Chapter 3121 Irresistible force (2)

After song Qiming started to cultivate, Xia ruofei could feel his aura growing. In just two to three minutes, song Qiming had reached refined Qi Level 2!

Xia ruofei was overjoyed. At the same time, he quickly put his hand on song Qiming's back and used his spiritual power to send a message. "Uncle song, I'm going to change the route of the true Qi now. Follow my instructions and guide the true Qi forward!"

Xia ruofei had used spiritual power to communicate with song Qiming because he was worried that song Qiming would be in a state of deep cultivation and could not hear the outside world.

Although song Qiming did not know what cultivation was, he had been at refined Qi Level 1 for a long time, so he was very sensitive to true Qi.

Vital Qi and true Qi came from the same source, but they were of a higher level. The two were of the same lineage.

Therefore, when Xia ruofei's tiny bit of vital Qi entered song Qiming's meridians, he immediately sensed it. Then, he immediately followed Xia ruofei's instructions and mobilized the essential Qi in his body. Under the guidance of Xia ruofei's vital Qi, he began to circulate his essential Qi according to the meridian circulation route of the corresponding technique of weapon refining Level 2.

Song Qiming's Qi refining Level 2 cultivation was quickly consolidated. At the same time, his momentum did not decrease at all. He was charging straight towards the realm of Qi refining Level 3.

Under Xia ruofei's guidance, song Qiming controlled his genuine Qi and circulated it for a few rounds. He quickly familiarized himself with the new Meridian route. Xia ruofei had also been using his spiritual power to communicate with song Qiming, explaining the key points of the second level of the technique.

Song Qiming's cultivation level was still increasing rapidly, even though he was at refined Qi Level 2. The aura on his body was also getting stronger.

Xia ruofei saw that song Qiming was already familiar with the second stage of Qi cultivation of the "modest Sutra". He was relieved and retracted his hand. However, he was still monitoring song Qiming's condition with his mental power.

After about ten minutes, song Qiming started to break through the bottleneck of refined Qi Level 3.

Xia ruofei was also speechless. However, he did not dare to be negligent and paid close attention to song Qiming's condition. When song Qiming successfully broke through to refined Qi Level 3, he immediately followed the same pattern and injected a wisp of vital Qi into song Qiming's meridians again. He guided song Qiming to change to the corresponding cultivation technique of refined Qi Level 3 and quickly consolidated his cultivation.

Only Xia ruofei was able to do this because the "modest Sutra" was also derived from the Jade talisman of inheritance. Although he had never cultivated it before, he had a thorough understanding of this technique and had also inherited the cultivation experience of many predecessors.

That was why Xia ruofei was able to guide song Qiming in his cultivation under such circumstances. At the same time, he used his spiritual power to communicate with song Qiming and explained the key points of the technique.

Song Qiming's rapid progress finally stopped at refined Qi Level 4.

In fact, song Qiming had tried to break through to refined Qi Level 4 several times during the process of cultivation, and the bottleneck had loosened. Xia ruofei even thought that song Qiming might break through to refined Qi Level 4 today.

But at the last moment, the effect of the wild tea had been used up.

Song Qiming's state of enlightenment was not as strong as before. After all, breaking through was a process that would exhaust one's energy. If he could not break through with the help of the wild tea, it would be impossible for him to break through.

Xia ruofei couldn't help but feel that it was a pity.

If song Qiming managed to break through the Qi cultivation Level 4 bottleneck, he would be able to slowly consolidate his cultivation under normal circumstances even if the effect of the wild tea leaves disappeared. However, after failing to break through the Qi cultivation Level 4 bottleneck, song Qiming would have to wait for enough accumulation and the next opportunity to break through.

In comparison, the latter would naturally take more time.

However, Xia ruofei quickly adjusted his state of mind. To any cultivator who had never consumed wild tea before, this was undoubtedly a great opportunity.

When it came to breaking through, one had to have the mentality of 'if you get it, it's your fate'. Otherwise, the more rushed you were, the harder it would be to break through.

Song Qiming slowly opened his eyes and looked incredulous.

Even though he did not know much about cultivation and had always thought that Xia ruofei had taught him the so – called "Qi – nurturing technique", the changes in his body in the short 20 minutes were real. Even if he was in a state of cultivation where he had forgotten himself, he could still feel the changes.

The most direct observation was the crazy increase in power.

Song Qiming even felt that he could kill a cow with one punch.

Moreover, when he had practiced the 'Qi – nourishing method' in the past, the warm flow in his lower abdomen was actually true Qi. It was just that he didn't know that the warm flow had now become several times stronger. When this warm flow ran through his meridians, he couldn't help but feel his heart palpitate.

"RUO Fei, what ... What's going on?" Song Qiming was dumbfounded.

Xia ruofei smiled and said, ""Uncle song, how do you feel now? Do you feel uncomfortable anywhere?"

"I feel great, but ... What happened just now? Why do I have such great power?" Song Qiming asked in shock.

As he spoke, he grabbed a paperweight made of longevity mountain stone from the desk. He gripped it slightly, and immediately left several deep fingerprints on the paperweight.

Chapter 3122 Irresistible force (3)

Song Qiming was even more shocked when he saw this.

Although the material of the longevity mountain stone was soft, it was absolutely impossible to easily pinch a finger mark on it. No matter what, it was still a stone, not plasticine!

"This ... This ..." Song Qiming stuttered.

He had thought that the powerful strength contained in his body was just his illusion, but he didn't expect it to be real.

Could the power of the human body reach such a terrifying level?

In fact, this level of strength was nothing to Xia ruofei.

Moreover, whether it was Song Wei or Ling Qingxue, any one of them could leave a deeper fingerprint on the paperweight. Even a child like Tang Haoran could do better than song Qiming. After all, Tang Haoran's cultivation level was already at the fourth Qi layer, which was one level higher than song Qiming's.

However, song Qiming, who had never been in contact with cultivation and did not know about the existence of cultivators, was shocked by his own power.

Xia ruofei said, "uncle song, don't get too excited. Calm down!" Calm down!"

"RUO Fei, quickly tell me what's going on. Why do I suddenly have such a powerful strength?" Song Qiming quickly asked, "how did the Qi – nurturing technique you taught me have such a terrifying effect?"

Xia ruofei smiled and said, "uncle song, please calm down. Also, you don't have to worry at all. There's nothing wrong with your body now. You're much healthier than anyone your age!" As for this power, I will slowly explain it to you. "

"Alright, tell me ..." Song Qiming took a deep breath and gradually calmed down.

