

## God tier Farm 3001

Chapter 3001 A successful curtain call (3)

Xia ruofei also stood up and said with a smile, "We should go too."

"Yes!" Luo Qingfeng said quickly.

Then, he bid farewell to Hao Qingsong on behalf of the star Seizer sect.

Xia ruofei and Luo Qingfeng walked out of the private room together and happened to see some cultivators coming out of their private rooms in twos and threes. Those who had participated in the auction and even had grudges with them would not choose to leave their private rooms at this time if they did not want to expose their identities. Those who came out now naturally did not care if others knew which room they were in.

Xia ruofei was like this because he had already revealed his identity.

Wu Ming and his group were in the same situation. They walked out of the box.

Wu Ming noticed Xia ruofei immediately. His eyes flickered as he looked at Xia ruofei with ill intentions.

During the auction of the five sacred badges, Xia ruofei had only bid 110000 spiritual stones and did not make any more bids. To be honest, Wu Ming was feeling a little regretful as he looked at the outcome he had hoped to see the most. Naturally, it was for the star Seizer sect to bid for the spirit stone, and then he would kill Xia ruofei and Luo Qingfeng on the way. This way, not only the five sacred writs, but also the ring of the flying Phoenix that he had been longing for, and even the mysterious ore that had made him resentful, would all be his.

However, Wu Ming did not expect that Xia ruofei, who had been so powerful when he was up against him, would actually give up after just one bid.

Wu Ming watched helplessly as the five – Saint token fell into the hands of the heavenly sect. No matter how fierce he was, he knew that he had no fate with the five – Saint token.

However, Wu Ming was still concerned about the pair of storage rings that Xia ruofei had obtained. Thus, when he heard Luo Qingfeng's loud farewell, he immediately called Luo Feng out and walked out of the private room with him.

Since the star Seizer sect's people were not attending the banquet, Wu Ming had to chase after them as soon as possible. Otherwise, it would be difficult to stop them if they lost track of them. After all, Luo Qingfeng was an Aurous core stage cultivator. It would not be a problem for him to bring Xia ruofei along on his flying sword.

By then, the sky would be vast, and cultivators wouldn't have a fixed route like airplanes, so they wouldn't be able to find them.

Luo Feng naturally knew what Wu Ming was thinking, but he didn't stop Youyou from not getting the five Saints badge this time. It could still be said that it was not a crime of war. As long as Wu Tiancheng knew the final price, he would definitely not kill him. However, during the auction, the spirit Vulture

mountain had repeatedly suffered losses at the hands of the star Seizer sect, and had even lost an inexplicable bet, losing 50000 spirit stones. This was not a small stain on their reputation.

If they could really kill Luo Qingfeng and Xia ruofei and snatch the storage ring and the mysterious ore, they might even get the formula for the Chi – amassing pill and the fire cloud pill. It would be great if they could get the formula, as it would be a great achievement. Even if they only got the ring of the flying Phoenix and the mysterious ore, it would be enough to make up for their previous mistakes.

Therefore, even though Luo Feng tried to persuade Wu Ming, his actions showed that he supported Wu Ming.

Wu Ming and Luo Feng followed Xia ruofei and Luo Qingfeng from a distance without making a sound as they walked toward the exit of the auction hall.

However, they quickly stopped in their tracks when they saw Chen Xuan with another golden core elder of the first heaven society and a Qi refining disciple. They were coming from the opposite side of the tunnel and walking straight towards Xia ruofei.

Wu Ming stopped immediately. He exchanged a glance with Luo Feng and then quietly moved closer, hoping to hear their conversation.

With a warm smile on his face, Chen Xuan replied, ""Brother Xia! Let's go! I'll send you back to the star Seizer sect!"

Xia ruofei didn't argue with him. This was what Chen Xuan had agreed to when he borrowed the spiritual stones. This was also the "interest" that Chen Xuan had given him in addition to the quota to explore the secret of the five sages.

When Wu Ming and Luo Feng heard this, they could not help but feel a chill in their hearts. They could see the disappointment in each other's eyes. If Chen Xuan and Xia ruofei were to travel together, they would have no hope of intercepting and killing them.

Even if they had the strength to kill him, they wouldn't dare to.

As long as the news got out, they would face the destructive attack of the first heaven society. Even though the lingjue mountain was powerful, they would be annihilated by the first heaven society, who was extremely angry.

At this time, another forthright laugh rang out, ""Fellow Daoist Chen! Little brother Xia, this old man is here!"

Wu Ming and Luo Feng looked over and saw that it was the sect leader of the surging waves sect, Mu Sheng, who had also brought mu Hua and mu Jianfei over.

"Fellow Daoist Chen, did little brother Xia tell you everything?" Mu Sheng asked with a laugh.

Chen Xuan nodded his head with a smile. "We've already come to an agreement. "

"Hahaha! Then I'll have to trouble fellow Daoist Chen this time!" Mu Sheng said happily.

"You're too kind, sect leader mu!" "Since everyone's here, let's set off!" Chen Xuan chuckled.

"Alright!" Xia ruofei said.

The group walked out of the auction house while talking and laughing, and walked towards the elevator to the Kongtong hotel, which was located in the city. Although it was already night time, cultivators couldn't just fly out of the hotel entrance on their flying swords! Therefore, they usually chose to take the elevator to the top floor, and then fly from the rooftop. With some small barriers, it was enough to hide from the secular world.

Wu Ming and Luo Feng didn't even take a step forward. The disappointment in their eyes turned into despair.

"Uncle Feng, what's our next step?" Wu Ming asked in confusion.

Luo Feng smiled bitterly, "what else can we do?" Young sect leader, just give up! Chen Xuan and Mu Sheng will personally escort that brat back. Even if our strength doubles, we still won't be their match. Don't forget that there's still Luo Qingfeng. Don't look at how weak he is, he's also a ruthless character!"

"Mm ..." Wu Ming nodded and said, "why don't ... We stay here for now and go to the banquet to take a look? we might be able to find some good treasures!"

Luo Feng also didn't want to go back dejectedly. If they really found a good treasure at the banquet, Wu Tiancheng might be lenient and not punish them according to the mountain Rules.

"Alright, let's go to the banquet hall then ..." Luo Feng nodded.

#### Chapter 3002 Blue water flying boat (1)

When Xia ruofei and the rest arrived at the rooftop, there were already cultivators who were already there. When they saw Chen Xuan and the rest, they greeted them politely before leaving on their flying swords.

Xia ruofei looked at the sword lights that streaked across the sky. He felt that it was a spectacular sight.

Each sword light represented one or two cultivators. Many sects had brought Qi condensation disciples to increase their knowledge. These disciples couldn't ride flying swords, so they naturally needed their elders to bring them along.

Of course, ordinary people would not be able to see this.

Xia ruofei also prepared to take out his flying sword. Although he knew that it was a bit shocking for a young man in his twenties to have the cultivation of the Golden core stage, he could not pretend to be a Qi refining stage cultivator and let Luo Qingfeng carry him.

Luo Qingfeng's cultivation level was average among the Golden core cultivators, and it would consume a lot of energy to fly with someone. Even Xia ruofei would feel very uncomfortable.

Luo Qingfeng seemed to have sensed Xia ruofei's intention and quickly stopped him with his eyes. At the same time, he immediately sent a voice transmission, "Master, there's no need to take out the flying sword!"

Xia ruofei stopped what he was doing and looked at Luo Qingfeng suspiciously. He did not understand Luo Qingfeng's intention.

At this moment, Chen Xuan flipped his hand and retrieved a Green Treasure.

Xia ruofei took a closer look and saw that Chen Xuan was dragging a small and exquisite Jade boat. It was entirely green and had exquisite patterns carved on it.

Just as Xia ruofei was still confused, Chen Xuan had already formed a few mysterious hand seals and slapped on the boat. The small Jade boat was like a balloon that had been blown up. It expanded in the wind and in a short while, it had grown to about ten meters long and was suspended quietly on the rooftop.

Mu Sheng laughed and said, "every time I see this blue water flying boat, I'm amazed. It's simply a creation of heaven and earth!" Daoist Chen, I didn't expect that sect leader Chen would give you such a precious treasure! He really thinks highly of you!"

Chen Xuan smiled. "This is just a temporary loan from my father. After all, with the Clearwater flying boat, it'll be much more convenient for me to travel far."

"I see!" Mu Sheng laughed and said, "I was wondering why sect leader Chen suddenly became so generous!"

Chen Xuan smiled but didn't say anything. He had always been brought up in a strict family. The principle that a son shouldn't criticize his father's mistakes had been instilled in his mind since he was young. Although Mu Sheng was joking, Chen Xuan, as the son of the Tianyi sect's sect master, Chen Nanfeng, naturally couldn't respond to this.

Mu Sheng also knew Chen Xuan's temper, so he didn't take it to heart. Instead, he looked at the surprised Xia ruofei and said with a smile, "It seems that this is fellow Daoist Xia's first time seeing a jadewater flying boat! This is the first time I've seen this treasure, and I was so shocked that my eyes almost popped out! This is one of the most famous treasures in the world of cultivation!"

