

God tier Farm 3091

Chapter 3091 The newbie, Chen Xuan (1)

Chen Xuan's rented house was about three kilometers away from the current headquarters of the Paradise Corporation. This distance was already very close. He decided to ride a public bike to and from work every day. Since Qin Zhuan was here to train, he had to experience the life of an ordinary person in all aspects.

This was a single apartment in a Commercial – Residential Building. It wasn't very new, but it was very clean from the inside out. The layout of one bedroom, one living room, one kitchen, and one bathroom was more than enough for Chen Xuan to live alone. A small space wasn't a problem.

Although it was called a one – bedroom and one living room, the bedroom was actually an open space. The small part that was connected to the bedroom was considered the "living room."

The most satisfying part of the apartment was the relatively spacious bay window. As it was located on a higher floor, one could enjoy the scenery of the San Shan city from the bay window.

He felt that it was not bad to sit here and cultivate.

The rent for this small apartment was 1800 Yuan a month. For a new programmer, this was considered a relatively luxurious expense.

However, Chen Xuan still decided to rent this apartment after a round of comparison.

This was because his cultivation could not be stopped, or else his cultivation would not progress but regress instead. Therefore, the requirement for privacy in his living space was relatively high.

He would rather save up in other areas and find a relatively good house.

Chen Xuan spent the entire day tidying up his room. He then went to the nearby supermarket to buy some daily necessities, laid out new bed sheets, and stuffed the refrigerator left behind by the landlord to the brim.

After he was done with his work, Chen Xuan headed to the small bathroom to take a shower. He changed into the casual clothes he had just bought from the supermarket and laid down on the sofa in the living room. To his surprise, Chen Xuan felt a sense of satisfaction.

The next day, Chen Xuan woke up early in the morning. He picked up a public bike near the neighborhood and slowly rode it in the direction of the peach blossom building.

Yesterday evening, Chen Xuan took the opportunity to take a stroll and did some research on the public bikes that were available in the neighborhood. He then chose a brand that was of better quality and had a better supply of bikes. He also topped up a monthly credit card with an unlimited number of uses in advance, which saved him quite a bit of money!

After arriving at the Paradise Corporation, Chen Xuan first went to the Human Resources Department to complete the employment procedures.

By now, the Paradise Corporation was already very formal and all the processes were standardized. Furthermore, Chen Xuan had a full set of real identities, including a bank card and everything else. So, he completed the procedures very quickly and obtained a green employee pass that represented his probationary period.

This worker's card was very useful. When taking the elevator, different levels of worker's cards had different privileges. In addition, when checking in to work, eating in the cafeteria, and other scenes, this worker's card was used. It was also the so – called one – Card.

After settling the employment procedures, Chen Xuan, accompanied by a Human Resources Specialist, headed to the development Department.

The development Department was a newly established Department, and the biggest project in the near future was the construction of Paradise Mall.

The head of the development Department was Yang Xincheng. He was the one who had interviewed Chen Xuan the day before yesterday. He was also a new head.

Yang Xincheng had a very good impression of Chen Xuan. He was elated to see that Chen Xuan had finally completed his employment procedures. He personally brought Chen Xuan around the research department.

Most of the staff in this newly established Department were technical staff transferred from other departments, and there were also a large number of newly recruited staff.

The office area had just been allocated to them. Even though everyone had just moved in, the office was still in good order. Chen Xuan could also feel that everyone was filled with energy. Clearly, this team was full of energy.

Everyone was extremely interested in the fact that their boss was personally leading a newbie who was familiar with the territory. One after another, they cast curious glances at Chen Xuan.

Yang Xincheng didn't introduce Chen Xuan to everyone in a serious manner. Instead, he took Chen Xuan around for a while before placing him in a project team.

According to the needs of the Peach Garden Mall project, the development Department divided into many project teams, and each team was responsible for one task.

In fact, most of the people here had only arrived a few days earlier than Chen Xuan. However, some of them had many years of work experience, so they were more valued.

Of course, the person – in – charge of each project team was basically an old employee of Paradise Corporation.

"Taoran, Chen Xuan is in the field of PhD. Haven't you been complaining about the lack of manpower? I personally interviewed Xiao Chen. He's definitely good in terms of skills! I'll leave him to you!" Yang Xincheng said to a balding man in his thirties with a smile.

In fact, other than a backpack and a plaid shirt, a programmer's hair was also very prominent. Because they were often in a state of overusing their brains, in addition to the frequent scratching of their heads when they encountered bugs that could not be passed after repeated debugging, many programmers

had sparse hair. They might not be balding, but the height of their hairline was basically proportional to their age.

The person in charge of Chen Xuan's project team, Tao Ran, was completely bald. His head was shiny and his hair was sparse. However, he still persevered and tried his best to gather the hair around him, hoping to create the illusion that there was a small amount of hair in the middle ...

Tao Ran stopped typing and raised his head. He adjusted his glasses and looked at Chen Xuan. "President yang, thank you very much! I'm seriously short of manpower here, you're sending charcoal in the snow!"

Chapter 3092 The newbie, Chen Xuan (2)

Then, Tao Ran looked at Chen Xuan and asked, "You're Chen Xuan, right?"

"Yes, you can call me little Chen," Chen Xuan replied with a smile.

On the surface, Tao Ran, who was in his thirties, could be the uncle of Chen Xuan, who was in his forties.

You can't judge a book by its cover.

"Okay, okay, okay. I'll call you Xiao Chen then." Tao Ran said, "you've been in this business for years, right? Have you done any big projects before?"

Even though Chen Xuan looked a lot younger than his actual age, he didn't look like a young man in his early twenties. He looked like he was in his mid – twenties, and most programmers at his age wouldn't have just debuted. Otherwise, they would be left behind by the younger generation in a few years. For programmers above the age of 35, unless they were promoted to a management position, the elimination rate was extremely high if they were purely focused on technical skills.

This was why Tao Ran had assumed that Chen Xuan was at least a skilled worker.

Yang Xincheng cleared his throat and said, "ERM ... Taoran, Chen Xuan doesn't have much work experience. You have to guide him ..."

Yang Xincheng immediately said, "But his technique is very good! He's so fast at coding!"

Tao Ran couldn't help but be speechless. He originally thought that yang Xincheng had sent him a skilled coding expert, but it turned out to be an older intern.

Tao Ran revealed an awkward expression and said, "President yang, you know ... Our group has the most important task. I'm afraid we don't have the energy to take care of the interns! Why don't you ... Put Xiao Chen in another group?"

Before the development Department was set up, Tao Ran and yang Xincheng were in the same Department, so they were yang Xincheng's old subordinates. That was why they dared to bargain with their superior.

Yang Xincheng didn't know whether to laugh or cry, "Tao Ran, you didn't think that I'd force an intern for you to take care of, did you?" What are you thinking? I've already said that I personally interviewed Chen Xuan. He's extremely skilled! He may be lacking in work experience, but as long as you use him

properly, he'll soon be able to play an important role. " "Is that so?" Tao Ran obviously didn't believe him. He laughed drily and said, "President yang, since little Chen's skills are not bad, why don't you just put him in old bull's group?"

