Chapter 3101 Returning to the three mountains (1)

"Master, please give your orders!" Luo Qingfeng said quickly.

Xia ruofei smiled and said, "I don't have any special instructions. In short, I just want you to be safe." The production of wild tea was limited, so the scope of use had to be controlled in the early stages, and it had to be kept strictly confidential. In my opinion, it's best to make the brewed wild tea into a ready-made drink. If it can be mixed with other flavors, it's better not to make the tea fragrance so obvious. In this way, even if the disciples drink the wild tea themselves, they may not be able to guess what they are drinking."

Luo Qingfeng nodded and said, "this old servant understands!" Please rest assured, master, this old servant will definitely choose the disciples with the highest loyalty and relatively better talent to take it first!"

"In addition, some disciples with low cultivation levels should not consume the wild tea for the time being." Xia ruofei nodded. It's mainly because we've taken into account that only the first time a person drinks wild tea will have an effect. If a Qi Layer 3 or 4 cultivator drinks wild tea, although their cultivation can also improve by a large margin, once they reach the high Qi layer, they won't have this opportunity. And the higher the cultivation, the harder it is to break through the bottleneck."

Although Song Wei, Ling Qingxue, Tang Haoran, and the others did not have a high cultivation level when they consumed the wild tea, they were different. Xia ruofei was confident that when they encountered a bottleneck in the future, he would provide them with better cultivation resources so that their cultivation path would be smooth. However, the ordinary disciples of the star Seizer sect definitely did not have such a blessing. Therefore, the effects of wild tea were even more precious to these ordinary disciples. Of course, they could not simply use it when their cultivation was very low.

Luo Qingfeng immediately understood and quickly said, "Yes! Master, this old servant understands! I'm just about to use it on the blade!"

"This is what I meant!" Xia ruofei smiled and said, "in short, you have to grasp the specific scope of use by yourself. I don't have any specific requirements. Just pay attention to the few points I mentioned just now!"

"Understood!" Luo Qingfeng said, "don't worry, master! This old servant will definitely not let down master's painstaking efforts. With the wild tea, the star Seizer sect's strength will definitely increase by a large margin. The sect's formation is also much better than before. I believe that in time, a second or third Aurous core cultivator will appear in the star Seizer sect. By then, it will only be a matter of time before the sect becomes a top sect!"

Xia ruofei smiled and nodded. "I naturally believe you! In the future, the star Seizer sect will definitely be a great help to me!"

With that, Xia ruofei took out a small bag of wild tea from the spirit map space and handed it to Luo Qingfeng.

There wasn't a lot of wild tea, enough for about ten people to drink.

In reality, the spirit map space naturally produced more wild tea than that. After all, there were two wild tea trees. As long as Xia ruofei was willing to use the time array flag, he could pick tea leaves almost every day.

Of course, even so, the number of wild tea leaves was not so high that it was overflowing.

As Xia ruofei was concerned about the effects of the tea leaves, he had very high requirements for the tea leaves. There were not many leaves that could be picked from a wild tea tree. Even if he used the time array flag to grow these two wild tea trees every day, he could only harvest about two taels of finished tea leaves a day.

"I'll give you this much first!" Xia ruofei chuckled and said, "there will be more. Pick the disciples who meet the conditions and give priority to their cultivation!"

Qingfeng Luo's eyes were burning as he looked at the small bag of wild tea as if he had seen his dream lover. He grabbed the tea bag in his hand and said with a trembling voice, "This old servant here represents the star Seizer sect! Thank you, master, for your great kindness!"

After he finished speaking, Luo Qingfeng was about to kneel on the ground. However, Xia ruofei raised his hands and a gentle force lifted Luo Qingfeng up.

Xia ruofei said indifferently, "there's no need for this between us." Qingfeng, you'll be in charge of the star Seizer sect during this period of time and focus on improving the overall strength of the sect! I have a feeling that the world of cultivation won't always be so peaceful, and the cultivation environment might not be so bad either. When the time comes, it will be a great era where the winds and clouds will surge. I hope that the star Seizer sect can seize the initiative!"

"Yes!" Luo Qingfeng said solemnly, "I understand!" Please rest assured, master, this old servant is willing to do my best and will not disappoint master's high hopes!"

Xia ruofei nodded and patted Luo Qingfeng's shoulder, saying, "I believe you! Qingfeng, I'll take my leave!"

Luo Qingfeng was slightly stunned and quickly said, "Master, you've just arrived at the sect. Why don't you ... Stay here for a few days? This old servant is usually unable to serve you by your side ..."

Xia ruofei chuckled. "We'll have plenty of time in the future. I still have some matters to attend to in the country. I won't be staying in the star Seizer sect for long!"

"This ..." Luo Qingfeng said, "alright then! This old servant will see master off!"

Xia ruofei smiled and nodded. The two of them went to the top floor of zhaixing tower. Then, they flew out of the window on their flying swords and went up to the roof.

Xia ruofei took out the black flying boat and landed on the deck of the flying boat. He waved at Luo Qingfeng and then controlled the flying boat to leave.

The most important thing for Xia ruofei's return to the country was to test the effects of the wild tea. He was very satisfied with the results and was very excited.

Chapter 3102 Returning to the three mountains (2)

Other than that, he still had some things to do.

This included teaching the “nichang Heart Sutra” that he had carefully selected to Song Wei and Ling Qingxue. In addition, since the wild tea had already been proven to be effective, he naturally wanted to make use of this opportunity to give Song Wei’s father, song Qiming, a taste of it.

Although song Qiming’s cultivation level was low, Xia ruofei hoped that he could improve his cultivation as fast as possible. After all, song Qiming was not young anymore. Xia ruofei was confident that he would encounter a greater bottleneck in the future. He would have better resources to help song Qiming continue to break through.

Therefore, the use of wild tea could not be delayed.

Other than these matters, Xia ruofei had not returned to the company for a long time. Although he had put most of his attention on cultivation, he had founded the company himself. Even though he was getting less and less interested in worldly wealth, he still had a special feeling for paradise Corporation. Hence, he decided to go back to the company and take a look at how Feng Jing and the others were doing and if they needed his help.

Xia ruofei controlled the flying boat and flew directly in the direction of the capital.

As they neared the capital, Xia ruofei lowered his altitude. He maintained an altitude of 30 to 40 meters at a secluded location in the suburbs. Then, he took out his phone and contacted Song Wei.

“Weiwei, are you in Beijing?” Xia ruofei asked.

“Of course! It’s not winter or summer break yet, so a good student like me is naturally in school. ” Song Wei smiled and asked, “did you come back to China?”