Chen Xuan looked at Xia ruofei's expression and knew that he did not know much about the Clearwater flying boat. He smiled and explained, "Brother Xia, sect leader mu is exaggerating. It's not really a treasure. In fact, the jadewater flying boat is just a means of transportation. It's just a novel one and there's only one in the world of cultivation. That's why the rumors are exaggerated."

"It's indeed very stunning!" Xia ruofei smiled and said, "especially when it suddenly becomes big ..."

"Haha!" Chen Xuan laughed. "Actually, my father was lucky to have found this many years ago from an ancient cultivation ruin. We estimate that in the ancient cultivation world, this is just an ordinary means of transportation. It's a pity that the inheritance has been cut off. No one in the current cultivation world is able to make it!"

After sighing for a while, Chen Xuan smiled and said, "Fellow Daoists, please board the boat!"

Mu Sheng laughed and said, "this is good!" It's saved me a lot of energy!"

After that, Mu Sheng made a gesture and said, "Fellow Daoist Chen, you first!"

Chen Xuan smiled. "You're the guests. I'm the host. Of course, you should go first!"

Mu Sheng didn't hesitate and took the lead to board the Clearwater flying boat. Mu Hua and mu Jianfei, Xia ruofei, and Luo Qingfeng modestly declined. In the end, Xia ruofei and Luo Qingfeng had no choice but to board the flying boat first. Mu Hua, Chen Xuan, and the others also boarded the boat.

Xia ruofei observed for a while. The Bluewater flying boat looked like a small boat. However, after boarding it, he realized that there was a very spacious cabin under the Jade canopy.

Chen Xuan asked everyone to take their seats in the cabin.

After Xia ruofei sat down, he looked around and realized that even though there were eight people in the cabin, it did not feel crowded at all. It did not feel stuffy either. In addition, there were large porthole windows on both sides of the cabin, inlaid with transparent crystals. They could see the situation outside, but at the same time, there would be no airflow in.

Chen Xuan nodded at a disciple of the first heaven society he had brought with him.

The disciple immediately walked to a stage carved with complicated and mysterious patterns in the front of the cabin and took out three standard – cut spiritual crystals from his storage ring.

Xia ruofei could tell at a glance that the blue water flying boat was most likely driven by spiritual crystals.

That platform was clearly the main control formation for the Flying Ship.

It was normal to think about it. The jadewater flying boat was so big and could carry so many people. If they only used spiritual size, it would not be enough to drive it. Only spiritual crystals with higher purity could bear this important task.

### Chapter 3003 Blue water flying boat (2)

This was the first time Xia ruofei had seen someone else in the cultivation world with spiritual crystals.

The first heaven society was indeed rich. It cost three spiritual crystals to drive the flying boat, which was worth 3000 spiritual stones.

Xia ruofei thought to himself, "it seems that even though the cultivation world is short of resources, the top sects don't lack resources ..."

This was a very realistic thing. The cultivation world was also a pyramid structure. The few elites at the top of the pyramid occupied the vast majority of resources, while the large number of low – Level cultivators at the bottom could only fight for the remaining resources, struggling bitterly in this cruel world of cultivation.

After inserting the spiritual crystal into the console, the first heaven society disciple skillfully made a hand seal.

The mysterious runes on the control panel lit up like an airplane's dashboard in the mortal world.

Then, this disciple of the first heaven society gently pulled a jade handle on the left side of the main control console. The blue water flying boat trembled slightly, and then began to rise slowly.

“Young sect master, are we heading to the star Seizer sect?” The disciple of the first heaven sect who was controlling the flying boat asked.

“En!” Chen Xuan nodded. We’re flying directly to the star Seizer sect!”

“Yes!” The disciple controlling the flying boat said.

At this time, the Bluewater flying boat had already flown more than ten meters above the rooftop. The disciple who was controlling the flying boat moved another jade handle on the right side of the main control console. The huge Bluewater flying boat immediately turned slowly in the air, and then the disciple pushed the last handle in the middle up ...

Xia ruofei felt that the Clearwater flying boat seemed to have stopped for a moment. Then, its speed suddenly increased several times and it suddenly rushed in one direction.

The feeling of being pushed was much stronger than when he was on a plane.

However, the people on the blue water flying boat were all cultivators, so this level of stimulation naturally did not affect them at all. While the blue water flying boat was accelerating, they were still sitting in their seats, talking and laughing, looking very relaxed.

Xia ruofei observed for a while and realized that the speed of the blue water flying boat was not slower than that of sword Kinesis flight.

The operation of this flying boat was also very simple. After activating it with a spell, it could be completely controlled by the three controllers on the main control console. The method was also very simple. The left controller controlled the height, the right controller controlled the direction, and the middle controller controlled the speed.

This design was actually very clever. As long as the flying boat was started, even low – Level cultivators could fully control the Pixiu. Cultivators who could use such a high – end means of transportation naturally enjoyed the ‘driver’ service. If they had to control it themselves, it would more or less seem a bit low – Class.

The designer of the blue water flying boat had obviously thought of this.

Cultivators were indeed very happy to have such a divine weapon.

Just think about it, when others were riding their flying swords, they would consume their vital Qi, and they would be in direct contact with the strong wind outside. Of course, cultivators would put up a protective shield when they were riding their flying swords. No matter how strong the wind was, it would not affect the cultivator’s hairstyle ...

Although it cost a bit of spiritual crystals to use the blue water flying boat, it didn’t consume spiritual energy at all. Moreover, when others were struggling to ride the sword, the people who used the flying boat could sit in the comfortable cabin to cultivate. The difference between the two was huge.

Xia ruofei looked at other people’s airboats and suddenly felt a little disdainful of the sword Kinesis flight that he was so proud of. As for the private plane, it must be even more low – end compared to this airboat ...

The jadewater flying boat was very fast, silently crossing the sky in the night.

It was dark outside, but the cabin was very bright. Xia ruofei did not see any obvious light source, but the entire cabin was covered in a very soft white light. The white light was very natural, as if it was daytime.

Although the airboat was fast, it was very stable. It didn't even have the turbulence that was commonly encountered by airplanes.

Like a magic trick, Chen Xuan took out an exquisite purple sand tea set from a secret compartment beside his seat. He used a red clay stove to boil some mountain spring water, then took out a small box of tea leaves and prepared to make tea for everyone.

Mu Sheng took a look and his eyes lit up. He asked, ""Fellow Daoist Chen, is this your sect's wild tea?"

Chen Xuan smiled and said, "sect leader mu, you're indeed knowledgeable!" This tea is indeed picked from the wild tea tree on Tianyi peak, which was baked by my father's own secret method. "

"We're in for a treat now, haha!" Mu Sheng said happily, "little brother Xia, you may not know. The first heaven society's wild tea leaves were considered top – notch in the cultivation world! Although the name was ordinary, the tea leaves were definitely the best of the best. Moreover, there was only one wild tea tree on Tianyi peak, so the annual production was pitifully small! Even if you go to the first heaven society, sect leader Chen rarely brings out wild tea to serve his guests. Fellow Daoist Chen is indeed much more generous than his father!"

Seeing that Mu Sheng was making fun of his father again, Chen Xuan wisely shut his mouth and concentrated on using a wooden spoon to pick up seven or eight tea leaves and pour them into the tea set.

As soon as Xia ruofei heard Mu Sheng's words, he knew that this wild tea was a bit similar to Da Hong Pao. They were all tea leaves picked from wild tea trees. The quality was excellent, but the quantity was scarce.

Although Xia ruofei had never tasted the tea leaves of the Da Hong Pao mother tree, he had tasted the second – generation Da Hong Pao tea leaves produced from the tree's branches countless times. Furthermore, the second – generation Da Hong Pao tea leaves had been nourished by the rich spiritual energy in the spirit map space all year round. The quality of the tea leaves produced might have long surpassed the Da Hong Pao mother tree 's.

This "Da Hong Pao" in the world of cultivation had successfully piqued Xia ruofei's interest.

He smiled. "I usually drink a lot of tea. However, this is the first time I've seen such precious wild tea. I'll have to taste it later."

Even though Xia ruofei said that, he couldn't help but Mutter to himself when he saw Chen Xuan throwing in seven to eight tea leaves. So little? How could this be enough? Yet, sect leader mu actually said that Chen Xuan was much more generous than his father. Could it be that when sect leader Chen brewed tea, he only added one or two tea leaves?

Mu Sheng seemed to have read Xia ruofei's mind. He laughed and said, Fellow Daoist Xia, don't think that fellow Daoist Chen only used a small amount of tea. In fact, it's enough. You'll know when it's done!

Hearing this, Xia ruofei also looked at Chen Xuan curiously.

The moment Chen Xuan poured the boiling Spring water into the teapot, an extremely rich aroma of tea wafted through the air. Just a deep breath of the aroma of the tea was enough to make one feel as if they were floating in the air.

Xia ruofei couldn't help but be shocked. If the fragrance of the tea alone could reach such an extreme level, what level would the tea be?

Of course, Xia ruofei drank tea often and naturally knew that the fragrance of tea was not enough. Moreover, a strong fragrance did not necessarily mean that it was delicious. Some tea had a fragrant aroma when it was brewed, but once the tea entered one's mouth, it would be a great disappointment.

However, it was the first time Xia ruofei had smelled such an alluring tea fragrance.