Yang Xincheng's face darkened as he said, "kid, are you itching for a beating?" The reason why I assigned Chen Xuan to your group was because I saw that your mission was too heavy, so I wanted to add a strong helper to your team! You still dare to refuse?"

"I wouldn't dare!" Tao Ran quickly said with a smile.

Yang Xincheng waved his hand and said, "it's settled then!" Take care of Chen Xuan personally during this period of time! You're not allowed to bully me!"

"Alright, alright!" Tao Ran said, "don't worry, President yang. I'm such an honest person. Why would I bully others?"

Yang Xincheng ignored him and turned to Chen Xuan. "Chen Xuan, show this brat what you're capable of when you have the chance!" The elder roared.

Chen Xuan smiled. "You must be joking, chief yang. I'm here to learn from all of you seniors. Team leader Tao is naturally my role model as well."

"This attitude is even better! The company is now focusing on developing the online shopping center, and there's a lot of potential in the technical area." Yang Xincheng said.

After giving Chen Xuan a few words of encouragement, he left Chen Xuan in the research department's office and returned to the research department. He had a lot of things to do as a new official, and the fact that he could take the time to accompany Chen Xuan showed that he placed a lot of importance on him. After settling Chen Xuan down, he naturally had to return to work as soon as possible.

After Yang Xincheng left, Tao Ran didn't give Chen Xuan any attitude. However, his attitude wasn't exactly warm either.

After arranging a work desk for Chen Xuan, he had someone bring Chen Xuan to the logistics department to collect his computer and some office supplies.

Perhaps it was to make it easier for the programmers to work overtime, the development Department was equipped with laptops. Chen Xuan received a brand new ThinkPad.

As for the work desk, a newbie during the probationary period naturally wouldn't get any good seats.

Chen Xuan's work desk was near the door, and it was facing away from the office.

In this position, there was no possibility of slacking off. Otherwise, it would be difficult to detect when the leader was behind him.

Chen Xuan quickly tidied up his work desk, activated the system on his new computer, and installed the commonly used software. After everything was ready, he walked over to Tao Ran's work desk and asked for a mission. Yang Xincheng didn't know whether to laugh or cry, "Tao Ran, you didn't think that I'd force an intern for you to take care of, did you?" What are you thinking? I've already said that I personally interviewed Chen Xuan. He's extremely skilled! He may be lacking in work experience, but as

long as you use him properly, he'll soon be able to play an important role. " "Is that so?" Tao Ran obviously didn't believe him. He laughed drily and said,"President yang, since little Chen's skills are not bad, why don't you just put him in old bull's group?"

Yang Xincheng's face darkened as he said,"kid, are you itching for a beating?" The reason why I assigned Chen Xuan to your group was because I saw that your mission was too heavy, so I wanted to add a strong helper to your team! You still dare to refuse?"

Chapter 3093 You're awesome (1)

After returning to his desk, Chen Xuan sat there for a while before receiving the project document from Tao Ran in his email.

Thus, Chen Xuan opened up a document on his computer before heading over to the water dispenser to get himself a glass of water. Then, he sat down in front of his computer and started studying the document.

About an hour later, before lunch time even arrived, Chen Xuan had already finished reading through all of the documents.

Chen Xuan's heart was filled with doubt. These documents were very simple! There was nothing difficult to understand, so why did Tao Ran give him a few days to learn?

Chen Xuan was about to stand up and tell Tao Ran that he had finished reading the project document and that he could start working.

However, he thought about it again. Perhaps this was the work rhythm of ordinary people in the secular world? He was here to gain experience, so of course, he wanted to experience the life of an ordinary programmer. So, it was better not to look for Tao Ran in such a hurry. It seemed more appropriate to work according to his arrangements and pace.

Therefore, Chen Xuan dispelled the idea.

However, there was only so much content in those documents, and it was meaningless to read them over and over again!

Chen Xuan suddenly felt that this was not an easy time to pass.

Then, he suddenly thought of the two programming languages that Tao Ran mentioned, Java and Python. He muttered in his heart, "Since he had nothing to do, why not learn these two languages?"

However, Chen Xuan had no idea. If he were to learn Java and Python, would he be considered to be disobeying his father's orders?

The night before he left, Chen Nanfeng had told him that he could only find a job with the help of PhD.

Chen Xuan mulled it over for a long time. In the end, he felt that this shouldn't be considered disobeying orders.

First of all, Java and Python belonged to the skills of programmers. They did not go beyond the scope of computer technology experience in the secular world. This was fundamentally different from the knowledge he had learned about business management, financial investment, and so on.

Secondly, after he had been hired, he had learned more knowledge according to the leader's requirements. How could it be considered disobeying orders? Even if it was a cultivator, it was impossible to only cultivate one cultivation technique or secret skill, right? It was the same for ordinary people in the secular world. Of course, they had to constantly improve!

With that thought in mind, Chen Xuan's thoughts cleared up.

So, he began to search for Java and Python tutorials on the internet and began self – learning.

In fact, he had self – taught his PhD. He had not signed up for any training classes. He was very confident in his self – learning ability.

Tao Ran busied himself at his desk. Occasionally, he would stop to look at Chen Xuan, who was standing near the door.

Every single time, he would see Chen Xuan's eyes glued to the computer screen.

Tao Ran couldn't help but secretly nod, "although this young man has no work experience, his attitude is good. At least he's serious in his studies!" If his comprehension ability was good, there was no harm in bringing him along. But ... He seemed to be a little too old! Programmers also relied on their youth to survive, so they probably didn't have much potential for development.

Of course, these thoughts only flashed through Tao Ran's mind. He was now in charge of a project team and had a lot of work on hand. How could he pay attention to a newcomer? Soon, he threw himself into the great coding career.

Meanwhile, Chen Xuan sat in his corner, quietly learning Java and Python from the tutorial on the internet.

The other members of the project team were also busy with their own work, and everyone was living in peace.

Just like that, Chen Xuan's mundane training began from a small corner of the Paradise corporation's Development Department.

Time passed by slowly and steadily. Chen Xuan lived a very disciplined life every day. Be it at the office or at his rented apartment, he focused his energy on learning Java and Python.

Tao Ran seemed to have forgotten that Chen Xuan was still part of the project team. He had not looked for Chen Xuan for the past few days. Chen Xuan, on the other hand, was so engrossed in his studies that he was happy to be free of any distractions.

Three days had passed.

Chen Xuan felt that it should be enough. It was just a few simple project documents. He had already 'studied' them for three days. He should be able to meet Tao Ran's requirements.

Of course, the most important thing was that Chen Xuan had more or less mastered Java and Python in the past three days. He felt like there was nothing more to learn.

He even learned about JS and databases. He even wrote a few small programs in Java to practice. It felt pretty good.

Hence, he took a small USB and walked to Tao Ran's work desk.

"Group leader!" Chen Xuan called out.

Tao Ran was as busy as usual. When he saw Chen Xuan walking over, he was slightly taken aback before he said,""Chen Xuan! What's the matter?"

Chen Xuan's face darkened. Did Tao Ran forget about him?

