### Chapter 3171 A national treasure (1)

Ling Qingxue smiled at Song Wei and said to Xia ruofei, ""Ruofei, it seems that the quality of your fans this year is very high!"

Xia ruofei glanced at Ling Qingxue and said, ""Don't say that ... I'm not a celebrity, why would I have fans!"

"Director Xia, you're really not worse than those young hunks!" Deputy Director Wei quickly said. I see that my daughter has joined your Tieba and group. Oh! They're called the fan club ..."

Ling Qingxue burst out laughing and said, ""It seems like the culture of the fan club is deeply rooted in people's hearts ..."

It was the first time Xia ruofei had encountered such a situation. He had met his fans before, but it was a little awkward to meet his fan's father.

He thought for a moment and said, "director Wei, since we're fated to meet, I'll give your daughter a small gift!" It's just a small token of my appreciation to her for supporting me!"

Deputy Director Wei looked happy when he heard this and said, ""Can I really? President Xia, if I really bring your gift back to my daughter, I'm sure my status in the family will rise! Hahaha ..."

Song Wei and Ling Qingxue couldn't help but laugh when they heard this. They covered their mouths and laughed.

Xia ruofei always carried a small satchel with him. He pondered for a while and reached into the satchel. Then, he took out a set of beautifully packaged jade skin ointment. It was a high – end jade bone ice Skin Series.

In addition to the skin code series, which sold only 300 bottles a year and cost as much as 150000 euros, the jade skin cream was sold in three grades: the 588 – Yuan Snow series, the 1888 – Yuan congealing fat series, and the 3888 – Yuan jade ice Skin Series.

Xia ruofei had kept some of his company's best products in his personal space so that he could use them whenever he needed them.

Although there was no limit to the three grades of Jade skin cream sold normally, because of its excellent effect and its explosive reputation, and the production capacity of the pharmaceutical factory had always been unable to keep up with the demand, they still needed to Pre – Order and rush up.

The scalpers on the idfish platform increased the price. Even the price of the snow series could be raised to 1500 – 1600, which was basically three times the price.

The lesser in quantity, the cream Series and the most expensive Jade bone ice Skin Series, were even more difficult to buy.

Hence, Xia ruofei's Jade skin cream was a very good gift.

Perhaps it was his daughter's influence, but Deputy Director Wei obviously knew about the Paradise corporation's well – known fist product. He glanced at the four artistic words 'Jade bone ice skin' floating on the packaging box and couldn't help but Twitch his eyelids. He quickly said, "President Xia, you can't do this! This gift is too expensive, I can't accept it!"

He had heard from his daughter yesterday that the Jade bone ice skin was worth more than ten thousand Yuan on idle fish.

Although he was the Deputy Director of the supercomputer Center, he was still a bit reluctant to spend tens of thousands of Yuan on a set of cosmetics for his wife and child.

Xia ruofei laughed and said, "it's our company's own product. We don't need to spend money. It's not expensive at all." Deputy Director Wei, besides ... I'm giving this to your daughter, not you. How can you help her reject it?"

Before Deputy Director Wei could react, Xia ruofei said, "I seem to have registered a Tieba account too, and I'm even an Honorary Moderator! If you don't accept it, I'll just post on Tieba and say that the Deputy Director of the Supercomputing Center, Wei, is a clean – cut guy. He firmly rejected the set of Jade skin cream I asked him to give to his daughter. I think ... Your daughter should be on that Tieba often, right? If she sees ..."

"Don 't!" Deputy Director Wei quickly said, "President Xia, you're checkmating me! If you really do that, my daughter won't even let me into the house ..."

Xia ruofei looked at Deputy Director Wei with a smile and didn't speak.

Deputy Director Wei smiled bitterly and said, "I'll take it! I'll accept it, alright? President Xia, I'm convinced! No wonder so many fans like you. You're too good to your fans ..."

Xia ruofei laughed. He was about to hand the jaded skin ointment to Deputy Director Wei, but he thought about it and took it back. He asked, "By the way, Deputy Director Wei, what's your daughter's name? I'll write her a few words! Isn't that more meaningful?"

"Yes, yes, yes!" Deputy Director Wei quickly said, "President Xia, in front of my daughter, your words are more important than mine! Oh ... My daughter's name is Wei Xue! Snow as in snow!"

Xia ruofei nodded. He took out a pen from his bag and tore open the outer layer of the jaded skin ointment. After opening the lid, he found a card in the box.

This beautifully printed card had the picture and text introduction of the product. At the same time, there was also a lot of blank space reserved. If it was a gift to someone, it was just enough to write some words of blessing.

"President Xia, this way, please!" Deputy Director Wei quickly said. This way, please! Sit down and write!"

Deputy Director Wei led Xia ruofei to the long bench at the side of the hall and sat down.

Xia ruofei took the pen and wrote down a line of words in a flamboyant manner.

Wei Xue:

I hope you can study hard and become a useful talent for society. I wish you all the best in your future life!

## Chapter 3172 The nation's treasure (2)

The signature was "Xia ruofei". Any fan of Xia ruofei would be familiar with it.

Xia ruofei carefully dried the ink and put the card into the Jade skin cream box. Then, he stood up and handed it to Deputy Director Wei.

Deputy Director Wei took the heavy gift with both hands and said with a grateful expression, "President Xia, thank you so much!"

He had seen the two sentences that Xia ruofei had written. He was sure that these simple and honest words would be a great encouragement to his daughter.

Of course, his daughter was also quite well – behaved, so he didn't have to worry too much about her academic performance.

But who wouldn't want their own children to be better?

Xia ruofei smiled and said, "it's nothing. You're welcome, director Wei!"

Deputy Director Wei thought for a while and asked carefully, "By the way, President Xia, can I take a picture with you?"

After he finished, he immediately explained, "Our Supercomputing Center is a secret unit. Under normal circumstances, family members are not allowed in. I'm helping my daughter fulfill her wish ..."

Xia ruofei didn't know whether to laugh or cry. It was rare to see someone helping their daughter chase a star.

However, Deputy Director Wei's request was not too much, so Xia ruofei naturally would not reject it. He smiled and nodded. "Of course, no problem! However, your Center is a confidential unit ..."

"Oh, oh! The hall was fine! It's mainly because the management of the computer room is more strict!" Deputy Chief Wei quickly said, "confidentiality management is also divided into regions! We can use our phones outside the computer room!"

After he finished speaking, Deputy Director Wei took out his phone, unlocked and opened the camera, and handed it to Ling Qingxue. "Can I trouble you to help me take a photo with President Xia?"

Ling Qingxue giggled and said, "no problem!" I love to help others! President Xia, quickly smile! This is a photo for your fans to see!"

Xia ruofei looked at Ling Qingxue helplessly and showed a smile.

Deputy Director Wei quickly stood beside Xia ruofei. He looked a little reserved, but the overall photo – taking effect was not bad.

Xia ruofei even saw Song Wei taking a photo from a similar angle as Ling Qingxue.

“Thank you! Thank you!” Deputy Director Wei held Xia ruofei’s hand tightly and expressed his sincere gratitude.

“You’re welcome, director Wei!” Xia ruofei smiled.

“By the way, director Xia, I’ll show you around the computer room!” Director Wei quickly said. That’s the core of our Supercomputing Center!”

“Alright! I’ve long admired the famous light of Taihu territory, which is an important weapon of the country! It’s my honor to be able to see its true appearance in person!” Xia ruofei said.

Therefore, Deputy Director Wei brought Xia ruofei and the other two to the elevator and went to the third floor. The famous supercomputer, the light of Taihu territory, was located on this floor.

Such an important weapon of the country was naturally heavily guarded.

First of all, the elevator to the computer room floor required a card. If it wasn’t for Deputy Director Wei’s card, Xia ruofei and the others wouldn’t have been able to take the elevator up.

