

God tier Farm 301

Chapter 301: The concubine's smile (1)

Xia ruofei first drove to the warehouse that he had rented. The barbed wire fence with metal curtains that he ordered from the factory last time was already ready. When Xia ruofei returned, he had informed the factory to send the goods to the warehouse. This was to build a living area for the Hornet. The iron cage was too narrow now, so it could only be used temporarily. Not long after Xia ruofei arrived at the warehouse, the goods from the factory arrived. It took the three workers a while to unload the whole truck. Xia ruofei checked the number according to the order and paid the rest in cash. After the workers left, Xia ruofei locked the warehouse door and kept all the barbed wire fences in his interspace. Xia ruofei was very careful when he was collecting them. He controlled the barbed wire fence and stacked it neatly on the open land in the new space to avoid hurting xiaohei and the others. After keeping it, Xia ruofei did not have the time to enter the medium to build a fence. The time flow in the new space was the same as the outside world. He would need a lot of time to build a fence. He could only wait until night time. After he left the warehouse, he drove to the seed company. According to the dozens of seeds he bought last time, he bought 20 kilograms of each. The 200 to 300 kilograms of seeds were all loaded into the back of the pickup truck. These seeds should be enough to last for a long time. Xia ruofei returned to the warehouse and drove the pickup truck there. Then, he stored the seeds in the medium. As for the work of soaking the seeds, he could only wait until he got home. Then, Xia ruofei drove to the Anhua District on the outskirts of the city. Xia ruofei was familiar with this area because Liang Qichao 's' succulent food stall 'was also located in this area. There were many nursery bases in this area. Xia ruofei's trip this time was to settle the matter of fruit tree seedlings. To be more precise, he wanted to buy the lychee sapling. After careful consideration, Xia ruofei decided to plant two types of fruit trees, lychee and cherry, in the 15 mu of land behind the mountain. There were more lychee trees in the southeast province, and there were many high – Quality varieties. They could be bought directly from the local area. As for the cherry trees, Xia ruofei wanted to plant the large, SD – Type cherries. This type of cherry tree was not suitable to be planted in the southeast province, so the corresponding saplings could not be bought under normal circumstances. However, e – commerce was very convenient now. You could contact the SD seller directly on the internet. As long as you were willing to pay, you could naturally buy it. Xia ruofei had come here to buy the lychee sapling. He drove around a few times and finally chose a nursery base called "verdant fields". The nursery base looked pretty good in scale. From the outside, the rows of Nursery Gardens were well – arranged and looked very refreshing. This gave Xia ruofei a good first impression. Xia ruofei drove to the entrance and told the old man that he was here to buy saplings. The old man picked up the phone and informed the people inside. Soon, a young man in his late twenties walked out quickly. The young man was wearing a brown casual suit and had a crew cut. He looked very energetic. "Boss, thank you for choosing our wild seedling base!" The young man said very enthusiastically, "my name is Lu Bo, the boss of this seedling base! May I know your name, boss?" "Hello, boss Lu, my surname is Xia." Xia ruofei said with a smile. "Boss Xia, it's a pleasure to meet you!" Lu Bo handed him a business card and asked, "what kind of sapling do you want to buy, Mr. Xia?" "Do you have lychee seedlings, boss Lu?" Xia ruofei asked directly. "Of course! The sapling base in the southeast province rarely doesn't have lychee seedlings!" Lu Bo smiled and said, "boss Xia, please come in!" We'll talk while we watch!" "Alright, boss Lu, get in my car!" Xia ruofei said, "I can't just block your door with my car!" Lu Bo laughed and got into Xia ruofei's car. Under Lu Bo's guidance, Xia ruofei drove to a small building and stopped. "Boss Xia, come in and have a cup of tea!" Lu Bo said after

getting off the car. "There's no need for tea," Xia ruofei said with a smile. "Boss Lu, just take me to see the saplings!" "That works too!" "This way, boss Xia," Lu Bo said readily. Lu Bo brought Xia ruofei to the nursery that was specially used to cultivate lychee seedlings and introduced, "Boss Xia, we have several varieties of lychee seedlings here. Which one do you need?" "Boss Lu, please recommend one! I want something of good quality." Xia ruofei said with a smile. "Then let's come over here!" Lu Bo said after some thought. Lu Bo led Xia ruofei to a nursery not far away. He pointed at the lychee seedlings and said, "Boss Xia, this is the feizixiao variety that we introduced from Guangdong this year. Compared with the local variety in southeast China, this variety of lychees has big fruits, thick meat, beautiful color, small pits, sweet taste, and other characteristics. Its quality and taste are excellent, and it is one of the high – Quality breeds of lychees that mature early in the middle of the Guangdong Province." "Riding on red dust, the concubine laughs. No one knows it's lychee!" Xia ruofei smiled and said, "that's a good name!" "You're a gentleman, boss Xia!" Lu Bo laughed and said. This species of lychees got its name from this ancient poem! It's also a very famous breed in Guangdong Province. "In fact, Xia ruofei had searched for relevant information on the internet and knew that the breed of feizixiao was very good. However, it was mainly grown in Guangdong Province and was relatively rare in the southeast province, so he had not considered it at the beginning. Since Fei Zixiao's lychee seedlings were for sale at Lu Bo's seedling base, Xia ruofei quickly decided to use it! Hence, he said, "boss Lu, I'll take this one!" My Orchard isn't big, and the area for planting lychees is about 8 mu. It's mountainous, so can you help me calculate how many I need?" Lu Bo said without hesitation, "in general, the distance between the trees in the mountain is 6x5 meters, and 30 plants per mu is more suitable. If Mr. Xia's land is eight mu, 240 plants will be enough." Of course, if you want dense planting, you can plant up to sixty to seventy per mu!" Xia ruofei said, "if you don't need dense planting, then let's set it as 30 per mu!" Boss Lu, I'll buy 260 of them and keep the remaining 20 for my own use. " "That's indeed enough!" Lu Bo nodded. Then, he took the initiative to say, "boss Xia, we sell the feizixiao lychee seedlings at 20 yuan each. I see that you are a forthright person. I'll give you the real price!" How about 18 Yuan each?" "Alright!" Xia ruofei said readily, "boss Lu, please prepare the saplings for me now!" I want to ship it back today. " Lu Bo was stunned and asked in surprise, "You're shipping it back today? Boss Xia, although we don't have strict requirements on the planting time of lychees, the weather is still quite cold now. If you plant them now, the survival rate will be lower. I suggest you wait for about half a month and wait for the weather to get warmer before you plant them!" "Mr. Xia, even if we can provide the saplings in half a month, our price will not change!" Lu Bo quickly added. It's the same as having these saplings in our seedling base for half a month. You don't need to pay a single cent!" Xia ruofei smiled and said, "Boss Lu, thank you for your kindness, but I still have to bring the saplings back today. As for the survival rate, you don't have to worry about it, boss Lu. Even if these saplings don't grow well, I won't come to you for trouble!" "This ..." Lu Bo felt somewhat helpless. He had always been very particular about his business and was very considerate of his customers. If it had been an ordinary boss, he might not have even mentioned it and would have just followed whatever the customer said. However, he had already tried to persuade Xia ruofei. He had no choice if Xia ruofei did not listen to him. "Alright then! Boss Xia, I'll get the workers to prepare the saplings. " Lu Bo said helplessly, "I'll ask them to choose the thicker saplings! Sigh ... I hope the survival rate is relatively high. " "Thank you, boss Lu!" Xia ruofei said with a smile. "By the way, boss Lu, can you help me deliver the goods?" Xia ruofei asked again. "Boss Xia," Lu Bo said with some difficulty, "we're running a small business. Besides, there's no special Delivery vehicle at the Miaomiao base, so we don't provide delivery services." However, there's a small truck nearby that's waiting for work. I can help you contact it, and the price won't be very high. " "Alright then!" Xia ruofei said, "then

please help me call a taxi!" A trip from the city to Changping would cost at most a few hundred Yuan. Xia ruofei didn't want to haggle over this issue. "Alright!" Lu Bo called some workers over to prepare the saplings. He even specifically asked the workers to pick the thicker saplings. Then, he called Xia ruofei to call a car. Xia ruofei walked to the side, picked up a small bucket, and filled it with water from the tap. Then, he used his body to block the view of Lu Bo and the others. Then, a small bottle appeared in his palm. Xia ruofei quickly poured the flower petal solution into the bucket and kept the bottle back in the medium. He carried the bucket and walked towards the lychee saplings that the workers had dug up.