The truth was, Tao Ran really didn't have the time to care about Chen Xuan. Yang Xincheng had been pressing for progress for the past two days, and he was extremely busy.

"Team leader, I've almost finished reading the documents you sent me," Chen Xuan said. I see that everyone in the group is quite busy, and it's not good for me to be idle alone. Why don't you give me some tasks?"

"You're done?" Tao Ran was a little absent – minded."Then ... I'll learn more!" Especially some code rules, he had to thoroughly understand them! Our Paradise Mall project is a collaboration between many teams, so the code must be standardized, otherwise it will be easy for problems to arise. "

"I've already memorized it. " Chen Xuan insisted,"I feel that it's better to do some practical work. Besides ... Don't we still have you, team leader, to help us? There shouldn't be any problems. "

Chapter 3094 You're awesome (2)

Chen Xuan didn't want to continue his studies at all. He was here to gain experience, not to attend university. If he couldn't come into contact with the actual work, then what was the point of coming to the company every day to work and idle?

If he wanted to have nothing to do, he might as well stay in the first heaven society! After all, the cultivation environment there was better.

Tao Ran laughed and said,"Chen Xuan, young people shouldn't aim too high. Even an experienced programmer wouldn't be able to understand the few documents I sent you without a week's time. You don't have any actual work experience. How could you have learned all of them in just three to four days?"

"Team leader, my memory has always been good. I really did remember everything." "You can test me if you don't believe me!" Chen Xuan replied.

Tao Ran couldn't help but smile bitterly. 'Test you? I'm a project leader now, why would I play such a childish game?

"There's no need for that ..." Tao Ran waved his hand.

At this moment, Chen Xuan spoke up. "Oh right, team leader. I've been looking through our project document for the past two days regarding the back – end construction of the mall. Based on my own understanding, I've come up with a preliminary framework. Please give me some guidance when you're free."

"Okay, okay, okay ..." Tao Ran replied absent – minded. Then, his eyes widened and he turned around to glare at Chen Xuan. "What did you say?"

Chen Xuan also found Tao Ran's reaction a little strange, but he still replied honestly, "I've ... Built a preliminary framework for the Commerce city's back end ..."

"How is this possible?" Tao Ran cried out involuntarily, "in just three days, you still have to learn the project document. Even if you don't eat, drink, or sleep, how much work can you do? You're telling me you've built the background framework? Don't tell me you have a problem with your understanding of the word "backstage"?"

Tao Ran's project team was mainly in charge of building the background of the mall.

Paradise Mall only sold paradise company's own products and would not be open to third – party sellers, so the background was not as complicated as those e – commerce businesses. After all, there was no need to develop the seller's background.

However, this involved money transactions, so the security requirements were very high.

In addition, Feng Jing had specifically emphasized during the mobilization meeting after the establishment of the development Department that Paradise Mall had to do the best. Whether it was the front page or the back – end architecture, they had to be excellent.

Although it was a small background, it involved all aspects of content, including the interaction of the data between the front and the back, various interfaces, and the realization of various functions.

Tao Ran and his team had been working overtime these past few days to strengthen the back – end structure.

But now, Chen Xuan was telling Tao Ran that he had spent three days to come up with a framework for it. To Tao Ran, this was no different from a fantasy story.

If he could really do it, was he still human?

Chen Xuan wasn't angered by Tao Ran's suspicions. His expression remained neutral as he passed the USB drive to Tao Ran. "Team leader, I'm inexperienced. I'm sure I've made a lot of mistakes. If you have time, you can give me some pointers so that I can improve!"

Tao Ran looked at the small USB and felt that this was ridiculous.

However, he still took the USB drive and inserted it into his laptop. Even if he wanted to criticize her, he had to do it with reason! Hence, Tao Ran wanted to see what Chen Xuan's so – called back – end framework was.

There was only one folder in the USB drive, and it didn't take long for Tao Ran to find the back – end system framework that Chen Xuan had created.

He opened it and browsed through it briefly. A look of surprise suddenly appeared on his face. Putting everything else aside, at least the logic was very clear, and it did fit the requirements of the background in the project document.

Tao Ran could tell that Chen Xuan had put in a lot of effort in his understanding of the project, regardless of whether he was just a pretty face.

He then gave it a try. Naturally, Chen Xuan had only built a framework. The specific functions had yet to be realized. Otherwise, no matter how heaven – defying Chen Xuan was, he wouldn't have been able to complete it in just three days.

However, even though it was only a framework, Tao Ran could still see many things.

He had a feeling that Chen Xuan's back – end framework was even more logical than the ones that the old programmers in his project team had come up with.

Tao Ran couldn't help but reveal a look of surprise.

Then, he opened the source code skillfully, and his eyes lit up again.

The structure of Chen Xuan's code was neat and tidy, and the logic was clear. Furthermore, it was rather standardized. Just looking at it gave one a comfortable feeling. To a programmer, looking at such code was undoubtedly a form of enjoyment.

Tao Ran was enjoying it.

After reading a few dozen lines, he suddenly came to a realization. He turned to Chen Xuan and said, "This ... This is written in Java?"

Chen Xuan smiled as he nodded his head, "Yes, I am. I think it's more appropriate to use Java to build the website's background. "

"I'm not talking about that!" Tao Ran said, "you ... Didn't you say that you never learned Java?"

"Yup!" "However, after you mentioned it the last time, I've been learning it for the past few days ..." Chen Xuan said.

Tao Ran almost spat out a mouthful of blood. Big brother, You must be joking! He could learn to this extent in three days? I don't believe you! You might as well tell me that sows can climb trees! It was still more reliable than mastering Java in three days.

"Xiao Chen ..." Tao Ran said weakly, "this joke is a little too much! So what if you've learned it, what does it matter? The more the leader understands your situation, the more reasonable the work arrangements will be, right?"

"I've really been ..." Chen Xuan was only halfway through his sentence when he shrugged helplessly. "Alright! I did come into contact with some knowledge related to Java in the past, but it was not systematic and comprehensive enough. These few days, I picked it up and tried it again. "

Hearing that, Tao Ran revealed a look of realization and said, ""This makes sense! Your original foundation must have been pretty good! Otherwise, it would be impossible to achieve this in such a short time!"

Seeing how Tao Ran looked as if he had found out the truth, Chen Xuan could only smile wryly in his heart. However, he wasn't in the mood to dwell on this issue. Whatever Tao Ran said was the truth! As long as I can get to work as soon as possible, it's fine.

Tao Ran continued, "Xiao Chen, this thing is pretty good. I'll take a good look at it first. You can go back to your desk and study!" I'll look for you if I have any problems. "

"Alright then!" Chen Xuan said.

He knew that this matter couldn't be rushed. At least, the semi – finished product he produced had gained Tao Ran's attention. He should be able to get some work arrangements next!

After Chen Xuan left, Tao Ran immediately turned his attention back to the computer screen. He couldn't bear to part with the code that Chen Xuan had written. It was like a bookworm reading his favorite web novel. He couldn't wait to read the latest chapter without sleeping.

With the mouse in his hand, Tao Ran stared at the computer screen with a dull expression.

