Chapter 311: Open the windows (1)

Liang Weihua said shamelessly, "that's different. Mine doesn't have that many tree lumps. I even had an expert verify it. But the risk of this material is obviously much higher!" "How can there be no risk in buying wood!" Liang Qichao sneered. After open the window, if the quality was not good, he would not take it. All the risks would be borne by RUO Fei! What kind of logic is this?" When Liang Weihua heard this, he immediately caught on to the flaw in Liang Qichao's words and said quickly, "Qi Chao, you're wrong! The person who wants to buy wood now is uncle. Whose position are you standing on?" "RUO Fei is my friend! He spent so much energy to find the Phoebe zhennan material, and he has already helped me a lot! Why should he take the risk?" Liang Qichao said, unwilling to be outdone. Liang Weimin couldn't help but frown when he saw this. He quickly said, "Little Chao, don't say anymore ..." In his opinion, Liang Qichao was still too inexperienced. Liang Weihua had obviously set a trap for him, but he had fallen right into it. Now that the topic had been brought up, Liang Qichao was speaking for Xia ruofei, and it would be easier for elder Tang to misunderstand. Liang Xiaojun couldn't help but reveal a mocking smile, and he was secretly happy. Only old master Tang remained calm and did not express his opinion. He allowed the younger generation to engage in a verbal battle. Xia ruofei had been watching coldly from the side for a while now. He could clearly see that Liang Weihua was not willing to be outdone by Liang Weimin, so he made such a shameless request. Liang Qichao's words were a pleasant surprise for Liang Weihua. Of course, Xia ruofei still felt warm inside. It seemed that he had good taste. Liang Qichao was indeed a worthy friend. When he saw Liang Weihua and Liang Xiaojun's proud smiles, he couldn't help but sneer in his heart. Xia ruofei was 100% confident about this material, so Liang Weihua's little trick was destined to fail. Furthermore, Liang Weihua had been making things difficult for him time and time again, treating him as a source of income. Even if he was a clay Buddha, he would still be angry, so he naturally couldn't just let it go. Now that Liang Weihua had made this request, Xia ruofei suddenly had an idea. Hence, he decided to help Liang Weimin and Liang Qichao once again and completely step Liang Weihua into the pit! Thinking of this, Xia ruofei smiled and said, "Old master Tang, what do you think about the matter of 'opening the windows'?" "Mr. Xia, the decision is in your hands." Elder Tang chuckled. Of course, even if you don't want to 'open the window', I'll still buy this material for 10 million. Based on its current appearance, it's worth the price!" Xia ruofei's impression of elder Tang improved. Of course, he knew that this amount of money was nothing in the eyes of this elder. Even if it was eye-catching, it was not a big deal. Xia ruofei replied without hesitation, "I've always been honest when I do business. Since someone has suggested to 'open the window', I'll open one. But ..." Xia ruofei suddenly changed the topic and continued, "If the quality of the car is not good, I won't say anything if you just leave." However, if the quality is far beyond our imagination, then the price of ten million is not very appropriate ..." Elder Tang laughed and said, "you're so straightforward, Mr. Xia!" However, I don't like to take advantage of others. Even if the quality of this piece of material is very bad, as long as it is a Phoebe zhennan, I will still buy it for ten million! If the quality is very good, then we will give you as much as you deserve!" "Uncle, this ..." Liang Weihua quickly said. According to elder Tang, Xia ruofei was basically undefeatable. No matter what the result was, as long as the Phoebe zhennan was real, they could earn at least ten million Yuan. "Wei Hua, this is my final decision!" Elder Tang said indifferently. "It's ... Uncle!" Liang Weihua quickly said. His expression was a little unsightly, but he thought about it again. If the material was bad, it would mean that Liang Weimin and his son had messed up the matter, and elder Tang had wasted money for nothing. His goal of suppressing Liang

Weimin and his son would have been achieved. Thinking of this, Liang Weihua's mood improved. He rolled his eyes and immediately said, "Uncle, since I'm the one who suggested this, I'll also express my stance. If the quality of this material is really very good, then I will pay the extra difference!" Elder Tang only gave a slight smile and did not say anything. Xia ruofei's eyes brightened and he immediately said, "Then it's decided!" Xia ruofei then looked at Liang Weimin and said, "Uncle Liang, I'll have to trouble you to arrange for a master to bring the equipment and open the window for this material!" "Sure, no problem!" Liang Weimin nodded. Liang Weimin took the phone to the door to make a call to the carpenter, while Xia ruofei smiled and said, "Please sit, old master Tang! I hope you don't mind that the warehouse is a little shabby." There were only four plastic stools in the storage unit, so elder Tang didn't mind. He smiled and nodded his thanks, taking the plastic stool from Xia ruofei. Then, Xia ruofei gave Yuan Shan and Liang Qichao a plastic stool each. Naturally, Xia ruofei kept the last one for himself. As for Liang Weihua and the others, Xia ruofei could not be bothered! Just let them stand. Liang Weihua's cold eyes swept across Xia ruofei. He did not say anything and just stood quietly behind elder Tang with a cold smile on his face. I can't believe this kid has F * cking luck! Hmph! It would definitely be trash! Liang Weihua said to himself. After waiting for more than ten minutes, the carpenter that Liang Weimin had contacted arrived with the tools. Very quickly, everyone had gathered around that piece of material. After consulting with Xia ruofei and elder Tang, the carpenter quickly plugged in an electric plane and got ready to start working. If elder Tang were to buy this piece of material, he would have to transport it back to be used as a longevity material, so he had to ensure that the entire piece of material was intact. Therefore, the carpenter only removed a part of the bark, and then used a plane to cut off the edge material little by little. Soon, the proportion of the core material, which occupied 95% of the entire material, was close to 95%. With the sound of the electric plane, the thin outer layer of the Phoebe zhennan was quickly cut off, revealing the core of the Phoebe zhennan, which was also where it was really sold. After the core was exposed, the carpenter was even more careful. After all, this was a precious material made of gold Phoebe Wood! Soon, the carpenter also removed a small part of the outermost core, revealing a flat cut surface of about 25 centimeters wide and about one and a half meters long. In order for old master Tang to better judge the quality of this expensive wood, the carpenter had specially made three burls on the cut.

Chapter 312: Still 10 million

The carpenter put down the electric plane and picked up a wet cloth that he had prepared earlier to wipe off the wood shavings on the window. After repeatedly wiping it clean, he took out a small jar of lacquer from his bag and brushed a thin layer evenly with a brush. Since it was only to test the quality of the wood, the carpenter didn't pay too much attention to it. After applying the colorless lacquer, he took out a hair dryer and dried the paint. Then, he gestured to Liang Weimin, packed up his tools, and left. As soon as the carpenter left, elder Tang and the others immediately surrounded him. Liang Weimin and Liang Weihua, who were following closely behind the old man, were especially nervous. Of course, the two of them were hoping for the opposite result. Xia ruofei remained calm. He didn't even follow them. He just sat on the plastic stool and smiled. Elder Tang took the lead and was the first to approach the Phoebe zhennan wood. When his eyes fell on the window of the material, the experienced old man couldn't help but gasp and let out a hiss. Liang Weimin and Liang Weihua, who were following closely behind, stood there in a daze, their mouths agape. The Liang family's relatives' reactions were similar. Each and every one of them was stunned on the spot, their faces filled with disbelief. For a moment, no one in the warehouse spoke, only the sound of heavy breathing. What entered everyone's eyes was the