In the past, even with a private jet, it took more than ten hours to fly from Paradise Island to China. Moreover, they had to land to refuel on the way, so the return trip was not particularly convenient.

Ever since he had the black flying boat, he could return to China from Paradise Island in just over two hours, which was much more convenient.

Xia ruofei laughed and said, “you’re right!” And I’m already in the capital!”

“Ah?” “Really?” Song Wei exclaimed in surprise.

“It’s not true?” Xia ruofei smiled and asked, “Weiwei, are you free to take a leave of absence for the next two days?”

“Did something good happen again?” Song Wei asked with a smile. Could it be that it can help one’s cultivation break through to another level?”

“Do you think cultivation is like eating and drinking?!” Xia ruofei didn’t know whether to laugh or cry.”I just want to bring you back to the three mountains!”

“Return to the three mountains?” Song Wei asked curiously, “why did you suddenly think of bringing me back to the three mountains?”

"Two things!" Xia ruofei smiled mysteriously and said, "but I want to tell you when we meet. Just tell me if you can take a leave of absence for the next two days!"

"You're keeping me in suspense again!" Song Wei said coyly, but she quickly replied, "of course, it's okay to take leave. There are fewer courses for postgraduate students, and our boss is very easy to talk to!"

"Then it's a deal!" Xia ruofei said happily, "hurry up and take the day off. I'll come and pick you up!" By the way, what's your position?"

"Same old place!" Song Wei laughed.

Xia ruofei was stunned for a moment, then he laughed. "Library? You really are a good student ... No problem! I'll be waiting for you on the rooftop of the library!"

"I won't leave until we meet!" Song Wei said happily and hung up the phone.

Xia ruofei smiled and shook his head. He put his phone into his pocket and controlled the flying boat to rise again, flying in the direction of the capital University Library.

The place where he had just stopped was already the suburbs of Beijing. Therefore, with the flying speed of the airboat, it would take them a blink of an eye to cover such a short distance.

Xia ruofei controlled the flying boat and hovered above the rooftop of Capital university's library.

The flying boat had opened its shield, so ordinary people couldn't detect its existence at all. If there were cultivators nearby, they wouldn't dare to get close at all when they saw such a domineering flying boat.

Even so, Xia ruofei still released his spiritual power to check the surroundings and remained alert at all times.

With his current spiritual power cultivation, it was not a particularly heavy burden for him to detect a range of ten kilometers at the same time.

Xia ruofei did not have to wait too long. Soon, he saw Song Wei's figure on the rooftop.

Xia ruofei saw this and lowered the flying boat. Song Wei also went straight to the flying boat and jumped onto the deck.

Xia ruofei was standing at the door of the control room. Their eyes met. Song Wei pouted and said, "Ruofei, I realized that you're especially fond of keeping people guessing now! He just likes to keep us in suspense ..."

"Have you applied for leave yet?" Xia ruofei chuckled.

"Please!" Song Wei said unhappily. It wouldn't be a problem to go back for two or three days! Now, you can tell me why you're bringing me back! I hope your reason is good enough, or I'll ask Qingxue to teach you a lesson!"

At this point, Song Wei could not help but burst out laughing.

Xia ruofei laughed and said, "of course, the reason is sufficient!" As for the first place ... I've carefully selected a cultivation technique for you, which is very suitable for young and beautiful female cultivators like you. This way, even if I'm not by your side, your cultivation will not be delayed! That's why you'll need to go to the three mountains with me and call Qingxue along. I'll teach you all together. How was it? This reason should be sufficient!"

Song Wei seemed to be moved. She blinked her big eyes and asked, "Really? You've already chosen a cultivation technique?"

"I've always been very concerned about you two, okay?" Xia ruofei said, "actually, I've already chosen a cultivation technique. If it wasn't for the fact that I had other matters to attend to these few days, I would have specially come back to look for you!"

"Alright! This reason is sufficient!" Song Wei smiled and asked, "what about the second? You just said there were two things!"

Xia ruofei laughed and said, "the second reason is even more sufficient!" I'll have to visit uncle song when I get back. "

"My dad?" Song Wei was even more surprised. "Why did you suddenly visit him?"

Xia ruofei smiled and said, "what else can I do?" Of course it's to ask for my hand in marriage ..."

Song Wei's face turned red. She patted Xia ruofei lightly and said, ""Don't mess around! We're talking about serious business!"

Xia ruofei stopped smiling and said, ""There's indeed something important! Have you forgotten how you all raised your cultivation levels a few days ago? How can we leave uncle song out of such a good thing?"

Song Wei was stunned at first, but she quickly reacted. She revealed a surprised and happy expression and asked, "Ruofei, you mean ... The wild tea has been successfully cultivated?"

Xia ruofei snapped his fingers and said with a smile, ""Correct answer! To be more precise, not only did I successfully transplant them, but I also used time array flags. In this half a month, the wild tea has actually grown for more than a hundred years, so I've already harvested the first batch of finished tea leaves. Well ... I just went to the star Seizer sect and found two disciples to test the effects of the wild tea. After that, I rushed back without stopping! He wanted uncle song to drink wild tea as soon as possible! How was it? I'm a filial son – in – Law, aren't I?"

Normally, if Xia ruofei teased her like this, Song Wei would be embarrassed and angry.

However, Song Wei was so shocked that she did not notice what Xia ruofei had said. She was surprised and happy. "RUO Fei, you're really amazing! In this way, my father's cultivation will also increase by one level?"

"It might be more than that!" Xia ruofei chuckled and said, "uncle song's cultivation is only at the first level of the aura refining realm. With the effect of the wild tea, it's possible for him to break through two or three levels in a row. After all, uncle song's cultivation talent is still relatively high after the last incident! In short, the effect of this wild tea is worth looking forward to!"

"That's great!" Song Wei said excitedly, "ruofei, don't just stand there! Let's hurry back to the three mountains!"

Chapter 3103 Imparting a new cultivation technique (1)

The two of them took the black flying boat and quickly returned to the three mountains.

Xia ruofei controlled the flying boat and landed on the balcony of the jiangbin villa. Then, he entered the house with Song Wei.

Once Song Wei reached Xia ruofei's house, she immediately took out her phone and called Ling Qingxue.

Ling Qingxue was still at work, but she picked up Song Wei's call very quickly.

Song Wei put the phone on speaker and asked with a smile, ""Qingxue, are you busy?"

"It's alright. I'm not particularly busy. " Ling Qingxue said, "but I'm definitely not as free as you, a student! Wei Wei, you're calling me all of a sudden, is there something wrong?"

