Chapter 3131 A bold test (2)

"Brother Chen, have you gotten used to working in our company these days?" Xia ruofei asked.

"It's pretty good. " Chen Xuan smiled and said, "I'm just like everyone else. I clock in to work every day, eat in the company cafeteria, and occasionally go back at night to cook my own meal. It's a very fresh experience for me to be able to feel the joy, anger, sorrow, and joy of ordinary people at close range. It's indeed very beneficial for the cultivation of my mind. "

In fact, it was more important for Chen Xuan to accumulate his cultivation at this stage. Therefore, compared to entering the secular world to train, it was better for him to cultivate in the heavenly abode. Once he met with a bottleneck, he would enter the secular world to cultivate and find an opportunity to break through.

However, Chen Xuan's personality was more peaceful. Coupled with the orders from his father, Chen Nanfeng, he quickly adjusted his mentality. Since he was already here, he would take things as they came. He started his training journey calmly. He had really experienced the ups and downs of the ordinary people in the secular world.

Xia ruofei poured the tea into a tea cup and passed it to Chen Xuan. Then, he smiled and asked, ""The people in the research department didn't purposely make things difficult for you, right? Tell me directly if you've suffered any grievances, I'll deal with them!"

Actually, Xia ruofei was also worried that the people in the development Department would be jealous of Chen Xuan and deliberately make things difficult for him. If they angered this man, the company would be in chaos and a life could be lost in a matter of minutes! As the saying goes, 'the emperor's blood flows when he's angry', Chen Xuan's ability was much stronger than those emperors of the secular world!

If something really happened, Xia ruofei would rather stand up for Chen Xuan himself and deal with a few employees. As long as Chen Xuan was not angry, it would be fine.

"Brother Xia, please don't do that! And don't just go and ask me to give you a special treatment! Otherwise, it'll be meaningless!" Chen Xuan waved his hands.

Chen Xuan seemed to be able to guess Xia ruofei's concern, so he said seriously, ""Brother Xia, don't worry, everyone in the research department is treating me well. Even if the situation you're talking about happens, I'm just an Aurous core stage cultivator, how can I stoop to the level of ordinary people? Besides, suffering grievances is also a way to temper one's heart!"

Xia ruofei nodded and said, "okay!" "But I still hope that brother Chen can finish the training as soon as possible ... Our paradise corporation's temple is too small. If a great God like you kneels there, I'll be on tenterhooks all day long ..." Chen Xuan revealed an awkward expression and said, ""It shouldn't be too long! Director Feng has placed great importance on this Paradise Mall project. Recently, he has been strengthening the development force, and our progress has been greatly accelerated. I estimate that in less than a month, we should be able to develop the internal version. As for the subsequent tests and

adjustments, I don't need to participate. By then, brother Xia doesn't need to chase me away, I will take the initiative to leave. "

"Let's hope so ..." Xia ruofei said as he made up his mind. He would ask Feng Jing to hire more "Dinner's ready!" Song Wei said with a smile. You guys can come over and chat while eating!"

Xia ruofei nodded and said, "I'm coming!"

Then, he put down his teacup, stood up, and said, ""Brother Chen, let's go have dinner! You're used to eating the delicacies of the cultivation world, so today you should try the home - cooked food of the secular world. I hope you don't mind. "

small amount of spiritual Qi. With Xia ruofei's background as a 'nascent soul realm disciple', it was 22:57 normal for him to take out wine that contained a little spiritual Qi. It was just right for his identity!

"I've been eating home - cooked food from the secular world recently!" Chen Xuan replied with a smile. For example, I think the food in our company's cafeteria is pretty good! Besides, even in the sect, the ingredients we eat are actually similar to the ingredients in the secular world. The legendary spiritual rice and other such ingredients have already become rare due to the deterioration of the cultivation environment. "

Xia ruofei touched his nose and smiled. ""That's true! In fact, it's not easy for cultivators nowadays ..."

The two of them walked to the dining table. Song Wei and Ling Qingxue quickly brought out the dishes that had been prepared in the kitchen. There were indeed some common home - cooked dishes such as boiled fish, braised beef, cabbage in vinegar sauce, bitter melon soup ... However, Xia ruofei and Song Wei's cooking skills were not bad, so these home - cooked dishes looked good. They also exuded a fragrant smell that greatly increased one's appetite.

Xia ruofei took out two bottles of white wine from the spirit map space and said with a smile, ""Brother Chen, let's try this Western wine today! I think you don't usually drink much. "

This Semillon wine was brewed in Australia's West Winery. However, Xia ruofei had stored it in the spirit map space for quite a long time, so the taste should be very good.

Of course, there was definitely some spiritual energy in the wine. With Chen Xuan's standards, he was naturally able to tell.

However, wine was different from other ingredients. Many cultivators would store good wine in their cultivation cellars that were rich in spiritual Qi. Therefore, it was normal for wine to contain a small amount of spiritual Qi. With Xia ruofei's background as a 'nascent soul realm disciple', it was normal for him to take out wine that contained a little spiritual Qi. It was just right for his identity!

"Our company in the secular world does have some Western wine, but we really don't drink much. It seems like I'm in luck today!" Chen Xuan said with a smile. Chen Xuan revealed an awkward expression as he replied, ""It shouldn't be too long! Director Feng has placed great importance on this Paradise Mall project. Recently, he has been strengthening the development force, and our progress has been greatly accelerated. I estimate that in less than a month, we should be able to develop the internal version. As

"Let's hope so ..." Xia ruofei said as he made up his mind. He would ask Feng Jing to hire more programmers tomorrow. It would be best if he could poach two big names in the industry. The development of Paradise Mall could continue to speed up! As long as he could get Chen Xuan to leave as soon as possible, spending a little more money and hiring a few more people was nothing.

After the two of them had some tea, Song Wei and Ling Qingxue carried the dinner they had prepared out of the kitchen.

"Dinner's ready!" Song Wei said with a smile. You guys can come over and chat while eating!"

Xia ruofei nodded and said, "I'm coming!"

Then, he put down his teacup, stood up, and said, "Brother Chen, let's go have dinner! You're used to eating the delicacies of the cultivation world, so today you should try the home-cooked food of the secular world. I hope you don't mind. "

Chapter 3132 Release the signal_1

Even though Xia ruofei spoke in a casual tone, Chen Xuan's eyes narrowed and his face revealed a strange expression.

Originally, he had a lot of questions about his father, Chen Nanfeng, asking him to bring two five Saint badges to the secular world for training. These days, he had also made various speculations, but he could not figure it out.

It was only when Xia ruofei suddenly appeared at the peach blossom company that Chen Xuan finally understood.