Naturally, the three – story staircase was also one – way locked. It would not affect the escape in an emergency, but it could prevent others from entering this important floor from the stairs.

After getting out of the elevator, they also had to face heavy inspections when they entered the computer room. Moreover, mobile phones were not allowed to be brought into the computer room. They had to be left outside and placed in a metal – shielded cabinet.

The people brought by Deputy Director Wei were no exception.

He took the three of their identification cards and went to register the visitors personally.

Xia ruofei and the rest took out their phones and were about to put them away.

At this moment, Xia ruofei heard a WeChat notification ring on his phone. He picked it up and saw that it was a message from Song Wei.

Xia ruofei could not help but turn to look at Song Wei.

“I’ll send you the photo I took just now!” Song Wei said with a smile.

“Oh!” Xia ruofei unlocked his phone and opened WeChat.

Sure enough, Song Wei had sent him the photo of him and Deputy Director Wei in the living room. The words “new Wu Supercomputer Center” could be seen on the wall behind them.

Xia ruofei looked at the photo. He and Deputy Director Wei both had pretty good expressions. They didn’t frown or close their eyes, so this photo was definitely up to standard.

He remembered that he hadn’t updated his Weibo for a while. Also, Deputy Director Wei had just said that the lobby downstairs wasn’t a secret area. Since the photos could be taken with an internet phone, they could naturally be posted online.

Those celebrities would have to choose from many photos and Photoshop them. Xia ruofei naturally did not need that.

After he started cultivating, his skin was so good that even girls would be envious of it. As for wrinkles and dark circles, they naturally wouldn't appear on his face.

Moreover, his figure was also quite standard, and he had a trace of the unique temperament of a cultivator. He was naturally quite good, so there was no need to Photoshop it!

Hence, Xia ruofei saved the original picture and opened the Weibo app. After adding the picture, he wrote a few words:

Today, I was fortunate enough to visit new Wu's National Supercomputer Center and see the world's top national treasure, the "divine power" light of Taihu territory. I only have five words to say, "the" divine power "is amazing, my country!"

After checking the grammar and typos, Xia ruofei pressed the "publish" button.

Xia ruofei didn't care what kind of discussion his new Weibo post would cause. After he posted, he put his phone back into the signal cabinet and put the key in his pocket.

The cell phone cabinet was divided into many small grids, and each grid had its own door. After putting the cell phone in it, it could be locked separately and the key could be kept by itself.

At this time, Deputy Director Wei had also completed the procedures. He walked over and locked his phone in the screen cabinet. Then, he smiled and said, "President Xia, you've been waiting for a long time, you can go in now! Please come in!"

Under the guidance of Deputy Director Wei, Xia ruofei and the other two changed into their shoe covers at the door and entered the computer room that housed the light of Taihu territory.

Deputy Director Wei explained, "director Xia, this computer room is 605 square meters in total. There are 20 computer cabinets and storage cabinets on both sides of the front. The row in the middle is the network system cabinet ..."

Xia ruofei looked in the direction of Deputy Director Wei's finger and said in surprise, "The famous light of Taihu territory only takes up so little space?"

Deputy Director Wei laughed and said, "Household laptops these days are already super ultra thin and small, and some tablets are even more portable to the extreme. The divine power engine light of Taihu territory is also a computer in essence! It's already very exaggerated to occupy such a large room!"

"That's true ..." Xia ruofei said as he watched.

Deputy Director Wei brought Xia ruofei and the others to a cabinet and said loudly through the metal grid, "This is our computer cabinet!"

The noise was very loud when he got close to the equipment cabinet, so Deputy Director Wei couldn't help but increase his voice.

Deputy Director Wei pointed at the cabinet in front of him, which was slightly larger than a double-door domestic refrigerator, and said, "Mr. Xia, each cabinet has four super-node units. Each super-node unit is made up of 32 computing plug-ins, and each computing plug-in contains four computing node boards. Each computing node has two high-performance 'Shenwei 26010' processors!"

Xia ruofei calculated silently and said, "Director Wei, does this mean that this equipment cabinet alone has 1024 processors?"

"Yes, I am!" Deputy Director Wei said, "there are a total of 40 equipment cabinets like this!"

...

"That's a total of 40960 processors!" Xia ruofei was speechless.

"That's right!" Deputy Chief Wei nodded. President Xia, this 'Shenwei 26010' processor is a processor that was completely independently developed by our country after the UA issued a chip ban on United States! Each processor has 260 cores ..."

Xia ruofei laughed and did some quick calculations. He then said, "That is to say, right now, in front of us, is actually a computer with 10649600 cores! Am I right?"

Chapter 3173 Fan\_

Deputy Chief Wei was slightly stunned when he heard this. Then, he laughed and said, "In a sense, you can say that."

Xia ruofei's comparison was not accurate, but it was easy to understand. Everyone's home computer CPU was based on the number of cores. The comparison of more than 100000 cores was indeed shocking.

As expected, Ling Qingxue couldn't help but say, "That's amazing!"

Deputy Director Wei smiled and said, "the peak performance of the light of Taihu territory reaches 125.436 pflpos, ranking third in the world. Its continuous performance is 93.015 pflpos, ranking first in the world. At the same time, its performance and power consumption ratio is also ranked first in the world." At the 2016 Frankfurt world supercomputer conference, our light of Taihu territory supercomputer system topped the list. It's almost twice as fast as Tianhe -2, which is in second place, and its efficiency is three times higher. "

As the world's top supercomputer, the light of Taihu territory had indeed brought glory to the country of Wei. Therefore, Deputy Director Wei was also very familiar with this data.

"Our scientific and technological workers are really amazing!" Xia ruofei looked at the neatly arranged equipment cabinets in front of him and said sincerely.

Xia ruofei had learned a lot about supercomputers during this period of time. Therefore, he was naturally very interested in the world – leading supercomputer in front of him. He pulled Deputy Director Wei along and started discussing the system architecture diagram on the wall of the computer room.

Deputy Director Wei wasn't a pure technical staff. His knowledge in the field of supercomputing was only enough to introduce the results to the audience. Therefore, when faced with more professional and in – depth questions, he seemed to be a bit beyond his power.

Hence, he called one of the staff over and asked him to talk to Xia ruofei.

Xia ruofei stayed in the engine room for a few hours and still wanted more.

However, he didn't want to affect other people's work. Besides, he didn't know how Wang Chi was doing. If he stayed in the computer room for too long, it wouldn't be good to let the old academician wait for him.

Hence, Xia ruofei expressed his gratitude to the person on duty and left the engine room.

The person on duty and Deputy Director Wei were a few steps behind Xia ruofei and the other two. The person on duty could not help but ask in a low voice, "Director Wei, which school is this scholar from? He's so young!"

Deputy Director Wei did not know whether to laugh or cry. "You've misjudged! He's not a scholar, don't you think he looks familiar?"

"I don't think so!" The on-duty officer was confused. "Director, could it be an expert who has returned from abroad?" I don't think I've seen this person before!"

Deputy Director Wei knew the workers on duty very well. He knew that many of them did not care about entertainment news, let alone the cosmetics industry, so he did not find it too strange.

"He's the chairman of the peach blossom company, Xia ruofei, CEO Xia. Have you never heard of him?"

"Chairman?" The staff on duty said in surprise, "he's really not an academic? Then his professional Foundation was too solid! I thought we were in the same field ... Director, Xia ruofei ... This name sounds familiar!"

"You can search for it online when you have time," Deputy Director Wei said with a smile.

He patted the Guard's shoulder and quickly chased after Xia ruofei and the other two.

The staff on duty walked out of the computer room with a confused expression. At this time, Xia ruofei and the other two, accompanied by Deputy Director Wei, had already taken off their shoe covers, retrieved their phones from the screening cabinet, and went to visit other places.