Chapter 302: Peach blossom Orchard_1

Xia ruofei carried the bucket and started to water the saplings that the workers had dug out. He especially sprinkled more water on the roots. Lu Bo, who was watching from the side, also shook his head secretly. What he was worried about before was not that the seedlings would wither, but that the temperature was too low. It would not be easy to grow them in this season. Hence, Lu Bo felt that Xia ruofei's actions were amateurish and that it was a futile attempt. However, since Xia ruofei was so insistent, he naturally did not say anything more. Instead, he walked to the side to help Xia ruofei contact a truck. Soon, the workers had prepared 260 saplings, and a white van that Lu Bo had called over also arrived at the nursery. Xia ruofei and the chauffeur had agreed on the transportation fee, which was 500 yuan. Lu Bo asked the workers to start loading the cars while Xia ruofei took out cash from his bag to pay for the saplings. The 260 saplings came to a total of 4680 Yuan. Lu Bo took the initiative to round it down and took 4600 Yuan from Xia ruofei. After loading the truck, Xia ruofei drove in front to lead the way while the truck driver followed behind. Along the way, Xia ruofei controlled the speed of the car. The pickup truck and the small truck entered Taoyuan farm one after another. When they passed the vegetable greenhouse, Xia ruofei stopped the car and shouted. Cao tieshu and the rest walked out of the shed quickly. Seeing Xia ruofei with a small truck, Cao tieshu couldn't help but ask, "Yo! Sir, what did you buy this time?" "A lychee sapling!" Xia ruofei chuckled and said, "old Cao, gather everyone and bring the tools to the orchard at the back of the mountain. We'll plant the fruit trees today. Thank you for your hard work!" Hearing this, Cao tieshu turned pale with fright and said, "Boss, it's too cold now. It's not easy to grow lychee trees!" After he finished speaking, Cao tieshu couldn't help but say in annoyance, "Aiya! It's all my fault for not making things clear yesterday! Boss, I only asked you to set the tree seedlings yesterday. You can only plant the trees in the beginning of spring! This is really a waste of money ..." Xia ruofei said in a relaxed manner, "it's okay, old Cao. This is a high – tech sapling that I've specially contacted. It has strong resistance to the cold. It will definitely survive!" "High – tech sapling!" Cao tieshu's eyes lit up. Right now, the word "high – tech" had already become a synonym for magic in Cao tieshu's mind. "High – tech vegetable seeds" had already completely conquered Cao tieshu. Hence, he believed Xia ruofei's words without a doubt. He immediately turned around and said, "Guys! Stop what you're doing and let's go to the orchard at the back of the mountain to plant trees! Boss, bring the saplings back with you and your tools!" The workers took out their tools, such as shovels, pickaxes, and hoes. Xia ruofei asked them to place the tools on the back of the pickup truck. Some of the workers got into pickup trucks, while others got into small trucks. It wasn't far anyway, so they just had to squeeze in. When he was building the farm, Xia ruofei had considered the future development problems. Hence, the roads in the farm were accessible in all directions. A cement road could lead directly to the orchard in the back of the mountain. The two cars drove directly to the hillside. As soon as Cao tieshu got off the car, he began to call the workers to unload the cars. With more than a dozen people working together, it didn't take long for them to unload

all the fruit tree seedlings. After Xia ruofei paid the transportation fee, he sent the small truck away. Cao tieshu had already started to assign tasks. Xia ruofei walked over to Cao tieshu and said, "Old Cao, plant lychee trees on the east side of the hill." Cao tieshu made a rough estimation and said, "Boss, are these saplings not enough? This hillside was at least 8 mu! You only have around 200 saplings!" Xia ruofei smiled. "According to the standard planting pattern of 6 by 5 meters, there should be enough. There should be some surplus." "It's so wide! Wouldn't that be a waste of land?" Cao tieshu said hesitantly. Xia ruofei laughed and said, "It's fine!" These are high – tech saplings, and we're taking the high – end route. Moreover, these saplings will definitely grow bigger than the average lychee tree, so we won't feel sparse anymore!" Cao tieshu thought about it and felt that it made sense. In any case, the boss would definitely know more than him. Before the vegetable greenhouse officially started to produce vegetables, the vegetables that Xia ruofei provided to the two restaurants every day were not something that Cao tieshu, a farmer who had grown vegetables for most of his life, could grow. Therefore, Cao tieshu naturally would not question Xia ruofei's decision. He immediately called the workers to start working. Xia ruofei couldn't help much with planting the trees. It was almost noon and he couldn't finish it before lunch, so he called pang Hao to order some food and wine from the county and have them delivered to the orchard at the back of the mountain. Then, Xia ruofei walked to the tree saplings. Without Cao tieshu and the others noticing, he secretly took two lychee tree saplings into the origin space. He wanted to plant one or two more in the origin space so that he could have lychees to eat at any time. Xia ruofei watched for a while and decided that he could not help much, so he decided to walk up the mountain. He came to the water tower and looked around to make sure no one was around. Then, he took out a porcelain bottle containing the petal solution from his space. The concentration of the petal solution in the bottle was quite high, containing almost one – third of the composition of a strange flower petal. Xia ruofei poured all the solution from the porcelain bottle into the water tower. The orchard had also been pre – buried with an irrigation system, and the water used was also from the water tower on the mountaintop. After all the fruit trees were planted, they would have to water them. Xia ruofei believed that with this bottle of petal solution, all the lychee trees would survive. He put the porcelain bottle back into the medium and strolled down the mountain. It was almost lunchtime when the workers had planted half of the saplings. Pang Hao sent the food he ordered from the county restaurant up the mountain, and everyone sat on the ground to have a simple lunch. Xia ruofei also had lunch with the workers. After eating, they rested for a while. Cao tieshu was worried that the saplings would not be good if they were dug out for too long. After a while, he stood up and asked everyone to continue working. Xia ruofei greeted Cao tieshu and drove down the mountain in his pickup truck. Back at the villa, Xia ruofei gave ye Lingyun and pang Hao some instructions. He told them to prioritize Cao tieshu's safety if he needed anything. Then, Xia ruofei went upstairs to his room. After Xia ruofei locked the door and windows, he entered the spirit map space. He first took out a portion of the seeds that he had bought today according to Cao tieshu's demands. Then, he divided them into different categories and stuck their labels on the sorting boxes. He poured in the diluted flower petal solution and began to soak them. After soaking all the seeds, Xia ruofei thought that he would be able to harvest the petals of the exotic flower again today. He walked towards the nameless plant.

Chapter 303: Hornet's new home (1)

When Xia ruofei got close to the nameless plant, he couldn't help but narrow his eyes. Then, he revealed a look of joy. He saw that the spiritual fruit seemed to have fully matured. Xia ruofei took quick steps and jogged to the nameless plant to take a closer look. Finally, he confirmed that the spiritual fruit had

really ripened! With the previous two experiences, Xia ruofei was very clear that once a spiritual fruit ripened, it would emit a fragrance that was far more fragrant than before. There was also a detail – there would be a light green Mark around the fruit stem. These characteristics were all in line, which meant that the spiritual fruit was indeed ripe! Xia ruofei happily took the container that contained the spiritual fruit and carefully picked the spiritual fruit as well. He placed it in the container. Xia ruofei couldn't help but sigh. The maturity cycle of spiritual fruits was too long. He roughly calculated that it had been almost three months since the last time he picked them. One had to know that three months in the outside world was equivalent to seven to eight years in the space. Even if the time flow in the original space was not so fast, at least five to six years had passed. A fruit that only ripened once every five to six years should be very precious! Xia ruofei thought to himself. In the entire spirit map space, the thing that amazed Xia ruofei the most was the wordless stone tablet in the new space, followed by the nameless plant. The petals of the strange flowers from the nameless plant had helped Xia ruofei in his cultivation, cultivation, and even as a doctor. As for the spiritual fruit, which was obviously more precious than the petals, Xia ruofei was full of anticipation. What made Xia ruofei feel even more amazed was that time passed so quickly in the original space. It could be said that no matter what was planted, it would grow rapidly! Staying in the outside world for a day before coming in would be completely different. However, this nameless plant did not seem to have changed much. It might have grown a little, but it was so small that Xia ruofei could not feel it. Xia ruofei resisted the urge to try a spiritual fruit and put the container back. Then, he took another container with the petals of the wondrous flower and skillfully plucked the five newly grown petals. Although he had been using the petals of the strange flower in many places recently, Xia ruofei had stopped absorbing the petals after he started practicing the strange posture demonstrated by the little golden man. This was because he felt that his body was becoming saturated as he continued to absorb the petals of the strange flower. The effect of absorbing the petals was becoming less and less obvious. In addition, after he practiced the posture demonstrated by the little golden man in the stone tablet, the strengthening and transformation effect on his body was even better. Under such circumstances, there was no need to waste any more petals. Hence, in the past few days, Xia ruofei had accumulated 28 petals. These strange flower petals were the foundation of Xia ruofei's life. Looking at the petals in the safe box, Xia ruofei felt much more at ease. After picking the petals, he went to the new space. Xia ruofei first gave Blackie and the rest some food. Then, he drove the all – terrain vehicle to an open area with the two lychee saplings. He planted the saplings and watered them with some diluted flower petal solution. Naturally, Xia ruofei had used his mind to connect with the space and obtained the petal solution from the original space. Now, it could be said that his control of space was becoming more and more comfortable. The next step was the most tedious work. Xia ruofei had to rely on his own strength to build a home for the Hornets that was isolated from the other creatures in the space so that they could rest and recuperate. The barbed wire fences ordered from the processing plant were neatly stacked near the hornet's nest. Xia ruofei rolled up his sleeves and started to work after he set the table. He decided to directly surround the hornet's nest and the small iron cage. The first thing he had to do was to install the bottommost layer, which was a full circle of wire fence. These bottom fences were different in design from other fences. Each fence had a long steel stake sticking out from the bottom, which could be deeply inserted into the soil of the space. In addition, the bottom of the fence was welded with a triangular base, which ensured that the fence was firmly established on the ground. Fortunately, they were inside the space. Xia ruofei could use the invisible force of the space to assist his work. With a thought, an entire piece of barbed wire fence flew over. Xia ruofei reached out and grabbed the fence. Then, he aimed at the