Since the Paradise Corporation was Xia ruofei's business in the secular world, Chen Nanfeng must have had a deeper meaning for him to come to the Paradise Corporation for training. Under such circumstances, Chen Nanfeng had specifically asked him to bring two five - Saints badges. Could it be that Xia ruofei had a close relationship with the five - Saints badges?

Back at the auction, Chen Xuan had borrowed spirit stones from Xia ruofei to bid for the five Saints token.

At that time, Chen Xuan was worried that Xia ruofei would also want to compete for the five Saints token. He did not expect Xia ruofei to lend him the spiritual stones so readily after a short pause.

If Xia ruofei had studied the five - Saint token deeply or knew its secret, how could he give it up so easily?

Chen Xuan thought about it and realized that there was another possibility. Xia ruofei already had the last yet to be born five Saints token.

This was almost a guess.

Of course, this was all under the premise that Chen Nanfeng still knew everything.

In fact, Chen Xuan's guess was basically the truth. It was even closer to the truth than Chen Nanfeng's guess. Chen Nanfeng only thought that Xia ruofei had come into contact with the five Saints badge recently. He did not expect that Xia ruofei would have the last five Saints badge with him.

Chen Nanfeng was overconfident because he could sense the weak aura of anyone who had come into contact with the five Saints badge. If the five Saints badge was still with Xia ruofei, even if it was in the storage ring, its aura would definitely not be able to escape his eyes.

What he did not expect was that Xia ruofei did not use a storage treasure, but a much higher - grade Grotto - heaven treasure. If Xia ruofei had not come into contact with the five Saints token for a short time in the spirit map space and had not gone to the first heaven sect, he would not have sensed that faint aura.

Chen Xuan had no idea what Chen Nanfeng's intentions were. He only had a vague guess that it had something to do with the five Saints badge. Hence, he could not provide Xia ruofei with more information when he appeared. However, he did not hide anything about the five Saints badge.

Of course, that was all.

He did not continue to beat around the bush with Xia ruofei about the five Saints token.

Chen Xuan did not expect Xia ruofei to lead the conversation to the five sacred medallions.

For a moment, many thoughts flashed through Chen Xuan's mind.

After a moment of silence, Chen Xuan said, ""Our three clans had once studied the five Holy badges together. However, we had yet to obtain the fourth badge at that time. The results of the research back then ... Could actually be said to have made no progress at all. Brother Xia, do you ... Have any good suggestions?"

Chen Xuan was a little more cautious with his words, but his tone was filled with a sense of probing.

Xia ruofei smiled and said, "brother Chen, I'm just saying. After all, no one knows if there will be any new discoveries with the four tokens." Since there's no progress in your research, why don't you give it a try?"

Chen Xuan was slightly disappointed, but he had a feeling that Xia ruofei was not just saying it casually. He thought for a while and said, "I'll go back and contact my father to ask for his opinion. After all, he would have to step in if he wanted to gather the other two sects to bring out the five Saints badges. However ... The five Holy badges are with me now, so it might not be too convenient!"

Xia ruofei laughed and said, "brother Chen, you really can't forget about this experiential learning job!" Do you really not want to leave our company that much? Actually, you could have arranged for the meeting to be at San Shan! This won't delay anything, right?"

A light bulb went off in Chen Xuan's head. He was even more certain that Xia ruofei's suggestion was not just for show.

However, he didn't show it. He just smiled and said, "Brother Xia's suggestion is not bad! I'll seriously consider it. "

Following that, everyone tacitly did not mention the matter of the five sacred badges again. They drank and chatted, and the atmosphere was very good.

At around nine in the evening, Chen Xuan stood up and bade farewell.

The reason was that she had to go to work tomorrow and had to go back early to rest.

Xia ruofei and the other two couldn't help but laugh. Chen Xuan was too immersed in his character!

However, Xia ruofei was rather impressed by Chen Xuan. He did everything seriously and did it to the extreme. It was unreasonable for such a person to not succeed.

Considering that Chen Xuan didn't have a car, Xia ruofei was supposed to drive him back.

However, Chen Xuan had rejected the offer and booked a Didi cab instead.

Hence, Xia ruofei and the other two walked him to the entrance of the villa district as a way to take a walk to digest his food.

Xia ruofei even saw Chen Xuan retrieving his identity card at the entrance of the community. He must have been detained here when he entered the community. The management of the personnel in this villa community had always been very strict.

In fact, Xia ruofei was also very curious about Chen Xuan's identity card, but he was too embarrassed to ask him for it.

At the entrance of the villa district, Xia ruofei and the other two accompanied Chen Xuan for a while. The Didi that he had arranged to meet with arrived. Xia ruofei took a look and saw that it was an ordinary Ford Focus. Chen Xuan must have chosen an ordinary model to save money.

Chapter 3133 Releasing the signal_

After waving goodbye to Chen Xuan, Xia ruofei and the other two strolled into the villa.

Today, the three of them had a little to drink, so Song Wei decided to stay at Xia ruofei's house. She called back to say that she was having dinner with Ling Qingxue and then stayed at Ling Qingxue's house.

Song Qiming already knew that Song Wei was a cultivator like Ling Qingxue, so he was very assured that his daughter was staying outside. He did not say that he would send a car to take her home.

The three of them walked along the beautiful road in the neighborhood. On the way, Xia ruofei saw that the lights in Feng Jing's little terrace house were still on. Feng Jing must have returned home from work.

However, it was getting late and his two female friends were by his side, so Xia ruofei had no intention of visiting.

After chatting for a while, Ling Qingxue couldn't help but ask, "Ruofei, do you have any special intentions for suddenly inviting Chen Xuan over for a meal?"

"Guess!" Xia ruofei smiled and said.

"How am I supposed to guess!" Ling Qingxue pouted and said, "I heard the content of your conversation. It's so confusing. It feels like you're just having a casual chat! It was all over the place, and there was no substantial content. However, I don't believe that you would do something meaningless."

Song Wei pursed her lips and smiled, "Let me make a guess. Is it related to that five Saint token?"

Xia ruofei looked at Song Wei in surprise and said, "Wei Wei, not bad! You're quite sharp!"

"You can even guess this?" Ling Qingxue held onto Song Wei's arm and asked with interest, "Weiwei, how did you guess it?"

Song Wei smiled and said, "it seems that I was right." It's nothing much, I just felt that even though you guys didn't talk about the five sages medallion for too long, the atmosphere was clearly different. Furthermore, even though Chen Xuan still had that gentle and refined expression, I could feel that he had suddenly become very cautious. I was wondering if this five sages medallion was important to him."

Xia ruofei gave Song Wei a thumbs up and said, "You're indeed as meticulous as a hair!"

"RUO Fei, tell us about the five Holy badges!" Said Ling Qingxue as she tugged at Xia ruofei's clothes.