Chen Xuan's fingers were fair and slender, and his movements were extremely fluid. Every single movement was as natural as floating clouds and flowing water. When they were linked together, there was a unique rhythm to it that caused one's heart to become calm and peaceful.

If a classical beauty were to be added to the scene, it would be many times more exciting than those paid tea performances.

Very quickly, Chen Xuan finished brewing the tea and poured it into tea cups. Using specially made bamboo cups, he placed the tea in front of everyone. Extending his hand, he made an inviting gesture and smiled, "Fellow Daoists, please have a taste!"

Naturally, Mu Sheng did not stand on ceremony. He picked up the tea cup in front of him, smelled the tea, and showed a look of enjoyment. Then, he drank the tea in one gulp, closed his mouth and nose, and even closed his eyes. After a long time, he opened his eyes and looked at Xia ruofei as if he had not had enough. "Little brother Xia, quickly try it! It'll definitely leave you with an endless aftertaste ..."

#### Chapter 3004 Magical wild tea (1)

Xia ruofei saw Mu Sheng's exaggerated expression and couldn't help but find it funny.

However, the wild tea's fragrance was indeed very rich and unique. Xia ruofei also wanted to try it.

He picked up the tea cup, but unlike Mu Sheng, he did not drink it in one gulp. Instead, he took a small sip first.

After the tea entered his mouth, a strange fragrance spread on the tip of his tongue. It was as if every taste bud cell had started to cheer. At that moment, Xia ruofei felt a warm current rising from his dantian. The vital Qi in his body had actually started to become active.

Xia ruofei couldn't help but reveal a surprised expression. He couldn't help but gulp down all the wild tea in his cup.

This time, when the cup of tea entered his stomach, the feeling was even more obvious. The speed of the yuan Qi vortex in his dantian had increased a little, and the yuan Qi in all the meridians in his body of different sizes started to surge.

Xia ruofei didn't even have time to put the cup down. He sat on his seat and started to practice the "great Dao technique".

With the star picking sect's Foundation and Luo Qingfeng's level, they were not close enough to the first heaven society. Therefore, he was definitely not as close as Mu Sheng and the first heaven society. He also did not know much about the rare wild tea.

When Luo Qingfeng saw that Xia ruofei had entered a meditative state after drinking a cup of tea, he could not help but show a worried expression.

Mu Sheng laughed and said, "Don't worry, sect leader Luo. It's little brother Xia's first time drinking this wild tea, so the effect will be more obvious. Now that he has begun to cultivate, this cup of tea will bring him a lot of benefits! However, only the first cup has this effect. When he drinks it in the future, he will be like me, tasting the taste of this top – Quality tea ... By the way, sect leader Luo has never drunk wild tea before, right? You can give it a try, the effect will be very obvious. "

Luo Qingfeng looked at Xia ruofei, who was cultivating. After hearing Mu Sheng's words, he was slightly relieved. However, he still did not dare to let his guard down. At least, he would not drink this wild tea before Xia ruofei woke up.

Even though Chen Xuan and Mu Sheng had a good reputation in the world of cultivation, they were still not very familiar with each other. One may know a person's face, but not their heart. If there was something wrong with the tea, it was impossible for the two of them to fall for it at the same time! Now that Xia ruofei had entered a meditative state to cultivate, Luo Qingfeng naturally had to stay awake.

"Thank you for your reminder, sect leader mu." Luo Qingfeng said, "but I'll drink it later! Junior Xia is still cultivating, I'm a little worried ..."

Mu Sheng and Chen Xuan looked at each other and smiled.

They naturally knew what Luo Qingfeng was worried about, but the two of them did not have any bad intentions. As the saying went, "selfless at heart, the world is wide." They were not offended by Luo Qingfeng's cautiousness.

Mu Sheng laughed and said, "sect leader Luo is really concerned about little brother Xia!"

Luo Qingfeng smiled but did not say anything. He just stood guard beside Xia ruofei.

Xia ruofei was completely immersed in his cultivation and was not aware of the situation around him. He continuously circulated the "great Dao technique" for more than a dozen times before the active vital Qi began to calm down.

Xia ruofei was also secretly shocked. He immediately checked the situation in his body and only relaxed when he did not find anything strange.

Then, Xia ruofei realized that his cultivation had improved by a small step. Although the improvement was not big, it was very difficult for a cultivator to improve after entering the Golden core stage. Xia ruofei estimated that he would need at least half a month to cultivate for this small step.

A cup of tea could actually improve one's cultivation, and it was so effective. Xia ruofei couldn't help but be secretly speechless.

He slowly retracted his cultivation technique and opened his eyes.

"This wild tea ... Is so magical!" Xia ruofei praised, "this is really eye – opening!"

Seeing that Xia ruofei was fine, Luo Qingfeng was completely relieved.

Mu Sheng and Chen Xuan exchanged glances before Mu Sheng asked, "Little brother Xia, is there any change in your cultivation?"

Xia ruofei nodded and said, "I won't hide it from you, sect leader mu. My cultivation has indeed improved."

Since Mu Sheng, Chen Xuan and the others were not aware that he was in the Aurous core stage, he had to be vague about it.

However, Mu Sheng still raised his eyebrows and said, "I thought ... Your cultivation would at least break through a small realm! The first time a Qi condensation cultivator takes wild tea, their improvement is very obvious. "

Chen Xuan also looked interested. It was obvious that he had thought that Xia ruofei would be able to use this cup of wild tea to raise his cultivation by a small realm.

Xia ruofei replied without changing his expression, "maybe my cultivation technique is special!" It's harder for me to break through now than for ordinary cultivators ..."

Xia ruofei didn't lie. The Supreme – grade golden core in his dantian was harder to form than ordinary cultivators.

Upon hearing this, Chen Xuan revealed a look of envy. "It seems that brother Xia's cultivation method is of a very high grade! The harder it is to break through, the more solid the foundation is, and the higher your future achievements will be!"

Actually, this wasn't an absolute statement. Other than the fact that the cultivation technique Chen Xuan mentioned was of a higher grade, there was another possibility. The cultivation technique was extremely inferior, and the cultivation efficiency was extremely low.

Of course, Chen Xuan and Mu Sheng did not think that Xia ruofei, who had the ability to make Chi – amassing pills and fire elemental pills, would be cultivating those cheap martial arts.

Chapter 3005 Magical wild tea (2)

"Haha!" Mu Sheng laughed and said, "sect leader Luo, can you drink wild tea now?"

"I'm sorry," Qingfeng Luo said, feeling a little guilty. "I was too careful."

Chen Xuan smiled gently and said, "It's human nature. Sect leader Luo's concern for brother Xia is from the bottom of his heart."

Xia ruofei looked at Luo Qingfeng in confusion and asked, "What's going on?"

Mu Sheng laughed and said, "Sect leader Luo just saw you meditating. He was worried that you would be in danger. So, he has been protecting you from the side!"

When Xia ruofei heard this, and combined it with what Mu Sheng had said about Luo Qingfeng drinking wild tea, he immediately understood. Luo Qingfeng was naturally loyal to him, so it was completely normal for him to be worried after seeing him enter a meditative state.

However, this made Luo Qingfeng a little embarrassed.

At this moment, Chen Xuan poured tea for Xia ruofei and Mu Sheng. He smiled and said, "Sect leader mu, brother Xia, another cup!"

Chen Xuan had also helped Luo Qingfeng out of his predicament. He had always been so generous with people and things, making people feel as if they were bathing in a spring breeze.

"Thank you!" Xia ruofei smiled and nodded. "Senior brother Luo, you should have some tea too ..."

Luo Qingfeng also wanted to try this magical wild tea, but Mu Sheng's half-joking words made him embarrassed to drink it.

Xia ruofei and Chen Xuan had helped Luo Qingfeng out of his predicament.

"Alright ..." Qingfeng Luo quickly replied.

After drinking the wild tea, Luo Qingfeng, like Xia ruofei, immediately entered a state of cultivation.

When Xia ruofei drank the second cup, although the taste was still very special and the tea fragrance was very strong, it no longer had the effect of promoting cultivation.

Of course, just from the point of view of tea, wild tea could definitely be called the best tea.

Xia ruofei secretly made a comparison. The taste of this wild tea was even better than the Da Hong Pao that he had grown in the medium.

Mu Sheng introduced with a smile, "Little brother Xia, if you drink wild tea often, it can also improve your cultivation, but the effect is not as good as the first time."

"It's already very lucky to be able to taste such precious tea leaves once." Xia ruofei chuckled. "How can I expect to drink it every day?"

"As long as brother Xia comes to the heavenly sect as a guest, I'll definitely welcome you with open arms. I'll even bring out wild tea for you!" Chen Xuan replied with a smile.

"Hahaha! If there's a chance in the future, I'll definitely visit brother Chen!" Xia ruofei said with a smile.

"You're more than welcome!" Chen Xuan nodded.

After that, Chen Xuan took out the box of tea leaves and split out a small portion of it.

This tea box was not big to begin with, and the wild tea inside was not full yet, so this small half of the tea could only be brewed two or three times at most.

Chen Xuan split the tea leaves into two and wrapped them up. He handed them to Xia ruofei and Mu Sheng and said, "This is a small token of appreciation from this Chen, don't think I'm stingy! The production of wild tea is indeed very small, and the production process is very complicated. I dare to make the decision to give away only this much. If I don't leave some on the Clearwater flying boat, my father will probably blame me."

