Chapter 2991 Getting his wish (1)

In room 15, Wu Ming's expression was extremely ugly.

He kept cursing, "what the hell is this!?" He would rather have five firecloud pills than 80000 spirit stones. Was he out of his mind? Uncle Feng, I suspect that there's a conspiracy behind this! Could it be that the star Seizer sect had deliberately directed and acted out this? It's just to ridicule us!"

Luo Feng didn't know whether to laugh or cry, "young sect leader, you're thinking too much!" They shouldn't be that bored. As I said earlier, it's possible that this person has long taken a fancy to this pair of storage rings, so he did a lot of research in advance. He knows what the cultivator who entrusted the auction of the pair of rings urgently needs, so he has a target to target and took out the firecloud pills!"

In fact, Luo Feng's current mood was very conflicted. On one hand, the spirit Vulture mountain had been slapped in the face. As an elder of the spirit Vulture mountain, he naturally couldn't be happy. On the other hand, this result allowed him to keep the 80000 spiritual stones he had brought out this time. Although the chances of winning the treasure with these 80000 spiritual stones were still very slim, at least there was still a glimmer of hope. At least he would not completely lose his qualification to compete.

Wu Ming looked indignant and said, "That brat from the star Seizer sect looks like a treacherous fellow ..."

"Young sect leader, forget it ..." Luo Feng consoled, "more than half of the famous people in the cultivation world are here. We can't do anything to them. We'll just find another chance to get back at them ..."

The speaker didn't mean it, but the listener took it seriously.

After hearing Luo Feng's words, Wu Ming's eyes flickered a few times, then he sat down without a word.

In room 20.

The head of the fallen leaf sect, Shao Qingyang, was still fully absorbed in reading the first handwritten copy of the "glittering jewel true understanding." He had naturally noticed what had happened during the auction just now, but now he had to devote himself to memorizing the contents of the handwritten copy, so he naturally had no time to care about other things.

After the auction's results were settled, Shao Qingyang reluctantly shifted his gaze away from the handwritten book and said with a smile, "Fellow Daoist Xia is really full of hidden abilities! Chi – amassing pill, firecloud pill ... These are all long – Lost medicines in the cultivation world, and you can actually take them out so easily. "

Because Shao Qingyang was present, Xia ruofei and Luo Qingfeng had communicated through telepathy. However, Shao Qingyang could still see that Xia ruofei had been the one making the decisions from the beginning to the end. Luo Qingfeng, the dignified sect leader, was just a bystander here. Thus, Shao Qingyang was even more certain of his judgment. His attitude toward Xia ruofei became even more affable, and it was obvious that he wanted to befriend him.

Xia ruofei smiled faintly. "You flatter me, sect leader Shao. I'm just a senior. I don't have that kind of ability!"

Xia ruofei had deliberately spoken ambiguously. He did not lie. All of this had been left for him by immortal mountain river.

However, the way he described it easily led to other associations.

Sure enough, Shao Qingyang's first impression of the young man in front of him made him even more certain that he was most likely the direct disciple of a Yuanying stage senior. Otherwise, how could he have such a deep foundation? Moreover, he seemed to have admitted it himself just now.

What Shao Qingyang didn't know was that even though master Shanhe, who was behind Xia ruofei, was a Senior Master with a cultivation level that was far beyond the nascent Soul Stage, he had left earth a long time ago and could no longer be Xia ruofei's backer.

Xia ruofei's current strength was not at the top of the cultivation world, so when necessary, he would still use the Tiger's skin as a banner.

If all these big shots in the world of cultivation had the impression that he had the support of a nascent soul old monster behind him, then those who harbored evil intentions would have to first measure their own strength before they wanted to deal with the star Seizer sect.

Shao Qingyang's expression changed slightly, but he immediately returned to normal. He revealed a more friendly smile and said, "Fellow Daoist Xia is too modest ... Our Fallen Leaf sect and the star Seizer sect have always had a friendly relationship. We can be said to be of the same breath and branch. We should keep in touch more often in the future!"

"Definitely!" Xia ruofei said indifferently.

Shao Qingyang didn't want to waste too much time. After all, his top priority was to memorize the contents of the first volume of the glittering jewel Wonderland. So, after a few polite words, he immediately said, "Fellow Daoist Xia, I've just told Qing Song that the auction will continue as usual. After I've finished reading the handwritten copy, I'll personally invite sect leader mu over, and we'll trade face to face."

Xia ruofei had directly used the firecloud pill to pay for the spiritual stones during the auction. Shao Qingyang naturally understood that Xia ruofei had already known who the person who entrusted the auction of the flying Phoenix ring was in advance. Moreover, everyone would be examining the goods in person later, so Shao Qingyang naturally would not hide Mu Sheng's identity anymore.

Shao Qingyang's reading time was already past half, so it would only take another half an hour for him to finish reading. Hence, Xia ruofei naturally did not mind. He smiled and said, "Then we'll follow your arrangement, sect leader Shao."

"Alright!" Shao Qingyang quickly nodded. Then I'll Continue reading ..."

"Please go ahead, sect leader Shao!" Xia ruofei said with a smile.

The following auction was uneventful. One treasure after another was brought up to the main auction stage, and after everyone had bid, they all found a suitable owner.

Chapter 2992 Getting his wish (2)

These items were eye – opening for Xia ruofei. He had never heard of many of them before. Although he did not intend to compete for them, he still looked at them with great interest.

Although these items had their own unique characteristics, Xia ruofei also noticed that the cultivators with the earlier box numbers rarely bid. He felt that everyone was waiting for an item to appear, and it would probably cause a fierce competition.

The good show was yet to come.

Hence, Xia ruofei was not in a hurry to use his spiritual stones. He was also curious about what treasure everyone was fighting for.

Even after paying the 50000 spiritual stones, Xia ruofei could still use nearly 110000 spiritual stones. He believed that he had the ability to compete.

As a result, although he was quite interested in a few of the previous items, he still held back and did not rashly make a move.

Of course, this was also because none of these items could make his eyes light up and make him want to buy them at all costs.

An hour passed by quickly. Xia ruofei's phone, which he had set an alarm on in advance, rang on the coffee table.

Shao Qingyang had personally seen Xia ruofei set the alarm, so when the alarm went off, he very consciously closed the manuscript and said with a smile, "I'm very grateful for fellow Daoist Xia and sect leader Luo's generosity. I've read the contents of the first volume of the 'truth of the glittering jewel'. Although it's for Qi refining cultivators, golden core cultivators can also benefit greatly from it!"

Xia ruofei smiled. "Sect leader Shao, you have wasted some time on our deal. You can look at it for a few more minutes. It's okay."

Shao Qingyang laughed and waved his hand, "No need, no need. An hour is enough. I've already watched it several times."

There wasn't much content in a hand – written volume. Shao Qingyang spent half an hour to memorize most of it. The rest was just to repeat it to deepen his impression.

Since he had already memorized everything, Shao Qingyang naturally did not care about the few minutes. He also did not want to give Xia ruofei the impression that he was haggling over every single thing.

Hearing this, Xia ruofei did not force him. He gave Luo Qingfeng a look, and Luo Qingfeng immediately understood and walked forward to keep the manuscript.

"Fellow Daoist Xia, sect leader Luo, please take a seat for a moment," Shao Qingyang said with a smile. "I'll go and retrieve the Rings of the phoenixes, then invite sect leader mu over."

"I'll have to trouble you, sect leader Shao!" Xia ruofei smiled.

After a while, Xia ruofei heard a knock on the door, followed by Shao Qingyang's voice, ""Fellow Daoist Xia, it's me, Shao Qingyang!"

"Please enter!" Xia ruofei said in a clear voice.

Shao Qingyang pushed open the private room's door and brought three people in. Xia ruofei and Luo Qingfeng's gazes naturally fell on the three people.

Xia ruofei and Luo Qingfeng looked at each other, and Luo Qingfeng nodded slightly.

He was trying to confirm Mu Sheng's identity. As sect leaders of the same sect, Luo Qingfeng had naturally dealt with Mu Sheng before, so he could recognize at a glance that this was indeed the sect leader of the Canglang sect in the southwest.