"Actually, I don't know much about the five Saints badges either. However, it's very likely that Chen Xuan came to the three mountains and joined the peach blossom company for the five Saints badge. Of course, he might not even be aware that all of this was Chen Nanfeng's arrangement." Xia ruofei said.

Following that, Xia ruofei selectively told Ling Qingxue and Song Wei about the five Saint badges.

Even though Xia ruofei spoke in a casual tone, Chen Xuan's eyes narrowed and his face revealed a strange expression.

Originally, he had a lot of questions about his father, Chen Nanfeng, asking him to bring two five Saint badges to the secular world for training. These days, he had also made various speculations, but he could not figure it out.

At around nine in the evening, Chen Xuan stood up and bade farewell.

The reason was that she had to go to work tomorrow and had to go back early to rest.

Xia ruofei and the other two could not help but laugh. Chen Xuan was too deep in his acting!

However, Xia ruofei was rather impressed by Chen Xuan. He did everything seriously and did it to the extreme. It was unreasonable for such a person to not succeed.

Considering that Chen Xuan didn't have a car, Xia ruofei was supposed to drive him back.

However, Chen Xuan had rejected the offer and booked a Didi cab instead.

Today, the three of them had a little to drink, so Song Wei decided to stay at Xia ruofei's house. She called back to say that she was having dinner with Ling Qingxue and then stayed at Ling Qingxue's house.

...

Chapter 3134 Very understanding (1)

Chen Xuan told Chen Nanfeng everything that they had talked about at Xia ruofei's house.

On the other end of the phone, Chen Nanfeng was silent for a long time. Chen Xuan didn't dare to rush him, so he waited patiently.

After a long while, Chen Nanfeng said, "I'll make the arrangements. We'll do as Xia ruofei said and set the location at the three mountains."

"Alright!" Chen Xuan said.

Chen Nanfeng thought for a while and said, "Xuan 'er, contact Xia ruofei. Tell him ... That he's more familiar with the three mountains. Ask him if he can arrange the location."

Chen Xuan was taken aback for a moment, but he immediately understood the signal his father was trying to send. He nodded his head and said, "I know, I'll discuss it with him."

"Also ... Tell him that the first heaven society won't be sending anyone else to participate." Chen Nanfeng said, "in any case, the two tokens are with you. As for soaring Flower Valley and surging waves sect, I'll have them keep it simple and try to send only the sect leader with the token personally or an elder. Don't make a big fuss."

Chen Xuan knew that everything Chen Nanfeng did was to make Xia ruofei let down his guard.

He didn't understand why Chen Nanfeng was so sure that with Xia ruofei's participation, there would be a breakthrough in the research of the five Holy badges. He even had a faint feeling that although his father and Xia ruofei didn't communicate directly, they seemed to have a silent understanding.

"Alright, I'll pass on the message!" "Father, do you have any other orders?" Chen Xuan asked.

"There's nothing else," said Chen Nanfeng. "You can act according to the situation. Try not to get into a conflict with the soaring Flower Valley and the surging waves sect. Under the condition that it doesn't affect the first heaven sect, try to protect Xia ruofei's interests as much as possible. In short, show him as much goodwill as possible."

"Understood!" Chen Xuan said in a relaxed manner.

Although Chen Nanfeng did not clearly explain his reason for doing so, Chen Xuan could feel that Chen Nanfeng had no intention of being Xia ruofei's enemy or coveting his treasures. Instead, he wanted to be on Xia ruofei's good side.

This was in line with Chen Xuan's original intentions.

This way, he would be able to avoid being caught in a dilemma.

"That's right, Xuan 'er!" Chen Nanfeng said, "since Xia ruofei has revealed her identity, your training in paradise Corporation should end first! You can stay at the three mountains for the time being."

In Chen Nanfeng's eyes, Chen Xuan leaving the company was a gesture of goodwill to Xia ruofei.

To his surprise, Chen Xuan replied after a moment of hesitation, "Father, regarding the training, Xia ruofei and I have come to an agreement. I will continue working at paradise Corporation for a period of time to help his company complete a phase of work before leaving. Xia ruofei has agreed to it himself."

Chen Nanfeng was slightly taken aback and asked in astonishment, "Is it a job in the secular world?"

"Yes, when I first joined the company, I took on a more important task." Chen Xuan said, "if I were to leave suddenly, it might have a huge impact on my work. Besides, you also know that I've always been a man of my word. Even though it's just an ordinary job in the secular world, I don't want to give up halfway. I hope father can understand and agree with this decision of mine."

"If Xia ruofei doesn't have any objections, I'll agree," Chen Nanfeng said after some thought.

"Thank you, Father!" Chen Xuan said happily.

After ending the call with Chen Nanfeng, the relaxed Chen Xuan wanted to contact Xia ruofei immediately. However, when he thought of Xia ruofei's two beautiful Dao companions at dinner and the time now, he suppressed the thought.

Actually, Xia ruofei was struggling to stay in the guest room alone. He was not as happy as Chen Xuan had imagined.

.....

The next morning, after Xia ruofei and the other two had breakfast in the villa, Ling Qingxue and Song Wei left the house. Ling Qingxue was instructed to send Song Wei home before going to work.

Although Xia ruofei was still worried about Chen Xuan, he did not want to go to the company so early. He decided to stay at home and make some tea so that he could go to the company later.

In truth, he knew that given Chen Xuan's cultivation level, unless he were to be by Chen Xuan's side 24/7, there was no way he would be able to prevent Chen Xuan from pulling any cheap tricks or causing any destruction.

However, whenever he thought about having a golden core expert writing code in his company, Xia ruofei would always feel a sense of fear. He would only be at ease if he went to the company to guard it.

Xia ruofei had just finished boiling the water and was pouring a small packet of wild tea from the spirit map space into the teapot when his phone rang.

Xia ruofei looked up and saw that it was the number that Chen Xuan had used for his training.

He put down the tea bag, took the phone, and answered the call.

"Brother Xia, I hope I didn't disturb your rest." Chen Xuan asked.

Xia ruofei could tell that Chen Xuan was in a good mood. He smiled and said, "I woke up long ago! Brother Chen, did you encounter some happy event? You sound so happy. Did some lady in the company confess to you?"

"Brother Xia, please don't joke around ..." Chen Xuan replied awkwardly.

"Hahaha! I was just guessing! 'I know it's not possible ...' Xia ruofei smiled and said, 'with brother Chen's family background, all the beautiful female cultivators in the world of cultivation are probably lining up to be your cultivation partner! How could brother Chen be interested in the young ladies in my company?'"

"Brother Xia, I haven't thought about finding a Dao companion for the time being. You'd better not make such a joke." Chen Xuan smiled bitterly. "The reason I'm here today is because I have something to discuss with you!"