Mu Sheng took the Flat Tea Bag and said with a smile, "Your son is indeed more generous than your father. I've asked your father several times, but he didn't even give me a single tea leaf ..."

Chen Xuan couldn't help but smile bitterly. His father was good at everything, but he was a little stingy and kept all the good things to himself. This feature was often joked about in private in the heavenly sect, not to mention Mu Sheng, who had a good relationship with Chen Nanfeng. Mu Sheng had already teased Chen Nanfeng several times today.

As the son, Chen Xuan naturally couldn't say anything, much less agree with him.

Xia ruofei happily took the tea bag and said, "Then thank you, brother Chen! This is a generous gift!"

A cup of tea could allow a Qi refining cultivator to break through a level. This effect was much better than the Qi gathering pill that Xia ruofei made.

Of course, there was no comparison. For Xia ruofei, he could get as many gathering Qi pills as he wanted. On the other hand, the production of wild tea was limited, and the annual output was fixed.

"It's just a small token of my appreciation, brother Xia. You don't have to be so polite," Chen Xuan said with a smile. By the way, if it's for a Qi layer cultivator to drink for the first time, it's best to use all the tea leaves in one go, and no more than five cups, otherwise the effect might be reduced."

"I understand. Thank you for your reminder, brother Chen!" Xia ruofei said.

Such a good thing should, of course, be given to his own people.

There were many cultivators around Xia ruofei.

If he could increase the cultivation of five people by one level, Xia ruofei would naturally choose Song Wei, Ling Qingxue, Li Yifu, and his disciple, Tang Haoran.

He would leave the last spot for song Qiming.

Of course, it would be best to gather everyone together and let Xia ruofei make five cups of tea for everyone to drink.

Xia ruofei kept the bag of tea leaves into the spirit map space and carefully placed it in the stone chamber of the mountain sea realm cave, together with the two storage rings.

Xia ruofei's heart skipped a beat. He couldn't help but say, "Brother Chen, I have a presumptuous request ..."

"Brother Xia, just say it!" Chen Xuan smiled.

“Your sect’s wild tea tree, do you normally trim it or something?” Xia ruofei asked, “if it’s possible, I’d like to ask brother Chen for a few wild tea tree branches ...”

This was clearly not Chen Xuan’s first time receiving such a request. He replied without hesitation, “No problem! Every year, the wild tea trees were pruned regularly, usually twice a year. However, if brother Xia goes to the heavenly sect as a guest, you don’t have to wait for the trimming period. It’s just one or two branches, and they won’t cause any harm to the tea trees. I’ll just go to the wild tea trees and cut them.”

Xia ruofei was overjoyed and quickly said, “Then I’ll thank brother Chen in advance!”

If it wasn’t necessary, Xia ruofei didn’t plan to visit the first heaven society. After all, Chen Nanfeng was a late – Stage golden core expert. If Xia ruofei were to face Chen Nanfeng, it could be said that he had no chance of winning. Even the possibility of escape was very low. The only way was to use the spirit map space to hide.

The first heaven society had no ill intentions towards Xia ruofei, and the possibility of Xia ruofei falling out with them or even fighting Chen Nanfeng was very low.

However, Xia ruofei did not like the feeling of things being out of his control.

However, if it was for the wild tea leaves, Xia ruofei felt that it was necessary to go to the first heaven society. It was not a big risk anyway, and if it really didn’t work out, he still had the spirit map space, which was his biggest reliance.

Chen Xuan waved his hand and smiled, “you’re welcome. However, brother Xia should be mentally prepared ... Our sect has also tried to use the branches of wild tea trees to expand the scale of planting. Some of my father’s friends have also asked for the branches of wild tea trees to try planting them, but so far, whether it’s US or my father’s friends, all of them have failed without exception. ”

Chen Xuan took a sip of his wild tea before continuing, “Perhaps the wild tea trees have extremely harsh requirements for their growth environment, or perhaps the place where the wild tea trees grow on Tianyi peak just happens to meet some special conditions. In short, so far, there is only one wild tea tree. So, if brother Xia wants to try planting it, that’s not a problem, but don’t have too much hope, or you’ll be very disappointed. ”

Xia ruofei smiled and said, “thanks for the reminder. Don’t worry!” I’m just trying to plant it for fun. It’s fine even if I don’t succeed. ”

“It’s good to have such an attitude. ” Chen Xuan smiled and said, “brother Xia, you can visit the first heaven society at any time. When the time comes, I will naturally offer you the branches of the wild tea tree!”

“Many thanks! Many thanks!” Xia ruofei said with a smile.

Everyone was chatting and drinking tea. Xia ruofei also noticed that besides him and Luo Qingfeng, even mu Jianfei did not meditate and cultivate after drinking the wild tea. It was obvious that mu Jianfei had drunk wild tea before. So, even though Mu Sheng often ridiculed Chen Nanfeng, their relationship must be very good. Otherwise, how could mu Jianfei have drunk wild tea before?

...

After a while, Qingfeng Luo stopped cultivating. He opened his eyes and a look of surprise and joy appeared on his face.

Chapter 3006 Arriving at the star Seizer sect (1)

Luo Qingfeng stood up and bowed slightly to Chen Xuan. "Many thanks, fellow Daoist Chen! I've benefited a lot from this cup of wild tea!"

"There's no need to be so polite, sect master Luo," Chen Xuan said with a smile. "This wild tea is only effective the first time you drink it. Many fellow Daoists in the cultivation world have drunk it before ..."

"It would be great if we could expand the planting of this tea ..." Luo Qingfeng said.

Chen Xuan and Mu Sheng laughed as they heard this. Mu Sheng said, "Sect leader Luo and little brother Xia are really worthy of being brothers! Their thoughts were the same! Just now, little brother Xia asked fellow Daoist Chen for the branches of the wild tea, and fellow Daoist Chen has agreed!"

"Actually, we've been sending out some wild tea branches every year to other fellow Daoists who need it," Chen Xuan said with a smile. "It's just that so far, no one has been able to successfully reproduce wild tea. Since brother Xia wants to try, the first heaven society won't be stingy. It's just a few branches!"

Luo Qingfeng could not help but look at Xia ruofei.

He had blind faith in Xia ruofei. He felt that since Xia ruofei asked for the branch, he must have a way to breed the wild tea successfully!

Qingfeng Luo thought that if the wild tea trees could be reproduced and there was a fixed amount of wild tea produced every year, it would be hard to estimate the effect it would have on the overall strength of the entire sect.

If there was enough wild tea, it was basically equivalent to all the Qi condensation cultivators in the sect being able to directly raise their cultivation by one level.

Xia ruofei smiled. "I still have to thank you, brother Chen. If I'm really lucky enough to reproduce a wild tea tree, I'll definitely treat you to a drink!"

"Hahaha!" Chen Xuan chuckled. "I'll be waiting for your good news then, brother Xia!"

Putting aside the effect of promoting cultivation, the taste of wild tea itself was also quite good.

Everyone sipped their tea and chatted, and time passed very quickly.

Before he knew it, the jadewater flying boat had already approached the territory of the star Seizer sect.

The disciple of the first heaven society who was controlling the flying boat turned around and said, "Young sect master, the star Seizer sect is not far ahead!"

"Alright." Chen Xuan nodded and said, "land the airboat outside the star Seizer sect! Be careful to find a quiet place and don't disturb the ordinary people."

"Yes! Young sect leader!" The disciple controlling the flying boat said.

Actually, Chen Xuan was doing this for Xia ruofei's sake. If they were all golden core cultivators, the flying boat would not need to land on the ground. They could just fly away from the flying boat.

However, Chen Xuan had mistakenly thought that Xia ruofei was only in the Qi refining stage. If the Clearwater flying boat was allowed to hover in the air, Xia ruofei would definitely be carried by an Aurous core stage cultivator when they left. This would more or less hurt his self – esteem.

Chen Xuan's way of dealing with people was indeed reflected in all the details.

"Young master Chen," Luo Qingfeng said. "Why don't we go to the sect together?" Although our star Seizer sect doesn't have top – grade tea leaves like wild tea to serve our guests, we do have a few pots of good wine."

Chen Xuan smiled warmly and said, "Thank you for your kind invitation, sect leader Luo, but I do have something urgent that I need to return to the first heaven society immediately. This time, I'm just sending little brother Xia off. Next time, if there's a chance, I'll definitely pay you a visit!"

In fact, everyone knew that although most of the forces would be intimidated by the first heaven society and Chen Nanfeng's reputation and wouldn't dare to make any small moves, they could completely rule out the possibility of others taking risks for the sake of profit. Therefore, Chen Xuan wouldn't be loitering around outside for no reason. He would definitely return to the sect as soon as possible.

"Alright then!" Luo Qingfeng said, "the next time you come, I'll definitely welcome you with open arms!"

Qingfeng Luo had drunk the wild tea of the first heaven society. Although it was due to Xia ruofei, in a sense, he had also owed the first heaven society a favor. Therefore, his attitude towards Chen Xuan was much better than before.

"Definitely!" Chen Xuan said with a smile.