After all, he was a senior leader. From the small mountain village to his official career, he had experienced too many things along the way, so his mental strength was much stronger than ordinary people.

Xia ruofei did not answer song Qiming's question directly. Instead, he smiled and asked, ""Uncle song, do you believe that there's a group of special people in this world who have explored their potential to the extreme step by step? they have power that ordinary people can't even imagine."

Song Qiming smiled bitterly. "In the past, I would have thought that it was a fantasy. But now that I've experienced it myself, how can I not believe it?" RUO Fei, you're one of the special people you mentioned, right?"

Song Qiming was not a fool. Naturally, he quickly realized that Xia ruofei was the one who had taught him the "Qi – nurturing technique". When he had fallen into a state of complete oblivion, Xia ruofei had guided him twice with the heat flow and taught him more advanced techniques at the last minute, which allowed his strength to improve by leaps and bounds. Since Xia ruofei could teach him the "Qi – nurturing technique" so easily, Xia ruofei himself must be strong.

Xia ruofei smiled and nodded. He did not say anything and picked up the paperweight like song Qiming.

Under song Qiming's shocked gaze, the longevity mountain stone paperweight kept changing its shape in Xia ruofei's hands, as if it had really become soft plasticine. After a while, the square longevity mountain stone paperweight had become a standard longevity mountain stone ball.

Xia ruofei placed the longevity mountain stone ball on the desk and smiled. "Uncle song, we call ourselves cultivators, or practitioners. Perhaps you've already guessed it, but what I taught you before wasn't the 'Qi nurturing technique' that old men and old ladies use to train their bodies, but an authentic cultivation technique called the 'modest Heart Sutra'. You've already experienced the effects of this cultivation technique, so I won't go into detail."

When Xia ruofei was about to feed song Qiming the wild tea, he was already prepared to tell song Qiming everything. After all, song Qiming had already started on the path of cultivation. If he kept it from him and met other cultivators or had an accident during the cultivation process without him knowing, it would be even more dangerous.

"Cultivator ... Cultivation technique ..." Song Qiming could not help but Mutter to himself.

Xia ruofei's few words had completely subverted song Qiming's world view that he had formed over the past few decades.

Xia ruofei looked at song Qiming and continued to explain, "In fact, most people's physiques don't meet the requirements to become cultivators, so even if they have cultivation techniques, most people will never be able to step on the path of cultivation in their entire lives. Uncle song, the reason why you were able to cultivate so smoothly started from the time you were injured ..."

Hence, Xia ruofei told him everything that had happened after song Qiming's brain was severely injured, including how he had tried his best to pull song Qiming back from the brink of death. During the process, he had used the precious heart – concentrating grass, which had caused song Qiming's body to change and become very suitable for cultivation. He told him everything in detail.

After song Qiming heard the complicated and bizarre reason, he could not help but be stunned and speechless for a long time.

Xia ruofei continued his cultivation class. "Uncle song, the division of the realms of cultivators is quite complicated. The stage you're at is called the Qi refining stage. Before, you've always been at the first Qi layer, but after you drank the spirit tea I brought and entered a state of enlightenment, your cultivation has broken through one after another. Now, you've reached the third Qi layer, and even the bottleneck

of the fourth Qi layer has loosened. The Qi refining stage is divided into nine levels. If a cultivator breaks through to the ninth level, they will break through to a major realm. The realm after the Qi refining stage is called the Golden core stage ...”

Song Qiming was dumbfounded. There was too much information for him to process.

Hence, Xia ruofei did not continue. Instead, he smiled and said, “Uncle song, at that time, I found that your body had become very suitable for cultivation, so I chose the [modest Sutra] that was most suitable for you to teach you. As you can see, you have successfully embarked on the path of cultivation. You don’t have to feel any pressure, because the benefits of becoming a cultivator are obvious to you. The most direct benefit is to extend your life ...”

Chapter 3123 The door to a new world (1)

Song Qiming had clearly not recovered from the shock.

Xia ruofei’s few words had subverted the world view that he had built up over the past few decades. All his knowledge of the world had changed in just a few minutes.

Even if it didn’t collapse completely, at least it had been proven to be incomplete.

Moreover, it was his own personal experience.

After a long while, song Qiming raised his head and asked, “Ruofei, you’re also a member of the cultivators, right? What about your cultivation?”

“Early gold core realm!” Xia ruofei had no intention of hiding it. “Actually, the cultivation environment is not very good now. The whole cultivation world is in a very depressed state. The Golden core stage cultivators are considered powerful. The nascent Soul Stage and even the primordial spirit stage have not appeared in the cultivation world for two to three hundred years.”

To make it easier for song Qiming to understand, Xia ruofei explained further, “Uncle song, if you didn’t have this opportunity, you would only be at the first Qi layer. This time, the spirit tea allowed you to break through continuously, and now you’re already at the third Qi layer, and you can break through to the fourth Qi layer at any time. The whole Qi refining stage was divided into nine stages, from Qi refining Level 1 to level 9. After breaking through the bottleneck of Qi refining level 9, the next big realm was the Golden core stage. However, even if you break through the bottleneck, there is still a process to reach the early jiedan stage. The time taken for this process varies from person to person. Some can take a few months, some can take several years.”

With this explanation, song Qiming had a general understanding of the cultivation realm.

He nodded slightly and then asked, “By the way, you said that the cultivation environment is not good. Why?”

Xia ruofei shrugged and said, “no one knows. It’s an unsolved mystery in the world of cultivation.” However, the objective reality was that the cultivation environment had been deteriorating. This deterioration had started about 300 years ago. It was a very long but continuous process. For example, uncle song, you can probably feel that the spiritual energy in the air is very chaotic and violent. It can’t be absorbed by cultivators, so most of the day, they can’t cultivate. Only during the four hours of

midnight and Seven o' clock will the spiritual energy slightly stabilize, allowing cultivators to cultivate. The environment has already become like this, and even normal cultivation can't be guaranteed. One can only imagine the overall strength of the cultivation world. "

Xia ruofei took a sip of wild tea and continued, "That's why I asked you to use the crystal I gave you when you cultivate. It's called a spirit crystal, and it contains a large amount of concentrated spiritual Qi, which can be absorbed by cultivators at any time. It's because you have a spirit crystal that you can practice the 'Qi – nurturing technique' I mentioned earlier. In fact, you only absorb the spiritual Qi inside the spirit crystal, and the spiritual Qi in the environment can't be absorbed at any time except at midnight and dawn. If a cultivator forcefully absorbs it, it can lead to various situations. The worst situation is that the violent spiritual energy can't be controlled after being absorbed into the body, and the body will explode and die. "

Xia ruofei had also considered that Song Qiming did not understand cultivation at all. He was worried that he would not know the severity of the situation and try to absorb the violent and impure spiritual Qi in the air for any reason, which would lead to serious consequences. That was why he had specifically pointed out this point.