dense patterns on the window. These patterns emitted a little golden light under the light, and this golden halo would change shape and shadow with the change of perspective. The patches of golden patterns gave people a dreamy feeling. Top – grade! This was definitely a top – grade Phoebe zhennan! Everyone was screaming in their hearts, and the way they looked at this piece of wood became somewhat different. The person with the most interesting expression was undoubtedly Liang Weihua. He was also stunned by the quality of the material at first, but then he came back to his senses and realized what it meant for him to have such a good quality. His face turned pale. Liang Xiaojun's eyes were also filled with unwillingness. He stared at the Golden Nannan material, wishing that a fire would suddenly fall from the sky and burn this wood to ashes. There was no doubt that this Phoebe zhennan material was definitely not a fake. The Golden patterns inside were in pieces, indicating that the quality of this material was extremely high. It was probably impossible to buy it for ten million Yuan. The Liang family's relatives had been searching for Aurelia wood for the Tang family's grandfather for the past two years, so they were more or less familiar with the appraisal of wood. As such, they looked at Liang Weihua with a gloating gaze. Liang Weihua had just said that if the quality of the window was very good, he would pay for the extra money. These past few days, Liang Weihua had found the Phoebe zhennan material and tried to please the old man, which had long made these relatives secretly jealous. Even though it was Liang Weimin's turn to be in the limelight now, and they had nothing to do with it, they still felt very relieved. Elder Tang stared blankly for a long time. Suddenly, his eyes lit up and he leaned in even closer. He didn't even care that the paint had yet to dry as he used his hands to hold onto the material. His entire body was about to lie on it. Elder Tang looked at it carefully for a long time before he stood up with a happy expression. "Uncle, this piece of material performed well, right?" Liang Weimin asked with a smile. He had already made up his mind. Elder Tang nodded with a smile. Liang Weimin lowered his voice a little and sighed. "Al! I could've gotten it for ten million, but now that the window's open, I'm afraid the price will be much better ..." Liang Weihua's face turned red and white after he heard that. He said angrily, "Liang Weimin, this is how opening windows are supposed to be. Anything can happen. I've already said that no matter how high the price is, I'll pay for it!" Elder Tang chuckled. "Wei Hua, you don't have to pay for it. It's not like I'm short of money. It's rare for me to come across such a good material. It's no big deal to spend a little more money. You don't have to take it to heart." "Uncle, how can we do this!" Liang Weihua hurriedly said, "it's all because of me that you ..." Elder Tang waved his hand with a smile. He had made up his mind and was not willing to talk about this matter anymore. Elder Tang walked up to Xia ruofei and smiled, "Brother Xia, you're really patient!" Old master Tang had changed the way he addressed Xia ruofei to "brother Xia". The relatives of the Liang family couldn't help but gasp. Even Liang Weimin couldn't help but take a few more glances at Xia ruofei. Liang Weihua and his son's faces naturally turned even uglier. Everyone could tell that elder Tang had a good impression of Xia ruofei. Xia ruofei just smiled and said, "That's because I'm confident in what I have! If I don't even dare to open the window, I won't sell that kind of material. Brother Liang is my good friend. I can cheat anyone but my own friend. This is the bottom line of my principles." "Hahaha!" Elder Tang laughed heartily. "It's Lil 'Chao's good fortune to have a friend like you!" "The old master is too kind." Xia ruofei said neither humbly nor arrogantly. He wasn't flattered by the world's richest man's high evaluation of him. In fact, Xia ruofei had met too many big shots since he retired from the Army. Be it Master Song or MA Xiong, their wealth and status were not inferior to elder Tang. Besides, Xia ruofei was a quiet person and did not like to suck up to people. He had no desires, so he naturally could hold his own. On the other hand, Liang Weimin and Yuan Shan were both surprised and happy. It was obvious that most of the credit for today's incident was given to Liang Qichao. They looked

at Xia ruofei with gratitude. Elder Tang sat down beside Xia ruofei with a smile.””Brother Xia, I’m determined to get this material! We can discuss the price again.” “Haha, old man, the old rules are still the same. You can name your price!” Xia ruofei said,”as long as the price is right, this piece of material is yours!” Elder Tang laughed and looked into Xia ruofei’s eyes,””What if I offer another ten million?” Xia ruofei replied without hesitation,”as long as you think it’s a good price, then that’s fine!” Who asked you to be brother Liang’s maternal grandfather?” Elder Tang was stunned for a moment before bursting into laughter. “Brother Xia, I can only offer you 10 million for this piece of material ...” He said seriously. Liang Weimin couldn’t help but widen his eyes when he heard this. This wasn’t his uncle’s style! He knew that his uncle had always been very forthright when it came to money. When he saw something he liked, he would be even more generous. He would not care about the price at all. The value of this material was obviously more than ten million Yuan. How could the old man go with the flow and really offer ten million Yuan? After Liang Weihua was stunned for a moment, he quickly revealed a well – hidden look of joy. Could there be a problem with this material? Or did uncle not want to pay more? He didn’t even consider the fact that elder Tang had flown all the way from the United States just for a piece of material. Why would he care about a small amount of money that was nothing to him? Liang Weihua was praying that Xia ruofei would reject him immediately. It would be best if the two of them fell out and parted on bad terms. However, no one expected that elder Tang had only finished half of his sentence. Elder Tang paused and looked at Xia ruofei with a smile. Xia ruofei’s expression remained the same, even with a faint smile on his face. He was not affected by the price he had offered. Elder Tang nodded in approval. Elder Tang smiled and continued,””But the 10 million I’m talking about isn’t Chinese dollars, it’s US dollars!”

Chapter 313: Top quality veined lines (1)

Everyone in the Liang family was shocked by elder Tang’s words. Even Xia ruofei could not help but raise his eyebrows in surprise. Elder Tang’s original price was ten million Chinese dollars, but it was suddenly changed to ten million US dollars. This was a six – fold difference! Although this piece of Phoebe zhennan material looked to be of extremely high quality, was it really worth that much money? 10 million US dollars, how many people could not earn that much money in a few lifetimes! Even Liang Weimin couldn’t help but say,”Uncle, the price you offered ...” “Do you all think that I’m asking for too much?” Elder Tang interrupted Liang Weimin with a smile as he looked around at everyone. The Liang family didn’t say anything, but from their expressions, it could be seen that they clearly felt that the price was a little too high. Elder Tang looked at Liang Weimin with a smile and asked,””For the people, it was your Lil Chao who helped me find this material. Tell me, how much do you think I should offer?” Liang Weimin looked at the Phoebe zhennan and then at Xia ruofei. Finally, he said,””Uncle, RUO Fei’s golden Nannan is indeed of high quality and can be considered a top – grade old material. What’s rare is that it’s a whole piece. But even so, I think ... 20 million Chinese dollars should be more appropriate.” “Hehe, 20 million?” Elder Tang smiled.”For the sake of the people, I’ll pay 30 million. As long as it’s of this quality, I’ll take as much as you have!” Xia ruofei stood up and smiled,””Elder Tang, it seems like I’m not as simple as I look!” Liang Weimin also came back to his senses, and he quickly asked,”Uncle, is there something more to this material? Please give me some pointers!” The other relatives of the Liang family also looked at elder Tang, hoping that he would give them some advice. Elder Tang smiled and walked up to the Phoebe zhennan. He pointed to the window and asked,””You guys should be able to tell that the texture of this material is very beautiful, right?” Everyone nodded in agreement. “Then tell me, what kind of pattern is this?” Elder Tang wasn’t in a hurry to answer everyone’s questions. Instead,