The guard took out his phone from the cell phone screen cabinet and searched for Xia ruofei's information.

After a long while, the guard couldn't help but shout, "Damn ... That's really 666!"

There were many bosses who were richer than Xia ruofei in China. There were many more celebrities who were more popular than Xia ruofei. After all, Xia ruofei was not in the entertainment industry and never created hype. However, it was rare to see a rich, handsome, and popular Chairman like Xia ruofei. Such a winner in life who knew so much about supercomputers was like a fairy tale.

.....

Deputy Director Wei accompanied Xia ruofei on a tour of the Supercomputing Center's other facilities. However, after a while, the phone in his pocket vibrated.

Deputy Director Wei took it out and saw that it was his daughter, Wei Xue. He frowned slightly. It was working hours now, and he was accompanying a guest on a tour, so it was naturally not convenient for him to answer the phone.

After hesitating for a while, Deputy Director Wei chose to hang up the phone.

However, just as he was about to put his phone back into his pocket, he saw a notification on the lock screen. There were 18 missed calls and more than 10 unread WeChat messages.

When he came out of the computer room just now, Deputy Director Wei took out his phone from the screen cabinet. He didn't check it and just put it in his pocket.

That was why he had only just realized that he had so many missed calls.

In addition, his daughter had called him just now. Deputy Director Wei immediately became nervous. Could something have happened at home?

His mother had always been in poor health, and her legs were not very convenient. He was worried that his mother had fallen at home.

Under such circumstances, Deputy Director Wei could not care about anything else. He quickly said to Xia ruofei, ""President Xia, I'm sorry. I have something to do at home, so I have to make a call ..."

"Please go ahead, director Wei!" Xia ruofei pointed at the long chairs along the corridor and smiled. "We're tired from walking, so we'll sit down and rest for a while."

Chapter 3174 Fan\_

"Alright, alright!" Deputy Director Wei said, "I'm sorry!"

Then, he took his phone and walked to the side. When he opened the screen, he saw that all the missed calls were from his daughter, Wei Xue.

This made Deputy Director Wei even more nervous, and he quickly called his daughter back with trembling hands.

The other end of the line only rang once before it was picked up. Wei Xue's tone was urgent, "Dad! You've finally called me back!"

"Xiaoxue! What happened?" Deputy Chief Wei asked in a trembling voice, "could it be that something happened to your grandmother?"

"Grandma?" Wei Xue asked curiously, "grandma is perfectly fine at home! What could have happened?"

Deputy Director Wei heaved a long sigh of relief and said, ""I thought something bad had happened! Why are you calling me so many times?"

"I said that grandma is fine, I didn't say that I'm looking for you!" Wei Xue mumbled.

"What's the matter? For you to call me ten to twenty times in such a short time?" Deputy Director Wei said impatiently, "hurry up and tell me! I'm still at work!"

Since his old mother was fine, Deputy Director Wei was not too worried, because he felt that there would not be any major problems at home.

“Dad!” Wei Xue said. Is our overbearing President visiting your office?”

Xia ruofei’s fans liked to call him “overbearing President”, even if he had never been a President before. To be exact, he was the chairman, a position higher than Feng Jing ‘s. However, the fans felt that this title was more domineering.

“What overbearing President?” asked Deputy Director Wei. You’ve read too many nonsensical novels, right?”

“Don’t play dumb! It’s Xia ruofei, President Xia!” Wei Xue said, “be honest! Don’t hide it! I’ve seen the photos ...”

Only then did Deputy Director Wei react. He looked up at Xia ruofei, who was chatting softly with two of his female friends. He asked curiously, “You little girl ... Why are you so well – informed?”

Wei Xue said proudly, “Didn’t I tell you?” I’ve seen the photos! Dad! The photo of you and our overbearing President has been spreading like crazy in our fan group! I have to say ... President Xia’s handsomeness still needs to be complemented, and you’re the best foil ...”

“What the hell is this nonsense?” asked Deputy Director Wei. Is there anyone who talks about their own father like that? You wretched girl ... Wait! What picture? A photo of me and President Xia?”

“Yeah! It’s from CEO Xia’s Weibo!” Wei Xue said, “we have someone who specifically keeps an eye on President Xia’s Weibo and saw it immediately. Wow! I can’t believe that President Xia actually came to new Wu, and what’s even more unbelievable is that my dad actually appeared in President Xia’s photo ... It’s like a dream!”

Deputy Director Wei was confused. He had used his own phone and asked Ling Qingxue to take the group photo. After taking the photo, he locked his phone in the shielded cabinet and brought his people into the computer room.

Why did that photo appear on Xia ruofei’s Weibo?

Deputy Director Wei tried his best to recall. He vaguely remembered that Xia ruofei’s other female companion was standing beside Ling Qingxue and had also taken a photo with her phone ...

He could vaguely guess the sequence of events and could not help but reveal a bitter smile.

Originally, he wanted to give his daughter the group photo and the jade skin cream as a surprise gift! Now, the surprise was gone. Instead, he was shocked. When he saw the 18 missed calls, his heart almost jumped out of his chest. He really thought that something had happened to his old mother.

“Dad! Dad!” Wei Xue’s voice interrupted his thoughts. “Did you hear what I said?”

Deputy Director Wei came back to his senses and said, “What? What did you just say?”

"I said I want to come to your unit!" Wei Xue said, "it's not easy for President Xia to come to new Wu. I have to fight to see him. If I miss this opportunity, I will definitely not have another chance in the future!"

Deputy Director Wei subconsciously shouted, "no!" This was simply nonsense! This is a confidential unit. Is it something a child like you can just come and go as you please?"

"I don't care!" Wei Xue acted coquettishly, "dad! Just help me! I know you're a confidential unit, but I'm not going into the computer room. Can't I just stay in the yard for a while? Dad ..."

Wei Xue dragged out the last syllable. Her coy voice gave Deputy Director Wei goosebumps. He quickly said, "There's no room for discussion! Don't even think about it ... By the way, don't you fans have an organization in new Wu? I'm telling you, you can't come to our unit! It would be terrible if he chased his idol all the way to the confidential unit! Be careful or you'll all be caught! Xiaoxue, you and your friends have to make it clear, this is not a joke!"

"Oh ..." Wei Xue also knew that there was probably no room for discussion about this matter. Her mood suddenly became a lot lower. She pouted and said, "I understand ..."

Deputy Chief Wei was slightly stunned when he heard this. Then, he laughed and said, "In a sense, you can say that."

Xia ruofei's comparison was not accurate, but it was easy to understand. Everyone's home computer CPU was based on the number of cores. The comparison of more than 100000 cores was indeed shocking.

As expected, Ling Qingxue couldn't help but say, "That's amazing!"

"Chairman?" The staff on duty said in surprise, "he's really not an academic? Then his professional Foundation was too solid! I thought we were in the same field ... Director, Xia ruofei ... This name sounds familiar!"

#### Chapter 3175 Rational star – chasing (1)

Deputy Director Wei was really worried that his daughter would come to the office. He was especially worried that her daughter would come with other fans in new Wu city. That would be a bad influence.

So, he asked director Zhong from the supercomputer Center general office to accompany Xia ruofei and the other two on the tour. Then, he put the jade skin ointment in a paper bag and left the unit in a hurry.

Deputy Director Wei's home wasn't too far from the Supercomputing Center, so he usually rode an electric bike to and from work. After getting his electric bike from the unit's car shed, he rode it back home anxiously.

As soon as Deputy Director Wei rode out of the park, he saw a few young people standing under the shade of a tree across the road. There were both boys and girls, but most of them were girls.

His daughter, Wei Xue, was wearing a long white dress. She stood in the crowd and often stood on her tiptoes to look into the park.

Deputy Director Wei was instantly enraged and glared at Wei Xue.