"Oh? I'm all ears!" Xia ruofei stopped laughing and said seriously.

"I'll tell my father about brother Xia's suggestion last night when I get home." Chen Xuan went straight to the point. "My father thinks that this is a good suggestion. It's also a good idea to have the meeting place at the three mountains."

Xia ruofei had already expected this outcome, so he was not surprised at all. He smiled and said, "This is a good thing! When the three of you are studying the five Holy badges, I'd like to join in on the fun and broaden my horizons. I wonder if that's possible?"

"Of course we welcome you!" Chen Xuan replied hurriedly. It's great that brother Xia is willing to give us some ideas!"

Chen Nanfeng had made all these arrangements to make it easier for Xia ruofei to participate. He also wanted to reduce Xia ruofei's wariness as much as possible. What was the point if Xia ruofei did not participate? Hence, even if Xia ruofei did not ask, Chen Xuan would have taken the initiative to invite him.

However, Chen Xuan did not expect Xia ruofei to be so cooperative '.

"Oh right, brother Xia ..." Chen Xuan hurriedly added, "my father said that you're more familiar with the area around the three mountains, so we have a presumptuous request. We hope that you can help us arrange the venue and some other security matters. We hope that you'll be able to help us, brother Xia. I'm not sure if it's too troublesome."

Xia ruofei also gave Chen Nanfeng a thumbs up in his heart. He smiled and said, "No problem! I'll make the arrangements. You just need to tell me how many people are coming in advance. Leave the rest to me."

"Thank you so much!" Chen Xuan hurriedly replied, "brother Xia, there shouldn't be too many people. My father said that I'm the only representative from the first heaven sect. Furthermore, he'll also ask the soaring Flower Valley and the surging waves sect to arrange as few people as possible. On one hand, it's to keep a low profile, and on the other hand ... It's also because he's taking into account that the more people there are, the greater the strength. The research on the five Holy badges has been going on for many years, but there's no progress at all. Therefore, this isn't a problem that can be solved easily with more people."

Xia ruofei couldn't help but smile in satisfaction. He thought, "It seems that this Chen Nanfeng is quite sensible. He set the meeting place at San Shan, and I arranged the venue. He also tried to keep the number of people as low as possible. He's worried that I'll be scared ..."

"I know." Xia ruofei said, "you decide on the time first! This way, I can get someone to book a place in advance!"

"I'll contact you again after I confirm the time." "Thank you, brother Xia!" Chen Xuan replied hurriedly.

Chapter 3135 Exchange meet (1)

"Master," Luo Qingfeng immediately asked, "do you need me to go to the three mountains to help you?" I've already taught my trusted disciples how to control the sect's great formation, so it shouldn't be a problem for me to leave for a few days."

Xia ruofei said, "you don't need to. You should stay in the sect and cultivate!" I asked you to send people here mainly to do some reception, security, and other such work. Because it's an exchange between cultivators, it's not very convenient for ordinary people to do it."

"Master, you're gathering cultivators in the three mountains for an exchange?" Luo Qingfeng suddenly became a little nervous. "Then all the more I should come. I'm worried about my safety ..."

"Don't worry! I can handle it by myself." Xia ruofei said confidently, "as long as you guard the sect well, that will be the greatest help you can give me. Qingfeng, it's settled then. Tell the eight disciples to contact me directly after they reach the three mountains. I'll arrange their accommodation and food and assign them tasks!"

"Yes! Master!" Seeing Xia ruofei's firm attitude, Luo Qingfeng had no choice but to agree.

After everything was arranged, Xia ruofei finally heaved a sigh of relief. He took a sip of tea.

"Ruofei, did Chen Xuan give you a letter of approval?" Ling Qingxue asked.

"En!" Xia ruofei gulped down the tea and wiped his mouth. "Three days later, we will discuss the five Holy badges together."

"Shouldn't we find a resort in the suburbs for such an exchange?" Ling Qingxue asked in confusion, "if we put it in the Shangri – La hotel in the city center, would it ..."

Xia ruofei smiled and said, "the city center is better!" It's not like I'm going to fight and kill them, I'm just doing research and exchange! The city center was more convenient! Of course, if they came to the three mountains with other intentions, I still have ways to deal with them in the city center!"

The spirit painting was Xia ruofei's biggest trump card. He had obtained knowledge from the Jade talisman of inheritance and there were many techniques within it. Even an Aurous core stage cultivator could easily fall for it if he did not understand these techniques.

Besides, Xia ruofei was more confident in his ability to escape.

He continued, "Qingxue, you and Weiwei must be with me the day after tomorrow. Don't leave a five – meter radius around me." If anything happens, I'll be able to take care of you!"

Most of the people who brought the five Saint badges to the exchange were important figures of their respective sects and should be at least golden core cultivators. The first heaven society's Chen Xuan was the young sect master and elder of the sect, and he was also at the Golden core stage. As for soaring Flower Valley and surging waves sect, if there were no accidents, it should be their sect leaders who came.

Soaring Flower Valley's Valley master Liu Mansha and surging waves sect's sect master Mu Sheng. These two had a good time with Xia ruofei during the auction. Strictly speaking, it was all thanks to Xia ruofei's firecloud pill that Mu Sheng's son, mu Jianfei, could recover and recover from his injuries.

However, there was no knowing what was in a person's heart, especially when it involved major interests. Xia ruofei could not believe the beauty of human nature.

That was why he had requested for both Song Wei and Ling Qingxue to stay by his side. If anything were to happen, he would definitely not care about keeping the secret of the spirit map scroll. He would immediately put Ling Qingxue and Song Wei into his spatial space and then board the flying boat to escape. He wasn't confident that he could escape unscathed from the siege of two mid – Stage golden core cultivators.

Ling Qingxue could hear the seriousness in Xia ruofei's tone. She quickly said, ""I know ... I'll tell Weiwei."

Then, Ling Qingxue said worriedly, ""But ... Even if you can protect us, what about your paradise Corporation? And our family, Wei Wei's family ..."

Xia ruofei waved his hand and said, "I'm talking about the worst case scenario. Generally speaking, there shouldn't be any conflicts." However, if they really dare to lay their hands on ordinary people, then they'll be mortal enemies!"

Xia ruofei's eyes were filled with killing intent as he continued, ""Even if I'm not as strong as them for the time being, they won't have an easy time either! In the future, they will face my endless pursuit, and their disciples can forget about walking in the world of cultivation. I will kill anyone I see!"

Ling Qingxue couldn't help but shiver. She continued, ""Right! Attacking ordinary people was crossing the line! If you had that black flying boat, you could really come and go like the wind and become their nightmare! But ... Uncle song wasn't an ordinary person! He's already a cultivator!"