he asked a question in return. Liang Weimin said with uncertainty, "Uncle, it should be the water ripples!" At this moment, another relative of the Liang family frowned and said, "I think it's a little like Yingzi ..." In fact, whether it was the water ripples that Liang Weimin had mentioned or the galls that another person had mentioned, the fact that they had appeared on the Phoebe zhennan was already very precious. This meant that the golden threads in the Phoebe zhennan wood were distributed in patches, which was why they formed such patterns. Otherwise, there would only be sparse golden threads. However, neither the water ripples nor the galls were enough to increase the value of this material by more than six times. Elder Tang smiled faintly and said, "Both of you are quite close, but neither of you is correct!" "Uncle, this is ..." Liang Weimin asked. Elder Tang pointed at the patterns on the material and said, "First of all, this is definitely not a tumor. A tumor is formed by a lesion. However, this nanmu was very healthy when it was growing and did not have any lesions at all. As long as you look at it carefully, you will know that these are all naturally formed veins." Elder Tang continued, "in reality, this is already a cloud pattern. Although it looks like a water ripple, its texture is smaller than the water ripple. It's like clouds, very irregular. Look at this position, doesn't it look like lightning and thunder?" Liang Weimin and the others looked at the spot that old master Tang pointed at. After a careful look, they all nodded. "Cloud – patterned material is worth much more than water – patterned material!" Elder Tang said with a smile. And this is only the tip of the iceberg ... Elder Tang then pointed to the other parts of the wood and said, "There are more than 30 lumps on it, and the ones we've just cut out are the smaller ones. I have reason to believe that if the whole piece is cut out, it will give me a lot of surprises. There might even be a top – grade big wave!" Liang Weimin and the others couldn't help but look aghast. If he really got the highest quality wave pattern, then 10 million dollars was really not expensive. In fact, it was too cheap! This was because the big waves were the best of the gold Phoebe Wood veins. It was shaped like a stormy sea, and the golden threads were fine and smooth like Jiangnan silk. It had the momentum of the waves, but also had a charming visual impact. None of the people present had ever seen such a top – grade material before because it was too rare. They had only seen it in pictures. However, just by looking at the pictures, one could feel the strong visual impact. In fact, such a large piece of material with high – Quality patterns like the cloud – colored pattern was basically worth 10 million US dollars. Of course, this price could only be obtained in an auction. However, if the core hidden in the bark and the edges could be carved with more beautiful patterns, then the price that elder Tang offered was really not too expensive. After listening to elder Tang's explanation, everyone looked at Xia ruofei with envy. Liang Weihua and Liang Xiaojun were so jealous that they were about to go crazy. Xia ruofei had ruined their plan, and now he was going to make 10 million US dollars. How could the father and son be calm? At the same time, Liang Weihua felt a little scared. If elder Tang had really gone with the flow and made him pay for the extra money, he would have really lost a lot of money. Xia ruofei smiled. "Elder Tang, you're so honest. If you didn't tell us, we wouldn't have been able to tell what's so special about these patterns. You don't have to pay such a high price." "Honesty is the most important thing in business," elder Tang said. "I'm sure you're aware that I'm buying this goldthread Nannan material to make a longevity material for myself, brother Xia!" If it was obtained through deceptive means, how could I lie in it in peace after a hundred years?" Xia ruofei couldn't help but laugh. This old master Tang was really an interesting person. "How is it? Are you satisfied with this price, brother Xia?" Elder Tang smiled and said, "of course, you can also choose to open a few more Windows. If a higher quality rare pattern appears, we can discuss the price again." Xia ruofei waved his hand without hesitation and said, "No need! If it wasn't for that little incident just now, I would've sold it for 10 million Chinese dollars. It's already very good that I can get six times the amount, one should be

content with what they have!" "I'm content!" Elder Tang laughed. Brother Xia has a good attitude!" "Old man, it's decided then!" Xia ruofei smiled and said, "from now on, this piece of material is yours." "Thank you! Thank you!" Elder Tang was overjoyed. After speaking, elder Tang gestured for his assistant to bring the checkbook over. At this moment, Liang Weimin suddenly said, "Uncle, wait!"

Chapter 314: Invitation (1)

Liang Weimin said, "uncle, this piece of gold Nannan is a small gift from our family to you. You can't pay for it. I've already prepared it!" 10 million US dollars was a lot. It was equivalent to more than 60 million Chinese dollars. Liang Weimin was a little tight on his hands to take out so much money all of a sudden. However, the real estate industry had been very profitable in the past few years, so it was not a big deal to take out this money. This was mainly because Liang Weihua had done the same thing before. Now that Liang Weimin had the upper hand, he naturally wouldn't let Liang Weihua take the lead in this matter. Elder Tang chuckled and waved his hand, "No need! I understand your company's situation. Taking out so much money at once will definitely affect your liquid funds." "Uncle ..." "Let's do this! 10 million US dollars is not a lot of money for me." Elder Tang said decisively, not giving Liang Weimin any chance to continue fighting. He directly took the checkbook, scribbled down the amount, signed his name, and then tore off the check. However, elder Tang did not pass the check to Xia ruofei. Instead, he passed it to Liang Weihua, who had a complicated expression on his face, and said, "Wei Hua, here's 8 million Chinese yuan. I'll use your material to make some furniture. It's pretty good." Liang Weihua was stunned for a moment, but when he finally reacted, he quickly said, "Uncle, I gave that material to you as a token of respect. I can't take the money!" "Take it!" Elder Tang replied indifferently, "I didn't ask him to pay for the People's side. Of course, I can't ask you to pay for the People's side either. I can't favor one over the other!" Elder Tang's words left no room for doubt, so Liang Weihua could only helplessly accept the check. He felt that the check was a little hot. He had made a false price before. He had actually spent less than seven million on the Phoebe zhennan, but now the old man had given him eight million according to the price he had set. If the old man knew about this, the nature of the matter would be completely different. It wouldn't be too much to say that he was scamming money. If Xia ruofei had not helped Liang Weimin find this piece of Phoebe zhennan material, old master Liang would definitely have used Liang Weihua's. Now that he had failed to please old master Liang, he had even left a bad impression on him. When he thought about how this was all because of Xia ruofei, Liang Weihua's gaze towards Xia ruofei became even more venomous. Xia ruofei felt something and glanced at Liang Weihua indifferently. Liang Weihua subconsciously avoided Xia ruofei's gaze because Xia ruofei's casual glance had actually made him feel a chill from the bottom of his heart. Why is this kid's gaze so terrifying ... Liang Weihua still had some lingering fear. The corners of Xia ruofei's mouth curved up slightly and he looked away. Elder Tang signed another ten million US dollars check and handed it to Xia ruofei with a smile. Xia ruofei took the check and thanked her with a smile. At this moment, Liang Weimin came over and said, "Uncle, it's almost time, let's go eat! I've already reserved the place ..." Liang Weimin had already accepted the task of receiving elder Tang. When he went to inform the master carpenter, he had also decided on a place to eat. Elder Tang nodded. "For the sake of the people, you can rent a warehouse near the Changping Pier and transport this piece of material there first. The cargo ship I've arranged will arrive in a few days. You don't have to worry about the procedures, my people will take care of it. You just have to ensure the safety of this piece of material within these few days!" "Don't worry! Uncle, I'll definitely send more capable people. There won't be any problems!" Liang Weimin said. He then added, "I'll have little Chao stand guard there 24/7!" Liang Weimin naturally wanted to give his precious

son more points, but Liang Qichao's face immediately turned bitter when he heard that. He didn't want to show anything in front of the old man! Wasn't it killing him to guard the warehouse for several days in a row? However, he didn't dare to refute his father's words, so he could only put on a pitiful look. Elder Tang nodded with a smile. Liang Weimin said to Xia ruofei, "ruofei, leave the key to the warehouse to Lil Chao!" I'll arrange for a car to come over and take the material away in a while! Have lunch with me this afternoon!" Elder Tang immediately replied, "Yes, yes, yes, brother Xia, I still have to thank you properly! Let's have lunch together!" "For the sake of the people," elder Tang said, "please arrange a better place for us. I'll have a few drinks with brother Xia!" Liang Weimin smiled and said, "don't worry, uncle. I've booked a private room at the West River Moon Club. Although this club isn't considered very high – end in the country, it's very unique. They have a type of Taoyuan brand vegetable. Not only does it look very good, but the taste is also far better than ordinary vegetables. Uncle, it's not easy for you to come back to the three mountains. You must go and try it!" Xi Jiang Yue's paradise vegetables had always been sold in the form of an auction. President Zheng knew that rare goods could be kept. However, as Xia ruofei's vegetable greenhouse began to operate, the supply volume had also increased. With Liang Weimin's status in Sanshan city, it was not difficult for him to get to eat paradise vegetables even though it was a temporary order. Elder Tang's eyes brightened up as he said, "Weimin, now that you've mentioned it, I really have to go and try this paradise vegetables!" Xia ruofei chuckled and said, "old man, if you want to try the taste of the Taoyuan vegetables, I have a better place to go ..."