While they were talking, the blue water Ark had landed in a Valley near the star Seizer sect. The ark trembled slightly, and the disciple of the first heaven society who was controlling the ark turned around and said, "Young sect leader, the airboat has landed! Seniors, you can disembark now!"

Chen Xuan nodded slightly, then personally sent Xia ruofei, Mu Sheng, and the rest off the flying boat. He also jumped down.

"Brother Xia," Chen Xuan said to Xia ruofei, "when you're done here, please come to the first heaven society to find me!"

Xia ruofei smiled and nodded. "No problem!"

"Don't forget that we still owe you 110000 spiritual stones!" Chen Xuan chuckled. If you take too long, you can't rule out the possibility that we'll renege on our debt!"

Everyone burst into laughter upon hearing this.

Xia ruofei smiled and said, "money is just a worldly possession. If brother Chen likes spiritual stones, you can keep them for your own use. I don't mind."

“Brother Xia is magnanimous!” Chen Xuan laughed. However, the first heaven society wasn’t one to go back on their word. Your brother was only joking!”

After that, Chen Xuan turned to Luo Qingfeng and Mu Sheng and said,“”Sect leader mu, sect leader Luo, I’ll take my leave first!”

After saying that, Chen Xuan cupped his hands to everyone and leaped back into the flying boat.

Everyone watched the blue water flying boat fly away, and then Mu Sheng laughed and said,“”Sect leader Luo, are we going back on our flying swords or ...?”

Luo Qingfeng looked at Xia ruofei and made a judgment in his heart. He then said,“”Why don’t we walk up the mountain? We’re not far from the mountain Gate, and the scenery along the way is pretty good!”

Actually, what kind of scenery was there to see at night? Even if cultivators had better eyesight than ordinary people, they would not go to the mountains to see the scenery in the dark night for no reason.

Mu Sheng was well aware of Lao Ai’s intention, or perhaps he thought he was well aware of it. He smiled and said,“”Alright! Fei ‘er is so heavy, I’ll die of exhaustion if I carry him on the sword ...”

Mu Jianfei turned his face away with a bitter smile. Sect leader Luo is obviously concerned about fellow Daoist Xia’s feelings, so why are you talking about me? Is there any justice in this world?

However, on second thought, he and Xia ruofei were the only Qi refinement cultivators in the group. Jian Jia must have thought that Xia ruofei’s identity was a little special. It seemed that he was the only one who could be used as an excuse. There was no other choice!

The group of people then began to walk towards the main gate of the star Seizer sect.

In fact, this area was not completely deserted. The stone path leading to the mountain was still easy to walk on. Although no one would come at night, there were still some villagers who went to chop wood or collect herbs during the day.

Of course, the star Seizer sect was hidden in the depths of the mountains and was concealed by the sect’s protective formation. It was impossible for ordinary people to discover it, and they wouldn’t even have the chance to enter by mistake.

If someone really fell into the formation, they would only keep going in circles, and in the end, they might even faint from inhaling the fog.

Then, the star Seizer sect disciples responsible for maintaining the formation would send the unconscious villagers to the foot of the mountain and leave after they woke up.

From the perspective of these Hill – folk, it was natural that they had fallen into a “ghostly labyrinth”. Furthermore, after waking up, they had actually appeared at the foot of the mountain. This was the origin of some supernatural legends in this area.

After all, there would be one or two cases every year where ordinary people mistakenly entered the sect’s protective formation.

Luo Qingfeng led everyone on the mountain road with ease. This group of people were all cultivators. Mu Jianfei, who had the worst cultivation and was injured, could walk on such terrain as if it was flat ground, so his speed was also very fast.

After a while, Luo Qingfeng led everyone to a cliff.

He made a few hand seals and a spot on the cliff where vines were growing slowly became transparent, revealing a passage that was as tall as two people.

The star Seizer sect's disciple who was guarding the gate appeared at the entrance of the passage in a flash. When he saw that the leader was Luo Qingfeng, he quickly bowed and said, "Sect leader!"

Luo Qingfeng nodded lightly and ordered, "Be careful and stay alert."

...

"Yes! Sect leader!" The star Seizer sect disciple assented.

"Sect leader mu, please come in!" Luo Qingfeng greeted him with a smile.

It was also Xia ruofei's first time at the star Seizer sect. He followed Luo Qingfeng into the passageway and looked around curiously.

The tunnel was not very long, only about 20 meters or so. After passing through the tunnel, Xia ruofei saw a Valley with many ancient – looking buildings built according to the terrain. It was a spectacular sight.

Chapter 3007 Carefully taught (1)

Xia ruofei chuckled and said, "don't worry, sect leader mu. I've even accepted the spiritual stones. How can I go back on my word?" I promise I'll get the firecloud pill before you leave the star Seizer sect!"

"Thank you! Thank you!" Mu Sheng said.

"Thank you, brother Xia!" Mu Jianfei also said sincerely.

Xia ruofei smiled and waved his hand. "Brother Jianfei, you don't have to be so polite. It's only right to do things after being paid!"

"You won't be able to buy firecloud pills even if you have spirit stones elsewhere." Mu Sheng said, "this is not just a deal for us! The entire Cang lang sect will remember little brother Xia's kindness!"

"Sect master mu, you're too kind ..." Xia ruofei said with a smile.

"Didn't Chen Xuan promise to give you a spot to explore the secret of the five sacred medallions?" Mu Sheng smiled and said, "our surging waves sect is also qualified to explore this secret. When the time comes, if little brother Xia personally goes out, I'll be responsible for your safety! If it's any other fellow Daoist from your star Seizer sect, the surging waves sect will definitely take care of him!"

"Then I'll thank sect leader mu in advance!" Xia ruofei said.

Luo Qingfeng led the group of people into zhaixing tower.

This was the star Seizer sect's most important location. On the second floor, there were even guest rooms specially set up to receive important guests, with dedicated staff providing 24 hours of service.

Luo Qingfeng arranged for Mu Sheng and the other two to stay in the guest rooms, then led Xia ruofei straight to the top floor.

This kind of ancient building naturally did not have an elevator, but for cultivators, even the stairs were a burden. Luo Qingfeng directly brought Xia ruofei to the 10th floor on his flying sword. The reason why he brought Xia ruofei was naturally to hide it from Mu Sheng and the others. Since everyone had misunderstood that Xia ruofei was a Qi refining cultivator, then let this misunderstanding continue. Who knew when it would have an unexpected effect!

In the entire star Seizer sect, only Luo Qingfeng, the sect leader, had the right to ride a flying sword in the star Seizer tower. Anyone else who dared to do so would be sentenced to death.

Of course, this was a rule in the past. Now, the star Seizer sect only had Luo Qingfeng, the only remaining golden core cultivator, and no one else could fly on a sword.

The 10th floor of star picking tower was a forbidden area in the entire star picking sect. It was a floor that was exclusively used by Luo Qingfeng, the sect leader.

The entire floor was huge, at least a thousand square meters.

There were specialized book rooms, cultivation rooms, pill refining rooms, weapon refining rooms, and so on set up here. The functions were very complete.

However, the star Seizer sect's heritage had withered over the past 300 years. As the sect leader, Luo Qingfeng was not very proficient in refining medicine, elixirs, or weapons. He basically had no use for those rooms.

Luo Qingfeng asked the disciples who were serving on this floor to leave. Then, he said to Xia ruofei respectfully, "Master, it's getting late. You should go and rest!"

Xia ruofei smiled and shook his head, "take me to the place where the medicine is being refined." Since you've already taken the spirit stones, you'd better refine the firecloud pill as soon as possible, or else this matter will always be on your mind!"

"Yes! Master!" "This way, please!" Luo Qingfeng said quickly.

With that, Luo Qingfeng brought Xia ruofei to the alchemy room on the tenth floor with ease.

Although Luo Qingfeng might not even come here once a year, there were still disciples in charge of cleaning the house every day. The house was almost spotless.

Xia ruofei looked around the room and realized that the commonly used herbs were kept in stock. The equipment used to refine medicine was complete and of high quality.

Of course, Xia ruofei could also tell that these things had not been used much. It seemed that it was a waste to leave them with Luo Qingfeng.

“Master, take a look and see if there’s anything else you need.” Luo Qingfeng asked, “I’ll get someone to prepare it immediately!”

Xia ruofei waved his hand. “The firecloud pill is not a complicated pill. These are enough. Even if I’m missing one or two ingredients, I have some!” Don’t bother those disciples in the middle of the night. ”

“Yes! Master!” Luo Qingfeng said.

“Master, if you don’t need this old servant to serve you, then this old servant will take his leave first?” he asked carefully.

Luo Qingfeng did this to avoid suspicion. After all, the firecloud pill was nothing much to Xia ruofei. In fact, it was a very precious medicine in the world of cultivation. One firecloud pill at this auction was worth 1000 spiritual stones, which was evident. Moreover, Mu Sheng didn’t even choose Wu Ming’s 80000 spiritual stones. Instead, he chose Xia ruofei’s proposal of 50000 spiritual stones and the firecloud pill, which further highlighted the value of the firecloud pill.

Xia ruofei smiled and said, “No need! If I can’t even fully trust you, then who else can I trust?”

In theory, Luo Qingfeng, who was controlled by the soul seal, was even more reliable than Li Yifu.

