldn't be able to stop him. Even if his cultivation base was much higher than Wu Ming's, he couldn't just tie him up, right?

While Luo Feng and Wu Ming were explaining patiently, the price of the ring had slowly risen to around 28000 spirit stones.

Wu Ming looked at the price on the big screen and sat back in his seat in anger. ""This time, things really didn't go smoothly!"

At this moment, the big screen above the main auction stage flickered and displayed the latest price.

30000 spirit stones.

The price had been raised by 2000.

Wu Ming immediately noticed the bidder's box. It was Box 20, where the star Seizer sect cultivators were!

He jumped up at once and shouted, ""Motherf * cker! That Xia guy is trying to anger me on purpose, right? I can't take it anymore!"

Xia ruofei had just won 50000 spiritual stones from the spirit Vulture mountain and now he was bidding for the ring. This gave Wu Ming a feeling that Xia ruofei was trying to use his spiritual stones to buy what he wanted the most.

If losing 50,000 spirit stones was already depressing, then seeing room 20 participating in the bidding, his depression was undoubtedly doubled.

After Wu Ming finished speaking, he reached out and pressed the increase bid button on the bidding device.

The price on the big screen changed to 30500 spirit stones. Each bid must be no less than 500 spirit stones. He pressed the bid button, and the system increased the bid by default according to the minimum bid.

Luo Feng didn't even have time to react before Wu Ming had already added the price.

"Young sect master!" Luo Feng was unable to stop Wu Ming, so he could only smile bitterly and say, "stop messing around! Our spirit stones are still of great use, don't forget the sect leader's instructions ..."

Luo Feng wasn't worried that Wu Ming would really spend the 30000 spirit stones in one bid. Since the mysterious young man in room 20 had made a bid, he definitely wouldn't lose so easily. He would definitely compete for a few rounds. Moreover, the other cultivators hadn't completely given up on the competition. There were still a few wealthy sects that insisted on bidding.

Therefore, Luo Feng felt that his top priority was to persuade Wu Ming to stop bidding crazily.

Wu Ming straightened his neck and said, "uncle Feng, don't try to persuade me!" Even if it wasn't for Yiyi and Xiaoxiao, I wouldn't be able to take this lying down. They're clearly using our spirit stones to deliberately anger me! He must've heard that I really want to buy this pair of storage rings. Isn't he just mocking me for not having enough spirit stones to pay?"

Luo Feng couldn't help but be speechless. He felt that his young sect leader's brain circuit was really strange, especially when he was still thinking about "Yiyi" and "Xiaoxiao," which made him not know whether to laugh or cry.

“Young sect leader, maybe he just likes this pair of storage rings?” Luo Feng said, “besides ... If we really compete, we can’t beat them ... He earned more than 70000 spirit stones by selling the ‘truth of the glittering jewel’. With our 50000 spirit stones, that’s 120000. Oh right, they were the ones who put the Qi – gathering pills up for auction, so it’s even more ... We only have around 80000 spirit stones in total ...”

Hearing this, Wu Ming flew into a rage. He shouted, “Uncle Feng, you’re boosting his morale! Even so, he shouldn’t let him win so easily! Even if I have to spend all my spirit stones, I have to bear it! If he had the ability, he would have spent over 80000 spirit stones to buy this pair of rings! Then I’ll admit it!”

If Xia ruofei really spent over 80000 spiritual stones to buy this pair of storage rings, he would probably be the one making a fool of himself instead of Wu Ming. This was because it had far exceeded the premium range and was simply an unbelievable price.

Before the auction, everyone had estimated that the transaction price of this pair of storage rings would fluctuate around 30000 spirit stones. However, considering that it was personally refined by layman Yuntai and had a historical origin, the price might increase a certain amount, but it was impossible to increase several times at once, since layman Yuntai was not a God.

“Have you ever thought of him quitting halfway?” Luo Feng said, “if we spend all our spirit stones and end up buying a pair of rings, the sect master ...”

Luo Feng didn’t finish his sentence, but he felt that Wu Ming should be able to imagine that no matter how much Wu Tiancheng pampered his son, he would probably want to personally peel off his son’s skin!

