

## God tier Farm 3051

### Chapter 3051 Gathering at peach source Island (1)

Hearing that, Li Yifu quickly leaped up and landed on the deck of the airboat.

As soon as he steadied himself, Li Yifu immediately bowed and said, "Disciple greets martial granduncle!"

"No need to be so polite! Come in with me!" Xia ruofei said with a smile.

Then, Xia ruofei turned around and walked into the cabin.

This morning, Li Yifu had just seen the airboat from the rooftop. This time, he had really entered the airboat. Therefore, he was also very curious.

However, he still followed behind Xia ruofei obediently and did not look around.

Xia ruofei led Li Yifu straight into the cabin that was used as a guest room.

When Li Yifu saw Tang Haoran, Song Wei, and Ling Qingxue, he quickly bowed and greeted them. "Greetings to the two martial grandmother! Greetings, martial uncle Tang!"

Tang Haoran used to address Li Yifu as "Grandpa li." However, after they had confirmed that they were master and disciple, Li Yifu would greet him very respectfully every time he saw him and insisted on calling him "senior uncle." However, Tang Haoran was still not used to it. He seemed to be at a loss when Li Yifu, who had white hair, bowed to him.

Meanwhile, Song Wei and Ling Qingxue blushed at the same time, embarrassed by the way they were being addressed. Although Xia ruofei did not deliberately hide his relationship with Song Wei and Ling Qingxue in front of Li Yifu, who was a very traditional person and even Li beihuai had more than one partner, he did not think that it was inappropriate for Xia ruofei to have two Dao partners. However, this kind of thing had never been made clear. This time, Li Yifu suddenly addressed them like this, which caught Song Wei and Ling Qingxue a little off guard.

Xia ruofei looked at Tang Haoran, Song Wei, and Ling Qingxue's embarrassed expressions and could not help but laugh.

He clapped his hands to get everyone's attention.

Then, he smiled and said, "it's done!" I said that I would give everyone a surprise today. Now that everyone is here, it's time to reveal the answer!"

Ling Qingxue said impatiently, "Quickly say it! Hurry up and tell me! I've been holding it in all this time! What kind of surprise is it?"

Li Yifu and Tang Haoran naturally would not ask about this. Anyway, Xia ruofei could make any arrangement for their own good.

Song Wei also smiled and said, "ruofei, you've kept us in suspense today!" We made such a big detour to bring me, Qingxue, and Haoran here. What kind of surprise is there for us?"

“Don’t worry,” Xia ruofei chuckled. “You’ll know soon!”

Xia ruofei took out items from the spirit map space and asked, “Tell me about your cultivation!”

Li Yifu was the most honest and didn’t even ask for the reason. He immediately said, “Reporting to senior granduncle, this disciple is slow and has only reached refined Qi Level 5.”

Ling Qingxue, on the other hand, held Song Wei’s hand and said with a smile, “Wei Wei and I are both refined Qi Level 4! Aren’t you the one who knows the best?”

Tang Haoran listened to their conversation and immediately said with a bitter face, “Master, my cultivation level is the lowest ... I’m only at refined Qi Level 2, but I’ll be able to break through to refined Qi Level 3 soon!”

Ling Qingxue couldn’t help but ask, “RUO Fei, why are you asking about our cultivation?” Also, what is this thing you took out? A tea set?”

Xia ruofei had indeed taken out a whole tea set. There was even a small red clay stove, high – Quality charcoal, and bottles of spirit pool water from the spirit map space. It was specially used to make tea.

“Yeah!” Xia ruofei smiled and said, “I’m going to treat everyone to some tea! Foster husband, start a fire and boil some water!”

“Yes! Senior granduncle!” Li Yifu quickly came over to start a fire for the charcoal stove, and poured the spirit pool water into the kettle, placing it on the small red mud stove.

Ling Qingxue couldn’t help but laugh, “He traveled a few thousand miles just to treat us all to tea? Do you mean to experience your airboat by surprise? That’s a pleasant surprise, but there’s no need to go through so much trouble!”

“Don’t be impatient!” Xia ruofei laughed and said, “the answer will be revealed soon!”

After that, Xia ruofei called Tang Haoran to his side and said, “Haoran, master will now teach you the third level of the” fierce yang Scripture “. You must keep it in mind. After you break through, you can directly practice the third level of the cultivation method!”

“That’s great!” Tang Haoran said happily. Master, tell me! My memory is really good now, I can remember it very quickly!”

“Martial granduncle, then this disciple will leave first?” Li Yifu quickly stood up.

“No need!” Xia ruofei waved his hand nonchalantly and said, “we’re all friends here. There’s nothing you can’t listen to. If you really want to learn the fierce yang Scripture, I can teach you!” However, this is an extreme yang cultivation method, which is most suitable for Haoran’s physique. If you practice it, I’m afraid the effect won’t be very good!”

“It’s enough for this disciple to have the origin returning Scripture!” Li Yifu also said with a smile.

Since Xia ruofei had said that there was no need for them to leave, Li Yifu would not reject the task of boiling water. Of course, they had to stay to complete it.

In fact, when Xia ruofei was giving Tang Haoran pointers in the Tang family's Manor in Sydney last time, he had found a quiet place to explain it to Tang Haoran. However, he had just met Li Yifu at that time. Although he had confirmed that there was nothing wrong with the Master – disciple relationship through Xia Qing, he did not know Li Yifu's character after all. He had to avoid the topic. He had also observed Li Yifu for a long time before he decided to teach him the Guiyuan Scripture.

## Chapter 3052 Gathering at peach source Island (2)

This Guiyuan Scripture was comparable to the complete and advanced version of the Guiyuan Scripture that Li Yifu had practiced for most of his life. After Li Yifu got the Guiyuan Scripture, he could naturally link it seamlessly. Moreover, some of the confusion in cultivation caused by the loss of the cultivation method before could be easily solved after he got the Guiyuan Scripture.

Xia ruofei taught Tang Haoran the third level of the “fierce yang Scripture” in front of everyone.

After Tang Haoran started cultivating, his memory was much better than ordinary people's. Xia ruofei had only explained the obscure cultivation technique two or three times and he had basically memorized it.

Xia ruofei did not expect Tang Haoran to be able to recite it backwards. Seeing that he had memorized most of the content, he began to explain the third level of the cultivation technique. He analyzed it word by word for Tang Haoran.

That way, on the basis of understanding, Tang Haoran's memory of the third level of the cultivation method would naturally be more solid.

After Xia ruofei finished, he let Tang Haoran comprehend it on his own and answered a few of his questions.

Then, Xia ruofei asked Tang Haoran to recite the third level of the technique again. He was indeed very familiar with it and there were no mistakes.

At this time, the water on Li Yifu's side was already boiling.

Xia ruofei patted Tang Haoran's head and said approvingly, “Haoran, you really didn't let master down! You don't need to cultivate the third level right now. You just need to remember it and understand it. After you break through, everything will fall into place naturally and you can just change to cultivating the third level of the cultivation technique!”

“Understood!” Tang Haoran said, “don't worry, master! I'll remember it all!”

“En!” Xia ruofei nodded and said, “everyone, come and sit here! Let's have some tea first!”