boundary that he had just drawn on the ground and slammed it down with force. Then, he used the iron hammer to hit it. The soil in the space was soft to begin with, and Xia ruofei could control it with his mind. Soon, the barbed wire fence was fixed on the ground. Xia ruofei shook it slightly and felt that it was still very firm. He bent down to check carefully. The place where the fence was in contact with the ground was also tightly sealed. Xia ruofei was very satisfied. He waved his hand and used the invisible power of space to “move” the second barbed wire fence. The joint between two barbed wire fences was specially designed. A part of the barbed wire on one side would grow out to form a structure similar to a latch. Therefore, the barbed wire fence was first wrapped around the first barbed wire from the top, and then slowly lowered. After placing it in place, he slightly adjusted its position and smashed several steel rods into the soil with an iron hammer. Then, the part of the wire mesh that grew out was tightly locked with the first fence through buckles. The two fences were completely connected together. Xia ruofei’s movements were getting more and more skilled. Soon, he had formed a wire fence around the hornet’s nest. The range was about 30 meters by 30 meters, which was relatively wide. The next thing Xia ruofei had to do was to increase the size of the fence and lay some steel bars on the top. Finally, he had to install metal gauze on the top to create a fully enclosed space. Xia ruofei had designed it to be ten meters tall. It would be dangerous to operate it in the outside world, but it was completely non – existent in space. In theory, Xia ruofei could even float in the air, provided that he was willing to consume his mental strength to use the invisible spatial force to lift himself up. Hence, even if there was a small accident during the installation process, Xia ruofei would not be injured. The installation work lasted for more than four hours, and this was with the help of the invisible spatial force. Otherwise, just the wire mesh hanging from the ground to a height of ten meters was enough to give Xia ruofei a headache. After everything was installed, Xia ruofei checked it again carefully. He even reinforced the gaps with metal curtains to ensure that the hornet’s nest would not escape. Xia ruofei had left two doors on the enclosed fence. One was a cover at the top. He could move the cover with a thought. This was to ensure that if he needed to use the Hornet in the outside world, he could easily operate it and let the Hornet in and out through the hole. The other door was on the lowest fence, which was convenient for him to enter and exit. After completing this complicated project, Xia ruofei did not rush to let the Hornets out. Instead, he opened the door on the fence and went in. Then, he opened a bag. Inside were the grasshoppers and other small insects that he had bought in advance, all alive. This area was originally covered with grass, and after these insects came out, they quickly hid in the grass. Xia ruofei had basically built a small ecosystem here to ensure that the insects would be able to reproduce quickly in this unique environment. Of course, their fate was to become food for the hornet’s bees. After releasing the big bag of insects, Xia ruofei then connected to the space and used an invisible force to bind the hornet’s nest and restrict the hornet’s movements. Then, he used a part of his mind to control the small iron cage that covered the hornet’s nest. He opened it and moved it outside the enclosed fence. In the end, Xia ruofei left the fence and carefully locked the door. Then, he removed the restraint on hornet’s nest. Through the wire mesh screen, Xia ruofei saw many Hornets immediately fly out of the hive. They had been flying around in the enclosed space and had been comfortably trapped in the small iron cage for a while. Now that they had regained their freedom, they were naturally very happy. Xia ruofei also realized that these Hornets were much bigger than when they were first captured. Each of them was at least six to seven centimeters long and looked very scary. However, the more powerful the Hornet was, the happier Xia ruofei would be. These Hornet might become a surprise force in his hands in the future! Xia ruofei observed the barbed wire fence for a while. After making sure that there were no holes in the fence, he told Blackie and the rest to stay away from the fence. Then, he returned to the

original space. According to the difference in the flow of time, a few days should have passed in the original space. The seeds soaked in the petal solution could be picked up by now.

Chapter 304: Old master Tang returns to the country (1)

Xia ruofei returned to the original space and fished out the vegetable seeds from the petal solution. He separated them and poured them on different plastic sheets to dry. Then, he left the spirit map space with a thought. It was almost Five O' clock in the evening when he arrived outside. Xia ruofei flew to the bathroom to wash off her stinky sweat, changed into clean clothes, and went downstairs. He drove the pickup truck around the orchard. Cao tieshu and the rest had already planted the fruit trees. Xia ruofei looked at the sparse rows of lychee trees. He could almost see the scene of the next summer when the rows of lush lychee trees would be covered with red lychees. After he got out of the car, he walked around the orchard and saw that the leaves of the lychee sapling were dripping with water. He knew that Cao tieshu must have followed his instructions and turned on the irrigation system after planting the tree to water the lychee sapling. Xia ruofei was also relieved and drove back to the villa. Ye Lingyun had already prepared dinner. Seeing that Xia ruofei had returned, he quickly called for him to eat. Seeing ye Lingyun in an apron, Xia ruofei thought that it was not good to keep asking ye Lingyun to be a chef. It was better to hire a nanny. Otherwise, not only would ye Lingyun have to prepare three meals a day, but he would also have to consciously and diligently clean the villa. One must know that the villa was not small, and it was quite tiring to clean it once. Moreover, he had invited ye Lingyun over to be in charge of security, not to take care of his daily needs. However, Xia ruofei was not used to living with other people. Besides, he had a secret that he could not let anyone know about his spirit map. He thought that it would be better to wait for a while and hire a nanny after the staff apartment was built. Anyway, the villa was not far from the employees 'apartment. It would be convenient for the nanny to come over to clean and cook when the time came. The two of them sat facing each other. Xia ruofei asked as he ate, "Ling Yun, how's the progress regarding the matter of me asking you to look for a few security personnel?" "Brother Xia, there's not much work to do now. I can handle it on my own." Ye linyun said. Xia ruofei put down his bowl and said seriously, "Ling Yun, this isn't a matter of being busy. The company is currently developing very quickly, and the security Department can't just be a bare – handed commander forever. Sooner or later, we'll have to recruit more people. We should start training the core members now. In the future, other than you, there should be some capable middle – Level backbones in the security Department, so it's necessary to recruit a few trustworthy and capable people. It's best if they're retired soldiers!" Hearing Xia ruofei's words, ye Lingyun said in embarrassment, "I know, brother Xia. After you told me last time, I contacted a few of my comrades, but I thought I could handle this alone, so I didn't rush them ..." "Then you better hold on tight!" Xia ruofei said, "let's not delay this matter." "Yes!" Xia ruofei knew that ye Lingyun was trying to save money for him and did not mean to delay the dinner on purpose. Hence, he did not reprimand him and continued eating. After dinner, Xia ruofei went back to his room and turned on his computer to search for the Shandong cherry sapling. He was going to buy a batch of saplings online. In addition, he also had to look up some information and carefully consider what fish to raise in the fish pond on the farm. In principle, he still wanted to go for the high – Quality route, so he had to choose fish that were relatively difficult to raise and had a high market price. Just as Xia ruofei was searching for information on the internet, Liang Qichao and his family had arrived at the Shanghai Pudong International Airport. Today, the International flight that Liang Qichao's grandfather took would arrive at Shen Cheng International Airport. Liang Qichao's father, Liang Weimin, also took it very seriously. The whole family of three was there to receive