When he went through the code Chen Xuan had written from start to finish, the shock he felt was indescribable.

If not for the fact that they had come up with the requirements for this platform after much discussion and that it was impossible for it to be the same as the other platforms, Tao Ran would have suspected that Chen Xuan had downloaded it from the internet.

As for spending money to hire someone to do it online, Tao Ran didn't suspect a thing.

The reason was simple. Why would a person who could come up with such an impressive back – end architecture need to take on private jobs online? He would have gone to a large internet company to get a high salary and shares!

After reading the code and studying the architecture, Tao Ran sat at his desk in a daze for a while. Then, he suddenly stood up and shouted to a young man at his desk opposite him, ""Qian bin, call the meeting room immediately. In half an hour, we'll have a meeting with the project team!"

Chapter 3095 Wild tea becomes (1)

The main purpose of this meeting was to study the back – end framework that Chen Xuan had spent three days building.

Of course, Tao Ran also introduced Chen Xuan to everyone. It had been three days since he started work, but Tao Ran had yet to properly introduce Chen Xuan to everyone. The people in the project team only knew that there was an intern in their team. Some of them didn't even know Chen Xuan's name. It was clear how low Chen Xuan's presence was in the beginning.

However, all of this had become a thing of the past.

Tao Ran formally introduced Chen Xuan and told everyone that Chen Xuan was the one who came up with the back – end framework.

The way the programmers in the project team looked at Chen Xuan suddenly changed.

The world of a programmer was actually very simple. If your skills were good, then you were awesome. There was no need to be afraid at all.

If your code was well – written, with few or no bugs, the comments were never confusing, and there were no random twists and turns, then you were awesome, and others couldn't be convinced.

Through the projection, Tao Ran first demonstrated the back – end framework to everyone. After analyzing the structure of the code, he introduced Chen Xuan.

With that, everyone's impression of Chen Xuan was completely different.

And so, Chen Xuan was finally able to integrate into the team in an astonishing manner.

In the following days, Chen Xuan felt that his life was very fulfilling.

The project leader, Tao Ran, was very polite to him and had entrusted him with some relatively important work.

The other programmers in the group were even more respectful to him. Two of the younger programmers even called him “teacher Chen” and asked him questions from time to time.

Of course, Chen Xuan's personality was as easy – going as ever. He didn't look down on Qianqian just because he was skilled. In the secular world, status was nothing to him. Even in the world of cultivation, he was considered to have a prominent status. He was the young sect master of the first heaven society. Before Xia ruofei's sudden appearance, he was still the youngest golden core stage cultivator in the world of cultivation. However, he was always polite to people. He would also not show his arrogance just because the other party's cultivation was low or the sect's strength was weak.

Coming to the secular world to train, Chen Xuan naturally wouldn't put on airs.

His personality, coupled with his “non – mainstream programmer” looks, made him very popular in the project team from the beginning.

With Chen Xuan's help, the progress of the Tao Ran project team was much faster.

Even yang Xincheng praised Tao Ran many times during the middle management meeting in the development Department.

This was because their project team had the most important tasks, and it was easy to delay progress.

Previously, yang Xincheng had urged Tao Ran many times because the progress of the quest was a little slow.

But now, the situation had changed greatly, and their progress was even faster than the other project teams.

All of this was because of Chen Xuan.

After Yang Xincheng understood the situation, he even joked to Tao Ran, ""Tao Ran, you didn't seem too happy when I assigned Chen Xuan to your project team the other day! Do you think I'm a burden to you? Why don't I transfer him to another group to help you reduce your burden?"

Tao Ran quickly waved his hand and said with a bitter smile, ""Old leader, don't laugh at me! This time, I failed to recognize Mount Tai ... No! He had eyes but didn't recognize the great God! Chen Xuan, you can't be transferred away! Otherwise, our project team will never be able to complete the task!"

"You brat, you've learned how to threaten your leader?" Yang Xincheng laughed and scolded.

"I wouldn't dare ..." Tao Ran chuckled. "I'm just telling the truth! "At least 40% of our project team's workload is completed by Chen Xuan. His efficiency is simply too high. Furthermore, his error rate is extremely low. In my memory, there has never been a bug in the code he produced ..."

"Now you know you've picked up a treasure!" Yang Xincheng chuckled. "Chen Xuan is ..."

"I know! I know!" Tao Ran quickly said, "you personally interviewed him! Chen Xuan is a horse that can travel a thousand li, and you are Bo Le!"

"Haha!" Yang Xincheng laughed and said, "Alright, alright! Don't flatter me!"

.....

The Paradise Mall project was progressing in an orderly manner according to the plan, and Chen Xuan was slowly gaining some fame in the company.

Even Feng Jing, Dong Yun, and the other company executives had heard that a young programmer had joined the development Department and that he was very skilled.

While Chen Xuan was training in the peach blossom company, Xia ruofei also spent a peaceful time on the island.

In addition to cultivating every day, he would also go around Paradise Island, including the guard Camp, the airport, and other places. When he had nothing to do, he would drive a boat to the nearby Sea area to play diving and fishing. His days were very pleasant.

Xia ruofei even felt that it would be pretty good if he retired now and continued to cultivate on Peach Blossom Island.

This kind of carefree life lasted for almost half a month.

In addition to the few days before, the two wild tea trees had actually grown for more than 100 years under the dual effects of the time array flags and the Archean realm.

Now, they had already grown into two big trees. The variety of wild tea was indeed strange. It was clearly a tea tree, but it could continue to grow, and could even grow into a towering tree.

Chapter 3096 Wild tea becomes (2)

Although these two wild tea trees were not as good as the one in the first heaven society, which had been growing for at least a few hundred years, they were still 40 to 50 centimeters in diameter and had

luxuriant leaves. Xia ruofei would enter the spirit map space every day. Due to the flow of time, he could see the changes in the wild tea trees every day.

More than half a month had passed. Xia ruofei felt that it was time to try the effects of the wild tea.

Thus, he returned to his room early that night, locked the doors and windows, and set up defenses. Only then did he summon the spirit painting from his palm.

After entering the spirit map space, Xia ruofei used telepathy to call Xia Qing over.

He decided to harvest some of the tea leaves today. After he was done, he would head to the star Seizer sect and ask Luo Qingfeng to find a disciple to test the effects of the wild tea leaves he had transplanted.

He had drunk the first heaven society's wild tea two or three times, so he was quite familiar with its taste.

Xia ruofei felt that the first heaven society's wild tea had an obvious difference from his Dahongpao. It seemed to be more similar to West Lake Longjing tea.

Of course, whether it was in terms of taste or tea fragrance, wild tea was much better than the best West Lake Longjing tea.

Hence, Xia ruofei decided to process the wild tea leaves using the same method that he used to make green tea.

The tools for making tea leaves were already available in the interspace.

Although there were many differences in the production process and methods of rock tea and green tea, many of the tools were universal.

Xia ruofei had asked Xia Qing before and knew that Xia Qing was also good at making green tea Kasaya. It was estimated that immortal Shanhe was also a tea lover, so the spiritual Kasaya he made was also very proficient in the making of various tea leaves.

Since Xia Qing knew how to make it, Xia ruofei was naturally happy to be idle.