Song Wei looked at Xia ruofei and smiled. "If you're not particularly busy, I suggest you go home now. Someone seems to miss you a lot!"

When Ling Qingxue heard this, she was stunned for a moment. Then, she asked in surprise, ""You're with RUO Fei? You've returned to the three mountains?"

"You're pretty smart!" "Ling Qingxue, you should be free now, right?" Song Wei asked with a smile.

Seeing this, Xia ruofei also laughed and said loudly, ""Qingxue, go home after you've settled your matters! I'm looking for you!"

"MMH! You guys wait for me at home, I'll be right back!" Ling Qingxue asked, "Oh right, it's the jiangbin villa district, right?"

"Yes! Do you want me to go and pick you up?" Xia ruofei asked.

"No need, there won't be a traffic jam at this hour. I'll drive back quickly!" Ling Qingxue said, "you should stay at home and accompany Weiwei first! I'll be there soon!"

"Alright!" Xia ruofei said.

After hanging up the phone, Xia ruofei called Song Wei to the living room on the first floor.

Even though Xia ruofei did not come back often, Ling Qingxue had access to the villa. She maintained the cleanliness of the villa so well that there was almost no dust to be seen.

Xia ruofei and Song Wei sat down at the coffee table in the living room. Then, he took out the wild tea produced in the spirit map space and made tea with great familiarity.

In a short while, the villa's living room was filled with the strong fragrance of tea.

They didn't have to wait for long. As soon as they finished the tea, Xia ruofei cleaned the tea set and put in the second cup of tea, they heard the sound of a car outside the courtyard.

Then, they saw Ling Qingxue drive an orange Beetle car into the villa's courtyard.

Ling Qingxue got out of the car and walked into the villa hurriedly. When she saw that Xia ruofei and Song Wei were already in the villa, her face lit up. She changed her shoes and asked, ""Why did the two of you suddenly return to the three mountains?"

After Ling Qingxue said that, she couldn't help but sniffle. With a puzzled look on her face, she asked, ""Ruofei, is this the fragrance of wild tea? Didn't they already run out of stock last time? Moreover, wild tea is so precious that it won't have any effect after you drink it. How can you be so extravagant and drink it like ordinary tea?"

Xia ruofei and Song Wei looked at each other and smiled.

Then, Xia ruofei laughed and said, ""Qingxue, your nose is so sharp! It's indeed worthy of being born in the Year of the Dog. "

Ling Qingxue pouted and said, "don't mock me!" You haven't answered my question yet!"

Ling Qingxue smiled and said, "Qingxue, can't you tell?" This guy didn't even wait for you to come back, and he already can't wait to show off his wild tea. What does this mean?"

Ling Qingxue had already changed her shoes and was walking towards the living room when she heard this. She couldn't help but freeze and stop in her tracks. After thinking for a while, a look of surprise appeared on her face. Her eyes lit up as she said, "Weiwei, you mean ... The wild tea has been successfully planted?"

Song Wei looked at Xia ruofei's proud face and smiled bitterly. "Look at his expression. It already explains everything."

Ling Qingxue couldn't help but cheer, "this is great!" So, you all suddenly rushed back to the three mountains just to share this good news with me!"

"There's more good news than this!" Song Wei smiled and said, "let ruofei say it himself!"

After she finished speaking, Song Wei poked Xia ruofei lightly.

Xia ruofei then cleared his throat and said, ""Ling Qingxue, I took the time out of my busy schedule to come back to the three mountains ..."

When Song Wei and Ling Qingxue heard this, they rolled their eyes at the same time. How dare you use the word "busy" to describe it? You're the one with the most free time, alright?

Xia ruofei pretended not to see their expressions and continued, ""The main purpose of my return this time is to pass on a new cultivation technique to the two of you. As long as the two of you master this" nichang Heart Sutra," your cultivation will not be delayed even if I'm not by your side."

"A new cultivation technique?" Ling Qingxue couldn't help but ask, "compared to the 'absolute beginning Scripture', which one is more powerful?"

"This ... There's no absolute ..." Xia ruofei laughed dryly.

"Then it's not as good as the" absolute beginning Heart Sutra "?" Ling Qingxue asked.

Hearing this, Xia ruofei said seriously, "Qingxue, objectively speaking, the 'nichang Heart Sutra' is indeed not as good as the 'Taichu Heart Sutra' when two Spirit bodies cultivate together." However, cultivating in pairs was also a limitation of the "absolute beginning Heart Sutra." After all, due to the limitations of objective conditions, cultivating in pairs was definitely not as convenient as cultivating alone. And if he just cultivated the "absolute beginning Heart Sutra" by himself, the efficiency would definitely be far inferior to the "nichang Heart Sutra". Even if it was a normal pair cultivation, the effect would not be as good as the "nichang Heart Sutra"! Therefore, this cultivation technique is also very good. You must not look down on it. "

Chapter 3104 Imparting a new cultivation technique (2)

"I'm just asking," Ling Qingxue pursed her lips into a smile and said, "how could you possibly give us a very bad technique to practice?"

"That's good ..." Xia ruofei laughed drily and said, "sit down and have some tea. I'll explain the 'nichang Heart Sutra' to you."

"Yes, yes!" Ling Qingxue and Song Wei nodded in unison.

The three of them sat around the coffee table. Xia ruofei made tea while explaining the situation of the "nichang Heart Sutra" to the two of them.

After hearing this, Ling Qingxue couldn't help but smile and say, "That sounds pretty good! Isn't it equivalent to having two more specialties after mastering this technique?"

"What do you mean?" Xia ruofei was confused.

"A dance and a zither!" Ling Qingxue said, "didn't you say that when the moves of the 'nichang Heart Sutra' were used together with the heart technique, it could perfectly display the graceful figure of a female cultivator, just like dancing? In addition, this cultivation technique also included the secret technique of using the zither to launch sound wave attacks. Wasn't this equivalent to having two more specialties? In the future, if Weiwei's school had a party or something, she could go up and dance ... No! Forget about dancing, how could he show such a good figure in public? Let's go and perform the zither ..."

Xia ruofei saw that Ling Qingxue was digressing further and couldn't help but say, "Qingxue ... The main point is the cultivation technique, okay? Why do you have such a strange point of focus?"

Although Song Wei did not say anything, she could not help but laugh.

Ling Qingxue then stuck out her tongue and said, "Aren't we just trying to liven up the atmosphere? RUO Fei, please continue, please continue ... I promise I won't interrupt you anymore ..."