him. In fact, Liang Qichao's family was not the only one who had come to pick them up. There were more than a dozen relatives from his family, including Liang Qichao's uncle, Liang Weihua. His family of three was also at the airport. Among the group of people who were there to pick him up, Liang Weihua was the most satisfied one. He couldn't help but smile. He was the relative that Liang Qichao had told him about who had found a piece of Phoebe zhennan material for the old man. This time, the old man had decided to rush back to China after seeing the photo of the Phoebe zhennan material that Liang Weihua had sent. From this, it could be seen how much importance the old man placed on this material. If the old man was satisfied after seeing the real thing, Liang Weihua would undoubtedly gain a lot of points in his heart. The old man's name was Tang He. He was a cousin of Liang Weimin and Liang Weihua's grandmothers. Tang He's father was their grandmothers' cousin. Speaking of which, this family relationship was actually a little distant, but elder Tang didn't have any other relatives in his generation. Only Liang Weimin's family was more prosperous. In addition, although elder Tang had gone overseas, he had always supported his only relative in the country financially, so they were much closer than ordinary distant relatives. Elder Tang had worked hard in the United States for decades and built up a huge family business. He was also a little famous in the Chinese circle in North America. He even married three wives, but because of his health, he had no children. Now that his three wives were no longer alive, he was all alone. This made him value these relatives in the country even more. In other words, from a legal perspective, elder Tang's assets worth tens of billions of dollars would be inherited by his distant relatives in China after he passed away. Elder Tang didn't hide anything. He even publicly announced that he wouldn't learn from some rich people in the United States and donate their huge assets to charity organizations. The old man's exact words were, "why should I donate my hard – earned family business to those foreigners?" These relatives in the country were also well aware of this, so they all thought of ways to please the old man, because in the end, who could get the money and how much money could be divided was completely decided by the old man. If the old man could add his name in his will, it would definitely be a huge fortune that could guarantee a lifetime of prosperity. Moreover, when the old man returned to the country this time, he had specifically said that he wanted to see if there were any outstanding relatives and juniors in the country. He seemed to have the intention of bringing a junior of the family to the United States to train and slowly take over the company in the future. It should be known that the US dollars could be divided, the real estate could be divided, and the shares could be divided, but the company could not be divided. Although it could be entrusted to a professional manager to manage, if the child of any family could be valued by the old man and enter the company's management, it would undoubtedly have a huge advantage in the future. This was also one of the important reasons why Liang Weimin, Liang Weihua, and the others valued the old man's return trip so much. They also brought their children with them. Liang Weihua's son, Liang Xiaojun, graduated from a famous university and went to the United States to study. He obtained an MBA from his studies in business and Administration. During his time in the United States, Liang Xiaojun and elder Tang naturally came into contact frequently. Thus, he still had an advantage over elder Tang. Furthermore, Liang Weihua had gotten ahead of Liang Weimin this time and had found the material of Phoebe zhennan that the old man had been dreaming of for a long time. This made Liang Weihua even more smug. As the group of people waited at the airport, Liang Weihua had a victorious look on his face as he chatted with his relatives. Liang Xiaojun also smiled as he spoke to his relatives. It was as if he had already become elder Tang's choice to go to America. From time to time, Liang Xiaojun would look at Liang Qichao arrogantly, as if he was a winner. He obviously thought that he had a high chance of winning this time. In contrast, Liang Weimin's face was full of worry, and he frowned from time to time.

He felt like he was falling behind by one step. Especially when he saw his son Liang Qichao's nonchalant and heartless look, Liang Weimin was even more furious. However, in front of so many relatives, Liang Weimin, who cared about his reputation, couldn't scold his son. In the end, he could only sulk by himself. In reality, Liang Qichao was not completely unconcerned about these things. It was just that he had a big secret that even his father, Liang Weimin, did not tell him. Xia ruofei had helped him find a bigger and better quality piece of aged Phoebe zhennan material. He believed that with this piece of Phoebe zhennan, Liang Weihua's family's so – called advantage would be gone. Time passed by. Finally, the large dynamic screen of the airport showed that the International flight from New York to Shen Cheng had landed. At the same time, the broadcast of the International departure hall sounded.

Chapter 305: Our better (1)

The Liang family members who were waiting for them at the airport suddenly perked up. They clearly knew that it would take a long time from the time the plane landed to the time they exited customs, especially for international flights, which took even longer. However, they all walked to the yellow prohibition line and waited in unison. Especially Liang Weihua's family, who was stretching their necks to look into the restricted area, looking very eager. Liang Qichao looked on coldly from the side and couldn't help but find it funny. Elder Tang was still on the plane, so what could he see at this time? The group waited for more than 20 minutes before they finally saw the old man in a white Tang suit walking out of the restricted area. Behind him was an assistant pushing a luggage cart, and two other bodyguards with cold expressions on their faces were tightly protecting the old man on both sides. "Uncle!" Liang Weihua immediately shouted. After that, he took two steps forward, but was immediately stopped by the airport security. Elder Tang smiled and waved his hand at everyone. Very quickly, elder Tang arrived in front of everyone. "Uncle!" "Grandpa!" Everyone greeted elder Tang, and elder Tang also smiled and nodded to everyone. It was obvious that he was in a good mood after returning from his long journey. On top of that, he was about to be able to buy the rare Phoebe zhennan material that he had been searching for a long time. It was hard not to be in a good mood! "Grandpa!" Liang Xiaojun came forward and greeted him respectfully. A smile of approval appeared on elder Tang's face as he said, "Xiaojun! We haven't seen each other for two years since you returned to the country! Not bad, not bad. You still look as energetic as before!" "Grandpa, it's a great regret that I didn't get to be by your side and listen to your teachings after I returned to the country!" Liang Xiaojun said, "it's a good thing that you're back in the country now. You have to give me more guidance!" Liang Weihua also laughed and said, "uncle, thank you for taking care of Xiaojun while he was abroad for a few years!" He's changed a lot since he came back and is much more sensible than before. It's all thanks to your teaching!" "Hahaha! We're all family, so don't say such things. " Elder Tang said with a laugh. Liang Weimin watched from the side as Liang Weihua's family interacted with elder Tang warmly. Liang Xiaojun's performance was especially outstanding. In contrast, Liang Qichao was hiding at the side and didn't even take the initiative to greet elder Tang. Liang Weimin was even angrier, blaming his son for not being able to live up to expectations. Liang Weihua smiled and said, "uncle, you've had a long journey. Let's go eat first!" I've already booked the place! We'll rest in Shen Cheng city tonight. " "You're still staying overnight in Shen Cheng?" asked elder Tang. I think we should just fly to the three mountains! That piece of material ..." "Uncle, don't you worry about the material! I've already bought it, and there's someone watching over it 24 hours a day. There won't be a problem!" Liang Weihua smiled and said, "you just had a long flight. I'm afraid that you won't be able to take the night flight. We've even booked a hotel, so you can stay in Shen Cheng for the night!" "Alright then, I'll follow your

arrangements!" Elder Tang said with a smile. The group left the airport and took their respective buses to the Hengfeng Jiahua Hotel, which they had booked earlier. It was also the hotel where Xia ruofei had auctioned the White truffle. The MA family's Jiahua Hotel chain was one of the best hotels in Shen Cheng. Naturally, Liang Weihua had to choose the best one to receive old master Tang. After arriving at Hengfeng Jiahua, everyone went to the banquet hall to have dinner. Naturally, Liang Weihua's family was in the limelight during the meal. The other relatives almost all became foils, especially Liang Xiaojun. He was sweet – tongued and studied Business Administration. He was able to follow up on many of the topics that the old man talked about, and his performance was very eye – catching. On the other hand, Liang Qichao lowered his head and continued eating, which made Liang Weimin frown, and the meal became tasteless. After the banquet, Liang Weihua invited the old man back to his room to rest. Liang Weihua had taken charge of arranging old master Tang's accommodation this time. No one else could interfere. He had booked the best Presidential Suite in Hengfeng Jiahua. That's right, it was the house that Xia ruofei stayed in when he came to Shen Cheng city last time. The suite was huge and had many rooms. The two bodyguards naturally stayed in the same suite as the old man. The others were assigned to their rooms on other floors. Liang Weihua's family sent elder Tang upstairs to rest, but Liang Weimin didn't follow. He glared at Liang Qichao and said in a low voice, "Come with me!" Liang Qichao's mother, Yuan Shan, frowned and said, "Old Liang, why are you so fierce? Little Chao didn't do anything wrong, right?" "You're still speaking up for him!" Liang Weimin said angrily, "what did I tell you before I came? Ah? Let him show off in front of uncle and try to be chosen by uncle to go to the United States with him ..." "Dad! I don't want to go to United States!" "Isn't it good in China?" Liang Qichao asked. "You ..." Liang Weimin was so angry that he raised his hand, wanting to hit his son. Yuan Shan quickly pulled him back and said, "Old Liang! What are you doing! So many people are watching ..." Yuan Shan continued, "I think little Chao is right. You're doing well in China, why did you go to United States?" "I'm not familiar with this place ..." "You ... You ..." Liang Weimin was so angry that he couldn't even speak properly. "You really are a spoiled child! Little Chao doesn't strive for progress all day long, I think you've spoiled him!" "Why is it my business again?" Yuan Shan was not willing to back down. "You didn't have the ability to find the Phoebe zhennan and let Liang Weihua steal the limelight, so you're taking it out on us. Is that how you do things?" "What do you mean by venting my anger on you guys?" Liang Weimin said anxiously, "what's wrong with me disciplining my son? You're the one who's harming the child by spoiling her without any principles!" Liang Qichao saw that his parents were about to argue, so he quickly said, "Mom, dad, stop quarreling! His relatives hadn't even gone far! Don't let others see you as a joke ..." Liang Weimin coldly snorted and said, "you still care about your reputation?" Just now, Liang Xiaojun completely beat you. Why didn't you feel embarrassed? Also, how many times have I told you? I told you to put in more effort to find the old material of Phoebe zhennan, did you turn a deaf ear to my words again?" "I'm being wronged, dad!" Liang Qichao quickly said, "I've been trying my best to find some good material for the old jinsnan! And ..." Liang Qichao looked around warily, then lowered his voice and said, "And I already have some clues. If I didn't come to Shen Cheng in a hurry, I might have already gotten the gold Phoebe zhennan material! And from my friend's description, our Phoebe zhennan is even better than the one we found at Liang Xiaojun's house!" He saw that his father was about to go crazy, so he didn't dare to hide anything. He decided to tell his father about asking Xia ruofei to find a Phoebe zhennan material. Liang Weimin's eyes went wide when he heard that. He looked at Liang Qichao in disbelief.