When the lights on the zebra crossing turned green, Deputy Director Wei immediately rode his electric bike across the road.

Before the car stopped, Deputy Director Wei shouted, "Wei Xue!"

Wei Xue didn't notice her father's arrival. When she heard the call, she couldn't help but tremble. When most people were called by their full names, it meant that their parents were extremely angry.

Wei Xue slowly turned around and forced a smile at Deputy Director Wei. She called out, "Dad! You ... Aren't you at work? Why did you come out?"

"If I didn't ask for leave soon, you're going to make a scene!" Deputy Director Wei said with a dark face.

The young boys and girls around Wei Xue seemed to have discovered a new world and surrounded her.

"Uncle, are you the one who took the photo with President Xia just now?"

"Uncle, is President Xia still inside?"

"So you're Wei Xue's father! Wei Xue, you hid the photo of your father and President Xia from us. You've really hidden it well!"

Xia ruofei's fans were all talking at once, and the noise made Deputy Director Wei's head swell.

He couldn't help but feel that new Wu city was really too small. It had only been an hour since Xia ruofei posted that Weibo post, and so many local fans had already rushed to the park.

Of course, the fans were just trying their luck because Xia ruofei's Weibo post might not have just happened. Many celebrities would not easily reveal their whereabouts in order to avoid being surrounded by fans.

However, Xia ruofei had never been so secretive. Besides, he was not really an entertainment star.

Besides, Xia ruofei's fans were more rational and cultured.

In addition to the new Wu Supercomputing Center, there were several high – tech companies in the park.

The Supercomputing Center was naturally a high – Level security unit.

However, the fans didn't even enter the gate of the park, which was relatively less guarded. They just looked around and waited on the other side of the road, let alone go to the entrance of the Supercomputing Center.

Although Deputy Director Wei was a little angry, he would not vent his anger on a group of children because of his daughter, Wei Xue.

So, he could only say, "children, go home!" Don't crowd around here!"

"Uncle! We won't disturb you, President Xia. We'll just watch from a distance ..."

"Yup! Uncle, we're not crazy fans! President Xia's fans were all rational fans! We would never do such stupid things!"

Xia ruofei's fans said.

Deputy Chief Wei was also helpless about this. He could not control other people's children!

However, even if she couldn't discipline other people's children, she still had to discipline her own children.

Therefore, Deputy Director Wei still looked at his daughter Wei Xue and said sternly, "Wei Xue! Come home with me!"

"I'm not going back, I haven't seen President Xia yet ..." Wei Xue pouted.

"What are you looking at, President Xia! Come home with me immediately!" Deputy Director Wei said with a dark expression.

"Dad ..." Wei Xue looked at her father with pleading eyes.

Deputy Director Wei's heart softened, and he said in a gentler tone, "Little Xue, come back with daddy! Also, the children should go back too! Don't wait here like a fool. I can tell you clearly that even if you wait for the whole night, you won't be able to see President Xia. Don't waste time here! All of you can go back!"

Deputy Director Wei knew that Xia ruofei would stay in the Supercomputing Center for the whole day and start using the supercomputer at 10 pm until the next morning. During this time, he would not leave the park.

Therefore, these fans were destined to wait in vain, unless they could wait here all night.

Wei Xue looked at her father and asked pitifully, "Dad! Really?"

"Xiaoxue, dad really didn't lie to you," said Vice Director Wei with a nod.

After he finished speaking, Deputy Director Wei winked at Wei Xue.

The tacit understanding between father and daughter was still very good. Wei Xue immediately realized that her father might have some things that were not convenient to say to her in front of everyone.

Thus, she pondered for a moment before unwillingly saying in a low voice, "Alright then! I ... I'll go home with you ..."

Wei Xue knew that her father had been busy with work recently and would definitely not be at home to look after her all the time. At most, she would just come over after he left!

Wei Xue stepped onto Deputy Director Wei's electric motorcycle under the urging of several other fans.

As for the other children, Deputy Director Wei naturally could not control them. He had already advised them, but they did not listen to him.

Deputy Director Wei rode on an electric scooter and drove his daughter to a house nearby.

On the way, Wei Xue impatiently asked, "Dad! What did you want to tell me just now? Why do you have to avoid the other fans?"

"We'll talk about it when we get home!" Said Deputy Director Wei in a muffled voice.

Wei Xue stuck out her tongue. She was quite dissatisfied with Deputy Director Wei's behavior of keeping her in suspense. However, she had no choice but to be patient until Deputy Director Wei led her into the house.

Wei Xue could not help but ask, "dad!" Can you tell me now? What's the matter?"

"Didn't I tell you not to come to my office when I called?" asked Vice Director Wei. Why are you so disobedient?"

Wei Xue blinked and said, "dad!" I didn't go to your office! I was just chatting with a few friends by the road! Besides, the entrance of the park is still far from your unit!"

Wei Xue mumbled the last sentence because she knew that it was a little forced.

Deputy Director Wei's eyes widened, and then he shook his head helplessly. "Xiao Xue, I just wanted to tell you that President Xia is indeed in our Supercomputing Center, but he will be in the center the entire night. He might not even come out tomorrow, so I didn't lie to you. You waiting there is completely in vain."

...

Wei Xue smiled and said, "it's okay!" This is the first time we're so close to our idol. As long as we're at the door, we feel closer to President Xia! As for whether we can see him in person ... Of course, it'd be best if we can see him. If we can't see him, he won't cry. We've already said that President Xia's fans are all rational fans!"

Deputy Director Wei found it hard to understand, but it was better for his daughter to maintain a certain level of rationality while chasing after stars than to become a crazy fan.

"Dad! What else do you want to tell me?" Wei Xue said, "I saw you giving me a look. Don't tell me that was just a stalling tactic!"

Deputy Director Wei scratched his head and said, ""How could I? I took a photo with President Xia, don't you want to see it?"

"What's so strange about that?" Wei Xue said, "it was posted on CEO Xia's Weibo. Everyone saw it! Is there anything special about your photo?"

Deputy Director Wei was suddenly at a loss for words. He thought about it and realized that there was indeed nothing special about the group photo. Even the angle of the shot was basically the same ...

He had wanted to use the photo as evidence to prevent his daughter from suspecting that his gift was fake.

Now that Xia ruofei had posted on Weibo, he didn't need to prove himself with the photos.

Therefore, Deputy Director Wei simply took out the paper bag and stuffed it into Wei Xue's hands. He said, ""Since you don't care about the photos, then take a look at this!"

"What is this?" Wei Xue asked.

"You'll know when you open it!" Deputy Director Wei said with a smile.

...

Wei Xue looked at her father and opened the paper bag.

“Jaded skin cream? It’s actually the jadeskin series!” Wei Xue couldn’t help but cry out.

As a qualified fan of Xia ruofei, Wei Xue knew all the products of paradise Corporation like the back of her hand, especially the jaded skin cream, which was a girl’s favorite. Thus, she could accurately recognize that it was the jaded bone ice Skin Series with a retail price of 3888 Yuan just by glancing at the outer packaging.

Wei Xue looked at her father in surprise and said with a smile, “Dad! I didn’t expect you to be so willing to spend money! But it’s not New Year’s Day today, and it’s not anyone’s birthday in our family! Why did you suddenly prepare a gift? And it’s such a precious gift!”

Although the jadeskin series had a retail price of 3888 Yuan, it was very difficult to get a hold of it every time, and the scalper price had already exceeded 10000 Yuan. Wei Xue did not think that her father would be able to get the jaded skin cream that was sold officially. If he were to buy it from a scalper, the price of more than 10000 Yuan was obviously a relatively extravagant consumption for a family like Deputy Director Wei’s.

“Why don’t you open it first?” Deputy Director Wei said with a smile.

Only then did Wei Xue realize that the outer layer of the jaded skin cream had been torn off. She could not help but Mutter in her heart, “Could it be a second – hand item that someone else had used?”