Wu Ming seemed to have a special attribute, which was that when his rage points increased, his intelligence would also decrease.

After he heard Luo Feng’s words, he only hesitated for a moment before saying, “We’ll talk about the future later! It would be good if he could buy this pair of rings! In any case, it’s unlikely that we’ll be able to get that treasure even with 80000 spirit stones!”

“You ...” Luo Feng didn’t know what to say.

Facing the impervious Wu Ming, Luo Feng had no other choice.

He was even thinking about whether he should first knock out his young sect leader and tie him up, then wake him up after the storage ring auction.

However, he immediately eliminated this terrifying thought from his mind. If he really did that, Wu Tiancheng might not say anything, but the sect leader’s wife, Ren suling, would probably really kill him. Usually, no matter how much trouble Wu Ming caused, Ren suling would not bear to punish him. Sometimes, when Wu Tiancheng spoke a little too harshly, it would immediately stimulate Ren suling’s nature to protect her child and protect Wu Ming.

In just a short while, the price on the big screen jumped a few more times and finally reached 32500 spirit stones.

However, the previous few rounds of bids were all added by cultivators from other sects. After the person from room 20 made a bid of 30000 spirit stones, there was no more movement.

Seeing this, Luo Feng quickly said, "young sect master, look, the star Seizer sect's people have stopped bidding!" Maybe they're just testing the waters with a price. If they can get it, it'll be good, but if the price continues to rise, they'll back out. "

As soon as Luo Feng's voice fell, the price on the big screen was updated to 35000 spirit stones. The bidder was from room 20 again.

Luo Feng couldn't help but sigh in his heart. You're all sent by the heavens to play with me! Why did you guys have to wait for me to finish speaking and increase the bid by 2500 spirit stones in one go? isn't this adding fuel to the fire?

Luo Feng felt that he definitely wouldn't be able to suppress Wu Ming.

Sure enough, when Wu Ming saw that Suite 20 had made another bid, his eyes seemed to be spitting fire. He stood up with a bang and directly entered a price in the bidding machine. Then, he pressed the "submit" button heavily.

Luo Feng looked up at the big screen helplessly. He had already given up trying to persuade them. He could only pray in his heart that the star Seizer sect's people were determined enough to buy it, even if it meant 70000 or 80000 spirit stones.

Was there such a possibility? Luo Feng wasn't confident either.

At this moment, the price submitted by Wu Ming was already displayed on the big screen: 38000 spirit stones.

Didn't Xia ruofei just increase the bid by 2500 spiritual stones? Wu Ming decided to add another 3000 spirit stones. No matter what, he couldn't be outdone by the star Seizer sect!

As for the consequences of his impulsiveness, Wu Ming had long forgotten about them.

This price scared off a few competitors. These people were also calmly following up with a higher price, but when this price was shown, many people stopped bidding.

After the bid of 38000 spiritual stones was announced, there was a brief silence. For a while, no one continued to raise the bid, and Luo Feng's heart couldn't help but jump into his throat.

If they were to close the deal at this price, they would only have around 40000 spiritual stones left. If they were to compete for that treasure with such a small amount of spiritual stones, they might not even be able to reach the starting price.

In room 20.

Xia ruofei sat calmly on the sofa, the corners of his mouth curved up. He said indifferently, ""Interesting! The spirit Vulture mountain seemed to be very determined! He's really a little willful!"

"It's probably that idiot of a young sect leader! Luo Feng definitely isn't that crazy." Luo Qingfeng frowned slightly and said, "but I hate this kind of hotheaded young man the most. He comes out to mess things up at the critical moment!"

Luo Qingfeng naturally knew that Xia ruofei had come to the auction this time mainly for the two storage rings and had made sufficient preparations in advance. Now that Wu Ming had joined in, it was unlikely that he would be able to buy the pair of storage rings at a relatively low price.

Although Luo Qingfeng knew that Xia ruofei had an abundance of spirit stones, he did not want his master to spend money in vain!

Xia ruofei waited for a while. When he saw that no one was willing to increase the bid, he muttered to himself for a while and then pressed the increase button on the bidding machine.