With a warm smile on his face, Shao Qingyang said, ""Daoist Xia, sect leader Luo, let me introduce you. This is the sect leader of the surging waves sect, Daoist Mu Sheng. He's the one who entrusted us to auction the flying Phoenix ring. This is fellow Daoist mu Hua, elder of the surging waves sect, and this young friend is the son of sect leader mu, mu Jiansheng!"

Mu Sheng laughed and stepped forward, ""Fellow Daoist Xia's performance at this auction was truly astonishing! Nice to meet you!"

Mu Sheng should be in his 70s, but he looked very energetic. Although the surging waves sect specialized in water – based martial arts, Mu Sheng's figure was a little short and strong, especially his thick beard, which gave people a very rough feeling. His voice was also very loud, which completely overturned Xia ruofei's preconceived judgment.

On the other hand, mu Jianfei, the young sect leader of the surging waves sect, looked like a frail gentleman. He seemed to be less than thirty years old. He had a slender figure and a slightly pale face, but he still had the temperament of an elegant young master.

When Mu Sheng greeted Xia ruofei, mu Jianfei stood quietly at the side, but he also showed a friendly smile to Xia ruofei.

Mu Sheng and mu Jianfei should have quite a big age difference. It could be said that they had a son at an old age. However, it was obvious that mu Jianfei's upbringing was much better than Wu Ming's in room 15. At least, he gave Xia ruofei a good first impression.

Xia ruofei smiled. "You're too kind, sect leader mu. I've long heard of you."

Shao Qingyang laughed and said, "let's not flatter each other. Let's just get straight to the point!" How about we each take what we need?"

"That's what I was thinking!" Mu Sheng said with a smile.

"Sure!" Xia ruofei nodded.

"Sect leader MU's character is well – known in the world of cultivation, and fellow Daoist Xia is also a man of his word. You two should settle the deal!" Shao Qingyang said. I still have some matters to attend to, so I'll take my leave! That's right ... I've already decided to waive the Commission for this order. Fellow Daoist Xia just needs to pay all the spirit stones to sect leader mu. "

Shao Qingyang was in a hurry to memorize the contents of the first volume of the “true understanding of the glittering jewel”.

He had just recited it a few times, and now was the time when his memory was the most profound. Naturally, he had to seize the time to record it down. Otherwise, if his memory started to blur, it would lead to some mistakes in the record. It would really be a pity for such a good cultivation technique.

Perhaps his disciples might even encounter danger while cultivating!

Therefore, Shao Qingyang didn’t dare to delay. He didn’t even wait for Xia ruofei and Mu Sheng to complete their transaction before he excused himself and left.

Xia ruofei naturally knew why Shao Qingyang was in such a hurry to leave. He smiled and nodded,””Please help yourself, sect leader Shao!”

Shao Qingyang cupped his hands at everyone and left in a hurry.

Mu Sheng took out the pair of rings and placed them on the coffee table in front of the sofa. Then he said,””Fellow Daoist Xia, I’m sure you know that I’m in urgent need of firecloud pills, so ...”

“Understood!” Xia ruofei replied with a smile.

After that, he took out a porcelain bottle from the space and handed it to Mu Sheng,””Sect leader mu can examine it personally. You can even let your son take one on the spot!”

Mu Sheng quickly took the porcelain bottle as if he had obtained a treasure. Then, he couldn’t wait to open the stopper. He first put it to his nose and sniffed it carefully, then carefully poured out a fire cloud pill that was completely red.

Mu Sheng held the fire cloud pill in his palm and observed it carefully. The joy on his face grew more and more intense.

In the end, Mu Sheng put the fire cloud pill back into the porcelain bottle, carefully closed the bottle stopper, and then said,””Fire cloud pills that are close to perfect quality! And it was not an antique excavated from the ruins of ancient cultivators! Fellow Daoist Xia really knows how to concoct the firecloud pill!”

Xia ruofei smiled and did not say anything. He neither admitted nor denied Mu Sheng’s words.

“Sect leader mu,” Luo Qingfeng said.”Does this mean that you acknowledge the quality of the firecloud pills?” Then there’s no problem with the deal?”

“No problem!” Mu Sheng said very readily,”the Phoenix ring is yours! However, I still have a presumptuous request ...”

“Please speak, sect leader mu.” Xia ruofei said calmly.

“Fei ‘er’s meridians are seriously injured. Although the quality of the firecloud pills provided by fellow Daoist Xia is quite good, I’m afraid that five firecloud pills are not enough to heal Fei’ er’s meridians, so ...” Mu Sheng said very sincerely,”I would like to ask fellow Daoist Xia to trade a few more firecloud pills with us. The price is negotiable!”

Hearing this, Xia ruofei pondered and said, "I only have these five firecloud pills with me now. If sect leader mu needs them, you might have to wait for a while ..."

"No problem!" Mu Sheng said without hesitation, "Fei 'er will need time to absorb and refine these five firecloud pills! Fellow Daoist Xia, I'd like to purchase five more firecloud pills from you at the price of one thousand spirit stones per pill. Is that alright?"

Xia ruofei thought for a while and then nodded. "No problem! Sect leader mu, let's finish the deal first!"

With that, Xia ruofei took out another 50000 spiritual stones from the medium and placed it on the floor of the private room.

...

Chapter 2993 A shallow friendship (1)

Mu Sheng glanced at the big bag of spirit stones and directly used his spiritual power to grab some of them from the air and piled them on the ground. Then he smiled and said, "Fellow Daoist Xia, you can keep the spirit stones you need to purchase the remaining five firecloud pills! After you've prepared the firecloud pills, you can just give them to us."

Xia ruofei raised his eyebrows and smiled. "Sect leader mu, do you trust us that much?"

Mu Sheng laughed and said, "I think I'm quite good at judging people!" Fellow Daoist Xia is a man of great ambitions, so why would he betray us for mere spirit stones?"

Xia ruofei didn't hesitate and kept the 5000 spiritual stones. He said, "I'll prepare the five firecloud pills as soon as possible. I won't delay your son's treatment!"

"In that case, I'll have to thank fellow Daoist Xia in advance!" Mu Sheng said happily. Then, he said to mu Jianfei, "Fei 'er, why don't you quickly thank fellow Daoist Xia?"

Mu Jianfei quickly bowed and said, "Thank you, Xia ... Senior!"

Xia ruofei smiled. "Brother Jianfei, it looks like you're a few years older than me. I don't dare to call you senior. We can just call each other brothers!"

Mu Sheng waved his hand and said, "fellow Daoist Xia is the junior Brother of sect leader Luo. According to seniority, it's reasonable for Fei 'er to call you senior. What's wrong with that?"

"Sect leader mu, it's better for us to discuss our own matters." Xia ruofei smiled and said, "brother Jianfei, what do you think?"

Mu Jianfei naturally didn't like to be one generation lower than him. So, after hearing Xia ruofei's words, he couldn't help but look at Mu Sheng. He saw Mu Sheng nod his head slightly, so he reluctantly said, "Then ... Then we'll do as brother Xia says! I really have to thank brother Xia this time! Regardless of whether my injuries can recover successfully or not, I will definitely remember brother Xia's kindness in my heart!"

"Brother Jianfei, you're too polite!" Xia ruofei smiled. "It's just a fair trade. Your father has paid enough spiritual stones, and it's in advance."

"Business is one thing, but you can't forget the favor!" Mu Sheng waved his hand and said, "if you could only buy the firecloud pill with spirit stones, Fei 'er's injury wouldn't have been delayed until now. Fellow Daoist Xia, the whole vast waves sect is grateful for your help!"

Xia ruofei could see that Mu Sheng was really forthright and his words came from the bottom of his heart, so he smiled and cupped his hands.

"Fellow Daoist Xia, what I'm going to say next might be a little profound, but I'm on good terms with fellow Daoist Xia, so I'd like to say it," Mu Sheng continued.

"I'm all ears!" Xia ruofei smiled.