In any case, even if he were to do it himself, the quality of the tea leaves might not be as good as Xia Qing's, so why would he add more trouble to himself?

Xia ruofei took Xia Qing and picked some tea leaves from the two wild tea trees. Then, he gave them to Xia Qing and divided them into two batches to make the tea. The tea leaves of the two wild tea trees could not be mixed together so that they could form a control group when testing the effects of the wild tea.

The wild tea leaves were lush, and only a small part was picked this time. After all, it was only for testing!

So, after Xia ruofei handed the task of making tea leaves to Xia Qing, he did not stay in the medium but directly returned to the room in the outside world.

Anyway, even if he failed, he still had enough tea leaves to continue trying.

Furthermore, Xia ruofei couldn't wait any longer. After coming to the outside world, with the time flow being 30 times faster than that of an Archean realm expert, he would be able to see the results of the production very quickly.

Xia ruofei was watching a movie on his computer in the room outside when he received a voice transmission from Xia Qing. "Master, the two batches of tea leaves have been completed!"

Hearing this, Xia ruofei's spirits were lifted. He quickly entered the spirit map space without even stopping the movie that was playing.

"Xia Qing, you've successfully produced it? Complete it in one go?" Xia ruofei couldn't help but ask the moment he entered the Archean realm.

"That's right!" Xia Qing slightly nodded. Master, I followed the traditional method of making green tea step by step. There were no mistakes in the process and no accidents. It was completed just like that. I just don't know if the tea leaves meet the owner's requirements."

Xia ruofei took a look and saw that the two jars in front of him were filled with two taels of tea leaves.

These tea leaves were all flat, and they were placed in a clay pot in a criss – Cross manner.

It looked very similar to the appearance of Longjing tea.

Xia ruofei had seen the wild tea of the first heaven society before. The appearance was indeed similar.

He picked it up and smelled it. The fragrance of the tea was very obvious.

Then, he immediately took out a tea set and skillfully boiled a pot of spirit pond water with a charcoal stove. He then took some newly made wild tea and put it in the teapot.

Once the boiling water was poured in, Xia ruofei immediately smelled the strong fragrance of tea.

After a series of smooth and natural processes, Xia ruofei held a small tea cup in his hand. He first sniffed the fragrance of the tea in front of his nose and then drank it in one gulp.

The fragrance was very strong and it was a smell that Xia ruofei was familiar with. Furthermore, the feeling of clarity made him feel relaxed and happy.

His eyes revealed a hint of joy.

Although the tea in the pot had only been made once, Xia ruofei still poured the tea leaves away with some heartache. After washing the tea set, he immediately took wild tea from another tree and made a new pot.

The taste was still the same, and it was very similar to the wild tea he had drunk before. It could even be said that there was no difference.

"Haha!" Xia ruofei laughed and said, "Xia Qing, you are really something!" Although these two wild tea trees were not as good as the one in the first heaven society, which had been growing for at least a few hundred years, they were still 40 to 50 centimeters in diameter and had luxuriant leaves. Xia ruofei would enter the spirit map space every day. Due to the flow of time, he could see the changes in the wild tea trees every day.

More than half a month had passed. Xia ruofei felt that it was time to try the effects of the wild tea.

Thus, he returned to his room early that night, locked the doors and windows, and set up defenses. Only then did he summon the spirit painting from his palm.

After entering the spirit map space, Xia ruofei used telepathy to call Xia Qing over.

He decided to harvest some of the tea leaves today. After he was done, he would head to the star Seizer sect and ask Luo Qingfeng to find a disciple to test the effects of the wild tea leaves he had transplanted.

He had drunk the first heaven society's wild tea two or three times, so he was quite familiar with its taste.

Xia ruofei felt that the first heaven society's wild tea had an obvious difference from his Dahongpao. It seemed to be more similar to West Lake Longjing tea.

Of course, whether it was in terms of taste or tea fragrance, wild tea was much better than the best West Lake Longjing tea.

Hence, Xia ruofei decided to process the wild tea leaves using the same method that he used to make green tea.

The tools for making tea leaves were already available in the interspace.

Although there were many differences in the production process and methods of rock tea and green tea, many of the tools were universal.

Xia ruofei had asked Xia Qing before and knew that Xia Qing was also good at making green tea Kasaya. It was estimated that immortal Shanhe was also a tea lover, so the spiritual Kasaya he made was also very proficient in the making of various tea leaves.

Since Xia Qing knew how to make it, Xia ruofei was naturally happy to be idle.

In any case, even if he were to do it himself, the quality of the tea leaves might not be as good as Xia Qing's, so why would he add more trouble to himself?

Xia ruofei took Xia Qing and picked some tea leaves from the two wild tea trees. Then, he gave them to Xia Qing and divided them into two batches to make the tea. The tea leaves of the two wild tea trees could not be mixed together so that they could form a control group when testing the effects of the wild tea.

The wild tea leaves were lush, and only a small part was picked this time. After all, it was only for testing!

So, after Xia ruofei handed the task of making tea leaves to Xia Qing, he did not stay in the medium but directly returned to the room in the outside world.

Anyway, even if he failed, he still had enough tea leaves to continue trying.

Furthermore, Xia ruofei couldn't wait any longer. After coming to the outside world, with the time flow being 30 times faster than that of an Archean realm expert, he would be able to see the results of the production very quickly.

...

Xia ruofei was watching a movie on his computer in the room outside when he received a voice transmission from Xia Qing. "Master, the two batches of tea leaves have been completed!"

Hearing this, Xia ruofei's spirits were lifted. He quickly entered the spirit map space without even stopping the movie that was playing.

"Xia Qing, you've successfully produced it? Complete it in one go?" Xia ruofei couldn't help but ask the moment he entered the Archean realm. He could not help but ask.

He could not help but ask.

Chapter 3097 Tea – testing (1)

Star picking sect, star picking tower.

Luo Qingfeng stood respectfully beside Xia ruofei and called out in joy, "Master!"

Xia ruofei smiled and kept the black flying boat. He asked, "Has everything been fine in the sect recently?"

"Master, everything is fine!" Luo Qingfeng said, "after the transformation of the sect – protecting array, the cultivation environment in the sect is much better than before. The disciples have been making rapid progress recently!"

Xia ruofei nodded and said, "let's go down and talk!"

The two of them stepped on their flying swords and returned to the building from the roof of zhaixing tower. They came to the private room of Luo Qingfeng on the top floor.

After Xia ruofei sat down, he said, "I'm here mainly for the wild tea. "

Luo Qingfeng was overjoyed and said, "Master, you've already successfully planted the wild tea?"

"The transplanted was a success, and I've also produced the first batch of tea leaves. However, whether it can achieve the same cultivation – enhancing effect as the first heaven sect's wild tea leaves still needs to be verified." Xia ruofei smiled and said, "that's the main reason why I came back today."

When Luo Qingfeng heard that Xia ruofei had already made tea leaves, he could not help but look shocked.

It was mainly because the time was too short, which made Luo Qingfeng feel a little incredulous.