38500 spiritual stones.

This time, Xia ruofei bid according to the minimum bid.

...

Of course, he only wanted to test the waters.

As expected, Wu Ming in room 15 followed up without thinking. Xia ruofei's bid only stopped for a second before it was updated to 39000 spiritual stones.

Xia ruofei raised the bid unhurriedly, and the price became 39500 spiritual stones.

Not to be outdone, Wu Ming immediately raised the bid, and the price of the storage ring finally broke through 40000 spirit stones.

In the next few rounds, all the other cultivators had basically given up. Only Xia ruofei and Wu Ming were bidding 500 each.

However, Xia ruofei was always calm when he raised the bid. Wu Ming, on the other hand, would raise the bid immediately after Xia ruofei raised the bid, showing his crazy attitude.

Although they only increased the bid by 500 spiritual stones each time, the speed at which they increased the bid was too fast! In just a short while, the price of the Rings had already approached the Great Barrier of fifty thousand spirit stones.

Chapter 2989 Firecloud pill (1)

In private room 20, Xia ruofei's expression was still very relaxed, while Luo Qingfeng's brows were tightly knitted.

In fact, when the spirit Vulture mountain began to bid, Luo Qingfeng felt that it would be more difficult to buy the pair of storage rings at a relatively reasonable price. Now, he saw that the spirit Vulture mountain seemed to be at odds with Xia ruofei. Basically, as long as Xia ruofei raised the bid, the spirit Vulture mountain would raise the bid without hesitation as if they did not care about the spiritual stones at all. Luo Qingfeng was even more anxious.

Xia ruofei remained calm and composed. He looked at the big screen and saw that the first bid was 48500 spiritual stones. He pondered for a while and directly entered 50000 spiritual stones into the bidding machine to round it up. Then, he submitted it.

As a matter of fact, Xia ruofei had plenty of spiritual stones now. He did not really care whether he would spend 30000 or 50000 spiritual stones to buy the storage rings. He believed that even if they were to compete in wealth, the spirit Vulture mountain would not be able to compete with him even if they went all out. Therefore, there would not be any surprises in the final ownership of the storage ring.

In room 15, Luo Feng held Wu Ming's hand and advised him earnestly, "Young sect leader, you can't raise the price any higher ... This price is already high enough. If you continue bidding, the star Seizer sect might not want it anymore ..."

"Isn't that great?" Wu Ming flung Luo Feng's hand away and said impatiently, "I didn't do all this just to play with them! If they don't want it, then I can just buy this pair of storage rings, right?"

"Young sect leader, we really can't spend our spirit stones on this Phoenix ring!" Luo Feng said, "young sect leader, the past few rounds of bids have already cost the star Seizer sect a lot of spirit stones. You should be able to vent your anger now, right? Let's just stop while we're ahead!"

"Uncle Feng, I told you not to get involved in this!" Wu Ming said coldly, "if my father blames me after we go back, I'll bear all the responsibility. I won't make things difficult for you!"

"It's not a matter of who will bear the responsibility ..." Luo Feng said helplessly. "That treasure is related to the future development of the sect ... Forget it. Since young sect master already has an idea, then I won't say anything more. You do as you see fit!"

Luo Feng sat down on the sofa with waning interest. He knew that Wu Ming would definitely not listen to his advice, so he might as well not be the bad guy. Anyway, Wu Tiancheng and Ren suling also knew what kind of character their son had. They wouldn't be able to blame him when they returned.

Wu Ming said with a cold face, "uncle Feng, just let me be willful this once!" If that brat from the star Seizer sect is really willing to spend eighty thousand spirit stones to buy this pair of rings, then I'll admit defeat. Otherwise, I can tell you right now that it's impossible for you to make me give up!"

Luo Feng nodded his head powerlessly and simply leaned back on the sofa, closing his eyes to rest.

Wu Ming then entered a price in the bidding machine and clenched his teeth to submit the bid.

55000 spirit stones!

When the new price was displayed on the big screen, the cultivators who participated in the auction all thought that the people of the Ling Jue mountain were crazy.