Song Qiming suddenly realized what was going on. He said fearfully, "It's a good thing I've been carrying out your instructions to the letter ..."

Xia ruofei smiled and nodded.

In fact, even if Song Qiming had tried to absorb the free spiritual energy in the air, the consequences would not have been too serious. His cultivation level was too low back then, and the violent spiritual energy in the air was not easy to absorb.

However, now that Song Qiming's cultivation had increased, the risk of absorbing the spiritual Qi in the air had naturally increased. Hence, Xia ruofei decided not to point it out.

Song Qiming continued, "ruofei, since this spiritual crystal is so precious, isn't it a waste for me to use it?" I'm already so old, even if I cultivate, it's unlikely that I'll have any great achievements. You should keep it for your own use!"

Xia ruofei laughed and said, "uncle Song, spiritual crystals are only relatively precious in the world of cultivation!" For ordinary cultivators, a spiritual crystal is indeed quite precious, but I still have a lot of spiritual crystals on hand, and I even have a lot of origin crystals that are one grade higher than spiritual crystals. As long as you can absorb them, I can supply them to you without any problem!"

"Moreover, speaking of age ... You're not even 60 yet, are you?" he continued after a pause.

"En!" Song Qiming nodded and said, "however, it's a little late to start cultivating at this age, right?"

Xia ruofei laughed. "That depends on the person. If a rogue cultivator or a cultivator from a small sect starts cultivating at the age of 60, it's definitely too late." But you're different. First of all, you've profited from a disaster after that accident. You're quite talented in cultivation, which means you'll have more stamina. In addition to talent, the most important thing in cultivation was resources. In terms of resources, with my full support, it's not too late for you to start cultivating at your age! I have a cultivator by my side who is now nearly ninety years old, but his cultivation is still stuck at the Qi layer!"

Chapter 3124 The door to a new world (2)

“You’re still cultivating at such an old age?” Song Qiming exclaimed in surprise.

“It’s alright!” Xia ruofei said indifferently, “cultivators live longer than ordinary people. It’s normal for high – Level Qi refinement cultivators to live to 150 or 160 years old. 80 years old is equivalent to middle – aged! If you break through to the Golden core stage, you can live up to at least three hundred years. Relatively speaking, eighty years old is even younger!”

“Three hundred years old!” Song Qiming exclaimed in shock.

This was completely beyond his knowledge. Because in the secular world, a hundred – year – old man was already quite long and could be regarded as an “auspicious person.” If a Jindan stage cultivator could live up to three hundred years, then wouldn’t one hundred years be equivalent to an ordinary person in their early thirties?

Xia ruofei smiled and nodded. “This is just a conservative estimate. As one’s cultivation level increases, one’s lifespan will be even longer! That was why everyone in the cultivation world was desperately trying to improve their cultivation! The desire for longevity is also an important driving force for these cultivators to work hard in their cultivation!”

Song Qiming nodded. He understood Xia ruofei’s words.

Even he couldn’t help but feel moved after hearing it. Who wouldn’t want to live as long as their quality of life didn’t decline?

Xia ruofei continued, “let’s talk about the problem of cultivation resources. Some rogue cultivators with very little resources may have started cultivating at a very young age. However, at your age, their cultivation may only be at Level 3 or Level 4 of the Qi refinement realm.” And because you have the spiritual crystals and the spiritual tea this time, you have easily reached the level that they could only reach in decades in such a short time. Moreover, your future development space is much higher than theirs! Therefore, your age is definitely not a problem. You can rest assured about this!”

Song Qiming was shocked.

Although Xia ruofei’s tone was calm, he could feel the cruelty of the survival of the fittest in the world of cultivation. Some low – Level cultivators had to spend decades to reach his level of cultivation, but he was just as Xia ruofei said, he had achieved it easily.

Before today, song Qiming had treated the martial arts that Xia ruofei had taught him as a “Qi – nurturing technique”. To put it bluntly, it was a way to maintain his health. He would take some time out every day to practice. Sometimes, when he was busy with work, he might not be able to persist in practicing every day.

This time, it was the ‘spiritual tea’ that Xia ruofei had brought. He drank a cup of tea and entered that mysterious state. It only took him twenty to thirty minutes to reach his current cultivation.

It was really as simple as eating and drinking!

Song Qiming immediately felt the huge difference in cultivation resources.

At the same time, he also realized that even in the world of cultivation, the cultivation resources that Xia ruofei had were not something that most cultivators could have.

"I understand ..." Song Qiming nodded and said, "ruofei, you've opened the door to a new world for me!"

Xia ruofei smiled and said, "it's a coincidence!" Your accident last time was a blessing in disguise. If your body can't cultivate, I won't be able to help you even if I wanted to ..."

Song Qiming suddenly remembered that when he first practiced the "Qi – nurturing technique" and felt the obvious effect, he seemed to have asked Xia ruofei if he could teach this technique to his wife, Fang Liyun.

Song Qiming remembered that Xia ruofei had said that even if he taught her, Fang Liyun would not be able to learn it.

Back then, he had absolute trust in Xia ruofei, so he did not think about this matter anymore. He also did not teach Fang Liyun how to cultivate.

Now that he thought about it, he suddenly understood that Qianqian's cultivation talent was a problem. It seemed like Fang Liyun's physique was not suitable for cultivation.

At the thought of this, song Qiming could not help but feel dejected.

He and Fang Liyun had been husband and wife for twenty to thirty years, and their relationship had always been very good.

If Fang Liyun was unable to cultivate, then one day, Fang Liyun would die before him. He had heard from Xia ruofei that the lifespan of a meditational cultivator was about 150 years old. Fang Liyun was just an ordinary person. She would not be able to live that long.