Xia ruofei smiled bitterly and shook his head. Then, he continued to explain the "nichang Heart Sutra" to the two of them.

He also took out two copies of the cultivation technique he had prepared in advance from the spirit map space and handed them to the two.

Then, Xia ruofei said, "this is the Qi refining stage part of the 'nichang Heart Sutra'. You must first memorize it. This is the most basic requirement. Then, you must understand the content of the

cultivation method. After you've understood the content, you can try to cultivate it. Of course, I'll continue to explain it to you. In addition ... You're all at the fifth Qi layer and will soon break through to the sixth Qi layer, so the first part won't be too difficult for you. You should be able to get started very quickly. "

"I'm good at memorizing!" Song Wei smiled and said, "I'm still a student!"

"My memory isn't bad either!" Ling Qingxue grinned and said, "Weiwei, why don't we have a competition? Let's see who can remember faster and more firmly. RUO Fei will be the judge!"

"Alright!" "That's a good suggestion!" Song Wei said.

"What's the point of just competing?" Xia ruofei ridiculed, "of course, we have to increase the bet to make it more exciting!"

"Move aside! The judge has no right to speak!" Ling Qingxue said with a straight face on purpose. Then, she couldn't help but burst out laughing.

In fact, the two of them had long since broken away from the category of ordinary people. At the fifth Qi layer, during the process of cultivation, their entire person had unknowingly evolved a lot, and the degree of development of their brain region had far exceeded that of ordinary people.

Therefore, they were able to quickly memorize the contents of the cultivation method, which were extremely obscure to ordinary people.

The time taken was about half an hour.

Then, the two of them supervised each other's recitation, and even took out a paragraph from a certain page to ask each other questions.

The atmosphere of the competition was quite intense.

Of course, Xia ruofei was happy to see that happen, because that way, the two would remember him better.

Xia ruofei only started explaining the technique after the two of them had memorized the contents.

This time, it wasn't explaining from a macro perspective, but breaking down every sentence of the cultivation method and explaining it in great detail from the beginning.

The cultivation technique he had obtained from the Jade talisman of inheritance contained the cultivation experience of many predecessors. All of this was injected into Xia ruofei's mind.

Hence, even if Xia ruofei had never cultivated the "nichang Heart Sutra", he had a deep understanding of martial arts. At least, he had no problem guiding Song Wei and Ling Qingxue. Song Wei and Ling Qingxue's foundations were already very solid, and they had already been in contact with cultivation for a few days. Therefore, their performance was much better than when they first started learning the "absolute beginning Scripture", especially the relatively simple parts at the beginning, which they could basically understand on their own.

Xia ruofei's mouth was dry from all the talking. He finally explained the Qi refining stage part of the technique to Song Wei and Ling Qingxue.

He picked up the teacup on the coffee table, took a sip, and then said with a smile, ""I've basically taught you all what you need to know, but I don't suggest that you start cultivating the "nichang Heart Sutra" today. I think it's best to go back and study the contents of the cultivation method. You must understand it thoroughly, and then we'll start our first cultivation. At that time, I'll be on the side to protect you!"

When it came to cultivation, Xia ruofei naturally had more say than Song Wei and Ling Qingxue.

Hence, the two of them nodded in agreement.

"In addition, you must take good care of the cultivation technique." Xia ruofei said, "this cultivation technique has been lost in the cultivation world. If the news gets out, I'm afraid many people will covet it. Therefore, I suggest that even if you want to review the old and learn the new, you must pay attention to your safety. Don't take it out in public, and it's best to take it out when you're alone at home. Also, when you don't need it, just put it in your storage ring! That's the safest place!" Hence, even if Xia ruofei had never cultivated the "nichang Heart Sutra", he had a deep understanding of martial arts. At least, he had no problem guiding Song Wei and Ling Qingxue. Chapter 3105 Returning to the company (1)

Ling Qingxue asked curiously, ""We're going to visit uncle song?"

Song Wei looked at Xia ruofei tenderly and explained, ""Didn't ruofei grow wild tea? He wanted to give it to my father as soon as possible, but my father doesn't know much about cultivation, so RUO Fei had to find a good reason to visit him. "

Ling Qingxue suddenly understood and said, ""Yes, yes, yes! This was what he should do! If it wasn't for the inconvenience last time, she would have invited uncle song to drink wild tea together! Now that we've grown it ourselves, of course we can't forget about uncle song!"

Ling Qingxue continued, "if that's the case, then we'll follow ruofei's plan. You'll come with me and drive my car home." Ruofei and I will visit you again tonight!"

Song Wei looked at Xia ruofei and Ling Qingxue and asked with a smile, ""You really don't have to ..."

Ling Qingxue blushed and interrupted Song Wei, ""Aiya! It's not the first day I've known him. We're not that close! It's decided!"

Xia ruofei also smiled and said, "let's do this!" I'll go to the company in the afternoon. Speaking of which, I haven't been to the company in a long time. It's a little unreasonable if I don't go and take a look. "

"That's true!" Ling Qingxue said without hesitation, "if it wasn't for Sister Feng Jing's hard work, your company would have been destroyed!" I've never seen a boss as lazy as you!"

Ling Xiaotian had been in the food and beverage business for many years, starting from a small restaurant and growing into a large food and beverage group. Ling Qingxue had been influenced since she was a child. Her impression of her father was that he had always been busy and rarely had time to rest.

In Ling Qingxue's eyes, a business life should be like her father 's.

Xia ruofei, on the other hand, was definitely a 'non – mainstream' type.

"You should go back to the company and take a look," Song Wei said with a smile. Then it's decided! Let's go out together and do our own things. We'll meet at my house tonight!"

Xia ruofei and the other two were chatting while eating lunch. It was almost two in the afternoon when they were done cleaning up the dishes.

Most companies had relatively short lunch breaks, so it was already time to go to the company.

So, the three of them went out together.

Xia ruofei was still driving the Knight XV SUV alone. At the entrance of the villa district, he waved goodbye to Song Wei and Ling Qingxue, who were also in the orange beetle, and drove to Taoyuan building.

Xia ruofei arrived at the peach blossom mansion and parked his car in the underground parking lot.

Originally, his elevator card had the right to directly enter the chairman's office floor, but he didn't want to see the company's situation, so he took the stairs to the lobby on the first floor.

Just as Xia ruofei was about to walk in, the lady at the front desk called out to him. "Sir, may I know who you are looking for?"

Xia ruofei was stunned for a moment. He looked at the unfamiliar front desk of the company and couldn't help but smile bitterly in his heart. He hadn't been to the company for a long time. There were probably many new people in the company recently, but even the front desk didn't recognize him.