Mu Sheng nodded and said, "fellow Daoist Xia, your sect has made a big splash in this auction, especially fellow Daoist Xia. It's your first time in the world of cultivation, but you're already dazzling." This was a good thing, but it could also bring a lot of trouble. You must know that many of the people attending today's auction have never followed the rules, and it wouldn't be wrong to call them evil. As the saying goes, one must always be on guard against others, so fellow Daoist Xia should be prepared!"

Xia ruofei nodded with a smile. "Thank you for your reminder, sect leader mu. I will be on high alert. I will be careful at all times!"

Mu Sheng nodded with relief and said, "If there's a need, Daoist Xia and sect leader Luo can leave with our surging waves sect after the auction. This way, we can look out for each other."

Mu Sheng's words touched Xia ruofei.

Anyone with eyes could see that Xia ruofei and Luo Qingfeng had become the focus of attention. Not only did they carry a large number of spiritual stones, but they also had a pair of valuable storage rings. Therefore, after the two of them left the auction, their journey would not be peaceful. Mu Sheng had taken the initiative to help Xia ruofei bear the burden regardless of the danger. For someone who had just met him, Mu Sheng's action was undoubtedly very magnanimous.

Without waiting for Xia ruofei's reply, Mu Sheng immediately said, "Fellow Daoist Xia, please don't misunderstand. This mu is doing this for Fei 'er's sake. After all, we still need fellow Daoist Xia to provide us with firecloud pills! The one who doesn't want anything to happen to you two is definitely me, haha ..."

Xia ruofei nodded. "Thank you, sect leader mu. If there's a need, I'll take the initiative to contact you."

"Alright!" Mu Sheng said. "We won't disturb you any longer ..."

Then, Mu Sheng took out a name card and a jade pendant from his storage ring and handed them to Xia ruofei. He said, "After fellow Daoist Xia has prepared the firecloud pills, you can contact the person on the name card at any time. Use the jade pendant as a token and he will send the news back to our vast waves sect as soon as possible!"

Xia ruofei looked at the name card and the jade pendant and kept it. "No problem! If everything goes well, I should be able to get it ready in three to five days."

"Farewell!" Mu Sheng cupped his hands at Xia ruofei, then left the private room with mu Jianfei and mu Hua.

The No. 20 private room was quiet again, leaving only Xia ruofei and Luo Qingfeng.

After Xia ruofei set up the various shielding barriers again, he said to Luo Qingfeng, "Qingfeng, Mu Sheng looks like a good person. What's his reputation in the world of cultivation?"

"It's considered a more positive one!" Luo Qingfeng said, "he's forthright and righteous. He rarely has any negative news. Also, he's usually blunt to people he doesn't like, so there's also a small group of people who hate him ..."

"In that case, he shouldn't have any other purpose in inviting us to travel together?" Xia ruofei said.

"Master," Luo Qingfeng quickly said, "after all, we're not friends yet. My understanding of Mu Sheng is only superficial. For safety reasons, we should ..."

Xia ruofei smiled and waved his hand. "I know that. I don't really intend to travel with them."

Mu Sheng's cultivation level was a little higher than Luo Qingfeng's, but he was not of much use against those late – Stage golden core cultivators. Moreover, he had brought mu Hua and mu Jianfei with him, so they would definitely be a burden. Whether they could be of any help was another matter, and they might even become a burden instead.

The most important thing was that if it was just Xia ruofei and Luo Qingfeng, Xia ruofei could deal with any emergency that they could not resist. In the worst case scenario, he could hide in the spirit map space with Luo Qingfeng. This way, they could avoid the search of strong enemies.

Anyway, Luo Qingfeng's sea of consciousness had already been imprinted with a soul seal, so he could never betray Xia ruofei.

Previously, he did not tell Luo Qingfeng about the spirit map space because he thought that it was better to avoid unnecessary trouble. If it was really an emergency, there was no need to avoid Luo Qingfeng.

In fact, Xia ruofei's first soul slave, Liu chengfeng, knew about the spirit map space.

If he were to travel with Mu Sheng and the others, he would naturally have many concerns and would not be able to use the spirit map space anytime and anywhere.

"Let's not think too much about it. We'll take it one step at a time!" Xia ruofei said.

After saying that, Xia ruofei picked up the pair of rings that Mu Sheng had left behind and started to play with them.

This pair of storage rings was indeed very exquisite. The Phoenix patterns carved on it were lifelike, and the shape was small and exquisite. It was very beautiful, and one could tell at a glance that it was the type for girls.

Although these were made by ancient cultivators, even in modern times, according to the aesthetic standards of the secular world, these rings were still quite beautiful. They were not inferior to the standard of jewelry designers.

Of course, from a cultivator's point of view, they might value functionality more.

Hence, after fiddling with it for a while, Xia ruofei tried to use his spiritual power to enter the storage ring.

The ownership of this pair of storage rings had been canceled before the auction. At the moment, it could be directly explored with mental power, but once the blood ownership was established, only the master's mental power could penetrate it.

Basically, all storage rings were designed this way.

Xia ruofei's spiritual power went in and felt a space that wasn't very big. It was about 10 meters in length, width, and height, exactly the same as the introduction before the auction.

It was Xia ruofei's first time experiencing the space in the storage ring.

His first thought was that there was a huge difference between this kind of storage space and a spirit map space. The most obvious thing was that the space in the storage ring was dead. There was no life force at all, and there was no air at all. If a living thing was forcibly put into the storage space, it would naturally die instantly.

However, the spirit map space was completely different. Even if he used his spiritual power to sense it from the outside world, he could feel the exuberant vitality.

The space within the ring was naturally empty.

Xia ruofei scanned the two rings with his spiritual energy and suddenly felt something special ...

Chapter 2994 Spatial nested_1

"You can see what's special about it?" Xia ruofei asked curiously using telepathy.

Bai Qingqing was shocked and jumped up from where she was standing. "Hey! Can you not be so scary? When did you secretly hide at the side to peep?"

Xia ruofei smiled and asked, "you're not human either ... How can you say it's scary?" Besides, this entire space is mine. I'm just patrolling the area, what's wrong with that?"

"You're cursing a human ... A Fox?" Bai Qingqing rolled her eyes like a human and said, "I strongly protest!"

"Cut the crap ..." Xia ruofei laughed and scolded, "what were you mumbling to yourself just now?" You can also tell that this storage ring is special?"

"It's just a simple spatial nesting," Bai Qingqing pouted. "Anyone can see it, right?"

Xia ruofei was very embarrassed. Fortunately, he was in the outside world and could only use his mind to explore the space, so Bai Qingqing could not see his expression.

Xia ruofei said, "spatial nested?" Can you explain it to me?"

"I almost forgot," Bai Qingqing said. "You humans have terrible spatial abilities ..."

"Speak properly!" Xia ruofei said unhappily.

Bai Qingqing grinned and said, 'but ... From your tone, you must have noticed something strange, right? It's already not easy ...'

Before Bai Qingqing could finish her sentence, she felt a force wrap around her and lift her small body up. This force was also squeezing her.

Bai Qingqing shouted, "stop! Stop! Stop! Stop!" I'm just joking, how can you be so angry?"

Xia ruofei snorted and said, ""Can we talk properly now?"

"I'll tell you if you put me down!" Bai Qingqing said.

As soon as it finished speaking, it felt the force restraining its body disappear into thin air. Then, it fell to the ground with a bang, raising a cloud of dust.

Bai Qingqing didn't seem to care. She rolled on the ground and stood up, shaking off the dust on her body, and then said, ""Out of these two storage rings, only one of them has a nested space ..."

Xia ruofei impatiently took out the storage ring that he felt was a little special and placed it in front of Bai Qingqing. Then, he said, ""Don't test me, I know this is the so - called space nested. You just need to tell me what a spatial nested array is. "

Bai Qingqing giggled as she touched the storage ring with her claws, ""It's very simple. As the name implies, space nesting is an even smaller space inside the ring. For you humans, this can only be done by cultivators who have a better understanding of the rules of space. I guess the person who made this storage ring should be a master of space. "

The Grand cloud scholar was an ancient cultivator. The people in the modern cultivation world only knew about him from the notes he left behind. Hence, Xia ruofei didn't know much about him and didn't even know if he was proficient in the rules of space.