"Oh?" "Brother Xia, do you have any better recommendations?" elder Tang asked with great interest. Liang Weimin also asked curiously, "ruofei, are you Ling Ji restaurant?" As far as I know, although Ling Ji restaurant also provides paradise vegetables, they're going down the path of mass food, so the exquisiteness of their dishes is far from being able to catch up with the Xi Jiang Yue club. "Xia ruofei laughed. "Old master, uncle Liang, I'm not talking about Xi Jiang Yue. I'm not talking about Ling Ji restaurant." Liang Weimin was even more curious now. He said, "I'm a little ignorant about this. Is there a third place in Sanshan city where you can eat Taoyuan vegetables?" Taoyuan vegetables had been on the market for some time and was very famous in Sanshan city. Almost everyone knew that only Xijiang Moon Club and Ling Ji restaurant could have such expensive but delicious vegetables. Xia ruofei smiled. "I won't keep you in suspense. The place I'm talking about is my home!" "Your home?" Liang Weimin was even more surprised. "Old master, uncle Liang, I opened a farm in the suburbs Changping County. I usually live there." Xia ruofei smiled and said, "Ling Ji restaurant and West River Moon club's paradise vegetables are provided by my farm. So ... If you want to eat paradise brand vegetables, the best place is naturally my Paradise Farm. I have an unlimited supply there!"

Chapter 315: Art – like vegetables (1)

"Taoyuan vegetables are actually supplied by your farm!" Liang Weimin said in shock. Liang Qichao also called out, "ruofei, you're really good at keeping secrets!" We've known each other for so long, and I've even been to your farm a few times, but you never told me that you're actually growing Taoyuan vegetables in your greenhouse!" Xia ruofei chuckled. "It's not a big deal. It's just a little better – looking than normal vegetables, tastes better, and is a little more expensive." "It's more than just a little expensive!" Liang Qichao said resentfully, "it's been fine recently, but the price was sky – High a while ago, okay? If I had known that you were growing Taoyuan vegetables, I would have gone home to show my filial piety to my parents!" "It's not too late to know now!" Xia ruofei smiled and said, "if uncle and aunty want to eat Taoyuan vegetables in the future, feel free to come to my farm and get them!" "Ruofei, I won't be polite then!" Liang Weimin chuckled and said, "it's fine that Taoyuan vegetables are

expensive, but the main thing is that there's too little of them. You can't eat them even if you have money!" Elder Tang's interest was piqued after hearing this. He had always been a glutton, and he had never had any resistance to good food. Moreover, he was a world – Class rich man and had basically tasted all the top food. Now, when he heard Liang Weimin and the others speak so highly of paradise vegetables, and even Liang Weihua was shocked when he heard that Xia ruofei was the supplier of paradise vegetables, the old man's appetite was also hooked. "Brother Xia, it's a deal! We'll go to your farm for a meal at noon!" Said elder Tang. "We welcome you!" Xia ruofei said with a smile. The group walked towards the door. Liang Weihua's mood was a little low, and he said directly, "Uncle, I'm not feeling well, so I won't be able to accompany you for lunch ...". Elder Tang chuckled and nodded. He didn't seem to be unhappy with Liang Weihua's behavior today. However, Liang Weihua was clear that the old man had long cultivated to the realm where he could not show his emotions. Today's incident would more or less leave a bad impression on the old man. Thinking about this, Liang Weihua's hatred for Xia ruofei grew even stronger. Liang Weihua's family of three bade their farewells and left. The other relatives of the Liang family also tactfully bade their farewells. If they were at the Xi Jiang Yue clubhouse, they would definitely not let go of the opportunity to be in close contact with the old man and would definitely go with him. However, now that Xia ruofei had invited old master Liang, no matter how thick – skinned they were, they were too embarrassed to go and join in the fun. Liang Qichao was also forced to stay behind to arrange for the transportation of the Phoebe zhennan materials, so only Liang Weihua and Yuan Shan were left to accompany elder Tang. Xia ruofei led the way in the pickup truck while Liang Weimin drove the Mercedes – Benz. Elder Tang and Yuan Shan were in the car while elder Tang's assistant and two bodyguards drove another car and followed behind. Soon, the three cars arrived at Taoyuan farm. Xia ruofei stopped the car at the shed. Elder Tang and the others got out of the car. The old man looked at the beautifully planned farm and couldn't help but exclaim in admiration. He took a deep breath of fresh air and said, "Brother Xia, this place of yours really lives up to its name. It's like a paradise!" "Old master, you're too kind!" Xia ruofei smiled and said, "these greenhouses are growing all – Natural and pollution – Free Peach Garden vegetables." Xia ruofei then invited elder Tang to take a look. Elder Tang naturally agreed. Liang Weimin and his wife were very curious about the vegetable farm in paradise and followed closely. Xia ruofei led the group into the vegetable greenhouse. Cao tieshu and the workers were not in this shed. There were several long sheds like this in Tao Yuan farm, and now Cao tieshu was busy with the workers in other sheds. Hence, Xia ruofei personally explained to elder Tang. In reality, elder Tang had been mesmerized the moment he stepped into the greenhouse by the rows of fresh and green vegetables. The greenhouse was filled with cabbages and had just been automatically watered. The cabbages' green leaves were all covered in droplets of water, just like a Jade plate holding a clear pearl. It was a pleasing sight to the eye. "Brother Xia, I'm getting more and more interested in your paradise vegetables!" Elder Tang said, "these cabbages are like a piece of art. It's hard to imagine how they'll look when they're served on the table ..." Xia ruofei smiled. "Today, I'll cook a table full of dishes for the old man and uncle and Auntie. How about using all the ingredients from our Taoyuan farm?" "I'm really looking forward to that!" Old master Tang laughed. "Old man, this way please!" Xia ruofei brought elder Tang on a tour of the farm before heading straight to the villa. Ye Lingyun had already finished his lunch and brought little black out for a patrol. Xia ruofei brought the few of them into the empty villa. As soon as they entered the living room, elder Tang and the others were immediately attracted by the pair of Blood Dragons. "This Red Arowana is too perfect!" Liang Weimin couldn't help but ask, "ruofei, where did you find such a high – Quality Blood Red Dragon? And they were actually a pair! It's unbelievable." "I'm lucky. A friend of mine is about to emigrate, so he

gave me the red Arowana ..."Xia ruofei smiled. After that, Xia ruofei made tea for the three of them and asked them to help themselves. He then went into the kitchen to prepare lunch. Xia ruofei had stored some vegetables and fruits in his interspace. These were all produced inside the interspace and were of better quality than the vegetables in the greenhouse outside. After Xia ruofei entered the kitchen, he immediately contacted the interspace with his mind and took out a large pile of ingredients. Other than vegetables and fruits, Xia ruofei also used the invisible force of space to take out two big fish. Then, he started to get busy in the kitchen. Including elder Tang's assistant and bodyguards, there were a total of seven people eating today. Xia ruofei had prepared seven or eight dishes, mainly Taoyuan vegetables, fish head tofu soup, and braised carp. After a while, Xia ruofei started to serve the dishes one by one. There was stir – fried cabbage that looked like jade, tomato salad that exuded the fragrance of melon and fruit, and milky white fish head tofu soup ... Each dish could make people have a strong appetite just by looking at it, not to mention the waves of alluring fragrance. Soon, elder Tang and the others couldn't help but walk into the dining room. Xia ruofei returned to the kitchen and brought out the main dish. Other than the rice, he also prepared a large plate of dumplings stuffed with pork and cabbage. The cabbage was naturally produced in the realm. Xia ruofei saw that there were noodles in the fridge that ye Lingyun had woken up, so he made dumplings on the spur of the moment. In the kitchen, he also took out a few bottles of wine from the medium. These were also the ones he had gotten from the medium last time and stored in porcelain bottles in case of emergency. However, these few bottles of wine were just ordinary Drunken Eight Immortals without any added petals. Of course, after being stored in the spatial space for so long, these bottles of wine were much more mellow than the ones he had given to Ling Xiaotian previously. They were definitely top quality wine. Xia ruofei carried the dumplings and the Drunken Eight Immortals wine out of the kitchen on a tray and went straight to the dining room. "Old man, uncle, aunty, please sit down!" He said with a smile.