Xia ruofei seemed to have read song Qiming's mind. He smiled and said, "Uncle song, you don't have to think too much about aunty Fang ... Her current physique is indeed not suitable for cultivation, but there might be more opportunities in the future, so it's not impossible for her to change her physique. Moreover, even if she is unable to cultivate, I have the confidence to let her live as long as possible. At least a hundred years is not a problem! One must know that there were many spiritual herbs in the world of cultivation. For ordinary people, they were definitely miraculous elixirs that could prolong their lives! For example, the tea that you just drank can also prolong a normal person's life. I've already asked Weiwei and Qingxue to send it over to aunt Fang. "

When song Qiming heard that, he immediately looked grateful and said sincerely, "Ruofei, you're so considerate ..."

As Xia ruofei had mentioned Song Wei and Ling Qingxue, song Qiming realized that there was an explanation for the weird expressions on Song Wei and Ling Qingxue's faces. The answer was obvious.

Song Qiming's eyes widened. He looked at Xia ruofei and asked, "Ruofei, did Wei Wei ..."

"Yes, I am!" Xia ruofei did not wait for song Qiming to finish his sentence. He nodded and said, "not only is Weiwei a cultivator, my girlfriend Qingxue is also a cultivator. I was the one who taught her the cultivation technique!"

Song Qiming felt a sense of relief when he heard that his wife, Fang Liyun, could not cultivate. He was still a little depressed when he found out that his daughter was now a cultivator like him. This meant that Song Wei could also live for at least 150 years. This was even more comforting than him and Fang Liyun being able to live to a hundred years old.

This was the feeling of licking one's child from the bottom of one's heart.

"Ruofei, it's our family's fortune to be acquainted with you!" Song Qiming exclaimed.

"Oh right, about Weiwei's cultivation ..." Song Qiming continued.

Xia ruofei looked at song Qiming and smiled. "She has already reached refined Qi Level 5 and has also touched the bottleneck. She will soon break through to refined Qi Level 6!"

Song Qiming's expression froze for a moment. Then, he laughed at himself and said, "So, as a father, I'm still inferior to my daughter? Hahaha! However, this was nothing. The new generation always surpassed the old! The more powerful Wei Wei is, the happier I am!"

Xia ruofei smiled and consoled her. "Actually, the difference is not that big. If you work hard, you might be able to surpass her."

This was only a consolation. In reality, it was almost impossible for song Qiming to surpass Song Wei's cultivation progress.

Song Qiming's cultivation level was lower than Song Wei's, and he was older. Since their cultivation talents were similar, it all depended on their cultivation resources and techniques.

Xia ruofei was willing to provide them with resources. In terms of cultivation techniques, the 'if Heart Sutra' was inferior to the 'nichang Heart Sutra'.

Therefore, the gap between the two of them would only get bigger and bigger.

Unless song Qiming had a greater opportunity in the future. Song Qiming's expression froze for a moment. Then, he laughed at himself and said, "So, as a father, I'm still inferior to my daughter? Hahaha! However, this was nothing. The new generation always surpassed the old! The more powerful Wei Wei is, the happier I am!"

Xia ruofei smiled and consoled her. "Actually, the difference is not that big. If you work hard, you might be able to surpass her."

This was only a consolation. In reality, it was almost impossible for song Qiming to surpass Song Wei's cultivation progress.

Song Qiming's cultivation level was lower than Song Wei's, and he was older. Since their cultivation talents were similar, it all depended on their cultivation resources and techniques.

Xia ruofei was willing to provide them with resources. In terms of cultivation techniques, the 'if Heart Sutra' was inferior to the 'nichang Heart Sutra'.

Therefore, the gap between the two of them would only get bigger and bigger.

Unless song Qiming had a greater opportunity in the future.

Chapter 3125 no matter big or small (1)

Song Qiming already had the most direct understanding of a cultivator's martial strength. His own strength had increased dramatically and had exceeded the scope of a normal human.

According to Xia ruofei, he was still at the beginning stage of cultivation. He was one of the lower Qi refinement stage cultivators. Then, wouldn't the destructive power of a high – Level Qi refinement stage cultivator or even a golden core cultivator be even more terrifying?

Song Qiming could not help but think of the mysterious characters in swordsman novels who could take someone's head from thousands of miles away. If such a person really existed, it would undoubtedly have a great impact on the order of real society.

In fact, song Qiming's judgment was not far from the reality. Although a cultivator in the Golden core stage who could control a flying sword could not take a head from a thousand miles away, he could still do it from dozens of miles away as long as his spiritual power could reach it.

Xia ruofei couldn't help but laugh when he heard the question.

At that moment, song Qiming was more like a normal political figure.

It seemed that his emotions had really calmed down, because he had begun to consider the problem from the angle he was used to.

"Uncle song, you don't have to worry too much about this." Xia ruofei smiled and said, "the world of cultivation has existed for thousands of years. The current world of cultivation can be traced back to hundreds of years ago. However, in the long history, there have been almost no cases of cultivators causing trouble among the ordinary people."

Xia ruofei paused and continued, ""Cultivators spend most of their time on improving their cultivation. As I said earlier, their ultimate goal is actually to live forever. They usually have no time to care about other things, and the glory and wealth of the secular world are like floating clouds to them, not worth mentioning. To put it bluntly, even the ordinary people of the secular world are no different from ants in the eyes of some cultivators. "

Song Qiming could not help but smile bitterly. Although Xia ruofei's words were straightforward, he put himself in her shoes and felt that it was normal for most cultivators to have such thoughts.

"Also, I heard that there are unwritten rules in the world of cultivation." Xia ruofei continued, "unless there are extremely special circumstances, they are not allowed to interfere with the operations of the secular world. They are especially not allowed to attack the friends and family of cultivators in the secular world. Otherwise, it would be a huge taboo and they might even be hunted down by the entire cultivation world. Of course, the authenticity of this news has yet to be confirmed. In fact, I know very little about the cultivation world, and I've only learned a lot of things recently. "

What Xia ruofei said was exactly what Chen Xuan had told him today.

Of course, he couldn't trust Chen Xuan unconditionally. Even though the news was reasonable, he had always had his doubts. This was a good habit of his.

“Ruofei, if that’s the case, I’m much more at ease.” Song Qiming nodded and asked, “By the way, the individual strength of cultivators has far exceeded the limits of human beings. Then ... Is it possible for the power of the cultivation world to be used by our world ... By the secular society?”