The price of 50000 spiritual stones was already quite high, but now he had added another 5000 spiritual stones to it!

After Wu Ming submitted the price, he even said loudly, "That brat from the star Seizer sect! If you want this pair of storage rings, you'll have to go through your Grandpa Wu! Even if I had a spirit stone in my pocket today, I would add it without hesitation! Or you can just admit defeat now and give me this pair of rings!"

In room 20, Luo Qingfeng was furious when he heard this.

This Wu Ming actually addressed himself as 'Grandpa Wu'. If this rich second generation was Xia ruofei's grandfather, then wouldn't he be Luo Qingfeng's ancestor?

"Bastard!" "Is this how Wu Tiancheng teaches his son?" Luo Qingfeng cursed.

Xia ruofei waved his hand and laughed. "What's there to be angry about with a hothead? Besides, their status was not on the same level! If you have anything to say, say it to his father in the future. This kind of devilish child needs to be taught a lesson. Find a chance to give him a deep lesson so that he will remember it!"

"Master, this bastard's mouth is too smelly ..." Luo Qingfeng said indignantly.

"Ignore him!" Xia ruofei said indifferently.

After Wu Ming submitted his bid, he looked at the big screen above the main auction stage triumphantly and thought to himself, "as long as you dare to follow up, I will increase the bid without hesitation!" There's nothing much I can do with 80000 spirit stones anyway, so I might as well have some fun with you!

Seeing that room 20 had not raised the bid for a long time, he could not help but shout, "Hey! Why is there no movement? Could it be that he was scared by my offer? If you're so timid, how are you going to survive in the world of cultivation?"

Luo Feng almost couldn't help but cover his face. They didn't even bring a single spirit stone when they came to the auction, and now they have two or three times more spirit stones than you. How could you scare them off? He was just wondering if it was worth it to spend so many spirit stones on a pair of storage rings.

However, Luo Feng didn't stop Wu Ming. On the contrary, he was secretly hoping that Wu Ming could enrage the other.

This was because only in this way would the other party bid desperately. In this way, Wu Ming would definitely not be able to win against the other party in the end. Wouldn't that mean that the 80000 plus spirit stones would be safe?

"Master!" Luo Qingfeng was so angry that his face and neck turned red. As long as Xia ruofei gave the order, he would definitely rush to room 15 and teach Wu Ming a lesson.

Xia ruofei laughed. He didn't operate the bidding machine and directly said, "The star Seizer sect offers fifty thousand spirit stones ..."

Hearing this, Wu Ming was slightly stunned at first, then he held his stomach and laughed. He said breathlessly, "Are you out of your mind? Or was there something wrong with her eyes? I've already raised the price to 55000 spirit stones! You're offering 50000 spirit stones ... Haha! Could it be that your spirit stone is more fragrant?"

Xia ruofei said indifferently, "where did this fly come from?" I haven't even finished my words! You're just so noisy!"

Xia ruofei immediately raised his voice and said, "Elder Hao, please communicate with the fellow Daoist who entrusted the auction of this pair of storage rings. Our star Seizer sect is willing to offer 50000 spirit stones, in addition to five firecloud pills ..."

As soon as Xia ruofei said this, many cultivators in the private rooms couldn't help but be moved and started to discuss.

"Firecloud pill? Isn't this the best medicine for repairing damaged meridians?"

"To be more precise, it's the best medicine to repair the damage to the meridians caused by cultivating water or ice attribute cultivation techniques!"

"Yes, yes, yes! The fire cloud pill and the ice cloud pill were both known for their outstanding effects of repairing meridians. However, hadn't this medicinal formula been lost long ago? There are only a few firecloud pills left in the cultivation world, and they were excavated from ancient ruins a few years ago. It's said that most of their medicinal properties have already been lost, and they should've been used up long ago ..."

"This year, the star Seizer sect has truly exceeded everyone's expectations! Those bottles of Chi – amassing pills were also put up for auction by them, right?"

"Could it be that the star Seizer sect has recruited a Grandmaster Alchemist? Or did they discover the complete ruins of ancient cultivators and excavate the long – Lost formulas and cultivation Arts from them? Don't forget that they even brought out the "the true linglang Scripture"!"