Chapter 316: A sudden thought (1)

"Thank you for your hard work, brother Xia!" Elder Tang sat down with a smile. Xia ruofei gestured for Liang Weimin and Yuan Shan to take their seats as well. Then, he sat down beside elder Tang. He unscrewed the cap of the bottle and said with a smile, ""Old man, have some wine for lunch!" "Drink some!" Elder Tang nodded. I'm so happy today! Let's drink some wine to celebrate ..." Liang Weimin looked at the porcelain bottle in Xia ruofei's hand and asked curiously, ""Ruofei, this wine of yours ... I don't think I've ever seen it before!" Liang Weimin was also a wine lover. With his net worth in the hundreds of millions, he had seen all kinds of good wine. However, he had never seen the wine in Xia ruofei's hands, so he was a little curious. "This is my homemade white wine. Please have a taste!" Xia ruofei smiled. At this moment, Xia ruofei had already opened the bottle and the strong aroma of the wine filled the restaurant. "This wine is so fragrant!" Even Yuan Shan, who didn't drink much, couldn't help but sniffle and say in surprise. Old master Tang and Liang Weimin's eyes lit up. These two were experts in wine country. Just by smelling the wine, they knew that the bottle of wine in Xia ruofei's hand was not simple. Xia ruofei personally poured wine for old master Liang, Liang Weimin, and his wife. Then, he raised his glass and said, "Old man, uncle, aunty, Welcome to the Farm! Come, let's go first!" "Cheers!" "Cheers!" Other than Yuan Shan, who only had a small taste, the three men raised their heads and drank the wine in one go. After drinking the wine, elder Tang and Liang Weimin were both stunned. Then, they shouted in unison, ""Good wine!" "Ruofei, this wine is sweet and rich with a long aftertaste. It's really good wine!" Liang Weimin said, "the years of Maotai I've drunk can't even compare to this!" "Brother Xia, you've really made me look at you in a new light!" Elder Tang also praised, "to be able to

grow such delicious vegetables and brew such a fragrant wine, I'm truly impressed!" "Old master, you're too kind!" Xia ruofei chuckled as he filled everyone's glasses." "Come, come, come. Don't just drink. Try my food!" Elder Tang looked at the beautiful Taoyuan vegetables and immediately picked up his chopsticks. He picked up a few pieces of cabbage and put them in his mouth. He chewed a few times and his eyes lit up."No wonder paradise vegetables is so famous. The taste of this cabbage is really good! It's crisp and sweet, and the fragrance of the vegetables itself is so strong!" Liang Weimin and Yuan Shan had both eaten Taoyuan vegetables before, but after they tried Xia ruofei's food, they still looked like they were enjoying it. "Ruofei, your cooking seems to be even more delicious than the Taoyuan vegetables I had at the West River Moon Club!" Yuan Shan said. "It seems that brother Xia's cooking skills are not bad!" Elder Tang laughed."Even the head chef of the club can't compare to him!" Xia ruofei only smiled and did not reply. He knew very well that Yuan Shan had that feeling mainly because of the difference in ingredients. The ingredients that Xia ruofei took out this time were all watered with the petal solution and planted in the medium. They were originally kept for his own consumption, so the quality was much higher than the vegetables supplied to the two restaurants in batches. Moreover, because it had absorbed the components of the petals of the strange flower, if ordinary people used it all year round, it would definitely be very beneficial to the body. Of course, the benefits that this little bit of petal brought to Xia ruofei could be ignored. He had absorbed a lot of the petals. Following that, the three of them tried the other dishes. Naturally, they were all full of praise, especially for elder Tang, who was eating the Taoyuan vegetables for the first time. He gobbled up the food and didn't even bother to drink the fine wine in front of him. After eating a few mouthfuls of food and a few dumplings, elder Tang sighed,""Brother Xia, your paradise vegetables has really given me a big surprise! I'm very envious of you now ..." "The old man's wealth is comparable to a country's and his family's wealth is in the hundreds of millions. What do I have that's worthy of your envy?" Xia ruofei asked with a smile. "You have a small farm of your own, facing the sea every day, leisurely and carefree. You can also eat such delicious delicacies and drink top – Quality wine at any time. Even the gods wouldn't want to exchange for such a life!" Elder Tang sighed. "Then you're welcome to visit us often, old man!" Xia ruofei smiled."The gates of Taoyuan farm are always open for you!" "I'm going back to United States a few days!" Elder Tang smiled bitterly."People in the business world can't do as they please! I'm already so old, and I have to make arrangements a long time in advance if I want to come home to see you. I have to count my schedule and deal with a lot of things after I go back ... I have to make money every day, and this kind of life is actually quite boring!" Xia ruofei smiled."Old man, you should train a successor as soon as possible. Then, you can live the leisurely life you want!" Liang Weimin's and Yuan Shan's expressions changed slightly, and their eyes revealed a hint of anticipation and nervousness. Elder Tang didn't notice their expressions. He smiled and nodded at Xia ruofei." "Yup! As he got older, he felt that there were many things that he could not do with his heart! I also wanted to see if there are any outstanding juniors in the family, so I'm going to bring them back to the United States to train them ..." When Liang Weimin heard this, he gathered his courage and asked,"Uncle, you see ... Our little Chao ..." Elder Tang looked at Liang Weimin with a half – Smile and said,""For the people! Little Chao's filial piety is commendable. You can say that he has done his best for my matter this time ..." Just as Liang Weimin's eyes lit up with joy, old master Tang suddenly changed the topic and said,"But I think little Chao doesn't seem to have any interest in developing in the business world ..." "Uncle, little Chao is still young and his heart hasn't settled down yet!" Liang Weimin quickly said,"if you can take him by your side and teach him, I believe he'll gradually change." Elder Tang smiled noncommittally and did not answer Liang Weimin directly. This made Liang Weimin feel a little

disappointed. He and Yuan Shan looked at each other and saw a hint of frustration in each other's eyes. If Liang Qichao had been a little more positive, based on his performance in the search for the Phoebe zhennan, there was a high chance that he would have been favored by elder Tang. However, Liang Qichao didn't want to go to United States at all ... Elder Tang thought for a while and suddenly said to Xia ruofei, "Brother Xia, I have a suggestion. You can consider it." "Please speak, old man." "It's the Phoebe zhennan material today. I wonder if you are interested in another way of trading?" Elder Tang said, "I bought a farm in Australia, but I haven't really taken care of it. If you're interested, I can give you 40% of the shares to offset the 10 million US dollars."