Chapter 306: I can't believe_1

"Lil Chao, this is no joke!" Liang Weimin said sternly, "can you be sure of that?" "Let's go back to our room and talk," Liang Qichao said with a smile. There are too many people here ... "Yes, yes, yes, let's go back to the room!" Yuan Shan quickly said. Just now, when the family of three was quarreling, the other relatives were looking at them from afar! It would be bad if they heard him talking about the big news of the Phoebe zhennan. "Let's go!" Liang Weimin nodded and said. Back to the room!" The family of three took the elevator to the floor where their rooms were. As soon as they entered the house, Liang Weimin asked impatiently, "Lil Chao, what's going on? tell me clearly!" "Dad," Liang Qichao chuckled, "I was planning to give you a surprise tomorrow, but I think you can't hold it in anymore today. I'll tell you in advance!" Yuan Shan laughed and said, "you child, what's with the surprise?" Your dad's hair is turning white from all the worrying ... "Dad, actually, I've been asking my friends to help me look for the big and old materials of the Phoebe zhennan," Liang Qichao didn't beat around the bush and said, "a few days ago, my friend finally confirmed that the material has been found. The quality is much better than the one at Liang Xiaojun's house!" "Really?" Liang Weimin was a little skeptical. "The material that Weihua's family found is already very good. I went to take a look. That Phoebe zhennan has a diameter of one meter, and the proportion of the core is also very high. The core diameter is at least 90 centimeters! You can find a better one? Is it so easy to find the best material of golden Phoebe zhennan nowadays?" Liang Qichao said unhappily, "what do you mean by easy to find?" I spent a lot of effort, okay?" "Dad, mom," Liang Qichao continued, "my friend found this old Phoebe zhennan material. It's 1.25 meters in diameter, and the core is 1.1 meters in diameter. It's of very good quality too. Don't you think it's better than the one at Liang Xiaojun's house?" "What?" Liang Weimin was shocked. His first reaction wasn't surprise, but a deep suspicion. He frowned and said, "Little Chao, is this friend of yours reliable?" "Dad, what are you saying!" Liang Qichao said unhappily. "No... It's not impossible to find a 1.25 – meter – Diameter Phoebe zhennan material, but ..." Liang Weimin said, "are you sure your friend said that the core diameter was 1.1 meters? Did you hear it right? This was obviously impossible! How can the ratio of core material be so high?" "Just because you've never seen it before doesn't mean it's impossible!" Liang Qichao said unhappily, "my friend wouldn't lie to me!" Liang Weimin expressed his deep suspicion, and even Yuan Shan said with uncertainty, "Little Chao, this friend of yours ... Don't tell me you met him while you were out eating and drinking, right? Society is complicated now. You can't just do whatever others say!" Liang Qichao said, amused and annoyed, "Mom, dad, what are you thinking? Do you look down on your son that much? So the friends I make are all scoundrels? Then tell me, what do I get from him lying to me? Didn't they still have to see the goods in the end? Can we pay for the bad stuff?" "That's right, old Liang, our son has a point!" Yuan Shan immediately changed her stance. "It's not that simple!" Liang Weimin shook his head. What if Wei Hua had deliberately arranged this? It's a good thing little Chao didn't rush to tell uncle about this, otherwise if we can't get the Phoebe zhennan material, then uncle's impression of our family, especially little Chao, will definitely be extremely bad!" The more Liang Weimin thought about it, the more he felt that it made sense. "Little Chao! You can't tell anyone about this!" Liang Weimin said, "I think it's probably fake news!" Liang Qichao smiled bitterly and said, "dad, I really admire your imagination ... Let me put it this way!" It's impossible for RUO Fei to be someone arranged by uncle Wei Hua, and it's absolutely impossible for him to harm me!" Seeing Liang Weimin frown, Liang Qichao quickly said, "How about this! I'll call RUO Fei right now and ask him to take a few photos of the big stone and send them over. Is that okay?" "This is a good idea!" Yuan Shan's eyes lit up as she said. Liang Weimin's expression also eased a little, and he said, "That's fine. As long as this is true, we'll definitely thank him!" Liang Qichao shook his head helplessly. He took out his phone and called Xia ruofei. Xia ruofei was surfing the internet in his room.

When his phone rang, he saw that it was Liang Qichao calling and picked it up immediately. "Brother Liang!" Xia ruofei said with a smile. "RUO Fei, I hope I didn't disturb your rest!" Liang Qichao asked. "I didn't sleep so early!" Xia ruofei smiled. "Brother Liang, you should be in Shen Cheng city now, right? It's so late. What's the matter?" Liang Qichao said, a little embarrassed, "Ruofei, can you please take a few photos of that golden Phoebe zhennan and send them to me? After all, it's a serious matter, and my dad is a little worried ..." Xia ruofei replied, "no problem!" But ... The material isn't with me. It's so late now, I'll go shoot it tomorrow morning, okay?" "No problem, no problem!" Liang Qichao quickly said, "I'll have to trouble you then ..." "Hey, what's the trouble!" Xia ruofei said, "brother Liang, when is your cousin – grandfather coming over? I'll be able to prepare in advance. " "He should be back at the three mountains tomorrow!" Liang Qichao said, "I'm going to tell the old man after he's seen the material at my uncle's house. After all, he was the one who found it first! I'm guessing it'll be at least tomorrow noon or afternoon!" "Alright! Then I know what to do!" Xia ruofei said. Shen Cheng, Hengfeng Jiahua Hotel. After Liang Qichao hung up, Liang Weimin immediately asked, "How is it? Little Chao, what did your friend say?" "No problem!" Liang Qichao said casually, "he said he'll go take photos tomorrow morning." "Why is it tomorrow morning?" Liang Weimin asked, frowning. "Then why not?" Liang Qichao said, "it's already so late. Are you going to let him make a trip in the middle of the night? It's not like that piece of material is in his house!" "I see ..." Liang Weimin muttered, "that's fine too!" Then, Liang Weimin said in a very serious tone, "Little Chao, before you confirm this information, you absolutely can not mention the Golden Phoebe material, understand?" "I know, I know ..." Liang Qichao said impatiently, "I'll listen to you, okay?" Dad, mom, if there's nothing else, I'll go back to my room!" "Go!" Liang Weimin said, waving his hand. Liang Qichao's news made Liang Weimin destined to have another sleepless night ... The next morning, the Liang family gathered around the old master for breakfast. Liang Weimin pulled Liang Qichao to the side and asked quietly, "Little Chao, did your friend send the photo over?" Grinning, Liang Qichao took out his phone and showed the photo to Liang Weimin ...