"You can continue." Xia ruofei said indifferently.

Bai Qingqing said, "generally speaking, this kind of nested space is more secretive. It's like adding a secret room in the storage ring. That's why you can notice that this storage ring is different from the rest. It means that you have a good understanding of the rules of space!"

Xia ruofei was unmoved by Bai Qingqing's praise. He even felt that she was not praising him, but showing off.

To show off its noble status as the beloved child of the space God ...

Xia ruofei asked patiently, "that is to say, this hidden space is in the storage ring. However, most people can't find it. Even if they did, it would be hard to find it, right?"

Bai Qingqing nodded and said, 'that's right! It was possible for cultivators who were sensitive to space to find abnormalities, but it was several times more difficult to find the nested hidden spaces. Generally speaking, this kind of nested space is used by cultivators to store some important treasures, so you may have hit the jackpot with this ring!"

"In other words, you have a way to open the nested space?" Xia ruofei asked.

Bai Qingqing twisted her body proudly and said, ""Since I can see it at a glance, I must have a way to open it! Xia ruofei, why don't we cooperate? I'll help you open the nested space, and we'll split the treasures 50 - 50!"

Xia ruofei didn't say a word. He used the invisible power of space to wrap up the storage ring. Then, he took another ordinary storage ring and took them into the stone room in the cave.

There was a restriction at the entrance of the cave. Even the realm Fox, Bai Qingqing, could not enter without alerting Xia ruofei.

Seeing this, Bai Qingqing quickly shouted, "no, no, no!" Can we discuss the share ratio? Why did you suddenly stop talking?"

Xia ruofei laughed. "The storage ring is mine. You want a 50 - 50 split? you're not sincere at all. How am I supposed to negotiate?"

"But you wouldn't have been able to open it without my help!" Bai Qingqing said, "my role is still very important!"

Xia ruofei replied indifferently, "I'm not in a hurry!" I don't lack resources now, and I don't even know what's inside. Why should I be in a hurry to open it? In the future, when my cultivation improves, I'll only be in the early jiedan stage! When I reach the late - Stage of the Aurous core stage or even the nascent Soul Stage, will I still be unable to open the nested space of this storage ring? I feel that controlling the entire spirit map world seems to be of great help to my spatial talent! I estimate that after my cultivation improves one or two more times, my understanding of space should also improve by a large level. At that time, it won't be too late for me to try to open this nested space! So ... I won't trouble you ..."

"Don't mind me!" Bai Qingqing hurriedly called out, "since you can open it now, why wait for the future? At worst ... I'll just get a little less. "

Xia ruofei did not say anything else, but he did not continue to bring the storage ring into the stone chamber. He was obviously waiting for Bai Qingqing to speak.

" 30:70," Bai Qingqing said helplessly. "You get 70, and I get 30. That's my bottom line ..."

" 20 - 80!" Xia ruofei said without hesitation, "if you agree, do it immediately! If you don't agree, then I'll slowly crack it myself ..."

Bai Qingqing hesitated for a while before stomping her feet and saying, ""Alright! I'll do as you say! Little ancestor, can you put down the storage ring now?"

Xia ruofei laughed in his heart. He controlled the invisible spatial force and returned the storage ring to Bai Qingqing. Then, he said, ""You can start cracking it! Be careful not to damage the storage ring! I still have great use for it!"

If one of the Rings was broken, should Xia ruofei give the other ring to Song Wei or Ling Qingxue? This was a big problem! Hence, Xia ruofei would rather not crack the so - called nested space than allow the storage ring to be damaged.

"By the way, do you need my help?" Xia ruofei asked.

Bai Qingqing said, "you'll have to do it yourself. I'm only providing technical support. My aura is different from you humans. I can't open the nested space directly!"

Xia ruofei replied without hesitation, "Then the share should be changed to 10 - 9!"

Chapter 2995 The five Holy badges (1)

Luo Qingfeng's body trembled when he heard this. He muttered, "It's really the five Holy badges? Why would someone take out the five Saints token to auction?"

Xia ruofei turned to look at Luo Qingfeng and asked, "Qingfeng, do you recognize this token?"

Luo Qingfeng quickly replied respectfully, "master, most people in the cultivation world know about the five – Saint token. In fact, there are five pieces of the five – Saint token. It is said that when the five tokens are combined into one, a big secret can be unlocked. It is even related to the reason behind the worsening environment of the cultivation world. Some say that the five – Saint token can open a complete ancient cultivation cave abode, and some say that the secret of a huge treasure is contained in the five – Saint token. In short, there are many different opinions ..."

Xia ruofei asked with interest, "so exciting?" It doesn't sound like it's true. "

"The Legend of the Five Holy badges has been around for more than three hundred years. This old servant also learned about it from the sect's ancient records. I reckon that the major sects in the cultivation world are also the same." Luo Qingfeng said, "as for whether it's true or not, I really don't know. This kind of news gets more and more bizarre the more it spreads. Anyway, we still can't prove it."

"That's reasonable, three people make a Tiger!" Xia ruofei touched his chin and nodded. "But ... Since we have to gather all five tokens, this one won't be of much use?"

"Master," Luo Qingfeng said, "in fact, the cultivation world has already confirmed that there are three tokens, and they are all in the hands of the major sects. One is in the first heaven sect, which is the sect that auctioned the ore. The other one is in the hands of the soaring Flower Valley. As you know, the owner of the third token is sect leader Mu Sheng of the surging waves sect ... If this token is not put up for auction by these three sects ..."

"That's not very likely. I've observed that the three sects you mentioned today were more restrained in the first part of the auction. They basically didn't make any moves, so why would they keep spirit stones? They're probably here for this token!" Xia ruofei analyzed.

"Yes!" Qingfeng Luo said. Master's words make sense. In that case, this token might be the fourth five sages token!"

Xia ruofei smiled and said, "it's possible." Qingfeng, do you think ... We should try to bid for this token?"

Luo Qingfeng also fell into deep thought.

All these years, the Legend of the Five sages medallion had been circulating in the cultivation world. Although it was not the most bizarre and exciting one, the five sages medallion was right in front of them now. It might be related to a huge secret. If they could get a piece of the cake ... This kind of temptation was very difficult to resist.

“Master, this old servant is Luo Qingfeng said cautiously,”currently, the three sects that have the five – Saint token are all very powerful. They have the ability to keep the five – Saint token in their hands. However, if we also get a piece, I don’t know if it will be a blessing or a curse!”

Xia ruofei said,”we can’t avoid it. Since we’ve encountered it, we might as well fight for it!” In any case, the star Seizer sect has already become the center of attention, right?”

“This old servant will listen to master’s orders!” Luo Qingfeng said with a slight bow.

Since Xia ruofei had made his decision, Luo Qingfeng would not object to it. Even if this would bring disaster to the star Seizer sect or even cause the sect to be destroyed, he would not hesitate.

Xia ruofei smiled and said,”don’t be nervous. We don’t have many spiritual stones. It’s hard to say whether it’s enough to compete for this five – Saint token.” Moreover, even if we managed to buy the five sages token, we are not pushovers. Even if we are temporarily weak, we can still use some connections to balance things out! For example, now that everyone knows that we are likely to refine Qi gathering pills and fire cloud pills, then the forces that need these pills may become our help, right? I heard you say that Medicine King’s Valley was in such a situation. Their strength was not outstanding before, but no one had ever dared to find trouble with them. ”

“Yes! Master is right!” Luo Qingfeng said excitedly,”nowadays, supplementary drugs such as the Qi gathering pill are a scarce resource. If we can make them in batches, they will definitely be very popular in the cultivation world! Even if the superpowers attack the star Seizer sect, as long as we don’t reveal the formula, they won’t be able to take it. Therefore, those superpowers who want the medicine will most likely cooperate with us ...”

“Mm! Let’s just wait and see!” Xia ruofei said.

On the main auction stage, Hao Qingsong had already begun to introduce the five sacred badges.

However, his words were very short, as most people knew about the Famous Five sacred badges and did not need him to introduce them.