Chapter 317: Super quality farmy...1

A farm? Hearing this, Xia ruofei was also a little stunned by old master Tang's strange thinking. Liang Weimin was the first to react. He said in surprise, "Uncle, are you talking about the big farm in Hunter Valley in New South Wales?" Elder Tang smiled and nodded. He looked at Xia ruofei and said, "How is it? Brother Xia, would you consider it?" Xia ruofei saw Liang Weimin's reaction and couldn't help but ask curiously, "Uncle Liang, is elder Tang's farm very famous?" Liang Weimin was still in shock. He looked at Xia ruofei and said with a complicated expression, "Ruofei, the padink farm that uncle bought is located in the Hunter Valley in New South Wales, Australia. It has an area of more than 6000 hectares. Uncle spent 45 million Australian dollars to buy it. After that, he invested a lot of money to renovate the farm's facilities, improve the pastures, and so on. The total cost exceeded 50 million Australian dollars!" Xia ruofei was shocked. Elder Tang had said it so casually as if it was a business deal worth a few hundred dollars. Xia ruofei had thought that the farm elder Tang was talking about would be a small or medium – sized one. He did not expect it to be such a huge one. Xia ruofei quickly calculated in his heart. 50 million Australian dollars was almost equivalent to 38 million US dollars. The old man had directly offered him 40% of the shares. That was not 10 million US dollars but 15 million US dollars! Xia ruofei forced a smile and said to old master Tang, "Old man, you're really generous! However, based on the amount of investment you've invested, you'll suffer a huge loss if you give me 40% of the shares!" Elder Tang laughed nonchalantly, "No, no, no, I didn't lose out at all! Brother Xia, 40% of the shares is only about 15 million US dollars. Other than this 10 million US dollars, the remaining 5 million can be considered as your investment! The fact that you can cultivate such vegetables and make such high – Quality wine is definitely worth 5 million US dollars!" Elder Tang paused for a moment, then continued in a seductive tone, "Brother Xia, my farm in Australia is a comprehensive high – Quality farm, and all the fertile land is close to water sources. Not only can we develop planting, but we can also engage in animal husbandry. The return on investing in my farm will definitely be very high, especially if we introduce advanced technology from your side, the development will definitely be very good!" Liang Weimin also looked at Xia ruofei enviously and said, "Ruofei, as far as I know, the farm that uncle bought now has more than 30000 sheep and nearly 3000 Angus cows. The profit situation is also very good." Xia ruofei thought for a while and said, "Old man, thank you for your love, but ... This is a big matter, and I can't make a decision in a short time. Please give me some time to think about it!" In fact, other than the fact that the investment amount was relatively large, which made Xia ruofei a little hesitant, he was more concerned about the issue of controlling the shares. If he only owned 40% of the shares, it would mean that he had no absolute say in the management of the farm. Xia ruofei subconsciously rejected this. Elder Tang nodded his head and replied, "No problem! Brother Xia, you can take some time to go to Australia. I'll arrange for someone to take you to survey the place, and you'll know how suitable this investment is!" "Alright!" Xia ruofei nodded and said, "I'll think about it!" After that, they didn't talk about this topic

anymore. They talked about all sorts of things. Almost all the delicious dishes on the table were eaten, and the three men drank nearly three catties of white wine together. It could be said that the host and the guest were having a great time. After the meal, elder Tang and the others bade farewell and left. Before he left, elder Tang once again brought up the matter of investing in a farm. He urged Xia ruofei to consider his suggestion carefully. Xia ruofei naturally smiled and nodded in agreement. After sending off elder Tang and the rest, Xia ruofei cleaned up the table and went straight upstairs to his room. Elder Tang's suggestion indeed moved Xia ruofei. He didn't know anything about farms in Australia, so after he went back to his room, he turned on his computer and looked up information. Xia ruofei was even more impressed by elder Tang's generosity. Australia was vast and sparsely populated, and its land resources were rich. There were many large and small farms for sale, with prices ranging from tens of thousands to tens of millions of Australian dollars. Elder Tang had spent 45 million Australian dollars to buy a farm of more than 6000 hectares. The unit price was quite expensive. This also meant that the farm's geographical location, capacity per unit area, hardware facilities, and other things should be first – Class. There were many factors that affected the price of farms in Australia, one of which was the distance from big cities such as Sydney and Melbourne. For example, a farm 250 kilometers away from Melbourne would cost three million Australian dollars, while a farm 500 kilometers away with similar conditions might only cost four to five hundred thousand Australian dollars. Moreover, the government had also strictly regulated the livestock carrying capacity per unit area of different levels of farms, from south to north, from east to west. Based on the different rainfall and supply conditions of aquatic grass, it was decided that ranches could raise two cows per acre to one cow per 200 acres. If it exceeded the limit, it would be suspected of animal abuse and would immediately be fined by the government. According to Liang Weimin, old master Tang's farm had 30000 sheep and 3000 Angus cows. This meant that the land was very fertile, and the pastures and water sources were all very good. The more he read, the more tempted Xia ruofei was. That was a 6000 – hectare farm! All lands Australia had permanent property rights and could be inherited by future generations. There was a saying, "the wind can enter, the rain can enter, but the king can not." The farm owner's ownership of land was sacred and inviolable. Xia ruofei believed that with his spirit map space, if he could own such a large farm in Australia he could create a paradise overseas. Of course, the only problem was the equity ratio. Xia ruofei couldn't accept elder Tang's proposal. His bottom line was that he had to control the company, which meant he had to have at least 51% of the shares. In reality, Xia ruofei's idea was to solely own any farm – related business. He would not accept any shares or investments. However, the Australia farm was a little special. It was already acquired by elder Tang, and he was only inviting Xia ruofei to invest in it. On one hand, it was the temptation of quality overseas farms. On the other hand, it was the problem of equity proportion. Xia ruofei spent two days hesitating but still could not think of a way to get the best of both worlds. Elder Tang wouldn't be in China for long. Xia ruofei knew that he had to make a decision as soon as possible. Just as Xia ruofei was having a headache over the olive branch that elder Tang had extended to him, he suddenly received a call from someone else ...

Chapter 318: Elder song's help (1)

The caller ID showed that it was a local landline number. Xia ruofei picked it up and said, "Hello, who is this?" Manager Lu's voice came from the phone, "Xia, the chief wants to talk to you. Please wait a moment." "Oh, okay!" Xia ruofei quickly said. His heart skipped a beat. Under normal circumstances, elder song would pass on his message through manager Lu. Could it be that something big had happened? Just as Xia ruofei's mind was racing, elder song's voice came from the phone. "Little Xia."

"Hello, chief!" Xia ruofei quickly greeted him. "Xia, do you have any good ideas on how to treat colon cancer?" Elder song sounded anxious. "Brother Fu's results at the provincial Hospital are out. It's late – Stage colon cancer ..." "Ah?" Xia ruofei was shocked. "How did this happen? Didn't they say it was kidney stones? Did the hospital on Mount Wu Yi make a mistake?" Elder song sighed and said, "it's not a misdiagnosis. Kidney stones are also common. It's precisely because kidney stones can also cause abdominal pain that the doctors were misled. This time, if it weren't for the rich experience of the experts from the provincial Hospital, they might not have discovered it." "Chief, what did the specialist say?" Xia ruofei asked. "Brother Fu is getting on in years. His body might not be able to take the surgery or chemotherapy." Elder song said in a low voice, "so...The specialist judged that the prognosis is not very good ..." "Xia, that's why I wanted to ask you. Is there any Chinese medicine that can treat mid to late stage colon cancer?" elder song continued. Xia ruofei pondered for a while. "Chief, how about this? I'll go and check on old Mr. Li first. Oh right ... Is he in the hospital or in guling?" "Brother Fu is already in the Gu Ling courtyard. He doesn't know about his condition yet." Elder song said, "thank you for your hard work, little Xia." Elder song was not surprised that Xia ruofei did not give him an answer immediately. Although Xia ruofei had successfully cured his liver cancer, Li Zhifu had been diagnosed with colon cancer. It was the same type of cancer, but the treatment was completely different. It would be abnormal if Xia ruofei did not hesitate to give him an answer! "You're welcome, chief. I'll come over now." Xia ruofei said. After hanging up the phone, Xia ruofei did not get up immediately. Instead, he sat on the chair and pondered for a while. Then, he took out the spirit painting scroll and entered the medium. After making some preparations, Xia ruofei went downstairs and drove away from Taoyuan farm. After half an hour, Xia ruofei arrived at Gu Ling courtyard. Manager Lu came down personally to welcome Xia ruofei. "Xiao Xia, the chief is with old Mr. Li. Let's go over directly!" Manager Lu said. "Alright," he said. Xia ruofei nodded. Manager Lu led Xia ruofei into the building and said, "Xiao Xia, be more careful when you speak later. Old Mr. Li doesn't know about his illness yet. The chief wants to hide it from him as much as possible." "I understand, don't worry!" Xia ruofei said with a smile. The relatives of many cancer patients would hide their condition from their patients because once the patients knew that they had a terminal illness, most of their conditions would deteriorate rapidly under great psychological pressure and fear, and they would soon die. Xia ruofei had suffered from Lou Gehrig's disease before, so he was very clear about the mentality of a terminal patient. The two of them soon arrived at elder song's room. Manager Lu knocked on the door lightly, opened it, and led Xia ruofei in. Elder song and Li Zhifu were sitting in the guest room. There was a chessboard in front of them, and they were playing Chinese Chess. After seeing Xia ruofei, Li Zhifu laughed and said, "Little Xia is here!" "Hello, old Mr. Li, Hello, chief." Xia ruofei walked over and said with a smile. Elder song smiled and nodded at Xia ruofei. He put down the chess piece in his hand and said, "Brother Fu, since Xiao Xia is here, let's call it a draw!" "No, no, no! I've eaten your car, so you'll definitely lose this game!" Li Zhifu said. "That might not be the case!" Elder song chuckled and said, "your two horses are dead. I have all the officials here, so you can't kill me in a short time!" "Impossible! You've long lost the power to fight back!" Li Zhifu shouted. "Fine, fine, fine," elder song smiled bitterly, "then you win this game! Brother Fu, let's go make some tea ..." Xia ruofei and manager Lu both smiled. It was obvious that elder song enjoyed this kind of life. With his status, even song Zhengping's children had to be respectful to him. Only Li Zhifu, who had been his old friend for many years, could communicate with him freely. They sat around the coffee table. Li Zhifu took out some tea leaves and prepared to make tea. Elder song stopped him and said, "Brother Fu, let Xiao Lu make some tea!" Li Zhifu looked at elder song with a puzzled expression. Elder song chuckled. "Xia came over today and he can give you a check – up. Don't look at