Chapter 307: Really good material (1)

After Xia ruofei received Liang Qichao's call last night, he knew that Liang Qichao's father must have been feeling uneasy. Hence, he woke up early this morning and drove to the warehouse that he had rented in the city. He took out the Phoebe zhennan material from his storage space. Now that Xia ruofei's spiritual power and control of space were much stronger than before, it was not difficult for him to take out the Phoebe zhennan material. He took a few photos with the SLR camera, and two of them even had a ruler measuring the cross – section diameter, so they were very clear. Xia ruofei even placed the camera on the tripod and took a photo with the Phoebe zhennan material with the timed camera function. Then, he took out his laptop from his interspace and extracted the photos from the SD card. He saved them on his phone and sent them to Liang Qichao through WeChat. Of course, Xia ruofei did not wait in the warehouse after taking the photos. Instead, he put the Phoebe zhennan material back into the spirit map space, locked the warehouse, and left. He could use his free time today to visit the seafood market and think about what kind of fish was suitable for raising in the farm's fish pond. Shen Cheng, Hengfeng Jiahua Hotel. Liang Weimin took Liang Qichao's phone and started to look at the photos. He looked at his phone, and his eyes brightened. The joy on his face grew, especially those photos with a tape measure. He even zoomed in and looked at them carefully a few times. Liang Weimin pointed at his phone and asked, "Little Chao, is this your friend?" "Of course!" Liang Qichao smiled and said, "dad, you should be relieved now!" Liang Weimin laughed so hard that he couldn't close his mouth. He said, "Don't worry, don't worry ..." He said. These photos captured the Phoebe zhennan material

from various angles and even had the size. There was even a photo of Xia ruofei with the wood. This was enough to prove that Xia ruofei had indeed found the highest quality Phoebe zhennan wood. These photos could not have been found online. Liang Weimin continued to ask, "Lil Chao, why didn't you say so earlier?" "I've been worried for nothing!" "Hasn't it always been uncertain?" Liang Qichao said, "I'm afraid that if I tell you, my friend won't be able to settle the matter. Won't You Be more disappointed the more you wish for it?" "Does your dad look like he has such a bad mental fortitude?" Liang Weimin asked with a smile. "Yes!" Liang Qichao and Yuan Shan said in unison. "You guys ..." Liang Weimin laughed bitterly. He thought for a moment and said, "Lil Chao, you've done a great job this time!" "I'll reward you well when we get back! By the way, no matter what, you still have to do your best in front of uncle. If you can go to the United States follow uncle, it will be a great training and improvement for you, whether you can enter the company's management or not!" "I see ..." Liang Qichao said with a lack of interest. Liang Weimin shook his head helplessly. He knew that his son was lazy by nature and had no interest in doing business. This time, Liang Xiaojun was trying his best to show off in front of elder Tang He, but Liang Qichao was hiding in the crowd. Liang Weimin couldn't do anything about this. The family of three had been talking for a while, but they were already far behind the rest, so they quickly caught up. After having breakfast at the Jiahua hotel's restaurant, they checked out and headed to the airport. Three hours later, elder Tang and the Liang family's flight landed at the San Shan city Chang Ping International Airport. Liang Weihua had already arranged for a car to drive them out of the airport. They got into the car and headed straight to one of his warehouses in the city. The aged Phoebe zhennan material that Liang Weihua had spent so much time and effort to find was stored in that warehouse, and someone was on duty 24 hours a day. Liang Weihua's warehouse was located in the eastern suburbs of Sanshan city. It used to be a factory, but Liang Weihua rented it out after it closed down. It was usually used to store some of the company's goods. Four to five cars drove into the dilapidated yard outside the warehouse. A few workers immediately came up to him. Liang Weihua respectfully invited elder Tang out of the car and said, "Uncle, the wood is in the warehouse. This way, please!" Elder Tang smiled and nodded as he walked towards the warehouse with Liang Weihua. Liang Weihua's wife and Liang Xiaojun followed closely behind. The other relatives looked on with envy, but Liang Weimin's family looked calm as they followed closely behind with smiles on their faces. The workers opened the door of the warehouse, and a line of people walked into the warehouse. As soon as elder Tang entered, his gaze was immediately attracted by a large log placed in the middle of the warehouse. This Phoebe zhennan material was about six meters long and about one meter in diameter. It looked dark brown on the outside, but the cut surface was very bright, and traces of golden silk could be seen faintly. Elder Tang took a few steps forward and examined the wood carefully. He was slightly excited. He walked around the wood and looked back and forth for a long time before he raised his head and said with a happy face, "Wei Hua! This is authentic Aurelia wood, and there are more than ten tumors on the tree. If you cut it open, it might form water ripples!" Liang Weihua had a smug look on his face as he smiled and said, "Uncle, you have good eyes! When I first bought this Phoebe zhennan material, the other party charged me an extra 500000 Yuan for the tumor on the tree!" "Not bad, not bad ..." Elder Tang praised, "this material is really good!" "Uncle, I wonder if this material is to your liking?" Liang Weihua asked. "Although it's a little small to be used as a longevity material, it should be enough!" Elder Tang said, "it's very hard to find good quality Phoebe zhennan nowadays. Wei Hua, it's already very rare for you to find such a whole piece of material. Thank you!" "Uncle, you're too polite. It's an honor for us juniors to share your burden!" Liang Weihua said. "How much did you spend on this?" Elder Tang asked. "About 8 million!" Liang Weihua said, "this kind of material is very popular. I added some money to the

market price. Otherwise, the other party might not be willing to sell it!" Elder Tang nodded his head and gestured to his assistant. The assistant immediately took out a checkbook from his briefcase and handed it to him. When Liang Weihua saw this, he quickly asked, "uncle, what are you doing?" How can I take your money!" "Of course I have to pay!" Elder Tang said with a smile. "That's not right!" Liang Weihua said, "uncle, this is a little filial piety from me as a junior. I definitely can't accept this money! You can't possibly deprive me of my right to fulfill my filial duties!" "You child ..." Elder Tang couldn't help but laugh, "alright then! I accept your kind intentions! Thank you, Wei Hua!" Only then did Liang Weihua reveal a look of joy and said, "Uncle, don't be so polite. This is what we, the younger generation, should do! And ... It's all thanks to Xiaojun that we were able to find this material this time. After he found out that you needed the goldsilk Phoebe material, he went around looking for it! As soon as I heard news of the Phoebe zhennan, I immediately put down my work and rushed over. Xiaojun was the one who found this material first and informed me to buy it!" Elder Tang smiled and nodded, "Mm! Xiaojun's a good kid, he's got great potential!" Liang Xiaojun was secretly happy and quickly said, "Thank you for the compliment, Grandpa!" After he finished speaking, Liang Xiaojun even glanced at Liang Qichao with a smug look on his face. "Wei Hua! There are still some procedures to be done before this material can be transported out of the country. In addition, I have to arrange a cargo ship, so for the time being, the material will still be with you. You have to find someone to look after it!" Said elder Tang. "Uncle, don't worry!" Liang Weihua said, "I'll be guarding this place myself. There won't be any mistakes!" Elder Tang nodded his head in satisfaction. At this moment, Yuan Shan saw the smug look on Liang Weihua's family of three's faces and couldn't stand it anymore. She couldn't help but gently tug on Liang Weimin's sleeve. Liang Weimin nodded in understanding. He organized his words in his mind, cleared his throat, and walked forward. He said, "uncle, little Chao has also found a piece of golden Nannan material for you. It's also a big and old material. We would also like you to take a look."

Chapter 308: Elder Tang's decision (1)

When Liang Weimin said this, elder Tang couldn't help but be taken aback. Since when did Phoebe zhennan and Chinese cabbage become common? He couldn't find it after searching for so long, and now he found two? After Liang Weihua heard this, he revealed a mocking smile and said, "For the people, are you sure it's really big news? I heard that you've been trying hard to find one through all kinds of channels this year, but you still couldn't find one! I just found one here and you immediately found one too, is there such a coincidence?" When Liang Qichao heard this, he didn't wait for his father, Liang Weimin, to speak. He pouted and said, "Uncle Wei Hua, isn't this just a coincidence? The Golden Phoebe zhennan material that I found is not only a big material, but also an old material. It seems to be of a higher quality than yours!" Liang Xiaojun, who was at the side, immediately laughed and said, "Qi Chao, are you blind? Now that the price of the Phoebe zhennan was rising, many illegal merchants were using yellow heart Phoebe zhennan or even maple wood to fake it! This piece of material that our family found is already very rare. To say that there's something bigger than this ... Tsk tsk! I don't think it's possible!" After Liang Weimin heard this, he said in a slightly displeased tone, "Xiaojun, you didn't even see anything. Isn't it too early to make a conclusion?" "Uncle, I'm just worried that Qi Chao might be cheated!" Liang Xiaojun said, "I know that you guys are more anxious. This will inevitably lead to mistakes in judgment. If you make a wrong judgment, the losses will be huge!" "Xiaojun, you don't have to worry about this!" Liang Qichao snorted. Liang Weihua chuckled and said, "Qi Chao, you can't say that! Uncle is so busy. If you ask him to make a trip for a fake you found randomly, wouldn't that be a waste of time?" Then, Liang Weihua asked again, "brother Weimin, the material you mentioned just