Ling Qingxue saw that Xia ruofei really took out a small bag of tea leaves and started to fiddle with the tea set. It looked like he really wanted to make tea. She could not help but laugh.

However, since Xia ruofei wanted to keep her in suspense, Ling Qingxue let him be. She knew that since Xia ruofei had gathered everyone together and said that he had a surprise for everyone, the truth would be revealed sooner or later.

Xia ruofei used the boiling water from the spirit pool to heat up the tea set. Then, he poured the wild tea that Chen Xuan had given him into a lid bowl. After that, he poured the spirit pool water into the lid bowl.

Immediately, a strong fragrance of Tea Rose in the cabin.

Even Tang Haoran couldn't help but sniffle. "Master! It smells so good!"

The wild tea could be drunk directly from the first brew, and there was no process of washing the tea.

Moreover, the first brew was the essence of the wild tea. Hence, after a few seconds, Xia ruofei placed the tea container on the public cup and poured the brewed tea into the public cup.

Then, Xia ruofei poured the tea from the public cup into the tea tasting cup smoothly. There were exactly five cups.

To be honest, even Song Wei and Ling Qingxue, who had seen a lot of good tea, felt that the tea was extremely tempting. As soon as Xia ruofei poured the tea, Ling Qingxue could not wait to try it.

However, Xia ruofei raised his hand to stop her and said, "Before I taste the tea, let me say a few words ..."

Everyone's eyes were on Xia ruofei. He then said, "After drinking this cup of tea, everyone may have some wonderful experiences. Remember, don't try to resist, just follow your heart! For example, if he wanted to cultivate, he could immediately sit down and cultivate. The spiritual Qi here is extremely dense, enough to sustain your cultivation. In addition, each of you should take a spiritual crystal in your hand in case you run out of spiritual energy!"

With that, Xia ruofei flipped his hand and took out four spiritual crystals. He gave one to each of them.

The flying boat was parked in the Taixu xuanqing formation, and the spiritual Qi was naturally very rich. Under normal circumstances, it would be enough to sustain cultivation. Xia ruofei asked everyone to take a spiritual crystal in case of emergency. After all, the four of them were Qi refining cultivators. After drinking wild tea, they would definitely be able to advance one level. Several Qi refining cultivators broke through at the same time, and it might consume a lot of spiritual Qi instantly. It was naturally safer to have a spiritual crystal in hand.

Besides, Xia ruofei was also worried that Li Yifu and Tang Haoran would not be able to let go. For example, Li Yifu felt that it was strange for him to sit down and cultivate all of a sudden with the elders present. If he forced himself to hold back, it would be a waste of the wild tea.

Of course, this was also a precaution. It could be considered as a preventive measure! Actually, from Xia ruofei's experience, after drinking wild tea for the first time, he could not help but enter a state of cultivation. It was difficult for him to control himself.

Ling Qingxue's eyes lit up when she heard that. "Ruofei, this means that your tea leaves are a little different! It can improve cultivation?"

Xia ruofei smiled but did not answer directly. Instead, he looked at Song Wei and Ling Qingxue and said, "You two ... Follow me to the cabin next door and bring some tea over!"

Song Wei and Ling Qingxue looked at each other and felt their faces heat up. However, they were even more certain that the tea was the tea that could help them improve their cultivation. After all, the most efficient way to cultivate the “absolute beginning Heart Sutra” was to practice with Xia ruofei. Moreover, the state of cultivation was a little embarrassing. This was why Xia ruofei had asked them to go to the cabin next door.

“I know!” Ling Qingxue and Song Wei’s eyes revealed a hint of joy as they spoke at the same time.

Xia ruofei looked around and asked, “Do you all remember what I just said?”

“I’ll remember! Master!” Tang Haoran answered.

“Senior granduncle, this disciple will remember!” Li Yifu quickly added,

Ling Qingxue giggled and said, “Don’t worry! I have you here, don’t I?”

“Mm! Then each of us will get a cup of tea!” Xia ruofei said.

After he finished speaking, he also picked up one of the glasses and drank it in one gulp. Then, he revealed a reminiscing expression and said, “It’s really good tea ...”

Ling Qingxue couldn’t help but open her eyes wide and say, “You gave me so many instructions, so why did you just drink it so casually?”

“Because I’m an Aurous core stage cultivator!” Xia ruofei laughed and said, “this is just normal tea to me! Hurry up and improve your cultivation, then you’ll be able to drink this tea like it’s water, just like me!”

Xia ruofei was just teasing Ling Qingxue because she didn’t know about wild tea. Of course, that wasn’t the case.

“I’m so angry!” Ling Qingxue clenched her fists. If the “junior” wasn’t present, she would have pounced on Xia ruofei and punched him.

Li Yifu and Tang Haoran obediently waited for Song Wei and Ling Qingxue to bring their respective tea before they each took a cup.

Xia ruofei brought Ling Qingxue and Song Wei to the cabin next door. Before he left, he looked at Li Yifu and Tang Haoran and said, “Don’t be nervous, just drink it in one gulp!”

“Yes! Senior granduncle!”

“Yes! Master!”

The three of them went to the cabin next door. Xia ruofei set up the time array flag and said, “You can’t drink tea at the same time. You can discuss who will go first!”

“Weiwei, you go first!”

“Let Qingxue drink first!”

The two of them spoke almost at the same time, and then immediately looked at each other and smiled.

Xia ruofei crossed his arms in front of his chest and stood at the side without participating. He would let them discuss how to solve Wanwan's problem on their own. They couldn't be biased, or they would be seeking their own deaths.

Song Wei and Ling Qingxue discussed for a while. In the end, Song Wei convinced Ling Qingxue to drink the wild tea first.

Ling Qingxue held the teacup and asked nervously, "Ruofei, how do we drink it?"

"Use your mouth to drink!" Xia ruofei laughed and said, "do I need to teach you how to drink tea?"

"This is tea that promotes cultivation! I've never drunk it before!" Ling Qingxue pouted.

However, with Xia ruofei's teasing, she was not as nervous as before. She raised her head and finished the tea in one gulp.

...

#### Chapter 3053 Breakthrough together (1)

When the wild tea entered her stomach, Ling Qingxue subconsciously wanted to praise the tea. However, before she could open her mouth, her body suddenly stiffened, as if she had fallen into a state of shock.

Xia ruofei, who was already prepared, pulled Ling Qingxue and leaped into the time array flag's range. Then, they immediately entered a state of cultivation.

When Song Wei saw Ling Qingxue's expression, she suddenly felt like laughing. However, she immediately realized that she would be drinking this magical tea very soon. Would she be like Ling Qingxue later?

Song Wei didn't have much time to think about this problem because the time inside and outside the time array flag was very different. Even if she used the time array flag alone, the range of effect of the array was smaller, so the time flow difference was about 90 times.

Xia ruofei and Ling Qingxue came out after three to four hours of cultivation.

To Song Wei, who was outside the array, only two to three minutes had passed.

Ling Qingxue's face was still a little red when she left the formation. On one hand, it was the "side effect" of cultivating the "absolute beginning Heart Sutra" together. On the other hand, it was also caused by your excitement.