Xia's young age. He's very accomplished in Chinese medicine. Some of my old problems were cured by Xia's Chinese medicine." Xia ruofei also said, "old Mr. Li, why don't I take your pulse?" The elderly will have some minor problems with cardiovascular and cerebrovascular diseases, so it's best to take care of them in time. " Li Zhifu looked at elder song for a while, then looked into his eyes and asked, "Song, tell me the truth, did I find something wrong with my body?" "Kidney stones are a little troublesome, but it's not a big problem. Now that medicine is developed, the stones can be removed outside the body ..." Elder song said with a normal expression. "I'm not talking about kidney stones!" Li Zhifu said, "little song, I didn't hear you say anything for the past two days. Why did little Xia come over to check my body when the report came out today?" "Brother Fu, don't think too much!" Elder song chuckled and said, "isn't it because Xiao Xia came to see me today?" Xia ruofei also smiled. "Old Mr. Li, I'm just taking your pulse. Don't think too much." Li Zhifu was silent for a moment before sighing, "Alright then!" The old man had lived for more than 90 years, and his rich life experience made him keenly feel that his illness seemed to be very troublesome. However, since elder song chose to hide it out of goodwill, he might as well play dumb. Xia ruofei walked to li Zhifu's side and sat down. He took his pulse carefully, looked at his tongue, and asked him some questions. He did the whole set of Chinese medicine treatment process methodically. "How is it?" Li Zhifu asked calmly. Xia ruofei smiled. "It's not a big problem. I'll give you some Chinese medicine later. You'll be fine." "It's good that you're fine!" Elder song quickly said. It's good that you're fine! Come, brother Fu, let's have some tea ..." Li Zhifu smiled but didn't say anything. Everyone tacitly stopped talking about this matter and sat around the coffee table, drinking tea and chatting. After a while, Xia ruofei excused himself and left elder song's room. He had something to discuss with song Rui. He walked to the window in the corridor, took out a cigarette, and lit it. After taking three or four puffs, he saw manager Lu walking out of elder song's room. "Xiao Xia, how's the checkup?" manager Lu asked impatiently. Is there any way to treat it?"

Chapter 319: Miracle doctor Xia makes his move again (1)

Xia ruofei did not answer manager Lu directly. Instead, he snuffed out the cigarette and threw it into the trash can in the corridor. Then, he asked, "Manager Lu, is old Mr. Li's examination report here? I'd like to take a look. " "They're with the medical team!" Manager Lu quickly said, "I'll get them to send it over immediately!" Manager Lu found an empty room for Xia ruofei before calling the medical team to send li Zhifu's examination report over. Soon, a doctor from the medical team came into the room with a document bag and said, "Manager Lu, you want the information." "You've worked hard! "Thank you ..." Manager Lu took it with a smile. The doctor politely bade him farewell and left. Manager Lu handed the file to Xia ruofei. Xia ruofei took out the medical report and read it carefully. Manager Lu sat quietly at the side, feeling a little nervous. He was afraid that Xia ruofei would suddenly say that he could not do anything. Manager Lu was the one who coordinated li Zhifu's treatment. He was also there during the expert consultation. He knew that if Xia ruofei couldn't do anything, li Zhifu would have to undergo a resection. However, according to the experts, the success rate of the surgery was quite low. Xia ruofei read the medical record very slowly, especially the expert consultation opinion and biopsy report. He read it word by word. Of course, Xia ruofei was not just pretending. He wanted to know how serious li Zhifu's condition was through Western Medicine's examination report so that he could control the pace of the whole treatment. He wasn't worried that he wouldn't be able to cure li Zhifu. He was worried that if he didn't control the rhythm well and let li Zhifu recover too quickly, it would easily arouse suspicion. In manager Lu's eyes, Xia ruofei was naturally thinking hard about a treatment method, so he had been very quiet. Even his breathing was suppressed, for fear of disturbing Xia ruofei. It was only when Xia

ruofei gently put down the examination report and looked up that manager Lu asked anxiously, "Little Xia, how is it? Is there any way?" "Manager Lu, if Western medicine doesn't have a good treatment plan, I can try." Xia ruofei said, "but ... My personal suggestion is that if Western medicine is more confident, it's best to treat it with Western medicine. After all, I can only say that I'll try it out. I can't guarantee anything." To be honest, Xia ruofei didn't want to treat people's terminal illnesses too often. However, elder song had asked him for help this time, so he couldn't refuse. However, he still hoped to stay out of it. If Western medicine could work, he wouldn't have to do anything. "I understand ... The current situation is that the medical experts in the province are somewhat helpless." Manager Lu said, "it's precisely because they have no confidence that the chief asked you for help." Xia ruofei nodded and said, "I understand." Manager Lu, I'll think about the prescription. " "Thank you so much, Xia!" Manager Lu was overjoyed. "Xiao Xia," manager Lu said hurriedly, "you can rest in this room for a while and think about the treatment plan. I won't disturb you any longer." Xia ruofei smiled and nodded. After manager Lu left, Xia ruofei took out his phone and searched for Chinese medicine prescriptions for colon cancer. The internet was very advanced nowadays. Xia ruofei found many prescriptions very quickly. Ever since he had absorbed the petals of many strange flowers, not only had his physical fitness improved rapidly, but his memory had also been greatly strengthened. In addition, these prescriptions were not too complicated, so he could basically remember them after reading them twice. Xia ruofei compared the information he had found through different online channels, hoping to find two or three more mature and reliable prescriptions. Although Xia ruofei's treatment of his illness was mainly based on the effects of the petals of the strange flower, the best prescription was to treat the right symptoms. At least, it should not have any adverse effects. Just as Xia ruofei had settled on the prescription, he heard a knock on the door. "Please enter!" Xia ruofei said loudly. The door was pushed open. Xia ruofei looked up and saw elder song and manager Lu walking in. He quickly put away his phone and stood up to welcome them. "Chief, why did you come here personally? If there's anything you need, just ask manager Lu to call me." Xia ruofei said. Elder song waved his hand. "There's no need to mind these formalities ... Xiao Xia, I've heard everything from Xiao Lu. Thank you!" "You're welcome, chief," Xia ruofei smiled and said, "I will do my best." "You don't need to feel any pressure. No one will blame you no matter if the treatment is effective or not," said eccentric song with a nod. "Xiao Xia, what's your decision on the treatment plan?" elder song asked. "The prescription is basically fixed for now, but whether it will be effective or not depends on the situation after taking the medicine." Xia ruofei said cautiously. "En!" Elder song nodded and said, "if you need anything, just tell Xiao Lu. We will do our best to cooperate and ensure it." "For now, I just need to prepare the medicinal herbs I need. I'll write a list for manager Lu." Xia ruofei said, "also ... This treatment will take a long time. I hope that old Mr. Li can live in my farm. This way, I can observe his condition at any time and adjust the treatment plan in time. Also, old Mr. Li can change his environment." Another reason was that Xia ruofei was afraid of trouble. He had to prepare Chinese medicine every day in the early stages. He had a lot of things to do at the farm, so it was not realistic for him to come to guling courtyard every day. Of course, Xia ruofei would not say this. "Sure," elder song said after a moment of silence. "I'll find a reason to persuade brother Fu to live at your farm for a while." Xia ruofei said, "that's great!" Chief, I'll prepare a few doses of Chinese medicine today. You'd better convince old Mr. Li to live in my farm in a day or two and continue the treatment for a month! If the effect is good, we'll continue the treatment according to my plan. If the intervention of Chinese medicine can't achieve the desired effect, then I suggest surgery combined with chemotherapy. " "Sure!" Elder song said, "it's settled then!" Hence, Xia ruofei gave manager Lu a list. There was a Chinese medicine room in the Gu Ling courtyard and the medicinal herbs stored inside were quite