The only thing Hao Qingsong had emphasized was that this token was not put up for auction by those three sects. In other words, it was confirmed that this was the fourth five sages token to appear in the world of cultivation.

He was getting closer and closer to collecting all five tags.

In fact, there was a number on the back of each token. This five Saints token had the word “si” engraved on it, which was obviously the number 4 token.

Everyone knew that the heavenly sect’s five Holy badges were number two, the soaring Flower Valley’s number three, and the surging waves sect’s number five.

It was indeed the first time this token number four had appeared in the world of cultivation.

Those cultivators who were familiar with the Legend of the Five sacred badges couldn’t help but feel excited after confirming that it was a brand new badge.

The major powers who had received the news in advance and had prepared sufficient spirit stones also rubbed their fists and wiped their palms, preparing to fight for it.

Chapter 2996 The five saint medallions (2)

In fact, the reason why so many golden core cultivators had come to this auction was because of the five sages token. Everyone had come for it.

Hao Qingsong didn't waste any more time. After a simple introduction, he directly said, "Let's start the auction now. The starting price of this number four five – Saint token is 70000 spirit stones, and each increment must be no less than 1000 spirit stones. The passageway has been opened, everyone can start bidding!"

The starting price of 70000 spirit stones was the highest in this auction. Most of the auction items had been sold for less than 70000 spirit stones.

This five – Saint token was indeed worthy of being the final auction item.

As soon as Hao Qingsong's voice fell, the new price appeared on the big screen almost at the same time. Naturally, the hand speed of cultivators was much faster than that of ordinary people.

71000 spirit stones. The bidder was from room number four.

A second later, the price was updated to 72000 spirit stones, the bid from Room 9.

Xia ruofei's judgment was further confirmed when he saw that the sects whose private rooms were very close to the front were bidding, even though they did not bid much during the entire auction.

In fact, after Luo Qingfeng had explained the situation of the five – Saint token, Xia ruofei already knew that these top sects had probably come for the five – Saint token.

Xia ruofei was not in a hurry to bid. Since the price was changing rapidly, he chose to wait and see.

The price on the big screen shot up, and in a short while, it had reached 85000 spirit stones.

Some of the small sects wouldn't be able to get so many spirit stones even if they used all their wealth. Therefore, this was almost a watershed. Most of the small sects who participated in the auction with the mentality of getting lucky had basically retreated. The majority of the remaining sects were top sects with room numbers in the top ten.

In Box 6, the cultivators of the soaring Flower Valley who had been forced to withdraw from the competition long ago all had bitter smiles on their faces.

After Liu Mansha bought Xia ruofei's "the truth of the glittering jewel" handwritten copy, even with the Willow's 50000 spirit stones subsidy, she was only left with 70000 spirit stones. After the first few rounds of the auction, she had completely lost her competitive edge and could only watch from the sidelines.

"It still affected our big plan ... If only I didn't buy these two handwritten copies ..." Liu Mansha said helplessly.

Yang Liu consoled her, "Senior Sister, hand – written copies are more important!" Besides, we didn't expect everyone to be so enthusiastic about bidding. Even if they didn't spend a single spirit stone, we probably wouldn't have won!"

"Your 50000 spiritual stones are not enough to buy the pair of phoenixes, so if I didn't buy the handwritten copy, we should have 150000 spiritual stones. We still have a chance ..." Liu Mansha said.

"The auction is far from over!" Said Willow. Senior Sister Liu, you're speaking too early ... 150000 spirit stones may sound like a lot, but I don't think it'll be enough!"

Yang Liu paused for a moment and said, "Besides ... We already have a five sages token. Even if we can't get it, it won't have much of an impact. Whether it's excavating the ruins of ancient cultivators or exploring treasures, they won't be able to avoid us!"

Liu Mansha smiled bitterly and said, "that's true. However ... If it's taken away by the other two sects, then one of them will have two five Holy badges. When they take action, they'll naturally have more say!" Didn't we do our best to snatch the fifth Saint token back then out of this consideration?"

"Senior Sister, things have already come to this. What else can we do?" Yang Liu said with a smile. And what if it was a blessing in disguise? Senior Sister has obtained the "glittering jewel true understanding." If you can break through to the next level before all five tokens appear, that would be much more important than a five sages token. In the world of cultivation, strength is everything!"

Liu Mansha nodded and said, "since things have come to this, we can only think of it this way." Let's just watch from the sidelines ..."

In her heart, she even said, "It was easier said than done for an Aurous core stage cultivator to break through ..."

In Box 15, the spirit Vulture mountain cultivator who was also eliminated quickly had an ugly expression.

"Uncle Feng, I told you!" Wu Ming said with a cold face. 80,000 spirit stones were nothing, so what was the point of keeping it? Doesn't this five Holy badges still have nothing to do with us?"

Luo Feng shook his head with a bitter smile, but didn't say anything.

However, he said in his heart, "I didn't want to keep these 80000 spirit stones. You've given them all out, but they didn't even want them. That's why I kept them ..."

"Uncle Feng, what do we do now?" Wu Ming furrowed his brows and said, "it's all that brat Xia's fault. If he hadn't pulled that stunt, not only would we have an extra 50000 spirit stones, but we could also have sold the 'glittering jewel truth' for a large sum of spirit stones. Our chances of competing for the five – Saints token would have been quite high."

Before he came out, sect leader Wu Tiancheng had arranged it this way.

However, no matter how much he thought about it, he still didn't expect his son to be so good at causing trouble.

If it wasn't for the fact that Ren suling was in a critical period of her closed – door cultivation and Wu Tiancheng needed to protect her, he would have come out personally this time.

He had sent Luo Feng over, but he couldn't suppress Wu Ming.

Luo Feng frowned and said, "let's wait for the results!" If a few top sects managed to snatch it, then we can forget about it and just report it to the sect leader. There's still one more token that hasn't appeared yet, so we still have a chance. "

"What if it was some ordinary guy who obtained it?" Wu Ming's eyes flickered with a trace of fierceness as he said, "I remember that the kid surnamed Xia has earned quite a lot of spirit stones this time."

Luo Feng naturally knew what Wu Ming was thinking. He said, "We'll see! The star Seizer sect isn't one to be trifled with, and I feel that there's something strange about this young man with the surname Xia. I can't see through him ..."

"How evil can it be?" Wu Ming sneered. What could a young man in his twenties do? I've observed that there are only two of them. As long as uncle Feng can keep Luo Qingfeng busy, I can take him down by myself. At that time, not only would he have the five sacred badges, but he would also have the pair of Phoenix rings! Moreover, they had obviously mastered the refining methods of the Qi – gathering pill and the fire cloud pill, which were worth a lot of money! If we capture him and bring him back to the Ling Jue mountain, my father will definitely reward us greatly!"

Luo Feng naturally wasn't a kind person. To be able to reach the Golden core stage in the cultivation world, which one of them wasn't ruthless and had a will as strong as iron? However, he was relatively cautious and was not as simple as Wu Ming thought.

"If they've really managed to obtain the five – Saint token, there'll definitely be a lot of people eyeing them." Luo Feng said, "when the time comes, we will not only be facing Luo Qingfeng and Xia Tian. We will also be facing other cultivators with the same goal as us. Therefore, we must be careful."

"But we can't just give up like this!" Wu Ming said. At that time, we'll at least have to follow them and take a look. Perhaps we'll be able to benefit from it?"

Seeing Wu Ming's simple thinking, Luo Feng couldn't help but force a smile and said, "Young sect leader, let's see! They might not even have the financial resources to compete with the top sects!"

"Yes," Wu Ming answered in a muffled voice and sat back on the sofa.

The price of the number four five sacred token continued to rise rapidly. After a short while, the price had already reached 95000 spirit stones. There were at least six or seven sects still competing for it.

In room 20, Xia ruofei was speechless. He said, "Qingfeng, it seems like we don't have enough spiritual stones!"

Xia ruofei had obtained about 150000 spiritual stones this time. However, he had spent 45000 spiritual stones on the flying Phoenix ring, so he was left with 110000 spiritual stones.