“Uncle song, I’ve said it before, cultivators are very indifferent people. Their utilitarian heart is only reflected in the improvement of cultivation and the fight for cultivation resources.” Xia ruofei didn’t know whether to laugh or cry. “The matters of the secular world are undoubtedly fleeting to them, so ... You’d better not have such thoughts as soon as possible. More than 70 years ago, a war that concerned the fate of the country broke out. At the beginning of the war, Huaxia was defeated and lost a large amount of land. Tens of millions of soldiers and civilians died in the war, but the cultivators still did not stand up. Or rather, only a small number of cultivators took action, but that doesn’t affect the overall situation ...”

After Xia ruofei said that, song Qiming completely gave up.

He smiled bitterly. “I should’ve thought of this long ago. In history, when China was at a critical moment of life and death, the cultivators didn’t stand up. How can we expect them to contribute to society now?”

Xia ruofei chuckled and said, “actually, it might be a good thing if there are no cultivators interfering.” A power that had completely lost its balance was difficult to control. Also, it’s not like the cultivation world and the secular world have no interactions at all ...”

When song Qiming heard this, he could not help but tense up. He quickly asked, “Ruofei, is there anything else?”

Xia ruofei smiled and said, “in recent years, the advancement of modern technology has also attracted the attention of the cultivation world. In addition, because cultivation resources are becoming more and more difficult to obtain, many cultivation sects have begun to pay attention to the power of the secular world. Basically, those who have a certain influence in the cultivation world have also begun to develop their own industries in the secular world ...”

Xia ruofei looked at the nervous song Qiming and smiled. “However, the reason why they developed secular industries was to further understand the development of modern technology. At the same time, they used the power of the secular world to help them find some cultivation resources. Therefore, these industries were basically legal and compliant, and in the process of operation, they were also done according to the rules of the secular world. There was basically no such thing as using the special means of cultivators for profit. Of course, because of some special resources in the world of cultivation, their industrial development in the secular world is usually more smooth ...”

Song Qiming suddenly thought of the jade skin cream, heart – nourishing soup, and the delicious – looking vegetables and fruits that were popular all over the world. He could not help but blurt out, “For example, the Paradise Corporation that you founded?”

Chapter 3126 no matter big or small (2)

Xia ruofei was stunned for a moment, then he smiled and said, “The Paradise corporation’s products do indeed make use of some means of cultivators. However, there are still essential differences between the Paradise company and the businesses of the cultivation forces in the secular world. First of all, when

I founded the Paradise company, I had yet to come into contact with the cultivation world. To be precise, I was not a cultivator at that time. In addition, from the General Manager to the most basic employees of the Paradise company, all of them are ordinary people from the secular world. The company is not responsible for any information collection, cultivation Resources Collection, and other work. It is a completely normal secular company.”

As Xia ruofei said this, Chen Xuan’s figure flashed across his mind. This early – Stage golden core cultivator was the young master of the number one sect in the cultivation world. He was a basic programmer in his company!

However, Xia ruofei quickly forgot about Chen Xuan’s special situation. Naturally, his company did not arrange for him to train.

Song Qiming nodded and said,””Ruofei, I basically understand the situation after hearing your explanation. To be honest, today is a completely different day for me!”

“Uncle song, like I said, it’s important to keep a calm heart!” Xia ruofei smiled and said,”when you didn’t know about the existence of the cultivation world, when you used the ‘modest Sutra’ as an old man’s health – keeping technique, wasn’t everything the same as before? Your position and social status in the secular world will not affect your cultivation. Of course, if one was too busy with work and couldn’t even take out two to four hours a day to cultivate, then it might really have a certain impact. The path of cultivation is like rowing a boat against the current. If you don’t advance, you’ll fall behind. ”

“Will your cultivation level still regress?” Song Qiming asked curiously.

“Of course, all the martial artists in the secular world know that you have to practice every day, or your Kung Fu will be wasted. This is even more so for the cultivators. ” Xia ruofei smiled and said,”but I think that no matter how busy you are with work, you shouldn’t be so busy that you can’t even spare a little time, right?”

Song Qiming looked a little embarrassed and said,””I thought it was because I was busy with work or on business trips, so I didn’t practice it ... But now that I understand the situation, I’ll do it every day!”

No one would be unwilling to live a healthier and longer life, and song Qiming was no exception.

Moreover, after cultivating, one could master power that exceeded the limits of human beings.

After knowing the truth, song Qiming naturally did not treat cultivation as something that he did not care about.

“Besides, the benefits of cultivation are obvious,” song Qiming continued. In the past few months, I felt that my entire spirit was different. My mind was particularly clear, my energy was particularly abundant, my thoughts were particularly clear, and my work efficiency was much higher than before. I felt like I had suddenly returned to my youth. With the increase in work efficiency, I can have more time to cultivate. ”

For example, it was the same as reading and signing a batch of documents. Before song Qiming started cultivating, he might need two hours. Now, he only needed half an hour to clearly consider all aspects and make comments. That would save them an hour and a half.

Xia ruofei laughed and said, "uncle song, you're in such a good mood. It's a good boost for your work!" It looks like the burden on your shoulders will probably increase ..."

"At my level, personal progress is no longer determined by work ability and political achievements." Song Qiming smiled and waved his hand. I'm not very interested in this aspect now. I'll be lucky if I get it, but if I don't, it's my fate! I'm just a farmer's child from a small mountain village. I'm already quite satisfied with my current position, managing such a vast and rich land, and serving millions of people!"

Xia ruofei did not care much about politics, so he did not continue the conversation.

He thought for a while and said, "by the way, uncle song, before we find a way for aunt Fang to cultivate, I hope you can keep the matter of cultivation a secret from her." It's not that I don't trust her, but I'm worried that it'll be bad for her to know too much, especially the difference in the lifespan of cultivators and ordinary people ..."

"I understand!" Song Qiming nodded and said, "don't worry! I've also learned about confidentiality regulations! I promise to keep my mouth shut to everyone!"

Xia ruofei was also amused. He waved his hand and said, "Uncle song, I don't think so ... I asked you to keep it a secret for another reason, and that's for your safety! After all, your cultivation is still relatively low and you don't have any actual combat experience. If you encounter other cultivators, you'll still be in great danger. "

At this point, Xia ruofei's expression turned serious. He said, "Uncle song, the lack of resources in the world of cultivation is beyond your imagination. It's not uncommon for cultivators to fight over a little bit of cultivation resources. Although there were some rules in the world of cultivation, in general, the strong were respected. This was the true law of the jungle. Therefore, if you expose your cultivation and the spiritual crystals you have, you will be in danger!"