complete. Very quickly, manager Lu prepared the medicinal herbs according to the requirements. Xia ruofei locked the door and windows and personally brewed the Chinese medicine. He also took out the diluted flower petal solution from the spirit map space and mixed it into the medicinal soup. Then, he kept the amount for the first time and divided the rest into three portions. He put them in sealed medicine bags and asked manager Lu to keep them in the refrigerator. Then, Xia ruofei bade farewell and left the Gu Ling courtyard.

Chapter 320: Two conditions (1)

Xia ruofei had just returned to the villa and parked his car when he received a call from Liang Qichao. He didn't get out of the car and directly picked up the phone. "Brother Liang!" Xia ruofei smiled and said, "you must have been busy these few days!" "It's alright, it's alright ..." Liang Qichao said with a dry laugh. Xia ruofei raised his eyebrows and asked, "what ... Is it inconvenient to talk?" Based on his understanding of Liang Qichao, he would have complained about it if there weren't people around. He must have stayed in the warehouse for the past two days and couldn't go anywhere. For the lively Liang Qichao, this was definitely a torture! Sure enough, Liang Qichao said, "ruofei, wait!" Cousin – Grandpa wants to talk to you." Xia ruofei laughed. So, she was with elder Tang. No wonder Liang Qichao did not dare to complain. "Brother Xia, I left in a hurry that day and didn't have time to exchange contact information with you." Elder Tang chuckled. "I was with Lil Chao, so I asked him to call you. Did I disturb you?" "I won't, I won't." Xia ruofei said, testing the waters. "Old man, is there something you need?" "It's still the same thing as last time. I'll be returning to United States in a day or two. Have you considered the matter regarding the Australian farm?" elder Tang asked. Xia ruofei smiled bitterly and said, "Old man, I've carefully thought about it these two days. I'm afraid I'll have to disappoint your good intentions ..." "Oh? Is it convenient for you to tell me the reason?" Elder Tang asked calmly. "Actually, I've looked into your farm. It's indeed a very good asset." Xia ruofei explained, "but ... Because of my personal reasons, if I were to invest in agricultural products, I hope that I can at least have absolute control of the shares. So ... I'm afraid we can't work together this time." Xia ruofei thought that elder Tang would give up on the cooperation after hearing his words. After all, he must have done a lot of work in the early stages of this project that was worth tens of millions of us dollars. It was not easy to acquire it. How could he let others have the controlling shares? To her surprise, elder Tang only laughed and said, "Brother Xia, if you want to control my Australian farm, 10 million USD is not enough!" Xia ruofei was stunned for a moment. Could it be that there was still room for negotiation even if he wanted to control the shares? "I know that, old man," he quickly said, "and I can't come up with such a large sum of money for the time being. If you're willing to give up the controlling shares, you can give me a price, and I can think of a way to raise the money. In addition, you don't have to use the technology that you mentioned to exchange for 5 million US dollars." "There's no hurry to get the money," elder Tang said indifferently. "It's just that ... May I know the reason why you insist on controlling the shares?" Xia ruofei was a little embarrassed as he said, "Old man, I'm very confident in my paradise brand's series of agricultural products, and I cherish this brand very much. So, if I invest in the agricultural product industry, I hope that I can have absolute control. This way, the farm's development ideas and strategies can be carried out according to my own will. I don't want the brand's development to take a wrong path and affect the brand image because of reasons I can't control. Of course, it's not that I don't trust you ..." "You don't have to explain, I understand." Elder Tang chuckled, not angry at all. "It's not impossible if you want to control the farm ..." In fact, the farm in Australia was not as important to elder Tang as Xia ruofei had thought. Tens of millions of dollars might be a big

number to Xia ruofei, but to elder Tang, it was not a drop in the bucket. At least, it was a small amount. In reality, the reason why elder Tang bought the Australian farm was more or less for fun. He had bought many industries all over the world, and he rarely paid attention to them even after one or two years. This farm in Australia was the same. After elder Tang acquired the farm, he entrusted it to a professional team to manage. In elder Tang's eyes, the existence of this farm was only a good place to go during his annual vacation. In addition, because of old master Tang's love for horse racing, this farm happened to have an 1800 – meter grassland track, an all – Weather track, a swimming pool for horses, a horse training ground that could accommodate 80 horses at the same time, and other facilities. This could help him cultivate high – Quality horse racing. As for the farm's ability to grow and breed, elder Tang didn't care much about it. It was only after he visited Xia ruofei's farm two days ago and tasted the Taoyuan vegetables that he suddenly thought of cooperating with Xia ruofei to run the farm. That was why elder Tang did not reject Xia ruofei's offer immediately when he heard that the condition for the cooperation was to have absolute control of the company. Xia ruofei understood elder Tang's meaning and quickly said, "Old man, if I can hold more than 50% of the shares, I can invest in proportion to the farm's current value. I don't have enough money at the moment, but I should be able to think of a way." Xia ruofei considered borrowing some money from MA Xiong. With his reputation, it would not be a problem to borrow 10 million USD from MA Xiong. In addition to the 10 million USD he got from selling the Phoebe zhennan two days ago, he had a total of 20 million USD. He would have no problem holding more than 50% of the shares. Elder Tang said seriously, "Xiao Xia, I've already said that the money is not important. As long as you agree to two of my conditions, I can allow you to hold 51% of the shares. You don't need to fork out a single cent. You only need to invest 10 million dollars. The difference can be reduced from future dividends." Xia ruofei was stunned when he heard this. There was such a good thing? This wasn't just a few hundred dollars, it was a business worth tens of millions of dollars! He composed himself and said rationally, "Old man, tell me your condition first!" "Actually, these two conditions shouldn't be too difficult for you," elder Tang said with a smile. The first condition is that I can guarantee that I won't interfere with the management of the farm, but you must also guarantee that your paradise vegetables will be introduced to the farms in Australia and that it will be successfully cultivated. In terms of vegetable planting, the farms in Australia must be in sync with the domestic farms. That is, once the domestic farms launch a new variety, they must also introduce it to the Australian farms as soon as possible." Xia ruofei smiled and said, "no problem!" If I become a major shareholder of the farm, I'll naturally have to consider the farm's interests, which is beneficial to both sides." "Old man, tell me about your second condition!" Xia ruofei continued.