Xia ruofei frowned and said, ""The shielding talisman I gave uncle song shouldn't be able to be seen through by ordinary Aurous core stage cultivators unless Chen Nanfeng is there personally ..."

Xia ruofei felt that Chen Nanfeng's ability was a little strange. It was as if he could see through everything. Hence, he was not sure if the shielding formation could hide from Chen Nanfeng.

“There’s usually no problem with that!” Xia ruofei said, “besides, uncle song’s identity is special. People in the cultivation world are usually unwilling to attack high – ranking officials in the secular world. Otherwise, there will be a lot of trouble ...”

Xia ruofei couldn’t help but laugh. “Qingxue, I’ve already said that this is the worst situation! I think ... The probability of this happening is very small, so there’s no need to worry. I asked you to stay by my side just in case! The main theme of this meeting is probably to exchange and discuss with each other!”

“Mm! I got it!” Ling Qingxue nodded and said, “you should rest well for the next two days! You must maintain your best condition!”

“Don’t worry!” Xia ruofei laughed and said, “I’ve been maintaining my condition well!”

For the next two days, Xia ruofei did not go to the office. Chen Xuan, on the other hand, seemed to have forgotten about this matter as he continued to work hard.

The next day, Xia ruofei checked into the Shangri – La hotel.

As the host, he had to be there first to arrange everything.

The eight disciples of the star Seizer sect had also arrived at the three mountains. The leader was still the disciple who had experimented with wild tea, Wang Shan Lao Ai. He was now a ninth – tier Qi refining cultivator and could be considered a pillar of support in the star Seizer sect. It was naturally not a problem for him to lead a team for this kind of external mission.

All the disciples were very respectful to Xia ruofei, and Royal Mountain was even more so.

Xia ruofei had arranged for them to stay at the Shangri – La hotel. He had asked Qin Yanan to Book 15 rooms, which should be more than enough. If it was not enough, they could add more rooms at any time. Paradise Corporation was considered a big client.

Therefore, Wang Shan and the other eight people had their own King – sized rooms.

Chapter 3136 Gather_

“Yes!” Wang Shan replied respectfully. Great elder!”

He bowed slightly to Chen Xuan before leaving the room.

“Brother Chen, come, have some tea!” Xia ruofei smiled as he pushed the teacup in front of Chen Xuan.

“Thank you!” Chen Xuan smiled and said, “so brother Xia is already the Grand Elder of the star Seizer sect! From what I know, the Grand Elder of the star Seizer sect is an honorary position, and it has been vacant for many years. ”

“It’s all sect leader Luo’s fault ...” Xia ruofei smiled.

Chen Xuan looked at Xia ruofei meaningfully and did not continue asking. Instead, he changed the topic and asked, “Brother Xia, have you finished the preparations? Is there anything you need me to do?”

Xia ruofei smiled and waved his hand. “It’s just to ensure everyone’s food, accommodation, and transportation. We’ve also reserved a small conference room for communication. What do I need you to

do?" I've booked five of these luxury suites. You and I will each have one suite, and there are three more left. If there are more than three sect Masters or elders in soaring Flower Valley and surging waves sect, we can open more at any time. We've also reserved the rooms for the people they might bring with them."

"Thank you for your hard work, brother Xia!" Chen Xuan said.

"Brother Chen, do you want to take a look at the conference room?" Xia ruofei asked,"after all, you're the real host. Do you want me to accompany you to the venue?"

"No need, no need, no need!" Chen Xuan waved his hand and said,"how can I not trust brother Xia when he's handling this? Besides, I don't usually deal with these things, so I can't see anything special about it!"

Xia ruofei laughed and said,"then don't look at it. I don't know anything about it. It's all arranged by my subordinates!" Let's have some tea and chat!"

Of course, the main reason Xia ruofei had called Chen Xuan over overnight was to consider the possibility that the soaring Flower Valley and the surging waves sect would rush over to the three mountains at night. As the one who had gathered them, it would be inappropriate if Chen Xuan did not welcome them at the hotel.

Of course, reality proved that he had worried too much. The people from soaring Flower Valley and surging waves sect didn't come.

The next morning, Xia ruofei and Chen Xuan had breakfast together at the hotel's buffet.

The eight disciples of the star Seizer sect also finished their breakfast as quickly as possible.

Qin Yanan had also rushed to the hotel with the two young ladies from the assistant team.

However, they were mainly in charge of coordinating with the hotel. If Xia ruofei had any needs, they would coordinate with the hotel immediately.

As for the work of reception, they would naturally not be allowed to come into contact with it.

For this, Xia ruofei had specially reserved two rooms as work rooms for Qin Yanan and the others to be on standby in the rooms.

After breakfast, Xia ruofei and Chen Xuan went to the hotel lobby and sat down on the sofa.

Wang Shan and the others were also divided into two groups. Four of them went to the small conference room to do some preparation work, while the other four stayed by Xia ruofei's side to wait for orders.

At around nineo' clock in the morning, Xia ruofei and Chen Xuan looked up at the entrance of the hotel at the same time. Then, they stood up at the same time and walked out quickly to welcome him.

At the entrance, the valley master of the soaring Flower Valley, Liu Mansha, and her disciple, Yu xiner, both wore modern clothes as they strode into the hotel lobby.

Although they had changed out of their Palace robes, the two of them still looked as magnificent as ever. Whether it was Liu Mansha's mature beauty or Yu xiner's pure and pleasant appearance, they both made people's hearts beat faster.

They looked like a pair of sisters. If one was not from the world of cultivation, one would not believe that Liu Mansha, who looked like a beautiful young woman in her early thirties, was actually an old woman in her seventies or eighties.

In fact, as soon as the two of them entered the hotel, they immediately attracted a lot of attention, and the number of people turning their heads was quite high.

As Xia ruofei walked towards Liu Mansha, he nodded to himself. It seemed like Chen Nanfeng was not lying. Besides, he was very influential. Liu Mansha's group only consisted of two people. With her status as the valley master, it was definitely a simple task.

Especially since she was the only golden core cultivator, it was obvious that she was actively responding to Chen Nanfeng's proposal.

"Valley master Liu, long time no see. You're still as elegant as ever!" Chen Xuan greeted with a smile.

"So it's nephew Chen." A smile appeared on Liu Mansha's cold face. "Fellow Daoist Xia is also here!"

Qin Yanan and the others had already returned to their rooms to wait for orders, so Xia ruofei had also changed his appearance to look like Xia Tian. Liu Mansha had a deep impression of Xia ruofei during the auction and had even bought the spiritual power cultivation technique "the truth of glittering jewels" from Xia ruofei. She had been studying the truth of glittering jewels for a while and had benefited a lot in terms of spiritual power. Hence, she had a good impression of Xia ruofei and naturally recognized him at a glance.