When she saw Song Wei, the blush on her face deepened.

This was because when they were cultivating the "absolute beginning Scripture" together, in that kind of alluring and charming environment, although it was the spirit bodies that were entangled with each other, in fact, the body would also have the same reaction.

She could not help but feel embarrassed when she thought of how Song Wei had seen her embarrassing look.

Ling Qingxue was overthinking things. The time inside and outside the formation was too different. Song Wei couldn't see the change in Ling Qingxue's expression from the outside.

Very quickly, Ling Qingxue's mood was filled with excitement again. She excitedly pulled on Song Wei's hand and said, "Wei Wei, quickly drink this cup of tea! Do you know? In such a short time, my cultivation level has increased by one level, and now I'm already refined Qi Level 5! And after breaking through, it can't be stopped at all, and my cultivation level is still rising. I feel that I will be able to break through to refined Qi Level 6 very soon!"

Song Wei's eyes widened in shock. "Just a cup of tea ... Can actually achieve such an effect?"

Xia ruofei laughed and said, "you'll know if it's effective or not after you try it!" Wei Wei, it's your turn, drink up!"

Ling Qingxue chuckled and said, "Yeah, yeah! Eldest brother, it's time to drink your medicine ..."

Song Wei burst out laughing at this sudden nonsense. She had already reached for the teacup, but her hand trembled and almost spilled the tea.

Xia ruofei did not know whether to laugh or cry as he looked at Ling Qingxue and said, "Qingxue, even if you're joking, you should look at the occasion ... Only the first dish of wild tea is effective. If I spilled the tea just now, where am I going to find more wild tea?"

Ling Qingxue was shocked too. She did not dare to look at Xia ruofei and Song Wei. She stuck out her tongue and said, "I didn't do it on purpose. My brain just twitched, and I suddenly said that I'm fine ..."

She patted her chest as she spoke. Xia ruofei's heart skipped a beat when he saw her trembling figure. He did not want to reprimand Ling Qingxue at first, but now he could not bring himself to do so.

"Qingxue definitely didn't do it on purpose. It's a good thing she's fine!" Song Wei added.

Then, Song Wei quickly changed the topic and asked, "Ruofei, then I'll just drink it?"

Xia ruofei nodded and said, "drink!"

With Ling Qingxue as an example, Song Wei wasn't as nervous as before. She drank the tea in one gulp.

Her reaction was similar to Ling Qingxue's. Even though she was mentally prepared, after the tea entered her stomach, she still couldn't help but fall into a state of cultivation.

Xia ruofei pulled Song Wei into the array and sat down cross-legged to start their cultivation.

Ling Qingxue had also involuntarily entered a state of cultivation, so she didn't know what had happened after she drank the wild tea. Now, she was naturally very curious.

However, she still knew her limits and did not dare to enter the array to disturb the two of them.

She was just outside the range of the time array flag, looking into the array.

However, due to the difference in the flow of time between the inside and outside, what she saw inside the array was like a video played at 90x fast – forward speed. Everything she saw was blurry. After all, even though they were in a state of cultivation, the two of them were not completely still. Some of the

subtle movements in the time dimension for a few hours were condensed into a short two to three minutes, so it was naturally very blurry to see from the outside.

Ling Qingxue felt a little dizzy and gave up.

She had just sat down to rest for less than two minutes when Song Wei walked out of the array feeling refreshed.

“Wei Wei, how is it? Have you broken through?” Ling Qingxue immediately stood up to welcome him.

Song Wei nodded happily and said, “My situation is similar to yours. I think I can break through to refined Qi Level 6 at any time!”

Xia ruofei smiled. “I’ll choose a suitable cultivation technique for you. This way, even if I’m not by your side, it won’t affect your cultivation.”

“En!” Ling Qingxue said, “pick a good cultivation technique! I really want to break through to the Golden core stage now! He was riding a flying sword! Just thinking about it makes me excited!”

Xia ruofei laughed. “It’s not necessarily the best. But it has to be the most suitable for the two of you!”

Chapter 3054 Breakthrough at the same time (2)

Then, Xia ruofei said, “by the way, Weiwei, this wild tea is enough for five people. I wanted to add uncle song, but considering that we haven’t told him about cultivation, and we can’t disclose the situation on the peach Garden to him, and that my adopted husband has to stay on the peach Garden, after some consideration, I finally decided to let the four of you drink the wild tea first!”

“Ruofei, you don’t have to explain it to me. I can definitely understand!” Song Wei said with a smile.

Xia ruofei smiled and nodded. “Next time, I’ll find a suitable time to let uncle song consume the wild tea!”

“So you have a lot of these magical tea leaves here?” Ling Qingxue asked.

Xia ruofei shook his head. “This is a gift from the young master of the first heaven society. There’s only so much. I’m going to make all of them at once!”

“Then why did you ask uncle song to drink the wild tea ...” Ling Qingxue was a little confused.

Xia ruofei chuckled and said, “this young master Chen promised me that he would give me a few wild tea leaves.” I’m confident that I can succeed. Don’t forget how my paradise Corporation got rich! At that time, he could have as many of these wild tea leaves as he wanted! At least there’s some for uncle song to drink!”

“Waa! You can even plant it yourself?” Ling Qingxue’s eyes lit up. “Then what’s the point of cultivating? I can break through once by drinking a cup of tea, and I’ll be in the Golden core stage after a few drinks!”

Xia ruofei couldn’t help but ruffle Ling Qingxue’s hair. He smiled and said, “What beautiful things are you thinking of! Only the first time you drink this wild tea will have the effect of promoting cultivation. If you drink it again in the future, it will be purely drinking tea. But then again, from the perspective of tea leaves, the taste of this wild tea is quite good! I feel that it’s even thicker than my Wu Yi Da Hong Pao!”

"That's true ..." Ling Qingxue said, a little embarrassed. "No wonder you just drank a cup of tea ... You must have drunk wild tea before, right?"

"Yes!" Xia ruofei nodded and said, "it's also a gift from the young master of the first heaven society!"

"So you're saying that you've also broken through a level of cultivation after drinking it?" Song Wei could not help but ask.

Xia ruofei smiled and said, "this wild tea helps with cultivation. It also depends on cultivation. Normally, Qi refinement cultivators would definitely break through one level after drinking it. However, golden core cultivators naturally don't have such a good effect. Otherwise, even if they got wild tea, they would save it for after the Golden core stage!"

Xia ruofei paused and continued, "And I estimate that different people drinking wild tea may have different effects. Just like you guys, you're almost two levels higher ... By the way, Haoran's cultivation is the lowest, so I think the effect will be better after he drinks the wild tea. I have to go out and take a look!"

Xia ruofei quickly walked out of the cabin. Song Wei and Ling Qingxue followed closely behind him.

Even though Song Wei and Ling Qingxue had consumed the wild tea before they started cultivating, Xia ruofei had used the time formation flag, so they did not spend much time. Including the time they had spent talking, the whole process was less than ten minutes.

Therefore, Li Yifu and Tang Haoran in the guest room had basically just entered the state of cultivation not long ago.

Xia ruofei checked their breathing and was relieved to find that they were both stable.