Xia ruofei took out a jade pendant from the spirit map space and handed it to song Qiming. "Uncle song, I've carved a small formation on this to conceal your cultivation. Ordinary Qi condensation cultivators won't be able to see through it, and this is also a form of protection for you. As for golden core cultivators, they won't notice a low – ranked Qi condensation cultivator like you. You must carry this jade pendant with you. "

Song Qiming took the jade pendant solemnly and said, "I know, don't worry! I know what's important. "

Xia ruofei nodded and said, "besides not easily revealing your cultivation level to others, you must also pay attention during your cultivation process. Although I've said before that it's right to not advance while sailing against the current, there's one more thing you must remember. That's to go too far." Cultivation can not be rushed. Otherwise, if there is a problem, even I am not confident that I can save him! In the process of your cultivation, you must remain calm. In addition, if you sense that something is wrong, you must stop your cultivation immediately and inform me. You must not take any chances. "

Song Qiming had no experience in cultivation and his identity was special. He was Song Wei's father. Hence, Xia ruofei had to remind him of every detail.

Song Qiming had clearly accepted the fact that he was a cultivator and started to think from the perspective of a cultivator. He nodded and said seriously, "Alright, I'll remember your advice! I'll be careful. If there's anything I don't understand, I'll ask you in time."

Xia ruofei nodded and said, "yes!" You can call me at any time."

Xia ruofei then took a pen and paper from the desk and wrote down a string of numbers. "If you can't get through to my phone, you can call this number. You'll definitely find me."

This was the number of the Peach Blossom Island's satellite phone. This satellite phone was personally controlled by Li Yifu to ensure that Song Qiming could contact Xia ruofei at any time.

Song Qiming carefully folded the paper with the phone number and put it into the safe. Then, he said, "Alright! You don't have to worry too much about me. Didn't you say that I have a good talent for cultivation? As long as I'm careful, there shouldn't be any problems!"

Xia ruofei smiled and nodded. "You're right. Normally, there shouldn't be any problems. Uncle Song, considering that you might be able to break through to refined Qi Level 4 very soon, I have to teach you the cultivation method for the next stage in advance ..."

Chapter 3127 Success (1)

After Xia ruofei finished, he immediately added, "Of course, this is just a precaution. As long as the conditions allow it, I'll definitely be by your side to protect you when you break through. I'm just afraid that I won't be able to leave because of other things. You've mastered the next stage of the cultivation method in advance, as well as some precautions for the breakthrough, so there won't be any problems even if you break through alone!"

"Alright!" Song Qiming nodded. However, I'm getting on in years, and I'm afraid that my comprehension and memory aren't that good. I'm afraid ..."

Xia ruofei smiled and said, "didn't it go smoothly when you were learning the body – nourishing technique?" Don't worry! Although the "modest Heart Sutra" is different at each stage of the Qi refining stage, it's still only at the Qi refining stage. There's nothing difficult to understand, and it's relatively easy for you to learn it!"

Song Qiming chuckled and said, "I didn't know that the health – Maintenance method was such a powerful thing!" The ignorant are fearless! I'm really feeling a little guilty now!"

"Uncle Song, you'll know after you learn it. It's not as difficult as you think!" Xia ruofei said with a smile.

"Alright! Then I'll do my best!"

"En!"

After that, Xia ruofei started to write down the Level 4 cultivation technique of the "if void Heart Sutra" and explained it to Song Qiming word by word.

At the same time, he drew a Meridian circulation diagram for this stage and patiently explained every Meridian and acupoint to Song Qiming.

After all, song Qiming had experience in cultivation. Especially after he had broken through several levels in a row today, he had a good grasp of the third level of the Qi refining stage. Therefore, it was not that difficult for him to understand it. Very soon, he had mastered the entire stage of the technique and had also firmly remembered the meridian circulation diagram.

After teaching song Qiming the Level 4 Qi refining technique, the two of them left the study room.

It had been more than an hour since song Qiming consumed the wild tea, his breakthrough, and their long conversation. Besides, it was getting late. Under normal circumstances, Xia ruofei should have left and returned home.

The two of them went to the living room.

Song Wei and Ling Qingxue were making tea and chatting with Fang Liyun. The tea they were drinking was the pot of wild tea. The tea leaves were quite durable, and the fragrance didn't diminish even after being brewed a few times.

Song Qiming noticed that Fang Liyun did not seem to be acting out of place after drinking the wild tea. If there was anything different about her, it would be that she seemed to be in better spirits. Fang Liyun was almost done with her shower and was about to rest, but she seemed to be in the mood to chat and did not seem to be sleepy at all.

Song Qiming could not help but secretly heave a sigh of relief.

"Qingxue, it's time to go home!" Xia ruofei said with a smile.

"Let's sit a little longer!" Fang Liyun smiled and said, "it's rare for us to have such a happy chat!"

"Aunty, it's getting late. We should go back ..." Xia ruofei said with a smile. "I should be at the three mountains for the next few days. I'll come and visit you when I have time!"

Ling Qingxue and Song Wei were relieved to see song Qiming come out in high spirits.

Ling Qingxue stood up. "Uncle song, aunty Fang, RUO Fei and I will take our leave. You guys should rest early too!"

"Alright then!" Fang Liyun said, "ruofei, if you're at the three mountains, come over often. Don't talk about it!"

"Don't worry! Aunt Fang's cooking is so good, I definitely can't help but want to come over and freeload a meal!" Xia ruofei said with a smile.

Fang Liyun was very pleased and said with a smile, "You're such a sweet – tongued child!"

After Xia ruofei and Ling Qingxue greeted everyone, they walked towards the door.

"I'll send you guys off!" Song Wei said quickly.

Then, she followed him out.

Song Qiming looked at his daughter with a complicated expression, but he did not say anything.

However, only he knew his true thoughts.

After all, song Qiming had found out about the world of cultivation all of a sudden. He even knew that his daughter's cultivation level was higher than his own. The fact that he could remain so calm showed that song Qiming's mental fortitude was pretty good.

Song Wei followed Xia ruofei and Ling Qingxue out of the building and into the courtyard. She asked impatiently, "RUO Fei, how is it?"

Xia ruofei laughed and said, "refined Qi Level 3!" And I've already touched the bottleneck of refined Qi Level 4, and a breakthrough is just a matter of time!"

"That's great!" Song Wei cheered at first, then she immediately looked back carefully and asked in a low voice, "then, about cultivation ..."