Xia ruofei saw Luo Qingfeng's confusion and said with a smile, "I used a time formation, so the tea trees grew faster."

Luo Qingfeng suddenly looked enlightened and said excitedly, "Master, if we can also mass produce wild tea, it will be a great help to the sect's strength!"

Xia ruofei smiled and nodded. "So, we need to verify the effects of wild tea first. Qingfeng, I'll have to rely on you. Find two reliable disciples from the sect and let them try this wild tea. "

“Yes! Master!” “Yes,” Luo Qingfeng said without hesitation. “A few of my direct disciples are very talented ...”

Xia ruofei waved his hand and said, “don’t find those talented disciples yet!” Right now, we still don’t know the effect of the wild tea. If the effect of promoting cultivation is limited after taking it ... You should know that this wild tea is only effective when taken for the first time, so it’s best to find those disciples with ordinary talent but relatively high loyalty. This way, even if there are losses for the sect, it’s still within an acceptable range. ”

Luo Qingfeng came to a sudden realization and quickly said, “I understand! Please rest assured, master, this old servant can find a suitable candidate. ”

Xia ruofei nodded and said, “yes!” You’ll personally arrange this matter! Bring the person over tomorrow morning, and I’ll personally check on him. ”

“Yes! Master!” Luo Qingfeng said, “master, your room is ready. It’s getting late now. If you don’t have any other instructions, may I take you to your room to rest?”

In fact, Luo Qingfeng had already prepared a room on the top floor of zhaixing tower for Xia ruofei’s use.

Xia ruofei had not been in the star picking sect for the past few days, but this was the best room in the entire star picking tower. There were disciples in charge of cleaning it every day, and it was always ready to move in at any time.

Xia ruofei nodded. “That’s good. Let’s go and rest.”

.....

The next morning, Luo Qingfeng personally brought an exquisite breakfast to Xia ruofei’s room.

Xia ruofei had just finished washing up. He smiled and said to Luo Qingfeng, “Sit down and eat together! You’ve prepared so much, I can’t finish it all by myself. ”

“Master, this old servant has already had breakfast!” Luo Qingfeng said respectfully, “please enjoy your meal. I’ll be at the door at any time.”

Xia ruofei waved his hand and said, “you can eat some even if you’ve eaten!” Sit down! Let’s talk while we eat. ”

Hearing this, Luo Qingfeng could only say, “yes!” Then ... This old servant will overstep my authority ...”

“Sit, sit, sit!” As Xia ruofei spoke, he picked up the bowl of millet porridge and took a bite. Then, he picked up a white steamed bun and took a bite. As he chewed, he asked, “Qingfeng, have you found a disciple to test the effects of wild tea?”

“Master! This old servant has already decided on the candidates last night!” Qingfeng Luo quickly stood up and said.

Xia ruofei said, “sit down and talk!” Sit down and talk! You should eat too! I’m not used to it when you’re watching me eat!”

Luo Qingfeng had no choice but to take a bite of a bun. Xia ruofei was used to it, but Luo Qingfeng felt a little uncomfortable.

After all, in his heart, his master was the heavens! Eating at the same table as the master, this was simply overstepping the boundary!

“Continue!” Xia ruofei said as he chewed on the steamed bun and the millet porridge.

“Yes!” Qingfeng Luo said, “both of them are my direct disciples, and they are both at the eighth Qi layer. They are already 45 or 46 years old. Among all the disciples at the eighth Qi layer, their talent is considered below average, but their loyalty is definitely not a problem!”

“Mm! This person is not bad!” Xia ruofei nodded and took another mouthful of porridge.

“Master, the two disciples are already waiting on the first floor of zhaixing tower. They can come up at any time!” Luo Qingfeng said.

Hearing this, Xia ruofei finished the bun in a few mouthfuls, then the millet porridge. He stood up and wiped his mouth. “Then don’t let them wait too long, call them up! Let’s go to your cultivation room and have them come in one by one to see me. I’ll check on them!”

Chapter 3098 Tea – testing (2)

Luo Qingfeng knew that this matter was of great importance. Xia ruofei was using hypnosis to confirm the loyalty of his two disciples.

Although Luo Qingfeng was very sure, he did not think that Xia ruofei’s actions were unnecessary. Instead, he felt that it was necessary.

After all, one could never know a person’s true nature. If there was something wrong with these two disciples and the news was leaked, it could cause a chain reaction. Even the first heaven society would turn their attention to the star Seizer sect.

Therefore, it was necessary to hypnotize them again.

“Yes! Master!” Luo Qingfeng said.

Soon, Xia ruofei saw one of the disciples, Tao Wu, and another person waiting on the first floor of star – picking tower in the quiet room where Luo Qingfeng was cultivating.

Luo Qingfeng did not stay in the quiet room but waited outside the door.

“This disciple greets elder Xia!” The forty – year – old, rough – looking disciple quickly bowed and greeted Xia ruofei.

Xia ruofei smiled and nodded. “Are you sect leader Luo’s personal disciple? What’s your name?”

“Elder, my name is Liu Hong, and I have the honor of cultivating under the sect leader’s master,” the disciple replied hurriedly.

“Oh ... Liu Hong!” Xia ruofei nodded and said, “raise your head ...”

Liu Hong obediently raised his head. When his eyes met Xia ruofei 's, he suddenly felt as if he had fallen into the endless starry sky ...

As Xia ruofei's spiritual power cultivation had been greatly improved, he was more comfortable with this kind of hypnosis.

To Qi layer cultivators, they simply had no power to resist.

Liu Hong quickly entered a state of hypnosis. Xia ruofei asked him a few questions, and Liu Hong answered them honestly.

These questions were all related to Liu Hong's loyalty, and they were directly related to his true thoughts.

For example, Xia ruofei had designed a question that said,"if sect leader Luo is in danger and only you can save him, but at the same time, you will be in a very dangerous situation and may even lose your life. What would you do?"

Liu Hong, who was under hypnosis, answered without thinking,""As long as I can help sect leader, master, to turn the tide, what's the harm in sacrificing my life?"

The other questions also revolved around loyalty.

Xia ruofei was very satisfied with Liu Hong's answer. Xia ruofei could see that although Liu Hong's talent was average, he was loyal from the bottom of his heart to the star Seizer sect and Luo Qingfeng. He was absolutely loyal and could not be a spy sent by other sects.

Xia ruofei skillfully got Liu Hong out of the hypnosis. Liu Hong had no idea that he had been hypnotized. His memory of this period was completely blank, so he did not notice the passage of time.

Of course, Xia ruofei's questions were simple, so it did not take long.

Xia ruofei asked a few more questions without changing his expression. Then, he asked Liu Hong, who did not notice anything strange, to leave and ask him to send another disciple.

The other disciple was also Luo Qingfeng's direct disciple. His name was Wang Shan, and he was already 46 years old.

Through hypnosis, Xia ruofei had finally confirmed that both Liu Hong and Wang Shan were loyal to the star Seizer sect and were even more loyal to Luo Qingfeng.

He was finally relieved and asked Luo Qingfeng to call Liu Hong into the quiet room.

Xia ruofei and Luo Qingfeng sat on the futon, while Liu Hong and Wang Shan stood with their hands by their sides. They were both slightly nervous.