As Tang Haoran's cultivation level was the lowest and he was about to break through to refined Qi Level 3, Xia ruofei soon felt the spiritual Qi gathering around Tang Haoran.

Xia ruofei's eyes narrowed. He knew that he was about to break through.

Sure enough, in just a few breaths, Tang Haoran's aura suddenly increased by a notch.

Tang Haoran's cultivation talent was also very impressive. After the breakthrough, he immediately followed the third level of the "fierce yang Scripture" and changed the path of his meridians. At this time, the effect of the wild tea was still present, so after his cultivation quickly stabilized, it immediately began to rise again.

After about half an hour, Xia ruofei felt that Tang Haoran was about to break through.

Song Wei and Ling Qingxue, who were watching from the side, were also a little stunned. The speed of his breakthrough was simply unstoppable! They had thought that it was good enough that they could increase their cultivation by one or two levels at once, but now, they seemed to be inferior to Tang Haoran!

Of course, the difficulty of breaking through from refined Qi Level 2 to refined Qi level 3 and 4 was naturally lower than breaking through from refined Qi Level 4 to refined Qi Level 5.

However, considering Tang Haoran's age, Song Wei and Ling Qingxue couldn't help but feel a strong sense of defeat.

Xia ruofei was paying full attention to Tang Haoran's condition.

Soon, Tang Haoran's aura skyrocketed, and he entered refined Qi Level 4 without any delay.

Seeing this, Xia ruofei did not hesitate to send a telepathic message to Tang Haoran. "Haoran, continue to circulate the third layer of the cultivation technique and quickly stabilize your cultivation!"

Even though Tang Haoran was in a state of cultivation, Xia ruofei's voice could still be clearly heard in his mind.

At first, Tang Haoran had not learned the fourth level of the "fierce yang Scripture". He was at a loss when he suddenly broke through to refined Qi Level 4. However, after hearing His Master's Voice, he immediately calmed down and continued to operate the third level of the "fierce yang Scripture" according to Xia ruofei's instructions to stabilize his cultivation.

#### Chapter 3055 Breakthrough at the same time (3)

Xia ruofei had been paying attention to Tang Haoran's condition. When his cultivation level had stabilized, he immediately used his spiritual force to speak to him. "Haoran, the effect of this wild tea is still there. Don't waste it. Master will now teach you the fourth level of the cultivation method. You just have to follow the route I told you to circulate your spiritual energy. Don't worry!"

With that, Xia ruofei passed on the fourth level of the "blazing sun Scripture" to Tang Haoran through spiritual force telepathy.

This kind of temporary teaching was naturally not like usual, where the cultivation method was broken down and explained the principles. He directly guided Tang Haoran on how to control the flow of spirit Qi. At the same time, he also put his hand on Tang Haoran's wrist, and his mental power was constantly paying attention to the situation of the circulation of Tang Haoran's meridians.

Under this kind of alternative teaching, Tang Haoran carefully controlled his spiritual energy according to the circulation route of the fourth level of the "fierce yang Scripture" and began to practice this fourth level cultivation method for the first time.

Very quickly, under Xia ruofei's guidance, he completed one circulation.

Then, it was the second cycle.

Tang Haoran was getting more and more familiar with the process. Spiritual Qi was constantly gathering and being absorbed into his body. It was then transformed into true Qi in his dantian.

Tang Haoran's cultivation base was also improving rapidly.

In the end, when this rapid growth ended, Tang Haoran's cultivation was fixed at the middle to the later part of refined Qi Level 4. His Foundation was very solid, and it could be said that he could break through to refined Qi Level 5 in a few days.

Tang Haoran opened his eyes. His eyes were filled with surprise and joy.

He didn't expect that his master would come all the way to pick him up and give him such a big surprise.

"Master! "My cultivation has improved so much ..." Tang Haoran could not help but say excitedly.

Xia ruofei said calmly, "Haoran, this kind of opportunity is hard to come by. You have to correct your attitude. Cultivation can't be achieved overnight. You have to be down – to – Earth and walk step by step. Only then can you find the ultimate Dao!"

Xia ruofei was worried that Tang Haoran was too young and would lose his mind under such circumstances. He would become impetuous, so he tried to educate him in time.

"I'll remember it, master!" Tang Haoran's expression turned serious.

"You've broken through to refined Qi Level 4, and you've made great progress in all aspects. Your strength is much greater than before, so you must remember that cultivation is not for the sake of fighting. You must never rely on your identity as a cultivator to bully ordinary people!" Xia ruofei said sternly, "if I find out, I'll definitely punish you severely! Do you remember that?"

"I'll remember it!" Tang Haoran quickly said. Master, Haoran has always remembered your teachings. He has never bullied his classmates just because he is strong!"

Xia ruofei finally smiled and patted Tang Haoran's head. "That's right! In the future, remember my words and never bully others, understand?"

"Yes! Master!" Tang Haoran replied crisply.

Xia ruofei continued, "I'll explain to you the fourth level of the sun Scripture "later. You only know how it is, but you don't know why it is so. You must really understand the meaning of the technique. Only then will you be able to cultivate it with half the effort!" Alright, you can go to the side and rest for a while!"

Xia ruofei did not explain to Tang Haoran immediately because he realized that Li Yifu was about to wake up.

## Chapter 3056 Gift (1)

Actually, Xia ruofei had been paying attention to Li Yifu's situation.

Li Yifu suddenly opened his eyes and spat out a mouthful of foul air.

His face revealed an inexplicable look of surprise and said, "Martial granduncle, disciple's cultivation has broken through a level! I've already reached refined Qi Level 6!"

Then, Li Yifu noticed that Song Wei, Ling Qingxue, and even Tang Haoran were all looking at him with a smile.

Li Yifu also reacted at once. It must have been because of that cup of tea that he had involuntarily entered the state of cultivation. Xia ruofei had already prepared them mentally in advance. It was just that he had suddenly achieved a breakthrough in his cultivation and was so surprised that he had not regained his senses for a while.

"You guys ... Also broke through?" Li Yifu asked with uncertainty.

Song Wei and the rest nodded in unison.

Xia ruofei sighed to himself. Li Yifu was still at a disadvantage due to his age. Among the four of them, he had gained the least from drinking the wild tea. He had only broken through one level. For example, Tang Haoran had broken through two levels in a row. Song Wei and Ling Qingxue were also close to breaking through to refined Qi Level 6.

Of course, this was also related to the fact that their cultivation base was lower than Li Yifu's. However, the main reason was that Li Yifu was a little old, and his potential was not as good as a young man's.

Of course, Xia ruofei would not expose him. He just smiled and said, "Foster husband, it's a good thing that you've broken through. Remember to cultivate diligently during this period of time and consolidate your cultivation as soon as possible!"

"Yes! This disciple understands!" Li Yifu quickly said respectfully.

Xia ruofei smiled and said, "okay, now that everyone is done with their cultivation, come and have some tea!" Although this tea was only effective when drunk for the first time, this wild tea was indeed a rare good tea, and one could make many potions of it! We can't waste it!"

Li Yifu quickly went to boil the water again and urged them to cultivate for about an hour or two. The water that they had just boiled had already turned cold.