"Tsk tsk tsk! The star Seizer sect is going to soar to the heavens!"

.....

In private room 6, Liu Mansha and Yang Liu, who had been watching the show, were also taken aback when they heard this. They then looked at each other.

"Interesting!" Liu Mansha said with a smile. The Chi – amassing pill and the firecloud pill are not real pills, but I think only the star Seizer sect is capable of producing such pills in the current cultivation world ..."

"Senior Sister, I've never seen Luo Qingfeng's junior Brother Xia before!" Yang Liu said, "the star Seizer sect is causing such a huge commotion. I guess it has something to do with him!"

"I'm 80% sure ... Junior Sister, this young man Xia Tian ... What do you think his background is?" Liu Mansha nodded.

"Origins? Isn't he from the star Seizer sect?" Willow said, slightly stunned.

"That's not what I meant ..." Liu Mansha said. "You see ... Luo Qingfeng called him Junior Brother, but Luo Qingfeng's master died decades ago. At that time, he wasn't even born this summer! He's definitely not Luo Qingfeng's junior Brother. He's just calling him that!"

"Senior Sister, you mean ... To live in seclusion ..." Yang Liu shut her mouth halfway.

Liu Mansha nodded and said, "it looks like it!" A lost cultivation technique, a lost medicinal formula, and a treasure that can conceal one's cultivation ... Furthermore, I've never seen this summer before. It's as if he suddenly appeared out of nowhere. Don't you think he's similar?"

Willow pondered for a while and nodded, "Now that you mention it, senior apprentice – Sister, it does seem like... In that case, there might be a nascent soul cultivator behind the star Seizer sect ..."

"Be careful with your words!" Liu Mansha interrupted Yang Liu in time and said, "let's see! In short, do not rashly engage in any conflict with the star Seizer sect. It's a good thing that we've been getting along well with the star Seizer sect, but the spirit Vulture mountain ..."

"Wu Tiancheng is really bold. He actually let Luo Feng come out with his silly son. That Luo Feng can't suppress Wu Ming at all!" Willow chuckled.

.....

In room 15, Wu Ming shouted loudly, "What bullshit firecloud pill is this? Just use the spirit stones to talk, who knows what your firecloud pill is ..."

...

"Young sect master!" Luo Feng quickly said. If they really do have firecloud pills, they'll be very valuable!"

Then, Luo Feng quickly explained the situation of the firecloud pill to Wu Ming.

"Even if that's the case, do you really think five mere firecloud pills are worth 5000 spirit stones?" Wu Ming asked, his lips twitching.

Chapter 2990 Asking for humiliation (1)

"Uncle Feng, what's the matter now?" Wu Ming said impatiently.

"Young sect leader, this isn't how you calculate your debts!" Luo Feng said with a bitter smile. This was an auction, so naturally, the cultivator who entrusted the auction had the right to make the decision. The firecloud pill might not be worth 1000 spirit stones per pill, but the problem was that even if they had spirit stones, they could not buy the firecloud pill! If a cultivator who sells matching rings happens to be in need of firecloud pills but can't find a way to buy them, they'll definitely choose to add spirit stones to the firecloud pill rather than ask for more spirit stones!"

Wu Ming pouted and said, "how can it be so coincidental?" What that kid took out just happened to be what the other party needed, and it's something they urgently needed?"

As soon as Wu Ming's voice fell, Hao Qingsong, who was on the main auction stage, said, "I've already spoken to the fellow Daoist who entrusted me with the auction. He's willing to accept the offer of fifty thousand spirit stones and firecloud pills! However, the premise is that the quality of the firecloud pill must pass the test. Even if it's not newly refined but excavated from the ruins of ancient cultivation, it can't be the kind that has lost most of its medicinal properties. "

Some relatively rare medicinal pills and medicines in the modern cultivation world could often be excavated from ancient cultivation ruins. However, due to the different storage environments, the

degree of medicinal properties loss was also greatly different. Some could even perfectly retain all the medicinal properties. Therefore, the quality of the medicines excavated from the same ancient cultivation ruins would be greatly different.