However, she still opened the box. The first thing that caught her eye was not the beautiful bottle of jaded skin ointment, but the thin card.

When she saw the words on the card, Wei Xue was slightly stunned. Then, she stuffed the box into Deputy Director Wei’s hands and picked up the card to look at it carefully.

Wei Xue did not even blink, afraid that she would miss a single detail.

There was a nervous and excited look on her face, and her eyelashes were trembling slightly.

After a long while, Wei Xue finally accepted this pleasant surprise that had descended from the sky. She could not help but shout, “Waa! It’s really a gift from President Xia! Did I receive a gift from President Xia? Dad! I’m not dreaming, right?”

Chapter 3176 An inspirational idol (1)

After Wei Xue cheered, she hugged Deputy Director Wei and kissed him on the cheek. She then said happily, “Dad! You’re really amazing. Not only did you get a gift from President Xia, but you also made him take the initiative to write me a blessing! I love you to death!”

Deputy Director Wei was stunned for a moment. He touched his cheek. He was not thinking about Xia ruofei’s gift but how long had it been since his daughter kissed him? It seemed that after her daughter entered junior high school, she had already learned to avoid it?

It was indeed very considerate to raise a daughter. However, sometimes, Deputy Director Wei envied the way foreigners got along with each other. Foreign parents could still enjoy the treatment of having their children touch or kiss their faces even if their children had already grown up. This was obviously contrary to Chinese tradition.

Come to think of it, it was all thanks to Xia ruofei? Deputy Chief Wei couldn't help but say in his heart.

"Dad! Thank you for everything you've done for me!" Wei Xue said, her eyes wide.

Deputy Director Wei recovered from his momentary daze and said,""Actually, I didn't do anything. President Xia heard that my daughter was his fan, so he took the initiative to give this gift. Even the words on the card were written by him. I really didn't say anything!"

Wei Xue nodded her head in agreement and said,"President Xia is such a person, he treats his fans very well! Otherwise, we wouldn't have supported and liked him so unconditionally!"

Deputy Director Wei thought about the short one to two hours he had spent with Xia ruofei. He made a comparison in his heart and felt that this young rich man was quite likable. At least he did not have the domineering attitude of a rich and powerful person. He was very easy – going.

There was no doubt that Xia ruofei was rich. Everyone in the country knew that.

As for the time when the power and power built the light of Taihu territory – it wasn't something that could be used just because you had money. There were so many universities and research institutes in the country – and many projects were waiting to use supercomputers! As the leader of the new Wu State Supercomputing Center, Deputy Director Wei knew how popular this supercomputer was.

Deputy Director Wei's thoughts wandered for a moment before he came back to his senses. He said,"President Xia is indeed a good person. He's an inspirational role model for young people. I don't object to liking a celebrity like him, but I'll still say the same thing. You can't affect your studies. You can't be like those brainless fans on the internet and do irrational things. Do you understand?"

Wei Xue looked at Xia ruofei's personally signed card with joy and said without even lifting her head,"I know! Dad! I've told you many times that President Xia's fans are rational fans of their idol. We've never done anything stupid. Look at the fans in new Wu city today, they're just quietly standing far away from the park. Everyone simply wants to be closer to their idol and doesn't want to disturb him. "

Deputy Director Wei nodded and said,""That's right! But you've already received a gift from President Xia, so don't go to the park anymore, understand? And I just said that President Xia won't leave the Supercomputing Center until tomorrow. You'll be waiting in vain if you go!"

Wei Xue actually wanted to go over. Even if she couldn't see Xia ruofei, she could at least be closer to him.

However, since Deputy Director Wei had given her such a big surprise today, she couldn't disobey him anymore. She could only pout and say,""Okay ... I know ..."

"You're an adult now, you have to keep your word!" Deputy Chief Wei said sternly,"dad still has to go back to work and can't watch over you all the time. But you have to be responsible for your promise, understand?"

“Dad!” Wei Xue looked up and said. Aren’t you underestimating me too much? Since I’ve promised you, I’ll definitely fulfill my promise! Don’t worry! I won’t go out today, I’ll just stay at home ...”

At this point, Wei Xue looked at the card in her hand and said happily, “There’s a personal message from President Xia. I can read it for a day!”

Deputy Director Wei did not know whether to laugh or cry. However, as long as his daughter promised not to go out, he would be able to worry less. Moreover, if Wei Xue stayed at home, even if she stared at the message card all day, at least she would not affect others! As long as it didn’t last long, it would affect his studies.

“I’ll remember your words!” Deputy Director Wei said, “be good and stay at home. I’m going back to the unit!”

Wei Xue raised her head and asked, “I’m so envious of you, dad!” You’ll be able to see President Xia again soon ...”

Deputy Director Wei did not know whether to laugh or cry. “I’m going to work! It’s not like I’m going to chase a star! Alright, I should go ...”

“Alright!” Wei Xue nodded.

Just as Deputy Director Wei was walking towards the door of his house, Wei Xue suddenly called out, “Dad, wait!”

Deputy Chief Wei stopped in his tracks and turned around to ask, “Little great aunt, what’s the matter now? I’m very busy with work, okay? I don’t have time to waste here ...”

Academician Wang was at the Supercomputing Center today. As a member of the Supercomputing Center, it wasn’t good for Deputy Director Wei to leave his post for a long time.

Wei Xue said in a sweet tone, “my dear father!” Can you do me another favor ...”

Deputy Director Wei suddenly felt goosebumps all over his body. He said, “What’s the matter? Speak properly! Let’s make it clear! I won’t agree to any unreasonable requests!”

Chapter 3177 An inspirational idol (2)

“Absolutely reasonable!” Wei Xue quickly said, “it’s just a small matter for you! I’ll definitely be of help!”

“Then hurry up and tell me!” Deputy Director Wei said impatiently.

Wei Xue quickly said, “that’s right ... We fans have prepared a love lunch box for President Xia, but we can’t enter the park, right?” So ... Can I ask my dearest dad to help me bring the lunchbox to President Xia? Please, please ...”

Wei Xue pulled on Deputy Director Wei’s sleeve as she spoke, looking pitiful.

Deputy Director Wei did not know whether to laugh or cry. “What the hell is this ... You’re treating your dad like a delivery man!”

“Dad! You’re the best to me ...” Wei Xue continued to act coquettishly, “just help me!” Everyone used the healthiest ingredients and carefully cooked it. It’s a lunchbox that has gathered the love of new Wu fans. Please help us bring it to President Xia ...”

Deputy Director Wei had no choice but to say, “Alright, alright! But I’ll make it clear first, I can help you bring it to director Xia. As for whether director Xia accepts it or eats it, I’m not responsible!”

Wei Xue was instantly overjoyed, “no problem!” No problem! You just need to help bring it in and hand it to President Xia personally! But ... You must say that this is a token of appreciation from the fans in new Wu city!”

“I know!” Deputy Chief Wei said, “you’ve been talking for so long. Where do you think you are?”

“He’s at the entrance of the park where his companions are!” Wei Xue quickly said, “why don’t ... You drive me there again?”

“You still want to go out?” Deputy Director Wei asked directly. What did you promise me just now? Wasn’t it just taking a lunchbox? Just contact them. When I ride past the entrance of the park, I’ll get it from them. You don’t have to go!”

Wei Xue was only giving it a try. She did not have much hope that her father would allow her to go to the entrance of the park again, so she was not too disappointed.

She smiled and said, “that’s fine!” I’ll contact them now! You can just go and get it directly!”

“En!” Deputy Director Wei said, “you’re fine now, right? Can I go now?”

“Farewell, father!” Wei Xue exclaimed exaggeratedly.

“You little girl ...” Deputy Chief Wei stretched out his finger and dotingly tapped Wei Xue’s forehead.