Everyone sat around the coffee table, drinking tea and chatting. Everyone's cultivation had a breakthrough, so everyone was naturally in a good mood.

Xia ruofei did not continue explaining the fourth level of the "fierce yang Scripture" to Tang Haoran. He just smiled and chatted with everyone.

After drinking some tea, Xia ruofei said, "Alright, I should send Haoran home! Her foster husband continued to stay here. Wei Wei and Qingxue ... Are you going to wait for me on the peach source Island or are you coming with me?"

Song Wei and Ling Qingxue looked at each other, and as if their minds were connected, they said in unison, "Let's go together!"

"We came out in a hurry this time," Song Wei said with a smile, "after you send Haoran off, you can send us back!" Come again next time!"

"No problem!" Xia ruofei said after some thought.

Li Yifu immediately stood up and said, "Martial granduncle, then this disciple will take his leave first!"

Xia ruofei nodded and said, "yes!" You can stay here and cultivate!"

From the beginning to the end, Xia ruofei did not mention anything about the Peach Blossom Island. Even when he was making wild tea for everyone, he did it on the flying boat. In fact, he did not want Tang Haoran to come into contact with information about the Peach Blossom Island too early.

After all, Tang Haoran was still a child. If he accidentally let it slip, it might spread to the ears of people with ulterior motives, which would bring a lot of trouble to Peach Blossom Island.

All the people on the airboat were Li Yifu's elders. He bowed and bade farewell to them respectfully before he left the airboat.

Xia ruofei started the airboat again and flew towards Sydney, Australia.

Along the way, Song Wei and Ling Qingxue continued to look at the scenery on the deck. In reality, it was already night time and there was not much scenery to see. They were trying to create a quiet environment for Xia ruofei and Tang Haoran.

This was because Xia ruofei had used the time on the road to explain the fourth level of the "fierce yang Scripture" to Tang Haoran.

Tang Haoran's cultivation talent was indeed very good. He was also very interested in the cultivation method that was very obscure to most people. More than an hour passed by in a flash.

After Xia ruofei finished, Tang Haoran still wanted to continue. However, the airboat had already arrived above Sydney and was not far from the Tang family's Manor.

"The fourth layer cultivation method is so profound, master!" Tang Haoran said. If there's anything I don't understand, can I call you to ask?"

Xia ruofei laughed and said, "of course, no problem!" If you have any questions, you must ask me in time. Don't blindly think about it. Cultivation is not a small matter. If you make a mistake, it may bring very serious consequences. "

"I know. Don't worry, master!" Tang Haoran quickly said. I definitely won't mess around!"

Xia ruofei continued, "today, we're talking about some things related to the world of cultivation, including master's flying boat. You have to keep it a secret, okay?" It was best not to tell his parents. After all, they were just ordinary people. It was not good for them to know too much about the cultivation world. Of course, I don't think they would ask so much. "

Xia ruofei knew Tang Yitian and Jennifer well. The couple trusted Xia ruofei very much and would never ask what they shouldn't ask.

"Mm! I'll remember that!" Tang Haoran's small face had an extremely serious expression. "Master, don't worry. I promise I won't tell anyone!"

Xia ruofei patted Tang Haoran's head and said, "Mm! Alright, we're almost at your house. Let's prepare to land!"

## Chapter 3057 Gift (2)

Xia ruofei controlled the flying boat and started to descend.

The area where the Tang family's Manor was located was a rich area, and its biggest feature was that it was vast, sparsely populated, and full of vegetation, so it was easy for him to find a secluded place near the manor and land the flying boat.

The four of them left the swift Boat.

After Xia ruofei kept the swift Boat, he brought Tang Haoran, Song Wei, and Ling Qingxue to the main entrance of the Tang family manor.

It was around eight o' clock in the evening in Sydney, so the manor was brightly lit. As soon as Xia ruofei walked to the door, he saw the Butler of the manor waiting there. It was obvious that Tang Yitian had arranged for the Butler to be there.

Although Xia ruofei had only said that he would try his best to send Tang Haoran back by tonight, Tang Yitian had made the necessary preparations.

When the Butler saw Xia ruofei and his group, he quickly walked up to them and said, "Young master is back! Mr. Xia, ladies, you've worked hard! Mr. Tang is already waiting for you in the manor. Please come in!"

Xia ruofei smiled and nodded. "Thank you for your trouble!"

The group took the electric car at the entrance and quickly arrived at the main building of the manor.

On the other side, Tang Yitian and Jennifer had already received the report from the door and were standing in front of the door in advance to welcome him.

"RUO Fei!" Tang Yitian greeted him with great enthusiasm.

"Hahaha! Big brother Tang, I've brought your precious son back!" Xia ruofei smiled and said, "hurry up and check. You're not missing a single hair!"

"Haha!" Tang Yitian laughed. "The child has already acknowledged you as his master. That means he can be beaten or scolded by you. We won't have any complaints!" Besides, do you think I can't trust you?"

"Haoran is so obedient. How can I bear to hit and scold him?" Xia ruofei said with a smile.

"Come on! Let's go inside!" Tang Yitian said, "the supper is ready. We're just waiting for you to arrive!"

Xia ruofei looked at Ling Qingxue and Song Wei and said, "Big brother Tang, we still have something to do tonight, so we won't stay ..."

"It's so late. Aren't you going to stay at the manor for a night?" Tang Yitian asked in surprise.

Jennifer also said, "Xia, even if there's something, you can do it tomorrow, right?" Let's just stay for one night! Let's do our part as the host!"

Xia ruofei didn't know what to say. After all, he had good intentions. He couldn't possibly say that he had to send his two girlfriends back to China in the middle of the night ...

"Daddy, mommy, master really has something to do. He can't stay here for the night. But ... Master, you can stay and have something to eat before you leave. You can still make it in time, right?" Tang Haoran said.

Xia ruofei ruffled Tang Haoran's hair and said with a smile, "Haoran has personally asked us to stay, so let's have a few bites before leaving!"

They had already set up a banquet and they had waited for an entire night. If Xia ruofei did not even enter the room and left after sending Tang Haoran off, it would be a little unreasonable.

Hearing his son's words, Tang Yitian hesitated for a moment, then reluctantly said, "Alright then! If you don't want to stay, then don't, but we've agreed that you have to accompany me for a few drinks later!"

Xia ruofei laughed and said, "no problem!" I'll accompany you tonight!"

"How can I not know your alcohol tolerance?" Tang Yitian forced a smile. This is giving up my life, right?"

After everyone heard this, they couldn't help but burst out laughing.

The group walked into the exquisitely decorated restaurant and took their seats on both sides of the long dining table.

Under the Butler's arrangement, all kinds of delicious food were quickly served. There were also two bottles of red wine from Tang Yitian's collection. They were all opened and poured into the decanter.

As expected, Tang Yitian and Jennifer didn't ask where Xia ruofei had taken Tang Haoran or what he had done. They only chatted about family affairs, including some things in the Chinese circle in Australia and some business matters.

Tang Yitian and his wife were more cheerful and easy – going, so the atmosphere of their conversation was always good.

Before he knew it, he had finished the two bottles of red wine and the small jar of yellow rice wine.