"Valley master Liu, you've had a long journey!" Xia ruofei said with a smile.

Yu Xin 'er also greeted him, "Xin' er greets young sect leader Chen!" Greetings ... Xia ... Senior ..."

Xia ruofei quickly waved his hand. "I don't deserve the title 'senior.' Miss Xin 'er, you can call me by my name. Or, you can call me fellow Daoist Xia."

"You can also call him elder Xia," Chen Xuan added. Brother Xia is now the Grand Elder of the star Seizer sect. "

Liu Mansha was not surprised by this. She smiled and said, "Then I must congratulate fellow Daoist Xia!"

Yu Xin 'er also bowed slightly and said, ""Xin 'er greets elder Xia."

"Miss Xin 'er is too polite!" Xia ruofei hurriedly said, "by the way, the Dao friends from the surging waves sect have yet to arrive. Valley master Liu and miss Xin 'er, why don't you go to your room and rest first?" Everything has been arranged. "

"The specific matters of this exchange meeting were all arranged by brother Xia. He's a local tyrant in the three mountains!" Chen Xuan chimed in.

Liu Mansha looked at Xia ruofei in surprise, then nodded slightly and said, "Then I'll have to trouble fellow Daoist Xia."

"Where? It's no trouble at all!" Xia ruofei said.

Then, he beckoned Wang Shan over and said, "Wang Shan, this is Valley Head Liu Mansha from the soaring Flower Valley. This is Valley Head Liu's beloved disciple, miss Yu xiner. Please bring the two of them to their rooms to rest!"

"Wang Shan, disciple of the star Seizer sect, greets Valley master Liu and miss Xin 'er!" Wang Shan quickly bowed and greeted. Please follow me!"

Xia ruofei smiled. "Valley master Liu, miss Xin 'er, the fellow Daoists from the surging waves sect have yet to arrive. Brother Chen and I will have to wait here for a while. We won't be able to accompany the two of you upstairs."

"Fellow Daoist Xia is too polite. You don't need to worry about me." Liu Mansha smiled and said, "we can help ourselves!"

Chapter 3137 Token number one appears (1)

The four tokens looked almost exactly the same, the only difference was the number engraved on them.

These four tokens were numbered two, three, four, and five. Among them, token two and token four both belonged to the first heaven sect, token three came from the flying flower Valley, and the remaining token five belonged to the vast waves sect.

In the small meeting room, Chen Xuan, Liu Mansha, and Mu Sheng stared at the four tokens with wide eyes, not knowing how to study them.

As for Yu Xin 'Er and Mu Jianfei, they had lost all sense of existence. There wasn't even a place for them to look at each other. They could only look at everyone from a distance.

In fact, the three sects had also joined forces to study the five sacred badges in the past few years. However, just like before, the appearance of the badges was almost the same. There were no changes even when they were placed together. They could not find any breakthrough in the study at all.

The elders of the three sects had studied the five Holy badges all year round. They had also tried to study the serial number of the badges. After all, this was the only difference between the badges.

There were indeed people who tried to do it from the engraving technique of the number, the fine lines, and other aspects. However, they chose the wrong direction from the beginning. Naturally, there would only be one result, and that was to walk into a dead end.

Today, the fourth command token had also joined in, but it seemed to have no effect. It was no different from the previous three command tokens.

Liu Mansha and Mu Sheng both turned to look at Chen Xuan. He had asked the first heaven sect to gather the two sects to study the five sacred writs together. They naturally thought that the first heaven sect had made some discoveries. They just needed to put the four writs together to verify it. After all, the first heaven sect had two writs. This was something that no sect had been able to do in the past.

How could Chen Xuan have any clues?

He looked at Xia ruofei again.

Brother Xia, did you find any clues? Chen Xuan asked.

Mu Sheng and Liu Mansha couldn't help but reveal a strange expression. They were very puzzled by Chen Xuan's behavior of asking Xia ruofei without saying anything.

Xia ruofei suddenly became the focus of attention in the small meeting room. Even mu Jianfei and Yu xiner looked at him.

Xia ruofei cleared his throat and said, Two seniors, brother Chen, there won't be any results if you study these four tokens together. This is because we're still missing the last token. I feel that after we've gathered the last token, there will definitely be a surprise.

In fact, the modern cultivation world had a very limited understanding of the rising Dragon Order, which was also the five sacred tokens.

They couldn't even be sure if there were only five tokens. However, among the tokens that had been born so far, the largest number was the blue waves sect's token number five. Therefore, everyone tentatively named it the 'five sages token'. At the same time, the mainstream thought that there were a total of five tokens in a set.

However, no one dared to Pat their chests and say that there was definitely no sixth ... Which was the Lu token.

Of course, Xia ruofei's point of view was not new.

The mainstream opinion in the cultivation world was that, under the premise that there were only five tokens in a set, clues would appear after all five tokens were gathered. The research on the five Holy badges would also make a breakthrough.

Hence, Xia ruofei's words did not have much meaning. To put it bluntly, it was just correct nonsense.

However, Liu Mansha and Mu Sheng were sect leaders after all, and they both had a good impression of Xia ruofei. So, they naturally would not scold Xia ruofei on the spot. They just felt a little disappointed.

However, Chen Xuan was secretly anxious as he replied, Brother Xia, I also believe that. But ... The last number one token hasn't appeared yet, right? We can only study these four tokens for now. I wonder if brother Xia ... Will be able to find any valuable clues from these four tokens?

Xia ruofei didn't plan to hide it anymore. He smiled and said, I really can't find any clues from the combination of four tokens. But ... We can try to put all five tokens together ...

As long as he still wanted to study the secret of the five sages token, it was impossible for him to hide the fact that he had the five sages token.

After all, he only had one token, so he couldn't study it well no matter what. Only by gathering all five tokens together would there be a magical change. The other four tokens were in the hands of others, so it was impossible for him to study them quietly.

Therefore, Xia ruofei had used his connection with Chen Nanfeng and the first heaven society's influence to gather everyone together. The purpose was to combine the tokens.

After all, money moved people's hearts, so there was naturally a risk in doing so.

However, Xia ruofei had already minimized the risk.

The soaring Flower Valley and the surging waves sect did not mobilize their forces, and the meeting place was set at the three mountains, which he had full authority to arrange.

Moreover, he himself was an early stage golden core cultivator, which even Liu Mansha and Mu Sheng did not know.

In addition, he had made some arrangements in the meeting room in advance to prevent Liu Mansha from sensing the fluctuations of the true hair. It was not only soundproof and shielded. If a conflict really broke out, the array that Xia ruofei had set up with the Jade talismans was enough to trap them for a few minutes.