Deputy Director Wei hurried out, got on his electric bike, and rushed to the park where the Supercomputing Center was located.

From afar, he could see the group of Xia ruofei’s fans standing in the shade opposite the entrance of the park. There was no noise, no shouting, just standing there quietly.

When Deputy Director Wei rode his electric bike to the group of children, a girl in a white T – Shirt and jeans, who looked very clean and refreshing, immediately stood up and said, “Uncle Wei! Xiaoxue told us! Thank you very much for being willing to help!”

The others also expressed their gratitude to Deputy Director Wei.

Deputy Director Wei looked at this group of children who were about the same age as his daughter. They didn’t give off the craziness of fangirls. Instead, they gave him a sense of neatness, freshness, and upbringing.

“You’re welcome, it’s just a matter of convenience!” Deputy Director Wei said with a smile.

The girl in the White T – Shirt said, “it’s nothing to you, uncle, but it’s a big deal to us fans!” Uncle Wei, please convey our greetings to President Xia! Thank you!”

After she finished speaking, the girl took an exquisite light blue lunchbox from her companion and handed it to Deputy Director Wei.

Deputy Director Wei took the lunchbox and realized that it was still warm. Obviously, the vermicelli had been kept warm.

“Don’t worry,” he said. I’ll definitely bring it!”

After he finished speaking, Deputy Director Wei put the lunchbox into the basket in front of the electric bike.

He thought for a moment and said, “kids, I’d like to give you a piece of advice. Don’t stay here. As far as I know, President Xia will be in the supercomputer Center all night. He won’t come out.”

“Uncle Wei, Xiaoxue has already told us,” the girl in the White T – Shirt said with a smile. Don’t worry! We’ll be leaving soon, so you should get back to work! Don’t mind us. ”

Deputy Director Wei was helpless. He had already persuaded them, so there was nothing he could do if these children wanted to stay by his side.

So, he waved at Xia ruofei’s fans and rode his electric bike into the park, heading for the Supercomputing Center.

When he returned to the unit, Deputy Director Wei held the lunchbox in his hand and walked into the lobby to ask the security guard, “Where are director Zhong and the visiting guests?”

“Director Wei, they just returned to the reception room!” The security guard quickly said.

Deputy Department Director Wei nodded and walked toward the stairs.

There was a well – decorated reception room on the second floor of the supercomputer Center. This unit received many visitors every year, including some leaders of a certain level, so it was necessary to have a reception room.

After Xia ruofei looked around, he was led to the reception room by director Zhong for tea and rest.

Deputy Director Wei walked into the reception room and saw director Zhong in the general office chatting with Xia ruofei and the other two.

Director Zhong quickly stood up when he saw the leader.

“You’ve worked hard, director Zhong,” said Deputy Director Wei. I’ll receive President Xia and the others! You can go back to your work. ”

“Okay, okay, director Wei!” Director Zhong said quickly, and then said to Xia ruofei, “Mr. Xia, I’ll take my leave first!”

“Sorry to trouble you, director Zhong!” Xia ruofei smiled and nodded.

“You’re too polite! You’re too polite!” Director Zhong said.

After director Zhong left, Deputy Director Wei said with a smile, “President Xia, look what I brought you.”

Xia ruofei and the other two had already noticed the lunchbox in Deputy Director Wei's hands. Ling Qingxue could not help but ask,""Director Wei, could this be the food your daughter made for RUO Fei?"

"To be exact, it was done by President Xia's fans in new Wu city," Deputy Director Wei said with a smile."Of course, my daughter also contributed."

Then, Deputy Chief Wei explained,""After CEO Xia posted that Weibo, some of his fans in new Wu city prepared this love bento. They're even waiting at the entrance of our park now! Snowy knows that President Xia is visiting our unit, so she begged me to bring her fans 'wishes to you ... Haha! I'm taking advantage of my position to settle some personal matters!"

Xia ruofei was also surprised. He said,""The fans have all gathered at the entrance of the park? I only posted that on Weibo two hours ago! They moved so quickly? And ... He even prepared a lunchbox!"

"New Wu city is relatively small ..." Deputy Director Wei laughed and said,"but this group of children is not bad. They just stood quietly under the shade of the tree across the road. They did not make any noise or try to sneak in. Speaking of which ... The overall quality of President Xia's fans is quite high!"

Xia ruofei smiled and scratched his head."Actually, I'm not a celebrity at all ..."

"Why aren't you a celebrity? I think you're much better than those young hunks!" Ling Qingxue was the first to retort.

"Miss Ling is right!" Deputy Director Wei immediately expressed his support."Nowadays, some young male idols have no works and no acting skills. They rely on creating scandals, buying fans, buying Hot Searches, and then mingling in some variety shows. In comparison, an inspirational idol like President Xia should be more sought after!"

Xia ruofei was a little embarrassed by Deputy Director Wei's praise. He even suspected that Deputy Director Wei had been brainwashed by his daughter ...

Deputy Director Wei said,"director Xia, how do you think we should deal with this kindness?" I've told them that I'm only responsible for passing it to them. As for whether you accept it or eat it, I'm not responsible for it, haha ..."

"Of course I can't reject the kind intentions of the fans!" Ling Qingxue immediately decided on Xia ruofei's behalf."Director Wei, I'll accept it on behalf of Xia ruofei!" We'll make sure he eats all the lunchboxes made by the fans, not leaving a single one behind!"

...

## Chapter 3178 The arrangement (1)

Xia ruofei didn't know whether to laugh or cry as he watched Ling Qingxue receive the lunchbox in her hands. He said,""It's been arranged just like that?"

"It's a request from a fan, so I have to make arrangements!" Ling Qingxue said with a smile.

Song Wei also chimed in,"not only do we have to make arrangements, we have to make sure everything is properly arranged!" When you're eating your lunchbox later, make sure you get into a good position! I'll take a few photos of you as a response to the fans!"

Deputy Director Wei could naturally tell that these two girls had a special relationship with Xia ruofei, so he laughed and entered his drama – watching mode.

Xia ruofei accepted her advice. He did not mind not eating for a few days, and it was easy for him to eat more. Besides, the bento box was not a lot, and he could not let down the fans' kind intentions.

"Then I'll eat it?" he said with a smile.

"Eat! You're not allowed to leave anything behind!" Ling Qingxue pretended to be serious as she shoved the lunchbox into Xia ruofei's hands.

There was a coffee table next to each sofa in the reception room, and the armrests of the sofas were very wide wooden armrests. There was no problem with a lunchbox.

After Xia ruofei sat down, he placed the lunchbox on the coffee table and opened it.

It had to be said that the fans had put in a lot of thought.

The lunchbox was divided into three layers. The first layer was the fragrant chicken soup. Judging from the fans' quick reaction time, the chicken soup was probably bought from outside and prepared at home before being brought over. It couldn't have been so fast.

The second floor was divided into three compartments, and they were all filled with "hard dishes". Braised prawns, ribs in sauce, and braised beef shank filled the entire floor.

The third layer was filled with steaming hot rice, and the fans even carefully arranged peas and carrots in a heart shape in the middle.

In addition, there was also a set of exquisite stainless steel tableware, chopsticks, and spoons. In addition, the fans had also put a few disposable gloves. It could be said that they were well prepared and the details were very thoughtful.

Xia ruofei picked up his chopsticks and was about to start eating when Song Wei called out, "Wait, it's such a beautiful lunchbox. Let me take a picture first!"

Ling Qingxue also said, "give that heart a big close – up!" How loving ..."

Xia ruofei didn't know whether to laugh or cry. He moved aside and allowed Song Wei to take a few photos of the opened lunchbox. Then, he asked, "Can I start now?"

Song Wei held her phone in her hand and laughed, "Of course, please start your performance!"