Xia ruofei's expression didn't change, but Tang Yitian was already a little tipsy.

Xia ruofei looked at the time. They had been having supper for almost two hours. It was almost 10 p.m. Local time. Tang Haoran should be resting.

Thus, he decisively got up and left.

Tang Yitian was a little tipsy as he asked, "Ruofei, it's so late ... At least let me send you a car! This Manor is in the wilderness ..."

"Don't worry about it, daddy. Master has his own way!" Tang Haoran quickly said.

Xia ruofei laughed and said, "Haoran is right. You guys should rest!" Don't mind us ..."

Although he said that, Tang Yitian's family still took the electric car and sent Xia ruofei's group of three to the entrance of the manor.

Xia ruofei reminded Tang Haoran to train harder. Then, he waved goodbye to Tang Yitian's family of three and walked into the night with Song Wei and Ling Qingxue.

Xia ruofei took out the black flying boat as soon as they entered the small forest near the manor. The three of them boarded the flying boat and flew back to Huaxia.

Song Wei asked Xia ruofei to bring out the tea set and the tea leaves while she boiled water for everyone.

“Ruofei, it’s not a big deal to stay a night in Sydney. We’ve all taken leave. There’s no need for us to travel overnight!” Song Wei said with a smile.

Ling Qingxue pursed her lips into a smile and said, “he probably wants to send us back earlier!” I don’t want to affect his fun outside ...”

Xia ruofei didn’t know whether to laugh or cry, “I didn’t think that way.” However, there’s a reason why I insisted on rushing back tonight. ”

“I told you!” Ling Qingxue smiled and said, “tell me the truth!”

Xia ruofei blinked at the two of them and said, “Because I’ve also prepared gifts for you! I can’t wait to take it out and give it to you. It’s not convenient for you to spend the night in big brother Tang’s Manor ...”

“Really?” Ling Qingxue looked into Xia ruofei’s eyes and asked, “don’t tell me you came up with an excuse on the spot!”

“Where’s the most basic trust between people?” Xia ruofei pretended to be angry and said, “look! Isn’t this a gift that I’ve carefully prepared?”

With that, Xia ruofei flipped his hand and two storage rings appeared in his palm.

Song Wei and Ling Qingxue were stunned when they saw him. Then, they realized who he was.

“Is this the storage ring you bought from the auction?” Song Wei asked in surprise.

Xia ruofei nodded and said, “that’s right!” Just nice, one for each of you! The storage space of the two rings is the same, but the style is slightly different. You can choose!”

With that, Xia ruofei placed the storage ring on the coffee table.

Song Wei and Ling Qingxue immediately gathered together, holding a storage ring in their hands. They couldn’t bear to part with it.

...

In the end, the two of them each chose one.

Ling Qingxue tested the storage ring on her finger as she asked, “RUO Fei, how do I use this storage ring?”

Xia ruofei smiled and said, “this shows the importance of cultivating spiritual power!” There’s a miniature formation on each storage ring. When you use it for the first time, you’ll need to brand it with your spiritual power. This way, only you can open the storage ring. ”

This was the simplest use of spiritual power. Song Wei and Ling Qingxue’s spiritual power cultivation was more than enough.

After Xia ruofei finished, he taught them how to place a spiritual mark on the miniature formation of the storage ring. Both of them succeeded in one try.

Then, Ling Qingxue immediately sensed the space within the storage ring. She cried out in surprise, "Waa! Such a large space, and he could store and withdraw things at will? That's too convenient!"

Xia ruofei smiled and said, "a friendly reminder. In theory, you can't store living things." Of course, you can store it if you want, but the living thing will die after you store it ..."

#### Chapter 3058 Overbearing wealth (1)

Storing and retrieving items in the storage ring was very simple. A Qi refining stage cultivator's mental power was already enough to use. Basically, as long as they thought about it, they could conveniently store and retrieve items.

Xia ruofei had only taught them once, and they had mastered it easily.

Thus, the two of them were like children who had just gotten their favorite toy. They kept trying to store their personal items in and out.

Even song Wei, who had always been calm and steady, revealed a rare child – like smile.

Obviously, this gift made both of them very satisfied and surprised.

In fact, they didn't have many things with them. It was just a girl's small bag, which contained a mobile phone, a small mirror, some simple cosmetics, sunblock, and so on. It didn't take up much storage space at all, but they still had a lot of fun.

Xia ruofei stood at the side and looked at the two of them with a smile. He had a gift for them, but seeing that they were having so much fun, he was not in a hurry.

Anyway, it was still a long flight from Australia to China!

After the two of them had their fun and put all their belongings into their storage rings, Xia ruofei smiled and asked, "Little Sisters, are you satisfied with this gift?"

Song Wei and Ling Qingxue both nodded.

If Xia ruofei had not told them that their phones could not receive signal in the storage ring, they would not have kept their phones with them. They would have stored everything in the storage ring.

What was there to be dissatisfied about?

"There's another present. I hope you'll like it!" Xia ruofei said with a smile.

"There's a gift?" Ling Qingxue's interest was immediately piqued. "Then hurry up and take it out." Don't keep me in suspense!"

This time, Xia ruofei had really given them a big surprise. A cup of wild tea had directly increased their cultivation by more than one level. They also liked the storage ring very much. So when they heard that Xia ruofei had a gift, they were naturally even more excited.

Xia ruofei laughed as he took out the two flying swords that he had picked out earlier from the spirit map space.

Scholar Yuntai had left a total of five flying swords in the nested space, all of which he was quite satisfied with, and could be said to be his proud works.

Xia ruofei had already picked out two swords that were suitable for girls and was prepared to give them to Song Wei and Ling Qingxue.

Although the two of them probably wouldn't use flying swords and wouldn't fight with cultivators, it was good to have two high – Quality flying swords for self – defense. After all, they both had their own things to do and Xia ruofei couldn't be by their side to protect them all the time.

Very coincidentally, these two flying swords were also a set. The swords were thin and soft, and at a glance, it was obvious that they were meant for female Xiu.

Moreover, the names of the two flying swords were engraved on them. One was called "autumn water" and the other was called "Yiren." The names were also very pleasing.

Hence, when Xia ruofei was counting his gains, he decided to give the two flying swords to Ling Qingxue and Song Wei as soon as he saw them.

After Xia ruofei took out the two flying swords, they hovered quietly. The slender swords exuded a sharp aura, as if they could cut one's soul apart. It was a daunting sight.

When Song Wei and Ling Qingxue looked at the flying sword, they couldn't help but be a little dazed.

"This ... This is a flying sword?" Ling Qingxue's eyes widened as she asked, "are these for us?"

They had seen Xia ruofei's Blue immortal sword before, so they were not too unfamiliar with flying swords.

However, from what they knew, only cultivators at the Golden core stage were qualified to use flying swords. They were still very far from the Golden core stage.

Xia ruofei nodded with a smile. "That's right. Each of you will have a flying sword. I'll give it to you for self – defense. How about it?"

"We can also use flying swords?" Ling Qingxue asked with some uncertainty.