Xia ruofei continued, “you can stay and see!” If I can learn it, it’ll be a good way to make money. ”

Luo Qingfeng shed tears of gratitude and said with a choked voice, “This old servant thanks master!”

Xia ruofei took out a pen and paper from the spirit map space and wrote down the formula and the refining method of the fire cloud pill. Then, he handed it to Luo Qingfeng.

Xia ruofei said, “write down the contents first and then help me prepare the ingredients!” By the way, do you know how to identify medicinal ingredients?”

“Of course!” Luo Qingfeng quickly replied, “normal herbs are no problem!” If it’s too rare ...”

Chapter 3008 Carefully taught (2)

“The herbs used to refine the firecloud pill are all relatively common!” Xia ruofei said directly.

“Yes! Master!” Luo Qingfeng quickly said, “please give me some time!”

“En!”

After Xia ruofei finished speaking, he sat cross – legged on the futon in the pill refining room and started to meditate.

After all, Qingfeng Luo was a cultivator at the Golden core stage, and his spiritual power was not weak. It was just a piece of paper, but he quickly memorized it.

Seeing that Xia ruofei was meditating, Luo Qingfeng did not dare to disturb him. He memorized the prescription and the refining method again. After making sure that he had memorized it, he put the precious paper into his storage ring and began to look for medicinal herbs in the medicine cabinet next to him.

In a short while, Luo Qingfeng had gathered most of the required herbs. Among them, there were two relatively rare herbs that were not kept in the alchemy room.

Just as Luo Qingfeng was in a dilemma, Xia ruofei opened his eyes and took out the last two herbs from the spirit map space.

Then, he used his spiritual power to scan the herbs that Luo Qingfeng had found. He nodded with satisfaction and said, "There's no problem with the type and quantity of medicinal herbs. Well done!"

"This old servant is too slow – witted, master, you're too kind!" Luo Qingfeng said quickly.

"Let's start!" Xia ruofei said, "I'll try to be slow. How much you can learn depends on your luck!"

"Yes! Master!" "Yes," Luo Qingfeng said quickly. He then focused his attention on the process of Xia ruofei's refining.

Xia ruofei began to process the ingredients skillfully. The equipment in the room was very useful, and the process of refining the medicine was smoother than when Xia ruofei was in the spirit map space.

This was Xia ruofei's second time refining the fire cloud pill. He was more skilled than the last time.

However, he didn't pursue speed. Instead, he deliberately slowed down the pace and sometimes explained the key points.

Luo Qingfeng, who was at the side, was naturally busy observing and memorizing.

In this batch, he had refined a total of ten firecloud pills, which took about two hours.

When the last step was completed, the ten firecloud pills were already lying quietly in the medicine refining furnace.

Xia ruofei casually took a fire cloud pill that still had some heat. After carefully observing it, he said with satisfaction, "The quality is not bad! It seems to be better than last time ..."

After saying that, he took out two porcelain bottles from the space, each containing five firecloud pills.

After Xia ruofei kept one of the bottles, he handed the other bottle to Luo Qingfeng and said, "You can keep these five! It can be used in times of need, or if the meridians of the sect's disciples are damaged during cultivation. "

"Thank you, master!" "Thank you," Luo Qingfeng said gratefully.

Xia ruofei looked tired and said, "If there's nothing else, I'll go rest first!"

"Yes!" "Please follow me, master," Luo Qingfeng said quickly.

Luo Qingfeng brought Xia ruofei to the quiet room where he usually rested. He personally changed Xia ruofei's bedding before he respectfully took his leave.

While Xia ruofei was resting in the quiet room, Luo Qingfeng was not idle. He went straight to the staircase on the tenth floor and shouted. A disciple who had been waiting on the ninth floor ran up and asked respectfully, "What instructions does sect leader have?"

Qingfeng Luo said, "go to the medicinal warehouse and help me find two medicinal herbs. Bring more!" Send it directly to the pill refining room!"

Even though the refining room on the tenth floor lacked two medicinal herbs, the star Seizer sect had its own specialized warehouse for medicinal herbs, and the stock of medicinal herbs there was much more complete than the refining room. Moreover, although the two herbs that were missing this time were relatively rare, they were not the kind of spirit herbs that were difficult to find, so the sect's medicinal warehouse most likely had reserves of them.

After Qingfeng Luo finished speaking, he told the disciple the names of the two herbs he needed to refine the fire cloud pill. The disciple quickly left.

Then, he returned to the refining room and took out the prescription that Xia ruofei had written. He studied it carefully and combined it with the process of Xia ruofei refining the fire cloud pill to comprehend it bit by bit.

Very quickly, the disciple collected the medicinal ingredients and rushed to the pill refining room.

Luo Qingfeng checked the ingredients and sent the disciple to the ninth floor. He also told the disciple that he was not allowed to come to the tenth floor without permission.

After the disciple left, Luo Qingfeng began to try it out in the alchemy room.

After repeated failures, Luo Qingfeng finally succeeded in refining three firecloud pills when the sky was slightly bright.

He was overjoyed, and quickly picked it up to examine it. He even personally tasted one of the misty firecloud pills. Its medicinal properties were mild, and even if one was not injured, eating it would not have any effect. However, whether the firecloud pill he refined was up to standard or not, there was still a certain risk in rashly trying it.

After Qingfeng Luo ate the firecloud pill, he quickly closed his eyes to feel it, and a hint of joy gradually appeared on his face.

After an entire night of failures, the firecloud pill that he had finally refined was far inferior to the one that Xia ruofei had refined. However, it was still a firecloud pill without a doubt. At least, he had managed to succeed this time.

After a night of practice, Qingfeng Luo had found the way. He felt that the main problem was that he was not skilled enough. After repeated practice, it should not be a problem for him to refine higher quality fire cloud pills.

Luo Qingfeng could not help but feel excited. If he could refine the firecloud pill, the star Seizer sect would undoubtedly have another source of income.

Although the fire cloud pill's scope of use was not as wide as the Qi gathering pill, and cultivators who were not injured basically had no use for it, it was not like the Qi gathering pill, which could be used to assist in cultivation as long as it was a Qi refining cultivator, and there were no side effects. However, the firecloud pill was more precious than the Chi – amassing pill, and in the entire world of cultivation, the demand for it was still relatively large.

It would not be an exaggeration to say that this alone was enough to increase the star Seizer sect's income by tens of thousands of spiritual stones every year.

More importantly, the cost of the fire cloud pill was very low. Basically, they were all common herbs that could even be purchased from the secular world.

Most of the spirit stones he earned from selling firecloud pills were pure profit.

At the thought of this, Luo Qingfeng's gratitude for Xia ruofei grew even deeper.

At this moment, the horizon had just revealed a trace of white. Qingfeng Luo was about to strike while the iron was hot and refine a few more times to increase his proficiency when he heard footsteps coming from the corridor outside.

No disciple of the star Seizer sect would come up to the tenth floor without permission, so the person outside must be Xia ruofei.

Luo Qingfeng quickly walked over and opened the door of the pill refining room. As expected, he saw Xia ruofei walking over from the quiet room.

"Master, you're up!" "Master!" Luo Qingfeng bowed respectfully.

Xia ruofei glanced at Luo Qingfeng and sniffed the faint medicinal fragrance coming from the refining room. He asked, "You didn't sleep the whole night?"

"Yes! This old servant's aptitude is dull, and I'm afraid that I'll disappoint master's cultivation, so while I still have a deep impression of it, I've been practicing refining firecloud pills overnight." Luo Qingfeng said with his head lowered.

Xia ruofei sniffed the medicine and smiled. "It seems that the results of your practice are not bad! If I'm not wrong, you should have already successfully refined the firecloud pill?"

"Master is wise!" Luo Qingfeng quickly said, "after several failures, I finally managed to refine a furnace of firecloud pills. The only difference is the quality."

"Let me see!" Xia ruofei said as he walked into the refining room.

There were still two pitch – Black firecloud pills left in the furnace. They were slightly uneven and looked like the surface of the moon. The firecloud pills that Xia ruofei had refined previously were all round and smooth. In comparison, the firecloud pills refined by Luo Qingfeng were like the beggar's version.

...

Xia ruofei did not laugh at Luo Qingfeng. Instead, he picked one up and sniffed it. After observing it carefully, he smiled and said, "Not bad! At least the medicinal properties are not a problem, it's just that the grade is a bit different, and the degree of fusion between the medicinal properties is also a bit low, but at least it's a fire cloud pill that can be used!"

Chapter 3009 Fulfilling the promise (1)

Although Luo Qingfeng had already tried the firecloud pill and was quite confident, to be able to get Xia ruofei's personal confirmation was naturally a different matter.

Luo Qingfeng was overjoyed and quickly said, "It's all because master taught me well! This old servant is still not skilled enough, I need to work harder!"

Naturally, Xia ruofei did not pretend to be polite to Luo Qingfeng. He said directly, "I'm indeed not skilled enough, and I'm still very inexperienced in many areas of processing. I was able to successfully refine the fire cloud pill this time, more or less, with a bit of luck!"

Of course, Xia ruofei would not just criticize. He immediately added, "There's an obvious problem with the way you handled the red sun grass. The rhizome wasn't clean enough, which led to the medicinal properties not being pure enough. In addition, it seems that the time left after processing was a little longer. Also, the control of the fire ..."