It was the first time Xia ruofei ate in front of so many people, especially Song Wei and Ling Qingxue, who were ready to take photos with their phones. He felt weird.

Deputy Director Wei also found it funny. He noticed Xia ruofei's unnaturalness and quickly said, "President Xia, I suddenly remembered that I have something to do. I'll be back soon!"

Originally, Xia ruofei felt that it would be more awkward with Deputy Director Wei around, so he immediately said, "Director Wei, if you have something to do, then go ahead! We'll rest here for a while and not run around!"

“Hehe! “You’re being too serious, too serious ...” Deputy Director Wei said.”President Xia, you can visit anywhere you want.”

Even though the Supercomputing Center was a secret unit, the number of visitors it received every year was still quite considerable. Plus, Xia ruofei was brought in by academician Wang, so what was wrong with looking around?

If it was really a particularly core place, such as the supercomputer room they had just seen, it would have strict security. Ordinary people could not even enter the door without the company of internal staff.

Therefore, Deputy Director Wei was not worried that Xia ruofei and the others would run around. He just wanted to resolve Xia ruofei’s awkwardness, so he had to leave at the last minute. He just wanted to find an office to smoke a cigarette and have some tea.

After Deputy Director Wei left, Xia ruofei really let go of his worries. He grabbed his chopsticks and started to Eat the Love – filled lunchbox, allowing Song Wei and Ling Qingxue to take all sorts of pictures.

In a short while, Xia ruofei had finished the entire bento like a tornado sweeping away the clouds. He even finished the chicken soup.

Song Wei even took a few more photos of the empty lunchbox. Xia ruofei could not help but say,””Wei Wei, your skills are more than enough to be a celebrity’s personal assistant!”

In recent years, after the rise of personal social media, many celebrities would often post some more down – to – Earth photos on their social accounts. The most common ones were various airport photos.

However, the so – called snapshot was probably still carefully planned, and it was all to serve the celebrity’s character.

Otherwise, how could they have taken photos of her with exquisite makeup and even professional light?

“Celebrities can’t afford to hire a personal assistant like me. So, you should be happy that I can serve you!” Song Wei laughed.

“That’s right, that’s right!” Xia ruofei smiled apologetically.”This is a blessing that I have accumulated in my previous life!”

“At least you know how to talk!” Song Wei said with a smile.

Then, Song Wei and Ling Qingxue got together to look at the photos they had just taken. They deleted some of the photos that were not taken well, picked some out, and began to edit the photos on their phones.

“What are you guys doing?” Xia ruofei asked, not knowing whether to laugh or cry.

Song Wei replied without even raising her head,”we have to provide a full set of services!” The so – called photos of celebrities are all carefully selected from hundreds of photos. I’m just using my phone to edit them a little so that you can post them on Weibo directly!”

## Chapter 3179 The arrangement (2)

Xia ruofei nodded helplessly and said, "Fine! You guys go ahead! I'll go wash the lunchbox ..."

Song Wei and Ling Qingxue nodded without even lifting their heads.

Xia ruofei tidied up the lunchbox and utensils, picked them up, and left the lounge.

As soon as he went out, he saw Deputy Director Wei smoking at the window not far away.

Deputy Director Wei did not expect Xia ruofei to come out so quickly. He quickly snuffed out the cigarette in his hand and laughed dryly. "President Xia, are you done eating? I've just finished my business, so I'm thinking of smoking first. After all, there are ladies in the reception room, and it's not good to smoke ..."

Xia ruofei nodded. "There are more and more places to ban smoking these days. It's indeed a little difficult for smokers. However, this is the general trend of civilized society!"

"That's right, that's right!" Deputy Director Wei said, "it's better not to smoke if possible! Health is the most important thing!"

Xia ruofei nodded in agreement and took out a cigarette. "I saw that director Wei pinched himself after taking a few puffs. Do you want to try mine?"

Harm to health was only for ordinary people. Could a few cigarettes of an Arous core stage cultivator harm his health? It didn't exist!

Deputy Director Wei almost fell to the ground. He spoke in a righteous tone. President Xia was a kindred spirit!

However, Deputy Director Wei's attention was quickly drawn to Xia ruofei's cigarette box. The box was pure white without any logo. As an experienced smoker, he had never seen such a packaging.

Of course, he also knew about the legend of the cigarettes that were stored inside the box, but he was not sure.

Even if Xia ruofei was brought here by academician Wang, the possibility of getting that kind of cigarette was not high, right? Even academician Wang himself couldn't smoke this cigarette whenever he wanted to.

Xia ruofei was still holding the lunchbox in one hand. He shook his hand gently and skillfully shook half of a cigarette out of the box. Then, he extended it to Deputy Director Wei and smiled. "Director Wei, come!"

"Try it?" Deputy Director Wei looked at Xia ruofei.

"Try it!"

"Then I'll broaden my horizons ..." Deputy Director Wei laughed as he took out the half – exposed cigarette from the cigarette box.

He took a closer look. The filter of this cigarette was obviously longer than that of ordinary cigarettes. There was a beautifully printed panda logo at the bottom of the filter, which further confirmed his guess.

Xia ruofei shook his hand again and put the box of cigarettes to his mouth, taking a cigarette.

Deputy Director Wei quickly took out a lighter and the two of them lit their cigarettes together. Their movements were very skilled.

After taking a deep breath, Deputy Director Wei closed his eyes to feel the smoke passing through his lungs. Then he opened his eyes and said, "President Xia, this cigarette is indeed different. It's especially fragrant, even more so than soft Chunghwa! It's just a little weak."

Xia ruofei stuffed the box of cigarettes into his pocket and skillfully held the cigarette between his index and middle fingers. As he exhaled the smoke, he smiled and said, "Yup! The original intention of the design of this cigarette was to reduce the damage to health as much as possible! Naturally, there must be a trade – off."

There were always leaders who couldn't quit smoking, especially in the early years. There were even more leaders who smoked. This internal supply of cigarettes itself was the product of choosing the lesser of two evils.

Deputy Director Wei was even more certain of his judgment. However, since Xia ruofei did not say it clearly, he naturally would not stupidly ask. The two of them chatted idly.

Of course, he also had a little respect for Xia ruofei.

The internal supply of cigarettes had a long filter, so it was finished in a few puffs. Xia ruofei extinguished the cigarette in the trash can by the window, then stuffed the remaining 10 internal supply Panda cigarettes into Deputy Director Wei's hands.

"Director Wei, I don't usually smoke, so I'll give you this half a pack of cigarettes," he said with a smile.

Deputy Director Wei quickly pushed him away and said, "How can I accept this! It's not easy to get this cigarette, President Xia, you should keep it for yourself!"

Deputy Director Wei felt that even if Xia ruofei could get the internal supply of cigarettes, he would most likely get it from the elders in his family. There would definitely not be a lot. If he had such an internal cigarette, he would definitely not be willing to take it out to smoke. He would most likely show it off when there were many people.

Xia ruofei smiled and said, "I still have some of these cigarettes. There aren't many here. Just take it as a small gift from me to director Wei." I still have something I need your help with!"

"President Xia, you can just tell me what you need. You don't have to give me such a precious gift ..."  
Deputy Director Wei said.

"This cigarette isn't that precious." Xia ruofei immediately interrupted Deputy Director Wei. "If you don't accept it, I'll be too embarrassed to trouble you."

When Deputy Director Wei heard this, he could only put away his cigarette uneasily and said, ""Thank you, director Xia ... If there's anything I can help you with, just let me know!"

Xia ruofei smiled and waved the lunchbox in his hand. ""The first thing is that I'd like to trouble director Wei to point me in the right direction. Where is the tap? I want to wash the lunchbox ..."

Deputy Director Wei couldn't help but be stunned. How could this be called a problem?