"Why can't I? A Qi condensation cultivator's psyche is enough to control a flying sword, but the range isn't as wide as a golden core cultivator's. In addition, Qi condensation cultivators can't ride a flying sword!" Xia ruofei laughed and said, "and your spiritual power is much stronger than cultivators of the same level. You're only at refined Qi Level 5, which is enough to use the flying sword!"

Then, Xia ruofei said, "these two flying swords, one is called autumn water and the other is called Yiren. The same old rules. You guys can discuss among yourselves. Each of you can choose one!"

Song Wei and Ling Qingxue nodded in unison, then carefully approached the flying sword.

These two flying swords were very suitable for girls to use. Because they were a set, their appearance was similar. They were both light green in color, and he didn't know what material they were made of.

Xia ruofei estimated that many of the materials used to make flying swords could not be found in the current cultivation world.

Song Wei and Ling Qingxue discussed in low voices for a while. In the end, Ling Qingxue chose the autumn water sword, while Song Wei chose the sword of her lover.

“RUO Fei, this flying sword ... How are we going to use it?” Ling Qingxue asked, a little scared.

The flying sword was extremely sharp, and because it was controlled by spiritual power, there was no hilt at all. The whole body was a sword edge, and it also emitted a trace of cold aura, which was indeed a bit daunting.

Xia ruofei smiled and said, “it’s actually very simple. It’s similar to a storage ring. First, you have to imprint your own spiritual imprint on the flying sword. Then, you can store the flying sword in your dantian. When you need to use it, it can appear with a thought and you can control it with your spiritual power!”

Chapter 3059 Overbearing wealth (2)

“Put ... Put the flying sword into your body?” Ling Qingxue couldn’t help but take a deep breath. “It ... It won’t cut us?”

Xia ruofei chuckled. “After you’ve branded it with your spiritual imprint, you’ll be the master of the flying sword. The flying sword can’t hurt its master. Don’t worry!”

Even so, Song Wei and Ling Qingxue were still a little afraid. Xia ruofei decided to teach them how to brand their spiritual power on the flying sword first.

When the spiritual mark successfully hit the flying sword, the two of them immediately felt a sense of connection with their respective flying swords.

At this moment, Xia ruofei taught them how to keep the flying swords in their bodies.

Although they were a little scared, they still followed Xia ruofei’s instructions carefully out of absolute trust. As expected, the flying sword was taken in. At the same time, the two of them immediately felt that the flying sword was already nourishing their dantian.

Both Song Wei and Ling Qingxue felt that this was a fresh experience and tried to summon their flying swords.

After trying a few times, the two of them no longer felt that kind of fear.

Next, Xia ruofei taught them how to use their spiritual energy to control the flying sword.

He didn’t teach them any profound sword techniques. After all, learning sword techniques wasn’t something that could be done in a day. Learning how to use spiritual power to control flying swords first would at least give them a certain level of self – Protection.

In reality, this was more than enough. The chances of Song Wei and Ling Qingxue fighting against cultivators were very low.

Very quickly, Song Wei and Ling Qingxue had grasped the basics of controlling the flying sword. They began to carefully test it out.

The space in the cabin was relatively small, and the flying boat was so precious. If it was damaged by the flying sword that could cut through iron like mud, it would be enough to make Xia ruofei's heart ache. So, he simply brought Song Wei and Ling Qingxue to the deck and let them practice.

In the beginning, the two of them were not used to the feeling of using their spiritual power to control the flying sword, so they seemed a little clumsy when controlling it.

However, after practicing for a while, they gradually became familiar with it.

The trajectory of the flying sword also became more natural.

Xia ruofei laughed and said, "I think it's fine!" With these skills, you will definitely have no problem protecting yourself!"

In fact, in the modern cultivation world, there were probably only a few Qi refining cultivators who could own a flying sword.

Even Qi condensation cultivators who were slightly stronger than Song Wei and Ling Qingxue wouldn't be able to do much against the two of them.

If they were to encounter an Aurous core stage cultivator, it would not matter whether the other party had a flying sword or not. Song Wei and Ling Qingxue would definitely not be able to defeat them.

Of course, Xia ruofei would not let that happen.

"So this is what it feels like to control a flying sword!" Ling Qingxue put away the flying sword reluctantly and said with a smile, "I suddenly thought of the plot in the Shu mountain swordsman! Wei Wei, don't you think we look like swordswomen?"

Song Wei also kept her flying sword into her dantian. Then, she pursed her lips and smiled, "You're more like it ..."

Ling Qingxue felt a little embarrassed. She held Song Wei's hand and said, "Weiwei, you also felt very cool when you were riding the flying sword! If she were to change into an ancient costume, she would look like a female swordsman!"

"That's the end of the commercial toasting!" Xia ruofei smiled and said, "regarding the flying sword, I still have to give you a few words of advice."

"Speak! This little girl is all ears!" Ling Qingxue said playfully.

Xia ruofei said, "first of all, only cultivators can see this flying sword. Ordinary people can't see it. So, when you use it in the secular world, you need to be careful. However, you don't have to avoid ordinary people."

"I understand, I understand. What else?" Ling Qingxue asked.

"Also, don't kill innocent people. Try to avoid using flying swords against ordinary people unless the other party is really guilty of terrible crimes and deserves to die." Xia ruofei said, "it's a taboo in the world of cultivation to use the methods of cultivators against ordinary people."

Xia ruofei quickly added, "of course, I believe that you won't do it either. I'm just giving you a reminder. After all, flying swords are also weapons. They're really sharp too. You must be careful when you use them!"

"En!" Ling Qingxue nodded her head seriously and said, "don't worry! We mainly use flying swords for self – defense!"

"It can be used when needed, even if it's just to cut melons or vegetables. However, you must be careful when using it." Xia ruofei said with a smile.

Song Wei and Ling Qingxue laughed so hard that they were trembling. Ling Qingxue said, "Who would use such a precious flying sword to cut vegetables? Aren't you being too funny?"

Xia ruofei thought to himself, "maybe master Yuntai has done this before. After all, this flying sword is not very precious to master Yuntai. He can make it himself!"

Ling Qingxue continued to ask, "we've also accepted the flying sword. RUO Fei, do you have any other gifts?" It's better to take it out in one go!"

Xia ruofei didn't know whether to laugh or cry, "isn't one flying sword and one storage ring enough for each of us?" I'm almost empty of money! Where would you find any present?"

"That might not be the case." Ling Qingxue giggled and said, "usually, people who cry about being poor might not be really poor! You must have gained a lot from the auction this time!"

On the other hand, Song Wei was watching the show with a smile. Ling Qingxue had a more lively personality. Sometimes, she would bicker with Xia ruofei, and Song Wei found it interesting to watch.

Xia ruofei thought about it seriously and said, "Now that you mention it, I do remember ... I still have something to give you!"

"Ah? There's really a gift?" Ling Qingxue couldn't help but be stunned.

"Ruofei, Qingxue was just joking with you!" Song Wei said. You've already given us a huge surprise, so you should keep more of these cultivation resources for yourself. After all, your cultivation level is much higher than ours, so you'll definitely consume more. "

Xia ruofei chuckled. "It's really not a gift this time. It's just a consumable item for your cultivation!"