With such a time difference, Xia ruofei could easily pick up Song Wei and Ling Qingxue and escape Xuanji by airboat. He had already let Song Wei and Ling Qingxue to the Shangri - La hotel, but they were just staying in Xia ruofei's room. If there was a conflict, Xia ruofei could drive the airboat and pick them up from the window on the side of the outer wall. There was more than enough time.

With so many arrangements, Xia ruofei had some confidence.

Since he was destined to be unable to hide it, he might as well get straight to the point.

Chen Xuan and the rest did not immediately understand what Xia ruofei meant.

Xia ruofei, on the other hand, took out token number one from the stone chamber in the mountain sea realm with a thought. At the same time, he wrapped the token with a layer of mind power, completely isolating the token from the outside world.

Seniors, brother Chen ... Xia ruofei said, actually, there's a token in the storage spiritual treasure that my master gave me. The number is one. It's just that my cultivation level was too low before, so I couldn't open this storage magic treasure at all. I only managed to open the storage magic treasure that my master gave me because I had a breakthrough in my cultivation level recently. In the end, there's only this number one token inside.

Chapter 3138 Floating point image (1)

Xia ruofei had already heard about the changes in the token from master Yuntai, so he was not as surprised as Chen Xuan and the others.

Of course, it was also the first time he saw the tokens put together, but his attention was more on the Fuyu point that Yuntai scholar had mentioned.

Xia ruofei didn't see the floating point that Yuntai scholar had mentioned on the side of the token. He thought that the floating point should be on the back.

Everyone's attention was attracted by the changes in the token. A huge surprise had filled their hearts for so many years. In order to study the five sacred tokens, the three sects had invested a lot of manpower and resources, but there had been no progress at all. Today, they finally saw the light of hope.

Staying the same was the most despairing thing, as change meant new opportunities.

Mu Sheng kept staring at the token, as if trying to recall something.

Suddenly, he pointed at the token and shouted, "Rising Dragon ... Rising Dragon ... Could this be the rising Dragon Token?"

Chen Xuan and Liu Mansha's faces lit up with joy upon hearing this. Liu Mansha hurriedly asked, "Sect leader mu, do you know the origin of this token?"

Xia ruofei couldn't help but be surprised. It was the first time he heard someone other than the layman of the cloud platform call the five sacred writs "Rising Dragon writs". He couldn't help but look forward to it. After all, the layman of the cloud platform didn't know much about the rising Dragon writs. In the early days, his cultivation was too low, so he wasn't qualified to participate in the study of the rising Dragon writs. It would be great if Mu Sheng could learn more about the rising Dragon writs from other channels.

"I'm afraid everyone will be disappointed," Mu Sheng said. "I don't know much about the rising Dragon Order. I can't even be sure if this is the rising Dragon Order ..."

Mu Sheng paused for a moment and said, "Actually, I saw it in a remnant of an ancient book. However, the description of the rising Dragon Order in the remnant of the book was only a few words. It said that 'the leaders of the five sects gathered at the flying dragon Peak to study the rising Dragon Order'. I only just saw the two words 'Rising Dragon' on the token and tried my best to recall that there was such a sentence in the ancient records ..."

Liu Mansha couldn't help but feel a little disappointed when she heard this. She couldn't help but ask, "Sect leader mu, think about it carefully. Is that really the only thing you said?"

In fact, Liu Mansha was also confused because she was too concerned. Mu Sheng was a veteran golden core cultivator and basically had a photographic memory. He was not like ordinary people in the secular world, whose memory would become blurry after a long time. Perhaps his impression would become a little shallow, but as long as he tried to recall it seriously, he would definitely not remember wrongly. Since he said that there was only one sentence, he was basically sure that there was no more content.

Mu Sheng smiled bitterly and said, "Valley master Liu, I'm not old and muddle-headed. My memory isn't so messed up. I'm very sure that the record about the rising Dragon Order in the ancient book only has this sentence." If Valley Head Liu doesn't believe me, I can even contact the sect immediately and have someone send the fragment of the ancient record to the three mountains. "

Liu Mansha couldn't help but feel a little embarrassed. She quickly said, "Sect leader mu, you've misunderstood me. I didn't mean it that way ..."

Xia ruofei and Chen Xuan were considered the younger generation, so they would not get involved in this.

Xia ruofei thought for a while and said, "I feel that regardless of whether this thing is called the five Holy Order or the rising Dragon Order, let's first take a look at what's so special about this combined order!"

Xia ruofei's suggestion was agreed upon by everyone.

Liu Mansha even cast a grateful look at Xia ruofei to urge him to change the topic and help her out of her predicament.

The token was a little bigger than an adult's palm, and there were only two embossed words "Rising Dragon" on this side. Other than that, there were no patterns or anything else.

These two words were written in seal script. Just as Liu Mansha had said, the strokes were vigorous and powerful. If one paid close attention, one could even feel the imposing aura coming from it.

It could be said that just these two words were enough to show that the token that was formed was extraordinary.

However, the two words 'Rising Dragon' were only full of vigor. Other than that, everyone could not see anything special about it, let alone discovering the legendary secret of the complete ancient cultivator relic.

Xia ruofei naturally picked up the rising Dragon Token on the conference table. He pretended to look at the front and then turned it over.

When the densely packed Floating Points on the back of the card were presented in front of him, he could not help but narrow his eyes, and a hint of surprise flashed in his eyes.

The floating Points that scholar Yuntai said would change once every 50 years were all distributed on the back.

Chen Xuan and the rest were also looking at the rising Dragon Token. Hence, after Xia ruofei flipped through the scroll, everyone was naturally attracted to the floating Points.

"Senior Yuntai ..." Xia ruofei tried to use his spiritual power to directly communicate with layman dan tai in the mysterious ore space in the cave of the mountain sea realm in the spirit map space.

However, there was no sound. It was obvious that this seclusion madman was still in deep seclusion, completely isolated from the outside world.

Xia ruofei really couldn't understand it. In fact, scholar Yuntai was already a wisp of soul without a body. What was the use of closed – door cultivation all day?

Originally, he wanted to let layman Yuntai see this floating point pattern, but since he couldn't contact him, he had to give up.

Xia ruofei looked at the floating Points on the back of the rising Dragon Order. The floating Points almost covered the entire back of the order. They were so dense that he could not see any pattern. If someone with trypophobia saw such a pattern, he would probably have goosebumps all over his body.

Chapter 3139 Floating point image (2)

Xia ruofei sat down at the conference table and placed the rising Dragon Token on the table with its back facing up.

Chen Xuan, Mu Sheng, and Liu Mansha came over to take a closer look at the Suan ni. The floating Points on the token were the most likely to contain the secret of the rising Dragon Order. Other than the two words, there were no other decorative patterns carved on the other parts. Thus, everyone's attention was naturally placed on these Floating Points.

Xia ruofei carefully reached out his hand and was about to touch the floating Points ...