now, have you all personally appraised it?" Did you get an expert to examine it?" Liang Weimin furrowed his brows and said, "I didn't see it, but I've seen the photos. It's indeed a Phoebe zhennan! And the quality is very high!" "A photo?" Liang Xiaojun immediately said exaggeratedly, "uncle, can photos still be trusted these days? Photoshop software can create anything, what's the use of just looking at photos?" "Xiaojun, be careful with your words!" Liang Qichao said unhappily, "it wasn't easy for my friend to help me find this material!" He had even gone over to take some photos early in the morning. My friend isn't that kind of person!" "Qi Chao," Liang Weihua said with a smile, "your friends aren't very reliable!" Liang Weimin snorted coldly and said, "Weihua, I don't like what you're saying. Why don't you tell me why Lil Chao's friends are so unreliable?" It's not good to make irresponsible remarks!" "Brother Weimin, you should know very well what kind of people Qi Chao's friends are, right?" Liang Weihua pouted and said. Liang Weimin's expression was very unsightly. He snorted coldly and said, "I'm too lazy to talk to you guys! Let uncle make his own decision!" Then, Liang Weimin turned to old master Tang and respectfully said, "Uncle, you make the decision! This piece of material had also been found by little Chao with great difficulty, and it had now been transported to San Shan city, which was not far from here. If you're interested, let's go and have a look. If you don't think it's necessary, then just pretend I never said anything about it." Elder Tang chuckled. He had lived for more than 70 years. How could he not see the infighting between the younger generation? However, he naturally wouldn't show his inclination. After all, Liang Weihua had already found an old material of Phoebe zhennan that barely caught his eye, which could be considered a great achievement. However, Liang Weimin's family was also sparing no effort in this matter, so of course, they had to be fair. So, even though elder Tang didn't have much hope for the Golden Nannan material that Liang Weimin was talking about, he still smiled and said, "Then let's go together! For the people, Qi Chao, it's been hard on you this time ..." "Uncle, you're too polite!" Liang Weimin said excitedly, "it's our honor to be able to help uncle! Then ... When do you think we should go?" When Liang Weihua heard this, he immediately said, "it's almost mealtime, we can't let uncle go on an empty stomach, can we?" Besides, I've already booked a restaurant! Uncle, why don't we ... Go and eat first?" Of course, he didn't want elder Tang to see the Phoebe zhennan that Liang Weimin was talking about. Even though he didn't think the possibility was high, he was still a little worried, so he tried to delay it as much as possible. However, elder Tang smiled and said, "There's no hurry to eat. Let's go and take a look first!" Liang Weihua's expression froze for a moment, then he smiled awkwardly and nodded. Liang Weimin, on the other hand, was extremely excited. He quickly asked Liang Qichao to contact Xia ruofei. The group of people got into the car and headed towards the warehouse that Xia ruofei had rented. The relatives of the Liang family also followed them. They were not willing to miss out on such a lively event. Liang Weihua's family even got into their cars, waiting to see Liang Weimin and Liang Qichao make a fool of themselves. As the car drove on the road, Liang Weimin's heart started to race again. This big talk had been released, but if there was really something wrong with the gold Phoebe material, it would be really embarrassing. "Little Chao, that material ... Is it really fine?" Liang Weimin asked, frowning. Elder Tang and Liang Weihua were in the same car, and Liang Weimin's family was in it, so he didn't hold back when he spoke. "Dad, didn't you see the photos this morning?" Liang Qichao asked. What problems could there be?" "I've seen the photos, but I still feel a little uneasy!" Liang Weimin said. He was indeed a little worried. If he did this well, he would undoubtedly gain a lot of points in the old man's heart. However, if he messed it up, he would lose a lot of points. Liang Qichao said, "Dad! Don't you worry! Although I have some friends who are not very reliable, RUO Fei is definitely not one of them. He is still very reliable." Liang Weimin nodded, but the worry between his brows still hadn't disappeared. In the warehouse that Xia ruofei had rented in the

northern suburbs of Jinning District. Xia ruofei had already taken out the Phoebe zhennan material from the medium and placed it in the middle of the warehouse. He took out a recliner from his interspace and was lying on it leisurely, playing games on his tablet. There was a small coffee table beside him with a cup of hot tea on it. After going to Wuyi Mountain, Xia ruofei also started to taste the tea. He felt that the tea seemed to contain all the flavors of life. The more he drank, the more the taste and the more he tasted it, the more he felt. Xia ruofei only returned to the warehouse after receiving Liang Qichao's call. He had been shopping at the seafood market, hoping to find fish that were suitable for Taoyuan farm. However, after shopping for half a day, Xia ruofei still did not have any clues. He felt that the fish in the market were too ordinary and could not reflect the quality of Taoyuan farm. However, this matter was not very urgent. He had plenty of time to slowly look for one. After about half an hour, Xia ruofei's phone rang again. It was Liang Qichao. He knew that old master Tang should be arriving soon. He stood up unhurriedly, and with a thought, the recliner, the coffee table, and the teacup on the coffee table disappeared into thin air. They were directly stored into the spirit map space. Everything was placed firmly on the floor of the medium, not even a drop of tea spilled. It was clear that Xia ruofei's control of the medium was getting better and better. Xia ruofei picked up the phone as he walked towards the entrance of the warehouse after he had kept everything.

Chapter 309: There's something wrong with your brain (1)

"RUO Fei, we're almost there!" "Is everything ready?" Liang Qichao asked. "Don't worry!" Xia ruofei smiled and said, "I'm already waiting for you in the warehouse! You can just drive over to the location I shared on WeChat!" "Alright!" Liang Qichao said. Xia ruofei opened the warehouse door and walked out. Not long after, he saw a row of cars turning in from the intersection. Soon, the first car arrived at the entrance of the warehouse. Liang Qichao, who was sitting in the front seat, lowered the window and waved at Xia ruofei. The car drove a few meters past the warehouse before stopping. This way, the second car could Park at the entrance of the warehouse. Liang Qichao quickly got out of the first car and walked back. At this time, the second car had just stopped. Liang Xiaojun, who was in the front seat, got out of the car and quickly walked to the back seat to open the door. Xia ruofei saw a silver – haired old man in a rice – colored Tang suit get out of the back seat of the Mercedes – Benz. He knew that this must be Liang Qichao's cousin, old master Tang. As expected, Liang Qichao walked over and introduced them, "Grandpa, this is my friend Xia ruofei. He was the one who helped me find the Phoebe zhennan material. Ruofei, this is my United States cousin whom I've told you about before. " "It's a pleasure to meet you, elder Tang!" Xia ruofei smiled. He had already found out from Liang Qichao that the old man's surname was Tang. Tang He laughed and took the initiative to shake hands with Xia ruofei, saying, "Mr. Xia, I've troubled you with my matter! Thank you!" "You're too polite!" Xia ruofei said with a smile. Then, Xia ruofei's gaze fell on Liang Weimin and Yuan Shan, who were standing beside Liang Qichao. He said, "Brother Liang, these two must be uncle and Auntie!" "Right!" Liang Qichao nodded and said, "dad, mom, this is my good friend, Xia ruofei!" "Hello, little Xia!" Liang Weimin said with a smile. "Hello, uncle and Auntie!" Then, Liang Qichao asked impatiently, "Ruofei, that piece of Phoebe zhennan material is in the warehouse, right?" Xia ruofei nodded and said, "Yes, I'm ready." Elder Tang, please come in!" "Hahaha! Good, good, good." Said elder Tang. Xia ruofei made an inviting gesture and led elder Tang into the warehouse. Liang Qichao and the rest followed behind. As soon as they entered the warehouse, everyone's eyes fell on the Phoebe zhennan wood in the middle of the warehouse. They had all seen Liang Weihua's raw material just now, so when they looked at this one again, they naturally had an intuitive comparison. First of all, this piece of material was obviously much thicker than Liang Weihua's.