However, he quickly reacted and said, ""President Xia, I'll just get someone to wash it. You don't have to do it yourself! This isn't how you treat your guests!"

Before Xia ruofei could decline, Deputy Director Wei shouted from the corridor, ""Little Xu! Xiao Xu!"

"They're coming!" In an office not far away, a young man heard his leader's call and quickly jogged to Deputy Director Wei. He was slightly out of breath as he asked, "director, what can I do for you?"

"Sorry to trouble you, but please help President Xia wash the lunchbox!" Deputy Director Wei said.

"Director Wei, I can ..." Xia ruofei smiled bitterly.

Before he could finish, Xiao Xu had already snatched the lunchbox from Xia ruofei's hands and said, ""President Xia, leave this small matter to me. Please wait a moment!"

Then, without waiting for Xia ruofei to decline, she ran off with the lunchbox.

"Clean it up!" Deputy Chief Wei was still urging him loudly.

"Don't worry!" When Xiao Xu said this, they had already reached the washroom at the end of the corridor. There was a faucet and a sink outside the washroom.

Deputy Director Wei smiled at Xia ruofei and said, ""President Xia, you asked for my help, could it be this? This is a bit ..."

"There's one more thing!" Xia ruofei laughed.

Deputy Chief Wei immediately heaved a sigh of relief and quickly said, "What are your orders?"

"I can't call it an order!" Xia ruofei said, "I just want to ask director Wei to accompany me on a trip. The security here is tight, and I'm afraid that I won't be able to come back ..."

Then, Xia ruofei explained, "didn't you say that the children who sent the lunchboxes were at the entrance of the park?" I want to go see them and return the lunchbox. You can't just accept the lunchbox after you've eaten it, right?"

Deputy Director Wei chuckled and said, "if President Xia accepted the lunchbox, the fans would be even happier!" But it's not a problem if you want to go out, I'll go with you!"

Deputy Director Wei also wanted to check if his daughter would not listen to him and secretly go to the entrance of the park.

Wei Xue was usually well – behaved, but if it was related to Xia ruofei, that might not be the case.

At the very least, Deputy Director Wei did not have much confidence.

After Deputy Director Wei finished speaking, he thought of something else and quickly said, "President Xia, when I took the lunchbox just now, I told the children that you won't be leaving the supercomputer Center for the whole night. I advised them to go home early and not wait there. I don't know if they've already left ..."

...

Xia ruofei smiled and said, "let's go and take a look!" Forget it. By the way, director Wei, isn't your daughter with the other children? If you can't find her later, I'll have to trouble you to bring the lunchbox home and ask Wei Xue to help pass it to her!"

"No problem!" Deputy Director Wei said readily.

After a while, Xiao Xu, who had been arrested by Deputy Director Wei for work, returned with a lunchbox and said, "Director, President Xia, I'm done!"

"Are you clean?" Deputy Director Wei asked.

"Don't worry! I've washed it twice with detergent and rinsed it with clean water for a long time. It's definitely clean!" Xiao Xu said.

"Mm! You've worked hard, go and do your work!" Deputy Director Wei said in a friendly manner.

Xia ruofei took the lunchbox and said with a smile, "Thank you!"

"You're welcome! You're welcome!" Xiao Xu was flattered.

"Director Wei, please wait for a moment. I'll go and get my two friends!" Xia ruofei said to Deputy Director Wei.

"Good, good, good!"

Xia ruofei pushed the door open and entered the lounge. Song Wei and Ling Qingxue were still focused on editing the photos.

Xia ruofei smiled and said, "I'm going to meet my fans at the entrance and return the lunchboxes to them." You guys come with me!"

Song Wei and Ling Qingxue raised their heads and were both stunned.

"I won't be joining in the fun," Ling Qingxue quickly said.

"Ruofei, you can leave by yourself!" Song Wei said. Qingxue and I are retouching your pictures!"

Xia ruofei was stunned at first, but he immediately understood what the two were thinking.

Ling Qingxue was Xia ruofei's public girlfriend, and the couple was very popular on the internet. Xia ruofei's fans all knew Ling Qingxue.

If Ling Qingxue and Song Wei accompanied Xia ruofei out, Song Wei would be in an awkward position and she would inevitably feel a sense of loss.

In fact, Song Wei would never appear with Xia ruofei at a fan meeting.

It would be even more inappropriate if Ling Qingxue accompanied Xia ruofei and left Song Wei at the Supercomputing Center.

Therefore, Ling Qingxue quickly decided not to meet Xia ruofei's fans and to stay with Song Wei.

Xia ruofei couldn't help but look at Ling Qingxue deeply. This girl was usually a little boisterous, but she was actually very careful. Now, she was especially concerned about Song Wei's mood. This was definitely a good sign.

Of course, it was enough to know these things in his heart. It would be bad to say it out loud.

Hence, Xia ruofei was only slightly dazed before he smiled and said, "Alright! You guys can rest here, I'll be back soon!"

"I'm fine! Chat with your fans for a while more!" Ling Qingxue replied, "we don't mind! Right, Wei Wei?"

Song Wei was smart. How could she not understand the reason why Ling Qingxue chose to stay? Her heart was as clear as a mirror, and because of this, she felt closer to Ling Qingxue.

So, Song Wei smiled and said, "Yeah! As long as you can get back before 10 pm, don't delay the important matters!"

Xia ruofei didn't know whether to laugh or cry as he said, "how can it take so long ... Alright, you two continue editing the picture!" I'm leaving!"

"Take care!"

"I won't send you off!"

The two of them lowered their heads to look at the photos on their phones and completely ignored Xia ruofei.

Xia ruofei smiled bitterly and shook his head. He took the lunchbox and walked out of the lounge.

Deputy Director Wei came forward and asked curiously, "Eh? President Xia, your friend isn't going?"

"They're a little tired, so let them rest in the lounge!" Xia ruofei said with a smile.

"Tired? I'll get two rooms in the guest house, so you can lie down and sleep for a while!" Deputy Director Wei said, "you can only sit in this reception room. You won't be able to rest well."

Xia ruofei quickly said, "no, no, no... They can just sit for a while!" Director Wei, let's go out!"

"Alright then!" Deputy Director Wei said, "director Xia, I've already called a car. It's just downstairs."

"It's only a few steps from the entrance ..." Xia ruofei said. "We can walk there."

"It's not close! And the sun is very poisonous. It's not good for such a handsome young man like President Xia to get sunburnt. " Deputy Chief Wei jokingly said, "besides, the car has already been called. Let's just take the car!"

"Alright then, I'll listen to you!" Xia ruofei said readily.

The two of them went downstairs together. A Buick junyue from the Supercomputing Center was already parked downstairs. Seeing Deputy Director Wei, the driver immediately got out of the car and jogged to open the door of the back seat.

Deputy Director Wei and Xia ruofei gave way to each other and got into the car one after another.

“Director Wei, where are we going?” the driver asked.

“It’s at the entrance of the park. Drive slowly!” Said Deputy Director Wei.

The driver was stunned for a moment, but he immediately replied, “”Alright!”

Two minutes later, the car drove out of the gate of the park.

Deputy Director Wei saw the group of fans still gathered in the shade of the tree across the road and felt a little relieved. If the fans had left, Xia ruofei would feel a little embarrassed.

Moreover, if the fans left, it meant that they had listened to his advice. Who knew if Xia ruofei would bear a grudge against them?

Fortunately, the loyalty of these fans was much higher than he had imagined.

Deputy Director Wei pointed at the group of fans across the road and said, “”Just drive over to the crowd and Park!”

The driver naturally didn’t ask much. He nodded and said, “Understood!”

The black Buick junyue slowly stopped by the roadside.

This group of fans had already seen the car drive out of the park. When they saw the car actually stop beside them, everyone couldn’t help but wonder if it was here to drive people away. We’re already very far away, and this isn’t even within the park’s range!