"Master," Luo Qingfeng said carefully. "If we don't have enough spiritual stones ... Should we use other treasures to pay for it?"

Xia ruofei waved his hand and said, "not for now ... We'll see how it goes!" I think we shouldn't be idle and join in the fun!"

After that, Xia ruofei entered a string of numbers into the bidding machine and then submitted.

The price on the big screen was updated to 100000 spirit stones!

This time, Xia ruofei added another 5000 spiritual stones to round up the price.

Chapter 2997 The key person_

As soon as this price appeared, many cultivators were slightly shocked, and some people finally heaved a sigh of relief.

This time, Xia ruofei and the star Seizer sect were in the limelight. Almost everyone knew who they were. Furthermore, the cultivators all knew that the star Seizer sect had earned no less than 100000 spiritual stones from the auction. Hence, they were all waiting to see if they would fight for the five sages medallion.

However, Xia ruofei did not make a move, so everyone's attention gradually shifted to the competition between the other top sects.

In room 15, it was Wu Ming's first time seeing Xia ruofei bid with a happy expression. He said,"He really can't hold back! Uncle Feng, I was right, wasn't I?"

"Young sect leader, let's just wait for the final result!" Luo Feng said, not knowing whether to laugh or cry. I'm afraid that a hundred thousand spirit stones won't be enough to bid for this five Saints badge. "

"That's already a very high price!" Wu Ming said,"moreover, the one surnamed Xia added 5000 spirit stones in one go. It can be seen that his desire to buy it is very strong. Perhaps the other sects will back out after knowing the difficulty."

Under normal circumstances, Wu Ming would wish that Xia ruofei could spend as many spirit stones as possible. He would be happy if someone kept bidding against Xia ruofei so that he would have to spend more spirit stones.

However, now that Wu Ming had the idea of using underhanded means, he naturally hoped that Xia ruofei would be able to win the five sacred badges.

After all, if it was bought by the other top sects, it would be impossible for the spirit Vulture mountain to double – Cross them with their strength. They could only hope that Xia ruofei would put in more effort.

Seeing this, Luo Feng forced a smile inwardly. He didn't say anything to tease Wu Ming. He felt that Wu Ming's mentality was already very extreme. He was about to go crazy.

As for the cultivators from the other top sects who were still fighting for the five – Saint token, their expressions only changed slightly when they saw Xia ruofei's bid, but they quickly returned to normal.

In their eyes, a bidding war was a bidding war, and it had nothing to do with the identity of the bidder.

It was nothing more than the one with the highest price getting it. As long as they got it, no one would dare to have any crooked ideas.

Xia ruofei's bid did not last long.

Everyone was only slightly stunned for a moment. After some consideration, they naturally made their bids.

It was just that Xia ruofei had added 5000 spiritual stones in one go, and the total price had exceeded 100000 spiritual stones, so some cultivators took a little longer to consider.

Just like that, the price was maintained for less than half a minute before a new price appeared.

101000 spirit stones, bidder: In Room 1.

After the first heaven society's Chen Xuan made his bid, he laughed and said, "I didn't think that fellow Daoist Xia would be interested in the five Saints badge as well!"

Xia ruofei smiled. "I can't help but yearn for the Legend of the Five – Saint token. If there's a chance, it's not a bad idea to buy it and study it!"

"That makes sense!" Chen Xuan laughed. The five – Saint token was still worth studying! Fellow Daoist Xia, regardless of whether your wish is fulfilled or not today, if you want to study the five Saints badge, you can come to the first heaven society. We still have another five Saints badge in our sect, and we can lend it to fellow Daoist Xia for you to study!"

Xia ruofei smiled and said, "then I'll thank fellow Daoist Chen first!"

The cultivators were envious when they heard this. Chen Xuan was obviously trying to convey a message of goodwill to the star Seizer sect, or to be more precise, to Xia ruofei!

The first heaven society had already become the number one sect in Huaxia's cultivation world. Chen Nanfeng was also the number one cultivator in name. The reason why the Suan ni was only in name was that some cultivators had hidden themselves from the world. With the addition of the legendary nascent soul old monster, Chen Nanfeng was definitely not invincible.

Chen Xuan was only in his forties, but he was already an Aurous core stage cultivator. He was one of the most outstanding cultivators of his generation.

The first heaven society and Chen Xuan were like the sun in the sky. Who in the cultivation world wouldn't want to be on good terms with them?

For example, Wu Ming in room 15 was filled with jealousy and hatred. His face was twisted with anger.

In his opinion, the reason why Chen Xuan treated Xia ruofei differently was because Xia ruofei had bought the mysterious ore from the first heaven society at a high price.

Wu Ming felt that he should have been the one to enjoy such treatment. After all, he was the one who made the first bid, and Xia ruofei had jumped out to compete for it, snatching food from the Tiger's mouth.

Wu Ming was also secretly complaining about Luo Feng. If Luo Feng hadn't persuaded him not to fight over personal feelings and said that he had already gained enough face by extorting so many spirit stones from the star Seizer sect, Wu Ming would definitely not have given up so easily.

Wu Ming had also listened to Luo Feng's suggestion. His words hinted that the star Seizer sect had already understood the use of the mysterious ore and hoped to cause trouble for the star Seizer sect and Xia ruofei.

But now, it seemed that this trouble didn't exist at all. Moreover, Chen Xuan from the first heaven society seemed to admire Xia ruofei.

Wu Ming looked at Luo Feng with dissatisfaction and said, "Uncle Feng, if I had known, I would have fought to the end! Anyway, it's useless to leave these spirit stones behind. The first heaven society's favor is worth a lot!"

Luo Feng smiled bitterly and thought, "The remaining spirit stones were all your fault! If he ignored the star Seizer sect's bet, the transcript of the glittering jewel true understanding could be sold for a few spirit stones. Most importantly, he would not have to pay the 50000 spirit stones. If that was the case, the spirit Vulture mountain still had the power to compete for it!"

However, Luo Feng naturally wouldn't say it out loud. He only said, "Young sect leader, what you said might be one of the reasons. However, what Chen Xuan values more is that brat surnamed Xia's ability to refine medicine! Qi gathering pill, fire cloud pill ... Who didn't lack supplementary medicine these days? The first heaven society is a big sect, but they also have to feed a lot of cultivators!"

Chapter 2998 The key person_

Wu Ming felt a little better after hearing that. He said, "That's true. Furthermore, if this Xia fellow were to fight with Chen Xuan for a few more rounds, Chen Xuan might even get angry at him!"

Hearing this, Luo Feng shook his head secretly. However, he did not want to say anything more to Wu Ming, so he just smiled and continued watching the auction.

Just as Xia ruofei and Chen Xuan were chatting, a new price was announced.

105000 spirit stones.

The bidder was from Room 5, the cultivator from the Black Dragon cult.

The Black Dragon cult was also one of the top sects, and they had never made a bid before. Everyone had thought that they were no longer interested in the five sacred medallions. No one had expected them to suddenly make a bid. Furthermore, under such a high price, they had even added 4000 spiritual stones in one go. It was clear how determined they were.

In Room 6, Liu Mansha and Yang Liu looked at each other, then said, "As expected, old ghost Zhou is here for the five Holy badges!"

"It seems like they're after something big ... Senior Sister, if the Black Dragon cult gets their hands on a five Saints token, then ..." Willow said with a grave expression.

"It's fine!" Liu Mansha waved her hand and said, "the first heaven sect and the surging waves sect are both here. There's also our soaring Flower Valley. They won't be able to cause any trouble! I'm more worried about ..."

At this point, Liu Mansha's beautiful brows furrowed slightly. She looked at the big screen above the main auction stage and said, "There's still one five Holy badges that we haven't received any news of. What I'm most worried about is that the Black Dragon cult has already quietly obtained one of the five Holy badges. If they take this one away, they'll have two badges. They'll obviously be the leaders in the future ..."

"We can't let them succeed!" Yang Liu said, "Senior Sister, if it really doesn't work, we can lend the spirit stones to the vast waves sect or the first heaven sect ..."

"Are we going to let them have two tokens?" Liu Mansha said, "then aren't we also controlled by others?"