With that, Xia ruofei flipped his hand and took out two crystals from the spirit map space. He handed them to Song Wei and Ling Qingxue.

He smiled and said, "here!" One for each person. This was an origin crystal. It contained much more spiritual energy than spirit crystals. Ordinary golden core cultivators would not be willing to use it! In the future, you will use origin crystals for cultivation. This way, the efficiency will be higher!"

Song Wei was shocked and said, "since this is for golden core cultivators, you should keep it for yourself!" The spirit crystals you gave us were already quite useful, but this ... Is origin crystal? It would be a waste to give it to us!"

Xia ruofei smiled and waved his hand. "If it was in the past, I might have felt that it was a waste. After all, we were poor at that time." This time, he had indeed made a fortune! I have quite a few origin crystals in my hands now! Such a good thing, of course, I have to give it to you first! Take them all! I'm already not lacking origin crystals!"

"This ..." Song Wei and Ling Qingxue looked at each other, then said, "then we'll help ourselves!"

Xia ruofei laughed and said, "what's there to be polite about?" What's mine is yours!"

"You're the one who said that!" Ling Qingxue said.

"I did!"

"If so, you have to send me wherever I want to go by airboat!" Ling Qingxue said, "after you take the airboat, you don't even look at the plane anymore, okay? It's slow, and sometimes it's very bumpy. There's also a safety issue ... I hate it!"

Xia ruofei laughed and said, "no problem!" Even if I'm thousands of miles away, as long as you call me, I'll immediately fly over to pick you up!"

"This performance is not bad!" Ling Qingxue said, satisfied.

Xia ruofei laughed and spread his hands. "I really don't have any gifts this time. I've already brought out everything that should be brought out."

...

Ling Qingxue and Song Wei were laughing at the side. At the same time, they felt a little embarrassed. It seemed like they had come out to loot Xia ruofei and then returned home.

On the return journey, Xia ruofei flew to the three mountains first according to the distance.

They had spent a lot of time studying the flying sword and the storage ring. Therefore, after the three of them chatted for a while in the cabin, the swift Boat had already crossed the Strait and was approaching the city of San Shan.

Chapter 3060 A night in the capital city (1)

Xia ruofei skillfully maneuvered the flying boat to a stop on the rooftop of his villa.

Ling Qingxue looked at Xia ruofei with some reluctance and said, "Ruofei, I'll go back first!"

"Take care of yourself when I'm not around," Xia ruofei nodded.

"I know!" Ling Qingxue said, "remember to pick a cultivation technique for us as soon as possible. Otherwise, we won't be able to cultivate when we're not with you ..."

"Mm! I'll carefully choose a cultivation technique that suits you!" Xia ruofei nodded seriously.

Then, Xia ruofei looked at Song Wei and asked with a smile, "Wei Wei, do you want to play here too? I'll also visit your parents. "

Song Wei thought for a while and shook her head with a smile, "Forget it. If I suddenly appear in front of them, won't they be shocked? I thought something had happened to me, running home from Beijing so late at night ..."

Xia ruofei smiled. "You're right. I'll let it go this time. I'll send you back to the capital!"

"En!" Song Wei nodded.

Ling Qingxue said, "then I'll be leaving!" Bye Bye!"

Xia ruofei and Song Wei sent her off to the deck. They watched as Ling Qingxue jumped off the airboat and stood on the rooftop of Xia ruofei's house. The two of them waved at Ling Qingxue before Xia ruofei returned to the cabin and steered the airboat to the capital.

It only took about half an hour to fly from the three mountains to the capital.

Xia ruofei and Song Wei were chatting in the control room. Song Wei was a very gentle girl. Xia ruofei could feel calm and peaceful when he was talking to her.

Before he knew it, he had arrived at the capital.

"Wei Wei, the dormitory is closed, right?" Xia ruofei said, "it's the middle of the night ... Why don't we spend the night on this flying boat?" You'll go down when the sun rises?"

"I won't waste your time," said Song Wei with a smile. "Aren't you going back to Peach Blossom Island?" Let's head straight to Yujing heaven city!"

Seven years ago, when Song Wei was admitted to Capital University, Song Qiming and his wife had bought her a single apartment in Yujing Sky City, which was near the school. However, Song Wei spent most of her time living on campus, so the apartment was basically empty.

Of course, she would go back for one or two days a week, so the hygiene was well maintained and there was no problem with moving in directly.

"Then why don't you just take me in!" Xia ruofei stretched lazily and said, "I've been running here and there the whole day. The total distance I've flown is enough to circle the earth once. I'm so tired ..."

Song Wei blushed and asked, "Aren't you in a hurry?"

"There's nothing urgent!" Xia ruofei looked at Song Wei and said, "besides, we haven't been together for a long time. Don't you miss me?"

Song Wei lowered her head and looked at her feet. She said in a low voice, "I want to! But, I've made an appointment with Qingxue ..."

"Your agreement has long since ceased to exist except in name!" Xia ruofei muttered.

"What are you talking about?" Song Wei raised her head and stared at Xia ruofei.

Xia ruofei quickly said, "no, no, no!" What I mean is ... This is also a form of subjugation! I don't have anywhere to go in the middle of the night. Do you have the heart to let me travel alone at night? Just treat it as taking in a poor person like me for a night, is that okay?"

Song Wei burst out laughing and said, ""This man's mouth! People who didn't know you would think you were really that pitiful! If you really want to find a place to sleep, liuhai Lane is such a big siheyuan! You can sleep in whichever room you want, right?"

Xia ruofei chuckled. "Don't mention the siheyuan. Just tell me. Are you going to take me in or not?"

"I'm scared of you!" Song Wei pursed her lips and said, "if you want to go, then follow me! You have legs, and your cultivation is higher than mine. Do you think I can stop you?"

"Yes, sir!" Xia ruofei called out happily.

He hummed a song as he steered the flying boat towards Yujing Tian city, which was near Capital University.

After a while, the airboat stopped above the rooftop of Song Wei's apartment. The two of them jumped off the airboat. Xia ruofei kept the shrunken airboat into the spirit map space, then held Song Wei's hand and walked to the exit of the rooftop.

Soon, the two of them returned to the apartment on the 19th floor.

Although it was a single apartment, the layout was quite good. Because the floor was designed to be higher, it was separated by half a floor, forming a semi – Open bedroom on the second floor.

Below the bedroom was the kitchen, bathroom, and so on. Further in was a small living room that was connected to a balcony.

It could be said that even though a Sparrow was small, it had all the essentials.

"I'm going to take a shower. You can rest in the living room. There's some drinks in the fridge. Take them yourself!" Song Wei said as she entered the house.

Xia ruofei put his arm around Song Wei's shoulder and smiled. ""That ... Why don't we shower together? To increase efficiency ..."

Song Wei blushed and glared at Xia ruofei. She said, "Don't even think about it! Go to the living room obediently and wait! By the way, I didn't prepare any clothes for you. You have your own storage space, so you should have some clothes, right?"

"What if there isn't?" Xia ruofei smirked. "Can I wear yours?"

"Why are you so bad!" Song Wei said coyly, "you settle it yourself! If you really can't, I can lend you my nightdress, hehe ..."