Fortunately, Xia ruofei had the spirit map space, so his stuff was usually stored in the space and could be taken out at any time. He put his hand into his pocket and took out his work pass from the spirit map space. He handed it to the front desk and said with a smile, "I'm an employee of the company. This is my work card."

The receptionist was suspicious. As a receptionist, recognizing people was the most important task. This person had never been to the company, so how could he be a company employee?

She looked at the work card doubtfully and saw that the number on it was 001, and the position column wrote "Chairman."

The receptionist was shocked. She rubbed her eyes and took a closer look at Xia ruofei.

Wasn't this the big boss of the company?

Xia ruofei was quite popular on the internet. Although the new receptionist had never seen Xia ruofei before, she had seen many videos and photos of Xia ruofei on the internet. Especially after she joined paradise Corporation, she naturally knew the legendary boss of the company like thunder.

However, there were still some differences between her and the real person when she looked at photos and videos.

Furthermore, after Xia ruofei had broken through to the Golden core stage, although his appearance did not change much, his temperament was very different. More importantly, the receptionist would never have thought that the big boss of the company would be so low – Key. He walked into the company with his head lowered. Logically speaking, the big boss had finally come, so he should be surrounded by people!

Hence, she had no consciousness and could not recognize Xia ruofei.

After confirming that the person in front of her was really the company's chairman, the lady at the front desk couldn't help but shake her hand and almost lost her grip on the work card.

Then, she said in a trembling voice, "I'm sorry! Chairman, I ... I was careless and didn't recognize you ..."

The young lady at the front desk was very afraid. She thought to herself, "with such a big mistake this time, I might lose my job!"

The benefits of paradise Corporation were quite good. Even for a basic position like the front desk of the company, the benefits were much higher than that of the front desk of other companies.

Xia ruofei smiled and took his work card. "What's there to apologize for? You're just carrying out your duties! And you've done a good job! You should be praised!"

Chapter 3106 Returning to the company (2)

The lady at the front desk was stunned. It turned out that the company's Big BOSS was so "Yes, Chairman!" The lady at the front desk said quickly.

Xia ruofei smiled and nodded at her. Then, he walked in.

Ling Qingxue asked curiously, "We're going to visit uncle song?"

Song Wei looked at Xia ruofei tenderly and explained, "Didn't ruofei grow wild tea? He wanted to give it to my father as soon as possible, but my father doesn't know much about cultivation, so RUO Fei had to find a good reason to visit him. "

Ling Qingxue suddenly understood and said, "Yes, yes, yes! This was what he should do! If it wasn't for the inconvenience last time, she would have invited uncle song to drink wild tea together! Now that we've grown it ourselves, of course we can't forget about uncle song!"

Ling Qingxue continued, "if that's the case, then we'll follow RUO Fei's plan. You'll come with me and drive my car home." Ruofei and I will visit you again tonight!"

Song Wei looked at Xia ruofei and Ling Qingxue and asked with a smile, "You really don't have to ..."

Ling Qingxue blushed and interrupted Song Wei, "Aiya! It's not the first day I've known him. We're not that close! It's decided!"

Xia ruofei also smiled and said, "let's do this!" I'll go to the company in the afternoon. Speaking of which, I haven't been to the company in a long time. It's a little unreasonable if I don't go and take a look. "

"That's true!" Ling Qingxue said without hesitation, "if it wasn't for Sister Feng Jing's hard work, your company would have been destroyed!" I've never seen a boss as lazy as you!"

Ling Xiaotian had been in the food and beverage business for many years, starting from a small restaurant and growing into a large food and beverage group. Ling Qingxue had been influenced since she was a child. Her impression of her father was that he had always been busy and rarely had time to rest.

In Ling Qingxue's eyes, a business life should be like her father 's.

Xia ruofei, on the other hand, was definitely a 'non - mainstream' type.

"You should go back to the company and take a look," Song Wei said with a smile. Then it's decided! Let's go out together and do our own things. We'll meet at my house tonight!"

Xia ruofei and the other two were chatting while eating lunch. It was almost two in the afternoon when they were done cleaning up the dishes.

Most companies had relatively short lunch breaks, so it was already time to go to the company.

So, the three of them went out together.

Xia ruofei was still driving the Knight XV SUV alone. At the entrance of the villa district, he waved goodbye to Song Wei and Ling Qingxue, who were also in the orange beetle, and drove to Taoyuan building.

Xia ruofei arrived at the peach blossom mansion and parked his car in the underground parking lot.

Originally, his elevator card had the right to directly enter the chairman's office floor, but he didn't want to see the company's situation, so he took the stairs to the lobby on the first floor.

Just as Xia ruofei was about to walk in, the lady at the front desk called out to him. "Sir, may I know who you are looking for?"

Xia ruofei was stunned for a moment. He looked at the unfamiliar front desk of the company and couldn't help but smile bitterly in his heart. He hadn't been to the company for a long time. There were probably many new people in the company recently, but even the front desk didn't recognize him.

Fortunately, Xia ruofei had the spirit map space, so his stuff was usually stored in the space and could be taken out at any time. He put his hand into his pocket and took out his work pass from the spirit map space. He handed it to the front desk and said with a smile, "I'm an employee of the company. This is my work card."

The receptionist was suspicious. As a receptionist, recognizing people was the most important task. This person had never been to the company, so how could he be a company employee?

She looked at the work card doubtfully and saw that the number on it was 001, and the position column wrote "Chairman."

The receptionist was shocked. She rubbed her eyes and took a closer look at Xia ruofei.

Wasn't this the big boss of the company?

Xia ruofei didn't care about what this lady was thinking. He smiled and asked, "Can I go in now?"

"Please come in!" The receptionist said quickly.

Xia ruofei walked in but stopped after two steps. He turned around and looked at the lady at the front desk.

The young lady suddenly became nervous again.

Xia ruofei said, "by the way, don't tell President Feng and the others that I'm back in the company. I'll walk around on my own first. I'll go up and look for President Feng myself later!"

"Yes, Chairman!" The lady at the front desk said quickly.

Xia ruofei smiled and nodded at her. Then, he walked in. The benefits of paradise Corporation were quite good. Chapter 3107 Arrival at the research department (1)

Xia ruofei could not help but laugh. "Boss Feng, what kind of problem have you given the government?"

"The other requests are nothing much. Be it tax incentives or policy support, they're all written in the document. The main thing I mentioned is ..." Feng Rao smiled.