The difference between a diameter of 1.25 meters and a diameter of one meter was still very obvious. Besides, Xia ruofei's piece of material was at least ten meters long, almost twice the length of Liang Weihua's. Regardless of whether it was real or fake, just his size alone was already very visually impactful. Elder Tang's eyes also lit up as he quickly stepped forward to take a closer look. Liang Weimin's expression was a little apprehensive, but at the same time, his eyes revealed a hint of anticipation. Liang Weihua and Liang Xiaojun both frowned slightly. They were very nervous at the moment. They didn't believe that Liang Qichao could be so lucky to find a piece of Phoebe zhennan that was better than their one at the last moment. However, when they saw the piece of material, they were extremely worried. Both father and son clenched their fists secretly. Everyone's eyes fell on elder Tang. Elder Tang, on the other hand, examined it very slowly and carefully. He circled the wood several times to examine it, especially the cut section. Finally, the old man's face revealed a trace of excitement. He raised his head and announced, "This is indeed goldsilk Phoebe! And it's a top – grade old material!" As soon as the old man finished speaking, Liang Weihua and Liang Xiaojun's expressions changed, while Liang Weimin and Liang Qichao cheered in their hearts. Especially Liang Weimin, who had been worried about his personal gains and losses, finally smiled as if he had been relieved of a heavy burden. Liang Weihua frowned slightly and said, "uncle, you might not understand the situation in China. The level of forgery by illegal businesses these days is very high. It's almost as if they're passing off the fake as the real thing. This piece of material is different from the one I have. I've specially asked an expert in the industry to appraise mine. I can guarantee that it's ..." "Wei Hua, what do you mean by that!" Liang Weimin glared at him and interrupted Liang Weihua, saying, "are you doubting uncle's judgment?" Liang Weihua snorted and said, "Liang Weimin, stop twisting my words!" I'm just worried that uncle doesn't know the chaos in the domestic market of Phoebe zhennan and has fallen into the trap of someone with ill intentions! Especially if some people collude with each other and help others, it's really impossible to guard against!" "Liang Weihua! You better explain yourself!" Liang Weimin's face immediately fell, and he said angrily, "who are you calling a traitor!" "It's better to be safe than sorry!" Liang Weihua put on a fake smile and said, "I know you want to perform well in front of uncle, but you didn't find it earlier or later. When you found a Phoebe zhennan material on my side, you suddenly found another one, and it happened to be bigger than mine. This is too much of a coincidence! I can't help but be suspicious!" Xia ruofei was watching coldly from the side. Seeing this scene, he couldn't help but turn around and ask, "Brother Liang, is this the relative who found the Phoebe zhennan? Was there something wrong with his brain? Persecutory delusion?" Liang Qichao could not help but shake his head and laugh, "Ruofei, this ... I don't know much about uncle Wei Hua's health, so I can't rule out the possibility you mentioned!" Xia ruofei did not lower her voice on purpose, and Liang Qichao did not hold back when he saw that Liang Weihua had already fallen out with his father. Hence, everyone in the room could hear their conversation clearly. The Liang family's relatives had come to watch the show, and when they saw this, they all looked at Liang Weihua, as if they wanted to see the world in chaos. Liang Weihua's face turned ashen. He narrowed his eyes and stared at Xia ruofei. "Young man, you should watch your mouth! So as to avoid trouble from the mouth!" "Nonsense!" Xia ruofei said rudely, "Who are you? You're pointing fingers at my things in my warehouse, and you're putting basins of dirty water on my head. Do I have to be polite to you? I'm not that cheap!" "You ..." Liang Weihua was so angry that he was trembling. Liang Xiaojun also glared at Xia ruofei. Xia ruofei turned a blind eye to the father and son's murderous gazes. He turned to elder Tang and said, "Old man, since your junior has doubts, then I'll keep this golden Nannan material for myself! I don't want to become a swindler who colludes with people from the inside before I even do business! It just so happens that a boss from Jiangsu and

Zhejiang Province has begged me several times. If it wasn't for brother Liang, this piece of material wouldn't have been left until now. I might as well...Just sell it to him!"

Chapter 310: Opening price of 10 million (1)

Elder Tang wasn't angry. He only smiled and said, "Mr. Xia, I didn't say I wasn't buying! I'm the one who needs the Phoebe zhennan, so I should be the one making the decision, shouldn't I? Besides ... Although I'm old, I'm not so old that I can't see clearly. I can still tell if the material is real or fake." After speaking, elder Tang looked at Liang Weihua with a half – Smile. Liang Weihua broke out in a cold sweat and hurriedly said, "Uncle, I don't doubt your judgment ..." Elder Tang waved his hand and said kindly, "Wei Hua, I know this." Meanwhile, Liang Weimin's heart was practically blooming with joy. He put on a humble expression and asked, "Uncle, tell us about this material! It'll also broaden our horizons!" The Liang family's relatives all agreed, each of them looking for knowledge. Liang Weimin looked at elder Tang with eager eyes. He naturally hoped that elder Tang would say as much as he could. He wanted to use elder Tang's words to refute Liang Weihua, but he didn't even dare to say a word. What could be more satisfying than this? Liang Weihua's family of three, on the other hand, remained silent with dark expressions. "There's no trace of artificial forging on this piece of wood," elder Tang said with a smile. "Many details show that it's a pure wild, top – grade Phoebe zhennan material. "For example, the golden threads that appear at the cut surface will appear different when observed from different angles. This kind of shifting effect is usually only seen on cut – Open jinsi nanmu wood. This is only a cut surface, but it has such an effect. This shows that the golden threads of this wood are very sufficient." He paused and continued, "if it's Huang Xinnan, it will have the same effect as the golden thread. But no matter from which angle, it's the same. There's basically no change, so it's relatively easy to judge." Liang Weimin looked like he had been lectured, and then he asked, "Uncle, what if the golden threads on this surface are all artificial? Wei Hua just said that the level of fraud by illegal businesses in the country is getting higher and higher, and almost all of them can pass off fake as real. " After he finished speaking, Liang Weimin looked at Liang Weihua with a smile. These were almost all Liang Weihua's original words, and now that Liang Weimin had said it like this, the sarcasm in his words was obvious. Liang Weihua snorted coldly, his face ashen, and he didn't say anything. "It's not easy to create the shapeshifting effect!" Elder Tang laughed. In addition to the Golden silk, there were many other ways to judge, such as the texture of the wood. The Golden silk nanmu was much finer than ordinary nanmu wood; In addition, the authentic Phoebe zhennan will exude a very pleasant fragrance, similar to the smell of medicine and fruit, but the smell of Xinnan is completely different. It has a fishy smell and is quite unpleasant. " Then, elder Tang pointed at the Golden Nannan material and said, "And look, I just counted. There are 37 bumps and many cracks on it. If it is cut out, it is likely to form a very good pattern. If we are lucky, it may even form water ripples, which will make the value even higher!" Liang Weimin said with admiration, "uncle, after your explanation, I finally realized that there are so many details to the Phoebe zhennan!" Your eyes are so sharp, you definitely won't be wrong!" Elder Tang couldn't be wrong. This meant that the Phoebe zhennan that Liang Weimin and his son had found this time was way better than the one that Liang Weihua and his son had. So, Liang Weimin naturally praised him. He was obviously complimenting himself, but he could still act so self – righteously. It was simply too satisfying! Elder Tang smiled at Xia ruofei and said, "Mr. Xia, I never doubted the authenticity of this Phoebe zhennan material from the beginning, and I'm very sincere in buying it. What do you think? State your price!" Xia ruofei smiled. "Elder Tang, to be honest, you know more about the Phoebe zhennan than I do. So, you can name the price." Elder Tang gave Xia ruofei a meaningful look and said, "Since Mr. Xia has said so, then

I'll give you a price! If you think it's too low, we can still discuss it!" Xia ruofei smiled and nodded. "Wei Hua's piece was bought for eight million Yuan. Mr. Xia, your piece is better than the one I saw before. In terms of diameter, length, and quality, it's better. I'll pay ten million Yuan for it!" Elder Tang said after a moment of silence. What do you think of this price?" Liang Weihua's face twitched when he heard this. The price he had just told the old man was just a fake price. In reality, he had only spent about six million Yuan. He didn't expect the old man to use it as a reference price. The more valuable this piece of material was, the more credit Liang Weimin and his son would have earned. However, Liang Weihua definitely didn't want to see this. However, this price was personally set by elder Tang, so he didn't have the guts to refute it. Liang Weihua suddenly had an idea. Before Xia ruofei could agree, he quickly said,""Uncle, wait a moment!" Elder Tang furrowed his brows slightly as he looked at Liang Weihua and asked,""Wei Hua, are there any other questions?" He was already a little displeased when Liang Weihua had jumped out to question his judgment without any basis, but Liang Weihua had been at his beck and call ever since he had returned to the country. Furthermore, it had indeed taken him a lot of effort to find the Phoebe zhennan, so he did not hold it against Liang Weihua. However, old master Tang saw that he had already explained his reasoning in detail and had already started negotiating the price with Xia ruofei, yet Liang Weihua still came out to stop him. This made old master Tang feel that Liang Weihua was a little insensible. Even Liang Xiaojun looked at his father worriedly, thinking that he was a little reckless. Liang Weihua naturally knew that the old man wouldn't like it, but he couldn't care too much about it. He quickly said,""Uncle, I'm not questioning your previous judgment. It's just that according to the usual practice in our country, the whole piece of Phoebe zhennan material is generally 'opened' for sampling when trading. There are so many bumps and cracks on this piece of material. Many bumps not only can not form ripples on the material, but will also destroy the harmony of the whole piece of material. Therefore, if he were to buy it based on his experience, the risk was still very high! If you spend ten million to buy a piece of junk, you'll suffer a huge loss!" "Open window" was also a term in this industry. It was to use a machine to open a window on wood, and then apply some paint or water to make the pattern appear. In fact,"open the window" was a gamble on luck, mainly to see if there were any beautiful patterns in the raw materials, and whether the patterns could penetrate the wood in a large area. It was similar to stone gambling. Liang Qichao, who had been silent the whole time, couldn't hold it in anymore when he heard Liang Weihua's words. He couldn't help but say sarcastically,"uncle Wei Hua, it seems that the material you bought didn't have a" open window "either!" Why does RUO Fei have to have another set of standards?"