In room 20, Xia ruofei smiled confidently and said, "Of course! The quality of the firecloud pill could definitely be guaranteed, and the medicinal properties would not be lost in the slightest. If you can't meet this standard, I'm willing to compensate you ten times the amount, which is five hundred thousand spirit stones."

Xia ruofei had already expected this outcome. He had done his homework after getting some inside information from Liu chengfeng.

The person who entrusted the auction of the pair of Phoenix rings was Mu Sheng, the head of the surging waves sect. He needed to buy a spirit herb to cure the damaged meridians of his only son, mu Jianfei, but he didn't have enough spirit stones, so he reluctantly gave it up.

After Xia ruofei heard the news, he immediately understood the situation of the surging waves sect.

He found that Mu Sheng and his son's main cultivation method was water attribute, and there was a high probability that mu Jianfei had accidentally injured his meridians while cultivating water attribute cultivation method.

Although water attribute cultivation techniques were generally more gentle, if one's meridians were damaged due to improper cultivation, it would be extremely difficult to recover.

This also indirectly confirmed that even Mu Sheng, a golden core stage cultivator who was the sect leader and had a certain healing attribute in his cultivation method, was helpless and had to seek medical advice everywhere.

After getting hold of this crucial information, the first thing that came to Xia ruofei's mind was the fire cloud pill.

Just as the cultivators had discussed, the firecloud pill had a unique advantage in repairing the meridians damaged by water attribute cultivation techniques, and the effect was immediate.

Xia ruofei didn't know if there was anyone in the modern cultivation world who could make the fire cloud pill, but he guessed that the prescription should have been lost. Otherwise, if Mu Sheng tried to use the fire cloud pill to treat mu Jianfei, it should have worked. After all, mu Jianfei was only a Qi refining stage cultivator. Even if he lost control of his true Qi due to improper cultivation, the consequences should not be too serious.

If Mu Sheng had already tried the fire cloud pill and it still didn't work, then Xia ruofei had no other choice. He could only rely on his own judgment to make the best plan.

Of course, Xia ruofei had also mastered many formulas that were more advanced than the firecloud pill. However, they were all real elixirs. Xia ruofei had not broken through to the intermediate stage of the Golden core realm and could not make them.

This was even taking into account the advantages of the great Dao Arts. For ordinary cultivators, they could only try to refine real medicinal pills at least in the late – Stage of the Golden core stage.

Therefore, even though there were better medicines, Xia ruofei could not make them and there was nothing he could do.

Since the start of the auction, Xia ruofei's new arrival had basically made it impossible to find any high – Quality Qi – gathering pill formula in the modern cultivation world. The even more difficult to refine fire cloud pill was most likely lost. Moreover, he had earned so many spirit stones. If he had to get this pair of storage rings, he could just throw them away with spirit stones. In the end, the winner would definitely be him.

Other cultivators would consider the cost – Performance ratio, but Xia ruofei did not care much about spiritual stones.

However, the development of the matter did not exceed Xia ruofei's expectations. After he proposed the spirit stones plus firecloud pill, Mu Sheng quickly transmitted a message to Hao Qingsong and accepted it without the slightest hesitation.

In room 15.

Wu Ming's face alternated between red and white. As soon as he finished speaking, he was ruthlessly slapped in the face by Hao Qingsong's words.

When he heard that Xia ruofei had “used the same old trick” again, demanding compensation of ten times if there was a problem with the firecloud pill, he was even more furious.

Even though Luo Feng had already explained to him, he still couldn't help but shout, “Elder Tong, isn't this a little inappropriate? I'm offering 55000 spiritual stones! Were five firecloud pills worth five thousand spirit stones? Even if each firecloud pill was worth a thousand spirit stones, there should be a first come, first served basis, right? I'm the one who bid 55000 first!”

“Young sect Master Wu, this is the rule of the auction,” Hao Qingsong said with a faint smile. “When a fellow Daoist uses an item to pay spirit stones, the client has the right to decide whether to choose the item or the pure spirit stones. After all, the price of an item is different in the eyes of different people. Naturally, the client's judgment will be the deciding factor.”