Xia ruofei casually pointed out some of the classic problems that Luo Qingfeng had faced in the process of refining the furnace of firecloud pills.

Luo Qingfeng's forehead was covered in sweat after hearing this. Xia ruofei had only checked the completed firecloud pill and could point out so many problems. What was even more terrifying was that when he carefully recalled the entire process of refining the firecloud pill, he realized that the problems that Xia ruofei had pointed out were all very accurate. There was not a single mistake! And they often hit the nail on the head.

Luo Qingfeng quickly took Xia ruofei's words to heart.

If he could avoid these problems the next time he refined them, there was no doubt that his level of refining the firecloud pills would improve. The effect of the improvement in the quality of the refined firecloud pills was estimated to be immediate.

"Thank you, master!" Luo Qingfeng said gratefully, "thank you for your careful guidance!" This old servant will definitely work harder and strive to master the method of refining this fire cloud pill as soon as possible!"

Luo Qingfeng could not wait to prepare the herbs again and make another batch. He was sure that this time would definitely be much better than the previous one!

Xia ruofei could not help but laugh when he saw Luo Qingfeng's eagerness. He said, "Qingfeng, you can't become a fatty in one go. You have to practice your alchemy techniques. Don't forget that there are still guests in the sect today! Let's go receive sect leader Mu Sheng and the others first!"

"Yes, yes, yes!" Luo Qingfeng quickly said, "thank you for the reminder, master!"

Xia ruofei and Luo Qingfeng went to the second floor together. Mu Sheng and the other two were already up. In fact, they had not slept much. The spiritual Qi in the star Seizer sect was not bad. They had been meditating on their beds the whole night.

When Xia ruofei entered the room, Mu Sheng was talking to mu Hua and mu Jianfei by the window.

"Little brother Xia is here!" When Mu Sheng saw Xia ruofei, he called out enthusiastically, "Zhai Xing Lou is in a great location!" The viewing effect was excellent! Looking at the valley from here, buildings of various sizes could be vaguely seen in the clouds and mist. It was really like a paradise on earth! Our surging waves sect's environment is far inferior to the star Seizer sect 's!"

“Sect leader mu, You must be joking!” Xia ruofei chuckled and said, “the Canglang sect is a top – notch sect. The star Seizer sect can’t even catch up to it!”

Mu Sheng said meaningfully, “a top sect only represents their current strength, but the foundation of a sect is not just based on their current strength.” I can tell that the star Seizer sect has a very deep foundation ...”

Xia ruofei was well aware of Mu Sheng’s guess. He knew that Chen Xuan, Liu Mansha, and the others were more or less guessing that there was a nascent soul realm master behind Xia ruofei. This nascent soul realm master was most likely the hidden ancestor of the star Seizer sect, and Xia ruofei was most likely the disciple of this nascent soul realm master.

Xia ruofei had intentionally or unintentionally led them to this misunderstanding.

Because of this mysterious Halo, any normal power that wanted to covet the star Seizer sect would have to think twice.

As for the top sects like the surging waves sect and the first heaven sect, they would most likely adopt a strategy of befriending.

This was naturally the most beneficial for Xia ruofei.

So, after hearing Mu Sheng’s words, Xia ruofei just smiled and said, “Sect leader mu, you flatter me.”

At this moment, Luo Qingfeng said, “sect master mu, why don’t we go downstairs and have breakfast together?” Let’s talk while we eat. ”

In fact, cultivators didn’t need to eat every day. However, there were still so – called “dinner parties” in the cultivation world. The Chinese’s tradition of talking about business at the dinner table seemed to have a long history.

“Then I’ll have to trouble sect leader Luo!” Mu Sheng happily replied.

Luo Qingfeng personally led the way and brought the group to the first floor of zhaixing tower. There was an elegant little restaurant there, but it was not used very often.

When Luo Qingfeng was in the sect, if he needed to eat, he would eat on the tenth floor.

This place would only be used when receiving guests, and ordinary guests were not qualified to stay in zhaixing tower, so it was only used a few times a year.

Of course, the environment of the small dining hall was still very good, and there were service disciples cleaning and maintaining it every day.

Soon, breakfast was served. Xia ruofei did not see any celestial food that he had imagined. It was just plain porridge and steamed buns. It seemed that the cultivation environment was getting worse and worse, and the Ling qi was almost exhausted. It was not even enough to provide for cultivators to cultivate, so where would there be extra ling qi to plant Ling grains and other crops?

Everyone ate breakfast while chatting about the interesting things of the cultivation world. The atmosphere was very relaxed.

Xia ruofei's understanding of the cultivation world was limited, so he mainly listened.

After breakfast, Xia ruofei took out the porcelain bottle from the spirit map space and handed it to Mu Sheng with a smile.

He said, "sect leader mu, I'm glad I didn't fail you." Here are five firecloud pills, take a look. "

Mu Sheng was stunned for a moment and quickly took it.

However, he didn't check it immediately. Instead, he was touched and said, "I didn't think that little brother Xia would spend the entire night refining firecloud pills. This mu is truly ashamed! Actually, we've come to the star Seizer sect with the intention of taking a look around and exchanging views. We're not here to rush little brother Xia ..."

Xia ruofei chuckled and said, "sect leader mu, you're being too serious. In fact, you're only suggesting to travel with us to protect senior brother Luo and me." Fellow Daoist Chen Xuan was only willing to send me on my way after sect leader mu suggested that we travel together. Although I'm slow – witted, I still know what's good for me. "

Xia ruofei paused and continued, "As for refining the firecloud pill overnight, it was just an itch for me to do it. I felt that my condition was not bad, so I simply refined it first."

Actually, Jianfei's injury can't be cured in a day or two, and with the five firecloud pills you provided, there's no rush for this batch." Mu Sheng sighed, "little brother Xia is really a kind man!"

After that, Mu Sheng opened the porcelain bottle, poured out a fire cloud pill from it and observed it.

Soon, he revealed a look of joy and said, "The quality of these firecloud pills is even better than the batch at the auction! Little brother Xia, you're so capable!"

Mu Sheng gave Xia ruofei a thumbs – up.

Xia ruofei smiled and said, "you flatter me!" This time, his mentality was more peaceful and his performance was more stable!"

Naturally, Xia ruofei would not reveal that the firecloud pill he had brought out at the auction was his first time making it. Moreover, he was indeed a little anxious to prepare the fire cloud pill a day in advance. Although there was a difference in the flow of time in the spirit map space, and he had plenty of time, the sense of urgency was inevitable. And this time, his mood was basically as calm as an ancient well. With the experience from the last time, the effect was naturally better.

"Then this mu will accept it!" Mu Sheng put the fire cloud pill into a porcelain bottle and then put the porcelain bottle into his storage ring. "Thank you, little brother Xia!"

"Many thanks, brother Xia!" Mu Jianfei also said with a grateful expression.

"You're too polite!" Xia ruofei said with a smile.

Mu Sheng said, "little brother Xia, sect leader Luo, since we've got the fire cloud pill, we'll take our leave first!" There are still many things to deal with in the sect. "

"What's the hurry?" Luo Qingfeng asked quickly. "Why?" Since he was already at the star Seizer sect, he might as well stay for a few more days! Otherwise, if fellow cultivators were to find out about this, they'd definitely say that our star Seizer sect doesn't know how to treat our guests!"

Xia ruofei also said, "yeah!" Sect leader mu, if you leave now, it would seem like I'm chasing you away ... If I don't refine the firecloud pill so quickly, I'm sure you'll have to stay for a few more days. "

Mu Sheng laughed and said, "little brother Xia, you're joking." In fact, regardless of whether we obtain the firecloud pills today, the three of us will still be returning to the vast waves sect. The purpose of this trip is to escort the two of you back to the sect. As for the firecloud pills, I believe that little brother Xia will deliver them to the vast waves sect as soon as he's done refining them. It's just that this mu didn't expect that little brother Xia would actually be able to refine the firecloud pill so quickly. That's the best of both worlds, but without this excuse, I wonder when I'll be able to invite little brother Xia, this esteemed guest, to our vast waves sect as a guest. "

Xia ruofei smiled and said, "sect leader mu, I'm not an honored guest. At most, I'm an evil guest. I'm going to the Cang lang sect. Not only do I want to eat and drink your food, but I might even take some with me when I leave!"

Mu Sheng couldn't help but laugh and said, ""You're welcome! Don't worry, little brother Xia, I still have some assets, and the surging waves sect won't be poor!"

...

"If brother Xia comes to visit, I'll definitely welcome you!" Mu Jianfei also smiled and said, "I will use our surging waves sect's specialty, Cloud Mist wine, to entertain brother Xia!"

"Then it's a deal!" Xia ruofei said happily, "I won't leave until I'm drunk!"

"We won't leave until we're drunk!" Mu Jianfei said.

Mu Sheng said, "little brother Xia, it's a deal. Don't break your promise!"

"After I'm done with my Affairs, I'll definitely find time to visit sect leader mu!" Xia ruofei said.

"Alright!" Mu Sheng said happily, "then the three of us will take our leave!"

Xia ruofei and Luo Qingfeng sent Mu Sheng and the other two off at the mountain Gate. They watched as they left the star Seizer sect on their flying swords before turning around and walking back.