They also knew that their talents were not as good as the other junior brothers. This time, the sect leader, master and elder Xia had called them all to zhaixing tower. They did not know if it was a blessing or a curse.

Xia ruofei and Luo Qingfeng exchanged a look.

Then, Xia ruofei nodded at Luo Qingfeng, indicating that he could start.

Luo Qingfeng cleared his throat and said, ""Liu Hong, Wang Shan ..."

"This disciple is here!" The two of them replied in unison.

Luo Qingfeng sat up straight and said indifferently, ""I called you here for a special mission."

"What are master's instructions? This disciple will not hesitate to go through fire and water!" Wang Shan, who was relatively quick – witted, quickly said.

Liu Hong was a little slow, but he immediately said, ""Master, disciple is willing to go through fire and water for you!"

"I don't need you to go through fire and water for this mission," Qingfeng Luo said with a smile. "You might even benefit greatly from it!"

Qingfeng Luo paused for a moment to observe the expressions of Liu Hong and Wang Shan, then continued, ""Elder Xia has found a type of spiritual tea that can promote cultivation, but its effects have yet to be verified. Today, he asked you to come to verify the effects of the spiritual tea."

At this moment, Xia ruofei also said, ""Liu Hong, Wang Shan, I have to make this clear to you. If this spiritual tea is effective, then your cultivation will probably increase by a large amount. But if there is a problem with the spiritual tea ..."

After Liu Hong and Wang Shan heard this, their faces turned pale.

Wang Shan's voice trembled as he said, ""Master, elder Xia, I am willing to test the tea with my own body. Even if I unfortunately die after drinking it, it will be due to my poor luck. I will definitely not have any complaints!"

"Master, elder, this disciple is willing to try the tea!" Liu Hong quickly said. This disciple is not afraid of death!"

It was obvious that the two of them were still a little afraid of Yingying being used as a lab rat. Who wouldn't be afraid? Not to mention that they were already at lianqi level 8. Even if their cultivation didn't improve in the future, they would definitely live much longer than ordinary people. Now that their lives were in danger, how could they not be afraid? Xia ruofei couldn't help but find it funny. He deliberately said in a serious tone, ""The sect leader and I won't force you to take this test. You have to think carefully. Once you've decided, you can't go back on your word! If there's a problem with the spirit tea, the consequences might be very serious. "

Liu Hong and Wang Shan exchanged a look, and then their expressions became determined.

"I've thought it through!" Wang Shan said. I won't go back on my word!"

"I won't change my mind!" Liu Hong said.

Then, Liu Hong changed his impassioned expression and asked weakly, ""Elder Xia, if there's a problem with the spiritual tea, what are the consequences?"

Xia ruofei almost laughed out loud. Liu Hong and Wang Shan were actually very scared now, but they still tried to maintain their posture until the end. However, Liu Hong's last sentence revealed that he was a little scared.

Xia ruofei said with a straight face, "the consequences are indeed very serious. If there is a problem with the spiritual tea, it means that you will lose the chance to directly advance one level after drinking the spiritual tea in the future. This is because everyone can only drink this spiritual tea once in their life!" It'll be ineffective if you take it multiple times!" Xia ruofei couldn't help but find it funny. He deliberately said in a serious tone, "The sect leader and I won't force you to take this test. You have to think carefully. Once you've decided, you can't go back on your word! If there's a problem with the spirit tea, the consequences might be very serious. "

Liu Hong and Wang Shan exchanged a look, and then their expressions became determined.

"I've thought it through!" Wang Shan said. I won't go back on my word!"

"I won't change my mind!" Liu Hong said.

Then, Liu Hong changed his impassioned expression and asked weakly, "Elder Xia, if there's a problem with the spiritual tea, what might be the consequences?"

Xia ruofei almost laughed out loud. Liu Hong and Wang Shan were actually very scared now, but they still tried to maintain their posture until the end. However, Liu Hong's last sentence revealed that he was a little scared.

Xia ruofei said with a straight face, "the consequences are indeed very serious. If there is a problem with the spiritual tea, it means that you will lose the chance to directly advance one level after drinking the spiritual tea in the future. This is because everyone can only drink this spiritual tea once in their life!" It'll be ineffective if you take it multiple times!"

Chapter 3099 Effect (1)

Liu Hong and Wang Shan had never dreamed that they would one day receive such treatment. Elder Xia was personally making tea for them, and the sect leader was boiling water for them.

The two of them were so terrified that they didn't even know where to put their hands.

Xia ruofei used the boiling water to heat up the tea set as he said, "Since we want to test the effects of the spiritual tea, we must use the best method to make the tea. You all stay at the side and drink that cup of tea later. That will be the greatest contribution to the sect!"

In a short while, Xia ruofei was done brewing the tea.

This time, he took out two tea sets and made tea leaves from different wild tea trees.

Xia ruofei pointed at the two cups of fragrant tea and smiled. "Liu Hong, Wang Shan, take a cup each and drink. Don't worry about anything else."

"Yes! Elder Xia!" The two of them replied in unison.

Since they already knew that the worst result was that the spirit tea had no effect, or that the effect was not obvious, and that they would no longer have any effect on the spirit tea in the future, the two of them naturally did not have so many concerns. They went up and took a cup each, drinking it without hesitation.

They didn't even have the mood to savor the Taste of the Wild tea. After drinking it, they looked at Xia ruofei.

Xia ruofei smiled. "You don't have to think about anything. Just sit down with your legs crossed. If there's any effect, you'll naturally feel it."

"Yes! Elder Xia!"

The two of them quickly sat down.

Xia ruofei smiled and said to Luo Qingfeng, "Sect leader Luo, the tea has been brewed. It's a waste not to drink it. Let's drink some too!"

Since there were outsiders, Xia ruofei could not call him 'Qingfeng'. Even if he was the great elder, he was still under the leadership of the sect leader!

"Alright," Luo Qingfeng nodded and said.

Xia ruofei and Luo Qingfeng also held their teacups and slowly sipped their tea.

In fact, Luo Qingfeng was very nervous at the moment. Xia ruofei, on the other hand, was very calm.

Even if this wild tea didn't have any effect or wasn't as effective as the one from the first heaven society, Xia ruofei would just have to wait a little longer. He firmly believed that as long as it was aged enough, the wild tea should have an effect. It had nothing to do with the tea – making technique, not to mention that the taste of the tea leaves made by Xia Qing was very similar to the wild tea of the first heaven society.

Of course, Xia ruofei was very confident in the wild tea that he had planted in the medium.

He sipped his tea calmly and observed Liu Hong and Wang Shan at the same time.

After the two of them finished drinking their tea and sat down, their expressions changed slightly, and then they involuntarily entered a state of cultivation.

There was a chance! Xia ruofei thought.

Qingfeng Luo was also looking at Liu Hong and Wang Shan. He held the cup of tea to his mouth, but did not take a sip. He just maintained his posture and stared at the two without looking away.

Xia ruofei couldn't help but find it funny. He filled his teacup and said, "Sect leader Luo, the tea will get cold if you don't drink it ..."