Xia ruofei knew what song Wei was concerned about. He smiled and said, "I've already told uncle song some things about the world of cultivation. He now knows that he's not cultivating the health maintenance method that the old men and women in the park use every day. In addition ..."

At this point, Xia ruofei paused for a moment. Then, he looked at Song Wei and smiled. "He also knows that his precious daughter has already reached refined Qi Level 5, which is even higher than his cultivation."

"Ah?" "Ah!" Song Wei couldn't help but exclaim and immediately covered her mouth.

Xia ruofei laughed and said, "uncle song is not a fool. He could tell that you were making wild tea today." However, that's all the information I've revealed. I didn't tell you anything else, including our relationship and the matter of Paradise Island. "

Chapter 3128 Success (2)

Song Wei heaved a sigh of relief, but she was still worried. "About my cultivation, will my dad ..."

"I've observed him. In general, he's quite pleased." Xia ruofei said, "because I told him that high – Level cultivators in the refinement stage can live up to 150 years. Just based on this, he is very willing to see you get better and better on the path of cultivation! All parents in the world are the same. They all want their children to live a better life, and your father is no exception. "

Song Wei was also touched. She nodded and said, "Yes, I know that ..."

"Weiwei, I've told uncle song to keep the cultivation thing a secret from Auntie Fang for now." Xia ruofei said, "so ... I think he will find a chance to talk to you alone." Whatever you can say and what you can't say, just grasp it yourself. As for why you're cultivating ... Just say that I found that your Constitution is especially suitable for cultivation, so I taught you a cultivation technique. "

"Alright, I got it." Song Wei nodded and said.

Xia ruofei didn't say much. Song Wei had always been a steady person, so he was more at ease.

The three of them did not chat for long in the courtyard. After all, Song Wei only sent them out for a while. If they stayed in the courtyard to talk, Fang Liyun would definitely find it strange.

[illegible]

The two cars quickly left the Provincial Party Committee's family residence one after the other and drove all the way to the jiangbin villa community.

After Xia ruofei finished, he immediately added, ""Of course, this is just a precaution. As long as the conditions allow it, I'll definitely be by your side to protect you when you break through. Chapter 3129 Let's have dinner (1)

When his phone rang, Chen Xuan was sitting at his desk, typing away at lightning speed. His fingers were much faster than the average person, and the sound of his fingers tapping away on the keyboard was a continuous stream that seemed to have a different kind of charm to it.

Most people might be able to type at such a speed, but it seemed like they had never seen anyone like Chen Xuan, who didn't even need to think when it came to coding. All he needed to do was to type furiously.

Of course, the programmers in the office were already immune to Chen Xuan's heaven – defying performance.

In any case, Chen Xuan was quick with his work. The code was simple and well – structured, and no bugs were ever found. If they hadn't seen it with their own eyes, no one would have believed that such beautiful code could be typed out at such a crazy speed.

Chen Xuan's phone rang, and the sounds of typing stopped abruptly. He frowned as he glanced at the screen.

When he saw that the caller ID was Xia ruofei's number, which he had just saved yesterday, he could not help but raise his eyebrows.

He picked up his phone and walked out of the office. He went to the corridor next door and picked up the call. "Brother Xia, you were looking for me?"

"Brother Chen, you don't plan to work overtime today, right?" Xia ruofei asked with a smile.

"It's alright today. I don't have much work to do. I should be able to get off work on time!" "Brother Xia, is there something you need?" Chen Xuan asked.

"Oh! I'm just asking." Xia ruofei said, "also, if you don't have any other plans after work, I would like to treat you to a meal."

Chen Xuan pondered for a moment before saying, "No problem!"

"Alright then! I'll be waiting for you at home!" Xia ruofei smiled and said, "Oh right, I'll send you my home address! Can you find it?"

"Brother Xia, why don't you add me on WeChat?" Chen Xuan asked. Just send me your location! My WeChat is this phone number ..."

Xia ruofei was taken aback. He had always treated Chen Xuan as the young sect master of the first heaven society. He had always felt that Chen Xuan might not know about some of the modern technology methods. Hence, the first thing he thought of was to give Chen Xuan the address instead of using a simple method like WeChat to locate it.

After hearing Chen Xuan's words, Xia ruofei realized that this guy was a true programmer! He was definitely good at using his phone and computer.

Xia ruofei couldn't help but laugh. "Alright, I'll add you on WeChat and send you my location!"

"Okay, brother Xia. I'll go back to the office first." "See you in the evening!" Chen Xuan said.

"See you in the evening!"

After Xia ruofei hung up the phone, he opened WeChat and used Chen Xuan's phone number to do a search. As expected, he found Chen Xuan's WeChat number.

Chen Xuan's WeChat name was "young master Chen of Tian Yi". This was a rather Chuunibyou name. The first thing people would think of was a second – generation rich kid. It was completely different from the young, promising, and gentle image of Chen Xuan.

Xia ruofei chuckled as he added "young master Chen of Tianyi" as a friend on WeChat.

Chen Xuan was obviously waiting as well. He approved Xia ruofei's application immediately.

Xia ruofei sent the location of the jiangbin villa district to Chen Xuan. He then sent the exact building number of his villa to Chen Xuan.

Chen Xuan quickly replied.

It was an expression, a cute cartoon figure nodding quickly.

After Xia ruofei saw it, he almost spat out his rice.

Chen Xuan's image on WeChat was so different from how he looked in real life.

Xia ruofei did not reply to Chen Xuan. He packed his things and left the office.

He greeted Qin Yanan, who was on duty at the door, and walked into his exclusive elevator. He went directly to the underground parking lot and drove back to the jiangbin villa community.

On the way back, Xia ruofei gave Song Wei and Ling Qingxue a call each and asked them to come over for dinner.

Xia ruofei knew very well that with the first heaven society's ability to collect information, his relationship with Song Wei and Ling Qingxue had probably been discovered by Chen Nanfeng long ago.

Chen Xuan might not have known, but Chen Nanfeng definitely knew.

Hence, Xia ruofei did not plan to hide it anymore. He decided to let Song Wei and Ling Qingxue show their faces. If Chen Xuan really wanted to harm Song Wei and Ling Qingxue, he would have to be more careful.

After all, Xia ruofei would not leave the three mountains until he was sure that Song Wei and Ling Qingxue were safe.

Moreover, he would also let Song Wei stay at the three mountains for the time being and not return to the capital. Otherwise, it would be difficult for him to take care of both sides.