Feng Jing slowed down and smiled. "In order to leave enough space for the company's future development, we believe that it is imperative to build our own Park. In fact, in Sanshan, there are several companies of similar scale to our company, but their development potential is far less than ours. However, these few companies, big and small, have all applied for some land to build their own Park ..."

Xia ruofei understood immediately. He laughed and said, "It seems like you're preparing to claim land! This was indeed an exorbitant price! The city government agreed so easily?"

"Yeah!" Feng Rao shrugged. "I'm starting to think that I'm asking for too little. I should've asked for more land!"

"How much did you ask for?" Xia ruofei could not help but ask.

"300 mu!" Feng Rao said with a smile.

"What? Three hundred mu?" Xia ruofei couldn't help but cry out, attracting the attention of a few employees nearby. He lowered his voice and said, "President Feng, you're really bold!"

"The city government is really brave to agree to this!" Feng Jing laughed. "Although it's in the suburbs, it's a good location for industrial land. 300 mu, without any discount!"

"What project are you planning to do with so much land?" Xia ruofei could not help but ask.

Although he didn't care much about the secular industry now. However, the meaning of the Paradise Corporation was different to him. His feelings for the Paradise Corporation would not become indifferent just because his cultivation level was getting higher and higher.

However, this kind of feeling became purer and purer, and the factor of wealth became lower and lower.

Hence, Xia ruofei had to pay attention to Feng Jing's big move.

Of course, Xia ruofei trusted Feng Jing. He didn't think that Feng Jing would mess around or be rash. He only asked to understand the situation.

"A comprehensive Industrial Park, of course!" Feng Rao said with a smile. He had even thought of the name. It would be called paradise Industrial Park. At that time, other than the farm, the rest of the peach blossom company can basically be moved to the industrial park. The initial plan even includes the main pharmaceutical factory. "

Although paradise pharmaceutical factory was a pharmaceutical factory, the products it produced were all pure – Natural Chinese medicine products. Even the dregs were used, so it would not cause any

pollution. Moving to the industrial park would not have much of an impact. On the contrary, it would be more beneficial for Paradise Corporation to integrate the industry.

Speaking of the industrial park, Feng Jing couldn't help but exude a strong sense of confidence. She continued, "For the first phase, we're planning to build the company's headquarters building. In addition, we're planning the Taoyuan pharmaceutical factory, Taoyuan health industry demonstration base, Taoyuan Internet Marketing Center, our own data center, and so on. In addition, we've also specially applied for a part of the land to build two residential buildings, hoping to completely solve the current housing problem for employees."

"Woof! This plan isn't small!" Xia Ruofei couldn't help but sigh. "However, I support the construction of the employee residence!"

Feng Jing smiled. "Employees can apply for different types of housing according to the number of years they've been employed. In addition, employees who have served the company for a certain number of years can buy out the property rights of the house with money. The price will not be higher than 70% of the market price of the house in the same area when it was built. Of course, if the price of the house dropped, it would be calculated at 70% of the actual market price! We're still working on the specific details, and we'll report it to you when it's more mature!"

Xia Ruofei nodded in satisfaction and said, "Not bad! This is in line with our Paradise Corporation's corporate culture. I've said long ago that I must do my best so that my employees don't have any worries. In the future, we'll even build our own kindergarten for the children of our employees. The company will also have to step in and coordinate with them to solve the problems of primary and junior high school admission!"

Dong Yun couldn't help but smile and said, "Chairman, your thoughts and CEO Feng's are really the same! This year, some of the employees' children needed to be admitted to the nursing home, and some people raised some of their practical difficulties on the intranet. President Feng gave me this task and asked me to coordinate and solve it. I've been working at the City's Education Bureau recently. Director Feng said that if the Department of Education can't handle it, she'll personally go to the municipal Party Committee and the city government to ask for help!"

"Of course!" Feng Jing's face reddened. "Of course we have to carry out the Chairman's ideas!"

Xia Ruofei laughed and said, "Alright, back to the main topic." President Feng, you're doing such a big project. You must have spent a lot of money, right?"

"Yes!" Feng Jing nodded and said, "The total investment for this project is about five billion!"

"Woof! That's not a small amount!" Xia Ruofei exclaimed.

Feng Rao could not help but glance at Xia Ruofei and said, "Chairman, I'm talking about total investment. The first phase of construction naturally did not need that much money! I estimate that 2 billion is the maximum. Moreover, our company's cash flow has always been very abundant, and our debt situation is extremely healthy. In addition, the construction funds are not paid in a one-time payment, but are paid in proportion to the progress of the project. This way, the initial investment is even less! Even if I don't have enough money, I'm confident that I can raise it in a short time! At most, it would just be a loan! Now, the banks are begging us to take a loan!"

Chapter 3108 Arrival at the research department (2)

"Not bad, not bad!" Xia ruofei nodded and said, "give me a copy of all the information on this project later. I want to take a good look at it!"

Xia ruofei's interest had been piqued, so he naturally wanted to study the project information to prevent any mistakes.

"No problem!" Feng Jing nodded and said, "by the way, Chairman, the Sanshan city government is really sincere this time. Not only did they not give any discount, but they even symbolically charged the land at 1 Chinese yuan per mu. In fact, they're giving it away for free! It's also because I didn't spend any money on the land that I dared to put so many projects into the first phase of the project in one go. "

"The Sanshan city government sure is generous!" Xia ruofei said in surprise, "if I didn't know you well, I would even suspect that you've gone to work as a leader!"

Feng Jing smiled. "I definitely won't do anything illegal. The municipal government did give a lot of support to a few companies with more potential, including our company. We took the opportunity to make some requests. We just didn't expect it to go so smoothly ..."

Feng Jing added, "actually, this is also because we started to focus on internet marketing!" "At that time, our management had already formed a consensus to vigorously develop our own marketing platform and even build our own data center. This was also written in our application report as a key development point. On the other hand, Sanshan has also been committed to building an Internet industry cluster. A few years ago, they began to promote some Internet projects, including digital town, so when our report was submitted, the leader was also very optimistic about it."

Xia ruofei couldn't help but chuckle and said, ""This can be considered the right time, place, and people. No wonder things are so smooth."

The three of them talked as they walked. After Xia ruofei said this, he looked up and saw a new "Yang Xincheng!" Feng Jing said, "I used to be the head of the technical support department. I'm an expert in technical matters."

"Let's go and take a look together!" Xia ruofei said.

Then, he took the lead and walked into the R & D department. Xia ruofei couldn't help but chuckle and said, ""This can be considered the right time, place, and people. No wonder things are so smooth."