Luo Qingfeng felt like he had just woken up from a dream. He awkwardly finished the tea in his hand.

Xia ruofei picked up the teapot and poured another cup for Luo Qingfeng. Luo Qingfeng stood up in fear and said, "Elder Xia, I'll do it myself ..."

Although Liu Hong and Wang Shan had already entered a state of cultivation, Luo Qingfeng did not know if they were completely unaware of the situation outside, so he did not dare to call Xia ruofei master. He was more or less not used to this and felt uncomfortable no matter what he did.

Xia ruofei poured a cup of tea for Luo Qingfeng with a smile and said, "Don't be too nervous. This wild tea is not dangerous."

"I know that ..." Luo Qingfeng said with a bitter smile. "Maybe it's because I'm too concerned ... Elder Xia, look at Liu Hong and Wang Shan's condition ... Is the wild tea already effective?"

If the wild tea was successfully planted, the star Seizer sect would naturally benefit the most.

After all, wild tea was only most effective for Qi condensation cultivators, and each person could only drink it once. Although Xia ruofei was not a loner, he did not have many cultivators close to him. The star Seizer sect had a large number of members.

Therefore, once wild tea was proven to be effective, it would have a huge effect on the star Seizer sect's strength.

Xia ruofei chuckled. "Of course, there will be an effect. The two of them have already entered a state of cultivation. However, the most important thing is whether the effect will meet our expectations. This is the most important thing." Let's wait and see! Don't worry, I think they'll have to cultivate for a long time!"

"Alright ..." Luo Qingfeng nodded and said.

Xia ruofei saw that Luo Qingfeng was so nervous, and his eyes did not leave Liu Hong and Wang Shan, so he simply did not chat with him. He just sipped his tea and waited. As for Luo Qingfeng, he would let him drink by himself. In any case, he had just made two pots of tea, just enough for each person to have one.

Liu Hong and Wang Shan cultivated for about half an hour, and then their auras rose sharply in less than three minutes.

Xia ruofei and Luo Qingfeng looked at each other with a hint of surprise. Obviously, they had both broken through their cultivation realms.

The moment the two of them broke through, even the spiritual Qi in star – picking tower, which had the densest spiritual Qi in the sect, began to drop significantly.

After all, two eighth Qi layer cultivators broke through to the ninth Qi layer at the same time, so the consumption of spiritual Qi was very large.

Chapter 3100 Effect (2)

Xia ruofei took out the spirit gathering talisman from the spirit map space and threw it out skillfully. In an instant, a small spirit gathering array was set up around the two.

After the formation was activated, the surrounding spiritual Qi gathered at an accelerated speed. The two of them had already shown signs of spiritual Qi not being able to continue, but once the formation was set up, the spiritual Qi instantly became much more abundant.

The process of the two's breakthrough lasted for about ten minutes before it slowly stabilized.

However, the two of them did not stop cultivating. It was clear that the effects of the wild tea had not been exhausted.

After about 20 minutes, Liu Hong and Wang Shan let out a breath of turbid air one after another. They slowly opened their eyes and left their state of cultivation.

After consuming the wild tea, they all entered a state of cultivation uncontrollably. When they first consumed the wild tea, even Xia ruofei could not get rid of this influence. He started cultivating in front of Chen Xuan and the others. With Liu Hong and Wang Shan's cultivation, they naturally could not resist.

When their cultivation base broke through, the two of them actually felt it, but when they were in a state of cultivation, they were not distracted, especially under the effect of the wild tea, so they were almost in a state of selflessness, so the two of them did not have much emotional fluctuations.

Now that they had stopped cultivating, the two of them naturally discovered that they had already broken through to the ninth Qi layer. Moreover, the half an hour of cultivation after the breakthrough had allowed them to completely stabilize their cultivation. They even felt that their current strength was a bit stronger than a Junior Brother who had just broken through to the ninth Qi layer in the sect.

This made the two of them feel like they were in a dream, and they couldn't help but be stunned.

When they found out that they were going to participate in the test to verify the effects of the spirit tea, they had thought that even if the spirit tea was effective, it would at most improve their cultivation. They had never thought that it would improve so much. Not only did they break through a level of cultivation, but they could also continue to advance a stage. This was simply too heaven – defying!

Luo Qingfeng and Xia ruofei were overjoyed.

They did not even need to ask Liu Hong and Wang Shan. They only needed to scan with their spiritual power to sense their current cultivation.

Naturally, Xia ruofei and Luo Qingfeng were well aware of their cultivation levels before they consumed the spiritual tea.

After comparing the two, Xia ruofei quickly came to a conclusion. Even though the effect of the wild tea he had planted in the spirit map space was not as good as the wild tea in the first heaven society, it was not too far off.

Considering that Liu Hong and Wang Shan's aptitudes were relatively average, the effect of taking wild tea would also be reduced.

If a more talented cultivator drank the wild tea, there would probably be a greater improvement.

In this way, this batch of wild tea seemed to be about the same as the wild tea of the first heaven society.

Seeing Liu Hong and Wang Shan in a daze, Luo Qingfeng could not help but frown and clear his throat.

Only then did Liu Hong and Wang Shan come back to their senses. They looked at Xia ruofei and Luo Qingfeng, got up at the same time, and walked to Xia ruofei and Luo Qingfeng. They knelt on the ground with a thud and kowtowed several times.

"Thank you, sect leader, master, and elder Xia, for your kindness in giving us a new life!"
Wang Shan said with a trembling voice.

"Thank you, master!" Liu Hong sobbed. Thank you, elder Xia!"

"Get up," Luo Qingfeng said indifferently. "You two can get up!"

"Yes! Master!"

The two of them stood up and stood in front of Xia ruofei and Luo Qingfeng with their hands down, ready to listen to their teachings.

Luo Qingfeng first looked at Xia ruofei. Seeing that Xia ruofei had no intention of speaking, he said,""Liu Hong, Wang Shan, the effect of this spiritual tea has been verified and is almost the same as what we expected. The two of you are willing to test the tea with your own bodies under these circumstances, which is a huge contribution to the sect. In view of the fact that you've already gained a lot of benefits from the tea testing process, master will not reward you any further. However, your contribution, master has seen it with my eyes and will remember it in my heart. Moreover, now that you've broken through to the ninth Qi layer, you're also a very important backbone of the sect. In the future, you'll naturally be given more important tasks!"

"Thank you, master! Shizun allowing this disciple to participate in the tea testing is already the greatest reward for this disciple. " Wang Shan was the first to speak. "I dare not ask for any other rewards. I am only willing to risk my life for master and the sect and not let down master's cultivation!"

"Master, I don't need a reward!" Liu Hong also said loudly. In the future, Hong 'er's life will be shizun' s. If shizun has any orders, this disciple will risk his life, climb a mountain of daggers, or plunge into a sea of fire without hesitation!" Xia ruofei saw that Luo Qingfeng was so nervous, and his eyes did not leave Liu Hong and Wang Shan, so he simply did not chat with him. He just sipped his tea and waited. As for Luo Qingfeng, he would let him drink by himself. In any case, he had just made two pots of tea, just enough for each person to have one.