"Then what should we do?" Yang Liu said in distress, "choosing the lesser of two evils, if it really doesn't work, this is the only way, Senior Sister! It was better for the first heaven society or the surging waves sect to control the two tokens than for the Black Dragon cult to get involved! Even if they only have one token, it's easy for them to ruin things!"

Liu Mansha calmly thought for a moment and said, "There might be another way ..."

At this moment, a new bid appeared on the big screen: 11000 spirit stones.

The bidder was from room 20, a cultivator from the star Seizer sect.

"Could it be that you're talking about ... The star Seizer sect?" Yang Liu's brows also raised.

"In comparison, letting the star Seizer sect obtain this five Saints token might be the best outcome for us," Liu Mansha said with a nod.

Both Liu Mansha and Yang Liu could see very clearly that no matter if it was the Cang lang sect or the first heaven sect, if they obtained this token, then this sect would have control over two five Saints tokens. This meant that they would definitely occupy a leading position in the future operation to crack the secret. This was something that the soaring Flower Valley was unwilling to see.

It was even more unacceptable for the Black Dragon cult to obtain the five Saint tokens.

As for the star Seizer sect, their strength could only be considered average. Even if they had obtained the five Holy badges, it was equivalent to everyone having one. Everyone was of equal status.

Of course, in reality, the star Seizer sect, which was on the weaker side, would definitely be in a subordinate position. At the very least, the soaring Flower Valley, the first heaven sect, and the Cang lang sect would be able to speak on relatively equal terms.

It was the same for the first heaven sect and the surging waves sect. They couldn't accept the fact that the remaining two sects had obtained two tokens. If a new sect had to obtain the five Saints token, they would also think that the star Seizer sect was a good choice.

Liu Mansha had been in control of the flying flower Valley for many years, so she could be said to have a clear understanding of the human heart. She very quickly understood the key points, stood up, and said, "Junior Sister yang, I'm going out for a while ..."

Yang Liu naturally knew what Liu Mansha was going to do. She asked, ""Senior apprentice – Sister, can't we do the back...And ask the star Seizer sect to lend us spirit stones?"

Liu Mansha smiled faintly and said, "why do you have to force me?" And if the star Seizer sect does this, they'll definitely offend the first heaven sect, the vast waves sect, and even the Black Dragon cult. You know very well what that old ghost Zhou is like. We have no enmity with the star Seizer sect, and we've even received their favor. How could we bear to put them in danger?"

"But once they obtain the five Holy badges ..." Yang Liu didn't understand.

"That's different!" Liu Mansha said, "the situation is a little complicated. I'll explain it to you later ..."

With that, Liu Mansha walked out of the private room and headed straight for room 20, where Xia ruofei and the others were.

As Liu Mansha walked along the corridor behind the private rooms to room 20, she thought about how to phrase her words.

Before she knew it, she had already arrived at the door of room 20.

Just as Liu Mansha was about to knock on the door, she saw the door to room 20 suddenly open.

To her surprise, the person who walked out of the room was Chen Xuan from the first heaven society.

When Chen Xuan saw Liu Mansha, he was clearly a little taken aback as well. However, he quickly regained his composure and smiled. "Valley master Liu, you're here to see fellow Daoist Xia as well?"

Liu Mansha stared at Chen Xuan for a few seconds before saying, ""It seems that fellow Daoist Chen has already looked for him?"

Chen Xuan smiled gently and nodded. ""To be honest, I've already arrived. I'm afraid Valley master Liu is a little late ..."

At this moment, Xia ruofei also walked out after hearing the commotion. He was also slightly stunned when he saw Liu Mansha, and then said, ""So it's Valley master Liu. Are you here for me?"

Liu Mansha revealed a bitter smile and said, "Yup! However, it seems that I'm a step too late. "

"That's just my personality. I'll do what I think, so I'll always be one step ahead of others." Chen Xuan chuckled.

Liu Mansha looked at Chen Xuan and asked, ""I don't know if fellow Daoist Chen can tell me what the result of your discussion is? After all, our flying flower Valley is also one of the owners of the five Holy badges. "

"Of course!" Chen Xuan shrugged. Even if Valley master Liu didn't say anything, I would've informed them anyway. "

Chen Xuan looked at Xia ruofei and smiled, ""After a friendly discussion, fellow Daoist Xia has agreed to lend us 110000 spirit stones, so ..."

Liu Mansha looked at Xia ruofei in disbelief. Then, she said to Chen Xuan, ""Does the first heavenly sect want to keep two five Holy badges? Fellow Daoist Xia agreed so easily?"

Chen Xuan chuckled. "It's not convenient for me to tell Valley master Liu the details of our discussion. However, since I'm indebted to fellow Daoist Xia, I naturally can't let fellow Daoist Xia get into trouble because of this. So, if Valley master Liu has any dissatisfaction, I'll also talk to sect leader mu. If he has any dissatisfaction, he can direct it at the first heaven society. Please don't take it out on fellow Daoist Xia."

Chen Xuan's words were naturally a promise of protection to the star Seizer sect.

Liu Mansha didn't realize it at first, but the intelligent her quickly understood the meaning behind this.

If one were to ask which sect had the right to possess two five sacred writs, it would definitely be the first heaven sect.

What Liu Mansha was concerned about was balance. She felt that by pulling the star Seizer sect in, a New Balance would be formed. However, from Chen Xuan's point of view, the first heaven sect didn't need any balance. They wanted to become the leader, and this was something that they had never concealed.

Liu Mansha didn't know what promise Chen Xuan had made Xia ruofei. However, since Xia ruofei had agreed to lend out so many spiritual stones so readily, it must have been a very attractive condition.

Just the fact that the first heaven society was protecting the star Seizer sect was enough to move Xia ruofei.

And the truth was as such. As long as Chen Xuan made the announcement, there would be very few sects that would dare to not give him face. At the very least, no one would dare to make things difficult for the star Seizer sect on the surface. This way, the worry that Liu Mansha had mentioned to Yang Liu in the private room would naturally not exist.

Thinking of this, Liu Mansha felt a little discouraged. She looked at Chen Xuan and Xia ruofei with a complicated expression and said, ""Fellow Daoist Chen, you're being too serious. This matter has nothing to do with fellow Daoist Xia. How can we vent our anger on him?"

Chapter 2999 A perfect ending (1)

Chen Xuan maintained his gentle smile and said, ""Thank you very much, Valley master Liu."

Liu Mansha looked at Xia ruofei's outrageously young face. Perhaps it was because she thought of the two handwritten copies of the "the true understanding of glittering jewels", but the trace of unhappiness in her heart quickly disappeared.

Liu Mansha smiled. "Fellow Daoist Chen is decisive in handling matters, and fellow Daoist Xia is also very bold. You two should be able to become good friends."

Chen Xuan nodded his head in agreement and said, ""Brother Xia and I hit it off quite well, and we feel like old friends at first sight. That's right, although we haven't found all five Saint tokens, since the fourth token has already appeared, I think the fifth token shouldn't be far away. In the future, when the

five Holy badges are United, it will definitely involve the exploration of the secret of the five Holy badges. I've already promised brother Xia that I'll give him a spot!"

Liu Mansha's beautiful eyes could not help but reveal a strange look. Even though they still did not know where the fifth token was, Chen Xuan had promised to give Xia ruofei a spot first. This was a huge favor.

In the future, when the five tokens were combined into one, the forces holding the token would definitely cooperate to explore this secret. At least, between the soaring Flower Valley, the surging waves sect, and the first heaven sect, none of them wanted to have any conflicts with each other, nor did they have absolute confidence in snatching the token from the other party. Thus, a win – win cooperation was an inevitable choice.

However, even so, each force would not have many slots. After all, with more people, things would easily go wrong.

According to Liu Mansha's thoughts, it would be best if each token only allowed two to three people. She would bring along a capable assistant and a disciple who would be heavily nurtured. Any more than that would not be suitable.

She knew that the first heaven sect and the vast waves sect had similar thoughts.

This way, even if the first heaven society had two tokens, they would have about six spots. Obviously, each spot was very precious.