The three of them talked as they walked. After Xia ruofei said this, he looked up and saw a new Xia ruofei thought for a while and said, "I think I have some impression of this person. He joined the company quite early. I think he was personally poached by CEO Feng?" Xia ruofei couldn't help but chuckle and said, ""This can be considered the right time, place, and people. No wonder things are so smooth."

The three of them talked as they walked. After Xia ruofei said this, he looked up and saw a new sign, "Development Department."

He laughed and said, "this is the newly established Development Department, right?" The main force of our own online marketing platform?"

"It will also be the main force in building the data center in the future!" Dong Yun smiled and said, "we've been hiring a lot of people in internet technology and marketing. There are new people coming in almost every day!"

Feng Jing also said, "the development Department has been doing well recently!" The progress of our own online marketing platform in Paradise Mall is very fast. If there are no accidents, the internal version should be developed in advance!"

Xia ruofei laughed and said, "then I'll have to take a good look!" Oh right, who's in charge of the research department? Do I know him?"

"Yang Xincheng!" Feng Jing said, "I used to be the head of the technical support department. I'm an expert in technical matters."

Xia ruofei thought for a while and said, "I think I have some impression of this person. He joined the company quite early. I think he was personally poached by CEO Feng?" Xia ruofei thought for a while and said, "I think I have some impression of this person. He joined the company quite early. I think he was personally poached by CEO Feng?"

"That's right!" Feng Jing laughed. "Back then, all of this was my problem. I personally interviewed most of the employees back then!"

"Let's go and take a look together!" Xia ruofei said.

Then, he took the lead and walked into the R & D department.

"That's right!" Feng Jing laughed. "Back then, all of this was my problem. I personally interviewed most of the employees back then!"

"Let's go and take a look together!" Xia ruofei said.

Chapter 3109 Finally meeting (1)

At this point, yang Xincheng looked around and his gaze landed on Chen Xuan, who was busy coding. He shouted, "Little Chen! Chen Xuan! Come over here for a moment ..."

When yang Xincheng arranged for everyone to maintain order in the office, Chen Xuan naturally knew that the chairman was coming to inspect. However, it didn't make a difference to him. Whether the chairman came or not, it didn't matter to him. He didn't have any plans to amaze the world with a single feat in front of the chairman.

However, yang Xincheng was his superior. He naturally couldn't refuse yang Xincheng's request.

Chen Xuan looked at the code that he was writing at a crucial point in his work with some reluctance. In the end, he stopped what he was doing and stood up to walk toward yang Xincheng.

When Xia ruofei heard yang Xincheng call out Chen Xuan's name, he could not help but be stunned.

Then, he caught sight of Chen Xuan, who had just stood up. His eyes narrowed slightly as he scanned Chen Xuan's body. However, his expression returned to normal very quickly.

However, Xia ruofei's heart was already in a state of shock.

Chen Xuan's appearance in his company and his position as a bottom – Level employee was something that he had not expected.

At that moment, countless thoughts appeared in Xia ruofei's mind.

Why was Chen Xuan here? Did the first heaven society investigate my situation? What was Chen Xuan's purpose in coming to paradise Corporation?

Even with Xia ruofei's mental fortitude, he was still a little distracted in such a situation.

Fortunately, he was able to control his emotions. At least, yang Xincheng, Feng Jing, and the others couldn't tell.

Xia ruofei forced himself to calm down as Chen Xuan was already in front of them.

In reality, Chen Xuan did not know Xia ruofei's true appearance. Due to his cultivation technique, Chen Xuan could not tell that Xia ruofei was in the Golden core stage. To be more precise, Chen Xuan could not tell that Xia ruofei was a cultivator.

Hence, even though Chen Xuan thought that Xia ruofei looked familiar, he did not take it to heart.

No matter how high Xia ruofei's prestige was in the Paradise Corporation and how popular he was on the internet, he was just an ordinary person in Chen Xuan's eyes. Naturally, he would not spend too much effort on Xia ruofei. Hence, Chen Xuan only felt a sense of familiarity with Xia ruofei. He concluded that he might have seen some photos and videos of Xia ruofei when he was studying the information of the Paradise Corporation. That was why he felt this sense of familiarity.

“President yang, you were looking for me?” Chen Xuan asked in a tone that was neither haughty nor humble.

“Xiao Chen, this is the company’s chairman, Mr. Xia ruofei,” said yang Xincheng quickly.

“Hello, Chairman!” Chen Xuan then greeted Xia ruofei before turning to Feng Jing and Dong Yun. “Hello, CEO Feng! Hello, President Dong!”

Xia ruofei’s eyes lit up. He had been observing Chen Xuan’s expression. At least, Chen Xuan had not recognized him yet. With Xia ruofei’s judgment, he could tell that Chen Xuan was not pretending.

Chen Xuan was now quite famous in paradise Corporation, especially after he solved a bug that had been troubling everyone for a while. Even Feng Jing couldn’t stop praising him.

As such, Feng Jing and Dong Yun both smiled and nodded in response.

As Xia ruofei’s mind raced, he smiled and did not speak.

Yang Xincheng pointed at Chen Xuan and said, “Chairman, Xiao Chen only joined our company recently, but his technical level is very high. He’s an expert in coding! During this period of time, Xiao Chen’s work had been outstanding and he had successfully solved several difficult problems. It can be said that it’s because Xiao Chen came to work in our company that the peach blossom mall project can be so smoothly pushed forward!”

Yang Xincheng’s evaluation was extremely high. However, the programmers who heard his words didn’t feel uncomfortable at all. They praised Chen Xuan’s skills for being impressive, and they were all convinced.

The evaluation criteria for programmers were very clear. If their code was better than most people’s, then they were awesome!

Feng Jing also smiled and said, “Chairman, Xiao Chen was personally recruited by President yang. It’s all thanks to him during this period of time. Otherwise, the peach blossom mall project might not have been completed on time. Not to mention now, the progress of all the sub – projects has already exceeded the schedule!”

Xia ruofei nodded with a smile and said, “Good code is hard currency! Xiao Chen, thank you for choosing to join our paradise Corporation! I’ll remember you. Work hard and you’ll have a bright future!”

“Thank you for your encouragement, Chairman,” Chen Xuan replied. “I will continue to work hard!”

Xia ruofei nodded with a smile and said, “don’t worry. The company will never forget any employee who has contributed to the company!” In terms of treatment, I will definitely not treat everyone badly! CEO Feng, since Chen Xuan has been performing so well recently, you guys have to show him the reward! It’s also a form of motivation for the other employees!”