Xia ruofei had already heard about the changes in the token from master Yuntai, so he was not as surprised as Chen Xuan and the others.

Of course, it was also the first time he saw the tokens put together, but his attention was more on the Fuyu point that Yuntai scholar had mentioned.

Xia ruofei reached out carefully and was about to touch the floating Points. Chen Xuan and the rest were also looking at the rising Dragon Token. After Xia ruofei flipped through the scroll, everyone was naturally attracted to the floating Points. "Senior Yuntai ..." Xia ruofei tried to use his spiritual power to directly communicate with layman dan tai in the mysterious ore space in the cave of the mountain sea realm in the spirit map space.

However, there was no sound. It was obvious that this seclusion madman was still in deep seclusion, completely isolated from the outside world.

Xia ruofei really couldn't understand it. In fact, scholar Yuntai was already a wisp of soul without a body. What was the use of closed – door cultivation all day?

Originally, he wanted to let layman Yuntai see this floating point pattern, but since he couldn't contact him, he had to give up.

Xia ruofei looked at the floating Points on the back of the rising Dragon Order. The floating Points almost covered the entire back of the order. They were so dense that he could not see any pattern. If someone with trypophobia saw such a pattern, he would probably have goosebumps all over his body.

Xia ruofei sat down at the conference table and placed the rising Dragon Token on the table with its back facing up.

Chen Xuan, Mu Sheng, and Liu Mansha came over to take a closer look at the Suan ni. The floating Points on the token were the most likely to contain the secret of the rising Dragon Order. Other than the

two words, there were no other decorative patterns carved on the other parts. Thus, everyone's attention was naturally placed on these Floating Points.

Xia ruofei carefully reached out his hand and was about to touch the floating Points ...

Chapter 3140 Breakthrough point?_

Mu Sheng also stroked his beard and laughed."Nephew Chen is right. We didn't have any clue before. But now, at least we have a research direction."

Liu Mansha's expression was somewhat excited as she said,"Fellow Daoist Xia's discovery has indeed allowed us to take a big step towards the truth! If we continue to research in this direction, we might be able to make a breakthrough soon!"

Xia ruofei saw how excited everyone was and wanted to pour cold water on them.

The black dots on the surface of the floating point sphere might be undetectable to ordinary people, but under the detection of a cultivator's spiritual power, they were completely undetectable. Xia ruofei didn't believe that the nascent soul or even the immortal soul Stage cultivators in the ancient cultivation world wouldn't notice it.

Such an obvious clue, yet they were unable to make any substantial discoveries. What did this mean?

It meant that it would not be easy to decipher the content of the floating point.

Furthermore, Xia ruofei had some basic knowledge of cryptography during his military service. From a cryptography point of view, even if Xia ruofei's guess was correct, each floating point represented a word. The black spots on the surface of the floating Points corresponded to different words according to the style of the different sections. It was extremely difficult to decipher the meaning of the floating Points based on these.

Over three thousand Floating Points were equivalent to over three thousand samples.

And some of them were repeated.

They could start with these repeated Floating Points and list out the possible words. Then, they could make an arrangement according to the level of the possibility and replace these Floating Points with the corresponding words. Then, together with the context, they could deduce the words represented by the other Floating Points.

This was a process of constant trial and error and constant trial and error.

In theory, the first step was the most difficult. As more and more Floating Points were deciphered, the speed of cracking the later steps would also become faster and faster. This was because there would be more Floating Points converted into context as a reference.

No matter what, the amount of calculation required was an astronomical figure.

Xia ruofei made some speculations and finally understood why the ancient cultivation world had been unable to produce any results after 50 years of research.

“Two seniors, brother Chen, I’m afraid things aren’t as simple as they seem. There are countless possibilities to deduce the content of more than 3000 words from these Floating Points alone. To try all of these possibilities, it might take decades. ”

Mu Sheng found it unbelievable and said,“”Little brother Xia, I don’t think it’s that exaggerated! It’s only a total of three thousand plus Floating Points!”

Mu Sheng thought from the perspective of a golden core stage cultivator. Because they had strong spiritual power and high brain development, their thinking speed was much faster than ordinary people. He felt that it wouldn’t take long to try it word by word.

Three to five years would be the maximum!

How could it be impossible to complete it in decades?

Xia ruofei smiled and said,“sect leader mu, let me give you an example.” Currently, there are about two to three thousand Chinese characters that are commonly used. If it is the ones that are used more frequently, there are at least one to two hundred of them. In other words, even if he only checked for high – frequency Chinese characters, there were one to two hundred possibilities for these Floating Points that had appeared many times. And for every single floating point deciphered, we will have to multiply it by two to three thousand. In addition, we will have to take into account the age of this token and the difference between the words of that time and the words of today ... The final amount of calculation may be beyond our imagination!”

“Uncle mu, brother Xia is right,” Chen Xuan added. I’ve heard that some organizations in the secular world that study code – cracking use super – computers with extremely fast computing speed to do their work because it’s completely human ...”

Suddenly, Chen Xuan stopped and looked at Xia ruofei. Both of their eyes lit up and they shouted in unison,“”Supercomputers!”

“What chicken? Wasn’t chicken supposed to be eaten? How can you help us solve the secret of the token?” Mu Sheng was confused.

Mu Sheng did not know much about the secular world, and he was not interested in modern technology.

In comparison, his son Mu Jianfei was still a young man, so he was more or less familiar with the secular world.

Seeing his father’s confused look, mu Jianfei couldn’t help but cover his face. He raised his head and said helplessly,“”Father, it’s a supercomputer. It’s a piece of technological equipment from the secular world. It’s not like the chicken you usually cook.”

Xia ruofei explained briefly and said,“Sect leader mu, a supercomputer is an advanced machine that can replace human beings to perform some complicated calculations. Its biggest feature is its large data storage capacity and its computing speed far exceeds that of the human brain. Take our Huaxia ‘s’ godly light of Taihu territory ‘supercomputer as an example. It can complete an average of 930 million calculations per second, and its fastest speed can reach 1.25 billion calculations. No matter how strong a cultivator’s spiritual power is, it’s impossible for them to do this. ”

Mu Sheng was dumbfounded and said, ""A trillion times ..."

Actually, Xia ruofei's explanation was not very accurate, but it was very direct. It allowed Mu Sheng and Liu Mansha to understand the huge advantage of supercomputers over the human brain.

In fact, supercomputers were not meant to be compared with the human brain at all because they were not on the same order of magnitude.

Chen Xuan said excitedly, "brother Xia, it might really be possible!" If we were to calculate the text represented by each floating point bit by bit, we might not be able to complete it even if we worked hard for our entire lives. However, if we were to hand it over to a supercomputer, it would definitely be much faster!"