Hao Qingsong's explanation was plain, but it left Wu Ming speechless.

Luo Feng couldn't help but smile wryly. He had already said that Wu Ming was a bad guy, but he just didn't believe him!

Wu Ming's face was as calm as water. He gritted his teeth and said loudly, “Elder Tong, since it's an auction, I can still continue bidding, right?”

Hao Qingsong stared blankly for a moment, before saying with a bitter smile, “Of course, but ...”

“Since I can offer a higher price, I'll take it that the star Seizer sect's offer of 50000 spirit stones and five firecloud pills is higher than my 55000 spirit stones offer!” Wu Ming snorted coldly and said, “now, I'll bid again. 80000 spirit stones! Let the fellow Daoist who entrusted the auction to me choose for himself!”

Beside him, Luo Feng's expression changed drastically when he heard this. Wu Ming had completely lost his mind after being provoked repeatedly.

80,000 spirit stones were all they had brought with them on this trip. Wu Ming threw all of them in.

Now that things had developed to this point, no matter what the final result was, the spirit Vulture mountain would become a joke.

If the person who entrusted the auction to him didn't want the 80000 spirit stones and still chose the 50000 spirit stones plus five firecloud pills, it would be a real slap in the face.

If the other party chose 80000 spiritual stones, it meant that the treasure had not even been auctioned off. The spiritual stones that the lingjue mountain had brought out this time had all been used up. Moreover, their young sect master had used 80000 spiritual stones, which was at least twice the normal price, to buy two storage rings back just to make the beauty smile. This would also become a huge joke.

Hao Qingsong's expression slightly changed. After a quick thought, he said, "I need to communicate with the fellow Daoist who entrusted the auction of the pair of rings. Before that, I'd like to ask fellow Daoist Xia in room 20 if you'd like to change your offer. "

Xia ruofei smiled and said, " 50000 spiritual stones and five firecloud pills. That's my final offer." I feel that my offer is already very sincere. If I still can't buy back that pair of storage rings, it means that I'm not fated to be with them. By the way, my firecloud pill is not for sale. I won't sell it no matter how many spirit stones you give me after the auction. "

Xia ruofei was now very sure that Mu Sheng was in urgent need of the firecloud pill. Moreover, in the current cultivation world, it seemed that no one could refine the firecloud pill.

Thus, he was very confident.

The value of an item was never determined by the market price alone. In many cases, the relationship between supply and demand played a decisive role. Of course, in a broad sense, this was also a factor of the market situation.

"I understand." Hao Qingsong said with a smile.

Then, he directly began to communicate with Mu Sheng.

The cultivators of the surging waves sect were all arranged to be in room 10. Other than Mu Sheng and the pale – faced mu Jianfei, there was also elder mu Hua. He was also an early golden core cultivator in his early sixties, which was considered relatively young among the Golden core cultivators.

"Sect leader, 80000 spirit stones can buy quite a lot of medicine to warm the meridians in addition to the red flame Grass." Mu Hua said.

He was obviously a little tempted by Wu Ming's crazy offer. Under normal circumstances, it would be a miracle if the ring could be sold for 50000 spirit stones. After all, it only had one function.

However, Mu Sheng calmly asked, "can the red flame Grass definitely cure Fei 'er's injury?" Even if you add in some ordinary medicine that nourishes the meridians, how much effect will it have?"

Mu Hua hesitated for a moment and said, "but the firecloud pill might not be able to completely cure him. Moreover, five pills seem to be too little. With young sect leader's injuries, I'm afraid it's not enough ..."

Mu Sheng smiled and said, "at least the firecloud pill is the most appropriate. Moreover, the hope of recovery with the firecloud pill is much greater than with the red flame Grass." As for if five firecloud pills aren't enough ... Maybe we can continue to buy from him ..."

"Father, you mean they ..." Mu Jianfei's eyes lit up.

"En!" Mu Sheng nodded and said, "it's rare to see a container that can perfectly preserve the medicinal properties. They are so confident in the medicinal properties of these five firecloud pills. It's very likely that they refined these firecloud pills themselves!"