Xia ruofei asked Song Wei and Ling Qingxue to go to the jiangbin villa earlier.

Therefore, he went to the supermarket to buy some groceries. When he returned to his villa, Song Wei and Ling Qingxue had already arrived in the same car.

Ling Qingxue had left the company right after receiving Xia ruofei's call. However, she had driven to the Provincial Party Committee's family residence to pick up Song Wei and then drove to the Riverside Villa area. Therefore, everyone had entered the area at the same time.

Xia ruofei had just parked his car when he saw Ling Qingxue's beetle turn into his field of vision. Very quickly, Ling Qingxue's car had also entered the villa's courtyard.

Ling Qingxue and Song Wei got out from the car from the left and right sides.

Ling Qingxue looked at Xia ruofei, who was carrying two bags of vegetables, and asked with a smile, "What kind of guests are we having tonight? You're actually buying so many ingredients when you have them at home ..."

Chapter 3130 A bold test (1)

The group of them sat down in the living room of the villa. Xia ruofei then introduced them, "Brother Chen, this is Ling Qingxue and this is Song Wei. They are both my ... Dao companions!"

Ling Qingxue and Song Wei didn't expect Xia ruofei to introduce them so directly. They blushed.

Chen Xuan wasn't surprised at all. In the world of cultivation, it wasn't uncommon for powerful cultivators to have multiple Dao companions. Of course, there were also cultivators who spent their

entire lives alone, and there were also those who only had one Dao companion. Even if their Dao companion had fallen, they would never be willing to remarry. For example, his father, Chen Nanfeng.

In any case, although it wasn't common for a cultivator to have multiple Dao companions in the world of cultivation, it was still considered a normal phenomenon. At least, it wouldn't attract as much condemnation as in the secular world.

Xia ruofei immediately turned to Ling Qingxue and Song Wei and said, "This is the young sect master of the first heaven sect I told you about, brother Chen Xuan. He's already an early golden core cultivator at such a young age. He's also from a famous sect, so his future is limitless!"

"Brother Xia," Chen Xuan said with a bitter smile, "ever since you've appeared in the world of cultivation, the words 'young and promising' no longer fit me, right?"

Xia ruofei couldn't help but laugh. "In terms of the lifespan of Aurous core stage cultivators, brother Chen and I are of the same age."

Ling Qingxue and Song Wei couldn't help but feel honored when they saw the young sect master of the number one sect in the cultivation world praising Xia ruofei. They couldn't help but cover their mouths and laugh.

Chen Xuan turned to Song Wei and Ling Qingxue and said, "Hello, my two sisters – in – Law, don't believe brother Xia's flattering words. I only entered the Golden core stage a few years earlier than others by relying on the cultivation resources provided by my family. I believe that with brother Xia's support, the two of you won't be any older than me when you step into the Golden core stage."

"Sect leader Chen is too humble. RUO Fei has been praising you in front of us!" Song Wei said with a smile. They say you're the leader of the younger generation in the world of cultivation."

Chen Xuan waved his hand and replied, "I don't deserve it!" I don't dare! By the way, sister – in – Law can just call me by my name or brother Chen like brother Xia. Calling me young sect Master Chen is really too distant."

"Greetings, brother Chen!" Song Wei and Ling Qingxue said in unison.

Chen Xuan nodded his head with a smile. After a moment of silence, he said, "My two sisters – in – Law, I didn't prepare any gifts for our first meeting in advance. I got these two headwear when I explored the ancient cultivator ruins last time. Take it as a meeting gift for you!"

With that, Chen Xuan flipped his hand and took out two exquisite head accessories from his storage ring. He then handed them over to Song Wei and Ling Qingxue.

One of the two headdress was in the shape of a Phoenix with its wings spread, and the other was in the shape of a delicate and beautiful jade Orchid. They moved and stopped, but they were both lifelike. Furthermore, the material looked very special. It was neither gold nor Jade. It had a metallic texture, but it also had the clarity and luster of Jade. It was clearly not made of materials commonly seen in the secular world.

"This ..." Song Wei and Ling Qingxue looked at each other and then turned to look at Xia ruofei.

They did not know if they should accept Chen Xuan's gift, so they left the decision to Xia ruofei.

“Since it’s a gift from brother Chen, you should accept it!” Xia ruofei said with a smile.

Only then did Song Wei and Ling Qingxue take the headdress and said in unison, “Many thanks, brother Chen!”

The two of them didn’t need to discuss and tacitly chose the headdress that they liked. Song Wei took the Magnolia headdress, while Ling Qingxue chose the Phoenix headdress, which was more in line with their personalities.

The two of them held the headwear in their hands and immediately felt a refreshing coolness. It was as if their minds were refreshed and they became much more clear – headed.

“These two head ornaments have the effect of calming one’s mind and focusing one’s concentration. After wearing them, you’ll be able to cultivate twice as fast.” For Qi condensation cultivators, the effect was quite good. Originally, I found two rainbow feathers along with these two head ornaments, but the feathers have already been worn down by the passage of time. Otherwise, it would have been more suitable to give them to my two sisters – in – Law. ”

“Many thanks, brother Chen!” Xia ruofei said, “your gift is great! It’s also very suitable for Wei Wei and Qingxue, thanks!”

Song Wei and Ling Qingxue expressed their gratitude to Chen Xuan.

“Brother Xia, you didn’t tell me in advance.” Chen Xuan waved his hand and said, “I didn’t prepare any special gifts for my two siblings today.” Originally, wild tea was more suitable, but with brother Xia’s tender and protective nature, I believe that my two sister – in – Law should have already taken it. ”

Xia ruofei laughed and said, “brother Chen, you know me well!”

“Ruofei, why don’t you talk to brother Chen for a while?” Song Wei stood up and said. I’ll go prepare dinner with Qingxue. ”

Xia ruofei smiled and nodded, “okay, thank you ...”

In fact, Xia ruofei was almost done preparing dinner. Song Wei and Ling Qingxue only needed to stir – fry a few more vegetables and watch the fire. Besides, Song Wei’s cooking skills were not bad, so it was not a problem for her to complete the task. As for Ling Qingxue ... As long as she didn’t make things worse.

Xia ruofei and Chen Xuan were the only ones left in the living room.

Xia ruofei poured away the tea leaves that Song Wei and Ling Qingxue had just made and cleaned the tea set again. Then, he took out the peach blossom Da Hong Pao and started to make tea while chatting with Chen Xuan.