Chen Xuan had actually given Xia ruofei a spot just to borrow 110000 spiritual stones.

Liu Mansha could tell that something was different. At the very least, one thing was for sure. Chen Xuan had shown Xia ruofei enough kindness.

Compared to the star Seizer sect and the first heaven society's strength and status in the cultivation world, this kind of kindness was naturally very precious to Xia ruofei. At least, that was what Liu Mansha thought.

She actually admired Xia ruofei, a young man, and was very happy for him.

Liu Mansha also knew that Chen Xuan was informing her in advance. Even though she still didn't know where the fifth token was, cultivators had a much longer lifespan than ordinary people. There was still a high chance that they would be able to gather all five tokens one day in the future. Chen Xuan informing her so early was also a form of respect for Liu Mansha and soaring Flower Valley.

Even though Chen Xuan was the young sect master of the first heaven society, he still gave off the impression that he was refined and cultured.

Although he had broken through to the Golden core stage in his early forties, which was absolutely a shocking speed in the current cultivation world, he had never shown an overbearing appearance in front of others. Even in front of low – Level cultivators, his tone was very kind.

Young master Chen's affinity was well – known in the cultivation world.

Liu Mansha had an idea and said with a smile, "Oh, really? Then I'll congratulate fellow Daoist Xia in advance!"

“Thank you, Valley master Liu!” Xia ruofei also said with a smile.

Chen Xuan chuckled. “Please take your time. I’m going back to my private room. The auction isn’t over yet!”

Since Chen Xuan had come out to borrow spirit stones, there were naturally people in his room who would follow up with the auction. However, since he had already obtained the spirit stones, he had to return as soon as possible. With sufficient spirit stones, he could show his determination to buy the spirit stones.

“Since I’m already late, there’s nothing else for me to look for fellow Daoist Xia about. I’ll be heading back first!” Liu Mansha said with a smile.

Xia ruofei stood at the door of the room and smiled. “Alright, take care, you two!”

After seeing Liu Mansha and Chen Xuan off, Xia ruofei returned to the private room. He sat on the sofa and leaned back comfortably. After lending out the spirit stones, the auction for the day had ended. The last five Saints token had nothing to do with him.

Luo Qingfeng, who was sitting beside him, asked carefully, “Master, why don’t you think of a way to get the five Holy badges? This is an extremely rare treasure!”

Xia ruofei spread his hands and said, “I don’t have enough spiritual stones!” As you know, we only have a little more than 110000 spiritual stones. Look at the price now, it’s already over 130000 spiritual stones. I want to, but I don’t have the strength!”

“Actually, master, you can use other treasures to pay for the spirit stones,” Qingfeng Luo said in a low voice. “You can even promise to give me a number of Chi – amassing pills. They’ll definitely be more popular than spirit stones!”

Although a Qi gathering pill was not worth many spiritual stones, Xia ruofei could increase the price without limit. After all, the cost of making a Qi gathering pill was very low and the materials were mostly ordinary herbs. The most important resource was the spiritual Qi. Compared to the rich spiritual Qi in the spirit map, the little amount of spiritual Qi consumed to make a Qi gathering pill was not even a drop in the ocean.

So, in theory, Xia ruofei could raise the price without limit.

Xia ruofei laughed and said, “why go through so much trouble?” If we lend out the spirit stones, the fire power will be dispersed, and we can still get interest, right?”

Chapter 3000 A perfect ending (2)

The ‘interest’ that Xia ruofei was talking about was naturally the quota that Chen Xuan had given.

Luo Qingfeng thought for a moment and said with a smile, “What master said makes sense. The purpose of competing for the token is nothing more than to explore the secret of the Legend of the Five sacred medallions. Since Chen Xuan has agreed to give master a spot, it will not affect master’s exploration of this secret.”

Xia ruofei smiled."There's one more thing. The star Seizer sect's Foundation is still a little weak. Although this token won't bring about any great disaster, it will do more harm than good."

Luo Qingfeng was touched and said,""You're so thoughtful, master,"

While the two of them were chatting, the auction was still ongoing.

However, they were now very relaxed and were completely in a state of watching a show.

In the end, with the addition of 110000 spirit stones, the first heaven sect won the five Saints badge without any suspense.

The final price was also jaw – dropping, reaching 190000 spirit stones.

This price had already far exceeded the expectations of Liu Mansha, Luo Feng, and the others. When they saw this price, they couldn't help but smile bitterly and shake their heads. Even if there hadn't been so many surprises, the spirit stones they had brought would not have been enough to compete for this token.

Liu Mansha and the others had still underestimated the attraction of the five sacred badges.

Of course, there were some unexpected factors that caused the price to rise so high.

This unexpected factor was the Black Dragon cult.

This time, the Black Dragon cult had prepared more than expected. The spiritual stones they had brought were far more than Liu Mansha had expected.

The second half of the auction was basically a competition between the first heaven society and the Black Dragon cult.

When the price reached 180000 spiritual stones, the Black Dragon cult was still insistent.

This number had basically reached the limit of the first heaven sect.

If Chen Xuan had not borrowed 110000 spiritual stones from Xia ruofei, they might not have been able to compete with the Black Dragon cult.

However, with the large sum of spiritual stones from Xia ruofei, the first heaven society was full of confidence. They had almost 300000 spiritual stones.

As such, just as Chen Xuan's bid broke through 180000 spiritual stones, he immediately placed a bid of 190000 spiritual stones.

The Black Dragon cult, which had been following the bidding closely, probably ran out of spiritual stones and fell silent.

Thus, Chen Xuan obtained the five sages token as he wished. This was also the second five sages token that the first heaven sect had.

In fact, the first heaven society only carried around this number of spiritual stones. They would have a little less, but not by much. Therefore, the spiritual stones they borrowed from Xia ruofei were not used up by much. At most, they were only a fraction of the total.

However, without Xia ruofei's spiritual stones, the first heaven society would have lost.

This way, the Black Dragon cult would obtain a five Saints token, which would add a lot of variables to the future.

Hence, even though he did not use many spiritual stones, Xia ruofei's act of borrowing spiritual stones was a timely help and Chen Xuan had to accept it.

In room 20, Xia ruofei saw that the auction had ended and couldn't help but smile. "Today's auction is really exciting!"

It was Xia ruofei's first time interacting with people from the cultivation world. Everything was new to him.

Of course, the auction this time was full of ups and downs. Qingfeng Luo had participated in many auctions, and he had to admit that this auction was indeed more exciting than the previous ones.

"Yes!" Qingfeng Luo nodded and said, "it's because the master attended the auction that there are so many interesting stories!"

Xia ruofei laughed and said, "you're flattering me!" My cultivation level is nothing in front of those sect big shots. What stirred up the auction was actually the last auction, and we have nothing to do with it. I still have this self-awareness."

Luo Qingfeng smiled and said, "master, you're being too humble. You're even underestimating yourself!" If those sect leaders and elders knew your true cultivation level, their jaws would definitely drop!"

At this time, on the main auction stage, Hao Qingsong also secretly heaved a sigh of relief. Although there had been some interludes, on the whole, the auction had been completed smoothly. As the host of the auction, Hao Qingsong's heart had been in his mouth the entire time.

This was especially so for Xia ruofei's side, where unexpected situations occurred one after another, catching Hao Qingsong off guard.

He said, "thank you, fellow Daoists!" The auction had come to a successful end! We've prepared a banquet to welcome fellow Daoists to join us!"

The banquet after the auction was basically a reserved program. It was mainly to provide a platform for cultivators to communicate face-to-face. Sometimes, the banquet after the auction would also facilitate private transactions between cultivators.

After all, some treasures were not easily priced with spirit stones, and cultivators exchanged for what they needed. This was the mainstream method of private transactions.

Of course, not everyone was keen to participate in such an exchange.

For example, Chen Xuan of the first heaven society had directly raised his voice the moment Hao Qingsong's words fell. "Many thanks for fellow Daoist Hao's kind invitation, but we still have some urgent matters to deal with in our sect, so we'll be taking our leave first."

Then, some cultivators who didn't like to join in the fun also said their goodbyes.