Xia ruofei said directly to Luo Qingfeng, ""Qingfeng, prepare a quiet room for me. I want to go into seclusion immediately! You will personally protect him, and unrelated people are not allowed to approach!"

Chapter 3010 The wonderful mineral space.

In fact, Xia ruofei's most urgent task was not to crack the nested space in the storage ring, but to study the mysterious ore.

After all, the ore could cause the spirit map space to shake. To Xia ruofei, anything related to the spirit map space was definitely his top priority.

From this point of view, Xia ruofei was actually very happy that Mu Sheng and the others had left in time.

After all, they were outsiders and Mu Sheng and mu Hua were both golden core stage experts. With them staying in the star Seizer sect, Xia ruofei would definitely not be able to use the spirit map space easily.

Now that Mu Sheng and the others had left, Luo Qingfeng, as the sect leader, had absolute control over the star Seizer sect. Naturally, Xia ruofei did not need to worry too much.

Furthermore, zhaixing tower was a forbidden area of the zhaixing sect. Luo Qingfeng was the number one expert of the zhaixing sect, so there was no problem with the internal security. As for the outside world, although the star Seizer sect's defensive formation was ordinary, it was enough to buy them some time.

Upon hearing this, Luo Qingfeng quickly said, ""Yes! Master!"

The two of them went straight to the tenth floor. Luo Qingfeng brought Xia ruofei into the quiet cultivation room that he usually used. Then, he sent out some of the disciples who worked in zhaixing tower. No one else was left in the entire building except for him and Xia ruofei.

Luo Qingfeng had also strictly ordered his disciples not to come within 50 meters of zhaixing tower. Anyone who violated this order would be killed without mercy.

In the past, Luo Qingfeng had often gone into seclusion and was usually strictly forbidden from getting close to him. Therefore, the disciples of the star Seizer sect did not find it strange and just followed his orders.

After everything was arranged, Luo Qingfeng came to the quiet room and said respectfully to Xia ruofei, ""Master, everything has been arranged. This old servant is personally guarding the door, and all unrelated people have been driven out. Unless they have eaten a bear's heart and a leopard's courage, no one will dare to approach!"

Xia ruofei nodded in satisfaction and said, ""You can leave first! Remember, no matter what happens later, don't come in unless I call you!"

Luo Qingfeng was slightly stunned and thought to himself, "Could it be that master was about to break through again? It can't be that fast, right? To break through a level in ten days to half a month, that was simply against the rules of cultivation. No matter how talented he was, it was impossible to do it!

Luo Qingfeng quickly determined that Xia ruofei had other matters to attend to. When he thought of this, he could not help but look worried. He asked, ""Master, there won't be any danger, right?"

"There shouldn't be any danger. Don't worry!" Xia ruofei laughed.

In the past, the spirit map space's upgrades had all been done within the space. Xia ruofei was also preparing for the worst. After all, this mysterious ore was not a world stone. It was unknown what it would bring to the spirit map space.

Hearing this, Luo Qingfeng was slightly relieved and said, ""Yes! Master, this old servant will go out first ... If there's anything, master must call me in time!"

“Don’t worry!” Xia ruofei gave Luo Qingfeng an encouraging smile.

Luo Qingfeng bowed slightly and then left the quiet room.

After Xia ruofei locked the door, he kept throwing out all kinds of talismans and set up layers of protection and isolation barriers in the room.

Then, he walked into the barrier and sat down on the futon.

Xia ruofei flipped his hand and took out the mysterious ore from the spirit map space.

He had kept the ore in the spirit map space but had wrapped it up tightly with spatial energy. Even the spirit map itself had been isolated. Otherwise, Xia ruofei would not have been able to withstand the constant shaking of the spirit map.

When the ore was taken out and the layer of isolation disappeared, the spirit map space immediately trembled. Xia ruofei seemed to be able to feel its joy. It was similar to when the world stone or even earlier ordinary Jade appeared.

But it seemed to be more intense.

Xia ruofei was not in a hurry to try anything. After all, the spirit map space was undoubtedly the most important Foundation for him. Of course, he could not allow any accidents to happen to the spirit map space.

Xia ruofei allowed the spirit map scroll that he had kept in his palm to shake continuously. He held the mysterious ore in his hand and carefully observed it.

This ore looked really unremarkable, with its bumpy and black surface. Xia ruofei weighed the ore in his hand and felt that the weight was not too ridiculous. It seemed to be heavier than normal stones, but it was still within the normal range.

Xia ruofei tried to use his spiritual power to explore the inside of the ore.

Very quickly, he discovered something unusual. Naturally, he couldn’t find anything with his psyche either. Otherwise, there was no way that Chen Xuan and the experts from the first heaven society wouldn’t have noticed something. However, Xia ruofei’s acute spatial sensing ability still helped him find something unusual.

He had encountered many objects that his spiritual power couldn’t penetrate, but the feeling this time was completely different.

Generally speaking, some treasures in the cultivation world that could not be penetrated by mental power would usually have a layer of shield on the outside. When mental power encountered an obstacle, it could not penetrate the inside.

However, when Xia ruofei examined the mysterious ore, the situation was slightly different.

Other objects that his power of the will couldn’t penetrate were protected by a hard outer shell, but this ore was covered in thick cotton. Or more precisely, it was wrapped in an atmosphere.

Xia ruofei’s spiritual power felt like it was sinking into the sea and he would soon lose contact with it.

In other words, this ore could actually absorb spiritual energy!

Of course, the reason why Xia ruofei was able to notice the abnormality that even the experts of the first heaven society could not notice was also because of the spiritual power he had obtained from cultivating the great Dao technique.

Xia ruofei had long realized that his mental strength was much stronger than cultivators of the same level. Even cultivators of the same level could not compare to him in terms of the purity of mental strength.

Although the trace of spiritual energy that was released was quickly absorbed, Xia ruofei still received an unusual message in a flash.

He felt as if his spiritual power had entered a wondrous space, or rather, it was a special space formed by overlapping spaces.

Xia ruofei was sure that Chen Xuan and the other experts of the first heaven society did not have similar discoveries. Or perhaps they did not have enough talent in space. Even if they did find something, they would not be able to detect it. Instead, they did not dare to try again because their spiritual energy had been devoured.

Xia ruofei was able to discover this interesting situation with his sharp senses. Other than his sensitivity to the rules of space, he also benefited from the concept of space nested that Bai Qingqing had told him about. The interior of the ore was actually similar to the structure of space nested, but it was much more complicated than what Bai Qingqing had described.

Xia ruofei continuously released his spiritual power to probe the “atmosphere” inside the ore and got more detailed information.

The internal space was truly incomparably complicated. Basically, thousands of spaces interweaved, nested, and stacked with each other, forming an extremely complicated relative relationship.

There were so many spaces and Xia ruofei could not study them one by one. Moreover, every time he used his spiritual power to explore, it would only last for one – tenth of a second before it was devoured. In such a short period of time, the information he could obtain was very limited.

Xia ruofei’s spiritual power was very strong. He didn’t mind losing a little bit of spiritual power as he could recover it quickly.

Therefore, he was also happy to continuously release wisps of mental power, which he explored into the ore.

Of course, he didn’t expect to be able to study all of those spaces. With his understanding of space, it was impossible. If it was the realm Fox Bai Qingqing, there might be hope.

However, after a period of investigation, Xia ruofei had made a discovery.

First of all, the many spaces inside seemed to have their own independent rules.

Secondly, these spaces that operated according to different rules were nested together, and the rules also affected each other, forming more complex secondary and tertiary rules.

In addition, he also discovered that the relationships between these spaces were not static. In other words, these spaces seemed to be in a state of motion.

This meant that after the inter – spatial relationships changed, new rules would be produced.

In terms of the number of internal spaces, the changes were simply endless.

...

Xia ruofei studied it for a while and was even a little reluctant to use it. He had a feeling that if he gave it to the spirit map scroll, it would most likely be absorbed.

However, this ore actually had such a wonderful spatial structure inside. If it was directly absorbed, wouldn't it be a waste of God's gift?

Xia ruofei studied it for a while. It was as if he had just gotten a fun toy and he couldn't bear to let go.

Furthermore, Xia ruofei realized that his understanding of the laws of space had improved in a short period of time.

Xia ruofei did not expect to gain something from studying the complicated and exquisite interior of the ore.

In this way, he was even more reluctant to give the ore directly to the spirit map to devour the Tao Wu. Of course, he didn't know whether the spirit map would devour the ore, but the possibility was higher.

Xia ruofei felt that he was not in a hurry anyway. He might as well study the internal spatial structure of the ore for a while. At least, he had to extract all its value before handing it over to the spirit map space to work with!

As for his mental energy, if he used it up, he could cultivate the great Dao Arts. It would recover quite quickly.

After making up his mind, Xia ruofei decided to go inside the spirit map space to visit Tao Wu. He could set up a time flow that was at most 2000 times faster than normal. Besides, the spiritual Qi was extremely rich, and it would be more convenient for him to cultivate and recover his spiritual power.

With this in mind, Xia ruofei directly summoned the spirit map scroll from his palm and carefully hid it in a corner within the boundary of the quiet room. Then, with a thought, he disappeared from the quiet room along with the ore. The next moment, he appeared in the spirit map space of the primal realm.

...