Feng Jing smiled. “Don’t worry, Chairman. His salary and performance will be linked to his performance. On top of that, the development Department will also receive some special project bonuses. So, Xiao Chen’s income this month will definitely not be low!”

"That's good!" Xia ruofei nodded and looked at Chen Xuan. He smiled and said, "Xiao Chen, you can go back to your work!"

Chapter 3110 Finally meeting (2)

"Alright!" Chen Xuan nodded and said, "Chairman, leaders, I'll head over first!"

Chen Xuan felt that Xia ruofei was familiar, especially his eyes. He felt like he had seen them before. However, in comparison, an ordinary person from the secular world was naturally not as interesting as the code he was writing. Therefore, Chen Xuan couldn't be bothered to think too much about it. Since he had already dealt with the situation here, he had to hurry back to his coding.

The reason why Xia ruofei said so much was because he wanted to observe Chen Xuan's reaction.

From the few words that he had exchanged, Xia ruofei could basically confirm that Chen Xuan did not recognize him at all.

Xia ruofei's spiritual power was much higher than Chen Xuan's. It was impossible for Chen Xuan to hide his emotions in front of Xia ruofei.

This discovery calmed Xia ruofei down a little.

However, he still had a lot of questions.

Chen Xuan's appearance in his company was simply too illogical.

Even if Chen Xuan wanted to cultivate in the mortal world, he would most likely choose to go to the first heaven society. Even if he didn't want to train in his own industry, there were many companies outside that were hiring. Especially if Chen Xuan used a programmer as a cover, there was actually a wide range of choices. Moreover, no matter how you looked at it, those more mature e-commerce platforms were more attractive. In contrast, peach blossom company started with agricultural products and lacked the temperament of the internet.

Taking ten thousand steps back, even if Chen Xuan didn't have a 100% chance of going to an internet company to gain experience, there would still be a large number of companies and positions for him to choose from. The probability of directly applying for a job at paradise Corporation was actually very low.

Naturally, Xia ruofei did not think that it was a coincidence that Chen Xuan was working at the Paradise Corporation.

Especially after he had paid a visit to the first heaven society, he was filled with vigilance.

Even if Chen Xuan didn't know Xia ruofei's true identity, what about Chen Nanfeng, the sect leader of the heavenly sect? Xia ruofei guessed that Chen Xuan's arrival at the Paradise Corporation was most likely Chen Nanfeng's order. Then, what was Chen Nanfeng's purpose for sending Chen Xuan to the Paradise Corporation? Did Chen Nanfeng have any ill intentions?

Xia ruofei felt that everything was confusing and he had to be careful.

Because if he made a wrong move, he might be doomed eternally. It might even affect the people close to him. After all, it seemed like the first heaven society had already seen through his background.

Hence, during the inspection, Xia ruofei was more or less absent - minded because his mind was not on the company at all.

However, he concealed it quite well, so Feng Jing and Dong Yun didn't notice it.

After a quick inspection of the entire company, Xia ruofei took the special elevator to the chairman's office floor with Feng Jing.

Dong Yun had already left, and there were no outsiders in the office, so Feng Jing's attitude was a lot more relaxed. She smiled and asked, ""Ruofei, I'll give you a detailed report on the work we've done during this period. However, you'll have to wait for a while. Some specific data and reports are on my desk. I'll have someone send them over first. "

Xia ruofei thought for a while. "Sister che, I have a general understanding of the company's situation. I don't think we should be in a hurry to listen to the specific report."

Feng Rao was stunned for a moment before she said, ""That works too! You can decide. "

In fact, Feng Jing's reporting was a normal procedure. After all, Xia ruofei was the boss of the company. No matter how much authority he gave, Feng Jing was still a Senior Manager. Xia ruofei could give up as much authority as he wanted, but Feng Jing had to be in the right position. Hence, every time Xia ruofei returned, Feng Jing would report everything to him. This was also a form of attitude.

However, since Xia ruofei was not in the mood to listen to the report, Feng Jing would not insist on reporting it now. Xia ruofei smiled and said, "let's put the report aside for now." I'm quite interested in the development of the Tao Yuan mall project, and yang Xincheng is also a newly promoted management. If he's in the system, as the leader, I will definitely talk to him, so ... I think we should talk to yang Xincheng first!"

"No problem!" Feng Jing smiled and said, "the peach blossom mall project is indeed the company's inappropriate.

In a short while, Xia ruofei had understood the whole process of Chen Xuan's promotion.

In the end, Xia ruofei smiled and said, "President yang, you have the demeanor of a Bo Le!" For this Chen Xuan to be able to work in our company, we have really picked up a treasure! President yang, you've contributed a lot!"

most important project in the near future. In the future, the proportion of internet marketing will become larger and larger. You can talk to yang Xincheng personally and highlight the importance the company places on the development Department. It's quite good!"

"Then tell someone to inform yang Xincheng to come up!" Xia ruofei smiled and said, "then go do "You flatter me, Chairman!" Yang Xincheng quickly replied. However, since Xia ruofei was not in the mood to listen to the report, Feng Jing would not insist on reporting it now. Xia ruofei smiled and said, "let's put the report aside for now." I'm quite interested in the development of the Tao Yuan mall project, and yang Xincheng is also a newly promoted management. You can talk to yang Xincheng personally and highlight the importance the company places on the development Department. It's quite good!"

"Then tell someone to inform yang Xincheng to come up!" Xia ruofei smiled and said, "then go do your own things. I'll call you directly if I need anything here!"

"Alright!" Feng Jing nodded and said, "I'll arrange it!"

.....

Soon, yang Xincheng came to Xia ruofei's office with excitement.

Xia ruofei smiled and invited yang Xincheng to the guest area. He even made tea for him personally, which made yang Xincheng feel flattered.

Then, Xia ruofei asked about the Paradise Mall in a casual tone.

Of course, this was just a pretense. After listening to yang Xincheng's report on the progress of the project, Xia ruofei naturally changed the topic to Chen Xuan.

During the inspection, yang Xincheng was the one who introduced Chen Xuan to Xia ruofei and the others. Hence, Xia ruofei's interest in Chen Xuan didn't make yang Xincheng feel that it was inappropriate.

In a short while, Xia ruofei had understood the whole process of Chen Xuan's promotion. In the end, Xia ruofei smiled and said, "President yang, you have the demeanor of a Bo Le!" For this Chen Xuan to be able to work in our company, we have really picked up a treasure! President yang, you've contributed a lot!"

"You flatter me, Chairman!" Yang Xincheng quickly replied. In a short while, Xia ruofei had understood the whole process of Chen Xuan's promotion.
